Tremendous Work of Canadian Railways Shown in War Board Statement

45 Miles of Trains—Total Mileage in January and February, 391,746 Miles—Crews Equal to Half Army Division

Some interesting figures were given out the other day by Lieut.-Col. Walter Maughan, chairman of the railway committee on demobilization of the Canadian Railway War Board...

During that period, said Lieut.-Col. Maughan, the total length of engines and equipment used was over forty-five miles, so that the engines and cars would reach from Place Viger station to beyond Piedmont, near Ste. Agathe.

To handle these trains there were crews totaling 10,446 men, equal to more than nine infantry battalions, or almost half a full army division.

The total mileage covered by these trains was 391,746 miles, with loaded and light trains, equivalent to eighteen times around the world by commercial routes.

In hauling these trains the different railways consumed a total of 21,164 1/2 tons of coal, which, it was estimated, would be a winter's supply of coal, at an average of ten tons per family, for over 2,100 Montreal households.

"Quite naturally," said Lieut.-Colonel Maughan, "the magnitude of our operations has called for increased activity and application. Our unusual performances have been made possible by the full appreciation of our task on the part of all militia department officers concerned and their hearty and efficient co-operation."

The major-general Maughan, who always displayed the keenest interest in all our movements and has personally seen to it that nothing was left undone that would make for the comfort and proper handling of the returning soldier man, I would like especially to have the honor of mentioning how ably he is represented by Col. Emmett E. Clark, director of supplies and transport, Ottawa. Colonel Clark has worked with us every hour

than was ever known in the history of the Dominion, while the work has been so systematized that the roads are getting practically 100 per cent efficiency out of their service.
"Sign of the Lantern" said Lieut.-Colonel Maughan, "the railways have been greatly aided by the unions of railway employees, who have co-operated in every way to see that the returned soldiers are got through as speedily as possible and given every need that could reasonably be supplied them while on the train."

SEND A DELEGATION.

The bill proposed by the city of St. John as a settlement of the dispute with the New Brunswick Power Company provides an adequate return on actual capital invested. It also makes provision for the protection of the public.

There should be a large attendance at tonight's meeting of those favorable to the city's bill, in order to arrange for a strong delegation to go to Fredericton for Friday's hearing before the corporations committee.

A JUVENILE COURT

A valuable book is the last annual report of Mr. Ernest H. Blois, superintendent of the institutions and delinquent children for the province of Nova Scotia. It includes the report of Dr. Hunt, K. C., judge of the juvenile court, in Halifax, as well as of the juvenile court in Pictou, and the reports of all the institutions, Protestant and Catholic, which care for neglected, dependent or delinquent children.

In Ontario general advantage is taken of the housing scheme. The Toronto Globe says:—Mr. J. A. Ellis, director of the bureau of municipal affairs, has been notified that thirteen municipalities have passed by-laws to come under the provisions of the government housing scheme.

Hon. F. B. Carvell has been criticised in connection with the appointment of Mr. Titus J. Carter as department solicitor. The appointment was not made by Mr. Carvell, but by the civil service commission.

The Dominion Coal Company and Dominion Steel Corporation and the Nova Scotia Steel Company have adopted daylight saving with the approval of their employees.

It will be quite useless to talk about a housing scheme unless persons are found willing to buy or rent the houses. The committee seeking information on this point is not getting much.

The State of Michigan has rejected the light wine and beer proposal by a much larger majority than it had previously rolled up for prohibition.

Premier Clemenceau has asked that the death penalty be not inflicted on the anarchist who tried to kill him, and his request has been granted.

Mr. Potts announces that he expects a place in the next Murray-Baxter-Smith-Jones-Daggett government—or words to that effect. He will have a long wait, but patience is a virtue.

The ladies of Royal Standard Chapter, I. O. O. E., deserve the highest commendation for their work in furnishing the reception room and library in the county hospital.

In Moncton 125 persons have already experienced a desire to benefit by the new housing scheme. Half a million or more will be the loan asked for. Moncton is wide-awake.

A NEEDED REFORM MOVEMENT

standpoint. However well conducted an institution may be it is a poor substitute for a real home. The mother, who has risked her life in bringing children into the world, may justly claim the right to exercise the privileges of mother-love in caring for those children in her own home.

The separation of the mother from the family which she loves is a crime against the deepest and holiest instincts of human nature. And this outrage is committed again and again where the only fault which can be alleged is poverty.

Provision for mothers' pensions has already been made by many progressive nations. The question will soon be a live one in this country. We must recognize also that prevention, and more humane treatment of those who through accident or misfortune are brought to poverty, especially when the burden of poverty were removed, lives would grow into honor and usefulness and Christian service.

