## ST. JOHN VISITOR HAS GOOD LUCK

Geoffrey Stead Lands 12, Fine Salmon in One Day On Jacques River

Sometimes unaccountable ill-luck leads visiting sportsmen to this country to conclude that rather extravagant claims are made in regard to the abundance of salmon and other game fish in local streams. Those who would decry the attractions of Northern New Brunswick however will find an opponent and an enthusiastic booster in the person of Mr. Geoffrey Stead, Provincial Engineer of Saint John, N. B., who recently made a holiday trip to Jacques River and, of course, made his headquarters at Bay View Hotel there. On Thursday last Mr. Stead, accompanied by Mr. Alex. Davidson, a Jacques River guide, went up the Jacques River with all the hopes of an ardent angler. That these hopes were abundantly realized was evident upon his return to the hotel when he revealed the result of his day's expedition.

Twelve Beauties This consisted of twelve fine salmon. Our correspondent was not able to ascertain the individual or combined weight of this handsome dozen but they were just the kind you dream of the night before a fishing trip. Guests at the hotel were "all eyes" and a report says that several cameras also appeared on the scene and that some good pictures of this fine catch were secured. Needless to say Mr. Stead was delighted with his trip.

Things are shaping well for a busy season at "Bay View" and this favorite hotel is now the scene of summer holiday activities. Bay View Hotel has been the temporary stopping-place for many motoring tourists this summer and in addition to these guests on longer visits have been coming and going throughout the season. Among those now registered are: Dr. and Mrs. Laurie and family of Cleveland, Ohio, who arrived by motor on Thursday last and will remain a few weeks.

Mr. H. M. Baban of the Montreal Daily Star and his wife and family, Mr. and Mrs. C. R. MacKenzie, and son Ross, of Montreal. Mr. and Mrs. C. J. McCluskey of Campbellton. Mrs. H. Ullman and family of Moncton and Mr. P. S. Chalmers of the C. N. R. Office, Montreal. All these guests are delighted with Bay View Hotel and its surroundings and many of them will remain for some little time.

## OBITUARY

Mrs. David Sadler Chatham, July 29.—The whole community will learn with deep regret of the death of Mrs. David Sadler who passed away at her home on Upper Water St. this morning at 3:15 o'clock. Within the past four months Mrs. Sadler had undergone two critical operations in the hospitals of Chatham and Montreal at the hands of the best surgical skill obtainable, but it was discovered that the insidious disease from which she suffered had made such progress that it was beyond all human power to overcome. She bore her suffering with great patience and fortitude and faced the inevitable issue with calm resignation and confidence. Deceased, who was a daughter of Mr. and Mrs. Robert Dickie, was born at Charlottetown and mourn her loss a sorrowing husband, and a family of five children—Lillian, Margaret, James D. Robert and John, three sisters—Mrs. J. H. Taylor, Campbellton and Misses Bernice and Lillian of Charlottetown, three brothers—Robert, James and Murray of Charlottetown besides a large number of relatives and friends. To these, especially in the immediate home circle, the community extends the most heart felt sympathy.

ELECTION BRIEFS "I have been a lifelong Tory and always voted the Tory ticket, but this Hydro Policy gets me and I will support Veniot." This is what is often heard. If the people realize what Hydro means the Liberal candidates in Restigouche County will have a thousand majority.

If you believe in honest, progressive, clean government, vote for the Government candidates. Don't let them fool you by an appeal for sympathy. In a recent address, Mr. H. J. Currie, who is they to you? Vote for men who have made a success of their own business.

Returned soldiers will do well to look into the war record of Leader Baxter, then contrast it with Premier Veniot, who sent several sons to the Great War. Ask the Opposition candidates about Colonel Baxter's name even.

While A. J. Doucet, M. P., is going about the counties of Kent and Westmorland making inflammatory speeches against the Veniot Government for not doing enough for the French, certain clergymen are going about the western counties of the province preaching sermons against French domination. As we have before pointed out if the Tories win the pending election it will be the successful culmination of the greatest political bunco game ever pulled off in the Dominion.—Fredericton Mail.

## PRESENTATION TO DR. L. G. PINAULT

Honored by Hospital Staff and Medical Conferences at Annual Dinner

The Annual dinner given by the nursing sisters of the Hotel Dieu Hospital to the Medical Staff of that institution was held on Thursday evening last. The Menu itself was all that could be desired and was pronounced by the guests present to be the climax of perfection in everything that comprises a high class up-to-date dinner. After ample justice had been done to the rich spread, the Nursing Sisters presented Dr. Pinault, (in honor of his completion of 25 years of Medical Practice) with a beautiful landscape painting (the hand-work of one of the sisters,) accompanied by an appropriate address, emphasizing the doctor's untiring devotion not only to his patients but to the material progress of the Hotel Dieu Hospital, which they were pleased to learn is now recognized as one of the best equipped hospitals in the Maritime Provinces.

This was followed by another presentation to Dr. Pinault of an engraved walking cane from his medical conferences, accompanied by the following address:—Campbellton, N. B. To L. G. Pinault, Esq., M.D., M. A. C. S. President, Medical Staff Hotel Dieu Hospital.

Dear Dr. Pinault:—It had incidentally come to the notice of your medical conferences that a quarter of a century has passed since you received from your Alma Mater the degree of "Doctor of Medicine" and we feel that we cannot allow the occasion to pass without expressing in some manner our appreciation of your services since you became a citizen of our town a short time afterwards.

Among the local positions which you occupied at different times during that period we recall the following: Member of the Town Council, Member of the Board of School Trustees, Member of the Board of Health, President of the Board of Trade, President of the Red Cross Society and President of the Hotel Dieu Hospital Medical Staff.

In addition to your other professional activities you have been President of the N. B. Medical Society and at present you hold the position of President of the N. B. Anti-tuberculosis Association. All these positions you have honorably filled, without either financial remuneration or hope of reward. We need scarcely impress upon you the fact that your success in the field of Surgery has won for you more than a local reputation and we were greatly pleased when the American College of Surgeons signally honored you by admitting you to membership in that medical institution.

And now Brother Pinault, as a token of our recognition of your long and honorable career and the "esprit de corps" which exists among your medical confreres, we ask you to accept this material service as a weapon of defence against the ravages of destructive metabolism, in the far distant future, when tired nature will no longer be able to compensate for diminishing physical energy.

In conclusion, we congratulate you on attaining to the 25th milestone in your professional life and we unite in wishing you many more years of continued success in your practice, with happy felicitations to Mrs. Pinault and family, until you reach that "Land of pure delight, where Saints immortal reign," and the weary are at rest. Dr. Pinault in replying to both addresses and the accompanying presentations, spoke feelingly of the honor conferred upon him, and said he did not consider himself worthy of the very flattering personal references contained in the addresses, as he felt that he was simply doing what he considered to be his duty as a physician and a citizen. He wished however to express his deepest gratitude both to the Sisters and his medical confreres, with all of whom he had enjoyed such friendly association during the past 25 years and who have so kindly remembered him on this occasion.

ler Veniot, who sent several sons to the Great War. Ask the Opposition candidates about Colonel Baxter's name even.

While A. J. Doucet, M. P., is going about the counties of Kent and Westmorland making inflammatory speeches against the Veniot Government for not doing enough for the French, certain clergymen are going about the western counties of the province preaching sermons against French domination. As we have before pointed out if the Tories win the pending election it will be the successful culmination of the greatest political bunco game ever pulled off in the Dominion.—Fredericton Mail.

## Enthusiastic Meeting in the Opera House Hear Senator Robinson and Other Speakers

Record of Veniot Government Contrasted with that of the Baxter Regime Previous to Their Defeat at the Polls In 1917.

Despite the fact that Tuesday night was wet and disagreeable, and the roads were wet and slippery, the Opera House was well filled to hear Senator G. W. Robinson on the issues of the present campaign.

Coun. Jas. H. Moore occupied the chair and introduced the various speakers.

Pius Michaud, M. P., for Restigouche—Madawaska was the first speaker.

Mr. Michaud said that he was pleased to again appear before a Campbellton audience, but he hoped they would bear kindly with him, as he was to say a few words in English.

It was certainly amusing to hear Mr. Baxter and other Conservative speakers speak of maladministration. This was funny. You remember the record of the Conservatives previous to 1917, and why they were turned out. Yet they are preaching maladministration. In contrast you have the Veniot administration of which there has not been one act that cannot stand the light of day.

Have the Conservatives a policy? Have they made any promises. Do you know their policy or what they promise. Well he did not, and he read the papers. They had no policy, nor are they making any promises. You must remember that so far as the leaders are concerned they are the same old bunch which swindled the country previous to 1917.

Because the Conservatives defeated reciprocity in raw products with the United States, and since the United States had support the high tariff wall against our products, we must build up industries of our own, and in order to establish and develop our industries we must have cheap electric power.

To get this we must develop Grand Falls. Ontario and Quebec have developed their water powers, and with cheap power can compete with any country in the world. We need the developments in New Brunswick to keep our boys at home. The government is endeavoring to convince the electors that the development of Grand Falls is the hope of the province.

If the government is sustained we will do here at home what is being done in the United States, Ontario and Quebec. He felt sure the electors would reward the Veniot government on August 10th.

When this development was under way Campbellton would be doubly benefited, because in order to erect the transmission line a trunk road would be opened up from St. Leonard to St. Quentin, when the road across the province would be complete. As soon as this highway is completed you will see a great influx of tourists who are already coming into the western part of the province, and are anxious to visit Restigouche and the Gaspé coast. These are reasons why you should support the Veniot government and vote for Currie and Legere—Applause.

Mr. Michaud also spoke in French. Mr. H. J. Currie was the next speaker introduced by the chairman.

H. J. Currie About two years ago Mr. A. T. LeBlanc and himself had been honored by being chosen as the Liberal standard bearers for Restigouche. Later Mr. LeBlanc had been appointed to the Supreme Court bench, a signal

honor to Restigouche, and at a later convention Mr. John B. Legere had been chosen in his stead. Together they had endeavored to look after the interests of the county and he felt they had been fairly successful.

