## ST. FRANCIS XAVIER'S COLLEGE.

### HISTORICAL SKETCH.

St. Francis Xavier's College was founded in 1854 by the Right Rev. Colin F. McKinnon, Bishop of Arichat, for the higher education of students aspiring to the priesthood and to the learned professions. In this respect it has more than fulfilled the hopes of the Right Reverend founder. Another and very important work done by the College is that of preparing young men for the teaching profession. It has in fact ever since its inception and particularly in recent years been the chief factor in supplying teachers for the Counties of Antigonish, Inverness, Richmond and Cape Breton. Of late its constituency has become much enlarged, a considerable portion of the students now in attendance being from Western Nova Scotia, New Brunswick and the United States. In 1866 the College received University powers by the following Act of the Legislature of Nova Scotia:

AN ACT TO ENABLE THE COLLEGE OF ST. FRANCIS XAVIER, AT ANTIGONISH, TO CONFER DEGREES.

(Passed the 7th day of May, A. D. 1866.)

*Be it enacted by the Governor, Council and Assembly, as follows:*

1. St. Francis Xavier's College at Antigonish, shall be held and taken to be an University with all and every the usual privileges of such an institution, and that the students in the said College shall have the liberty and privilege of taking the degrees

of Bachelor, Master and Doctor in the several Arts and Faculties, at the appointed times, and shall have power, within themselves, of performing all the scholastic exercises necessary for the conferring of such degrees, as shall be directed by the statutes, rules and ordinances of the College.

In 1880 a new brick wing was erected by the Right Reverend John Cameron, D. D., the work on which was done under the direction of the Rev. John Chisholm, P.P., of Heatherton. The funds for the erection of this building were contributed chiefly by the Bishop and Clergy of this Diocese. His Lordship contributed over six thousand dollars; the Very Rev. Neil McLeod, V. G., \$990; the late Rev. John Quinan, \$250; the Rev. Ronald McDonald, P. P., of Pictou, now Right Reverend Bishop of Harbor Grace, \$200; the rest of the Clergy, \$2,224.14.

In 1881 the Provincial grant, which varied from eight to fifteen hundred dollars a year, was withdrawn, and his Lordship Bishop Cameron appealed to the people of the Diocese to form an endowment fund. For this purpose the sum of over twenty thousand dollars has been collected and invested.

In 1882 a Board of Governors was organized under the following Act:

AN ACT TO INCORPORATE THE GOVERNORS OF SAINT FRANCIS XAVIER'S COLLEGE.

(Passed the 10th day of March, 1882.)

*Be it enacted by the Governor, Council and Assembly, as follows:*

1. The Right Reverend John Cameron, D. D., Bishop of Arichat, and his successors in office canonically appointed, together with the Rev. John Shaw, P.P., Rev. Neil McNeil, D.D., William Gerrior, Esq., J. P., and Colin F. McIsaac, Esq., Barrister, shall be a body politic and corporate by the name of the "Governors of St. Francis Xavier's College, Antigonish."

2. The Corporation hereby created shall have perpetual succession and a common seal, and shall have power to take by donation, deed, devise, bequest, purchase, or otherwise howsoever, real and personal property, and to sell and convey the same.

3. The four last named members of the said Board of Governors, under the first section of this Act, shall continue to hold office until death, resignation, or permanent removal from the Province of Nova Scotia, but if any of them shall cease to be in communion with the Roman Catholic Church, he shall cease to be a member of the Corporation hereby created.

4. Any vacancy which may from time to time occur among the said Governors, shall be supplied by the election of a person in communion with the Roman Catholic Church by the remaining members of the Corporation, subject, however, to the notification and approval of the said Bishop of Arichat and to his successors. The term of office of the person so elected shall be the same as that mentioned in the third section of this Act.

5. The Corporation hereby created may from time to time make statutes, rules and ordinances, not inconsistent with the laws of this Province, for the management of the said College, and all matters appertaining thereto, and for the management of the funds and property entrusted to it, and may appoint the professors and teachers in the said College, and remove them from time to time, and regulate the salaries to be paid to them. The exercise of any of the powers mentioned in this section shall, however, be subject to the approval of the said Bishop of Arichat for the time being, and his successors.

6. The said College of St. Francis Xavier shall continue to be a University, with all and every the usual privileges of such institutions.

