# SINN FEIN IS PLOTTING FURTHER DEVASTATION IN ENGLAND

## Reopening of Factories in United States Is Herald of Better Times

### LEAGUE ASSEMBLY SETS LAST MANDATE QUESTION

### Composition of Commission Decided and Mandatories Will Submit Reports.

### ONE LABOR MEMBER

Geneva, Nov. 29.—Removal of the mandates commission as far as possible from governmental influence was the task undertaken by the council of the League of Nations today. It was decided that the members of this commission shall be appointed by the council on personal merits and competency, and that they shall not occupy any position involving dependency upon their government.

The mandates question occupied almost the entire session, and necessarily postponed the election of a sub-commissioner to Sir Bernard Thomas, high commissioner at Danzig. M. Viviani represented France, instead of M. Bourgeois, who was obliged to make a trip to Paris, and Signor TITTONI also was replaced, as his return to Rome for a few days was imperative. The French government will be invited to arrange for the transportation and sustenance of the league expedition to Vilna.

### TRADE CONDITIONS SLOWLY IMPROVE; FACTORIES REOPEN

#### Indications From Various Parts of United States of Revival of Business—In Many Cases Wages or Working Hours Are Curtailed—Big Shoe Factories to Run at Full Capacity.

New York, Nov. 29.—Advices from various parts of the United States, widely scattered, of the re-opening of factories closed during the recent industrial readjustment, are taken in New York business circles as indicating the beginning of a gradual improvement in business conditions. In most instances the opening of plants is attended with announcements of lower wage schedules or curtailed working time.

The Jefferson and Eagle Lake woolen mills of Helder, Mass., closed since Wednesday last, reopened today under an average 10 per cent. wage reduction. The employees all went to work. The cotton mills of Gastonia, N. C., resumed operation on greatly reduced schedules of working times after two weeks' idleness.

Announcement was made in Rochester, N. Y., today that within three weeks factories in that city making women's shoes, now idle, would reopen at full capacity to fill orders for spring stock. This will mean employment for 23,000 men and women.

Announcement was made by the Richmond Cedar Works, Richmond, Virginia, of a reduction of 25 per cent. in the wages of its 800 employees.

#### What Causes Stagnation.

An examination of the present ills of business is presented today by the Fourth Federal Reserve Bank of Cleveland, Ohio, in its monthly review of conditions. This review states that business is suffering from a strike on the part of the public, which will not be drawn into the market to purchase except for absolute necessities until it is convinced that prices are as low as may reasonably be expected and bear some evidence of stability.

A general cutting of retail meat prices, ranging from three to eleven cents a pound, bringing prices nearer normal than at any time in months, was in evidence in Cleveland today.

### LEADERS' WARNING TO U. S. RAILWAYS

#### Must Find Some Adjustment or Will Cease to Hold Men in Check.

Chicago, Nov. 29.—Warning that the ultra conservative leaders of the railroad brotherhoods would cease their efforts to hold their men in check unless some plan to adjust the difference between railroad wages as found, was delivered to the United States Railroad Labor Board today by Warren S. Stone of Cleveland, grand chief of the Brotherhood of Railway Engineers.

### HEAVY LIQUIDATION THOUGHT TO HAVE BEEN DUE TO REFUSAL OF BANKS IN MONTREAL TO CONTINUE TO CARRY LARGE BLOCKS OF BONDS PARTLY PAID FOR—SMALL LOTS SELL IN MONTREAL AT PRICES TO YIELD NEARLY EIGHT PER CENT.—INVESTORS ARE OFFERED A GREAT OPPORTUNITY.

The liquidation yesterday was mainly in the 1924, 1925 and 1926 issues. The amounts sold in each being \$21,170, \$97,300 and \$97,000, respectively. The 1927 and 1928 issues were least dealt in.

