To Resume Relations With Soviet Russia

WANTED TO BURN THE TAX RECORDS

Design of Heavy Attack on Dublin Offices

Ten Wounded in Severe Fighting—Raiding Parties Supported by Snipers on Roofs—Girls With Petrol and Revolvers.

(Canadian Press.) Dublin, Feb. 22.—There was heavy fighting again in Dublin yesterday. An attack carried out by irregulars in the heart of the city was the most daring for a long time. It evidently had been carefully planned and was aimed at embarrassing the Government by destroying the income tax records.

Eventually the attacking forces were driven off, and last night the casualty list was estimated at about 10, all wounded. It is said no one was killed. Under the British administration, citizens were advised to withhold payment of the income tax, and there are therefore now large stores, which by the Anglo-Irish treaty, were to be the property of the Free State Government.

Optimistic Tone in Speech From Throne

(Continued from page 1.)
Highway construction came in for complimentary reference. The tourist traffic, also, was mentioned as a matter to which the government should lend itself.
C. N. R. Matters.
Regarding the recent creation of the eastern division of the Canadian National Railways, the LL-Governor said that although this may simplify, it will not solve the question of freight rates so adversely affecting commercial and industrial interests of the Maritime Provinces. "The Government intends to enlist the co-operation of the Government of New Brunswick and Nova Scotia with the view to securing united action to preserve and protect our interests," he said.
Redistribution.
"I share in the feeling of regret and disappointment that under the measure submitted to the Parliament of Canada for the decennial readjustment of representation in the House of Commons under the provisions of the British North America Act the number of seats for the Maritime Provinces is reduced, and our influence in the federal parliament to that extent impaired. Your attention will be directed to this important matter for the purpose of taking such action as may seem appropriate in order that the proposed reduction may if possible be obviated, and further, that a fixed representation from Nova Scotia in connection with the Maritime Provinces may for the future be assured."
Proposed Legislation.
"You will be asked to consider legislation for the adoption of a liquor license system for offenders against provincial laws; for conferring exclusive civil and criminal jurisdiction on provinces of action in cities and towns; for the administration of criminal justice in certain cases; for the appointment of fugitives from justice; for the expediting and lessening of costs of litigation in certain cases; for the regulation of the operation of motor buses; for the incorporation of villages for special purposes; for the Motor Vehicle Public Service Act, the Motor Vehicle Act, the Towns Incorporation Act, the Power Commission Act and other public bills."
It is satisfactory to find that a credit balance will be shown in the public account of the province for the fiscal year.
Since the legislature last met the Government has undergone a complete change of personnel in its portfolios, with the exception of that of Premier and Public Works, which is retained by Hon. E. H. Armstrong but who has added the responsibilities of Premier to his portfolio. Hon. George H. Murray, who for upwards of twenty-seven years led the Government, will not even be present in the House of Commons at his seat in Victoria in addition to the Premiership. His seat will make up the vacancy in the Government party to twenty-eight, faced by an Opposition of seven Members.
Hon. Mr. Armstrong will not be uninitiated in the task of leading the Government. He has been a member of the House of Commons for upwards of twenty years. He is a member of the Government party to twenty-eight, faced by an Opposition of seven Members.

MILK AND CREAM PASTEURIZATION

Ottawa, Feb. 22.—Speaking at the annual banquet of the National Dairy Council of Canada here last night, Hon. W. R. Motherwell, minister of agriculture, impressed the necessity of the industry adopting pasteurization of milk and cream, more property controlled and operated cold storage and ice-plant marketing in the dairy industry, if Canada is to wrest back from New Zealand the supremacy which the latter country has gained in the British markets.
He said that western butter is preferred in Great Britain to butter from the eastern townships, not for the reason that it was made by superior dairymen, but that superior methods had been used in its manufacture.

DIGS OWN GRAVE AND TRIES SUICIDE

Grave Digger, Despondent, Fails to Take Life—Badly Injured, However.
Philadelphia, Feb. 22.—Despondent over a separation from his wife, Eugene Merkle, a grave-digger, yesterday dug his own grave beneath a tree in a cemetery, and then climbed the tree, and attempted to commit suicide by hanging. The rope which he used as a noose was not strong enough, however, and Merkle dropped into the grave. He was found unconscious two hours later and taken to a hospital, where it was said that both his hips had been broken.

HORTICULTURAL ASSOCIATION ELECTS OFFICERS

Selection of annual reports and election of officers for the ensuing year occupied the time at a well attended meeting of the St. John Horticultural Association yesterday afternoon in the Board of Trade rooms. Reports presented were of a very satisfactory nature. The officers elected were: President, Hon. W. H. Thorne and Joseph Allison; treasurer, Judge J. R. Armstrong; secretary, A. B. Deane Gandy; and H. W. Emerson. Committees on finance, park management, park attractions, grounds and gardens were appointed.

MARITIMES SEND STRONG PROTEST

Want to be Represented on Canadian Olympic Committee.
(Halifax Chronicle.)
Vice-President A. C. Millie, of the M. P. B. A. U. of C., must have the name of the Maritime Provinces put on the list of the Maritime Provinces represented on the recently formed Olympic Committee, or the consequence would probably follow.
Mr. Millie has been through the Maritimes on a business trip recently and has been with the Olympic committee through the province that the Maritimes should be represented on the committee by the Maritime Provinces. He was found unconscious two hours later and taken to a hospital, where it was said that both his hips had been broken.

Mae Edwards Starts 4th Week At Queen Square

Last evening at the Queen Square Theatre Miss Edwards started her fourth week and the offering, "The Broken Road" scored a success. Miss Edwards has won the hearts of the theatre-going public and the cozy play has been a great success. Jack Verney Corbin was seen at his best in last night's play, and patrons are waiting for his master play, the first half of next week, "Daddies." Mr. Crawford, one of the most popular comedians visiting St. John in a long time, scored heavily. While Mr. Murray can always be counted upon and his many roles have won him numerous friends. Miss Riggs, recalls the days of Maggie Cline as a character comedian, while Miss Fischer in the Ingene roles, looks the part. The vaudeville was especially good. Strongheart, a special added attraction, with his exceptional bicycle act was a real hit. His offer of \$25 to

NEW LAMP BURNS 94% AIR

Beats Electric or Gas. A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 88 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (cool oil). The inventor, O. K. Johnson, 246 Craig St., W. Montreal, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

England Drinking More Tea. England is the greatest tea-consuming country in the world. Recently her annual requirements have greatly increased, due to a largely increased consumption. This stronger demand, coupled with the serious shortage in the tea crop this year has caused tea prices to soar. We are feeling the effect of this condition in Canada, as the Salada Tea Company, the largest tea concern on the continent, has recently been forced to raise the price of all their blends, in order to maintain the quality in "Salada" that has built their business.

CHURCHES NEED WIDER HORIZON, SAYS DR. GRANT

Economics, Not Theology, a Minister's Most Fertile Field, He Adds—Fruitful, Avers Bishop.

(New York Tribune.) While Bishop William T. Manning was asserting that theology and doctrine were not as essential to the work of the gospel as belief in Christ, Dr. Percy S. Grant, three blocks away, in telling his congregation in the Church of the Ascension, Fifth Avenue, that importation of liquor into the Province for export purposes be stopped as made possible by recent

Dr. Grant expressed gratitude to the newspapers of the country for the intelligent manner in which the matter had been treated. He had been surprised to find, he said, that comment which indicated a narrow attitude toward religion had been confined largely to the smaller towns, where newspapers are controlled usually by the "interests" that control the town.

