SOVIET FORM OF GOVERNMENT URGED BY WINNIPEG DELEGATE

THIEVES RANSACK DUNDAS STREET STORES; TAKE GOODS WORTH \$3,800 FROM ROWLAND HILL'S AND MERCHANDISE FROM ANOTHER
Entrance Forced by Windows, Safe Rifled and Escape Made Without Observance—Coat and Revolver Left Behind Are Clues Which May Prove Valuable.

After entering via third-story window, and ransacking the stores of Rowland Hill, Thomas Rowe, and William Gurd & Co. thieves last night carried away \$3,800 worth of goods. However, they left behind them a long grey coat, in a pocket of which was a Colt revolver fully loaded.

First, Hill's was entered by a rear window. It is presumed the back of the building is only two stories high, while the front is a floor higher. It would be an easy matter, it is said, to get on the rear roof and open a window on the third floor. The window was forced with the aid of a jimmy.

Bonds Stolen.

Whether the safe was truly locked last night is questioned by the detectives, but employees believe it was. Here they found \$3,800 worth of bonds. The descriptions of them are: Two \$500 Victory bonds, Nos. H. 0132247 and H. 0507077, both dated November 1, 1935; two \$500 Victory bonds, Nos. 1091333 and 1094533; one \$1,000 Victory bond, No. E. 012716, dated November 1, 1935; two \$500 Canada 4 1/2 per cent bonds, Nos. 4225 and 4236; and other bonds valued at about \$700.

In this store the office was thoroughly searched. The cash register was smashed and \$25 taken from it. All that was left in it was a few pennies.

Commissioner J. G. Rutherford Opens Inquiry At Ottawa.

SMALL ATTENDANCE
Counsel Representing Social Service Department Outlines Case.

Ottawa, Sept. 22.—Commissioner J. G. Rutherford this morning opened his investigation into horse racing and race track betting in the rooms of the railway commission here. D. L. McCarthy, K. C., of Toronto, appeared for the association, and the social service council was represented by W. E. Raney, K. C.

In the course of a statement of the attitude of his clients toward racing, Mr. Raney read a letter which had been written by the legislative committee of the House of Commons in 1910 as a warning to Dr. Rutherford as commissioner. Dr. Rutherford, as commissioner, protested against the appointment of Dr. Rutherford as commissioner. AUDITORS ANNOUNCE L. AND P. S. SURPLUS OF \$31,053 IN YEAR

Some Wonder What Has Be-
come of Profits.

BACK TO CONSTRUCTION?

Of This Account \$103,866 Is
Paid by Revenue
Funds.

City Auditors Andrew Dale and A. S. Scrantom have completed their yearly audit of the London and Port Stanley Railway books and have presented it to the city council.

The report shows a surplus of \$31,053. Last year the surplus was \$22,503. Those who have had an opportunity to examine the statement are wondering what has become of this surplus and incidentally the surplus of the previous year. A total surplus of \$50,512 is claimed for the four years, but what has become of this is not explained. It has not been placed in a bank, the report makes no mention of such action being taken. The money has evidently been transferred to the construction account as it is noted that \$103,866 of this account is paid by revenue funds advanced by the city to the extent of \$1,121,000.

The question which citizens are asking is whether a surplus is of much advantage to the city, as the owners of the road, when it is all put back in the railway's treasury for further construction.

Comparison.

A comparative statement of this year's and the last year's account is given:

Gross earnings—1914, \$399,656; 1913, \$363,214; increase, \$36,442.

Total operating expenses—1914, \$350,740; 1913, \$325,453; increase, \$25,287.

Fixed charges—1914, \$117,952; 1913, \$90,750; increase, \$27,202.

Total expenses—1914, \$468,692; 1913, \$416,205; increase, \$52,487.

Gross earnings—1914, \$399,656; 1913, \$363,214; increase, \$36,442.

Net earnings—1914, \$331,653; 1913, \$232,563; increase, \$99,090.

The increase in operating expenses was \$772 per cent. The increase in gross earnings was 35.42 per cent, and the increase in net earnings 32.11 per cent.

The operating expenses are estimated at 70.19 of the total earnings, and the total expenses are estimated at 93.75 of the total earnings.

Gross income.

The gross income of the railroad is made up as follows:

Gross earnings, passenger, \$228,610; freight, \$161,046; total, \$389,656.

Miscellaneous, general, \$20,541; Port Stanley Park, \$2,317.

Total, \$399,656.

Operating Expenses.

Railway, \$307,815; Port Stanley Park, \$42,925.

Total, \$350,740.

Gross income, \$331,653.

Deductions for taxes, \$5,028; interest, \$75,679; rent, \$20,000; and sinking fund, \$10,151, make the net income to \$21,053.

The amount of \$5,472 for rental for the first half of 1914 is still in dispute between the London Railway Commission and the city council, as is also the amount of \$10,000 for interest. The auditors urge the adjustment of this at an early date.

RIDGETOWN TO FORE AS TOBACCO CENTRE

RIDGETOWN, Sept. 22.—Ridgetown has been chosen to be the new tobacco industry. In this district there are about 1,000 acres devoted entirely to the Burley type of plant, which will give a large yield.

The entire acreage, averaged at 1,200 bushels to the acre, would be an estimated crop at 1,200,000 pounds. This, if taken on a basis of last year's prices, would net the growers an income of \$12,000. The crop in this district has been commented on, and spoken of highly by the several competing firms, who have spent much time estimating and viewing the same. Harvesting has been going on rapidly for some time, and this week will see most of the crop housed for the current season. Tobacco has been one of the main crops here, and bids fair to become the growers' rich harvest.

THRASHING CLOVER IN WABASH DISTRICT

WABASH, Sept. 22.—Farmers of this vicinity are busy this week cutting corn. Corn is in splendid condition. The ears are large and kernels well developed.

Clover thrashing has also commenced. Only a few odd jobs of grain thrashing are yet to be done.

Owing to the long-continued drought, the potato crop is poor, and some farmers will not have enough for their own use.

Onions are plentiful, and are selling at \$1 per bushel.

Tobacco is now being harvested, and is an excellent crop all over the county. The leaves were practically free from worms. If last year's prices prevail, growers will realize large sums of money from this product. Horses working in the fields are so much being tortured by numerous bees.

Twenty Bullets Fired During
Melee On City Street.

Brooklyn, Sept. 22.—Five persons were shot and one probably died as the result of the revival of an old Italian family feud in Brooklyn early last evening. Some twenty shots were fired, two of them finding their marks in the bodies of onlookers. Frank Carlo of 12 Garfield place, and Alfonso Sulzano of 452 Carroll street, and his brother Joseph of 273 First street, near Fourth Avenue and President street, the police say Carlo fired first. The Sulzanos were ready for him, however, and in a moment all five bullets in his body and he lay on the sidewalk with blood on his face. Carlo was bleeding from a wound in the shoulder, the principals had disappeared.

By the time the police got there, the shooting was over, and though Mrs. Sonno of 16 Garfield place, lay in great pain, she was taken to the hospital. The principals had disappeared.

Later the police found Alfonso Sulzano in the cellar of his brother's home, where friends had dragged him. He had five bullets in his body and was lying in a pool of blood. He was taken to the hospital. The principals had disappeared.

The Tory Governments of Ottawa and Toronto were roundly scored by Harold Currie of Strathroy, who declared that the Government had not given the farmers fair play. He also pointed out the Government's failure to protect the farmer from the ravages of the locusts, and its failure to provide for the farmer's old age.

Increases Your Weight, Restores Lost Strength, Prevents Illness

Every day come new converts to that great army of men and women who rejoice in new-found health that came to them through the use of that wonderful blood-renewing preparation called "FERROZON". Very simple how it acts. All you have to do is take two small chocolate-coated tablets with a sip of water at the close of each meal.

Ferrozone is a marvel. It contains just what this blood lacks—lots of iron, but mark you, the kind of iron your blood is able to absorb. Ferrozone puts life and vim into the blood. Makes it rich, red and nourishing. Naturally the body is better fed and grows stronger day by day.

