

THE GREAT GERMAN PLOT

A Conspiracy Against The Liberties of Europe

(By Arthur Conan Doyle) It will be a fascinating task for the historian of the immediate future to work out the various strands of evidence which seem to be independent and yet when followed up converge upon the central purpose of a prearranged war for the late summer of 1914—a war in which Germany should be the prime mover and instigator and Austria the dupes and cat's-paws.

Of course, there are some great facts patent to all the world. There is the sudden rapid acceleration of German preparations for the last two years, the great increase of the army with the colors and the special emergency tax which was to bring in fifty millions of money. Looking back, we can see very clearly that these things were the run before the jump. Germany at the moment of declaring war had accumulated by processes extending over years all the money which by borrowing or taxation she could raise, and she cannot really expect the rest of the world to believe that it was a mere coincidence that a crisis came along at that particular and favorable moment. All the evidence tends to show that the long planned outbreak—the "letting-go" as it is called in Germany—was carefully prepared for that particular date and that the Boerian assassinations had nothing whatever to do with the matter. A pretext could very easily be found, as Bernhardi remarks, and if the Crown Prince of Austria were still alive and well we should none the less have found our cup at death-grips with the Kaiser over the Belgian infraction.

There are a number of small indications which will have to be investigated and collected by the inquiring chronicler. There is, for example, the receipt of guns for a merchant cruiser in a South American port which must have been sent off not later than July 10, three weeks before the crisis developed. There is the document of this same date July 10, found upon a German officer which is said to have assured him for not having answered some mobilization form on that day. Then there is the abnormal quantity of grain ordered in Canada and America in May and finally there is the receipt of mobilization warnings by Austrian reservists in South Africa, advising them that they should return at a date which must place their issue from Vienna in the first week of July. All these incidents show the absurdity of the German contention that at a moment of profound peace some mobilization was sprung upon them. There was, indeed, a surprise intended, but the surprise was not in the mobilization, which they had expected, but in the fact that they had expected it. I think their machinations were too cunning to succeed. They had retained the humorosity but lost the ability for that sudden tiger pounce which Frederick, in moment of profound peace, made upon Silesia.

European Suspensions

I fancy that every chancellery in Europe suspected that something was in the wind. It was surely not a mere coincidence that the grand fleet ready for action at Spithead and that the First Army Corps was practicing some very useful mobilization exercises at Aldershot. After all, our British Administration is not so simple-minded as it sometimes seems. Indeed, that very simplicity may at times be its most deadly mace. At one time, my attention was much attracted in spirit over the case with which foreigners were shown over our armaments and yards. I had to meet the head of the Naval Intelligence Department. I confided my trouble to him. It was at a point in the conversation that I had never needed any reassurance upon the subject.

Why Are Ten Tons of Quinine Used Every Year?

This enormous quantity of Quinine alone (representing about 1/50th of all the Quinine produced in the world) is required for the preparation of Laxative Bromo Quinine, Seven Million (7,000,000) Boxes of which are used every year because of its extraordinary merit.

After reading the accompanying label on the box of Laxative Bromo Quinine, telling what it does and how it does it, you can understand why this remedy is used so effectively by so many millions of people. Whenever you feel a cold coming on think of the name Laxative Bromo Quinine.

—but remember there is Only One "Bromo Quinine" To Get THE GENUINE, Call For The Full Name Laxative Bromo Quinine

WHEAT GOES DOWN

Chicago, Oct. 26.—Free selling led by one of the largest concerns here more than counteracted in the wheat market today, the influence of bullish cables. There were indications, however, that the demand from Europe continued. On the other hand, wheat was expected to be larger than expected. After opening 1-3 to 7-8 higher, the market receded below Saturday night's level.

While repairing one of the streets in Newburyport, the men found rails, the remains of an old horse-car railway. They were in good condition about two feet below the surface.

YOUNG PEOPLE DID WELL FOR BELGIANS

Miss Bertha D. Priest and Master Ralph Horsman, with the assistance of some friends, succeeded in raising \$18.85 for the Belgian Relief Fund on Saturday by means of a candy sale and parlor concert at 445 Main street.

During that long pilgrimage, he gathered 3,000,000 names for his petition to President Wilson for the release of his fathers, who is now serving a life term in the penitentiary at Waupun.

EXTEND FISH HATCHERY PLANT

The Dominion government is planning an extension to their fish hatchery plant on the Little River of the Loch Lomond road. Last year they secured a lease of a block of city property there and established their hatchery, and now they wish to install a breeding pond for the young fish after they have been hatched.

A. G. TURNEY'S PEOPLE IN BELGIUM

Living in a town in Belgium now under the control of the Germans, is the predicament of A. G. Turney, provincial horticulturist. No word has come to him since he left his home in West Quincey, Mass., after spending a month with Mrs. Mamee's family in the city of Montreal.

RECENT DEATHS

The death of George Brampton occurred in Musquodouvo, Nova Scotia, on last Thursday. He was twenty-nine years old and is survived by his mother, Mrs. Henry Greer, of Moncton, three brothers, Dorman, Edward and Harry of Moncton, and three sisters, Mrs. G. McNeill, Mrs. John W. Cripps and Mrs. William Page, all of Moncton.

The Winnipeg Tribune, of October 25, says—Mrs. Pearl Rogers, wife of Charles Rogers, who gave birth to triplets on Sunday night, died last evening. The three children are in excellent health and are apparently thriving. Mrs. Rogers was the mother of two other children. She came to West Kildonan about eight years ago, with her husband, from their native village of Wheaton, settlement, New Brunswick.

At the home of her brother, George A. Johnston, Nashwaakiss, at an early hour on Saturday morning, Miss Mary Johnston died, aged eighty-two years. Her only surviving brother is George A., with whom she made her home.

The death of Elizabeth Smith, aged eighty-six years, occurred on Friday at the home of Arthur Gordon, New Brunswick.

THE HOUSING PROBLEM.