7. The Corporation hereby created shall have power to appoint a Treasurer, Secretary, and such other officers and servants as they may from time to time deem necessary for the purposes of the Corporation, and may hold real estate, not exceeding fifty thousand dollars.

The permanent removal from the Province of the Right Rev. Neil McNeil, D.D., now Bishop of Nilopolis, made vacant, under section 3 of the above Act, the office of Governor held by him

## COURSE OF STUDIES.

The studies taken up each year of the course and the amount of time assigned to the various subjects are set forth in and may be easily gathered from the subjoined Time Table. For the greater convenience of students intending to qualify for Provincial scholarships the text-books used are as far as possible the same as those prescribed by the Council of Public Instruction of this Province for the county academies.

The following is a list of the books used or consulted during the course. It also indicates the ground to be covered by those who wish to take degrees in Arts.

Where only a portion of an author's works is studied from year to year the part prescribed for 1896-7 is put in parenthesis.

English—Grammar—For Junior Classes, the text-book prescribed by the Nova Scotia Council of Public Instruction; for advanced work, Mason's Grammar.

“ Language and Composition—Dalglish, Elementary and Advanced; Lounsbury's English Language.

Literature—Meiklejohn, Stopford Brooke and The Manual by the Brothers of the Christian Schools; Longfellow (Evangeline); Goldsmith (The Deserted Village), Irving (Sketch Book), Scott (Lady of the Lake and Waverly), Shakespeare (Julius Caesar).

Latin—Grammar as in Collar & Daniel, Harkness, Allen & Greenough.

Composition—Arnold's, edited by Spenser.

Reading—Historia Sacra; Nepos (Aristides & Miltiades). Cæsar (Invasion of Britain, and Gallic War, Book I.); Virgil, Æneid (Books II. and VI); Cicero (In Catilinam I. and De Officiis); Horace (Odes, Book III. and IV.); Salust (Conspiracy of Catiline); Livy (Book XXI.) and Tacitus (Histories, Book I.)

Prosody and Versification, as in Harkness or any equivalent.

- Greek—Grammar—Goodwin's, or Hadley and Allen, and Principia Graeca (Smith).  
 “ Composition—Principia Graeca (Parts I. and III.), William Smith, D.C.L., London.  
 “ Reading—Xenophon's Anabasis (Book IV.); Helenica, (Book I. and II.); Demosthenes (Philippics I., II. and III.); Homer's Iliad (Books I., II., and III.); Euripides (Alcestis.)
- French—Grammar—Brachet's and French Principia.  
 “ Composition—Smith's Principia, and Roulier's.  
 “ Reading—Souvestre (Le Serf); Daudet (La Belle Nivernaise); Merimée (Colomba), and Racine (Esther) or Corneille (Le Cid).
- Arithmetic—Hamblin Smith.  
 Algebra—Hall and Knight's Elementary and Higher Algebras.  
 Geometry—Euclid, Hall and Steven's.  
 Trigonometry and P. Mathematics—Lock's Elementary Trigonometry.  
 Navigation—Norrie.  
 Astronomy—Young's Elements.  
 Physics—Balfour Stewart's Primer for Juniors, Gages' Introduction and Ganot for Seniors.  
 Chemistry—William's for Juniors, Storer's Agriculture, Storer and Lindsay's Elementary and Roscoe's for Seniors.  
 History and Geography—Prescribed Texts for Juniors; for Seniors, Swinton and Fredet.  
 Botany, Physiology and Hygiene as in Texts prescribed by the C. P. I.  
 Philosophy—First Year—Logic and General Metaphysics; Zigliara, Clarke and Rikaby (Stonyhurst Series).  
 Second Year—Special Metaphysics, including Cosmology, Psychology and Natural Theology, Zigliara and Maher (Stonyhurst.) Ethics: Zigliara, and Rikaby (Stonyhurst).  
 Christian Doctrine—Schouppe.

By arrangement with a business firm in town, most of these text books can be supplied at short notice by the College. Others are imported direct from the publishers for the benefit of students.