Of course digestion must be improved, and probably the stomach will require aid as well. Ferrozone serves the purpose admirably. Those who use it enjoy appetite and digestive powers far beyond the ordinary.

That tired feeling is replaced by the buoyant, joyous sensation of health and vigor. Day by day as your strength increases, you feel new energy surging through your veins, and know that a great tonic of great merit is at work. No remedy more nourishing or uplifting, no treatment so sure to bring lasting health, good spirits and contentment. Ferrozone contains just what run-down folks need; it cures because it supplies more nutriment than you can get in any other way. 50c per box or six for \$2.50 at all dealers, or by mail from The Catarrhose Co., Kingston, Ont.

HOW TO HEAL SORE, BLEEDING GUMS, TIGHTEN LOOSE TEETH

BEFORE THEY FALL OUT—DENTIST'S HOME PRESCRIPTION WORKS LIKE MAGIC.

If your teeth are loosening or if your gums are receding and are sore, tender or inflamed, if they bleed, or if you brush your teeth, are spongy, flabby or colorless or if they discharge pus or develop gum boils, it is warning of dangerous Pyorrhoea or Riggs disease of the gums and prompt and careful treatment is necessary if you want to save your teeth from falling out.

A prominent New York State dentist has discovered a new prescription—Epihol—for promptly correcting these troubles and it surely seems to work like magic. A few days' use and teeth tighten, the gums grow sound and healthy and the bleeding, poisonous pus discharge soon ceases. An ounce jar of Epihol will last for weeks and costs little at Standard Drug Co. or Taylor Drug Co. or any good drug store, and all these leading druggists will refund the full purchase price if, in any case, it fails to bring relief. No one really wants false teeth. So if you have any of the above symptoms you should by all means give this treatment a trial.

GARDEN CITIES FOR VETERANS IS DISCUSSED

Parliament Considers Scheme To Provide Housing Facilities.

TRIBUTE TO COCHRANE

Bill To Substitute Electrocution For Hanging Under Consideration.

OTTAWA, Ont., Sept. 22.—Private members had an innings in the Commons today. J. E. Pedlow's bill to make the second Monday in November each year a permanent thanksgiving day was one of the matters under discussion. On motion of every L. Richardson the bill was so amended as to make November 11 (armistice day) the holiday of thanksgiving. This is the object of Mr. Pedlow's bill, but the South Renfrew member favored the second work day of the week has in Canada come to be regarded as more suitable for the celebration of this feeling it was decided to allow the bill to stand in committee until objections can be heard from the Government.

There was an academic debate on a motion moved by J. H. Burnham, dealing with the death penalty and calling upon the Government to lay a definite plan of government in this respect before the next general election. Mr. Burnham wanted a committee named to deal with the matter, but the Government declined to agree and the motion was declared lost.

Resolution Withdrawn. H. M. McKenzie's resolution advocating Government assistance for the erection of houses in model town sites for returned soldiers was withdrawn on the promise that this matter would be considered by the committee to which the soldiers' civil re-establishment bill has been sent.

At the evening sitting Mr. Mowat's bill to substitute electrocution for hanging, the death penalty was debated, and Mr. McMaster, seconded by Mr. Pedlow, moved by way of amendment that the death penalty should be abolished.

The bill was still under discussion when the House rose. A tribute to Hon. Frank Cochrane was paid in the House this afternoon. Hon. C. J. Doherty, acting premier, referred to Mr. Cochrane as a man of sturdy reputation, one who in every action was inspired by a desire to do his duty and do it in full measure.

Mr. McKenzie, House leader of the Opposition, also expressed the profound regret of the Opposition. Although the Opposition had not always agreed with Mr. Cochrane, they believed he followed a conscientious line of action in the best interest of Canada as he saw those interests. Mr. McKenzie added that he believed Mr. Cochrane was a firm party man and representing what was best in his party.

The solicitor-general presented a bill to amend the Dominion by-elections act of 1919. The bill provides that where there is any disqualification as regards any particular race that disqualification shall be counted in the case of a by-election. The bill really raised, Mr. Guthrie added, the question of the original vote.

In answer to a question by Mr. Thomas Hay, the Government stated that \$28,800 had been agreed to for the 1918 Victory Loan in Winnipeg. Commission was paid on \$7,535,450 of this amount.

Last Year's Bases. In answer to a question by Mr. Lemieux as to what commissions had been agreed upon between the department of finance and the various brokers, houses and renting them to the new loan, it was stated that detailed arrangements had not yet been arrived at. The given basis of last year would be followed.

Model Town Sites. The House then took up a resolution of Mr. H. Mowat, asking the Government assistance for the erection of houses in model town sites or garden cities for returned soldiers.

Mr. Mowat attributed certain of the unrest among returned men to their inability to find homes in the larger cities. In the city of Toronto some of them with wives and children were forced to live in very restricted areas of the city. If these men could be provided with houses at a short distance from the city so that they could get to and from work with ease they would be much more contented. The government housing scheme, he said, did not provide for the class of settlement which he thought desirable. Mr. Mowat read articles from the Victoria Times in which the publication of the returned men was in favor of some scheme of this kind.

He stated that Mr. Mackenzie King on his return from England had spoken of the great success of the garden cities planned for returned soldiers in that country. There would be no chance for the returned man to settle down and become a useful citizen if he had to live in a house in a pleasant surroundings where he could either do his work at home or in the city. This plan, when carried out, would take the responsibility of advising its ratification.

A Real Essential. Mr. Hocken said that a comfortable housing was as essential as any commodity. It was a very large question. There was, too, the question of how far the Federal Government had jurisdiction. It would be as easy to provide land for putting up houses, but such a scheme would cost money. Finally, it was to be considered whether the Government should exercise discretion in adopting schemes involving the expenditure of large sums of money.

He suggested that Mr. Mowat should be brought before a special committee appointed by the Government to consider the re-establishment bill. This committee, he stated, would have a large number of members and its consideration. It must be remembered that the country was not in a strong financial condition, and that the Government must exercise discretion in adopting schemes involving the expenditure of large sums of money.

D. D. McKenzie, although expressing sympathy with any housing scheme which would alleviate conditions and add to the comfort and happiness of returned men, stated that constitutional considerations were of paramount importance and civil right came within

It was learned that the automobile had been standing in a farmer's yard, and the rooster selected the top of the car for a sleeping perch.

To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you had. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. How Signs of Old Age Creep Into Your System When the Iron In Your Blood Runs Low

For Want of Iron, You May Be Old At Thirty—Nervous, Irritable and All Run-Down—While at Fifty or Sixty, With Plenty of Iron in Your Blood, You May Be Young in Feeling and Brimming Over With Vim and Energy.

IRON IS THE RED BLOOD FOOD

That Helps Strengthen the Nerves, Restores Wasted Tissue and Aids in Giving Renewed Force and Power to the Body. Physicians Explain Why Administration of Simple Nuxated Iron Often Increases the Strength and Endurance of Delicate, Run-down People in Two Weeks' Time.

Old age has already sunk its talons into thousands of men and women who ought still to be enjoying the springtime and summer of life simply because they have allowed worry, overwork, nervous strain, dissipation and occupational poisons to sap the iron from their blood and thereby destroy its power to change food into living tissue, muscle and brain. You will find plenty of people at 40 who are broken in health and steadily going downward to physical and mental decay while others at 50 are strong, active, alert and seemingly growing younger every year. One class with-stands the ravages of autumn, while the other, by spinning up a strong power of resistance against disease may as the three score and ten mark, with surprising health, strength and vigor, it you cannot expect look and feel young. A vigorous unless have plenty of iron in your blood and scientists explain why they pre-fer organic iron—stated iron—to sup-plement the iron deficiency be weak, nervous, run-down so as to them up into ger, healthier men and women.

any a man and woman who ought to be young in feeling is losing the vim and energy that makes life living simply because their blood is being sapped of iron. Says Dr. Francis Sullivan, formerly Physi-cian Bellevue Hospital (Colum-bia, New York, and the Westchester Hospital, "Thousands are aged and breaking down at a time when they should be enjoying perfect health as an anemia—lack of iron in the blood fastens its grip on them, sapping their strength, vitality and energy. But in my opinion

you can't make strong, keen, forceful men and healthy, rose-cheeked women by feeding them on metallic iron. The old forms of metallic iron must go through a digestive process before they can be assimilated by the human system. I strongly advise read-ers in all cases to get a physician's pre-scription for organic iron. Nuxated iron—or if you don't want to go to this trouble, then purchase Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package. If you have taken Calumettes or Lawrenses, Standard Drug Co., Taylor Drug Co. and other drugs,

YOU ARE AGEING If the enthusiasm for your daily problems has waned.

