gone through by freshmen have been imposed by the faculty, and no more fond parents bemoan the fact that their offspring have to suffer the tor-tures of the damned through the tooenthusiastic welcome of their senior: at university.

In past years the new student was wise if he wore his oldest clothes and Manager of Branch of Bank of visited the campus the first day imbued with the idea that discretion is the better part of valor, for the more resistance shown to the peculia fancies of the second-year men, the worse the predicament which the freshie fold himself in. He never knew which er he was going to be sent home in he B. V. D.'s or whether he would be sent in a fur coat and a straw hat. Some of them doubtless wondered whether they would ever get home.

London was unique, in that the were in the office, scooped all availand were really made to feel the rid cule of their position, and for a long time were teased about it. On his oceasion the freshmen were made to provide themselves with small fron trains, consisting of an engine and string of cars, and in the middle of the day they paraded along the main street of the city, pulling these toys after them, shouting as they went, "Choo-choo" or "Ding-dong." The streets were full of citizens wanding their way homeward for lunch and for days after, the only greeting the freshmen received when they met any friends on the street was "Choo-choo."

Last year at Western, the first-year nen were warned to wear their old est clothes and to meet on the campus at 8 a.m. the opening day. On arrival they saw the meaning of the warning, for the second-year students were lined up to receive them, and they did with open arms and fists. A real rough house ensued, in which the freshies nearly fooled others by winning the battle, but due to lack of organization. the effort failed and ended in ignominious sur-

render. Sorted Out Shoes.

Then, with their faces painted, minus shoes and their clothes torn to ribbons, the freshmen were piled into waiting motor cars and taken to the market square. Here they were formed up into single file and the lock-step, marched to the federal square.

Here their shoes were thrown in a huge pile and they were told to sort them out and go home. They did, and doubtless parents had many shocks when they saw the son who started out clad in fine raiment come home in rags and tatters.

But this year there will be none of that. No rough house will be tolerated, and, according to Dean Fox the students understand this and

ommy Holmes, Canada's Youngest V. C., Is Stricken With Tuberculosis.

NOW IN OWEN SOUND

Sound, Sept. 26 .- A little over uberculosis, and, it is charged, unable to secure any aid from the govrnment for which he fought.

Tommy Holmes V.C., is a quiet, entlemanly young man, he is not making any fuss over himself or his sickness. It was not at his instigation or with his knowledge that any newspaper articles were written by bim, but deep down in his heart commy Holmes, V.C., believes that he s entitled to a little more than he

"The D.S.C.R. representative here n Owen Sound, Dr. Richard Howey, tells me that I have tuberculosis. It is something I got when I was over-seas, but the D.S.C.R. doctors in Toronto tell me that they can do nothing for me because there is no record of any lung trouble on my record sheets.

Tommy Holmes spoke quietly as he sat in the little front room of the home here of his father and mother. But since I left the army I have not been feeling well. Last summer I was real rundown, but was able to build myself up, but I guess this year it has too firm a hold on me. I did not know I had tuberculosis, although had colds and a cough, until last June, when I went to Dr. Howey, and had an examination. He advised outdoor work, so when I went back to Toronto I changed from my old job Toronto Mr. James Chandler of Galt was first, Hydro-Electric, and did outside work r the meter department, but I found the work too heavy for me, and last week I came up here to Owen Sound. the rest of the time.' No Satisfaction.

"A returned man can't get any satisfaction from some of the men with the D.S.C.R. in Toronto," said Holmes. "For instance, I had my arm broken of the fractures was not straight. The doctor said at the time that gristle would grow over it. But it hasn't, and it hurt when I was doing bench work, so I went to the D.S.C.R. in Toronto and asked them to break the arm again and set it right, but they refused to do anything about it. Howey wrote them in June, and only got the letter yesterday, saying they would not do anything for me. Local people said they would be glad elp me out, but I think that would be too much like charity. I think it is up to the D.S.C.R., because there doubt I contracted the T. B. while I was overseas," he concluded "Holmes has tuberculosis all right, stated Dr. Howey to The Advertiser. He has cough and considerable expectoration, and is very subject to colds. For instance he has contract only since he came up here think he is very favorable subject for treatment. There is no doubt, though, that he must have outside work, and possibly it may be neces-sary that he be sent to Muskoka." As to whether Holmes' illness is who is a war veteran himself, declined to commit himself.

Hard To Tell. "It is very hard to tell just when ne got the germs," the doctor stated.
"He has been poorly for a long time though. I' did my best for him with the D. S. C. R."