Also on the Montreal train three went away P. J. Hennessy, Wm. O'Hare and Wm. Ryan of Lake Placid, and the great success of their skaters at International.

HALF MILLION INVOLVED IN BRAVES DEAL

New York, Feb. 22.—The deal by which a New York syndicate, headed by Charles Mathewson, on Tuesday purchased the Boston National League Club from G. W. Grant, involved more than \$500,000, it was disclosed yesterday by James McDonough, who is also interested in the deal.

Cleveland Release "Stuffy" Cleveland, O., Feb. 22.—The unconditional release of John "Stuffy" McInnis, veteran American League first baseman, was announced today by the Cleveland baseball club. McInnis was obtained several days ago. The probabilities are that McInnis will go to the Boston Braves.

Hot Springs, Ark., Feb. 22.—Babe Ruth will have a partner of his own kind when he resumes operations on the golf course here. He was forced to start out alone, but later in the day Everett Scott, the Yankee shortstop, arrived at the Springs and challenged him to a series of matches for the championship of the local links. Another addition to the baseball colony here was Pitcher Phil Bedgood of the Cleveland Indians.

Scott and Ruth's golfing clothes arrived on the same train. Ruth promptly prepared for the links, and half an hour later, while Scott was still unpacking, the great hitter was driving off for his first round of golf since the world's series last fall. He played one round in the morning and another after luncheon, and was ready to call a day by the time he returned to the hotel.

Scott spent the winter at golf, fishing and basketball. Immediately after his return to his home in Auburn, Ind., last fall, he went to Wisconsin for a month's fishing, and when the fish had quit biting he joined a professional basketball club, playing three games a

A WORLD-WIDE PROBLEM.

The reader of the newspapers is impressed daily by the fact that there is a very deep and universal interest in the question of prohibition. In New Brunswick a vigorous campaign to enforce the law has just been inaugurated. In Quebec a French-Canadian Journal has hurled defiance at any who would dare attempt to impose prohibition on that province from the outside. In Ontario an effort is to be made in the legislature to relax the provisions of the law. In Manitoba that question is to be submitted this year to a vote of the people. In another prairie province export of liquor has been made illegal, and Prince Edward Island has voted for similar action, which the friends of prohibition in New Brunswick want taken here also. A country-wide organization to work for national prohibition in the Dominion has just been organized. In the United States no question is more discussed. In England a measure calling for total prohibition has been introduced by Mr. Strydom, member for Dundee, Scotland, with the support of several Labour members; and Mrs. Astor has introduced a bill relating to the sale of intoxicating liquor to young persons. That the question of prohibition should even be able to get itself into the British House of Commons is a notable sign of the times. A campaign in favour of prohibition is to be opened in Scotland in November. Everywhere the question commands more and more attention, and will continue to do so for years to come.

An interesting recent development is the growth of public sentiment in favour of treating all alike in the matter of liquor. It has been notorious that numbers of persons of standing in every community have regarded themselves as above the law. A lesson was taught this class in New York recently when four brothers who were social prominent were not only fined but sent to jail for infraction of the law. The court-room was crowded with their friends, eminent counsel made moving appeals, and the affair was quite the sensation of the day; but the brothers were sent to prison. A condition that would let them escape was well described by the court prosecutor as "alcoholic anarchy." To gallop down the street in a motor car and let the higher-up go free would be to make a mockery of justice. The Toronto Globe offers some very appropriate comment when it says:

"Probably the majority of those who shed sympathetic tears belonged to the circles of fashionable people who have made a jest of the law in speech and practice, and have regarded themselves as being protected by their social position against the consequences. The imprisonment of some of them was an overdue and much-needed lesson. And New York is not the only place on the continent where law-breakers in high places need to be taught that they are not a bit better than the lowly bootleggers whom they patronize—and despise."

In his address before the Canadian Club of this city on Tuesday evening Canon Armstrong made some very pointed remarks about the proper attitude of every citizen toward prohibition—whether she will stay or come in.

Canada is looking to South America for markets and a larger trade. It is most desirable that she get into close touch with all the countries embraced in the Pan-American Union. The way is open. Undoubtedly the Government at Ottawa will see the advantage to be gained by joining the Union.

St. John is to become a better lighted city. It means a great deal. Prof. Drisko enumerated some of the benefits of illuminants and illumination in an address before the Society of Arts in the Boston School of Technology last week. He declared that "lights in dark parts of certain cities would do more to suppress crime than three times the present number of policemen." Other remarks he made are thus summarized: "Better lighting, furthermore, stimulates clean habits of living, eliminates imperfect sanitary conditions, cuts down the number of accidents in industry and everyday life and increases industrial production in both quantity and quality. He pointed out that proper lighting has a particularly great economic value in keeping men at skilled occupations for a longer period, due to lesser eye strain, than prevails under improper conditions."

CANADA SHOULD JOIN.

Mr. John Barrett started something when he announced at a Canadian Club luncheon in Toronto that Canada would be invited to join the Pan American Union. The matter is all that is required to qualify Canada for membership is a diplomatic representative at Washington. An Ottawa despatch last night said that Mr. Barrett had gathered from an interview with Premier Mackenzie King that that matter would shortly be adjusted. The New York Tribune thus explains the situation:—"The proposition made by Uruguay for the creation of an American association of nations provided for the admission to that group of any American country having a diplomatic representative at Washington. The right has been conceded to Canada to send such a representative to the United States, but no permanent agent with full diplomatic status has yet been appointed. As soon as one appears Canada will have virtually qualified for membership in the Pan-American Union and in any other association of American governments."

The Union meets next month in Santiago, Chile, and a move in respect to Canada will doubtless then be made. The Tribune further says:—"There can be no question about the desire of the other nations to see Canada take her seat in the Western World. Mr. Barrett pointed out that his Toronto friends that the Dominion is the first American country in area, the second in commerce and the fifth in population. She ought to have a voice in an organization which is laboring for political and economic co-operation in this hemisphere and for the common good of all the Western people. It is not a mere rhetorical statement that a chair bearing the Canadian coat-of-arms is awaiting the first Pan-American delegate to the Pan-American Union. Mr. Barrett says that such a piece of furniture was designed and constructed under Elihu Root's orders, and is now in storage in Washington. Canada's escutcheon also has been placed on the cornice of the patio of the Pan-American Building, along with escutcheons of the United States and twenty Latin-American nations. A hospitable reception has been prepared. It rests now entirely with Canada whether she will stay or come in."

YOLANDA ASKS GIFTS BE TURNED OVER TO CHARITY.

Rome, Feb. 22.—Princess Yolanda, hearing of the intention of many persons to send her expensive gifts on the occasion of her marriage to Count Carlo Di Bergolo, has expressed the desire that all sums destined for this purpose be diverted instead to charitable enterprises. Representatives of all the European courts will be present at the wedding, which will occur about the end of May.

WHAT'S WHAT

FISH.

Fish, used as the principal dish so frequently at this season, is dangerous, unless one is careful to remove all the bones. It is quite easy to separate the edible morsels on the plate, using a fishhook held in the right hand. Remember that every kind of fish requires some sauce to make it palatable. The fish, or portion thereof, is served separately, with its accompaniment of maitre d'hotel sauce (lemon butter, garlic, uncooked). Boiled fish is tasteful without any sauce, such as sauce hollandaise, creamy drawn-butter sauce, with chopped hard-boiled eggs and capers, or oyster sauce, well-seasoned. Parsley is a desirable addition to any fish sauce. Flaked shad is a notable sea-food delicacy, but any large fish may be prepared in the same way. Lacking an open-hearth grill, the fish is oven-baked on a board and served with a decorative border of mashed potatoes. (Copyright, 1923, by Public Ledger (Company).)