YOU ARE AGEING If your skin is shrinking, and your face looks wrinkled, careworn and old.

YOU ARE AGEING If you have lost the spring of your step and your movements are cumbersome.

YOU ARE AGEING If you are weary of the activities of your daily life.

products are an entirely different thing from Nuxated Iron."

Dr. Geo. H. Baker, former Physician and Surgeon, Monmouth Memorial Hos-pital, New Jersey, says: "From a careful examination of the form and my own tests of Nuxated Iron, I am convinced that it is a preparation which any physician can take himself or prescribe for his patients with the ut-most confidence of obtaining highly ben-eficial and satisfactory results."

400 Guests Attend Luncheon Tendered Prince in Vancouver

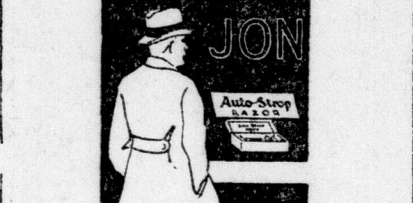

Great Enthusiasm Marks Reception of the Royal Visitor.

VANCOUVER, Sept. 22.—The Prince of Wales concluded his first morning in Vancouver when at 1:45 this afternoon he sat down to a luncheon given in his honor at the Hotel Vancouver which was attended by 400 representative citizens. The speaking was brief. The prince responded to the toast in his honor, proposed by Mayor Gale and Admiral Hugh Rodman, commander of the United States Pacific fleet, replied to the toast to the Allies.

The afternoon the prince opened the new quarters of the Navy League here, and then he roared for the dinner and ball this evening. The prince was greeted by Mayor Gale, the aldermen, Gen. Leckie, D. O. C. Admiral Rodman and others. Passing to the front of the station, the prince reviewed the guard of honor, which was composed of Sixth North Highlanders, all veterans of the great war, and most of them wearing decorations. Then, amid cheering and great enthusiasm and escorted by a squadron of mounted police, the prince set out for Stanley Park. He was cheered throughout, and his response displayed his appreciation of the reception which was given him.

More crowds filled Stanley Park, where Mayor Gale read a civic address giving a most cordial welcome to the young prince. In a graceful reply, the royal guest referred to the part Vancouver had taken in the war and spoke of his pleasure in visiting the city.

A visit to the military wing of the general hospital followed, and then a hurried trip to Point Grey, where the prince laid the cornerstone of a new school.

How Signs of Old Age Creep Into Your System When the Iron In Your Blood Runs Low

For Want of Iron, You May Be Old At Thirty—Nervous, Irritable and All Run-Down—While at Fifty or Sixty, With Plenty of Iron in Your Blood, You May Be Young in Feeling and Brimming Over With Vim and Energy.

IRON IS THE RED BLOOD FOOD

That Helps Strengthen the Nerves, Restores Wasted Tissue and Aids in Giving Renewed Force and Power to the Body. Physicians Explain Why Administration of Simple Nuxated Iron Often Increases the Strength and Endurance of Delicate, Run-down People in Two Weeks' Time.

Old age has already sunk its talons into thousands of men and women who ought still to be enjoying the springtime and summer of life simply because they have allowed worry, overwork, nervous strain, dissipation and occupational poisons to sap the iron from their blood and thereby destroy its power to change food into living tissue, muscle and brain. You will find plenty of people at 40 who are broken in health and steadily going downward to physical and mental decay while others at 50 are strong, active, alert and seemingly growing younger every year. One class with-stands the ravages of autumn, while the other, by spinning up a strong power of resistance against disease may as the three score and ten mark, with surprising health, strength and vigor, it you cannot expect look and feel young. A vigorous unless have plenty of iron in your blood and scientists explain why they pre-fer organic iron—stated iron—to sup-plement the iron deficiency be weak, nervous, run-down so as to them up into ger, healthier men and women.

any a man and woman who ought to be young in feeling is losing the vim and energy that makes life living simply because their blood is being sapped of iron. Says Dr. Francis Sullivan, formerly Physi-cian Bellevue Hospital (Colum-bia, New York, and the Westchester Hospital, "Thousands are aged and breaking down at a time when they should be enjoying perfect health as an anemia—lack of iron in the blood fastens its grip on them, sapping their strength, vitality and energy. But in my opinion

you can't make strong, keen, forceful men and healthy, rose-cheeked women by feeding them on metallic iron. The old forms of metallic iron must go through a digestive process before they can be assimilated by the human system. I strongly advise read-ers in all cases to get a physician's pre-scription for organic iron. Nuxated iron—or if you don't want to go to this trouble, then purchase Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package. If you have taken Calumettes or Lawrenses, Standard Drug Co., Taylor Drug Co. and other drugs,

products are an entirely different thing from Nuxated Iron."

BYNG'S NEW JOB

GEN. SIR JULIAN BYNG has resigned from the army to devote himself to the administration of the profits from the army canteens during the war, and which amount to over £6,000,000. The money will be divided amongst sailors and soldiers in need.

SPECIAL COMMITTEE WILL CONSIDER THE GRATUITY QUESTION

Chairman Says This Matter Is Properly Within Its Jurisdiction.

OTTAWA, Sept. 22.—The question of gratuities and all other matters affecting the re-establishment of soldiers in civil life will come before the special committee of the House of Commons on civil re-establishment, according to a ruling of Hon. J. A. Calder, chairman of that committee, made shortly after the session opened tonight.

The question arose as to how far the committee was competent to go into matters outside of those set forth in bill No. 10 on soldiers' civil re-establishment. Mr. Calder said in his opinion it was quite competent for the committee to recommend any amendments to the bill creating the department of soldiers' civil re-establishment which it might see fit, and if the committee found that the bill as it stood was not adequate for the purpose, it had every competence to recommend alterations.

F. F. Pardee asked if the committee had the right to take up the question of gratuities. Mr. Calder replied in the affirmative, and said it could also take up any other scheme in regard to placing soldiers back in civil life.

"It is perfectly competent for us to call anyone who can enlighten us on these plans or subjects," the chairman ruled.

When several communications from branches of the Great War Veterans' Association and other returned soldiers' organizations were referred to Mr. Calder said all would have the privilege of placing their views before the committee.

Much correspondence has reached the committee relative to the demand for a cash gratuity of \$2,000.

The question of engaging counsel was left in abeyance.

First Witness.

The first witness called this evening was F. G. Robinson, deputy minister of the department of soldiers' civil re-establishment, who went fully into the work done by that department from its inception.

When the deputy minister finished presenting his statement with regard to the war service of the different members of the staff, the question of his own war record was raised by a member of the committee.

Mr. Robinson stated that early in 1915 he had tried for a commission in the infantry, but was rejected as physically unfit. Later his company transferred him to Winnipeg, where he was again rejected on trying to enter the army and was then told that his physical condition was such that he would not be able to qualify for military service.

Determined to take part in war service of some kind he joined the military hospital commissariat and went from that to the invalided soldiers' commission.

The examination of Mr. Robinson had not proceeded very far when it was decided to defer further questioning until Thursday.

On Thursday afternoon, the committee will hear representatives of the pensions board and soldiers' settlement board.