Special attention is given to English, the Classics, particularly Latin, and to Philosophy; nor are the Sciences, so-called, by any means neglected. The two professors in Philosophy are graduates of the Propaganda College, Rome, as are also the professors of the higher Classics. Elocution and some other subjects are very well taught by a graduate of the well-known Jesuit College, Boston, Mass., whilst the professor of Chemistry and Botany made his Science course at the Universities of McGill and Harvard. The studies in the lower classes are adapted to the needs of young men wishing to prepare for commercial life.

There are three classes receiving instruction in Christian Doctrine. Once a week an hour is given to each class separately and on Sundays all assemble in the College chapel to hear a discourse from one of the Reverend Professors. To permit of greater freedom in the choice of studies and to avoid more easily conflicts between one lecture and another, it has been found expedient to have class work begin with 8.30 a. m. and close at 4. p. m., there being an intermission of an hour and a half at 12.30 p. m.; but unless in exceptional cases no one will be required to attend class more than five hours each day.

The year is divided into two sessions, the first ending January 31st, and the second with the close of the year. At the end of each session there will be a written examination. One will begin early in January and will be known as the Sessional Examination; the other will begin in June and will be the Terminal Examination. Upon the results of both these examinations promotion at the end of the year will depend. To secure a pass into the next year an average of 50 per cent. on the papers set at both examinations must be made. No less than 50 out of a possible 100 may be made in English, Latin, Christian Doctrine and Philosophy, nor less than 30 in any other branch.

## ADMISSION.

Applicants for admission not personally known to some member of the Faculty must bring a certificate of good moral character from a responsible person. Students are admitted at any time during the year, but those coming late are placed at a serious disadvantage, besides being a hindrance to the progress of others. Parents are therefore requested to send their sons in time to begin study on the day set down in the Calendar.

In connection with the College there is a High School department into which pupils are admitted from the common schools, but they must be sufficiently advanced to take up the work usually done in the first year of the Provincial High Schools. For the year 1896-7 there will also be a class of pupils in the College doing the work of Grades VII. and VII. of the common school course of this Province.

## MATRICULATION.

To be admitted as an undergraduate in Arts a Matriculation Examination must be passed of which the following is a syllabus:

**LATIN:** Grammar, Morphology and Elementary Syntax, Composition as in Arnold's Latin Prose Composition to Ex. 30. Cæsar, Gallic War, Book I.; Cornelius Nepos, (for 1896-7) Aristides and Miltiades). Or any equivalent work.

**GREEK OR FRENCH:** Grammar and easy sentences, as in *Initia Græca* Part I., or *French Principia*, Part I.

A Senior class in Christian Doctrine is taught on Thursday. There are also classes in Elocution, Shorthand and a few other subjects not represented above.

**MATHEMATICS:** Arithmetic entire; Geometry, Books I., II. and III. and exercises at end of Books I. and II.; Algebra to the end of Simple Equations.

**ENGLISH:** Grammar, Parsing and Analysis of Sentences, Composition, Elementary and Advanced as in Dalgleish. Short Essay and Critical Study of an Author announced from year to year (for 1896-97 Goldsmith's Deserted Village).

**HISTORY:** British and Canadian.

**GEOGRAPHY:** Canadian and General.

**CHEMISTRY:** As in Williams'.

**CHRISTIAN DOCTRINE:** As in Schoupe. Part second or an equivalent.

The examination will be held in June of each year. A certificate of successful examination on a syllabus equivalent to the above, will exempt from the College Matriculation, provided the candidate made the marks on each subject required by the College standards. The standards for Matriculation are the same as those for a pass at the Terminal Examinations. See page 13. The standards for Undergraduates intending to take Degrees are higher, as is seen below.

## DEGREES.

Undergraduates of good character who complete the course are entitled to the degree of B. A., provided they make an average of not less than 60 per cent. at the Sessional and Terminal Examinations of each year, and make no less than 60 out of a possible 100 in Latin, English and Philosophy, not less than 50 on Christian Doctrine, nor less than 40 on any other subject of the course. In the fourth year a choice is granted between the Mathematical and Scientific subjects, but those who take advantage of this option must make at the last preceding Sessional

and Terminal  
Subjects.

A Bachelor of Arts of at least five years' standing, and of good reputation, who produces a thesis satisfactory to the Faculty on a literary, scientific, or philosophical subject, is entitled to the degree of M. A. Applications for degrees must not be made later each year than May 1st. Applications should be accompanied by the fee for the diploma. Should a candidate be unsuccessful at his examination his fee will be returned.

