

PLANNED SANITARY SYSTEM THEY KEEP THE BODY HUMAN HEALTHY-INTEREST

The

ring tub

ING STORY FROM QUEBEC. The kidneys have very appropriately been desoribed as the sanitary system of the human body. Let them become inoperating and disease will quickly follow, and unless the obstructions are removed, death will be the result. Mr. D. J. Locke, of Sherbrock, P. Q., suffered for years from complicated kidney trouble, and spent over \$100 in efforts to secure relief; but no relief came until he used South American Kidney Cure. His statement is that four bottles completely cured him, and to day he is in the enjoyment of sound health. In the most distressing cases this remedy gives relief in six hours. Sold by S. N. Weare.

even the moderate does of alcohol diminist the power of work. All that is said abo the strength produced by alcohol is does tion. The small glass of the poor man tak during his hours of labor is andoubtedly i jurious. Every penny which the labor pays for alcoholic drinks is not only waste for fat and sugar what he gives for He claims to speak as "a off list," and states that it is the p physiology, his specialty, to det affects of alcohol on the system.

WEDNESDAY MARCH 10th, 1897.

-The United States is once more in the hands of the Republicans, whose nominee for hands of the Republicans, whose nominee for the Presidency was duly inaugurated on the 4th inst. The Democracy of a Cleveland has been superseded by the Republicaniam of a McKinley and the latter party are looking for the speedy slavent of better times. It is to be hoped that their expecta-tions will be realized, and that the scienting business depression, which entails idleness upon willing fabor, will be lifted and confi-dence restored in the solidarity of the finan-tia and commercial institutions of the councial and commercial institutions of the coun-try. How all this is to be brought about

he future must decide; nothing savoring of any startling change in policy was outlined by the new president in his inaugural ad-dress. True, he advocated an increase of ion as the best method to make a plus natead of a minus represent the difference between revenue and expenditure, but in doing this he only out Herod's Herod. The acturing interests of the Republic surely have protection enough to enable safully manufacture for the to su ome market to the practical exclusion of ign manufactures; the agriculturists are also highly protected under the Wilson tariff; and it is doubtful if any benefits will scorue to the wage earners, on whom the burden of taxation now rests most heavily, under a higher tariff. To benefit this latter

inder a higher tariff. To benefit this latter olass there must be such a revival and an ex-tension of manufacturing industries as will give employment to the tens of thousands of willing workers who are now undergoing an onforced idlences. Before this state of affairs can be brought about the currency problem must be satisfactorily solved, for it is to this, far more than to tariff uncertain-ty, that the business depression of the past few years is directly chargeable. A depres-sion that ante-dates the Cleveland regime and emanated under Republicanism cannot be saddled on the outgoing administration. They can only be biamed for not having remedied an existing evil. McKinley has committed himself to give international bi-metallism his early and earnest attention, and he will endeavor to secure it by co-oper-ation with the other great commercial pow-ers of the world. Until the parity between and he will endeavor to secure it by cooper-ation with the other great commercial pow-ers of the world. Until the parity between gold and silver money is established by an international conference, he pledges his gov-to the present of the present will do all in their power to make it so. silver coinage at a par with gold by every resource at its command. He also declares strongly for peace and arbitration, and ad-vocates the adoption of the recently drafted

Instantic to keep the value of the present twe ooinage at a par with gold by every mource at its command. He also declares rongly for peace and arbitration, and adcates the adoption of the recently drafted at the head office, London, Eugland, on February 19ch. Francis Tothill, who preserves the adoption of the recently drafted is the head office, London, Eugland, on February 19ch. Francis Tothill, who preserves the adoption of the recently drafted is the head office, London, Eugland, on February 19ch. Francis Tothill, who preserves the adoption of the recently drafted is the head office, London, Eugland, on February 19ch. Francis Tothill, who preserves the adoption of the portional data been held in Canada and othe policial condition of affairs in the fortaffic had maintained itself. The heave been overhaling stock this unsual course, is to be commended, since he will thus obtaines out many session of Congress for the 15th inst. To motion. He stated that in his judgment, and according to the working of the line it. Liverpool receipts during week 22,784 barries to to easider the the according to the working of the line. Liverpool receipts during week 22,784 barries the the development of traffic. Their traffic returns were, on the whole, and to the statements alrease wailing on astifisatory. General Manager for political partizanahip. It is currently reported that Mr. DeBlois, government avering bank agent at Annapolis, has been dismised the the development of traffic. Their traffic returns were, on the whole, made. The year had been a difficult one to contied with, but he had hopes that some yreading the conduced. CASH PRICES

WEDNESDAY, MARCH 10, 1897.