THE WINGED VICTORY OF SAMOTRACE.

(By Agnes Joyous.)

One day a sculptor, highly gifted in the gods art, conceived a beautiful Embodiment for Victory. As soon, his chisel was at work creating life in stone. Forth from a block of marble, there rose a form which made the hearts of all Beholders leap with joy. 'Twas pulchre, yes, and mighty strength. It radiated life and mighty strength. 'Twas soulless, yet the soul of Heaven. Reflected there. A figure motionless while its marble pinions seemed to cleave the hearts of all. The air about it swirled all obstacles aside. The marble eyes flashed with a high resolve.

NOTABLE WILL RECALLED.

(Occasional in Halifax Recorder.) "Occasion" is a higher, and more dignified name in a letter by C. E. Smith, last week published extracts from the will of the late John P. Mott. Mr. Smith, in his letter, also mentioned the will of the late George Wright, who was a well-known citizen of Halifax, and who left his life in the "Titanic" disaster, April 15, 1912. The will of Mr. Mott, as should be thoroughly examined, and we do not expect that doing that which is best for the Western shipper and the National Railways as a whole.

THE ALL-RAIL ROUTE.

(Toronto Globe.) Toronto people may be shocked or gratified by the Board of Trade, Cochrane and a newspaper in that town expressing a preference for the Montreal route of the Transcontinental Railway. "Anywhere but Toronto," seems to be the slogan, and we wonder what we have done to arouse this prejudice not only in other provinces but our own, and to make an Ontario community feel for relief even to far-away New Brunswick. But there may be a reason for the Cochrane protest which need not cut us to the heart. Toronto is the headquarters of the Canadian Northern Railway, whose chiefs would be naturally eager to turn to much traffic in this direction as possible rather than let it go by the main line of the Transcontinental Railway. But the conditions have changed. The Transcontinental and the Canadian Northern are no longer rivals, but partners. It is the Toronto headquarters will be bound to look to the interests of the whole of the Transcontinental in the Toronto district will make it imperative that the advantage of that line shall be fairly considered.

NO MORE CHAUFFEURS.

(Ottawa Journal.) The doctrine of the dignity of labor has many champions, but which one of the oral variety. Down in New York, however, the thing has taken a practical turn. The drivers of private automobiles in New York have banded together for the abolition of the term chauffeur. They have formed themselves into an organization known as the Society of Professional Automobile Engineers. Henceforth they will not respond when addressed as chauffeurs. They are automobile engineers. Further to establish their dignity the automotive engineers have opened for themselves one of the most elaborately appointed clubs in Manhattan and the other day they honored their employers by entertaining them at it. It is to be understood that the drivers of automobiles are not to be known as automotive engineers. The term is reserved to those who drive private cars. But the word chauffeur passes from the dictionary. Drivers of taxicabs and those who are called simply automobile drivers.

A NEW SANATORIUM.

(Border Cities Star, Windsor, Ont.) After nearly a three-year intermission, due to the fire of April 20, 1920, the Essex County Sanatorium for the care of tuberculosis patients will be re-opened Monday. The new institution on Prince Road, Sandwich, is bigger, better and more efficient in every way than the one at Union-on-the-Lake which burned. It happens most often that way, namely that the public spirit which must always be behind such an institution. Fighting the white plague is a community duty. There was when tuberculosis was a dread scourge against which science was helpless. But now, yet, but research has shown that much can be done, if the disease is taken in time. In the way of good food, rest, and a little fresh air. These things are costly, tuberculosis is most apt to strike those who can afford such a cure. That is why public-spirited sanatoriums are needed. The good ladies who have, for many years, formed the backbone of the Essex Health Association, are to be congratulated that they have done for the community.

A BUSINESS SECTION CHURCH.

(Popular Mechanics Magazine.) On the ground floor of a new office building, being erected by the First Methodist Episcopal Church at the corner of Washington and Chestnut streets in the Chicago business district, has been built the church proper, two stories high and capable of seating more than 1,800 persons. A special, large foyer is run from Clark street to the church, and the building, which conveys and privacy are secured. The business elevators are connected with another group of elevators on Washington street. The building, twenty stories high, is admirably done in the modern style, with a height of 266 feet, above the street level, and is the highest building in the city. An integral part of life which should be of concern to the business man and worker alike, is the provision of a place for the church within "reach" of the worker.

BETTER GOVERNMENT PROMISED.

L'Action Catholique: "The machinery of all parliaments exacts that there shall exist an opposition. The latter cannot be fictitious. If it does not possess a certain number of members, the whole administration suffers—the country and the Government itself. The Opposition has now been reconstructed in Quebec. The Conservative party, which from the very fact of its solidity at Ottawa, had been reduced to nothing here, has now commenced to live again. It is possible that it will continue to grow in strength. The provincial election results will contribute to rid it of the fatal spirit of resignation which has paralyzed it for several years past. The outlook, therefore, is bright for better government."

IDEALISM.

(Toronto Star.) Efficiency was the god of German autocracy, and in the end its undoing. Speaking to the Rotary Club the other day, Rev. W. A. Cameron declared that it is the idealist and the visioner who climb the steepest slopes of achievement, and that he usually has to carry the practical man like a weight on his back. It is sometimes charged against the schools of Ontario—and probably charged without foundation—that they are turning out boys and girls who cannot figure as accurately or write as legibly as those of the older days. But are they turning out more idealists, more visionaries, more seekers after the gleam? Curiously enough, they are seldom judged by that standard. And yet what Mr. Cameron says is true.

CANADA'S WATER POWER.

(Vancouver Sun.) Here are some figures and statistics you should digest. Canada's waterfalls developed 3,000,000 horsepower of electrical energy during 1922. From this power the manufacturers gained a revenue of \$1,600,000. Ontario, with Niagara Falls, led in production among the provinces with 1,380,000 horsepower. Quebec was a close second with 1,100,000 horsepower. The total capital invested in waterpower is estimated at \$20,000,781. Horsepower development amounts to 387 per 1,000 of Canada's population. Now, if you have digested those figures, please remember that the waterpower now in use represents only six per cent of Canada's total waterpower resources. What a waste!

47 SPEECHES.

(London Daily Mail.) Forty-seven speeches in the course of one meeting of the Windsor Town Council was the record established by Councillor T. E. Luff, a 60-year-old ex-mayor of the borough. He spoke on every question on the agenda, the subjects ranging from the purchase of a motor-tractor to a proposal, which he opposed, to pull down an old house built in the reign of Charles II. But as the meeting lasted only a little over three hours, the speeches could not have been long ones.

WOMEN AND WAR.

(Westminster Gazette.)

It is a feeling which really is the feeling of one of a new war you will find it just now in the village streets of the American "city" the poor people discuss the news of the course of the League of Nations purchase of commodities. If any Minister really did want a new war they would say so in plain, unadorned words.

HAS SOWN GOOD SEED.

La Presse: "If the Minister of Commerce, the Hon. Mr. Robb, has not brought back with him, as a trophy of his recent mission, a trade treaty complete in good and due form with Australia, he has nevertheless sown good seed in the ground that he ploughed in that distant country. The Australian newspapers acknowledge this fact, and there is no doubt that the grain will bring forth, in season the harvest that is hoped for. Mr. Robb is to be congratulated on his work."

