GLOBE CLOTHING HOUSE

YOUNG MEN'S CLOTHING

There is not a break in our line of CLOTHING. We fit anyone from a three-year-old boy up to a full grown man. When a boy steps out of knee-pants he steps right into our young men's CLOTHING. Styles are the main thing that young men think of. WE think farther and make their CLOTHES as good as the men's. But style is our first thought too. And we pick out patterns for our young men's CLOTHES that don't go into our men's—brighter, livelier and more dashing, and we cut the young men's CLOTHES different—swell garments for spring. Come in, young man, and take a look at the new things.

GLOBE CLOTHING HOUSE

Bargain Day goods are for Cash

Coming In!

If you are a fisherman, bird shooter, or big-game hunter, send 25 cents for a **FOREST AND STREAM** 4 weeks' trial trip. It is now printing chapters on Duck Shooting, describing with portraits all the American wild fowl; chapters telling how to train dogs for field trial work; and practical instructions to boys in shooting, fishing and camping out; shooting stories, fishing stories, and game and fish news. Illustrated, weekly. For sale by all news-dealers. Neither you nor your family can afford to be without it. It is the best reading, and has the largest circulation, of any paper of its class in America! It is the **SPORTSMAN'S FAVORITE JOURNAL** of shooting, fishing and yachting. Per year, \$4. With any one of the Forest and Stream large artotypes of big game and field scenes, \$5.50. Send for illustrated catalogue of books.

FOREST AND STREAM PUB. CO.,
346 Broadway, New York.

A MODERN JOB

Faith, patience and six bottles of South American Nervine "made over" Dr. Wright—and all his troubles stand in a disordered stomach.

"As a general builder up of the system I believe nothing can equal South American Nervine. At one time I seemed to be afflicted with almost all the ills that flesh is heir to—indigestion, nervousness, gastric and nasal catarrh, and liver and kidney disorders. This great remedy was recommended to me. I took six bottles in all, and what was apparently a hopeless case was quickly and permanently cured. I felt myself improving from the first few doses."—Noble Wright, Orangeville, Ont.

Sol'd by J. P. LAMB & SON

An exchange says that in order to fit the present days, Franklin's old maxim has been changed. It now reads: "Late to bed and early to rise, hustle like thunder and advertise."

It would be well for those interested to remember that the open season for shooting muskrats expired on Tuesday, April 1st, and the season for trapping them closed on Tuesday, the 15th.

Sir Thomas Lipton's Shamrock III, may be bought by the St. Lawrence this summer and taken to Chicago to compete in the international yacht race which is to be held at that place.

A LITTLE OF EVERYTHING.

TOPICS OF INTEREST GATHERED FROM FAR AND NEAR FOR REPORTER READERS.

Ernest Nevins, a lineman employed by the Bell Telephone Co., was killed on Tuesday of last week by the breaking of a pole on which he was engaged repairing the line.

A convention of the Liberals of Leeds will be held at Delta on Tuesday, April 22, for the election of officers and other business. It is desired that there shall be a full representation from each municipality.

A farmer in Pennsylvania has started a crow hatching. He expects to make money from the birds he will raise by selling their heads to milliners for 75 cents each and their wings at 25 cents a pair. That will make the value of a crow \$1.

Mrs. James Neville, of Pembroke, lost her voice completely some time ago. A couple of weeks ago she went to Montreal for treatment. Electricity was applied and under the fourth application her voice was regained and is now as strong as ever.

Mr. J. A. Riddick, chief of the Government Dairy Department, has called a conference of all the dairymen in the Dominion for April 29th and 30th to meet at Ottawa. The object of the conference is to discuss prevailing systems of manufacture and also to arrive at a more uniform method of dairying, which may be carried on in future.

THE COUNTIES' LICENSES.—In the discussion of the evils of the liquor traffic we are apt to overlook the steady, persistent gain in the temperance sentiment of the people at large within the last twenty-five or twenty-seven years. In the united counties of Leeds and Grenville alone it is very noticeable. The number of tavern licenses has been reduced from 145 in 1874 to 56 in 1901, while the number of shop licenses has decreased from 35 to 8. In 1876 the number of prisoners committed to the county goal for drunkenness was 84, which was reduced to 58 last year. The greatest number of commitments was made in 1894, when 135 persons served sentences.

Clarence Willix had a lively experience at Alexandria Bay last week. He had brought C. J. Estes' gasoline launch around to Cornwall's dock to take Mr. Estes and Architect Williams up to Cherry Island. There was a leak in the gasoline tank, which let the gasoline flow into the bottom of the boat. As soon as the spark was turned on the flames burst out, completely enveloping Mr. Willix. He jumped overboard head first, the flames following him until he was entirely under water. The boat was quickly turned over and flooded, before the fire had done any damage to the woodwork. This is a warning to owners of boats to thoroughly examine their gasoline tanks before starting out this spring. Don't wait until they rust out, but examine them carefully.