To the Editor Evening Times and Star:—I saw, in the Times, the other day, a "Housing Scheme" by Mr. Likely. Houses of six rooms, including bath and toilet at \$15,000, to be paid for at the rate of \$15 a month. This is the best that has appeared as yet, because it brings it nearer to the working man. Even \$15 a month would be too much for some of our laboring men to pay, while they are working at \$17.5 a day, and not always sure of a full week at that. It is the workers who build up the city, but some people appear to have entirely lost sight of that fact.

In an immense new country like Canada every working man should have a building lot free, given to him by the city, county, or province, with a clause, to prevent him from selling it. "The land belongs to the people," but it is rapidly passing into the hands of a few of them, mostly land sharks.

Even in overcrowded England, a poor man can rent a quarter or an eighth of an acre 15 ft from the city just outside the city limits, to grow vegetables for his family. It would be easy to do so here, where there are thousands of miles of land awaiting cultivation. The common land that was a feature of our forefathers in England is rapidly disappearing there. Do we not remember in our school days, reading in Macaulay's "Lays of Ancient Rome," of 2,000 years ago, how Horatius kept the bridge, and his reward? They gave him of the "common land" that by the river lay; as much as two stout oxen could plough on a summer's day. The land that be-

longed to the people, and donated by them when they thought fit to do so. Where is our common land? In the hands of people who blackball the lumbermen? If both political parties would quit grafting and calling each other names, something might be done; but at present, I suppose, we ought to be content with the "Housing Company" which has begun to materialize.

I remain, Sir, respectfully,
Yours respectively,
CIVICUS.

WHAT CATARRH IS

It has been said that every third person is troubled with catarrh in some form. Science has shown that nasal catarrh indicates a weakened condition of the body, that the secretion of the mucous membranes are quickly affected, and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-ford in Scott's Emulsion which is a medicinal food and a building-tonic, free from harmful drugs or opiates. Try it.

P. E. I. POTATO CROP

Charlottetown, P. E. I., Oct. 26.—The surplus of potatoes for export from P. E. Island this year is estimated at nearly 2,000,000 bushels. Among the markets to be served will likely be Saskatchewan and other parts of Western Canada. The six island starch factories will use about 150,000 bushels and are paying thirty-two cents a hundred pounds for the crop. The remainder of the surplus of the island is now in the hands of the United States embargo is hoped for the crop is now practically all out of the ground and it is now the middle of the shipping season. If the demand abroad does not meet expectations, a larger quantity than usual will be fed to the live stock, and much will be held over till the spring.

RECENT DEATHS

David J. Gleeson.
News that will shock many in St. John came to the city in a telegram yesterday announcing the death of David J. Gleeson in Ottawa. He had been ill for the last month but as that was not generally known here, announcement that he is dead will come as a painful surprise.

Mr. Gleeson was the eldest son of Mrs. Margaret Gleeson, Richmond street, and the late Patrick Gleeson, so long prominent in the life of St. John, especially as sexton of the Cathedral of the Immaculate Conception. For some years D. J. Gleeson was a valued member of the customs house staff here. His ability won him advancement to the larger of his offices, and was transferred to the inside service in Ottawa. There he continued his success and won promotion to the rank of Inspector. He was always warmly welcomed and he was a devoted friend of the poor. He was a man of excellent qualities and was held in high regard by all who knew him.

Mr. Gleeson is survived by five children, three daughters and two sons, in Ottawa, his wife, and his mother in St. John, three brothers—John F. and P. J. of this city, and W. L. in Boston; and two sisters—Mary and Regina, at home here. His brother, P. J., has been in Ottawa with him for the last four weeks on account of his illness. Interment will be in Ottawa, where Mrs. Gleeson is buried.

The news of the sudden death of Agnes, beloved wife of John McIvor, will be learned with deep regret by a large circle of friends. Mrs. McIvor passed away on Saturday in the 38th year of her age, leaving besides her husband, four sons and six daughters to mourn. The loss of the mother to the family of ten children is especially sad in the fact that the youngest child is only six days old. A son is at present a member of the artillery corps at Partridge Island.

The funeral will take place this morning from the residence of Mr. McIvor, 88 Millidge avenue. Service begins at 10 o'clock.

Interment will be in Cedar Hill cemetery.

The death occurred yesterday of Julia, widow of Daniel Daley, leaving two sons and one sister to mourn. The funeral will take place tomorrow morning at 10 o'clock from her late residence, 41 Britain street, to St. John Baptist church, for requiem mass.

Winnipeg, Oct. 25.—Hon. Colin Campbell, formerly a member of the Manitoba cabinet, died at the home of his wife, Mrs. Campbell, at an early hour this morning, of Miss Mary J. Johnston, aged 92 years. Her death was due to infirmities of old age.

Mrs. J. C. Bishop

New York, Oct. 26.—Mrs. James Cunningham Bishop, divorced wife of a millionaire banker, is beginning to feel the "pinch of poverty" and she has filed a petition in court asking that her alimony be increased from \$15,000 annually to \$25,000.

The recent increase in the cost of living and general "hard times" is the reason Mrs. Bishop gives for her demand for more alimony. The Bishops, who are prominent in social and financial circles, were divorced in 1912.

MORE MEN, MORE MEN.

"It's a long, long way to Tipperary." We are now close to the end of the third month of the war. The German armies are still in France and Belgium. They have not been driven back to the first line of defence in their own country. They are holding their position with dogged tenacity. The winter season is approaching. How long will it be before they are compelled to retire into Germany, and how long a time will elapse before the allied troops have driven them back step by step to Berlin?

There is, however, one great source of satisfaction. The Germans expected to repeat the achievements of 1870, and they have utterly failed to do so. In the war of that year France was conquered in the first three months, although peace was not declared for several months later. In the present war Germany advanced to the neighbourhood of Paris, but was then compelled to retire, and has ever since been gradually losing ground. What could not be accomplished on that first march to Paris will not be accomplished in late fall or winter weather. But the German armies must be driven out of France and out of Belgium. In order that this may be accomplished reinforcements must be sent to the allied armies. Kitchener has another army in the making in England, and one report on Saturday said that France had another half million men, chiefly reservists, ready to go to the front. Germany, however, is still able to fill up the gaps in her ranks, even if she cannot greatly increase the number of men in the field.

