Special Meeting of Civic Body Held at Noon Today.

**OPPOSE** POWER BILL

City of London Is Co-operating With Other Municipalities in the Matter.

The Carling street pavement was up before the special committee of the SIR WILLIAM GLENHOLME FALcided that no pavement be put down Chief Justice of the King's Bench on the street this year.

There was much discussion and little business done at the meeting. Ald. Gerry read the report of No. 2 committee, which recommended that

no payement be laid. Ald. Saunders thought a pa ement should be laid. It was needed. There was a great deal of traffic on the street and the present road was in a very bad condition.

### Ald. Stevenson Opposes It.

Ald. Stevenson opposed the pavement. When the Dundas street pavement was discussed last year. City Engineer Graydon had recommended that under no consideration should a pavement be laid on the street until London, June 26.-Convinced that their at least a year after the sewer had recent tactics have failed to persuade mends that a pavement be laid on a lative machine in their favor, the suffrastreet where the sewer had been built gettes project another novel demonstra but a short time. ### The Power Bill. Ald. Booth reported as to his trip

Power Company's bill. "Owing to the absence of Hon Jacques Bureau, who was called to Three Rivers, his constituency owing to the great fire," said Ald, Booth, "and the absence of Hon. Geo. P. Graham, who had to go to Cornwall in connection with the canal disaster, it was impossible for the committee to settle anything about the question. warm; local thunderstorms at night. However, we interviewed several members of Parliament, and it was the opinion that the committee would deal fairly with the municipalities. The difficulty with the bill is that it has been amended since it left the Senate. When it was before that body it was all right, as a clause made it impossible for the company to sell power or enter cities or other municipalities without the consent of the municipal struck out and the representatives of the municipalities want that clause amended again, making it impossible for the company were urged to send strong deputations to Ottawa when the bill comes up

The claim of the Opposition that C they have not been obstructing the voting of supplies is hyprocritical. For a couple of weeks estimates have been passed somewhat freely, but for the greater part of the session there has been a wanton waste of time, the sum of \$914,800 for ocean and river service being all that was voted in two months. Although the Government was ready with its work at the opening of the session, seven months have passed with a number of important measures untouched. Had the Opposition been as desirous as the Government to get through with the business of the session, prorogation would have been reached two or three months ago. ## CANADA AND FRENCH EMIGRA-

TION. A cry, which is as baseless as it is familiar, is that the present minister of the interior and his immediate predecessor, Hon. Clifford Sifton, have been opposed to all French immigration, Mr. Monk, the Quebec Conservative leader, recently echoed this ery in the House of Commons, pointing to the fact that last year over 17,000 emigrants went out from French ports to the Argentine Republic, as evidence that there is in France a field for the distribution of

Canadian immigration literature. A study of the facts will convince any fair-minded man how greatly misrepresented the present and former minister of the interior have been. They have, in reality, given French emigration all possible encouragement, but no matter how great the efforts to direct it Canadaward we cannot expect a very large share of it. A large number of emigrants leave French ports for South America, but, as Hon. Mr. Lemieux pointed out in replying to Mr. Monk, France has for many years had a commercial treaty with Argentina. Compared with the peoples of other countries, the French do not emigrate in large numbers. Official United States returns show that the French immigration into that country during the last ten years amounted to scarcely two per cent of the total.

One great obstacle in the way of inducing French people to emigrate prohibiting any display of advertisements or the offering of any inducelaw was prompted early in the sixties by the appalling decrease in the birth rate. Notwithstanding this, Canadian agents in France have succeeded during the past ten years in increasing French emigration to Canada from practically nothing to 1,600

### MY LADY'S LID.

Where did you get that hat? Who ever did Invent a lady's lid Like that? Who had the nerve to roll it out And stretch it more and more, From centerpiece to rim, until It spreads from shore to shore. And likewise lifts its summit up On birds' and other wings, Above the earth until it scrapes The clouds and other things? Who added to this wondrous width Of brim, so that the space

Could easily accommedate An automobile race? Say, who did that? Who built her hat? Who made it something On earth or in the sky, A flat of wide-extended plain, A mountain towering high? Cut wider doors for her to get Inside of any place. And put the ceiling on the room Erect upon the ground,

Push up the clouds to let her stand And shove the wide horizon back To let her turn around. Oh, weirdly, witching, woozy hat, That flattens out and towers-Whoever saw a thing like that-A pancake filled with flowers? A hat contagious-spreading? Yes. That names the Merry Wid.; And she who fails to catch it should Slip out and change her lid. Gee whiz! What a wonder woman is!