Old John Barlow, of Oak Ridge, Montgomery county, N.Y., puzzles us. We want to do right, and uphold that which is also right, condemning that which is wrong. We have felt that it was our duty to stroke the fur of virtue carelessly and deal vice a crack on the head whenever opportunity offered, pointing to one as the angel of peace, purity and long life, and the other as the general passenger agent of the route to damnation. But, as we remarked, when we consider old John Barlow we are mystified. All his life he has drunk liquor, chewed tobacco, smoked a dirty, short-tail, nicotine-saturated, clay pipe, used intense language, been married four times and is willing to marry again and the old duffer is 107! We desire to propagate only correct principles and have thought that our course should point towards sobriety and temperance in all things. But when we would do so, up rises some ancient paradox as John Barlow, with his 107 years, and rears his guide-board with the hand pointing the other way. Such examples are embarrassing to say the least. Old John walks briskly, enjoys life, has unfulfilled hopes of an earthly future, is the father of two sons who are great grand fathers, and is courting a dashing Oak Ridge widow aged 97. We leave the subject without recommendation.

A rule relating to the carriage of baby carriages went into effect on the G.T.R. and other Canadian railroads on April 1st. From that date passengers are denied the privilege of checking them as baggage, but will have to pay a charge regulated by the distance travelled. The minimum charge is 25c.

As an experiment, W. Bailey, of South Mountain, left a hive of bees out all winter in the same place as they were during the summer without covering or protection of any kind, and many times they were buried in the snow but came out all right and are doing well at the present time.

Wm. Gardiner, of Easton's Corners, met with a very painful accident last week. While lifting a can of milk with a crane at the cheese factory part of the handle gave way. The remaining part flew back striking him in the lower part of the face cutting the upper lip through to the gum, and knocking out two teeth. Three stitches were found necessary to close the wound.

Some genius has, according to his own advertisement, invented an apparatus to dispense with getting up so early in winter time to set the kettle boiling. As far as we understand it, you fix the new invention on your clock, and at the hour required it starts a fire under a kettle of water. As soon as the water boils, a bell rings and you wake up. This is not the sort of thing that takes the cake; it simply grabs it. What a blessing this would be to some people in Athens.

E. Frank Fuller, of Syracuse, N.Y., is looking for a job as housemaid. He says the worm has turned, and if the women are going to throw men out of employment by taking their jobs, it is time for the men to do the work abandoned by the women. Mr. Fuller is a widower, evidently well trained by the late lamented Mrs. Fuller who took enough time off from wearing the breeches to teach him all kinds of housework. In an advertisement in an evening paper he proudly announces that he can pickle, cook, bake, wash, iron, do chamber work, sew and darn, scrub, scour, mind babe, knit and crochet. He will work by the day or hour, and guarantee not to flirt with the husband of his employer. He says he is neat and clean about his work, and that he just loves to dabble in dish water. His terms are moderate, and he wants only one afternoon out of a week to do his shopping, and every other Sunday. He will not expect to receive his company in the parlor, but will be satisfied with the kitchen. There will be no "hands out" to the policeman on the beat, and he will not expect the cast off clothes of his mistress as perquisites. Surely, E. Frank Fuller will be a gem of a bird-catch to any one in need of the article. Whoever gets him will have the servant question settled the best way.

ROYAL MUSKOKA HOTEL.

This new modern, up-to-date hotel was opened for the reception of guests in 1901. It is situated in the centre of the finest summer resort region in America, known as the Muskoka Lakes, within easy reach of the principal points in Canada and the United States. The interior of the hotel is planned to the best advantage for comfort and convenience, special attention being given to ventilation and sanitary arrangements. Its spacious suites with handsome bathrooms attached, are especially adapted to large or small families. Cuisine and service are the best. Open for guests June 15th. For further particulars, descriptive matter and all information write to J. Quinlan, D.P.A., G.T.R., Montreal, Quebec.

LOSS OF APPETITE.

A person that has lost appetite has lost something besides—vitality, vigor, tone.

The way to recover appetite and all that goes with it is to take Hood's Sarsaparilla—that strengthens the stomach, perfects digestion, and makes eating a pleasure.

Thousands take it for spring loss of appetite and everybody says there's nothing else so good as Hood's.

IT MEANS OSTRACISM

Foul breath and disgusting discharges, due to Catarrh, make thousands of people objects of aversion.—Dr. Agnew's Catarrhal Powder Relieves in 10 minutes and cures.

