WOMEN'S M. S. CONVENTION

Of Chatham Methodist District
Held Here On The 15th
Instant.

MISSIONARY PRESENT.

Campbellton Society Showed To
Be In The Best Working
Order.

The W. M. S. District Convention for Chatham district, opened at Newcastle on the 15th inst.

9 a.m. Prayer service. Abiding in Christ. Mrs. S. McLeod.

Delegates were present from Richmond, Harcourt, Campbellton, and Chatham.

The reports given showed Campbellton societies to be in the best working order and the others holding their own on looking forward to doing better work.

The five minute papers given at the last Branch meeting were again read here and were found very helpful.

Mrs. Dawson presided at the "Round Table" and a very brisk and interesting discussion on different methods of work, was carried on.

2 p.m. Prayer service, consisting of passages of Scripture read by several members in turn and the reading of the 82nd Psalm in unison, singing, and prayer by Miss Tweedie, returned missionary from Japan.

A short sketch of Miss Palmer's life as a missionary worker was then given, and the duty of the Auxiliaries to contribute to the Frances E. Palmer Memorial Fund was brought to the notice of those present, as such living devoted service should ever be kept in remembrance.

A paper on the Debt which Commerce owes to Missionary Enterprise was read by Mrs. Follansbee, followed by a paper entitled, How to amuse a sleeping society, by Mrs. Dawson.

After singing a hymn there was a short intermission. Miss Tweedie then told of her work among the children and exhibited many curios.

7.30 p.m. Rev. H. Rice was chairman at this meeting. The following programme was presented.

1. Singing by all—Far and near the fields are teeming.
2. Prayer—Mr. Rice.
3. Singing—Blest be the tie.
4. Scripture reading and address by chairman.
5. Solo—Just for to-day. Mrs. Miller.
6. Address—Foreign vs. Home missions.
7. Anthem, save thy people.
8. Address—Miss Tweedie.
9. Diet by Miss A. O. McLeod and M. F. Henderson with chorus by choir.
10. Benediction.

Mr. W. S. Loggie On Speaking Tour.

Meeting With Large, Sympathetic
and Enthusiastic Audiences.

W. S. Loggie, M. P., spoke in Big Bartibogue schoolhouse on Monday night to a large audience than he had ever before met there. The people seemed very much in sympathy with the speaker and Liberal prospects in that district appear to be very bright. Last night Mr. Loggie spoke in St. Margaret's. To-night he is booked for Escuminac; Thursday, for Hardwicke; Friday for Bay du Vin; Saturday, for Black River; Monday, for Napan and Tuesday for Douglastown. Reports from all along the line indicate an increased majority for Mr. Loggie next month.

FIREMEN'S TOURNAMENT.

Ten Departments Competed At
Chatham; Sports On The
15th Inst.

GLACE BAY AND I. R. C.

Tie For General Efficiency—
Results In Other
Events.

The Firemen's Tournament was held at Chatham on the 15th inst. Chatham, Newcastle, Calais, St. John, Moncton City, Moncton I. C. R., Glace Bay, Sydney, Amherst, Sackville and Sussex teams paraded in the morning and competed the sports after dinner. The I. C. R. and Glace Bay teams jointly won the prize for greatest efficiency.

1000 people watched the tournament. Sydney firemen won four first prizes and one second. Glace Bay won the tug of war with Chatham second. The hundred yard dash was run in three heats. In the first heat, A. Menzies of Sydney and Bryan Henegessy, of Newcastle, qualified for the final. The time was 10.3.5. The next heat went to George Blanche, Amherst, 10.3.5, with C. Hartz, Sydney, second. In the final Blanche beat out Hartz by a few feet, with Menzies third. Time, 10.4.5.

Quarter Mile Hose Reel.—Sydney, 1. 15.2.5. Glace Bay, 1.18; Chatham, 1.20; Moncton I. C. R., 1.22; Sussex, 1.25.2.5; Newcastle, 1.32.3.5. In this event Sackville had the misfortune to get hose tangled in reel, while running a strong race.

200 yards, Blanche, 1st, Tom Rutter, Fredericton, 2nd; Menzies, 3rd. Time 23.2.5.

Hose coupling.—Sydney, first team, 11.4.5; second team, 15.3.5; Sussex, first team, 13.1.2; second team, 12.4.5; Amherst, first team, 12.4.5; second team, 14.3.5; Glace Bay, first team, 14.2.5; second team, 14; Calais, 14.1.4; Sackville, first team, 14; second team, 16.3.5; Newcastle, first team, 14.3.5; Moncton I. C. R., first team, 13.2.5; second, 13.1.5. Chatham, second team, 15.1.5; Fredericton, first team, no time.

Fifty yards hook and ladder.—Glace Bay, 12.3.5. Sydney, 12.4.5; Chatham, 14; Moncton I. C. R., 14; Sussex, 14.2.5; Amherst, 15; Newcastle, 15.3.5.

Tug-of-war.—Glace Bay defeated Moncton I. C. R. and Chatham.

200 Yd. Hose Reel.—Sydney first; 38.1.5; Glace Bay, 2nd, 41; Moncton, 45; Sussex, 45.4.5; Sackville, 47.1.5; Amherst, 47.2.5.

440 Yd. Dash.—Blanche first; F. Atkinson, Amherst, 2nd, Time, 69.1.5.

1 Mile Relay.—Sydney, 1st; Sackville 2nd; Chatham, 3rd. Time 3.47.

Consolation.—Fowler, of Sackville, 1st; J. Watson, Chatham, 2nd; Sherwood, Amherst, 3rd.

The officials were—Referee—John Kerr, K. C. Judges—Geo. Acknyn, H. C. Rutter, R. A. Lawlor.

Time Keepers—J. R. Lawlor, F. M. Tweedie, S. D. Heckbert.

Announcers—Geo. E. Knight. Scorer—Fred E. Jordan.

Clerk of Course—P. J. Ryan.

Starter—R. A. Snowball.

I. R. C. MEN AFTER BIG GAME.

I. R. C. men, on holidays are seeking to reduce the number of bull moose along the road. Driver Wesley Carson of Moncton shot one of the antlered monarchs at Red Pine this week. Foreman Russell and Cameron Smallwood have been out to Russell Siding and report seeing a herd too far away to shoot. They will try again.

Driver Michael O'Shaughnessy after a days work on Saturday bringing No. 37 from Moncton to Newcastle, went out in the woods about seven miles from town and shot a good big moose on Glynn Brook. When he takes a vacation, it will be to bag a caribou and a couple of deer.

R. A. Snowball's herd of cattle exhibited in St. John last week, carried off a great number of prizes there.

The wedding of Miss Mary M. Malley and M. Stuzerall, of Nelson will be solemnized this morning in St. Patrick's Church, Nelson. They will be attended by Miss Mary Saulnier and M. Henri. The honeymoon will be spent in Moncton.

Agricultural Commission.

CHILMSFORD

Continuing their visit in Northumberland County, the members of the Agricultural Commission went to the Parish of Nelson, on Wednesday last, holding an informal meeting at the School House at Chelmsford that evening. Peter Neil, Wm. McKinley and other gentlemen having evidence. On account of a large picnic in the Parish that day, the attendance at meeting was small. The evidence showed the upper part of the Parish of Nelson to be a splendid agricultural district, but that farming operations were very small, nearly every one in the district working during the summer upon the South West Boom. It was shown that men who farmed from five to fifteen acres were holding large farms that were thus lying almost idle. It was thought by those present at the meeting that it was time some change was made, and more attention given to agriculture, as the soil was fertile and there was a quick demand for all kinds of farm produce.

MILLERTON.

On Thursday afternoon a meeting was held in the hall at Millerton. The gathering here was also rather small, on account of the fine weather and the fact that the harvesting operations were in full swing. Christopher Crocker presided, and among those present were: John Betts, Wm. T. Saunty, Geo. Barron, A. Russell, Jas. Harrigan. The evidence here showed that the residents of Derby were largely engaged in work other than farming, extensively and many of them keeping extensive stock. Jas. Robinson, ex-M. P. P. E., is perhaps the largest farmer, cutting upwards of 200 tons of hay and raising about 1000 bus. of oats annually. The hay he uses in lumbering operations, also making considerable beef to supply the large number of men which he employs. Mr. Robinson applies ash very extensively to his land, and the barnyard manure which he has, grows large crops per acre. It was shown that there was not very much vacant land in the Parish of Derby; the land not used for farming being held to supply firewood and lumber. John Betts, in referring to this matter, said he did not think it advisable to open up new land in the Parish, but that every effort should be made to encourage good farming upon the land already occupied. There were very few vacant farms, and scarcely any farms for sale. In regard to live stock Mr. Betts, Mr. Crocker, and others, agreed that the greatest drawback to the improvement of stock was the running at large of scrub bulls, which would break into the pastures and seriously interfere with efforts made to improve the stock by the importation of purebred bulls. The Blenheim and Derby Agricultural Society has been in existence about 60 years, and he thought had done good work. An exhibition was held almost every year and the farmers encouraged to compete with one another and all the surplus funds that could be kept were utilized in importing purebred stock. Some years ago Holsteins and Shorthorns had been imported, but lately the members of the Society had concluded that Ayrshires were best suited for the district and were being bred up along that line. The Society had also been importing purebred rams, and more rams were needed. There was some trouble from dogs but as nearly every one had a gun this nuisance was kept down partially at least. Last year the Society had taken stock in a syndicate for the purchase of a purebred Percheron stallion, and this horse was now available for the district. There was also a Clyde stallion owned at Blackville. The horses of the district were generally pretty good, and there was a demand for many more than were raised. In swine, the preference was for a fairly thick pig for fattening, and Chester as well as Yorkshire hogs were used. Not nearly enough young pigs were raised to supply the demand, and very many people last spring were unable to buy pigs, causing the waste of a good deal of milk and table waste. It was shown by a number of those present that the district was well adapted to the growing of the hardier varieties of apples, especially on the dry land a few miles back from the River. Near the river there was a heavy clay subsoil on which trees were not long-lived unless care was taken to have the soil underdrained. F. Habermann, who arrived a few years ago from Germany, said that he found his farm on the North West River well adapted to strawberry growing; there was an active demand for this fruit and he was enlarging this business. He was also giving some attention to poultry raising, said there was great room for extension in this business as he had customers driving long distances to him for fresh eggs and he had about three customers for every chicken he had to sell. He was grading up his sheep with a Shorthorn ram and found sheep raising profitable. He and Mr. McCollum were introducing Shorthorn blood to increase the size of their stock, which could be done without sacrificing the milking qualities of his cows and with great advantage in raising stock for beef. Mr. Snowball had a Shorthorn cow which lately had been making eleven pounds of butter per week and he thought the introduction of such stock of great advantage to the country. The evidence of those present showed the district particularly well adapted to the growth of a high quality of potatoes. Mr. Habermann stating that in the last six years since he had been in the country he had never seen any blight or rot. The Agricultural Society each year made a business of securing for its members the best possible seeds, and the good results were noticed. As a general thing, there was not many bad weeds in the district, but mustard was coming in and needed vigorous handling. A good deal of the plant known as "Stinking Willie," which was said to be the cause of the Pictou

cattle disease, had been brought in, spreading along the line of the I. C. R., where this ballasting material has apparently been used. In regard to fertilizers, nearly all present expressed themselves opposed to the use of artificial fertilizer except in special cases. They believed that the farms should be stocked and the barnyard manure carefully saved and applied. Mr. Habermann pointed out that the use of kainit in Germany, where it could be had for \$5 per ton had proved an economical and very efficient fertilizer for all the legume family, such as peas, beans, clover, etc. The best quotation he could get on the same material here was about \$20 and he suggested that some steps might be taken with great advantage to the farmers to have this potash salt brought into the country at some where near its legitimate cost. Messrs. Betts, McCollum, Habermann, and others took up the question of the teaching of agriculture in the country schools, and strongly urged that the Board of Education should revise the curriculum of the country schools, as well as the high schools, as to make this subject one of the compulsory branches to be taught. "No matter what profession a man might take," said Mr. Betts, "the study of nature and the knowledge of its practical application would always be of benefit and a pleasure to him." Referring to the Agricultural Societies, Mr. Betts said that he was very glad to hear the Commissioner for Agriculture state that the Commission would advise the Government to so amend the regulations and increase the appropriation that it would be possible to have Agricultural Societies in every farming district.

INDIANTOWN.

The same evening the Commissioners met some of the farmers of Upper Derby, Lower Blackville, and Renous at Indiantown. D. W. B. Reid was called on to preside. The attendance was not large but there was an active discussion in which Rev. Father Murdoch took the leading part. From his long residence in the district, his close observation and practical agricultural work, he was able to speak definitely as to the district and some of its needs. Much of the land which had at one time been taken up in farms was now left in a state of nature, and the farms were entirely vacated. Most of these farms furnished splendid opportunities for men who would work them. In his own experience one of these farms had fallen into his hands because the man who had purchased it did not value it at \$200—the amount which he had advanced to him to carry on his lumber operation. In four years he had taken out of this abandoned farm 2000 bushels of oats and 75 tons of hay, worth \$1700. In addition to this land, which had already been occupied, there were considerable areas of hardwood land under lease to the Miramichi Pulp Co. which Company had expelled its tenants and allowed the land to lie fallow. Settled by bona fide farmers without objection. With the exception of horses and pigs, which were good through this district, the live stock had been much neglected, and it was only an exceptional man who gave his cattle and sheep any attention. Nearly everyone was living by work in the district, and they apparently had no desire to add to their income by work on the land. Commissioner Hubbard pointed out that a man did not have to be a very skilful farmer to make his labor earn at least \$3 per day on such land as was in this district for the summer months at least. The question of seed selection was discussed and evidence was given showing that one man in the district had got good results from selecting the best heads of grain for seed. This system of hand selection, as well as the vigorous use of the fanning mill, was strongly urged by Commissioner Hubbard. In reference to seeding with timothy and clover seed, Father Murdoch said he had had good results by seeding in the Fall and he was going to make a further trial this year, using a proportion of turnip seed to provide a shelter to catch the snow and in the spring form a mat which would prevent the killing of young plants in the early spring. After some further discussion the meeting adjourned and the Commission will hold its final meeting of the series at Rogersville tonight. A feature of the discussion at some of the meetings in Northumberland County was the fault found by many farmers with the reckless running of automobiles, and it was urged upon the Commission that some legislation should be provided to enable farmers to have the use of the roads on some certain days each week. It was claimed that at present on some roads it was absolutely unsafe for ladies or boys and girls to travel, and this was a very serious handicap not only to the farmer in his business but to the encouragement of people to live on the farms.

Moncton Burglarized

MONCTON, Wednesday. — Philip Begunau, College Bridge, informed the Chief of Police of Moncton that his horse was stolen last night. It was reported to the chief also that thieves broke into Dallas R. LeBlanc's stable near Memramcook stealing a set of harness, and near Moncton a wagon was stolen from Philip Richard. The police are making strong efforts to catch the thieves.

WEDDING BELLS.

McLEOD—BROWN
ST. JOHN, Sept. 15. — A pretty matrimonial event was solemnized at 4.30 this afternoon at the home of Mr. and Mrs. J. Harvey Brown, King street East, when their eldest daughter, Miss Nellie, was united in marriage with Mr. Arthur Lorne McLeod, of Montreal. The ceremony was performed by Rev. James Ross and Rev. L. A. McLean. Only the immediate relatives and friends of the young couple were present. The parlors were artistically decorated for the occasion with cut flowers, palms and ferns. Miss Mabel Sandall played the wedding march. The bride was given away by her father. The bridesmaids were Miss Florence Brown, sister of the bride, and Miss Amy K. Pennington, of Montreal, formerly of Halifax. Mr. R. Malcolm Hope, manager of the Bank of New Brunswick, Campbellton, supported the groom. The couple will be at home after Nov. 11st, at Moncton, N. B. The groom is a member of the W. R. Brook Co., Ltd., Montreal.

The Protestant, Catholic and Jewish denominations of Oakland, Cal., have organized under one constitution a society of the pastors to help along the church work in the city.

The fact that lower prices have stimulated the iron business suggests that perhaps lower prices might also stimulate the grocery and meat business.

William Waldorf Astor is to get a title. They may call him Lord in England, but what they call him in New York isn't fit to print.

China has now 200 newspapers with more to come. The first thing China knows it will attract the attention of the wood pulp trust.

For those few forehanded persons who buy their Christmas presents early there is a large line of straw hats on the market at ruinous prices.

CASTORIA.
The Kind You Have Always Bought
Beware of cheap imitations.
The Signature of J. C. Watson.

When a man fired a pistol on the floor of the stock exchange, the brokers ran for the doors. It was an attendant who ran for the man. There is a nice crowd to trust the fortunes of the continent to.

The seven sailors who were sentenced to Dalhousie jail for refusing duty on the S. S. Portsmouth, took French leave of that institution yesterday. It is reported that they were sent to pile wood in the yard of the jail and not being closely watched, they effected their escape. Sheriff Stewart was called up by the Graphic last night, but he denied any knowledge of the escape, if escape it was, other than to say that if the prisoners were not in the jail they must have left of their own accord. However, despite the Sheriff's lack of knowledge of the matter the men are here in town and are making no effort to conceal their identity. Can it be that Dalhousie jail being rather crowded at present the officials of that institution seized the opportunity to reduce the number of inmates eating up about 2,000,000 cords of wood a year to get their various editions out.

The Neepawa Register says:—"Shooting begins next Tuesday. With it comes our annual entreaty to boot the half-baked creature who points an empty gun at someone, and for all to urge for a law that all users of guns be licensed and license refused to anyone whose gun causes an accident. That no such law exists is almost a criminal negligence on the part of our law-makers as it is the fault of the man who did not know it was loaded or who endangers life by careless handling or shooting."

FIRE STILL RAGING.

In Minnesota. — Soldiers And Sailors Fighting It.

DULUTH, Minn., Wednesday. — It was a night of terror on the range and one of deep anxiety in Duluth, but today's condition appears to have changed for the better.

All yesterday afternoon and last night fires threatened half a dozen of the larger towns on the range. At four o'clock yesterday afternoon Hibbing, the largest of them all, asked Duluth for assistance, and a fire engine was made ready for shipment by special train.

More than one thousand residents of Hibbing fought back the flames all night long, stamping out brush fires and wading down fields about the town to keep the fire from spreading.

Similar experiences are reported from a dozen other range towns but so far as is known there have been no others destroyed. This morning reports are more optimistic. The wind is dying down and the fires appear to be gradually burning themselves out.

Great vigilance is still necessary, however. The most dramatic incidents of fire promise to develop around Grand Marais. The steamer Gopher and the U. S. gunboat carrying fifty members of the naval militia left last night for Grand Marais to rescue settlers along the North Shore. The little village is entirely shut off from communication by means of telephone or telegraph, and it will be twenty-four hours at least before anything is heard of its fate.

Passengers on the last boat reported that the flames were rushing towards the lake and gradually hemming in the inhabitants of the little village, comprising about six hundred people, mostly fishermen and Indians.

Gillis—Tibbitts

Daughter of Deputy Prov. Sec. Weds Civil Service. Man.

FREDERICTON, Wednesday. — The nuptials of Miss Amelia Tibbitts, youngest daughter of Deputy Provincial Secretary Tibbitts and Walter C. Gillis, of the civil service, Ottawa, were celebrated at the bride's home this afternoon in the presence of the presence of relatives and immediate friends. Rev. J. W. McConnell was the officiating clergyman. The bride who was given in marriage by her father, was costumed in Irish lace over chiffon and silk with a white bridal veil and carried a bouquet of white roses and carnations. There was no bridesmaid nor groomsmen. At the conclusion of the ceremony a wedding supper was served and the happy couple will leave for St. John this evening en route to Ottawa. The bride, who is one of the city's fairest daughters, and very popular, was the recipient of many valuable wedding presents. The bridegroom's gift was a purse of gold and that of his parents a cabinet of silverware and a check. The Methodist choir's gift was a silver cake basket. The bride's going away dress is of green broadcloth with hat to match.

No Chance This Year.

One of the posters advertising the "Provincial Premiers' meeting in the Maritime Provinces the other day bore this touching legend: "It is time for a chance." There has been more than a suspicion for a long time that some of "the boys" were hungering for a "chance," but we did not dream that their case was so desperate that they would advertise it in poster type. But the "chance" won't come this year.—Quebec Telegraph.

New York has abolished bucket-shops. Hereafter all the gamblers will be done in the stock exchanges. In this respect New York is like Christopher Shy, who would get drunk only in good Christian company.

An oil well fire at Tampico, Mexico, cost three million dollars. As Standard Oil owned the well you will probably hear about it from your coal oil can.

Mr. George Foster has been trying to bribe Prince Edward Island with the promise of a tunnel. But Prince Edward Island fears a Foster bringing tunnels, and knows that a tunnel wouldn't be good for her, because solitude breeds high thoughts.

PANDORA RANGE

Train up a girl in the way she should bake, and when she is married she will not depart from it.

"My mother taught me how to bake, and told me why she always used a McClary Range."

"Now I have a 'Pandora', and, as with mother, my troubles are few. After fire is started, I simply bring thermometer to desired heat and leave the oven in charge of the baking. It's built for faithful service."

"While housewives with other ranges are poking fire and changing dampers, I sit and read the 'Joy of Living'."

Laurier Well Pleased

With Liberal Prospects In Province Of Ontario

OTTAWA, Wednesday. — Sir Wilfrid Laurier returned to Ottawa this morning greatly pleased with his meeting at Niagara and well satisfied with the prospect in Ontario for the coming election. This afternoon he attended a meeting of the Cabinet and will leave for Montreal this evening.

Girl Shot by brother

CHARLOTTETOWN, P. E. I., Wednesday. — This evening at sunset the ten-year-old daughter of Geo. Carson, section foreman of Highfield was accidentally shot by her brother Albert, aged 15 while he was handling a loaded shotgun. Without warning the weapon was discharged, the entire contents entering the little girl's body, killing her almost instantly. The victim's mother is insane with grief.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: J. F. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

HARCOURT.

The young people of the village celebrated Labor Day in a very enjoyable picnic held on the Rectory grounds. Misses Jean Morrison of St. John and Maude Duvall of Alberton, P. E. I., were among the guests of honor.

A large number of workmen left here last week to work on the G. T. P.

Melvin Dunn, teacher at Lake Stream spent Sunday at home.

Miss Margaret Fearon of Brown's Yard was the guest of friends in the village on Labor Day.

Miss Gertrude Ferguson returned on Wednesday from Worcester to spend some time at her home.

Jasper Humphrey, formerly a resident of Harcourt, but now located in Medicine Hat, called on his friends in this vicinity on Thursday.

A special car attached to the freight on Tuesday morning last carried a large number of people to the picnic at Kent Jet. About \$700 was realized in aid of the R. C. church there.

Mrs. H. Casey of Moncton, who has been visiting her sister, Mrs. Fahey went to Molus River to spend some time at her home.

Lee Buckley of Rogersville is visiting friends in the village.

Mrs. McGillivray and family of Joggins Mines are the guests of Mrs. D. W. Clark. Mrs. McGillivray intends locating at Bass River where she has purchased a farm.

Misses Beatrice Saulnier and Ruth Froeborn left on Thursday last for St. Louis de Kent to attend the convent school.

J. R. Belyea visited Brown's Yard on Monday.

The death occurred on Thursday afternoon last of Alexander McMichael after a brief illness of Bright's disease. The funeral was held from his late residence Saturday morning and interment made in the Presbyterian Cemetery at West Branch, services at the house were conducted by Rev. R. H. Stavert assisted by Rev. Mr. Manaton. The pall bearers were: Alex. Lennet, John Robertson, D. W. Clark, S. M. Dunn, J. M. Wathen and L. J. Wathen.

Mr. McMichael was a well respected

PROTECT THE FORESTS.

The Canadian public needs to wake up to the necessity of saving the valuable forests at a comparatively small expenditure, instead of losing millions by the burning of their timber and having to go to comparatively large expense to plant up areas thus denuded.

The need for forest planting is often, and rightly, urged. But there is another aspect of forestry that claims a place even in advance of this, viz., that of protecting the forest from fire.

Planting an acre of ground with forest trees costs, according to figures given by Mr. E. J. Zavitz, Forester to the Ontario Department of Agriculture, \$5.00 to \$10.00. The former was the figure when the acre could be had at a low price, and other circumstances were favorable. Taking even this figure it can easily be calculated that the cost of planting up one square mile is \$3,300.00, for planting 10 square miles the cost will be \$32,000.00, and to plant a single township 6 miles square would require an expenditure of \$115,200.00.

Instead of waiting for, and allowing, forests to burn down (and the tremendous risk to the forest from fire is little appreciated by any who have not studied the subject), it is far cheaper and easier to guard existing forests from fire. The ranging of the railway belt in British Columbia, an area of a little over 10 million acres, during the last fiscal year, April 1, 1907, to March 31, 1908, cost the Dominion Government \$14,111.64—something less than 1 cent a mile per acre, or about 90 cents per square mile. No serious fires were reported during the year. The railway belt is exceptionally well patrolled, but even with the cost several times what it is, the expense is well worth while, considering the value of the mature timber and young growth thus saved.

It's a pity when sick ones drug the stomach or stimulate the heart and kidneys. That is all wrong! A weak Stomach, means weak stomach nerves, always. And this is also true of the Heart and Kidneys. The weak nerves are instead crying out for help. This explains why Dr. Shoop's Restorative is promptly helping Stomach, Heart and Kidney ailments. The Restorative reaches out for the actual cause of these ailments—the failing "inside nerves". Anyway test the Restorative 48 hours. It won't cure so soon as that, but you will surely know that help is coming. Sold by all dealers.

3,000 AFTER \$4.50 JOB.

LONDON, Tuesday. — Three thousand men attempted to make their way into a hospital, which had advertised for a porter at \$4.50 a week and meals. Police had to be called out to keep order.

If it is a question of price—then, all things considered, "Salada" is the greatest tea value for the money paid for experience has proven that "Salada" (packed in air-tight lead packets) is tea excellence.

Minard's Liniment relieves Neuralgia

citizen and leaves besides his wife, one daughter and four sons to mourn the loss of a kind husband and father.

Miss Gussie Campbell who spent the summer with her aunt here, left for Boston.

Miss Gertrude Buckley of Rogersville, accompanied by Dr. Nita De Oloqui, passed through Harcourt on last week on their way to Halifax where Miss Buckley will attend Mt. St. Vincent convent school.

Mrs. Mildred Crocker has returned from Millerton where he spent a week with friends.

Mr. Dennis Saulnier leaves to-night to work in the stores department of the G. T. P. near Boiestown.

Miss Sadie Buckley spent the week end with her brother in Bathurst.

Mrs. James Card of Moncton visited friends here on Saturday.

Miss Mary Keswick left on Friday for Salem, Mass., to make an extended visit with friends there.

Alonso McIntosh has purchased the London House property lately occupied by J. A. Wathen and will shortly move into it.

Thos. Hutchinson of Millerton spent Sunday with home friends.

Miss Lena Fraser of Repton, visited friends here, on her way to Sackville.

The Presbyterian church which has been undergoing repairs for some weeks past has been re-opened.

With steel ceiling, pure white walls and newly varnished pews, the inside of the church looks beautiful.

Miss H. A. Ford is visiting her friend Miss Cynthia Ward and in the home of Mrs. H. A. Ward.

COW EATS HIS CLOTHES.

SEAFORD, Del., Monday. — While Victor Allen, junior partner in the Arco Company was enjoying a refreshing swim in the lake here, the old cow was enjoying an elaborate luncheon, consisting of his clothes. Bossy chewed his underwear to pieces and, scandalized by the sight their owner presented as he gave chase, ran a mile before her modesty and breath were so exhausted that she stopped and gave up his trousers.

Drive Rheumatism out of the blood with Dr. Shoop's Rheumatic Remedy and see how quickly pain will depart. Rub-on's never did reach the real disease. Rheumatism isn't in the skin. It's deep down—its constitutional. Getting rid of the pain, is after all what counts. That is why Dr. Shoop's Rheumatic Remedy goes, by word of mouth, from one to another. And herein lies the popularity of this Remedy. It is winning defenders everywhere. Tablets or Liquid. Sold by all dealers.

CANADA'S FAME.

The expansion of trade and industry in Canada has been a factor in diverting the stream of immigration in our direction and has furnished confirmatory evidence to the stories of the many British and other Europeans who have been successful in building up homes in the Dominion. Emigration returns compiled in Britain indicate that Canada is by far the most favored country with Britishers and foreigners, despite all restrictions. During July over half the English, nearly two-thirds of the Scotch, and over three-fourths of the Irish emigrating went to the Dominion. The figures for the half year are 65,385, against 125,263 in 1907. It is not a matter of surprise that there is some friction and a certain amount of hardship in receiving and placing this great volume of new population. The wonder is that the work was accomplished so smoothly and with such little inconvenience and trouble to the now arrivals.

It is a tribute to the many openings which Canada affords that this great army has been brought in and made a part of the producing population without creating any widespread want or distress. Many of the new arrivals are unfamiliar with the needs of our climate and with some of the special methods of our productive industry. But this has not been a bar to the transformation of all the willing and industrious into useful citizens.

Lola—Last night young Boren declared he would willingly go to the ends of the earth for me.

Grace—And what did you say?

Lola—I finally got him to make a start for home and let it go at that.

Cotton Man Wants Commission

MONTREAL, Wednesday. — Louis Simpson, manager of the Montreal Cotton Co., Valleyfield, addressing the C. M. A. Convention today stated that he favored a commission of serious men going to Europe to investigate trade conditions. He prophesied the finding that the protection afforded Canadian Manufacturers did not cover the difference in wages. He also endorsed the Georgian Bay scheme. Mr. James Kendry, of Peterboro, in commenting on the messages passing last July between the Association and Sir Wilfrid Laurier respecting increased duties on woolen goods, stated that unless the industry received some support it could no longer be carried on. He contended that deputations had gone to Ottawa till they were tired and took issue with the Premier's statement that the government had given evidence of their appreciation of the woolen trade interests.

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always treat, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—little late though—Congress says "Put it on the label, if poisons are in your Cough Mixture." Good! Very good! Hereafter for this very reason, Opium, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is sold to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

Dr. Shoop's Cough Cure

Air Ship Buckled

Struck By A Squall Landed On Roof Of House.

BERLIN, Wednesday. — The Percival air ship buckled in the air this morning and had to come to Gronewald. At the time of the accident the air ship was running with the great balloon in the direction of Dobritz, where Emperor William was waiting to see them. Both air ships started out this morning between 8 and 9 o'clock with the object of seeing which would reach Dobritz in the shortest time. They faced a light breeze which freshened quickly until it was difficult for the balloons to make headway against it. When the Percival air ship was crossing the Havel Lake it was struck by a squall and the cigar shaped bag began to show signs of trouble. The interior balloon itself collapsed and the machine started slowly to come down. It cleared the waters of the lake and landed on the roof of a house. Major Von Percival and his four companions alighted without sustaining any injury.

Carterhall, Nfld.

Dear Sirs.—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disfigured for a couple of weeks. I was advised to try your Liniment to allay the irritation, and did so. The effect was more than I expected, a few applications completely curing the irritation, and preventing the bites from becoming sore. MIMARD'S LINIMENT is also a good article to keep off the mosquitoes.

Yours truly,
W. A. V. R.

LONDON, Wednesday.

British Guiana has granted a tariff preference to British, Canadian and all colonial products. The bill was not passed without opposition, several speakers calling the measure suicidal.

Tickling or dry Cough will quickly loosen when using Dr. Shoop's Cough Remedy. And it is so thoroughly harmless, that Dr. Shoop tells mothers to use nothing else, even for very young babies. The wholesome green leaves and tender stems of a lung healing mountainous shrub give the curative properties to Dr. Shoop's Cough Remedy. It calms the cough and heals the sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Demand Dr. Shoop's. Accept no other. Sold by all dealers.

Two Men Suffocated.

Went Down Into Well And Succumbed To Gases.

REGINA, Sask., Wednesday. — While boring a dry well on John Bolan's farm some twelve miles south of this city two London, Ontario men named Wm. Regan and J. Richardson were suffocated by gases at the bottom. After dynamiting a rock in the well Richardson went down to the bottom, giving a cry of distress as soon as he reached it. Regan called to a nearby threshing crew for help, which was furnished promptly by one of the rescuers going part of the way down but had to be hauled back again.

Regan volunteered to go down refusing a rope saying there was no time. Hardly had he reached the bottom when he was overcome. Before any further attempt could be made to save them both men were dead.

TO TUNNEL MOUNT BLANC.

KOUREM, Acur, Saturday. — The French and Italian engineers who have been studying the possibility of a tunnel under Mount Blanc met here to discuss plans. It was agreed that work should commence as soon as possible, probably in December.

WILL ACCEPT NOMINATION.

VANCOUVER, Thursday. — Mr. Joseph Martin, K. C., announced today that he would accept the nomination of the Asiatic Exclusion League and would remain in the fight to the finish. His nomination will be carried at a meeting held last night.

CONSERVATIVE CONVENTION.

REXTON, Thursday. — At a Conservative convention held here today F. J. Robidoux was chosen candidate to oppose C. J. LeBlanc at the coming Dominion election. A meeting was held in the Public Hall this evening at which F. J. Robidoux, Crockett, Sheridan and Landry spoke.

THE COMMON APPLE A GREAT SOURCE OF HEALTH

The Juice of the Ordinary Apple is One of the Best Things in the World For Keeping the Blood Pure.

Few people there are but enjoy a ripe, juicy apple. But how many realize that it is a medicine as well as a treat?

Apple juice has a very marked effect on the kidneys, increasing their power to throw off the waste products of the body, called urea, and thus prevent Rheumatism, Sciatica, Neuritis, and similar troubles that come from poisoned blood.

Similarly, other fruits stimulate the action of the liver and bowels—others of the skin. Combined, they keep the blood pure—the body clean and healthy.

To get this effect, however, one must eat a great deal of fruit, or better, eat a little fruit and take "Fruit-a-tives".

"Fruit-a-tives" are tablets in which the juices of ripe fruits, with their medicinal value intensified, are combined with valuable tonics. They act directly on Bowels, Kidneys and Skin and put them in perfect condition—thus ensuring the thorough elimination of all waste matter and poisons from the body. Trial box 25c. Regular size 50c.—6 boxes for \$2.50. Fruit-a-tives Limited, Ottawa.

NEWCASTLE, September 23rd, 1908

W. L. MacKENZIE KING NOMINATED.

William Lyon MacKenzie King, deputy minister of Labor, grandson of William Lyon MacKenzie who led the rebellion against the Family Compact in Ontario in 1837, has accepted the Liberal nomination in North Waterloo. If elected, he will probably become Minister of Labor, a position now held by Postmaster General Lemieux.

ELECTIONS OCTOBER 26

The Government, with one more full year of power before the end of their term if they had chosen to exercise their rights to the utmost as did the Conservatives in 1896, have decided to appeal to the electorate on the 26th of next month. As most everybody expected an election this fall, neither party is taken by surprise, and each should be able to poll its full vote.

WILL MR. HAZEN ACCEPT?

On Nomination day in Fredericton, the 19th instant, the minister of public works offered to submit all matters outstanding between himself and the Provincial government to an arbitration board of seven leading barristers of the province, four Conservatives and three Liberals, and guaranteed to submit his side of the question to the arbitrators in time to have an award made before the elections.

This offer appears to be reasonable. As Mr. Hazen and two more of his cabinet are lawyers, he surely would be willing to trust a board composed of the legal fraternity. If Mr. Hazen does not at once comply with Mr. Pugsley's proposition, the public may think he is afraid.

THE WOOLLEN DUTIES.

The chief difference in principle between the Liberal and Liberal-Conservative parties of Canada is in their attitudes in relation to the tariff. The Liberals desire that any change in the duties shall be in the direction of a decrease, while the opposition seem to love Protection for its own sake and appear anxious to increase the duties on the necessities of life whenever an opportunity arises.

The Government has refused to raise the duties on woollen goods, at the request of the woollen manufacturers, and are meeting with much adverse criticism from the Opposition press in consequence. The woollen industry is certainly languishing in Canada, but the Canadian people are able to buy woollen goods much more cheaply in Britain than they could at home if the tariff were higher here. The manufacturers have lost somewhat, but the whole people have gained in being able to buy at the reduced rate. Were the tariff to be raised, the manufacturers would pay no more for their wool, unless the farmers should wake up and unite and compel them; and would pay no higher wages, except as they might be compelled by trades unionism; but would simply put the increased duty on foreign cloth in their own pockets. The people of Canada would have to pay more for their clothing, which extra sum would be used to keep up the manufacturing aristocracy who now have too much influence in the

and. The farmers demand freer trade and they are right in doing so; and the Government should lose nothing by refusing to accede to the manufacturers' request.

INTRODUCING BAD SYSTEM.

The wholesale dismissal of provincial employees by the Hazen Government without adequate cause assigned should awaken the people to a true sense of the danger threatening the political life of our country. Presumably the Conservatives will, as soon as they obtain the power, make as clean a sweep in the civil service as they are doing in New Brunswick appointments. To dismiss a public servant merely because he is a political opponent is a rule that can work both ways, and the wisdom of its wholesale adoption is at least open to question. The public has a right to expect much more from a new government than a mere displacement of office holders.

UNHEALTHY PROSPERITY.

Cowansville Observer.

Conservatives point to the wealth that the protection policy has created as a sign that protection has benefited Canada. Protection has concentrated wealth but has not created it. The automobiles and palaces of the few are produced at the expense of the many and the immense wealth gathered into the hands of the few is a sign of unhealthy conditions rather than a sign of prosperity. The Negroes of the United States are beginning to swing their votes in favor of the Democratic party because the Democratic party promises to reduce the tariff. The negro is a porter, a house servant, a laborer. He does not manufacture and the negro is beginning to see that while his pay may be high the cost of the necessities are so much higher that he has but a bare living wage, if he has that.

The protectionist who points to great factories and large railroad systems and palaces that are owned by the captains of industry as a sign of prosperity would just as naturally point to the pyramids and the pyramids of Egypt as signs of the prosperity of the Pharaohs. The Pharaohs were prosperous but the Egyptians toiled under the lash and died of exposure to make the property of the rulers. In the States the captains of industry are very prosperous but the slums of the cities, the hungry tramps, the women and children in the sweat shops and mills, the hovels of Pennsylvania miners and the ever poverty stricken wretches of the Carolina work shops suffer and die to create that prosperity.

BOOM ROAD.

BOOM ROAD, Sept. 21.—The weather for the past few weeks has been very favorable for farmers. Rev. G. Mitchell of Redbank preached his farewell sermon last Sunday. He will be greatly missed.

A. Jardine of Lawrence is visiting his home here. James O'Shea is remodeling his home.

J. Sheard was the guest of Alex. Sheard last week.

J. R. Howe has had his residence painted.

Mrs. W. Taylor is about to come back to our midst again.

Mrs. Marion Sheard is convalescent after a severe illness.

Mrs. C. Whitney of Newcastle is visiting her home here.

Mrs. E. McLean is not improving after her severe illness. Dr. Coleman is attending her.

A. Manchett has shot a deer also a valuable Bruin near his home.

POLITICAL NOTES

(Contributed.)

The Flowing Tide in Colchester—Whiskey.

Mr. Fowler said he had been called upon to address over ten thousand of the people in St. John. Well! Well! there's no accounting for taste.

Mr. Borden takes credit to himself because he has given his whole time and strength to forwarding the cause of good government. What else is he paid for? The people of Canada pay him \$7,000 a year. He has a right to do something to earn it.

Even the most rabid of Conservative newspapers have to pay tribute to the Laurier government. The Toronto News breaks in on the monotonous repetition of its political denunciations to say:

"No sane person pretends that nothing of national value has been accomplished by the Laurier administration. Only a mad partisanship would deny the advantages of certain of its achievements. The British preference, the Railway Commission, the Lemieux Act, the extension of the Intercolonial Railway to Montreal, the improvement of the St. Lawrence waterway, the activities of the Department of Immigration, all stand to its credit. The Department of Agriculture has been well-administered. Good work has been done by the Labor Department. There have been good results from the heavy expenditures on the militia."

The same steady policy of development pursued by the Laurier government in the past twelve years has attracted capital to Canada in tremendous volume. The people of the motherland have seen national stagnation give place to abounding prosperity under Laurier, they have supplied the vast sums needed for the thousand of miles of railways now being built to open up the vast West and the Ontario and Quebec hinterlands. They are providing the money also for civic improvements, public and private power plants, flour mills, steamship lines, and a hundred other great enterprises that will be profitable from the first, but that could not be undertaken for years if the capital for them had to come altogether from the savings of our own people.

Between January 1st and August 31st of this year, capital to the amount of \$12,845,000 has been supplied for the development of Canada; almost all of this has come directly from investors in England.

Business men who remember the days before 1896, when Mr. Foster was "lopping off the mouldering branches," when railway construction had ceased, and the West was losing population instead of attracting it, should look into these figures and ask themselves what would be the effect on the British investor for substituting Borden for Laurier. Foster for Fielding and Morrison for Loggie?

Mr. Borden says the Conservative party will carry out the Halifax platform. He will have his hands pretty full before he converts the Conservative party to public ownership. The Kingston (Ont.) Standard says: "We very much regret that Mr. R. L. Borden should have raised the general issue of government ownership of all public utilities. It may be that public ownership of telephones, telegraphs, as Mr. Borden specifically recommends, would be a good thing for Canada, though we must say we are by no means convinced that things are not just as well now as they would be under Government ownership, while perhaps they may be run a little better. Certainly when it comes to governmental ownership of all public utilities—as contradistinguished from government supervision, with which we are in hearty accord—we very frankly say we are not yet ready to believe that Mr. Borden, and for that matter that the country is." The Standard is one of the leading Conservative papers in Ontario. The Montreal Gazette, the ablest Conservative paper published in Canada, one of the fairest and cleanest, takes strong exception to Mr. Borden's public ownership plank and even declines to accept it as part of the programme of the party. And does Mr. Borden for one moment imagine that Mr. Osler would vote for public ownership? Would Mr. John Haggart, Minister of Railways, vote for it? He says public ownership is too preposterous to advocate." Mr. Borden had better convert his press supporters and followers in the House.

L. B. McMURDO, NEWCASTLE

YORK LIBERALS CHOOSE BROWN.

Dismissed School Inspector Unanimous Choice of Convention.

At Fredericton, Saturday, the Liberal nomination was offered to Alex. Gibson, ex-M. P., who declined and Nelson W. Brown, brother of the late C. P. Brown, Provincial Secretary of Manitoba, was then unanimously nominated and accepted. Mr. Brown was formerly School Inspector of York and Sunbury, but was dismissed by the Hazen Government.

Among resolutions unanimously adopted by the Convention were expressions of complete confidence in the Liberal party and in Hon. Wm. Pugsley.

MR. MORRISON'S AXE FALLS AGAIN.

Derby, N. B., Sept. 19, Messrs. Christopher Crocker, Allan Saunders, Geo. Parker, and William Kirk, have all got "the sack." The worst features of Yankee political Tammany have been introduced into N. B. policies by the Hazen Government.

We wonder what those Liberals think who are responsible for putting the Hazen party into power. Had it not been for the Liberal voters, the opposition. But such tactics—despicable tactics—as are being adopted by Northumberland's representatives are not calculated to raise the tone of politics. Such actions should be sufficient to estrange many fair-minded men from Donald Morrison on October 26th. It will cost him dozens of votes in Derby. Give some men rope enough and they will hang themselves.

CAST YOUR BALLOT IN FAVOR OF W. S. LOGGIE ON OCTOBER 26TH

TORN BY WILD BEASTS.

History Of a Great Discovery.

The old Roman horses who were torn by wild beasts at their fights in the new ruined Colosseum at Rome, the Greek charioteers, and the gladiators who made fighting a profession, all knew the virtues of herbal essences (such as are contained in Zam-Buk) for skin injuries and diseases. They would apply at night their secret herbal balm, and in a few days would be ready for combat. Their ideal of a balm or salve was a preparation which combined power with purity; and that ideal is realized in Zam-Buk.

Ordinary ointments, salves, and embrocations are generally composed of rancid animal fats and mineral poisons. Zam-Buk on the contrary, is a healing balm, and in a few days would be ready for combat. Their ideal of a balm or salve was a preparation which combined power with purity; and that ideal is realized in Zam-Buk.

When the little one runs in from play with a smarting, dirt-filled scrape on hand or knee, simply wash the part, and smear with Zam-Buk, bandaging if necessary. Zam-Buk will do the rest!

When father returns from work with a cut hand or other injury, the handy box of Zam-Buk again meets the emergency; and the housewife or mother continually finds it a real friend in need for the burns, scalds, scrapes and bruises sustained by general household duties. For eczema, ulcers, itch, fistula, abscesses, scalp sores, and all skin diseases, it acts like charm. It eases the pain and stops the bleeding of piles, and cures this painful ailment quickly and surely. All druggists and stores sell 50¢ a box, or from Zam-Buk Co., Toronto, for price, 3 boxes for one dollar twenty-five.

ILLS OF CHILDHOOD

HOW TO CURE THEM.

In thousands of homes Baby's Own Tablets is the only medicine used when children are ailing, and the mother who keeps this medicine on hand may feel as safe as though there was a doctor constantly in the home. Baby's Own Tablets cure all stomach and bowel troubles, break up colds, expel worms, and make teething easy. The mother has the guarantee of a government analyst that this medicine contains no opiate or poisonous soothing stuff. Mrs. H. H. Bonnyman, Mattali, N. S., says: "I have used Baby's Own Tablets for my little girl while teething and for constipation, and think there is no medicine can equal them." Sold by medicine dealers or by mail, 25¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

HARCOURT.

Miss Jean Morrison returned to St. John on Friday after an enjoyable vacation spent with Miss Helen Buckfield.

Ernest E. Buckfield left for Halifax on Wednesday to enter Dalhousie College.

Miss Sadie Buckley, after a fortnight's vacation spent with friends, returned to Amherst on Wednesday.

Mrs. G. H. Allen of Dalhousie spent Sunday with friends in the village.

Mrs. W. F. Buckley, A. Ferguson, J. N. Wathen and E. Keswick were in Rexton on Thursday attending the Liberal-Conservative Convention.

Mrs. W. N. Ingram of Moncton is visiting friends in the village.

Dr. H. G. and Mrs. Fairbanks and Dr. R. G. Girvan spent part of last week in St. John attending the Exhibition.

Mrs. John Beattie was in Chatham last week attending the Exhibition.

Mr. G. H. Allan and son are spending a few days here.

Mrs. Ferguson is visiting friends in Rexton.

Miss Maude Van Buskirk returned to-day, from an extended visit with friends in Buctouche and St. John.

Rev. C. H. Manaton and Miss Manaton visited Richibucto last week.

Miss McIntosh visited Moncton last week.

D. D. Johnston is attending the St. John Exhibition.

Miss Maggie Wellwood is visiting in Moncton.

Mrs. Manaton returned Friday from a pleasant trip to Newcastle.

DISTRIBUTING THE REVENUE.

The reports of the various departments of a great Railway system, would, if made public, often surprise the readers of current news. It has been gathered that the Grand Trunk Railway System has spent, within the past few years, not less than fifteen million dollars in double tracking the main line, and that the pioneer Canadian Railway now operates the longest stretch of double track under one management, in the world.

In addition to this they have spent other millions in stations, shops and other improvements, thus increasing the carrying capacity of the road contributing to the upbuilding of the country, and at the same time affording added security to the lives and property of its patrons which the installation of block signals on a single tracked line could never secure. By the expenditure of all these millions in Canada, they are distributing the Revenue, or a good share of it among the people.

Chatham Exhibition Entries

List Of Competitors For Prizes At The Miramichi Fair.

The exhibition entries received up to the 14th were as follows:
J. Wm. Clarke, Manguerville, apples, vegetables.

OBITUARY

THOMAS TROY.

The death of Thomas Troy, one of Douglastown's aged and most respected residents, occurred on Sunday, December 14, in his seventy-ninth year, and was unmarred.

Deceased was very clever intellectually, a prosperous farmer, and was son of late John Troy.

Mr. Troy was a lifelong and very active Liberal, always in demand as a platform speaker and also as an organizer. He was once a candidate for election to the House of Assembly, being defeated. He was a kindly gentleman, popular with his fellow citizens and honored by them.

He leaves the following brothers and sisters: William, of Chatham; P. B. Dallousie; John and Miss Mary, at home; James M., Postmaster, Newcastle.

Funeral took place at the Roman Catholic church, Douglastown, on Tuesday.

Many were present to show their appreciation of the worth of the deceased.

The pallbearers were Hon. J. P. Burchill, Sheriff O'Brien, Joseph McKnight, John Coleman, H. H. Lamont and P. Sullivan.

JOS. SAVOY, JR.

Master Joe Savoy, the little three-year-old son of Mr. and Mrs. Joseph Savoy, of the Bay View Hotel, of Chatham, died on Thursday. The child had been sick only a few hours. The parents will have the sympathy of their many Newcastle friends in their sad bereavement.

MISS NANCY RUSSELL.

The death of Miss Nancy Russell occurred at her home here on Thursday afternoon. Deceased was ninety-eight years of age. Born in Ireland, she came here with her parents, the late Mr. and Mrs. George Russell, some eighty years ago. She was the last member of a large and respected family. Her death took place at the residence of her great-niece, Miss Bella Russell, in the house built by her father, shortly after the Miramichi fire.

Miss Russell was a very bright and intelligent lady and retained her mental faculties to the last and she was physically sick only about three weeks before her death.

Deceased leaves the following nephews and nieces: George, Allan and James and W. J. of Newcastle; John and Derby, W. A. of Barrister, Shediac; Samuel, ex-M. P. P. Belleville, Ontario; Mrs. Donald Fraser, Mrs. John Jones, Miss Agnes Russell, Newcastle; Mrs. Mary Henderson, Douglastown; Mrs. Fleiger, Chatham; Mrs. Shadlock, Mrs. Joe, Hopedale, Trout Brook; Mrs. Robt. Armstrong, Youghal, and Mrs. Matthews Russell, Vancouver.

The funeral took place on Saturday in St. James Cemetery, Rev. S. J. McArthur officiating at the house and grave. The pall bearers were: W. A. Russell, George Russell, John W. Russell, W. John Russell, Allan Russell and David Russell. The attendance was very large.

WALTER MACKENZIE.

Walter MacKenzie, another of the oldest residents of the Miramichi, died at the home of his former daughter-in-law, Mrs. Thos. Daughney, on Thursday, at the great age of 91.

Deceased was of Scotch extraction and of Presbyterian faith. He was well and favorably known. His surviving children are David and John, Douglastown; Robert in Nova Scotia; and Mrs. Robert Anderson of Douglastown, who was visiting in Orono, Me., at the time of her father's death.

Funeral took place on Saturday.

Suggestive Questions on the Sunday School Lesson by Rev. Dr. Linscott for the International Newspaper Bible Study Club.

Sept. 27th, 1908.

Temperance Lesson.

Isaiah vi: 11-23.
Golden Text--Wine is a mocker; strong drink is raging. Prov. xx: 1.

Verse 11--How many men do you know in this community whose moral portrait is drawn in this verse; that is, those who are habitual drunkards? Are there still those whose chief ambition is to get drunk?

What are the chief "voices" of the drunkard (1) To himself (2) To his family (3) To the community?

Verse 12--Is it a fact that drinking men still like string music, and, if so, how do you account for it?

Is it either possible or probable that a man given to drink, can also "regard the work of the Lord?"

Verse 13--Upon which kind of knowledge does the prosperity of an individual, or of a people, most depend, moral and spiritual, or scientific and commercial?

What was the general cause for the various captivities, and national misfortunes of ancient Israel?

Verse 14--To what extent does the longevity of an individual, or of a nation, depend upon moral conduct?

Can the "glory and the multitude" the men who "rejoice" be increased most in this country with liquor being freely sold, or under prohibition?

Verse 15--If a "mean" man, that is one of poor ability and little influence, indulges in drink, and if a "mighty" man, that is one of great ability and influence, indulges in drink, what will be the effect of such indulgence?

and will there be any difference in the effect upon the two men?

Verse 16--In what respect are the "judgment" and the "righteousness" of God "exalted," or seen, in the terrible results of the liquor traffic?

Verse 17--What is the difference in the economic results of money made by farming, and money made in the liquor traffic?

Verse 18--Is it ever possible for good personal results to come from bad deeds?

Is there any need to experiment with or put to the test, the moral precepts of the Bible, seeing they are based upon the experience of mankind and the wisdom of the ages?

Is it ever possible for a man or a nation to escape the natural results of wrong doing?

(This question must be answered in writing by members of the club.)

Verse 21--If a man does that which is essentially wrong, and he thinks it is right, does his opinion change the natural results of the act? For illustration, a mother gives her baby, in the night, prussic acid, thinking it to be castor oil.

Verse 22--How should we estimate the moral character of those who sell intoxicating liquor as a beverage?

Lesson for Sunday, Oct. 4th, 1908--David Brings the Ark to Jerusalem--11 Sam. vi.

ELECTIONS OCTOBER 26.

Ottawa, Sept. 16.--The tenth parliament of Canada has been dissolved and the electors will be asked to say by their votes on Monday, October 26th, whether or not the present government has deserved the reward of another tenure of power. Nominations will be no October 19, with polling a week later.

Union St. St. John N. B.

An impetus such as we have never before experienced, has been given to all lines of industry and endeavor and Canadians today look forward with confidence to a period of prosperity greater than any nation in the world has ever enjoyed.

A rather humorous item is that of Mrs. Durham, of Offenham, Eng. who is 89, being recently confirmed, in her own cottage by the Bishop of Worcester. She told him that she had been so busy all her life that she had not time to be confirmed.

Prince Bolotoff, a Russian, will try to cross the English channel in an aeroplane. Nihilism is, no doubt, as willing that the Bureau of Aeronautics should be destroyed by aeroplanes as by bombs.

Modelled after the great Tja Mahal temple at Benares, a Hindoo Church has been built and consecrated at San Francisco, being the only one so far as is known in the western world.

BIDDEFORD SCORCHED.

BIDDEFORD, Maine, Tuesday. — Fire caused loss estimated at \$300,000. It destroyed more than 15 acres of lumber yards, more than a score of tenement buildings, several factories, some railway property today on both sides of the Saco River in the cities of Saco and Biddeford. The fire started in a pile of shavings in the lumber yard of Geo. A. Crossman & Sons, on the Saco side, and was carried across the river by high wind. Forty families are rendered homeless.

CANADA TO-DAY.

The Charlottetown Guardian takes exception to Sir Wilfrid Laurier's speech at Sorel, especially that portion of it where he refers to the proud position which Canada occupies today, compared with that of twelve years ago. The Guardian contends that Canada was great and prosperous in 1897 and any attempt on the part of the Premier to make it appear otherwise must be looked upon as self-glorification. But Sir Wilfrid does not attempt to make it appear otherwise. There are degrees of greatness and prosperity and only a hide-bound partisan will refuse to admit the truth of the Premier's statement, that Canada to-day occupies a far more commanding position than it did twelve years ago. We are no longer provincial in the sense that we were before the Liberal party came into power. Instead we have won a place among the nations and are feeling the virus of coming greatness coursing through our veins. We have discarded the swaddling clothes of adolescence and donned the shining mail of a leader among the peoples of the world.

SCHOOL HOME WORK.

One of the barnacles that still cling to our educational system is the custom of giving children home work. The six hours a boy or girl spends in school is usually a sufficient tax upon his or her mental capacity and the time out of school should be devoted to play or other duties than lessons. It is the teacher who should work overtime preparing his work for the next day. His business should not be to merely hear lessons but to teach in the proper sense of the term. As it stands the public school teacher is too frequently a mere monitor who directs the studies of his pupils and listens to recitations. In even the secondary schools there is too little teaching and too much dependence upon text books and the unaided effort of the scholar. With all our development in teaching methods we are still way from the ideal, especially in the handling of our primary schools.—Ex.

BATHURST.

BATHURST, Tuesday. — Rupert Rive, Carquet, is intown today. Mr. Rive was the winner of the Rhodes Scholarship at St. Joseph's last year and is now on his way to England to take up his studies.

George Windsor came up from Carquet yesterday. The movement for a circulating library has met with the approval of the readers of our town. The first consignment of books will be on hand about October 1st. Any person who have not joined but may be desirous of doing so should subscribe at once. Full particulars may be had by applying to L. A. Palmer, librarian.

Mrs. P. Rive and Harry Rive, Carquet, are at the Robertson. A new platform is being placed in front of the White House.

Between eleven and twelve o'clock last night the building used by the Bathurst Lumber Co., as a machine shop, near their mill was discovered in flames and was completely destroyed. The loss will not be heavy as the building was only a rough temporary affair. Being outside the fire district no alarm was sent in.

The United States Court at Manila has decided that the Sultan of Dunaharra must be hanged for his numerous crimes. In addition he is sentenced to pay \$500.00 to the heirs of one of his victims. Wonder what further punishment will be inflicted in case the fine is not paid.

Americans visiting Canada express surprise at our progress and high standard of citizenship. It is no occasion for surprise. Nothing could be more natural. All who do not merely visit but come to stay know this.

BAPTISTS. S. ASSOCIATION

Of Kent County Hold Very Successful Convention

AT GRANGEVILLE

Will Meet Next Year At Little River Kent Co.

The Kent Co. Baptist Sunday School Convention convened at Grangeville church, Grangeville, Sept. 12th and 13th at 2.30 p. m.

First session opened by Praise service led by Rev. Vanidestine. The usual business of the Convention was transacted, and the following officers elected.

President—Rev. R. W. Bynon.
1st Vice-president—H. W. B. Smith.
2nd Vice-president—James Ward.
Secretary—Mrs. Ephraim Hicks.
Assistant Secretary—Mrs. O. S. Jones.
Treasurer—Mr. Charles Ward.

Many delegates were present from the different schools, and all gave favorable and encouraging reports. It was moved and seconded that Grangeville and East Grangeville schools unite, and carry on their work in the new church building at Grangeville.

Words of Welcome were extended to visiting delegates by H. W. B. Smith and responded to by Bro. Hicks and West. An interesting and profitable discussion following, on how Sunday School work could be furthered in Kent Co.

The system of grading was taken up. Bro. Bynon moved that our schools introduce the following system: For the primary class, the memorizing of the first five books—and the last book of the Old Testament, all the New Testament books, the ten Commandments, Lord's Prayer, Luke, 18: 15-17 John 3: 16, Prov. 8: 17 and Catechism.

The intermediate class, the memorizing of all the books of the old and new Testaments, classification of the books, names of the twelve apostles, names of twelve tribes of Israel, the Beatitudes, 23rd Psalm, the new Testament, Commandments and where found and Catechism. This was seconded by Bro. Ward and unanimously carried.

The following Committee was appointed to write a letter of sympathy to Bro. and sister Hicks on the death of their dear father.

Session closed by singing 'Pass me not.'

Second session opened at 7.30 p. m. by praise service led by Misses Katie Jonah and Grace Bailey.

Minutes of last sessions read and approved. Bro. Bynon next made an address of welcome to Grangeville Div. No. 440. It was responded to by Bro. Weaver. The Sons of Temperance then proceeded with the following programme.

Opening chorus—by Division.
Recitation—by Edith Jonah.
Recitation—by Victoria Boyd.
Speech—by George Jonah.
Recitation—by Katie Jonah.
Reading—by Ida M. Boyd.
Recitation—by Dorothy Smith.
Recitation—by Margaret Boyd.
Closing chorus—by Division.

Bros. Vanidestine, Smith, Charles Ward, Hicks, West, Cudmore, H. J. Smith and sister Jones discussed the subject 'Why souls should not expect Christ and enter Sunday School work.'

While the offering was being taken a quartette was nicely rendered by Little River delegates.

The session closed by an address from Bro. Bynon, from Gen. 24: 58.

The third session opened at 11.30 a. m. by praise service led by Bro. Charles Ward. Bro. H. J. Smith assisted by Bro. Ward opened the Sunday School. The lesson was well conducted by Bro. Hicks. Minutes of second lesson read and approved. Closed by singing 'Bring them in.'

The fourth session opened as usual by a praise service led by Grangeville school and a solo was sweetly rendered by Miss Beulah Colpitts. Minutes of third session read and approved.

Grangeville Evergreen Mission Band was now welcomed by Charles Hicks and the following programme, done credit to the Grangeville workers.

Opening address—by Katie E. Jonah.
Recitation—by Edith Jonah.
Dialogue—by Misses Dorothy Smith, and Gertrude Jonah and Masters Smith, Boyd and Jonah.
Solo—by Miss Victoria Boyd.
Chorus—by little children. 'Little Hearts.'

Reading—by Mrs. H. W. B. Smith.
Recitation—by Margaret Boyd.
Drill—by Misses Edith Jonah, Dorothy Smith, Gertrude Jonah and Masters McArthur, Jonah and Boyd.

Closing hymn, "From Greenland, Icy mountains."

Different helpful topics were discussed by many.

Moved and seconded that the offerings be equally divided between Bro. Bynon and Horne and Foreign Missions.

A very hearty vote of thanks was tendered Miss Grace Bailey who so faithfully and satisfactorily acted as secretary for term. Also a vote of thanks was tendered Grangeville people for their kind hospitality to the visiting delegates during their stay with them.

Fifth session opened by praise service led by sisters Ida Boyd and Beulah Colpitts at 7.30 p. m. Minutes of fourth session read and approved. Pastor Weaver preached an inspiring sermon from Psalm 122: 1.

Offerings during the sessions were good. A hearty invitation was extended to the convention by Little River delegates to meet with them next year. The invitation was gracefully accepted.

Minutes of this session read and approved. Closing remarks by Bros. Vanidestine and Blakney. Closing prayer by pastor Weaver.

Doctor Bitten by Mad Dog.

TORONTO, Thursday. — On Simcoe street Dr. Riordan, who is a Grand Trunk surgeon and one of the best known medical men in the province, was bitten through the right hand this morning while treating a pet dog which was ill. The dog died an hour afterwards, and upon examination of the body at the Provincial Laboratory it was discovered that the dog had died of rabies. Dr. Riordan left tonight for New York for treatment in the Pasteur Institute.

Offers \$6,000 in Rewards.

Arthur Robinson Takes Action Re Stories Of His Having Shot Moose

FREDERICTON, Thursday. — Surveyor-General Grimmer, who is here this afternoon, will have a conference at the Crown Land office with Mr. Arthur Robinson, the young New York sportsman, broker, who has such an elaborate and extensive sporting camp at Holmes Lake on the Miramichi. There has in the past been a large number of allegations made by hunters, guides and others that there have been flagrant violations of the game laws by Robinson and his guests, and Mr. Robinson now announces his intention of taking action in these matters and has employed H. A. Powell, ex-M. P., as counsel.

In the Gleaser today there appears an advertisement in which Mr. Robinson offers \$6000 in three rewards, and has posted checks for the amount at the Crown Land Office. The largest reward offered is for \$5000 and the offer states that this sum will be paid to any one furnishing information which will convict Mr. Robinson himself, his guests, or any one in his employ during closed season just expired.

Judging from the way the population is decreasing through death and flight, Persia will soon present a fine opportunity for an energetic hustling young man.

Swollen Hands and Feet
GIN PILLS
Gin Pills act directly on these vital organs—correct all disease—neutralize uric acid—purify the blood—relieve the pain and reduce swelling in hands and feet. 50c. a box; 6 for \$2.50. At all dealers or sent on receipt of price.

Look After Your Cook's Reputation
Provide your cook with the best flour—"North West Gem"—and she will delight you every time she bakes, with the lightest, whitest, tastiest, most wholesome bread and buns that have ever entered your mouth.
The strength of "North West Gem" Flour is not destroyed or the flavor impaired by the "electrical bleaching process," which is often resorted to for an All Manitoba wheat flour in order to attain the desired color.
Because of the high quality of wheat we use, we get the rich, creamy white color without any "doctoring" whatever.
Many other flours may be a trifle cheaper, but "North West Gem" is so much stronger—makes so many more loaves to the barrel—that it is far more economical in the end.
Buy it from the better class of dealers.
Brant-Wood Flour Mills, Limited, Brantford, Canada.

TWO YEARS FOR ASSAULT.

LONDON, Ont., Tuesday. — Geo.
Crowe, of Dorchester, who on Sep-
tember 2nd pleaded guilty before
Judge Elliott in the criminal court
to assaulting his wife, who after-
wards died, was sentenced today to
two years less one day in the Cen-
tral prison, Toronto.

W. B. Dickson Returns

To Face Investigation Into His
Alleged Misap-
propriations

ST. JOHN, Thursday. — W. B. Dick-
son, M. P. P., for Albert County,
whose sudden disappearance from
the province a fortnight ago, aroused
great interest and caused considerable
speculation, has returned from Bos-
ton. It was discovered after Mr.
Dickson left that his affairs were
considerably involved and that he
owed large amounts throughout the
province. An investigation was made
by W. Malcolm MacKay of this city,
for whom Mr. Dickson has acted as
agent and this investigation showed
that his business affairs were in a
very unsatisfactory condition. It
was stated that Mr. Dickson had ap-
propriated large sums belonging to
the Highway Commission, but this
was afterwards denied. Mr. Dick-
son reached St. John on the Boston
Express and left again on the Point
du Chene train for his home in Albert
County. A reporter who had a few
minutes' conversation with him asked
him the reason for his sudden de-
parture. In reply Mr. Dickson said:
"I went away on the advice of a
friend who told me it would be bet-
ter to get out of the way for a few
days. I have stayed as long as I
wanted to, and now I have come back
again."

JAIL COSTS WIFE'S LOVE.

JACKSONVILLE, Ore., Monday. —
The Jackson County Court will be
asked to provide an annex to the
county jail for the care of women
held to await the action of the Grand
Jury. An irate husband had his
wife and a male offender held in the
county jail. The pair have been
separated only by iron bars an inch
thick. They talked, played cards and
whiled away the time so pleasantly
that when the repentant husband re-
ceived bail his wife refused to ac-
cept it. The case has caused the
agitation for a separate women's an-
nex.

STEEL-COAL LITIGATION.

MONTREAL, Thursday. — The fa-
mous Dominion Steel-Coal litigation is
again in the lime light on account
of the failure of the Coal Company to
file their case before the Privy Coun-
cil by the time limit. The Steel
case was filed the day previous. A
peremptory order has been issued
calling on the Coal Company to file
their case in 14 days. Should the
Company default the Steel Company
will be in a position to either force
a hearing or obtain a dismissal of
the appeal. In connection with the
finances of the Steel Company it is
announced that the directors have
become responsible for \$600,000, while
\$750,000 had been previously paid on
the debentures to Banks, which re-
duces the liability to the level at
which the security afforded by the
company's ordinary liquid assets will
be ample.

Sir Wilfrid Laurier by the magnet-
ic force of his winning personality
and his marvelous executive and or-
atorical ability, has added a lustre to
the name of Canada, which only in-
ternal strife can ever diminish, and
given her a standing among the nations
which, if we are true to our ideals,
we shall continue to enjoy for cen-
turies to come.

American finance kings are being
criticized because the bulk of their
wealth comes from the water in their
stocks. Why, that is nothing. We
know an editor up here who makes
money out of water, or rather the
lack of it.

SHOT MAN WHO**JILTED HER.**

NEW YORK, Tuesday. — Enrag-
ed by the announcement of his en-
gagement to marry another girl, a
woman employed at a clothing fac-
tory shot down the foreman, Fran-
cisco Panza. Though married, she
was so infatuated with him that on
his refusal to break the engagement
she decided to kill him. He was
taken to the hospital in a dying con-
dition. Mrs. Rubas, his assailant,
was captured while endeavoring to
escape.

FREE RURAL DELIVERY.

OTTAWA, Thursday. — The Post
Office department is already at work
giving effect to the announcement
of Postmaster General Lemieux at
Niagara Falls on Tuesday that free
rural delivery routes would be
promptly established throughout Cana-
da. Rural mail routes will be sup-
plied with boxes just as rapidly as
possible.

**Manufacturers
Elect Officers**

MONTREAL, Thursday. — The el-
ections of officers for the Canadian
Manufacturers Association resulted as
follows:—President, R. Hobson, Ham-
ilton; First Vice-President, J. Hen-
drie, Vancouver; Provincial Vice-
Presidents:—Ontario—Wm. Gartshore;
London: Quebec—W. H. Rowley,
Hull: Nova Scotia—W. Levi, Hal-
ifax; New Brunswick—C. M. O'Donnell,
St. John; Manitoba—R. McKenzie,
Winnipeg; Alberta and Saskatche-
wan—P. Burns, Calgary; British
Columbia—W. G. J. Woods, Vancou-
ver; P. E. Island—F. L. Hassard, Char-
lottetown. The meeting then ad-
journing for a year.

Hard Lines For Bachelors.

"Korea's the wrong place for bache-
lors," said a traveler. "Bachelors in
Korea are considered as children and
have only children's privileges. You
a Korean bachelor, get thrifty. You
enter a rest house and call for palm
wine. The pretty little amber colored
waitress says:
"Married?"
"No," says you.
"Then," says she, and out
you go, unasked.
"You want to vote, but they won't
let you if you are not married.
"Yes, apply for a job somewhere.
"How many children have you? Is the
first question you're asked. And as
soon as you say you're unmarried they
laugh in your face to think that you
should presume to apply for work any-
where."

The Its Palm.

In the moonlight garden overlooking
the sea no sound was to be heard save
the petulant plaint of the mosquitoes,
angry at being disturbed at their food.
"Come," said the host, "let us go and
sit under the its palm. They won't
bother us there."

In comfort under the its, he went on:
"This tree is from the Orinoco delta,
the home of the Warau tribe. The
Orinoco delta is infested with mosqui-
toes to an incredible degree. The
Warau, to escape them, live in a palm
whose odor the mosquito can't put up
with.
"This is the palm—the its—which
makes the naked Warau's mosquito
proof bed. A handy thing it is among
these salt marshes to have in a garden
too."

Barely Deceived.

The Husband—You want to know
where I was so late last night? I was
at the office balancing my books.
The Wife—It seems to me that you
balance your books very often. That
excuse is about threadbare.

The H.—H'm! If you don't believe
me, why don't you consult a fortune
teller?

The W.—Not much. I consulted one
once, and she told me a pack of lies.

The H.—Indeed! What did she tell
you?

The W.—She told me I would get a
rich, handsome, kind, attentive and
truthful husband.

Costly Eyeteeth.

"I guess paw must have passed a lot
of time at the dentist's when he was
in New York," said Johnny Green.
"Why do you think so?" queried his
ma.
"Cause I heard him tell a man to-
day that it cost him nearly \$300 to get
his eyeteeth cut," replied Johnny.

Inconsistent.

"Dear me," said the poetess, "I don't
see why those horrid editors insist on
having manuscripts written on only one
side of the sheet when they go and
print their paper on both sides."—Path-
finder.

PARROT KILLS SHEEP.

New Zealand Kea Has Become Fierce
Flesh Feeder.

The kea is a mountain parrot found
only in the South Island of New
Zealand, where it lives among the
peaks and valleys of the Southern
Alps. When it was discovered in
1866 its chief food seemed to be ber-
ries and the larvae of insects, but in
1885 the report spread that it was a
meat eater and a bird of prey of no
mean order.

Usually one or two birds do the
killing and the others share the spoil.
The testimony is unanimous that the
kea does not kill sheep in poor con-
dition, but usually takes the pick of
the flock.

The bird settles on the ground near
its quarry, hops around a little and
then lightly seizes the sheep's rump,
where it can get the best foothold. It
at once begins to tear out the wool
with its powerful beak, and at last
gets its beak into the flesh.

The sheep vainly tries to shake its
tormentor off, and at last, frantic
with pain and fright, it runs blindly
about at its highest speed. Down
hill it usually rushes, heedless of the
rocks and pitfalls, the kea holding on
and balancing itself with outstretch-
ed wings.

When the beast stumbles the re-
lentless bird rises on its wings and
settles down again as the sheep re-
gains its feet. The race continues
until the frantic animal, bruised by
falls and maddened with pain, stum-
bles to rise no more, and becomes an
easy prey to the kea.

In most of the kea-infested country
the annual damage to the flocks is
under 5 per cent, though at a few
seasons the loss has been as much
as 10 per cent. Some of their victims
are almost untouched at the time,
but the birds return later and feed on
the bodies till they are consumed.

But the kea does not confine itself
to sheep, for instances are recorded
of its attacks on horses, dogs and rab-
bits. One day two keas settled on
the back of a pack horse, tethered at
pasture, and began operations.

The horse leaped and kicked and
finally dislodged the birds. All this
took only two or three minutes, but
by the time help reached the horse
it was dead, and its carcass and blood
was trickling down its loins.

Thousands of these parrots are now
being killed, and they are probably
doomed to the extinction which the
sheep herders would welcome. It will
be a long time, however, before they
are wholly obliterated, for they live in
a very rough country, and their nests
are almost inaccessible.

Aids to Navigation.

By the use of a system of electric
lights beneath the water recently pa-
tented by an American inventor the
navigation of dangerous harbors and
waterways may be even safer at night
than in the daytime. During the day
pilots and charts are necessary. At
night, if the system proves all that
is claimed for it, pilots, charts and
lighthouses can be relegated to the
rear and vessels steered in and out
over a ribbon way of illuminated
water.

The system consists of a waterproof
submarine cable with numerous float-
ing branches connected at suitable
intervals, to which are attached in-
candescent electric lamps fitted with
reflectors to concentrate the light
into parallel beams. The whole sys-
tem is designed to withstand the pres-
sure and corrosive action of sea water,
and the lamp reflectors are made
sufficiently heavy to maintain an up-
right position. The cable thus
equipped is laid in position in the
waterways to be lighted up and con-
nected with a source of electric sup-
ply on shore.

The channel can in this way be
marked out by brilliantly lighted
spots on the surface. The system
offers equally as good guidance in the
misty fog as in perfectly clear
weather.

Temperance in England.

A century ago drunkenness was a
prevalent vice among all classes in
England. So little was thought of it
that William Pitt could appear in the
House of Commons in a state of
heavily intoxication while Prime
Minister without provoking any un-
favorable remark. To-day our upper
and middle classes are as sober as
any people in the world. How has
this change been brought about? Cer-
tainly not by the action of Parlia-
mentary restrictions of any kind
upon the consumption of liquor. I
suppose it is due to the progress of
education and refinement, a better
understanding of the effects of
alcohol and the formation of a
more wholesome public opinion in
consequence. As a matter of fact, the
same influences have been working
with good and increasing effects in
the lower strata of society for twenty
years or more past.—London Truth.

Walking.

Firm, regular steps are said to de-
note a steady, reliable nature, while
jerky, uneven movements indicate
the reverse. The energetic person
walks quickly and stops suddenly.
The dreamer saunters along with
slow, abstracted mien. The obstinate
man goes straight ahead, refusing to
turn aside for anybody. On the other
hand, the person who is ready to
step out of any one's way is not neces-
sarily well-willed. He may be af-
flicted with too much courtesy. The
long, swinging step usually marks
the generous, broad minded person,
while the small, petty shuffling shows
the walker, to be of a mean and nar-
row character. This last rule applies,
of course, far more to men than to
women.

Troubles of Her Own.

"I am troubled about my husband,"
said Mrs. Badman, seeking sympathy
from the pastor's wife. He goes from
bad to worse. He is an infidel and
an atheist, and now he says he is an
agnostic and doesn't know anything
and doesn't believe anything and
doesn't think anything."

"My dear sister," replied the pas-
tor's wife, "you don't know what
trouble is. My husband thinks he
knows how to cook."

WASHING EYES.

How to Bathe Them Properly With
Lotions.

If more persons knew that the eye-
balls need bathing quite as much as
the body, no dressing stand would be
without an eye cup and lotion for this
purpose. In washing the eyes use a
special glass that may be bought at
any druggist's. This cup is shaped
something like a wineglass, except
that it is elongated instead of round
and has a rim that slopes down in
the middle to fit the eyes.

To use this little vessel fill it three-
quarters full of whatever lotion or
liquid is prescribed, then place it
close to the eye and throw back the
head. In this position open and
shut the eye, so that the ball is
thoroughly bathed.

As to the lotion for the bath, an
excellent and simple wash that will
cleanse the ball and relieve a feverish
or tired sensation is made by boiling
and filtering half a pint of water and
pouring into it while still warm one-
half teaspoonful of refined borax and
ten drops of spirits of camphor. Let
this cool, then filter again through a
piece of thin muslin.

The cup may be partly filled with
this liquid morning and night and
any time during the day when the
eyes feel tired. It should be applied
as previously directed and after using
for a time will usually clear away the
yellow scum so frequently seen on
eyeballs and always so disfiguring.
Before applying any lotion the eyes
must always be carefully bathed in
warm water.

For eyes that are weak a tonic
wash recommended by English ocul-
lists is made in this way: One half
of an ounce of rock salt and one
ounce of dry sulphate of zinc dissolved
in a perfectly clean, covered porce-
lain vessel with three pints of water
until the ingredients are all dissolved.
Strain through thick, clean muslin.
Use once or twice a day, and seal
tightly. Use when the eyes feel weak.
If the lotion smart, add a little
water. The eye cup should be kept
perfectly clean.

If after simple home treatment the
eyeballs continue to show a yellow-
ish appearance no time should be
lost in consulting a physician, for
something wrong with the system is
indicated. Any inflammation of the
eyes is likely to exhibit itself by
secretion on the lids in the morning,
and this condition should be checked
before it leads into another more seri-
ous state.

After bathing with either of the
lotions given the edges of the lids
should be covered at night with a
paste made of two and one-half cen-
tims of oxide of zinc and sub-
acetate of lead, twenty-five cen-
tims of oil of sweet almonds, three
grams of white vaseline and three
drops of tincture of benzoin.

It is well to have this compounded
by a chemist, for should there be the
least lump or grain it is apt to find
its way into the eye and cause irri-
tation. In making any lotion at home
too much care cannot be given to
filtering, and should the liquid be-
come cloudy after a time it must be
strained again to prevent causing
irritation.

Curious Callings.

In India all callings are hereditary.
A baker's son becomes a baker and
his son after him, and so on from
generation to generation. The census,
however, reveals some startling
coincidences than that of the maker of
bread. The people of Allahabad
especially are not ashamed of their
professions. Thirty-five describe them-
selves as "men who beg with threats
of violence," 226 are "batterers for
gain," 25 as "hereditary robbers,"
974 as "low blackguards," 29 as
"howlers at funerals," while as many
as 5,372 publicly announce that they
are "poets." In the other districts
one finds, besides the ordinary pro-
fessions, 11,000 tomtom players, 45
makers of crowns for idols, 145 ear
rings, and, most curious of all,
"hereditary painters of horses with
spots." The census containing this
interesting information is kept at the
Sanskrit college at Benares.

Facts About the Bible.

The first book printed from move-
able types was the Latin Bible in the
year 1455. The first Bible printed in
this country was in the Indian lan-
guage in 1683, by John Eliot. The
first English Bible printed in this
country was in 1782. The first Bible
printed in New York city was in 1782.
George Washington owned a copy.
The Bible is now printed in more
than 500 different languages, repre-
senting the speech of eight-tenths of
the population of the world. In the
thirteenth century a Bible cost
\$3,000, which was more than the cost
of the two arches of London bridge
and as much as the entire earnings
of a laboring man for fifteen years.
To-day the Bible is the cheapest book
in the world. The entire Bible may
be obtained for 16 cents and the New
Testament for 6 cents.

Salt is a Necessity.

"Salt is a most necessary article
of food," says a well known scient-
ist, "and all races of mankind, either
civilized or in a savage state, have the
same regard for salt. In parts of central
Africa the natives regard salt as a
luxury and will willingly do much to
obtain it. So much do they like the
taste of salt that the ashes of the
burnt veldt grass are used to season
their meat. These ashes contain salt-
peter, which imparts the coveted
savor to food. Animals, too, are fond
of salt. In a wild state they will
readily go to a spring the water of
which has been salted. Sportsmen
know this and use it as a bait."

Sold Human Bones.

The keeper of the public cemetery
of a small Bohemian town near
Prague excavated the older parts of
the graveyard and sent all the old
bones he could find for industrial
purposes, as he found that certain
manufacturers paid more for human
bones than for those of animals. He
had been earning money in this way
for several years before he was de-
tected and suspended from his post.

**NATURE
AND A WOMAN'S WORK****LYDIA E. PINKHAM**

Nature and a woman's work com-
bined have produced the grandest
remedy for woman's ills that the
world has ever known.

In the good old-fashioned days of
our grandmothers they relied upon
the roots and herbs of the field to
cure disease and mitigate suffering.

The Indians on our Western
Plains to-day can produce roots and
herbs for every ailment, and cure
diseases that baffle the most skilled
physicians who have spent years in
the study of drugs.

From the roots and herbs of the
field Lydia E. Pinkham more than
thirty years ago gave to the women
of the world a remedy for their pe-
culiar ills, more potent and effica-
cious than any combination of drugs.

Lydia E. Pinkham's Vegetable
Compound is now recognized as the
standard remedy for woman's ills.
Mrs. J. M. Tweedale, 12 Napanee
Street, Toronto, Canada, writes to
Mrs. Pinkham:

"I was a great sufferer from female
troubles, had those dreadful bearing-
down pains, and during my monthly
periods I suffered so I had to go to bed,
I doctor for a long time but the doc-
tor's treatment failed to help me. My
husband saw Lydia E. Pinkham's Vege-
table Compound advertised and got a
bottle for me. I commenced its use and
soon felt better. I kept on taking it
until I was well and an entirely differ-
ent woman. I also found that Lydia E.
Pinkham's Vegetable Compound made
childbirth much easier for me. I would
recommend your Vegetable Compound
to every woman who is afflicted with
female troubles."

What Lydia E. Pinkham's Vege-
table Compound did for Mrs. Tweedale,
it will do for other suffering women.

Look for the Label

Stanfield's Underwear
comes in three weights
for winter wear.

And you can get just
the weight you want by
looking for the label
on every genuine
Stanfield garment.

Red label—light weight
Blue label—medium weight
Black label—heavy weight

Your dealer will likely have
all weights. If not, he can
get them for you.

The Kind You Have Always Bought

Bears the
Signature of *Dr. J. C. Ayer*

MONTREAL, Thursday. — The
body of Antoine Grattino, an Italian,
was found on the C. P. Railway
tracks near Mile End this morning.
It had been so hacked and stabbed
as to be almost unrecognizable. It
is believed it was afterwards laid on
the tracks in order to cover up the
crime. It is said the man was a
strike-breaker, but there is no con-
firmation of this. The body showed
the marks of a hundred wounds. It
is said he was murdered last night
in a fierce fight in Shantytown.
There was blood all over a woman
lot, and it seems that a dozen had
been in the fray.

LOCAL NEWS.

Special services are being held in the Methodist church, Protectionville, this week.

David R. C. Brown of Aspen, Colorado, has devoted \$50 to the Miramichi National History Association.

THANKSGIVING ON KING'S BIRTHDAY.
It is understood that Thanksgiving Day this year will be Monday, November 9th, the King's Birthday.

Mr. Jos. Grogan's exhibit of hand painting at Chatham exhibition drew forth many expressions of appreciation. The work was excellent.

BIG FIRE IN NELSON.
About three o'clock on Saturday afternoon, fire caught in the Daily House at Nelson, opposite the post office, and owned by Postmistress Miss Maggie O'Brien. The cause is said to have been hot ashes emptied carelessly from a man's pipe. In a few moments the flames were beyond control and the Newcastle fire department were asked for aid. Ten firemen went over with their engine and all the mills in Nelson were shut down and sent their workmen to assist. The flames were kept from burning anything but the Daily House, a barn and some other out buildings. About all the furniture and merchandise was saved. The building was occupied by Miss Mary Burke, as a confectionery store and dwelling; by Michael Dunn, grocer; Miss Milne, dressmaker; and Mr. and Mrs. Joseph Richardson's dwelling. Upstairs was the A. O. H. Hall.

WEDDING BELLS.

DALTON-MURPHY.
St. Bridget's R. C. Church, Renouville, was the scene of a very pretty wedding on Tuesday morning Sept. 16th, when Mr. John J. Dalton and Miss Wilhelmina Murphy were united in the holy bonds of matrimony by the Rev. E. S. Murdoch. The bride looked charming being attired in a dainty dress of cream tulle, with Valenciennes lace trimmings, and white picture hat and was assisted by the groom's cousin, Miss Nellie Burns, who wore a suit of grey voile with white trimmings. The groom was ably supported by his brother James. The wedding march was played by Miss Laura McCarty. After the ceremony the happy couple drove to the home of the groom's parents where a sumptuous dinner was served to the immediate relatives of the contracting parties. About 5 p. m., tea was served to a large number of invited guests who spent a very pleasant evening in dancing and other amusements. Excellent music was furnished by Mr. Thomas Ross, jr., of Blackville. Testifying to the esteem in which the young couple were held by their numerous host of friends, the presents were many and beautiful. The groom's present to the bride was a handsome gold bracelet and to the bridesmaid, a gold cross and chain. The groomsmen received gold cuff links. The best wishes of the community are theirs for a long, happy and prosperous life.

McDONALD-FLYNN.

Tuesday morning, September 15th, St. Margaret's R. C. Church was the scene of a very pretty wedding when Miss Mary A. Flynn and James McDonald were united in holy matrimony by Rev. E. Pattincaud. The bride was attended by her cousin, Miss Annie Close, while the groom was supported by Mr. Mark Flynn, brother of the bride. The bride was becomingly attired in cream silk costume with silk and lace trimmings and hat to match. After the ceremony the happy couple drove to the home of the bride's father where dinner was served and in the evening a number of young folks gathered and a very enjoyable time was spent. The bride was the recipient of many pretty and useful presents.

UPPER BLACKVILLE.

Mr. M. R. Benn of Douglastown passed through here on Wednesday. Mr. and Mrs. Will McLagan and little daughter of Blackville were the guests of Mrs. Will Donald on Sunday last. Miss Mabel Donald attended the exhibition in Chatham on Wednesday. Mrs. M. Coughlan was in Douglastown last week. Mr. Bert Donald spent part of last week in Chatham.

PASTIMES OF MADMEN.

Cunning and Ingenuity Displayed by the Insane.

Some of the inventions of the insane are of scientific value. A patient at Villejuif invented a "pneumatization machine" by combining a bottle, a plumb and small metallic tubes, to which he had fitted faucets. Having set up his machine, he produced leaves of bread the size of a man's head. The bread was good—so good that it was decided to make the machine known. One day when it was in action the doctor suggested taking a photograph of it. The inventor watched him as if petrified for a moment; then he fell upon the machine, wrenched it apart and trampled it underfoot. The invention, an exceedingly useful one, was lost, because no one had seen him make it, and no one dared speak of it to him. To abide to it is to bring on a furious attack.

Most lunatics, no matter how contented they may be, generally cherish a furtive longing to escape. They collect from the police station, the impressions of locks and make keys from empty sardine boxes, spoon handles or anything to be found. Dr. Marip's museum includes a collection of knives of strange and unheard of shapes. Some of them have blades made from pieces of glass or slate and set in handles of corset steels. Objects harmless in themselves become dangerous weapons through the ingenuity of madmen.

Insane sculptors are as common as insane painters. The insane sculptor hews out coarse statuettes, fantastic animals, ferocious little horned and grinning devils. An ex-mechanic carves all his soap bones. That his old trade is still in his memory is shown by the little screws that he makes out of the smaller pieces of bone. He works all day at his senseless and ridiculous task. Another lunatic, who believes he is the incarnation of the soul of Beelzebub, passes his time carving toy men out of wood. Each pair of his creations are joined together, now at the necks, now at the shoulders—Helen E. Meyer in Harper's Weekly.

NATIONAL CONVENTIONS.

They Succeeded the System of Nomination by Caucus.

Conventions have not always nominated our presidents and vice presidents. For more than thirty years presidential candidates were named by a caucus made up of members of the house and the senate. This system died when in 1824 the caucus insisted upon by Martin Van Buren and other friends of William H. Crawford of Georgia defeated Crawford, which threw the election into the house on account of the scattering electoral vote caused by the entrance of Clay, Calhoun, Jackson and John Quincy Adams in the race. This fracas elected Adams. The campaign of 1828 in consequence was somewhat demoralized, and in 1831 the Republicans followed the example the anti-Masonic party had set the year before and met in convention in Baltimore to nominate Henry Clay. The Democrats held their first national convention in the same city the following year, nominating Martin Van Buren for vice president. The dominating figure of the party, Andrew Jackson, needed no endorsement of his candidacy for the presidency.

The Democrats in 1835 and 1840 nominated Van Buren for the presidency in Baltimore, and the Whigs nominated Clay in the same place in 1844, when the Democrats named Folk. In 1853 Roman M. Saunders introduced the two-thirds rule to the Democratic convention, and it was adopted. The customs installed at these earlier conventions which succeeded the tyranny of the caucus chamber have been continued and added to from time to time, and the conventions today are merely the descendants of those that nominated Clay and Van Buren—Charles Wadsworth Camp in Metropolitan Magazine.

Horizon.

A man calls it the horizon where the earth and the sky seem to meet, but a woman's notion of the horizon is the families she can see moving in from behind her front window curtains. If, further, they hang out their washing in a spirit of candor, they are, of course, all the more so. The horizon is caused by a number of things, chief among them the gregarious instinct. Only for this next door would mean as little as tariff revision or pure food or international arbitration. It takes a star or something of that sort to rise above the horizon, but a very ordinary woman may feel above it—Life.

The Cult of the Hotel.
"Hotel" is a French word, but a thoroughly British institution. If its great hotels were suppressed London would no longer be London—that is to say, the London of society, the theater, literature, politics, art and fashion. The hotel is one of the essential factors of London life—Milan Corriere Della Sera.

A Comparison.
Mrs. Gilles (anxiously asking after rector's health)—Well, sir, I be glad you says you be well, but there—you be one of these "bad doers," as I calls 'em (gle 'em the best o' vittels, and it don't do 'em no good)—there be pigs like that!—London Punch.

First Necessity.
"How would you define a 'crying need'?" asked the teacher of the rhetoric class.
"A handkerchief," replied the solemn young man with the wicked eye.

The great and the little have need of each other.—Shakespeare.
