Potatoes 30 cents per bushel.

FRIDAY'S GRAIN MARKETS. Winnipeg, Man., July 8.—The wheat was narrow and eventually closed 1/2 to 1/4 higher, though the amount of trading is very limited. Cash wheat was unsatisfactory for the moment, except in very limited quantities and for the first time in years No. 3 Northern sold at 10 cents under option. The Chicago and Minneapolis markets closed unchanged to 1/2 to 1/4 higher. The United States report no doubt was a factor, for though it was not published until after the close, it indicated that it would be bullish. The actual figures, however, were a surprise even to the bulls as the spring wheat condition was given as 81.96, which is extreme in the fact of a ten year average of 87. Winter wheat was better, being also against a ten year average of 78.6. The announcement produced active trading on the kerb. Winnipeg cash prices: No. 1 Northern 1.04; No. 2 Northern 1.01; No. 3 Northern 96. Oats—No. 1, White C.W. 35. Flax—No. 1 N.W. 1.95. Winnipeg options: Wheat—July opened 1.02 1/2, closed 1.02 1/2; October opened 1.00, closed 1.00. Oats—July opened 34 1/2, closed 35 1/2; October opened 32 1/2, closed 33 1/2. Flax—July opened 1.74, closed 1.76. American markets: Chicago—July opened 1.03, closed 1.03; September 1.01 1/2, closed 1.01 1/2; Minneapolis—July opened 1.02, closed 1.02; September 1.01 1/2, closed 1.01 1/2; December 1.03 1/2, closed 1.03 1/2.

CHICAGO LIVE STOCK. Chicago, Ill., July 8.—Hog trade was completely demoralized. There was a market for lights and mediums at 15 cents lower than general trade yesterday, but weighty stuff had no recognized standing in court and heavy packing grades was unsaleable. Cattle trade was nominally steady but slow, fresh arrivals not being heavy enough to bring a market. In the sheep house prices were headed downward. Cattle receipts 2,000. Choice to prime steers 8.15 to 8.60; good to choice beef cows 4.75 to 6.00; good to choice heifers 5.75 to 6.75; good to choice calves 5.25 to 6.75; heavy calves 3.00 to 5.50; selected feeders 5.25 to 5.70. Hog receipts 17,000. Choice to heavy 8.70 to 9.35; butchers 8.90 to 9.20; light mixed 8.00 to 9.00; choice light 9.10 to 9.25; coarse packing 8.00 to 8.25; heavy packing 8.30 to 8.50; good to choice pigs 9.00 to 9.20. Sheep receipts 18,000. Good to choice lambs 7.25 to 7.75; good to choice feeding yearlings 5.25 to 5.50; fair to good range yearlings 5.00 to 5.25; good to choice feeding yearlings 4.75 to 5.00; good to choice wethers 4.40 to 5.00.

CHICAGO LIVE STOCK. Chicago, Ill., July 8.—The opening in wheat tomorrow will doubtless see a very large number of resting orders on the buying side of the market and sensational and wild scenes will be witnessed in the pit. On the curb tonight prices advanced as much as two cents over the close on the regular market because of the bullish government report. When the fact is considered that the spring wheat crop has suffered a loss of 107,000,000 bushels in one report, as against an increase in the winter wheat conditions of only 7,000,000 bushels, with a total loss of about 100,000,000 bushels. The average wheat specialists will see that conditions are quite bullish at the moment. Crop reports from the Northwest today were even more bullish than at any time during the present long drawn-out drought. The trade on the whole refused to pile up a lot of what fearing that the government report might possibly be more bullish than the trade expected and that this would be followed by heavy liquidations by longs and the putting out of short lines and consequent heavy price losses. Sentiment at the close tonight was overwhelmingly bullish. Every big trade in wheat talked bullish today on the prospect of higher temperatures over the entire country east of the Rocky Mountains. C.P.R. CROP REPORT FOR THE PAST WEEK

Rain Badly Needed, Especially in Macleod District—Better Conditions in North, Where Crops Will Be Fair to Excellent, According to Present Indications.

Calgary, July 7.—The crop report as furnished by the C.P.R. this week shows the crops in Northern Alberta to be in much better shape than those in the south, where the rain is badly needed. North of Calgary the reports range from "fair" to "excellent," while in the southern districts some are reported to be fair, others poor, and in a few districts they are reckoned to be a failure.

Airdrie—Fair; mostly warm and dry. About six hours' medium rain-fall. Crossfield—Fair; wheat heading out well. Winter wheat two feet high; slightly damaged by dry winds. All spring grain growing well, but are backward. Two light showers past week.