Following are the prices as set by the committee up till Saturday with yesterday's close:

Issue	Saturday, Close
1922	98 5/8
1923	97 3/4
1924	97 5/8
1925	96 1/4
1926	94 1/2
1927	97 5/8
1928	95 1/2

The newspaper asserts that the details of the alleged plot came into the possession of the authorities as the result of a raid on the Irish mails.

The Standard says that not only have cabinet ministers received letters threatening them with personal violence, but that threats now are being made against members of their families.

The inscription read: "An expression of their regard and appreciation of the kindness and generosity which made easier their going, their fighting, and their return."

# LET TURKISH PACT REVISIT ITSELF, IS FRENCH PROPOSAL

## None of Five Big Powers Are Likely Now to Ratify Treaty.

### PREMIERS TO DECIDE

Paris, Nov. 29.—To let the Turkish treaty revise itself if the allies cannot agree upon its revision is the official French plan that Premier Leagues will present to Premier Lloyd George and Count Sforza, the Italian foreign minister, when M. Leygues returns to London tomorrow for the resumption of the conference between these representatives of the three powers with regard to the Greek and other pressing situations. It was indicated in official quarters today.

By letting the treaty revise itself, the French office means, it was explained, that if French and British support was withdrawn from Greece, the Turks can regain much of the territory taken from them by the treaty, although the allies would make sure of retaining their hold upon the straits of the Dardanelles and the Turkish finances.

Of the five big powers which signed the peace treaty—Great Britain, France, Italy, Belgium and Japan—three must ratify the pact to make it effective. Attention was called by the foreign office to the fact that none of these has as yet ratified the treaty, and that it appeared unlikely that any three of them would do so now, which was there expectation that Turkey herself would effect ratification in the present circumstances.

Revision of the Turkish treaty with a view to stopping the spread of Bolshevism in the Orient, with French negotiations with the Turkish Nationalists, and as to enable Cilicia to be evacuated, are given by the Temps, in a long editorial on the near east problem today, as the obviously necessary courses growing out of the present situation. The newspaper editorial says that the need either of Greece continuing her Turkish campaign or the allies bringing about peace in Asia Minor.

# TO CURE A COLD IN ONE DAY

## SINN FEIN PLOTS TO APPLY TORCH

Other big centres of population besides London are preparing for defence against possible Sinn Fein attacks. Special police guards have been posted in municipal and other buildings in Glasgow, while the docks and quay of the Clyde are being strongly guarded. It is said that for a long time the authorities have had knowledge that a large group of Sinn Fein men were in Glasgow and its neighborhood.

Extra police have been provided for the Southampton docks in order to protect the property and shipping.

The insurance business against riots and civil commotion today was the greatest in London for a long time. A large proportion of the business came from the Lancashire cotton district, owing to the contention by some of the fire insurance companies that the fires in Liverpool were not covered by their policies, and that incendiary riots must be specially insured against.

**Arrest for Murder in Liverpool.**—A Liverpool man who declined to give his name, but who said he was a Sinn Fein and a native of Dublin, was arraigned in the police court this morning on a charge of murder in connection with the cotton warehouse fire Saturday night. He is 29 years old, and the police stated that the prisoner and two other men were discovered near the scene of one of the fires in a suspicious manner. The three men tried to escape when the police accosted them, and the man under arrest is accused of having fired at the officers. His bullet wound astray and killed a policeman.

It is charged by the police that the man under arrest had in his possession the plans of the premises in which the fire occurred. He was remanded to prison for one week.

that the objective of \$450,000 would be overreached in the present campaign.

Sir Robert Falconer pointed to the splendid work of the Federation of Community Service in collaborating and properly administering funds which otherwise might have been distributed indiscriminately. It was a manifold organization, tending to the needs of expectant mothers, those of children, to those of orphans, to those of the aged, to those of unhappy and destitute men and women. It was true of Toronto, happily, that the number of really indigent people was small. This was because Toronto comprised a homogeneous population, and because easily half of the population represented home life in which homes were owned. The duties of the campaigners was to raise sufficient funds to fill the needs of the 47 organizations comprising the federation. There was really no provincial, no civic machinery fit to handle the situation met constantly by these 47 organizations. The federation presented a united front both of money and service. Almost all the suffering in the city was relieved by one of the phases of work carried on by these organizations comprising the federation.

