#### MURDER CASE IN ONTARIO

Coburg, Ont., Sept. 6.—Belief is general now that the man found with a bullet wound behind the left ear lying in a pool of blood between the rails west of Greaton station, was murdered. His coat was soaked with blood and there were bruises on his forehead. No weapon of any kind has been found. The man, it is believed, was in Coburg Saturday night and another man who was recently in his company has apparently disappeared and the police are looking for him. A Standard Bank slip was found on the murdered man, the same as used by the Provincial Steel Company Coburg, and it bears the name of A. Bargan. He was an employe of that company and as \$3 was found on him it seems robbery was not the motive. He wore a moustache but otherwise was clean shaven, of medium weight and height and two fingers of right hand are gone.

Today Dr. Latta viewed the body and place where it was found and adjourned until Monday night next at Greaton town hall. In the meantime a postmortem will be held. Yesterday Crown Attorney Kerr communicated with Mr. Cartwright and last night Inspector Miller, of the attorney general's department, came down. A man was arrested today as a vagrant and brought by Inspector Miller and Constable Smith to Coburg jail. Soon Inspector Miller came to the conclusion that the man was crazy and after telephoning Dr. Clark of the asylum found that such a man had escaped from the institution four or five days ago. His name is George Thornley. There appear to be blood stains on his clothes. Dr. Clark of the asylum says Thornley is harmless.

#### THE QUEBEC BRIDGE

Montreal, Sept. 6.—The Quebec bridge commissioners are meeting here tomorrow, when it is expected that an important announcement will be made regarding plans for the new bridge.

Among those in the city today are Hon. Geo. P. Graham and Messrs. Butler, Modjeska, Vartiel, Holgate and Fitzmaurice. In conversation with one of the engineers your correspondent was informed that the plans and arrangements for the new bridge had been agreed upon.

It is thought that tomorrow's meeting will ratify, before Mr. Graham, the agreement reached by the members of the committee. It is also thought that the services of Mr. Fitzmaurice, who was called into consultation, have had an important bearing on the agreement reached by the commission and it is now hinted that the verdict of the commission will be unanimous.

#### DEATH OF A CHILD

The people of Millidville were greatly shocked by the death of the two-year-old son of Mr. and Mrs. James Hughson, which occurred there at 9 o'clock Monday morning. The little boy was only sick two days. The doctors were unable to do anything for him and he died after being seized with convulsions yesterday morning. The sympathy of a wide circle of friends is extended to the family in their bereavement.

#### DEATH IN SCRATCH.

##### Simple Injuries With Serious Results

Morris Quarzani, an eleven year old Windsor boy, has just died the result of a scratch on his wrist. Poison entered the wound, which was caused by falling off his bicycle, and despite the physicians, the boy died. Such incidents as these—by no means infrequent—ought to make people realize the danger that may lie even in the smallest flesh wound.

Take a simple illustration. When a dirty knife, a rusty needle, a splinter of dirty wood, a barbed wire fence, or a thorn, pierce the skin the latter is infected with germs, of which the air abounds. These germs are introduced through the breach in the skin, a battle royal ensues between them and certain organisms in our blood. If the Nature's defences in a few hours the germs will become lost. If, however, the little holes we wound may exhibit a whitish appearance in the middle of the swelling, and we have what is known as a festering wound, the germs are still present. The way to avoid such serious results is to cleanse the wound and apply Zam-Buk. Zam-Buk is a potent germicide which kills and drives away the germs which are applied to the tissue, instantly destroying the germs that spread disease and inflammation.

The flesh is thus soothed and purified, the wound made perfectly clean and the poison and cause of festering removed. Having done this, Zam-Buk then proceeds to heal the wound or sore with new, perfect tissue in a quick, painless, and perfect manner.

Zam-Buk must not be confused with ordinary ointments. Zam-Buk is a unique preparation, possessing antiseptic, soothing and healing qualities that are not to be found together in any other preparation. It is not only a unique healing balm, but it is also a skin food. For all skin diseases—eczema, chafing, ulcers, ringworm, etc., it is without equal. It is also used widely for piles, for which it may be used as a specific. All druggists and stores sell at fifty cents a box, or post free from Zam-Buk Co., Toronto, for price.

#### To Cross Ocean

Prof. Henry H. Clayton, who for the past 16 years has occupied the position as meteorologist at the Blue Hill Observatory, says he expects to cross the Atlantic very soon in a balloon. He is of the opinion that there are upper air currents flowing constantly eastward, which would make it possible to make the trip in three or four days. He expects to use a very large balloon with about 250,000 cubic feet capacity. At the present time he is in California, intending to make a test flight across the continent. It is the plan of Professor Clayton to make use of the trade winds which blow eastward during certain portions of the year.