The arithmetic and geography papers on the entrance examinations did not produce much comfort to the 600 boys and girls who struggled yesterday with the mysteries involved.

The papers were very difficult, much too difficult in the opinion of competent educationalists, and as a result nearly 50 per cent of the students will be plucked on the two papers. As many children, as well as parents, are interested in the papers, The Advertiser publishes the

answers to the questions. By a comparison, the students may find out how well, or how badly, they did on the examinations.

Question One-(a) Name, beginning with the largest, the six most important cities

Canada (b) Give the exact location of each. (c) Why is each so important? Answer-

(a) The population is taken as an ndication of the importance of a city and, using this, the six most important cities of Canada in order, are Montreal, Toronto, Winnipeg, Quebec, Ottawa and Hamilton

(b) Montreal On Montreal Island, just below the junction of the Ottawa and the St. Lawrence. Toronto-On Toronto Bay, on the northern shore of Lake Ontario and

near the western end. Winnipeg-In the province of Manitoba, at the junction of the Red and Assiniboine Rivers. Quebec-On the north bank of the St. Lawrence at the point where it

broadens towards the Gulf. Ottawa-About 125 miles up the Ottawa River. Hamilton-On Hamilton Bay at the western end of Lake Ontario.

(c) Montreal is the chief port for Canadian exports and imports and the abundant waterpower supplied by the grease and told me to use it on my lawn rapids gives the city a good opportunity to develop manufactures. Toronto is pre-eminently a city of wholesale warehouses; it is a distributing center for western and north-

ern Ontario. It has excellent railway nd steamboat connections. Winnipeg owes its importance to its situation, almost equally distant from and on the line of the great railways and at the entrance to the prairie sec

Quebec does a large shipping trade center.

Ottawa is the seat of the Federal Government, and is an important center of the lumbering trade. Hamilton is a center for the manu-

tural implements. It obtains electric power at a low price.

### Waterways and Railways. Question No. 2: (a) Draw a map of Ontario.

(b) Trace on it the chief waterway, and indicate four important commer cial centers benefited by it. (c) Trace on it the main line of the Grand Trunk, and locate four import- Pacific belt. ant commercial centers through which

it passes. (d) Trace on it the main line of the Canadian Pacific, and locate four important commercial centers through which it passes.

Answer: (b) The chief waterway is, of course, the St. Lawrence River and the great lakes, with the connecting rivers. Any four of the following places might have been marked: Fort William, Port Arthur, Sault Ste. Marie, Parry Sound, Midland, Collingwood,

ton, Toronto, etc. (c) The main line of the G. T. R runs from Montreal along the north shore of the St. Lawrence and Lake Ontario to Toronto. At Toronto the lines diverge to Hamilton, Windsor, Sarnia; to Goderich, etc.; to Owen the throng of visiting celebrities within Sound and North Bay. The main line passes through Kingston, Belleville,

Toronto, Hamilton. (d) The main line of the C. P. R. runs from Ottawa along the northern shore of Lake Superior to Fort Wilthrough Ottawa, North Bay, Sudbury and Fort William

### Longitude. Question No. 3:

(a) What is meant by longitude? (b) Traveling from Ottawa to Vanouver, how would a passenger's watch indicate the time at Winnipeg, Calgary, and Vancouver? Explain Answer-

(a) Longitude is the method of meas uring east and west distances on the earth, and this is accomplished by imagnary lines, called meridians, passing from pole to pole around the earth. (b) When the passenger reaches Winni fast, at Calgary two hours too fast.

All "Used" Pianos and Organs Have Prices Lowered Almost Beyond Belief. We Are Moving and Don't Want to Take Them With Us.

The greatest slaughter sale of second-hand Pianos and Organs that has ever occurred in this city will be inaugurated here Friday Morning. The bargains will be the marvel of the town-the biggest SNAPS that your eyes have ever beheld. This is the chance that you've been dreaming of, wishing for, but believing would never happenbecause such reckless price-shattering has never before been met with outside of "dreams." Away with them, regardless of profit—that's the signal we have hoisted. We are moving from our premises, and prefer to put in an entirely new stock in our new store. We don't want any of our "used" Pianos and Organs, which have been taken in exchange for Heintzman & Co. Pianos-and are prepared to practically give them away to you. Come at once. Send your neighbors. Scatter the news broadcast.