All Students not qualifying the Academic Department for a participation in the Government Grant to County Academies are charged tuition. Outside boarders not chargeable with tuition for the Academic portion of their studies, will be charged at one half the regular rate per month for tuition in the Collegiate subjects.

A persistent indulgence in tobacco chewing within College buildings may entail an extra weekly charge upon students so indulging.

Charges are payable at the beginning of each session, i. e., in September and February. The College will not undertake to provide for the current expenses of students unless a sum is placed for that purpose on deposit in advance with the Rector. The

Rector, to supply the neglect of parents or guardians in this particular, may draw on them at sight in advance for a sum considered to be sufficient. Parents are recommended not to give pocket money to their sons. The College Bursar will supply what is necessary. The College will not hold itself responsible for moneys not deposited with the Rector or Bursar.

In preparing their outfit Students should not forget a good supply of Stockings (half a dozen pairs), of pocket handkerchiefs (a half dozen), and of towels (three). An overcoat, a pair of overshoes and two pairs of rubbers will be necessary during the fall, winter and spring months.

### DISCIPLINE.

The discipline of the College is so tempered, that whilst opportunity is afforded for the development of a sense of personal responsibility, no one is allowed to so abuse his opportunities as to waste his own time or be an obstacle to the well being or progress of others. Habitual infringement of discipline, profanity, or immodesty of language, or the introduction and use of intoxicating liquors lead to expulsion. Damage done by students to College property is chargeable to their account.

All reading matter intended for Students must be submitted to the Vice-Rector for approval. Letters, whether sent or received, are subject to the inspection of the Rector. Day scholars are forbidden to perform errands of any kind for boarders. Parents wishing to call home their sons are requested to communicate directly with the Rector.

Day scholars when late for class or after absence from class must bring a note of explanation from parents and present it to all their teachers from whose classes they absented themselves. Prefects will take the place of parents in the case of boarders. Punctuality in attendance upon classwork and lectures is made to

### THE LIBRARY.

The Library consists of over 2,900 volumes. Over fifty years ago a student named John Ryan, of Halifax, died in the Propaganda College, Rome. In his will he bequeathed his property to the Church in Nova Scotia, and after the division into two dioceses, that of Arichat received its share of Ryan's bequest, part of which was a large library purchased in Rome. The present College Library is in great part made up of the Ryan collection; but both Bishop McKinnon and Bishop Cameron contributed from their own libraries many valuable works. The late Rev. Alexander McLeod, of Arisag; Rev. John V. McDonnell, St. Andrew's; Rev. John Quinan, of Main-a-Dieu, and Rev. John McDougall, Red Islands, also bequeathed their Libraries to the College.

With the formation of the Association of Alumni a new era has opened for this department of the College. Each alumnus promises to contribute yearly or induce somebody else to contribute something to the library or to the museum, or for the maintenance of the outdoor and indoor sports. The following is a list of works procured during this year with the sources from which they came:

### SOURCES OF REVENUE.

The revenue of the College is derived from an Endowment Fund, from tuition, and from occasional donations. The Academic Department receives the usual grant according to the average attendance. Were it not for the self-sacrifice of the Reverend Professors, who, besides their board, receive little more than a nominal salary, the revenue from the above sources would be insufficient to meet expenses. The College is now engaged in extensive building operations, rendered necessary by want of sufficient kitchen and infirmary accommodations and by a change in the kitchen management. The kitchen and infirmary were completed last fall and have already proved valuable additions.

The dwelling

The dwelling house for the Sisters of St. Martha, who will, next summer, assume the management of the domestic affairs of the College, is in process of construction. \$20,000 will scarcely cover the cost of putting up, heating and furnishing these buildings.

The cash donations for the year were :

#### FOR THE BUILDING FUND.

\$8.00 by Duncan Chisholm, Esq., Salt Springs.

#### FOR THE LIBRARY.

\$5.00 by A. G. Hamilton, Esq., North Sydney.

4.00 by a lay friend of the College.

#### FOR THE LABORATORY.

\$6.00 by Rev. A. McDonald, D. D., to buy a balance.

5.00 by Rev. John McNeil, Iona, C. B.

1.00 by a friend.

#### FOR MEDALS AND PRIZES.

\$11.00 by A. J. G. McEachen, Esq., Sydney, C. B.