OTTAWA, Sept. 22.—A company to get a real old-fashioned square meal, such as we used to get in the good old days before the war, is now being organized by W. P. O'Connor. If you can get him to ask you to dine with him at a restaurant, you are guaranteed a good meal.

feast. Judge O'Connor's physiognomy is well known and easily remembered, and has become a familiar one in the newspapers. At all events, all the restaurant keepers know him, and since he has announced that he is going after that class of profiteers, the attention paid him when dining in public is marked and would be embarrassing to some men. There is a rush to fill his plate with the choicest viands the kitchen holds, and the helpings are the price—who said anyone was profiting? So far William has not been able to find a restaurant keeper who makes a noise like a profiteer. But he is in some danger of being slain by indignation.

Three more entries are wanted for the league and it is expected that some of the units at the heights will enter or falling this, teams representing the G. W. V. A., G. A. MUTT AND JEFF—Yes, Indeed, the Little Fellow Displays Some Rare Judgment

Caldwell Wasn't Lightning Fast But He Was—Struck

And Freaks of Lightning Are Not All the Freaks There Are
in Baseball—Some Strange Happenings
of Baldom.

BY FRANK G. MENKE.
Lightning plays queer pranks. A few weeks ago it hit upon Ray Caldwell, a pitching person, while he was performing on the mound, and flattened him upon the landscape. The undertakers rushed forward with embalming fluid, but even before they could get their injectors in working order, Mr. Caldwell rose up and resumed his pitching.

Before being struck by the heavenly judge, Mr. Caldwell had been a .475 pitcher, discarded by the Yankees and fired by the Red Sox. Also he had a famous thirst.

Since the bolt descended upon him from the skies, Mr. Caldwell has done this:

Won six out of seven games for the Indians; shut out the Yankees without a hit; ceased kicking his palate with a hit; ceased kicking his palate with a hit; ceased kicking his palate with a hit.

On you wonder why a lot of managers just now gaze at a few of their twirlers, think of Caldwell—and then begin passing a bolt of lightning?

OFFER \$25,000 FOR ERSTWHILE "DUB."

The case of Austin McHenry of the Cardinals, is just another illustration of the fact that in baseball you never can tell.

The youngster started baseballing in Portsmouth, Ohio, in 1915. He was with Milwaukee in 1916 and was drafted by the Reds in 1917. They found him wanting. So he was shipped back to the beer city. There the Cards picked him up for a so-called pitance.

McHenry returned to the National unheralded and unsung. At the same time a score of high-priced and highly-touted youths broke into the major league spotlight. They were "second tier" phenoms.

They've all gone back whence they came—and McHenry is one of the reigning sensations of "Big Time." The kid cost the Cards a thousand or so. The other day a \$25,000 offer was made for him—and refused.

THE "FALL DOWN" OF JOE WOOD.

They do a lot of funny things in baseball. For instance:

Joe Wood, the Cleveland outfielder, faced the White Sox pitchers in the so-called "crucial series" of a few weeks ago. The first time up Joe banged out a triple. The second time up he smushed out a homer.

It came time for Joe to bat the third time. He grabbed his trusty bluegown—but to no avail. "Trix Speaker," the managerial person, waved him aside and sent in a pinch hitter.

"Why did he do it?"

"Oh," explained a wag, "it's because he fell down in his batting the first times up. He hit for a total of only seven bases in two trials and he should have hit for eight."

Shame on you, Joe Wood.

BASEBALL'S TRICKIEST PLAY.

Charles Dooin, ever regarded as a quick thinker of the national pastime, executed a trick the other day that has caused countless pro and con arguments.

Dooin, former manager of the Phillies, and one-time catcher and coach for the Giants, now is leading the Reading Club in the International League. Reading was leading the Rochester team by a lone run. Along in the eighth inning, Rochester filled the bases with two men on. Two strikes and three balls had been called upon the batsman. At that moment Dooin turned to Umpire Stockdale and said:

"Now watch this. We are going to pull something good."

The pitcher delivered the next ball wide at the plate, whereupon Stockdale yelled "Four balls," and told the batter to proceed to first. This action apparently forced in a run, and the man on third started for home. Dooin, nonchalant, walked up the line and tagged the incoming batsman.

Having done this, Dooin rushed over and said to Stockdale:

"I claim that the side is out."

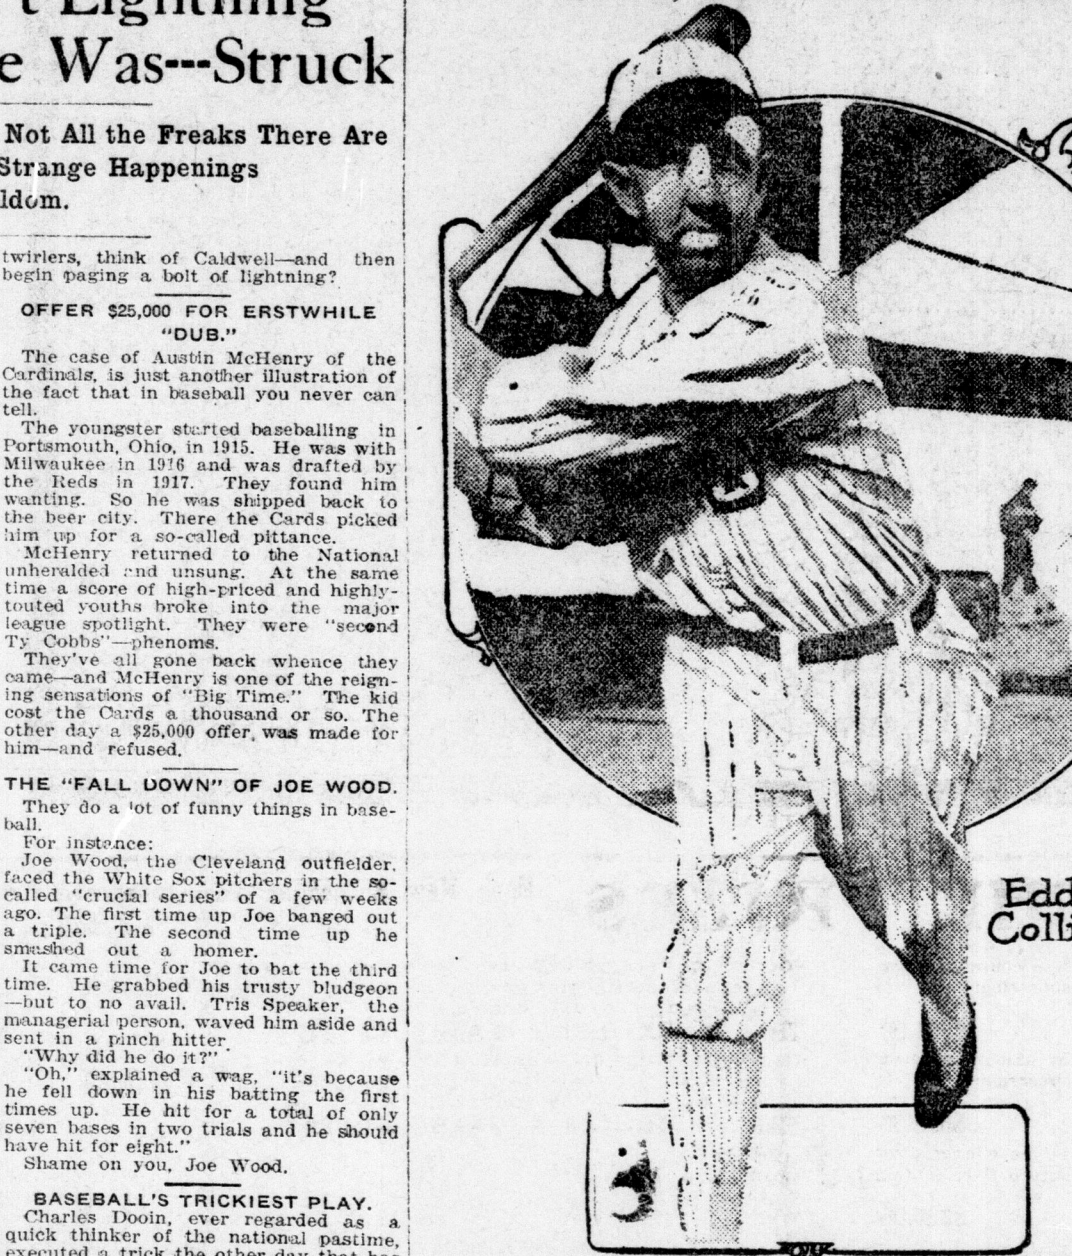

Stockdale looked at Dooin in amazement.