All these "used" Pianos and Organs have been thoroughly overhauled and are guaranteed to be in good order. Below is a mere handful of the many bargains:

LOTS \$30 to \$100 \$1.00 DOWN WEEK

We believe in giving our customers splendid value because we know it pays us to do so. In fact, our business has reached the top notch. We have always given our clients good measure-brimful, running over. We have always sold them properties that could readily be sold again on account of the confidence. We believe that this announcement will be read with interest by shrewd investors. We are sure that it will meet with a ready response, for only one word adequately describes the bargain nature of this sale. That word is "SENSATIONAL," a much-abused word. But no other fits the case. FOUR 25x125-ft. LOTS at less than the price of one single lot, with a 12-foot lane in the rear of eac. lot.

### WHAT DOES THIS MEAN?

It means that the price of one single lot in this locality is considerably more than the price we are asking for the block of four 25x125-foot lotsone-half acre. We have sold some excellent properties, or sub-divisions, in the past, but nothing in point of genuine value as good as this. Judging from surrounding values and from the constant demand for outside property, these blocks will certainly double their value in less than six months' time. As a matter of fact, if they double, is it not worth buying? That's why we claim that the most skeptical cannot go astray in buying one or more blocks. But you must act at once. Examine the prices and the location of the property. Take time to consider and reflect, of course. But get here early on Saturday, June 27, 2 o'clock. As a rule, the mere announcement of a sale of this kind is sufficient to crowd the grounds with customers, so confident are they of securing good value. And this case will be no exception to the rule.

50c Per Week Buys a Lot. \$1 and \$2 Down. 10% Off for Cash.

WORKINGMEN! You will never have a chance like this again to secure yourself and family a little home. COUNTY TAXES, NO INTEREST, FREE DEEDS. LADIES! Come out to the property. Car fare paid both ways on the grounds. Save your doctor bills by locating away from the dust and smoke of the city. Buy a lot where you can breathe the fresh air. Such a place is Riverside Park. You will never, in the history of London, have such a chance to buy property at these prices. Don't fail to attend the opening sale or any day next week. LOOK FOR THE FLAG!

SALE STARTS 2 p.m. SATURDAY, JUNE 27; MONDAY, JUNE 29; TUESDAY, JUNE 30; WEDNESDAY, JULY 1; THURSDAY, JULY 2; FRIDAY, JULY 3; SATURDAY, JULY 4.

Mr. McLeod thought it a mistake to put a pavement down at this time owing to the fact that it would take almost a year at least for the road to settle, on account of the new sewer. Mr. F. C. Fraser said that there were 1,087 feet frontage on the street and practically all the demand for the pavement came from Perrins, who own 262 feet. It had been the practice of the committee not to lay a pavement on a street for a year after a sewer had been built on it, and in this case the same rule should be followed. The sewer contractor must keep the street in repair for nine months more, and he was of the opinion if that were done there would be little cause for

complaint. Ald. Stewart did not think it right to force a pavement on the people in they did not desire it. This was not a case of obstruction at all. He moved that the matter lay over for

## HANGED HIMSELF

Attempted Suicide of Stratford Man in Detroit.

Detroit, June 25 .- John Hogarth, being called upon to surrender he reaged 30 years, son of a prominent ing in the Hunt street police station, into insensibility. He was turned garth's specialty was engine belts, revived by the officers with difficulty, Hegarth is a morphine fiend and says

of the city. The Piggins' Sons' plant lost three valuable belts in as many weeks. They then stationed watchmen in the factory. Last night Piggins and his assist-

ants caught Hogarth red-handed. On

fused, and rushed at the watchman with a big knife. One of the men fired a shotgun at Hogarth, and a numattempted to hang himself this morn- ber of the shot entered his body. He still fought capture until beaten where he was locked up on a charge over to the police, and two hours later, of stealing, and after having been was found hanging in his cell by a wounded while resisting arrest. Ho- strap he had worn as a belt, and was several of which have been missed he sold the belts to get money to buy, lately from factories in different parts 'the drug.