Mr. Sullivan expressed himself as strongly opposed to changing the present city charter, stating that since its adoption in 1909 the municipality had prospered under it.

In reply to a question of Representative Brennan, Mr. Sullivan expressed the opinion that the fact that the mayor has the power of veto has had nothing to do with the improvement of the city.

Sullivan laughed at Senator Mahony when he made the statement that district councilmen had kept the Boston tax rate down.

Asked if he was not the author of the recall bill, he said: "Yes, I admit the responsibility. I have made many mistakes in my life, and that was one of them."

SUES FOR \$1,000,000. Chicago, April 9.—Suit for \$1,000,000 has been filed here by Gaston B. Means against the Northern Trust Company, alleging conspiracy to send him to the gallows. Means was tried last year on charge of murder of Mrs. Maude A. King, who died from a bullet wound while on an automobile trip with a party of friends of whom Means was one.

The declaration filed by Means alleges that the Northern Trust Company, through the co-defendants, sought to obtain the conviction of Means for the murder of Mrs. King; that the defendant corporation sought thus to control the \$300,000 King estate and reap vast profits therefrom.

G. W. V. A. TAG DAY.
Lively preparations are being made for tag day on April 12 by the Great War Veterans Association, who are to appeal on that day to the patriotic citizens for funds to assist in paying off the debt on the G. W. V. A. building in Wellington row. The veterans will have the enthusiastic assistance of the Y. W. P. A. and many other patriotic ladies' organizations which have been so successful in all forms of work. Public recognition and appreciation of the returned heroes should make the veterans' tag day one of the greatest on record.

BYE-LAW MATTERS.
A man was in the police court this morning charged with allowing a car to stand in Union street near the corner of Brussels street, from 7:30 till 9 in the evening of April 8 without lights. He explained that he went to get his supper and was reading the paper when he went to sleep and did not awaken till nine o'clock, so that he did not commit the offence intentionally. A fine was imposed but was allowed to stand.

A firm was reported by a traffic policeman for allowing their car to be operated without a front number plate. The explanation was that the plate had been lost and a new one had not been put for but had not arrived. The case was postponed until next afternoon.

LIQUOR CHARGE.
Rody Ryan was in the police court this morning charged with having liquor in his possession other than in his private dwelling.

Inspector McAinsh said that last night about 9:15 he and Inspector Garnett with another inspector drove out the Loch Lomond road and when within about a mile of the Ben Lomond house they overtook a team which they stopped, and in the back of the wagon they found a bottle of liquor. When the defendant was asked last evening if he got the liquor by prescription he said that he had gotten it from his brother, W. M. Ryan, who appeared for the defendant, cross-examined the witness. The case was postponed until next Wednesday afternoon. The defendant was let out on a \$200 deposit.

Few More Licenses For American Shipping In Coast Trade In Our Waters

Government Action Likely, Says Hon. A. K. McLean, Following Statement From Washington

Ottawa, April 9.—It is expected that the government will decline to grant further licenses to American shipping engaged in the coasting trade in Canadian waters, except under very exceptional circumstances. Intimation that such action is likely to be adopted was given in the House of Commons by Hon. A. K. McLean, acting minister of marine and fisheries, yesterday afternoon.

Mr. McLean read, first, the following telegram received from Washington: "Advice from our representatives for lakes district indicate apparent scarcity of business on lakes for American ships

for this season. Coastwise permits are now almost invariably declined on Atlantic and Pacific coasts, only exceptional situation warranting a departure from this policy."
Mr. McLean added: "Inasmuch as the United States declines to confer the privilege upon Canadian vessels engaged in their coasting trade, it is contemplated that no further licenses be granted to American ships for the coasting trade in Canadian waters except under very exceptional circumstances. This will place our policy in this regard on a parity with that of the United States."

WANT FRENCH AS LANGUAGE OF THE LEAGUE OF NATIONS

Resolution to Peace Conference Presented—Also Favor Paris as Seat of League

Paris, April 9.—(By the Associated Press)—The French society for the promotion of a league of nations has adopted, on motion of Professor Aulard, of the University of Paris, an eminent authority on history, a resolution asking the peace conference to adopt French as the official language of the league of nations. The society is also promoting a movement in favor of Paris as the seat of the league of nations.