Carstairs—Fine; about four hours' rain during past week. All crops fine. Most of fall grain headed out. Olds—Good; weather warm. Eight hours' medium rain. Crops in good shape. Didsbury—Good. Three hours' heavy rain; growth fast.

Ferndale—Good; six hours' heavy rain and two hours' medium rain; some hail; no damage. Lacombe—Good; warm. Ten hours' heavy rain; grain well advanced; no damage. Wetaskiwin—Good; grain heading in better condition, and have had some good showers during week; weather warm.

Leduc—Good; grain looking fine; about four days' rain last week. Bawlf—Good; about twelve hours' heavy rain; weather warm. Killam—Excellent; all grains looking fine; about twenty-four hours' very heavy rain during past week; prospects never better for record.

Dayland—Excellent; all grains looking fine; no damage; heavy rains. Stettin—Good; warm, with showers; medium rain. Okotoks—Fair; very warm; no rain during the week; oats seven inches high; wheat three inches. More rain badly needed.

High River—Poor; no rain past week; ground very dry; crops in very poor condition. May be some crop outlook is very blue. In some places, only one-quarter can be saved. Cayley—Fair; light showers during the week; grain not making much progress. Estimated about 50 per cent. If more rain falls.

Clareholm—Fair; one hour of rain; balance of time dry and hot; fall wheat 20 inches; spring 4 to 10 inches. Macleod—Poor; one hour's heavy rain; balance of time hot, with hot winds; prospects very poor. May have shot crop on summer fallow and new land, but nothing on other land. Cowley—Fair; no rain last week; crops suffering.

PRESENT NEW WAGE SCALE.

Trammen on United States Roads Will Ask for Advance. Chicago, July 6.—Nearly 30,000 members of the Brotherhood of Locomotive Engineers, on the roads west of Chicago, Duluth and New Orleans, will present a new wage scale to the companies before August 1st. They will ask from 20 to 40 per cent increase in wages.

The Brotherhood of Railroad Trainmen and the Order of Railroad Conductors are also making arrangements for an advance in wages on western roads, to be presented about December 20th. They will ask for at least 20 per cent advance. The convention in Detroit several weeks ago, instructed the International officials to arrange for presenting the new wage scale.

After the western roads have settled the engineers expect to go into the east and southeast. The campaign will last for more than a year. STILL NEED MORE MOISTURE. Light Lands in Manitoba in Bad Shape. Winnipeg, July 7.—Some scattered showers fell last night over the spring wheat country, but not nearly enough to relieve the situation which urgent calls for cooler weather and heavy rains. The temporary relief afforded light lands in southern Manitoba by the rains of a week ago, has been exhausted and the outlook is far from cheerful. Grain in many districts is ripening prematurely and the yield there will be almost negligible. On the heavy lands, however, the plant is standing the drought better and some districts still claim a high percentage of condition.

WANT SHOWS INSPECTED.

National Council of Women Do Not Favor Censorship. Halifax, N.S., July 7.—The National Council of Women on Saturday held a resolution asking for a censorship of drama and shows. The majority of the speakers favored inspection rather than censorship. It was decided that information should be carefully secured during the year.

Dr. Gordon named a resolution, on the subject of the local council, which was passed by the council. New York, July 4.—The White Star steamer Baltic reported in collision with the steamer Standard, arrived today, but with her port seriously damaged.

C.N.R. CROP REPORTS ARE SATISFACTORY

The Weekly Bulletin Shows That Grain is Flourishing Along the Lines of the System—The Edmonton District Has Particularly Bright Outlook.

The weekly report of the Canadian Northern Railway is exceptionally bright and there are indications that everyone will be satisfied when the harvest is gathered in. From White Plains comes the information that wheat and barley is heading out and looking fine, and that the weather is warm, but not harmful to crops.

Gladstone—All grains looking fine. Rains during the past week have proved beneficial. Plumet—Out crop has suffered a little, but recent rains have caused a decided improvement. Oche River—All grains in this district looking very good; no damage from heat. Crops never looked better.

Grandview—Crops are very promising. Weather coming out ideal. Thirty-six Inches High. Invermay—Past week has seen great changes in the growth, which is now 34 inches high. Humboldt, Dana, Howell and Vonda are in a temporary plight, but providing rain descends the situation will be saved.

