PRICE—TWO CENTS.

CHARLES OVERHOLT IS FINED \$200 FOR SELLING LIQUOR TO AN INDIAN BOARDER

James Smith Assessed \$10 and Costs For Striking Mrs. Slough—Foreigner Accused By a Woman is Allowed to Go on Benefit of Doubt.

Charles Overholt reappeared in police court today on remand, on a charge of selling liquor to an Indian boarder, Mrs. Slough of the Victoria House, in connection with the alleged window smashing.

Overholt positively denied kicking or striking Mrs. Slough in any shape or form.

Cross questioned by Crown Attorney Brennan Smith said he didn't remember hitting or kicking Auburn.

"He might have hit me and bounced back and fell or being drunk he might have fallen down," said Smith.

The Magistrate convicted Smith and fined him \$10 and costs, \$18 in all. At next court he will be tried on a charge of destruction of property in breaking the windows.

Steve Mouchuk, a middle aged foreigner, was accused of an offence by Mrs. Paul Alon. She said Steve came into her store, bought a bag of candy and then asked her to go into a bedroom. When she refused he seized her, she said, and she called to her little daughter to run and tell a neighbor.

Steve went on the stand and denied touching the woman.

The Magistrate believed him and let him go on paying the interpreter's fees.

Charles Overholt, who was accused of giving liquor to an Indian, had some trouble in court.

One of them said the Indian Back paid his rent while he was present. The Indian was then quite sober. Back went out but came back an hour and a half later quite intoxicated. "But all the time between Overholt was with him in the room and there was no liquor in that room."

"Did Overholt go out for a moment?" asked Mr. Brennan.

"No, he was pretty well filled up himself."

The Magistrate fined Overholt \$200 telling him he believed he had sold whiskey to the red man.

An Italian accused of being drunk was fined \$10 and costs, \$18 in all.

PEACE WITH REDS OR STRIKE IN POLAND

WARSAW, Feb. 9.—The Socialists announce that a general strike will be proclaimed throughout Poland if the Government rejects the Bolshevik peace offer. They assert that all the Labor parties would support such a strike.

Rivals in Business Partners in Service

As chiefs of three of the larger mortgage houses of Canada the three men whose photographs are shown above have competed for the purchase of hundreds of millions of dollars worth of municipal and government bonds. G. Herbert Wood, an employee, is now a rival of A.E. Ames, while Mr. Ames has for many years been a competitor of both. When it comes to Victory Loan campaigns they put their heads under the same committee table.

Mr. Ames is chairman of the Methodist National Campaign. Mr. E.R. Wood is chairman of the special subscriptions com-

NATIONAL CAMPAIGN HAS YOUNG VETERAN

This boyish-faced man is a leading member of one of the biggest bond houses in the Dominion. In addition, he is the strongest speaker on devotional themes that the Methodist laymen of Ontario boast.

It is not the photographer who has made Mr. Gundy look youthful. In real life he looks younger still.

Although for fourteen strenuous years he has been an active broker in the firm which he founded, he looks thirty years old—and is nine years older. During all that time Mr. Gundy has been a worker in committee and on platform in every big religious movement—from the inauguration of the Laymen's Missionary Movement down to the present Methodist National Campaign.

Emerging from the Victory Loan Campaign, he plunged at once into the work of vice-chairman of the special subscriptions committee in this Methodist section of the Inter-Church Forward Movement.

His career belies three "old fogy" ideas—that ministers' sons don't make good, that laymen cannot exhort or inspire, and that young chaps are not to be given big responsibility.

Vaccination Ban Coming Off At the Bridge

The ban on the bridges at Niagara Falls is being lightened. Commencing Saturday it was not necessary to have vaccination certificates verified by examination of results. It has for some time been necessary to show that vaccination has been successful and certificates have been O.K'd by the nurses on duty.

It is said semi-officially that all restrictions will be removed next Sunday, Feb. 15. Merchants over the river have complained of the loss of Canadian trade owing to smallpox regulations. During all the time restrictions have been in force not one case of smallpox has occurred in Niagara Falls or the immediate district.

Trace Relatives Of the Destitute

Nation-Wide Search For Jewish Bread-Winners to Start in Canada.

Search for Jewish breadwinners in this country whose families in Poland and adjacent countries have lost track of them as a result of the war time interruption of communication soon will begin on a nationwide scale. A list containing the names and last known addresses of thousands of such people will soon be published.

In many instances both the bread winner on this side and the dependents abroad have moved several times during the war, and have been unable to communicate with one another. The result is that fathers, husbands, sons and brothers in Canada have been frantically striving to send funds to their families in Europe, while these unfortunates have for years been destitute and unable to understand why their supporters have failed them. Thousands of these people in Poland, Lithuania, and nearby countries have been kept alive for many months by Relief Committee's funds and supplies. The present effort on a large scale to reunite these broken family ties is designed to lessen the drain upon these relief funds and to place the financial burden of supporting these people upon their long lost, but willing enough breadwinners in Canada.

Advice Given To Husbands By Preacher

Preaching a sermon to husbands, fathers and brothers, at St. Paul Street Methodist Church, last night Rev. Dr. Martin gave husbands some excellent pointers.

He advised husbands to give their wives a regular allowance and to never place them in a position of having to ask for money for their own needs.

"As a matter of fact women are quite as capable of spending money sensibly as you are," said Dr. Martin.

He advised strongly against flirting, by married couples, intimating that if the lid were lifted from our social life some startling things would be revealed, he feared.

He repeated the marriage vow—a man who gets married takes a solemn responsibility upon himself. Husband's should be religious and their religion should not be by proxy either—they should practise it as well as their wives.

Dr. Poirier wishes to announce that he has recommenced practice at 4 Court street.

New Agreement Touches Hydro For Millions

Electrical Workers Have Fixed Basis For Their New Demands For Wages.

Representatives of unions of electrical workers from all parts of the Province drew up a program on Saturday, which, if put into effect by the Provincial Government and the Electrical Development Company, will call for an expenditure of \$8,000,000 according to the estimates of delegates attending the conference.

The demands of the electrical workers include a licensing system for contractors and workers, a uniform wage for the entire Province based on a decent standard of living, the arranging and rearranging of power distributing lines that two feet clearance is given to all workmen, an amendment to the Workmen's Compensation Act so that private firms will be brought under Part One of the act, and representation upon the Provincial and municipal Hydro electric Commission wherever the Commissions are appointed.

In return for these concessions, the conference agreed to be responsible for the training, educating and the supply of efficient mechanics for the electrical industry along practical and technical lines.

Employers are to be licensed, that their work may be efficient, and mechanics who have served four years apprenticeship and can pass proper tests to receive a certificate that they are competent to follow their trade.

Oriental Will Go to Welland On Friday Night

Friday night this week Oriental Fraternity No. 8, Oriental Order of Humility and Purity will pay a fraternal visit to the brethren of Welland. Special camel caavans (electric cars) will leave the N. S. and T. R. station at 7 o'clock but previous to that there will be the usual parade from the hall on Queen street to the station via King and James and St. Paul streets. The two bands, brass and clown jazz, will be in the parade. Both bands have 40 members each and the clowns will wear their new regalia for the first time.

German Premier is Given List of Those Wanted by Allies

Covering Note and Letter From M. Millerand, Head of French Cabinet, Also Delivered.

BERLIN, Feb. 9.—The Allied list of war criminals and the covering letter were handed to Premier Gustav Bauer at 9 o'clock on Saturday night by M. de Marcellly, the French charge d'affaires.

A letter from Premier Millerand accompanied the note and list, explaining the new procedure of the Allies as the outcome of the refusal of Baron Kurt von Lersner to transmit the list to the German government.

LONDON, Feb. 9.—The Exchange Telegraph's Copenhagen correspondent says that the Berlin government is resolved to call a meeting of parliament immediately upon receipt of the Allies note demanding the surrender of those guilty of war crimes.

The Bishop of Mackenzie River preached yesterday morning in St. Thomas Church. He told of life in the far north and of the work of the Church is doing among the Eskimos.

"CIRCUIT RIDER" NOW MILLIONAIRE

In the seventies Rev. Charles Hanson was a Methodist pastor in Ontario. After seventeen years of circuit work he lost his voice and went into business in Montreal with his brother, William. Later Charles moved to London, Eng., where he became prominent in politics and finance. Two years ago he was Lord Mayor of London. He is M.P. for Bodmin and a millionaire.

Meanwhile his fellow-preachers who did not lose their voices have grown old in service and are beneficiaries of the Superannuation Fund, to which the Methodist Church is being asked to contribute \$1,500,000 in the February Campaign drive.

McBride and Rollo Seem Still at It

The fight between Mayor M. McBride of Brantford and Hon. W. Rollo, minister of health in the new Drury cabinet, is apparently not over yet. Recently the two labor leaders came to an understanding after it was practically agreed to debate their differences on the public platform in St. Catharines. Now they have had a falling out on the subject of compulsory vaccination.

Mayor McBride, who is well known in St. Catharines and has spoken here, accuses Rollo of not backing up the Labor Party principles when he stands by the Drury Government in backing up the Provincial Board of Health in its demands for compulsory vaccination.

"I am a labor man," said McBride, "and I believe absolutely in the labor policies but when I find an attempt being made to force compulsory vaccination on an unwilling people, I am constrained to say in Heaven's name what are the matters of Labor policy."

He said that only one side of the vaccination question is presented to the public in large newspaper advertisements at the public expense. When British Labor Party opposed compulsory vaccination he felt that he was on solid ground.

FIRE AND LIGHT COMMITTEE NOT YET DECIDED AS TO THE WAGES OF FIREMEN

Committee Will Hold Another Meeting To-night Before the City Council Meets—Will Stick By Action Regarding Union Recognition.

The Fire and Light Committee have as yet come to no agreement as to what they will recommend to the city council tonight with reference to the wages of the firemen. The committee has met but did not arrive at any definite decision as to the amount of the increase.

Another meeting of the committee is to be held tonight at 7 o'clock before the council meets when it is likely some definite action will be decided upon.

A member of the Committee stated today that the city council would stick to its decision not to recognize the firemen's union in the negotiations.

"Some claim our action was illegal, but the solicitor said he thought we were all right, so I guess the legality of the thing is fixed," said the committeeman.

There is not much else of importance to come up at tonight's meeting but there may be some surprises.

Campaign For Formation of Chamber Of Commerce Meeting With Success

The manager of the Chamber of Commerce campaign for St. Catharines, Robert A. Crosby, has arrived in this city and has been in communication with the members of old Board of Trade Council in a series of acquaintance visits.