10.00 by Dr. Huntly Macdonald, Antigonish.

10.00 by Dr. C. W. McDonald, Roxbury, Mass.

5.00 by Very Rev. James M. Quinan, D.D., V.G.

5.00 by Rev M. Mackenzie, P. P.

5.00 by Alex. Johnson, Esq., Bridgeport.

Senator McDonald gave his annual medal for the graduating class. Medals were also presented by Prof. Macdonald of the Normal School, by Professors Horrigan, Tompkins, by Father MacAdam, Father Doyle, Professor Connolly and Dr. McDonald of the College. Father Mombourquette, Thorburn, offered valuable books for competition.

Several prizes have already been contributed for 1897, notably two gold and silver medals and some valuable books by A. J. G. McEachen, Esq., Barrister, Sydney, and a silver medal by Judge Ritchie, St. John, N. B. The conditions under which these

prizes will be competed for will be found at the end of the prize list. The College has to thank those who thus generously contribute to the success of its work and assist in making its closing exercises more interesting and impressive.

In 1886 the late Very Rev. Neil MacLeod, P. P., East Bay, C. B., gave to the Governors of the College \$4,000.00, the interest thereon to be used in perpetuum in educating young ecclesiastics for the Diocese of Antigonish. This was the first Bursary established in the College. The first priest educated on the proceeds of this Bursary was ordained two years ago. In December, 1892, A. G. Hamilton, Esq., Collector of Customs, North Sydney, placed at the disposal of the Governors of the College \$2,000 for a Bursary in memory of his son, Charles F. Hamilton, the proceeds being intended to educate deserving young men for the Priesthood. This Bursary will be known as the C. F. Hamilton Memorial Bursary Fund.

A partial Bursary was established during the course of the year just closed by Miss Catherine Fitzgerald, Linwood, Antigonish County, to assist in the education of young persons.

## TERMINAL EXAMINATIONS.

JUNE, 1896.

### PASS LIST.

(The figures refer to the rank taken by Students in their various classes. Those whose papers were valued at 85 per cent. or upwards are marked in the first rank. Papers valued at from 75 to 85 per cent. secure the writers a second rank, and those valued at from 65 to 75 a third rank. It is to be observed that in making out this pass list the standards referred to are not those for undergraduates preparing for degrees, but for those who wish to make the course without graduating.)

Many valuable books donated to the college or purchased with money given for the purpose were offered as prizes where no medals were at hand. The names of the contributors in this connection may be seen by reference to the section on the revenue of the College. Especial attention is directed to the following announcement of prizes for 1897:

A. J. G. McEachen, Esq., Barrister, Sydney, C. B., offers two gold and two silver medals to be awarded as first and second prizes under these conditions: (a) A gold and silver medal for the best papers in Mechanics, Chemistry and any one of the following at choice of the College Faculty, Euclid (six books), Trigonometry (as in Todhunter for beginners), or Algebra as in Hall and Stephen's, to end of the Theory of Quadratics. The Faculty have chosen Algebra to go with Mechanics and Chemistry. These two medals will be designated the McEachen "Science Medals." (b) A gold and silver medal for the best historical, philological and critical essay on any one of three plays of Shakespeare, i. e., *Julius Caesar*, *Hamlet* and *Merchant of Venice*. This medal will be designated the McEachen "Shakespeare" medal. Examinations for both medals will be held some time in May, 1897. The points upon which the "Shakespeare"

essay will be written are to be prepared by Mr. McEchen himself, subject to the approval of our College Professor of English Literature, and the papers are also to be examined and marked by him. The questions put will be as searching as those for first B. A. in the examination on English Classics at the London University. Candidates for the medals must be prepared for questions on any of the three plays mentioned, but the examination will only cover one.

To encourage the study of Botany, Mr. McEchen also offers three prizes for three successive years, to be awarded at the discretion of the Faculty.

Judge Ritchie, of St. John, N. B., has put at the disposal of the Faculty a silver medal for the highest aggregate in English, Latin and Philosophy, third year. The College is exceedingly grateful for these contributions to its prize list, and would respectfully solicit further assistance in this way from its many friends.

