Meeting of Presbyterian Divines of Hamilton and London Comes to a Close.

THE MISSION RECEIPTS FELL OFF

Deficit of Nearly \$8000 to Be Made Up by Special Collections.

Hamilton, April 27.—(Special.)—The meeting of the Presbyterian Synod of Hamilton and London closed this afternoon.

The members on motion of Rev. Dr. McMullen, Woodstock, resolved that the committee should give this cause more consideration before making such a radical change.

In reference to the memorial of the Sabbath School Association of Ontario asking these funds to be used in requesting the minister of education to fix the international series of Sunday school lessons as the daily readings in the high and public schools, the synod expressed sympathy.

Several Telephone Companies Want to Do Business in Brantford.

Brantford, April 27.—(Special.)—At a meeting of the finance committee of the city council this afternoon, A. D. Neil of the American Machine and Telephone Company, who are anxious to install their system in the city, advised the committee to recommend that competition be introduced into the telephone business here.

The telephone question is a real live one in Brantford. The Bell Company have put a proposition to the city council for a renewal of their exclusive franchise. Other companies are also making proposals.

RAILWAYS' GOOD THINGS. Ottawa, April 27.—(Special.)—Railway projects for remote districts have received a new impetus from the government's transcontinental scheme.

Promoters seem to think it a good speculation to get charters to any place marked on the map and not yet reached by a railway.

"GODSEND," MATTERS BUSY.

BRANDS OF THE RAIN SALVAGE

Lots of Activity Evident Everywhere and Some Places Almost Cleared of Debris.

There is of a truth a busy scene in and around the area of gaunt, soot-stained walls. In some places the debris has been pretty well cleared; in others much yet remains to be carried away, and here and there a stream of water has still a duty to perform on the smouldering material deep beneath the wreckage.

JEFFERY & PURVIS 21 KING ST. W. WAR NOTES. Port Arthur, April 27.—Correspondents of foreign newspapers must have letters of recommendation from their governments to the Russian foreign office, and every correspondent must promise in writing not to divulge secret despatches or to criticize the orders of those in command, and vice versa, similarly agree to give a true account of events and avoid irresponsible reports. St. Petersburg, April 27.—The emperor and the dowager empress returned to the Grenadiers and a regiment of Cuirassiers, and that Prince Smolenski, minister of railroads, has submitted to the emperor an estimate according to which this work can be completed in eighteen months. Port Arthur, April 27.—The successful trials of the submarine boats here are regarded by the Novik Krai as operations of the part of the Russian fleet. Tokyo, April 27.—The Tokyo correspondent of the Times says that the Japanese spies shot by the Russians at Mukden was identified as Sunyata, a Japanese judge, and not a military man, as has been reported. London, April 27.—A special despatch from Kobe, Japan, says several vessels, including the Japanese battleship, were again sighted off Gensan, Korea, today. St. Petersburg, April 27.—M. Boubloff, who has been planning \$12,500,000 improvements in submarine boats, in an interview says: "There is less danger of a submarine being sunk than a torpedo boat, and during the war the former is safer than other vessels." St. Petersburg, April 27.—Vice-Admiral Skrydloff left St. Petersburg for Moscow today. St. Petersburg, April 27.—One of the Japanese columns, while attempting to cross the Yalu River at Tarenchen sustained severe losses, owing to unexpected shelling from Russian batteries. THE WAR OVER LATIN. The echoes of the controversy over Latin are still heard. The Latinists say that the study of Latin is useful, not only as indicating one of the sources of English, but also as a means of comparison. "What can they know of English who only English know?" is the saying of one of them, and the adaptation of a familiar quotation. The question is, how much Latin is necessary for this purpose? We suppose that a student who has a fair knowledge of English, and who is studying Latin, should be able to grasp the idea that Latin is a more highly inflected language than English; he could hardly turn over the pages of a Latin grammar without acquiring that information. To comprehend the genius of the language, however, requires a more extensive study, including, one would suppose, the translation of the best Latin authors. The question would then arise whether the time would not be better spent in the study of English literature and literature. Nobody denies the value of a thorough study of both Latin and Greek as an aid to the study of English; but the student has time to spare. COAL BREWERY. George Broughall of Toronto has issued a writ against E. Ames & Co. for \$140,000, money on deposit. The street railway men meet to-morrow to discuss the proposed changes in their constitution and by-laws. Jenner, Saure, Bannerman & Co. have offices in the Manchester Building, and will be in possession of the necessary materials to permit manufacturing operations to be started with as little delay as possible. By noon of the following day offices had been secured at 15 Wellington-st. East, and when visited next morning at 2 o'clock the office staff were all at work. Factory premises had also been secured, and a small army of men were busy at work installing the duplicate set of machinery which this ably managed company had in reserve in another part of the city. This was completed with the exception of one machine, which was brought from Chicago by express and is undoubtedly the heaviest express parcel that ever arrived in Toronto, as it weighed over four tons. A full carload of supplies and material arrived in the same way. By the uniting energy and enterprise displayed by the management and large staff of employees, the company have been enabled to commence billing orders within six days after their old premises were destroyed. This is a record that any company might well be proud of, and will be a source of great satisfaction to stockholders of the company and a relief to the thousands of persons in all parts of the Dominion handling the various articles manufactured by the Gillett Company, many of whom evinced their interest by letter and telegraphic inquiries, when they could expect further supplies. Factories will be run night and day, and every effort made to fill all orders as promptly as possible, and the company will at once proceed to erect an extensive, up-to-date factory which will enable them to keep pace with the ever-increasing demand for their goods. As a result of the late fire the cost of caskets has gone up 20 per cent. in all parts of the province. The Eckardt Co., the largest manufacturing concern in the casket line in Canada, were the third factory to be destroyed last week, and within the last three months, and as a result of the remaining companies. The conservatory string orchestra, under the direction of Mrs. Dewhurst, will give a concert at the Conservatory of Music on Friday evening next. The program was varied with songs by Miss Evelyn Carr, contralto, and piano pieces by Miss E. E. Jones, each of whom was liberally applauded. The accompanist was Mrs. H. M. Light. PERSONAL MENTION. Strip Medicine of Its Mystery. The most skillful physician in the world has but three weapons against disease.

He uses them according to his ability, his conscience, and the symptoms disclosed by revealed to him by the patient.

Because symptoms are unreliable, and indicate only a part of the ailment. It is folly to waste time and money in treating the part of disease indicated.

Not the power we feel with the cerebrospinal system, which is usually treated. But the power nerves that operate the Heart, Liver, Kidneys and all the vital organs.

It is these nerves alone that give power to operate each organ, so it can throw off its poisonous waste matter and rebuild new tissue from the blood to replace it.

When we strengthen these power nerves with a simple drug, we give more than give new life to the organs. We give them the power to throw off their own waste matter.

This is why my mode of treatment cures in so many cases that baffles other physicians who rely on symptom treatment.

After years of experience and observation I discovered that certain ailments would directly and safely vitiate these power nerves.

To this I added, subtracted from and modified, noting carefully each result. I perfected a prescription which never fails now to give strength to the source of power—the power nerves—strong from the very first.

With it I cured, on actual test of 2000 cases, 98 out of every 100 sick people. It is not a "quick-cure" because I have not met in a single drug that could accumulate, nor be dangerous, if a hundred bottles were taken. There are no sedatives in it to dull the patient into a delusion that his pains are disappearing.

Major Pelham at 1 to 5 Beaten by Only Other Starter—Nashville Summary.

New York, April 27.—The heavy rain of last night converted the track at Jamaica into a quagmire and only the mud runners of the pronounced type were in demand.

Three favorites won. The surprise of the day came in the third race, when the 1 to 5 favorite, Major Pelham, was defeated by the only other starter, Collector Jessup, owned by J. Higgins, won the Columbus Stakes and was led by J. McGinnis for \$3200. Summary:

First race, 4 1/2 furlongs—Suzanne Hockmore, 30 (Curtis), 1 to 4; Hydrant, 103 (O'Neil), 30 to 1; Metropolis, 103 (Miller), 5 to 1. Time 58. 1/2. Second race, 1 1/4 miles, Tommy Waddell, Jangle Bell, 17 (Royal Legend), Sandy Andy, Iron Heart and Bill Crocker also ran. HORSE SHOW

Continued From Page 1.

once and had an amiable time. Hand- some George Gooderham, chairman of the board of education, lifted a white and drove a smart bay in finished style to a second place in class 31. One cannot always be at the head of the poll. All the best known men about town in Toronto were present, and at times the promenade was almost impassable.