Aberdeen, Warman, Langham, Reddison, Fielding, Riddell, Battledore, Lashburn and Marshall sent in encouraging reports, rain having fallen in this part of the country and advanced the crops. Edmonton comes out with the declaration that the crop situation could not be better. St. Agatha, near Nevada. A negro constable was killed when he attempted to place them under arrest.

Riot Threatened in Indianapolis. Indianapolis, Ind., July 5.—For a time last night it seemed though there would be a serious time as a result of fighting in what is known as "Bucktown," part of the city along Indiana avenue, that is inhabited principally by negroes. Nearly 4,000 were congregated about the saloons and along the streets when the news of Johnson's victory was received and they went wild. One stepped into a grocery store and swore that Jack Johnson could whip any white man in the city and he was in the store remarked that "Johnson may do that but I know a white man that can whip you," and knocked him down.

Police Stopped Lynching. Clarksburg, W. Va., July 5.—Angered at the demonstration of negroes celebrating the Reno victory, a posse of 1,000 white men organized here last night and drove all the negroes off the streets. One had a rope tied around his neck when the police interfered.

Negro Shot in Omaha. Omaha, Neb., July 4.—Race riots last night in Omaha, as the result of the prize fight, were responsible for the death of a negro and the arrest of a dozen others. Red Dale and Henry Anderson, both negroes, argued over the prize fight and Dale shot and killed Anderson. Dale escaped.

White Woman Attacked. Fort Worth, Tex., July 5.—Minor disturbances between whites and blacks broke out here, following the announcement of Johnson's victory over Jeffries this afternoon. The most serious attack was by two negroes with beer bottles on a white woman.

Shot the Conductor. Tallulah, La., July 15.—When Conductor Roberts, of the Iron Mountain Railway, demanded the fare off Enos Stetson, a negro, near here yesterday afternoon, the latter shot Roberts down. The conductor is probably mortally wounded. Stetson jumped from the train and he is being sought for by a large armed posse tonight. That he will be lynched if captured seems certain.

OIL COMPANY TO PAY FINE. Standard Oil Subsidiary Company in Oklahoma Brought to Its Knees. Enid, Okla., July 7.—The suit of Oklahoma to oust the Waters-Pierce Oil Company from the state for violation of the Anti-Trust Law was settled today by the company agreeing to pay a fine of \$75,000. The company agrees not to enter into any agreement, contract or arrangement, to maintain any restraint of trade in the petroleum products in Oklahoma. A second agreement provides that no forfeiture in this action shall be made on account of the matters embraced in the pleadings of the case taking from the corporation the right to do business in the state but it shall refrain therefrom from further violation of the anti-trust laws.

The third agreement provides that until regulation by the state corporation commission, or until it shall be finally determined that the corporation commission has no power to make such regulation, the companies shall maintain uniform prices upon petroleum products in Oklahoma. The Waters-Pierce Company has agreed to erect or acquire a refinery at a cost of less than \$150,000 near some suitable city in the field.

G. T. P. TELEGRAPHERS. Company Has Not Yet Decided About Award. Winnipeg, July 7.—The Grand Trunk Pacific railway has not yet made up its mind as to what course it will accept in connection with the award of the board of conciliation in the matter of the telegraphers. General Manager Chamberlain says that he has not yet received the award and he is not prepared to intimate what will be done with it when it does come.

SS. BALTIC REACHES PORT. White Star Liner Reported in Collision with Was Badly Damaged. New York, July 4.—The White Star steamer Baltic reported in collision with the steamer Standard, arrived today, but with her port seriously damaged.

PRIZE FIGHT STIRS UP RACIAL FEELING

Washington Police Had Busy Time Breaking Up Street Fights and Locking Up Disturbers—Lynchings Attempted in West Virginia—Negro Shot in Omaha.

Washington, July 5.—Race riots, shooting and cutting affrays, common assaults and depredations, occurred in Washington last night as the direct result of the Reno prize fight. Apprehensive of the outcome of the fight in inflaming portions of the population of the capital, Major Richard Sylvester, chief of the Metropolitan Police, cut short a vacation and hastened to Washington to assume direct personal control in preserving order. The local newspapers by megaphone service reported the fight and large crowds gathered in front of the various offices.

As soon as the notice of the 15th round was announced the various offices were immediately pervaded. As soon as the decision of the negroes, encouraged by Johnson's victory, resulted in remarks which were quickly resented by the whites. Street draws and fist fights became a police busy. There was one shooting affray on Pennsylvania avenue, and the negroes in several assaults used knives. Several hundred arrests were made.