Hon. George James, of Scranton, Pa., says: "I have been a martyr to Catarrh for twenty years, constant hawking and dropping in the throat and pain in the head, very offensive breath. I tried Dr. Agnew's Catarrhal Powder. The first application gave instant relief. After using a few bottles I was cured." 50 cents. 73

OUR TEMPERANCE COLUMN.

DR. FUNK TO BISHOP POTTER.

A fortnight has elapsed and Bishop Potter has not explained, given proof of, or apologized for, his astounding statement at the church club, on December 30, that "Whosoever prohibition has triumphed, it has educated a race of frauds and hypocrites." In Maine, New Hampshire and Vermont to-day by actual statistics, the consumption of certain preparations containing from 17 to 61 per cent of alcohol, while claret contains only 10 per cent, is larger than anywhere else in the country, and great multitudes of people who are sworn prohibitionists are the consumers.

I have personally requested Bishop Potter—as courteously as I knew how—to let me know where these "actual statistics" can be seen. Many others have asked him the same question through the press. He remains silent.

I have written to United States Senator Frye, of Maine, asking whether the Bishop's statements are true. This is the Senator's reply:

"U. S. Senate, Washington, Jan. 8, 1902

"My Dear Sir,—I never heard of the statistics referred to by Bishop Potter, nor do I believe that they exist. The prohibitory law has not 'educated a race of frauds and hypocrites.' . . . In the rural parts of the State there is very little use of intoxicating liquors. There are several hundred fishing and hunting guides in the northern part of our State with whom I am entirely familiar, and I do not know a drunkard among them. Can Bishop Potter say the same about the Adirondack guides? For the last year a law has been enforced in our largest city, Portland, and I am informed by good authority that it has been very effective in suppressing the sale of liquor. If Bishop Potter were right, it seems to me the people of Maine would gladly repeal the law. In my opinion, any attempt to do so would be defeated by a very large majority. "William P. Frye."

I asked the same question of the Governor of Maine. His private secretary, N. S. Parinton, writes, January 9:

"The statements of Bishop Potter are false. No one here is aware of such 'actual statistics' as the Bishop refers to."

The mayor of the city of Portland denies the statements of Bishop Potter with a strong emphasis, and the president of the State Board of Health of Vermont writes that he knows of no trustworthy statistics bearing on the relative sales in different States of proprietary medicines containing alcohol. Now it is certainly "up hard" to the Bishop to speak. When he made his speech he either knew that such "actual statistics" existed, or he did not know it. If he knew it, he can easily say where they are; if he did not know it, then he is guilty of an awful libel

against entire States as noble as any in the Union. A true Bishop is eye, conscience, light to a community, a finger that points upward, a hand that leads, a chief seer. If the eye is that of a seer who sees straight and true, the whole body has light

SOME BIG FIGURES.

The Independent Order of Foresters is so well known in Canada that probably those who are specially interested in its work do not pay particular attention to the magnitude of that work. Those who do not will be somewhat surprised to know that during the last year 28,826 applied for membership. As an evidence of the value of this institution in the homes of the country where it is operating it may be said that last year it sent cheques for insurance to 1,455 widows, totalling altogether in payment to widows and orphans and totally disabled brethren, \$1,730,920. This, in other words, means that during every hour of the year 1901 the I.O.F. paid to beneficiaries \$200 as nearly as may be. It is still more surprising to know that it increased its accumulated funds during the same time by \$800,000, or an average of \$90 per hour. The I.O.F. and Dr. Oronhyatekha, its Supreme Chief Ranger, are to be congratulated upon these splendid results. The doctor took hold of this institution when it was a struggling, and most people thought, a failing one. It has been largely by his energy and genius that the marvellous results which have been mentioned above have been achieved. Canada owes him a debt of gratitude for bringing such a measure of success to an institution that has done so much to make Canada favorably known abroad. The Supreme Court will shortly meet in Los Angeles, Cal., and it is safe to say no governing body of an institution ever met under more favorable circumstances or with a better report of work and progress before it.—Toronto Daily Globe, March 14.

FAIR ONLY DREAMS

London, April 8.—There is no lack of fashion information, if a collector can find time and space to...

London, April 11.—The grain receipts were light on the street market this morning. Prices were steady.

London, April 11.—Butter.—The market for butter is unchanged. Prices are steady, and the offering continues to be largely unsatisfactory.

London, April 11.—Eggs.—There is a very light trade, offerings being few and demand only fair. Prices are steady at 12-1-2 to 12c.

London, April 11.—Fresh-killed turkeys and offerings are liberal. The market is quiet at \$10 for No. 1 simply on track here.

London, April 11.—Toronto Live Stock Market.—Export cattle, choice, per cent. \$1.80 to \$1.87 1/2.

London, April 11.—Following are the closing quotations at important wheat centres today.

London, April 11.—British Live Stock Markets.—London, April 11.—(Continued.) Today's cattle market is unchanged and firm.