At least 2000 people were under the huge roof at 9 o'clock, when the show- ing event of the day came off. Class 36 for single horses in harness brought out a handsome set of vehicles, rigs, cars and phaetons and the award of the silver cup was very popular.

**Draught Pairs were Cheered.** To many visitors the most interesting entries were in the draught pairs, and those for professional coaches. The single draught animals in the afternoon were a magnificent lot, and the pairs in the evening outdid them. These entries were near the hearts of the people, too, fellow laborers in the commerce of the great city, and as the great brutes pranced proudly round the arena, cheer after cheer went up from the sympathetic crowd in the east end of the lists.

Then the coachmen came, men bred to the business, who know every horse is, and who realize their own short- comings more keenly than can any judge, as all experts can. James Mor- ton, George Gooderham's natty whip, carried off the red rosette, and George scores another first.

**Queens of the Night.** But what are horses and men—ever at a horse show—beside fair ladies: fair, fairer and fairest, single, married and widows, a most fashionable array? The Horse Show is the first event of the season, and it is not to be wondered at that after the long winter the op- portunity for a display of spring fashion was fully taken advantage of.

The band of the Grenadiers deserves special mention for the tuneful and tasteful music furnished during the day. The police arrangements were excel- lent, and none the less so for not be- ing required. Inspector Stephens has the men detailed to look after the show. dance of people from outside of To- ronto. The railway coupons taken in at the box office yesterday showed the largest railway travel to the show of any previous year, which is a striking proof of the hold of a national exhibi- tion which the Canadian Horse Show is obtaining.

The vice-regal party is expected from Ottawa on Friday, and Friday evening promises to provide a social function of exceptional brilliance.

**Among Those Present.** Dr. Gilmore and party, Mr. and Mrs. William Hendrie, Miss Phyllis Hendrie, Miss Crear, Murray Hendrie, William Hendrie, Jr., and their guest, A. H. **McHenry Resigns.** Montreal, April 27.—Chief Engineer McHenry of the Canadian Pacific Railway has resigned on account of ill-health. Mr. McHenry has been sick for a great while, also his resignation is a surprise. It is said he will be succeeded by Mr. Tyche.

**Called a Creditors' Meeting.** M. P. McCall, general merchant, of Lion's Head, has called a meeting of his creditors in the office of Assessor Wade, for Tuesday, May 3rd. His business affairs are un- derstood to show a good surplus, and the meeting is being called for the purpose of seeing if a compromise can be effected. The liabilities total about \$10,000 or \$11,000.

The insurance companies say they have seldom been presented with a claim so comprehensive, repulsive and unassailable in the office of Assessor Wade, for Tuesday, May 3rd. His business affairs are un- derstood to show a good surplus, and the meeting is being called for the purpose of seeing if a compromise can be effected. The liabilities total about \$10,000 or \$11,000.

**Away with Catarrh!** It's Loathsome, It's Disgusting. Instant Relief and Permanent Cure Secured by the Use of Dr. Agnew's Catarrhal Powder. Here's strong evidence of the quickness and sureness of this wonderful remedy. I was a victim of Chronic Catarrh—tried many remedies but no cure was effected until I had procured and used Dr. Agnew's Catarrhal Powder. First application cured the instant relief, and in an incredibly short while I was absolutely cured. James Headley, Dundas, N. Y. Dr. Agnew's Heart Cure relieves in 30 minutes.

HORSES BEFORE THE JUDGES FIRST DAY AT ARMORIES

Greatest Improvement Noted in Draughts—Interesting Jumping Events.

The exclusive show of horses demon- strated that man's best friend is a satisfactory attraction himself. The attendance at the armories was ample for a first day. The few in the morning witnessed a splendid spectacle in the open jumping, that brought out a fine field, and all went over the obstacles to 5 feet 6 in. It was the best spectacle of jumping that has ever been shown in the history of the show. The English judge, Mr. Spark, put the horses to a thorough test, and raised the jumps from time to time until the horses got narrowed down to the four winners. Geo. Pepper, now of Boston, landed 1-2 with the gray mare Blue Girl, and the chg. Senator, that cleared cleanly at 6 feet.

The attendance was good in the afternoon, when the jumping was for green hunters, conformation and quality counting 90 per cent, and fencing at 100 obstacles 10 per cent, the Hamilton candi- date, Sir Robert, went handled by his owner, Gordon Hendrie, taking first, closely fol- lowed by the Boston and Toronto entries of Geo. Pepper and Crow & Murray.

In the evening the armories had a splendid attendance, when the performance at the obstacles was for the Toronto Hunt Plate, and resulted in a most popular to- bid by the M. F. H. Mr. Beardmore, who made a splendid performance, per- forming with Mr. Kilgour's Lady Mita third.

Horses in harness, including small roadsters, were shown during the day. The greatest improvement was to be noticed in the heavy draught horses. In class 31 Mr. Davies won with the team that defeated everything in Chicago. There was not an inferior pair in the eight, and the judges had a most difficult task.

**List of Awards.**—Wednesday Morning. Class 52—Jumping, open to all; performance over fences only to count. G. Pepper & Co., Boston, Mass., Blue Girl, grm.; G. Pepper & Co., Boston, Mass., Senator, blk.; Adam Beck, London, Guardian, chg.; Crow & Murray, Toronto, Thistle-down, blk.; 4.

**Wednesday Afternoon.** Class 35—Mare of gelding, not exceeding 15 hands 2 inches, bred in Canada, that has not won a first prize at any recognized horse show or exhibition prior to being in this class. G. Pepper & Co., Boston, Mass., Wiry Jim, b.g.; J. J. Dixon, Toronto, Day Boy, b.g.; A. Yeager, Simcoe, Miss Canada, b.; Crow & Murray, Toronto, Sir Geo. Pepper with the cup, which he won in this class.

**Class 48.**—Mare of gelding, over 15 hands 2 inches up to, carrying from 160 to 190 lbs. G. Pepper & Co., Boston, Mass., Daisy Dean, chm.; Crow & Murray, Toronto, Othello, chg.; G. Pepper & Co., Boston, Mass., Hattie, b.g.; Gordon J. Henderson, Hamilton, Sir Robert, chg.; 4.

**Class 32.**—Single horse, gelding or mare, not exceeding 15 hands 2 inches, bred in Canada, that has not won a first prize at any recognized horse show or exhibition prior to being shown in this class. Yeager, Simcoe, Peter King, 1; A. Yeager, Simcoe, Prudence, 2; Peter B. Wood, M.D., Hamilton, Duchess, 3.

**Class 84.**—Best performance of profession at private coachman with pair and carriage. James Morrison, coachman for George Gooderham; Walter Douglas, coachman for W. D. Headmore; 2; E. Palmer, coachman for J. B. Clarke, 3.

**Class 85.**—Mare and runabout, for sim- ilar only, mare or gelding, not over 15.2 hands, to be shown to a runabout and driven by owner. J. Dixon, Toronto, Gay Boy, 1; George H. Gooderham, Toronto, Al.

**TO MAJOR WOOD.** (Canadian Associated Press Cable.) London, April 28.—The Morning Post says the appearance of Major Wood's fight for Canada marks an epoch in the evolution of the Canadian school of history. Pack- man, Kingston, Bourinot and Bentley prac- tically ignored the vast determining force of sea power as the most vital principle in the empire's growth. It is Major Wood who will proceed further in his revision of Canadian military history, and endeavor to create a misconception. He has already con- sidered President Roosevelt as the value of the victories gained on land by Canadian troops in the war of 1812.

**ONLY IN MINDS.** (Canadian Associated Press Cable.) London, April 28.—Mr. Field, M.P. (Na- tionalist), asking the chancellor of the ex- chequer whether a tax on gambling futuress would not provide a revenue sufficient to enable him to remove the proposed increas- ed taxation on lot, received the reply that the tax was impossible, for the difference in the two classes of transaction was not their form, but in the minds of the parties concerned.

**100 FOR CANADA.** (Canadian Associated Press Cable.) London, April 28.—One hundred men left London for Canada last night under the auspices of the Salvation Army, comprising gardeners, laborers and clerks. The single men go to Winnipeg and the married to Toronto.