Constable Shot. Mounds, Ill., July 5.—One dead and one mortally wounded was the result of an attempt by two negroes to shoot up the town in honor of Jack Johnson's victory at Reno, Nevada. A negro constable was killed when he attempted to place them under arrest.

INNISFAIR.

Bulletin News Service. The picnic of "Ye Olden Times" overshadowed everything during the past week. Amongst the principal features of the picnic which was worth coming a long distance to see were Banker Wilson's ponies and decorated car, and, being parade master, he was quite naturally par excellence and unbeatable so far as a scenic event went. Blacksmith Jack Wilson with his forge and horse right in the car ready to slip the shoes on was A. W. Hodge of the Coliseum was fine. Dave Arnell, who had a minute fac-simile of the Globe, and announced thereon that he sold the earth, was fine. And being a leading auctioneer he certainly disposed of a fair portion. The jocular black-faced party amongst whom was recognized Fred Scully was very amusing. Two items cannot be left out. First, Lieut. W. J. W. who brought through the town a splendid good horse of the 15th Light Horse and in a manner as though he had been soldiering all his life. Blank cartridge firing at intervals woke up things a bit, but everything was steady, second, just in the midst of an ordinary "quiet" people in a plain vehicle without any ostentatious display, came the original promoter of the whole concern, but all spotted him, and great credit is due to John Robinson of Little Red Deer for the splendid success of the whole business. At the agricultural grounds afterwards all sorts of sports and races, etc., were engaged in. The town defeated Didsbury at football, and the day wound up as successfully as any cleverly organized committee could make it, and they succeeded. A little want is being felt here at the lack of some rendezvous or sort of exchange rooms where the farmers can bring their produce and sell on particular days—but if one or two of the committee of the Agricultural Society or Farmers' Association with a little time given by the bankers, it can be seen by the bankers. W. F. McDonald of the Royal Hotel, who has had his place remodelled and refurnished through-out, and in his usual good manner for the crowd, as also did Albert Carter at the Pioneer Livery Stables, who had his hands full. The town is improving, when one acre of land barely half a mile away sold for \$100. Mr. Brock recently purchased this from F. Archer. Bruce Steese, the C.P.R. assistant, has been promoted to Camrose as an operator. S. W. Fead and C. F. Ashmore have entered the "acre year" at Calgary fair. The Methodist Ladies' Aid held a most successful garden party at W. Gunston's residence, after two postponements on account of weather. Over \$74 was realized, and the efforts of the Misses Humbert, Pamerton, Wilcox, Mrs. Phillips and the Revs. Philips, Munton, R. Rice and E. O. Harry were worthy of all praise. Penhold sports were a great success, some very interesting events taking place. Innisfair, July 4th.

THE GERMAN COLONIES AND THEIR FOUNDER

An interesting history of the establishment of the German Colonies in Western Canada. Written for the Bulletin by Amy H. Kease, of Strathcona.

A quiet, unassuming, unpretentious, middle-aged man with frank, open countenance and the erect figure and graceful bearing that is never quite lost to the man who has had the benefit of years of military training. "Who is that gentleman?" asked the writer of a friend who was teaching in the German colony.

"That is a much more interesting and important man than his unassuming manner would seem to indicate. He is an old soldier who has travelled nearly around the world and who has done very remarkable work as a missionary and a colonizer."

His Birth and Education. The writer afterwards received much interesting information regarding the gentleman's life in the old land and among the people who followed him to the new world.

These people also were very poor, and were in sad enough straits for a considerable time after their arrival here. Because of the difficulty of getting work their trade or other means.

The Colony Near Leduc. Of the German colony about Leduc, which which we are chiefly concerned at present and where the Rev. Mr. Mueller took up his residence, all were farmers, and all had been able to secure the best of land for the trouble of settling on it and cultivating it.

The Desires of Russian Rule. It was in the time of the Czar Alexander II., and even the shadowy part of that Russia now possesses a precedent; indeed, the internal policy of the Russian rulers seems to aim mainly at keeping the subjects of the Czar in a state of dependence and inferiority.

The Desires for Greater Liberty. Consequently, the people remained poor and miserable, but no longer in the lethargic state they had been before Napoleon swept over Europe, and even if a man did secure the ownership of land he could not pass it on to his children, as his death severed their connection with the land.

They Experience the Joy of Freedom. Through the trials and hardships of the pioneer's life, there was always that deep sense of freedom so consciously grateful to those who have the privilege of it.