Caused Fuss. This is the cause of the recent fuss that has been made in the French press concerning an alleged "separate nemorandum" submitted by Germany to Brussels. The "separate nemorandum" is nothing more than the text of the settlement proposals which France refused to receive. The prelude occurred when Stresemann appeared late this afternoon before the foreign relations committee of the Reichstag and renorted on the steps taken by the govnegotiations with France and Belgium which led up to them. Of course he said he couldn't do it: that he needed the money for other things, and he kept on saying these things until the employer, who had been all through it himself, said, "Look here, you can own that bond at the end of the year and I want you to. You'll thank me for my insistence some day."

At the end of the year he did own the bond, and at the end of the next year he owned another, \$1,000 in all. There was sacrifice a good many times, but he accomplished his purpose.

Today his \$1,000 bonds are worth more than that amount, and they pay him more than \$50 every year. Now, of course that may seem a very little amount to those who have much, but to many a man who has little a \$1,000 security is a real anchor, and means a great deal.

The opportunity is here again to buy government securities at the bottom price, and there are a number of plans put forward by reputable financial institutions whereby assistance will be given to carry the payments over a period of months.

The man who is not a large investor should look at this opportunity seriously. To the man who is able to invest there is little need to say anything. He knows. and he already has his application in for all he can

The man referred to above, who purchased his first \$1,000 in two years because his boss had sense enough to make him save his money, has already had over \$300 in interest money. His seeming sacrifice at that time comes around to nod pleasantly at him every six months in the shape of a coupon ripe for payment.

Those who are selling these bonds can do so with a clear conscience, and in the full knowledge that they are rendering a worth-while service to their customers.

A Rurglar With Intelligence.

A burglar has been operating in London, and at one place he secured a pair of trousers, going back next night for the coat. This burglar should put his intelligence to work on something better, for apparently he is a very wise burglar.

He has seen the man of the house going home; he knew he wore good trousers, nicely creased, and his mathematical eye took in the dimensions of the wearer and concluded that those trousers would fit him. A pair of prosperous, good-fitting make him look less like a burglar.

That shows he has some brains. He shouldn't burgle any more. A man who can size up a situation like that should make a first-class lawver.

\$205,829.73\$345,539.20 In this table the present city hall is put in at \$61,305. A building of that size directly across the road from the new city hall is worth more than that. The assessment department values it at \$90,000, and an offer of \$95,000 is understood to have been made for it. That would bring the amount in sight up to \$380,000. and the outside figure for the new city hall is \$600,000; in fact it might be done for less than that.

There has been a very determined attempt made to block the whole proposition, and the weak part of the move is that no good reason has been given for any such move. It has been charged that the mayor had been guilty of irregular conduct in the appointment of the judges of the plans. There is nothing at all to back up'such a statement, because the whole business has been carried on in a fair manner that sought to lay all

the facts before the people. The reasonable course now is to call for tenders and get to work.

The Boy Had Not Much Chance.

Considerable feeling has been aroused over the sentence of death being passed on a 16-year-old Eskimo boy, who has been found guilty of murder. From When chaperones were quite evidence it appears that the condemned boy did the killing because he was told to do so by others of his when chapterings were sow And persons drank unheeded.

The killing in this case was not the deliberate plotting and the decided action of the boy himself. had probably had no education, and had not lived in an atmosphere where his mind had a chance to realize the enormity of the crime.

There are probably other ways in which the ends of justice could be served in such a case, and no-doubt these other ways will have a chance to operate.

Finance Will Introduce Increases in Rentals For Stalls On Market.

According to the decisions of the finance committee arrived at last night, the following changes will be introduced in the rentals of the various stalls and sites on the market. The rental of the stalls in the Market Garden Pavilion will be raised from \$15 a year to \$50; the stalls in Covent Garden Market will be increased by \$2.50 per month, and the stalls in the basement be advanced from \$7 to \$10. This was the result of a motion athered by the mayor.

All these advances in the price of the rentals were strenuously opposed by Aldermen Drake and Greer on the ground that the market was primarifor the benefit of the farmer, and hat there was no business sense of

"What's the idea?" said Alderman Drake, "do you want to keep the farmer off the market altogether?" When Alderman Burdick stated that the city was entitled to some rentals on account of the money it spent on the market, Market Clerk Maker told the committee that in the last 21 years the city had put a new roof on one side of the market house, and had once whitewashed the walls. Increase Charge.