OPPORTUNITY FOR GOOD.

Le Soleil, in an editorial on social problems of the day, submits that the Catholics of the Province of Quebec in their Christian social endeavor, have proved they are not behind other countries in stirring the people to good effort. In this relation it is urged that organizers of "social weeks" in the province might study with profit models which would be likely to retain French-Canadian families on their native soil, and thus reduce the recurring exodus to the United States.

WOMEN FOR AUSTRALIA.

(Youth's Companion.) The two million surplus women in the British Isles evidently have their eyes in the rural districts of Australia. The first contingent of fifty young English women organized as "Home Companions" will sail for Australia this month. Each girl is prepared to take a job on an Australian farm and each girl will have in reserve funds for her return fare home if she finds the life undesirable.

SHOULD SEE CANADA.

(Toronto Globe.)

The suggestion has been made that members of the Canadian Parliament should travel more in order to have a real conception of the country for which they are legislating. The London Advertiser comments the proposal. It says that there are Ontario members who have never been East of the Hudson Bay. The question of the Hudson Bay Railway cannot be clearly understood by studying maps and books alone. The House has heard much of the conditions of farming in the West, and they may be asked to express their approval of an immigration policy that seeks to put more men in that section. With the exception of Western members, the others know little of these things. When matters concerning the tariff are brought up, these Westerners do not know the problems of the Dominion, the workshop of the Dominion. In this way the House at Ottawa stands in danger of being provincial, if not even parochial, in its outlook. Whether the country should pay the expense of a continental tour is open to question.

HAIR STAYS COMBED, GLOSSY.

"Hair-Groom" Keeps Hair Combed—Well-Groomed

Millions Use It—Fine for Hair! Not Sticky, Greasy or Smelly

Get a jar of "Hair-Groom" from any drugstore for a few cents and make even stubborn, unruly or shampooed hair stay combed all day in any style you like. "Hair-Groom" is a dignified combing cream which gives that natural gloss and well-groomed effect to your hair—that final touch to good dress both in business and on social occasions.

Greaseless, stainless "Hair-Groom" does not show on the hair because it is absorbed by the scalp, therefore your hair remains so soft and pliable and so natural that no one can possibly tell you used it.

When a sober firm of senior years says it offers values for all never approached in the history of Shoe Sales in St. John it's a case of taking sharp notice. Three floors of Francis & Vaughan's were filled with the finest, bought at their own price this last trying year when the makers were hard up for cash, and now sold far below the market in a semi-annual sale.

**FIFTEEN MINUTES
OF RADIO EACH DAY**

By Edward N. Davis
Formerly Technical Electrical Expert For U. S. Government

Lesson No. 26
THE ACTION OF RADIO FREQUENCY CURRENTS.
The constant building up, collapse and building up in the opposite direction of the magnetic field around a conductor, which carries an alternating current, requires a certain amount of time. If the medium surrounding the conductor is air, the time interval required is small and the field can readily be built up and reversed quite rapidly, hence coils of wire having air cores offer little opposition to the flow of radio frequency currents. If the medium is from the opposition to the changing magnetic field is much greater the greater the mass of the iron core. The higher the frequency or the more rapidly the magnetization and de-magnetization occurs, the greater is the opposition to the current flow. For example, if a transformer designed to operate a transmitter from a 60-cycle source were connected to a 500-cycle line of the same voltage, the current flow in the primary would be much below the normal value as can be readily shown by inserting an ammeter in the circuit. If the same windings were used for the 500-cycle transformer as for the 60-cycle transformer the core would have to be re-designed and much of the iron removed, thereby reducing the cross section area of the core. Similarly for audio-frequency amplification in receiving sets we use transformers having considerable iron in the core while for the much higher frequency of the carrier wave as amplified in the radio-frequency amplifier the core contains very little iron or none at all.

Many types of telephone receivers have marked on the case both the direct current resistance such as 1,000 or 1,500 ohms and also the alternating current resistance which may be four or five times this amount. In this case, however, the alternating current resistance does not mean the resistance of radio-frequencies, but at a common audio frequency such as 500 cycles or 800 cycles. A 1,500,000 cycles per second corresponding to a wave length of 200 meters the resistance of these same telephones would be so great that practically no current would flow.

In vacuum tube transmitters when it is desired to keep radio-frequency currents out of a part of the circuit a choke coil having large inductance, that is, many turns of wire on an iron core is used. For example, it is customary to employ such coils in the leads from the generator which supplies the plate current. While such a form of coil offers great opposition to the radio-frequency current, only the ohmic resistance of the copper wire itself effects the flow of the continuous current from the generator. On the other hand when it is desired to by-pass the radio-frequency current across the terminals of the high voltage generator a condenser is employed which does not permit the direct current to short circuit through it but offers very little opposition to the flow of radio-frequency currents.

Alternating current of very low frequency, such as 60 cycles, will flow through a condenser, but the physical dimensions of the condensers, that is, its capacity, must be much greater than is necessary for radio-frequency currents. For example, in the regenerative receiving system a small fixed condenser is usually connected across the terminals of the head telephones to by-pass the radio-frequency currents. This condenser should not be larger than absolutely necessary, however, or some of the energy in the pulsating direct current, which acts in a manner similar to audio-frequency alternating current, would leak through the condenser rather than flow through the telephones.

RECENT WEDDINGS

Kaine-Lowe
(Toronto Globe).

The marriage of Mary Greta, only daughter of Mrs. S. J. Lowe, to Raymond L. Kaine, son of S. L. Kaine of New Brunswick, was conducted by Rev. Hardy Andrews, on the afternoon of Thursday, February 15, at the house of the bride's mother, 182 Ferrer avenue. The bride entered the drawing-room on the arm of her cousin, James Henderson of Peterboro, and wore a becoming gown of mountain hare georgette, and carried Ophelia roses. The bridesmaid was Miss Lillian Duff of Detroit, who was similarly gowned in pink georgette and carried pink carnations. The groom was assisted by M. P. Davis. During the signing of the register, Miss Ethel Jay sang, "Miss Dora Cleave played the wedding music. After the ceremony a reception was held by the bride's mother, who wore black Canton crepe, and the bride, who wore black Canton crepe, and the bridegroom, who wore a suit of blue serge. Among the out-of-town guests being Mrs. Ray Nellist of Montreal, Miss Lillian Duff of Detroit, and James Henderson of Peterboro.

Smart New Frocks To Greet the Spring

These frocks newly arrived, feature Georgettes, Flat Crepes, Epouge, Poiret Twills—and almost every other new and attractive fabric you have read about or seen. The straight line dress is still in favor, but is varied here and there by means of clever draperies, uneven hem lines, long waisted effects and becoming surplice styles. Your inspection of the newest models is invited.

Very Dainty Models Made in France

Among these is a particularly fascinating Georgette frock in pale orchid shade, trimmed with rows of hand-drawn work. A corsage bouquet of flat flowers in a combination of French shades ornaments the waist. A French frock of an entirely different type if fashioned from wool crepe in the new clover shade and is heavily beaded in black and white. Other models are equally attractive.

The New Flat Crepe Is Delightful For Frocks

You'll find a variety of dresses in this stunning new material here. One that is very original is developed in rose crepe with applied pattern of white kid. The sash is made from plaited kid and silk and the deep hem line is very neatly hemstitched.