"Why, that man just got his base on balls and the run was forced in," retorted Stockdale.

"You're wrong," said Dooin. "The pitcher was not on the mound when he threw the fourth ball. I told him to stay off it purposely. He was in a bulk position when he delivered that ball, and therefore I claim that when I tagged the man coming from third he is legally out."

And Stockdale, strange as it may seem, reversed his decision, called the runner out, thus retiring the side. The future which followed this ruling has extended throughout the eastern baseball world, and everywhere there is argument as to whether or not Stockdale was right in his first ruling or whether Dooin was correct in his claim.

AGED, BUT NOT INFIRM

The veteran second sacker celebrated his fourteenth anniversary in baseball by sliding in as leading piffner of the American League, and he still gets a few in the grooves he likes as evidenced by his position among the swatters.

WHITE SOX HAVE TO LOSE FIVE GAMES TO DROP PENNANT

Naps Can't Lose One Game—
20,000 Applications For
Seats To Be Returned.

CHICAGO, Sept. 22.—Approximately 20,000 applications for the series tickets have piled up at the White Sox Park and must be returned to the senders, as the reserved and box seats have been sold.

The pennant race in the American League cannot be settled before Wednesday, as neither Chicago nor Cleveland will lose one game. The percentage figures show that if the White Sox win one of the two games, Chicago loses all five of its games, and Cleveland wins four of the five, will go to Cleveland. The Cleveland Club reduced Chicago's lead to four games yesterday by winning from Washington.

The sessions will be held at the Chateau Laurier and will be the first of the kind since 1914. The tremendous post-war sport revival throughout this country presages keen competition for the championships and points to interesting and profitable meetings of the legislators of amateur sport.

On Thursday, September 25, the annual meeting of the A. A. U. of C. will be held, and the evening will be devoted to conferences on various branches of sport. The governors of the union will meet on Friday, September 26, and there will be a general conference under the direction of the reconstruction committee of the A. A. U. appointed in response to a request for co-operation by the soldiers' civil re-establishment commission.

Cincinnati Wins Toss For First Two Games

Next Three Will Be in Chi, With Sixth and Seventh in Red-
land—Location of Ninth Game Will Be
Decided by Lot.

CINCINNATI, Ohio, Sept. 22.—Cincinnati, for the first time in its history as a National League city, will, on Wednesday, October 1, witness the opening game of the series to decide the championship of the world between the Cincinnati Reds, winners of the National League pennant, and the Chicago White Sox, the prospective winners of the American League pennant. Chicago has not yet clinched the flag in the junior league, but the National Commission made its arrangements on the theory that it was almost impossible for Cleveland, the runner-up, to nose out Comiskey's club. All games are scheduled to start at 2:30 p.m.

The decision to open the baseball classic in Cincinnati was decided on a coin-toss by Louis Comiskey, son of the owner of the Chicago club, August Herrmann, president of the Reds, called "head" and won. When it was announced that Herrmann had lost, but examining the coin, one of the new half-dollars, Louis Comiskey said he was mistaken and that Mr. Herrmann had won.

Next Three Games.

The teams will play the first two games in this city and the next three will be played in Chicago. After then jump back to Cincinnati for games six and seven, if this is necessary, and before the series is decided by a coin-toss, the series, which will be played in Chicago, it will be decided by lot where the ninth game shall be contested should the series stretch out to this length. The schedule as drawn, calls for continuous playing on each day, weather permitting.

The Advertiser Offers 50 Cash Prizes, Having a Value of \$2,750.00, to Those Submitting the Best Solutions of Its Circle Puzzle. Everyone May Enter This Contest, Which Is Merely a Test of Accuracy and Perseverance.

The London Advertiser's Own Puzzle Contest

**All Payments Apply on Sub-
scriptions, So You Can't Lose**

The Problem

Count the circles in the Puzzle Chart. Every circle is complete and the chart is entirely free from tricks and illusions. However, to pick out every circle and count it requires patience and care. Those who do this the best will win the valuable cash prizes offered for solving the puzzle.

Any method which contestants hit upon that seems to be best adapted to making the count may be adopted. The Advertiser will be glad to receive short notes explaining how the results were obtained. As many different solutions may be submitted as contestants wish. Before sending in a solution, however, read the general rules carefully.

This contest will not only prove profitable to the winners of the prizes, but solving the puzzle will also prove to be a pleasant and fascinating pastime. Taking advantage of this opportunity may net you as much as \$864. The plan of this contest permits everyone to work out his own results. He will not only know what he has done himself, but will also have an opportunity to check up the work of his competitors.

Read carefully all the rules, then make up your mind to enter this very interesting contest. It is open to all present subscribers, as well as to those who wish to become subscribers.

As the main prizes have an increased value, according to the amount paid on subscription when solutions are filed, contestants should familiarize themselves with the prize list before sending in their solutions.

Additional puzzle charts may be obtained at The Advertiser office, or they will be mailed to all who send a self-addressed, stamped envelope for them.

How To Enter

This contest is open to present bona fide residents of Ontario.

Anyone in this territory may enter the contest upon payment of not less than \$2.00 or more than \$12.48. This amount will be applied to subscription to The London Advertiser at regular subscription rates. It may be applied on either the morning or evening edition, or both.

You may submit just one solution or as many different ones as you wish. With each solution you must pay not less than \$2.00 or more than \$12.48. The total amount paid, whether you send one or more than one solution, will be applied to one continuous subscription, unless you otherwise direct. If you are already a subscriber the amount, or amounts, you pay will be applied to extending the time you are paid to. If you are a new subscriber the amount paid will be credited to you and your subscription started at once.

