

NOW THE COUNCIL CONSISTS OF 12 MEMBERS CITY SOLICITOR GIVES HIS WRITTEN OPINION

Hopes of Three Gentlemen Who Were Notified That They Had Been Elected Are Blasted—At Least This Is So for the Time Being, It Is Said at the City Hall.

LAW IS QUOTED TO SHOW THAT CITY STILL HAS ONLY FOUR OLD WARDS

Order of the Railway Board Does Not Affect the Case, Says Mr. Meredith in a Report Made to the Mayor on the Subject.

Today London has but twelve aldermen. Yesterday there were hopes that the number would reach fifteen, but during the past twenty-four hours City Solicitor Meredith has shattered the dream, with an opinion on the subject. Ex-Ald. Jas. Donnelly and Ald. W. G. Coles, who were two of the three declared elected and who took the oath of office, are counted out.

Ald. R. F. Blandford was the third, but he did not bother about the matter, refusing to obey the request of City Clerk Baker to qualify. As a result the three gentlemen must remain off the aldermanic board for this year at least.

Some days ago Mayor Graham asked City Solicitor Meredith to give an opinion on the question, and today it was forwarded to the city hall. In it the solicitor states unequivocally that the council consists of Mayor Graham and the twelve aldermen polling the highest number of votes.

Reading the Law.

After reciting the terms of Mayor Graham's request, Mr. Meredith pointed out that the Ontario railway and municipal board act, 1906, section 53, confers the powers of the Lieutenant-Governor-in-Council upon the municipal board.

"Section 102 of the consolidated municipal act, 1902," he continues, "provides that in case two-thirds of the members of the council of a city do, before July 15, in any year, pass a resolution affirming the expediency of a new division into wards being made of the city, or a part of the same, either within the existing limits, or with the addition of any part of the localities adjacent, etc.,

the Lieutenant-Governor may, by a proclamation, divide the city or such parts thereof, and with or without such additions, into wards as may seem expedient. The powers conferred in this section of dividing into wards are not conferred upon the Ontario Railway and Municipal Board act, by the Ontario Railway and Municipal Board act, 1906.

Only Four Wards.
"I am of opinion, therefore, that notwithstanding the order of the Ontario Railway and Municipal Board, the city has only four wards, and in consequence, that the twelve aldermen who received the highest number of votes are elected, and with yourself as mayor, compose the council of the corporation."

"This opinion seems to be explicit, and it is accepted at the city hall as final. In spite of the fact that there has been much discussion, I have always been of the opinion that the council was composed of but twelve aldermen," explained the mayor. "The opinion of City Solicitor Meredith leaves no room for argument in my mind. We will organize the council on the basis of twelve aldermen, and the committees will be composed of four members, as has been the case for some years."

Clerk in Doubt.

"There has been some doubt in my mind on the question," said City Clerk Baker. "However, the matter is straightened out to the satisfaction of all parties concerned, and I fancy there can be no difference of opinion. The three aldermen standing next in line were notified to take the oath of office, so that they would not be placed at a disadvantage." Ald. Blandford denies emphatically that he took the oath of office. It was stated that he had done so.

"I was satisfied," he stated, "I am not rushing after the position, and did not qualify. I do not know that I would have the council been composed of 15 members, as it was alleged."

ROUMANIA SENDS ULTIMATUM TO BULGARIAN GOVERNMENT

London, Jan. 10. — Roumania practically delivered an ultimatum to Bulgaria today by demanding the cession of Silistria and the territory to the north of a line stretching from there to Kavarna, on the Black Sea, according to a news agency dispatch from Sofia.

Paris, Jan. 10.—Roumania decided today to mobilize her army if she does not obtain within 48 hours satisfaction from Bulgaria in regard to the rectification of her frontier, according to a dispatch from Bucharest to the Temps.

AGED LADY FOUND ALMOST ASPHYXIATED

Mrs. George Craddock, 80 Years Old, Had Been Living Alone.

Mrs. George Craddock, a lady of 80 years, wife of the veteran architect, who died a few weeks ago, was found almost asphyxiated at her home, corner of Fullerton and Talbot streets, this afternoon.

A light in the place attracted the attention of neighbors, who, failing to receive any response from the place, notified the police. Detective Robert Egleton responded, and after forcing an entrance, found Mrs. Craddock prostrate on the floor. She had apparently arisen for some purpose during the night, and had either been stricken with a fainting spell or had been overcome by fumes. The lid was off a stove, and the place was filled with gas.

She was attended by Dr. Waugh, and after reviving to some extent was taken to Victoria Hospital in the police ambulance.

RETIRE PREMIER WHITNEY OR WHOLE CONS. PARTY

Ottawa Journal (Conservative) Says This Must Be the Inevitable Result of Sir James' Unprogressive Attitude in Regard to the Demand for Tax Reform.

Ottawa, Jan. 9.—The evening Journal (Conservative) makes a strong editorial attack tonight upon Sir James Whitney and his stand upon the tax reform question. It says in part: "If Sir James Whitney is going to maintain his present attitude against tax reform, we think that the province can afford to retire Sir James Whitney from power.

LONDON LADY'S SISTER STRICKEN SUDDENLY

Mrs. Elizabeth Wanless Victim of Paralysis at Alvington, Ont.

The death occurred very unexpectedly in Alvington today of Mrs. Elizabeth Wanless, sister of Mrs. (Dr.) Roome, of this city. Mrs. Wanless was taken ill shortly after midnight and died some hours later from the effects of a paralytic stroke. She was 69 years old, and the wife of M. C. R. Agent James Wanless. Prior to her marriage she was Miss Anderson, of Newbury. Besides her husband she leaves the following children: James, M. C. R. agent at West Lorne; J. M. in Dauphin, Man.; Mrs. Wm. Thompson and Miss Violet, of Toronto. Two sisters are Mrs. (Dr.) Roome, of this city, and Mrs. Wm. Andrews, and one brother, John, of St. Marys.

WENT THROUGH ICE.

Montreal, Jan. 10.—Robert Hannan, 14 years old, of St. Cunegonde, lost his life by falling through the ice in the Lachine Canal last evening while skating. His brother Francis, two years older, who was in his company, and who tried to save him, had a narrow escape from meeting the same fate.

DUCHESS PASSED A BETTER NIGHT

Latest Bulletin Says Condition Improved and Her Strength Maintained.

MAY SEND FOR TREVES

Sympathetic Messages Are Pouring Into Hospital Authorities From All Parts.

[Canadian Press.]

Montreal, Jan. 10. — Her Royal Highness the Duchess of Connaught passed a better night and slept more. This morning her condition showed some improvement, and her strength is well maintained.

(Signed),
"E. S. WORTHINGTON,
"A. E. GARROW, M. D.,
"W. W. CHIPMAN,
"Royal Victoria Hospital,
"Montreal, Jan. 10."

The royal party here was immensely encouraged by the reports received on the condition of the Duchess of Connaught during last night, and today. The last bulletin issued yesterday evening intimated that the duchess was resting more comfortably, and was maintaining her strength. Her royal highness slept soundly for long intervals, and this morning when the duke and Princess Patricia paid their visit to the hospital, the duchess was unquestionably better than she has been since the attack of peritonitis was renewed.

No setback occurred as the morning progressed, and after a consultation with her medical advisers felt justified in issuing the optimistic bulletin.

His Highness Worried.

That the condition of the Duchess is, however, giving the duke and the princess the gravest anxiety is indicated by the unusual measures that have been taken to keep them from any outside worries. The police guard, which has been stationed about the residence of Sir Montagu Allan, where their royal highnesses are staying, has been rigidly maintained night and day. It has been learned that the royal family here has been caused annoyance by the sensational reports that have been supplied to American papers, and which it is feared will also be cabled to the English papers.

Snaphots Barred.

The local papers have been invited by friends of the Governor-General here to refrain from worrying the duke and the princess by taking snapshots of them when they visit the hospital. This request was not made on the occasion of the duchess' previous illness and stay in the Royal Victoria Hospital, and it is thought that the duke is a great deal more alarmed over her present sickness than over the first attack her royal highness suffered.

One of the rumors heard here today was to the effect that the duke had cabled for an English surgeon to come to Canada, and the name of Sir Frederick Treves, the eminent operator, was coupled with this story.

Arthur Sladen, the secretary of the duke, when asked about the likelihood of an English surgeon being brought across, said he had heard about it, but did not think there was anything in it.

Sympathetic messages continue to pour in from all parts, while the hospital authorities received inquiries all this morning, both over the local and long-distance telephone, a number coming in, it is understood, from Ottawa and Toronto.

IRELAND TO BE AS A COLONY

London, Jan. 9.—During the consideration of the Irish home rule bill in the House of Commons today, Felix Cassel moved an amendment to omit clause twenty-eight, which states that the judicial committee of the privy council shall hereafter be the appellate court of Ireland, as in the case of the dominions. Mr. Cassel denounced the provision as being openly and avowedly separatist, placing Ireland in the same position as a colony. Irish appeals, he said, should continue to go to the House of Lords.

Sir Rufus Isaacs, the attorney-general, opposed the amendment, which was eventually defeated by a majority of 127.

Augustine Birrell, the chief secretary for Ireland, moved to amend clause thirty-one by adding a declaration that the continuance in office of the lord-lieutenant should not be affected by any change in the ministry.

R. M. Neill proposed to add a provision that the lord-lieutenant should conform to the practice of the governors of the overseas dominions in relation to matters of political controversy. This proposal was rejected by a majority of 112, and Birrell's amendment was then agreed to.

Ten clauses were disposed of by the operation of closure.

COL. HUGHES TAKEN OVER SITE FOR FEDERAL SQUARE

Ald. Coles Says the Minister of Militia Was Well Satisfied—Work of Procuring the Land Necessary Will Be Begun as Soon as Possible.

Ald. Coles (or ex-Ald., which is it?) is confident that the federal square scheme will go through without any hitch whatever.

Yesterday afternoon, he had a long conversation with Hon. Sam Hughes, minister of militia, on the question, and he was informed that the Government would do their part in the matter.

"The whole thing is settled," declared Ald. Coles. "We took the Minister of Militia over the ground, and he was well pleased with the location, and the rest of it. He had a chat with Mayor

Graham and myself on the matter, and told us to go ahead, and close the deal at once. As soon as the bylaw is finally passed, we will go ahead with the purchase of the necessary land. There is no doubt about the deal being closed, so far as the Government is concerned. They will pay over the money as soon as we are ready."

"There is no doubt about it," explained his worship. "We were assured that the Government were prepared to do their duty in the matter, and Col. Hughes told us to get the scheme in operation at as early a date as possible."

TRIED TO FREEZE OUT G. T. R. BY RUSHING BYLAW TO PEOPLE

Free Press Announces That the Grand Trunk Railway Would Like to Get the City's Line to the Lakeside—One Result of Mature Consideration on Part of Last Year's Council.

Keen interest in the disposition of the London and Port Stanley Railway is being taken by citizens generally, and in view of the fact that the Free Press now asserts that the Grand Trunk desires to complete for the lease of the road. It is being pointed out that had the electrification project been rushed to the people, and by any chance carried, the G. T. R. and all other lines would have been barred from bidding for the road.

There is a general feeling that the great trunk railways should not alone

be permitted to bid for the lease but should be invited by the city to do so. While this is still possible, the position would have been greatly different had those who proposed rushing the scheme through attained their object.

In view of the attitude of the London Free Press, it is now regarded as the duty of the aldermen who were elected on the so-called electrification slate to invite bids from the Grand Trunk and C. P. R., particularly as during the campaign it was charged that these great trunk lines were being frozen out by the aldermen who voted for delay.