**NEWFOUNDLAND INDEPENDENT.** Col. Kaubach fears the Cold Storage Company. Ottawa, April 27.—(Staff Special.)—When The Globe's New- foundland correspondent uncovered the designs of the Newfoundland Stor- age Co. he placed a load of care on the shoulders of Col. Kaubach, M.P. for Lunenburg, N.S. Col. Kaubach read a portion of the despatch to the house to-day and explained how the opera- tions of the company would affect black ruin among the fishing interests of the Maritime Provinces. There is great danger, he says, that when the company enters upon its vast enter- prise there will be no left for Canadian fishermen, and the sturdy men of the Maritime Provinces will be shut out of the fisheries on the Newfoundland Banks.

**RECORD-BREAKING RUN.** Windsor, April 27.—A special train on the Michigan Central this morning made a run perhaps all records on the Michigan Central. The train carried President New- man of the M.C. & St. P. and was composed of one baggage car and three private cars. Leaving Niagara Falls at 5.55 a.m. it covered the distance of 110 miles between Niagara Falls and St. Thomas in 113 minutes, including 11 slow-downs. Each of these slow-downs means the loss of several minutes. A Kottle Creek bridge crossing 110 miles was made in 18 minutes. The 111 miles from St. Thomas to Windsor was done in 94 1/2 minutes.

**ADJOURNED TILL MAY 15.** (Canadian Associated Press Cable.) London, April 28.—Premier Watson has adjourned the Australian Federal parlia- ment till May 15, to enable the minis- terial program to be prepared. It is highly injurious. To use a cheap drastic physic. Safest remedy for constipation and torpid liver is Dr. Hamilton's Pills of Man- drake and Butternut, which cleanse the bowels without griping pain. Use only Dr. Hamilton's Pills. Price 25c.

**Perils of Housecleaning.** Mrs. Nightingale of 216 Chestnut street was busy with her spring housecleaning yesterday and was working on a step ladder. She fell and fractured her left leg and is now in the Western Hospital.

**The Empire Club.** Mr. Hyatt E. Wood will address the members of the club on "Practical Impul- sionism," at their regular meeting at Mc- Couley's at 1 o'clock to-day.

**Sporting Notes.** Two of the St. Louis clubs, for the first time in their history, will have eight- o'clock shell crews on the water this season. The plan is to enter the men by the local reg- ulations and also in the intermediate eight- o'clock championship event.

**Dr. Sproule suggested that it was under the treaty of 1812 that the country was organizing its project, not under the Bond-Blaine or the Bond-Hay treaty, neither of which had come into operation.**

**Col. Kaubach said that just as the Gloucester fishermen had taken action to protect their interest, the Dominion government should take action to protect the fishing interests of the Mar- itime Provinces.**

**Dr. L. Borden said all Canada could do to rally to secure for our fish- ermen the same treatment the com- pany will receive in the United States market. Steps might be taken to se- cure the rights of Canadian fishermen to bait on equal terms with the com- pany.**

**F. B. Wade of Annapolis suggested the establishment of bait depots by the government. This Col. Kaubach said would not do, the deep sea fish- eries being too remote from the Can- adian mainland.**

**Hon. W. S. Fielding pointed out that much of the hostility in Newfoundland against confederation with Can- ada was due to Canada's interference with negotiations conducted between Newfoundland and the United States. Newfoundland was a small colony, but just as independent as Canada. This country should therefore refrain from setting up any right to interfere with the island. Something might be**

ALLEGED HOLD-UP VICTIM ARRESTED AS ONE OF GANG

King Believed to Have Lured William- son—Several Other Arrests Also Made.

The police have lost no time in working on the Williamson hold-up case, which occurred Tuesday night. Percy Ernest King, the young chap who claimed to have been robbed at the same time as Williamson, is now under arrest. King is the man who told the fairy stories about five shining British bulldog revolvers being pushed in his face. Detective Cuddy, who took charge of this case, had his suspicions about King at the time of the arrest of the other fel- lows. Cuddy watched him all day yesterday. Last night he shadowed King to the Union Station. King purchased a railroad ticket. When asked by the officer where he was going, he said Strathville. When Cuddy saw him aboard a train for Hamilton he arrested him.

When Chief Williams of London heard of Williamson being robbed and that King was in his company he held him up. "Did King hold him up? That is his graft," King claims that he was robbed of \$14. The detective department can show that he did not have any money and that he was "all in."

**DETECTIVES CUDDY AND BLACK** have also arrested Frank Donovan, 6 Bul- wer-street; Ben Cohen, 83 Chestnut- street; Izzy Cohen, 138 West Ade- laide-street; Mike Tobin, 14 McDon- nell-square. The charge against them is vagrancy, but they are all thought to know more or less of the hold-up. King is supposed to have lured Williamson to the spot and the gang did the rest.

Ferrozone and know that children would be much stronger if treated with Ferrozone.

Mr. James E. Devine of Frankford says: "Ferrozone has no equal for strengthening children."

When my little daughter was weak and miserable I gave her one Ferrozone tablet at meals, she improved at once, and before taking Ferrozone a week gained in weight, and enjoyed a splendid appetite.

Ferrozone can be made stronger by adding a few drops of cod liver oil, which is hard on a child's stomach.

Results are sure when you use Ferrozone. Refuse any substitute and insist on having Ferrozone, which alone can build up and cure quickly.

MARKED ACTIVITY IN WINNIPEG

Continued From Page 1.

on a \$50 investment, of a servant girl who put \$500 into several lots and others for \$1400 in five months, and trade equally fortunate, illustrates the earnest concern of the middle classes to play the game.

"Jerry" Robinson speaks. As an illustration of this confidence in the future of Winnipeg, "Jerry" Robinson, owner of the Great Retail Emporium of the city, conversing with the World upon the impetus the speculative spirit had recently received, pointed from his office window to the rear of the old Queen's Hotel, fronting on Portage-avenue, and remarked that Mackenzie & Mann had just sold the property to Montgomery Bros. for \$174,000.

It has 116 feet frontage, is an old building and can scarcely be regarded as of any value, except for the land it occupies.

Mr. Robinson says that his company paid \$18,000 annual rent for 40,000 square feet of floor space on Main-street, and he knew several firms adjacent which paid \$100,000 in excess of this high rating.

The location of the Robinson retail store bears about the same relation to Winnipeg as that of the Robinson building does to Toronto.

Mr. Robinson is one of the conservative business men of the city, having come to the west from London, Ont., twenty-five years ago. His estimate is probably as safe a guide to the real estate situation as could be obtained.

Ontario Investing in City Lots. Ontario people are entering the ranks of those who are buying city lots in this city.

The C.N.R. and the Winnipeg Street Railway Company could establish their shops in the southern part of the Port George district, which has established a reputation for its residential part of the city.

Many Ontario people have invested a few hundred dollars, getting in on a ground floor proposition.

Report sales to people around Ontario, and enquiries from Toronto, Bowerman & Co. of 188 Market-street, have handled a great deal of business.

The Port George district is paved with asphalt, and there are many handsome residences there. It is similar to the Niagara Falls, Ontario, and resembles Rosedale, in that it is of easy access to Elm and River Parks.

Lots are being turned over at \$100 and \$150.

Speculation in Winnipeg realty is made easy by the system of purchase and sale on the "agreement" plan.

Small payments are made on each lot, and the advance accrues to the buyer. So sharp is the competition that in a great many cases no second payment is ever necessary.

The property being resold before the maturity of the next deposit. On Main-street, which corresponds to Yonge-street in Toronto, prices have advanced to-day it is rated at from \$1200 to \$1300 per foot.

Women Speculators. The presence of many women in the crowd that is speculating in city lots is one of the interesting features of the movement.

At a late hour of the day, many of the women were seen in the crowd, and the men were in the minority.

From a paper-seller in a small way she has reached a position of independence, being rated as worth \$100,000. These examples are responsible for the attitude of so many small land speculators.

It is the spirit of the opulent west, and behind the demand for this class of investments is the confidence inspired by the great industrial development of the country.

G. C. Porter.

OBITUARY. George T. Burden. The death occurred yesterday at the home of his sister, Mrs. Chalkley, 68 Augusta-avenue, of George Thomas Burden in his 27th year.

Deceased was a native of Brighton, England, and came to Toronto when a young man. He was a member of St. Stephen's choir. He went to the Northwest and joined the Mounted Police, rising to sergeant. He was a member of Regina Lodge, A. F. & A. M. and of the A. O. U. W. The funeral will take place on Saturday at 2.30 from St. Stephen's Church.