Why should there be any delay in Canada in recruiting more men and giving them as much drill as possible at home before they are sent across the Atlantic? Why does not the word go forth to recruit and drill men in large numbers in every centre large and small throughout Canada. This business upon which we have entered will not be closed up in a few months. The experience of the last three months should teach us that lesson. More men must be sent to the aid of Sir John French, and Canada should contribute at least 100,000. Why should there be any delay in preparation? If this country could equip and send 50,000 men to Salisbury Plain within less than three months after the outbreak of the war, she can get as many more or twice as many more in training at home within a very few weeks. Public sentiment should be given expression as would make it clear to the government that the country is behind it in pursuing with the utmost vigor the policy of preparing to place at least 100,000 Canadians, well drilled and armed and equipped, at the service of the Mother Country in this crisis.

THE WAR NEWS.

It is quite easy to believe that the fighting now in progress in northern France and western Belgium is the most sanguinary of the whole war. The Germans realize that if they fail now to break through the allied lines they must ere long retreat, and abandon all hope of resuming the march to Paris. It is reassuring to read that although the Germans threw themselves in masses against the allies, and appeared to have an inexhaustible supply of men, the allies also had at their disposal fresh troops and successfully repulsed the attacks which were delivered again and again in a desperate effort to break through. It is also very pleasing to read that the transport arrangements of the allies are working well, and that the men at the front are well fed and well supplied with ammunition, while the ambulance service enables them to attend quickly to the wounded and have them transported to the hospitals. All this is of the greatest importance, and in this respect the allies appear to have the advantage over the enemy, whose medical corps and stores are reported to be inadequate, with poor accommodation also for taking care of wounded soldiers.

The losses on both sides have been very heavy during the last three or four days; but that of the Germans was very much greater, because they advanced to the attack in solid formation and their men were literally mowed down by the artillery of the allies. Another German submarine has been destroyed off the Dutch coast. The vessels of the British bombarding fleet along the Belgian shore have rendered the greatest assistance to the army and inflicted heavy loss upon the Germans. In Poland the Russians, after driving back the Germans who were advancing upon Warsaw, are hurrying up reinforcements to pursue the advantage gained, and heavy fighting is still in progress. The Austrian armies appear to have got a new lease of life and the task of the Russians continues to be one of great magnitude, but they are gaining ground.

We are told that the German military authorities are still confident of ultimate victory, and that in Berlin some gentlemen of a statistical turn are preparing an estimate of what England will be asked to pay when her power on land and sea has been utterly broken. Meantime, however, German exploits at sea are not such as to indicate that their fleet is in any hurry to come to grips with that of Britain in the North Sea.

THE CANTEN

The members of the Women's Christian Temperance Union in Canada have protested against the open canteen for the Canadian troops at the front. That they are not altogether without some justification appears in an appeal from Lord Kitchener which has just been issued, urging strict sobriety on the part of all soldiers, and urging the public to refrain from treating soldiers and to assist them in every way to avoid temptation. There are a great many fathers and mothers in Canada who consented to the enlistment of their sons, but who would be extremely sorry to have those sons subjected to the temptation of drink. More significant, however, than the protest of the W. C. T. U., or of Lord Kitchener himself, is a copy of an English "war poster" on the effects of alcohol on naval and military work. It reads as follows:

- "To all men serving the Empire: It has been proved by the most careful scientific experiments and completely confirmed by actual experience in athletes and war as attested by Field Marshal Lord Roberts, V.C., K.C.B., Field Marshal Lord Wolseley, K.P., C. B., and many other army leaders that alcohol or drink: 1. Slows the power to see signals. 2. Confuses prompt judgment. 3. Spills accurate shooting. 4. Hastens fatigue. 5. Lessens resistance to disease and exposure. 6. Increases shock from wounds.

"We therefore most strongly urge you for your own health and efficiency, and at least as long as the war lasts you should become total abstainers. "Signed: Thomas Barlow, M.D.F.R.S., K.C.V.O., Pres. Coll. Phys., Physician to H.M. the King, Frederick Treves, F.R.C.S., G.C.V.O., Hon. Col. R. A.M.C., T.F. Sergeant Surgeon to H.M. the King; G. J. H. Ewalt, M.D.C.B., Surgeon-General R. A.M.C.; Victor Horsley, F.R.C.S., F.R.S., Captain R.A.M.C.; G. Sims Woodhead, M.D.F.R.S., Lieut.-Col. R.A.M.C., L.F."

The retirement of Gen. Von Moltke, the German chief of staff, on account of ill health, is confirmed. This is the officer whose name was expected to strike terror to the hearts of the French.

It was a red letter day for the Canadian on Salisbury Plain when they were inspected by the veteran Lord Roberts, who has been one of the heroes of the Canadian school boy for very many years.

There is a vast difference between a purely commercial character and one such as was held in this city last evening. The concert of this latter character are appreciated no one could doubt after last night, when the great theatre was large enough to accommodate all who desired to attend.

Those who attended the sacred concert in the Imperial Theatre last evening carried away among their impressions one to the effect that in the City Cornet Band St. John has a musical organization of which it may well be proud, and another to the effect that it is a good thing to see members of all classes and creeds coming together, united by a common bond of sympathy, and inspired by something more than a mere desire to be entertained.

While the official announcement has not yet been made it is understood that Lieut.-Col. J. L. McAvity will command the New Brunswick regiment in the second Canadian contingent. Lieut.-Col. McAvity has earned this honor by his unwearied activity in connection with military affairs in St. John for some years, and especially by the splendid service he has rendered in connection with recruiting men and arousing enthusiasm in this part of Canada in the matter of sending contingents to the front.

The rector of St. Paul's church, Rev. E. B. Hooper, in the course of his sermon yesterday morning, expressed the hope that young men from St. Paul's may be among the first to join the second contingent, and announced that he had himself offered his services to accompany the New Brunswick regiment as its chaplain. This is the spirit which must prevail if Canada is to do her share in the defence of the Empire.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens so Naturally That Nobody Can Tell

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also cures dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home which is messy and troublesome. Nowadays, by asking for "Wynell's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe for about 30 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, thick and glossy.