Which will Meet Foreign Competition.

We have been preparing for the past nine months by placing all our orders for the Spring of 1897 DIRECT, which will put us in a position to not only compete with Toronto cash prices, but do even better, as our expenses being much less we can sell at a less percentage. We beg to ask for a comparison of quality and prices before sending your orders away and give us a chauce to prove what we claim we are prepared to do. Of course in order to do this we are obliged to ask for the same treatment, viz., **spot cash.** Our patrons, however, have the **advan-**tage of thorough inspection before purchasing, which is a privilege not accorded them as patrons of the Toronto firms, who require cash with the order, the results in many cases proving unsatisfactory and disappointing.

Our Dress Goods, Silks and Trimmings

will comprise all the newest and prettiest effects, and with better qualities we have been careful not to order two alike. Setts of samples will be ready to send out during the latter part of this month, the first applications for which will secure first attention

they will play a losing game. The real fight in United States politics is between capital and labor, and the latter class are crying for the institution of economy in every departent of the government as the only sure neans of balancing revenue and expendi-With Cleveland's exit, and McKinentrance, the American people will cease for a little to grumble over the hard times, but the season of their discontent will quickly return if new administration shows an inability to grapple with the great needs of the day.

alectors of Bridgetown will be -The electors of Bridgetown will be ation on the 20th inst., unless an appeal is

taken against the proposed boundaries. A petition has been circulated for the purpose, and quite generously signed, but at time of writing it has not been fyled. Meanwhile the champions of civic and municipal gov-ernment are fighting their battles, and both claim foresight enough to see victory perching on the standard of their cause. There is small doubt but that the majority of the ratepayers of the thickly settled and business parts of the town are in favor of incorporation, but there is a strong opposition from the outskirts of the proposed limits. Claims are made by those outside the water and light district that they will be taxed for both these services; but this is a mistaken notion, at least it is not the case in other incorporated towns. The advantages to be gained by the direct application of the taxes, to be raised on the assessable property of the town, to the peculiar needs of the town itself are many and indisputable. The question of boundaries is another matter, and it will likely be a difficult one to settle. The committee appointed to define the lim-its of the proposed incorporation, no doubt acted to the best of their judgment, but they could not be expected to satisfy everyone. If the objections from the over-the-river ratepayers are valid, they are entitled to the privilege of pressing them before the local ent committee: but it does seem as if, if the question of boundaries is the sole Conventio in June." object of the appeal, the matter might have been satisfactorily arranged before it left the hands of the committee to be incorporated in the petition for a pcll. If the move ment has been started for the sole purpose of side-tracking the main issue, it shows plainly that there is a minority seeking to scape a battle of the ballots. Incorporation for Bridgetown may be delayed, as it has been delayed in other towns, but the movenent gains strength with each delay, and it ment gains strength with each delay, and it will finally triumph. The higher taxation bugbear has already been practically dis-posed of, as it is apparently useless to argue that the intelligence of a representative bus-iness executive of Bridgetown men would suffer in comparison with the executive of the other towns that have propered under inclean excention. There are occasions when it takes an excention to establish the general Af the set executive of Doministic II is concerned under the other towns that have prospered under the optimization. There are concessions when it takes an exception to establish the general rule, bat we hardly think in the present in stance that Bridgetown will be that exception. If the poll is beld on the 20th, every voter should register this optimo on the general strength, and the strong friends of the movement will do likewize; but there will be an idifferent class who will be wills to it comes, or who will not complain if it does not come. There should be no indifference on a question of no much import to the interests of the tawn, as duty to perform, as a duty to perform, as a mather. The ballots are the strong in recording that when the ballots are the tawn was have not be for the struck on the fact of his head and ware returning when the ballots are the tawns was holly cut and bruised. The team of the struck on the fact of his head and tawe may be as belly cut and bruised.

A second state of a second state of the second

considerable expansion of business ought to result shortly from the railway's strenuous effort to assist the development of the terri-tory which it served.