A RULING ON VOTING. Judge Winchester has expressed the opinion that it is not necessary that a person qualified to vote for another must cast that vote in the polling-subdivision in which he lives.

The law in the case is permissive, not mandatory, and persons assessed on property in the downtown districts may vote where they choose, provided that they do not exercise the franchise more than once.

A FOR THE

Can be made in Winnipeg real estate at present prices. The "Hub" of the West is forging ahead with giant strides. Property values are increasing every week. An investment of \$50 frequently brings a profit of \$50 in a few weeks.

300 LOTS AT \$100 EACH.

Within a few minutes' walk of two of the largest industries in the city, the new Canadian Northern Railroad shops and the Winnipeg Electric Railway shops, where hundreds of men will shortly be employed.

\$32.50 A LOT, CASH, SECURES THE LAND

The balance can be paid on easy terms in six and twelve months. This is a ground floor "spec." You are not buying from a speculator, but from the original owners. They can not advance the prices, as we hold options on the property.

\$50.00 A LOT PROFIT

Is what purchasers may look for on this proposition. The land is close to the street car line and is in the prettiest part of Winnipeg, being adjacent to Elm and River Parks, the show places of the city, along the banks of the Red. You can buy

ONE LOT OR FIFTY

The following is what The Winnipeg Tribune of April 23 says: "While the general movement is an active one, the speculative interests have been chiefly confined to the ground surrounding the location of the new Canadian Northern shops. Besides the C.N.R. and the Winnipeg Street Railway Company has secured the whole of block 24 to the east of the C.N.R. line, and there will be established the shops for the manufacture of the rolling stock for the city road."

Lots in the vicinity and having desirable location have sold as high as \$150 each, and a still higher price is anticipated, as the amount of property which is looked upon as being the best adapted for the homes of the workmen is regarded as limited."

WE CAN MAKE YOU

BIG RETURNS HERE

The lots which we offer are, at the present quotations, \$25.00 under the market value, as we secured them before the C.N.R. made the announcement of the location of the shops. The same lots will sell for \$150.00 and \$175.00 in six weeks. Get in on the ground floor and make dollar for dollar on your investment. Don't forget the price.

ONLY \$100 A LOT

And \$32.50 a lot cash down. Write to us for maps and further information.

LAUGHED AT IN BUFFALO. Proposal to Place Export Duty on Power Branded as Hoax.

Buffalo, April 27.—The rumored proposal of the Canadian authorities to put a duty on all power transmitted into the United States has been branded as a hoax by General Francis W. Greene, manager of the Niagara Falls and Ontario Power Company, who in an interview here is quoted as follows:

"There is no such probability, so I have been assured by Canadian gentlemen who are in a position to know whereof they speak. Such a course would be folly on the part of Canada. The revenue derived from the transmission of power goes to the maintenance of the park on the Canadian side. At present the park is thus self-supporting. The Canadians have all the power they wish. If a duty was levied upon the power transmitted over here the park commissioners would simply lose that revenue which they now receive from the American franchisees. Canada is well protected in the matter."

For further particulars and permits to visit the power plant, apply to Messrs. SMITH, RAE & GIBBEY, Bank of British North America, Toronto, solicitors for vendors. a28,30,m4,7,10

WORK OF WOMEN'S AUXILIARY. Annual Meeting in Guild Hall.

St. James' Cathedral was crowded yesterday morning when the Diocesan Women's Auxiliary attended service prior to commencing their annual meeting. The Bishop of Toronto presided and noted that the disbursements of the Diocese of \$240,000 for the year ending March 31, 1904, had been met by the women of the Diocese.

KAY'S "Canada's Greatest Carpet House" KAY'S

THE FINEST IN CARPETS

"KAY QUALITY"

Nothing is wanting now in our Carpet stock. All the largeness, the fullness, the richness that is characteristic of these stocks is at your command.

The values are here, values both in quality and price, and there is no real value except when these two go together.

A straining after "cheap goods" has never been the policy of this store. But there always has been a determination to place before shoppers the choicest of the world's best manufactures.

The story is told in part in the following description:

—Large range of Victorian Axminster Carpets, finest quality, handsome French designs with grounds in green, rose pink and blue—25 different designs—very suitable for drawing-rooms, spe. 3.25

—Royal Albert Carpets, suitable for halls, dining-rooms and libraries, in rich effects, well covered over, per yd. 2.25

—An old maker, one of the best makers in England of Wilton and Brussels carpets, from whom we have purchased for years, has turned his attention to making a superior Axminster, in well-twisted yarns, giving good wear. This carpet is equal to anything else. It is a specialty. 1.50

TWO CENT PASSENGER RATES.

It was argued in the railway committee on Tuesday that it would not be fair to make the Michigan Central Railway carry passengers for two cents a mile, while other railway companies charged three. There are several answers to this objection.

Again, it is said that the Michigan Central is a foreign corporation, and that if we discriminate against it we may invite reprisals against Canadian railways doing business in the United States.

Moreover, Jabel Robinson, M.P., pointed out that the County of Elgin had voted a bonus of \$225,000 to the Michigan Central; yet the people of Elgin get less favorable treatment than the people of Michigan, who have such claims on the company.

prestige, or even if it is so thought to be a factor of any kind in achieving such a consummation, it is a melancholy indication of the straits in which Russia now finds herself.

BRITISH POLITICS.

Just at present there is a lull in British politics. Joseph Chamberlain has returned with a bronzed cheek and his wonted buoyancy of step and spirit.

Whatever Mr. Chamberlain's own aspirations and ambitions may be, unless he has consistently belied himself, he is not the man to let other's evolutions hinder him.

LEGAL OPINION.

Citizens' League of Toronto Junction Issues Statement.

In view of the change in the law which will shortly go into effect in Toronto Junction, the Citizens' League of that town has given out the following statement:

On Saturday evening, April 30, the seven licenses to sell liquor by retail within Toronto Junction will expire. The local option bill approved by the electors will prevent the granting of new retail licenses for at least the next three years.

There is a wide difference between the penalties prescribed by law for offenses under the present law and those under the new law.

ABOUT THAT COAT

You wear a coat. Why? To keep the cold out? No; to keep the warmth in. What of the body that has no warmth—the thin, poor body that lacks the healthy flesh and fat it needs?

For such we say that Scott's Emulsion provides the right kind of a coat. Why? Because Scott's Emulsion builds firm, solid flesh and supplies just enough fat to fill nature's requirements—no more. That means bodily warmth.

ALASKA BOUNDARY CASE WAS DECIDED IN ADVANCE.

Sir Louis Jette Makes His First Public Utterance Since the Decision.

Montreal, April 27.—Sir Louis Jette, lieutenant-governor of Quebec, delivered an address to-day before the Laval faculty, his honor's remarks being interesting from the fact that this has been his first public utterance since his return from London, where he sat as one of the Alaska commissioners.

Then in the Venezuela case before the Hague Tribunal, Sir Louis said, the solicitor-general of England, with only a few days for preparation, showed up quite as well as the men from other countries.

ALASKA BOUNDARY CASE WAS DECIDED IN ADVANCE.

Sir Louis Jette Makes His First Public Utterance Since the Decision.

Montreal, April 27.—Sir Louis Jette, lieutenant-governor of Quebec, delivered an address to-day before the Laval faculty, his honor's remarks being interesting from the fact that this has been his first public utterance since his return from London, where he sat as one of the Alaska commissioners.

Then in the Venezuela case before the Hague Tribunal, Sir Louis said, the solicitor-general of England, with only a few days for preparation, showed up quite as well as the men from other countries.

 WOULD YOU LIKE TO "MOTER" ?  
 If so, the Canada Cycle Co.'s Exhibi-  
 tion Will Interest You Greatly.