Sir Robert referred feelingly to the uplifters. "A lot less uplift and a lot more understanding, a little less criticism and a whole lot more sympathy will be the urgent need of the moment," said the university president.

**Bureau Withdraws.**  
Sir James Woods, the chairman of the evening, brought the most interesting touches to the meeting. He was heckled when he pointed to the splendid work of the varied phases of work carried out by the federation.

The chief object of the organization is to check the spread of tuberculosis in the near east problem today, as the obviously necessary courses growing out of the present situation. The newspaper editorial says that the need either of Greece continuing her Turkish campaign or the allies bringing about peace in Asia Minor.

# TARIFF OPINIONS VAR AT LONDON

Feature of Inquiry is Warning of Keeping Out German Goods.

London, Ont., Nov. 29.—A host of witnesses from London and district testified at the morning and afternoon sessions of the Dominion Tariff Commission here today. The commission moved on to Windsor for sessions there tomorrow. Two witnesses were heard in favor of a continuation of protection, although at the afternoon session there were several exceptions. John Currie of Stratford, for example, asked why all agricultural implements, as well as farm tractors, should not be put on the free list. He also claimed that in the case of cream separators, although they enjoyed protection, their price was increasing in numbers.

Stamped "Made in England."

Charles Phillips of Hall, Dent, Ltd., a glove manufacturer, employing 125 persons, wanted protection continued. He claimed that German gloves were being shipped to England, stamped "Made in England," and reshipped to Canada.

Robert Greene of Greene, Swift, Ltd., suggested that the tariff on heavy employ duty on American wool be 25 per cent. He said that the tariff should be increased to 50 per cent. to 125 per cent. on wool from any place on Canadian wool manufactures.

German Competition.

Lieut. Colonel W. B. Gartschke of the McCleary Manufacturing Company has recently had orders from the West Indies cancelled in favor of German-made goods. He read and submitted a letter in which he expressed his concern. He stated that he had a factory in Montreal, and five other branches and metal products companies of Montreal, Hamilton, Toronto, London, and Liverpool. Because of the low value of the German market, continued Col. Gartschke, German can manufacture products and sell them in any part of the world at a price that makes it impossible for Canadian manufacturers to employ Canadian labor. # REV. J. B. WATSON SICK AND POOR

Distinguished Orator is Confined to Bed With Incurable Disease.

Propped up in bed, in a squalid room on the main thoroughfare of Toronto, not many blocks from Massey Hall, where once he had a capacity audience, lies Rev. J. B. Watson, D.D., a distinguished orator suffering from an incurable disease.

In one corner of the room is a bust of George Brown. Pictures of prominent men cover the walls, and packed in every available space are the dozens of books, consisting in the main of papers and manuscript and heterogeneous bits of printed matter.

It was born in Pickering, Ontario, in 1850, and became an apprentice to a blacksmith when he was 14 years old, said the doctor, "and all my education has been received by reading and attending to the papers."

When I was 37 years old, I delivered three lectures in Indiana along religious lines and then went on to secular subjects. I have lectured in almost every large town and city in Canada, United States, and Europe. I have been among my friends such men as Wm. Jennings Bryan, Dr. Washington Gladstone, and many others.

# C. P. R. WITNESS AGAINST RADIALS

W. F. Tye Expresses Opinion That Project Would Not Prove Profitable.

Opinion that the proposed Hydro radial could not be made profitable and were not demanded by present conditions, was given by W. F. Tye, a former engineer of the C.P.R., who testified at yesterday's session in Osbourne Hall of the Hydro Radials Commission. The witness admitted, under pressure, however, the possible desirability of increased inter-urban transportation service and advocated that the electrifying of the trunk line of the Grand Trunk System and substantial additions to the present number of trains operated.