This gentleman has been phenomenally successful in civic commercial and social organization work and was at one time a lecturer on sociology in a college faculty.

His services to the city of Belleville have won for him the greatest respect and regard possible and a recent letter from there states:

"The organization here is in a thriving condition."

The council of the Board of Trade are well pleased with the Bureau's choice of leadership for this civic commercial movement in St. Catharines, and will in a few days have an announcement of considerable interest to make to citizens.

The work of preparation is going along briskly and two local girls are already busy at work. Miss Alice Brown and Miss Edna Andrews. The big task of the present is to prepare the prospect lists of citizens and complete file records of all industries and business men for office use. Many people have dropped in during the last few days, and they are made welcome by the staff who take pains to explain in detail the extent and scope of this movement.

During a difficult situation in Lewiston, Maine, where there are many citizens of French Canadian descent, both Crosby and Bell, the publicity director, were called in for the Chamber of Commerce re-organization campaign, and today for the first time in the history of a faction-ridden community there are French and New Englanders sitting harmoniously together on committees for civic betterment.

For some time before coming with the Bureau, Crosby was also engaged in settlement work and has for many years associated himself with community development and the problems of growth and care for the recreational and industrial needs of cities.

His record as a campaign manager in a little city of 7000 in Ohio, is unique, where he with a small town type of organization, beat all per capita records for the United States, has been commented upon by the press largely in that vicinity.

Not alone was the campaign a success, but his educational campaign left such a foundation of solid thinking that today it is one of the most progressive and efficient bodies of its kind.

The council of the Board of Trade are well pleased with the Bureau's choice of leadership for this civic commercial movement in St. Catharines, and will in a few days have an announcement of considerable interest to make to citizens.

Japanese Report Bolshevik Uprising On Saghalen Island

Important Mining and Petroleum Plants Attacked, Declare Reports From Tokio.

TOKIO, Feb. 9.—Bolshevik uprisings against the Japanese on the island of Saghalien are reported. Important Japanese mining and petroleum plants have been attacked. A rescue party in 30 sledges has been sent to the scene.

Count Tsunetada Kato, special ambassador of Japan to Siberia, in an interview at Seoul on his way here from Omsk, said that Japan was compelled either to withdraw her troops from Siberia or to determine to assist Russia unreservedly and find a new center of influence in Siberia with which to co-operate. He declared that the Cossacks undoubtedly were still an influence in Russia.

It is officially reported that Vladivostok is under martial law.

David Kyle, M.C., Vice-President of the Ontario Steel Corporation, died at Sault Ste. Marie.

Flags Flying At Half Mast For Dead Jurist

Flags are flying from court houses in St. Catharines and other county seats of the Niagara District today out of respect for Sir Glenholme Falconbridge, chief justice of the supreme court, whose death occurred in Toronto yesterday. Sir Glenholme often presided at the high courts here and seemed always to like to come to St. Catharines. He presided at many important cases in the court here.

THE WEATHER

TORONTO, Feb. 9.— Pressure is higher over the southern and north Pacific states while a shallow depression is situated in the Upper Lake region. Light snow falls have occurred from Saskatchewan to Lake Superior and a few snow flurries in Quebec.

FORECASTS — Fresh southerly winds, fair and milder today, light falls of snow or sleet tonight.

Tuesday—Fresh westerly winds, a little colder again by night.

NO EQUIVOCATION.

The demands of the Allied Governments that German culprits who were responsible for the war be surrendered should not be allowed to gradually go by default. The millions of men who fought and whose families were affected by the carnage and loss are behind the insistence that these villains be turned over for trial. Germany, it would seem, is sparing for time in an effort to evade its obligation and to allow the guilty to escape. As the men who fought are urging the delivery of these criminals in order that they may be punished in a way fitting their crime, the Allied Governments should not hesitate to enforce their demands. The feelings of those who suffered by the war must be respected and there can be little doubt that the hatred for the Kaiser and his associates is strong enough to permit of no equivocation. Whether there is anarchy in Berlin or not as a result of the proceeding, the culprits should be delivered and the Allies should take immediate steps to carry out the purpose of their people.

EMINENT JURIST GONE

The death of Chief Justice Sir Glenholme Falconbridge removes an eminent Canadian jurist. The late Justice was in fact, one of the outstanding men of the Bench and also one of its interesting personalities. To St. Catharines courts the deceased was a familiar figure, having presided here for many years at the High Court sittings. His removal will cause deep regret among members of the legal fraternity who entertained for him the highest respect.

COUNCIL'S PROBLEMS

As forecasted in December by the late Mayor the Council of 1920 is facing a difficult problem with regard to raising all the necessary sums of money to meet increases of wages, and other expenses. The fact that the rate cannot exceed twenty five mills, and it was 24.15 last year, and that the borrowing power is limited to 12-1-2 per cent. of the last revised assessment roll does not permit of a latitude which will allow considerable sums to be raised in excess of last year. It is probable that in view of what the Council has to face it may revert to the single fireman system if it gives the increased wages to the men they are asking. Other civic departments feel they are also entitled to consideration and no doubt will expect more money just as the firemen are asking for it.

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 476 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

of political persecution to venture to oppose Premier Drury, of the Farmers' Government, or any of his Cabinet Ministers, when they seek to find seats and present themselves to the people."

Let us admit that, as our contemporary says, there is no particular difference between this Government and any other. But in other cases it has usually been the practice when a new Government has been formed to allow its Ministers to be elected unopposed. Of course there have been exceptions to this rule.

The present situation, however, has characteristics of its own. In the Provincial general elections both the old political parties were pretty squarely rejected by the people of the Province. The people at the polls very pointedly turned out the present Government, and quite as emphatically refused to set up a Dewar Government.

Neither the Farmer party nor the Labor party wanted to govern, or had the least expectation that they would or could, unopposed do so. Yet here they are, and they are here because the general elections put them where they are.

If the Farmer-Labor coalition can not carry on the government of the Province just now it cannot be carried on without the holding of a general election. If these Cabinet Ministers cannot be defeated why oppose them? If they could be defeated what could result but the overthrow of the Government, a period of utter confusion and another general election, resulting, no doubt, in the return, after no end of turmoil and strife, of the very Government which we now have.

It has been suggested that Liberals should be nominated to oppose these Cabinet Ministers. Why should they do so, when there is so much in the Farmer-Labor platform that is right in line with Liberal policy? It has been suggested, too, that Liberals should unite with Conservatives in supporting candidates in opposition to these Ministers. Why should any such coming together take place against a Farmer-Labor Government which has not yet gone far enough in its way to disclose the nature and scope of its policy?

A new Government of an unusual sort has been given us rather unexpectedly, and most people are, we think, disposed to feel that it may be best for everybody that it should handle public affairs and show what it can do.

UNION LODGE I. O. O. F. NO 16 HONOR THE MEN WHO FOUGHT FOR IT OVERSEAS

Pleasant Gathering Last Night Brought Together a Jovial Company of About 300 — Inspiring Addresses Given — Good Words For Dead Heroes.

Union Lodge No. 16, I.O.O.F. last night entertained its returned men at a banquet in the hall on Queen street. It was an exceedingly happy gathering bringing together about three hundred members and guests.

The handsomely appointed hall set off the gathering very attractively. Caterer John Grant put up a splendid repast—in fact there were so many good things that many of the guests could not attend to all the courses on the menu.

The men honored were:— *Gr. John M. Addie, Pte. Fred W. Allen, Capt. Robert N. Adie, Pte. Edgar J. Blanshard, Lieut. Arthur F. M. Briggs, George Budd, George Lee Barley, James W. Boyce, Percy A. Bradshaw, Walter L. Carnie, Ellis Coates, John Clark, William John Day, Corp. I. M. Eckhart, Band Sergt. W. J. Holden, Lt. Alfred H. Hubbert, Maj. Thomas Frank Jackson, Lt. John Howard Jarvis, Maj. Edwin J. Lovelace, Lt.-Col. W. H. Merritt, Capt. W. W. Moore, Aubrey P. Morley, Lt.-Col. F. C. McCordick, Capt. A. Frank McKinley, Arthur Parkhouse, Capt. Rev. A. H. Priest, James Dakers Low, John B. McKenzie, Capt. Len F. White M.C., Capt. C. D. Dawson, George T. Weston, Robert Kermod, Isidore Clavel, Joseph Milliken, Robert Dick, Howard Hudson, Norman E. Edwards, George N. Comb, Alex. S. Law, W. F. Moore, Richard Coward, Hy. P. C. Steidman, W. W. Helems, Allan Grass, Ernest Grass, J. C. R. Stanton, Edward McGivern, Harry Edmonston, Joseph Green, Dan C. Gilchrist, Albert Hais, Thomas McLanachan, *Arthur E. Widdicombe, James W. Dakers, George M. Williams, Herbert E. Viney, Charles Doherty, James H. Buchanan, Thomas Mackay, Corbie D. Daniels, Alan J. S. Norman, Percy R. Spearman, F. Carl Schmidt, Richard D. Gallabher, Russel E. Boreham, Harold McGeachie, Henry A. Peirce, George W. Gillingham, Stanley Clarison, Walter D. Peterson, Malcolm McSparran, William Roy Hodgins, Andrew G. Shaw. *Killed in action. *Died of wounds.

Rev. Canon Broughall made a good presiding officer and in welcoming the gathering he said the members of Union Lodge who had fought and died had brought lasting honor to the Lodge and the Order. It would be a tremendous pity for our souls and our morality, said Canon Broughall, if we did not remember the great sacrifice our men freely made and the hardships they endured fighting for us. He thought it well from time to time to meet and keep the memory green.

If we maintain our idealism in peace as we had done in the war he felt that much friction and strife in life would be overcome.

Canon Broughall paid a fine tribute to the men who will not return, the great cloud of witnesses looking down and watching us to see how we are bearing ourselves.

The orchestra played a selection and then Lt.-Col. W. H. Merritt proposed "Our Empire," taking advantage of the opportunity to mention how the comforts sent to the boys at the front were a cheering element which helped to keep up their spirits on the dark days. There were dark days over there and it was perhaps the optimism of the men all knowing that it would come out all right that kept them going.

Dr. Merritt said the silken cords binding together the British Empire had been so sternly tried and have held, which seems absolute evidence that the British Empire is something which should be and always be an influence for the good of mankind.