FORMER INGERSOLL WOMAN DROWNED NEAR VANCOUVER

Mrs. J. H. V. Simpson Was One of the Five Victims in the Sinking of the Steamer Cheslakee—Taught in Ingersoll Schools for Many Years.

[Special to The Advertiser.]

Ingersoll, Jan. 10.—Mr. and Mrs. George Bloor received a telegram this afternoon from Vancouver, announcing that their daughter, Mrs. J. H. V. Simpson (formerly Miss Minnie Bloor), was one of those drowned on the steamer Cheslakee, which foundered early yesterday morning while making the trip from Nanaimo to Vancouver. Three passengers and

one of the crew were drowned out of 89, who were on board.

The late Mrs. Simpson was about 30 years old, and before leaving for the west three years ago was for a long time one of the teachers in the Central school here. Two years ago she was married.

The telegram received today states that the remains were recovered and that the body was being shipped to Ingersoll for interment. It will probably arrive on Wednesday next.

CHILD CLIMBING A HILL WAS RUN INTO BY BOY ON SLED

Little Ivy Webb, of 782 Hill Street, Terribly Injured While at Play.

Ivy Webb, of 782 Hill street, the 11-year-old daughter of Mr. and Mrs. John G. Webb, is in a serious condition at Victoria Hospital as a result of a sleighing accident which occurred on a sand pit opposite her home on Hill street.

The little girl, accompanied by her two younger sisters, had gone to the sand pit against their mother's expressed wishes, and were playing with a number of other children. She was climbing to the top of the hill, and did not notice the approach of a sled, guided by Ivanout of danger.

Plumridge, a Nelson street youth, which crashed into her. She was knocked down violently, and one of the runners pierced her leg a little below the hip and inflicted a deep wound. A great quantity of blood was lost, which completely soaked her clothes and shoes.

The two younger sisters immediately ran home for their mother, who, on arriving, picked the girl up and thought her dead.

She was carried to her home, and was unconscious for over an hour. She was attended by Dr. Edward Spence, who ordered her to Victoria Hospital. The injured girl spent a fair night, but is very much weakened through the loss of blood. Latest reports state that she will recover, though not yet completely out of danger.

MAY ASK LEGISLATURE TO VALIDATE BYLAWS

City May Do So in the Case of Loans to Two Industries.

The council will probably ask the Legislature to validate the bylaws defeated at the recent election to grant loans to the C. N.-W. Shoe Company, and the Findlay Porcelain Company.

Ald. Spittal, chairman of the manufacturers' committee, is considering the matter, and is seeking information on the subject.

"While the matter has not been definitely decided, it is probable that we will ask the Legislature, by the city of London bill, to validate these bylaws," he stated today. "Both were

short of the required two-thirds by about 100 votes, and this to me is practically an indorsement of the loans. We have precedents to follow. When the bylaws to give fixed assessments to a number of industries a year or two ago, the number of votes required were not obtained, and there was no difficulty in having them validated. I think we can do the same. It is probable that we will attempt it, at least."

OWEN SOUND MAN

ARRESTED IN LONDON

Stanley Rourke, formerly proprietor of an hotel at Owen Sound, for whom a warrant was issued, charging him with a breach of the liquor license act, and who has been employed in this city during the past few weeks, was taken into custody by Detective Sergeant Nickle yesterday afternoon.

License Inspector Matthew Beckett, of Owen Sound, came to London this morning and will return with the prisoner tonight.

Local opinion is equally at Owen Sound.

"PANDERING TO MOB SPIRIT GRAVE DANGER TO CANADA," SAYS HON. SAM HUGHES

Too Much of It in England and This Country, He Declares—Fears "Ultra Forms" of Democracy.

DR. MACDONALD SAYS CANADA MUST HAVE CONTROL OF ALL HER POLICIES

Brilliant Speech by Editor of The Globe—Hon W. J. Hanna, Provincial Secretary, Told of the Work of the Prison Farms.

From the standpoint of attendance and interest, the annual banquet of the Canadian Club, held last evening in the Tecumseh House, was the best in the history of this useful organization. Hon. Sam Hughes, minister of militia; Dr. J. A. Macdonald, editor of the Globe, and Hon. W. J. Hanna, provincial secretary, were the speakers of the evening.

Dr. Macdonald was brilliant in his address on "Canada." Hon. W. J. Hanna gave a most interesting account of the work being done on the prison farms of Ontario, while Hon. Sam Hughes made a strong plea for sympathy for the cadet movement so dear to his heart.

Mr. Jared Vining, president of the Canadian Club, was the presiding officer. He briefly referred to the occasion, and expressed his warm appreciation of the large attendance, and his gratitude that the three distinguished speakers of the evening had come to address them. He did not forget to express his regret at the unavoidable absence of Hon. Mr. Doherty, minister of justice, who was to have responded to one of the toasts.

An excellent musical program was provided. Tony Cortese's orchestra, augmented for the occasion, rendered a score of excellent selections. Mr. Robert Habbeshaw, formerly of Leeds, England, charmed the vast audience with his fine singing. He is a valuable acquisition to the musical talent of this city. He is a tenor possessing a wonderful voice and dramatic talent. Mr. W. A. McCutcheon delighted the members with his singing. Mr. A. D. Jordan

and Mr. C. E. Wheeler acted as accompanist.

Hon. Mr. Doherty III, President Vining introduced Hon. Sam Hughes. The latter expressed his appreciation of the privilege of coming to London to address the Canadian Club. He declared that Hon. Mr. Doherty was suffering from an attack of the grip, or he would have been present to address the members of the club.

In a humorous way he denied that Ald. Coles, Rev. Mr. Inkster and himself had entered into a conspiracy to carry the federal square. He also denied that he and Ald. Coles had gone into land speculation to make a large sum of money out of the sale of property arising out of the deal.

"The land will be used for a military square and for municipal purposes in the near future," declared Col. Hughes.

Hon. Mr. Hughes' Address.

Launching into his speech proper, he declared that centralized government had wrecked the ancient empire. Great Britain had built a mighty empire by giving the colonies autonomy in all local matters. This had held Great Britain together for these many years, and he hoped that it would for all time. There were many theories regarding the greatness of Great Britain. One theory that had been advanced, and which in some quarters was accepted, was that the English people were the lost ten tribes of Israel. He did not accept that theory. The lost ten tribes were scattered through many nations, and were not confined to the bounds of British domains.

Another theory was that the greatness of Britain was due to the spread of Christianity. It must not be forgotten that other nations have Christian civilization. Other nations have

TRUSTEE GUNN WOULD BAR CANDIDATES FROM ADVERTISING

Says the Advantage Is On the Side of the Man With the Money.

Trustee John M. Gunn is nothing if not original, and he is liable to start something new at any moment. At the next meeting of the board of education, he will introduce a motion asking the trustees to memorialize the Provincial Government to enact legislation to make it an offence for a candidate for public office to advertise in the newspaper, by card or poster or otherwise. In lieu, the city clerk is to be instructed to publish in a prominent place the names of the candidates for office every day from nomination day to election day.

Today he stated his reasons for his action. It is not a joke for Trustee Gunn, who is in deadly earnest on this proposition.

"I think it vulgar and improper to advertise oneself in such a manner," he stated. "I do not think there is any demand for it. The advantage is always with the candidate with money, or to those who wish to spread themselves in this way. A candidate for public office should not be compelled to do this. I think it should be prohibited."

"One of Trustee Gunn's jokes," commented Trustee W. W. Gammage in discussing the matter. However, Mr. Gunn is in earnest, but from conversation with a number of the trustees, it could be imagined that they are not quite so enthusiastic as he on the subject. It is not considered at all likely that his motion will carry.

A WRIT FOR \$51,409.50 ISSUED BY MR. N. M. CANTIN

Founder of St. Joseph, Ont., Is Suing S.R. Clark and J. R. Carter.

Mr. J. M. McEvoy, acting upon instructions received from Mr. N. M. Cantin, of St. Joseph, Ont., has issued a writ against Sam R. Clark and John R. Carter, in which Mr. Cantin claims \$51,409.50 interest. The amount mentioned in the writ is the value of \$14,095 shares of stock in a certain

company, and Mr. Cantin also claims an injunction restraining the defendants from selling the stock until judgment is given.

Messrs. Tennent & Campbell have issued a writ against Hattie E. Stewart and Annie M. Stewart, on behalf of John A. Campbell, in which the plaintiff claims possession of certain property on Dean street, South London.

Mr. Cantin has acquired fame through the building of the town of St. Joseph on Lake Huron.

INSPECTOR EDWARDS NOT AGAINST HIGH SCHOOL EXAMS

Does Not Agree With All Inspector Hughes Says Against Them.

Inspector James L. Hughes, of Toronto, in a public address the other evening in the Queen City, characterized the high school entrance examinations as "an abominable curse," and the "greatest agency of the devil in all Canada," and paid other flattering tributes to this time-honored test.

Inspector Edwards, in discussing the question, does not agree with the inspector, and thinks the picture much overdrawn.

"The entrance examination, when properly conducted, is a good thing, and should not be criticized in this way," said Mr. Edwards. "Of course, there is a possibility of spoiling its effect, but in London I do not think any such charge could be brought against

it. The results have been highly satisfactory here. The percentage of students graduating from the public schools has been high, and the general results excellent. The ideal system would be promotion on term work, deportment, etc., and this is being tried in many places. Some students do fail at examination time, when they have done good work all through the year, but their former work is not taken into consideration, when the final results are made up. All this would be obliterated if the principals were allowed to promote the pupils. However, the general results here have been quite satisfactory, and no change is contemplated at the present time. I would not criticize the entrance examinations in this way."

BIG DIFFERENCE IN WESTERN RATES

Freight Schedule Inquiry Continued Before Railway Commission at Ottawa.

C. P. R. EXPLAINS TARIFF

Saskatchewan and Alberta Make Claim That the Rates Are Unfair.

[Canadian Press, Ottawa, Jan. 9.—Presenting a "series B" exhibit of rate comparisons between Saskatchewan and Alberta and North Dakota and Montana to show that rates in the latter territory were lower than the Canadian ones, Mr. M. Cowan, K.C., counsel for Saskatchewan and Alberta, this morning continued his attack on the C. P. R.'s case as already put in in the western rate inquiry before the railway commission. Keeping Mr. W. K. McInnes, chief traffic manager of the C. P. R., on the stand, Mr. Cowan claimed that North Dakota should have been compared with Saskatchewan and Alberta rather than South Dakota and Wyoming, as had been done by the C. P. R. in its "series B" comparison of its rates with American ones.

Discrepancy in Rates.
Mr. McInnes was questioned by Mr. Cowan in regard to C. P. R. rates. Mr. Cowan pointed out that the rate from Saskatchewan to Fort William, 899 miles, was 22 cents, while the rate from Morse, Sask., practically the same distance, was 20 cents.

"Why this discrepancy?" asked Mr. Cowan. "Saskatoon is a competitive point, and yet apparently gets a rate higher than Morse."

Mr. McInnes—Yes, apparently so.

Mr. Cowan then filed "series B" of his exhibits, which was a comparison between C. P. R. rates in Saskatchewan and Alberta and Great Northern rates in Dakota and Montana, as well as a comparison between C. P. R. rates from Fort William to points in Saskatchewan and Alberta, and C. N. R. rates from St. Paul to Montana points.

"Why did you not take North Dakota instead of Wyoming and South Dakota in your series B?" showing how much lower your rates were than those on American roads?" asked Mr. Cowan.

"Because North Dakota is south of Manitoba," answered Mr. McInnes. "Wyoming and Montana, on the other hand, are directly south of Saskatchewan."

Mr. McInnes explained this by pointing out that the C. P. R. gave a mixed

DRAYMEN WILL APPEAL TO COUNCIL

Allege That the Police Are Too Stringent Toward Them.