Mr. Tye based his argument upon the fact of the C.P.R.'s bare ability to pay a dividend upon a capitalization of \$60,000 per mile. The proposed radial, he stated, would be an actual construction cost of \$340,000 per mile, a fact which the C.P.R., even with the income from its steamships and other corporate interests, could not accomplish.

During his cross-examination in the afternoon session by I. F. Hellmuth, K.C., Mr. Tye, enquired upon the incident of competition to which the radial would be subjected with the development of the provincial good roads program. He contended also in the argument of Mr. Hellmuth to the effect that the radial would only provide competition for the Grand Trunk, now a government-owned system.

The tripping of freight by motor truck was greatly on the increase in the United States, Mr. Tye testified. Manufacturing firms were inclined to favor it both for its speed and because it rendered unnecessary elaborate precautions against rough handling. When it was considered that the average freight train spent two-thirds of its time in idling, and that a Newmarket concern had been able to dispense entirely with packing which formerly required three men, the extent of these economies would be apparent.

# NOTED SUFFRAGE ISSUES STATEMENT

Mrs. Annie M. Sloan, of Buffalo, Declares She Would Not Take All the Money in the World for Good Tailor Did Her.

"I will just say frankly I think Tailor is perfectly wonderful and I would not take any more money in the world for the good he has done me," said Mrs. Annie M. Sloan, recently residing at 275 Huntington Avenue, Buffalo, N.Y.

Mrs. Sloan has resided in Buffalo for the past forty years and is very prominent in club circles being an active member of the Buffalo City Club, the Lincoln Republican Club, and the Women Voters' League.

She represented the women of her city in their appeal to the United States Senate at Washington when the suffrage bill was first introduced. It was honored with membership to the Washington Suffrage Club. Mrs. Sloan is also deeply interested in church and charity work. Her statement regarding the benefits she has derived from Tailor will be of widespread interest. She said:

"I have been taking Tailor about four weeks, but I am already feeling better than I have felt for some time. I had almost given up hope. This stuff left me without any energy and so weak I could hardly walk across the room.

"Tailor has relieved my troubles entirely. I am enjoying the health now and am fruitful of new strength and energy. Everyone should know of Tailor."

Tailor is sold in Toronto by Tanblynn Drug Stores and by an established agency in every town.

# DOUGHTY MISSES TRIAL IN OREGON

(Continued From Page 1).

Relationship with Canada, the governor married a West Coast lady. Governor Olcott's travels took him to the Yukon and Alaska in 1898, and there he helped to push the dogs up to Fairbanks, where he worked in the mines, and as a gold buyer for the banks, while a Guelph man and preceded Mr. Olcott as governor of Oregon.

"Canadians hardly seem to realize," the governor declared, "that a splendid bond of feeling there exists between the people living on the border line, and mentioned that at Blaine, on the international border, a peace portal was being erected to commemorate the 100 years' peace between Canada and the United States."

### TO SETTLE CONTROL OF SCIENCE CHURCH

#### Final Stage of Litigation is Heard Before Full Bench of Supreme Court.

Boston, Nov. 29.—The full bench of the supreme court today sat in judgment on the final stage of the litigation, in which several factions of the Christian Science Church are involved in an attempt to determine where control of the organization and its several auxiliary activities rests. The closing arguments brought together an array of counsel of high standing and attracted an audience whose members were drawn from far places. Ottawa, Nov. 29.—It is not thought likely that there will be any important changes made in the luxury tax regulations, although there may be some minor alterations. The luxury tax is now yielding roughly \$750,000 a month.