The British Empire has made its mistakes but its benefits have been so many and so far outweigh the other that they are a negligible quantity. Some criticize our occupation of India, but consider the benefits we have given to that country in return India rendered great assistance in the great war. Egypt was another example of the splendid results of British occupation.

In summing up his remarks Colonel Merritt said Great Britain set up a standard of principles and has lived up to them—hence her brilliant and glorious success.

Capt. Rev. A. H. Priest in responding spoke of Britain's success in colonizing, instilling the spirit of old England in the lands across the seas she developed. Britain learned a lesson in the American War of Independence on how to treat her colonies—a lesson she never forgot, most outstandingly emphasized in the case of South Africa.

The hands which join our Empire are light as air, but strong as steel. The Germans were fooled. When the Empire was threatened the rush of her children to her aid, was a revelation to the whole world.

Captain Priest said the men who went overseas got a broader outlook with regard to Canada and the Empire and of other peoples, by rubbing shoulders with all conditions of men, the duke's sons, sons of a hundred cars, who have developed a sense of nationhood we will not lose and it will give us the impetus to do our duty as members of the British Empire.

Bro. Sam Richardson sang "Dear Old Pal of Mine."

"Our Lodge and Order" was proposed by Noble Grand F. E. Carly. He spoke of the steady progress of Union Lodge. Last year over a hundred new members were taken in.

D. N. Walker, veteran oddfellow and veteran citizen and good fellow made a happy response. He said outside of the church oddfellowship is one of the best institutions they have in the country to-day. He didn't think there was a better class of men and he was not ashamed of Union Lodge representatives of oddfellowship.

Mr. Walker made a special kindly reference to the late Captain Frank McKinley, one of the finest fellows who ever lived.

Bro. A. C. Ferguson sang a solo after which Lt.-Col. F. C. McCordick proposed "Our Guests." Colonel McCordick told a number of witty stories and then spoke of the kind remembrances of Union Lodge for its members overseas, also of the financial part of it. He also made reference to Frank McKinley and Bill Moors. He mentioned also the fine set of men generally who represented Union Lodge at the front and said these men could do much to encourage a healthy spirit of militarism. There will be more wars if we are not prepared and he advised careful preparedness for any future emergencies.

Military training is a good thing from a physical standpoint and the training of the young of Canada he considered a wise move.

Major Frank Jackson responded. Not being a speaker he used his time telling stories which he did very well.

Bro. Stanley Switzer sang a song after which Mayor Lovelace responded to "Our City."

Captain Lovelace added his word of appreciation of what Union Lodge did for the men fighting in France and in the other theatres of the war. St. Catharines generally did noble work for the boys over there. In his unit he had men from every province, but no men were so well remembered by the folks at home as were the St. Catharines men. All organizations and classes combined in this kindly work. He cited instances of the sterling worth of Captain McKinley and Captain Moors.

The affairs of a city are quite as important as those of an Empire, said the Mayor, because it is in our city we began to build for empire. The people of St. Catharines are especially favored. Nature has favored us greatly and he believed that the administrators of the city had done much to make the lot of our citizens just a little better than those of other places.

There were improvements needed it is true. Our street railway service required extension and development. There are other things needed.

He believed the city had selected a good set of aldermen all actuated by the business idea and inspired by a sense of duty to the city.

Stanley Ker sang and after Messrs. Wilson and W. A. E. Moyer had responded to "The Press," the exceedingly pleasant affair closed with "Auld Lang Syne," the hour being then about midnight.

Many Cases of Rheumatism Now

Says We Must Keep Feet Dry, Avoid Exposure and Eat Less Meat.

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain.

At the first twinges of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

"Go Teach All Nations Beginning at Jerusalem"

"THAT'S IT," says a critic, "beginning at Jerusalem! You should correct paganism at home before going abroad to look for it. I do not believe in Foreign Missions."

Yet Jerusalem was not Christianized when the Apostles went to Antioch; when Philip was sent to the Ethiopian.

Remember This
The man who does not believe in Foreign Missions stands today clothed and educated because of Foreign Missions. When did English culture begin? With the visit of St. Augustine, a Foreign Missionary from Rome. Who Evangelized Rome? A Foreign Missionary named Paul, of Tarsus and Jerusalem! What if he had gone to the Ganges instead of to the Tiber? Certainly Ganges needs more Christianity, but the best way to improve our own spiritual life is to help bear the burdens of the world.

The Missions Established

Five Christian Communions in Canada—Anglican, Baptist, Congregational, Methodist and Presbyterian—have an extensive mission work abroad. They have sent overseas many devoted men and women. By their work, barriers have been broken down and in every land there is an eager call for more missions, more teachers, more doctors, more hospitals. Now, owing to the declining value of the dollar, it is necessary to double the expenditure in order even to hold the ground won. Until that is done, an advanced Missionary programme can not be undertaken.

A Mandate for Expansion

All men, who think honestly realize that the Gospel of Christ is unique in moral splendor, in spiritual force, in civilizing influence. It redeems the individual and exalts the nation. It has made the modern world of thought, of industry, of progress. It must go out over all the earth to ease international relationships, to put an end to cruelty and misery. There is free entry for the Gospel in every nation under Heaven. Lift up your heads, O ye Gates of India, and be ye lifted up, ye everlasting Doors of China and Japan and Africa, and the King of Glory shall come in.

The Call to Action

Canadians, Churchmen or non-Churchmen, you met the charges of the war with cheerfulness, since it was waged to establish righteousness in the earth. Now hear the call of the Churches for adequate means to continue by peaceful suasion the work which for four years was done by batteries and bayonets. Your Church appeals directly to you, civilized and educated by Foreign Missions of an ancient time, to meet your obligation to that same Great Cause today.

ASK OTTAWA TO NAME BRIDGE COMMISSION

BRIDGEBURG, Feb. 9.—A deputation left here last night for Ottawa to take up with the Acting Premier the appointment of a Commission to act with the special committee named last week in the United States to consider an international bridge.

At the first twinges of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

High Heels Put Corns on Toes

Modern high-heeled footwear presses the toes and produces corns on many of the thousands of women who are wearing them. The result of women's suffering is trying to cut away these corns.

A few drops applied directly to the tender aching corn stops the pain and all shortly the entire corn substance, which dries the corn, without the slightest danger of inconvenience.

RED ROSE TEA

Mark Twain

In the days when interesting people came to Canada to find it interesting there was nobody could reveal the spirit of the land to them like George Ham of the C.P.R. It is said he put Major Pond of the United States out of business. Why go on a wearisome lecture tour under that impressario's guidance? Great pleasure when George Ham could transport you to Winnipeg and on through the delights of the Rockies in all the comfort of a sleeper. Great pleasure when he could call them by their first names. He has loaned matches to kings and potentates and photographed photographs of his features for advertising purposes of best sellers. When the truly great would not venture ascertaining whether George Ham had got so "red up" with dikes and for a change, resorting entitled per many men whose signatures commend themselves to the thought of forgetting to send him their dream of neglecting a royal commission with all kinds of people in the court circular has to be enlarged in his honor. Now he has achieved a mention in the exclusive Morning Post even if the League of Nations has seen the C. P. R. Keeping his health and bright though aristocratic London Mark Twain of Canada. It claims his will yet go down to fame as having as generous with his humor as he is for professional jokesmiths. As the inevitable quip he often laughs at them until he realizes that they were of the heard of the Cincinnati millionaire's plutocrat was attacked by the police and later complained to the police that chain had been stolen. It should be out with his Cincinnati charge when thousands of personages who have to how much their enjoyment was his attention. They have paid tribute to extend in behalf of his ratty tributes ever paid this incomparable tea, was a copy of verses by Mr. Nease how George Ham had "fresh" when acting as uncle, aunt, brother, of British scribes. They think in Britain of the C. P. R. is to display Igloo

"Go Teach All Nations Beginning at Jerusalem"

The Need of Africa
Africa was first explored by a Missionary who lies in Westminster Abbey, honored by all nations. David Livingstone was succeeded by other devoted men, who gave themselves unreservedly to the people of the Dark Continent. Triumphant success in some districts—Uganda for instance—is balanced by dull failure in others. Yet the general prospect is encouraging. Through Canadian Missions in that land, men are raised out of savagery, women are ennobled, children are cared for and educated.

Remember This
The man who does not believe in Foreign Missions stands today clothed and educated because of Foreign Missions. When did English culture begin? With the visit of St. Augustine, a Foreign Missionary from Rome. Who Evangelized Rome? A Foreign Missionary named Paul, of Tarsus and Jerusalem! What if he had gone to the Ganges instead of to the Tiber? Certainly Ganges needs more Christianity, but the best way to improve our own spiritual life is to help bear the burdens of the world.

The Missions Established
Five Christian Communions in Canada—Anglican, Baptist, Congregational, Methodist and Presbyterian—have an extensive mission work abroad. They have sent overseas many devoted men and women. By their work, barriers have been broken down and in every land there is an eager call for more missions, more teachers, more doctors, more hospitals. Now, owing to the declining value of the dollar, it is necessary to double the expenditure in order even to hold the ground won. Until that is done, an advanced Missionary programme can not be undertaken.

A Mandate for Expansion
All men, who think honestly realize that the Gospel of Christ is unique in moral splendor, in spiritual force, in civilizing influence. It redeems the individual and exalts the nation. It has made the modern world of thought, of industry, of progress. It must go out over all the earth to ease international relationships, to put an end to cruelty and misery. There is free entry for the Gospel in every nation under Heaven. Lift up your heads, O ye Gates of India, and be ye lifted up, ye everlasting Doors of China and Japan and Africa, and the King of Glory shall come in.

The Call to Action
Canadians, Churchmen or non-Churchmen, you met the charges of the war with cheerfulness, since it was waged to establish righteousness in the earth. Now hear the call of the Churches for adequate means to continue by peaceful suasion the work which for four years was done by batteries and bayonets. Your Church appeals directly to you, civilized and educated by Foreign Missions of an ancient time, to meet your obligation to that same Great Cause today.

There are as many different varieties of tea as of roses—but only ONE Red Rose Tea.

Red Rose is a blend of about a dozen varieties of teas, chiefly hill-grown ASSAMS—the richest and strongest teas grown.

The skilful blending of these teas produces the delightful and distinctive Red Rose flavor.

The rich, strong ASSAM leaves in the Red Rose package are so full of tea essence that three teaspoons go as far as five of ordinary tea.

The Red Rose combination of Quality and Economy is obtainable only in the Red Rose package.