CAN'T GO NEAR OFFICES

Claim That They Have Property Seized From the G. T. R. and That They Are Abused.

The local city draymen have a real grievance to bring before the city council next Monday evening, and it is likely a large delegation of them will attend the council meeting. The draymen complain against the treatment of the police in driving them off York street, no matter if they only stop for a few minutes. There are three phone offices behind the Grand Trunk station on York street, and at each of these places the draymen get orders for deliveries. They claim that if they stop there a couple of minutes the police are right after them, and force them to move on. Sometimes they have barely stopped their horses before they are ordered to keep moving.

According to the city bylaw a vehicle is permitted a half-hour to stop before a place before the police can interfere, but the draymen claim that they are barred from this privilege by the local police department. Before this, the draymen have to pay rent for their offices, and all have five-year leases with the Grand Trunk people, these leases having three years yet to run. They have to pay for a telephone, and also for the services of a girl to be in constant attendance.

A Block From Offices.
Last fall draymen were forced to leave York street, and go to Clarence street, on the south side of the tracks. This is over a block from their offices. Where they now stand the men claim there is no protection for the horses, the wind having a clean sweep over the spot. Sometimes the horses have to wait there for a couple of hours at a time, and in zero weather this would be a tremendous hardship.

The matter will be taken before the council to deal with.

JUDGMENT GIVEN AGAINST LE SUEUR

Toronto, Jan. 10.—Judgment handed down by Mr. Justice Britton yesterday in the suit of Mr. G. C. S. Lindsey to restrain Dr. William Dawson Le Sueur, of Ottawa, from publishing a biography of William Lyon Mackenzie, of whom Mr. Lindsey is a descendant, renders Mr. Lindsey's action successful on every issue. The defendant is ordered to deliver to him all extracts and copies obtained from the Lindsey collection of documents pertaining to the life of Mackenzie, and is restrained from publishing any of them or any information lawfully obtained from this source.

His lordship took the view that access to the collection had been allowed Dr. Le Sueur on the understanding that his attitude toward the subject of his work was sympathetic one. At the same time his finding is to the effect that the biographer's point of view was distinctly biased at the time and that his intentions were not friendly toward Mackenzie's memory. Nominal damages are awarded against the author, who must pay the costs of the high court action.

TWO WERE BURNED.
[Canadian Press, San Francisco, Jan. 9.—Two unidentified bodies have been removed from the ruins of two waterfront lodging-houses destroyed by fire early today, and there is a possibility that other bodies may be found. A score or more persons were injured in their dash for safety, and three firemen badly hurt by the collapse of one of the buildings.

Great Clearing of Ladies' Winter Coats Saturday

READ THIS: Black and Colored Broadcloth Coats. Every Coat in black reduced, and wise shoppers well know the advantage of first choice when the final reductions are made, for such liberal price cutting with such a varied assortment to choose from, is better than even greater cuts a month later when the choice Coats have been picked over and over. Remember, the winter has only begun, and these Coats are the balance of this season's stock. Every Coat new and correct in style, and good for more than one winter's wear. A great many of these Coats would, no doubt, be sold during the next six weeks at regular prices, but stock-taking comes early with us and we do not intend, if possible, to list Winter Coats, hence these early opportunities. Amongst these Coats will be found many semi-evening styles, which is one of the most popular Coats this season. Not one Coat in this list has been previously reduced.

25 BLACK BROADCLOTH COATS—Regular \$10.00 and \$11.50. Reduced to \$7.75
30 BLACK AND NAVY BROADCLOTH COATS. Regular \$12.50, \$13.50 and \$14.00. Reduced to \$9.75
19 BROADCLOTH COATS—Black, navy, fawn and gray. Regular \$16.00 to \$17.50. Reduced to \$11.75
30 BROADCLOTH COATS—Black, navy, gray and reseda. Regular \$22.50 to \$26.50. Reduced to \$16.75

The variety of styles is too great to give a detailed description of each, but with such an assortment—over 100 to choose from—you are sure to find just what you want in both size, style and price.

A PRETTY COAT IS SHOWN OF BEAVER CLOTH, shawl collar and cuffs of inlaid velvet, semi-fitted and silk-lined to waist; black, navy, fawn and gray. A \$23.50 Coat for \$16.75

ANOTHER STYLE BROADCLOTH COAT, satin-lined throughout, shawl collar and cuffs of tan broadcloth. A pretty semi-evening coat. A \$30 Coat. \$19.75
ALSO A PRETTY STYLE IN TAN OR NAVY BROADCLOTH, with embroidered black silk collar and cuffs, and large revers of tan cloth, set-in kimono sleeve, silk-lined waist. Regular \$35.00 Coat for \$26.50

All ranges are broken—some only one Coat of a line.

WASHABLE WINTER COAT FOR LITTLE MISS
CURLY-LOCKS.

Among the new materials particularly appropriate for children's wear is heavy cotton ratine. It is warm and "comfy" and yet can be laundered easily. The little coat illustrated is white cotton ratine with belt, collar and cuffs of white rajah silk. The collar, made with long pleated revers in front, is edged with bands of moleskin plush and the little white bonnet has a band of the same plush on it.

The plush bands on the coat can be sewed on so that they can easily be taken off and the rest of the garment put in the tub when it looks soiled. Children's winter coats are shorter this year than last, and in some climates where it is possible they are wearing the half hose even if their coats and bonnets are wintry in effect.

THIS DAY IN CANADIAN HISTORY

JANUARY TENTH.

For over half a century the United States and England could not agree as to the boundary line between Maine and New Brunswick. The Treaty of Ghent, in 1814, provided for the settlement of the question by a commission of commissioners to settle the vexed question. In case of their failure to agree, the matter was to be referred to some friendly power. The commission succeeded in settling the ownership of certain islands in Passamaquoddy Bay, but, after five years' labor and discussion, came to different conclusions as to the line to be drawn from the head of the St. Croix River. Then the Governor of Maine tried to assert the American claims to the disputed territory by force, but the danger of war was averted by an agreement to submit the question to the decision of the King of the Netherlands. After lengthy consideration his majesty announced his decision on Jan. 10, 1881, but as it was merely a compromise, neither party was satisfied, and the United States absolutely refused to abide by it. Again there was trouble in the disputed region, but at last the boundary affair was settled in 1882, when the Ashburton Treaty was signed. This, however, was so unfavorable to "Canada" that it was dubbed the "Ashburton Surrender."

The Home Dressmaker

TURNING A SKIRT.

Supposing the skirt to be turned is a black serge. Before beginning the work of "turning" go out and buy a dozen yards of black military braid. Then come home and go to work. Cut off the band of the skirt, unpick the placket; turn the whole thing inside out, and cut off all the seam turnings close to the stitching.

Each seam must be covered in the same way.

A placket of a skirt is always on the left side. So after having turned your skirt, and covered the seams carefully, the next step is to change the placket over to the other side. Rip off the short pieces used to bind the placket, and sew them onto the newly opened seam on the other side. Fasten up the old placket and bring the braid up over it, hiding the place where it had been completely.

Put on a new band. Hem up the bottom of the skirt and the new garment is complete.

This method is suitable especially for a straight skirt.

CLEANING GAME.

To remove feathers from game of any kind dip in boiling water, then wrap in a thick cloth. The feathers are steamed loose in a very few minutes, and the "pins" will give very little or no trouble.

MANY FASCINATING BARGAINS IN LONDON'S STORES NOW

Whitewear and Remnant Sales at Every Hand.

"Everybody's doing it!" What?—why, holding bargain sales, of course, and all the rest of the "everybodies" are attending them. If you don't believe it, just walk down Dundas street one of these crisp January afternoons and listen to scraps of conversation that may readily be heard in the business section.

Ten to one you'll hear something like this:

"Yes, I bought three new nighties for Mary. They're summer ones, of course, but I got them ever so much cheaper buying them now."

Or this: "Just fancy, she has purchased her next winter's underwear already. Says she has saved almost half the price."

Or, perhaps, it will be: "I've been laying in a stock of tailored and lingerie waists for next summer."

Fortunate, indeed, is the girl or woman whose pocket-book permits her to make such purchases, for there is little doubt that it means economy of the best kind. Practically every store contains its bargain table, or rather tables, of whitewear, hosiery and ready-made garments. Sometimes these are odd sizes, reduced in price to clear out the stock; again, in the case of shirtwaists and lingerie, they have become badly soiled with handling during the Christmas trade, the shopper can frequently pick up, at very low cost, a nicely-finished article, which, after laundering, is a garment to be proud of.

Sales of All Sorts.

Other sales not to be despised are those of winter coats and suits, which are often to be found marked down to an extremely reasonable figure at

this season. And I must not forget to mention the millinery, too. The winter millinery season is practically closed, and, doubtless, the powers that be in the millinery world are putting their heads together planning some fashion in headgear that will startle the feminine (and masculine) world in the spring. In the meantime, however, many a woman will rejoice to see not only "shapes," but also trappings of various sorts, materially reduced in price.

The home dressmaker who keeps her eyes open, and who follows religiously the newspaper advertisements, will be able to find many bargains in remnants and end-pieces of cotton, silk and other fabrics. And, perhaps, it is only herself that knows how useful a piece of red serge that wasn't quite big enough by itself, or that by making a difference it makes if one stands on a really pretty school dress for Jane; by combining a bit of plaid with a piece of red serge that wasn't quite big enough by itself, or that by making a difference it makes if one stands on a really pretty school dress for Jane; by combining a bit of plaid with a piece of red serge that wasn't quite big enough by itself, or that by making a difference it makes if one stands on a really pretty school dress for Jane.

Table linen is another commodity that frequently receives a "cut" in price at the January sales, and wise is the woman who replenishes her linen-closet with some of the bargains she can secure now.

A visit to the various stores of London is indeed a very fascinating one at the present time, and the shopper's main regret is apt to be that her purse is not better lined to enable her to purchase more freely.

The Normal

HOW TO AVOID COLD FEET

So many people suffer in this way in the cold weather, and some very severely, too, that a few hints on how to avoid this discomfort will doubtless be acceptable. Perhaps the greater number of sufferers and the still larger or the might their special "bête noir."

Some have recourse to hot bottles, others wear warm bed-socks or stockings, but in some cases these seem to avail little. It is an excellent plan, of course, to sleep in blankets, but many cannot do this. A good substitute is to fold a blanket in half and place it across the lower part of the bed between the sheets, leaving the open ends at the top and tucking the folded part well in at the feet. This allows the sleeper to have the whole of the lower part of the body between blankets without the inconvenience and discomfort of sleeping without sheets.

Another good plan is to lay a thick blanket, or rug, folded over the foot of the bed well tucked in all round. Certain precautions may help to avert wakeful nights in consequence of cold feet, though what is a preventive in one case may be of no use in another. Before going to bed place the feet in hot water for a few minutes and rub well with a rough towel.

Never go to bed with cold feet if it can be avoided. Sitting still often causes cold feet, but if they are placed on a hassock, or slightly raised to a certain extent, the cold will be remedied.

Another prolific cause of cold feet is standing about. Of course all who have to do this in cold weather should wear warm hosiery (not necessarily thick), and good strong boots or shoes; a pair of gaiters does a great deal towards keeping the feet warm. To

sprinkle a little dry mustard in the soles of the boots or shoes is another excellent plan; it gradually permeates the stockings and thus keeps the feet warm. Many policemen use this remedy. A pair of socks or even a thin sock of brown paper adds to one's comfort.

One simple and effective remedy both for cold feet and hands is to take slow, deep breaths, to inhale the breath, then breathe out very slowly; this stimulates the circulation, and in a few minutes its effect will be felt in the extremities, even when they have been so cold as to be numb. There is, perhaps, no better way of keeping warm than occasionally to breathe in this way.