Heavier Frocks of Poiret Twill

In these the coat dress is finding great favor and is showing in several delightful guises. Braids, bright embroideries, stunning buckles and panels of contrasting materials are new features in evidence this season, and many variations of the round neck and flaring sleeve are also among the new.

One Coat Frock deserving of special mention is developed in navy blue Poiret Twill and is fashioned in the becoming surplice style. This dress is brought together at the side front and held in place by means of a large red and gold oriental patterned buckle. A long roll collar makes the neck line particularly becoming and the flaring sleeves are cut in points at the wrist line. The price is only \$42.

This advertisement can give you but a meagre idea of the many wonderfully fashioned frocks now ready for your choosing at this store. (Costume Dept., 2nd floor)

LOCAL NEWS

The total cost of removing snow has cost the city to date \$47,538.88 according to Commissioner Frink.

The governor-elect W. F. Todd spent yesterday in the city. He was a guest yesterday at luncheon of A. N. McLean in the Union Club.

J. Howard Crocker, national physical director of the Y. M. C. A. in Canada, gave a short address at the regular monthly luncheon of the Business Men's Club held last evening in the local Y. Fred Girvan, president of the club was in the chair.

Augusta Sullivan, driver of a small team owned by Donnelly's Stables, suffered a scalp wound and shock in being thrown from the sleigh at the Canterbury street entrance to the post office yesterday morning. He was treated by Dr. Case and proceeded to his home in Union street.

The primary department of the Sunday school of the German Baptist church entertained the South End Kindergarten yesterday afternoon. About one hundred were present, the children being in charge of Miss Edna Odwell. After games had been played supper was served to the youngsters.

A slight fire broke out about 5 o'clock yesterday afternoon in the vestry of St. Mary's church, Waterloo street. The damage done is covered by insurance, so Rev. B. Taylor McKim, the rector, said last night. The blaze was discovered by Miss Gladys McCarty, who notified the sexton and an alarm was rung in from Box 86.

R. C. Delanere sustained slight injuries to the muscles of his neck while assisting at loading potatoes at No. 14 shed, West St. John, yesterday. The injured man was treated at the Emergency Hospital and then removed to his home. The injury was not considered serious and it is expected that Mr. Delanere will be able to resume his duties in a day or two.

The engagement of Miss Paula Gellibrand, a famous society beauty of London, England, to the Marquis de Casa Marry has been announced. Miss Gellibrand is a daughter of Mrs. Gellibrand and the late Mr. Gellibrand who formerly lived in Fredericton and St. John and is a granddaughter of Mrs. James Dever and the late Senator Dever.

On Tuesday evening in the Esmouth street Methodist church, Rev. H. A. Cady delivered an illustrated address on "Travels in the Yukon which was greatly appreciated by a large and attentive audience. The meeting was held under the auspices of the Women's Missionary Society of the church. The offering taken up toward the society's funds. Miss Grete Love's solo was greatly enjoyed.

Where climates are most severe women depend on this famous method to insure a fresh supple skin

Unharmed—the soft skin of her face, though damp and cold cut through rock

Although rain, wind and cold wear fissures in the hardest rock, women today are defying the severest climates to hurt the soft skin of their face. You, too, may laugh at the weather, dare the careless winter sports with a light heart, if you will follow the famous method they use.

Two things are necessary to keep the skin supple in winter weather. Just the right amount and kind of oil. And in addition, unflinching outdoor protection. To meet these two needs of women's skin two famous creams were developed by Pond's.

First—the cream that gives you the needed oil. Use this famous method, one cream for the important cleansing and oiling, the other to protect and freshen your complexion. You will have the loveliest skin you could want or imagine in any climate.

MADE IN CANADA

try as a boy with his father, but returned to England about thirty-seven years ago. On the occasion of his return he was made a recipient of a check for a substantial amount from the public and a gold Albert and chain from the staff of the Great Western Railway Company.

In the fire yesterday, which destroyed the saw mill of J. A. Gregory at the Old Fort, West St. John, and a large fish shed belonging to Harry Belyea, the total loss is estimated at about \$15,000.

At the Y. M. C. A., last night, the Hardware Clerks' Association held their annual entertainment under the direction of Andrew Ramsay. Among the sports indulged in were a bowling game, in which the Juniors from McAvily's defeated those from Thorne's; a bowling match, in which the McAvily ladies came first, those from Thorne's second, Hayward's third, and

a combined team from A. R. Williams and Emerson & Fisher fourth; a baseball match, and a relay race, in which Thorne's defeated McAvily's. Refreshments were served.

The case against Max Lampert, charged with being an accessory after the fact in the theft of a diamond ring, was resumed in the Police Court yesterday afternoon. Detective Bidlicombe gave evidence. Lampert was allowed to go on his own recognizance of \$1,000 and two others of \$50 each. Messenger boys with two years' continuous service received a flat amount of \$17.50. Two of the messengers in St. John received this amount.

LINER CAPTAIN SENTENCED TO 18 MONTHS IN PRISON

Former Skipper of Van Buren Sent to Atlanta for Unjustly Punishing Pantryman.

New York, Feb. 22.—George H. Miles, former commander of the Shipping Board liner President Van Buren, was sentenced on Monday by Judge Francis A. Winslow in United States District Court to serve eighteen months in the Atlanta penitentiary. He was convicted by a jury last Friday of illegally imprisoning and unjustly punishing Harry Baxter, a pantryman on board the steamship.

Miles was tried on a charge of murder on the high seas and for assault in addition to the two counts in the indictment under which he was found guilty. The captain received his sentence with the same calmness that characterized his behavior throughout the trial and during the thirteen hours that the jury deliberated.

His trial and sentence attracted crowds to the court because of the unusual cruelty which government witnesses charged he practiced on the pantryman. They said that he caused Baxter to be chained in the hold and then kicked him as he lay there ill.

MAN WEIGHING 350 POUNDS IS DEAD AT TILLSONBURG. Tillsonburg, Feb. 22.—Leo L. Dennis, aged thirty-two years, passed away very suddenly following a serious operation for peritonitis. He weighed 350 pounds and a special casket had to be ordered for his burial and the body was removed from Kellam & Ostrander's undertaking parlor to his late residence in Stratfordville on Saturday afternoon. About five years ago his elder brother died and weighed 400 pounds when he passed away.

Miss Alice Ryan of Milltown was last night chosen queen there and will enter into competition for the title of Queen of the St. Croix.

PROHIBITION TO BE DISCUSSED

Measure Introduced as Private Bill by Edwin Scrymgeour in British House.

London, Feb. 21—Total prohibition for England, Scotland and Wales will be more or less seriously discussed in the House of Commons soon.

Mr. Scrymgeour confesses that he has no illusions that the bill will have the slightest degree of success, lacking as it does the support of the Government.

However, he welcomes the opportunity of bringing his views on the subject of "death to drink and life to the people" into the full light of publicity at Westminster.

Another measure in regard to the liquor trade will be introduced by Sir Arthur Holbrook, Conservative member for the Basinstoke division of Hampshire.

It is claimed that this measure will remove many present restrictions which are equally harassing to the licensee and the customer.

The main novelty about this bill is the proposed restoration of the "bona-fide traveler." This individual was put on the scrap heap at the time of the last licensing measure.

Before the Great War the traveler, according to the licensing law of the day, was a person who, if he traveled three miles from his home was given special concessions in the securing of liquor.

The result was that in districts just outside the three mile radius of big towns licensed houses very profitably remained open continuously on Sunday.

