Crucial Stage of Battle May Have Been Reached

Official Reports, The Vague, Hint at Operations of Vital Importance—Germans Apparently Massing Great Forces in Neighborhood of Lille, Near Belgian Frontier.

LONDON, Oct. 6, 10.10 p.m.—The sixty-third day of the great war of Europe saw a repetition of what the peoples of all the countries have forced themselves to expect, perhaps for months to come—no decisive conflict on land or sea.

From Berlin to London came nothing in the way of Germany's claims to progress or reverses. From Petrograd came what has flowed without interruption for weeks—constant claims to the progress of Russian arms.

From Paris at the usual mid-afternoon hour was issued the usual communique, so-called, interpreting the situation along the battle line of the western theatre of the war, in the light of those opposing the German invasion.

There were in the closely worded communication, cryptic to an extent as always, hints of a greater diversity of operations than its ordinarily loose-ness.

Messed Near Lille.

Above all stood out the pressing of what was described as large masses of German cavalry near Lille, as the crowd files, hardly ten miles from the Belgian frontier, and behind them German forces moving on a line between Toumai and Armentieres, the latter point right at the Belgian border.

At the same time the official communication makes it plain that the allies have not

Germans Have Failed in Attempts to Reduce Antwerp Forts and Will Direct Shell Fire Into the City—Fighting on French Left North of Oise Becomes More and More Violent—Cavalry Now Only Thirty Miles From Dunkirk and Ostend—France Has Mined the Adriatic—German Retreat in East Prussia Continues—Kaiser Blamed for Rout of Eastern Army.

LONDON, Oct. 6.—Heavy fighting continued today in the region north of the Oise where the German and allied lines form a right angle. It is said to have been of the most violent character, but without important results. The positions which the French lost have not been regained.

Cavalry in force appeared north of Lille today in what is believed to be an attempt to get around the extreme northern end of the allies' left. These troops are only about thirty miles from Dunkirk and Ostend. If they should succeed in taking either of those ports it would have a tremendous effect on the battle which began at the Aisne.

ALLIES' LEFT FIERCLY ENGAGED.

A Reuter despatch from Paris gives the French official communication issued last night at 11 o'clock as follows:

"The characteristics of the situation remain the same. On our left wing to the north of the Oise the action is more and more violent. In the centre comparative calm prevails. A little ground has been gained in the northern part of the heights of the Meuse."

THE EARLY SITUATION.

The French War Office communique of this afternoon says: "On our left wing the front is becoming more and more extended. Some very important masses of German cavalry have been observed in the vicinity of Lille, advancing before forces of the enemy, which are moving thru the region to the north of a line between Tourcoing and Armentieres."

"Around Arras and on the right bank of the Somme the situation is practically unchanged. Between the Somme and the Oise there have been alternate advances and withdrawals. Near Lassigny the enemy tried an important attack, which failed. On the right bank of the Aisne to the north of Soissons we have advanced slightly with the co-operation of the British army. We have also made some progress in the region of Berry-au-Bac."

"There is nothing to report concerning the remainder of the front. The Belgian forces defending Antwerp have solidly established themselves on the Rupel-Nethe line, against which the German attacks have failed."

CHURCHILL AT ANTWERP.

The report comes from Bordeaux that Winston Churchill, first lord of the British admiralty, is in Antwerp, going over plans for the defence of the city with the Belgian commander.

The previous reports of a slackened artillery fire by the Germans along the main battle lines are said to be due to the lack of big guns. Those in action have been rendered almost useless by the continual firing in progress since the battle opened. The bores of these guns have been literally worn away and new cannons are necessary. Pending the arrival of other heavy pieces from the German bases at Aix-La-Chapelle and Cologne, the burden of the fighting has developed on the infantry. The success of the enforced change in tactics is shown in the loss by the allies of several positions, as yet unnamed.

ALL RESERVES IN ACTION.

It is declared that the German reserves are all in action. This is substantiated by the number of second line troops, many of them old men, who are now being taken prisoners.

The allies' attempt to drive a wedge thru in the direction of Mons continues and reinforcements pour north in steady streams to cut off the German flanking movement.

In order to minimize the effects of witnessing so much suffering, the allies' wounded are being carried south at night. The general public is being kept in ignorance to a great extent of the losses sustained.

GERMAN ARMY CHANGES.