Should one happen to be standing for any length of time, say, to view a procession, etc., it is wonderful what a difference it makes if one stands on a folded newspaper, instead of on the ground or on the pavement; not only does this prevent the feet getting cold, but also keeps one from feeling tired for a very much longer time than would otherwise be the case. Of course, should the ground be damp it is also a preventive of catching cold.

Those who suffer from cold feet would do well always to change their outdoor shoes for a warm, easy pair of slippers as soon as they enter the house, and if the feet are really cold to change their stockings, too. They should be careful to slip on bedroom slippers, and in no case to walk about with soiled feet.

Tight shoes may be the cause of the bad circulation, and those who suffer with cold feet should be careful always to have easy-fitting, comfortable shoes, some at least, and patent shoes very cold to wear.

Cabbage Salad.—Chop a head of cabbage fine and sprinkle with a little salt; let it stand while you make the dressing. Mix well together and cook slowly until quite smooth and creamy; 1 tablespoon of flour, 1 egg, 1 tablespoon butter, 1 tablespoon sugar, quarter teaspoon mustard, half teaspoon vinegar, and half teaspoon sweet milk or cream. When done pour over the cabbage. If kept in a cool place it will be nice for one or two days.

Lamp Black on Rug.

Dear Miss Grey: I have read your columns with interest, and now I come to you with my troubles.

Could you kindly tell me what will clean a rug that has had lamp black spilled on it? RIDGETOWN.

A.—Have you tried common cornmeal? It is a good application. Spread it over the stain quite thickly, and allow it to remain there for a day or two; then sweep into a dustpan and repeat with fresh flour. Then wipe the rug with a cloth wrung out of ammonia water. A second treatment will probably be necessary.

Mary's Frock.

Dear Miss Grey: You have helped so many through your column, will you help me?

How can I clean an ecru-colored marquisette dress trimmed with pale blue satin?

Thanking you in advance, MARY.

A.—I do not see how such a dress could be cleaned at home with any satisfaction. The dry cleaners do not charge much, and the frock usually looks as good as new after their process.

"A Dream of a Girl."

Dear Miss Grey: I read in your columns a few days ago where "School-boy" sought your help, and as I am still a student, I trust you will not consider it an imposition on my part if I seek your advice.

For several months back I have been clerking in a local store on Saturdays, and I was employed there all Christmas week. One of my school chums was also employed at the same counter as I, and as misfortune would have it we both fell in love with a little girl, who was engaged at the next counter.

Now can I win her love and still not offend my chum?

I am considered quite handsome for a boy, the only thing against my appearance being that I have red hair. I am rather short, but well built. On the other hand, my chum is very tall and thin, and quite odd looking.

The thing you need most is service.

In drugs and medicines, the P. L. and O. Stores can serve you best and most surely.

Service has to grow. With us it has been growing for years. It is part of our stores. It is part of the goods.

In every transaction our great idea is—service to you.

LONDON JUNIORS DEFEAT WATFORD BY 19 TO 7

EMPIRE BRASS TEAM LEADS MANUFACTURERS' LEAGUE

Defeated Greene-Swifts Last Evening, While Lawson & Jones Team Defeated McCormicks.

The Empire Brass and Lawson & Jones teams were the winners of the Manufacturers' League games, played at the Westminster rink last night. The games were fairly fast and quite a number of fans witnessed them. In the absence of "Sid" Rankin, Billy Borland, of the London Intermediate O. H. A. team, handled the bell, and kept the teams playing hockey at all stages. The ice was in good condition.

Empire Brass Won.
In the first game the Empire Brass team easily smothered Greene-Swifts, by the score of 10 to 0. Although the score is one-sided, the game was more even than it would indicate. The Empire Brass team presented a much stronger line-up than last night, and they have a fast aggregation of hockey players. "Doug" Morrison took Ryan's place and he was the star of the game.

The Greene-Swift team showed a lack of practice and condition, and in the second half were played off their feet. The half-time score was 3 to 0. For the losers, the Hoy brothers and Spence were the pick.

The teams were as follows:

Greene-Swift—Bowman, goal; Justin Hoy, point; Bartlett, cover; Jack Hoy, rover; Muckler, centre; Wilson, left wing; Spence, right wing.

Empire Brass—Eichenberger, goal;

Crowley, point; Morrison, cover; Bantyne, rover; McPhee, centre; Arthur, left; Thorne, right.

Lawson & Jones Won.
The second game was not as good an exhibition as the first one, although the score was more even. Lawson & Jones beat McCormicks by the score of 6 to 2, with the score at half-time at 3 to 2 in favor of the ultimate winners. The printers were without the services of Adams, their point man, and his absence seemed to break up the team play of the aggregation somewhat.

The McCormick team was the same that lost to the Empire Brass in the opening game. Brodison, the little rover, was the star of the team. He played a great game and is a coming hockey player. Buchanan, in goal for the biscuitmakers, was also good.

For Lawson & Jones, Clarke, Meyers, and Orr put up the best game. The teams: Lawson & Jones—Talbot, goal; McDonald, point; Orr, cover; Clarke, rover; Ralston, centre; Land, left; Meyers, right.

McCormicks—Buchanan, goal; Hennessey, point; Johnson, cover; Brodison, rover; Mann, centre; Blake, left; Aitken, right.

The Standing.

The standing of the league is as follows:

	Won	Lost	For	Agst.
Empire Brass	2	1	16	1
Greene-Swift	1	0	5	3
Lawson & Jones	1	1	9	7
Greene-Swift	0	1	0	10
McCormicks	0	2	2	12

Next games, Tuesday, Jan. 14:

McCormicks vs. Greene-Swifts; Empire Brass vs. Perrins.

GRANT BACKUS' RINK WON MENHENICK BONSPIEL PRIZES

Finished With a Plus Score of 23 With Allen Rink Close Behind.

Grant Backus' rink won the tea sets donated by Mr. J. Menhenick at the bonspiel at the Thistle Rink yesterday afternoon and evening. His total score was plus 23, while Skip Fred Allen gave him a close run with a plus score of 21 points. Nine rinks were entered at the bonspiel, and the points were scored plus or minus, as the team won or lost. Several good games resulted during the play. Five rinks finished with a plus score, while the other four were down. Bert Barbour's rink had the lowest score, with minus 16. Quite a number of spectators dropped in at the rink during the evening and witnessed the final games. The scores and rinks were as follows:

N. Keene, R. D. McDonald, A. Torg

and Skip G. Backus, plus 23.
Major Hayes, E. S. Morren, G. English and Skip P. Allen, plus 21.
M. Mortimer, J. W. McIntosh, Charles Toon and Skip A. M. Hesman, plus 12.
J. Lashbrook, E. Brown, A. J. McDuffin and Skip J. Menhenick, plus 10.
P. Petterly, J. Insell, A. Tillmann and Skip W. Fulton, plus 9.
C. C. Marks, J. Lashbrook, M. Boughner and Skip Charles Sterling, minus 2.
A. Eby, C. Smallman, S. J. McCreery and Skip D. D. Swift, minus 14.
J. Anderson, A. H. Purdon, D. McDonald and Skip L. E. Tillson, minus 15.
Alex. Ferguson, J. Brown, W. J. Douglas and Skip B. Barbour, minus 16.

TECUMSEH WHIST CLUB.

At the regular weekly meeting of the Tecumseh Whist Club, held on Thursday evening in the club rooms, Rider and Adams won the prize with a plus score of 15. Other plus scores were as follows: Connor and Sears, plus 12; Shipland and Bogerell, plus 5; Park and Brown, average. There were four tables engaged in the game.

ROYAL GRATTAN LOWERS ICE RECORD

Nat Ray Drives Pacer a Post Mile at 2:13 1/4 at Dufferin Park.

RAN AWAY FROM FIELD

Silver Tail Won 2:18 Trot, Winning Three Straight Heats, Beating Margot Leonard.

Toronto, Jan. 10.—That a Toronto man can boast of owning one of the fastest pacers in the world is acknowledged by all who saw Mr. Gray's Royal Grattan lower the American half-mile ice track record at Dufferin Park yesterday. Doubts have been expressed in some quarters that this horse would not go as well in the races as he has shown in trials, but after his performance in the initial heat of the 2:30 pace yesterday, the horsemen will agree with the statement that Nat Ray, his driver, made several weeks ago, when he remarked that he thought Royal Grattan was the fastest pacer in the world today.

Away in the second tier of the opening heat in the 2:30 pace, Royal Grattan simply made his field look like a bunch of truck horses, and everyone would have been behind the flag had there been one. In this heat, the time was 2:13 1/4, which beats the record held by Doris B by a second and a half. He stepped the quarter in 35 seconds, the half in 1:07, the three-quarters in 1:41 1/4, and the final quarter in 32 seconds. He lost the second heat because his ticks broke down at the half, but the third and fourth were easy for him.

In the 2:18 trot, Silver Tail took Margot Leonard into camp by the straight heat route, the latter not being herself yesterday. The closing heat of the race was a pretty contest, the first five inching in a bunch. The summary:

CHATHAM TEAM WON FROM SARNIA

Tunnel Town Intermediates Lose the First Game of the Season by a Score of 5 to 3.

Sarnia, Jan. 9.—Chatham defeated Sarnia by the score of 5 to 3 in the opening game of the O. H. A. season here tonight. Owing to the fact that the special train bearing the Chatham team and about 150 rooters was late, the game did not start until nearly 9:30 p.m.

The first half was replete with sensational plays by both teams, and at half-time the score was 2 to 2. In the second half Chatham showed superior team work and ran in three goals to Sarnia's one.

The locals put up a great game, and had it not been for the work of Chapman, the visitors' net guardian, would have won out. The Sarnia forwards rained shots in on him from all sides, but he gave a marvellous exhibition, and prevented many scores. For the locals, Dadds, Wilson and Thorne played a nice game, while McLean and Brundage were the pick of the Chatham team. About 800 fans attended the game.

"Sid" Rankin refereed and his work proved satisfactory.

The teams:

Sarnia—A. Cameron, goal; Dadds, point; Wilson, cover; Thorne, rover; Finch, centre; McClelland, right; H. Cameron, left.

Chatham—Chapman, goal; McLean, point; Higginsbotham, cover; Brundage, rover; Sheldon, centre; White, right; Jones, left.

INGERSOLL JUNIORS HERE MONDAY NIGHT

Have Not Yet Had a Practice and Ingersoll Fans Are Not Very Hopeful of Their Success.

[Special to The Advertiser.] Ingersoll, Jan. 10.—The junior hockeyists will journey to London on Monday evening for their first O. H. A. game of the season. The boys are pretty much an unknown quantity. The chances of success have not been improved since the advent of winter, because of the absence of ice. The boys have not yet had a single practice in the arena, where all the games will be played. This, together with the fact that some of the players are comparatively inexperienced, does not make the outlook as bright as some fans would like to have it. It must be remembered, however, that Ingersoll boys never had much difficulty in handling the crooked stick, and that is more, they invariably did hard. Despite all the facts cited, there are those who look for the lad to put up some stiff arguments before the district championship has been settled.

The Southern League at its recent meeting decided that transportation might be sent players to report, but not to return home, and that the amount of transportation should appear on each contract. This is to guard against any bonus subsidies.

OSHAWA BEATEN AT HOME.

Oshawa, Jan. 9.—Oshawa and Bowmanville met tonight in the first local intermediate O. H. A. game of the season. The half-time score was, Oshawa 4, Bowmanville 3, and the final, Bowmanville 6, Oshawa 5. Bowmanville were slightly the better team and fully deserved the victory.

Varsity Juniors Beaten.