Alexander MacNeil, Esq., B. A., Barrister, Halifax, N. S., having written a Thesis satisfactory to the Faculty and fulfilling the other conditions required in the premises was awarded the degree of Master of Arts. The Faculty would respectfully direct the attention of graduates to the stimulus to study after graduation afforded by the degree of M. A. Essays for this degree should give evidence of original research, should show a perfect ease in the use of the English tongue, and a scholarly clearness and force in the treatment of the subject selected. It would be well for candidates for M. A. to consult the Faculty on the choice of subject, before writing for the degree.

## Alumni Association.

The fourth meeting of the Alumni Association was held in connection with the closing exercises of the College as usual. The President of the Association, Senator MacDonald, Little Glace Bay, C. B., presided and delivered the opening address. In the course of it he drew attention to the praiseworthy manner in which members of Protestant denominations throughout the Maritime Provinces united upon and rallied to the support of one central institution, and pointed to the magnificent donations to their own institutions made by some of them. He would be glad to see a like union and a like spirit prevailing among Catholics.

The changes in the bye-laws, for the proposing of which notice was given at the last meeting, were adopted. Henceforth the meeting of the Association may be called upon any of the College closing days or upon any day the Executive Committee may choose.

A resolution of regret at the death of two members of the Association, Doctor Alex. J. Chisholm, Antigonish, and Doctor Hugh MacPherson, North Sydney, was unanimously passed.

The usual supplement to the salary of the Professor of Eloquence and Music was again voted.

The following are the officers for next year :

Alumni Governors — A. G. Hamilton, Esq., North Sydney, C. B. ; A. G. McDonald, Esq., Normal School, Truro.

President of the Association — Senator MacDonald, Glace Bay, C. B.

Vice-Presidents — Rev. L. J. Macpherson, P. P., Descousse ; P. A. MacDonald, Esq., M. D., Hawkesbury.

Executive Committee—The President, Vice-Presidents, Secretary and Rev. Alex. L. McDonald, P. P., Hawkesbury; A. J. G. McEchen, Esq., Barrister, Sydney. C. B.; William McPhie, Esq., Barrister, Antigonish; W. Huntly Macdonald, Esq., M. D., Antigonish; Alex. Johnstone, Esq., Bridgeport, C. B.; James J. Tompkins, Esq., Margaree, C. B., John MacDougall, Esq., Sydney, C. B.

By an act of the Local Legislature in 1894, the Association was incorporated and has all the powers usually vested in corporations of its kind. The Association has already done much good for the College, but its usefulness has only begun. Among the steps taken at this year's meeting to benefit the College, was the appointment by the Executive of a Committee taken from among the members of the Association to report at its next annual meeting as to the best means of enlarging the usefulness of the College and extending its influence. The Committee numbers nine as follows:

Right Rev. N. McNeil, D. D., Bishop of Nilopolis; Very Rev. James M. Quinan, D. D., V. G., Arichat, C. B.; Revs. A. MacDonald, D. D., D. A. Chisholm, D. D., A. Thompson, D. D., College, Antigonish; Senator MacDonald, Glace Bay; Prof. A. G. MacDonald, Truro; Charles V. de Bury, Esq., St. John, N. B.; Alex. MacNeil, Esq., Halifax, N. S.

On the morning of the 12th the Committee met and appointed Drs. D. A. Chisholm and Alex. Thompson, both of the College, Chairman and Secretary respectively. The Committee is empowered to hold meetings, conduct correspondence and elicit all information necessary for making an exhaustive report to the Association.

Subjoined herewith is the programme for the evening of June 11th and morning of June 12th.

## PROSPECTUS.

This institution was founded in the year eighteen hundred and eighty-three, by the Right Reverend Dr. Cameron, Bishop of Antigonish. It is under the direction of the Sisters of the Congregation de Notre Dame, whose chief centre and Mother House is at Villa Maria, Montreal.

The location and healthful surroundings of St. Bernard's secure for it every sanitary advantage. Tennis courts, croquet lawns and the many beautiful walks in the vicinity of the town, afford facility for agreeable exercise in the open air.

During the past year two new wings were added to the original building. They are fitted up with every accommodation conducive to the pupils' health, comfort and convenience. The entire building is heated with hot water, thoroughly ventilated, and well furnished with bath-rooms. It is also provided with fire escapes of easy access and perfect security.