**CHAT BETWEEN BALD MOUNTAIN AND CARLETON**

Heliograph Signalling Very Successful Through Twenty Miles Space—News Notes Flashed

Two parties of local signallers took advantage of the sun's rays yesterday and the result was that Labor Day marked an important epoch in signalling in this province, an interesting aerial conversation being held between St. John and Bald Mountain, a distance of almost twenty miles.

The city party was stationed near Mitchell Tower, under Sgt. A. Leavitt and Q. M. Sgt. Inst. A. Lindsay, while the party of signallers on the mountain consisted of Capt. T. H. E. Flowers and a Times reporter. Interested spectators were the crews of the yachts Windward and Lovyma, numbering in all about 12.

This signalling experiment has been thought of for some time and arrangements were made last week for the execution of plans.

The local party took up their station at 10 a. m. yesterday and, setting up their heliograph, waited for a flash from the mountain, which was the signal of the arrival of the "mountainers."

The party from the Windward and Lovyma were late getting under way. It was about 9.30 a. m. before they left Victoria wharf in a hay cart and were bumped along the country road leading to their destination. When about three miles from the summit of the mountain side, reaching the top about noon. It was not long before the "hello" was signalled and communication opened with St. John, visible with the naked eyes far away in the distance.

The somewhat tiresome climb up the mountain proved well worth the efforts put forth. From the top one can command a view for miles on any side, and with the aid of powerful telescope, objects are plainly distinguished. The far distant coast of Nova Scotia can be seen on the south, while on the northern horizon at Belle Isle, Washinook Lake and some of the branches of the Upper St. John. In whichever direction the eye is turned, objects of interest present themselves.

The air yesterday was delightful and invigorating and a very pleasant outing was enjoyed by the sturdy hill-climbers. But undoubtedly the most interesting part of the excursion was the conversation flashed by the "air-line" over peaceful banks, rivers, dale and hill-top. The flashes consisted of a brief message telling of the arrival of the crews of the two vessels after which messages of congratulation were sent from each station with ease and rapidity. A few minutes of interest from the city were gladly welcomed by the party in the station near the clouds, particularly the reply to a query concerning Saturday's championship ball game, which occasioned mingled disappointment and pleasure, according to partisanship.

About 2 o'clock communication ceased and each party deserted its station, much gratified at the success of its labor. Lunch was partaken of by the practical mountaineers before returning to their ships.

Two years ago a similar operation was performed in signaling, but yesterday's work is regarded as being more successful.

**GETS FIVE YEARS IN DORCHESTER**

McElhenney Deal With By Judge Forbes For Old Offence

Joseph McElhenney, who was let out on suspended sentence by Judge Forbes when he was arrested on December 4 last, charged with breaking into the Central Shoe Store, in Mill street, and who was arrested only a few days ago on the charge of breaking the seal of a freight car in the C. E. yard, was brought before Judge Forbes this morning and sentenced to five years in Dorchester.

At the time of his previous escapade the understanding was that he was to keep within the straight and narrow way. He was caught in the Central Store by Patrolman John Merrick between 1 and 2 o'clock in the morning.

**WEDDINGS**

Moore-Chamberlain.

William F. Moore and Mrs. Bertha Chamberlain, both of St. John, were married yesterday in St. George's church, Moncton, by the pastor, Rev. Mr. Siam. The groom is employed by John E. Wilson, Limited, and is a member of the Artillery and Victoria Rifles bands. The couple left on a wedding trip to St. Stephen.

Abbot-Darret

Harold P. Abbot and Miss Emma A. Darret of Cumberland Bay were married at Chipman by Rev. D. McE. Clarke on August 23. The groom lost \$500 by a mining investment, putting in his money a short time before his marriage and receiving word a few days later that the company had become insolvent and he the loser of every dollar.

Mooney-Donovan.

A very pretty wedding took place this morning in the Cathedral of the Immaculate Conception, when Miss Gertrude Georgiana Donovan was united in marriage by Rev. A. W. Mesban, to John Mooney, of Gaspareau Station. The bride looked charming in a suit of cream serge, with white corded silk and hat with ostrich. She was attended by her cousin, Miss Catherine Donovan, of St. John, who wore a very pretty gown of pale blue with hat to match. The groom was supported by John Timmons.

After the ceremony breakfast was served at the home of the bride's sister, Mrs. Thomas Breen, Brussels street, immediately after which the happy couple left on the Boston train for a two weeks' honeymoon in Boston and New York. The bride's going away suit was of London smoke with hat to match. The groom's gift to the bride was a substantial check to the bride's maid a pearl and emerald ring. The numerous gifts testified to the esteem in which the young couple are held by their many friends.

The funeral of Francis McCarthy was held from his late residence, Spruce Lake, on Sunday at 2 o'clock to St. Rose's church, Fairville. Father Collins officiated and the body was interred in Sand Cove cemetery.