Mayor Wenige and Alderman Judd wanted to charge the farmers wives 25 cents a piece for the use of the tables in the basement, and the council will be asked to discuss this ques-tion on Monday night. The two market spaces will be dispensed with altogether on the unanimous decision of the committee. A proposal to change the position of the shed running east and west on the north side of the market was referred to the

The Western Fair Board stated in a letter that they will have to ask the city this year for \$9,347.04, which is their deficit on the gate receipts for this year. Their total gate re-ceipts were \$25,495.14, and the average for the past three years was \$35,842.18. This is another matter that the council will discuss on Monday night. Meanwhile, the Fair Board will be asked to furnish a complete statement of their receipts and expenditures.

Several deputations were heard by committee One representing the Welfare Association (George Reid), the Chamber of Commerce (James Gray), and the Red Cross (Mrs. Ronald Harris), asked the committee to endeavor to find some means of raising a relief fund for the Japanese in their present trouble, and was introduced by Mrs. Gray. The committee, who were favorable to the suggestion and thought it a desirable one, promised to give it their earnest

Ask Amendment. A deputation from the London Grocers' Association, led by Harry Ranahan, asked that the committee amend the city bylaw dealing with amend the city bylaw dealing with the hucksters on the market. They suggested that: (1) No vehicles be allowed on the market for the purpose of holding space. (2) That anyone selling anything that is not grown by him is a huckster. (3) That no foreign fruit or vegetables be sold on the London market. The committee, which was very much in agreement with the grocers, will instruct the city solicitor to prepare an amendcity solicitor to prepare an amend-ment to the present bylaw to include these suggestions.

Edwin Smith, secretary of the Old Boys' Association, appeared before the finance committee asking for a grant of some \$1,000, being the deficit of the association as the result of Old Boys' Week. He stated he received no salary or honorarium for his work, and had only charged the association for the actual expenses which he had incurred out of his own pocket. A police court stenographer was appointed at a salary of \$1,040 per year. A. A. Langford was awarded the contract of binding the city as-sessment books at a price of \$9.50 per book, this being the lowest tender. On the motion of Alderman Greer, Dr. Brittain of the Citizens' Research Institute, will be asked by the city clerk to send in his report on the city hall and the salary question with

CENTRAL'S GRIDDERS HAVE BIG JOB AHEAD

Must Fill Four Vacancies Because of Restriction To Bona-fide Students.

Some fifteen of Central Collegiate's uskies went through two hours' stiff gridding at Tecumseh Park yesterday fternoon, the only disappointing factor of the meritorious drill being the fact that there were only fifteen or so present. But those who were out were sent through signal practice and tackling, and they made the most of it.

Since it seems almost certain that Central will be minus at least four of the available collegiate stars in the city, through the decision of the Central Collegiate authorities to restrict the membership on Central's eleven to bona-fide students of Central, something crucial may face the coaches within a short time, unless athletes who are eligible for Central's squad turn out in thicker numbers.

A bigger squad, if promises are kept, will be on hand this afternoon. Yesterday's slump was not serious, since it has not been a regular occurrence, and today's drill, both in numbers and spirit may be the "sunshine after the clouds." through signal practice and tackling,

Sound Nine Whinfield Allows But Four Hits, Wilson's Homer Wins

Morden, Who Hurled No-Hit, No-Run in First, Not So Good As Usual.

Special to The Advertiser.

Owen Sound, Sept. 25.—In one of the most interesting games ever seen on the home diamond, Owen Sound defeated Wingham in the second game of the final for the North Wellington Baseball Association senior championship by the score of 3 to 1. The win was well deserved as the home team played fine ball throughout. At no eage of the game was any outstanding miscue noticeable. The win today ties the series, Owen Sound having lost the game in Wingham last Saturday, 5 to 0.

The oustanding players were Whinfield docause of his masterly pitching throughout the whole nine innings. His achievement of holding down the heavy hitters of the Wingham team to only four hits entitles him to much of the credit for the victory. Wilson, Owen Sound left fielder, made a remarkable catch of what looked to be a sure home run, and his quick return to the infield completed an almost impossible doubleplay. His good work was rounded out almost immediately after by hitting a home run, which clinched the game.

Morden, the Wingham pitcher, did and show up as well as in the former game, when he held the Owen Sound team nitless. His luck, however, did not hold good today, and when the Owen Sound team connected, hits meant runs.

A. SEN. TITLE BY DEFAULT

Tired of Way Guelph Has Put Off Games, Kitchener Eleven Withdraw.