One of the chief canvasses used against the Veniot administration has been that of extravagance. He would like to ask if the government had been extravagant in Restigouche. It is true that a considerable amount of money has been spent and is being spent in this county, but who will stand up and say that it is not needed. And he felt sure every dollar was being honestly spent.

When the Conservative government was in power the roads of the province were in a deplorable condition. Mr. Stewart said that the roads were as bad today as they were in 1917. He was sure he was wrong, and that he was stating an untruth. In 1917 it took at least four hours to motor to Bathurst and an hour and a quarter to Dalhousie. He would let the ratepayers say if there was not at least some improvement.

A large amount of money had been spent on road work in the county. The conditions of the roads required it. The road to Matapedia was absolutely dangerous, was a death trap. This had been straightened and the hills cut down and today it was one of the finest roads in the province and one of most beautiful.

The I. N. R. road, which was built for the tourist traffic and its great benefits, we must not forget that Campbellton is the natural trading centre for the six thousand people who live along the road, and their needs must be met.

At the outset of the fight he had agreed with Mr. Stewart that no personal canvasses were to be used. He was sorry that Mr. Stewart in his trip up the I. N. R. had broken his agreement, and had said things, which had no bearing on his public stand. However he had gone into this fight in an honorable way, and he would finish the fight with honor. Even if defeated it would be an honorable defeat. There were such things as dishonorable victories.

Look at the lineup of the Conservative party. The same old bunch which were turned out in 1917. He knew Conservatives of the highest integrity, men who it would be an honor to have at the head of affairs. Why were they not chosen? It was because the others were more aggressive and force themselves to the front.

He had heard it said that Legere was a pleasure for him to come to Campbellton, as he had so many friends, and he always liked to come. In fact he had just declined, when he had been invited to come and say a few words in favor of the Veniot government and its candidates.

Really he was only here to give them his blessing. He was sure the Liberals were very fortunate in having two such candidates as Messrs. H. J. Currie and John B. Legere, and he knew they would be elected by a large majority on August 10th.

He said that he was somewhat out of touch with local politics as he had gone to another sphere in political circles, but he felt that he could yet answer some of the canvasses the opposition leader and candidates were setting forth. With respect to the public debt which the opposition say the present government had increased and taxes which it was said to have raised. In this regard the Opposition was utterly insincere for, were its members returned to power, they would not increase the debt at a one bit slower rate, but that they would add it to whenever they saw fit and advisable.

There is one question that the people must consider, one question they must inevitably draw and that is with the record of the two before them that the present Government has handled things in a more businesslike manner than that which preceded it in the eight years, 1908 to 1916.

The first act of the new Liberal Government, he declared, was to appoint a commission to investigate the auditors in Canada and the United States to go over the books, that the people might not be able to question the statements of affairs that were made. It was an affair of such importance that the Government felt itself duty bound to go outside and to get a firm entirely lacking regard for any influences brought to bear within the province. It had done so and since that time it had retained that firm from year to year to audit the accounts. It was the Price Waterhouse and Company.

When the company had gone over

he and he were being well paid for their work in the interests of the county. He wished to say that they had given their services in the best interests of the county and had never received one cent. They had done the best they were capable of and their recompense would be the votes of the electors on August 10th.

Mr. John B. Legere was next introduced, and after a short address in French addressed the meeting in English.

He thanked the electors for the honor conferred upon him by naming him as one of the Liberal standard bearers. It was a signal honor and he appreciated it. When he accepted it he knew it was a hard position to fill but he was determined to do his best.

You all know that we have as premier of the province P. J. Veniot and he felt sure that every man and woman was proud of his record. When the Liberals came into power in 1917 Mr. W. E. Foster was chosen premier. He was perhaps, the best business man in New Brunswick and proceeded to give the province a business like government. When he chose his cabinet he made a wise choice when he made P. J. Veniot, Minister of Public Works. He chose a man of energy and vision. When Premier Foster retired Mr. Veniot was chosen premier. He was perhaps, the best business man in New Brunswick and proceeded to give the province a business like government. When he chose his cabinet he made a wise choice when he made P. J. Veniot, Minister of Public Works. He chose a man of energy and vision. When Premier Foster retired Mr. Veniot was chosen premier. He was perhaps, the best business man in New Brunswick and proceeded to give the province a business like government. When he chose his cabinet he made a wise choice when he made P. J. Veniot, Minister of Public Works. He chose a man of energy and vision. When Premier Foster retired Mr. Veniot was chosen premier. He was perhaps, the best business man in New Brunswick and proceeded to give the province a business like government. When he chose his cabinet he made a wise choice when he made P. J. Veniot, Minister of Public Works. He chose a man of energy and vision. When Premier Foster retired Mr. Veniot was chosen premier. He was perhaps, the best business man in New Brunswick and proceeded to give the province a business like government. When he chose his cabinet he made a wise choice when he made P. J. Veniot, Minister of Public Works. He chose a man of energy and vision. When Premier Foster retired Mr. Veniot was chosen premier. He was perhaps, the best business man in New Brunswick and proceeded to give the province a business like government. When he chose his cabinet he made a wise choice when he made P. J. Veniot, Minister of Public Works. He chose a man of energy and vision. When Premier Foster retired Mr. Veniot was chosen premier. He was perhaps, the best business man in New Brunswick and proceeded to give the province a business like government. When he chose his cabinet he made a wise choice when he made P. J. Veniot, Minister of Public Works. He chose a man of energy and vision. When Premier Foster retired Mr. Veniot was chosen premier. He was perhaps, the best business man in New Brunswick and proceeded to give the province a business like government. When he chose his cabinet he made a wise choice when he made P. J. Veniot, Minister of Public Works. He chose a man of energy and vision. When Premier Foster retired Mr. Veniot was chosen premier. He was perhaps, the best business man in New Brunswick and proceeded to give the province a business like government. When he chose his cabinet he made a wise choice when he made P. J. Veniot, Minister of Public Works. He chose a man of energy and vision. When Premier Foster retired Mr. Veniot was chosen premier. He was perhaps, the best business man in New Brunswick and proceeded to give the province a business like government. When he chose his cabinet he made a wise choice when he made P. J. Veniot, Minister of Public Works. He chose a man of energy and vision. When Premier Foster retired Mr. Veniot was chosen premier. He was perhaps, the best business man in New Brunswick and proceeded to give the province a business like government. When he chose his cabinet he made a wise choice when he made P. J. ## NEW CHURCH AT FLATLANDS OPENED

New Church Now Open for  
Worship—A Modern  
Building

The dedication service of the Flatlands house of worship of the Restigouche Baptist Church was held at 3 o'clock Sunday afternoon, July 19th.

This part of the field has been much in need of a new church building ever since our hall was destroyed by fire over three years ago. We have been planning to have a more suitable place to worship. And at last our plans are realized through the work and co-operation of our members and congregation.

We have erected a building with basement of concrete walls and floors suitable for Sunday School to meet the architecture of the building is Gothic. At the front is a square entrance extending up into a belfry and spire. The auditorium is finished with hard wood floors, sheathed walls and metallic ceiling. It is finished with hard wood seats which will seat 140 comfortably.

The event had been eagerly looked forward to. But we were disappointed in not getting our superintendent of Home Missions, and Rev. Dr. Camp, as we had anticipated; on account of Mr. Mason's having another engagement and Dr. Camp's being away. Nevertheless we were greatly favored by having Rev. T. S. Roy of the Baptist Church, Brackton, Mass., and Rev. E. V. Forbes of Restigouche United Church, although we did not hear of Mr. Roy's being available until the previous week. It could not be more fitting to have anyone else to preach the dedication service since he preached his first sermon at Flatlands in the former building 18 years ago.

About 2:30 o'clock the crowd commenced to gather and by 3 o'clock the capacity of the building had increased from 140 to over 200 since there were chairs in every available place and a crowded entrance. After the organ voluntary the choir sang an anthem, "Abiding in Jesus." The invocation was offered by Mr. Roy and followed by singing of "Light Thy House with Glory, Lord." The scripture reading was the account of Solomon's dedication of the Temple from 1st King's 8th Chapter. After which prayer was offered by Rev. E. V. Forbes. Then the Choir and Congregation sang, "Christ is our Corner Stone." The announcements were then given by the student pastor Mr. W. Howard.

Rev. T. S. Roy began by making some preliminary remarks about the former days and experiences in the Restigouche Church and how he had appreciated and remembered the warm hearts of service of the people here.

He continued from the remarks immediately into the development of a most heart-teaching and inspiring Dedication message, urging us to not only dedicate our church but also our lives to God. He also emphasized the purpose of the building. Mr. Roy is a very attractive and forceful speaker and we believe he brought a desire into every soul to be in closer relationship with God and engaged more earnestly in his service. After the sermon Mr. Roy stated the financial conditions in regard to the building of the church. Then he appealed to the congregation for a generous offering. The building cost about \$3,700.00. \$1,000.00 of which has already been paid. \$1,000.00 was given in free labor and lumber; leaving a debt of \$1,700.00. The reply to Mr. Roy's appeal was \$130.00 and pledges of \$10.00.

Miss Bulmer, Mass., is paying for the pulpit, which is to be a memorial for her father the late Nathan Bulmer. All this reduces the debt to less than \$940.00.

A responsive dedication service was conducted by the student Pastor and the dedication prayer was offered by Mr. Roy.

Rev. E. V. Forbes was called upon to speak and delivered a brief but impressive address encouraging us to go forward anew in our Christian service now that we have a new church.

The closing hymn was, "Our God our Help in Ages Past." And benediction was offered by Mr. Forbes.

The event was very satisfactory and we believe that many prayers for success have been answered. We have only one regret and that is that the church would not accommodate all who came to the service.

With the help and direction of our Master, we shall strive to do our best in bringing the kingdom of God in this place and in sending our influence and support abroad.

TO LET—One heated apartment, all modern conveniences. Apply to S. W. Dimock. —July 14-15.

