Cholera's Onward March.

The Standard's Vienna correspondent says cholera is slowly but steadily spreading in the great centers of population in Galicia and Hungary, where it is difficult to eradicate.

Marseilles, Aug. 26.—The steamship Gergovia arrived from Jeddah today. The captain said that many pilgrims from Mecca took the Gergovia for ports between Jeddah and Marseilles. Twenty of them

died of cholera and were buried at sea. The crews of the French steamships Piave, Languedoc, Auvergne and of the ship Piave, were stricken with cholera. The cholera, the captain said, prevailed in the harbor of Jeddah.

LONDON, Aug. 28.—The Vienna correspondent of the Standard says that only 45 districts of Hungary and 12 districts of Galicia are now infected with cholera.

ST. PETERSBURG, Aug. 27.—The progress of the cholera throughout Russia the past week shows 4,482 new cases and 1,782 deaths. There are known to have been nine cholera suspects in the city.

ROMA, Aug. 27.—There were three fresh cases of cholera in the town of Lodi yesterday. The lower part of the River Linge has been declared infected.

The Tariff a Tax.

BERLIN, Aug. 27.—At the beginning of the tariff war between Russia and Germany Berlin politicians made airy prophecies that German industries would hardly feel the change. Their idea of the situation has proved to be a miserable delusion. Without doubt Russia suffers more than does Germany from the break in their commercial relations, but the losses on this side of the Vistula are far from trivial. The loss of the entire export trade with Russia has been felt with unusual keenness on account of the general depression preceding it. Among those who complain most bitterly to the Government are the rubber exporters, the Thüringen porcelain manufacturers, the lamp makers, metal workers and chemical manufacturers in Leipzig and Berlin and the owners of the great leather industries in Offenbach. These men reproach the Government with having proceeded flippantly and recklessly in joining issue with this unfavorable time. Russia, they say, was their best customer, and their losses already will amount to several hundred thousand marks. The fact that the Russian orders once filled in Germany are placed now in England and Russia adds to their bitterness. Men while reports from St. Petersburg and Moscow show that industrial affairs in Russia are about as bad as they can be. Among the side issues of the tariff war is the noteworthy increase in smuggling. Although officials on both sides close an eye to this sort of thing, affairs between them and smugglers become daily more frequent. Some have resulted in death, many in severe injuries.

Naples Is Peaceful.

ROME, Aug. 27.—The riots during the past few days in Naples, which have generally been attributed to striking cab drivers, have ended in a deeper significance. The troubles had their origin in the anti-French agitation, following the Aigues-Mortes massacre of Italians by Frenchmen. The demonstrations at first were intended solely as expressions of indignation against the French. The cabmen took advantage of the excitement to strike for higher wages, and the rioting which then occurred had no connection with the Aigues-Mortes affair. The troubles on Thursday last were due entirely to the cabmen who had apparently concluded that their cause was a losing one, but in the creating of the disturbances they found allies in the poor of the city, who joined them in fighting the police. Passion and discontent arising from many causes found vent in rioting, and the police found themselves unable to cope with the mob, which threatened to take possession of the city. The police, it is charged, added to the seriousness of the situation by the brutality they displayed. Instead of facing the parading strikers and their supporters, it is said the police fired at children and attacked peaceful persons whom they found sitting outside the cafes. The troops who were dispatched to the city have quelled the rioting. The Chamber of Deputies and the councilors side with the people and protest against the conduct of the police. Signor Giolitti, Prime Minister and Minister of the Interior, has ordered that an inquiry be made into all the facts in connection with the disorders. He has also ordered that the director-general of public safety direct the police until the inquiry is ended. The city is now quiet. Tram cars, cabs and other vehicles are beginning to run as usual.

Alfred Doesn't Suit the Germans.

BERLIN, Aug. 28.—The succession of the Duke of Edinburgh to the rulership of the Duchies of Saxe-Coburg and Gotha dominates public interest in Germany, and widely divergent rumors in regard to the matter are everywhere circulated. Putting all these aside, there is no doubt that the English duke has surprised and disheartened the nation, though the fact is quickly accepted by the duchies concerned. It is probable that Emperor William would have preferred that Prince Alfred, the only son of the Duke of Edinburgh, should have succeeded Duke Ernst. Indeed, it is believed that his Majesty hastened to the dual castle of Reinhard with the hope that he might induce his uncle, the Duke of Edinburgh, to waive his claim to the duchies. Prince Alfred, however, should have succeeded Duke Ernst. His Majesty is reported to have told the Duke that under any circumstances a regency would be impossible, and that he must take the throne himself or abandon all connection with the duchies. Finding the Duke resolute in his determination to forego none of his rights, and also finding that the Duke's mother, Queen Victoria, was supporting him in his attitude, the Emperor put on the best face possible and acquiesced to the Duke's decision. He attended the ceremony of administering the oath of allegiance to the German constitution, being unwilling to again excite friction with the family of his mother, the Empress Frederick. The Emperor's sister, the Duchess of Saxe-Coburg, is the elder sister of the Duke of Edinburgh. All such danger is now allayed. The extreme press, Radical and Conservative alike, are indulging in Anglophobic criticism. They harp upon the expediency of admitting a relative of a foreign house to the secrets of the federation. Despite the absence of popular opposition, however, it is impossible to deny that there is an uneasy feeling, that everything may not pass off quietly and smoothly. The charges that will be made in the Ministry are likely to be the first brother of his. Nothing is yet publicly known as to the disposition of the late Duke's property. It has always been supposed that he was immensely wealthy. Certainly his estates were extensive enough. Apart from the palace, castles and shooting lodges owned by him in Germany, he was the proprietor of one of the sporting domains in Europe situated in the Austrian Tyrol. All these properties are entailed and pass to his successor.

Fourteen People Lose Their Lives in a Long Island Railway Disaster.

COLUMBUS, O., Aug. 27.—At 6 o'clock yesterday morning a Baltimore and Ohio freight train was derailed at Black Lick, just this side of Newark, while running at a high rate of speed. The engine and several cars were piled up in a huge mass of wreckage. Fireman Schenberger was terribly scalded and will die. A friend of his, Curley Mitchell, was crushed to death.

FIVE FATALITIES.

COLLISION ON THE HARLEM RAILWAY.