Orillia, Jan. 9.—In an exhibition Junior game here tonight the locals defeated Varsity Juniors by a score of 3 to 1. Right from the start the locals took the game in hand, notching the first goal about two minutes.

The Orillia defence were right on the job, and Cooke had an easy time in goal, but was there with the goods when called on.

Collingwood Beat Penatung.

Collingwood, Jan. 9.—Collingwood beat Penatung by 7 to 1 tonight in the intermediate series of the O. H. A. At half-time the score stood 4 to 0 in favor of Collingwood.

The penalties were: Burns, Parman and Hall, of Collingwood, and Rumble and Knais, of Penatung, mostly for tripping. Hall and Burns were the stars of the game. The Collingwood boys' combination was a treat to watch.

STRATFORD SENIORS LOSE TO T. R. AND A. A.

Score at Half-Time Was 2-2, But Toronto Team Ripped Away in the Last Half.

Stratford, Jan. 9.—Eight hundred fans had their hopes crushed tonight when in the second half of a fierce, hard battle the T. R. and A. A. of Toronto seven ripped away from the home team and won out by six goals to four. The half-time bell found the game a tie at two all, but in the second period Meeking and Burrell got in some combination that disheartened the home defence, and the latter who had played a phenomenal game in the nets in the earlier part of the game, was completely fooled. The home team were forced to play two juniors, as five seniors only were in the city tonight. Crane, lately of Peterboro, made his debut here and was the strongest local player. The teams:

T. R. and A. A.—Goal, Addison; point, Hunter; cover, Hoffmann; rover, Burrell; centre, Meeking; left, Horsfield; right, Brown.

Stratford—Goal, Wicke; point, Richards; cover, Burdett; rover, Crane; centre, Lowe; left, Thompson; right, Lavalle.

Referee—Wally Fern, Stratford.

GUELPH VIC JUNIORS WIN FROM BRANTFORD

Guelph, Jan. 9.—Before a fair-sized crowd the Guelph Vics defeated Brantford in the opening of the Junior O. H. A. series here tonight by the score of 10 to 2. Foster and McKen started for Guelph, while Bragg put up a great game for Brantford. The visitors outweighed the local men, but the locals made up for this in speed and back-checking. The line-up:

Guelph—Goal, Grant; point, Hadden; cover, Hayes; rover, Spaulding; centre, Foster; right wing, McKen; left wing, Little.

Brantford—Goal, Cleator; point, Simpson; cover, Bragg; rover, Pace; centre, O'Connor; right wing, Cassidy; left wing, Wicks.

Referee—Allen Kipper.

Juarez Results.

Juarez, Mexico, Jan. 9.—The races were held today after the frost and snow storms. Lilly Faxon and Acune won the first and sixth races at 10 to 1. Faxon won three races. Summary as follows:

First race, six furlongs—Lilly Faxon, 10 to 1; 2 Gift, 100; 3 Buss, 107. Time, 1:14 1/2.

Second race, 5 1/2 furlongs—Lilly Faxon, 10 to 1; 2 Gift, 100; 3 Buss, 107. Time, 1:07 1/2.

LONDON JRS. BEAT WATFORD

Outclassed Juniors of That Town in Every Department and Won by the Score of 19 to 7—Game Was a Splendid Exhibition Despite the One-Sided Score.

[BY OUR OWN MAN.]

Watford, Ont., Jan. 9.—The junior Tecumsehs of London defeated the local junior O. H. A. team here this evening in the first game in group No. 7 by a score of 19 to 7. Considering that it was the first game of the season, both teams played fast hockey from the start, and in all probability the supporters of junior hockey in both London and Watford will be treated to some fast exhibitions before the end of the season.

The visitors surpassed the locals in all departments of the game, and also were in better condition, as they kept up the fast pace until within a few minutes of the end, while Watford tired in the second half. It took the Tecumsehs a few minutes at the start to get used to the small rink, and in the meantime the locals scored a goal in six minutes. Soon the visitors commenced their combination play, and rained shots on Haskette, who turned a large number of them aside. The London crew were not to be denied, and at half-time the score was 5 to 1 in their favor.

London Runs up a Score.

At the commencement of the second half the visitors continued their attack, and Watford was unable to score until the London boys had beaten Haskette seven times more. Brown rushed along the boards and beat Wright with a hard shot, and the score seemed to put new heart into the locals, who practically held the visitors even for the remainder of the game.

The stars of the locals were Prentice, Haskette and Brown. Lamb showed up to good advantage until compelled to retire as a result of being hit in the eye with the puck. Prentice, who is only 14 years of age, and weighs less than 100 pounds, was the shining light of the home team, and soon became a favorite with the crowd, which numbered over 300. He was the only Watford player that attempted a combination play, and was always waiting in front of the goal for the pass from the wings. These men never made an attempt to pass, and generally were smothered in the corners by the London defence.

Prentice scored the sixth goal for Watford on a lone rush from the face-off. He passed all the London players, and beat Wright with a wicked shot.

Wright Was Good.

The entire London team played their positions well, and those deserving special mention for the victory were Wright, who turned aside a great number of shots; Moore, Morenz and Ross. Morenz scored eight goals on individual rushes along the boards, and in combination rushes with the other forwards. The defence, composed of Rogers and Atkinson, broke up a number of rushes and fed the forwards well.

The game was strenuous to say the least, but there was very little deliberate rough play, as Referee Rogers of Watford, signified his intention of keeping the game clean a few minutes after the start, when he penalized Moore for five minutes for a stiff body check in the boards. This was the only case that a London man was ruled off. Several of the locals spent time with the penalty timekeeper, Rogers being the chief offender.

Watford Scored First.

For the first six minutes the game consisted of rushes up and down the ice, with Watford as the most aggressive, and finally Dadds scored on a long shot from centre. The London boys made a vigorous attack on the Watford goal, but Haskette made a ciple until Ross and Moore made a combination rush, the latter scoring after 15 minutes. Bettridge and Moore combined for the second minute later. Upon the resumption of play, Lamb was hurt and retired. Bettridge, going off with him. The remainder of the game was played with six men a side.

The London team was not to be denied, and Moore scored on a rebound after Slater had shot. The visitors added two more in the last two minutes of the half on combination rushes of Slater and Morenz, and Ross and Morenz, the latter scoring both goals. When play was resumed for the last half, the London team attacked the home goal, and in nine minutes had added seven goals by means of combination play. Brown broke the combination play. BATTERY AND A. M. C. PLAY TIE GAME IN INDOOR LEAGUE

Final Score Was 13-13—First Hussars Won From R. C. R. 26-16.

One of the best indoor baseball games ever played in London was that of last evening, when the Sixth Field Battery team and the A. M. C. met in the Armories Indoor Baseball League. The game resulted in a tie, both teams scoring thirteen runs. Owing to the late hour at which the game started, only seven innings were played and the tie remained unbroken, it being after 10 o'clock then, and the second game had to be played.

Tozer Back Again.
Tozer, who was suspended by the Garrison Sergeants' Association last week, after being protested by the R. C. R. team, was back in the game for the Battery, that team insisting on playing him. A great deal of time was wasted before the game started by a discussion over this player, and when the game did begin, Tozer was pitching for the Battery team. What action the association will now take is hard to ascertain.

A. M. C. Started Well.
The A. M. C. team started off well, and at the end of the fifth inning were leading their opponents by the score of 12 to 4. However, the Battery began to get to Livingstone after that, and in the sixth and seventh innings scored nine runs to the A. M. C.'s one, and tied the score. Both teams played well, some spectacular batting and fielding being pulled off by the players.

The teams were:

A. M. C.—Beaton, Orr, Taylor, Early, Gibbans, Wallace, Clarke, Richardson, Livingstone.

Battery — Dutton, Doherty, Tozer, Farquhar, Plunridge, Norman, McLeod, Ball, Jones.
Score by innings—
A. M. C. 2 0 3 2 5 1 0—13
Battery 1 0 1 2 0 5 4—13
Batteries—Livingstone and Taylor; Tozer and Dutton.

First Hussars Won.
The First Hussars beat the R. C. R.'s in the second game by the score of 26 to 16. It was the first win of the season for the Hussar team. The game was a batting fest on both sides. The R. C. R. team started off at a fast clip and were leading by a comfortable margin at one time, but in the latter stages, the Hussars scored enough runs to win out.

The game was featured by some sensational catches by Ashwell and Campbell. Ashwell's catch was one of the best seen in the Armories this season.

The Teams:
First Hussars—Campbell, Ward, Hill, Hunter, Roberts, Perry, Ashwell, Flint, McLeod.
R. C. R.—Raymond, Dunlevy, Phillips, Spicer, Gyves, Dewar, Kibbler, Phillips, Taylor.

Score by innings—
Hussars 2 4 6 1 3 10—26
R. C. R. 5 3 2 0 0 1—16
Batteries—McLeod and Ward; Dunlevy and Raymond.

League Standing.
The standing of the league is as follows:

	Won.	Lost.	For.	Ag't.
A. M. C.	3	0	55	28
R. C. R.	2	2	50	49
Battery	1	2	36	48
First Hussars	1	3	41	52

DOINGS IN CITY HOCKEY CIRCLES

The Church Leagues will hold away at Simcoe Rink this evening, the following games being played: Hill Street vs. Askin Street, 7 to 8; Knox Church vs. New St. James, 8 to 9; St. James vs. Christ Church, 9 to 10, and All Saints vs. Georges, 10 to 11.

There was some talk of the Hyman team contesting the First Hussars' win on Wednesday night owing to the fact that the Hussars put McLean on to even up at half-time, after playing eleven against seven in the first half. The protest has not yet been sent in to the secretary of the league.

According to the constitution of the City League the Meds. were all ineligible on Wednesday night. Their certificates had not been registered a week ahead with the secretary of the league as required by the rules.

The Watford rink is a small one; in fact, smaller than any rink in London, according to the members of the London Junior O. H. A. team, but it is well lighted, and this helps a lot.

VICTORIA BEAT NEW WESTMINSTER

Prodger's Team in Overtime by Close Score of Three to Two—Play Was Exciting.

Victoria, B. C., Jan. 10.—Victoria won from New Westminster on Thursday night after fifteen minutes' overtime play by a score of 3 to 2. The play throughout was very exciting. Summary of plays:
Goals—First period: Rowe, Victoria, 5:10; Tobin, New Westminster, 8:33. Second period: Rowe, Victoria, 3:34. Overtime: Ullrich, Victoria, 12:45.
Line-up:
Victoria—Lindsay, goal; L. Patrick, point; Prodger, coverpoint; Poulin, rover; Rowe and Ullrich, right wing; Dunderdale, centre; Small, left wing.
New Westminster—Lehman, goal; Oatman and Rochon, point; Johnson, coverpoint; McDonald, right wing; Tobin, right wing; Mallen, centre; Gardner, left wing.
Officials—Referee, Jack McDonald; Judge of play, Carl Kendall.

EIGHT MANAGERS GET SALARIES OVER \$10,000

Total Pay Runs Up to One Hundred Thousand Dollars a Year.

New York, Jan. 9.—Now, of course, the New York Americans at a reported salary of \$25,000, this record brings the total pay of eight prominent baseball managers up to \$100,000 a year, according to figures published here today. While a salary of \$25,000 was ten or fifteen years ago today, there are at least eight managers supposed to be drawing a salary of \$10,000 or more. The list, headed by Chance, also includes McGraw, of the New York Giants, at \$15,000; Mack, of the Philadelphia Athletics, at \$15,000; Jennings, of Detroit, the same; Clarke, of Pittsburgh, \$12,000; American League, same; Tinker, of Cincinnati, and Griffith, of Washington, all \$10,000. In addition to the Mack, Stahl and Griffith each own stock in their clubs.