## OPPOSITION DEAL WITH LUMBER LORDS

**Secret Conclave held at  
Chatham Gives Rise To  
Sensational Propositions**

**Said Lumbermen Promised Many Things If They Contribute Towards Campaign Funds and Support Opposition**

Chatham, N. B., July 27.—Granting Government have given, it is said, doubt the Opposition will vigorously oppose the proposal of the New Brunswick Lumbermen's Association for an intimation that if the Opposition are gaining such headway, but observe, on last winter's stumpage charges amounting to \$225,000, introduction of the Quebec scale and a further reduction in stumpage rates are said to have been promised representatives of New Brunswick's big lumbermen at a secret conference here by an envoy of the Opposition if the lumbermen would provide a campaign fund for the Opposition party and throw their support behind Col. John Babbington MacAulay Baxter, the new Opposition leader and his cohorts.

Upon the understanding that these concessions would be made New Brunswick lumber barons, who have in the past boasted publicly that they could make and unmake Governments, have thrown their support in the present election behind the Opposition. Practically every one of the big lumbermen, who already control practically all New Brunswick's Crown Lands and the province's richest natural resources, are lined up against the Veniot Government to-day. In almost every country they have either their direct or their indirect representatives on the Opposition tickets—to serve the big lumbermen's interests.

### Some More Demands

In addition to the introduction of the Quebec scale—which would mean that every free holder when he sold a thousand feet of stumpage or logs would be really selling 1,200 feet, that every contractor when he contracted to get out a thousand feet of logs would have to get out 1,300 feet and that the workmen would have to perform their share of the operation on 1,300 feet for the same financial reward which they now get for handling 1,000 feet, as well as the rebate of \$225,000 on last winter's stumpage bills soon to come due and a further reduction in stumpage rates that the

### ELECTION BREEFS

When some of the lumbermen tried to make a \$225,000 raid on the provincial treasury, they seem to have overlooked the fact that Hon. J. K. Fleming, the lumbermen's friend, ceased to be Premier several years ago.

A Government which has the support of the average, every-day citizen does not worry over the threats of big interests and foreign corporations.

Mr. Baxter says that if he were in power he would administer the prohibition law the same as any other law. That is a remarkable statement truly.

With the big interests on one side, and the people on the other, there need be no fear of the result in the coming election. The people will win.

**WESLEY UNITED CHURCH**  
The Rev. W. S. Godfrey will be away for the month of August and his pulpit will be supplied in his absence by the following preachers, Dr. Delano of Mt. Allison University will preach on August 2; Rev. Mr. Boucher of St. Hyacinthe, P. Q., on August 9; Dr. Thomas of Sackville on August 16 and 23 and Rev. Hugh Miller of St. John, N. B., on August 30.

### ESCUIMAC

A meeting of the L. O. L. 2609 was held here on Saturday, 18th of July. Messrs. Mac Baker and Johnson Bryant of Richville passed through here on Thursday night of last week enroute to Escuminac, N. B.

Mrs. Guy Little and family left here on Thursday last for Niagara where they will reside.

Mr. George Williamson of Nouvelle is visiting relatives in the Glen.

Rev. G. M. Young and Mrs. Young of Chatham, N. B., passed through here last week enroute to Caspe to spend their holidays.

Mr. H. P. Gaudin of Campbellton, N. B., is visiting at his old home here. Mr. Howe Taylor and Master Samy Taylor of Campbellton, N. B., are visiting here the guests of Mr. L. Court.

Miss Violet of Charlotteville, P. E. I., is visiting Mrs. Mitchell's cousin Mrs. John Elliot.

## OPPOSITION AND COMPENSATION ACT

Speakers in Gloucester County  
Already Following Lead of  
Bathurst Company.

Bathurst, N. B., July 27.—The Opposition candidates in Gloucester county are already attacking the Workmen's Compensation Act. They claim that there are too many benefits given to the workmen under the Act. This is the stand taken by the Bathurst Lumber Company, when they undertook to prove that the Act was ultra vires of the Legislature of New Brunswick.

The Bathurst Lumber Company, which is the largest employer in the county, and an all-round profitable concern, has been successful in securing the repeal of the Workmen's Compensation Act. The company has been successful in securing the repeal of the Act, and the company has been successful in securing the repeal of the Act.

Northumberland County is being approached to join all the counties of Northern New Brunswick.

CAMPBELLTON, N.B., JULY 30, 1925

### THE PROHIBITION LAW

The prohibition Act will exert an influence upon the approaching election. Many people in the county and province have considered the relationship of the enforcing of this act and the return of our representatives. The several candidates are forward in their expression of interest in the act. It is comparatively a drastic act—difficult to enforce because it touches more people than does any act on the statute book. The act is an adopted child of the Liberal government. Hon. J. B. M. Baxter, in 1916 when beginning to feel the pains of his deathbed and as a consequence sought in every direction a means to win the favour of a justly indignant people, grasped the idea of a Prohibition Act. This was adopted by his successors in office and an unprincipled observer cannot say other than that it has been fairly well enforced. The act with all its machinery is at the disposal of any or all the people. But any violation of the prohibition law seems to wait the action by a paid servant of the government or no action is taken. If goods are stolen the person or persons interested does not rely upon the officials of the government to bring about a prosecution. The officials of the law help in the prosecution but action is always first taken by the interested party and everything is satisfactory. But in prohibition affairs things are different, every citizen remains mute and motionless. The Government officer must move and without help from the citizens and often, too, without the sympathy of the citizens and it is difficult to imagine that the government official waxes cool in pushing information and his laxness is applauded by certain members of society and found fault with by others. And the politician is the discharge of his duty cannot be undoubted that if he chooses to ignore the law, he will be meeting his fate at election time. But we say he must and ought to be guided by principle and decree that the act must be enforced no matter who suffers. Now, which of our party politicians can we look forward to do this. Conditions under the prohibition act are far and away better than they ever were before and for those conditions we have to thank the Veniot administration. But we want better things done. Who does? Let all of us, who want a better enforcement of the prohibition act come out manfully and above board and say, Thank you Veniot administration for what you have brought about for us under discouraging conditions. It is better than any other administration ever did for us before. And we will back you one and all for what you have done and with our backing we expect you to do greater things for us. It is not every way more reasonable to understand that we will get a better enforcement of the act, producing better results than from a government which has done so much, we can expect which, although good, is unimpaired. It is only by encouraging the Veniot government by a solid backing and support at this coming election that we may hope for a sober and more sober constituency. The Baxter government have not given the country the single ray of hope, even for a continuation of the act, much less a better enforcement. We all can remember the days, when we, in this county, depended upon the

active, energetic movement of Hugh McLean, representative in New Brunswick of Eel River, liquor inspector of a foreign corporation which for the prosecuting of a temperance law. Prohibition people, don't on a large scale had been a supporter be fooled. A solid backing of the of the Government until he found that government of today with a mandate from prohibition people will ensure for us a better enforcement of the act now is an avowed enemy of the act which will safeguard our homes and our prosperity. But be assured you will never get prohibition enforcement from Hon. J. B. M. Baxter, nor any of his followers and supporters. Look at them, who are they to inspire confidence in a better or stronger prohibition enforcement. We want to hold what we have got, strengthen and sustain and back up the ones who have done for us what has been done and then we have confidence and strength to ask them to do something better for us.

### THE INTERESTS THREATENED

Because he would rather go down to defeat standing by his guns than yield to unfair and unreasonable demands upon the provincial treasury, Premier Veniot today is confronted by the determined opposition of a large section of one of the most powerful of the vested interests.

The story of the plot is told by the Premier in public addresses delivered in the heart of the district where those who have threatened him have their interests. His statements are made publicly and the manner in which he makes them challenges contradiction.

A summary of his statement on this subject, as reported by the Canadian Press Association, is as follows: "He announced that he had been warned by some of the lumber men of New Brunswick that unless he funded \$225,000 of last year's stumpage, they would oppose him; and he told how he had answered that he would rather go down to defeat standing by his guns than yield to what he considered any such unfair and unreasonable demands."

The Premier's statement fills in some of the details, but it already has been commonly known that some of the biggest lumber interest had lined up with the other big interests, which are opposing this government in the hope of profiting by its defeat. It is a matter of record that Mr. Angus

## MAN MYSTERIOUSLY DISAPPEARED

Left Boarding House On July 6th and Has Not Since Been Heard of

Has any one seen or heard of Fred White or LeBlanc, who left his boarding house on Monday, July 6th, and has not been seen or heard of since. Fred White was born at Sussex, N. B., and is said to have two sisters in the U. S. and a cousin named Dean in St. John. He boarded with Mrs. Wm. Smith, and worked loading sleepers with the Stetson Cutler Co.

On July 6th, there was no work, and about 10 o'clock he told Mrs. Smith that he thought he would go down to Dalhousie. He has not been seen since.

When he left he took none of his spare clothes, and left behind his two week's pay at Stetson Cutler Co's. So far as we can learn, outside of a few weeks board he owed no money here, and his sudden disappearance is quite a mystery.

The Government is opposed by the big interests, but the people of New Brunswick are bigger than the big interests. Their interests are larger and more in need of safeguarding, and they know with which party in this province their interests are safe.

So long as he has the people with him, Premier Veniot need not be concerned over the threats of the big interests.—Moncton Transcript.

### SOME POLITICAL QUESTIONS

Who gave New Brunswick its system of good roads that is inviting a steady and gratifying increase in tourist travel?

Who gave the people cheap light and put electric current within reach of all?

Who made the Province of New Brunswick a model for all the rest of the Provinces in health legislation so that our fame has even spread across the border?

How did our Health Department obtain \$200,000 from abroad to aid in making healthy babies to hold strong and progressive minds?

Who put the sinking funds on a sound basis, so that neither our good roads nor our cheap light and power is a problem of taxation?

Who gave free school books to the students of New Brunswick?