GERMANY GIVES COAL SHORTAGE AS CAUSE OF NON-PAYMENT FOR FOOD

Berlin, April 8.—(By the Associated Press)—The shortage of coal, owing to strikes, is given officially as the reason for Germany's inability to continue payments for Entente food supplies now arriving, since coal was chiefly relied upon as a means to settle this indebtedness. The announcement adds that if coal production continues to falter, preventing the manufacture of articles wanted abroad, "German economic life must collapse before autumn and the food situation will be worse than ever."

ALBERTA TO DISMISS ALIENS AND GIVE THEIR PLACES TO SOLDIERS

Edmonton, April 9.—The government yesterday afternoon made a promise to the local Great War Veterans Association to dismiss all aliens of enemy origin whether naturalized or not now in the employ of the government as fast as the Great War Veterans Association would replace them by returned men qualified to fill such positions.

Assistance to Ex-Service Men and Women to be Given—Amery Says Unlikely Dominion Will Want Them This Year

London, April 9.—(Canadian Press despatch from Reuter's Limited)—In the House of Commons yesterday, A. M. Amery, replying to a question regarding the government's emigration policy, said that ex-service men who were accepted as approved settlers under any settlement scheme of overseas governments or who can show that they have assured employment awaiting them and are otherwise acceptable to the authorities

of the dominion to which they wish to proceed, will be given free passage for themselves and their dependants to the nearest convenient port to their overseas destination.

The same privilege, subject to similar limitations, will be extended to ex-service women who have served in any recognized women's service corps, including the land army.

Mr. Amery added that, in view of prior claims of their own ex-soldiers and sailors for re-settlement, the dominion governments would be unlikely to be in a position to welcome any British ex-soldiers and sailors before the end of the present year, even if shipping were available. Earlier applications from ex-service men will be received for a year from December 31 last or from the date of their release from the service or if necessary for such period as may be found requisite to afford them ample time in which to choose between opportunities for employment and settlement in the British dominions overseas.

Replying to a further supplementary question as to whether any arrangement was contemplated by which a board should be set up on behalf of the dominions to interview applicants in Great Britain, Mr. Amery said the government was in constant communication on this very subject. There was at the present time a committee in the colonial office dealing with matters in consultation with overseas representatives. The

DUAL LANGUAGE
(Moncton Transcript)
Down here in Moncton where there is a strong agitation against French being taught to French children in our public schools, it may be interesting to notice that according to a despatch from Valleyfield, Quebec—

"A letter has been issued to the school children of Valleyfield, by Bishop Emard, asking them that they study hard and particularly to take an interest in learning English and French. He states that the future belongs to the educated people of this country, and after attending to the first instruction, that of religion, attention should be given to the study of French and English. He said that the French language had always been an arm of defence against assimilation which would have been the ruin of the French-Canadian race.

He said that the English language should be placed on the same plane as the French. If the pupil desires to play an important role in life as he should then he should know both languages. Is there not an intimation in the pro-

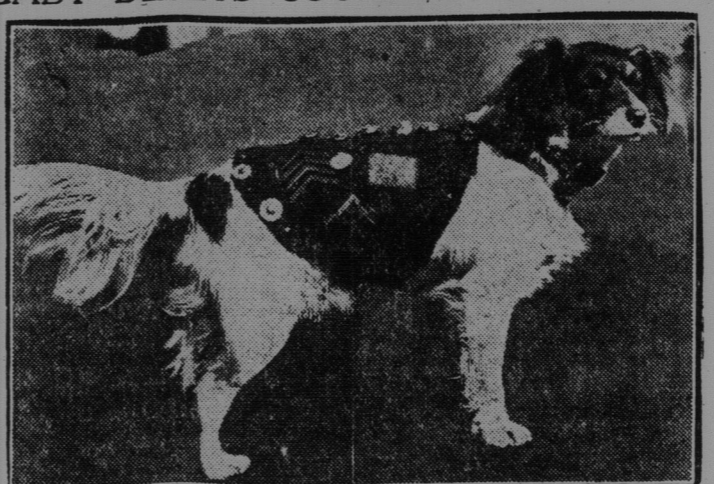

TWO TREATIES

Paris, April 9.—There is much apprehension in peace conference circles as to the effect that establishment of a Soviet government at Munich may have on the conclusion of peace.

As the Munich government appears from press despatches to be well established the peace delegates are considering the eventual necessity of negotiating two peace treaties with Germany, one with Berlin and the other with Munich.

INSURANCE CO. HEAD DEAD

Manaroneck, N. Y., April 9.—John R. Hegeman, president of the Metropolitan Life Insurance Company, is dead at his home at Orient Point today after an illness of two years.

Although Mr. Hegeman's condition had been considered serious for the past week, his death was unexpected.