There were few regrets on the part of the law-abiding public and the licensed trade in general, when the Sabbath journeys of this sort were discontinued by the operation of the new law.

The general impression is that there will be small desire for their revival.

Piles are usually due to straining when constipated. Nujol being a lubricant keeps the food waste soft and therefore prevents straining.

LOCAL NEWS

The Women's Missionary Society of Centenary Methodist Church took charge of the regular prayer meeting last night and gave an idea of the missionary work being carried on throughout Canada by using the story of the Twelve Spies sent out by Moses.

The annual thank offering service of the Knox church Women's Missionary Society was held last evening in the church with Mrs. R. A. Sewell, the vice-president, in the chair.

It was said that a tag day for the civic war memorial would be held between March 10 and March 15.

Laxative Syrup Pepsin Helps Nature Give Relief

Try it when a Laxative is needed and see the wonderful results. ANY FAMILY MAY TRY IT FREE.

IT is not necessary to take a violent physic for so simple an ailment as constipation. Yet many thoughtless parents give mercury in the form of calomel, and coal-tar in the form of phenol.

When you take Dr. Caldwell's Syrup Pepsin you are giving it to a baby in arms, as thousands of mothers do every day, with the confidence that it is the safest and best medicine you can use for constipation and such complaints.

WOMEN SOLD MORE THAN 11,000 TAGS

Return of \$5,244 for Racing Meet Reported at Meeting of Women's Council—Other Matters Considered.

The members of the Local Council of Women who assisted in the sale of tags for the international skating meet at Lily Lake were responsible for disposing of more than 11,000 tags and taking in about \$5,244.

The financial report was presented by Miss Alice Estey, the president, Mrs. E. Albertson Smith, referred to the fact that the Board of Education had made the teaching of kindergarten subjects optional and said some credits were due the council on this score.

The treasurer reported receiving the affiliation fees of the Animal Rescue League, The Ladies' Association of the Church of England Institute, the Ladies' Auxiliary of the Y. M. C. A. and the Soldiers' Comfort Association.

The St. John Health Centre Association was welcomed in affiliation with the council. The affiliation fee of the National Council of Women was ordered paid.

It was said that a tag day for the civic war memorial would be held between March 10 and March 15.

Exchange Closed for Washington's Birthday—Brazilian Feature of Montreal Market—Buying Heavy.

New York, Feb. 22.—On account of today being Washington's birthday Wall Street exchange was closed. On Montreal Exchange, Feb. 22.—Brazilian, which has enjoyed an extraordinary run throughout the past week again showed early indications today of the opening of the local stock market. Giving another demonstration. Buying of this issue was particularly heavy and in fact had been sent up to 1-2 at 61. The largest gain of the morning, however, was Canada Car which rose to 1-4 at 84. Unchanged were Power 11-2, Pennam 1-4, Price Bros 1-4, and 1-4. Fractional recessions were sustained by Smelters, down 1-8 at 28 and Toronto Railway, down 1-4 at 89 1-4.

CANADA'S COAL IMPORTATIONS

Bituminous Brought from U. S. Almost Equalled Home Production Total—Exports Million and Half Tons.

(Canadian Press.) Ottawa, Feb. 22.—Canada imported 2,076,063 tons of anthracite coal from the United States during the twelve months ending January 31, 1923. This was valued at \$23,864,988, and came in duty free. This information was given in the House of Commons yesterday by Hon. A. B. Cope, Secretary of State. In the same period Canadian bituminous coal, valued at \$37,878,281, on which duty amounted to \$4,880,116 was paid.

PLAN CLUB FOR BUSINESS WOMEN Preliminary Announcement is Made at Dinner of American Woman's Association.

New York, Feb. 22.—The present status of women in business life, whether on the stage or otherwise employed, was discussed at a dinner of the American Woman's Association at its headquarters, 218 Madison Avenue. The dinner was a forerunner to the meeting to be held next Monday at Hotel Pennsylvania, where definite plans for a club for business women will be announced. The speakers, who included Francis Stuart, Marian Kirby, Gladys Hanson, Janet Beecher, Ethel Watts Mumford and Cecile Preston, said that there was no difference between actresses and women engaged in other professions, that stars on Broadway were just the same as stars on Wall Street. The speakers held that there should be no difference between business women as there is between business men.

EASTERN CANADA IS INSULTED IN MAKE-UP OF SO-CALLED CANADIAN NATIONAL OLYMPIC COMMITTEE

Five Toronto Men to One From Montreal—None From Nova Scotia and New Brunswick, and No French-Canadians—Grant of Money Should be Opposed in Parliament Till the Whole Country Has Just and Evenly Balanced Representation.

The Montreal Gazette publishes a picture of W. E. Findlay with an article which is of timely interest in view of the St. John Rotary Club's stand taken on Monday. The Standard says: "The picture is that of the only Montrealer who has been given what in Toronto, they chose to call the new National Olympic Committee for Canada."

And people are wondering if he will accept the appointment in view of the whole of the Dominion were represented on the committee, but entirely too large for the partial and lop-sided makeup of the combination now in charge.

Now is the time to have the matter thrashed out. Parliament is sitting, and the despised provinces—Quebec, Nova Scotia and New Brunswick, and the thousands of French-Canadian athletes, will see to it through their representatives in the House of Commons, no doubt, that not a cent is allotted by Premier King till justice is done and the whole Dominion will have its interest safeguarded athletically speaking, and its sport properly looked after.

BRITISH EXPERTS FEEL OPTIMISTIC ON SITUATION IN INDIA Mutinies in Arab States Called Imperial Rather Than Native Issue, Relief Expected by Turk Peace.

London, Jan. 20.—(By Mail)—The new year opens with a strong vein of optimism in regard to the Indian situation, according to the Bombay correspondent of The London Times. "Experienced governors, like Sir Harcourt Butler and Sir George Lloyd, have expressed their confidence; publicists like the Aga Khan are buoyant.

The explanation is that the Caliphate issue has lost its divisive acerbity when the government of India definitely ranged itself with reasonable Indian Moslem opinion and will disappear with a Turkish peace. The mutinies from Arab states are an imperial rather than a native issue, relief is expected by Turk peace.

An announcement, which will have the effect upon the world at large, that there exists no athletic Canada east of Toronto, although it faintly admits that there is some little interest taken in athletics in the metropolis of Montreal, forgetting that there alone, in addition to the great Montreal Amateur Athletic Association, there is another one, owned by the French-speaking athletes—who are equally ignored as so totally as the whole of Eastern Canada, which is also equally by few amateur athletic bodies in the world, either in membership or beautiful and up-to-date buildings and other property.

Nova Scotia and New Brunswick provinces which have been in the athletic limelight, especially during the last few years, on account of wonderful doings of such men as Belyea and Gorman and Logan and others, who are credited with possessing some magnificent athletes only awaiting a chance to show the world what they can do, are absolutely put in the dis-

RAISE INSURANCE RATES ON CHURCHES. Montreal, Feb. 22.—By a circular issued yesterday to all agents in this territory, the Canadian Fire Underwriters' Association have given instructions that all existing policy rates on churches, schools, religious institutions, colleges in this city and district shall be cancelled and that new policies may be taken out immediately at rates increased from 32 to 50 per cent. The step is presumably taken in consequence of the numerous fires that have swept religious institutions and churches in this district of late months.

THE EXCLUSION OF ORIENTALS URGED

Immigration Bill Before the House of Commons Yesterday—R. C. M. P. Matter Scheduled for Today.