The Liberal Party under Premier

### YOUR OPPORTUNITY

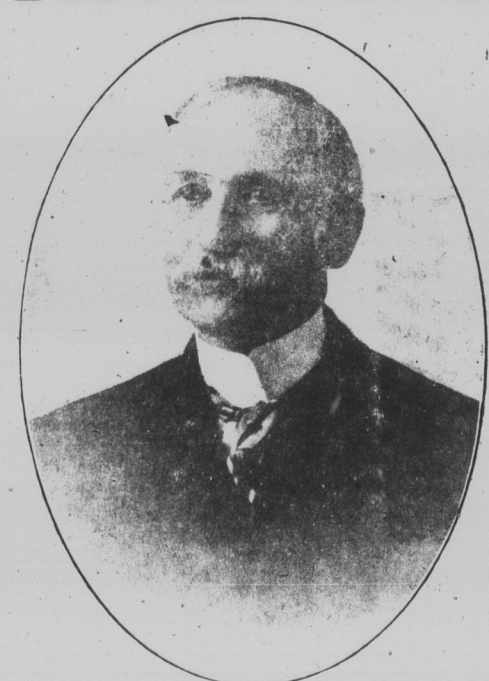

To Better Yourself.

There is a good living for you right where you live. Full or spare time. No capital required. No experience necessary. We teach you how to become a National Representative, selling our splendid line of top-toe clothing for men and women, from factory to consumer through local representatives. The National "Store at your door" selling outfit is a complete clothing store in a neat, small sample case. Experienced salesmen are unlimited possibilities in our proposition. Fall the soon ready, lighter and better than ever. Secure yourself an exclusive territory by writing immediately naming the district you want. Rural communities and city territories equally profitable. It is a line of distinction to be a National Representative. Apply Sales Manager National Mail Order House Limited, Dept. Box 707, Montreal.

Veniot and his predecessor.

Do you wish to have the above good work continued and the Province advanced along similar lines?

## ELECTION CARD

To The Electors:—

Ladies and Gentlemen.—In answer to the request of a great number of electors, I have consented to be a candidate at the election to take place on the 10th day of August, 1925. I have needed the honor because I feel that our growing county should be represented at Fredericton by men of experience.

I am proud to have been born of an honest and modest family. I have lived in many homes since the death of my parents. I have always taught that work and probity are the surest ways to success.

After I returned to my native town, Dalhousie, in September 1881, from New Richmond, P. Q. where I spent two of the happy years of my life, and when I managed a large business and won the esteem and respect of all classes and creeds, I was elected to represent my native county in the Legislative Assembly of New Brunswick.

During the twenty five years I handled the partnership, the County of Restigouche passed through a period of harmony, progress and prosperity, unexampled in its history.

The evidences of respect and esteem you have given me in the past leads me to believe that you have not been in different to my work.

Great questions confront the people of our province and county, and my only ambition is to be useful to the electors.

Having served the province faithfully, having brought to the discharge of the different functions which were confided to me much devotedness, a great industry and successful administration with the

county, which will be seen in every section of the county, I feel that I must try to be a representative of the county as to the advisability of giving me the opportunity to finish my work.

My successful administration of the Agricultural Department is a guarantee to the farmers. I am a true friend of the labouring classes. My past connections with Hospitals, Deaf and Dumb Institutions, Schools, Farmer's Institutes, etc. assures my co-operation on all questions in which men or women take interest in the uplifting of humanity. I will put God and Country above party interest.

In all New Brunswick, my election would be hailed with delight and it would bring glory on the County, showing that the electors of the County of Restigouche, are influenced by sound principles of justice.

Running the election as an independent candidate at this stage, my object is to be the mouth piece in Parliament of the people who want economy in the administration of provincial affairs, so that the burden of taxes may be diminished, rather than increased.

Justice to all classes and creeds. Justice for every citizen whether liberal or conservative. Full justice for the labouring men, who keep the wheels of industry turning.

Time is short to visit all parts of the County, but I ask one and all to do their share in bringing about my election.

GEO. G. McKENZIE C. LTD.

### CARD OF THANKS

Mr. and Mrs. Scott Hamilton wish to thank their friends and neighbors for kindness and sympathy in their recent sad bereavement.

### ENTHUSIASTIC MEETING

The liberal candidates are everywhere meeting with enthusiastic receptions in their meetings throughout the county.

### MUCH RAIN

Continued rainy weather is making it extremely hard for the farmers to make their hay. Reports say that not much has been cut yet, the farmers waiting for a change of weather condition.

### POLITICS, NOT PICTURES

The Opera House will not show a picture program as usual on Friday and Saturday evenings but will be devoted instead to political meetings. The meeting on Friday evening will be in the interests of Hon. C. H. LaBelle, Independent Candidate, while that on Saturday evening will be an Opposition Party Meeting at which the chief speaker is expected to be the Hon. Col. J. B. M. Baxter, leader of the Opposition.

However pictures will have their place as usual on Saturday afternoon when the regular matinee will be given. Tom Mix in "The Deadwood Coach" will be the feature picture at this show and in order to avoid as much disappointment as possible to the many Mix fans this photoplay will be held over and shown again at both shows on Monday evening next.

"The Enemy Sex" with Betty Compson which had been advertised for Monday and Tuesday next will now be shown on Tuesday evening only except that in the possible event of another political meeting cropping up for Tuesday evening this picture will have to be postponed until Wednesday for showing. Further and definite announcements will be made at the Opera House.

### RIFLE PRACTICE

The accommodation at the Tide Head Ranges is proving inadequate for the North Shore Military Rifle Association. A large number took in the shoot on Wednesday afternoon and the last squads at 600 yards were compelled to fire in a fading light making clear definition of the targets difficult. Sunshine and lowering clouds combined with a fish tail wind made the problem difficult for the marksmen. However some good scores were put on and as a whole creditable progress has been made since the opening of the shooting season. The New Brunswick prize-meeting at Sussex opens on Tuesday, August 4th, and the Ranges will be represented by the following—Messrs. English, C. Goss, J. Jardine, W. W. MacNairn, E. V. Forbes, Dr. Ellis, P. W. Hamilton, H. Olsen, N. C. McKay, Roy Campbell, A. Jamieson, and Cadets McNairn and Matheson.

## Premier Veniot's Manifesto

PREMIER VENIOT'S MANIFESTO TO THE ELECTORS OF THE PROVINCE OF NEW BRUNSWICK: Ladies and Gentlemen:

The Legislature of the province has now completed the full term for which your representatives were elected in October, 1920. On the advice of the Executive Council, His Honor the Lieutenant Governor has dissolved the House of Assembly, and writs have been issued for an election. Nomination of Candidates will take place on Monday, August 3, and election on Monday, August 10.

When the government appealed to the country in 1920 it did so under the leadership of Hon. W. E. Foster, who continued to direct the affairs of the province until 1923, when, for business reasons, he felt compelled to ask his supporters to relieve him from the burdens and responsibilities attached to the premiership. In January, 1923, the mantle of the premiership was placed upon my shoulders and since that date I have endeavored to carry on the duties of that important and responsible office in such a way as to serve the best interests of the people. The record of the present government, first under Hon. W. E. Foster and most under your humble servant, has been such that I am confident every one of my friends and supporters can look back with pride to the work accomplished since 1917.

Assuming control of the administration in the middle of a parliamentary term, it was but reasonable to expect that I would not forth every effort to carry out the very progressive policies inaugurated by my predecessor. This, I have tried to do, and with the very loyal support of members of the Executive and of the Legislature, I hope I have succeeded in living up to expectations, not only in honestly carrying out the policies inaugurated by my predecessor, but by the introduction of new policies for the benefit of our people, which are being vigorously carried out.

I feel that I should as briefly as possible refer to the work of the government since 1917, when the party, led by Hon. Mr. Foster, succeeded in rescuing this province from the grasp of a set of politicians whose conduct of our public affairs disgraced the fair name of good old New Brunswick.

### Good Name Restored

The present government assumed the reins of power in 1917 under the leadership of Hon. Mr. Foster. While untired in the arena of politics, his followers had every faith in his business tact, his honesty of purpose and his determination to give to the province clean and honest government. That our confidence in him was not misplaced is quite evident when one looks back over the achievements of the government during his leadership. Not a shadow of wrong-doing has ever appeared on his political horizon. The good name of the province has been restored. It is inspired credit in the money markets of the world, brought about by the scandalous administration which he succeeded in defeating, no longer exists, and as early as 1919 our credit began to improve, thus being continued from year to year until today the credit of the province of New Brunswick is as high if not higher than that of any other province in Canada.

On assuming office in 1917 it was found that a complete reorganization of the various departments was necessary, but this was evident in none more so than in the Department of Finance. A new system of audit was set up, and it was found that it could be possible at all times to know just where we stood in the matter of revenue and expenditures, and that accounts properly belonging to the province were being collected. It is impossible to say how many years under the former government, under which the system they were devising for the province was in a state of confusion, when in reality deficits should have been shown. In this way the financing of the affairs of the province were put on a sound basis. It should be a source of pride to friends of the government in particular, and to the public in general, to know that the system of handling our finances has been copied by many other provinces. Only recently, during the election in Nova Scotia, the Conservative party there severely criticized the Liberal government because they refused to adopt the same audit system as we have in this province.

### A Legacy of Debt

The condition of the present government at the end of the administration for which they were elected, was an undue and unbalanced increase in the provincial debt. If they would have carried on the policy of the government of 1917, the debt would have been reduced to the level of 1917, and the province would have been in a position to meet its obligations without the need of borrowing. The present government, however, has increased the debt to the level of 1925, and the province is now in a position to meet its obligations without the need of borrowing. The present government, however, has increased the debt to the level of 1925, and the province is now in a position to meet its obligations without the need of borrowing.

money due on permanent bridges, and still under contract, to the amount of \$850,000. This also had to be provided for by a bond issue under our regime. The independent audit further revealed an indebtedness of more than a half million dollars in connection with the contracts let for the construction of the Westfield section of the Valley Railway. The full contract price had been passed over to the present government without any provision made to meet such an indebtedness. We have floated bonds to meet the indebtedness already due, and the balance for the contracts under way to the amount of \$1,702,000. Here in our first year of administration we were faced with a debt of \$2,552,000, which, their books showed. Therefore when they say we increased the public debt by figures which they place before the people in order to hide their losses, we have to meet a debt of \$2,552,000, which we had to meet at the end of our first year in office. Here in our first year of administration we were faced with a debt of \$2,552,000, which we had to meet at the end of our first year in office.