Hymeneal DEICOFF-CROWELL

-Mr. George Arnold, a popular young clerk in T. & B. R. Bishop's grocery, Kent-ville, died last Sunday evening of diphtheria. This is the fourth death that has occurred in that town since January from this disease which is of a particularly virulent type. -Opened to-day, direct from the manu-facturers, 2 cases American Hats and Capa Latest styles. John Lockett & Son. 11

-A Boston paper says the total apple shipment to European ports this season from there on ocean steamers wore 922,479 bbls. or 392,200 barrels more than were shipped out of New York, and 222,983 barrels in excess of Halifax, N. S., her nearest com-meticor petitor.

petitor. —If you wish to enjoy a good laugh attend the "Destrick Skule Examinashun" in the Court House, to-morrow (Thursday) evening. The examination will be interspersed with yocal music by Mrs. Harry Ruggles and sev-eral of Bridgetown's other favorite yocalists. Miss Hope Johnston, of Weymouth, will also be present with her yiolin.

be present with her viola. -Curry Bros. & Bent's buildings have now all been moved to their new site and are rapidly being put in shape for business. A large addition has been built, and their new premises will be much more commodious than the old. Much of the machinery is al-ready in place, and the boiler and engine are ready for work at any time.

Concerning a Middleton Boy.

The Boston Watchman, of Feb. 25th, in giving a description of the Baptists in the state of Vermont, makes happy reference to the son of Isaiah Dodge, Esq., Middleton. the son of Isaiah Dodge, Ésq., Middleton. We quote the paragraph:--""Bellows Falls, the terminus of the Fitch-burg raitroad, is one of the main entrances to the state. The Connectiont at this point turns many toiling wheels, and the place is busy and prosperous. Rev. C. R. B. Dodge is in the seventh year of his pastorate. Sur-prises of all sorts are a part of pastoral ex-perience. Thus far all such events hav-been for pastor Dodge of the happier kind. The church has a fertility of inventiveness in finding ways for expressing appreciation of the pastor and his wife. The Bellows Falls pastor is president of the Woodstock Associational Baptits Young People's Union. To his wise and earnest support is due much of the efficiency and success to which that organization has stained. He is also presi-dent of the Baptist State Sunday-school Convention, which will meet with his church in June."

are ready for work at any time. —A reader of the Berwick Register in the Western States in a private letter of recent date to the publisher says: "The cashier of the bank in this town informs me that for the last twelve months the miners here (American citizens) have been sending thous-ands of dollars after each monthly pay day to Canadian Banks to deposit. What a commentary on the respective banking sys-tems of the two countries."

-...The Fisk Jubiles Singers were greeted with a fair audience in the Court House last Wednesday evening. The night was a most disagreeable one and ioy, and of course was responsible for many a ticket that was not sold. The singers sang the same old songs in their inimitable style, and were encored at every number on the programme and good naturedly responded to the de-mande of an enthusiastic audience.

mands of an enthusiastic audience. May Prince, the highly-bred and valuable stallion, used by Mr. W. F. Gibbons in the Grand Central depot team, met with an ac-cident hast Wednesday night that will likely cripple him for like. He was attached to a heavily loaded aleigh, and making a sudden spring over a rut in the road, the traces parted, and he ran into a fence post at the corner near the achool-house and broke his shoulder. Dr. Jakeman, of Halifax, was telegraphed for and eame up next day. The horse is now doing as well as can be expected.

Mr. William Nixon and his sister, Miss Sadie, of Lynn, Mass., who are visiting friends and relatives in this province, were the guests of Mr. and Mrs. Charles Oakes, ir., for several days not long since. Mrs. and Mrs. Leonard Whitman and family, Mr. and Mrs. Leonard Whitman, and Mr. A. Fairn, were at Cleveland on the 4th and

A large quarry of red Scotch granite near Wentworth, is to be operated in the near fature. Cipt. Fred W. Fullerton, one of the best known citizens of Amberst, died Wednesday night of pneumonia. Mrs. Meagher, the aged mother of Mr. Justice Meagher, of Halifax, died on Wed-nesday morning last. The first quarterly dividend by the Halifax electric tramway is declared, at the rate of 5 per cent. per annum. Donald Kennedy, of Mahone Bay, was killed recently by a falling tree while log-ging in Hants county. A Law and Order League is to be organ-ized in Parrsboro with the object of putting down the liquor traffic. Turto will give \$50,000 to have to the Shubencadie bridged at Maitland and the Midland railway built via Clifton. Joe Donohue, of Newburg, N. Y., defeat-ed Laidlaw, the Dartmouth skater in two races at Halifax and St. John last week. W. P. MoNeil, the welk known iron har-row manufacturer, of New Glasgow, has commenced the manufacture of iron bridges. So far this season only 4,772 crates of live lobsters, valued at \$51,105, have been ship-ped to Boston agains 55,777 at \$82,396 for the same period last year. Colin C. Rice, of Bear River, has pur-chased a vessel in St. John, and will ply it between there and Boston in the interest of his wood and piling trade. A. R. Fulton & Co., Turto, have assigned. The Kingston Vehicle company are preferred for \$14,000. E. M. Fulton, of Patterson & Fulton, solicitors, is assignee. The Furness lines St. John City, which sailed from Halifax for London Saturday Feb. 27th, took beids other cargo, 15,000 barrels of apples valued at \$45,000. Colonel Walker, of the Ancient and Honor-able Artillery, of Boaton, says it is probable that the autum field day outing will take the form of a trip to Halifax, N.S. Mr. Joseph Gordon, a native of Pictou, N.S., died at California last week, in the S2nd year of his age. His estate is estimated to be worth from \$700,000 to \$800,000. A. Fairn, were at Cleveland on the 4th and 5th They attended the funeral of Mr