Ottawa, Feb. 22.—(Canadian Press)—Yesterday in the House of Commons a bill to amend the Canadian copyright act was introduced in order to bring Canadian copyright regulations into harmony with British copyright law and with the international copyright convention.

Hon. Arthur Meighen, leader of the opposition, referred to press despatches regarding Canada's entry into the Pan-American Union. Prime Minister MacKenzie King said that nothing of an official nature had yet transpired.

The second reading of the immigration bill of A. W. Neil, independent of Canada-Alberta, came up. This provides that no immigrants can enter Canada without first securing the permission of the Minister of Immigration. Exemption of white British subjects from the bill is provided. Members from British Columbia declare that Canadians demanded a higher standard of living than Orientals, and could not compete with them on a fair plane. Complete exclusion of Orientals was largely advocated. Hon. J. A. Robb, Minister of Trade and Commerce, while not advocating unrestricted immigration, called attention to the fact of the rapidly growing Oriental market. The debate was continuing when the House adjourned.

Today in Parliament. In the Commons today, private members' day, the resolution of J. S. Woodswood, Winnipeg Centre, regarding the R. C. M. P. will probably come up for debate. It is to the effect that the R. C. M. P. be disbanded, and that there be organized a federal police force for the protection of government buildings, and a Northwest Mounted Police force for the protection of unorganized territories.

CUTS PATENT LEATHER PRICE. New York, Feb. 22.—Despite the general uplift in leather prices, one of the leading producers of patent leather has reduced prices considerably, according to a resident buyer for two of the largest manufacturers in Australia. Retail price quotations made by the leather manufacturers, says the buyer, are about 4 per cent. under those named at December.

ITALY AIDS SHIPBUILDING. In an effort to promote Italian shipbuilding, a royal decree has been issued authorizing the construction of ships will be allowed to enter the country of duty and 120,000,000 lire will be spent by the government as an encouragement to shipbuilders for new construction.

SOOTS MAN AT HOME

Characteristics in the Life of the North Briton—Impressions of an English Writer.

"The Truth about the Scotsman" is the title of a good-humored article in the Quiver, written by an Englishman. We make one or two extracts: "For one thing, he is really passionate. He is the 'bang-went-sax-pan' Scotsman true to life. Certainly the first impression of the Scotchman is that he is likely to be well-off, a certain sparseness. I went, for instance, to a Scotch dinner at the Glasgow, Perth and Aberdeen, where the lights were never turned up until the moment of the speaking and the Scotch switched off again so quickly when the meeting was over that the talker's second thought was to find his way out almost in darkness. If you go into a barber's shop you may be rather disconcerted by the minuteness of the towels and by the absence of some of that powdering and perfumery which the ordinary English is pleased to think necessary to proper toilet. These are trivial things, but they are rather disconcerting if you are used to the more elaborate services, public and private. Laugh at himself. The Scotsman can laugh at himself. If he is reminded of the joke about his panmony he will not only laugh but enjoy it. I cannot quite make out whether he regards the accusation of panmony as a compliment or a slur, but thinking it to have no foundation, he is delighted at having practiced this little deception upon his friends. Anyhow, a staple joke among Scotsmen is about thrift. In one Scotch family with whom I stayed I hesitated over any introduction of the topic, but they introduced it themselves as a matter of course. The examples culled from each day's experience of the economy of the Scotch folk. There is not much the matter with a nation which can laugh at its follies. "Does Into Scotch." No allegation was ever so wide of the mark as the one that the Scotsman is deficient in humor. He can laugh with the best of them. His sense of the ridiculous is keen. Does not a great laugh-maker for the masses, Sir Harry Lauder, come from the banks of the Firth of Forth? Of course, Scotch humor owes a great deal to the background of gravity and deliberate seriousness against which its effects are played, also to the "brill Scott" or quaint English, which gives a humorous twist to phrases which otherwise would have no humorous significance. The "doon" or "doon" Scotch" may become effective, with the result that many jokes are saddled on Scotsmen for which they have no responsibility. But true Scotch humor is not entirely unconscious. The Scot himself, when he is in the stalls with you, he is also in the stalls with you.

SENT FIRST TRANS-ATLANTIC MESSAGE, DEAD AT 32. Fort Chester, N. Y., Feb. 22.—Capt. Robert H. Smith, who sent the first cablegram across the Atlantic in 1866 for Cyrus W. Field, who laid the first cable, died yesterday at his home here, at the age of eighty-two.

OFFICE HELP INCREASES. New York, Feb. 22.—The continued uplift in business activity was evidenced in January by a sharp increase in the demand for office help, according to the monthly report issued by the American Employment Exchange. The increase was mostly in the subordinate positions, indicating a larger amount of detail work occasioned by increased sales, shipments, etc. The demand for office clerks increased 99 per cent. over December of last year, salaries remained about a year ago level for the increased demand for help.

James P. Jourey. Campbellton, N. B., Feb. 21.—Wood was received here yesterday of the death in Hamilton, Ontario, of James P. Jourey, who was one of the most popular members of the younger set here. Mr. Jourey served overseas from 1912 to the termination, and his death is a result of a shock he received while serving in France. He was buried through the air by the concussion of a shell and never got back to his former good health, and about a year ago he left for Hamilton to undergo treatment, but the community here was shocked to learn of his death, which occurred Monday. He is survived by his father, Mr. L. T. Jourey, who is at present dangerously ill, suffering from a paralytic stroke, and by two brothers and two sisters. The remains are to be brought to Campbellton for interment.

FINANCIAL NOTES. Montreal, Feb. 22.—Cables 479. The C. N. R. express leaving the city last evening at 6:15 for Moncton, was in trouble between River Glade and Salisbury as a result of a fire on the engine breaking, derailing the locomotive. The train reached Moncton some time after midnight. No one was injured.

SLUMP IN DIAMONDS HURTS FIRMS PROFITS

London, Feb. 22.—The slump in the diamond trade has affected seriously the Premier (Transvaal) Diamond Company, whose report for the year ended October, 1922, shows that revenue from diamonds declined from 439,836 to 233,884 pounds sterling. Two years ago the revenue from this source was more than 2,000,000 sterling.

A new method of cutting diamonds has come into vogue in London. The stones are cut without facets, in narrow slits. It is more expensive than the old way, but there is a demand for the new fashion in finger rings. A London jeweler had to pay \$800 each for a couple of small stones cut the new way. Under the ordinary system the cutting could have been done for \$50 a stone.

SAY CRIME IS GAINING. Continual increase of crime throughout the United States is emphasized in the report of Chairman William B. Joyce of the National Surety Company to the stockholders. The company's losses from embezzlement, burglary, forgery and other financial crimes have increased from twenty-nine per cent. to forty-seven per cent. during the last four years. The company paid \$6,500,000 losses on financial crimes in 1922, as compared with \$1,900,000 in 1921.

The freedom of action and lack of protective methods permitted by employers of trusted men is amazing," says the chairman's report. "American employers have not yet become conscious of the serious duty they owe to employ handling money and securities to guide and guard them against the temptation to betray their trust. Opportunity makes the thief."