The class-rooms are furnished with all the improvements and appliances requisite in a modern course of study. A select library is used for reading matter and for reference; and the valuable philosophical and chemical apparatus, belonging to the laboratory of St. Francis Xavier's College is at the disposal of teachers and pupils in illustrating lectures in Physics, Chemistry and Botany.

## TERMS OF ADMISSION.

Payments for each session should be made in advance. Pupils are received at any time during the year, but parents and guardians are earnestly requested to send their daughters or wards at the very opening of the term. The loss of the introductory lessons places pupils at a very serious disadvantage for the rest of the term and materially retards their progress.

Those who wish clothing, books, music, etc., provided by the Institution must deposit a sum sufficient for the purpose with the Mother Superior.

## COURSE OF STUDY.

The Course of Study is divided into three parts: Elementary, Intermediate and Senior.

### ELEMENTARY COURSE.

The Elementary Department embraces four classes. In these classes, instruction is given in the following subjects:

Christian Doctrine, Reading, Writing, Linear Drawing, Language, Recitations, Spelling, Arithmetic, Sacred History, Location or Geography, Hygiene Object and Information Lessons, Word forms or Grammar, Sewing, French, Calisthenics, Singing, Politeness.

### INTERMEDIATE COURSE.

The Intermediate Department embraces three classes in all of which instruction is continued in the branches begun in the Elementary Department. In addition to these, History, and the elements of Book-keeping, Algebra, and Geometry are taught.

Information Lessons now develop into a study of the rudiments of the Natural Sciences.

### SENIOR OR ACADEMIC COURSE.

The Senior Department consists of four classes. The pupils who enter this department have learned to prepare abstracts of subjects already studied. They have acquired habits of obser-

vation and are

vation and are able to judge with some discrimination. By Information Lessons they have obtained a fair knowledge of the classification of animals, plants and minerals, and are thus prepared to make a more thorough course in the Natural Sciences.

The study of Christian Doctrine, systematically continued throughout the entire course, here produces a fuller insight into the Grounds of Faith and the effects of Christian Morals upon society.

The Mathematical Studies are still pursued, with a view to strengthening the reasoning faculties.

The proficiency in English already acquired, admits in this advanced department of a more comprehensive study of its leading Authors. Lectures on English Literature are given three times a week by a Professor of St. Francis Xavier's. French and Latin are imperative for graduation. Greek is optional. The Classics, Physics and Chemistry, are taught by Professors from the College.

The scholastic year is divided into two sessions of five months each. The first session begins the first Monday of September and ends January thirty-first. The second begins on February the first and terminates with the Commencement Exercises in the last week of June. A written examination upon which future classification will largely depend is held at the end of each term.

---

## GRADUATION.

Pupils whose conduct and application have given satisfaction during the entire course will receive at the end of the fourth year of the Senior or Academic Course, a Certificate of Graduation or Diploma, provided that after entering the Senior Course they make an average at each Sessional and Terminal Examination of 50 per cent. on all the papers set, and go below 30 per cent. in

no subject, nor below 50 in English; and that in the terminal examinations of the last or fourth year they make an average of 60 per cent., and do not fall below 60 in English, nor below 50 in Christian Doctrine, nor below 40 in any other subject.

Strangers placing pupils at the Academy are in all cases required to give satisfactory reference.

Letters written or received by the young ladies are subject to the inspection of the Mother Superior.

Each pupil's wardrobe should be marked in full.

In addition to a plentiful supply of linen and clothing suitable for the different seasons, each pupil should be provided with a blouse waist of blue flannel for Calisthenics, a dressing jacket, towels, a toilet set consisting of brushes, combs, soap, and tooth powder; a table set consisting of knife and fork, spoons, a napkin ring, and table napkins; also a work-box furnished with all the requisites for sewing, mending and darning.

A plain black costume is worn on Sundays, and a white dress is required for Commencement Exercises.

In accordance with the spirit of the Congregation de Notre Dame, the aim of each teacher is to form her pupils to habits of order, economy, and simplicity and to inculcate that love of labor and that Christian devotedness which make and mark the true woman.

As the Sisters consider themselves conscientiously bound to do all in their power to secure the physical as well as the mental and moral well-being of those entrusted to their care, special attention is paid to the health of their pupils. Should a pupil be taken seriously ill, the services of a physician are secured and immediate information is given to parents.