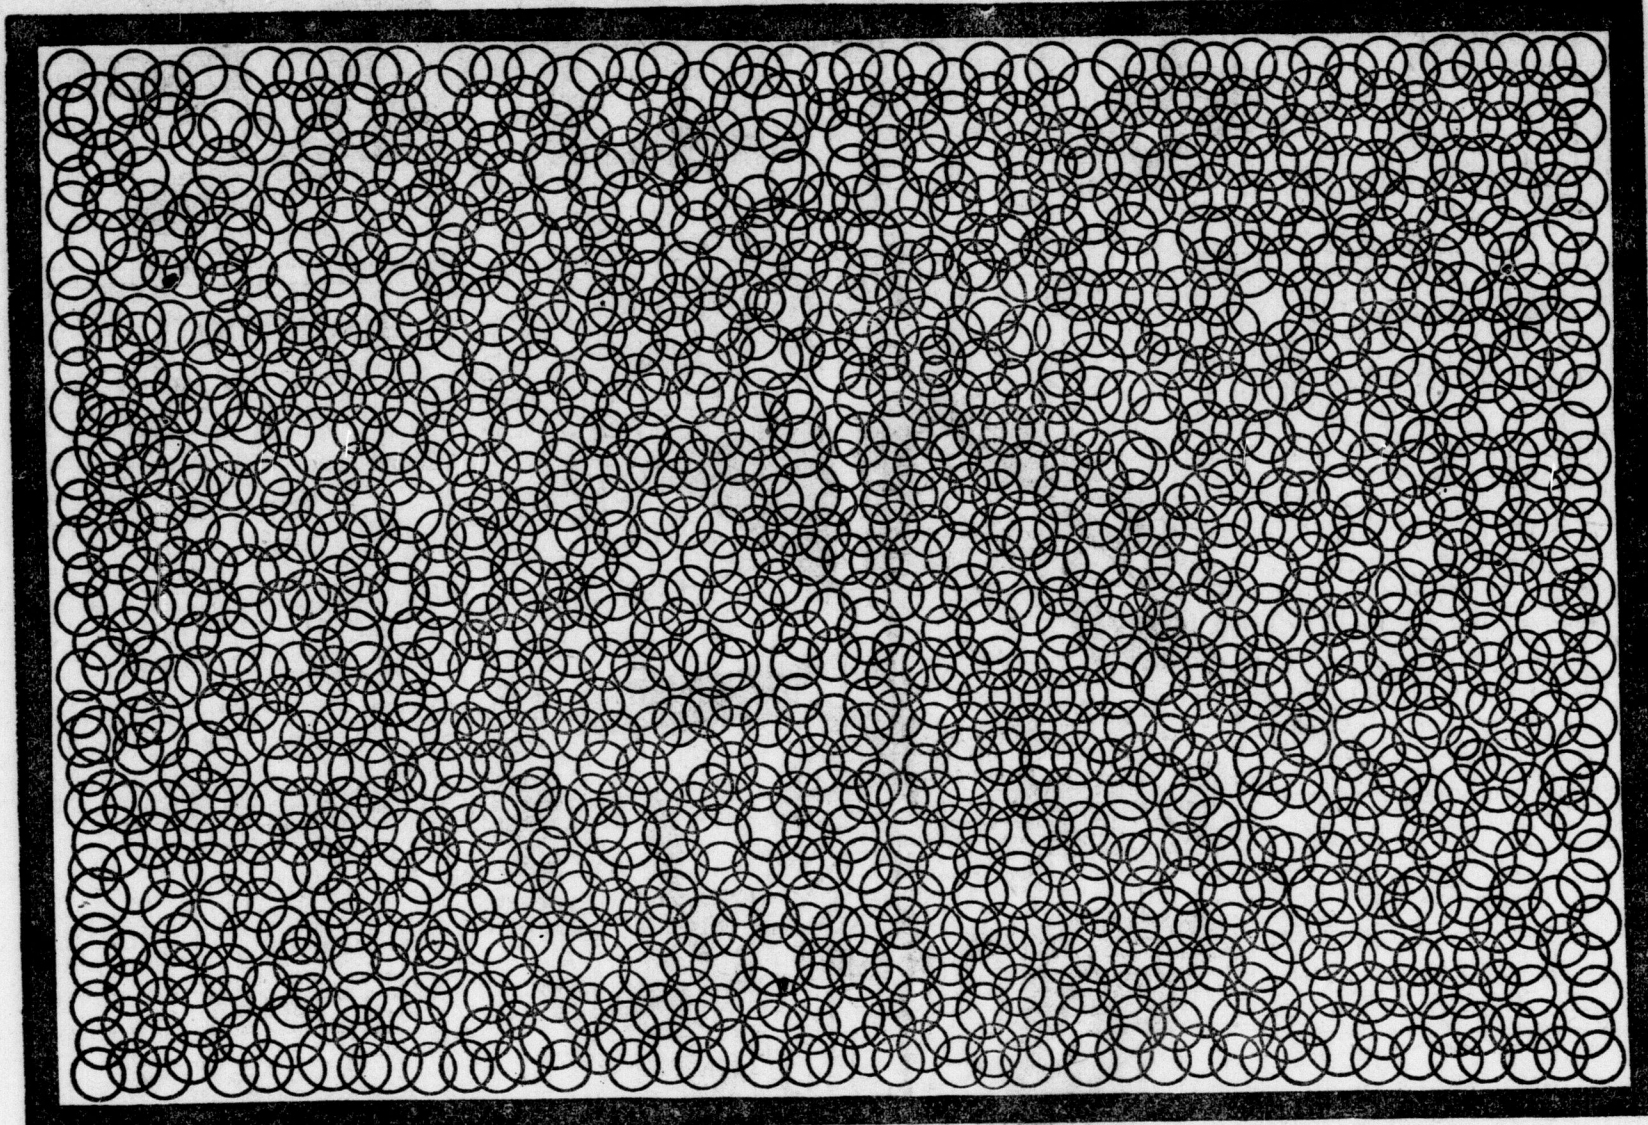

Present subscribers, wherever located, will continue to receive the paper through the same channels as now. No change whatsoever will be made in carriers where subscribers receive the paper through carrier service. All carriers will receive notice that the subscription has been paid and be instructed to collect the amount from The Advertiser office. The same will be done where the paper is being received through an authorized newsdealer.

If you send more than one solution at one time send a separate blank with each one and state in each blank the amount you are paying with that solution.

This contest is open to both men and women. You may order the paper sent to someone else if you wish, names and addresses being subject to any changes that later may be desired.

**Contest Closes at 9 p.m.
Saturday, November 1**

The sooner you send in your first solution the longer time you will have to go over your figures and send in another solution if you find you can do better.

(COPYRIGHTED.)

Deciding Ties

In the event of ties those tying will be required to solve a second puzzle in order to determine who shall receive the prizes. This second puzzle, if one should be required, will be equally as attractive and practical as the first. Under this plan those who win will be assured of receiving the full value of their prizes without having to divide them with other contestants. Should still further ties ensue a third problem of the same order as the second will be submitted to those again tied to solve. This plan will be continued until all have been eliminated except the actual prize winners. Should there be no ties on the first puzzle, only the one, of course, will be presented. In the event that a second puzzle is required, one week will be allowed in which to solve it. This will prevent the contest being prolonged for any unusual length of time.

General Rules and Information

There is no objection to several members of one family or several friends working together to obtain a solution, provided only one of them turns the solution in. The prizes are awarded for individual effort, and it would not be proper for one person to turn in a solution, then give it to someone else, and for the latter to submit it as his own.

If the paper is already being sent to your residence, either by carrier or through the mails, send in the renewal in the name of the person who is already subscribing. If some other member of the family wants the solution credited to him, or to her, merely attach a note to the blank giving the name of the one who wants to have credit for the solution. The purpose of this is to avoid sending two papers when only one is needed.

When, in the judgment of the Contest Manager, more than one member of the same family, or any others, send in two or more solutions which have the appearance of having been worked in collusion. The Advertiser will reserve the right to use its best judgment in refunding any of the subscriptions paid in connection therewith and rejecting the solutions.

Information will be furnished and rulings made on any points contestants may want information about. The Advertiser reserves the right to decide any and all questions which arise, and those entering the contest as a part of the contract must and do agree to abide by such rulings.

The date a solution is filed has nothing to do with its winning a prize. It is always safe, however, to send in a solution as early as convenient. Then you will have ample time to go over your figures and, if you find you can get a better solution, you will still have an opportunity to profit by your later effort.

As many prizes will be reserved as there are people tied before any prizes are awarded for less correct solutions. That is, if three people should tie on the best solution the first three prizes would be reserved for them, and they would be awarded these prizes in the order of the standing of their solutions of the next puzzle. That is, the best solution would be awarded the first prize, the next best the second and the third best the third prize.

All solutions must be sent in on the blank herewith. No solution unaccompanied by a cash subscription will be accepted. No solution may be changed after it is once registered.

No one directly or indirectly associated with The Advertiser will be allowed to participate in this contest.

Important Features

The attention of contestants is called to two important features in connection with the prizes.

1. While the amount you pay for subscription to The Advertiser has no effect on your winning a prize, it does affect the value of the first five prizes should you win one of them. For instance, each of the first five prizes has a fixed value, to which is added from five to fifty times what the winners pay when they register their solutions. This is explained further in the prize list.

2. The first five prizes may also be increased ONE HUNDRED DOLLARS each by your interesting five persons who are not now regular subscribers to become subscribers. You will receive twenty dollars for each one, whether you secure one or five. Each one of these new subscribers must pay not less than the minimum amount (\$2.00) required of

contestants. They may pay up to the maximum (\$12.48) if they desire, and they may also become competitors for the prizes if they wish to submit one or more solutions of the puzzle. That is, they may enter the contest under the same conditions exactly as any other contestant, the payment they make entitling them to entry.

The name of each one of these new subscribers must be sent in on one of the accompanying blanks, whether he becomes a contestant or not. The fact that he was secured by you must also be indicated in the proper place provided in the blank, so you will receive credit. You may send in any or all of these five names whenever you wish, either when you send in your own solution or later. Just use one of the blanks for each one, and then there will be no mistake made in regard to your getting due credit.