M. Rouzier Doreise of Paris, who has fought many duels and directed more than 200 others, enjoys telling the following story: Two gentlemen who had decided to settle a quarrel on the field of honor betook themselves, with their seconds, to a quiet country spot, where they would be free from reporters, photographers and spectators, and where the only witnesses would be some cows peacefully grazing in the field. While the necessary preliminaries were being carried out the farmer, on whose land they were, rushed up. "Excuse me, gentlemen," he said, "but is it a sword or pistol duel?"

"Sword. But what difference can that make to you?" "Well, you see, if it was with pistols I'd want to take the cows in first."

It was the kindly custom in the village for the well-to-do inhabitants to make good any loss which the villagers might sustain through the death of any live stock. The retired manufacturer, who had only recently settled in the village, was ignorant of this laudable proceeding, and was considerably puzzled by the "bait" of a laborer's wife, who explained that she had lost a pig.

"Well, I ain't got it," explained the bewildered newcomer.

"What I mean, sir, is of course, the pig died," nervously explained the woman.

"Well, what do you want me to do?" cried the thoroughly exasperated man. "Send a wreath!"

U. S. INDUSTRY RIVALS WAR IN KILLING

Atlantic City, N. J., Oct. 26.—American industries are killing men at the rate of one every four minutes and wounding them at the rate of one every four seconds. F. C. Henderschott, manager of the bureau of education of the New York Edison company, made this startling statement in an address to the American Electric Railway association here.

The total of 75,000 by which is reckoned the number of persons killed by accident annually in the United States he said exceeded the deaths of union soldiers in the civil war. As one of the chief causes of this terrible toll, he placed liquor, a safety engineer in charge of a department of safety should be a part of the organization of all large industrial concerns, he asserted, as the most necessary step in reducing these industrial accidents.

REV. DR. O'REILLY IN ELOQUENT LECTURE BEFORE ST. PETER'S Y.M.A.

The opening lecture of the winter series in the programme arranged for the St. Peter's Y. M. A. this year was delivered yesterday afternoon by Rev. Dr. J. A. O'Reilly, who took as his subject "The Church in Newfoundland." Dr. O'Reilly was given an attentive and appreciative hearing as he traced the growth of the ancient colony through its early years, speaking of the periods of discovery and settlement—and also dwelling at length upon the remarkable advancement during the last decade in trade and commerce and general development. Having spent so many years of his life on the island, Dr. O'Reilly is well able to describe affairs there—and he impressed his hearers yesterday afternoon in a convincing and entertaining manner.

The coming of the Cabots to Newfoundland was touched upon and the early struggles of the early settlers to found colonies there. He spoke of the worth of the Catholic church in this regard, saying that she had always stood by to help in the opening up of new countries and to promote the work of civilization. He traced the growth of the Catholic religion in the island and showed how, even in the smallest villages throughout the colony, the influence of the church and priest was seen for the general good. The industrial life of Newfoundland proved of interest and the attitude of the country on the question of confederation was also dealt with in an instructive manner. Dr. O'Reilly made reference to the loyalty of the old colony, and spoke of her sending many of her ablest sons to the war.

At the close a hearty vote of thanks was tendered the speaker by the president, B. J. McCovern, moved by J. U. Haggarty and seconded by Joseph Devor. The address was most educative and inspiring and gave those present an insight into a chapter of history with which many Canadians are not familiar the settlement and development of Newfoundland.

A Lucky Discovery. Matlock Bath has successfully tapped an auxiliary water supply during the last day or two (says the Westminister Gazette). It was a lucky find by the vice-chairman of the council (G. Key), that has given a new source of water to the town free of cost. For years the council has been in a difficulty each summer to cope with the demand for water by the thousands of visitors to the district, and it has been obliged to buy water from a neighboring authority at 1s. per 1,000 gallons. That has cost the rates up to 2d. in the £1, and this amount is saved to the rates. The supply now added has a curious history. A century ago a Manchester man sank 200,000 in lead mine workings, and struck a large spring, which flooded him out, and he lost all his capital. The water has been analysed, and has proved to be excellent in point of purity for domestic supply.

Kilts For Male Bathers. Bathing costume for men is now exceedingly much concerned in American seaside resorts as costume for women, the Telegraph says. In Newport women policemen patrol the bathing quarters and insist upon fair bathers being dressed—or undressed—decorously. The fashion for women, as set at Atlantic City recently, when a sort of modified tango costume was introduced, is being adopted generally. Dancing on the sands and exercise with a "medicine ball," in which bathers of all ages participate, have been successfully inaugurated during the last few days. At Dayton (O.), "The Welfare Director," as he is called, that role being skin to a censor of public morals, has ordered men bathers to wear kilts. Moreover, he has provided kilts—a kind of kilt effect, reaching about half-way to the knee. "They are modern and proper," says he.

FOUND A FRIEND IN DR. CHASE

His Medicines Proven Effective, and Always Kept at Hand in This Home. Mrs. Chas. Lovell, Agassiz, B. C., writes: "I feel it my duty to tell you what a great friend Dr. Chase's medicines have been to myself and family. I cannot praise his medicines too highly, and Dr. Chase's name is a household word in our home. Well, quite a number of years ago I sent you for a sample box of Dr. Chase's Ointment for protracting piles, and, having used the sample and found relief, I sent to a neighboring town for four boxes, and I am completely cured. "I have also used Dr. Chase's Kidney-Liver Pills for constipation, and, after using them, I am completely cured of this dreadful disease. I am the mother of ten children, of whom nine are living, and when seven of my children were all very bad with whooping cough, caught in the middle of a severe winter, I used Dr. Chase's Syrup of Linseed and Turpentine, and they were all cured before the winter was over, and now we are never without Dr. Chase's medicines in our home, and I recommend them to all."