BREWSTER, N. Y., Aug. 27.—A head-on collision occurred yesterday afternoon about 1 o'clock between trains No. 13 and No. 20, passenger trains, between Lee Pond and Dykeman, on the Harlem road. Following are THE KILLED:

Wm. Elliott, engineer.

N. West, fireman, train 13.

D. Palmieri, engineer.

Samuel Gibney, fireman, train 20.

Miss Reed, of Brewster.

INJURED:

John Finnegan, baggage man; J. A. Banks, brakeman, train 20; Mrs. Nina Maher, of Brewster, and D. Hermance, of Poughkeepsie, all seriously. Several others were slightly injured and many badly shaken up.

Both engines were completely wrecked. The Pittsburgh express was crowded with passengers, mostly business men bound for fashionable resorts to pass Sunday with their families. The cause is said to have been disregard of signals.

FOURTEEN KILLED.

DISASTER ON THE LONG ISLAND ROAD.

LONG ISLAND CITY, Aug. 27.—An accident that cost the lives of fourteen people occurred shortly after midnight this morning in the village of Berlin, near Calvary Cemetery, in the town of Newton. The Long Island Railroad train that left Manhattan Beach at 11:15 o'clock was overtaken by the train that left Rockaway Beach fifteen minutes earlier. In the collision the two engines and one of the first three cars of the Manhattan Beach train were demolished and the middle of the cars was overturned. Hardly one of the scores of passengers aboard these three cars escaped unhurt. Following are the lists of dead and injured:

DEAD:

Col. E. A. Buck, 55 years, editor Spirit of the Times.

Oscar Dietzel, 40 years, 122 East One Hundred and Forty-second street.

Mrs. Maggie Dietzel, 29 years, wife of Oscar Dietzel.

Mrs. Bertha Weinstein, 34 East Fifty-eighth street.

James B. Thompson, 50 years, 102 West Sixty-fourth street, New York, head hurt; will recover.

August Jacobson, 423 Fourth avenue, New York, horribly hurt; will probably die.

Eugene Welas, 213 West Sixteenth street, New York, scalded.

Wm. Lynch, 985 Park avenue, New York, badly hurt, but will recover.

Frank Larkin, 33 years, No. 7 Ninth avenue, spine hurt.

James J. Brady, New York; William Livingston, Brooklyn; George Hansen, Long Island City; James Goughlin, Long Island City; Kate Durken, New York, injuries not believed to be serious.

AN APPALLING STATE OF AFFAIRS.

The accident happened at half an hour after midnight, and it was over an hour before any news of it reached any outside point. It came by a messenger who walked into Long Island City. The railroad company immediately dispatched a relief train with all the physicians obtainable. They found an appalling state of affairs. The Manhattan Beach train had been standing in the block to allow of another train getting at a safe distance. The Rockaway Beach train came dashing along behind, ran into the same block and crashed into the rear of the Manhattan Beach train. Both were crowded with excursionists and both were the last trains from their respective resorts. The five cars in the Manhattan Beach train were open cars. The Rockaway train plunged in and plowed its way completely through the two rear cars and partly wrecked the third. The Rockaway engine was wrecked. Its smokestack was carried away and its huge boiler resembled a pincushion from the timbers of the wrecked cars sticking into it. Upon these timbers were

HUMAN BEINGS IMPALED, some dead and others gasping their last. High upon the top lay the dead body of a man, as yet unidentified. Upon one of the timbers was impaled the body of Mrs. Oscar Dietzel; upon another was the body of Sidney Weinstein, a boy 13 years old. The dead and wounded were massed among the wreckage, besides upon and beyond the tracks. Everything was

SHOWERED WITH BLOOD

of the dead and wounded, and the cries of the latter rose high above the hissing of steam and the calls of the frantic train men. As fast as the wounded were taken from the wreck they were carried to the relief train and cared for. When all the wounded had been found, the relief train conveyed them to Long Island City, where they were taken to St. John's Hospital. Seven were taken to the hospital, of whom TWO DIED UPON THE WAY THERE.

Oscar Dietzel and Thomas Finn. The dead were taken by another special train and placed in Skeleton's morgue. An eye-witness of the accident says the Rockaway Beach train was going at top speed as if being the last train the engineer was trying to get home as quick as possible. The killing of Col. E. A. Buck, the editor of the Spirit of the Times, was

ESPECIALLY PATHETIC.

He was returning from the beach with his son and Dr. Knapp. The son was thrown, torn and bleeding, out on the embankment. Col. Buck was so badly hurt that he only gasped a few times and died, while Dr. Knapp was uninjured and did noble service in ministering to the sufferers. Young Mr. Buck lies in St. Joseph's Hospital, terribly hurt, and does not yet know of his father's death.

ANXIOUS SEEKERS.

All today both the morgue in Newton and the hospital in Long Island City have been besieged by anxious seekers for missing members of their families. The scenes were heart-rending, women weeping and men falling upon their knees to weep. At the scene of the accident wrecking trains and a big force of railroad employes have been working all day to obliterate the painful evidence of the disaster.

ANOTHER DEATH.

Mrs. Theodore Graeven, who was severely injured, died this afternoon, making the list of dead fifteen. All the bodies have been identified.

CLUBS VS. ROCKS.

A Short but Bloody Riot in Chicago.

Policemen and Parading Unemployed Come into Collision.

CHICAGO, Aug. 27.—A short but bloody riot occurred on Washington street in front of the city hall at 3 o'clock yesterday afternoon. Police officers and parading unemployed men came into collision and rocks were used with serious effect.

The injured were: Policemen—Inspector Alex. Ross, severely on the head and back; John Kelly, on the head; James Swift, cut on forehead, left hip badly bruised; Patrolman James Larkin, battered on the head from a blow with a club; Rieters—Michael Horvitz and John Winkler, both cut on head.

At 2 o'clock in the afternoon hundreds of unemployed men gathered at the lake front to listen to addresses relative to the labor situation. At the close of the speech-making they formed for a parade preceded by a brass band, and marched down Washington street to Michigan avenue. They were formed in platoons reaching across the street from curb to curb. This style of marching completely stopped the progress of street cars and vehicles, and at the corner of Washington and Clark streets the leaders ordered the men to march by fours. In the confusion of forming there was a general mix-up. The result was a halt, which further complicated matters. A United States marshal, who was on duty at the corner of Washington and State streets, the driver was anxious to reach a railroad train, and Inspector Ross, calling a couple of policemen to him, ordered them to clear a passageway for it. This was done amid angry shouts and threats from the crowd.