### The Debt and Why

The present government increased the bonded debt of the province by a little over \$13,000,000. Of this increase there will be found \$3,221,000 for development of the Musquash water power and about three millions and a quarter for improvement of secondary trunk, branch and by-road, chargeable to Auto Fund. The sinking fund and interest on both these amounts are being met annually out of revenues from sale of energy at Musquash and from auto fees without there being one cent charged against the ordinary revenues of the province. The balance of our share of the increase of the debt was for federal-aided roads, permanent bridges, etc. The interest and sinking fund for these latter are being met out of the ordinary revenues. While the other hand, the present government has increased the debt of the province by a little over \$13,000,000. Of this increase there will be found \$3,221,000 for development of the Musquash water power and about three millions and a quarter for improvement of secondary trunk, branch and by-road, chargeable to Auto Fund. The sinking fund and interest on both these amounts are being met annually out of revenues from sale of energy at Musquash and from auto fees without there being one cent charged against the ordinary revenues of the province.

The net bonded debt of the province at the end of the last year was \$29,960,000 and not \$35,000,000. During our regime we reduced the bonded debt by \$1,500,637. We have now in sinking the liability for the payment of bonds at maturity \$1,727,186. There will be added to the sinking fund this year over a half million dollars from Musquash, Auto Fees and Ontario Revenue.

In submitting such an excellent record of our financial condition, we have every reason to expect the approval of the electors, especially when they compare such an achievement with the unbusiness-like way in which such matters were handled by the old government, and especially when they further consider that we have made a complete sinking fund provision to meet all our bonds at maturity.

### Agriculture

The agricultural policy of the government has been carried on in the best interest of all classes of our farming population. The establishment of central creameries under government supervision and financial assistance has aided in creating a greater interest in the dairy industry, and we hope to see this branch of agriculture once more take an important place in the markets of the world. With the view of providing greater and better markets, at home as well as abroad, for our farm products, we have lately adopted the policy of guaranteeing bonds to a certain amount to encourage establishment of the pork packing industry in the province, and thus encourage the greater production of hogs. Norway has made a decided success of this branch of agriculture and I cannot see why New Brunswick could not do as well.

The policy of the government to provide crushed lime to the farmers at as low a price as possible has produced good results. This policy will be continued. The establishment of a central agricultural school, where the sons and daughters of our farmers may receive a practical education in the various branches of agriculture, is a source of pride to the government, and we hope to see this branch of agriculture once more take an important place in the markets of the world.

under the present administration and hope to be able to give still further financial aid for the establishment of central creameries etc.

### Good Roads

The policy of road improvement inaugurated in 1917 has been carried on with marked success. It must be a source of pride to our people to learn from the large number of strangers annually visiting our province that New Brunswick can boast of having the best gravel highways on the continent of America. Having been at the head of the department which carried out this policy I feel that I have reason to feel a legitimate pride in knowing that we have obtained such marked success. The good roads policy will be continued.

Since 1917 we have constructed up to the highest standard of gravel roads some 1,500 miles of main trunk roads, about 1,000 miles of secondary trunk and about 5,000 miles of branch and by-roads. No other province in Canada can equal the mileage constructed and improved so far as our branch and by-roads are concerned. We have carried on all this work at a cost of 15 to 25 per cent cheaper than the same class of work done in other provinces. Within the next two years the full mileage of our main trunk lines will be completed, and we will then be able to concentrate every effort to the reconstruction of our branch and by-roads.

During the election campaign in Nova Scotia the Conservative Opposition pointed to the excellent work being done on New Brunswick roads and promised the people if elected they would follow the policy of the New Brunswick government, for as pointed out, all this expensive work was carried out without imposing one dollar of extra taxation upon the rural districts.

### Education

Acting on the principle that a good sane educational system is necessary to the advancement of a people and the certain progress of a country, the Government has been extremely successful in carrying out a policy which would not only improve the quality of the education of our children, but also provide for the needs of our young men and women before they leave this province. It is unfortunate that such a policy was not adopted years ago, but in the short time it has been in operation the results have been such as to prove conclusively that the Government has been successful in carrying out a policy which would not only improve the quality of the education of our children, but also provide for the needs of our young men and women before they leave this province.

### Free School Books

In 1923 the Government announced that as soon as the finances of the Province would permit, free books to at least a limited extent, would be provided for the children attending our public schools. In 1925 we had reached the point where we felt justified in putting this policy into effect. Beginning with the school year July 1, 1925, free books will be furnished to all children attending our public schools up to and including Grade V, with the exception of the text book on arithmetic. This is another evidence of the progressive policy of the present administration.

### Power Development

In 1920, in appealing to the people for a renewal of their confidence, Hon. W. E. Foster, then Premier, and the father of the scheme for the development of our water powers, asked for their approval of the scheme of developing the water powers of the Province, specifying in special manner the Musquash and the Grand Falls. Since that date Musquash has been completed, and notwithstanding unfair criticisms of our opponents, this undertaking has proved to be a success, as can be verified by the people all along the line from Musquash to Moncton. The demands for energy from the source have been so great that we have had to sell the surplus power at a price which is a source of pride to the government, and we hope to see this branch of agriculture once more take an important place in the markets of the world.

Following along the lines of the policy approved by the people in 1920, the Government has been successful in carrying out a policy which would not only improve the quality of the education of our children, but also provide for the needs of our young men and women before they leave this province. It is unfortunate that such a policy was not adopted years ago, but in the short time it has been in operation the results have been such as to prove conclusively that the Government has been successful in carrying out a policy which would not only improve the quality of the education of our children, but also provide for the needs of our young men and women before they leave this province.

called for tenders. It is our intention to push this work to completion at the earliest possible date so that our people may be able to take advantage of this natural resource, and at the same time open the doors for the introduction of new industries, thus opening new markets at home for the products of the farm, the sea and the forest. A thorough survey of the province has enabled the Government to assure the people that new industries will be established and old ones extended. In this way we are assured of a ready market for all the energy that can be developed.

Grand Falls, as well as all other water powers in this province, will be developed as occasion demands for the people and in the interest of the people. No private corporations will be permitted to lay a finger on our water power resources so long as I have the honor of remaining Premier of New Brunswick.

### Public Health

It is a recognized fact all over Canada that New Brunswick occupies the premier position in its policy for the protection of public health. For very numerous benefits accruing to our people by the adoption in 1920 of a sane health policy cannot be valued in dollars and cents. The criticism leveled against this policy in the early days of its operation have gradually disappeared, and in nearly every county of the province praise instead of condemnation is heard. The people have had such striking examples of the good that can be accomplished by proper administration of a sane health policy that any alleged hardships in the early days of the operation have been forgotten. The great attention given to child welfare through the medical inspection of schools with the contingent splendid results have opened the eyes of the people to the absolute necessity of such work being continued. The success which followed the steps taken to eradicate the frequently occurring epidemic of smallpox, typhoid fever, etc., have been so remarkable that there is no longer anxiety in the minds of the people any fear from this source.

The government will continue to operate this department in the very best interest of the people, and I feel convinced that no matter what government may, in the future have charge of the province they would not dare neglect the carrying out of the policy of public health.

### Compensation Act

The Workmen's Compensation Law has resulted in much good to the laboring classes, and rightly so. It has also been a source of benefit to the employers of labor, because it has completely destroyed the old system of litigation in claims for compensation. While the workmen, through their organizations, have requested certain amendments to the law, which would have increased the compensation for injury or death by accident, the government has felt constrained not to give favorable consideration to such demands, especially in view of the depressed condition of industry in general. The determination of the government is to do all within reason for the adequate protection of the employee consistent with the ability of industry to sustain the burden of such a law, which it is now confronted by reason of the very great depression which today is common to the whole of Canada.

### The Crown Lands

The administration of our Crown Lands, the greatest revenue producing asset which our province possesses, has received the very closest attention and study. I am proud to be able to point to the fact that our policy of forest protection has been very highly commended by experts from other provinces, and in many instances has been adopted by other provinces. Forest conservation will be carried on with every care as we fully recognize the value of this great asset.

I fully appreciate the very great depression that has struck our lumber industry, and the difficulties under which our lumbermen are working in order to keep the wheels of industry turning, and I am desirous of doing everything within in reason and fairness to all concerned to assist in lessening the burdens of an industry in which the Government is so deeply interested. With this object in view we have lately granted a considerable reduction in the stumpage rates in the hope of improving conditions of the lumber industry and at the same time relief to the man who works in the woods and the mills such a wage as could not be given had the Government maintained the rate of stumpage in force last year.

While it is true we have not been able to grant all the requests of those engaged in the lumber industry, we feel that we have granted sufficient to warrant them in carrying on operations the coming winter. Should the market conditions not improve, then I would feel justified in giving serious consideration to the further requests that may be made.

### Prohibition

Notwithstanding the severe criticism against the Government for the alleged non-enforcement of the prohibition law, I feel that we are not deserting the cause hurriedly against the sale of liquor to the local vendors. We adopted this system on the recommendation of Chief Inspector Wilson, backed up by a memorial from the Temperance Alliance. Why are we now for doing that which we recommended?

## The Women Voters Know How to Size Up Election Questions

MOTHERS, WIVES, DAUGHTERS, and that large and important army of women engaged in the commercial and professional fields. They help carry the home burden of expense, they enter into the pay-day plans of every household in New Brunswick.

### THESE MATTERS APPEAL TO THEIR SENSE OF APPRECIATION AND FAIR PLAY:

**THEY KNOW** that the Government has accomplished wonders in its nine years usefulness.

**THEY KNOW** how the Household Electric Bills have been cut down since Hydro came in.

**THEY KNOW** how they have been enjoying the Good Roads throughout the province.

**THEY KNOW** what the Department of Health is doing for all classes of citizens.

**THEY KNOW** that Infant Mortality has been reduced more than 400 deaths per year.

**THEY KNOW** that 1200 Lives Have Been Saved each year by Health regulations.

**THEY KNOW** that Technical Education is the hope of many a New Brunswick family.

**THEY KNOW** the Workmen's Compensation Act gives over half pay up to \$1500 earners.

**THEY KNOW** the Government will next term Give Free School Books up to Grade Five.

**THEY KNOW** the Government is Not Slow, or Afraid to improve living conditions.

### THE OPPOSITION PARTY HAS NO SUCH RECORD—MERELY SCANDAL AND PROMISES

## Vote for the Government!

connection with this law.