London, April 11.—Trade at Toronto this week, although not so active as it has been since the turn of the month.

London, April 11.—Business at Hamilton, as reported to Bradstreet's, has been quite active this week.

London, April 11.—Trade in wholesale circles at Winnipeg is more settled this week.

London, April 11.—Who are the two brothers that live on opposite sides of the road, yet never see each other?

Sunday School.

INTERNATIONAL LESSON NO. III.

Peter and Cornelius.—Acts 10: 34-43.

Commentary.—Connecting Links. Read vs. 1-33. Caesarea was the Roman capital of Palestine. It was located on the Mediterranean Sea about thirty miles north of Joppa and between fifty and sixty miles northwest of Jerusalem.

Look Very French and Smart with a light spring frock, or bonnet of gauzy black grenadine or barege.

Gowned to Perfection, and the long, light coats of lace and mousseline, according with the frock beneath, are much commented on.

To turn from dress for a moment, the shops are crammed with a marvellous variety of ping-pong bats.

That word—ye know.—They were not asked to work miracles and to perform signs and wonders.

We are witnesses.—Because Peter and the other apostles had been with Jesus from the beginning of His ministry.

The feminine observer.—Don't waste to-day's strength by fighting to-morrow's battles.

White Swiss with black polka dots is to create many of the most swagger summer gowns.

Who are the two brothers that live on opposite sides of the road, yet never see each other?

Who are the two brothers that live on opposite sides of the road, yet never see each other?

Who are the two brothers that live on opposite sides of the road, yet never see each other?

W. G. McLaughlin, Athens, Ontario

The practical side of science is reflected in

A monthly publication of inestimable value to the student of every-day scientific problems, the mechanic, the industrial expert, the manufacturer, the inventor—in fact, to every wide-awake person who hopes to better his condition by using his brains. The inventor, especially, will find in The Patent Record a guide, philosopher and friend. Nothing of importance escapes the vigilant eyes of its corps of expert editors. Everything is presented in clean, concise fashion, so that the busiest may take time to read and comprehend. The scientific and industrial progress of the age, is accurately mirrored in the columns of The Patent Record, and it is the only publication in the country that prints the official news of the U. S. Patent Office and the latest developments in the field of invention without fear or favor.

The Latest Chatter

Gathered by the Reporter Scribe just before going to Press.

—Mr. Compo left yesterday for Frankville to paint Running's mill.

—Mr. Wm. Laing, of Ogdensburg, N.Y., was in town this week the guest of Mrs. G. A. Witte.

—Mr. W. H. Jacobs has purchased a new boat from Mr. Lewis King and expects to have one of the best outfits on Charleston lake this season.

—Miss Nettie Halladay, daughter of Jas. Halladay, M.P., Chesley, Ont., is spending a few days at the home of her uncle, D. Fisher, Victoria street.

—A load of young people went to Mr. Aaron's Green's, at Oak Leaf, on Saturday evening, and repeated the previous evening's entertainment.

—Mr. Hilton Moore, after spending the Easter vacation at his home here, returned on Tuesday to Kingston to continue his studies in the Medical college there.

—Mr. Grant, of Arnprior, the successful contractor for the carpenter work on the new Methodist church was in town Monday looking over the plans etc.

—The first salmon to be captured at Charleston lake this season were taken by Sammy Kelsey on Monday. He got three nice ones in a short time between Cedar Park dock and Judson's cottage.

—The death occurred at her home on the Delta road on Saturday, of Mrs. Edward Tanner at the age of 40 years. She leaves a husband, two sons and five daughters to mourn her decease. Rev. W. E. Reynolds conducted service at the house after which interment was made to Lansdowne cemetery.

—The editor of the Reporter is arranging for to give the members of the Reporter Hunt Club a few days outing on the La-ne-o-tah as soon as the weather is favorable and the salmon fishing is at its best. It is expected that every member of the club will be present and an enjoyable time is looked for. "Billy the Cook" will have charge of the cuisine which is a sufficient guarantee that the boys will be well provided for.

—Mr. Antoine Wendling, owner of DeVeras, 211 1/2, is in receipt of a communication from Mr. Richard Steacy, Lyn, conveying the information that the mare bred to DeVeras last fall is now in foal. This being the only mare bred to DeVeras last fall, should set at rest any doubts as to DeVeras being a producer. Mr. Steacy will be pleased to satisfy any intending breeders, on visiting his stock farm, or consulting with Dr. McAlpine, V.S.

WHAT PEOPLE SAY.

That this is April 16th—half gone. That the roads are rounding into shape again.

That Reporter advertisers are business getters.

That our local schools are a credit to our town.

That adversity is the school in which men get their best education.

That the word of some men is like an echo—only a hollow mockery.

That a man is sure to get hot when other people are roasting him.