Mark Twain of Canada

MR. GEORGE HAM

In the days when interesting people came to Canada to find it really interesting there was nobody could reveal the spirit of the land to them like George Ham of the C.P.R. It is said he put Major Pond of the United States out of business. Why go on a weary lecture tour under that impressive guidance when you could transport you to Winnipeg and on through the delights of the Rockies in all the comfort of a sumptuous coach? Great personalities beseech him to call them by their first names. He has hand matches to them and potatoes, dates and autographed photographs of his features for admiring autoresses of best sellers. There did once seem to be a time when the truly great would not venture to come to Canada without first ascertaining whether George Ham could receive them. He is said to have got so "fed up" with dukes and royal bodies that he did not mind, for a change, escorting tuffies and personalities of international fame. Many men whose signatures command imperious power would no more think of forgetting to send him their Christmas cards than they would dream of neglecting a royal command. He is so very much persona grata with all kinds of people in Who's Who, when he arrives in London the court circular has to be enlarged to publish the invitations issued in his honor. Now he has achieved the signal honor of an unpaid-for mention in the exclusive Morning Post. It feels relieved to know that even if the League of Nations be jeopardized, the official entertainer of the C.P.R. is keeping his health and reveling in his high spirits. This bright though aristocratic London paper says George Ham is the Mark Twain of Canada. It claims his jests are beyond computation. "He will yet go down to fame as having originated one joke. He has been as generous with his humor as he has been a profitable acquaintance for professional jokesters. As he never has patented any of his inimitable quips he often laughs at them when he hears them on the stage, until he realizes that they were of his own making. You may have heard of the Cincinnati millionaire he took to Muskoka. While there the plutocrat was attacked by brigands from Toronto. The chief brigand later complained to the police that in the encounter his watch and chain had been stolen. It should be added that George Ham was not out with his Cincinnati charge when the watch and chain were stolen. Thousands of persons who have enjoyed seeing Canada have testified to how much their enjoyment was due to his kindly wit and indefatigable attention. They have paid tribute to the courtesies he knows so well how to extend in behalf of his railway. But perhaps one of the best tributes ever paid this incomparable humorous eccentric of the railway lines, was a copy of verses by Mr. Nell Munro, the Scottish author." He sang how George Ham had "freighted laughter ten thousand miles." When acting as uncle, aunt, brother, father and grandfather to a party of British scribes. They think in Britain that not to have known George Ham of the C. P. R. is to display ignorance of the Empire's geography. —Winnipeg Telegram.

ZARA RULED BY VENICE.

Winged Lion of Saint Mark Caps Gate In the Town Wall.

Zara, where Gabriele d'Annunzio is reported to have landed, and its location relative to Fiume, already occupied by the soldier-poet, is described in a U. S. Geographic Society bulletin, based on a communication from Kenneth McKenzie, follows: "Starting from Fiume, one sails down the channel called Quarnero; leaving Istria and the Gulf of Quarnero to the right. The Island of Arbe, about half-way to Zara, has an old cathedral with a twelfth-century tower. Coming from Trieste one skirts the western shore of Istria, stopping perhaps at Rovigno and at Pola. The stay of an hour enables one to get a hurried glimpse of the great amphitheatre and other Roman remains of Pola, under Austrian rule an important naval station and strongly fortified. The language here is chiefly Italian. Istria would well repay the time devoted to a trip of several days, but we pass on, stopping at one or two of the islands, to Zara, the most northerly town of importance, in Dalmatia.

"Zara is noted all over the world for its marshmallows. Aside from this, however, the town has many attractions to offer. On landing from the steamer in the land-locked harbor, we find ourselves in front of a gate in the town wall. Over the gate is the winged lion of Saint Mark, often met with here and elsewhere in Dalmatia, and a symbol of the former dominion of the Republic of Venice. Passing through the gate, we enter the narrow paved streets of a typical Italian city, such as we may imagine it to have been two or three centuries ago, except that the hotels are more comfortable. There are many mediaeval churches in the town, interesting architecturally, and containing works of art. The cathedral in particular, a majestic Romanesque church, is richly adorned outside with many arcades of little columns and inside with marbles and paintings. It is in the best Italian style of the middle ages. Its campanile is a landmark.

"Wandering among the narrow streets, we come upon several open squares and market-places, where in the morning scores of peasants may be seen in the brilliant-colored costumes. There are Roman remains, too—columns and statues.

Leaving Zara, the steamer comes out of the harbor, encircles the point of land on which the city stands, skirts low-lying shores, passing among innumerable islands. All at once a narrow opening appears; we go through it, and find ourselves in the spacious harbor of Sebenico, with the town rising from the water to a fort crowning the hill.

Loyal to British Crown.

There are a number of diminutive water-surrounded monarchies off the coast of Scotland. They each have their kings, but are subject to the British crown. One of them is the Isle of Bute, in the Firth of Clyde, which is owned by the Marquis of Bute.

The kingdom contains only fifty square miles, but has a population of 11,000 people. There are six lakes within the island, the largest being Loch Fad, which is about a quarter of a mile wide and about nine times that in length. The famous old home of the marquis dates from the year 1608.

Arran is another of these kingdoms in the same fifth. The Marchioness of Graham rules over its 5,000 inhabitants. It is nineteen miles long and ten miles broad. It was on this island that Robert the Bruce is said to have hidden in a cave for some time and there planned one of his expeditions to recover the crown. The ruins of a castle, once the home of one of Scotland's kings, is on the island.

Sir John Bullough rules over the island of Rhuth, which is one vast game preserve. Nearly all this island is deep forest and moorland, and all of it is mountainous. Only 800 acres are tillable, and there are 160 inhabitants. The island provides deer and other game for the nobility.

The largest of these island groups is doubtless Lewis Island, one of the outer Hebrides group, off the west coast of Scotland. It covers an area of nearly 700 square miles and boasts a population of 37,000 people. It has splendid lochs, where splendid fishing is to be had, and red deer still roam over the moors and forest land.

This land has a stirring history, for the people have always been fighters and have many times defeated the royal troops.—Answers.

Solved Labor Problem.

The Malays and Bataks of Sumatra have solved their labor problem in a unique way. An important part of their food is the coconut, and this also forms an important part of their commerce. They have trained monkeys to pick nuts, in which they show great dexterity. Carl D. La Rue of Sumatra writes to Science saying that trained coconut-picking monkeys sell at from \$4 to \$20, according to their skill. He adds that they are very savage, and will inflict a serious bite whenever they get a chance.

Mirrors.

In the early part of the sixteenth century mirrors first became articles of household furniture and decoration. Previous to that time—from the twelfth to the end of the fifteenth century—pocket mirrors, or small hand mirrors, carried at the side, were adjuncts to ladies' toilets. The pocket mirror consisted of small circular plaques of polished metal fixed in a shallow circular box covered with a lid.

Norway Extracting Salt from Ocean.

Experiments in Norway have led to a new method of extracting salt from ocean water by means of electricity. The process is being started for this purpose in the near future.

WANTED—Telephone operators. Apply Chief Operator Bell Telephone Building. 081.f

Drinking a Glass of Hot Water is a Splendid Habit

Cleanse and sweeten the system each morning and wash away poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and bowels the previous day's indigestible toxins, thus cleansing, sweetening and purifying the entire alimentary tract before eating more food.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a fine appetite for breakfast. A quarter pound of limestone phosphate costs very little at the drug store, but is enough to make anyone who is both ere dwit biliousness, constipation, stomach trouble or rheumatism an enthusiast on internal sanitation.

SIX MILLION JEWS NEAR STARVATION

Cold and Disease Add to Sufferings of Destitute Peasants of Poland.

Eastern Europe is the only part of the world to-day that really understands the meaning of conservation, in the grim sense of the word, according to reports brought back to the American Jewish Relief Committee by relief workers recently returned from these stricken lands.

Not a particle is wasted of any of the relief supplies sent from America by the Joint Distribution Committee of American Funds for Jewish War Sufferers or by other organizations. Garbage cans and dump heaps are naturally unknown quantities in a region where 6,000,000 Jews—men, women, and children—are at the point of starvation. Typical of the extreme thoroughness with which these people utilize everything to-day was the use recently made of a shipment of flour, sent to eastern Europe by American Jewish relief agencies.

The flour itself was used to feed destitute Jews at the soup kitchens. White bread is a luxury in these lands to-day, the taste of it forgotten by the poor, and none of the flour sent from America is made into bread as yet. It goes farther stirred into the soup issued at the Jewish relief stations.

In order to make sure that not one atom of the flour was going to waste, the seams were ripped from the sacks, which were then shaken over the soup receptacles. The next thing put to use was the cloth of the sacks themselves. There is practically no cotton or linen in eastern Europe to-day, and every scrap of cloth is put to use.

In this particular case, the sacks were packed both as shrouds for the dead, and as cloths in the operating rooms of the hospital. A part of them was devoted to each purpose. Both shrouds and bandages in eastern Europe to-day have to be made by sewing hundreds of tiny bits of used cloth together, so these flour sacks proved a godsend.

The thread which had stitched the bags together was carefully saved, also, and used to patch together the rags that form almost the only clothing of the destitute Jewish children in these lands, and to sew together the scraps of cloth that they wear around their feet, in lieu of shoes.

In order to help these sufferers, Canadian Jewish Relief Committee is making an appeal for funds.

MOTHERS WATCH CHILDREN STARVE

Lack of Clothing Adds to Suffering Among Jewish Residents of Poland.

The patient resignation with which a mother in Poland accepts what the fates have in store for her children who frequently die of starvation before her eyes, is one of the things that leaves a lasting impression on relief workers there.

Jacob Bashein, who has just returned from abroad, where he had charge of a relief unit for the Joint Distribution Committee, which disbursed funds raised by the American Jewish Relief Committee and other bodies, said that food is distributed to the children in Lodz on a ration basis, and that where the small folk were unable to appear in person because of lack of clothing or illness from the starvation sickness, the allotment was given to the mother. On one occasion a little woman with great hunger-appealing eyes, asked for four rations. The following day she appeared again and asked for only two.

"Two?" repeated the distributing agent. "Why you received four yesterday."

"Yes, but to-day I need only two, because," and the worker may have only imagined that he caught a note of relief in the utter hopelessness of the curiously quiet answer, "two of my little ones died during the night."

For the purpose of relieving this terrible suffering an appeal for funds is being made by the Canadian Jewish War Relief Committee, of which full details will be given later.