Richmond, N. B., Feb. 21.—Wood was received here yesterday of the death in Hamilton, Ontario, of James P. Jourey, who was one of the most popular members of the younger set here. Mr. Jourey served overseas from 1912 to the termination, and his death is a result of a shock he received while serving in France. He was buried through the air by the concussion of a shell and never got back to his former good health, and about a year ago he left for Hamilton to undergo treatment, but the community here was shocked to learn of his death, which occurred Monday. He is survived by his father, Mr. L. T. Jourey, who is at present dangerously ill, suffering from a paralytic stroke, and by two brothers and two sisters. The remains are to be brought to Campbellton for interment.

THE MAN WHO SIGNS MUST MAKE GOOD! A responsible man puts his name to a piece of paper and it becomes a check—the equivalent of money. He signs his name on the back of another piece of paper and it becomes an endorsed note—good for money. He writes a letter and it becomes a binding contract. The adding of the name makes these things solemn and legal obligations. The man who signs is responsible. Just so with an advertisement—the moment a man signs his name to it he has made a pledge to the public. He is bound by his word as much as if he signed a check or a note. He must do what he promised on the terms he promised. If he does not, he courts business disaster. The man who advertises a lie publicly proclaims himself a liar. Such men are seldom in business but frequently in asylums. It is safer to buy advertised articles than nondescript ones. It is safer to deal with merchants who advertise than with those who do not. An advertisement is a signed pledge of good faith to the public.

SKATING.
Moore Leads at Halifax.
In a skating meet in the Halifax Arena last night which was staged to give the city's fans a chance to see some of the fast men of the circuit, Joe Moore, of New York, led with 120 points and was followed closely by Charles Gorman, of St. John, with 100. The times were very slow on account of the small ice surface. Gorman won the 440 yards in 52 1-5 seconds and

held in the United States might be counted on the fingers of one hand, but this season thirty-three have been scheduled in the east alone.

A FEATURE FILLED WITH ACTION
Driving their horses at break-neck speed, using every means they knew, these men whipped on, striving for mastery. The prize was a woman's love.
Daring, gallant, picturesque as a knight of old, the victor rode into the ring and bowed to the fair girl whose hand he had won.
The picture of a golden age.

SEE—
The tale of a modern Ivanhoe who lived on the Western plains.
Just as in tournaments of old, this latter day knight strove to gain the hand of his lady—and won.
Walter Scott's "Ivanhoe" brought up-to-date with plenty of zip and dash.
Horse's flying feet, stage coaches careening on two wheels, the cracking of whips, hair-breadth escapes, crowds shouting and cheering their favorites on to victory. That was the scene.

PARRSBORO HAS DISASTROUS FIRE

\$50,000 Loss in Early Morning Blaze Today.

Part of Business Section Wiped Out—Only Small Quantity of Stock Saved—Several Motor Cars Destroyed.

(By Canadian Press) Amherst, N. S., Feb. 22.—Parrsboro sustained a \$50,000 fire loss early this morning, when a conflagration wiped out a portion of the business section of the seaport town.

Hatfield Bros., with their large general stock, valued at \$20,000 held \$8,000 to \$8,500 in insurance, while their big frame building was insured for but \$1,200.

The automobiles destroyed included two new Fords, placed in Vaughan's garage yesterday. The other cars included a Ford owned by Mr. Pillon of Parrsboro, one truck owned by Graham Dunning, and a Ford motor truck owned by Monty Vaughan.

GORMAN'S RECORD OF 37 1-5 TO STAND

Skating Union Officials Pronounce Moncton Track Standard—Jewtraw is Pleased.

A Canadian Press despatch from Moncton today says: "Chas. Jewtraw, international amateur champion, while here at the Golden Jubilee ice meet, said that he never skated on a better track than the one in Moncton, as the corners were not as sharp as on some of the tracks of the I. A. S. U. measured the track they pronounced it standard, and Charlie Gorman's record in the 44 yards stands as a new world's record for that distance, 37 1-5 seconds."

Reported Lt. Col. Mersereau Is To Retire

Fredericton Hears Report—Had Fine War Record and Won D. S. O.

Fredericton, N. B., Feb. 21.—Intimation that Lieut.-Colonel John Mersereau, D. S. O., will soon retire as officer commanding the Seventh Canadian Machine Gun Brigade has been made here. He was born in Bathurst, N. B., on July 18, 1880, son of the late Colonel George W. Mersereau. He was educated at Acadia, taking his B. A. in 1900 and his M. A. in 1903, and an M. A. degree from Harvard in 1908. He then entered upon a career as an educationist.

Proceeding overseas with the First Division in 1914, he was brigade major with the 4th Canadian Infantry Brigade, and was wounded severely at Ypres. Subsequent appointments were those of general staff officer, Grade 2, Valcartier Camp, 1916; general staff officer, Aldershot, 1917; attached headquarters 5th Canadian Infantry Brigade, 1917-18; commanding officer, 29th Canadian Infantry Battalion, 1918-19. He was awarded the D. S. O. for gallantry and was mentioned in despatches.

NEW GLASGOW LADY NEW PRESIDENT OF WOMEN'S COUNCIL

Miss C. E. Carmichael is Chosen at Meeting of the National Executive

Ask Provincial Governments to Provide for Training for Maternity Nurses—Also Urge Legislation Against Undesirable Literature.

(Canadian Press) Ottawa, Feb. 22.—Strongly advocating the securing, training and qualifying of effective maternity nurses, the class of home helper now known as the mid-wife, the executive of the National Council of Women, in session here yesterday passed a strong resolution asking that training for these women be secured through the provincial legislatures and boards of health. The motion was moved by Mrs. Willoughby Cummings of Toronto.

A resolution was moved by Mrs. Adam Shortt, asking that counsel be urged on the Government to legislate against the sale in Canada of books and periodicals of a sensational, immoral, salacious or blasphemous nature. The following officers were elected: President—Miss C. E. Carmichael, New Glasgow.

Mrs. T. P. Regan Died This Morning

Mrs. Helen M. Regan, wife of Thomas P. Regan, a prominent member of the bar in St. John, died at her home, No. 10 Orange street, at half past six o'clock this morning. She had not enjoyed good health for some time, due to heart trouble, and only a few days ago had returned with her husband from Montreal, where she had been to heart specialists. While it had been known to her friends that she was very ill, news of her death came as a great shock.

Mrs. Regan was the daughter of the late Daniel Patton, prominent in the business life of St. John for many years. A graduate of the Sacred Heart Convent, she was a cultured lady whose qualities won her many friends. She is survived by her husband, one son, Gerald Patton Regan, and three brothers, Rev. Donald Patton of Mulgrave, N. S.; Arthur Patton of Calgary, and Maurice Patton of Benton Harbor, Michigan. Father Patton is now on the way to St. John. There will be deep sympathy of many friends extended to those bereaved by Mrs. Regan's death.

LUDLOW STREET TEACHERS CONFERENCE

The officers and teachers of Ludlow street Baptist Sunday school, met in monthly conference at the home of Mrs. Roy C. Makinney, City Line, on Tuesday evening. Supt. R. Hunter Parsons presided. A paper on "A Teacher's Task" was read by Miss Marjorie Robbins followed by special prayers for the Sunday school. Many matters pertaining to school betterment were discussed and plans made for improvements in the primary division. The Sunday school has now the largest attendance on record and great difficulty is being experienced in properly handling the classes owing to limited room and equipment. Mrs. Wm. Gray and Miss Robbins reported on the recent teachers institute. After two hours spent in conference a social half hour took place when games were enjoyed and dainty refreshments served by a committee of teachers. After thanks had been extended to Mr. and Mrs. Makinney for their hospitality the singing of "Blest be the Tie" brought a very profitable evening to a close.