That age will tell, but does not tell the whole truth with some women.

That if every good resolution were carried out hades would be a howling wilderness.

That the influence of a well ordered home makes better boys than curfew ordinances.

That a certain school-master not a hundred miles from Athens had his hands full one day last week.

That a number from here were interested in the choice of a Conservative candidate to contest South Leeds.

That certain papers had a very sensational account of the conflagration (!) here on Thursday last.

That the reason some tramps appear to be so fat is because they are so full of emptiness.

AS OTHERS SEE US.

MR. B. LOVERIN, Editor of the Reporter.

DEAR SIR,—Through the courtesy of * * * I have had the pleasure of receiving a copy of your clean, up-to-date, town and country paper for the past three months. I can truthfully write you that I thoroughly enjoyed reading the same. As proof of my sincerity I herewith enclose \$1.00 for a year's subscription to your valuable paper.

I hope to have the pleasure of meeting you again this coming season in Athens and at Charl-ston lake on your famous house-boat, La-ne-o-tah.

Wm. H. B. New York city, April 12th '02.

KNOCKED OUT ON THE FIRST ROUND.

The fish story season has opened pretty early this year. The last issue of the Perth Expositor states that Mr. Patrick White a few days ago caught a pike in Black Lake, Burgess township, which measured three feet five inches long, and tipped the scales at over fifteen pounds. Next—Almonte Times. Here it is:—

Messrs. W. J. Palmer and Hendrick Breese, while fishing in the West Rideau one day last week, caught a monster pike weighing 16 lbs, measuring 41 inches in length and 19 inches in circumference. This is no fish story told for advertising purposes, but a fact, as neither of the parties concerned are any relation to Ananias. —Westport Mirror.

PARISH OF NEWBOYNE AND LOMBARDY.

The following sketch appeared in a recent issue of the Ontario Churchman. It will be found interesting to our readers:—

New Boyne was first settled from Ireland about the year 1830, and for some time thereafter a steady stream of friends and relatives of the earliest comers continued to augment the numbers. The spiritual needs of the people were attended to by travelling missionaries, who made occasional visits to hold services and administer sacraments, and also by a catechist, named John O'Neill, who was appointed to instruct the children. In course of time the congregation formed part of the parish of Newboro, and, with the exception of a brief interval, remained connected with it for a period of forty years. The first church was built in the year 1852, during the incumbency of the Rev. F. Tremayne. After this had been in use for twenty-one years, it was found to be too small to accommodate the large congregation, and in 1873 the present handsome and commodious stone building was erected, largely through the untiring zeal and energy of the Rev. F. L. Stephenson whose efforts were ably seconded by the people, who contributed liberally of their time and means. The interior of the church, however, was not finished till the incumbency of the Rev. Wm. Wright, who labored energetically in carrying on the work to a successful termination. In the year 1890 the congregation at New Boyne was united with that at Lombardy to form one parish. The names of the incumbents, are as follows:—Rev. F. Tremayne, 1850; Rev. John Davidson, 1858; Rev. H. C. E. Cosselle, 1862; Rev. T. Bedford-Jones, 1863; Rev. A. Spencer, 1865; Rev. F. L. Stephenson, 1868; Rev. Stearn Tighe, 1875; Rev. William Wright, 1878.

Honey From One Apiary.

Car Load of Bee Hives—Honey—To Bee Keepers.

I patented when a boy our present half story, or super, in the name of a friend, in 1862. It is now used in various forms in every kind of hive. Very few are using a double hive for a super as they are not so susceptible of fire and varied manipulation. The nearer the bottom board and the shallower the super or surplus arrangements, the less the reluctance of the bees to enter and begin work. I have seen bees go to work and mass in a super the entire size of my hive, when the super was only 3 inches deep. They had rejected all previous depths offered. However it is true that bees may be taken when once enlisted in super work 2 or 3 feet or more above the brood chamber. My hive is practically the Langstroth. He spent a life time in perfecting the dimensions, form and working lines of his hive, and he came nearer in these respects to a general harmony with the inclination and tendency of the honey bee than any other inventor I know of and richly deserves the praise the bee keeping world ascribes to him.

In the meantime over 100 hives were patented and most of them have quietly

vanished from view in the ratio that they differed from the Langstroth. I am indebted to this great man for the form and dimension of my frame. I made a change in it which I consider an improvement. I gave a 1/2 inch alley way space, or that draw for loitering bees, at the bottom ends of the frames.

Dadant & Sons in their fine translation of his great book have filled France with their views, and the light of his experiments illumines many lands. It has furnished authors and editors with abundant material.