WARNING

THE WAR in Europe has involved nearly the countries in which dolls and toys are produced, all indications point to the worst doll and toy famine that this country has ever seen. Many merchants find themselves short of stocks. We were fortunate in having our orders shipped thirty days earlier than usual this year, and have received ninety-five per cent. of our stocks. We think we have dolls and toys enough for all our regular customers, but so there may be no misunderstanding we say plainly, that people who defer their holiday purchases this year do so at their own risk. At present we have one of the best assorted Christmas stocks ever seen in Canada. There will be no repeat orders this year. For this reason we earnestly urge you to buy your dolls and toys at once. There is much to lose and nothing to gain by waiting.

BABY ECZEMA BECOMES CHRONIC

Causing Great Suffering and Anxiety—Prompt Relief and Cure by Dr. Chase's Ointment.

This is one reason why every mother should know about Dr. Chase's Ointment, since it is an unfailing cure for all itching skin diseases.

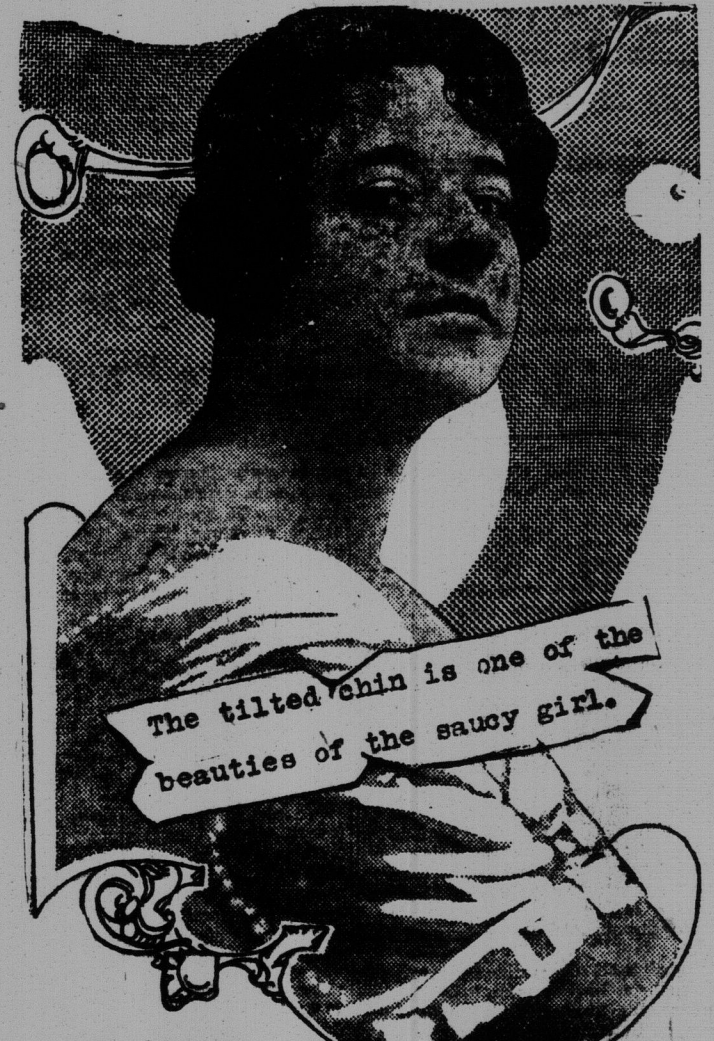

Here is another letter, which tells of the cure of a five-weeks-old baby: Mrs. Wallace Mingo, River John Road, Colchester County, N. S., writes: "My little girl took eczema when she was five weeks old."

WEEK-END CABLES TELL OF TERRIFIC FIGHTING

Paris, Oct. 25, 11.51 p.m.—The German masses at La Bassee appear, from the desperate efforts which they are making, to be trying to shake themselves loose from the close grip of the Allies, who manage their communications from there and from Armentieres.

Both sides have suffered terribly. The Black Watch and Royal Irish regiments have been in the thickest of the fighting, and the British casualty list is very great, although much smaller than that of the Germans, who encountered them in solid formation.

Of the battles on the centre and left wing the German report does not speak, but the French declare they are maintaining their positions in the Argonne and on the heights of the Meuse, and have destroyed three more German batteries.

In Poland a very heavy battle is now in progress between the fortresses of Inowrod and Radom, where the Germans and Austrians, who were defeated in their first attempt to cross the Vistula before the former city, have made a stand against the Russians, who have followed in the hope of destroying them.

Some estimates place the German losses there at five thousand drowned, besides thirty thousand killed and wounded. This may give some hint, the despatch adds, as to what is meant when it is declared that the fighting in this region is the most desperate of the entire war thus far.

Living and Dying Under Bomb Fire of Zeppelins; Horror of Sky at Antwerp Described By One Who Was There

Children Blown Up While Asleep, Girls' Faces Torn Off By Bombs, Falling Houses Crushing Inhabitants—That's What Night Attack By Air Fleet Means

(By H. J. Phillips) Ostend, Belgium, Oct. 7.—(By Messenger to London)—I have just conducted a masterly retreat to Ostend. I was practically on Antwerp's five-year line when the Germans were within striking distance of the goal.

ed her as best they could wrapped in blankets and rugs, in their own flower garden. From this calm and silent scholar I learned, not without difficulty, as he spoke reluctantly, of the horrors the people of Antwerp went through.

about sixty houses destroyed. In one house four persons were found dead. Indeed, in one room two people had been blown to atoms. Three men were walking in the Rue de la Corne, when one of the bombs fell. One was killed and the other two mortally wounded.

The Federals.

Chicago, Oct. 26.—Clubs of the Federal League played to 1,600,000 persons last season, according to a statement made by James A. Gilmore, president of the league.

Chance for Meredith.

New York, Oct. 26.—Lawson Robertson, coach of the Irish-American A. C., says that a special 660-yard race has been added to the programme of the I. A. C. games, which will be held in Madison Square Garden in 11 months. The event was put on the programme so as to give Ted Meredith, the great middle-distance runner of the University of Pennsylvania, a chance to meet Homer Baker of New York A. C. In a recent race at this distance Baker beat the Pennsylvania flyer, since when Meredith has been anxious for another race.

FOOTBALL

Fredericton Loses Again

The Fredericton High School football team returned home Saturday evening after a rather disastrous trip to the city, having lost two games and one of their players receiving a fractured shoulder.

At Rothsay on Saturday afternoon, the Fredericton boys were trounced 10 to 0 by Rothsay Collegiate School. Brewer's shoulder was broken during the game and he was replaced by Purvis. St. John High now leads the league, having won both games played; Rothsay has a win and a loss and Fredericton two straight losses.

U. N. B. Winners

U. N. B. football team scored a decisive victory over Dalhousie players at Fredericton on Saturday, beating them 8 to 5 in a fast, rough game. Bob Melrose of St. John scored both tries for U. N. B. John C. Dolan refereed.

NOTES OF THE WAR

Adelina Patti sang at a patriotic concert in Albert Hall, London, on Saturday evening before the king and queen and other members of the royal family.

Maxine Elliott, the famous American actress, has given a motor ambulance to the Duchess of Sutherland's Hospital Corps in France and expects to do the front herself as a red cross nurse.

The national relief fund in England, known as the Princess of Wales Fund, is now more than \$16,880,000. The London Times fund for sick and wounded now amounts to \$2,800,000. The Daily Telegraph raised \$200,000 for the Belgians in a few days and the Pall Mall Gazette has raised \$125,000 for the Belgians. A fund for wounded and needy London soldiers now amounts to \$275,000. Princess Mary's fund for Christmas gifts is now \$90,000, besides \$5,000 from the Daily News readers for Christmas puddings. Queen Mary's fund for providing work for women has reached \$400,000.

INDIANA POLITICS WARMS UP AS BEVERIDGE MAKES FIERCE FIGHT TO "COME BACK" TO SENATE

(By Gibson Gardner)

Indianapolis, Ind., Oct. 26.—Indiana is producing this fall a full line of its well known brand of politics. The output is in no respect below standard.

There are three senatorial candidates in the field—democratic, progressive and republican. There are state, county and local tickets (except governor and lieutenant governor) before the voters.

There is a vigorous and expensive campaign being pushed by the Republicans, to rehabilitate their party and make it what it was in the days when McKinley, Hanna and Charles Warren Fairbanks reigned.

There is a vigorous campaign on also by the Progressives under the lead of Albert J. Beveridge, to keep the old reactionary Republicans from "coming back" and to send Beveridge back to the United States senate.

All the animosities of the feud between Beveridge and Fairbanks, with their respective followings, are in evidence.

Until very lately the Democrats have been serenely confident that the divided opposition would give them an easy victory and would insure the re-election of United States Senator Benjamin F. Shively. Now they are worried. Shively has been told he must come to the state and make some speeches. At this writing he is heading this way.

The republican candidate for United States senator is Hugh T. Miller, originally a college professor, then in the state legislature and later lieutenant governor under J. Frank Hanley.

Behind him are Jim Watson, who stands for all that is bad in reactionary republican politics and former Vice-President C. W. Fairbanks, whose political record is not yet forgotten. Both are on the stump for Miller.

The Republicans are attempting a revival of Mark Hanna's "full dinner pail" campaign of 1896. While the rural element, which is 60 per cent of the population, is prosperous, the industrial communities have had a touch of hard times and the republican managers are appealing to this discontent and holding out vague but generous promises that prosperity will return if they are returned to power.

Beveridge is getting the crowds. Since September 14 he has been making an automobile canvass of the state, averaging from three to ten speeches a day.

In favor of Shively the Democrats are using President Wilson's letter of indorsement saying that Shively had helped him in carrying out his policies and asking that he and the whole democratic delegation in the house of representatives be returned. Bryan has been in the state with a few speeches to the same effect.

As to the outcome of the election, predicting is difficult. Beveridge is no doubt the strongest candidate and the best man. He is brilliant and stands for those things in the economic and political development of the nation, which, in the end, must prevail. He is opposed by shrewd opportunists on the one hand, who are not above holding out hopes of ancient graft to those "business men" who are affiliated with special privileges and wish to use the government for their private gain.

President Wilson carried Indiana two years ago with 281,000 votes. Roosevelt got 182,000, and Taft 151,000.

I expect to see a marked decrease in the democratic vote. Some of the Wilson Democrats will vote for Beveridge and some of the Roosevelt vote will drop back to republican regularity. Beveridge will poll a larger vote than his opponents anticipate and if Shively wins he will find that his margin of safety was such smaller than he supposed.

THE SACRED CONCERT FOR THE BELGIANS ON SUNDAY GREAT SUCCESS

Excellent Programme by City Cornet Band and Other Local Talent in Imperial Theatre in Aid of Relief Fund—Many Turned Away

Long before the honour of commencement last evening the Imperial Theatre was crowded for the sacred concert conducted under the auspices of the City Cornet Band in aid of the Belgian relief fund. Many failed to secure admittance, with the assistance of those who contributed to their programme last night, a very substantial sum will be added to the Belgian fund.

The programme given could hardly have been arranged with better taste and it would be practically impossible to have afforded greater pleasure than was given the vast audience. Every number proved popular, and was received with delight by all present. The programme was given in detail by the Times-Star on Saturday.

Among those present were Lieut.-Gov. Wood and party, and His Worship Mayor Frink and party. The mayor made a brief speech eulogizing the efforts of the City Cornet Band for the relief of the oppressed and suffering and complimenting them highly. Mention of the kindness in co-operation in this and other movements by the Keith Amusement Company through their popular local manager, W. H. Golding, and his very active aid was also made. The band, are deeply thankful to Mr. Golding for his material assistance in making the affair so successful.

The solos by Mrs. L. Murray Curran, Madam Furlong-Schmidt and Miss Nellie Colahan were charmingly rendered, while the vocal numbers of M. T. Morris, C. A. Munro and H. Mayes gave pleasure to all. A cornet solo by D. J. Gallagher and a violin solo by Prof. Casson afforded great delight. The selections given by the band under the capable direction of Prof. Waddington added to their laurels already creditably earned as musicians of outstanding ability and their playing of each number won hearty applause, and they richly deserved the favorable comment accorded.

While every number is deserving of the highest praise special mention might be made of the singing of Madame Furlong-Schmidt. In her many previous public appearances in St. John her versatility has added to the enjoyment of her beautiful and well trained voice but it is safe to say that never did she give her hearers more sincere pleasure than in her impressive rendition of "There is a Green Hill Far Away" followed by a French sacred song "Mon coeur a cours a ta voix."

Professor Silas Casson who has been heard only too seldom in solo work since he came to St. John, delighted the big gathering with the technical skill and the fine feeling with which he rendered the Ave Marie, by Schubert and a Romance, by Rubenstein.

YOUTH WILL BE SERVED

Don't overlook the lesson in the words of the sacred baseball championship. It is that reaction must give way to progressivism; not ideas, not the old, are to rule, age must stand aside for youth, the veteran always has an end of his day and must surrender to the recruit. What is true of baseball and war is true of ordinary life. The successful old man hangs on to his old-fashioned ways of doing business to the embarrassment of the general welfare.

It is said of Manager Stallings of the Boston champions that he picked up one or two veterans for brain work, and youth and inexperience that could be developed to the limit of its capacities.

What he really did pick up was youth, energy and nerve. He ran this combination, after development, up against veterans. These had rules of combat, the usual way of doing things, the old ideas, the status quo. He won because this is the age when you are old at forty-five years and dead at sixty whether they bury you or not.

**NOT HEARD FROM IN
 EIGHT YEARS, WANTED
 FOR SETTLING OF ESTATE**

The probate court today took up the matter of the estate of Mrs. Catherine Elizabeth Fleming, late of Somerville, Mass., widow. She died intestate in Somerville in January, 1910, leaving a debt due her here. William F. Fleming of North Cambridge, was appointed administrator there, and now on his petition he was appointed administrator of the estate within this province. There is no realty, personally owned \$100. Dr. W. B. Wallace is proctor.

In the matter of the estate of William Ramsford Colwell, late of Bangor, Me., lumberman, Charles H. Colwell of St. John, wholesale feed merchant, the administrator, presented his accounts and asked for a citation for passing them. A citation was issued returnable on November 30, at 11 a. m. All the next of kin of the decedent reside in the province with the exception of Agnes Colwell, who lives in Boston, and Robert Colwell, a brother of the deceased, who was last heard from in Vancouver about eight years ago, but whose address is not known. Should this reach the eye of anyone who knows his address it is requested that communication be made with the solicitors for the administrator, Barnhill, Ewing & Sanford, proctors.

In the matter of the estate of Miss Elizabeth Young, there was return of citation to pass the accounts of Mrs. Rebecca A. Woodley, widow, a sister and administratrix of the deceased. The accounts were gone into and found correct and passed and an order for distribution will be made. Clarence H. Ferguson is proctor.

Visit From Organizing Secretary Gives Impetus in St. John

The Boy Scout movement in St. John has received, during the last few days, a visit from the secretary for organization, who is at present devoting his time to the boys of this province. Mr. Perrott, the secretary, in talking to the Times this morning, said that troops were being organized throughout the city, and that a meeting of men interested in the formation of a council would take place tonight in the Y. M. C. A. W. S. Fisher has consented to become the president of this council, and it is likely that Mr. Legge, boys' work secretary of the Y. M. C. A., will become provincial secretary for St. John.

Activities of a scouting nature have already started, and on Saturday morning some twenty boys from the troops of St. James' and German street Baptist churches took part in an excursion to Rockwood Park, accompanied by Rev. Mr. Cody, Mr. Ellis and Mr. Perrott. Colonel Wedderburn, president of the New Brunswick Provincial Council, joined the boys at lunch time and a thoroughly enjoyable time was spent.

Mr. Perrott will remain in St. John until Wednesday, proceeding then to McAdam Junction, where a troop has been started, and will continue on throughout the province, returning to St. John in about a month to complete organization here.

An invitation is extended to all men of the city to attend the meeting in the Y. M. C. A.

THE FUNERAL OF MRS. JOHN McIVER was held this morning from her late residence, Millidgeville avenue, to Cedar Hill. Services were conducted at ten o'clock at the home by Rev. J. J. McNeill.

NEW BRUNSWICK'S GIFT.
 It is expected that by Wednesday morning at the latest, New Brunswick's gift of 100,000 bushels of potatoes to the mother country will be on the way to the other side. They are now nearly all aboard the steamer Selskja at West St. John. Besides the potatoes the Selskja has a part cargo of lumber which will be discharged at the same port as the potatoes. To what port she will sail is not definitely known, but it is thought to be London.

A POPULAR PLAN.
 In order to give the city power to deal with obstructions in the street, Commissioner Potts is introducing at the meeting of the council this afternoon a resolution for an amendment to the law making it an offense for any gas company operating in the city to maintain boxes or structures of any kind in connection with their main or supply pipes at a higher level than that of the surface of the street and providing for a penalty for every day each such obstruction is allowed to remain.

SUNDAY DRINKING

Conditions Again Show Up In The Police Court

Three prisoners charged with being drunk on Sunday morning in the police court this morning and were remanded to give the police an opportunity to try to find out where they got liquor. A man was arrested between four and five o'clock yesterday by Policeman McLesse who said that he was given in charge by his people as he was making a disturbance in the South End. "There are five persons in that vicinity who are on my list and who should not be supplied with rum," said the magistrate, "and you are one of them. The initials of the others as I look down over the list are G, M, G, N, and M, D, and until all are arrested and sent to jail for nine months under the vagrancy act, Lower Cove will have no peace. The prisoner, whose initials is K would not tell where he got liquor.

One prisoner pleaded guilty to being drunk in Chapel street yesterday. Policeman Goslin said he asked him where he got the liquor and was told that he could get it everywhere and that it was none of the policeman's business where he got it.