The Canada Cycle and Motor Com-  
 pany, Limited, have decorated their  
 premises at Bay and Temperance  
 streets and laid open for inspection a  
 magnificent collection of motor vehi-  
 cles of every description. The develop-  
 ment of this industry is one of the  
 marvels of modern times, whether the  
 mechanical ingenuity and the immense  
 amount of capital involved be consid-  
 ered or the necessarily limited field to  
 which the vehicles appeal. The field  
 is continually widening, however, and  
 is being slowly supplanted by the as-  
 pirations towards speedier locomotion.  
 Canada has made a specialty of elec-  
 tric motor cars, and is practically un-  
 rivaled in these vehicles, of which the  
 Canada Cycle and Motor Company  
 has a goodly display. For city use  
 these are the favorites. But for those  
 who care for long-distance touring, be-  
 yond the bounds of dynamic influence,  
 the gasoliner can be replenished  
 with vital fluid at  
 any corner grocery, and con-  
 sequently has a few hundred dollars  
 can "moter" nowadays, but for a really  
 fashionable affair with a French name,  
 there are no limits scarcely to what  
 may be expended, while a moderate  
 income is necessary to support the  
 weekly expense of the luxurious mon-  
 ster.

There is no reduction in prices this  
 year, the tendency being to strengthen  
 and improve rather than to cheapen  
 the machines. The mechanical accuracy  
 of the manufacture is really marvelous  
 and is as delicate almost as watch-  
 making.

**IN THE SENATE.**  
 Ottawa, April 27.—(Special)—Hon.  
 E. W. Scott stated in the senate to-  
 day that the amount of policies in the  
 Mutual Reserve Fund Life Associa-  
 tion, which lapsed and surrendered  
 between the years 1890-1903, was \$7-  
 260,574. He was also informed that the  
 sum of \$1,200,000 was collected as pre-  
 miums during 1903-4, that the amount  
 of loans on Dec. 31, 1903, was \$34,578,  
 presumably bearing interest.  
 Senator Belieu will move for a re-  
 turn showing by year the business  
 receipts and expenditures of the  
 Mutual Reserve Fund Life Associa-  
 tion in the States and Canada since it  
 commenced to do business in Canada.  
 Senator Templeman explained from  
 the benefit of Senator McDonald that  
 there was no provision in the G. T. P.  
 contract which would require the com-  
 pany to commence work on the Pacific  
 coast simultaneously with the com-  
 mencement of the work in Winnipeg.  
 The company would, he said, have to  
 commence early in order to complete  
 in time. He proposed that the com-  
 pany should be required to commence  
 at the coast in their own  
 interest, as it would be to their inter-  
 est in handling and transporting  
 freight.

**Notice to Be Good.**  
 Owing to violations of the License  
 Act in London, the license commissioners  
 of that city will not give out the  
 usual licenses to take effect on May 1,  
 but the present holders have been per-  
 mitted to continue for three months as a  
 warning. The chief officer of the de-  
 partment, Ende Saunders, informed  
 The World that he knew nothing what-  
 ever of the London case, but that very  
 strict orders had recently been sent out  
 to all the inspectors that the law must  
 be enforced.

**Mother Granger Dead.**  
 Chicago, April 27.—The Rev. Mother  
 Genevieve Granger, mother superior of  
 the Convent of Mercy, is dead, aged 77.  
 For fifty-five years she had been in the  
 same convent, and for thirty-one years  
 had been mother superior. She was  
 born in Canada.

**MARINE NEWS**

A letter received by local officials of  
 the new Turbina Steamship Company,  
 to operate between this city and Ham-  
 on, announces the Turbina's practical  
 completion. The writer, Capt.  
 Crawford, dates the communication  
 from Newcastle-on-Tyne, near where  
 the steamer was built in the Hepburn  
 yards. President Moody of Hamilton  
 is there also, to look after the com-  
 pany's general interests, having arri-  
 ved at Newcastle some ten days ago. It  
 is his intention to come back on the  
 Turbina, which will start her oceanic  
 voyage very shortly, since it is the de-  
 sire of the company to have her begin  
 her regular service about the end of  
 May.

A. F. Webster, who is the local agent,  
 said yesterday that the Turbina should  
 be capable of making the trip in ten  
 days.  
 There has been considerable specula-  
 tion going on in local marine circles,  
 with respect to what wharfage the new  
 steamship company would be able to  
 secure in Toronto. A report was for a  
 time circulated to the effect that ef-  
 forts were being made to secure accom-  
 modation at the R. & O. dock, but this  
 suggestion was generally discounted in  
 view of the fact that crowded condi-  
 tions already exist there. T. Burk,  
 Toronto freight agent of the Turbina  
 Steamship Company, asserts that the  
 western side of Geddes' Wharf has  
 been practically secured.

General Freight Agent Malone of the  
 R. & O. Line stated yesterday that he  
 had received unofficial advice that the  
 Lachine Canal would not be ready for  
 navigation by the date set, May 1, and  
 that, as a result, vessels would be re-  
 quested to remain in port pending ad-  
 vice to the contrary. The Canadian  
 is slated to leave Toronto tomorrow for  
 Montreal, and will not change her  
 program unless officially notified. Mr.  
 Malone does not personally believe that  
 a state of obstruction exists, and con-  
 sidered that any blockade of free move-  
 ment would be removed by "tapping the locks,"  
 which would cause an upward rush of  
 water and the destruction of what ice  
 remains.

Capt. John McGraw of the Spartan,  
 billed to leave on Monday, 14, for the  
 city.  
 The Lakeside is doing a bustling  
 freight business already, altho the  
 greater part of it is made up of local  
 freight. Five car-loads of general mer-  
 chandise were brought over yesterday.  
 Marine men at Toledo say that this  
 season will be the limit in point of  
 tardy opening. Prominent men in mar-  
 ine circles say that they do not expect  
 to see any free movement of  
 freight on the lakes until the 10th, and  
 possibly the 15th of May. If that  
 proves a correct forecast the opening  
 will be the latest in the annals of lake  
 navigation.

Two steam mud dredges of the Lake  
 Erie Dredging Company's fleet have  
 resumed their work on the United  
 States government contract of \$250,000  
 to deepen the Niagara River and Poun-  
 wanda harbor. The work this season  
 will be rushed as there will be five  
 dredges at work by May 1, and it is  
 expected that the work will be com-  
 pleted by the end of the season.  
 Cleveland, O., April 27.—The threaten-  
 ed tie-up of lake shipping owing to the  
 inability of the lake masters and the  
 Lake Carriers' Association to reach an  
 agreement on wages now seems im-  
 probable, and it is believed to be the plan  
 of the union to force every vessel on  
 the lakes to remain at the docks un-  
 less the demands of the masters are  
 met. Boats carrying United States mail  
 only will be exempted.

**A SERIOUS DELAY.**

Goldwin Smith in Weekly Sun: The  
 debate about the teaching of Latin  
 turns our minds to the great charter  
 of British liberties, which is written in  
 that language. It contains the words  
 "Nulli vendemus, nulli negabimus aut  
 differemus rectum aut justitiam"—  
 "We shall sell to no one, deny, or delay  
 our right or justice." The resolution of  
 our judges to put off the election trials  
 till September is not a sale or denial  
 of justice to the people, of neither of  
 which could the slightest suspicion  
 even attach to our judiciary. But it  
 is a serious delay. Undesignedly, it  
 may be sure, it falls in with the policy  
 of the government, which has obvi-  
 ously been to stave off the evil day of  
 an appeal to the judgment of the  
 people. The sudden assembling of the  
 legislature could have no other pur-  
 pose. Mere delay in this case is an  
 evil, because witnesses may be leaving  
 the jurisdiction, and, if they stay, their  
 memory of the facts may be impaired.  
 But we know too well how the long  
 interval will be employed by the man-  
 chine. It would seem that any ordinary  
 business should have been postponed  
 rather than that which touches the in-  
 tegrity of the government and the  
 legal rights of the people. It is bad  
 enough that the government majority  
 of three during the session should have  
 included more than that number of men  
 whose titles to their seats were dispu-  
 ted, and who had consequently not a  
 clear right to vote. If in the election  
 trials the government loses two, it will  
 be a moral nullification of the acts of  
 the session.

**WANT CHEQUES DELIVERED.**

The teachers of the Collegiate Insti-  
 tute staffs are protesting against the  
 present system of being paid. They  
 object to having to go to the city hall  
 each month with the public school  
 teachers and being crowded as they  
 draw the fruit of their labors. They  
 can remember a time when they were  
 paid by cheque and had the goods de-  
 livered by mail to their very doors.  
 They intend, it is said, to memorialize  
 the board to secure a return to the old  
 method.