It matters not whether Brantford or Higginsville or a dozen other Villages are stamped on the hive, it is virtually the Langstroth. It is curious fact that when parties wish to advertise bees for sale, they are fond of saying the bees are on combs in Langstroth frames. The "Simplicity Hive," made by the great A. I. Root Co, have been sent out over the world, by the carriage, is the Langstroth. My friends well know that I ever contended for this hive and now it is the leading one in bee keeping lands.

I made the following changes in this hive for good reasons. I made the entrance 12 inches long so that it may be really self-cleaning. But now there is no entrance cut in the body of the hive, instead, there are 2 level pieces 7/8 by 1 inch at one end, 1 1/2 at the other end 20 inches long. These two pieces are nailed on the bottom of the sides. This forms an entrance 1 inch deep by 12 inches long, this also forms an air chamber 1 inch and 12 inches wide over an inclined self-cleaning bottom. This has a tendency to prevent swarming and is a great convenience in hiveing. It prevents combs melting down, helps to rid the hive of the bee moth, aids in distributing bees in swarming time, and may be instantly closed to a robber space. With the draw at the end of the bottom of the frame forms the best air chamber yet devised and facilitates the management of bees.

The new cover is a great gain. There are firms in Ontario and the U.S. making and sending out this cover as their own device which is all wrong. Bee keepers ought to give credit to any to whom credit is due. Now I wish to tell you that Mr. Dazn-barker, of Washington, of the District of Columbia, is the original inventor of this fine cover which we are using. If you get a hive from a distance, the maker may not say as he ought to say, "this is the Danzenbarker cover." The Danzenbarker hive is also the Langstroth hive and this remark is true of many other hives called by other names. I say this that you may notice the merits of our hive which is truly a "Simplicity Hive."

It is furnished in the flat at W. G. Parish's factory, Athens, and is the cheapest hive in use considering the scope of its working. There are appliances in this factory for finishing them finely and dove tailing the ends.

I wish to add an item. I visited Mr. Mr. Elthorpe's apiary last September. He had loaded a car with comb honey. He was lying over with it at Albany waiting till the N. Y. City market pleased him, then in a few hours he could light on it. He keeps just 200 colonies, neither more nor less, and is to my mind the best comb honey producer in the state and second to none in the world. His system differs from others and is unpublished. His car probably realized him \$2000. He lives on a well stocked \$7000 farm, a mile from Hammond Station, N.Y.

Mrs. Elthorpe works with her husband in the apiary from 1st of May till the first of October, rarely doing an hour's work in the house. Mrs. Elthorpe told me that her husband saw the nectar in quantity in the basswood flowers but his bees never went near it. The other day, Mr. W. Livingston, of Frankville, told me that he saw the nectar in great drops in the basswood flowers, shook it out on his hand and tasted it. It was sweet and he never saw a bee visit the flowers. This was not true where I was for I extracted thousands of pounds last season of Linden honey in the Phillipsville apiary.

Did any one else observe the above peculiarity? Who will rise to explain? I have seen large fields of buckwheat in full bloom, and Linden forests the same, with no bees visiting. But in this case there was no flow of nectar.

I have received inquiries with regard to the amount of honey extracted from the apiary of B. C. Haskins. The amount from 75 hives was 7,800 lbs. nearly all white honey. One hive yielded 202 lbs., several 153, the average of the whole was 120 lbs. The process by which I obtained it and the number of lbs reported by Mr. W. B. Phelps was correct, to the best of my knowledge.

W. S. HOGAN.

WALTER BEATTY THE CHOICE.

The Conservative Convention at Delta last Thursday was a big affair, over 300 accredited delegates being present, and all primed for business. Mr. J. R. Dargavel, of Elgin, President of the Conservative Association, presided. After the usual preliminaries, resolutions of approval of and confidence in Messrs. Borden and Whitney, the Dominion and Provincial leaders, were passed. Also a resolution expressing satisfaction with the course of Messrs. Geo. Taylor, M.P., and Walter Beatty, M.P.P.

Mr. Beatty lacked one of having twice as many votes as Dr. Preston. The nomination was then made unanimous.

GIVE THE REPORTER A CHANCE

Posters were issued from this office on Monday announcing that the executors of the Isaac Robeson estate will sell by public auction at the Armstrong House, Athens, on Saturday April 19th at 2 p.m., all the real estate of the late Mr. Robeson.

At a meeting of the young men of Athens in Lamb's Hall last week the following committees were appointed to secure everything necessary to put a baseball club in the field this coming season.

ALL THE NEWS OF THE TOWN

—Miss D. Klyne spent last week the guest of Harlem friends. —The Farmersville lodge I.O.O.F. "At Home" is to be held this evening. —Miss Laura Bullis attended the Paderewski concert in Ottawa on Tuesday of last week.