Special to The Advertiser.

Kitchener, Sept. 26.—The management of the Kitchener Rangers soccer team today announced that they would not participate any further in the senior W. F. A. series. The Kitchener cub has written the W. F. A. to that cifect, and claimed the senior title, owing to the fact that Guelph failed to be ready to play last Saturday, when the final of four games was scheduled.

Two of the games were played in July, as scheduled, but the August games drifted until September. Then the W. F. A. set dates, but Guelph did not keep them. New dates were set, and in the first of these games Kitchener increased their lead from one to three goals. The final game, scheduled for last Saturday at Guelph, was poxponed, after the Kitchener team had called off a Mac and Casey cup game with Hespeler here.

Guelph's Last Title Hopes Go With 3--2 Defeat.

Special to The Advertiser, Guelph, Sept. 26.—Guelph's last hope of winning a baseball championship this year was dashed to the wall this afternoon, when the Guelph Outfitters suc cumbed to Welland in the second game of the O. B. A. A. intermediate semifinals. The game was by far the best intermediate exhibition witnessed here this season, and the victory gave Welhand the round by 15 to 7.

The outstanding feature of today's conflict was the brilliant twirling of deorge Garner, Welland's ace mounds-man, who only allowed the locals six hits, four of which came after the seventh inning.

Up till the eighth frame the young twirler was invincible, and he was only nicked for two bingles, but, despite his wonderful work, the Outfitters opened a rally in the second last inning that the but gave them the honors of the afternoon.

afternoon.

Four hits in this stanza accounted for Guelph's only two runs, and with none down and two men still on the paths, J. Garner in center field pulled his team out of a bad hole when he gobbied up Leader's high fly on the run and doubled Hamilton on a perfect throw to third after the catch. Kaine, the next batter up, singled, but the Outfitters lost their last chance of scoring when Schonfeidt flied to left for the third out. After this bad inning Garner finished up the ninth by retiring the side on three successive strike-outs. strike-outs, who pitched for Guelph, was also in good form, and twirled a nice steady game.

Both Teams Combined Well in Attack As 12-10 Score Shows.

Canadian Press Despatch. Ottawa, Sept. 26.—Goals were flying thick and fast at Lansdowne Park this atternoon, when the Hamilton Tigers took the Lauriers, City League champions of Ottawa, into camp by the score of 12 to 10 in the first game of a home-and-home series for the intermediate championship of the Ontario Amateur Lacrosse Association. The game, one of the fastest seen here for some time, was good, clean lacrosse, only two penalties being handed out, one to each cide. Both teams were loudly acclaimed for their combination play, which was always in evidence. Farr and Smith were the leading scorers and bright lights for the winners, while Tellemoose and Rockburn stood out on the local team. Both goalles were given plenty to do, and handled themselves well.

The Lauriers will journey to Hamilton this Saturday for the final game for the title. afternoon, when the Hamilton Tigers mile—Every Woman, \$10.10, \$4.80, \$3.60, won; Royal Crown, \$5.50, \$3.60, second; Fancy Free, \$3.80, third. Beat St. Peters Out of Title Yesterday-Play-Off Being Arranged.

St. Michaels Juniors defeated St. Peters by 6 to 4 yesterday in the Junior C. A. A. Baseball League, depriving St. Peters of the league championship, which honor they would have held had they won the game. The standing in-stead now shows a three-cornered tie first place, and a play-off will be necessary.

Burke, hurling for the winners, was unbeatable in the pinches, although his support wavered rather costly at times. Dromgole, for the losers, was very ineffective, and, with poor support, could not keep the north-enders under control.

LOCAL REFEREES TO MEET

A meeting of the local branch of the Ontario Referees' Association has been called for tomorrow evening at 8 p.m. in the chamber of commerce rooms, when several matters of importance will be brought up. It was stated last night that there is certain to be a thorough sifting of the question relative to the action of the L. and D. F. A. in the selection of referees.

Some action is expected, too, regarding the resignation of Secretary Barney Devlin. It is understood that his resignation has been in President Wilkins' hands for a couple of weeks, and while numerous members of the O. R. A. have held out hope that Barney might change his mind and consent to withdraw his resignation, the latter stated last night that plans for the Immediate future necessitated his withdrawal from office.

took the whole incident as another unintelligigle manifestation of the Anglo-Sexon genius. The affair was only an aside in the hard day's drill put in by the 60-odd candidates for positions with the Red and White first squad—the layers having had both morning and afternoon training periods.