Mr. Hegeman had extensive financial interests, being director of the Metropolitan Bank, National Surety Company and Victor Chemical Company, and trustee of the Hamilton Trust Company of Brooklyn and other financial institutions.

Born in Flatlands, now a part of Brooklyn, April 18, 1844, he was educated in the public schools of New York and became employed as an accountant by the Manhattan Life Insurance Company in 1866.

On Oct. 24, 1870, Mr. Hegeman married Miss Evelyn Lyon of Brooklyn, who died about four years ago.

Foch Foresaw German Peril

In Letter of Tribute to General Wilson, Allied Leader Speaks of Loyal Support of British Chief.

London, April 8.—(British Wireless Service.)—That Marshal Foch foresaw the danger before the outbreak of the war of German aggression is indicated in a letter which he has sent to London to be read at a dinner which the members of the houses of parliament are to give soon after Easter in honor of General Sir Henry Wilson, chief of the imperial general staff.

Marshal Foch says: "Long before the war I worked together with General Wilson and I worked together to prepare for the struggle against the German peril, which was both foreseen and resisted."

"During the war, in most anxious days, especially those of 1917 and 1918, how often—it was almost every day, sometimes every night—we worked together to strengthen as rapidly as possible a weak spot in the link to combine our efforts to re-inforce our hard-fought armies and give again to enable them to go forward, as I recall memories, still so fresh in my mind, I can see him always before me as one of the most capable, most loyal and most illustrious of the Allied armies and one of the greatest servants of his country."

The Temperance Movement In New Brunswick Seventy Years Ago

Sir Leonard Tilley Prominent Among The Temperance Workers of That Time; An Interesting Review of Conditions in Pioneer Days

Shepody, Albert Co., April 1—(Special Correspondence of the Moncton Transcript)—Now that the temperance question is so prominently before the people of the whole world, and advanced temperance legislation, amounting to practical prohibition, has spread over the entire continent and taken a firm hold in our own province, we might well, perhaps, look back and see what the temperance people of New Brunswick were doing seventy years ago, when the first permanently organized and permanent temperance crusade opened in this province. We are prone these days, when we view with gratification the realization of the dreams of long ago with a prohibitory law on the statute books of our province, to praise (and rightly so) our present legislators and the temperance men and women of today who have seen the culmination of their honest and devoted work, in the establishment of a law, long looked for, that places the liquor trade where it should be, beyond the pale of respectable citizenship and legal protection. But while such praise is warranted and proper, we should not forget that the men to whom the laurels of praise and credit should go, are those who have long since passed away; the men, who seventy years and more ago, when total abstinence was looked upon very differently from what it is today, toiled and labored, in season and out, through good report and ill, unhesitatingly, unselfishly in the interests of this great cause of humanity; who spent their time, their money and their abilities in not only open advocacy of temperance and prohibition but in organized effort, so necessary, for the success of any movement and which, in those old days, nearly three-quarters of a century ago, got a grip on the whole province, which time and its enemies have been unable to destroy, and which is responsible in so large a measure for the present province-wide temperance sentiment and temperance legislation.

Those men did not live to all the fulfillment of their hopes and expectations but they lived long enough to see an ever increasing temperance sentiment and the onward march of the great temperance army which they, no doubt, with true optimism and faith, felt would mean ultimate victory for prohibition and the temperance forces. And they left a name and an influence that have been of value beyond estimate. We today should and do pay a tribute to those noble men, those stalwarts in the temperance cause of three generations ago, who bore the burden and the heat of the day and have ceased from their labors. These are the men who started the temperance wave, that has rolled to the present day.

results of the great "movement" were transitory. Fraternal Society Needed. Realizing this, sixteen men in New York, on Sept. 29, 1842, met and organized the Order of the Sons of Temperance, which for seventy-six years has been prominent in temperance work throughout the continent as well as on the other side. Some years later the Independent Order of Good Templars came into existence.

The Sons of Temperance reached New Brunswick in the year 1847, when Howard Division, No. 1, was organized at St. Stephen on March 8th of that year, York Division, No. 2, Fredericton; Wilberforce, No. 3, Milltown; Charlotte, No. 4, Gurney, No. 5, St. John; Chatham, No. 6, Portland; No. 7, St. John, No. 8, in the same year, and Sir Leonard Tilley was a member of the latter. The order then spread rapidly all over the province, Albert county being reached in 1849, when Albert Division was organized at Hillsboro. In 1850 Golden Rule Division of Hopewell Hill was organized, and is still in existence, after sixty-nine years of unbroken service. The charter members of this institution include Isaac Bacon, Charles H. Moore, Joseph Starratt, John Starratt, John R. Russell, Robert Newcomb, Isaac Stiles, Silas Stiles, Guilford R. Smith (Hart), Henry Bothick, John Turner, and many others, who kept up the temperance banner in this county three generations ago and whose names are still revered. The late Hon. A. R. McClellan, was also a staunch supporter of prohibition, when that ill-fated measure was entered in the '60's.