**"Mother Goose" a Growing Favorite.**  
 From the number of inquiries made  
 at the box office, Massey Hall, con-  
 cerning the coming repetition of the  
 Mother Goose Extravaganza, it seems  
 apparent that the performance on  
 Saturday afternoon and evening will  
 be given to even larger audiences than  
 were present last week. The presence  
 of the vice-regal party will give the  
 affair a smartness and social prestige  
 unsurpassed by any gathering during  
 busy and delightful Horse Show week.  
 As before, the proceeds are to aid in  
 the furnishing of the new Toronto Free  
 Hospital for Consumptive Poor, near  
 Weston, which is intended for the  
 treatment of advanced cases among  
 those unable to afford private treat-  
 ment.

**Robertson Auxiliary.**  
 The monthly meeting of the Robert-  
 son Auxiliary of the Women's Home  
 Missions was held yesterday in the  
 Central Presbyterian Church, with Mrs.  
 Bastedo in the chair. Miss Siddell de-  
 livered a paper on "Home Mission  
 Work" dealing with the necessity of  
 holding church services in the North-  
 west among the children. She said that  
 Bible study was being neglected in the  
 public schools of this city, and the  
 time which should be given to Bible  
 study was being encroached on by the  
 other subjects.

**Slater's Point Abandoned.**  
 Niagara Falls, April 27.—Slater's  
 Point on the Canadian side of the river  
 has been abandoned by the Interna-  
 tional Railway Company. The com-  
 pany had a line of track running from  
 Chippewa to the Point, and during the  
 days of the International Navigation  
 Company the Point was a busy place.  
 Company, however, have landed at  
 Slater's Point since Pan-American year,  
 and at the present time workmen are  
 busy tearing up the rails and removing  
 all vestige of the connecting link be-  
 tween the Point and Chippewa.

**Farm Hand Committed Suicide.**  
 Aylmer, April 27.—John Murray, a  
 resident of Malahide for years, and a  
 man about fifty years of age, commit-  
 ted suicide in a barn on the farm of  
 Charles A. Bell, where he has been  
 lately employed. He had been in poor  
 health all winter and was of late no-  
 ticed to be of unsteady mind.

**That Toronto's Annual Horse Show is im-  
 portant in other respects than the display  
 of equine beauty is an indisputable fact, and some  
 are even bold enough to say that fashion claims  
 audience to an extent which sometimes over-  
 shadows the very purpose for which Horse  
 Shows were primarily intended. Instead of less-  
 ening interest, however, this straying into it  
 by paths of fashion has rather accentuated it, so  
 that one may fairly say—fashion helps the Horse  
 Show, and the Horse Show helps fashion.**

Fashion this year has been particularly  
 generous in its contributions to women's dress-  
 gowns being especially handsome, so much so  
 that before sending them home we looked upon  
 several of our creations—which are to grace the  
 Horse Show—with a great deal of delight. It  
 will not surprise us to hear competent dress  
 critics say that the "Murray" made Costumes at  
 the Horse Show had an individuality which  
 distinguished them above all others. The next  
 important item of dress that demands recogni-  
 tion is Millinery, and just here let it be remark-  
 ed that 1904 Millinery will pass into record as  
 the most brilliant assemblage of striking designs  
 ever featured in a single season. We were very  
 fortunate in securing late shipments of some  
 exceptionally clever designs—these came  
 at the right moment, and you'll no doubt read  
 in to-morrow's society notes descriptions of  
 several stunning styles that graced the heads of  
 charming women. And then the Parasols, never  
 so striking or so varied an assemblage brought  
 together before, and the smartest of them come  
 from this store.

The Cloaks and Wraps are distinguished  
 looking—some rich Parisian models easily tak-  
 ing the place of honor, although New York  
 claims recognition with many a smart model that  
 looks Frenchy at first glance, but betrays some  
 little Americanism on close inspection.

We'd consider our talk lacking in a prime  
 essential if we failed to invite you to visit our  
 various show rooms, as well as the departments

 merce, emphasizing the importance  
 which the animal meat trade section  
 attached to pressing upon the board of  
 agriculture by all possible means the  
 removal of the restrictions against the  
 importation of Canadian cattle for store  
 purposes. The section looked upon  
 the action of the government as the  
 one possible means by which their  
 Canadian brethren might be thrown  
 into the arms of the States, where no  
 restriction was imposed.  
 George Meath was charged in court

TREASURER'S ESTIMATES WERE SLIGHTLY REDUCED

Uncontrollable Expenditure is Greater—Canada Foundry Granted a Refund.

The board of control considered the treasurer's estimates yesterday, and made some small reductions. In the uncontrollable expenditure there is an increase of \$24,500, chiefly caused by charges on the city debt of \$23,375. In the controllable expenditure directly under the supervision of the board, there is a net increase of \$41,700. This is made up of special grants made after the estimates were passed last year, amounting to \$13,302; the first instalment of the civic fuel yard deficiency, \$14,800; the cost of the city architect's office, \$450, and the estimated expense of the civic inquiry, which is modestly placed at \$800. The following deductions were made: Commissions in connection with the city debt, \$800; administrative expenses, \$205; claims for damages thru defective sidewalks, \$100; printing, \$500; stationery, \$100; miscellaneous expenditure, \$100; or a total of \$1,400, as compared with \$1,364,378 in 1903.

Will Refund Water Charges. It was decided that the Canada Foundry Company should be refunded the amount of \$3778.66 being an overcharge on water supplied them during the past three years. By resolution of council the company is authorized to use city water at manufacturers' rates, but the treasurer charged the regular non-resident rate of 24 cents per thousand gallons. No by-law was ever passed to legalize the action of council, and considerable doubt exists as to the power of the city to make the refund. The city treasurer and city solicitor were instructed, however, to pay back the amount in such a manner as would protect the city's interests.

The mayor declined to accept the \$300 increase in his salary voted by the legislature in the amendments to the Municipal Act, considering it intended to apply to controllers only.

Architect Lennox reported that all but six of the city hall contracts had been settled, and these he expected to have adjusted shortly. The bills for extras, amounting to \$18,000, have been cut down to \$9000. The extras will be held up until the whole are adjusted.

An Assistant Architect. Controller Spence considered that it would be advisable to appoint an assistant architect to assist Mr. McCalm rather than employ an outside man.

Controller London suggested that the daily papers should be asked to tender for city advertising. Nothing was done.

The city engineer has reported in favour of the installation of a sewage disposal plant at the island as a sanitary necessity. Its estimated cost is \$5400.

Yonge Street Bridge Puzzle. The mayor was unable to express an opinion yesterday in regard to the position taken by the railways in connection with the construction of the Yonge-street bridge. He has received an opinion from Corporation Counsel Fullerton, but had not had time to read it, and he did not care to give until he had done so. The C. P. R. solicitor is represented as stating that his road was under no obligation to build the bridge, and he is not aware of any decision in regard to such an obligation.

NEVEST IN BOATS. The Automobile Boat with a Torpedo Stern the Latest.

The Gasoline Engine Company, at their launch works at the foot of York-street, just over the bridge, are showing the very latest idea in gasoline boats in their new automobile boat, with a torpedo stern. This is a handsome 25-foot boat, equipped with an improved automobile engine. The advantage of this style of engine is that it is installed underneath the flooring, and is completely out of sight. The noise is also lessened, and it is impossible for any oil to splash from the engine. This engine is of the high speed type, turning up as high as 1700 revolutions per minute. This gives a very much higher speed than at the same time lessens the vibration. This engine is also so installed that all noise from the exhaust is entirely eliminated. There is also on exhibition some exceptionally fine models in 16, 17, 21, 25 and 30-foot boats.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY. We seldom fear a danger that we cannot see. The danger of being run-down by a horse is a very real one to everybody. The danger of being murdered by a microbe does not trouble us. And yet the minute microbe is more dangerous than the wildest horse. The only people who can afford not to fear the microbes of disease are those who keep their blood pure and rich. These are practically immune from the attacks of most microbes. Dr. Pierce's Golden Medical Discovery purifies and enriches the blood, and gives the body a vigorous vitality. It cures scrofula, eczema, boils, pimples and other eruptive diseases which are caused by impure blood. It had been troubled for about four years with eczema, or a skin disease, which at times was almost unbearable. It would itch so that almost unbearable. It was cured by Dr. Pierce's Golden Medical Discovery, and after using five bottles found that I was entirely cured. Please accept many thanks.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the blood. Dr. Pierce's Pleasant Pellets cure constipation and its consequences.

MILBURN'S HEART AND NERVE PILLS

She has been restored to perfect health.