The surprise of the day was the appearance of Hayes, the Sarnia lad. Hayes landed down here this fall from Sarnia, but, owing to his medical classification, it was considered that he was hardly fit for strenuous rugby. The next heard of him was that he had turned out with the Toronto Varsity squad. Now he is back in Montreal, and will know definitely tomorrow whether he is eligible for rugby or not.

Burns, Secretary, New Body.

Central Collegiate Institute's track and field committee was appointed yesterday afternoon by the Students' Council and the Athletic Association. E. O. Hall was appointed to the chairmanship, and Jimmy Burns secretary. The class representatives are: Bill Kress, first year; Charles Thompson, second year; Jimmy Burns, third and fourth years, and Ken Hunter, fifth year.

After the meeting the newly-formed committee met to discuss the coming joint track and field day to be held on Oct. 12. It was decided to launch a publicity campaign, covering the next two weeks. From the informal discussion, Central's prospects are daily assuming brighter aspects, and the outcome of yesterday's organization, it was hinted, might be a C. C. I. The part Johnny Evers played in Maranville's career is indicated by the fact that the "Rabbit" was at his best when playing alongside Evers. Since the little pepper-pot quit second basing Maranville has slipped slowly but surely. He is still a good shortstop, but not the best.

Also hear that Dutch Ruether, ex-Red, and last year the big star of the Brooklyn Dodgers, is booked to move again. The hunch is that the two may be the principal figures in a trade during the approaching off-season.

The Boston Braves have just pur-chased from Pittsneld, in the Eastern League, a young pitcher named Joe Batchelder. He is just ending his first year in professional baseball. Art Wil-son, former Giant and Brave catcher, is given credit for turning Joe into a promising flinger over the space of a few months.

New York, N. Y., Sept. 26.-Betting as begun on the world's series, with the New York Yankees slight favorites, although it has not yet been settled to a mathematical certainty who to their opponents will be.

Gambling is the most reprehensible thing connected with baseball-or for that matter any sport.

When money moves in, sports drop out; but apparently betting can't be stopped. There have been a few bets placed on the Yankees at 6 to 5, but these bettors were foolish. Quite a lot of Giant money, assuming the Giants will be the Yankees' competitors, has been offered at even, and after all. these are only terms. Any normal world series is an even money bet. Charles H. Ebbets, president of the Brooklyn Nationals, rises in a fine burst of local pride and old baseball thusiasm, announcing his team is going to beat the Giants out of the championship. This event, he says, will add twenty years to his life. That's the way they used to talk when the Ansons and that crowd

BEST IN HISTORY

Special to The Advertiser. by a Staff Reporter.

Lambeth, Sept. 26.—Favored with ideal weather and an enlarged list of new features, the Lambeth Fall Fair held today was said to be the best that has ever been staged since the founding of the Westminster Agricultural Society. The exhibits were all arranged by noon, and by 2:30 the judging had been completed, leaving the exhibits open to the inspection of the visitors for over three

Another interesting and new feature added to the sport program, was the tug-of-war, for which E. M. Burk of Lambeth donated a purse of \$50. The award went to the team from Mount Brydges, who defeated a pick ed team of husky men from the Onario Hospital.

The other competitive classes showed a largey entry list than formerly, and the officials had quite a task in seeing that all the judging and placing in the different classes went rithout a hitch. The results of the judging are as

Sir Edward Grigg States Real Peace Impossible Until Lausanne Pact Revised.

DRIVE OUT TURKS

Canadian Press Despatch. Ottawa, Sept. 26.-In the opinion of Sir Edward Grigg, M.P., who was a guest today at a Canadian Club luncheon, the peace of Europe is jeopardized by the Treaty of Lausanne, and there will be no real peace in Southwestern Europe until the treaty is revised to conform with the aims for which the allies fought in common. These aims, he said, were the exclusion of the Turk from Europe, the freedom of the straits for all nations, and the protection of minorities in Turkey.

"The Turk was absolutely defeated in the late war, much more so than Germany," said Sir Edward, "and the allies might have imposed their own terms. There had been procrasting tion and division, however, of which the Turks had profited, and today the Turk was back in Europe." he continued, " to be the porter of the Dardanelles under diplomatic formu-lae which amounted to nothing; and furthermore, the Christian nations were likely to continue to receive the heart-rending appeals of the minorities in Turkey.

Poisoned Point.