—Among the many odd surprises with which Athens people bear, is one of "painted poultry," but we are not sure whether rouge or Sherwin-Williams' paint was used. —Messrs. A. E. Donovan and R. J. Green, of Athens, were nominated to contest the riding of South Leeds in the Conservative interest on Thursday last at Delta, but withdrew.

—Wm. Hillis has had several sheep killed by dogs during this spring. On Friday one was killed outright and a couple of others were badly torn and they will very likely die. Some body will have a nice little sum to pay some of these days if the identity of the sheep killers can be established.

—A subscriber asks: "What is a jack pot, that I read about once in a while, and what seems to be the difficulty in getting it open?" A jack pot is one for properly cooking fish, and is especially recommended for suckers. It has a time lock, over the combination of which millions of people have burned the midnight oil in vain.

—VILLAGE VERSE STORIES.—The above is the title of a book of stories and conceits told in rhyme by Mr. Crawford C. Slack, of Athens. It is a readable and most entertaining book, and some of the pieces have a decided literary value. Mr. Slack is a genius in his way, though a modest one, as he says his book is "not a great work," and all he claims for it is, that "it is a common work intended for a common folk." It is more than that, however, and can be read with pleasure and profit by more pretentious people. The book is also a credit to the Athens Reporter office, where it was printed. It should have an extensive sale, and we shall be glad to hear that Mr. Slack has realized something handsome for his quaint brain work.—Gananogue Reporter.

—Every person who in his business life has dealings with a large number of people, is grateful for occasional words of approbation, and in that connection we would make heartfelt acknowledgements of appreciation for the many kind letters and words of approval being received at present from friends who are renewing their subscriptions to the Reporter for another year. We have sought faithfully during the past year to make the Reporter just as good a paper for the village and the country round as we possibly could. Considerable money has been expended for additions to the plant, to the end that the paper might be always well-printed and readable. Each week our effort has been to get all the news possible. And we have not been asleep to the fact that a newspaper can be made a power for good in the community and have sought, in a humble way, to cast our influence on the side of right and justice, moral and cleanly living, civic pride and advancement. And while the homely old saying, "you can't please all the people all the time," is far from being forgotten, we are gratified to know that our work during the past year has pleased a goodly majority of them.

—A case of scarlet fever is in town at present.

—Mrs. Jno. Poland is on a visit to relatives at Malone, N.Y.

—Mr. and Mrs. Anson Hill leave to-morrow for their new home in Toronto.

—Rev. J. R. Frizell will occupy the pulpit of St. John's church, Brockville, on Sunday next.

—Mrs. Weese and child, after a visit to her sister, Mrs. Poland, have returned to their home in Malone, N.Y.

—Mr. Homer Moore, of Essex county, was in town on Saturday attending the funeral of the late Miss Annie Ross.

—The annual Art School examinations will be held at the High School, here, on Saturday, April 26th, at 8 a.m. Inspector Johnston will preside.

—Miss Paul, who has been stationed at Fort Simpson, B. C., as a missionary, while in Athens on Sunday was a guest of Miss Ethel Blanchard.

—Mr. Geo. Gainford's duck presented him with rather a large egg the other day which weighed 4 1/2 ounces, and measured 8 1/2 inches in circumference.

—Alfred White, of the Township of Yonge, died on Monday, at the residence of his son, James White, at the Tin Cap, aged 100 years and 1 month. He was born on March 15th, 1802, and was much respected in the township, where he was a life long resident.

—Mr. Thos. Kilborn, of Brockville, while going over the old homestead on the Lyn road the other day, unearthed an old charcoal pit, which had been operated by his father 66 years ago, finding therein pieces of charcoal of that early date in a perfect state of preservation.

—MCKENNA—ALGUIRE—A quiet wedding was solemnized in St. Patrick's church, Ottawa, on Wednesday last, April 9th, by Rev. Father Whalen, the contracting parties being Mr. John McKenna, of Ottawa, and Mrs. R. B. Alguire, of Athens. The newly-married couple arrived in Athens on Saturday evening and have since been receiving the congratulations of their friends.

—A lady who lives in Athens sent Inspector Connolly the price of a single admission to the concert in aid of the General Hospital. How many more are willing to help the poor sick children, for whom our boys and girls are working so hard? Every cent goes first to buy the coats, and then what is left to support them. Will you be next to help us? All moneys acknowledged.—Recorder.

—On Friday last in order to more quickly demolish the steeple of the Methodist church, fire was applied and soon accomplished the desired end. At one time the fire descended so that it began to get a headway in the roof. Then the "Invincible" Athens fire engine, was brought into play and soon succeeded in quenching the flames. Not much damage was done, beyond making a number of bystanders excited for a time until the flames were got under control.