Dr. Sexton in Bridgetown Dr. Sexton in Bridgetown. The Rev. Dr. Sexton, well known all over this continent, as well as in Europe as an able scientiat and distinguished divine, preached three sermons on Sunday and leo-tured on Monday and Tuecday evenings. On Sunday morning the Rev. Dr. preached in the Baptist church. The sermon was based upon Paslm xviii, 35, and was entitled "Human Greatness and Divine Gentleness." These two points were dealt with at great length. Contrasted with the physical uni-verse man, said the Doctor, was remarkably small and insignificant. We now knew of the existence of a hundred million of stars, and these stars were huge sunn, many of them millions of times larger than our sun, with their worlds revolving around them, possibly inhabited by beings similar to, or perhaps apprior to ourselyve. William Miller, of Port Lorne, is spend ng a few days at the home of Jacob Beals. Quite a large number from this place went to hear the Fisk Jubilee Singers at Middle to hear the Fink Staties enligers at initial ton. Byron Morse, of this place, bought the goods of the bankrupt stock of John L. Morse, which he has opened up for sale on the "no oredit." system. The social club of this place met at the Hall Friday evening, and then they proceed-ed to Spa Springs, where they were enter-tained by and Mrs. Theodore D. Marshall. After they had spent the evening very enjoy-ably, they partook of a sumptuous tea and started for home. Amid March winds and rain they arrived home, after getting astray on the road and losing several hats. uperior to ourselves. What was man 72 inches in height moving

Innabled by being similar to, or pernaps superior to ourselves. What was man 72 inches in height moving at the rate of 4 miles an hour in a universe like this? Why the earth itself if it were swept out of existence to-morrow would no more be missed from God's universe than one grain of sand removed from the ocean shore. And yet, man was greats, greater than sums and stars, despite their magnitude. It was he who constructed the telescope that brought these sums into the field of vision, his mind went out to those distant regions in immensity, and he would live when sums and stars would have passed away. Moreover, he was a child of God, capable of knowing right and wrong, exercising the power of love, and of obeying the will of God. The gentleness of God was seen everywhere in nature and in providence. The mightiest forces were often locked up in the smallest objects. In a single drop of water there was enough electric force to produce a thunder-storm. The earth was moving on its axis at the rate of a thousand miles an hour, in its orbit at the rate of sixty-eight thousand miles an hour; and yet in another direction, with the sun and all his worlds, at the rate of seventy-two thousand miles an hour. Yet al this was so gently done that we were not conscious of a motion at all. In the afternoon the Dr. preached in the Presbyterian church, on the subject of "Leaven," and in his sermon he described many important scientific discoveries on the nature and action of microbe. On Monday evening Dr. Sexton lectured in the Baptist church on "If a man die shall he live again?" Said the lecturer, "The atheist believes that man will not live again; simmortality; while the secularist claims that, as it is a matter beyond our comprehension, we should do our duty here, and not meddle with the affairs of the fu-ture. Let us suppose that our happiness in a future state does not depend, in any case, Mr. Keddy has gone to Clements to spend a few daya. Miss Young, of Lower Granville, is visit-ing her friend, Mrs. F. W. Bishop. Miss Carrie Minard and her brother from Kempt, Queens Co., have recently visited Mr. and Mrs. Keddy. Mr. and Mrs. A. B. Parker and Mr. Geo. Pineo also spent Sun-day with them. Owing to the bad weather last week there were so few at the meeting of the Literary Club it was decided to postpone the meeting until Thureday evening this week. The de-bate will doubtless be interesting and a good attendance is requested. Mr. Keddy has gone to Clements to spend