Advices from Bordeaux state that the following important changes in the German army commands have been announced following the removal of Lieutenant-General Helmuth Von Moltke as chief of the German general staff:

General Von Mogen replaces General Von Hindenburg in eastern Prussia; General Eberhardt becomes military governor of Strassburg, the capital of Alsace-Lorraine; General Von Gerck is appointed governor of Ulm, Wurtemberg, and General Ludinghausen replaces General Von Luckwald in command at Coblenz, Prussia.

ANTWERP'S BOMBARDMENT IMMINENT.

Canadian Press Despatch.

A despatch to the Exchange Telegram from Antwerp gives the following official communication issued at 10 o'clock last (Tuesday) night:

"The military governor has informed the burgo-master that a bombardment of Antwerp is imminent and that the people who wish to flee from the town are requested to leave.

"The bombardment will have no influence on the town's resistance, which will be pushed to the extreme limit."

The Exchange Telegram Company states that the foregoing message has been passed by the censor for publication.

20,000 GERMANS AS REINFORCEMENTS.

A despatch to The Times from Ostend, dated Monday, says: "A very important movement of German troops in southern Belgium was reported this afternoon. A column, 20,000 strong, of horse and foot artillery with a commissariat convoy and wireless ap-

By a Staff Reporter.

OTTAWA, Oct. 6.—Canada's first contingent at the front will be 28,500 strong and the government will forthwith equip and send a second expeditionary force of 22,000 men, including reinforcements, bringing the Canadian force in the war some 50,000 men, said an official statement issued here by Sir Robert Borden, prime minister, today.

The statement is as follows:

"According to the reports of the chief embarkation officer, the total force embarked at Quebec amounted to nearly 33,000 men, besides 7000 horses and a proper complement of guns and vehicles, with full equipment for men and horses. The transportation of this force required no less than 31 large steamships. It is probable that upon arrival in England the force will be organized as follows:

Field troops, including a first reinforcement of ten per cent, 26,400; line of communication troops, 2100; total force at front, 28,500.

This will leave about 4500 men for training in Great Britain, who will constitute a reinforcement of nearly 20 per cent for the men at the front.

Second Force Soon to Go.

The government proposes forthwith to organize and train a second expeditionary force of twenty thousand men with first reinforcement of ten per cent, making 22,000 in all. This force will be mobilized as expeditiously as possible and the arrangements for providing the necessary arms, ammunition and equipment are already in progress. The force at the front will in this way be brought up to more than fifty thousand men. The government are also making preparations to organize and train necessary further reinforcements for both the first and second expeditionary forces. The arrangements for organizing and training such reinforcements will be announced at a later date.

Canada Do Her Share.

The prime minister's announcement that a second contingent of 22,000 will be organized at once and that the force of 50,000 Canadians then at the front will be reinforced so as to keep them up to full strength means that, unless the war has an unexpectedly early termination, Canada will eventually send at least 70,000 men, and will thus take her full share in the great conflict.

Col. Sam Hughes said he was confident that this number of men can be easily raised, and that his second contingent can be recruited and sent off more quickly than the first, which has just sailed. Arrangements have already been made for the necessary equipment and it can be delivered by the contractors on short notice.

Several Mobilization Points.

The second contingent of 22,000 will not mobilize at Valcartier because even the early winter would be too severe there. That camp is already almost entirely dismantled. The second contingent will be mobilized at base depots at Halifax, St. John, Quebec, Montreal, Toronto and other large centres, according to a statement of Col. Hughes. After being recruited and equipped and given some preliminary training they will go to England to complete their training.

It is believed here that the announcement of the immediate organization of the second contingent will be received with enthusiasm throughout the Dominion.

Sacrifice Prices on Superb Fur Coats.

The great sale of furs at Dineen's, 340 Yonge street, continues to draw crowds that are enthusiastic over the exquisitely handsome fur garments and the extraordinary low prices. Fur coats sale prices only 85c. but there are still many to unload. Below are two extra special values that will not remain long in the main long-lined Dineen showrooms at prices quoted.

Handsome Hudson seal coat, 50 inches long—correct style—lined with best satin and worth \$115; sale price only \$65. Handsome marmot coat—stylish model—38 inches long—reduced from \$90 to \$55. These are merely a couple of examples taken at this big sale.