To prevent the illegal traffic in liquor in this province is beyond the powers of the provincial government, so long as the Federal Government cannot prevent smuggling and illicit manufacture of liquors. Our serious effort to the seizure of smuggled liquors, if the violations were confined to vendors who purchased their liquors from the Commission then the task would not be impossible. This is far from being the case.

When I consider all sides of the case, I feel that I can honestly say that I have made an honest effort to enforce the law. If it is a fact that there is less liquor sold today by the Commission than was sold in 1919 and 1920, and this fact cannot be contradicted, then there is some justification for my saying that I did make an honest effort to carry into effect my third promise.

### Provincial Rights

In summing up permit me to say that the government, when returned to power, will bend every effort, as in the past, to inaugurate such measures as will be in the best interest of the people as a whole.

We will give the best possible assistance to agriculture, keeping aloof from the mind that it is our basic industry.

We will jealously guard our provincial rights and seek by every means in our power to obtain better transportation facilities for our ports and along our lines of railway, so as to have all imports and exports directed through Canadian channels. The obtaining of the most equitable freight rates for the Maritime Provinces will receive our hearty co-operation.

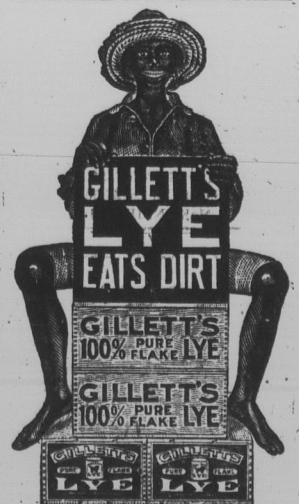

We will carry on a vigorous hydro-electric development policy, so as to open new avenues for industrial activity and thus encourage our people to remain at home and help build up a greater and a better New Brunswick.

We will jealously safeguard our natural resources and formulate policies that will bring about a greater development of our mineral deposits in coal, gypsum, iron, etc.

We will carry on a vigorous policy of protection to our forests, and in every way endeavor to co-operate with those who have so largely invested their capital in the development of our forest wealth, so as to help as far as possible to meet existing conditions. I feel that to properly safeguard the investments in the lumber industry should be the duty of any government, because this is the only way during periods of depression that we can ensure the maintenance of our most important branch of our industrial life.

We will give greater encouragement to education, not only in our common and vocational schools, but along lines of advanced agricultural science, so that our growing generation will have equal opportunities with the youth of any other province to prepare for the battles of life.

We will safeguard, as far as prudent legislation can do so, the interests of the laboring man and the employees of the Commission system of handling the sale of liquor to the local vendors. We adopted this system on the recommendation of Chief Inspector Wilson, backed up by a memorial from the Temperance Alliance. Why are we now for doing that which we recommended?

## PATRIOTIC POTATO SCANDAL WORST IN HISTORY OF N.B.

How Hon. J. M. Baxter Assisted in Keeping the Public in the Dark in Regard to the Transaction—Loss on Shipment to Cuba Was \$32,861—Where Did the Money Go?

Opposition Leader Baxter and his ally examined the accounts and political co-workers naturally object to the Liberals delving into the past and making reference in their public addresses to the numerous scandals which disgraced the province during the Conservative regime. The mere mention of "patriotic potatoes" has about the same effect on the average Tory politician as the sight of a red rag has upon a mad bull of the domestic type. Nevertheless in the approaching election the Liberals, who have given the province sound and progressive government, have no intention of allowing their opponents to run away from their misdeeds. While the Hon. J. A. Murray made the goat in connection with the patriotic potato transaction and deposited from the leadership, the party as a whole cannot escape responsibility for it.

Leader Baxter had all the facts in his possession years before the exposure of the fraud by a Royal Commission, and assisted in keeping the public in the dark by advancing \$3,000 to Mr. J. B. Daggett to be handed over to a potato dealer in Cuba who had been stung and had threatened to squeal. Members of the rank and file of the party in the Legislature were familiar with the facts, and their best to conceal them, while some of them at least were guilty of a bare faced attempt to deceive the public.

**A Bogus Account**  
It will be recalled that there was a shortage on the patriotic potato transaction of \$32,861 and Mr. Daggett, acting under orders from his chief, against A. C. Smith & Co., of St. John covering this shortage. The account was presented to the firm in due course and they were prevailed upon to sign a draft for the amount which draft was endorsed by Mr. William Cruikshank, then Deputy and Treasurer, discounted at the bank and the proceeds entered upon the books of the province as the cooked up account for which the books of the province had been held open for nearly two months after the fiscal year had closed was submitted to the Auditor General and eventually found its way before the Public Accounts committee of the Legislature.

The committee after a superficial examination of the account and the deliberation handed out the of an innocent public.

**Fine Piece of Camouflage**  
"Our attention was called to some insinuating criticisms which appeared in the press regarding transactions in connection with the gift of potatoes to the empire and the Belgian relief."

"At our request Mr. Daggett, Secretary of the Department of Agriculture, and the Auditor General appeared before us and explained to our satisfaction every transaction in connection with this business."

"All bills and vouchers pertaining to this very important transaction were produced and examined minutely."

"Our finding is that the matter was transacted in a PRUDENT AND SENSIBLE MANNER, having in view the safeguarding of the interests of the province."

The above amazing document was signed by W. L. Alain, George B. Jones, H. W. Woods, A. Culligan, G. Lavett White and last but not least James K. Pinder.

The People Paid It  
At the very time that these great statements were uttered in connection with the account, speculation for the occasion by Mr. Daggett, the late Mr. F. W. Sumner, then Minister of Agriculture, from the late Mr. F. W. Sumner, then Minister of Agriculture, to cover up the shortage, had been paid. It was not paid after the close of the session, but in the contract for the lower section of the Valley Railway was let to the Nova Scotia Construction Company. That concern, it will be remembered, turned over the sum of \$100,000 to W. B. Tennant of St. John as "advance profits" and Mr. Tennant in turn handed over \$61,500 as per arrangement to Mr. Geo. B. Jones (one of the men who had min-

### SECOND SIGHT

A burly market woman was accused for her in the face with a fish. Defending counsel said to the prosecuting witness:

"I was, but when she struck me of assaulting another woman by striking with the fish the scales fell from my eyes."

**Imagined the Worst**  
"Why did the Browns separate?"  
"Nobody knows."  
"How dreadful!"

### Here and There

During July thousands of osteopaths and members of allied professions gathered in Toronto from all parts of the United States and Canada to attend the International Convention of Osteopaths. Several of the visitors toured the country in the interests of osteopathy.

Final figures showing the total five lobster catch on the Nova Scotia coasts, for the season ending June 1st, show a total of 8,585,900 lbs. valued at \$1,364,141, an increase over the 1924 season of 3,687,400 lbs. in quantity and approximately half a million dollars in value.

During his tour of Western Canada, the Canadian Pacific lines, Mr. J. B. Daggett was received by cheering and waving crowds. At towns in northern Canada and elsewhere he was met by local executive men, many of whom he recognized.

During his visit to the Pacific coast, His Excellency Lord Dufferin, Governor-General of Canada, as he is called, before leaving for West 12, Excellency stayed off for a few days at Banff to meet Earl Dufferin, and the two famous soldiers spent some time together talking over old times.

Considerable interest has been aroused in London, England, over the arrival there of 8,000 peony blooms for exhibition in the Canadian Pacific pavilion at Wembley. The peonies were grown by W. Ormiston Roy of Montreal, and have been sent to England to dispel the belief that Canada's climate is excessively cold.

A delegation of prominent newspaper reporters and journalists from Great Britain passed through Canada on their way to the Peace Conference at Geneva, Switzerland, during September. Besides the delegates from the British Isles, representatives of Canada and the other Dominions have been invited and will attend the conference.

Two automobile accidents occurred in Montreal over the week-end at railway crossings, in both of which it was proven that the car struck the train. In the first accident the car ran into the first car behind the engine and in the second struck the side of the engine itself. Public attention has been directed to these accidents as illustrative of the results of negligent driving.

Early in July a party of one hundred French-Canadians associated with the University of Montreal departed from Windsor station on a three-weeks educational tour of the country under the auspices of the University. Mayor Duquette of Montreal, Monsignor A. W. J. Pette, rector of the University and Professor E. M. Smith one of his associates accompanied the party. They were seen off at the station by E. W. Beatty, K.C., chairman and president of the Canadian Pacific Railway and other officials.

A similar excursion to the above left Toronto, July 20th, for the benefit of English speaking school-teachers. This tour, also lasting three weeks and covering all principal points of the Dominion was conducted by Dean Sinclair Laird of MacDonald College under the auspices of the Teachers' Federation of Canada.

## "GUTTA PERCHA" BALLOON PRESSURE TIRES

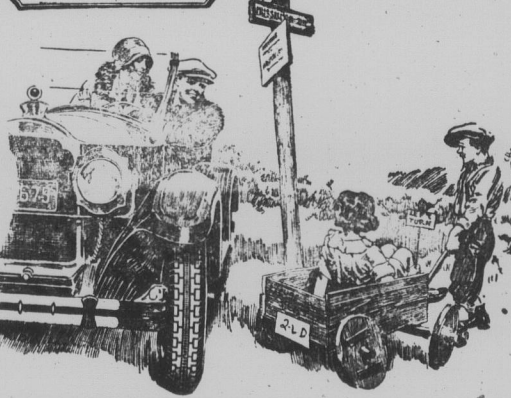

Show the way —from the first day on

Geography, maybe, hasn't much to do with genius, but geography has a great deal to do with ideas. "Made in Canada" means infinitely more than three little words. When we add to this fact: "Forty years of unrivalled experience in the manufacture of the finest rubber products," we then conceive many reasons why "Gutta Percha" Balloon Tires possess that wear-resisting, comfort-giving quality that is the pride of every car owner who has discovered that Canada makes the finest of tires. And because Canadian Tire Engineers have also put more research and practical tire-making advancement, behind and into this tire, than has hitherto been thought possible. You will discover it for yourself—from the first day on.