She writes: "About seven months ago I was badly run down in health and became very weak, with palpitations and fluttering of the heart and shortness of breath. When lying down at night I was almost afraid to go to sleep for fear I would never wake up. In the morning I would feel a little better, but as soon as I started to work my heart would start fluttering, my head would become dizzy, faint, weak, and I would cover over me and it seemed as if black spots were floating before my eyes. I was growing worse every day until I got a box of Milburn's Heart and Nerve Pills. The box was half gone I could feel that they had done me good and by the time it was finished I was in excellent health and would advise all suffering from heart and nerve troubles to try them."

Price 50 cts. per box, or 3 for \$1.25, all dealers, or THE T. MILBURN CO., Limited, TORONTO, ONT.

WORK OF THE SESSION.

Weekly Sun Says Never Did Corporations Receive So Much.

The Weekly Sun, in summing up the work of the session of the legislature just closed is rather disappointed. Never before, it says, have the corporations obtained so much. It was a better fight put up in support of public rights and private aggression. After enumerating the large grants to the railway companies, the Sun says there has been developed in the province something like a real opposition. Mr. Whitney and his followers have gone further along the line of fighting the corporation policy of the government than ever before. The paper commends the Conservatives for supporting Major Clarke's motion to substitute the Pettypiece bill for the clauses dealing with the taxation of railways in the government's bill. By their action they are pledged to a great reform.

Hugh Clark, J. P. Downey and W. J. Hanna came in for special praise, and the Sun says Messrs. Smyth and Gurney performed a public duty in their trying circumstances. In opposing aid to the S.O. Industries. On the other hand, Hoyle and Pettypiece have not measured up to expectations. Mr. Hoyle for going back on his record in opposition to subsidies when it came to securing something for his own riding, and Mr. Pettypiece for his desertion of his railway taxation bill.

As for Mr. Pettypiece little need be said. He could not have passed the age of his bill this session. When the opposition came to his support he had the government in his power. If he remained steadfast other members on the government side would not have dared to vote against his bill, and in that case the government would have been forced to accept the measure in order to escape defeat. But his courage failed him in the inward struggle between what he considered his duty to party and duty to the people who placed him in office, the former triumphed, and the member for East Lambton permitted his bill to be slaughtered rather than do that which his masters in the cabinet objected to his doing. Not only did Mr. Pettypiece weaken on his own bill, but he weakened on the subsidy question as well. Last session he voted against a land grant of 7000 acres per mile to a Clergue railway scheme. He not only voted against the scheme, but spoke against it as well. This session he voted in silence for a grant of 4000 acres, plus \$2000 per mile, to another railway scheme, and one which the promoters were bound to carry out even if not an acre of land or a dollar of money had been voted. The explanation of the course taken by Mr. Pettypiece in these matters may be found in the fact that last year only 15 members voted against the land grant, and his vote, as one of the 15, could not possibly harm the government, while if he had voted the same way this year it is just possible the government might have been defeated. As it may be, the course taken by Mr. Pettypiece this session proves that he has either been misled by popular cries for a personal purpose, or else that he has not the courage to stand by his convictions, no matter what the effect of such a course may be.

Break Invention. The Toronto Railway Company and the Metropolitan Railway Company have under trial a new lever brake combination invented by a young man connected with the Bertram Engine Works Company. The inventor has developed a lever attachment which he interposes between the air brake staff and brake lever of the car that takes up the slack quickly and increases the nearly 100 per cent. When this device is attached to an air brake, interposed between the cylinder piston and brake lever of the car, it gives an equally satisfactory power gain and proportionate saving of air consumption; and also gives a more instantaneous application of the brake shoes.

Shouldn't Distract Theatre Audience. Magistrate Kingsford yesterday taught a lesson to two of those fellows who think when they buy a ticket for a theatre that a mortgage on the house goes with it. William Castello, colored, and Edward Farrell undertook to run the Majestic Theatre Tuesday night. They were arrested and fined \$5 and costs or thirty days. There has been too much rowdiness in all the theatres lately, and the next of these roughs that get into trouble will get a much harder deal from the bench, for it takes very little to cause a panic in a theatre.

Building at Mimico School. The March report of the Victoria Industrial School showed 174 boys in attendance, four received, one returned and eight paroled. The board yesterday received resignations from W. Greenway, shoe instructor; W. J. Huron, printing instructor; and J. P. Ross, night watchman, and will advertise for their successors. Alterations to the superintendent's residence will cost about \$600. The building committee for the new cottage reported the following tenders awarded Page & Co., masonry, \$325; Taylor & Nesbitt, plastering, \$1000; J. B. Smith & Son, lumber, \$1000. Tenders for the iron work, heating, plumbing and galvanized iron work will be advertised later.

RIG FOR THE DEPUTY-CHIEF.

One of Several Good Innovations Recommended by the Aldermen.

A delegation waited on the fire and light committee yesterday to protest against a permit being granted to the Nasmith Company to erect a factory at the intersection of the York-street and Moss Park-places. They stated that it would cause a depreciation of one-half in the value of property in the vicinity. The assessment commission was requested to report on the matter and not to issue a permit until the city solicitor reported on the powers of the city in the matter.

Chairman Fleming had been consulting with the chief and was of opinion that a special fire main should be constructed and also two stationary gas-line engines that could be started up at a moment's notice and give a 300-pound pressure. They should also purchase one or two large portable engines. Ald. Ward and Parsons favored the purchase of a fire tug, but Controller Spence thought the long winters a fatal objection.

A WARNING TO YOUNG WOMEN.

Advertisements Offering Employment at St. Louis May be Lures.

The Local Council of Women are taking cognizance of the advertisements being inserted in some of the provincial papers for young women for various alleged occupations in St. Louis. One of these advertisements, offering a number of young ladies for employment in a palatial home, "no experience required." A member of the council issues this timely warning: "One of the live questions presented before the several local branches of the National Council of Women is that which is known as the 'White Traffic.' Each local council is urged to take every possible step to obtain publicity for the well ascertained fact that an organized system is engaged in their destruction has its ramifications in every country of the world already, and is continuously working by means of false advertisements and individual agencies that numbers have been lured from their homes, either returning to them wrecks in body and soul, or being wholly lost to their family and friends. "Just now, under various inducements, young girls are being sought with no other object than to decoy them to St. Louis for infamous purposes, with very little possibility of escape if once in the toils. Pray do your utmost to pass on the word of warning to your friends, and direct the many victims of this wicked plot none may be gathered from the homes of Toronto and vicinity."

PUBLIC AMUSEMENTS.

Not more original in name than in plot, "Are You a Mason?" at the Grand Theatre, has proved one of the biggest successes, from a box-office standpoint, that have been known in this country for many years. Leo Dietrichstein adapted the play from a German original and the English version has a record of 100 nights in New York City at the Grand Theatre, 300 nights in London, at the Shaftesbury, and has been a money getter on the road four years.

There is human heart interest in every line of "Four Days in Broomfield," melodrama of New York life, announced for appearance at the Majestic Theatre next week, opening with a matinee on Monday. The scenic embellishment is said to be extraordinary.

Rosa Wallace Hopper will be the headliner at the Grand Theatre. This is undoubtedly one of the greatest captured vaudeville has made this or any other season. Her songs are new, and her comedy, which will probably be the largest in the history of the theatre. Miss Hopper, supported by several clever comedians, will present a scenic play in melody entitled, "The March of Time." This should be a number of other big acts.

Fred Irwin's big show, entitled "Under the Bamboo Tree," will be presented at the Star Theatre for one week, commencing Monday evening. The company includes the popular White Weston, singing comedian and imitator; Bennett and Revere, vaudeville dancers; Lawrence and Edwards, the Dutchman and Babe; Barton and Armstrong, in comedy vaudeville and variety; and the Irish sisters, refined musical acts, and the celebrated "Eight Champions," Europe's latest and greatest sensation.

HEIM IS A WONDER. Brockville, April 27.—On April 23 the warehouse of H. Brown & Sons, entered by thieves, who secured \$25 in cash and a cheque. This morning Brown & Sons received a letter thru the mail bearing the Brockville postmark of \$32 and an anonymous letter stating that the writer was not the thief, but a messenger who had information of the thief, and asking that prosecution be dropped.

PAVILION FOR RIVERDALE PARK. The parks and exhibition committee decided to build a pavilion for the purpose of public refreshment both in Riverdale Park. The committee also recommended that Mr. Taiting should be allowed to erect a tent in High Park for the purposes of a photograph gallery. Mr. Chambers will report as to the rental that should be charged.