GOLFERS WILL MEET IN NEW YORK TODAY

New York, Jan. 10.—Delegates from most of the golf clubs of the United States are on their way to this city today for the annual meeting here tomorrow, at which courses and dates for the three national championship tournaments this year will probably be decided.

Thus far the only applications for conducting the amateur title tourney have come from the Homewood Country Club of Illinois, and the Wykegill Country Club of New York. It was said the eastern course would probably be selected, as the event was held at Chicago last year. Only the County Club of Brookline, Mass., has asked for the open championship, and on condition that the meeting be held prior to June 27. The date and place for the women's national championship is also to be determined, officers of the association are to be elected, and probably some action taken on the sending of teams to Great Britain and France this coming spring.

M'GILL SWIMMERS TO COMPETE IN STATES

Arrangements Have Been Made For Tour.

Montreal, Jan. 9.—Manager A. A. MacKay, of the McGill University swimming club, has completed arrangements for the annual American trip, on which several of the larger universities of the United States will be competed against. McGill will leave Montreal on Jan. 24, and will swim against Pennsylvania on Jan. 25, and Yale on Jan. 27. After going to Brooklyn to compete against the Brooklyn Swimming Club. Negotiations are being carried on with Columbia and several other colleges, although the dates have not been definitely decided on. The team will consist of George Hodgson, middle distance Olympic champion; Frank McGill, A. A. MacKay, George Draper, L. Smith, E. McLean, B. Thom, F. Smith, E. Hatterson and J. Stafford.

HANOVER BEAT OWEN SOUND.
Owen Sound, Jan. 10.—The Intermediate O. H. A. game played at Hanover last night, between Owen Sound and Hanover, resulted in a victory for the visitors by a score of 7 to 5.

President Ed. Wettlaufer, of the O. H. A., will be present at the game this evening between Gulph Victorias and the local intermediates. Ed. will face the puck at the beginning of the game, and declare the season opened.

Many who saw the City League games on Wednesday evening are of the opinion that the A. M. C. team or the First Hussars would give the local O. H. A. teams a hard battle with an even chance of winning out.

George S. Chandler, who played with Perrin's championship team last winter, is in the City, but is cannot be learned whether George will remain here to play hockey or go back to Winnipeg, where he has been for the past few months.

The Manufacturers' League race looks as though Perrins, Lawson & Jones and the Empire Brass are the three teams that will fight it out for the championship.

ALEX. WANLESS WON GILLEAN PRIZES

First Bouspiel of London Club Was Held Last Evening and Good Games Were Result.

The weekly Thursday night bouspiels of the London Curling Club were inaugurated at the rink last evening, when Skip Alex. Wanless captured the prizes donated by Mr. Thomas Gillean, and thus had the honor of being the first winner of the season. The ice was in splendid condition and the curling was keen. Ten rinks took part in the bouspiel, and play was kept short after 4 o'clock in the afternoon. The Wanless rink finished with a plus score of 10, Jack McKay's rink taking second place with a score of plus 7. The games were all keenly contested and much enjoyed by the curlers. The prizes next week will be donated by Parks Commissioner W. Dillger, who is an enthusiastic curler. The scores and rinks were as follows:
F. McKay, Livingstone, N. Sanders and Skip A. Wanless, plus 10.
J. Lowery, F. Beltz, N. K. Wanless and Skip J. McKay, plus 7.
T. Loveless, H. White, J. Walker and Skip A. Throver, plus 5.
Tobin, B. McLeod, R. Johnson and Skip J. Richardson, plus 5.
W. Nutkins, G. Patrick, P. Willgoose and Skip J. C. Treble, plus 5.
Griffith, Dr. Seaborn, J. W. Jones and Skip G. Hindmarsh, minus 3.
Skip Bruce Wanless, minus 5.
Jackson, J. Highway, J. S. Bell and Dr. Wright, minus 5.
Johnson, Dr. Wyckoff, W. R. Vining and Skip J. P. Evans, minus 6.
N. P. Graydon, J. Anderson, Copeland and Hetherman, minus 8.

WORK ON YANKEES' NEW PARK BEGUN

New York Americans Will Play on Giants Grounds Until Theirs Is Completed.

New York, Jan. 10.—Work on the new park for the New York American League Club at Broadway and Two Hundred and Twenty-fifth street has begun, but it is said today that the new stadium will probably not be ready until next year, so that the American League Club will probably play all of the coming season at the National League grounds.

In the new American League property there is a small-sized pond, which is to be filled in with rocks and ashes before the place will look anything like a baseball ground. When the stadium is completed, it will be in Greater New York will have modern baseball homes.

Louisville has sold infielder Badger to Pittsburgh, of the Eastern Association, and Pitcher Vallandigham to Fort Wayne, of the Central League. Both came from the Blue Grass Fitcher Shorrod Smith and Outfielder Nicholson have been purchased by Louisville from the Pittsburgh Pirates.

Flynn's Marriage Robs Yale of His Further Services

New Haven, Conn., Jan. 9.—Maurice B. ("Lefty") Flynn, the Yale athletic star, who was married last night in New York to Monday Irene Leary, a chorus girl, was barred from the Sheffield Scientific School, Yale, because of the notoriety connected with his wedding.

"There is no rule whereby a student marrying under unusual circumstances should be prevented from returning to college," but a marriage that took place under such conditions as that of Flynn will not result in continuance of membership. Flynn stood well in his studies, although he was ill last year and for that reason did not keep up in some of his work."

Flynn is one of the most valuable all-around athletes at Yale.

HAMBY SHORE, of Ottawa. He shone in the Ottawa-Canadian game in Montreal last Saturday.

SCOTT HELPED SYDNEY WIN FROM HALIFAX

Maritime League Teams Do Battle in Sydney's New Arena.

Halifax, N. S., Jan. 10.—With the help of Harry Scott, in centre ice, Sydney won from Halifax Socials on Sydney ice, in the Iron City curtain raler and new arena opening last night by 7 to 5.

Scott, the property of Halifax Crescents, jumped to Sydney. After days of fuss the M. P. H. A. executive gave him back to the Blue Shirts, but allowed him to play last night in Sydney. Scott's value to that team will be recognized in the fact that he scored four of their goals and played brilliant hockey.

Tetrault, on a wing for Sydney, played a keen game. Hague, Twaddle and Murphy did the honors for the Gray Shirts. In a collision with Twaddle, Ferguson, Sydney's point player, was knocked out, and Harry Richardson, an old Sydney boy, just lately returned from the West, replaced him.

Scott is on his way to Halifax, but says he will make further demands on the Crescents, which might be set down as talk, as he is signed already by them.

PARIS PESSIMISTIC

Press of French Capital Worried Over International Situation.

[Canadian Press.]

New York, Jan. 10.—A cable to the Herald from Paris says: "The Paris press is pessimistic today over the international situation. The figures hint that Germany and Italy are intriguing, the former to reserve for herself the possibility of obtaining in the future one of the Aegean Islands, and the latter for the purpose of retaining some of those, including Rhodes, which she now occupies."

"The Echo de Paris sees signs of an approaching conflict in the mobilization of Roumanian troops, the summons of German reservists to the colors, and the news that the German military law is to be amended in such a way that an immense increase in the effective army on a peace footing will be obtained."

Sacramento traded Ed. McDonald to Chicago for Tom Downey because McDonald would not report to the coast. New Downey says he positively won't go. Sacramento should try again.

THE GUARDIAN

BY FREDERICK ORIN BARTLETT

It was Bella who had secured for him this job as dishwasher in the same restaurant where she served as waitress. After three days of idleness, during which she had furnished him with food and lodging, he had accepted this employment more in a spirit of gratitude than anything else. But now he was heartily tired of it. The humdrum, noisy atmosphere made him half sick; the hours from six in the morning till after eleven at night left him each day dead for lack of sleep, and finally Mrs. Hanrhan kept him in a constant state of irritation. Had it not been for Bella's state of mind, he would have been able to do something better for him, he would have chucked it long ago. He didn't propose to stand being bullied by anyone.

The ale, having in a few minutes roused him from a state of dejection to this stomach attitude, he was convinced that a third glass might do even more. He swallowed it, and his highest hopes were realized. On the spot he determined that he would stand for her sake. She had been very good to him indeed. He never had realized it before, but there was a limit to what he could stand for her sake. He went to the ferry with her every night. At first he had thought her rather homely, but of late she seemed to be growing handsome.

The barkeeper at this point offered a bit of advice.

"Better get along with them suds."

"Let her wait," said Gene.

"Take it from me, bo," answered the barkeeper. "Why not?"

"Cause she'll raise a fine crop of bumps on that sandy nut of yours if yuh do."

He swabbed off the dark mahogany with an expression of conviction mixed with utter indifference.

"Gene picked up the can and went out. His legs were springy now. At the foot of the stairs leading to the kitchen he lifted the can and took a long draught. When he pushed into the kitchen he was beaming. Mrs. Hanrhan made one dive for him with a volley of oaths that ordinarily would have cowed him. This time, however, he had reckoned with it, and taking into consideration the three glasses of ale, Gene shook himself free as easily as a bear cub and faced her.

"Keeful o' lady!" he warned.

Mrs. Hanrhan stared a second in dumb amazement. Her mouth was open and she had every expression of delivering an extra fine line of oaths, and yet not a single word passed her lips. The effect was impressive.

"Hold your hosses, o' lady!" Gene advised further.

Mrs. Hanrhan rolled her sleeves up over her heavy arms. Gene watched the preparations, still beaming. A pan of frying eggs left on the stove began to smoke. Still dumb, she levelled a stiff blow at him and bore down. He seized her by one fat shoulder and to spite of her weight held her immovable. Glaring, she waved her arms. His fingers sank into rolls of fat with a tighter grip which made her wince.

Then, as she found herself in a vise, she emitted a long piercing cry of "Murder! Murder!"

He dropped his hand. The room was filled with smoke that blinded them both. Gene knew his hour had come, and in a final fit of drunken recklessness seized the can of beer and deliberately poured it over Mrs. Hanrhan's head. Spluttering and gasping, she repeated her cry. Gene seized his hat and coat and ducked out of the room up the back stairs and out doors. He crossed to the saloon and threw his last nickel on the bar. As he gave his order, the barkeeper grinned.

"Guess yuh on now, huh?"

"Guess yuh on too," answered Gene.

"Yuh don't mean yuh done her up?"

"Quarther go, an' see her," said Gene.

The barkeeper shook his head.

"Not for me, but here," he returned.

"Not for me, but here," he returned.

CHAIRMAN DENNIS ADVISES CAUTION

Question of School Accommodation in London Is an Important One.

YEAR'S WORK OUTLINED

Kindergarten Should Be Dealt With Very Slowly—Clerk of Works for the Aberdeen School.

Trustee E. R. Dennis was unanimously elected chairman of the board of education at the inaugural meeting held on Thursday afternoon. Trustee A. M. Hunt presented his name, and the nomination was seconded by Trustee W. T. Strong. There was no opposition. In his inaugural address, Chairman Dennis named a number of important problems to be dealt with by the board during the coming year. He deprecated the endeavor to bring extraneous matters into the board, but hoped that the trustees of this year would deal only with the essentials.

In the works department he suggested the requisition forms for the janitors and principals, so that the necessity for repairs could be brought before the board in a uniform manner.

The improvement of the Chesley avenue school, together with the introduction of manual training and domestic science in this school should be dealt with at once.

More Accommodation.

There was need of more accommodation in West London, and the matter should receive careful attention. The newly-annexed districts would add much to the responsibilities of the board, and this territory should be carefully gone over before anything was done. The larger problem of the city accommodation throughout the year was one of great importance, and demanded close and careful attention. He suggested the employment of an efficient clerk of works when Aberdeen school was being constructed this year.