—The services in St. Paul's Presbyterian church on Sabbath evening last were very interesting. The pulpit was occupied by the Rev. J. R. Frizell who preached an eloquent sermon on the "Strong weak man of the Old Testament." He took a text from Judges 16: "The Philistines be upon thee Sampson... And he wist not that the Lord had departed from him." He brought forth how many young men of to-day are much like Sampson in that they allow their virtue and manhood to be shorn from them—and then are bound captive to sin. The choir lent several beautiful anthems which added much to the interest of the service.

—The death occurred Friday of one of our most respected residents in the person of Mr. Smith Wiltse, after a long and painful illness, at the residence of his son, Mr. Clayton Wiltse. Deceased was a man well esteemed in Athens where he has spent all his lifetime. He leaves to mourn his loss five children: two sons and three daughters—Mrs. A. J. Love, Lynnhurst; Mrs. A. W. Truesdell, Sheboyne, Mich.; Mrs. G. E. Thomas, of Shenandoah, Iowa; John, of Escott, and Clayton at home. The funeral on Sunday was held at the Methodist church where Rev. W. E. Reynolds conducted service. The Reporter joins the many friends in expressing sympathy.

—The Methodist church pulpit was occupied by a Miss Paul, a returned missionary from Fort Simpson, B.C. Miss Paul was sent out there under the auspices of the W. M. S. of the Methodist church. She gave a very vivid recital of the customs, manners and ways of living of the red men of that far away district; also that they were anxious to embrace religion, (which was strange after their long period of darkness), and as a general rule conscientiously stood by their principles. The address on the whole was very instructive and entertaining to all present, especially as Dr. Bolton, who married Miss Ella Blanchard, daughter of our fellow townsman, Mr. A. W. Blanchard, is stationed at this mission. The choir rendered appropriate music during the service.

Your Nose

That is what you should breathe through—not your mouth. But there may be times when your nostrils are so bad you can't breathe through them. Breathing through the mouth is always bad for the lungs, and it is especially so when their delicate tissues have been weakened by the scrofulous condition of the blood on which catarrh depends.

Hood's Sarsaparilla

This great medicine radically and permanently cures catarrh by cleansing the blood and building up the whole system.

—Mr. W. F. Earl is fitting out the Phillipsville cheese factory.

—Hemp carpets worth 18c yd. for 15c yd. at BAIRD BROS., Brockville.

—Mr. Wm. Steacy expects his new stone crusher and engine here in a few days.

—White cottons free from dressing worth 7c yd. for 5c yd. at BAIRD BROS., Brockville.

—D. Fisher has a fine lot of carriages ready for spring delivery. Look for his ad. in next issue.

—Mr. Wm. Jacobs is putting a substantial addition to his residence on Victoria street.

—FLOUR PRICES REDUCED.—Good time to lay in a supply of extra quality and good value at the ATHENS GRAIN WAREHOUSE.

—David Murphy will again make cheese at Ormond, Ont. He leaves for the scene of his summer labors on Thursday morning.

—THE CHISHOLM MINE.—Experts visited Chisholm's nickel and molybdenite mines near Enterprise on Saturday, on the Bay of Quinte Railway, and report the mine very promising and the deposit very large, carrying a good percentage of molybdenite.—Kingston News.

—The funeral of the late James Fenlon, of Greenbush, was held here on Saturday. Service was held in the church of the Holmess Movement where Rev. A. T. Warren conducted the last sad rites, after which the remains were interred in the Methodist cemetery. A large gathering of friends were present to pay their respects to the deceased.

—The Scribe of the Reporter's houseboat, Lah-neo-tah, and steam launch, Sport, will be launched to-morrow, (Thursday). Some minor repairs are being made on the houseboat this spring including a new stove for the cook's galley, new rubber lever, new sail ropes and a water tank for the toilet room. About the last of this week a trip will be made down the lake in search of a string of ten-ponders.

—House cleaning is now on. Every housewife knows how necessary it is to watch for bed bugs as they will, by some hook or crook, get into the best of house keeper's beds. We have, after experimenting, got a remedy known as "Bugicidi"—a sure death to bed bugs, cockroaches, etc. It has been tried by many and all pronounce it the best they have ever used. Ask for it and you will find it is the stuff. —J. P. LAMB & SON.

SEEDS

Rather early for Seeds, but we wish all to know that we have a fresh supply from best growers.

Groceries

A choice, fresh stock of good goods at moderate prices. A trial convinces. Leave your order and have it delivered. A full line—constantly on hand—of Glass-ware, Crock-ery, Etc. In Confection-ery, we have a fresh supply of Newport Chocolates on hand.

G. A. McCLARY

R. B. Heather,

Has now on hand, besides his large stock of home grown ROSES, VIOLETS & CARNATIONS some very fine—

Celery, Lettuce and Radish.

Call and be satisfied that this is true. Telephone or mail orders given SPECIAL ATTENTION. R. B. Heather, - Brockville