Gutta Percha & Rubber, Limited  
Head Office and Factories, TORONTO  
Branches from Coast to Coast

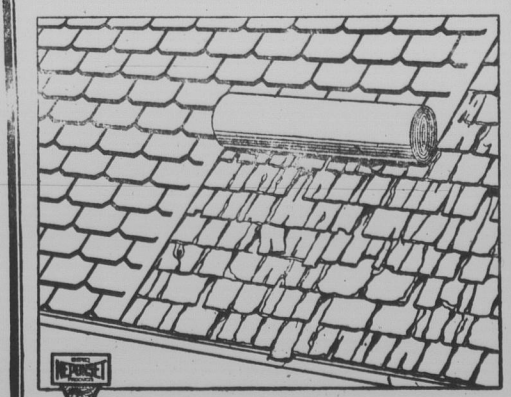

Here is a new type of tire —The "Gutta Percha" Medium Pressure. This new G.P. roadmaster-piece has the easy riding qualities of the balloon tire, with the easy steering of the high pressure type.

## The Fight For Hydro Power

If the people of New Brunswick are awake to the real facts in the fight which the Veniot Government is waging to give them the full benefits of hydro power, then there is not one seat in the Province which will not send it a supporter.

It was the Liberal Government which first undertook hydro development and its plant at Musquash reduced the cost of electricity for domestic purposes from twelve cents which were paid under private control to less than four cents, with a greater relative cost for industrial purposes.

The Liberal Government was the first Government to refuse to continue the giving of a lease to private interests at Grand Falls, but in the face of great opposition claimed the power in the interests of the public and is now going forward with the enterprise.

Just how bitter and sinister have been the opposition which the Government has had to overcome is not fully known. A campaign was begun by the private interests to show that the development would not pay. This, time has definitely disproved. It was claimed that the cost to the people would not be less than under private ownership. The people know better now, for even the private concern in St. John has been forced to go from twelve cents to lower than four cents. It was claimed that Musquash would not furnish sufficient power, but last year with the driest summer and winter in fifty years, the power did not fail. When these measures failed then darker methods were adopted. Interruptions to the service occurred which were traced quite definitely to vandal hands.

In the Grand Falls development the same history is to be told. The private interests who sought to retain their hold have adopted all kinds of measures in order to regain their hold, and their one supreme chance is the defeat of the Veniot Government.

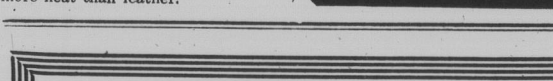

Where do the people stand? With the Government who are fighting for the people's rights or with the Opposition and the private interests?

Mark the point well!! Neither Leader Baxter nor one solitary candidate in his party has declared that the Grand Falls power shall not be controlled by private interests. On the other hand, Veniot and every one of his candidates stand pledged for Government control, which means so much to certain parts of the province.

Do the people of Restigouche desire cheap hydro power for the establishment of pulp and paper and other mills. If they do, then let Restigouche send two supporters of the Veniot Government to Fredericton.

VOTE for Currie and Legere.

Washington.—Although most people insist their feet grow hotter in warm weather when they wear shoes with composition soles, tests by the Bureau of Standards indicate the composite material does not conduct any more heat than leather.

## PRESBYTERY OF MIRAMICHI

First Meeting of United Church Organization Held at Newcastle Last Week

The first meeting of the Presbytery of Miramichi in connection with The United Church of Canada was held at the call of the General Council in St. James Hall, Newcastle, on Tuesday, July 21. There was a large attendance of both ministers and laymen inclusive of the congregations of the former Methodists and Presbyterians. A splendid spirit prevailed throughout the sessions, and the new sense of the larger brotherhood made possible through The United Church found frequent expression in the course of the day's proceedings.

Rev. Neil MacLauchlan, of Bath-

urst, was the unanimous choice for the chairmanship of the Presbytery, while Rev. A. D. Arohild of Bathurst was elected secretary. Mr. MacLauchlan conducted the opening service of worship. The time honored hymn of praise, "O God of Bethel," the scripture lesson from Isaiah's vision, and the earnest prayers of the brethren strengthened the spirit of consecration in which men took up their new and promising task in this day of great things.

The Presbytery felt it necessary to start at beginnings and feel its way step by step. First came the making of the roll of Presbyteries. The names of all ministers on the rolls of the former Presbytery and District were read and inscribed on the new roll, with one exception, that of Rev. A. Craise of Bass River who had by letter intimated his decision to withdraw from The United Church of Canada. Then the appointees to Presbytery of Sessions and Official Boards were enrolled, and where any vacancy existed the Secretary was authorized to complete the roll, names to be forwarded not less than ten days before the Maritime Conference which is called to meet in Sackville Sept. 1.

Rev. G. M. Young on behalf of the Chatham Methodist District presented the report of matters which naturally came from that body to the care of the Presbytery, while Rev. T. Harrison did the same thing for the former Presbytery of Miramichi. The Home Mission charges and their interests were considered and provision made as required for their maintenance, including Cape Oze, Derby, Buctouche Harcourt, Matapedia, Miscou and Shippegan. Rev. F. W. Thompson gave a report of the New Carlisle School Home.

A recommendation was made to the Maritime Conference proposing a rearrangement of the boundaries of the presbyteries in New Brunswick, and a committee consisting of Rev. G. M. Young, J. H. A. Anderson, W. W. Mc Nairn, L. H. MacLean and W. S. Godfrey, was appointed to make a geographical and numerical survey of the congregations as a basis for deter-

## OFFICERS OF N. B. TOURIST ASSO.

Meeting at St. John Last Week Well Attended—County Representatives.

The New Brunswick and Resources Association which met in annual meeting at St. John last week appointed the following officers:

President, Howard P. Robinson; Secretary-treasurer, C. B. Allan; Auditor, H. W. Rising, all of St. John; Executive, J. G. Harrison, W. C. Allison, F. B. Ellis, W. H. Golding, W. E. Ans, J. W. Scott, M. L. A., St. Stephen; York, T. V. Monahan, Fredericton; Matapedia, T. V. Monahan, Fredericton; R. K. Tracey, M. L. A., Bathurst; Victoria, H. Ozilky, Oxbow; Maitavaska, Max. Cornior, Mayor of Edmundston.

### County Vice-Presidents

The vice-presidents for each county who also are members of the executive, follow: Gloucester, George Gilbert, Bathurst; Restigouche, Hon. C. R. Lacroix, Dalhousie, Northumberland, David Ritchie, Newcastle; Kent, Hon. A. A. Dysart, Buctouche; Sunbury, Hon. D. W. Mesereau, Fredericton Junction; Westmorland, C. C. Avar, Sackville; Albert, F. M. Thompson, Hillsboro; Saint John, G. Bruce Burpee, Saint John; Kings, W.

During the interim between sessions the former Presbytery of Miramichi met to finish its business and among other items nominated Rev. W. A. MacQuarrie of Rexton for the chair of New Testament in Knox College Toronto.

The Presbytery adjourned to meet in Sackville during Conference, was closed with the benediction.

Sometime! Why not this time?

# Let Us Be Honest With Ourselves!

What Has the Government Done to Warrant the People's Support?

## READ THESE LITTLE PARAGRAPHS:

**THE BOON OF HYDRO.**—By harnessing the water powers at Musquash civic and rural districts are enjoying the bounty of the Government in vastly lessened costs of illumination and power electricity. Every user knows this to be true.

**THE GRAND FALLS PROJECT.**—Musquash Hydro has proven its worth beyond question, now comes the great energy scheme of employing Grand Falls to vitalize the whole province so that New Brunswick can become a great manufacturing centre.

**UNSURPASSED ROADWAYS.**—Equal to the splendid roads of United States and taking the motorist and farmer into every nook of the province with facility and speed. A priceless asset given by the present Government.

**THE HEALTH DEPARTMENT.**—Has saved 1200 lives yearly by eye-timated regulations. Contagious diseases cut in half, some entirely wiped out. Protecting the whole family from babyhood to old age. The work of this Government.

**HALF MILLION FOR SCHOOLS.**—Over \$447,000 spent yearly in grants to teachers, assistants for advance training, upkeep in Normal School classes and University grants. A vigorous forward Government policy.

**LUMBERING ACTIVITIES.**—Vigilant policy of protecting forest wealth against fire; improved system of scaling lumber results in Large Increase in Revenue. Stumpage money increased from half million in 1916 to over One Million to-day.

**NO DIRECT TAXATION.**—From One Million and a Half dollars in 1916 to Three and Three-quarter Millions in 1924 the Government has increased provincial revenue without imposing one penny of direct tax on the people, in the face of greater outlay.

**FOSTERING A NEW INDUSTRY.**—By guaranteeing bonds for Big Pork Packing Plant the Government expects to create a lively Market for Hogs, thus encouraging a new enterprise for New Brunswick farmers right away.

**FREE SCHOOL BOOKS NEXT TERM.**—If the Government is returned after this election it will begin the Fall school term by distributing \$34,000 Worth of Free School Books to the children of New Brunswick—another new idea.

**PUBLIC DEBT REDUCTION.**—By Ample Sinking Funds the Government is laying away against the public debt 4.69% of this revenue whilst the Conservatives never saved more than 1.29%. This in the face of vastly greater expenditures.

**PROVINCE HAS GOOD NAME.**—Only four weeks ago 20-year bonds of New Brunswick sold at 94% interest at 99.66% or Almost Par. No province in the length and breadth of Canada shows a better standing if as good, as New Brunswick.

**TRAINING OUR CHILDREN.**—Vocational training for our boys and girls in Seven Modern Buildings, which will cost \$750,000, will entail 1800 day pupils and 4000 in the evenings. Already 6058 have received technical training since 1917.

**PROTECTING WORKING PEOPLE.**—The Workmen's Compensation Act or Government Insurance gives 55% of full time wages to every man or woman injured while at work. This Government measure has been a Godsend since January 1st, 1919.