### RENOUNCES RIGHT TO MILLION LEGACY

#### Young Man From Buzzard's Bay Disapproves of Parent's Conditions.

Buzzard's Bay, Mass., Nov. 29.—Charles Garland, the young man who has renounced his right to a million-dollar legacy left him by his father, James A. Garland, who was a wealthy tinsmith and yachtsman of Boston, today made a formal statement of his reasons for rejecting the money. His statement, he said, was due to the fact that many reports of his failure to accept the legacy had failed properly to represent his position. "I refuse to accept the money because it is not mine," was young Garland's summary of his action. "A system which starves thousands while hundreds are stuffed condemned itself. A system which leaves a sick woman helpless and offers its services to a healthy man condemns itself. It is such a system that offers me a million dollars," he continued. "It is blind to the simplest truth known to every child, the truth that the hungry should be fed and the naked clothed. I have had to choose between the loss of private property and the law which is written in every human heart. I choose the one which I believe to be true."

### MUST TRADE WITH RUSSIA SOMETIME, SAYS HORNE

London, Nov. 29.—Sir Robert Horne, president of the British board of trade, speaking at Manchester, said that he did not believe that the present slump in trade would be of long duration, but prices must come down. The proportion of goods which the Dominions received from Great Britain, said Sir Robert, was less now than before the war. The United States had got into the colonial markets. Great Britain, the minister maintained, should do everything to recover the fullest measure of its trade with the great dominions. It was also no longer any good to say: "We won't trade with Russia because of the character of her government." Great Britain must trade there sooner or later, and it was no good waiting, claimed Sir Robert.

### IMPROVEMENTS IN PARKS SUGGESTED

Ratepayers Will Vote on Question of Expending Large Sum of Money.

### PROVISION FOR SPORT

Recommendation to Expropriate Lots Near Eastern City Limits.

The committee on parks yesterday adopted a report on park improvements that the water and beach lots between Woodbine avenue and the eastern city limits be expropriated by the city, with the exception of the strip owned by the Toronto Street Railway Company. The T.S.R. property will probably be taken over when the city buys the system next fall. Many of these lots have never been assessed and the purchase will in many cases be merely to clear the riparian rights of the holders. The depth of the strip to be taken over from the water line ranges from one to two hundred feet and in a general way goes back to the top of the embankment. The recommendation will go before council next Monday.

Commissioners Chambers laid before the committee a report on park improvements contemplated for next year with a list and estimates of cost of improvements desired to be made. The items are for recreation purposes. Most of the land in the list is as yet unimproved and the proposal is to make these places ready for baseball, football, tennis, lacrosse, cricket, skating, etc. The cost of the work is estimated at \$100,000 and it is proposed to make provision in the estimates next year to cover.

### RATEPAYERS TO VOTE

On motion of Ald. F. M. Johnston, the committee recommended that the people be asked to vote on January 1 on the question of carrying out the proposed improvements. Following are the proposed improvements:

Willowdale Park, grading on east side (site of old city stables), 2 1/2 acres, \$4,000; Willowdale Park, grading on west (near old city stables), 4 acres, \$4,000; Dufferin Grove, grading northwest section, 2 1/2 acres, \$5,000; Dovercourt Park, grading of west side, 2 1/2 acres, \$5,000; Trinity Park, grading of northeast section, 1 1/2 acres, \$2,000; grading of south side, 2 acres, \$2,500; Blockford Ravine, grading of section south of Harbord street bridge, 2 1/2 acres, \$4,000; Park, grading and draining, 4 acres, \$3,000; Oakmount Park, grading of east side, 2 1/2 acres, \$2,500; grading of south side, 2 acres, \$2,500; Greenwood Athletic Field, completion of grading of north and south sections, 3 1/2 acres, \$3,000; Withrow Park, grading of south section, 5 acres, \$17,000; Riverdale Park, grading of northwest section, 2 acres, \$4,000; Riverdale Park, grading of section adjoining viaduct, 1 1/2 acres, \$2,500; grading of south and northwest sections, 1 1/2 acres, \$2,000; Vermont Square, general improvements, 2 1/2 acres, \$4,000; Leaside, raising of level of lands, 5 acres, \$16,000. Total, \$100,150.