But Mr. Mueller, who was laboring under great difficulties, himself that year, having to endure as the loss of his crop, the lack of a horse, which necessitated his plodding the weary distance from one preaching station to another on foot, encouraged this movement, pointing out that they might match this temporary drawback with greater advantages in any other country.

world to find—God's freedom, and an independent home. They were beginning to underestimate the blessings their hands, he told them, as they obliterated the memory of the miseries they had endured in the land they had left. It, however, any of them' hearts, he told them, he had nothing to say, but as for himself he had found Canada good enough and here he intended to remain, until the last great trumpet call sounded the summons to the eternal home.

Enjoy Great Prosperity. The people decided to remain, and the wisdom of this course was proved by the fact that, from a state of abject poverty, they have now attained to a competence, the most of the hundred or more German families settled near Leduc having two or more farms and all being in a comfortable position for the rest of their lives.

Many of the Newcomers Poor. Other families equally poor who were unable to start the paths of hunger till they reached Alberta, remaining in Winnipeg, and other parts of the West, till they could earn enough to come to the homesteads.

CONDEMNING WHAT THEY ASKED FOR.

Opposition papers are very busy these days telling us what misdirected geniuses are their friends who occupy seats in the House of Commons.

It will be recalled that the Opposition in the House a demand both loud and long that more restrictions be imposed on immigration.

The demand was vigorously echoed by the Opposition press. The active immigration propaganda, we were then told, was succeeding all too well.

Those gentlemen got what they asked for; got it on their own counts. The restrictions were made more restrictive, and directed at what they declared to be the points that needed amendment.

It is not an overstatement to say that the "invasion" of the English cities, and no less an outrage that new-comers should be permitted to have a say in their pockets sufficient to keep them from starvation should they be unable to find work of a congenial sort immediately upon arrival at their destinations.

Not only so; they are not prepared to wait until some concrete case of hardship is found on which to base their criticism. They manufacture a case for the purpose of criticism.

The Bulletin has no particular occasion to defend the members of His Majesty's loyal Opposition against the attacks their friends of the press are making upon the immigration regulations they clamored for.

The world's most successful medicine for bowel complaints is Chamberlain's Colic, Cholera and Diarrhoea Remedy.

who does not deserve punishment, but that surely is not a law for denouncing the law, or calling for its repeal.

It is also to be noted that even the members of the Opposition have not been making complaints recently about the character of the immigrants coming across the water or over the international boundary.

It will be time enough to say that the regulations go beyond this when concrete instances can be afforded of the standing or indifference of some of the workers where it should not have occurred.

There are encouraging signs of this better acquaintance speedily coming about. "There is always something to encourage those who look for signs of grace. The newest and best sign that one recognizes has been imperfectly observed by most of those who sit in the gas."

The Nineteenth Century for July contains an article by Mr. Arthur Hawkes, of Toronto, on "The Strength of American Enterprise in Canada."

How vast is this strength is indicated by a table prepared by Mr. Hawkes from information gathered by sending circulars to American firms having branches in this country.

The causes of this "invasion" are mainly two: proximity, and the native enterprise of the American people. Because they are great, Canada being in some parts of its own country.

The purpose of the article, however, is not so much to describe the strength of American enterprise in Canada, and to trace the causes of it, as to stir up the British manufacturer and dealer and investor.

The world's most successful medicine for bowel complaints is Chamberlain's Colic, Cholera and Diarrhoea Remedy.

ship, if not to possession, via a feminine devotion to the peasant."

For one thing, the man in the Old Lands must get to know Canada and Canadians better. "There must be more numerous exchanges of visits between you and us."

There are encouraging signs of this better acquaintance speedily coming about. "There is always something to encourage those who look for signs of grace. The newest and best sign that one recognizes has been imperfectly observed by most of those who sit in the gas."

Through, the article is in splendid temper, is written with apparent sincerity though in readable style, is crammed with first-hand information and with illustrating incidents.

Under this heading the Lethbridge Herald discusses the Calgary university movement as follows:

The Calgary University question is to the fore again, and this time has come out more in its true light. The Albertan, who has been the principal champion of the movement, maintained that it was to be a Calgary institution, started and maintained by Calgary people for Calgary students primarily and others throughout the province secondarily.

about or else they deliberately tried to mislead the people. "There may be another alternative."

The Herald maintains its position that the province of Alberta does not require two universities, that the proposed Calgary university must of necessity injure the provincial university, and that not one dollar of provincial money should therefore go to aid the Calgary university.