JEWS STARVING IN JERUSALEM

Terrible Destitution Caused by Lack of Employment and Shortage of Food.

The street cleaners of Jerusalem form a picturesque but pathetic testimony to the terrible destitution of the Jews of that ancient city, according to the latest reports received by the Canadian Jewish War Relief Committee from relief workers abroad.

The problem of employment is so great in Jerusalem that it is almost impossible to find work in the natural way. For this reason, the Joint Distribution Committee of Funds for Jewish Sufferers from the War hired fifty of the most poverty-stricken Jews who applied to them for aid, to clean the streets in the Jewish quarter. The youngest of these street cleaners is fourteen years old. Seven of the street cleaners are between seventy and eighty years old, and eighteen more are between sixty and seventy years old. None of them have adequate clothing or food.

The Independent Labor Party decided to hold their annual meeting at London Good Friday and the following Saturday.

THE EWE AT LAMBING

Hints on Care of Both Mother and Lamb.

Care Before Lambing Important—How to Help in Cases of Poor Delivery—A Good Ration for Ewes When Raising Lambs.

(Contributed by Ontario Department of Agriculture, Toronto.)

THE two main factors contributing to a satisfactory lamb crop are the proper feeding and care of the sheep during the six months previous to lambing time together with care and detailed attention given to the flock during the lambing period. Plenty of exercise coupled with sufficient amount of the right kind of feed to maintain the ewes in good thriving condition will usually result in the birth of active rugged lambs, for which the mother will have a sufficient supply of milk. In practically every flock, no matter how well cared for, the attendant must be on hand frequently, day and night, during the period the lambs are arriving. A little attention at the proper time often results in the saving of not a few lambs.

Absolute dryness and freedom from draught are very essential for the flock at lambing time, and when the lambs are expected in March or even early April provision should be made for reasonable protection from the cold.

Wool balls in the stomach is often the cause of much loss in young lambs. This trouble as well as difficulty in getting the lambs to nurse may be avoided by clipping away all loose and dirty wool from around the udder and quarters of the ewes. It must be borne in mind that at this time the ewes, heavy in lamb, should be handled gently, otherwise serious loss may occur from ewes slipping their lambs.

Provision should be made for a few small pens located along the warmest side of the building. The ewe about to lamb is much safer separated from the main flock and in cases of difficult parturition weak lambs, ewes disowning their lambs, and numerous other difficulties that may arise they can be looked after a great deal more satisfactorily when confined in small enclosures. It not infrequently happens that a ewe has difficulty in delivering her lamb; this is more common in the case of young ewes with their first lamb. When the lamb has come far enough so that the nose and front feet are in sight and the head is unable to pass through the ewe should be assisted by gentle pulling to the breast. If this fails, the inside of the vagina well with linseed oil; this has the effect of softening and allowing the opening to stretch, and will, unless the case is very severe, give relief. No action should be taken until it is reasonably certain some assistance is needed, and before investigating the hands should be perfectly clean and disinfected.

Lambs may be born weak and apparently lifeless, more particularly a case of difficult delivery. These may be revived by quick action on the part of the attendant. First remove the plégm from the mouth, then hold the mouth open and blow gently a few times to start lung action. Next lay the lamb on its belly and gently beat it on the sides next to the heart just back of the shoulder.

A ewe may lose her lamb and still have a supply of milk. She may give a lamb or one of her other orphans lamb belonging to another ewe to raise. This may be accomplished by skinning the dead lamb and throwing the skin over the one to be adopted. A ewe may take to another lamb when held and the lamb allowed to suck. Especially is this true where a ewe has a full flow of milk.

When a lamb is born during a cold spell it may become so thoroughly chilled as to require attention. Place the lamb in hot water until well warmed, rub dry, then wrap in a cloth and place beside a fire until restored. A little warm milk taken from the mother should be given as soon as the lamb will take it. A few drops of whiskey in a little warm water may often prove beneficial.

Ewes like dairy cattle, vary a great deal in the amount of milk given. In case of single lambs the mother may have more milk than the lamb will take for a week or more, the lambs may be nursing on one side only and the other side will become inflamed and caked. Either hold the ewe and allow another lamb to nurse or milk out. In case the udder has become hard bathe with hot water for five minutes with a woolen cloth, dry thoroughly and apply (warm) pure melted hog's lard.

Ewes should be fed sparingly, especially of grain, for a few days after lambing, as soon as they are safely over the effects of lambing they should be gradually brought up to full feed. Clover or alfalfa hay, together with a grain ration of oats and bran should give results. If roots or good quality silage is available they will supply concency and add variety to the ration.

All lambs should be docked and the male lambs, other than those intended for breeding purposes, castrated at from ten days to two weeks' old.

Following is a good ration for ewes when raising lambs:—
Oats, eight parts.
Bran, four parts.
Oil cake, one part.
Roots, four to six pounds per day.
Good hay.

Lambs started on 1/2 pound per day will give a good crop of wool, feed consumed—Percy Sackville, O. A. College, Guelph.

A laying hen requires grain, meat or milk as well as green food during the winter months.

Hon. Duncan Marshall at Hamilton urged farmers to take more pride in their occupation.

ADVERTISE IN THE JOURNAL

SOILS AND COMPOSTS

Best Suited for Pot Plants, Hot Beds, Seed Sowing, Etc.

Well-rotted, Tough, Fibrous Sod the Best Basis—How to Prepare It—Substitute Potting Soil—Bone Meal a Valuable Fertilizer.

(Contributed by Ontario Department of Agriculture, Toronto.)

SECURING suitable soil or compost for all features of horticulture or horticulture is a very important matter if the best results are to be obtained.

The best basis for all ordinary potting soils is well-rotted, tough, fibrous sod, taken from loamy or light clay loam soils. Sod from an old pasture field, or from the roadside, from where the grass has been kept fed or cut down constantly, will give the closest growing sod, with lots of fibrous roots attached. These fibrous roots are one of the very necessary essentials in potting soils to keep the soil open and friable. The sod should not be cut from heavy clay soils, or where noxious weeds, especially "touch," "spear" or "twich" grass is growing. The sod should not be cut from near pine or cedar trees as the turpentine in the leaves or pinnae of these trees is very detrimental to plants. It is also best not to cut the sod from very swamp soil. Well-rotted barnyard manure such as from an old hot bed, or cow manure, are both good fertilizers to use for a soil compost. Horse manure alone is not a good fertilizer for a compost. About one-third horse manure and the balance cow manure will be suitable. Late in autumn or early spring is the best time to prepare the soil compost, autumn preferred.

How to Prepare.—The sod should be cut about four inches thick, and about eight to ten inches square. It should be stacked out of doors in an out-of-the-way part of the garden or grounds. A space six or eight feet long by five or six feet wide would be a good supply for a small greenhouse, or for a few beds for a year or two. Start by placing one layer of sod packed close together with the grass side downward over the space selected. Then add a second and third layer on top of the first layer. About four or five inches in depth of either of the fertilizers mentioned should now be spread evenly over the third layer of sod. Another three inches should then be placed on top of the fertilizer as before. Then another layer of the fertilizer as before, and so on until the pile is four or five feet in height. About two inches in depth of soil should be placed on top of the pile to finish off with. Place some wire netting or brushwood (not pine or cedar) all over the top of the pile to keep out the wind and rain. Keep the pile quite level while building, and draw it in slightly narrower toward the top. It should be flat on the top when finished. It may be necessary to keep the pile one or two good soakings with water after it is finished, or during dry weather in summer, to hasten decomposition. In six to eight months it should be ready for use and will keep in good condition for about two years.

Preparing for Use.—When ready for use, trim or slice down, with a sharp spade, the quantity required from top to bottom of the pile so as to secure the proper proportion of soil and fertilizer. For potting purposes this should be put through a coarse sieve having a 1/4-inch mesh. All the weeds and fibrous part of the fertilizer should be worked through the sieve. The partly decayed fibrous or organic matter that will not pass through the sieve readily should be kept and put into the soil, if at all decomposed.

Tempering or Mixing Soils.—If the soil is of a heavy clay loamy nature but one part should be mixed at the time of using, with eight or nine parts of the sod compost for repotting purposes, for plants such as geraniums, roses, chrysanthemums and similar plants. If the soil is light loamy nature, a very little sand, if any, will be required.

For Begonias, Coleus, Callias (Auricula), Gloxinias, Salvia, Ferns and similar plants one part of leaf soil, (rotted leaves) or black soil from the bush (decayed leaves), may be added to the compost and sand before mentioned. Black leaf soil from the bush alone does not make a good potting soil for but very few plants, it should be mixed with other soil as stated.

Substitute Potting Soil.—A good substitute potting soil or compost may be made by mixing about seven or eight parts of good, light, loamy garden soil, or sandy soil, with one part of sand and one part leaf soil as before mentioned, mixed well together. One part of dry cow manure, which can be secured from the fields where ewes have pastured, or one part of pulverized sheep manure should be added as a fertilizer for this substitute potting soil. The pulverized sheep or cow manure can be purchased at almost all large seed stores at the rate of about \$2 per 100 pounds. Or about one pound of fine bone meal or bone flour to each bushel of soil may be used as a substitute fertilizer to those named. Sheep and cow manure are two of the best fertilizers to use in connection with all horticultural work, whether incorporated in potting composts as stated, or used out of doors as a liquid solution for flower borders or the vegetable garden during summer, if the ground is not rich enough in fertilizers. Seepage from the barnyard diluted one-half with water makes a good liquid fertilizer for outdoor use where the soil is poor.—Wm. Huat, D. A. College, Guelph.

The electrical workers drew up the basis for a new agreement, which if carried through, will mean millions to the Hydro Electric system and the Electrical Development Co.

1870 Our Golden Jubilee 1920

The Mutual Life ASSURANCE COMPANY OF CANADA

Fiftieth Annual Report

CONDENSED STATEMENT

	1918	1919	Increase
Income.....	\$ 7,021,103	\$ 8,583,404	\$ 1,562,301
Paid to Policyholders.....	3,291,418	3,811,092	519,674
Surplus Earned.....	34,755,736	38,020,949	3,265,213
New Assurances.....	812,710	1,302,801	490,091
Assurances in Force.....	21,541,069	40,625,656	19,084,587
	137,640,614	170,706,305	33,065,691

Fifty Years of Progress

Our Jubilee Year.—The year 1919 was notable inasmuch as it completed the first fifty years of the company's active operations, and at the same time marked the year of its greatest development and progress in all departments of its business. The first policies were offered to the public in the spring of 1870, and the end of the first half century sees the company with unimpeachable assets of \$38,000,000 and policies in force amounting to \$170,000,000.