Near the sidewalk stood the buggy of J. H. Martindale, who had driven as close to the curb as possible in order to allow the parade to pass him. The marchers had spread out again and were filling the street from curb to curb. The crowd directed Martindale to get out of the way, to which he replied: "I only wish I could." In an instant the crowd seized the buggy and threw it upon the sidewalk with a crash.

Inspector Ross, followed by his three men, rushed into the crowd and ordered it back. Horvitz picked up and hurled a piece of paving stone at Ross, striking him on the head and telling him like a log. The mob made a rush for the officers and the fight began.

Ross, who is a powerful man, regained his footing and knocked down several men in quick succession, and his son stood by him pluckily. The crowd was two strong for them, however, and when Sergeant Swift went down with a broken head Inspector Ross drew his revolver, and by threatening the crowd managed to hold them at bay for an instant.

Inspector Shea hurried from the city hall at the head of a dozen men and charged upon the crowd, and Chief of Police Brennan came running from his office and began operations by knocking down two men. A few minutes later Inspector Lewis came from the West Side, at the head of 70 men, and dispersed the crowd.

IF YOU GO ON THE MEND.

If your chin gets broken by thunder, lightning, fire, war or any of the elements which are going round breaking things up in general, take it along to Ives's, the old curiosity shop. You all know him; if you don't, you ought to. A. Ives, general repairer, 308 Dundas street.

Very Suitable.

If you have a nice etching and want to get it nicely framed, you can get a nice white and silver, white and gold, or ivory frame put on it at a very low price by taking it to E. N. Hunt's, 180 Dundas street. To every cash purchaser of \$1 worth or more of goods Ives presents a prize.

THE BIG SHOW.

Marked Improvement in the Financial Outlook.

Many Cases of "Lost" in Jackson Park—Some of the Canadian Prize-Takers.

CHICAGO, Aug. 26.—Paid admissions to the World's Fair yesterday, 140,000.

CHICAGO, Aug. 27.—The financial matters of the exposition are looking better. Vice-President Peck, chairman of the finance committee, says that there will soon be no floating debt. The entire amount due contractors is now something less than \$500,000, and a few days as Friday will wipe that out. It is said that if the general prediction of increased attendance from now on is realized the fair will close an unprecedented success in every way as well as financially. The finance committee is so well pleased with the general showing made by Auditor Ackerman yesterday that it is considering the advisability of recommending the payment of a third installment of 10 or 20 per cent. on debenture bonds.

LOST AT THE FAIR.

There were more persons lost in the fair grounds Thursday than were ever previously reported. As many old people as children were lost, the ages beginning at 23 years and running up to 84 years. Twenty-six cases were on record by 10 o'clock at night, some of them being pitiful.

One young woman with her baby in her arms became separated from her husband in the afternoon. She had only arrived from Indianapolis the night before, and had taken no note of the hotel where she stopped with her husband. She had no money, so the tender-hearted officer of the day found lodging for her in the children's building for the night.

"By strange oversight there has been no provision made for keeping lost people on the grounds over night," he said. "People are brought in penniless and perfect strangers. The other night an old lady had to give me the use of the sleeping-room of the officer in charge. It is against the rules of the children's building to keep anybody over night, but for the sake of the baby the young woman was taken in."

Every day of the fair brings us a number of lost people.

A Child Badly Bitten by a Savage Dog.

Persistent Attempts of a Sandwich Citizen to Commit Suicide—Marrying Under Difficulty.

BRUCE.

At Paisley the other day, as Mrs. Wm. Ansdad's little girl was playing about in the yard, a neighbor's dog rushed up and made a savage attack on her. The child's arm was so badly bitten as to require several stitches to be put in by Dr. Black. The ferocious canine was shot.

ELGIN.

Saturday afternoon Harry, son of Joseph Young, lumberman street, St. Thomas, aged about 6 years, was riding on a wagon, when he fell off. The wheel passed over him, breaking one leg in two places and dislocating a finger in three places.

Foras Croon, of Elgin, has threshed his wheat, and the yield is 25 bushels to the acre. Colin Munro, of Southwold, has also threshed, and his wheat turned out 26 bushels to the acre.

ESSEX.

Mac Askin, of Sandwich, jumped into the Sandwich Canal on Saturday and was fished out. He then lay down in front of an electric car, but his desire to die has not as yet been gratified.

A Canning, a teamster employed in Wheatley, had his right leg so badly that amputation had to be resorted to.

The Young Liberals of Leamington are making extensive arrangements to receive Hon. Wilfrid Laurier on his visit there on Sept. 12. The celebration will take in Essex and Kent, and it is probable Mr. Laurier will be accompanied by Sir R. J. Cartwright.

Seventeen years ago John Macdonald, of Leamington, lent a man named A. S. McDonald \$5. Wednesday he was agreeably surprised to receive from Macdonald a check for \$10.

Young Wheeler, the man with detective ambitions, who obtained \$3 from Joseph Maisonneville by threats, pleaded guilty in the Windsor Police Court. Magistrate Bartlett said the hotel men were not to be blamed for setting a trap for him. He was given three weeks in the Sandwich Jail.

Mrs. Plant, charged with assaulting the wife of Rev. J. L. Ryckman, of Windsor, has been discharged.

The Postoffice Department has decided to process a postoffice at Paquette, on the Michigan Central Railway.

HURON.

Kincardine high school will cost the town this year \$4,463, and the public school \$4,037.

A terrific explosion in Petrolia last week was caused by an escape of crude oil in a still at the Consumers' oil refinery and the consequent pressure of gas. Aaron Stevens, stillman, was burned on the hands and wrists.

The Petrolia postoffice will be opened in about two months.

Five brand new weddings are on the tapis in Petrolia. Four out of the five brides will be permanent residents of Petrolia, one leaves for a foreign shore, while Petrolia gains a fair bride from a distant town.

MIDDLESEX.

The other day while wedding with a comrade Joseph Bishop, the son of the proprietor of the Queen's Hotel, Strathroy, had his shoulder blade broken. At the time of the mishap Joe was visiting his uncle, Thomas Wark, of Carleton Place, and was not aware that the bride was his wife.

The bride was a Baptist, and her choice of a clergyman was Rev. Mr. Dudson, but he was away in Muskoka. There was a Rev. Mr. Tapscott, but he was likewise out of town. The lovers finally decided to have a Presbyterian minister, but the learned D. D. was out of town. The bride made another choice—the Methodist—but they were both at the World's Fair.