Manual training should be taken up in grades 5 and 6. At the present time it is confined to grades 7 and 8, and many boys are allowed to leave school without having received this training. This should not be.

The committee on physical development should be reappointed this year, as good work could be accomplished by these members. Co-operation in the home, and these should be considered by the board.

Co-Education.

"The system of co-education," he said, "has been in vogue in this city, and in many other municipalities in Ontario, for a number of years. Numerous observations are most unsatisfactory, and some critics that they are deplorable. Too much importance cannot be attached to the cultivation of proper reserve and manners of the youth of the country. Can more be accomplished toward this desirable end by the separation of the sexes? Our short experience in industrial education has taught us the value of differentiating the method of education for boys and girls. As the boys and girls are destined for separate spheres of action on attaining maturity, could they not be better prepared for life if educated separately? These are questions, I believe, we may well ask ourselves, and endeavor to evolve the proper answer."

A Most Important Advance.

The year 1912 was marked by one of the most important advances in educational affairs in this city—the establishing of day and evening classes in vocational training for workers in the industries. In accordance with the provisions of the industrial education act, "though inaugurated but a year ago, London has won distinction throughout the province through the establishment and successful attainment of operation of her Industrial and Art School. The fact that we have made more progress in industrial education during the year than any other city in Ontario should be a cause of satisfaction to our citizens.

In our present Industrial and Art School we have the nucleus of a large, important and useful institution. It is our duty to enlarge its interests along lines of progress and sound business policy.

In conclusion, Mr. Dennis thanked the members for electing him chairman of the board, and he asked for their hearty and sincere co-operation.

Committees and Officers.

The action of committees and officers resulted as follows:

No. 1—Dr. W. J. Teasdale (chairman), J. M. Gunn, Dr. R. W. Shaw, F. H. Greenlees, Dr. P. J. Muggan, W. W. Gammage, W. T. Strong, Rev. J. Gibson Inkster.

Audit committee—Dr. R. W. Shaw (chairman), A. M. Hunt, Dr. Teasdale, W. W. Gammage, W. T. Strong, Dr. P. J. Muggan, J. M. Gunn, Rev. J. Gibson Inkster, A. M. Hunt, H. B. Archer and A. W. White.

Commercial Advisory Committee—Dr. P. J. Muggan (chairman), Dr. Teasdale, Dr. Shaw, F. H. Greenlees, C. A. Whitlam and Mr. Aylesworth.

Representatives to Western Fair Association—E. R. Dennis and F. H. Greenlees.

Representative to Public Library Board—Rev. Dr. Sage.

Solicitor—T. G. Merritt, K.C.

Sergeant-at-Arms—Harry Merritt.

Reports Presented.

Inspector Edwards reported that the enrollment of the schools in December last was 6,287, a gain of 255 over the previous year, and the average attendance was 5,843, a gain of 278.

One teachers number 174—140 grade teachers, 25 kindergarten teachers, 10 teachers of manual training and domestic science and 5 supervisors, of whom 2 are regular teachers. The annexed district brought in 3 schools, 11

teachers, and between 600 and 600 scholars.

Principal McCutcheon reported that the enrollment at the Collegiate in December was 737, and the average attendance was 702.

Other routine business was disposed of. Those present were: Chairman E. R. Dennis, Trustees J. M. Gunn, W. W. Gammage, W. T. Strong, Dr. Teasdale, A. M. Hunt, Dr. P. J. Muggan, Rev. J. Gibson Inkster, Dr. R. W. Shaw, F. H. Greenlees, Inspector Edwards, Principal McCutcheon and Secretary McElheran.

Three-Fifths Clause SHOULD BE ABOLISHED

Mr. J. Elliott Tells of Its Disadvantages in the Recent Glencoe Contest.

[Special to The Advertiser.]

Woodstock, Jan. 9.—At the opening of the Young Liberals Club evening the principal speaker, J. C. Elliott, M. P. for West Middlesex, dealt at some length with the questions of tax reform, local option and workmen's compensation.

As a representative of a rural constituency, he made a vigorous protest against what he termed the reactionary stand in reference to tax reform taken by Sir James Whitney, and emphasized the injustice of the present system to the farmers of the province, who were penalized for being industrious. "Sir James, however," said Mr. Elliott, "sounded his whistle, and the conservative members of the committee stepped into line."

A Great Handicap.

Mr. Elliott did not like the three-fifths clause in local option. "In my own village of Glencoe," he gave as an illustration, "although 133 votes were polled for the bylaw and only 89 against, the bylaw was defeated by one-fifth of the vote. The time has come in this province when, in view of the tremendous sentiment expressed by the voters against the license system, the Government should take some advanced steps to carry out what clearly is the will of the people."

In regard to workmen's compensation Mr. Elliott declared the Liberals felt that longer delay on the part of the Government should not be tolerated. "Six years have gone by already," he reminded his hearers, "and this session there simply must be legislation. If the Government does not bring in a bill, Mr. Rowell has promised to do so himself."

The Navy Question.

Mr. E. W. Nesbitt, M. P. for North Oxford, who also spoke, went into the history of the naval question at length. The Liberal party at the present time, he said, was simply backing up the policy it had stood for in 1908. "The time has come when the Liberal party should have the courage to stand for a policy, but he pointed out that at the same time the revenue of the country had increased, and Canadians were now willing and able to do more than they had done in 1908. "The time has come when the Liberal party should have the courage to stand for a policy, but he pointed out that at the same time the revenue of the country had increased, and Canadians were now willing and able to do more than they had done in 1908."

On the other hand, Mr. Nesbitt quoted from Hansard to show that the Conservatives, Messrs. Borden and Foster, who were in 1908 struggling to get a Canadian naval force, had switched directly around, and now favored a cash contribution.

Mr. Nesbitt quoted Mr. Foster as saying in 1908 that he objected to a cash contribution because it looked too much like hiring Englishmen to fight for Canadians. One of the strong points brought out by Mr. Nesbitt was that in this matter it was not a question of whether Canada should have a navy, but whether she should go back to the old idea of centralization, or go forward to the Canadian management of our own affairs.

PIONEER OF EKFRID

Angus McTaggart Came From Scotland With Parents in 1831.

[Special to The Advertiser.]

Appin, Jan. 10.—Angus McTaggart, a resident of Ekfrid since 1831, died on Wednesday on the farm on which he had resided ever since coming to Canada from Scotland. He was 88 years old, and was a native of Knapdale, Scotland. In 1855 he was married to Margaret McBean, by whom he is survived with five sons and six daughters. The funeral will be held on Saturday.

FATAL PNEUMONIA

Warren H. Dalton, of Malahide, Will Be Buried in London.

[Special to The Advertiser.]

Aylmer, Jan. 10.—The death occurred on Wednesday night of Warren H. Dalton, a well-known citizen of Malahide, after a short illness with pneumonia. He was in his 55th year.

Deceased, who was born in Lynbrook, had followed the occupation of a cheesemaker all his life.

He had been in charge of the Northwood cheese factories.

He is survived by a widow and four children at home. Two brothers also survive, Harvey Dalton, of Malahide, and Nelson, of Detroit.

He was a Catholic in religion and a Reformer in politics.

The funeral arrangements have not as yet been completed, but the body will be taken to London for burial.

The Slim Woman Is Winning

The day of the slim woman's triumph has arrived. "The thinner one is the more stylish," say the dressmakers.

This would have been bad news for the fat woman a year ago. She would have been styled as "overweight" and "unfashionable."

Now, however, the woman who is too fat for the styles goes to a druggist and gets a case of Scott's Emulsion Tablets.

On which she takes after each meal and at bedtime, and so reduces her superfluous flesh quickly.

The tablets, being made in accordance with the famous prescription, are perfectly harmless, and they are also, the most effective preparation a person can buy, for they cost only 75 cents a large case, one of which is frequently enough to start a person losing fat.

But, should yours be sold out, you can easily obtain a case by sending to the makers, the Marmola Company, Farmer Building, Detroit, Mich.

MANAGER GLAUBITZ SUBMITS REPORT

Niagara Power Load Has Increased From 2080 to 3164 Horsepower.

BUSINESS IN THIS CITY

Street Lighting Increase Only Six-Horsepower During the Year—The Figures as Read at Meeting on Thursday.

At the inaugural meeting of the water commission, held yesterday afternoon, General Manager Glaubitz gave some interesting information regarding the operation of the waterworks and electrical departments. During the year, the city's electrical load had risen from 2,080-horsepower to 3,164, while the amount of power sold had increased from 3,900-horsepower to 4,900-horsepower, and the connected load from 8,900 to 8,900-horsepower. The total number of connections grew from 2,903 to 3,801, divided as follows: Power customers from 60 to 158; customers using light on a power basis, from 40 to 140; light connections from 3,777 to 4,593. The street lighting load increased only 6-horsepower.

The surplus for the year was \$17,296.75. In addition to the local surplus, there was a surplus of \$9,000 to the credit of the city with the hydro-electric commission, Mr. Glaubitz stated. The cost of promoting business, amounted to \$7,800, or, approximately, \$6 a horsepower.

The Waterworks.
Referring to the waterworks, Mr. Glaubitz pointed out that the surplus was much larger than the preceding year, although the revenue was reduced \$2,300, owing to the reduction in the amount of water used for street watering, furnishing free water to the parks, and also owing to the commission handing the receipts from the parks to the park board. The extraordinary expenditure had increased more than was estimated, owing to the fact that the commission had to pay office rent, something not estimated on, and also because 1 1/2 miles of conduits at Springbank had to be taken up to remove the roots of trees.

The cost of operating the Springbank station was \$1,200 less than the two years previous to the introduction of Niagara power. At the same time \$400 had been expended in repairing the hydraulics at this station.

New Main Laid.
During the year 8,360 feet of 12-inch main, 1,450 feet of 18-inch main, and 800 feet of 10-inch main had been laid. The work had been done by the department's own men, saving \$2,400 on the transaction.

Three hundred and forty-two new services were installed during the year, bringing the total to 13,270.

The pumpage increased 26,000,000 gallons. The Toronto street wells furnished 12,000,000 more gallons than in 1911. The water in the wells was two feet higher than a year ago, showing the permanency of the well scheme.

Insurance Reduction.
The reduction of a main completed. The underwriters had promised a reduction of 10 per cent if this was done, and the strength of the fire department increased. It was expected that the reduction would be given.

The reports will be printed in the minutes.

WOMAN EXECUTED FOR SMOKING OF OPIUM

Shot to Death in Public Place as an Object Lesson to People of Shanghai.

Shanghai, Jan. 10.—Death as a punishment for opium smoking was meted out today to a woman of this city who persisted in the use of the drug despite the stringent manifesto issued by the Government on Christmas Day, prohibiting the people from indulging in the habit.

By order of the governor of the province, the woman was taken to a public place and executed by shooting this afternoon in the presence of a large crowd of spectators.

The manifesto issued by the Chinese Government, expressed the desire for the suppression of the evil in order to save the people from a life of degradation, but at the same time voiced the fear that although the Government was in earnest the people would try to evade the law.

The probable collapse of the opium trade was foreshadowed some time ago when it was found that Indian opium to the value of \$50,000,000 was stacked in thousands of chests in Shanghai and Hong Kong warehouses without finding buyers. After the manifesto was issued by the Government it was virtually impossible to procure opium in the coast provinces, or the Yangtze provinces, and it was known that the authorities had been ordered from Peking to enforce the prohibition laws. Today's execution, however, was the first instance in which they have been put into full effect.