Remarkable Expansion of Business.—The most remarkable feature of the year was the flood of new business received, due largely to the awakening of popular appreciation of the beneficent function of life insurance by the experiences of the war and the influenza epidemic that followed. The increase in new business acquired was nearly 90%. That the record for quality business was fully maintained is indicated by the large increase of \$33,065,691 in the total business in force, being over 80% of the new business written.

The Surplus Earnings.—No item of the year's operations is more gratifying than the great increase in the surplus earnings. Notwithstanding a certain number of abnormal death losses arising from the war and the influenza epidemic, amounting to \$352,857.65, the surplus earnings for the year were \$1,302,801, an increase over the previous year of 60%, and showing earnings of \$34.27 for every \$1,000 of total assets held at the end of the year.

Invested Funds.—Never in the history of Canadian life insurance has there been such a remarkable opportunity for the profitable investment of life insurance funds, and the effect of the past year's investments will be to enhance the surplus earnings over a long period of years, through holding up the average rate of interest earned on the invested funds. For the year 1919 the company earned the very satisfactory rate of 6.39%.

Comparative Statement of Growth

Year	Income	Assets	Paid to Policyholders	Assurance in Force
1870.....	\$ 4,956	\$ 6,216	\$ 26,681	\$ 500,000
1880.....	88,091	225,675	176,151	3,094,884
1890.....	489,858	1,696,070	1,165,493	13,710,800
1900.....	1,164,875	5,165,493	424,815	29,518,626
1910.....	3,020,996	16,279,562	804,759	64,855,279
1919.....	8,583,404	38,020,949	3,811,092	170,706,305

A copy of the detailed report will be mailed to every policyholder in due course.

Four Good Reasons for a National Forward Movement

"For God so loved the world, that He gave His only begotten Son, that whosoever believeth on Him should not perish but have everlasting life."

DESPITE the four years' fury of War, and the year of uncertainty just ended, the people of Canada have prospered. Yet, spiritual glories revealed to us in the great Conflict are being clouded by drifts of class-hostility, mutual suspicion and cynical materialism.

The world is troubled. Old conceptions are giving place to new. Yet, the Kingdom of God remains, firmly grounded on the great principle of love. It has the one remedy for a world diseased:—"Believe on the Lord Jesus Christ and thou shalt be saved."

Five Christian Communions—Anglican, Baptist, Congregational, Methodist and Presbyterian—call their various constituencies and the whole nation to a livelier and more sacrificial Christianity. They are making a great financial appeal. It is fitting that the public should know the reasons.

1 The Decline of the Dollar

The sharp rise in prices the world over has affected injuriously the position of every man working for a fixed salary. Missionaries are in this category. Stipends that were ample in 1900, and nearly adequate in 1912, are utterly insufficient in 1920. There has been no general increase in these stipends. There cannot be, until the Canadian people scale-up their giving to balance the decline in purchasing-power of the Canadian dollar.

International exchange has been unstable. Money for export has been subject to heavy discounts. In view also of the increased cost of materials and of labor, any new building programme abroad has been out of the question. But the need for new buildings is imperative. Some missionaries are living in clay-floored huts.

New Standards are Necessary The Anglican Synods, the Baptist Conventions, the Congregational Union, the Methodist Conferences, and the Presbyterian General Assembly, have set new standards for the salaries of Clergymen actively engaged in Canada. But, for the Missionaries, and for the Superannuated Ministers, no increases have been possible.

One of the aims of the Forward Movement is to show the fine-spirited, generous, Christian people of Canada that the old standards of giving for Missions must be revised. It is impossible to maintain existing stations, even on a pre-War basis, without more men and much more revenue.

2 The Call from Abroad

Coincident with this financial difficulty, new and glorious opportunities for the extension of Christian teaching have appeared. In India, literally millions of "outcastes" are pleading for Missionary preachers and doctors. In China, a new National spirit has been born. Missionary teachers are urgently required to help formulate the National system of education. Hospitals, Missionary nurses, doctors and dentists, are heartily welcomed by the people. From Japan, Africa and the Islands of the Sea, comes the same story.

3 The Home Responsibility

Here in Canada, the work of evangelizing Indians and Eskimos must now be undertaken wholly by the Canadian Church. The rapid growth of our cities, the expansion of the West, the great immigration of the last twenty years, and the depopulation of rural areas, make a four-fold problem which can be solved only by radical readjustments of policy and greatly increased resources of men and money.

4 The Pressure on the Colleges

Finally, the decline of the dollar has created difficulties in financing the Colleges and Universities established and maintained for the training of the Clergy. Last year, one College which had been able before the War barely to subsist, faced an additional charge for coal alone of \$1600. All other expenditures have risen in like proportion. Christianity has been the mother of Higher Education. A thoroughly trained Ministry is the great need of the times.

The men of faith, filled with the Holy Ghost, who proclaim the Gospel story by the frozen Copernice, beneath the cone of Fujiyama, along the banks of the Yangtse and the Ganges are the product of our Canadian Colleges. There the Vision first appeared to them. The Church must stand behind these institutions.

The Unity of Faith and Prayer

These are the facts. Faced with such conditions, the Church leaders, at first, were appalled. They went to their knees, first in separate denominational groups, then in company. Putting aside for the time being differences of religious temperament, considering only their common belief in the Everlasting Father, the Almighty Son, and the everpresent Holy Ghost, they prayed together. Then they arose, thrilled with a glimpse of the wonderful Missionary opportunity, to appeal together to the whole body of Christians in Canada.

The Greatest of All Gifts

You are a believer in the Lord Jesus Christ, and in the Gospel He proclaimed. Your country has become great through Christianity. The hope and love of the Gospel have warmed your heart and illumined your life.

Next week you will be asked by the representatives of your Church to show practical proof of your convictions. Be prepared—not to give a trifle out of your abundance, but to taste the full sweetness of Sacrifice.

AUDITORS' REPORT TO SHAREHOLDERS
We have compared the above Balance Sheet with the books and accounts at the Chief Office of The Dominion Bank and the certified returns received from its Branches, and after checking the same with the securities at the Chief Office and certain of the principal Branches on December 31st, 1919, we certify that, in our opinion, such Balance Sheet exhibits a true and correct view of the affairs of the Bank's affairs, according to the best of our information, the explanations given to us and as shown by the books of the Bank.
In addition to the examinations mentioned, the cash receipts at the Chief Office and certain of the principal Branches were checked and verified by us at another time during the year and found to be in accord with the books of the Bank.
All information and explanations required have been given to us and all transactions of the Bank which have come under our notice have, in our opinion, been within the powers of the Bank.
D. W. WATSON, J. G. CLARKSON, GORDON & DUNBAR, C.A.
Toronto, January 20th, 1920.

MUSIC AND DRAMA

WINNIPEG KIDDIES

There will be a strange school in St. Catharines when the original Winnipeg Kiddies arrive for their engagement at the Grand for three days commencing Monday.
The school will be conducted in the parlor of a local hotel, and will be on stricter lines than any classroom in our public schools. Every one of the eleven pupils will be stage stars—the Winnipeg Kiddies themselves. Just as soon as breakfast is over, school begins. Their teacher says there are no more industrious children in any school—they are veritable gluttons for learning. Their travels over this continent have sharpened their wits and they imbibe knowledge freely.
As for their stage work—that is their recreation, just as children play during recess. They have learned that quarrels destroy happiness, so they never quarrel. They are just one

happy family. Do they get enough schooling when travelling about the country? Well, after their last American tour, they discovered when they went back to the public schools in Winnipeg that they all were further ahead than their classmates, and they passed their exams easily.
Outside of school hours they learn many things—a knowledge of geography at first hand; deportment in public places; self-confidence and self-reliance. They see people, meet people; see places; visit factories; learn how things are made, and learn to converse as though they were adults. And yet they attain their childish charm and simplicity.
How is it done? It's all in their handling—a carefully prescribed method being followed by the women adults who accompany them, at the head of whom is Mrs. R. G. Holmes, the wife of a prominent C.P.R. official.

Butcher Boy in Rose Romance Will and "Mona"

CHICAGO, Feb. 7.—Romance and nemesis raced from Chicago to Winnipeg, where Rose Schweiburg, alias "Mona Rose" has fallen into the clutches of the law. Nemesis is represented in the person of Frederick Biehl of the firm of Biehl & Sifferman, while romance is depicted by Harry Berger, a butcher boy.
While Ron Schwedburg was busy counting up her cash, making entries in her double entry ledger—and failing to make about \$60,000 worth of entries, according to her employers—way down on the south side, Harry Berger, clothed in white butcher's apron, was occupied in dealing calves' liver and sausage across the counter.
Then after Rose closed her books and locked the front door of the harness factory, she liked to her costly apartment on the north side and became "Mona Rose," chic equestrienne, accomplished dancer, linguist, daring automobile driver, lavish entertainer.
Harry, for his part, emerged from his ten-dollar-a-week room, having exchanged his butcher apron for well imported English clothing and costly jewelry. Harry with his knife-edged trousers, yellow gloves and diamonds, would shortly thereafter appear at the apartment of "Mona Rose" and they would repair to some swell hotel to dine.
It was all very fine while it lasted. Now Rose is fighting extradition in Canada and Harry is chopping steaks and rib roasts at the south-side butcher shop again. He claims he is riding outfit was second hand, and that he paid but eighty-five dollars for his riding horse. He also insists that Miss Mona Rose was merely a friend and that he had no intentions of marrying her. At the same time there arrived for him a telegram from the girl, dated Winnipeg, and conveying this information:
"Arrived safe, will write later."
The girl has been indicted on a charge of embezzlement.

Notice to Creditors

IN THE MATTER of the Estate of HOWARD HODGKINS of the city of St. Catharines in the County of Lincoln, Contractor, Insolvent.
NOTICE is hereby given that the above named Howard Hodgkins, carrying on the business of a contractor, in the said city of St. Catharines, has made an assignment under the R.S.O. 1914 chapter 134, of all his estate, credits and effects to Henry O'Loughlin of the city of St. Catharines in the County of Lincoln, sheriff of the said County, for the general benefit of his creditors.
A meeting of creditors will be held at the office of the Assignee in the Court House in the city of St. Catharines on Friday the thirteenth day of February 1920 at the hour of two o'clock in the afternoon, to receive a statement of affairs, to appoint inspectors and for the ordering of the affairs of the estate generally.
Creditors are requested to file their claims with the Assignee with proofs and particulars as required by the said Act, on or before the day of such meeting.
And notice is further given that after the thirteenth day of February 1920 the Assignee will proceed to distribute the assets of the estate amongst the persons entitled thereto having regard only to the claims of which notice shall then have been given, and that he will not be liable for the assets or any claims he shall not then have had notice.
Dated at St. Catharines this second day of February 1920.
JAMES A. KEYES,
Solicitor for the Assignee.
Feb. 2-5-7-10.