**HELPING THE FARMER.**—With lessened cost of Fertilizer, Free Seed Tests, Experimental farms, Dairy Schools of instruction, improving Live Stock and continuous solicitation for the needs and problems of farm workers.

**PROHIBITION MATTERS.**—The Government stands pledged to change the Prohibition Act if a plebiscite of the electors indicates that choice. Otherwise it stands as recorded. The voice of the people must rule.

And Now---

What Has the Opposition Party to Offer?

What were the Conditions when it was Defeated in 1917?

**SUPPORT THE POLICY OF PROGRESS  
VOTE FOR THE  
GOVERNMENT.**

## PERSONALS

Misses Gabrielle and Madeline Pinault of Mont Joli, P. Q., are spending a few weeks in town, the guests of Mr. John Harquail and family.

Mrs. Andrew Ross of New Carlisle, Que., is visiting in Campbellton, the guest of Mrs. Arden E. Whyte.

Mr. and Mrs. Mark N. Ellsworth of Los Angeles, Cal., and Mr. and Mrs. George Ellsworth of Narrows, Queens Co., have returned home after visiting their sisters, Mrs. E. C. Anderson and Mrs. Charles W. Coes of Richardsville.

The many friends of Mrs. H. B. Anslow who underwent an operation at the Soldiers' Memorial Hospital last week will be pleased to learn that she is doing nicely.

Miss Irene Lomieux is visiting in Memramcook the guest of Miss Estelle and Edmay Leger.

Mr. and Mrs. Kruse, son and daughter of Gaspe Harbor motored to Campbellton, and were visitors here on Tuesday.

J. H. Gillis M. D. of Montreal and family who have been fishing on the Restigouche returned to Montreal on Wednesday.

Many friends of Mrs. J. N. Dennis who has been very ill will be glad to hear that she is now on the road to recovery.

Mrs. J. P. Hall of Boston, Mass., who was called here owing to the illness of her sister Mrs. J. N. Dennis has returned home.

Mrs. Robert Galloway and children of Newcastle are visiting in town the guests of her sister Mrs. Wm. Gifford.

Miss Ina Pichette of Robitaille is visiting in town the guest of her aunt Mrs. Frank McBrearty.

Rev. Geo. M. Young and Mrs. Young of Chatham, spent a few days of this week in town the guests of Mr. and Mrs. Robert Baird.

Mr. and Mrs. J. F. MacKenzie and little son Fraser who have been visiting in town guests of Mr. and Mrs. Wm. Metzler left for their home in Edmundston on Monday.

Rev. and Mrs. George Young were guests Tuesday at the Wesley United Church Ladies Bible Class picnic held at "Camp Alhazen," Tide Head.

Rev. W. S. Godfrey and Mrs. Godfrey and little daughter, Mary Elizabeth, left by automobile on Tuesday morning for Sackville where they will spend the month of August.

Mrs. Wm. Metzler is spending a week at "Camp Alhazen," Tide Head.

Mr. Hubert Dunham of the C. N. R. Freight Office staff, Fredericton, spent his vacation in town with his parents, Mr. and Mrs. E. Dunham.

Misses Vera MacBeath and Grace Calder are visiting friends in Point du Chene.

Miss Ruth McNairn of Providence, R. I., is spending her vacation with her parents, Rev. W. W. and Mrs. McNairn.

Mrs. Thomas Wran was hostess at

Mr. and Mrs. B. Robinson of New Carlisle were in town last week.

Rev. and Mrs. Hugh Miller of St. John are spending their vacation at "Moosebird" cottage, Yvon's Island.

Rev. Mr. Boucher of St. Hyacinthe, Que., is the guest of his parents, Mr. and Mrs. Joseph Boucher.

Mr. and Mrs. Bessie Malcom, Mrs. Thos. Malcom of Montreal, Mrs. Rabin of Edmundston and Mr. Robert Emerson of New York motored to town and were week end guests at the Chateau Restigouche.

Miss Kemper of New Carlisle was in town this week attending the McKenzie-Robinson wedding.

Enthusiastic Meeting

In the Opera House

(Continued from page 1.)

owners, because the fees derived from auto licenses were piling up year after year and would pay the bonds in full upon maturity.

If a debt is wisely incurred for the public service and there is a sinking fund provided for it then it is advisable and it is a course followed by every Government, civic, provincial and federal everywhere. If any Conservative candidate or speaker says that he would not add to the public debt, he is an absolute hypocrite because he would if he saw fit.

The road policy was then discussed at some length by the speaker, who said that those of 15 or 20 years ago would be impossible today and that those built by the present Government had won the commendation of visitors from everywhere and they had cost less than they had in any

other province of the Dominion.

The Workmen's Compensation Act was another subject dealt upon. Many of the larger operators objected to this as it cost them money and of course they did not like added expense. He thought the idea a good one. Every industry should care for its injured workmen and their widows and orphans when killed. The Workmen's Compensation Act was a wise, prudent and statesmanlike Act which he felt sure would be favored by ninety-five percent of the electors.

The administration of Crown Lands was somewhat difficult. Under a former government some friends were dealt leniently with, while others had to pay one hundred per cent.

The present government had remedied this and with competent scalars all were treated alike and collected one hundred per cent stumpage from every operator. The increase in stumpage collections was evident at once. The stumpage had been increased a little at a time until it reached \$5.00. But this did not end the opposition which moved a resolution to make it \$7.00. He was sorry to say that the lumber industry had met with adverse conditions, and to help matters the government had cut the stumpage. He hoped times would soon improve and perhaps the industry could stand an increase to the old rate.

The lumbermen were attempting however, metaphorically speaking, to hold the government up at the point of the pistol for further concessions, but the present Government, he declared vigorously, was prepared to go down to defeat before they would sacrifice the interests of the people to the lumbermen or anyone else. This is the kind of a government you have to-day and you should think well before you make a change.

Senator Robinson then turned to the hydro development issue and Musquash, called "a failure" by the Opposition. He told of the evolution of Musquash and how it had reduced electrical rates in the towns it served. In his own city, Moncton, he said, the rates had been reduced from 11 cents per k. w. h. to 8 cents per k. w. h. It had been called "a failure" because

before it was finished, it had lost \$1,800 in one year. Though yet scarcely completed in the last six months there had been a surplus of \$8,000.

The government was providing a depreciation fund, a sinking fund, and paying the interest, he said, so that in 30 years it would be paid for, and will belong to the citizens of New Brunswick for all time.

He assured the voters that the Grand Falls development would be one of the most satisfactory things this province has ever had. That it must never be allowed to pass into private hands, he particularly stressed, for the future welfare of the province of New Brunswick depended upon the course of action of her government.

Senator Robinson was loudly cheered as he resumed his seat.

The last speaker was J. T. Hebert, who delivered an able and fluent address. He characterized the leaders of the Opposition as "a gang of jobbers that would put the 'Forty Thieves' to shame." Speaking of the Department of Health, he showed conclusive evidence that the Health Act had been doing work that well merited its existence. He showed the advantages of the Workmen's Compensation Board over the old methods, and scorned the charges that the administrative costs were too high, giving figures to show they were moderate.

Regarding prohibition and the charges of non-enforcement, he showed that the prevention of smuggling was a federal matter. The main difficulty to overcome, was, he said, public opinion. "The trouble with too many people in this country," declared Mr. Hebert, amid laughter and applause, "is that they do not vote as they drink! The blame lies with the people themselves!"

## COMEAU & CO.

Forty per cent of our forests are hard wood, and last year 1.8 per cent of the cut was hardwood. To manufacture this hardwood here at tide-water with the woods at our back-door, we need power, he said, and the best possible way is to use the hydro we are being offered. There were enough issues at stake in the election for a vote on either side without bringing in any questions of religion or nationality Mr. Hebert declared, and vigorously appealed to his hearers not to allow even the slightest trace of this sort of feeling to influence the casting of their votes on August 10. The meeting closed with the singing of the National Anthem.

## INDEPENDENCE THROUGH BUSINESS TRAINING

AUGUST 24th the doors swing open for the new Term of the Success Business College. Young men and women will remember that day for giving them a real start that gets them somewhere in the Business World.

The three main courses—Stenographic, Secretarial, and Commercial—fit them thoroughly for facing the World entirely on their own account.

Every assistance provided. More take our training than all others combined because of higher rank colleges with higher rank diplomas. Write for full information.

## SUCCESS BUSINESS COLLEGE, LTD.,

(United with Modern Business College, Saint John)

MONCTON, N. B.

## PUBLIC MEETING

### HON. P. J. VENIOT

Will address a public meeting

IN THE

## Skating Rink, Dalhousie

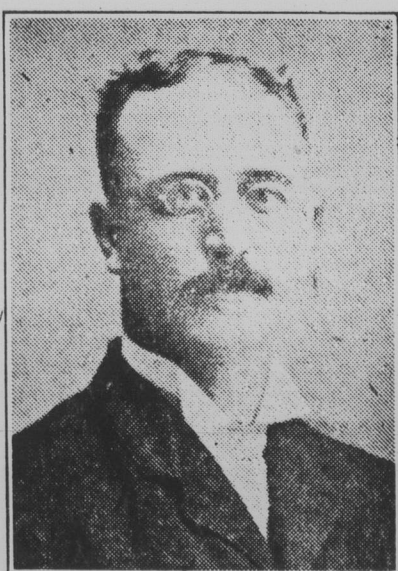

ON

## Saturday Evening, Aug. 1st.

AT 8 O'CLOCK

The Premier will address the meeting upon the issues of the Campaign. The Candidates and others will speak. Every elector is invited to attend.

## Let Veniot Finish His Work!

HON. P. J. VENIOT

HE HAS STARTED:—

### Grand Falls Hydro Development

### Trunk Road from Campbellton to St. Leonards.

Development of Grand Falls means Electric Power for large industries on the Restigouche and these industries mean prosperity for Restigouche.

SEE THAT RESTIGOUCHE HAS TWO SUPPORTERS TO HELP VENIOT FINISH HIS WORK.

## Vote for Currie and Legere

Adv. Inserted by the Restigouche Liberal Committee.