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy, Stomach and Acid Indigestion.
Doubtless if you are a sufferer from indigestion, you have already tried pills, cathartics, soda, charcoal, drugs and various digestive aids and you know these things will not cure you. In some cases do not even give relief, but before giving up hope and deciding you are a chronic dyspeptic try the effect of a little bit of Magnesia—this is not ordinary commercial carbonate, citrate, oxide or milk, but the bisulphate of Magnesia which you can obtain from practically any druggist in either powdered or tablet form.
Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal. You will see a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy feeling that seems to follow most everything you eat.
You will find that provided you take a little bit of Magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the bisulphate of Magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

BITRO-PHOSPHATE IS GOOD FOR THIN NERVOUS PEOPLE

A PHYSICIAN'S ADVICE.
Frederick S. Kelle, M.D., Editor of New York Physicians' "Who's Who," says that weak, nervous people who want increased weight, strength and nerve force should take a 5-grain tablet of Bitro-Phosphate just before or during each meal. Bitro-Phosphate is the discovery of a famous French scientist, and reports of remarkable results from its use have recently appeared in many medical journals.
If you do not feel well; if you tire easily; do not sleep well, or are too thin, go to any good druggist and get enough Bitro-Phosphate for a two-weeks supply—it costs only 50 cents a week.
Eat less; chew your food thoroughly, and if at the end of a few weeks you do not feel stronger, and your nerves are not steadier, if you do not sleep better and have more vim, endurance and vitality, your money will be returned and the Bitro-Phosphate will cost you nothing.

ITALY APPEALS TO THE ALLIES FOR FORCE TO DRIVE D'ANNUNZIO OUT OF FIUME

Attempt by Jugo-Slavs Forces To Land on Dalmatian Coast Repulsed by Italians—Fiume Itself Is Still Quiet.

LONDON, Sept. 22.—(Associated Press.)—The Italian Government has appealed to the Allied powers to send an Allied force, exclusive of Italians, to drive D'Annunzio out of Fiume, according to a report here tonight which is considered reliable.

LONDON, Sept. 22.—An attempt by Jugo-Slav forces to land on the Dalmatian coast has been repulsed by Italian troops, according to a report here tonight which is considered reliable.

PARIS, Sept. 22.—There were indications today that the supreme council might agree upon a settlement of the Dalmatian question on the basis of a formula making Fiume Italian, but neutral—that is, not allowing Italy to keep troops there and internationalizing the docks and railways, thus safeguarding the Jugo-Slav and central European interests.

LABOR MEETING FAVORS HOME RULE IN IRELAND

Urges Same Measure of Autonomy as in Canada and Australia.

PRECIPITATED BY RESOLUTION ASKING CLEMENCY FOR DEFAULTERS.
HAMILTON, Sept. 22.—(The Trades and Labor Congress) met at 8 o'clock this afternoon for its annual session, and seven resolutions out of over one hundred submitted to the committee were discussed and discussed.

Several speeches were made by delegates supporting the motion for the recommendation of the committee and the original motion, as put by Delegate Thompson. Some members maintained that the congress should refrain from adopting any resolution dealing with the Irish home rule question, but the number held the opinion that as the matter had been under consideration by other trades union congresses, the Canadian body should make a pronouncement.

Should Be Dealt With.
"The British Trades Congress and the American Federation of Labor have made pronouncements on the question," declared Fred Bancroft, Toronto, the chairman of the committee. "I think we should be big enough and broad enough to deal with any question that comes before us."
When the vote was taken the motion was carried by a fair majority.

A storm of discussion resulted when the committee refused to concur in a resolution urging that the Prince of Wales be asked to use his influence for royal clemency towards the defaulters and deserters under the military service act.
Delegate Wood announced his unalterable opposition to the resolution, and declared that clemency should be requested. He was followed by Delegate Lang, Hamilton, who declared that his sons had gone overseas and a number of them had returned wounded and in extremely poor health.
"And now I am faced with this resolution," he declared, "and I am not going to support it."
John Thompson, Montreal, declared that the continued inaction of these men would serve no purpose, and supported the recommendation of the committee. He was followed by Vice-President David Rees, who referred to the consistency of conscientious objectors in opposing military service. He intimated that he held no brief for deserters—men who had enlisted of their own free will and then deserted from the army. He thought that conscientious objectors were honest in their expression of horror at war, and now the conflict was terminated should not be kept in confinement.
The story of hands proved that the delegates were almost evenly divided, but the recommendation of the committee was sustained.

Among the non-contentious resolutions adopted were: That the United States printer, and at the same time safeguarding the interests of Canadian authors and composers. A motion calling for the abolition of property qualifications for members to municipal councils was defeated.

STEEL STRIKE WILL BE LONG AND BITTER

Too Much at Stake For an Early Decision.

BOTH SIDES CONFIDENT

Labor Leaders Say 284,000 Out of Total of 500,000 Are Out.

PITTSBURGH, Pa., Sept. 22.—At the end of the first day's skirmishes in connection with the strike in the iron and steel industry of the United States both sides in the bitter struggle claimed the advantage. The Steel Corporation, against which the brunt of the attack was made, was able to operate most of its plants in the Pittsburgh district, according to officials of the concern. What tomorrow will bring they could not say, but they expressed confidence that in view of the fact that the steel workers did not cause a general tie-up, as was predicted in some quarters, they would have more men at work the second day than the first.

The union leaders at headquarters of the national committee of steel workers declared that they were highly pleased with the answer made by the thousands of organized and unorganized men engaged in the industry. William Foster, secretary of the national committee, predicted that the intensive campaign to unionize the plants of the Steel Corporation, but independents as well, would result in bringing many more thousands of steel workers into the ranks of the union, he said, on reports received from union leaders in the steel districts of the country. He estimated that approximately 284,000 men out of the half million engaged in the industry answered the strike call. In the Pittsburgh district alone, he said, 71,000 men were out.

While corporation officials refrained from going into figures, their statements of the situation did not agree in any particular with the figures issued by Secretary Foster. It was claimed in some quarters that more than 15,000 workers in this district answered the call. It was admitted by the officers of the Carnegie Company, the Steel Corporation's largest subsidiary here, that some of the plants were short-handed, but that no men reported on the day and night shifts to permit all of its important mills in the district to operate almost at 100 per cent.

Not Crippled.
At Homestead, Duquesne and Braddock, where the Steel Corporation has immense plants, there was a sharp conflict of claims as to the effectiveness of the strike. The Carnegie Company, through a representative, said that little difficulty was experienced in operating the works at these places. This was denied by Secretary Foster and organizers sent into some of the plants. Mr. Foster claimed there were 9,000 men on strike at the Homestead works, the scene of several bitter struggles in years past. The company said this was not true, as it was not true that the company was short-handed, and that the work was not crippled.

Mr. Foster said his reports showed 5,000 men idle at Braddock and 15,000 at the plants at McKeesport and Duquesne.
There were many idle men noticed on the streets of Braddock, McKeesport, Duquesne and Braddock during the day, but whether they were largely strikers or men making their way to work was not definitely determined.
According to officials of the Jones & Laughlin Steel Company, that concern was but little inconvenienced by the strike. It was claimed that a few defections, followed by a few more at the noon hour, but representatives of the company were also there, and the normal number of men who lay off each day.

Foreign-born.
Virtually all reports from the side of the employers mentioned that the great majority of strikers were foreign-born and that generally speaking the American-born workers did not respond to the strike call. It has been repeatedly admitted by union leaders that the majority of the men employed in the steel industry are of foreign birth and that it was but natural that a large percentage of them should figure in the strike.

Setting aside the question who is nearest to the accurate number of men out, corporation officials tonight said they were of the opinion that the steel strike probably would prove a bitter and possibly a long one. Both sides had too much at stake, and the principles involved were too important to be brushed aside in a short strike unless it was decisive in settling the questions at issue.
J. P. Morgan's telegram to E. H. Gary, congratulating the latter on his stand on the open shop question, was pointed to as additional evidence of the stand large capital has taken in the present struggle.