Bad Breath IS CAUSED CATARRH

Canadians suffer more from Catarrh than from any other disease. On this account Catarrh is dangerous and should be checked at the outset.
It isn't necessary to take internal medicine to cure Catarrh. There is a far better method.
Doctors now treat Catarrh by sending a purifying, healing vapor through the breathing organs. In this way the germs of Catarrh are destroyed.
The only successful vapor treatment is CATARRHOZONE, which the patient breathes through a special inhaler to the real seat of the trouble. The rich, piquet essences of Catarrhozone heal and soothe all inflamed surfaces. They effectively treat the nose, throat and lungs with a powerful antiseptic that destroys irritation at once.
Catarrhozone brings into the system the balmy air of the pine forest. It cures completely colds, coughs, catarrh, weak throat, and bronchitis.
Once tried, Catarrhozone is always used... nothing so pleasant, so simple, so quick to relieve, so absolutely sure to permanently cure. Accept no substitute. Large size lasts two months, and costs \$1.00; small size 50c; sample trial size 25c., at all dealers.

VISCOUNTESS SAYS THAT ULSTER WILL NEVER CONSENT TO A SEPARATION
LONDON, Feb. 9.—A despatch to the Manchester Guardian from Belfast says that much comment has been aroused by a speech made by Viscountess Massereene at a Union-

ist meeting in Antoin, in which she declared that Ulster was determined never to surrender its rights and that if any attempt is made to sever her from the British empire, men will swarm over from England and Scotland to assist against "the common enemy."

SAVE MAKE CANADA SECURE

DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS.
The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION
A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.
There are a great many men who need treatment for their nervous system. These men do not know what is the reason they do not feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.
RHEUMATIC AILMENTS
SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.
Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man
BLOOD YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any "building process" of the body and mind, of the muscle and tissue formations, of any of the various vital organs, can be accomplished only by working direct through the blood stream.

Emily Knowles is
Now Wife of Her
Lover's Brother

Marriage of English Girl and
Guy Spiker is Performed at
Fall River, Mass.

FALL RIVER, Mass., Feb. 9.—Miss Emily Knowles of Staleybridge, England, and Guy Spiker of Baltimore, Md., were married here yesterday afternoon, at the home of Mrs. William Battersby, a friend of the Knowles family in England. The ceremony was performed by the Rev. Henry Arnold, pastor of the Bogle street Christian church, a few hours after the marriage license had been received by Guy at the home of the assistant city clerk.

The wedding was of a simple nature. Those in attendance were Mr. and Mrs. William Battersby, Mrs. Sarah Battersby and Charles Whitehead, the witnesses to the ceremony, the two principals with five months old Alfred Ray, Mrs. Charles Whitehead and a few reporters. The single ring service was used.

Previous to the ceremony, Guy S. Spiker and Miss Knowles were taken aside and given a few instructions by the Rev. Mr. Arnold. They then entered the parlor, accompanied by the witnesses. Mrs. Charles Whitehead held the baby. Miss Knowles wore a dress of navy blue serge and

In Maidenhood,
Womanhood
and Motherhood

London, Ont.—"For many years Dr. Pierce's Favorite Prescription has been my most favorite medicine. I have taken it for the ailments pertaining to womanhood and before and after motherhood, and it always proved excellent. I have also recommended it to many friends, who have taken it with good results. It is the best medicine I know of, today, for women or girls who are weak and suffering."
—MRS. WM. STEEL, 178 Richmond St.

SAVED HER LIFE

St. Catharines, Ont.—"I was in a very miserable condition when I first started taking Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription sixteen years ago. I suffered and was extremely emaciated and weak. Although I was a young woman my doctor thought I was going through the critical stage of life, but after using these remedies my strength returned, another child came and from that time on my health was perfect, and my weight increased. I really believe that Dr. Pierce's remedies saved my life and I shall always praise them as long as I live."
—MRS. ELIZA OVERHOLT, 43 Beach St.

Favorite Prescription should have the full confidence of every woman in Canada because it contains no alcohol and no narcotic. Dr. Pierce knew when he first made this standard medicine, that whiskey and narcotics were injurious and so he has always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package Tablets.

Guy was dressed in a brown business suit. During the ceremony Miss Knowles was particularly noticeable by the indifferent expression on her face. She seemed glad when it was completed.

Spiker, on the other hand, was forever grinning. During the recital of the Lord's Prayer, which brought the wedding to an end, Spiker was the only one present who did not answer, his facial expression indicating that he did not know it.

A telegram received by Miss Knowles early in the day from Mrs. Cora Spiker in Baltimore has been the only message received since the departure of Mrs. Spiker from this city early last week.

Whether the telegram was one of congratulation or of instruction is not known.

Big Developments in Evangeline's Land

The new Dominion Atlantic Railway Passenger Station at Bridgetown.

Not only is the Canadian Pacific Railway making advances in accordance with the necessities of the times, and providing every modern improvement for the convenience and comfort of the public, but all its subsidiary lines are similarly progressive. The Dominion Atlantic Railway, which serves a large portion of Nova Scotia and runs through the beautiful land of Evangeline, now owns and operates The Pines Hotel at Digby, providing first class accommodation for the large numbers of tourists who visit the district. A new night service between Halifax and Yarmouth has recently been inaugurated. This night service leaves Yarmouth on Monday, Wednesday and Saturday evenings, and Halifax on Sunday, Tuesday, and Friday, and marks one of the most important developments since the through line of railway from Yarmouth to Halifax was opened up for traffic in 1891. These trains carrying on a combined freight and passenger service, but only carloads of through merchandise are carried.

When on a trip of inspection over the Dominion Atlantic Railway, at the end of November last, Mr. Grant Hall, vice-president of the C. P. R., expressed the desire to have the D. A. R. equipped in the near future with steel rails much heavier than those at present laid. He said that this work would probably be undertaken when the effects of war conditions had disappeared. Important improvements are being carried out along the line and arrangements are progressing for the creation of a new station at Digby which will provide the most up-to-date facilities for tourists and other traffic and add considerably to the beauty of the town. It is estimated that during 1919, 60,000 tourists visited Nova Scotia and spent there about \$2,000,000. Recently a new station was opened at Bridgetown, much to the satisfaction of the public of that town. It is a handsome building 24 ft. x 56 ft. with 20 ft. overhanging on each end and has in front a tavia walk 350 feet long and 12 feet wide. The building is very conveniently designed. It has a cement base-ment. The outside finish is stucco on truss, with smooth finish above and below. The roof is asbestos. The inside consists of gents' room, 20 ft. x 24 ft., office 14 ft. x 14 ft., ladies' waiting room, 12 ft. x 24 ft., and baggage room 24 ft. x 10 ft. The inside finish is of Douglas fir and birch, finished in the natural wood. The ceilings and side walls are sand finish tinted in cream. There are also up-to-date conveniences and the heating plant consists of a Cumberland hot air furnace manufactured and installed by Mr. G. E. Banks of Bridgetown, who also executed the plumbing. The inside and outside decorating was in charge of Mr. Harry Sancton. The whole work, including the building of a freight shed 30 ft. x 43 ft., on the opposite side of the track, was built by contract by J. H. Hicks & Sons, under the personal supervision of Mr. E. A. Hicks, of that firm, who has already built seven Dominion Atlantic Railway stations. The Dominion Atlantic Ry. has also added to its system the hotel at Kentville now known as the "Aberdeen." Kentville is an important and growing centre, and the fact that it is now to have modern hotel accommodation will add tremendously to its benefit. The "Aberdeen" is splendidly situated, and will be made very attractive. It will be renovated and refurnished from cellar to roof. Many of the rooms will be equipped with private baths. The work of renovation will begin at once, but will be so conducted that guests will not be disturbed. The Aberdeen will continue to be operated the year around, and cater to the general and commercial interests as well as to the tourist traffic.

Announcing
Red Rose Orange Pekoe Tea

During our twenty-five years in business, Canada has made wonderful progress in education, refinement and wealth.

The scale of living and the tastes of the people are more luxurious than a quarter of a century ago.

Realizing this we have decided that in addition to our well-known standard brands of Red Rose Tea, the sales of which are increasing faster than ever before—the time is opportune to introduce a tea of extra quality. It is an Orange Pekoe Tea of very fine quality under the popular Red Rose brand, and called Red Rose Orange Pekoe Tea—a special tea of extra quality for people who are willing to pay a little extra price.

To ensure the quality and success of this new tea we have concentrated on it all the resources, the experience and the advantages possessed by our big organization.

The Orange Pekoe Teas we use are selected with a knowledge born of long experience in buying teas abroad.

Red Rose Orange Pekoe are grown on the best plantations;—from tested seed;—on carefully cultivated soil;—at a high elevation (mountain

grown teas are very superior to low-land teas.)

They are gathered at the time of the year when the flavor is most fully developed in the leaves.

The manufacture and final preparation are carefully and skillfully done.

When brewed, Red Rose Orange Pekoe Tea has all the characteristics of fine quality tea.

It has a bright, sparkling amber color in the cup.

The aroma is delicate and delightful.

After the liquid is poured off, the leaves in the pot are a greenish copper color.

The flavor is of rare charm and distinction. The more cultivated your taste the more you will appreciate it.

The strength is rich, satisfying and invigorating.

Red Rose Orange Pekoe Tea is sold only in our sealed waxed board cartons which fully protect its fine quality.

Ask for it by the full name: Red Rose Orange Pekoe Tea. The words "Orange Pekoe" are in orange on our new waxed board cartons.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

There passed away at the family residence Carlton street, on Saturday night, James B. Smith, in his 54th year. During the eight years deceased has lived in this city he has made many friends. He was employed at the Crocker Wheeler. Besides his widow he is survived by four sons, Albert, Edward, George, all at home, and Charles of Toronto. The funeral was held this afternoon at 2:30 o'clock to Victoria Lawn Cemetery.