"Turkey was likened by Sir Edward to the poisoned point of a spear in the body of Europe, the infection from which might spread and affect its health, or in other words, peaceil relations. Sir Edward said he for its attitude in withdrawing from participation in the settlement of Europe which the United States as represented by President Wilson had n some sort outlined. The main dea with which the peace settlement started had been proved impractical, he said. This idea was that the democracies of the new world, in-cluding the dominions of the British empire, could be called in to guarantee settlements in Europe, and to maintain peace by definite commit-

It should be realized, Sir Edward everred, that democracies cannot be bound in the dark to commitments as to what they will do under novel conditions. Even if such commit or their parliaments would be very likely to renounce them when the

Sir Edward Grigg expressed sympathy with Canada's attitude at Geneva with regard to article 10 of the League of Nations, which is that a country should not be committed to

a country should not be committed to go to war unless by the sanction of its own parliament.

If then, he asked, the commonwealth of nations which comprise the British Empire is not to be committed to definite obligations in Europe, should Great Britain alone undertake such obligations? He answered his own question negatively.

maritime provinces, Ontario and the west, because of the "so-called extension of the four o'clock closing hour of the civil service act, 1918, provides that the commission shall by regulation prescribe working hours for each portion of the civil service," reads the statement. When a young man goes to see a girl, she meets him with her hat on, ready to be taken to some place of amusement. She frankly tells him that she is no fireside companion and has no intention of spending a quiet evening at home. Furthermore, that no cheap man need come around. This is pretty hard on those of us who happen not to have rich fathers, and who are trying to save a little of our small salaries.

Can't you beg the girls to have a heart, and not force us either to eschew their society altogether, o else spend all we make on them? SIX BROKEN BOOBS.

She's a go-getter who is determined to have a good time, and make some man pay for it, and she doesn't care a hoot how much he has to suffer for it. How a young woman who has got one single throb of human compassion about her can adopt her ruthless means of getting what she wants is a mystery never to

And hint! She hasn't the slightest hesitation in letting Tom, Dick and Harry know exactly what she wants and expects for her birthday, and Christmas, and what flowers she will need for certain occasions, and the kind of candy she prefers, and woe to Tom, Dick and Harry if they don't

Of course, men are arrant cowards to stand and deliver at the point of two blue eyes, or brown ones, but there are mighty few men who have any backbone where women are concerned, and a man in love is as spineless as a fishing worm.

A man's vanity won't let him tell a girl that he can't afford taxis and orchids, and so he lets a woman work him for them, even if it sends him to the cheap lunch counter for a week to pay for one dinner for her at the Splendiferous Cafe.

But in demanding so much of men, girls are foolish. They kill the goose that lays the golden egg. Many a man who would like to take girls to places within his income doesn't take them at all because he can't afford all the splurge they require. And there would be a lot more wedding bells if the high cost of loving didn't take so much money that there is nothing left upon which to get married. DOROTHY DIX.

Dear Miss Dix-My neighbor is a fine, conscientious woman with one child by whom she is trying so hard to do her duty that she is ruining him. This poor little creature is never permitted to play with other boys for fear he may acquire rude ways, or learn something he shouldn't know. He is made to practice on the piano hours every day, and is tutored within proper color for the stockings. an inch of his life. The result is that he is a pale, anaemic little fellow, the butt of all the other children, who call out to him as they pass: "Baby, darling, isn't it time for you to have your bottle?" or "Sweeticums, come go to bye-bye land."

There's a society that takes children away from cruel mothers. Let's organize one to rescue the unhappy victims who are being A LOOKER ON AT MOTHERHOOD. mothered to death.

Answer:

It takes a wise woman to know where to draw the line between being tender enough to her children, and careful enough of them, and not too tender or too careful of them. And strangely enough, if one must err, it is better to be on the hard side than the soft side. For life is a battle all the way through, and the victory goes to those who can hit the hardest and fight the longest. It is won not by weaklings, and those who have been brought up on silken cushions, and protected from every rough contac! with the world.

Certainly the cruelest mother who beats and bangs her children about does them no such injustice as does the mother who raises up a sissy boy, for she gives him a handicap against which he

All the boys of his own age despise him, so he is lonely and forlorn. He is an object of pity and scorn to older people, and his own reaction to the situation is either to make him a womanish man, or else a tough and a

Instead of trying to keep their darlings unspotted from the world, mothers had far better teach their children how to keep clean in it, and instead of protecting them from life they should fit them to take their part in it.

Motherhood is a great career, but it gives a foolish woman unlimited opportunities for the prosecution of her fads, and a lot of children would be better off with no mother than the overly good one they have got. Too much babying is the vice of the day. What the average child needs is a little wholesome neglect.

Dear Dorothy Dix-The firm for which I work has issued an order saying that girls must not come to work in sleeveless gowns, that they must not wear jewelry, nor chiffon stockings, nor dresses that are very low in the neck. Don't you think they have a nerve, telling us how we must dress?

Answer:

No, I think your firm is exactly right, and that it is a pity that girls haven't got enough good taste and good sense to dress appropriately for work without being compelled to do so by their

A. McIntosh, Main and Simcoe streets, having on good clothes and looking their best.

All of which is open to argument because a woman is never well dressed who is inappropriately dressed. A girl in a ball gown may be a lovely spectacle at 10 o'clock at night, but she looks grotesque in it at McIntosh, Main and Simcoe streets, with the president, Mrs. J. H. Humphries, in the chair.

One unique and interesting feature of the meeting was the approximately and the chair. Hence a girl in a simple dark frock looks better when she is of the meeting was the apron parade, led by Mrs. McCrae. Twenty members responded to the roll call by exhibiting an apron and giving particulars regarding the making of it at work than she would in the most elaborate beaded georgette that ever came out of Paris.

The main thing about a business girl dressing like a business woman is the effect it has on her own psychology. Women's moods always match their clothes, and they simply can't get down to work when they are adorned for fun and flirtation. Nor can anyone take them any more seriously than they would a man if he went to business in his dress suit or his golf clothes. You would know every time what his mind was on.

Quebec Rail Shares Carried Down by Liquidation at Montreal.

Reported for The Advertiser
by Johnston & Ward.
Montreal, Sept. 27.—National Brewaries was once more the center of attraction on the local market in today's forenoon session. The stock advanced to 53½, a new high level on the present movement. Some 500 shares were traded in. The activity in the last few days in the stock is the natural result of the marked improvement in the company's position that has been taking place during the present year. A material cutting down of bank loans, it is understood, has resulted from the substantial profits the company has been making. The past summer has proved a very successful one in the demand for the output of the various plants. A story appearing in Toronto papers that English interests were trying to get control of National Breweries, and that certain financial plans are under way, is given an explicit denial by those closely connected with the company. General dullness characterized the rest of the market. With the exception of Quebec Rallway, into which a liquidation movement carrying the price down to 16 was apparent during the session, no other issue attracted very much attention, and price changes were insignificant.

In the pulp and paper group, Brompton sold at 41, and Spanish preferred at 100½, All the others were mostly neglected.

Public utilities were dull and featureiess, with Bell Telephone at 123, Detroit United 68, Montreal Power 126½, Shawingan 116¼. Toronto Railway was abovent from the list.

TORONTO STOCK EXCHANGE.
Canadian Press Despatch.
Toronto, Sept. 27.—Trading was well spread over the list on the local stock exchange this morning, but with the exception of Toronto Rails dealings were not large. Quotations held generally within narrow limits, with sentiment mixed. Rails was off half at 83: Hamilton, after an early advance of two points to 187, reacted to 186 at the close, with Standard half net higher at 170½. American Sales Book at 40 was one higher.

STANDARD MINING EXCHANGE.

Canadian Press Despatch.

Toronto, Sept. 27.—Trading slackened off on the Standard mining exchange this morning, being below that for the first three days of the week. Gains slightly overbalanced losses. Hollinger gained fifteen at 12.00; McIntyre, ten at 17.25; Lake Shore, one at 337; Vipond, one at 74; Beaver, ¾ at 32¼, and there were several fractional gains. Argonaut and Clifton each lost a point at 67 and 20. McKinley-Darragh, one at 16, and New Ray ½ at 47½.

Orders may be tele-phoned or telegraphed at our expense. Exchange of Maturing Bonds effected without

WOMAN'S ELECTION UNIQUE IN LABOR RANKS

Associated Press Despatch, London, Sept. 27.—The election of woman—Miss Margaret G. Bondranks of labor.
Miss Bondfield commands wide re-

pect in England for her practical ability and common sense. She is a forceful speaker, optimistic and level-headed; and combines with an earnest interest in working conditions a strong sense of humor. When in her 'teens, Miss Bondfield was apprenticed to a drygoods store in London, and soon became identified with the movement for betterment of working conditions among shop clerks. Her eventual accession to a ceat in the House of Commons is regarded as certain.