### NEW BUILDINGS

A recommendation has already gone to council that the people be asked to vote on the question of expending \$100,000 on permanent buildings in the parks, such as lavatories, shelters and bathhouses, etc. Following is the list of buildings proposed:

High Park, shelter, lavatory and rest room, \$40,000; Island Park, shelter and rest room, \$40,000; Hanlan Memorial Park, shelter and lavatory building, \$20,000; Eastcourt Park, combined field house and lavatory, \$15,000; Greenwood Athletic Field, combined house and lavatory, \$15,000; Reservoir Park, shelter and lavatory building, \$8,000; Monarch Park, shelter and lavatory building, \$6,000; Riverdale Park, shelter and lavatory building, \$6,000; new bathroom, western sand bar, \$25,000. Total, \$202,200.

In the case of those intended for High Park, Island Park, Hanlan Memorial Park and western sand bar, the interest and sinking fund charges on their cost would be more than met by the revenue annually derived from the same, thus leaving an expenditure of only \$69,200 upon buildings not self-sustaining.

### LAST TRIBUTES PAID TO TORONTO DOCTOR

ASK CITY TO PAY

VOTING LIST COSTS

Province Sends in Bill, But Board of Control Holds It Up.

TO AUDIT GAS BOOKS

Will Ask Roney to Enforce Act Against Chinese Employing White Girls.

A bill for \$4,357 was yesterday received by the board of control from the province, as the cost of extending the voters' lists for the recent by-election in Northeast Toronto.

Mayor Church could see no reason why the city should be called upon to pay such a bill, and he believed the act authorizing collection from the city was ultra vires of the legislature.

On motion of Controller Cameron the bill was held up, and if it is found the city is liable, the amount will be offset against sums due to city from the province.

Auditor Scott pointed out that under section 13 (1) and (3) and section 42 of the election act, 1920, the city has to provide for the expense of by-elections and of revising the voters' lists.

It was reported that the proposed audit of the Gas Company's books would cost between \$1,500 and \$2,000, and Henry Barber, engaged to do the work, declined to proceed without the authority of council. The board sent on a recommendation that the audit be made.

Plans for New Bridge. Works Commissioner Harris reported that the G. T. R. had submitted the location plan of the new bridge over the tracks at Main street in East Toronto. It had received the approval of the works commissioner. The detail plans will now be prepared.

It was decided to ask the attorney-general to bring into force the act passed in 1914 prohibiting the employment of white girls by Chinese.

The mayor's motion that the works commissioner be asked to establish a night car service on the West Block district was adopted, also the mayor's motion that shelters be built at St. Clair and Avenue road and St. Clair and Yonge streets.

The board refused the request of railway associations that they be given a room in the city hall for a meeting to discuss the policy of the G. N. R. in dismissing employees who take part in politics. The controllers regarded the controversy as a political matter.

Use of Exhibition Buildings. The board asked the Exhibition directors for a report on the suggestion of U. J. C. to make means for the Exhibition buildings revenue producing.

The city solicitor was instructed to prepare the necessary by-law in accordance with the new act to compel persons liable to make a sworn statement to the assessment commissioner regarding their incomes.

The mayor stated that returns from the various departments so far showed capital expenditure commitments for next year of \$60,000,000, of which \$24,000,000 are for works returns which include the duplicate waterworks system, which will probably not be touched until 1922.

The assessment commissioner reported recommending that \$500 be paid for 233 recommendations, which is required for the Ardagh street extension.

Controller Cameron said he believed much could be saved by the city if a credit were placed in the hands of the commissioner to enable him to make such purchases privately.

The board recommended that the old North Toronto town hall be rented to the North Toronto Ratepayers' Association on the evenings of December 30 and 31.

RECEIVE MANY ENTRIES FOR WELSH FESTIVAL

HARBOR DREDGE FOR HYDRO COMMISSION

The harbor commission has decided to turn over to the Hydro commission the dredge Cyclone to be used on the Chippawa development work.

"Have You Tested My Blood, Doctor?"