ST. THOMAS, Sept. 22.—Wednesday at 2 o'clock in the time set for the convention of West Elgin Liberals at Dutton who will select either one or two candidates. The keenest interest is being taken in the question here, and a good turnout of delegates is anticipated.
Delegates will be chosen Tuesday night and a meeting of the local Liberal association will be held at the club room afterward to make further arrangements. The party will journey to Dutton on the train at 11:40 a.m. on Wednesday. Contrary to reports apportioned to the local Liberal association, there has been no choice as to a possible candidate, and no one will be chosen until the meeting is held.

ESCAPED FIRING SQUAD, NOW SERIOUSLY ILL.
PARIS, Sunday, Sept. 21.—Pierre Lenoir, under sentence of death on a charge of having committed the crime of intelligence to the enemy and who was saved from the firing squad last Friday by an appeal to the under-secretary of state for military justice, was reported today to be in a very serious condition. His lawyers called at his cell this morning and found him with a high fever, seeking in desperation to articulate distinctly a single word.

BRITISH MINISTRY OF FOOD MAY RECONSIDER DECISION RE CHEESE

OTTAWA, Sept. 22.—The dairy commissioner has received a cable from the British ministry of food, in reference to the purchase of cheese, which reads as follows:
"Further re-balance this season's exportable surplus of cheese. Matter now being reconsidered. Definite decision may be expected in about ten days."

HORLICK'S Malted Milk for Infants

A safe milk diet, better than cow's milk alone. Contains rich milk and malted grain extract.
OLD FOLKS' RECIPE FOR WEAK KIDNEYS
While people well along in years are more subject to weak kidneys and bladder than younger folks, their trouble need not necessarily be serious, and can often be easily corrected by a safe, simple home kidney regulator that acts promptly. A good plan is to stop eating meat, sugar and sweets for a few days, and get a good dose of Horlick's Malted Milk. This food is made of the blood that causes the kidneys to go slow and sluggish. Twenty-four hours generally shows the effect, and the kidneys soon are forgotten, and sufferers are enabled to get a good night's sleep without getting in and out of bed several times during the night.
Do not suffer another day, but see at once if Solvay will not relieve you. If you find it does not tell the druggist so, and he will cheerfully return the money you paid him for it. We know no stronger argument for any medicine than the willingness of those who sell it to stand back of it in this way. If your druggist cannot supply you, write, enclosing 10 cents, to Horlick's Malted Milk Company, Postoffice Box 338, London, Ont.

WAR WAS FORCED ON SERBIA BY AUSTRIA'S FOREIGN MINISTER

Archives of Former Empire's
Government Reveals
Startling Evidence.

COUNT TISZA OBJECTED

Hungarian Premier Insisted
On Diplomatic Measures,
But Was Overruled.

Vienna, Sept. 20.—There were made public today from the archives of the former Austro-Hungarian Government minutes of the meeting of the petty council on July 7, 1914, at which it was virtually decided to begin war on Serbia. According to this publication, the ministry of Austria-Hungary, especially Count Leopold von Berchtold, foreign minister, was solely responsible for the outbreak of hostilities.

The minutes show that Berchtold had been opened by Count von Bethold, who pleaded for an immediate resort to arms against Serbia, stating that Italy and Rumania "could be compensated afterwards for not having been consulted beforehand."

Count Stephen Tisza, then Hungarian premier, opposed war, demanding that diplomatic measures be taken, and then that an ultimatum of an acceptable nature be sent. Only in case both failed would he have resorted to arms.

Ministers Favored War. Count von Berchtold thereupon said: "Now is the right moment, because Germany is ready to assist." Count Karl Stürgkh, former premier, also favored war, and Field Marshal Ritter von Krobatin, former minister of war, said he anticipated no success from diplomatic steps, which meant weakness, adding that military success alone is of value.

Count Stürgkh said: "After beating Serbia, we will take the grown away from the Karageorgovich dynasty, and give it to a European prince, Austria retaining suzerainty over the country."

Count Tisza again warned against the danger of a general European war as a result of steps which were contemplated, whereupon Count von Berchtold said: "The opportunity is so favorable that immediate action is necessary."

Finally a resolution was adopted that such far-reaching demands be made of Serbia that she could not fulfill them, and thus a way would be opened to a resort to arms.

Count Tisza then said: "I am willing to resign if it is in direct opposition to my views."

On the afternoon of the same day another meeting was held at which mobilization was discussed. The chief of staff was asked by Count Tisza if it was possible to effect a mobilization which would appear to be against Serbia only, but at the same time make it possible to march Russia also if the troops could be spared, and to keep Rumania in fear of invasion.

In the publication, the minutes say the council then discussed the probability of a general European war, and what course the Austrian Government would take. This latter point, and a decision that was reached relative to it, are also omitted. At this meeting Count von Berchtold expressed the opinion that those divergencies of views among the councillors which might have frustrated a decision "disappearing." The document concludes with a copy of a note from the late Emperor Francis Joseph to the king of the Serbs, and the contents of the minutes, and he had signed them with his own hand.

WINNER OF MEDAL FOR LIFE-SAVING AGAIN SAVES TWO

WINDSOR, Sept. 22.—Clyde White, son of Mrs. M. T. White, a prominent Windsor woman, who in 1901 was awarded the medal of the Canadian Royal Humane Society for bravery in saving the lives of four persons in Lake Huron, a few days ago performed a similar heroic act when he rescued from a watery grave at Lake Simcoe, Muskoka district, Mrs. Annie Scott, aged 65, of Hamilton, and Miss Jessie Richardson, her nurse.

The old lady had fallen off the dock into 25 feet of water, and her nurse, although unable to swim, had leaped in after her patient. Both would have gone down but for the arrival of Mr. White, who brought both to shore in safety.

The young man is a traveling salesman for Fredrick Stearns & Co., and is spending his holidays in the Muskoka district.

DIRECT ACTION TO BE CONSIDERED AT LABOR CONVENTION

Resolutions of Vital Importance
To Be Submitted At
Hamilton Gathering.

TO DISCUSS GRATUITIES Minimum Wage of \$5 Per Day Will Be Urged.

Hamilton, Sept. 23.—Discussion of resolutions is expected to occupy the attention of the delegates to the 55th annual session of the Dominion Trades and Labor Congress at the meetings to be held today.

Resolutions have been submitted and are now under consideration by the committee on resolutions, presided over by Fred Bancroft of Toronto. A great number of these deal with questions of vital importance to the laboring classes throughout Canada, and the discussions are certain to prove "loud and long."

The following motion will probably cause the greatest discussion: "Whereas, the present form of organization in this country is no longer adequate to protect our interests, we it resolved, that this congress please itself on record as in favor of direct action and the industrial form of organization, and takes immediate steps to form the same."

Many Resolutions on List. Resolutions have been submitted favoring the nationalization of cold storage plants and food-producing factories; the establishment of co-operative societies; a minimum wage of \$5 per day for eight hours; the fixing of a maximum profit, not exceeding 15 per cent on all necessities of life; granting of pensions to widowed mothers; the repeal of the industrial disputes act; recognition of collective bargaining; and the granting of wages to rural workers similar to those paid in urban communities.

By way of diversion, the congress will be called upon to consider a resolution supporting the demand of a number of returned soldiers for a gratuity of \$2,000. The motion also embodied a request that a similar sum be paid to imperial soldiers who enlisted from Canada.

The work of W. F. O'Connor and the board of commerce is commended by another delegate in resolution submitted to the committee.

Members of the congress are commenting on the record number of delegates attending, and they point to the increase over last year as an outstanding acknowledgment of the interest being taken in trades unionism all over the Dominion.

FINANCIAL AND COMMERCIAL

THE LOCAL MARKET

Potatoes were a little lower in price on the local market, selling at \$1.90 and \$2.15 per bu., and \$6.00 a peck. Because only one load of hay was offered yesterday, there was a very heavy demand for it this morning. The top price went up \$1.40.

Tomatoes were a little firmer, although the supply was large, some bringing 50c.

Grapes were quoted as high as 60c, and were finding a ready sale.

No oats were offered, although the demand was good.