TODAY'S OPENING PRICES. Associated Press Despatch. Chicago, Sept. 27.-Assertions from Washington that no emergency change in the wheat tariff appeared likely had a bearish effect on wheat today during the early dealings. The fact that Liver-pool quotations made a poor response to yesterday's upturn in prices here pool quotations made a poor response to yesterday's upturn in prices here counted also as a depressing factor. Declines, however, were checked by the strength in corn and oats. After opening ¼c off to ½c up, wheat underwent a moderate general sag.

Corn and oats quickly scored new high price records for the season. Wet weather and crop damage reports were more or less responsible. Corn, which opened unchanged to ¾c up, went up about 1c over yesterday's finish.

Oats started unchanged to ¾c up. Material gains all around ensued.

other advance of %c in the local raw sugar market today, with Cubas selling at 5%c, cost and freight, equal to \$7.66 for centrifugal. There were sales of 5.700 bags of Cubas for first week of October shipment. The continued strength in the spot market led to rerewed buying in ray sugar futures. The opening was 5 to 8 points higher, and values continued to advance, until December sold at \$5.12 and March at \$4.15, or at 1 to 2 points higher. Then offerings increased, and prices reacted 3 or 4 points on liquidation. Midday prices were 3 to 5 points net higher. The market for refined continued firm, in sympathy with raw sugar, and prices were 2 to 4 points higher, with fine granulated now ranging from \$9 to \$9.15. New business continued light. Refined futures continued nominal. While Windsor has been broadcasted as one of the examples of a municipal-owned road with an increased fare, this is not quite as serious as one might suppose. It is true that there has been a drop fare of six cents in existence for a year or so, calculated to catch the transient passenger, but there is also a straight five-cent fare—twenty tick-

Marshall Arnold, garage mechanic, admitted driving a car down Dundas to Richmond street without markers. He was surrised they wern't on the car, he told the police magistrate today. After further explanations, the case was dismissed on payment of \$3 costs.

Police Had Suspicions and \$2.05 in Change, But Case Is Dismissed.

COUNSEL TAKES POT

What police maintained to be crap game, but which John Anderson and six colored friends, plus three whites, insisted was merely a little Sunday morning gathering to raise funds to hire a motor car for a ride, provided more amusement in police court today than could be crammed into a Broadway hit. The

case was finally dismissed.

The sum of \$2.05 in small change which Sergeant Middaugh seized from Anderson last Sunday morning in a lane next to 103 Glenwood avenue was produced by Chief Birrell today, and rattled under the glitter-ing eyes of the ten alleged culprits as the chief stalked by the "front line" to Magistrate Graydon's land. Mr. D. H. Porter has been instructed by Mrs. J. Harris, 359 King St. to offer by public auction on Wednesday, Oct. 3, at 1:30 p.m. sharp, in part, the following household furniture and ef-fects: 3-piece chesterfield suite, 2 leather armschairs, 2 rocking, chairs Sergeant Middaugh told about the barrage the police had laid down and the subsequent charge of the

police brigade on the colored strong-hold. fects: 3-piece chesterfield suite. 2
leather armchairs, 2 rocking chairs, sectional bookcase, antique walnut settee, floor lamp, French clock, study table, mahogany flowerstand, portieres, pictures, 5 pair curtains, small rus, pair vases, statues, living-room table. Singer sewing machine, red plush table cloth, vacuum cleaner, 2 kitchen tables, enamel gas range, electric washing machine, washstand, ironing board, laundry box, dishes, scale, wall brush, earthen crocks, fruit cellars, wire fruit crate, hall rack, hall carpet runner, umbrella stand, hammock, chintz hangings for bedrooms, etc.

D. H. PORTER, Auctioneer.

When the sergeant bore down swiftly on the crowd from Hume street, Mr. Anderson, he stated, was down on his knees grabbing up the shekels from the turf. When he fin-ally grabbed his hands, Mr. Anderson had all the money off the ground and told him with an ear to ear smile, "You didn't get the dice. I beat you before, and I'll do it again." And as Being close to the center of the city this should be a desirable residence. events turned out Mr. Anderson scor-

ed a signal victory.

Mr. Anderson and his son, apparently did not believe the sergeant was to be trusted, for both insisted that he count the money not once but twice; this the sergeant did, the offices and in many of the elevators well fenced, running spring water, good cash being locked away in the big barn, situated southeast quarter, lot 8, police station safe. concession 7.