Ontario's new premier, Hon. W. H. Hearst, issued last evening his inaugural address to the people of the province. He makes extended and sympathetic reference to the part which Sir James Whitney played in political life and states that the trail he blazed was broad and worthy enough to provide a path for all succeeding premiers. If, however, occasion demanded radical action, there would be no hesitation in breaking new ground.

The message reads as follows:

I desire in the first place to express my deep appreciation, and that of my colleagues, of the sympathy so generously extended by the people of Ontario and indeed of Canada generally on the death of our late beloved and gifted leader, Ontario's most honored, trusted citizen.

Sir James Whitney passed away genuinely mourned by the people of the province, after a distinguished and successful career such as it is given few men to enjoy. But while he has gone from us he has left a record of good deeds, and of legislation for the development of the province and the betterment of its people, that will be an inspiration for generations to come.

Whitney Tradition Remains.

It will be the aim, object and determination of the new government to carry out the splendid traditions of our government Sir James has bequeathed to us, to maintain unimpaired the many great works he has accomplished and to carry to completion the works inaugurated and the plans devised by him for the benefit of the people of the province.

Allegations of Intent to Violate Belgium's Neutrality by Storing Ammunition "Absolutely Untrue."

Canadian Press Despatch.

LONDON, Oct. 6, 5.33 p.m.—The official press bureau tonight issued a statement declaring to be "absolutely untrue" the allegations made by Prof. Harnack and other prominent Germans that Great Britain had stored quantities of ammunition at the French fortress of Maubeuge before the outbreak of the war, which the Germans claimed was evidence that she intended to violate the neutrality of Belgium. The statement adds: "No decision to send British forces abroad was taken till after Germany had violated Belgian neutrality and Belgium had appealed for assistance. No British ammunition or stores had been placed at Maubeuge before these events. Any British ammunition or stores found at Maubeuge were sent there after and not before the outbreak of the war and the violation of Belgian territory by Germany."

Special to The Toronto World.

OTTAWA, Oct. 6.—Talk of an early appeal to the electorate is quite common here now. Many things point to it. Sir Richard McBride is to be here; Hon. Mr. Cochrane is off to inspect the National Transcontinental from Quebec to Port Arthur, and take in the Canadian Northern to Sudbury; Hon. Mr. Rogers is in touch with Manitoba. A despatch from Ottawa was published by a New York financial paper to the effect that an election was likely, and this has been reproduced in many papers throuth the country.

The strongest reason for an election is that the senate defeated the Borden bill to build three dreadnoughts; also other government measures. Now the government, it is claimed, would be justified in appealing on the grounds of saving the contingent of 30,000 soldiers to support the mother country in the battlefields of Europe.

The Liberals are claiming that there was some kind of understanding between the parties of a truce until the war is over. But this is denied by those able to speak for the Conservatives.

Forces Are Being Slowly Pressed Back in Mazur Lakes Region by Russians' Advance.

Special Direct Copyrighted Cable to The Toronto World.

PETROGRAD, Oct. 6.—The Germans again are being pushed back on the line of the Mazur Lakes and are doing their best to maintain their fortified positions, extending for 55 miles in an irregular line from Verjohlovo, a station on the Russian border, to Lock. They are supported by fire from heavy artillery, reinforced by a garrison from Koenigsberg. It is supposed that these positions are defended by three or four army corps.

The Russians continue pushing forward. Attacks on the railway stations in East Prussia, near the frontier, have successfully blocked the military trains. The fighting is especially severe in the neighborhood of Bakalarjevo.

Aerial scouts report that endless columns of the enemy's wagons are retreating westward.

It is announced by way of showing the Russian fighting spirit, that 19 boys under 18 years of age have run away from the schools to Moscow in an heroic to join the army.

LONDON, Oct. 6.—The Times prints the following despatch from its correspondent at Cape Town, South Africa:

"An article contributed to Thee Cape Times by a recent visitor to German Southwest Africa, shows that the Union forces have to meet admirably trained and equipped troops, estimated to number at least 10,000, and armed with numerous machine guns and batteries. The Germans have singularly complete combinations by telephone and telegraph and wireless, the territory is difficult for operations and contains defensive positions of great strength."

THE BANKS OWE SERVICE TO THE NATION AND PEOPLE.

In spite of what may be said The World wishes to reiterate that its criticism of our banks, of our banking system, of the currency question, of the minister of finance, none of it is destructive, but, on the contrary, corrective.

And to strengthen our contention in this respect, we ask you to read the following from an American paper, in the hope also that it will bring a new view-point to the banks themselves:

BANK STRENGTH IN A NEW LIGHT (From The Boston Daily Monitor, Oct. 2) Secretary MacAdoo has found the national banks in undertone to critics for hoarding their funds resentful and hardly respectful in their relations.

Not so much by them as in their behalf it is declared that the secretary exceeds proper bounds when he undertakes to direct how the business of the banks shall be conducted as between the institution and its customers.

What engages public attention is that the banks exhibit surprise that it is thought the possession of large reserves is a breach of good conduct. This has been their measure of strength, and are they to be held up to rebuke for being strong?

The development is a by-product of the new attitude of the government toward the national banks, expressed in the new currency act and to be shown in other ways.

That's good talk to the banks! That with the franchise goes a sovereign command from the nation to give a service! Above all things not to take unfair advantage!

Our conviction is that after a wide experience many of our Canadian bankers have only the faintest glimmer that they owe the public a service, Lloyd George, the Chancellor of the Exchequer, Hon. Mr. MacAdoo, Secretary of the U. S. Treasury, think so, and we hope the Hon. Mr. White, the Canadian Minister of Finance, think so.

And just one other point: we have never in these columns been suggesting that the banks should give money to anyone who said he was in need of it and therefore ought to get help.

The banks have a common interest in keeping things going, but they are not all living up to it. All the more honor, therefore, to those banks who are helping to finance business even at the expense of cash reserves.

SUNDAY MUSKETRY DISAPPROVED OF BY OTTAWA SIGNS

Presbytery Thinks Situation Not Serious Enough for Such Measures.

NO TIME TO RETRENCH Toronto Churches Will Bear Their Share of Annual Budget.

The Toronto Presbytery yesterday protested against the militia using the Sabbath day as a time to practice target shooting and manoeuvring and passed this resolution:

"It has been reported that such military manoeuvres as reviews and target shooting have been held on the Sabbath day, and as in the judgment of the Presbytery there is nothing in the present situation to warrant such manoeuvres, this Presbytery would respectfully desire to utter its protest."

Dr. Robertson moved the resolution and Principal Gandier seconded it. Special attention was drawn to the sham battle held by the Queen's Own last Sunday at Cedarvale and the shooting on Sundays at Long Branch.

Dr. W. T. Hendricks, moderator of the General Assembly, and Dr. A. S. Grant in discussing the budget, said that it was a time to advance, not to retrench. The share of the Toronto Presbytery will be \$240,000.

A resolution regarding the making of Thanksgiving Day into a holiday instead of a holy day was referred to the General Assembly.

The presbytery sustained the call of Chalmers Church to Rev. G. W. Woodside of Mount Pleasant Church, Vancouver. It provides for a stipend of \$700.

Rev. John McNeill, pastor of Westminster Church, was nominated for moderator of the next General Assembly.

The work of Rev. John McNeill of Cooke's Church was approved of in a resolution moved by Rev. A. B. Winchester.

\$10 Reward will be paid by The World to anyone who will give information that will lead to the conviction of parties stealing morning World newspaper parcels from the store entrances or from private houses.

NEW PREMIER'S FIRST MESSAGE

Agriculture in Ontario Will Be Boomed in All Possible Ways.

FINANCES CONSIDERED Natural Resources of the Province Will Produce More Revenue.

(Continued From Page 1.) province and the development of its resources. Above all we will maintain unswayed and unshaken the high standard of clear, honest administration of public affairs set by him.

The legislation enacted under the guidance of Ontario's late prime minister has been so beneficial and the works carried out under his direction so ample and complete that his successors might well be satisfied to follow the trail that he has so well blazed out for them.

Will Break New Ground. But complete and beneficial as the legislation and works of the late government have been, a province blessed with such limitless resources to the development of its resources and its people, the present government will strive to meet these resources to the best advantage and we will not hesitate to break new grounds when the needs of the province demand.

By earnest conservation to the interests of the people by the discharge of our trusteeship, and by wise and progressive legislation suited to the needs of this much-favored province we expect to retain the confidence and respect which the people of Ontario who were enjoyed to so marked a degree by the late government of Sir James Whitney.

We have not had time to give thought and consideration to new questions and subjects that may demand attention, but I desire at this, my earliest opportunity, to assure the public that the policy of hydro-electric development, inaugurated under the Whitney government and carried to such a triumphant success with unexampled energy, zeal and devotion in public service by Adam Beck, will be carried on with unabated vigor, until the boon of cheap light, cheap heat and cheap power is available to every section of the province and to every class of the community, to the troller in our towns and cities, so far as it is practicable.

I must not let this opportunity pass without making public acknowledgment of the great debt of gratitude owed by the government, the Conservative government, and the people of Ontario to Dr. Fyfe, the minister of agriculture, for his self-sacrificing devotion and untiring care for our late premier during his illness, and also for the splendid public work done by him during the many trying months when, as acting head of the executive council, the responsibility for the administration of the affairs of the province rested on his shoulders.

My colleagues, Mr. Fyfe, Dr. Fyfe, Mr. Hanna, Mr. Duff and Mr. Lucas will preside over the same departments as heretofore, and the public may describe as "news to him" a report published in a New York paper that dissolution is imminent.

There can be no question that some of the cabinet ministers are strongly in favor of going to the country this fall, and have the concurrence of a substantial following of members. Others are believed to question the move as inopportune because of the war, and to doubt the sagacity of it, even from the viewpoint of political strategy.

Not until after an election can the extra western senators be appointed, and the government thus obtain command of both branches of parliament, something which is highly desirable in the event of a dissolution.

At present it seems a toss-up as to whether or not there will be dissolution, but the chances just now would seem to be against it.

AN APPEAL ON THE WAR ISSUE.

Editorial in Toronto News... The News does not venture to speculate as to whether there will or will not be an election.

There are arguments in favor of a dissolution of parliament, and perhaps there are arguments against. Hardly more than a year ago the Liberal party exhausted every conceivable device in order to force an election, because Mr. Borden desired to strengthen the British navy.

At present there is greater need since the constituencies were redistributed for an appeal to the country than there was when all the Liberal newspapers and politicians were demanding dissolution.

If it was necessary to have an election in order to prevent Canada building dreadnaughts for the empire, would it be such a shocking thing to ask public approval of the policy which the government has pursued since the war began and which it must continue to pursue if the war continues? One suspects that the war-time imperialists of the Liberal party are thinking chiefly of their own political safety.

The masses of the Liberal party are just as loyal to the empire as are the masses of the Conservative party. But it is easy to understand why the official Liberal leaders should hesitate to face the people under existing conditions in the empire.

Father of Toronto Man Hears Boom of Cannon; Brother Dies in Action

Gustaf Meerbeck of Macdonald and Meerbeck, automobiles, Yonge street, has just received from his brother Victor in Quebec Province the following translated Flemish letter from their father in Lint, Belgium, where the armies of the Kaiser have been and are still devastating the country.

"My Dear Son Victor: I received your letter on Sept. 13 and have to relate that it is good with us for the time being, except that your brother George was recently killed. I wished to write you some time ago, but conditions prevented my doing so. I did you describe the news and your brother's death. The people here are awful. They are all butchering the women and children and are sending men from 17 to 40 years of age to Germany. The Germans are blowing up the houses in Malines and Louvain. Louvain is nearly all destroyed and many houses in Malines are in ruins, along with the largest church in it. In Wallis (the French-speaking portion of Belgium) the work of the Germans has been terrible, especially around Namur and Liege. At the time of writing your heavy fighting is going on around Malines, Louvain and Brussels. If you could only hear the booming of the cannon! We hear it very plainly, as it is so near us. Our unit Victoria is living in Brussels, which is full up with Germans, who allow nothing to be taken in or out of it. Your brother Indors is with the soldiers in the fort at Hobokhin and Josef is still at Antwerp in the employ of the railroad. We have nothing to do at home, and prices here is at a standstill as every one is going up. Our countrymen are unable to get coal, as the Germans are keeping it for themselves and sending it away.

Moved from Antwerp. "Your Aunt Marie, who was residing in Antwerp, has left there, as the Germans were dropping bombs into it at night from airplanes. Twelve people as a result were killed, several houses were destroyed and great damage was done to the railroad. The Belgians are now made aware of the presence of the airplanes by means of large searchlights and are preparing for them. The people in Belgium are badly frightened and don't know what to do, as all the houses and trees are leveled to the ground. Victor, we do not know where your sister Josefine is at the present time. There are many English and Russian soldiers here and more Germans are coming. I will write you in about a week and let you know how we are getting on.