Mr. E. C. Bishop, of Somerset, is spend-ing a few days here with relatives and

Mr. Shaw and Tupper of Soots Bay have been visiting friends in this neighborhood. Capt. Samuel Groves and wife of Granville Ferry, have been visiting friends at the port. Miss Helen of Myfield, California, and Miss Maude, of Fitchburg, Mass., were visiting their sister Miss Beatrice A. Elliott and other friends here last week. They started on their return trip to their homes with Uncle Sam on Friday via Windsor Junction. Miss Manning, from St. John, is visiting her aunt, Mrs. J. R. Elliott. J. R. Elliott has been detained in St. John with la grippe, but will probably re-turn home on Wednesday. Mr. Joha Hall has a petition, to be pre-sented to Councillor Fitch, asking that a wire fence be made on our new road.

comprehension, we should do our duty here, and not meddle with the affairs of the fu-ture. Let us suppose that our happiness in a future state does not depend, in any case, upon our conduct here, still there is the de-sire arising to have the problem solved. It is possible that in the hurry and bustle of business, thoughts of immortality may be overlooked, but when the heart is alone with God, such questions as these will naturally arise:—What are we? Whence came we, and whither are we going? Consciousness uust be higher than brain, because it is only by consciousness that we learn of the exis-tence of the brain. The elemental part of mind is its consciousness." The lecturer then went on to speak of the great laws of the correlation of forces, and the conservation of energy, from which it is proved that the amount of force existing in the world is always the same. He referred to the possible transmutation of momentum into heat, of heat into light or electricity, and so on. Each form of forces to the force from which it originated? Or where is the new force that is created by the mind a dirace it back as we do other forces to the force from which it originated? Or where is the new force that is created by the mind Clearly, the mind at death is not converted into light, heat, magnetism, electricity, or any such forces. It has left no trace behind. Again, no skeptic will admit that a man is a free agent, but that he is moved by the for-A North Sydney, C. B., man weighs 422 Windsor's rate of taxation for the present into light, heat, magnetism, electricity, or any such forces. It has left no trace behind. Again, no skeptic will admit that a man is a free agent, but that he is moved by the for-ces surrounding him, his will not directing his actions, but simply, like the whistle on the locomotive, announcing what he is about to do. In this self-winding process, wherein man differs so widely from a clock, lies the personality, individuality and spirituality. In every force in nature we have a corres-ponding one in man. Remove the water and the fus of finhes would cease to be formed; remove the light and eventually the human family would be without cycs. Why do the hope and fear of the future exist in man if there be no reality corresponding to them? Man has everywhere a moral nature showing itself in a hatred of injustice. Kren tho writer of fiction mut use "poetic" justice in order to please this innermost feeling on the part of the reader. This is only a brief ontline of a most ex-cellent and thoughtful lecture, which occu-pied a little over an hour in its delivery. On Tuesday evening the subject of the Doctor's lecture was "The Origin of Man; Was it by Evolution or Creation." It was given in the Methodist church and was most exhaustive in its discussions from a scientific standpoint.

NEWS OF THE WORLD anada's mineral production last year wa aed at \$23,627,305. George Jonnatos ston, D \$72,000,000. It takes about three as the other. An official report of the condition of the Turkish fleet gives twenty-two ships ready for

Choice Saryune, 25c We will be ready for business when the building season opens. We have our WIRE NAILS IN ALREADY They will be lower in price than the Cut Nails were in '96. Last year we sold five tons of White Lead and 20 bbls. of Paint Oil. This year we expect to sell more, as we think we have bought rightjust a shade below the others. We want to supply the BLACKSMITHS. and with that end in view are buying direct from the factory, and are able to quote St. John prices on Horse Shoes, Nails, and Iron and Steel. To the FARMERS also we would give a word of advice: You will make no mistake in buying your Spades, Shovels and Haying Tools from us, for we are going to sell just as low as anyone else and perhaps a little lower. Anyway, call and see us; you know where we live. Yours for prosperity in 1897. H. R. SHAW. QUEEN ST., - BRIDGETOWN. Telephone No. 27. When they read the testimonials of cures by Hood's Sarsaparilla. They are written by honest men and women, and are plain, straightforward statements of fact. The people have confidence in Hood's Sarsaparilla because they know it actually and perman-ently cures, even when other medicines fail. Hood's Pills are the only pills to take with Bood's Sarsaparilla. Easy and yet efficient.