There are many people who dread the thought of wearing a plate. The very idea of having artificial teeth is repulsive to them and they go on in life suffering from the tortures of broken, decayed teeth and the ailments that are caused by improperly masticated food.

This is sheer folly, particularly when we are able to provide plates that defy detection, even upon the closest inspection.

Every plate made by us is manufactured in our own laboratory by men of unsurpassed skill in their profession. Accuracy, one of the most essential requisites to plate-making, is a point we pride ourselves on.

Lastly, the impression that a good plate is costly, beyond our means, will quickly be corrected by learning of our very moderate prices.

For careful examination and consultation, we make no charge, a service necessary to all who require plates.

Fittings 50c and up.
Very good Plates, \$8.00.

Any Woman's Struggle For Good Health Quickly Rewarded

A SIMPLE HOME TREATMENT NOW ADVOCATED THAT GIVES FINE RESULTS.

When a woman's face grows ragged and pale, when she is tired all day and ready to cry when night comes, she ought to know something is wrong.

Putting off only make matters worse. The best advice we can give any sickly woman is to test out the following treatment.

At the close of every meal, with a sip or two of water, take two chocolate-coated Ferrozone Tablets. This seems to be the best thing going for folks that are tired out, run-down and in need of a strengthening, building-up medicine.

Ferozzone's action aids the three principal functions of the body—digestion, assimilation, elimination. By strengthening digestion it forms an abundance of rich red blood—this gives good color.

By perfecting assimilation, Ferrozzone supplies nutrition—this gives strength, vim, stability.

Elimination is assured because Ferrozzone quickens the action of the liver, kidneys and bowels—this guarantees the maintenance of vigorous health.

Ferozzone puts you on the right road—the one that leads to health. Not a man, woman or child needing blood vigor, endurance—not a person who is weak, nervous or sickly, not a person in ill-health who won't receive immediate help from Ferrozzone.

As a tonic and restorative, as a health-bringer and body builder, Ferrozzone is unrivalled. It cures because it feeds and nourishes, because it contains the elements that build up and strengthen. Try it yourself—sold everywhere in 50 cent boxes, 6 boxes for \$2.50, or by mail from The Ferrozone Co., Kingston, Ont.

There passed away at the family residence Carlton street, on Saturday night, James B. Smith, in his 54th year. During the eight years deceased has lived in this city he has made many friends. He was employed at the Crocker Wheeler. Besides his widow he is survived by four sons, Albert, Edward, George, all at home, and Charles of Toronto. The funeral was held this afternoon at 2:30 o'clock to Victoria Lawn Cemetery.

SIX MILLION JEWS ARE FACING DEATH

Starvation and Disease Cause Indescribable Suffering in Eastern Europe.

The hardships of this winter will mean death to thousands of Jews in Poland, unless outside aid intervenes at once according to Lieutenant Shelton Wright of the American Red Cross Commission to Poland, recently returned to the United States after months of relief work in eastern Europe.

He painted a vivid picture of this half-starved people, clad in rags, who are now creeping back toward their devastated homes after months of refuge, wandering, and dying of starvation and typhus along the roads, as they go.

"Outside starvation, numerous diseases, attributed to malnutrition and typhus have killed men and women and children like flies," he said. "I remember a family trying to live under an over-turned wagon by the roadside. The mother was dead under a tree a few yards away—she had been dead for days. The father was stretched upon the ground dying of typhus. He died that day. Under the wagon were two little children, both under five, sick with typhus. An older child sat stupidly beside them—a girl given out of her mind."

Many of the people driven to making "bread" out of leaves and bark, and "soup" out of grass and water. Lieutenant Wright reported. There was unspeakable joy among them when the American ships, loaded with relief supplies purchased with the funds raised by the American Jewish Relief Committee and other American Jewish agencies, and American and Canadian Red Cross supplies were unloaded at Danzig and other ports. In spite of the fact that the American Jewish Relief Committee is spending almost \$2,000,000 a month now on their relief work in Poland, and that the Red Cross is doing its work on so vast a scale, hundreds of thousands of Jews and Poles will die during the winter unless more aid comes.

"Every box-car full of refugees returning to their homes has in it those who die along the way, and those who have contracted typhus," Lieutenant Wright said. "The people try to avoid disease by keeping clean, but it is impossible to do so, under existing conditions. Even our nurses and doctors fall ill of typhus, a disease caused by filth and lice."

The Red Cross and the American Jewish Relief agencies are doing their utmost to keep both the Jews and the Gentiles in these stricken lands alive. Six million Jews in eastern Europe face death unless immediate shipments of food, clothing, and bedding from Canada and the United States reach them before the cold weather sets in.

An appeal for funds is to be made in Ontario and a generous response from this district is confidently expected.

MOBS OF CHILDREN CRAVING FOR BREAD

Gaze Into Bakeshop Windows for Hours at a Time, Hoping for Something to Eat.

"The saddest thing in all Eastern Europe at the present moment—worse than all the other instances of starvation and death and disease on every hand—are the children who see outside of the few bakeries that are able to keep going in Warsaw, Shalom Aesh, the famous Yiddish playwright and poet reported to the American Jewish Relief Committee upon his return from Eastern Europe, where he went as commissioner of the Joint Distribution Committee of American Funds for Jewish Sufferers from the War.

"In the bakery windows are a few loaves of bread, and sometimes cakes, that are sold at a simply prohibitive price," he explained, "and even if these were as cheap as in Canada and the United States, their taste would still be unknown to the hungry Jewish children, who live on the cup of soup a day they get from American Jewish relief agencies. But the youngsters tantalize themselves with the sight of food, when they cannot get the taste of it."

"They press up to the window, and at first merely stare respectfully at the bread, an uneasy little crowd of small folk with old faces and suffering unchildish eyes. Perhaps it is raining, or the wind is blowing coldly through the tatters that they wear, that little barefoot army, but they huddle together for warmth, and do not stir. The sight of the bread has fascinated them, it is so rarely seen."

"A customer comes out, leaving the door ajar for a moment, and the warm fragrance of the bake-shop drifts out to the little ragamuffins, tantalizing them. They press closer to the window, their thin little faces against the glass. Those in front put out their tongues and lick the glass, as if by doing so, they could taste the bread behind it. No poet could ever write into words the wistfulness of their faces as they do it."

"One of the men from the bakery comes out and drives them away every few minutes, else they would break the glass. They are afraid of him, and for a few minutes they stand at a distance, their eyes still upon the bread. Then hunger overcomes their fear, and they press up to the bakery window again. Soon they are eagerly licking the glass once more. And this goes on all day every day in front of the bakery window."

More money is needed to help feed those children, and an appeal soon is to be made in Canada for that purpose.

WANTED — MEN WANTED FOR detective work. Write J. Gandor, former Government detective, Danville, Ill. j 17 24 31.

Constipated Children Gladly Take "California Syrup of Figs"

For the Liver and Bowels

Tell your druggist you want genuine "California Syrup of Figs." Full directions and dose for babies and children of all ages who are constipated, bilious, feverish, tongue-coated, or full of cold, are plainly printed on the bottle. Look for the name "California" and accept no other "Fig Syrup."—Beware!

The numerous friends of Mr. and Mrs. Robert Benson will regret to hear of the death of their infant daughter Dorothy Kathleen, aged 1 year, 1 month and 2 days, which occurred at their home 28 Catharine St., last evening. The funeral was held this afternoon to Victoria Lawn Cemetery, Rev. J. J. Liddy officiated at house and graveside.

The many friends of Mr. and Mrs. Thos. Lehan, will regret to hear of the death of infant son Ernest, aged 3 months and 6 days, occurred at their home on Saturday, 16-1-2 Loyd St., Western Hill. The funeral was held this afternoon to Victoria Lawn Cemetery, Rev. Mr. Priest officiated.

The funeral of Mrs. Frank Simpson was held to the Presbyterian Cemetery, Port Dalhousie, on Saturday afternoon from the residence of her father, David Rennie, corner of Albert and Elgin streets. The service was conducted by Rev. Donald Tait, and the bearers were Robert Rennie, Robert Colquhoun, Duncan McChannon, George Blackman, Chas. Thorpe and Jessie May.

THE CITY COUNCIL RE QUESTION OF SALARY

President Grant of the City Council Argues That Much Right to Be as Other Officials of Various Association

The city council had a short sharp meeting last night which lasted until 9.30. Nothing was done about the increase for firemen a proposition by men Avery and Murphy to deal with the salary question ahead of the union of union affiliations being down by the same vote as that of the last meeting which asked the council to withdraw their union. It is with the exception of Ald. Grant who was not present. The spectators section of the council chamber was filled to overflowing with citizens looking for developments.

President Grant of the Trades and Labor Council made a strong appeal to the council to allow the firemen to have their union, concluding with the remark that if the Aldermen do not persist in their illogical attitude the results be upon their own heads.

A letter was read from H. Stevens, Secretary of the Municipal Voters Association asking the Aldermen to meet at the next meeting, February 19th, at the association together with the Council representatives and the Board of Trade, to discuss industrial matters.

J. Rands, Secretary of the Trades and Labor Council sent resolutions passed by the Council. One resolution obnoxious to a parcel of land being sold to the Normac Machinery Co. at \$500 that the class conscious attitude shown by many of the Aldermen must aside and equal privileges be given to all in the spending of public money.

A third resolution took objection to the City Council's attitude towards firemen forming a union. Secretary E. Stevens of the Local Council of Women asked that a woman be appointed on the Board of Health and Public Library Board.

The Bakers and Confectioners Union and the Painters and Decorators Union wrote the Council requesting the firemen not being allowed to have their union. A letter was read from Sir John Macdonald, Secretary of the Canadian Construction Association, requesting the Council to endorse the principle of public supplies being bought in Canada whenever they can be had at reasonable rates.

T. Jamieson, city auditor, in his annual report recommended that the accounting staff be increased. The statement will be published by the city. The communications were given to various committees for consideration. Mr. Graves said he wished to state his own position with reference to the selling of land to the Normac Machinery Company at \$500 an acre. This question was made the subject of a resolution by the T. and L. Council. He said land value depends on location. He had considered that a new industry would benefit the city. The T. and L. Council recommended, and he was surprised such a resolution had been passed by that body. He didn't think they should be apart with the idea of selling apart with the T. and L. Council. More sympathetic spirit should be shown, he thought, by the Aldermen, whom the City Council is trying to serve. A new industry will benefit the city and the wage earners.