Yours father, "M. Van Meerbeck."

MILLIONS OF DOLLARS SPENT ON GOOD ROADS CAUTIONS COMMITTEE CONSULTS ITS LAWYER

Subcontractors Offer Bond for Fifteen Hundred Dollars as Contract Refund. The heaters for the new technical school were criticized at the meeting of the advisory industrial committee of the school board yesterday.

Truster Vokes said that the company seemed to want to load the responsibility onto the committee. The lites in the substitute heaters were higher than was specified, and it was a question whether they would be efficient.

The committee thought it might release the chief contractor by accepting a bond from the sub-contractor. On motion of Dr. Noble the matter was sent to the board's selection, to have him advise as to the best action.

It was announced that the interior and terra-cotta work on the new technical school was almost completed. A start has been made with the glazed terra-cotta. The main staircase to the Legislative street is now half finished. About 350 men are working on the building.

Principal MacKay of the technical school reported that 2000 pupils are now attending the night classes. The committee will visit the new technical school next Tuesday.

At the first annual meeting of Rosary Hall Guild which took place at Rosary Hall on Monday afternoon, the reports read showed that excellent work had been done by the various committees.

When You Want To Laugh--Eat! And If You Want to Eat Without Food Fears Take a Stuart's Dyspepsia Tablet After Each Meal. Laughter, smiles and mirth never so with a "caved-in" stomach. Fancy a man afraid-of-his-food laughing! There is always that haunting feeling that a "caved-in" stomach is nothing but a misfortune.

HOW TO GET RID OF DYSPEPSIA Don't Rely on Medicine; Don't Go on Frenk Diet; Combine Snt's and Antacid Usually All That Are Needed. "If you have dyspepsia, indigestion, sour stomach, belching, distress after eating, heartburn or any other stomach trouble due to hyperacidity (the usual cause of stomach troubles), you should take no medicine to act upon the stomach itself. That is positively not the way to cure the trouble. Again, you should not 'half starve' your stomach by going upon the nutritious food that you need to rebuild weak tissues. Some foods are not good for people even when in perfect health--rich, sweet, highly seasoned dishes. Avoid these; but eat fairly substantial meals of plain foods. Eat slowly. Even if you drink nothing but water, you should not drink with meals. Drink before and after eating. Do not take pepsin or other artificial digestants. If you follow the foregoing simple instructions it is probable that you will not need any medicine at all except, if you want to call it medicine, a little antacid meal. The best antacid is Stuart's Dyspepsia Tablets, which can be purchased at any drug store. This is not to act upon the stomach, but on the contents of the stomach. The antacid, as you can learn by consulting your dictionary or encyclopedia, is merely to neutralize or counteract the excess of acid of the stomach. The antacid normally. Take a teaspoonful of bluestone in a little cold or hot water, and drink it. You should get immediate relief, even if your case is severe. Careful, moderate eating and the use of bluestone should put you in a normal condition in a short time; if you have not allowed dyspepsia to advance to the extreme stage of developing stomach ulcers,

SAID HE HAD NEVER SEEN DETECTIVES

Conductor Carson Denied on Stand That He Had Cut Fares.

ALL EVIDENCE IS IN FIRST OPEN SESSION

C.P.R. Employees Stand to Their Statements--Tramps Only Went Free.

Flat contradiction of the evidence of the private detectives featured the trial in the general sessions of Yates and Cheeseman. Two Sudbury bartenders, charged with conspiracy with several C.P.R. conductors to defraud the company by short fare methods. Each of the accused conductors when called to the witness box denied emphatically that they had carried the Thiel detectives, Speers, Williams and Hanks, on their trains for short fare. All the evidence in connection with the case was in, yesterday, and the court adjourned until this morning.

"How do you account for these six tickets from Toronto to Hamilton found in your possession? Aren't you supposed to punch every ticket and turn them in at the end of the run?" asked County Crown Attorney George of Conductor William Carson. In reply Carson, who had 21 years in the employ of the C.P.R., said that there was a big rush on that run, and sometimes he collected from 500 to 600 fares in the 42 minutes. Carson firmly denied having carried anyone free and said he hadn't seen the Thiel detectives when they came to court, and denied all charges of having anything to do with the two Sudbury bartenders.