"YES, I have."

"And what is the result?"

"Not very satisfactory."

"What seems to be the trouble?"

"Well, your blood is thin. It is lacking in what we call the red corpuscles. It does not contain enough of the nutritive qualities to properly supply nourishment to the nervous system."

"But I am not nervous."

"No, you are not, in one sense. Your hands do not tremble. You are not easily startled or excited. But nevertheless your nerves are not in good condition. There is not enough nervous energy in your system to work the machinery of the body."

"Perhaps you never thought of the vital organs of your body as requiring any motive power—any propelling energy—but they do, and this force comes through the nervous system."

"Because you are not conscious of every heart beat and of every breath you breathe is no indication that this action is not the result of nervous energy."

"You really have two brains—one with which you think and act voluntarily, another one which, without any conscious effort on your part, controls the action of the various organs and members of the body. It is the failure of this sympathetic nervous system, as it is called, which most frequently causes trouble."

"Because nervous energy is lacking there is weak functioning of the vital organs. The digestive fluid does not flow properly in the stomach, and you have nervous indigestion—the action of the liver and bowels is slow and weak, and you suffer from constipation. And so it may be with other organs. While they are not really diseased, their action is weak for lack of nervous energy. What you need is a good restorative."

"What do you think of using Dr. Chase's Nerve Food?"

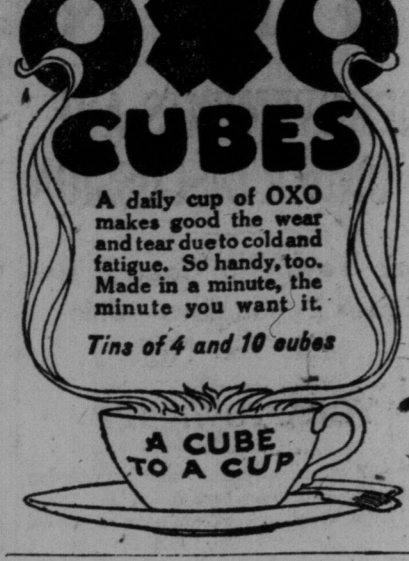

"There's nothing better. You know we doctors prefer to prescribe our own favorite treatments, but I have seen such splendid results from the use of Dr. Chase's Nerve Food by my patients that I no longer hesitate to recommend it."

The active and concentrated ingredients of Dr. Chase's Nerve Food are approved by the best medical authorities as a means of building up the exhausted nervous system. The experiences of many thousands of people go to back up the professional opinion, and hence the enormous success of this great restorative. 50c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

# ALL TOGETHER NOW

THE FEDERATION CAMPAIGN HAS STARTED

1500 voluntary workers got away this morning. They will try to call on everybody.

They will carry on their shoulders the burden of this drive for the funds that are to go to the helpless, the homeless, the old people, and the unfortunate of our own fair city. See them and help them. Be ready. Give your share. Give it promptly and gladly.

This is your business. It is everybody's. And it is a serious business too. So in humanity's name do your part.

Make it as easy as you can for the workers to get your subscription so that each can get on, and cover his field, thoroughly, efficiently and successfully.

## 47 CHARITIES

(NOW 49)

"THAT SOOTHE, AND HEAL AND BLESS"

that is what this \$450,000 is for.

So do not, in humanity's name, pass up this opportunity of being a real, true, cheerful giver. You know these city charities. Each one of them is doing its share to relieve the troubled brow, the comfortless stare, the broken spirit of those in its care. Read the list over. And if you want to designate your gift to any particular institution—or institutions, that is your privilege. But the Federation pledge is, that none shall want.

So, now, do right. You know what you can give. Do it, remembering, as you do, the words of the poet:

"I'd like to think that here and there,  
When I am gone, there shall remain,  
A happier spot that might have not  
Existed had I tolled for gain;  
That some one's cheery voice and smile,  
Should prove that I had been worth while,  
That I had paid with something fine  
My debt to God for life divine."