Mr. McGregor, of the Congregational Church, was home, but the young couple were not aware of the fact, and becoming naturally anxious about completing the arrangements on time, sent to Burgessville, where Rev. Mr. Harryett was interviewed. Another couple were in a similar quandary the other night, but finally called upon Rev. Mr. Lund, who has been ill and is scarcely able to write his name, to officiate.

PERTH.

Wm. McAlpine, of Glenora, formerly of Mitchell, was united by marriage with Miss Fanny, daughter of Charles Brooks, at Mitchell Wednesday. Wm. Fifth, of London, and Miss McAlpine, of Mitchell, were assistants, and Rev. Dr. Cornish performed the ceremony. On the same day Dr. Cornish married John Scott, of Toronto, and Miss Katie Buck as man and wife.

At the last meeting of the quarterly board of the Methodist Church, St. Marys, Rev. Dr. Williams, of Mount Forest, was invited to become the pastor of St. Marys church at the termination of the present conference year.

There are now fourteen patients in the Stratford hospital, of whom seven are ill with the intercurrent typhoid cases originated in the city; the other three elsewhere.

Thursday a fire broke out in the blacksmith shop of James Davidson, of Avonon, and the building was burned to the ground. Mr. Davidson was in the barn of a neighbor when the fire started, and while hastily getting down slipped and fell several feet, sustaining severe injuries.

A Ten Dollar Gold Piece for a Cent. Some time ago a gentleman bet that if he stood at the corner of Broadway and Fourteenth street, New York, and offered gold Eagles to the passer-by for a cent each, he would find a purchaser. The experiment was tried, and it turned out just as he said. No one would believe that the coins were genuine. It seemed too good to be true. An equally remarkable offer is that made by the proprietors of Dr. Pierce's Golden Medical Discovery, the sovereign cure for Consumption. Think of it! restoration to life and health for a mere song. There is not a case of Lung-soreness—in other words, Consumption—that will not yield to it, if taken in time. It is the greatest blood purifier ever known, and is guaranteed to benefit or cure in all diseases of the throat and lungs, or money refunded. Only extraordinary curative properties could warrant or sustain its makers in selling it thus, on trial!

"Poor Jackson suffers like time from insomnia. He can't sleep. He doesn't eat. He's all tongue and no meat." "How's that?" "If he'd talk to himself the way he does to me he'd go to sleep in a minute."

PATRONS OF INDUSTRY.

Prince Edward Members of the Order Decide to Nominate Candidates for Both Houses.

PICTON, Ont., Aug. 27.—A very large and enthusiastic gathering of the Patrons of Industry for the county of Prince Edward met in the Opera House here yesterday, and unanimously passed resolutions condemning party strife, class legislation, and unfair discrimination against the agricultural and laboring classes of the Dominion.

The convention unanimously decided to put candidates in the field to contest the county in their interest at the approaching Provincial and Dominion elections, the selection of candidates to take place on the 10th of September, at a convention of delegates to be appointed by the local associations of the county for that purpose. The meeting included leading men of both old political parties, and was very enthusiastic.

LITERALLY A VICTIM OF THE BOTTLE.

A Montreal Man Cuts His Throat With a Piece of Glass. MONTREAL, Aug. 27.—Orest McDonald, a well-known feed dealer in this city, committed suicide by cutting his throat with a piece of glass from a broken bottle yesterday. He was suffering from delirium tremens. He left a widow and one child. McDonald was in good circumstances, but had been drinking heavily lately.

EXIT THE "CLICK."

The Boston Globe's "Audison" Insures Both Secrecy and Comfort.

BOSTON, Aug. 27.—The Boston Globe has introduced in its telegraph room an ingenious device, which has been christened "Audison," the result of which is to do away with the annoying click of the sounders and secure secrecy of messages.

It consists of a miniature telegraph apparatus, enclosed in a rubber ear-piece, the whole fitted tightly to the ear of the operator, so that no one but he can hear its low yet clear click.

New York's Local Option Law Valid. BUFFALO, Aug. 27.—Justice Ward, of the Supreme Court, has decided that the Local Option Law of 1892 is valid. The case concerned the decision of the county commissioners and the court sustained the commissioners.

Catholic Foresters at Church. MONTREAL, Aug. 27.—The Catholic Order of Foresters held their annual church parade to-day. There were 28 courts of 100 members each in the parade. The Foresters, with several bands, proceeded to the Jesuit Church, where an eloquent sermon was preached by Father Le Pelletier, chief ranger of Maisonneuve Court.

Pool-Sellers Sent to Jail. SPRINGFIELD, Mass., Aug. 27.—Frank L. Herdic, of Williamport, Pa., Edwin Morse and James Clancy, of Boston, and Charles E. Clancy, of Syracuse, N. Y., the pool sellers at the circuit races who were arrested, were fined \$1,000 and sentenced to three months each in jail for violating the State law with regard to pool-selling.

Deaths From Eating Crabs. NEW YORK, Aug. 27.—The Greenview section of Jersey City was thrown into a state of excitement yesterday by the announcement that two more deaths had resulted from eating crabs taken at Newark. A third person, a woman, is at the point of death. The cases are now being investigated by the health authorities.

Among the pains and aches caused with marvelous rapidity with Dr. Thomas' Electric Oil is its ease. The young are especially subject to it, and the desirability of this oil as a family remedy is enhanced by the fact that it is admirably adapted for use in the case of infants.

Only the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are especially subject.

We could adduce a hundred illustrations to prove the advantages of shortness and the saving of time thereby effected. Only think, gentlemen, it took Goethe 40 years to write his "Faust!" How many years he might have saved if he had known shortness!

Dyspepsia Cured. Gentlemen,—I was troubled with dyspepsia for about four years. I noticed an advertisement of Dr. Thomas' Electric Oil in a newspaper, and I bought a bottle and used it and soon found that there was nothing to equal it. It took just three bottles to effect a permanent cure.

DEAR J. REID, Whittles, Ont. "Take that back," said the insulted man. "No, sir," replied the other; "I never took water in my life." "You can't tell me that," returned the first speaker; "I know better. I used to supply you with milk."

—PRINCE BISMARCK.

London, Monday, August 28.

—Mr. Laurier speaks at Leamington,
Essex county, Tuesday, Sept. 12.—Hon. David Mills will deliver an ad-
dress at Thamesville, on Tuesday next,
29th inst.—According to the Welland Tribune,
the Robert Misner farm, 140 acres of good
land, with buildings thereon, was offered
under the hammer the other day and failed
to call forth a single bidder. Before the
good old N. P. came into force a good
round sum was refused for the farm; now
it begs in vain for a bidder.—The Hamilton Times, speaking of the
oppressively extravagant over-government
of the little one-horse principality of Sax-
Coburg-Gotha, inquires whether Paine was
so far wrong when he asserted that heredi-
tary monarchy was a crime against
humanity? Another clever man put it this
way—that a royal family is an insult to
every other family.—The Marquis of Lorne wants to run for
Parliament for South Manchester, but the
Queen rather objects. On the whole, the
poor Marquis has taken little by his motion
in marrying a Princess. At all ceremonious
banquets he is not even allowed to sit by
the side of his wife, who outranks him.
And now his royal mother-in-law flouts his
Parliamentary aspirations!—Says a Montreal exchange: "We feel
that the Liberals put too much value on
the American market, and far too little on
the British." What need to worry about
the British market? The British market is
open to the world, and therefore to us. We
also want the American market. To desire
to trade freely with the largest English-
speaking country in the world—a country
geographically and in every other respect a
counterpart of Canada—does not imply
that we do not also desire to trade freely
with the second largest English-speaking
country. Canada wants all the freedom of
trading she can get.—Harper's Weekly, after complacently
reminiscing that under the findings of the
Bering Sea arbitration "the Canadian
sealers will find their occupation gone,"
concludes an editorial as follows: "Be-
yond and above all the advantages or dis-
advantages that either party may enjoy or
suffer, the world is a gainer by the mere
fact that such an arbitration was had and a
result reached that both sides cheerfully
accept. When two of the leading powers
of the world concede that there is a better
way out of international disputes than
war, the immediate benefit to each is of
small importance when compared with the
great stride that the human race has taken
on the blessed path of peace."—Our excellent Conservative contem-
porary the Montreal Star objects to Liberal
speech-making at present. "I would be
better, according to the lights of the Star,
to wait till the Ottawa Ministers have out-
lined their position. Why should the
Liberals wait? They met quite recently
at a representative convention and decided
on their platform, and the Liberal
leaders are simply expounding and en-
forcing that platform before the general
electorate. Would it be wise on their part
to postpone their speaking until the pos-
sibly sudden springing of a general election,
in the hurry-burly of which dispassionate
argument is usually little heeded? Not
much. The time to sow the good seed of
the kingdom is now."—With a considerable number of people
out of work in the United States, public
sentiment is turning against the further
allowance of indiscriminate immigration.
The sanitary regulations for keeping out
the cholera are wide and stringent. It
seems probable, judging from the following
in the New York Times, that these regu-
lations may be invoked to good purpose:
"We are confident that no considerable
number of persons in this country will
complain if the sanitary laws shall be so
severely enforced—within the possible
limits of the statutes—that immigration

from continental ports will be practically
suspended for the remainder of the year,
and if effective warning shall be given by
authority at other European ports that
for the present persons intending to emi-
grate will best serve their own interests by
remaining at home."

—At the Liberal mass meeting the other
night at St. John, N. B., Premier Fielding
quoted Sir John Thompson's remarks that
the heaviest duties were paid on the
luxuries used by the rich people, such as
jewelry, wines, silks, cigars, tobaccos, etc.,
and said such remarks were burlesque.
The speaker then treated the audience to
an object lesson to show the absurdity of
Premier Thompson's assertions. He opened
a parcel of drygoods and held up a piece of
union carpet, costing in England 38 cents,
on which the duty was 33 per cent; fol-
lowing it up with pieces of different Eng-
lish clothes used by the poorer classes, on
which the duty ranged from 35 to 85 per
cent, and also pieces of finer cloths used
by rich people, on which the duty was
only 20 per cent. All of the above goods
under the Mackenzie regime had only 17½
per cent duty. He traced \$100 worth of
goods from the time it left England until it
went into the hands of consumers, showing
that under 17½ per cent duty it would
cost \$180, while under the present duty the
same goods would be \$250.

SCIENTIFIC TEMPERANCE TEACH-
ING IN SCHOOLS.

So much has been said on the subject of
scientific temperance teaching in schools,
with not a little adverse criticism thrown
in respecting methods and matter, that it
is perhaps only fair to the Minister of
Education to outline the main features of
his address on the subject, delivered at the
Royal Templars' camp, at Toronto. The
temperance people, he said, were working
and in a field likely to produce good results,
if the 500,000 children in the schools in
Ontario to-day could be convinced that
alcohol was a danger to be guarded against,
the victory would, in no long time be
achieved. Since he, as Minister of Educa-
tion, had, in 1887, succeeded in getting a
measure passed through the Legislature in
favor of temperance instruction in schools,
the work in that direction had been
steadily advancing, till, according to the
last statistical returns, there were 150,000
scholars in the public schools and 13,000
scholars in the separate schools being taught
what the effects of alcohol and nicotine
were on the physical system. When, however,
this power of ordering temperance instruc-
tion in schools had been given he
had seen that to teach the subject
effectively a proper text book should be
provided. At that time there were no text
books such as met his view either in the
United States or in Canada. One admirable
one there was, indeed, treating the subject
from a scientific standpoint, but it was not
simple enough for the use of schools. Since
that time marvelous progress had
been made in the preparation of such text
books, and next year he would have one
issued for the use of schools in Ontario,
which he felt would be an improvement on
any yet published in America. Another
point to which he had given thought was
by whom such a text book should be used.
He had decided that it should be placed in
the hands of pupils in the two highest
forms, and that for the others one lecture
a week should be delivered on the sub-
ject of temperance by the teachers. By
this method a great deal could
be accomplished. For the younger
pupils the lectures would be of great bene-
fit, and for the older ones these lectures
would be supplemented by the text book.
The question arose, how was the use of
this subject to be enforced in the schools?
All the teachers were not temperance men,
nor were all the trustees or inspectors; but
all would carry out the instructions of the
Education Department, or if they did not
there was a remedy at hand. Well, then,
this subject of temperance had been made
as compulsory in the forms from the fourth
upwards, as arithmetic or history was.
More, however, than all this had been done
by the Education Department. It was
clear that, in order that a subject should
be well taught, the teacher should know
how to teach it. To accomplish this the
best methods of teaching the sub-
ject. Accordingly, temperance was made
a part of the curriculum at every
model school, and no teacher could re-
ceive a certificate unless he passed in
this as well as in the ordinary subjects.
The same rule was put in force in the nor-
mal schools, and the result was that five-
sixths of the teachers in Ontario were pro-
ficient in this subject. For the benefit
of the high school teachers a course of
lectures in the School of Pedagogy was
given on this subject. Back of all this
teaching in the schools, however, the
speaker said, must be the great force of
public opinion to make the movement per-
fectly successful. If in every school sec-
tion this public opinion were strong, no
teacher could afford to condemn it. The
temperance sentiment in the country should
be intense and acute, and if it were so it
would, joined to the work carried on by
the Education Department, very quickly
conquer the land. In closing his address
Mr. Ross referred to the great opportunity
the temperance people would have in a few
months now of showing in their individual
capacities their genuine interest in the
cause.

IN BATTLE ARRAY!

The Famous Touring British Soldiers
Coming to London.Two of Their Marvellous Performances
—The Pick of Britain's Army.

The heart of the Scotchman throbs faster
when he hears the very name of the Black
Watch, while that of the Englishman swells
with pride at the mention of the Grenadier
Guards, and the Irishman feels inspired
when he thinks of the gallant Connaught
Rangers. All three regiments have been
glorified in history and have added lustre
to the British arms. Few had had
the privilege of seeing them, and the
coming appearance of the pick of these
crack corps in London has caused a thrill
of excited interest not only here, but
throughout the world. People are expected
to flock from surrounding places to see the
great tournament in the Western Fair
grounds on Wednesday next, Aug. 30,
afternoon and evening.

The following brief description of their
magnificent performance from the Toronto
Mail will be interesting: "The horses
seemed to appreciate the soft, green sward
after the dust of the tankard track at
Chicago, and they felt quite freshy when
the electric lights. After
trooping the colors, the cavalry gave an
exhibition of skimming, the intelligent
horses lying down at the word of
command, and furnishing a breastwork
for the rider. The lance exercise
was also very good, but the number
on the programme that attracted the
most applause was the driving of the royal
horse artillery. This feat aroused the
crowd to the wildest pitch of enthusiasm.
The Highland dance, the bayonet, manual
and firing exercises by the Grenadier
Guards and Black Watch were much ap-
preciated. The musical ride and the sword
drill was as beautiful an exhibition as any
person would wish to see. The tent-pe-
ging, was excellent. The noise of the
cavalry between teams of the Life Guards
and Royal Horse Artillery created much
amusement. The men fought with single
sticks and wore masks on their heads,
with cockades of paper. They went at
each other like a tornado, and there was
hacking and slashing with the sticks,
and a note from the bugle would tell when
a cockade was cut off, and the luckiest
victim would gallop off the field. The con-
test finally narrowed down to one arti-
leryman against four guardsmen, and he
did not give in until he had sent two of his
adversaries out of the melee. During the
fight the horses curvet, wheel, rear, and
kick the same as in an actual cavalry fight.
The last number was a combined attack on
a fortified position. This scene was very
realistic. The scout advances and a shot
from the enemy's position warns him.
His horse lies down, and he begins
firing over his horse's back. His
comrades dismount in twos, and the
horses are led out of range by the third
rider in the troop; finally the trooper who
was in the advance is shot, and the officer
gallantly rides in and carries him off the
field. The infantry then come on by rushes
in extended order, firing independently.
The artillery goes into action. The infantry
charge and drive the enemy out of the
fort, and then with a wild cheer the cavalry
are let loose, and they go in with a rush to
garner the fruits of victory. A parade
with the prisoners and 'God Save the
Queen' brought the affair to a close."

TRY AN ACID DIET.

There Are Various Reasons Why it is
Advisable to Try an Acid Diet Now.
Acid is death to the cholera germ. With
that monster on a neighboring island down
the bay it is advisable to vary the diet with
sour dishes made of lemon and vinegar. It
is almost impossible to restrain one's drink-
ing raw water. Every mother knows that
the present supply is unwholesome, but
even in wealthy families it is often incon-
venient to have cooked and properly le-
mon juice. If the raw water is drunk, the
danger will be lessened by adding a little
lemon juice, not more than a teaspoonful to
a glass of water. For convenience, particu-
larly in the morning when everybody in the
family wants a drink, the lemons might be
quartered and sent to table in a covered
glass bowl or dish.

People who prefer more lemon juice
should take the bitter draft through a
straw for the protection of the teeth. Tea,
hot or cold, is better just now with lemon
instead of milk. Lemons are cheap, and
until the water supply improves, Swinburne
island is vacated and the cool weather
arrives they should form part of the deco-
ration of every dining-table and side-board.
Harriet, lettuce, beets, chickpeas or tom-
atoes, with plenty of sharp dressing, should
follow every dinner.

Too much lemon juice and vinegar is not
advisable for children, but they should have
a little. Lemon ice will do them no harm.
Housewives who are in the habit of serving
each meal will show their wisdom by a
change of programme. "Steaming hot food
and drink" is the advice given by the Health
Commissioners of New York until all danger
of the scourge has passed. [New York Ex-
change.]

I spent trying to find a cure for **St. Sarsaparilla**, which I had 13 years. Physicians said they never saw so severe a case. My legs, back and arms were covered by the humor. I was unable to lie down in bed, could not walk without crutches, and had to have my arms, back and legs bandaged twice a day. I began to take Hood's Sarsaparilla and soon I could see a change. The flesh became more healthy, the sores soon healed, the scales fell off, was soon able to give up bandages and crutches, and a happy man I was. I had been taking Hood's Sarsaparilla for seven months, and since that time 2 years I have worn the bandages whatever and my legs and arms are sound and well. S. G. ALBERTS VS. OLIVES.

The Olives exhibited a good deal of pluck in challenging the Alberts to a game of ball. They are mostly young fellows, and apparently unable to cope with their opponents of yesterday. The Alberts had no difficulty in defeating them, as the score will show. Turner and Thorpe were in the points for the Olives, and the former was knocked out of the box early in the game. Bright took his place and was batted freely. Sheers and Quinn were the battery for the Alberts. The Olives could do little with Sheers's delivery, although his pitching was not up to his usual standard. The score:

THE DEATH OF RIFLEMAN, JUN.

FORT HURON, Mich., Aug. 27.—Rifleman, Jun., 23, died of Dr. McKenzie, of this city, died in his stall yesterday afternoon from colic, having been sick only 24 hours. He was a good gelding, trotter, valued at \$1,000, and gave good promise of going considerably faster than his mark which he made this summer.

D. J. Guerin also lost a valuable horse from colic on Friday.

No Sunday Street Cars.

Toronto Decides to Indorse the Fourth Commandment.

Advocates of the Innovation Defeated in 23 of the 24 Wards.

Biggest Vote Ever Polling in Toronto—The Majority Not Large, but Like Mercurio's Wound, "It is Enough."

Toronto, Aug. 27.—After a vigorous and exciting campaign the question of running the cars of the Toronto Street Railway on Sunday was voted on by the citizens yesterday and the proposal rejected by over 1,000 majority of the city's daily newspapers which Toronto supports, only one advocated the innovation. There was intense excitement after the polls closed, and the streets were thronged with crowds of people until a late hour, when the final result was beyond doubt.

Voting commenced at 9 and continued till 7 p.m. The vote cast was the largest by several thousand ever cast in Toronto, totaling 27,311. The biggest vote ever polled at a municipal election previously was 24,500.

In the present campaign the vote was divided thus:

Against Sunday cars..... 14,157
For Sunday cars..... 13,154

Majority against Sunday cars..... 1,003

On the old vote of the city all save the first (the East End) gave a majority against the cars, and in the case of the first ward the majority for the cars was only 26.

The anti-hold a very enthusiastic meeting when the result of the contest was known. The Sunday car advocates held no meetings, but congratulated themselves that they had reduced the majority against Sunday cars from 3,000 in January, 1892, to a bare 1,000 in August, 1893. It is freely asserted, however, that the cases of persons were very numerous.

The election having been held under circumstances which prevented any punishment for the fraud.

THE TEMPERANCE CAUSE.

Well-Attended Mass Meeting in Queen's Park—Strong and Able Addresses by Rev. Walter Rigby and Rev. T. L. Fowler.

A temperance mass meeting was held in Queen's Park yesterday afternoon. There was a large crowd of listeners, and the musical part of the programme was well attended to by the Sons of England Band under the leadership of Mr. Charles Channer. The service was under the auspices of the W. C. T. U., and strong and able addresses were delivered by Rev. Walter Rigby and Rev. T. L. Fowler.

Mr. Fowler spoke first. Temperance was a growing cause, he said, and it would continue to grow more and more because it had in it the well-being of society and of men and women generally. People were divided upon all great questions, and there was a variety of opinions with regard to temperance. This should not be among Christian people. Every man who professes to be a philanthropist or lover of the race should be a temperance man and an advocate of the temperance cause. With some temperance was a matter of conviction, with others a matter of taste—principally the latter. The liquor traffic was the enemy of our best institutions, an enemy to truth and an enemy to the Lord Jesus Christ. Judging from the traffic and its history, those who were engaged in it would even frustrate the Sabbath day if they could in the interest of their gain. It was the Christian's duty as far as possible to enlighten others, to earnestly pray that God might dispose of the hearts and minds of the people engaged in the liquor traffic in such a manner that it might be removed from our midst.

Rev. Walter Rigby followed. He told how people were coming to the minister's pulpit and saying, "Why don't you preach the Gospel?" These same people who found fault with did not know what the Gospel was when it came down to question like some other things. You might talk about it, theorize on it and explain it, but there had to be some practical acquaintance with the mode of operation before it could be comprehended. The speaker dwelt on the progress of the temperance cause in London. "I think we have reduced the traffic a little in this city of ours," he said. "I do not mean to say that you cannot get a glass of whisky in this city this afternoon. It would not perhaps, but there are those among you, I dare say, who are able to work the ropes. Those who know these ropes can get it, if not at the bar, then in the kitchen perhaps. And if the bartender cannot be found an enterprising boarder is generally on hand with the keys. I am not a detective; I am not in that line, but the priests are not the only confounders. I don't want you to think that we preachers are as green as we look." Speaking of the coming plebiscite, the speaker asked all who had talked right to vote right and their vote would tell. Closing down Mr. Rigby was loudly applauded.

A PREY TO FLAMES.

Valuable Live Stock Destroyed in Montreal—Paper Mill Burned—Other Blazes.

TRENTON, Ont., Aug. 27.—Yesterday afternoon a fire broke out in the paper mills of Miller Bros., at Glen Miller, four miles north of here. The mills were entirely consumed.

MONTREAL, Aug. 27.—The Hares National Company's stables in Outremont were burned on Friday night. Seven stallions and twelve first horses, besides the fancy cattle, were saved, but most of the wine and poultry were consumed. Eugene Bernard, who was in charge of the stables, and who was sleeping on the second floor, had a narrow escape, getting out by jumping on to his horse's back. It is said that \$50,000 will not cover the loss.

MONTREAL, Aug. 27.—A serious fire occurred this morning in the Empire tobacco factory, Notre Dame street, which was completely gutted. Loss estimated at about \$40,000. About 150 are thrown out of work by the fire.

TORONTO, Aug. 27.—Fire this evening did \$500 or \$600 damage to the machinery hall of the Industrial Exhibition.

We have no hesitation in saying that Dr. J. D. Divorce Case Developments.

CHICAGO, Ill., Aug. 27.—In a bill for divorce, filed in the Superior Court yesterday by Mrs. Bella H. Hassett against Wm. Hassett, of this city, some most astounding charges are made. It is alleged, and the allegations are supported by written evidence, that Hassett conspired with the wife of a wealthy farmer named Stone, now living near Nashua, Iowa, to murder Stone, get a divorce from his own wife and then marry the widow of Stone, who, by the letters attached, was more than ready to put her own husband out of the way that she might marry Hassett.

World's Record Broken by a Steam Yacht.

NEW YORK, Aug. 26.—In a race with the steamer Monmouth on Friday afternoon, the 78-foot steam yacht Falcen, owned by W. B. Cogswell, of Syracuse, broke the world's record, making seven and a quarter miles against a flood tide at a rate of 31.6 statute miles per hour. This was the world's record which was held by the Russian torpedo boat Adler. The boat made a mile in slack water at the rate of 27.4 knots or 31.1 miles, while the Falcen steamed against a flood tide for seven and a quarter miles. The Adler is 152 feet long, about twice that of the Falcen.

"That was a disgusting tramp I helped this morning," said old Mrs. Smith, of Buntingtown. "I gave him a pie and asked him to eat some more; and about ten minutes later he came in and asked me if I'd mind if he ate the wood and sawed the pie."—[Harper's Bazar.

Give Them a Rest.

Such phrases as "I was about to say," "On these lines," "The inspired penman," "It goes without the saying," "Let me repeat," "One-thought men," are superfluous and have earned a "rest and pension." If "it goes without the saying," let it go and don't say it.—[Ram's Horn.

False Tails for Horses.

"The most curious thing I ever saw in my travels," said S. C. Lillias to a San Francisco Examiner man, "was one day in England. We wanted to see the stables of Queen Victoria. We had been told that there were some splendid horses there, and being interested in fine horses, we thought we would take a look at them. I took a look at them, and couldn't see a thing about them to recommend them. To me they looked like just so many common plugs, about 16 hands high, especially the brown one, to which our particular attention was directed. I said I thought they would be gentle, and I didn't think the Queen need be afraid of their running away. Suddenly they flared around and I saw three of them were rat tails. Then I was more astonished than ever. 'What,' I said, 'the Queen satisfied to drive those ordinary rat tail horses? This beats me.' 'Oh, we fix that all right,' said the attendant, and with that he whipped down a false tail—nice, black, and flowing as you please—and buckled it on. It was done so well you wouldn't know it was a false tail. Then he brought down the other tails and showed them to us. That, sir, was the strangest thing I saw in Europe, and I am sure the most. I never knew they had false tails for horses till I saw them on the rat tailed horses belonging to the Queen."

Rev. Dr. Burns waxes more than ordinarily eloquent in describing the English military tournament, which he saw in Chicago. The doctor is glad it is coming here so that he can see it again. It is a sight, he says, which nobody should miss.—[Hamilton Times.

The story which came from London yesterday about a Hamilton man named Woods, who was injured by giving an exhibition of high kicking, appears to be ancient history. The affair happened on Good Friday, but Woods did not feel the effects of it until four weeks ago. He is in bed, but not quite so bad as at the time the recovery is despaired of.—[Hamilton Herald.

Work will be begun as soon as possible—likely this week—on the London West electric street railway. It is expected the road will be in operation as early as Oct. 10. Power will be obtained for the present from the Canada General Electric Company's plant. The London Street Railway Company will have a big bolt line when a bridge is built between South London and London West and the asylum extension made.

Some enterprising people in London have been fortunate enough to secure the British soldiers which have appeared at the World's Fair—and also at Toronto this week—for that city. They will appear at the Western Fair grounds on Wednesday afternoon and evening next. These troops, as we have already said, have excited extraordinary interest in Toronto and are well worth seeing, as the writer can personally testify. No doubt many Woodstock people will run up to London to see the worthy representatives of the British army.—[Woodstock Sentinel-Review.

A Big Excursion.

The G. T. R. car shops' excursionists arrived home from the Falls Saturday night, to the number of 35 coach loads. They had a delightful time, and the crowd was of the most orderly and well conducted. The management was perfect, and the train

officials deserve the greatest credit for the manner in which they handled without mishap 2,500 passengers, particularly at the Bridge on the return trip.

Londoners on the Sarnia.

Mr. Joseph Lancaster, of this city, is one of the passengers on the long-overdue steamship Sarnia, and his friends and relatives are commencing to feel somewhat anxious. A Westminster man named Baker is also on board with shipment of cattle belonging to himself. The boat is over four weeks overdue, outward bound, and has not been heard from since spoken off Newfoundland near the beginning of the voyage. Her machinery was then disabled, but assistance was declined.

High Court Delegates.

The High Court of Ontario, I. O. E., meets in Sarnia to-morrow. Among those going from this city are: Bros. T. G. Davoy, supreme treasurer; Atwell Fleming, high treasurer; W. H. Hartman, past high treasurer; B. W. Greer, supreme auditor; Alex. Atkman, Henry Pratt, Jas. Lucas, Atwell Roddard, Wm. Gerry, Chas. Patmore, Rev. E. Davis, H. Stanyer and Thos. Toms. Bros. James B. Halkett, of Ottawa, high secretary; L. T. Barclay, of Whitby, high chancellor, and David Miller, of Toronto, past high chief ranger, went through on the express last evening.

Presentation at the Barracks.

On Saturday Mr. J. Holland was waited upon by a few old friends at the Military School and presented with a gold watch-chain and an address. The latter expressed deep regret at his departure and more especially from the cricket club, to which he had lent such valuable aid. It was their earnest wish to hear of his success and prosperity in whatever position he might be called upon to fill. In accordance with the rules of the association he now became an honorary member, and his presence as such would always be welcomed by those remaining in his old corps.

The address was signed by G. G. Smith, captain, B. J. Dunlevy, secretary, and J. William Cockburn, manager.

A C. P. R. Conductor Shot.

Conductor Sidney Smith, of the C. P. R., was shot by a tramp between Galt and Drumbo at 8 o'clock on Sunday morning. Four of the itinerant fraternity were riding on the train and Mr. Smith was putting them off when one of them drew a revolver and fired at his lower limbs. The ball took effect in the right leg below the knee. The train hands caught the tramp and bound him by ropes to the side of the stove in the caboose. At Woodstock he was handed over to the officials and on being searched a revolver, a knife and \$65 in cash were found on him. So much money on the person of a tramp must have surprised the searchers, for said tramp watched his opportunity, and throwing himself out of the window, he was soon over the hills and far away. Mr. Smith brought his train on to London, where he was removed to his home on Fair Mall street. The doctor recovered the bullet, and Mr. Smith is progressing favorably. Was this the same gang of tramps that raided the C. T. R. station at Drumbo, and by whom Mrs. Weaver was shot?

Sore Legs Cured by Royal Crown Remedy After the Cleverest Doctors in Canada Failed.

LONDON, June 20, 1880.

Dear Sir,—I was a great sufferer for years with one of the worst kinds of sore legs. I doctored a great deal with some of the cleverest doctors in Canada. They failed in making a cure. I was recommended to try your medicine: I got two bottles of your Royal Crown Remedy and one box of your salve; I used it according to directions. In two weeks after I commenced to use it I was able to go to work again. I feel much better in health, and the legs seem to be a sound cure from the bone. I can recommend it to the world at large.