Important Time Table Changes on the Grand Trunk in Effect May 1. The Grand Trunk announce spring changes as follows: Additional train for Montreal will leave Toronto daily except Sunday, at 9:00 p.m. Montreal fast express, now leaving at 10 p.m., will arrive Toronto at 10:30 p.m., reaching Montreal same time as at present, viz., 7:30 a.m. A new passenger train will leave Toronto at 6:30 p.m., daily except Sunday, reaching Montreal at 10 a.m. This will have connections from London, Godrich and Elmira branches, and at Toronto for Ottawa. New passenger trains instead of mixed trains will leave Stratford for Godrich and at 10:30 p.m. for Palmerston, leaving Palmerston 12:20 noon, reaching Godrich at 1:30 p.m. and at 4:00 p.m., and there will also be a passenger service from Palmerston 7:40 a.m. arriving Stratford 9:00 p.m. There will be other important changes from summer service runs into effect. These changes will, it is expected, give great satisfaction to residents of the north, and will mark another step in the improved train service constantly going on, on the Grand Trunk system in Ontario.

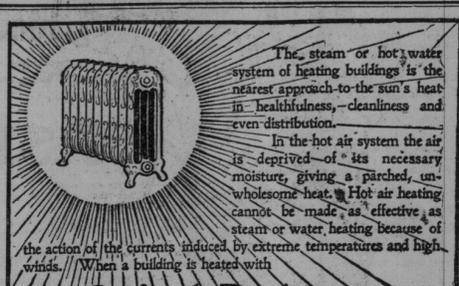

Sir Hubert Will Preside. London, April 27.—At the Liverpool chamber of commerce banquet on the 2nd of May, to Canadian visitors, Lord Strathcona will be unable to preside, but Sir Hubert Tupper will fill his place.

Commercial pirates have tried vainly again and again to imitate

LEA & PERRINS' SAUCE

but of course they fail. The best they can do is to come as close to the label and general get-up of the bottle as the laws permit. What an acknowledgment of excellence and superiority their efforts testify—that it is "the sauce that has absolutely no equal."

Oxford Radiators

The steam or hot water system of heating buildings is the nearest approach to the sun's heat in healthfulness, cleanliness and even distribution. In the hot air system the air is deprived of its necessary moisture, giving a parched, unwholesome heat. Hot air heating cannot be made as effective as steam or water heating because of the action of the currents induced by extreme temperatures and high winds. When a building is heated with

in connection with the Oxford Hot Water Boiler, the warmth is radiated from each radiator and evenly distributed. Oxford Radiators are cast from the best grade of iron in perfectly-made moulds. No diaphragms are used nor are there any complicated passages to retard the free circulation of the water or steam. There is no paper packing used in Oxford Radiators, and so this is greatly due their freedom from leaks. The Oxford Push Nipple as used on Oxford Radiators is the easiest to adjust or detach when it is necessary to add to or take off any of the loops.

The Oxford Hot Water Boiler is made with a draw-out grate, thus repairs may be made without disturbing the boiler. The fire-box of the Oxford Boiler is larger at the bottom, thus preventing the clogging of the grate with ashes. The neatness of the first water section to the fire gives a higher and more even temperature to the water. Our entire plant at Toronto junction, covering many acres of ground, is devoted exclusively to the manufacture of Oxford Hot Water Boilers and Oxford Radiators.

We would like to send you some of our booklets about the Oxford Hot Water System of Heating—they tell the whole story.

TWO SMALLPOX CASES.

Dr. Sheard has two more patients suffering from smallpox in the Cottage Hospital. Both cases are mild and came from the east end, one from Simpson-ave. and the other from Broadview-avenue. The origin was traced to a young woman who had had a slight touch of the disease but had not covered without medical attendance. She had been visiting down east in the same neighborhood from which the case on Robert-street was brought some time ago. Both houses have been quarantined and no further cases are expected.

MEN'S SHIRTS

Quality and good style shake hands in every department in the house—and fair prices are on speaking terms with everything we sell—apply it to men's shirts if you will.

Give you credit for always having been a stickler for quality, but perhaps you never considered style in so commonplace an article of apparel as your shirt—well, from now just consider that part of buying as much so as in choosing your hat.

Our Men's Shirts Department is a feature of "The Men's Store" and you're only doing yourself a favor to see what's here.

Fine Soft Front Shirts in zephyrs, Oxfords, French prints and Madras cloths, attached or detached cuffs, plain and plaited fronts, patterns confined to us. Fine Quality Dress Shirts, with pure linen fittings. Prices go from \$1.00 to \$4.00, and there's a great line of great values at the "half-way" prices, \$2.00 and \$2.50.

Besides Shirts we sell—Fancy Vests—Raincoats—Underwear—Gloves—Hosiery—Collars—Cuffs—Neckwear—Umbrellas and Leather Goods.

NEW G.T.R. TIMETABLES.

Several Important Changes Go Into Effect—New C.P.R. Transcontinental Train.

Grand Trunk officials yesterday commended a number of important changes in the time-table, same to go into effect on May 1. They are as follows:

Additional train for Montreal will leave Toronto daily except Sunday at 9 p.m. Montreal fast express, now leaving at 10 p.m., will leave Toronto at 11:30 p.m. and will take the place of mixed train now due to arrive in Toronto at 11:40 p.m. This train will have connections from London, Goderich and Elmira branches, and at Toronto for Ottawa and Montreal.

New passenger trains, instead of mixed trains, will leave Stratford at 5 p.m., for Goderich, and at 10:30 a.m., for Palmerston, leaving Palmerston at 12:30 noon, reaching Owen Sound and Watton 2:30 p.m., instead of 4 p.m., and there will also be passenger service leaving Palmerston 7:40 p.m., arriving Stratford 9 p.m.

There will be other important changes when summer service goes into effect. These changes will, it is expected, give great satisfaction to residents and travelers on north branch lines, and are another step in the improved train service constantly being put on the Grand Trunk system in Ontario.

Only definite change decided upon by the Canadian Pacific Railway, so far as known locally, is the inauguration on June 15 of a double transcontinental service. The present time the service is made up of a regular train, leaving Toronto daily, and a special train, leaving Toronto on Wednesdays and Sundays. Under the new regime there will be two trains daily, the time schedule of the second has not yet been announced. A number of minor local changes, such as every train bringing forth, will go into effect about the same time. The great movement toward the west is attributed to the doubling of the transcontinental service.

STEAMER BURNED DOWN. Winnipeg, Man., April 27.—The steamer Gertrude H. caught fire on the Red River when near the Canadian Pacific Railway wharf on Wednesday afternoon. The steamer struck the bridge and the blaze communicated to the bridge and the boat then drifted down stream to the Louise traffic bridge and also ignited that structure. Both bridges were saved, but not before considerable damage had been done. The boat was burned to the water-line. Loss about \$25,000.

He Lost Time. The night of the big fire William Morris, 10 West King-street, had his watch lifted. Detective Black yesterday arrested James George, 928 Dufferin-street, as the man who picked his pocket.

D. McNeill, first vice-president of the Canadian Pacific Railway, is at the King Edward for a few days.

DR. W. H. GRAHAM, Late of No. 189 KING STREET WEST. No. 1 Clarence Square, cor. Spadina Avenue, Toronto, Canada. Treats Chronic Diseases and makes a Specialty of Skin Diseases such as PIMPLES, ULCERS, ETC., ETC.

Friday's Great Bargain Programme

A Triple Loss to Be Counterbalanced By Trebling the Business.

Modern merchandising makes the store and its auxiliaries not a storehouse in the old sense, but rather an exchange or clearing house in the banker's sense. A constant stream of merchandise flows toward us to be sorted, marked, displayed and then passed out by means of many thousand daily deliveries, including His Majesty's mails, the express companies and our own delivery wagons. Whatever obstructs this steady flow has to be overcome even if it REQUIRES HEROIC MEASURES.

You know of the obstruction —Warehouse on Front street BURNT. —Factory corner Front and Bay streets BURNT. —Storehouse corner Lorne street SOLD.

What a piling up of stock in the freight sheds and on the wharves it would mean if you were not ready to help us quicken the turnover? Goods we would ordinarily take care of for a month we ask you to relieve us of in ten days. This means three times as much business. The following items are samples only of the advantages we offer you all over the store:
