J. & D. A. HANNAH COMPANY, RESTIGOUCHE FARMERS

CONTRACTORS, PLANING MILL, BUILDERS, DRY KILN, DOOR AND SASH FACTORY.

MANUFACTURERS OF:
SASHES, DOORS, MOULDINGS, AND GENERAL BUILDING MATERIAL.
We carry a large stock of material, and are prepared to take orders for the same. Our planing mill is equipped with the latest machinery, and our dry kiln is of the most modern type. We are also engaged in the construction of buildings, and the erection of chimneys, and are prepared to take orders for the same. Our prices are the lowest, and our quality is the best. We are located at the corner of Main and Commercial streets, Campbellton, N. B.

RESTIGOUCHE FARMERS MUST GROW WHEAT

Every Effort Should be made to Grow Sufficient for Use of Own Inhabitants—Seed Wheat.

Restigouche farmers must grow more wheat this year. This is the advice of the local government, and it is the duty of every farmer to obey it. The local government has made arrangements to provide seed wheat, and it is the duty of every farmer to take advantage of this opportunity. The local government has also made arrangements to provide a market for the wheat, and it is the duty of every farmer to take advantage of this opportunity. The local government has also made arrangements to provide a market for the wheat, and it is the duty of every farmer to take advantage of this opportunity.

MORE FUNDS FOR BLIND SCHOOL

Tobique Gives Generously to Most Worthy Cause—The Subscribers.

Mr. Edward Tobique, who is working as a carpenter in the interests of the blind at Halifax, visited Val d'Amour, (Tobique) and gave an illustrated address in the school house there Friday evening. The people were deeply interested and after the lecture pressed forward eagerly to subscribe towards this worthy cause. The following is a list of the subscribers:

Proceeds from lecture	\$10.25
Arthur Johnson	1.00

BRITISH MAKE ANOTHER AIR RAID INTO GERMANY

Bombs Dropped at Offenburg—Many German Planes Brought Down—Prisoners Taken.

London, Feb. 12.—The official statement from the war office to-night reads: "A few prisoners were brought in by our patrols at different points along the front. "Our airplanes carried out a raid into Germany and bombed Offenburg (in Baden, south-west of Karlsruhe). Details have not been received. "French pilots bring down four German airplanes. "Paris, Feb. 12.—The war office announcement to-night reads: "Both armies were active in Champagne in the regions of the Meuse and at several points in the Vosges. There was no infantry action. "On February 11th, four German airplanes were brought down by our pilots. In addition our aviators, carried out various bombardments. Nine thousand kilos of projectiles were dropped on enemy establishments, depots, railway stations and communications. "Eastern theatre, Feb. 1st: There was reciprocal artillery activity west of the Varadar and northwest of Monastir. Enemy reconnaissance were resumed in the Upper Skumbi Valley. "Belgian communication: On the night of February 9th and 10th one of our patrols penetrated shelters for machine guns near Kippe. "After a hand-to-hand struggle they put the occupants of the shelters out of action and returned to our lines, bringing back a German machine gun. Along the whole front there was limited artillery activity this morning; it was quite marked during the afternoon near Ramscapelle and Merckem."

Good News According to the General Opinion

We have the agency for Victor Gramophones and Records—The best instrument money can buy. \$27.50 to \$520.00. Can play any disk record. Come in and hear them.

We have a large assortment of Records—including the latest and best. Ask for free record catalogue.

Our stock consists of leaders in every line, Stationery, Office Supplies, Fountain Pens, Flashlights, Sporting and Fancy Goods, etc. Magazines and Books bound in Paper, Cloth and Leather Covers.

HAVE YOU SENT HIM A BIRTHDAY PRESENT? \$3.00

CENTRAL BOOK STORE. CAMPBELLTON, N. B.

CAMPBELLTON OPERA HOUSE DEAL

Dimock Amusement Co., Ltd. Sells Out to Halifax—Change March 4th.

Mr. Donald McRae, of Halifax, who is interested in the St. John Opera House, Strand and Imperial theatres of Halifax, and who is building a large theatre at St. John, N. B., has purchased the entire interests of the Dimock Amusement Co., Ltd., of which Mr. S. W. Dimock has for some years been manager. The interests purchased include the business of Campbellton Opera House, as well as the Opera houses at Dalhousie and Athol. These three houses will now be linked up with St. John and Halifax.

The new management will take control on March 4th. Mr. McRae who will manage the interests here has a wide experience in the theatrical business, and will undoubtedly give to this town the best productions that can be procured.

CONGRATULATIONS. Mr. and Mrs. H. A. Carr are receiving congratulations upon the arrival of a son and heir at their home Tuesday night.

KILLED MOOSE OUT OF SEASON

Two Athol Men Pay High for Moose Meat—Warden on the Job.

Two Athol residents recently discovered that a cow moose was "warded" back of the sugarbush, and planned to get it for fresh meat. The game warden of the district, Mr. Gray, evidently learned of their intentions as he was not on their trail. One day recently the men proceeded to the spot and killed poor defenceless Mrs. Moore and hauled the carcass home. The next morning before they were out of bed the game warden, with Chief of Police Mann visited their houses armed with a search warrant, and without much trouble found the meat.

The two men were placed under arrest, brought to town and later appeared before the Hon. Magistrate charged with killing a cow moose.

They were proven guilty and each fined \$100.00 and costs, or three months in jail. One paid his fine, but the other had to go to jail.

We are glad an example has been made of these two pot hunters, and hope this will be a lesson to others. The Warden Mr. Chas. B. Gray is determined to protect the game in his district, and he is doing excellent work.

ENGLAND'S EARNESTNESS IN WAR IMPRESSES ITALIAN MINISTER.

Rome, Feb. 12.—The Minister of War, General Alfieri, has returned to Rome from a visit to England.

"The impression I received," he said, "may be summarized in the words 'earnestness' and 'discipline' which apply to the whole British Empire. My observations of the English people confirm the impression I received when I saw the British troops on our own front."

"The object of my journey was to place myself in contact with the directing organizations of the British army. This was accomplished most satisfactorily. All England is standing together against the enemy in this just cause."

PRESUMED TO HAVE DIED. The assassin of this week has the name of J. Thompson of Glenlivet, N. B., presumed to have died.

LOOKS FOR DROP IN POTATO PRICES

St. John Valley, Getting Lots of Cars for Shipment to U. S.

(Frederick Gleaner.) During the past ten days developments in the potato situation are such as to cause some considerable concern to food administrators and agriculturists of the Maritime Provinces of Canada, and States in the United States. The greatness of the crop, both in the United States and Canada, has been frequently referred to. In spite of the largest crop ever known, prices, from the time of digging to the present, have ruled higher than of any previous years of record, with the exception of last year, when the crop was abnormally short.

Prices today in the larger centres of the States are high. Figured on the 10 pound basis they are, locally, worth \$3.55 per barrel. From all information available it appears that not more than one-half of the marketing surplus of the crop of 1917 has been moved up to December 31.

Mr. Smith interviewed. Hon. B. Frank Smith, of the P. F. Smith Company, Limited, who was in the city yesterday was interviewed on the potato situation, by The Gleaner. "From the St. John Valley," says

AMERICANS LIVENING UP GERMAN FRONT

Artillery Makes Things Lively For Huns—Aerial Activity Over American Lines.

With the American Army in France Feb. 12.—Aside from increased aerial activity the American sector has been normal for the last 24 hours. Harassing artillery fire and patrolling operations have been kept up, but there have been no clashes. Airplanes were overhauled everywhere. The enemy late in the day sent over a considerable number of machines in battle formation. They were met and driven back by a French squadron.

Mr. Smith, "potatoes are going forth, about equally, between United States and Northern Canadian points. Probably not more than one-half of the marketable potatoes have gone forth. With liberal car supply, which I have reason to believe is coming, I am inclined to the belief that there will be a considerable reduction in prices. North America had a very large production, far more than she can consume, and with a free movement, prices must topple."

MATAPEDIA RED CROSS. The Matapedia R. H. Cross society will meet at the home of Mrs. Mary Pollock, Friday Feb. 22nd.

Clothing and Furnishings For Men and Boys at Very Reasonable Prices

Men's Suits in Tweeds, made in Norfolk style. \$12.00	Men's Suits in Brown and Greys \$15.00 and \$16.50	Men's Suits in Blues, Greys & Browns \$18.00

OAK HALL : McRae & McRae : OAK HALL

WAR SITUATION HAS NOT CHANGED BY RUSSIAN ACTION

Russia as a Practical Factor in the War Has Been Inert for several Months—Separate Peace No Advantage

Paris, Feb. 12.—The news that Russia is laying down her arms and has declared peace with the Central Powers is not considered here to have changed the war situation in its essentials. It is pointed out that Russia as a practical factor in the war has been inert for many months, and the allies have long since adjusted their plans and calculations to that condition.

UNITED STATES AND CANADA MAY JOIN IN DAYLIGHT SAVING PLAN.

An Ottawa despatch states that by co-operation between United States and Canada there will probably this summer be a continental daylight saving scheme. These schemes have been tried in different communities for the last two years, but it is recognized that national or continental co-operation is necessary.

QUEBEC LEGISLATURE PROROGUED; PLEA FOR ALLIED ARMIES

Quebec, Feb. 10.—The session of the Quebec legislature which opened here in December, was prorogued on Saturday night by Sir Horace Archambault, chief justice of the court of appeal, in the absence of the lieutenant-governor, Sir Evart LeBlanc, who is seriously ill at Philadelphia.

NOTE OF THANKS.

The Women's Institute desire to thank Mr. Alex. McLennan for the splendid donation of \$24.00 for Red Cross work. Some of this money went towards supplying underwear to a soldier in need who passed through here this morning.

GREAT GERMAN OFFENSIVE PROMISED FOR MARCH

Much Advertised Push Has Now Approximate Date Set—British Are Ready for Huns.

British Army Headquarters in France, Feb. 12.—Some time in March has been set by the Germans for at least one offensive operation on the British front, according to a German prisoner who has just been taken.

This captive did not know whether a general offensive operation was intended at that time. The British and French troops are ready and await the advance with confidence that they can hold any forward movement.

VASSAR COLLEGE DAMAGED BY FIRE

Loss Estimated at \$300,000; Students Escaped.

Poughkeepsie, N. J. Feb. 13.—Fire which broke out last night in the east wing of the main building of Vassar College did \$300,000 damage. None of the students were injured.

HOW HUNS TRY TO STOP AIR RAIDS

Send Prisoners of War to South Western Germany.

New York, Feb. 12.—The German authorities are packing Stuttgart, in the southwestern part of Germany, with prisoners of war in an avowed attempt to discourage air raids in reprisal for those made by the Germans on London and other Entente cities.

MEN'S SUITINGS.

Just received a splendid line of men's suitings. Suits made to order from \$18.00 to \$30.00. Call and see the quality and styles. We have also many ready to wear suits in stock. S. M. MOORES, Water Street, Town.

VINOL REMOVES THE CAUSE OF CHRONIC COUGHS

A Constitutional Remedy
That We Guarantee

Lagrange, N. C.—"For years I suffered with a chronic cough, so I could not sleep nights and continued to lose flesh. My doctor asked me to try Vinol. It cured my cough. I can sleep nights and have gained twelve pounds. Vinol is the best tonic and tissue builder I have ever taken."—W. D. Ren, Lagrange, N. C. We guarantee Vinol for chronic coughs, colds and bronchitis. Not a patent medicine. Formula on every bottle. Your money back if it fails.

A. McE. McDonald, Druggist, Campbellton. Also at the best druggists in all New Brunswick towns.

GAS IN GARAGES.

"The exhaust fumes from the internal combustion motor are very poisonous, and every garage should be well ventilated," says William H. Stewart, Jr. president of the Stewart Automobile School.

"Many of us have enjoyed the clever humor of Nat Wills, and all regret his death caused by such extraordinary circumstances. However, there are thousands of other motorists having garages in the rear of their homes who perhaps have never realized the lurking danger that awaits them. There have been a number of unfortunate victims who have succumbed to this deadly poisonous gas, and it seems timely to sound the warning, especially as winter approaches.

"Carbon monoxide is tasteless and colorless. There is a little color but not enough to warn the unsophisticated. It is the result of incomplete combustion. No automobile motor has yet been perfected which does not exhaust more or less of these fumes. The poisonous gas is produced by the incomplete combustion of carbonaceous substances when burned with an incomplete supply of air.

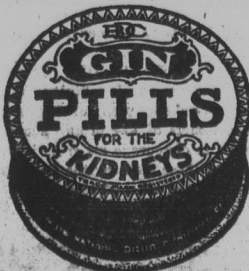

"The single cylinder engine is sometimes called a 'one lung'. The lungs of the multicylinder motor must breathe plenty of fresh air, together with a small quantity of gasoline properly vaporized in order to insure efficient operation. The exhaling of the motor is the exhaust. With the engine running it takes out a little while to fill the small unventilated room with poisonous exhaust gases. Since there is more or less carbon monoxide in the exhaust fumes, why not assume that there is more and more expelled from the motor as the supply of the fresh air in the room is reduced, and the motor is forced to again breathe the already foul air.

"It seems reasonable that such conditions induce incomplete combustion and augment the danger of monoxide. In a cold room the danger is greater in that the fumes accumulate more quickly and hang to the floor. Any one working about or under the car would quickly be affected.

"The symptoms are hardly noticeable to one working. The eyes may smart and one may feel groggy, but while working in a cramped position such as is necessary under a machine one may not always properly judge cause and effect.

"This poisonous gas inhaled for a short time acts upon the red corpuscles of the blood and deprives the blood of its power of distributing oxygen to the system. A few full breaths will induce unconsciousness. Elderly persons or those mostly indoors are quickly affected. Likewise persons who are not healthy or strong.

"In larger garages, there is plenty of ventilation caused by the cold air opening and closing of the doors. In the small garage such as the average owner employs in the rear of his home, extreme caution should be used to insure proper ventilation. There should be a window open at the top and one open at the bottom to permit circulation. In addition, one should also arrange for the exhaust fumes to be carried out of the building. This may easily be accomplished by connecting the exhaust line from the motor to the outside by means of a flexible metallic hose."

BATHURST CURLERS VICTORIOUS IN NORTH SHORE BONSPIEL

Most Exciting Games Yet Played For
Popular North Shore Trophy—
Bathurst's Great Playing.

The event of the season so far at North Shore curlers are concerned is the North Shore Bonspiel, and every club looks forward to this event.

Five years ago the first Bonspiel was held at Chatham and each year the event is held at a different town. For four years Campbellton which won the cup at Chatham the first year has ably defended it, but this year Bathurst, on their own ice proved a little too strong, winning out by four points.

It will be noticed by looking up the score games that Campbellton won 11 out of 16, but in these ten wins the score was four points more than Campbellton.

After Campbellton had held the cup two years new rules were made which awards the cup to the Club winning the most games of the five Clubs.

Under these rules Campbellton has two wins to its credit and Bathurst one, with two more to play.

The curlers always enjoy their visits to Bathurst, and this year was no exception. The Bathurst curlers did everything in their power to make the visitors enjoy themselves.

A splendid supper served by the ladies of the Bathurst Red Cross, was tendered the visiting curlers in the Masonic Hall, Thursday evening by the Bathurst Club and a most enjoyable evening was spent by all.

ident E. P. MacKay of the Bathurst Club occupied the chair and a suitable programme of speeches and toasts was carried out. The visiting curlers were loud in their praise of the hospitality of the Bathurst curlers on this occasion and all through the bonspiel.

As the tabulated score, published herewith, show Bathurst was leading on Thursday play by 9 points, and on Friday evening at 8:30 when, Campbellton and Bathurst had each played all but two games Bathurst had a lead of 12 points over Campbellton with Newcastle likely to get third place.

The two Bathurst rinks were facing two Newcastle rinks and the two Campbellton rinks were facing skips McKendry and Heckbert of Chatham on the final leg of the contest.

In the first end Campbellton scored six points on the combined rinks while Bathurst drew blanks against Newcastle, and thus Campbellton in one end had cut their opponents, lead in half and the Gloucester county supporters grew nervous. Slowly Campbellton forced the score down until on two occasions Bathurst's lead was only 3 points. But know this it did not go and when the bell rang for the last end the excitement grew intense.

Bathurst however, managed to get one more point from McKendry and Campbellton rinks each scored and Campbellton chances to again win out were finally ended.

The following are the scores:—

THURSDAY 9:00—11:30 a. m.				
Howard McKendry	Chatham	11 vs J. R. Lawlor	Newcastle	13
Thos. Wran	Campbellton	13 vs J. R. McKnight	"	13
S. D. Heckbert	Chatham	13 vs John Sargeant	"	12
J. G. Stout	Bathurst	7 vs H. J. Guignard	Dalhousie	13
12:00 to 2:30 p. m.				
J. H. Barbour	Dalhousie	4 vs H. G. Millican	Campbellton	17
F. A. Barberie	"	10 vs N. Thibideau	Bathurst	23

CAMPBELLTON, N. B.

Increased Production

According to reports submitted to this office for 1917, a total of twenty-six acres of land has been cultivated by 4052 school children in this Province with an estimated yield of 3812 bushels. These reports do not represent all that has been done in production work by school children, as at least one school with nearly two acres cultivated has given this Department no statement. The figures given represent the efforts of those schools in which work has been carried on under this Division through the year, and two others in which we directed the work merely during the production period.

The outlook for 1918 is very encouraging that very much more land will be cultivated and that a much larger number of teachers and pupils will participate. Most teachers are anxious to do their part in aiding pupils in this patriotic branch of school work. Now and then one meets a reactionist who would assist the Hun by discouraging both teachers and pupils from doing anything but school room work, but this number is negligible. Such people despise the agricultural industry that supports them. They are to be pitied. This year Canada needs to produce more food than ever. The loyal school teachers and children will wish to do their part. Last year in the United States over one million school children carried on under their teachers, production work. Much more will be done this year. New Brunswick does not wish according to its child population to be behind any Province of Canada or state of the Union to the south of us. Therefore to make effort successful, intelligence instruction and study must combine to assure results. Preparation must be made during the winter months. Plans are to be made and seed selected so that when spring comes the work done may be according to knowledge.

There may be solitary cases among those who tried last year, who will do nothing this year. Either they used mould board plough methods of fifty years ago and gave much time and labor for little return, or they are hopelessly tied to formal routine methods and they slur and demean agricultural employment. At any rate there are some such quitters. The great body of our teachers, however, ring true to the needs of the hour and they will do all they possibly can both on their own account and for their pupils, to make the increased production campaign this year a still greater success than it was last year.—Rural Education Monthly.

CLAIMS TO HAVE

SEEN A VISION.
Beauce Co., Que., Girl Under Observation.

Quebec, Feb. 9.—Claiming she has visions that she is possessed of a spirit, Albertine Lafontaine, 20, single, living with her uncle at St. Evariste, Beauce, is under treatment to-day and under the observation of members of the clergy. She was seen to doze for days and days, without heeding what was going on at her side; once she fell to the floor after receiving from an unseen hand a slap in the face. Witnesses of this latter fact are said to be many, but they are afraid of talking for fear the spirit touch them, too. The thing is causing quite a stir all over the district.

TARIFF-LIFTING

ORDER APPROVED
Cattle and Farm Tractors on Free List due Year From Feb. 7th.

Ottawa, Feb. 9.—The order-in-council Ottawa, Feb. 9.—The order-in-council placing cattle and farm tractors on the free list were sanctioned today. In both cases, customs duties are remitted for one year dating from February 7th, 1918. Action was taken under the war measures act. Textually, the orders-in-council read:

During the period of one year from the seventh day of February, 1918, remission and refund of duty is hereby authorized in respect of meat cattle imported by bona fide residents of Canada under regulations by the minister of customs.

During the period of one year from the seventh day of February, 1918, remission and refund of duty is hereby authorized in respect of traction engines costing not more than one thousand and four hundred dollars in the cost of production designed to be moved by steam or other motive power for farm purposes and parts thereof for repairs and traction attachments designed and imported to be combined with automobiles in Canada for use as traction engines for farm purposes and parts thereof for repairs.

Boreleigh — "Nice dog. Have you taught him any new tricks since I was here last?"

Miss Smart—"Oh, yes, if you just whistle he'll fetch your hat."

FOR FROSTBITE

there is nothing so soothing and healing as Zam-Buk. This great herb-balm relieves inflammation, draws out soreness, and reduces swelling. Those who have once used Zam-Buk for the treatment of winter ailments say they would

USE

no other remedy, as experience proves that nothing can equal Zam-Buk for chapped hands, cold sores, cold cracks and chilblains. It is also invaluable for all skin injuries and diseases. NO MORE NERVOUS HEADACHES

Since She Tried "FRUIT-A-TIVES", The Famous Fruit Medicine.

MISS ANNIE WARD

112 Hazen St., St. John, N.B.
"It is with pleasure that I write to tell you of the great benefit I received from the use of your medicine, 'Fruit-a-tives'. I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors; but nothing seemed to help me until I tried 'Fruit-a-tives'.

After I had taken several boxes, I was completely relieved of these troubles and have been unusually well ever since."

"Fruit-a-tives" is fresh fruit juices, concentrated and increased in strength, combined with finest tonics, and is a positive and reliable remedy for Headaches and Constipation.

50c. a box, 4 for \$2.50, trial size 25c. At all dealers or Fruit-a-tives Limited, Ottawa.

PROHIBITION LAW PASSES IN QUEBEC

Whole Province Will Become Bone-Dry After May 1st 1919.

Quebec, Feb. 7.—The province of Quebec has fallen in line with the other prohibitionist districts and will go dry on May first, 1919.

Hon. Walter G. Mitchell's bill providing for a bone-dry prohibition with the exception of the sale of wine for sacramental purposes and of intoxicating liquors for medicinal, mechanical, manufacturing or industrial purposes, was put through the second and third reading stages in the legislative assembly tonight and all that it now requires to become law is its passage through the legislative council and its sanction by the lieutenant-governor-in-council.

While a number of liberal members opposed the bill in second reading none of them cared to propose an amendment so the measure went through without an amendment.

Explaining his bill to amend the Quebec liquor act, Mr. Mitchell spoke of the prohibition wave that had swept over Canada while Quebec had remained the only province with a license law, but in spite of that up to the time the war broke out Quebec had made more progress towards temperance than any other part of Canada. He pointed to the strides made by the dry movement in this province and then referred to the federal order-in-council prohibiting the manufacture, importation and transportation of intoxicating liquors. The Quebec government was obliged to take this matter into serious consideration for in about a year's time with the new regulation the stock of imported liquor would be exhausted.

Besides, the prohibition of manufacture would mean that in about the same time the supply distilled here would also be run out. The province of Quebec would then be in the position of issuing licenses for the sale of something which had no legal existence in the country. He said that in view of the Ottawa amendments and the sentiment of the people in this province and throughout the country the government had come to the conclusion that it was the will of the people that it should be passed. He referred to the movement that had been made for beer and wine licenses, but as it was evident that the wish of the people was for absolute prohibition the government had decided not to modify their position. The will of the people would be carried out in spite of the heavy loss of revenue anticipated. In view of approaching prohibition the government, he said, had decided to modify certain clauses of the bill passed last year. The bar would not be abolished in May, 1918, licensed grocers would not be obliged to provide separate premises for their liquors and in Montreal the number of licenses, instead of being reduced from 300 to 200, would only be reduced to 250. All licenses would, of course, cease to exist on May 1, 1919.

After a young man has blown in all his money on a girl she often shows her gratitude by marrying some other fellow.

TO FURNISH 20 MORE CARS AND MEN

Salvation Army to Send 20 More Cars and Men to the Front For Red Cross Work.

On the eve of our great effort to raise funds for The Army's War Work comes the news of The General's gift of \$2,000 (\$10,000) to the British Red Cross Society for the purpose of providing as many additional cars to The Salvation Army Unit as the amount will cover. In the letter to the Hon. A. Stanley, The General says:—

"In response to an urgent request made by the representative of the Red Cross Society in France, I am glad to say that we are providing another twenty drivers, and hope to have them in France in the course of two or three weeks.

"The increased interest of our people in the splendid work being done by your Society is a continual source of satisfaction to me, and that our men have commended themselves to you authorities adds no little to the pleasure I feel in co-operating with you, so far as I find possible."

In his reply the Hon. A. Stanley, after acknowledging the receipt of the money, says:—

"I cannot sufficiently thank you and The Salvation Army for this very generous donation.

"I am indeed glad to know that you are providing another twenty drivers for service with our Ambulance Corps in France. This is most welcome news, as wherever Salvation Army men are helping, we hear nothing but good reports of their work. Sir Ernest Clarke tells me that your Ambulance Sections in France are quite the best of any in our service, and the more Salvation Army men you can send him, the better he will be pleased."

—Tribute of Sir Ernest Clarke in the War Cry.

Appreciated.

Dinner Guest—Have brought my own sugar.

Hostess—How sweet of you!

Better Without.

"I asked her to kiss me without avail."

"You were right to stipulate that. Kissing through a veil spoils half the fun."

Learning the Ropes.

The Quartermaster (to new arrival)—now, my lad, what do you want?

The New Arrival—I hear you keep shirts. Will you show me some, please?

Profitable Waiting.

Newlywed—I have just insured my life in your favor for \$20,000. But if I die within a month you won't get it.

Wife—O, that's all right, I can wait that long.

Most Considerate.

"I don't mind lending you this money, Glippinga, but I'm afraid you won't pay it back."

"My dear and only friend, I insist on you letting me worry about that."

Far From the Battle's Din.

First Captured Hun—Vot vos der barbed wire for friend?

Second Captured Hun—To keep us in, of course.

First (with great astonishment)—Who wants to go out?

Pacifist Rot.

Beaver White of the War-Trade Board said in an after dinner speech:

"The Russian idealists who talk of universal peace and disarmament at this stage of the war are courting destruction for their country."

"Passifism may have been all right once. Today it reminds me of the mother who wrote to the schoolmaster who wanted to teach the pupils how to swim:

"Please do not teach my boy swimming, as I do not wish him to be drowned."—Washington Star.

Rocking for Time.

A Richmond darkey called upon an old friend who had received him in a rocking chair. The visitor at once observed that his host did not rise, but that he continued rocking himself to and fro in a most curious way, similar to that of a person suffering from colic.

"You ain't sick, is you, Harrison?" asked the caller, anxiously.

No. I ain't sick, Mose," said Harrison.

A moment's silence, during which the caller gazed wide-eyed at the rocking figure.

"Den," continued Mose, "why in goodness does you rock yo'self dataway all de time?"

Harrison paused not in his oscillations as he explained:

"Yo' know dat good-for nothin' Bill Botts? Well, he done sold me a silver watch for five dollars, and if I stops moving' like dis, dat watch don't go."

A COLD PREVENTIVE.

Have you ever come out of a theatre, or church or over-heated room and felt, immediately the cold night air caught your throat and breathing passages, that you were going to catch cold? That is the time to take Peps. Two or three Peps taken at once will prove an unfailing preventive. A cold developed means needless suffering and expense. Safeguard yourself by always keeping a box of Peps on hand.

They are also best for coughs, sore throat and bronchitis. All dealers, 50c. box.

PEPS

for COUGHS & CHILLS.

SOUR, ACID STOMACHS, GASES OR INDIGESTION

"Peps's Diapiesin" neutralizes excess acid in stomach, relieving dyspepsia, heartburn and distress at once.

Time it! In five minutes all stomach distress, due to acidity, will go. No indigestion, heartburn, sourness or belching of gas or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Peps's Diapiesin is noted for its speed in regulating upset stomachs. It is the surest, quickest remedy ever in the whole world, and besides is harmless. Put an end to stomach distress at once by getting a large fifty-cent case of Peps's Diapiesin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by fermentation due to excessive acids in stomach.

ASTOUNDING REPORT FOR CAMPBELLTON.

The wife of a merchant had stomach trouble so bad she could eat nothing but toast, fruit and hot water. Everything else would sour and ferment. ONE SPOONFUL buckhorn bark, glycerine, etc., as mixed in Alder-ika benefited her INSTANTLY. Because Alder-ika flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything.

Sure! High Heels Cause Corns But Who Cares Now

Because style dictates that women crowd and buckle up their tender feet in high heel footwear they suffer from corns, then they cut and trim at these painful pests which merely make the corn grow hard. This suicidal habit may cause laceration and women are warned to stop it. A few drops of a drug called tree-ore applied directly upon a sore corn gives quick relief and soon the entire corn, root and all, lifts off without pain. Ask the drug store man for a quarter of an ounce of tree-ore, which costs very little but is sufficient to remove every hard or soft corn or callus from one's feet. This drug is an ether compound and dries in a moment and simply shrivels up the corn without inflaming or irritating the surrounding tissue of skin. Clip this out and pin on your skin's dresser.

MENTHOLATUM

A Healing Salve

Quickly Relieves

Headaches
Neuralgia
Hay Fever
Catarrh

Anyone troubled with sore, tired or aching feet should use Mentholum according to the directions with the jar.

Always keep a jar handy.

Thursday, February 14th, 1918

INCREASED PRODUCTION.
That food conditions throughout the world are in a very serious state is apparent from even a casual study of the subject as laid before us by the food controllers of the different nations. While this actual shortage has not as yet affected the supply in Canada, it has to some degree affected the prices until now food which in pre-war times cost \$1.00 now costs \$2.00 or an increase of over one hundred per cent. And food prices are still increasing.

We are also told that unless Canada can produce more food stuffs than it consumes it will be a most serious menace. Do the farmers of Restigouche and the Bay Chaleur understand the seriousness of the matter? What steps are our Town and Municipal Council, our Board of Trade, School Boards, and our Agricultural Societies taking to set this matter right before the people?

This is the most important matter which has come up in the life-time of our present generation and should be wisely dealt with. We suggest that meetings of all our societies both of church and state call meetings and devise plans whereby production of food stuffs may, this year be doubled.

VACANT LOT GARDENS.
What was accomplished last year by those who in a small way planted gardens in vacant lots and back yards clearly demonstrated that such plots are of great value to the community. Although last season was a decided dry year, the amateur gardeners of the town, with very little extra expense produced a very large amount of vegetables.

The town, or city man, may not think that what he produces counts for much, but if he only grows enough to feed with garden stuff, his own family will do that much to obviate the necessity of drawing upon expensive foods and contribute so much more to feeding the allies, which is another way of feeding, or at least helping ourselves; for our armies and those of our allies are fighting for us; and unless we help them win we shall not hereafter be able to eat our crust in peace or enjoy the benefit of a free civilization.

Last year the work suffered by lack of plans and preparation. This year the work should be planned at once and steps taken to provide fertilizer which was one of the chief handicaps last season.

The Town Council, the Board of Trade, the Addington Agricultural Society and our citizens generally should meet and talk over the best means by which increased production can be stimulated.

INTEREST LACKING.
Why is it that so many of our citizens take little or no interest in civic affairs? This is not only evident in our town council, but also in other organizations which are working for the welfare and advancement of our town. If a meeting of the Board of Trade is called a half dozen of our business men attend. If a meeting of our Merchants' Association is called only a small number put in an appearance, and they are usually the same ones you meet at other meetings of a like nature. Many are indifferent or just too lazy to attend, but are content to allow others to attend to their duties. This should not be. Every citizen has a duty to perform as a citizen and should be willing to give freely of his time and talents to advance the best interests of the community.

A civic contest is looming up, but despite all that the local papers can do, little or no interest is manifest in them.

NO MORE TITLES FOR CANADIANS
There is more in all this matter of titles, however, than merely the giving of new-gaws to the lovers of glitter. There is a marching purpose in it, and every member of parliament will have to decide whether to favor or oppose that purpose. A few weeks ago one of the minor English statesmen was quoted in a cable dispatch as hoping to see a number of Canadians raised to the peerage, so that they could come over and sit in the House of Lords. In its issue of January

12, "Canada," an illustrated weekly published in England had the following editorial:
"The announcement of the retirement of Sir Edward Morris from political life in Newfoundland has been quickly followed by the gratifying announcement that he has been made a member of the House of Lords. 'Canada' has always strongly held the view that the welfare of the Empire requires a regular and systematic strengthening of the Second Chamber by the selection, from the ranks of the most distinguished and able citizens from overseas, of men fitted to become Barons of the Empire and to assist with their ripe knowledge and experience the government of our great Empire. Sir Edward Morris—whose interesting career we deal with at length on another page—is a strong Imperialist of broad and liberal views, whose presence in the House of Lords will be exceptionally useful in these difficult days."

This may long have been the strongly held view of "Canada," but we assert that this has never been the aspiration of Canada, nor is it likely to become so. The power of the House of Lords is rightly waning, and the proposal that Canada and the other Dominions shall come in with props to jack it up and restore it and reimpose it anew on the democracy of Great Britain will not, we think, at all commend itself to public opinion in this country. That is precisely the purpose the conferring of hereditary titles in Canada is designed to serve. Our barons of business and wizaris of finance are to be become peers of the realm and help fasten on the Empire an ascendancy which the United Kingdom is in process of throwing off. It is not a scheme that can be carried through, and it would be much wiser to dispose of it at the coming session of parliament than be compelled to tear it up when its roots have struck deeper and all sorts of birds are nesting and mat'ing in its branches.

The prime minister on his return from England declared that a decision had been reached against the scheme for a central parliament for the Empire in London. What does he think about hereditary peers for Canada and a centralized House of Lords in London "assisting in the government of the Empire"? Parliament and we believe urgently needs to discuss this whole matter at its coming session and block a game that is being carried on by unauthorized players.—Toronto Star.

MARGARINE.
Considering the long fight that was required to obtain for the Canadian people the right to buy and use oleomargarine—margarine it is now commonly called—it is interesting to note that the British Government attach so much importance to the use of the article that they are requisitioning all vegetable oils and fats suitable for the production of it, and are making arrangements for the establishment of new factories for margarine making. Before the war Great Britain produced 50,000 to 60,000 tons of margarine, and imported about 70,000 tons from Holland. And all the time we Canadians were taught to think that it was wicked to use such a thing! Now Great Britain, besides importing largely, is making five times the quantity produced before the war.—Journal of Commerce.

The daylight saving bill already approved by the United States senate has been favorably reported to the house of representatives. If the house adopts it, as seems now assured, the change will be in effect from April to September. Of course Canada will follow the example of its neighbor, and the change become universal from the Mexican border north.

EDITORS MAIL
All letters addressed to the Editor will be acknowledged by the name and address of the sender, not necessarily for publication, but as evidence of good faith. No notice will be taken of anonymous communications.

The Graphic does not hold itself responsible for opinions expressed in its columns. Editors Mail Bag.

To the Editor of the Graphic, Dear Sir:

Will you allow me space in your paper to say a few words in regard to our civic elections and runs. It seems to me that, with the number of progressive merchants and business men we have in Campbellton, a sufficient number of men should be at hand to step into the gaps made in the town Council by the retirement of the present Mayor and several councillors. I have at this stage of the game no criticism to offer of the present board. In my opinion they have done the best for the town that they could. Of course they may have made mistakes; (it is human to err).

I would like to see a change made in the system of holding elections. Let us elect a mayor for two years, and then each year elect four councillors to hold office two years.

I may have further remarks to make at a future date.

Campbellton, Feb. 14th, 1918

Dear Sir:

I appreciate your invitation to say a few words on the civic condition of Campbellton.

I could say a whole lot in criticism of our present and past councils but I am afraid you would not publish my letter.

However I think, now that you have invited me to say a few words you perhaps will let me say this. It's time for a change.

Let us have a more aggressive council. Let us have more economy in the conduct of our town business.

This is the time to conserve. Let us as a town conserve or economize in every way.

In two more years we will have an additional \$10,000 or \$12,000 taxes added to our assessment to pay interest on the old bonds. What plans are our town rulers making to help pay this extra tax.

I think a discussion through the newspapers, especially if the said papers would give more latitude for discussion, would be a benefit to the town, and I hope some other ratepayer will take up the matter in your next issue.

Thanking you for space to say these few words, I remain,

Yours truly,

TAXPAYER.

JOHN C. MILLER

DEAD AT NEWCASTLE.

Aged 79 Years—Founder of the Miller Extract, Ltd.

Newcastle, Feb. 12—John C. Miller, founder of the Miller Extracts, Ltd., Millerton, and one of the best known industrial men on the North Shore, died at the home of his daughter-in-law, Mrs. J. W. Miller, here, at 7 o'clock on Sunday morning. He had been ailing all winter, and was 79 years of age. He leaves one daughter, Mrs. Vivian Burrill, of Shawinigan Falls, Que.

POINTED PARAGRAPHS

A man can be humble without advertising the fact.

A man doesn't mind being fooled if he does it himself.

Happiness comes only to those who try to make others happy.

Most people pay too much for the things they get for nothing.

There's many a slip 'twixt the engagement ring and the wedding.

Many people wait in vain for their ship to come in because it was never launched.

Sometimes it is easier to apologize for what you did not do than for what you did wrong.

This country is tired of those politicians who have long fingers and short memories.

One seldom meets a strong minded thinker who is capable of whistling a popular tune correctly.

Never hit a man when he is down. Hit him when he is up a tree, then run away before he can get down.

The man who can say "yes" and "no" at the right time has a sufficient command of language.

You will be surprised to find out how much good there is in the world if you will sit up and take notice.

The curer of a girl is about a man's being in love with her less sure she is about being in love with him.

Nothing is more exasperating than a fool friend who is always reminding you of your faults for your own good.

Of course men are not vain, but just tell a man over fifty that he doesn't look a day over thirty and watch the effect.

Here's a Witty Yarn
"Mamma," said Mildred, "do you think you can finish my gloves tomorrow?"

"I am afraid not," said the mother. "I'll have to get some more yarn, I think."

"Oh, hurry up and knit fast, and maybe you can finish before the yarn gives out."

Proof Lacking.
Billy:—Huh! I bet you didn't have a good time at your birthday party yesterday.

Willie:—I just bet I did. Billy:—Then why ain't you sick to day?

You Can't Beat Sisters.
So you prefer winter to summer, Mr. Featherbrain?

Not especially, Dorothy. Why do you ask, my child?

"Well, sister said yesterday it would be a cold day when you took a girl automobile riding."

WAR SAVING GAME

European Conflict Takes Sportsmen Out of the Field.

War in the Price of Guns and Ammunition Stopped Hunting a Rich Man's Sport.

Despite the war the permanent wild life protective fund is confining its battle to save American game from extinction, writes Frederic J. Haskin. War is a benefit to wild life in that it takes many hunters out of the field and has raised the average price of guns and ammunition about 50 per cent, making hunting what it is rapidly becoming in this country, anyway—a rich man's sport.

The wild life protection fund, in its literature and the lecture of its campaigning trustee, William T. Hornaday of the New York zoological park, is seeking to spread the idea that the sportsman must act to save the game, that they are robbing themselves and future generations if they do not. This idea has been well set forth in a poster of the New Mexico Game Protection Association, which have set out with determination and success to save the wild life of that state. The poster is as follows:

"Four grandfathers hunted elk and buffalo until there were none. They are hunting deer. There still are some."

"What do you want your son to hunt? Rabbits?"

The average New Mexican reading that sign knows that it is true. He has heard from the old-timers what the abundance of game used to be in the past in a dash the long generations of ruthless destruction, the inevitable end when the mountains where he loves to hunt will be thin.

Another difficulty in the path of game preservation lies in the opposition in congress to federal action in the matter. Nothing but federal action saved the wild fowl. By reason of the migratory game law, drawn by government scientists and providing protection for waterfowl from Canada to Mexico, they are now believed to be safe for a hundred years.

The fact which the average sportsman does not realize is that when a species of wild game is reduced to a certain point it cannot "come back," no matter how much it is protected.

For example, in 1884 the buffalo hunters said and believed that there would always be plenty of buffalo. In 1885 they went out to hunt them and there was none. It took them two years to realize the fact that the buffalo was practically extinct. Wolves and hunters destroyed the remnant much faster than it could breed.

Of course the buffalo has been worked as an object of protection. As opponents of protective measures have pointed out, the buffalo could not have survived civilization except in very limited numbers anyway.

But this is not true of deer, elk and mountain sheep which inhabit the high mountain ranges that we always have a wilderness. There is only one measure which can save them, and that is the provision of game refuges in national forests where these animals can breed unmolested, and the increase restock the surrounding country.

Dress in London.
Something might be said of the changes that three years of war have brought about in our clothes, says the Manchester Guardian. Evening dress is not abolished, but it is becoming much less customary in theaters and restaurants, and people coming up to London who used to bring evening dress are not wearing it.

The democratic process had already set in at the house of commons. One remembers the shock that Mr. Kere Hardie's cloth cap created on its first appearance there, but it has advanced immensely since the war began. Frock coats are in small and diehard minority. Suits are on their legs. Top hats survive miraculously, it might seem, until one remembers their enduring qualities, so that their persistence is only a form of war economy after all.

Dining With the Private.
It has come at last—the offense of an officer dining in public with a private. It was bound to come, soon or late. The present writer, notes the London Daily Chronicle, met not long ago a private in uniform and two men in military. Of the two, one who should have been wearing the uniform of a second lieutenant, explained: "Private Blank, here, is my uncle. He is up for a visit, and according to regulations I ought not to be seen about with him. Since I joined the army I have grown bang out of my civilian rig, so I've borrowed a suit from the privates' haven't I, dad?" "Yes, you have, and it's my best, you villain," answered the second civilian.

Mostly So.
"You're under arrest," exclaimed the officer, as he stopped the automobile. "What for?" inquired Mr. Chuggins. "I haven't made up my mind yet. I'll just look over your lights, and your license, and your numbers, and so forth. I know I can get you for something."

No Alarm.
"Did you hear, there was a great breaking out at the jail?" "What was it?" The worst character there. "No: the measles."

A Plea.
"And why should I give you a kiss?" "Scientist say a man needs sweets."

"What of it?" "I'm going without sugar. Now's your time to encourage patriotism, girlie."

Heard in Conservatory.
She—You've been to Palm Beach? Isn't it lovely there? A perfect Garden of Eden.

He—Yes, but—er—a trifle more dressy, don't you think?

ALL RAIL ROUTE to Prince Edward Island
With the inauguration of the car ferry service between the two nearest points of land, Port Borden and Cape Tormentine, a distance of eleven miles, Prince Edward Island may virtually be said to be connected with the mainland by rail.
Heretofore freight, mail, and express have had to be unloaded from the train at Charlottetown and Summerside, transferred to the steamer, unloaded from the steamer at Pictou and Port de Chêne and reloaded on the train. It took about the twelve cars are capable of carrying a tonnage equal to one steamer load. The ferry is scheduled to cross the Strait in an hour, tranship its cars and be ready in less than an hour to recross the Strait again with a similar cargo. This at two points only and by a route which is confidently expected to be operated the year round.
A refrigerator car service for perishable goods is to be established. Another important feature is that heavy freights, such as undressed lumber and coal which has up to the present been dependent upon sailing craft, can now be assured of through rail carriage. Special facilities are being provided for the unloading of coal shipments, and development may be expected along similar lines where commodities require special handling.
Express, mail and baggage will be transferred at Port Borden, but until the Island Railway gauge is standardized there will not be any necessity for ferry passenger cars. The "Prince Edward Island" provides a handsomely furnished first-class saloon, dining room, ladies' room, gentlemen's smoking room, and second class accommodation, so that the comfort of the passenger while crossing on the ferry will be well looked after.
Under the winter passenger schedule the ferry will make one round trip a day.
The summer service contemplates two round trips of the ferry daily (Sunday excepted), which will mean that passengers from the Island will be able to arrive at Halifax much earlier in the evening, and also make connection with the two expresses, the "Ocean Limited" and the "Maritime Express," for the west. From the mainland there is to be connection, with the two expresses from the west, and passengers from the east will arrive at their destinations on the Island much earlier.
So that with a passenger, mail and express daily service the year round, the saving in time and money of handling freight—one transshipment instead of four, and through one terminal instead of four, a frequent freight service with refrigerator facilities for perishable goods and without breaking bulk—the ferry making each extra trip as business warrants—rail shipments of heavy freights, connection in the open water with the two expresses for the west and the earlier arrivals on Prince Edward Island, the new route must lead to the greater development of the "Garden of the Gulf," a new intercourse between its people and those on the mainland, and be a powerful factor in removing its feeling of isolation from the rest of the Dominion—an improvement of conditions in which Canada, and particularly Eastern Canada, will equally participate.

Always Well Behaved.
Farmer Billings—That's ere pig I bought from 'ere last week 'as bin a's died.
Farmer Giles—Wall! Wull! there's the funny! 'E never cut any of them capers when I 'ad 'un—
A Winter Version.
Mary had a little cold;
It started in her head;
And everywhere that Mary went,
That cold was sure to spread.
It followed her to school one day;
'Twas not against the rule.
It made the children cough and sneeze
To have that cold in school.
The teacher tried to drive it out,
She tried hard, but—kackoo!
It didn't do a bit of good,
The teacher caught it too!
Just like a boy.
A solemn old chap from New England recently visited his relatives in Brooklyn, and he insisted that he be permitted to take one of the youngsters to church, according to the New York Times.
The youthful nephew tried several times to talk, but was always admonished not to do so in church.
After a pause the little one said:
"Then, uncle, please take off my shoes and, let me wiggle my toes."

Seed Grain 1918
Good seed is scarce. Place your order now with your County Councilors.
The Department of Agriculture has Ottawa wheat and oats through the Seed Branch, Ontario. The germination is carefully tested.
The seed is now stored in the elevators at Quebec, thus avoiding transportation difficulties and guaranteeing delivery.
The Department requested the co-operation of the County Councils in the distribution. Seed will be forwarded at their order in car lots, thus avoiding local freights and much handling.
Wheat will cost about \$3.00 per bushel in bulk laid down.
The Seed Branch is yet unable to fix the price on oats. Definite prices will be stated in this space immediately they are at hand.
New Brunswick is expected to bread herself for the duration of the war. Every farmer should grow some wheat.
Agricultural Societies should arrange orders early.
Send all orders to the County Councilors immediately.
NEW BRUNSWICK DEPARTMENT OF AGRICULTURE.

A LITTLE MILDER.
For the first time for many weeks we are now enjoying a spell of mild weather.

ASH WEDNESDAY.
Yesterday was Ash Wednesday and the first day of the Lenten season. Easter Sunday falls on March 31st this year.

ROBINS AND CROWS.
Although this has been the coldest winter experienced for many years, the robins and crows have remained with us through it all. This is very unusual as both these feathered friends leave us usually early in the fall and return March or April.

CAMPBELLTON PROSPEROUS.
In speaking with local merchants all express the opinion that this has been an unusual winter in more than its cold. They all say that more money is in general circulation here than in former years, and most of them attribute it to prohibition.

AGED NURSE DIES.
By the death of Mrs. John McNeil nee Margaret Mahoney on Saturday last, Campbellton loses of its oldest and most esteemed nurses. Deceased was 72 years of age. The funeral was held Monday, Rev. Fr. Wallace conducting the service.

MERCHANTS ASSOCIATION.
A meeting of the Retail Merchants Association was held last evening at which a committee was appointed to call on all merchants who keep open Mondays' Wednesdays, and Friday evenings and endeavor to have all agree to close at 6 o'clock on those evenings.

DIED AT BATHURST.
Mrs. Ellen Sutton, a former resident of Chatham for many years, and for the past few months living with her son, Mr. R. A. Sutton, Bathurst, died on Feb. 4th, aged 87 years. She leaves four sons, George and Daniel, of Chatham, Peter in the United States, and Richard A. of Bathurst.

A MAMMOTH PINE TREE.
There was a white pine tree cut the 4th inst., for Lockhart and Barnes, on the Hughes lot, near Petticoat, with log lengths, perfectly straight and sound, first cut 14 feet, diameter at the top 30 inches. According to the N. B. Government log scale, the tree measured 618 superficial feet, no branches. We did not get the measurement over whole tree which would scale more than 1,500 feet. Who can beat this winter?—Moncton Times.

CAMPBELLTON DEFEAT
NEWCASTLE AT HOCKEY.
In a fast game Wednesday Feb. 6th at the rink Newcastle, the Campbellton Hockey team won from the Newcastle team by a score of 3 to 2. The line up was:

Campbellton	Goal	Campbellton
Oarvell	Goal	Goal
Veno	Cover	McLean
Brummond	Centre	Capt. Mowat
Hitchell	L. W.	McNeil
Jeffrey	R. W.	Laviolette
Poley	Spore	Thomas
Whelan		
Charles Morris	was referee.	

KILLED IN ACTION.
Pte. R. Norris, Campbellton Infantry, is reported killed in action.

EXCHANGED PULPITS.
Rev. Mr. Camp of the Baptist church exchanged pulpits with Rev. Mr. Bartram last Sunday evening.

BEAN SUPPER.
The boys of the Canadian Standard Efficiency Tests classes enjoyed a supper in the basement of Christ church Tuesday evening.

S. A. TAG DAY.
The local corps of the Salvation Army will hold Tag Day on Friday February 22nd. Entire proceeds to go to Hut Fund, for the soldiers at the front. See notice later.

BORN.
At Black Cape, P. Q. on Feb. 6th 1918 to Mr. and Mrs. Sydney Thorburn a daughter.
At Caplin River, P. Q. on Jan. 26th, 1918 to Mr. and Mrs. Charles Babia a son.

TRAINS LATE.
The trains during the past two days have again been very late. No. 3, the Maritime from south was about five hours late yesterday morning, the Ocean Limited from west was ten hours late and the local from east, three hours.

BOOZE SHIPMENT.
Inspector T. Mann made a large shipment this week of "joy water" to the prohibition warehouse at St. John. It is said that our Inspector has the driest town in New Brunswick. May it long be so.

KING PRESENTS MEDAL.
On January 9th, Mr. Stewart McLean, son of Mr. and Mrs. Peter McLean of this town, and who we recently announced had been awarded the Military Cross for conspicuous bravery at Hill 70, was invested by the King, personally with the above decoration.

LUMBER TRADE AFFECTED.
An embargo on all but fuel and foodstuffs has been declared on the Boston & Maine Railroad by the United States Government. The veto went into effect several days ago and is still in force. The effect of the embargo has been in part to tie up carriage of lumber from this province.

TO COMPLETE THE CATHEDRAL.
At a meeting of the St. Michael's congregation, Chatham held recently, with Bishop Barry in the chair, it was decided to complete the cathedral this year at a cost of \$60,000. A large committee was appointed to look after the work. The cathedral stands today without debt and with a balance fund of \$28,000.—World.

LT. COL. A. E. G. MCKENZIE.
Capt. Gerald Anglin, in a recent letter to his mother, Mrs. J. V. Anglin, says Lt. Col. McKenzie, of the 28th Battalion, was lately transferred from one hospital to another in France, and has been very ill. The report that the gallant officer was on his way to Canada had no foundation apparently.—St. John Globe.

ST. VALENTINE'S DAY.
This is St. Valentine's Day, and the usual greetings are being exchanged.

K. OF P. MEETING.
The regular meeting of the K. of P. will be held in their lodge room, Friday evening, Feb. 15th, at 8 o'clock.

MEETING OF INSTITUTE.
The regular monthly meeting of the Women's Institute will be held at the home of Mrs. J. C. Ferguson on Monday evening the 18th inst., at eight o'clock.

BEAN SUPPER.
The members of the Ladies' Aid of the Methodist church will hold a bean supper in the Sunday School hall of the church on Friday, February 22nd, from 5.30 to 7.30. Tickets 35c.

AUTO ASSOCIATION MEETING.
A meeting of the Restigouche Automobile Association will be held in the Murray Hall, Friday evening, February 15th at 8 o'clock. Important business matters respecting the work of the Association will be brought up and it is hoped there will be a large attendance. Those who did not join last year are invited to attend and become members.

RECEIVED SENTENCE.
Louis Couture, who pleaded guilty of stealing a hide, appeared before his Honor last Friday morning for sentence. His Honor, taking into consideration the fact that the prisoner has a delicate wife and a family of young children, and that he had made reformation, sentenced him to six months, but allowed the sentence to stand, pending his future good conduct.

Miss Kelly's room, 3.55
Miss Fairley's room, 3.55
Mr. Daley's room, 2.60
Miss Jackson's room, 3.05
Miss Kirk's room, 6.07
Mr. Carr's room, 13.33
Gerrard Street School 46.00

Mr. Sansom the Treasurer of the fund has just returned from Chatham where he was in connection with a lecture given by Mrs. Jenner there on Tuesday evening. Both Mr. Sansom and Mrs. Jenner are grateful to Mayor Snowball for the kindness and interest shown in this work and also for the splendid donation of \$100.00 with which he started the list. The sum of \$400.00 was the total amount realized for this worthy object.

THE DUPLEX AUTOMATIC HAIR CUTTER.

The Duplex Automatic Hair Cutter is the greatest invention of the age. Cut your own hair. It cuts while you comb, saves its cost every month and guaranteed for life. Figure out how much you can save. This hair cutter will be mailed post paid to any address on receipt of \$2.00.

S. M. MOORES,
Campbellton, N. B.

Why His Head is Bandaged.
"John," queried his wife, "if some bold man were to kidnap me, would you offer a reward?"
"Certainly," he responded, "I always reward those who do me a favor."

OBITUARY.

On Monday the 4th, inst., while on his way with his second oldest son Mr. R. D. Vibert, to take the train prior to going to his office the late Mr. J. J. Vibert fell on the R. R. track at Delson by the side of his son who did all that was possible to succour his father, only to find that he had succumbed to an acute attack of heart failure. The late Mr. J. J. Vibert was a native of the Island of Jersey, having been born there in 1843 leaving Jersey while quite a young man, the late Mr. Vibert joined the Fish and Provision firm of Chas. Robin & Co., of Pasphebec now the Robin, Jones & Whitman Co., and was well known along the Gaspe Coast. He married Miss Lydia Amelia Hamon of Newport, Que., on the Gaspe Coast whom he leaves behind to mourn his loss, together with four sons as follows, the Rev. A. J. Vibert of Sawyerville, Que., formerly of Shigawake, on the Gaspe Coast; Mr. R. D. Vibert at Delson, Que.; Pte. Stanley Jas. Vibert, in the C. A. Medical corps now overseas, and Mr. Edward L. Queneau Vibert the Gen. Manager of the Lake Superior Tile Co., at Rossville Villars Ont.; also three daughters: the Misses Ethel, Lillian, and Hilda Vibert all of whom are model school teachers in the city of Montreal.

Only a few weeks ago the late Mr. Vibert had the honour of carrying the Jersey flag in the Victory Loan parade in Montreal. The funeral took place on Thursday Feb. 7th from his late residence 1958 Saint Denis Street, Montreal, to Mount Royal Cemetery and was conducted by the Rev. Dr. Craig, Montreal to Mount Royal. Mr. Craig of Saint Martin's church and was largely attended. After the Church of England service had been said, the Sons of England of which order the deceased member was a prominent member recited their beautiful ritual at the grave. Mr. Vibert was a member of the Anglican communion, Secy. Treas. of the Protestant school board, at Laprairie, and Book-keeper for the National Brick Co., of Laprairie, and a member of the Sons of England benefit society, in all of which he will be sorely missed. The floral tributes were many and beautiful, and formed a mute tribute to the high esteem in which the late gentleman was held by all classes of the Community.

The death of Mr. G. I. Leveille took place at the Hotel Dieu hospital here Monday afternoon, after an illness of about a month.

Deceased who was in his 66th year had been in poor health for several years suffering from kidney trouble, although up until a few months ago was able to attend to his duties as Superintendent of a local woodmaking factory. He was born in Vercheres, P. Q., and in his early boyhood days removed to Montreal where he remained several years. Some years ago when the Restigouche Woodmaking Factory was established at Dalhousie he came from Montreal to take charge of that institution where he labored until it was destroyed by fire, when he removed to Campbellton.

The late Mr. Leveille was well and favorably known throughout the province and his death will be received with feelings of deep regret. He was twice married and leaves by his first wife one son and three daughters, all of whom are now residing in the U. S. To these, also to his bereaved widow, the heartfelt sympathy of the community is extended in the loss of their beloved one.

The funeral was held this morning, and was very largely attended. Rev. Fr. Wallace officiating. Interment was made in the Catholic cemetery.

The death of Emma Glover wife of Robert Stewart Blackie who survived her, occurred at her home in Kempl Road, Jan. 29th. Mrs. Blackie was a woman of seemingly strong constitution but for a few months previous to her removal was the subject of much suffering which she bore with Christian resignation. Almost all her years, 71, were spent in Kempl Road where she was known to all as a good christian wife and mother, and a kind, peaceful, and industrious citizen. She leaves behind her to mourn their loss a loving husband, four sons and daughters, all of whom have the sympathy of a large circle of friends in their bereavement. Mrs. Blackie's remains were interred in the cemetery on Monday, and a very appropriate service conducted in the house by Rev. James R. Mackay was well attended, and the remains taken to the Presbyterian cemetery where interment was made in the presence of friends who have very pleasant memories of the dear departed.

SMALLPOX AT BATHURST.
While there are only a few cases of smallpox at Bathurst, the Board of Health is taking every precaution and has quarantined a number of places, closed the schools, churches, theatres and rink.

Nature is generous, but she never forgets to avenge her wrongs.

159 AMERICANS LOST LIVES ON TUSCANIA

A Scotch Seaport, Monday Feb. 14—The American dead as a result of the sinking of the steamer Tuscania apparently is at least 159.

Thus far 145 bodies have been buried along the Scotch coast and four additional bodies were recovered today. Funeral services over the latter will be held tomorrow.

Misplaced Identity.
A tall official looking man with a pocketbook in his hand, called upon a suburban resident and observed: "I beg your pardon, Mr. Jones, but I believe you possess a—ah, yes, a black retriever dog, with a white patch on his breast."

Vision of unpaid dog taxes arose before Mr. Jones, and he said: "Oh, no, dear no. He is a poor stray brute."

"Oh, indeed," said the stranger, "the fact is, my client, Mr. Smith, shot the dog this morning, and I came round to compromise the matter by offering you \$25, but, of course, if he is not your dog, why—good morning!"—San Antonio Light.

No Cause for Complaint.
"I'm afraid, Will, you do not love me any more—that is, not as well as you used to."

"Why Gracie?" interposed hubby "why do you say such a thing?"
"Because you always let me get up to light the fire now."

"Nonsense my little silly love! Your getting up to light the fire makes me love you all the more."

A New Scientist.
"Charles," said a school teacher, "what are the effects of heat and cold?"

"Heat expands and contracts," answered Charles, promptly.
"Now give some examples."

"In summer the days are long, and in winter very short."

SAYS LEMON JUICE WILL REMOVE FRECKLES
Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and sunburn disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

McRae's Shoe Store, "The Home of Good Shoes"

ATHOL.

The members of the S. C. A. met on Tuesday last at the home of Mrs. A. B. Klippert, a most enjoyable evening being spent.

Miss McIntyre spent the week end at her home in Campbellton.

Mr. John Lytle of Millstream spent the week end at his home.

Prayer meeting was held on Thursday evening at the home of Mrs. Dan Veinotte.

Mr. Norman Brooks spent a few days at his home here last week.

Messrs. Drs. Murray and McPherson visited Athol last week and quite a number were vaccinated.

Mr. Percy Hoqueard left last week for Matapedia.

Mr. George Wilkins spent the week end at his home here.

Miss Mabel Salmon spent the week end at her home here.

Mr. Arthur Keeley of Halifax spent a few days at his home here last week.

Mr. Earl Cassey spent the week end in Campbellton.

Friends of Miss Sadie Salmon will be pleased to hear that she is improving rapidly after a somewhat serious illness.

JACQUET RIVER.

We are pleased to see a large number who have been confined to their homes from the effects of vaccination are around again.

Congratulations are in order to Mr. and Mrs. George W. Atkinson, whose stork deposited a baby boy recently.

Mr. John E. Hickie of the McMillan Company, who was home on sick leave for several days is back at his duties again.

Mr. John Lawlor Jr. was in Campbellton on business recently.

Miss Kate Haley who has been the guest of friends in St. Hilaire has returned to her home in Nash's Creek.

Mrs. Angus McMillan and her sister Miss E. Harvie have gone to Boston where they will be the guests of Mr. and Mrs. Hayward.

The many friends of Mrs. A. J. McMillan will bear with regret that she is confined to her home through illness, and wish her a speedy recovery.

Miss Cassie Miller has severed her connection with the staff of the McMillan Company's store to enjoy a prolonged vacation. Miss Miller will follow the fortunes of the McMillan Company from their original quarters which are now used as warehouses to the pretentious block they at present occupy, was a most popular member of the staff, and the many patrons will wish her every enjoyment of her well earned vacation.

It is reported a gentleman around town has been convicted for selling "boozies," this being the third offense. The trial was to have taken place on Tuesday, but on the preceding Sunday, the said gentleman departed hurriedly for reasons unknown.

The regular monthly meeting of the Women's Institute was held at the home of Mrs. W. R. Davis on Friday evening February 8th, with a very good attendance, one new member, Miss Merle Tribes was added to the roll. The roll call was answered with a Valentine donation. The minutes of the previous meeting were then read and approved, following which the correspondence was read and discussed. The other business of the meeting was then dealt with. Receipts for bread and rolls were exchanged. The entertainment was in the form of a surprise, each member contributing some number as a surprise to the others. These were greatly enjoyed, being very instructing as well as laughable. Defaulters were fined 10 cents for the School Prize Fund. It was moved, seconded and unanimously carried that a resolution of condolence be sent Mr. and Mrs. W. R. McMillan, one of the members in her recent sad bereavement, the loss of her son Cadet Evan McMillan. Mrs. Davis furnished several excellent musical numbers.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, Liver and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of his little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

which were very much appreciated.

It was decided to hold a concert for St. Patrick's Day, for the purpose of swelling the funds, Mrs. Paul Doyle was appointed Convener, with Mrs. Davis, Mrs. John Culligan and Miss Audrey Doyle as a Committee.

The meeting then adjourned, after which visitors were allowed in and a most sociable evening spent. Delicious refreshments were served, Mr. and Mrs. Davis proving as ever perfect hosts.

The programme of the next meeting will be literary and musical.

Wednesday was the beginning of Lenten Season, services were held in the Roman Catholic Church.

Next Tuesday will be St. Valentine's Day and doubtless the usual loving greetings will be exchanged between friends, which is such a very ancient, as well as beautiful custom.

Congratulations are in order to Mr. and Mrs. Charles O'Connor on the arrival of baby boy at their home last week.

We have another change in night agents at the station, Mr. Desrozier of Mont Joli is at present filling the position, in place of Mr. Hector Foley who has been transferred to Dalhousie Jct.

BLACK CAPE.

Pte. William Johnston who joined the 179th Battalion in Montreal last April and went to England a few months ago is now reported to be somewhere in France, he has the best wishes of all for the best of luck and a safe return.

Mr. George Campbell has returned from Halifax.

Mr. Clement Fairservice left on Thursday on a business trip to Chatham.

The Red Cross Society will hold a Bean Supper at the home of Mr. Allan MacRae on Tuesday evening, the 19th. A large attendance is requested.

Mr. and Mrs. Sydney Thorburn are receiving the congratulations of their friends on the arrival of a daughter at their home on Wednesday the 6th.

Mr. Robert Fairservice is confined to the house suffering from a heavy cold.

Mr. Lazer LeBlanc who has been in Halifax for some time met with a very serious accident by getting his foot so badly crushed that the foot had to be amputated.

The Society wishes to thank the following ladies for donations:—
Mrs. Murphy, 1 pillow; Miss Shannon, 1/2 doz. stretch caps, and also the Society extends its thanks for work to: Mrs. Barbara Harvie, knitting; Mrs. M. Shannon, knitting; Mrs. Disbrow, sewing; Mrs. Miller, knitting; Mrs. Jas. M. Fivette, knitting; Miss Blanche Landry, sewing; Miss Ada Haley, knitting; Mrs. Pte. O'Reilly, knitting; Mrs. Corrier, knitting; Mrs. William Beattie, knitting.

MARIE C. SHANNON, Sec. tary.

Miss Young—You can't believe half a man says when he's in love.
Mrs. Wyse—That's easily accounted for, my dear. Half the time he doesn't know what he's saying.

"CASCARETS" WORK WHILE YOU SLEEP

For Sick Headache, Sour Stomach, Stagnant Liver and Bowels—Take Cascarets tonight.

Purged Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headache come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

RENA R. CALDWELL, Secy. Treas.

CORNER OF THE BEACH.
Our little village has again been saddened by the death of Mrs. George Whitt which occurred after a short illness on January 13th. She had been in very good health throughout

the winter and her death came as a shock to all.

She was loved and respected by all who knew her, always taking an active part in the interests of her church and parish.

The funeral took place on January 17th, the services being conducted by the Rev. S. R. Walters, at St. Luke's church.

She leaves to mourn her loss, three brothers and two sisters to whom we extend our heart-felt sympathy.

We are pleased to see Mr. James Mabe again after being confined to the house with pneumonia and pleurisy.

We are sorry to note that Mr. William Vibert is still confined to his room through illness.

Mrs. William Jean and children are visiting relatives in Percé.

We notice quite a number of visitors here recently, namely Mr. and Mrs. Thos. "Pond" and daughter of Matane; Que.; Mrs. Chas. Scott of Cape D'Espoir; Mr. and Mrs. Thos. MacCallum of L'Anse-à-la-Poutre; and Mr. Dan. Ingaville of Barabois.

GRAND CASCAPELIA.
Congratulations to Dr. and Mrs. J. R. Boileau of New Richmond on the arrival of a baby boy at their home February 7th.

Miss S. A. Walsh of Grand Cascapeia who has been visiting relatives and friends down the coast returned home Friday.

Mr. S. R. Fitzpatrick of Pennsylvania spent the week end with friends in Grand Cascapeia.

The many friends of Oubert Harrison of Grand Cascapeia will be pleased to learn of his good fortune in trapping a silver black fox.

Mr. Harrison has been quite successful in trapping foxes, having already this year succeeded in bagging a few red ones, and by his keen eyes and good judgment has become quite famous as a guide in the hunting season, by bringing his men into the game and within easy range, seldom if ever losing a shot on either moose or caribou.

JACQUET RIVER.
RED CROSS SOCIETY.
The local branch of the Canadian Red Cross Society received a communication from the Organizing President of the Province, Lady Tilley of St. John, stating that on instruction of the Provincial Board of Health, all work of this branch of the Society would be discontinued for the present, owing to the reported smallpox situation in the vicinity.

There will therefore be no more meetings or work at the rooms until further notice.

The Society wishes to thank the following ladies for donations:—
Mrs. Murphy, 1 pillow; Miss Shannon, 1/2 doz. stretch caps, and also the Society extends its thanks for work to: Mrs. Barbara Harvie, knitting; Mrs. M. Shannon, knitting; Mrs. Disbrow, sewing; Mrs. Miller, knitting; Mrs. Jas. M. Fivette, knitting; Miss Blanche Landry, sewing; Miss Ada Haley, knitting; Mrs. Pte. O'Reilly, knitting; Mrs. Corrier, knitting; Mrs. William Beattie, knitting.

MARIE C. SHANNON, Sec. tary.

Miss Young—You can't believe half a man says when he's in love.
Mrs. Wyse—That's easily accounted for, my dear. Half the time he doesn't know what he's saying.

"CASCARETS" WORK WHILE YOU SLEEP
For Sick Headache, Sour Stomach, Stagnant Liver and Bowels—Take Cascarets tonight.

Purged Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headache come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

CORNER OF THE BEACH.
Our little village has again been saddened by the death of Mrs. George Whitt which occurred after a short illness on January 13th. She had been in very good health throughout

Tired Nervous Mothers

Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a terrible trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work."—Mrs. B. B. ZIELINSKA, 904 Weiss Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KINKADE, 935 West Race Street, Portland, Ind.

TAROL

RELIEVES PROMPTLY
CURES SURELY

**Coughs, Colds, Bronchitis,
Whooping Cough, Grippe**

AND ALL
AFFECTIONS of the RESPIRATORY ORGANS

TAROL is a scientific remedy prepared by competent chemists, according to formulae approved and recommended by the Medical profession, with choice elements, the principal being:

**Wood Tar and
Cod Liver Oil**

Wood Tar acts as a powerful antiseptic to the throat, bronchi and lungs, protecting these organs against the evil action of the microbes.

Cod Liver Oil soothes the irritated mucous membranes, cures the cough, promotes expectoration and supplies the whole organism with the energy needed to overcome the disease and to recover strength.

Ask for Tarol and insist on getting it.

ANGUS McLEAN, OF BATHURST Vice-President of Woodland Section, A New Forestry Body.

Montreal, Feb. 8.—In connection with the meetings of lumber men and others interested in forestry work for the Dominion, another organization was formed here Thursday, the Woodland Section of the Canadian Pulp and Paper Association, with the following officers: W. G. Powers, Quebec, President of the Canadian Lumbermen's Association; President Angus McLean, Bathurst, N. B. president of the Bathurst Lumber Company, Vice President; Thomas Mack, of the Brown Corporation, La Tuque; M. C. Small, of the Laurentide Company; E. Wilson, of the Laurentide Company; F. M. Anderson, of the Shives Company, Ltd., Campbellton, N. B., and John Black, of the J. R. Booth Company, directors.

Bewailing His Luck.
After shoveling the snow from the sidewalk for two hours, little Patsy, began to cry.

"What's the trouble, my little man?" asked a sympathetic neighbor.

"A bad tramp came along and stole the snow-shovel from the boy next door."

"Well, my lad, it's a very nice thing to be sympathetic said the neighbor, 'but you mustn't worry so over other people's affairs.'"

"It ain't that," said the boy. "I'm crying because he didn't steal my shovel, too."

About That Much.
(Chicago Herald.)

One day, as Pat halted at the top of the river bank, a man famous for his inquisitive mind stopped and asked:

"How I g have you hauled water for the village, my good man?"

"Tin years, sor."

"And how many loads do you take in a day?"

"From tin to fifteen, sor."

"Ah yes. Now I have a problem for you. How much water at this rate have you hauled in all?"

The driver of the watering-cart jerked his thumb backward toward the river and replied:

"All the water yer don't see there now, sor."

O. Henry Stories

XL.—A Technical Error.

By O. HENRY

Copyright by Frank A. Munsey Co.

NEVER cared especially for feuds, believing them to be even more overrated products of our country than grape fruit, scrapple or honeysuckle. Nevertheless, if I may be allowed to tell you of an Indian Territory feud of which I was press agent, camp follower and accessory during the fact.

I was on a visit to Sam Durkee's ranch, where I had a great time falling off unmanicured ponies and waving my bare hand at the lower jaws of wolves about two miles away. Sam was a hardened person of about twenty-five, with a reputation for going home in the dark with perfect equanimity, though often with reluctance.

Over in the Creek nation was a family bearing the name of Tatum. I was told that the Durkees and Tatums had been feuders for years. Several of each family had bitten the grass, and it was expected that more Nebuchadnezzars would follow. A younger generation of each family was growing up with them. But I gathered that they fought fairly; that they had not lain in cornfields and aimed at the division of their enemies' suspenders in the back—partly, perhaps, because there were no cornfields, and nobody wore more than one suspender. Nor had any woman or child of either house ever been harmed.

Sam Durkee had a girl. Her name was Ella Baynes. They appeared to be devoted to each other and to have perfect confidence in each other, as all couples do who are and have or aren't.

She was tolerably pretty, with a heavy mass of brown hair that helped her along. He introduced me to her, which seemed to lessen her preference for him, so I reasoned that they were surely soul mates.

Miss Baynes lived in Kingfisher, twenty miles from the ranch. Sam lived on a gallop between the two.

One day there came to Kingfisher a courageous young man, rather small, with smooth face and regular features. He made many inquiries about the business of the town and especially of the inhabitants comonomially. He said he was from Muskegon, and he looked it, with his yellow shirt and crooked four-in-hand. I met him once when I rode in for the mail. He said his name was Beverly Travers, which seemed rather improbable.

One day when I was messenger for half a gross of cigarette papers and a couple of wagon tires I saw the alleged Beverly Travers in a yellow wheeled buggy with Ella Baynes, driving about town as ostentatiously as the black, wary mud would permit. I knew that this information would bring no balm of Gilead to Sam's soul, so I refrained from including it in the news of the city that I relayed on my return.

On the next afternoon an undisturbed ex-cowboy of the name of Simmons, an old time pal of Sam's, who kept a feed store in Kingfisher, rode out to the ranch and rolled and burned many cigarettes before he would talk. When he did make oration his words were these:

"Sam, say, there's been a description of a galoot miscallin' himself Beval Edged Travels impairing the atmosphere of Kingfisher for the past two weeks. You know who he was? He was not otherwise than Ben Tatum, from the Creek Nation, son of old Gopher Tatum that your Uncle Newt shot last February. You know what he done this morning? He killed your brother Lester—shot him in the cot-house yard."

I wondered if Sam had heard. He pulled a twig from a mesquite bush, chewed it a moment and said:

"He did, did he? He killed Lester?"

"The same," said Simmons. "And he did more. He run away with your girl, the same as to say Miss Ella Baynes. I thought you might like to know, so I rode out to impart the information."

"I am much obliged, Jim," said Sam, talking the chewed twig from his mouth. "Yes, I'm glad you rode out. Yes, I'm right glad."

"Well, I'll be ridin' back, I reckon. That boy I left in the feed store don't know how far from outa. He shot Lester in the back."

"Shot him in the back?"

"Yes, while he was hitchin' his boss."

"And you say?"

"Yes, Sam. Everybody seen 'em drive away together in a buckboard, with a big bundle, like clothes, tied up in the back of it. He was drivin' the team he brought over with him from Muskegon. They'll be hard to overtake right away."

"And which?"

"I was goin' on to tell you. They left on the Guthrie road. But there's no tellin' which fork they take—you know that."

"All right, Jim. Much obliged."

"You're welcome, Sam."

Simmons rolled a cigarette and stashed his pony with both heels. Twenty yards away he reined up and called back:

"All right, Jim. Much obliged."

"You're welcome, Sam."

Simmons rolled a cigarette and stashed his pony with both heels. Twenty yards away he reined up and called back:

"All right, Jim. Much obliged."

"You're welcome, Sam."

"You don't want no assistance, as you might say?"

"Not any, thanks."

"I didn't think you would. Well, so long."

Sam took out and opened a bone handled pocketknife and scraped a dried piece of mud from his left boot. I thought at first he was going to swear a vendetta on the blade of it or recite "The Jyppy's Curse." The few feuds I had ever seen or read about usually opened that way. This one seemed to be presented with a new treatment. Thus offered on the stage it would have been blessed off.

"I wonder," said Sam, with a profoundly thoughtful expression, "if the cook has any cold beans left over?"

He called Wash, the negro cook, and finding that he had some, ordered him to heat up the pot and make some strong coffee. Then we went into Sam's private room, where he slept and kept his armory, dogs and the saddles of his favorite mounts.

I took three or four six-shooters out of a bookcase and began to look them over, whistling "The Cowboy's Lament" abstractedly. Afterward he ordered the two best horses on the ranch saddled and tied to the hitching post.

Now, in the feed business in all sections of the country I have observed that in one particular there is a delicate but strict etiquette belonging to the subject in the presence of a feudist. It would be more reprehensible than strict etiquette belonging to the subject in the presence of a feudist.

It yet lacked two hours to supper time, but in twenty minutes Sam and I were plunging deep into the rehearsal of beans, hot coffee and cold beef.

"Nothing like a good meal before a long ride," said Sam. "Eat hearty."

I had a sudden suspicion.

"Why did you have two horses saddled?" I asked.

"One, two—one, two," said Sam. "You can count, can't you?"

His mathematics carried with it a momentary quail and a lesson. The thought had not occurred to him that

he had two horses.

"There's a code," I heard Sam say, either to me or to himself, "that won't let you shoot a man in the company of a woman; but, by thunder, there ain't one to keep you from killing a woman in the company of a man!"

And quicker than my mind could follow his argument he whipped an automatic from under his left arm and pumped six bullets into the body that let you shoot a man in the company of a woman; but, by thunder, there ain't one to keep you from killing a woman in the company of a man!

The young person in the dark suit, from whose head and from whose floor in his female masquerade that had given Sam the opportunity to set aside, technically, the obligations of the code.

He Pumped Six Bullets Into the Body That the Brown Dress Covered.

the thought could possibly occur to me not to ride at his side on that red road to revenge and justice. It was the higher calculus. I was looked for the trail. I began to eat more beans.

In an hour we set forth at a steady gallop across the country. My horse was a tawny bred, strengthened by the mesquite grass of the west.

I knew that Ben Tatum's card to play was all-right until he came within the safer territory of his own backbenches and supporters. He knew that the man pursuing him would follow the trail to any end where it might lead.

During the ride Sam talked of the prospect for rain, of the price of beef, and of the musical glasses. You would have thought he had never had a brother or a sweetheart or an enemy on earth. There are some subjects too big even for the words in the "Unbridled." Knowing this phase of the feud code, but not having practiced it sufficiently I overdid the thing by telling some slightly funny anecdotes.

Sam laughed at exactly the right place—laughed with his mouth. When I caught sight of his mouth I wished I had been blessed with enough sense of humor to have suppressed those anecdotes.

Our first sight of them we had in Guthrie. Tired and hungry, we stumbled, unawares, into a little yellow pine hotel and sat at a table. In the opposite corner we saw the fugitives. They were bent upon their meal, but looked around at times uneasily.

The girl was dressed in brown—one of these smooth, half shiny, silky looking affairs with lace collar and cuffs and what I believe they call an accordion plaited skirt. She wore a thick brown veil down to her nose and a broad brimmed straw hat with some kind of feathers adorning it. The man wore plain, dark clothes, and his hair was trimmed very short. He was such a man as you might see anywhere.

Then they were the murderer and the woman he had stolen. There were the right-hand avenger, according to the code, and the superannuated who writes these words.

"What are you waiting for, Sam?" I said in a whisper. "Let him have a now!"

"I don't know," said Sam. "I don't know if he's got a now or not."

"I don't know," said Sam. "I don't know if he's got a now or not."

"I don't know," said Sam. "I don't know if he's got a now or not."

"I don't know," said Sam. "I don't know if he's got a now or not."

"I don't know," said Sam. "I don't know if he's got a now or not."

"I don't know," said Sam. "I don't know if he's got a now or not."

"I don't know," said Sam. "I don't know if he's got a now or not."

Sam gave a mumbled reply. "You don't understand, but he does," he said. "He knows. Mr. Tenderfoot, there's a rule out here among white men in the Nation that you can't shoot a man when he's with a woman. I never knew it to be broke yet. You can't do it. You've got to get him in a gang of men or by himself. That's why. He knows it too. We all know. So that's Mr. Ben Tatum! One of the 'pretty men'! I'll cut him out of the herd before they leave the hotel!"

After supper the flying pair disappeared quickly. Although Sam hunted lobby and stairway and halls half the night, in some mysterious way the fugitives eluded him, and by the morning the veiled lady in the brown dress with the accordion plaited skirt and the dapper young man with the close cropped hair, and the buckboard with the prancing nags were gone.

It is a monotonous story, that of the ride, so it shall be curtailed. Once again we overtook them on a road. We were about fifty yards behind. They turned in the buckboard and looked at us, then drove on without whipping up their horses. Their safety no longer lay in speed. Ben Tatum knew. He knew that the only rock of safety left to him was the code.

So you may perceive that woman, on occasions, may postpone instead of precipitating conflict between man and man. But not willingly or consciously.

Five miles farther we came upon the future great western city of Chandler. The horses of pursuers and pursued were started and weary. There was one hotel that offered danger to man and entertainment to beast; so the four of us met again in the dining room at the ringing of a bell so resonant and large that it had cracked the welkin long ago. The dining room was not as large as the one at Guthrie.

And quicker than my mind could follow his argument he whipped an automatic from under his left arm and pumped six bullets into the body that let you shoot a man in the company of a woman; but, by thunder, there ain't one to keep you from killing a woman in the company of a man!

The young person in the dark suit, from whose head and from whose floor in his female masquerade that had given Sam the opportunity to set aside, technically, the obligations of the code.

"I don't know," said Sam. "I don't know if he's got a now or not."

UNIFORM MAKES MANY MEN Apparently Dull and Impossible Recruits Quickly Catch on When They Don Khaki Clothes.

"Want to see something funny?" asked a lieutenant of a correspondent. The correspondent did.

"Well, come over here and watch that beauty drill."

The lieutenant led the correspondent over in front of one of the companies.

"Watch that man," he said. "The man was a red-faced, varant-looking specimen in civilian clothes, who seemed not gifted with more ordinary intelligence. He could not stand up straight, could not manage his hands and feet, could not learn right face, right about face or left face. Every time the sergeant gave a command the beauty gave him a silly grin and considered that he had done his duty. So the sergeant took him to one side."

"Well, now we will have a lesson by ourselves. Now watch me."

The sergeant was very patient. For half an hour he tried to drum a little intelligence into his pupil's head, but at the end of that time the man was even more confused than before.

The next day the same sergeant said to the correspondent:

"Want to see something grand?"

The correspondent did. The sergeant pointed to the same man. "Just look at him," he said proudly. "The private was standing straight, his eyes were bright, his feet were obedient and he looked like a man."

"Wonderful," gasped the correspondent. "What did it?"

"It's the uniform, bless it," said the sergeant. "It makes men out of the most impossible."

"We are all little boys still, aren't we?" mused the correspondent. "I think even I could be a soldier in a uniform. And think of owning a sword!"

Siam Attacks Enemy Firma.
The Siam government has issued a notification ordering all German and Austrian business firms to be attached and wound up. Among the business houses to be liquidated are three of the leading drug stores in Bangkok, two hotels, two dental offices, one photographic studio, one printing office, one rice milling firm, three general import houses, one rice mill engineering office and one undertaker's establishment.

The importance of Germany's trade interest in Siam, notes a correspondent, may be judged from the fact that the imports from that country into Siam through the port of Bangkok amounted to \$2,062,986 in the fiscal year ended March 31, 1915, and to \$2,458,889 in 1914, while exports of native products from Siam to Germany were valued at \$2,110,085 and \$2,747,260 during the respective periods.

A large share of the shipping was also under German control, so that out of the total number of 914 ships of all nationalities that entered the port of Bangkok during 1914 those of German registry numbered 261 vessels. At the time of Siam's declaration of war on July 22, 1917, the German vessels in the Bangkok harbor consisted of nine steamships, of 11,766 tons; five steam lighters, of 1,317 tons; two tugs, of 55 tons; seven barges and two large coal hulks.

Uses Zone Time at Sea.
The French navy has recently adopted the use of standard or zone time at sea, the hydrographic service of the French ministry of marine has just issued a large chart of the world, on the Mercator projection, showing the limits of the standard hour zones on both land and sea, together with other pertinent information, says the Scientific American. The land areas in which standard time is used are indicated by red tinting for the even-numbered zones (beginning with zone 0, in which Greenwich time is used), and blue for the odd-numbered zones. Violet tinting is used in the case of countries such as British India, Nigeria, British East Africa and Venezuela, in which the legal time is intermediate between that of two standard meridians. Countries not using zone time are tinted yellow, and in case they use a uniform official time the difference between such time and that of Greenwich is indicated, also the location of the observatory, if any, from which the time is taken.

No Bermuda Vegetables.
There will be no fresh Bermuda vegetables this winter. A delegation of Bermuda truck growers who recently called at the shipping board offices in New York in an attempt to secure transportation facilities to their New York market were informed that it was exceedingly doubtful that any vessels would be available for this use.

The Bermuda truck crop, which is ready for market about January 1, has reached the New York market heretofore on British bottoms. These ships have been withdrawn for war purposes.

War Wrecks Nerves.
So terrible is the strain of the present warfare upon the men under fire, writes a correspondent, that nervous and mental disabilities are responsible for one-seventh of all the discharges, while wounds are responsible for one-third of all discharges—or about half as many men disabled through nerve wreckage as by shrapnel.

Descriptive Cognomen.
"What kind of vine is that you have on your wall?"

"I don't know its botanical name, I call it the Bonner vine because it is always throwing out suckers."

CAMPBELLTON, N. B.

PERSONALS

Dr. A. L. LeBlanc of St. Omer was a visitor to town this week.

Miss Helen Cox of Loggieville is the guest of Miss Jennie Sheals.

Miss Mary Lawlor of Newcastle is visiting Miss Marquette Henry.

Hon. and Mrs. Wm. Currie have returned from visiting in Montreal.

Miss Gertrude Gorman of River du Loup is the guest of Miss Deliah McNutt.

Mrs. Chas. Dalton and little son of Newcastle are visiting Mrs. D. O'Keefe.

Mr. and Mrs. Sam Allanach are receiving congratulations on the arrival of a baby boy on Jan. 26th.

Mrs. Wm. Traverser entertained a number of friends very pleasantly at her home last Thursday evening.

W. J. McNeill leaves on the Ocean Limited on Friday evening for Winnipeg to attend a meeting of joint Protective Board of the Brotherhood of Railway Carmen of America.

Mr. James McTavish, Provincial Manager of the Imperial Oil, Limited, of St. John is in town today on an inspection tour of the company's interest here.

POLICE OFFICIAL IS SUSPENDED

Capt. Savard, Montreal, Accused of Protecting Vice.

Montreal, Feb. 12.—By direction of the city council Captain Savard of the city police force was ordered suspended yesterday. This was done on the recommendation of a majority report of the Board of Control, upon charges submitted by controller Villeneuve.

The controllers will investigate the charges which are of a serious import.

In substance Captain Savard is accused of protecting vice in his district and it is further alleged that his friendly relations with gambling interests and other forms of vice constitute a public scandal.

RUSSIAN TROOPS ARE DEMOBILIZING.

Petrograd Report Says They Regard War as Ended.

London, Feb. 12.—Confirmation of the German report that Russia has withdrawn from the war is contained in an official Russian statement received here to-day.

The statement says Russia declares the war with Germany, Austria-Hungary, Turkey and Bulgaria to have ended, Russian troops simultaneously receiving an order for complete demobilization on all fronts.

For the defence of the frontier some detachments of younger soldiers will be left.

Although this announcement was made yesterday in several despatches from German sources, this is the first word from Russia regarding her withdrawal from the war.

AUSTRIA HUNGARY AND SEPARATE PEACE

London, Feb. 13.—According to the lobby correspondent of the Daily Mail, facts are known which bring the possibility of a separate peace between Austria-Hungary and the Entente Allies much nearer.

Great reluctance, he says, is manifested in Austria toward the prospect of fighting British and American troops on the western front.

Husbands and wives should remember that they married for worse as well as better and act accordingly.

HOUSE FOR SALE

The Alfence Belle-Ile house at Mill Creek Bridge. At a bargain. For particulars apply to H. C. GILLIS, Head Tide.

Feb. 6-4-18.

Your Clothes

Should be the best that money can buy.

Clothes do not make the man, but they make you presentable, and he is often judged by appearance.

You need never be ashamed of your clothes if you make them.

Call and see our line of Blue and Black Suits, absolutely guaranteed.

BERNIER

THE TAILOR

MORE HONORS FOR CAMPBELLTON BOYS

Another of Our Boys Awarded Military Medal—Doing Good Work.

Mr. John L. LeBlanc of this town has just received through the Canadian Record Office, 1-10, Eng. J. Military Medal awarded his son Sgt. J. LeBlanc for bravery in the field, June 21st, 1917.

Sgt. P. J. LeBlanc who won his stripes in the field and has been twice recommended for the Military Medal is a Campbellton boy who left here thirteen years ago, to seek his fortune in the west. He enlisted as a private in the 52nd New Ontario Battalion, Jan. 16th, 1915 and was drafted overseas, sailing from Montreal on the Massinbie, Sept. 1st, 1915, arriving in England Sept. 14th, just in time to spend a few hours with his brother Sgt. Peter A. LeBlanc, who by the way is the only member of his family whom he has met since he left here in 1905, the latter crossing to France the next day with the 26th N. B. Batt.

After spending some time in the 12th Reserve Battalion, he was chosen to take a Machine Gun Course, also a Signaller's Course going over to France on March 1st, 1916, in 2nd Coy. C. M. G. Corps, where he has been at the firing line ever since, with the exception of an eight day leave to England in July 1917.

WILL ANSWER PRESIDENT WILSON NEXT WEEK

London, Feb. 13.—Count von Hertling, the Imperial German Chancellor, an Exchange Telegraph despatch from Amsterdam says, intends to answer President Wilson's message in the Reichstag next Tuesday.

POPE PRESSING FOR SEPARATE PEACE

Rome, Feb. 13.—The Pope is reported to be pressing the Central Powers, especially Austria and Bavaria, for an "honest and unselfish consideration of President Wilson's speech."

CANADIAN LINE IS STRENGTHENED

Fighting Strength Constantly Increasing and Front Extending.

Canadian Army Headquarters, Feb. 13.—After three and a half years of war, Canada in the field is on the march to victory stronger than ever before.

The Dominion's fighting strength, both in men and in guns, is constantly increasing.

Sometimes.

Across the field of yesterday He sometimes comes to me, A little lad just back from play— The lad I used to be.

And yet he smiles so wistfully Once he has crept within, I wonder if he hopes to see The man I might have been?

—Thomas J. Jones, Jr.

Ground for Exemption.

The teacher was giving the school a little lecture on good conduct.

"Avoid criticizing," she said. "Don't make an action of finding fault with other people, or picking flaws in what they say or do."

"Teacher," spoke up a little boy, "that is the way my father makes his living."

"You surprise me, Frank." What is your father's occupation?"

"He's a proofreader, ma'am."

"Well, Frank," she replied, I make an exception in the case of your father."

Sweetest natured are those possessing the faculty of finding contentment.

CANADA HAS PARK

Permanent Playground Established in Rocky Mountains.

Highest Peak, Glacier, Forest Trees, Streams and Valleys Form Attractive Features of the Resort.

Canada is following the example of the United States in setting aside tracts of her Rocky mountain region as permanent playgrounds for the people.

The latest of these is Jasper park, far up in the wild Northwest, where the play is still too rough to attract any great number of urban dwellers, but which is one of the most beautiful bits of mountain scenery in the world.

The building of the Grand Trunk Pacific railroad had a good deal to do with the setting aside of Jasper park.

In Jasper park they have fenced in the highest mountain in Canada, an immense tract of virgin forest and hill country, a miscellaneous assortment of nameless glaciers of various sizes, half a dozen big trout streams and numberless little green valleys that look as though they were laid out by a landscape painter.

That the park is still difficult of access and calls for pioneering methods in its exploration is only another recommendation in the eyes of the lover of the outdoors.

Here also certain important rivers take a humble start in life—such prominent streams as the Saskatchewan and the Columbia.

The land looks as untouched and as primitive as Virginia must have appeared to John Smith, but as a matter of fact it has a long and romantic history whose record is still to be written.

And may the man who writes it be a Canadian.

During the Napoleonic War—an historical parallel.

Professor Firth said that the events, incidents, and speeches of the last three years had recalled to his mind repeatedly the resemblances and the differences between the present war and the Napoleonic war.

He thought that we could derive from the past comfort for the present. Then we concluded a precarious peace. In 1803 we were in a better position, both for attack and defense, than we were in 1917, but in 1803 we no longer had any allies.

Our former allies were then neutral. The French navy had been destroyed, and in 1803 and 1804, owing to the miscalculations of Napoleon, the danger of invasion was not serious.

It became a real danger in 1805, when Napoleon aimed at becoming master of the channel, but that danger also passed. On the other hand, the war on land went steadily against us.

The years 1807 to 1810 were the critical period of the struggle, but it was noticeable that contemporary utterances indicated rather doubt concerning the capacity of our rulers than the fear of the enemy.

In those days there was no party trace, and no Ministry enjoyed the full confidence of the country.

Carping criticisms and pessimistic prophecies were continually heard in both Houses of Parliament, and as regularly reproduced by Napoleon in Le Moniteur.

Of the revenue derived from taxation to-day three-quarters was obtained by direct taxation, but a hundred years ago it was the reverse.

Again, during the Napoleonic war we had to import less than three weeks' wheat supply, and at present we had to import 40 weeks' wheat supply.

Napoleon's object in establishing a Continental blockade was not to starve us, but to prevent us from obtaining money to carry on the war by closing our markets.

In conclusion, Dr. Firth said there were deeper extremes of good and evil in that war than we had experienced so far in this. We had fought Napoleon over three years. Our ancestors did not lay down their arms for 21 years. If we equalled the effort that they made we should not be doing badly.

Hon. A. L. Fisher, Minister of Education, in moving the vote of thanks to the lecturer, said that in the time of Pitt the peril was far more acute than it had been in this war, except in the first weeks, when the superb achievement of Lord Penck with his never-beaten band was quietly recognized, saved us. Yet, the repose of English society then was far more profound than it was to-day, and that in spite of the additional fact that, while to-day wealth was more equally distributed, and the working classes were more prosperous than ever before, the reverse was the case in the time of Pitt, when the conditions were well calculated to drive the people to revolt.

For every member of Parliament who, in the days of Pitt, was adequately instructed in the A B C of politics, there were 20 now. In one respect there had been little change—the temper of the Prussian people was the same then as it is now.

In 1813 a Prussian writer advocated the destruction of Rheims cathedral. It had been reserved to the Prussians to-day to give effect to the suggestion.

Head Candidates' Bumps.

A proposal that all candidates for Parliament should submit to examination by a phrenologist and "have their bumps told," is one of the features of the annual report of the British Phrenological Society.

"The state's need of phrenology is evident in nearly every department of government administration," said one of the speakers at the convention. "Particularly in the election of members of Parliament, it seems to us that the best-fitted candidates, according to the formation of his head and the volume and quality of his brains, is not always elected."

A phrenological examination of all candidates would save an immense amount of unnecessary misunderstanding, blundering and expense.

"The speech which we propose to try on some candidates for the Brighton Town Council recently with suitable respect to the Phrenology should be utilized in this way in every town and city."

"We have been a good deal lately in political circles about brain efficiency," but it has all been talk, because the authorities have no scientific formula by which they can calculate a candidate's brain capacity or his intellectual grasp and ability, nor will they ever have it until they call on phrenologists to their assistance.

"Cabinet ministers ought to be all selected according to the formation of their heads, and not merely upon personal influence, credentials, or reputation."

"Phrenology ought to be taught in our schools—instead of German."

Burglarproof Cages.

A burglarproof cashier's cage, located in a car house in an isolated district, has been installed by the Washington Water Power company, says the Electric Railway Journal. It is described as follows:

"The cage is sheathed with iron on the outer walls and the door, and the windows are provided with steel curtains, counter-weighted, which can be lowered for complete protection. In the bottom of each steel curtain is a trap or hinged box which can be swung inside or outside without at any time affording a direct opening into the room. Cash is placed in the trap on the outside, which is swung in to give the cashier access to it. A small pocket-hole with sliding cover is provided just above the trapdoor."

Never Again.

Governor—Dorothy, didn't you give your little brother part of your apple? Little Dorothy—No. Eve did that, and has been criticised ever since.

Or Blow a Shove-horn.

Mrs. Johnson—Can't stay long, Mrs. Snow; I just come to see if you wouldn't join de mission band.

Mrs. Snow—Fo' de lan' makes, Honey, dean come to me! I can't even play a mouth organ.

Peril Far More acute.

In the Napoleonic Wars, Says Oxford Professor

R. C. H. FIRTH, Regius Professor of Modern History at the University of Oxford, recently spoke on "England During the Napoleonic War—an Historical Parallel."

Professor Firth said that the events, incidents, and speeches of the last three years had recalled to his mind repeatedly the resemblances and the differences between the present war and the Napoleonic war.

He thought that we could derive from the past comfort for the present. Then we concluded a precarious peace. In 1803 we were in a better position, both for attack and defense, than we were in 1917, but in 1803 we no longer had any allies.

Our former allies were then neutral. The French navy had been destroyed, and in 1803 and 1804, owing to the miscalculations of Napoleon, the danger of invasion was not serious.

It became a real danger in 1805, when Napoleon aimed at becoming master of the channel, but that danger also passed. On the other hand, the war on land went steadily against us.

The years 1807 to 1810 were the critical period of the struggle, but it was noticeable that contemporary utterances indicated rather doubt concerning the capacity of our rulers than the fear of the enemy.

In those days there was no party trace, and no Ministry enjoyed the full confidence of the country.

Carping criticisms and pessimistic prophecies were continually heard in both Houses of Parliament, and as regularly reproduced by Napoleon in Le Moniteur.

Of the revenue derived from taxation to-day three-quarters was obtained by direct taxation, but a hundred years ago it was the reverse.

Again, during the Napoleonic war we had to import less than three weeks' wheat supply, and at present we had to import 40 weeks' wheat supply.

Napoleon's object in establishing a Continental blockade was not to starve us, but to prevent us from obtaining money to carry on the war by closing our markets.

In conclusion, Dr. Firth said there were deeper extremes of good and evil in that war than we had experienced so far in this. We had fought Napoleon over three years. Our ancestors did not lay down their arms for 21 years. If we equalled the effort that they made we should not be doing badly.

Hon. A. L. Fisher, Minister of Education, in moving the vote of thanks to the lecturer, said that in the time of Pitt the peril was far more acute than it had been in this war, except in the first weeks, when the superb achievement of Lord Penck with his never-beaten band was quietly recognized, saved us. Yet, the repose of English society then was far more profound than it was to-day, and that in spite of the additional fact that, while to-day wealth was more equally distributed, and the working classes were more prosperous than ever before, the reverse was the case in the time of Pitt, when the conditions were well calculated to drive the people to revolt.

For every member of Parliament who, in the days of Pitt, was adequately instructed in the A B C of politics, there were 20 now. In one respect there had been little change—the temper of the Prussian people was the same then as it is now.

In 1813 a Prussian writer advocated the destruction of Rheims cathedral. It had been reserved to the Prussians to-day to give effect to the suggestion.

Head Candidates' Bumps.

A proposal that all candidates for Parliament should submit to examination by a phrenologist and "have their bumps told," is one of the features of the annual report of the British Phrenological Society.

"The state's need of phrenology is evident in nearly every department of government administration," said one of the speakers at the convention. "Particularly in the election of members of Parliament, it seems to us that the best-fitted candidates, according to the formation of his head and the volume and quality of his brains, is not always elected."

A phrenological examination of all candidates would save an immense amount of unnecessary misunderstanding, blundering and expense.

"The speech which we propose to try on some candidates for the Brighton Town Council recently with suitable respect to the Phrenology should be utilized in this way in every town and city."

"We have been a good deal lately in political circles about brain efficiency," but it has all been talk, because the authorities have no scientific formula by which they can calculate a candidate's brain capacity or his intellectual grasp and ability, nor will they ever have it until they call on phrenologists to their assistance.

"Cabinet ministers ought to be all selected according to the formation of their heads, and not merely upon personal influence, credentials, or reputation."

"Phrenology ought to be taught in our schools—instead of German."

Burglarproof Cages.

A burglarproof cashier's cage, located in a car house in an isolated district, has been installed by the Washington Water Power company, says the Electric Railway Journal. It is described as follows:

"The cage is sheathed with iron on the outer walls and the door, and the windows are provided with steel curtains, counter-weighted, which can be lowered for complete protection. In the bottom of each steel curtain is a trap or hinged box which can be swung inside or outside without at any time affording a direct opening into the room. Cash is placed in the trap on the outside, which is swung in to give the cashier access to it. A small pocket-hole with sliding cover is provided just above the trapdoor."

Pains in the Head Due To

Defective Eyes.

IF you suffer from pains anywhere in the head; at the base of the skull; over the temple; over or behind the ears; on the crown of the head—the chances are that your eyes are defective, need examination and fitting of proper glasses.

You may not feel actual pain in the eyes, yet you may need glasses in the worst way.

If you suspect your eyes being other than perfect, come and let me examine them. You cannot afford to neglect those valuable organs for a week or a day. I have the most modern and scientifically exact instruments for the purpose.