Free Ride for Tramps. Questions on whether he had ever carried anyone free on his train, Conductor W. A. Mitchell recalled one instance where a woman passenger and three children were in bad circumstances, so he had carried them. He also said he had taken a half-dozen tramps and taken them into the baggage car to thaw out. He denied abetting the charge that he had taken money from the Thiel detectives and Hanks to carry them on short fares.

W. F. Wilson, a C.P.R. conductor, who made one round trip between Toronto and Sudbury, admitted having met Cheeseman and Bates, but denied having carried anyone free. He said Hanks saw him in his room and gave him \$7 for two tickets, and the witness answered emphatically "No."

Delegates Thronged St. James' Square Church at Conference Yesterday.

By 9 o'clock yesterday morning St. James' Square Presbyterian Church was well filled with delegates to the 37th annual convention of the Ontario Women's Christian Temperance Union. The first open session commenced at that hour with a consecration service, led by Mrs. M. S. Savage, and at 6:30 the convention was called to order by the chairman, Mrs. Stevens, Ontario provincial president.

Reports of many departments were read and discussed during the morning session, and Mrs. Jones of Toronto, who read the report on prison reforms and police, was strongly supported in advocating a "prison care mission."

The institution of a rally day for the Sunday schools of the province was suggested by Mrs. Chayraker from Brantford, the superintendent of juvenile work. Her statement that 98 per cent of the 9568 children whom she had addressed in her work had pledged themselves to temperance until they would be 21 years of age, showed their willingness to co-operate with this splendid movement. After Mrs. McGillivray's report on the flower mission, showing that 7000 'shrub' missions, women and children, confined their lives or physical deformity had been visited and given flowers or delicacies the morning session adjourned for luncheon.

The discussion of granting franchises to the women workers in churches was participated in by a large gathering in the afternoon, and the fact that equal representation on the boards had been refused the women called forth considerable well-founded indignation.

Lumber Camp Inactive. It was unanimously decided that the money previously spent by the W. C. T. U. on missionary work at the lumber camps--now inactive as a result of the Ontario membership of the boards--should be turned over to the Toronto Y. M. C. A. for the support of one of their six workers. This patriotic spirit was admirably maintained in every phase of the work.

The financial reports read were most gratifying, the corresponding secretary reporting a total income of \$28,487.62, the Ontario membership for 1914 is 10,120, and there are 3443 children belonging to the L. T. L.

At 5 o'clock the delegates were invited to Willard Hall for tea, that they might inspect every department of the building and study its management, and in the evening they again repaired to the church, where they were officially received by Mayor Hocken, who delivered the address of welcome, and a delightful musical program was afterwards enjoyed by a record attendance.

ACADEMY OF MEDICINE MET IN MINING BUILDING. Dr. Lewis Gregory Cole of New York Lectured at Opening Session.

Owing to the large number present the first meeting of the Academy of Medicine took place in the mining building of the university. The president, Dr. H. B. Anderson, delivered his inaugural address. The guest of the evening was Dr. Lewis Gregory Cole of New York, clinical professor of anatomy of Cornell University, who read a paper on "Roentgenologic diagnosis of Lesions of the Gastro-Intestinal Tract." Dr. Cole illustrated his address by means of lantern slides and the cinematograph.

The honorary secretary asked for a resolution of sympathy to Dr. B. L. Richardson, whose husband, the late Dr. B. L. Richardson, was a member of the academy. An expression of sincere sympathy to Lady Whitney in her bereavement was approved by all present.

The prospects are bright for one of the most successful seasons in the history of the academy.

DISCUSSED PLAN TO FOUND MUNICIPAL LABOR BUREAU. Toronto Branch of the O.M.A. Met Yesterday.

The committee of the Toronto branch of the Ontario Industrial Association, appointed to establish a municipal labor bureau, met yesterday. Controller McGee, Rhyas, D. Fairbairn, Mrs. L. A. Hamilton, and Miss present discussed the proposal and hope within a few days to announce a working plan for the scheme.

Start on the Second Contingent

Lord Roberts intimated last week that the real hard fighting of the war would begin when the Germans were driven back over their own boundaries.

It may not be many weeks before this situation is brought about. The Russians are evidently making progress in the east. In the west the allies are holding their own and more.

The preparations being made in Britain for the reception of the first Canadian contingent indicate with what real satisfaction the authorities of the motherland look upon this very present help.

We are glad to know from our latest Ottawa despatch that this is the view which the Ottawa Government has taken.

every critic of Controller Church and his "followers."

The comparison of Toronto conditions with those of other towns in Ontario will be more reasonable when it is shown that other towns in Ontario selected for comparison have doubled their population since 1908.

On top of this comes the utterly absurd criticism, in the circumstances, that if the rates had been reduced there would have been more business.

The Eternal Question.

The Ottawa correspondent of The Toronto News revives the question asked so often in the past: "Will the Grand Trunk Pacific operate the National Transcontinental?"

We first heard this question mooted in 1908 when there was said to be some mysterious deal on between the company and the Laurier Government.

The National Transcontinental is now finished and ready for operation. But it has been all along understood that the company would not be asked to open up and operate through hundred miles of railway thru an almost uninhabited country during the winter season.

Of course the Quebec bridge is not finished, and to that extent the line is not completed; even the car ferry between Quebec and Levis is not yet installed.

Quite representative, we take it, of the western farmer are The Grain Growers' Guide, published in Winnipeg, and The Prairie Farm and Home, published in Regina.

to exist. The Guide, none the less, stands by its tariff principles, contending that the manufacturers themselves would be much better off under a policy approximating free trade.

Both papers lay great stress upon the demand in the west for apples, potatoes and oats. Ontario apples are being imported by the Grain Growers' Association in large quantities and the prices quoted to the consumer are low.

At the same time the west is being touched, is the statement that a provincial stocktaking is already in progress with the question of revenue production in view.

O'Keefe's PILSENER LAGER. "JOHN BULL" RETURNS TO BEER. "What is the cause of the revival in popularity of Beer and Ale as table beverages?" asks the London "Pall Mall Gazette." That there is a return of their ancient vogue in the restaurants of London is noted by Charles Pond, restaurateur-owner. "Beer has been coming into fashion again for some time," he says, and the tendency is becoming more marked. I was dining in a West End restaurant last night and was surprised to notice how many men were drinking beer. People have found out, I suppose, that beer is one of the best and purest of foods, and realize its value as they have not before.

CANADIAN PACIFIC ANNUAL IS TODAY Question to Be Considered is Increase of Capital Stock.

In Montreal the Canadian Pacific Railway Company will hold its thirty-third annual meeting today. The main point of interest at this meeting will be the consideration of the increase in the capital stock of the company.

BIG SUPPLY OF VISIBLE WHEAT Reports From Canada and U. S. Caused Downturn in Prices.

CHICAGO, Oct. 6.—Notwithstanding that wheat at one time today showed a substantial upturn, the bears had the advantage during most of the session. A heavy total for the stocks in hand in the United States and Canada was made much of against the bulls.

Corn Also Down. Corn gave way under predictions that the government report tomorrow would indicate an increase of 50,000 bushels in the probable yield this season.

INSPECT MINING INDUSTRY. OTTAWA, Oct. 6.—A committee consisting of four members of the staff of the department of mines has been appointed to make an enquiry into the condition of the mining industry in Canada.

London Takes Action Regarding Sale of Securities—New York Pleased.

LONDON, Oct. 6.—Business in Throgmorton street in American securities is dead owing to the decision of the exchange committee to fix the minimum cash price at an equivalent to the New York closing prices of July 30.

While many of the quotations are now below the parity of July 30, it is understood that Pennsylvania, Reading, Denver and Rio Grande, and Washoe are slightly above these prices, and therefore it is assumed that business will quickly revive.

NEW YORK Pleased. NEW YORK, Oct. 6.—New York Stock Exchange governors, bankers, and the best index of European sentiment on American securities, will not press a flood of liquidation on this market.

Don't Do Lop-Sided Buying

The Simpson Men's Store was conceived with the idea of supplying the all around needs of the average man. It has been carried out with this idea constantly to the fore. The man who plunges on his clothes buying, putting all he has on the overcoat and making the old suit do, can exercise his fancy here with exceptionally satisfactory results, for we carry a large stock of the more expensive grades of coats and suits just for him.

But aside from these exclusive stocks the store caters heavily to the man who, with a moderate amount to spend, likes to be completely dressed; to have a nicely cut suit of good materials, a smart overcoat, correct shirts, ties, gloves, hats and hosiery, and still have enough to be always well shod and carefully dressed.

For every man the store contains a big variety of good clothing priced to make every dollar do a dollar's work and often much more.