"HIS PLACE IS IN THE ARMY."

(New York Times Editorial). According to reports presumably veracious, a man who not long ago earned in this city a sinister eminence as leader of a gang of particularly vicious and dangerous criminals rendered such fine service as a member of the American expeditionary forces that all the officers in his unit, as well as all its privates, unite in praising his soldierly qualities and are going to do what they can to persuade Governor Smith to restore the citizenship forfeited by conviction of felony. There can be no reasonable objection to that action. The war has done for this man what it has done for many—not only improved him physically, that is, but has awakened him mentally to the better and higher things of life and to a realization that a conflict with the law brings no reward except ruin and prison. The man expresses what seems to be sincere determination to lead an honest life, and as a civilian to deserve the respect won in the army by his courage, his devotion to duty, and his scrupulous observance of regulations the rightness of use of which he was quite intelligent enough to appreciate. But, after he gets back his citizenship, as he should, and as almost certainly he will, with such claims for it as he can present, why does he not return to the place where his rehabilitation was effected? It will be his privilege, then, to enlist, and in the army his record will

be better than clear. In civil life he will encounter difficulties, perhaps insuperable and probably discouraging, in spite of his new ambitions, and many doors will be closed because of transgressions past and repented. The army, if it will take him, will give him exactly the opportunity he needs. There his good qualities will have full room for effective display, and there will be neither temptation nor compulsion to return to old ways.

Royal Cord The Master Creation of Canada's Leading Tire Builders

WERE ease and comfort their only superior qualities, they would still be the choice of every car-owner who could afford them. But they are more than a luxury, they are a delightful economy. Their marvellous construction of tens of thousands of cords, each imbedded in pure rubber, makes a tire that is practically proof against blow-outs. Yet so yielding and resilient is the tire-structure and tire-wall that the shock of most road obstructions is absorbed. It also relieves the non-skid tread of a portion of its strain, and reduces side-slipping without impairing the ease in steering. Careful tests show that a car equipped with "ROYAL CORD" TIRES makes more miles per gallon of gasoline than the same car can make on fabric tires. This saving alone pays the difference in cost. With blow-outs reduced to a minimum; and a practical saving in gasoline; there is ample proof of the sound economy of "ROYAL CORD" Tires. Then, too, there is the luxury of easy riding, and the assurance of having the finest tires that can be made. "DOMINION" INNER TUBES are made expressly to fit "Royal Cord" Tires, as well as the other five fitted of "Dominion" Tires. Be sure to have your tires fitted right—with "Dominion" Inner Tubes. DOMINION TIRES and ACCESSORIES are distributed through DOMINION RUBBER SYSTEM BRANCHES and sold by the Best Dealers throughout Canada. 146

Circular to Temperance People. The present article will close with the following circular, issued to "the friends of temperance in the province of New Brunswick," and which has reference to the criticism that has to be met in these days. It shows well the character of the temperance men of those days, and carries names outstanding in the temperance history of this province: CIRCULAR. We, the undersigned, members of the Grand Division of the Sons of Temperance of this province, deeply solicitous for the advancement of the great moral reformation, which our order is intended to effect, feel constrained to draw the attention of all friends of temperance and a consideration of the true character of our organization. Among the various charges made against us we select one, which alone appears from its nature and magnitude worthy of remark; that our movements are directed to the secret accomplishment of other ends than those for which we professed by labor, that we seem to compass a political as well as moral revolution. As a complete refutation of all statements of this character of our readers to the array of names which follow these observations. Examine them and pronounce your verdict. Guilty or not guilty. There they stand, Wing and Tory, Churchman and Dissenter, English, Irish, Scotch and American, united in one common cause, influenced by one common feeling, advocates of one broad expansive and expanding movement. We put the question is it likely that such elements would or could combine in a political or even religious movement, bearing the impress of partisanship or sectarianism. If you can gather into one united mass, the two thousand men who have already enlisted in our province alone and add to them the 200,000 of the United States, and propose the question, and ask them upon their sacred honor as men to say whether there is not in our principles some concealed political or religious enterprise, that mighty band, with a steady voice, united as the voice of one, would utter a decided, truthful, emphatic, No! Praying that the Giver of all Good may continue to prosper our exertions