Another pleaded guilty to being drunk in Mill street between ten and eleven o'clock yesterday morning. He said he was a stranger in this city and did not know where he got the rum. He said some man whom he did not know got it for him on one of the wharves. He thought it was called the Long wharf. "Certainly," replied the magistrate, "that's the place and I could tell you several places in the North End and different alleyways where it is sold, which should also be well known to the police."

One prisoner charged with being drunk in the L. C. R. yard off Mill street, where he was found lying across the railway track under a fence car, was fined \$8 or two months in jail.

CHOOSE ST. JOHN FOR RECRUITING

This City Desires to be New Brunswick and P. E. Island

ARMORY FOR INFANTRY

Arrangement of Sleeping Quarters For The Men Mobilized For N. B. Battalion - Artillery Recruits to Patridge Island

St. John will not only be the centre of mobilization for the New Brunswick battalion in the second Canadian contingent for overseas but will also be the recruiting depot for the province, according to a very authentic report today. Recruits will also be brought here from P. E. Island, and accommodation is now being arranged for their stay here while drilling and being put through a course of seasoning. Whether this will be a port of embarkation or not, is not yet known, but there seems reason to believe that it will be in at least so far as the men from New Brunswick and P. E. Island are concerned, and possibly for others from different Canadian districts.

Tenders are to be called this week for the refitting of the new armory, and also for the supply of rations for the troops while they are centered here. The scheme is to house the N. B. and P. E. Island battalions in the armory; and to this intent the rooms in the building are to be remodelled to make comfortable living and sleeping quarters for the volunteers. It is estimated that from 1,200 to 1,400 men can be placed in barracks at the armory, when the rooms are refitted with rows of bunks along the walls.

To the battalion will be issued full equipment here. The barracks area will be used for drilling purposes and drilling will commence within a very short time for those recruited. Officers will be sent through the province to enlist through the recruiting stations. The men will be sent forward to St. John as soon as they are enrolled. The idea of using the buildings at Patridge Island to house some of the troops, in addition to the artillery stationed there, appears not to have met with favor as it would be advisable to train all the infantry together and it would necessitate much inconvenience in bringing the men to and from the island each day.

So far as the artillery are concerned, those recruited will be trained on the island with the garrison now there under Colonel B. R. Armstrong, but the intention is to house all the infantry at the armory.

Going to Halifax
 Twelve men will be selected this evening from No. 7 Army Service Corps under Major McKean for service in Halifax in connection with the mobilization of troops there in Nova Scotia battalion. The members of the unit will meet at the armory tonight and the detachment will be completed. Several have already been chosen. They will leave at ten tomorrow.

Col. A. E. Magie, officer in charge of the divisional staff, left at noon today for Halifax to consult with the militia authorities in connection with the local arrangements. Col. J. L. McAvity will leave tomorrow for Halifax for the same purpose, and his return recruiting will immediately begin for the infantry battalion from New Brunswick. Enlisting in the ranks of the Army Medical Corps, No. 8 Field Ambulance, will commence at the armory tonight, under Captain T. E. Bishop.

ONE OF NOVA SCOTIA'S RICHEST MEN DEAD

Estimated That J. Henry McKenzie Was Worth Quarter Million

Pictou, N. S., Oct. 26 - J. Henry McKenzie, one of the wealthiest men of Pictou county, died last night, after an illness of about a week at his country home, Seaforth, three miles from Pictou. He is estimated to have been worth \$250,000. He was the heir of his grandfather, Roderick McKenzie, who did a large business as general merchant and importer from the West Indies. At that time Henry McKenzie was clerk in the Merchants Bank of Canada. Since then he had lived a life of a gentleman farmer. He married first a daughter of Hon. D. Farquharson of Prince Edward Island, and his second wife who, with two girls and a boy, survives him, was a Miss Smith of Lunenburg.

LUMBER CASE

Evidence was taken in the police court this morning in a case against Fred Riley, charged with stealing lumber from George McKean and the prisoner was remanded until Thursday afternoon when another witness will be called. E. S. Ritchie appeared for him. Frank McArthur, an employee of George McKean, said that about June 27 about 1400 feet of spruce lumber was missed from a scow at the foot of King street. The lumber figured in another theft case in one place, part another. Some of the lumber figured in another theft case which was disposed of some weeks ago. The case was adjourned for another witness who is now out of the city.

Primer Lesson For Manufacturers

The "ultimate consumer" is the factor who must determine your success.

The "ultimate consumer" buys over the counter of the retailer. Both "ultimate consumer" and "retailer" are newspaper readers.

A product advertised in the newspaper appeals to the consumer as something desirable to buy to the retailer as something "easily sold."

A quantity of interest is established that moves the goods from the retailer's shelves.

The answer to success is the Bureau of Advertising, American Newspaper Publishers' Association, World Building, New York.

MEN'S FROCK SUITS to measure 25.00 to 35.00
MEN'S TROUSERS to measure 5.00 to 9.00

We show a great variety of exclusive patterns. We make all our garments in our own shop. We do not take your measure and have the garments made by some clothing manufacturer and call it custom made. We give you one, two or three try-ons to insure a perfect fit. No man too hard for us to fit. The garments are not yours till they are in every point satisfactory to you.

FURS MADE IN ST. JOHN--UP TO A STANDARD

When you buy Magee's Furs you buy the best to be purchased at the different prices. Our Furs are made up to a standard, not down to a price. Of course we carry all furs in different qualities, but each quality is finished in the best manner.

If you have not visited our fur parlor this season, come in this week. We have some very attractive styles and will be pleased to show them to you.

MINK FURS.
 Our stock of Mink is large and we know we have the best styles at most attractive figures. Of course it is impossible to make up every style, but if you wish something not in our stock we will make it up for you.

We only use skins of natural color.

Mink Ties and Stoles, \$20.00, \$25.00, \$30.00, \$40.00, \$50.00, \$60.00, \$75.00 to \$135.
 Mink Muffs, \$45.00, \$50.00, \$60.00, \$75.00, \$90.00, \$100.00 to \$150.