One of the most interesting "finds" of the year is that of a portrait of Cervantes, discovered by a Spanish collector of curios in Seville. The portrait is by Juan de Jaurigui, and is alluded to by Cervantes in the preface to an edition of his novels. This picture, according to the Century Magazine, which prints a reproduction of it, "has been sought for all over the world for three centuries by admirers of Cervantes."

COMPEL SCHOOL TRUSTEES TO HAVE PROPERTY QUALIFICATION

Trustee A. M. Hunt Will Try to Bring Matter Before the Legislature.

The kindergarten question, like Banquo's ghost, will not down. At the inaugural meeting of the board of education held yesterday afternoon, Trustee W. W. There was no discussion, but Trustee Gammage intimated afterwards that he

For Two Years SUFFERED SEVERE PAIN IN THE BACK.

Many people fail to understand the significance of a lame, weak, sore or aching back.

When the back aches or becomes weak it is a warning that the kidneys are affected in some way.

Take notice to the warning and cure the backache on the first sign, for if you don't do this, serious complications are sure to arise, and perhaps develop into Dropsy, Diabetes or Bright's Disease, the three most deadly forms of kidney trouble.

Doan's Kidney Pills go right to the seat of the trouble, cure the back and prevent any further trouble from the kidneys.

Mrs. D. J. Melnis, Carleton, P.E.I., writes:—"For two years I had a severe pain in my back. I was so bad that when I would stoop down I could not straighten up for quite a time. I got a box of Doan's Kidney Pills and they helped me so I kept on using them until I had used three boxes, and now I am completely cured. I think they are the only remedy for disordered kidneys."

Doan's Kidney Pills are 50 cents a box, 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

MEMBERS LEFT AND BROKE UP MEETING

East End Progressives Had a Rather Turbulent Session Last Night.

WANT HOTELS TO REMAIN

Objection Taken to Cutting Off Bars of the Suburbs, While Leaving Many in Heart of City.

Although many subjects were introduced for discussion at the meeting of the East London Progressives Thursday night, very little real business was done. A representative attendance turned out, but dissensions in the ranks over a triviality resulted in a number of the members leaving before the meeting was over. This abrupt action resulted in disheartening the remainder and the gathering broke up shortly afterwards.

It was the intention to elect the officers for the ensuing year, but this matter was left over until the next meeting.

Didn't Canvass Enough.

The result of the recent elections was briefly discussed. The defeat of Mr. Wm. Hayman was introduced, and the cause assigned was that the canvassers did not get out and canvass for himself sufficiently.

What to do with certain funds, which had been subscribed some months ago, with the ultimate view of lending the money to industrial concerns, was an important item on the agenda.

If they failed to induce industrial firms to come to London, some proposed to turn the money over to the market. Others wished to leave the money in the bank. No decision was arrived at and the matter was left in abeyance.

Work of the Association.

President Wakeling stated that he had been told by the citizens that the Progressives were a useless body and had never accomplished a single thing for the East End. Mr. Wakeling mentioned several things which he claimed the association had undertaken and had brought to a successful issue. He claimed a certain amount of credit for the annexation of the suburbs. This scheme had been first broached in their meetings two years ago. Then they had also been instrumental in placing direct lights on Egerton street, and had made the East London C. P. R. station a flag-post for the early morning train.

Cutting Off Licenses.
The members were also against the plan of cutting off the hotels in the suburbs. They considered that some of the bars in the down-town district should lose their licenses before those in the outlying districts.

CRUEL KINDNESS.

A daily paper assures us that tears are Nature's means of brightening a woman's eyes.

Dear, we've always thought her Perfect hitherto.

This our infant daughter Born of me and you;

Never tired of telling Everyone we know

Beauty all-excelling

She would shortly show.

Still we must not trust her Looks to luck, but try

Means to add a lustre To each infant eye;

Our parental duty Bids us, if we can,

Supplement the beauty Sketched in Nature's plan.

So let us supply her Whom we hold so dear

With a beautifier In the frequent tear.

This should lend a lacquer To her young regard;

Go, my love, and smother her— Smother her really hard.

The kindergarten question, like Banquo's ghost, will not down. At the inaugural meeting of the board of education held yesterday afternoon, Trustee W. W. Gammage gave notice that at the next meeting of the board he would move that double sessions of the kindergarten be re-established, and that the single sessions now in vogue be done away with.

There was no discussion, but Trustee Gammage intimated afterwards that he

would insist that double sessions be resumed.

"A question is not settled until it is settled right," he declared.

Two of the strongest advocates of single sessions, Dr. Wyckoff and Mr. F. Irwin, members of last year's board, are no longer members, and the change may result in bringing back double sessions.

Amend School Act.

Trustee A. M. Hunt is anxious to have the school act amended to compel all candidates for the position of trustee to have a property qualification, as is the case with candidates for the aldermanic board. He suggested that steps be taken to induce the Government to make the changes desired. His notice will also be discussed at the next meeting of the board.

PURSE OF GOLD FOR REV. J. W. HAWKINGS

Popular Pastor of Central Baptist Church Leaves for London.

SARNIA BRANCH OFFICE,
209 Front Street.
Office hours, 9 a.m. to 5:30 p.m., 3:30 p.m. to 5:00 p.m.

[Special to The Advertiser.]
Sarnia, Jan. 10.—Prior to their departure for London, Rev. and Mrs. Hawkins were presented with a purse of gold and china dinner service as a mark of esteem in which they are held by their congregation. Rev. Mr. Hawkins has left for London, where he has accepted the pastorate of a church. The members of the Central Baptist Church are more than sorry that he left, as both he and his wife were extremely popular.

ICE IN RIVER

Large Quantities of Block Ice in the St. Clair.

[Special to The Advertiser.]
Sarnia, Jan. 10.—Ice is still floating down St. Clair River in large quantities. It differs from that of yesterday considerably in regard to size. Today huge fields of it half a block square drifted slowly along with the current. Fortunately it is not very thick and does not impede the ferry boats.

HOME MISSION PROBLEM

Address by Rev. J. G. Stuart in South London Baptist Church.

Thursday night's meeting of the week of prayer in South London churches was held in the Baptist Church, Rev. Mr. Walker presiding. Dean Davis, Rev. W. H. Harvey and Rev. J. G. Stuart addressed the gathering, the latter taking the topic for the evening, "The Home Mission Problem."

Mr. Stuart stated that this was an enormous problem for Canada, and that this country was beset with many difficulties. The national well-being of the nation depended on the prosecution of the home mission propaganda, including both religious teaching and patriotic observance.

He pointed out that it was the character of men which made the nation, and that the church was the only institution which had for its sole object the formation of character. Mr. Stuart

can be cured by the great fur kidney and liver remedy.

stated that the four churches represented at the meeting had a total of 2,000 missionaries doing active service in the character-building work in Canada. A million and a half dollars annually was spent on the maintenance of these. The 1913 estimates were very much larger, he stated.

LATEST TALK IN SOCIETY AND HOME

"This isn't the story of a 'pink tea,' but it happened at an important meeting of women called to discuss ways and means relating to a certain organization."

"Oh, tell us all about it," said several of them, as one lady was explaining some previous remark.

"Well, it is filled with pictures, and you know what that means to children. Why, they are so interested that they need but little other amusement."

"But what is it?" asked one interested listener.

"Why, the Illustrated Bible."

"Where did you get it?"

"Oh, you've been away, so you don't know. Why, The Advertiser gives them to you, and all you have to pay is just the expense."

One must, indeed, be a stranger not to have heard of The Advertiser's great offer, for it is being talked about everywhere—at home, on the street, in society—every place one goes this is now the chief topic of discussion.

Why? Just because it is the only Bible ever printed with pictures running through-out the text matter. You can get all kinds of Bibles—some of them with

FIGHTING AGAIN IN THE BALKANS

Breach of Armistice Reported
From the Neighborhood
of Lake Derko.

THE BULGARS TO BLAME

Repulsed by Turks and Thirty of
Their Wounded Were
Captured.

Constantinople, Jan. 9.—There has been a breach of the armistice in the neighborhood of Lake Derkos. Little is yet known of the details, but it is stated that the Turks surprised the Bulgarians while they were cutting the telegraph lines, and that a sharp fight followed. The Bulgarians are said to have been repulsed with a loss of 30 wounded, who were brought here.

The Porte announces that if the Balkan allies' delegates in London do not accept its terms by the end of the current week, the Turkish representatives to the peace conference at the British capital will be recalled. Notes to this effect have been sent to the Ottoman ambassadors abroad. It is added that the sacrifices to which the Porte has already agreed marks the extreme limit of Turkey's concessions, and that nothing will induce it to make a change of attitude in regard to Adrianople or the Aegean Islands.

Ambassadors Meet.
The foreign ambassadors here held a long conference today, and it is understood that they framed a note embodying the views of the powers in regard to the demands of the allies and urging Turkey to continue the negotiations. The Marquis Pallavicini, the ambassador of Austria-Hungary, will present the note at a naval demonstration by the powers is hinted at in the note, but the opinion is widespread in official and general quarters that whatever step the powers may take is bound to fail if it is in the nature of supporting the demands of the allies for Adrianople and the Aegean Islands, and if intervention is offered it will be courteously declined.

MONTREAL MAN FACES A SERIOUS CHARGE

Convent Pupil Says He Tried
to Throw Her Into a
Furnace.

Montreal, Jan. 9.—Lying in a little cot in the General Hospital, Kate Marcovitch, 12 years old, this morning told of an assault on her, to cover up which a man whom she claimed was employed in the furnace room of the convent, attempted to thrust her in a furnace.

The little Marcovitch girl is a pupil at the Convent de Lion Secours. Yesterday, she says, Chartrand, who is employed in the furnace room of the convent, enticed her into his quarters, as he said "to enable her to warm herself." He then sprang upon her, and after assaulting her pushed her into a furnace. She screamed and struggled, and hearing somebody coming, Chartrand threw her into an ash heap and ran out of the building.

The child's hands are badly burned, while she is also suffering from bad bruises.

Chartrand was arrested this morning.

ONE YEAR FOR BIG STEAL

Skyrocket Financier Got Away With
\$27,000 From Bank.

[Canadian Press.]
New York, Jan. 10.—Joseph G. Robin, akyrocket financier, was sentenced today to serve one year in the penitentiary at Blackwell's Island for the larceny of \$27,000 from the Washington Savings Bank, of which he was an officer. His light sentence was due largely to a plea for clemency made on his behalf by District Attorney Whitman.

Mr. Whitman based his plea on the fact which Robin had given him in prosecuting Charles H. Hyde, former city chamberlain, and William J. Cummings, for bribery and larceny, respectively, in connection with transactions with the defunct Carnegie Trust company. Both Hyde and Cummings were convicted. Robin has spent twenty-two months in the Tombs since his indictment. There were eight indictments against him, and he pleaded guilty to one. The other seven were dismissed today.

BOB ROGERS' CHARGES DECLARED MALICIOUS

Saskatchewan Legislature Passes
Resolution Censuring the
Statements of Borden's
Colleague.

[Canadian Press.]
Regina, Jan. 10.—Direct legislation will not go into effect in Saskatchewan until the principle of the referendum has been applied to the direct legislation bill itself. This was settled by the Legislature after it had expressed its approval of the bill introduced by the attorney-general. Under the terms of a supplementary measure the main bill will be submitted to a referendum vote of the electors some time this year and the assent of 30 per cent of the electorate will carry direct legislation.

Several important resolutions were adopted at yesterday's session, including one censuring the statements made by Dr. Roche with reference to the public domain and another calling attention to the governor-general to what are described as "malicious unfounded charges" made by Hon. Robert Rogers against the Saskatchewan Government.

WILL ALBERTA HAVE A GENERAL ELECTION?

Some Think Polling May Follow
if the Privy Council Decides
Against Government.

[Canadian Press.]
Edmonton, Alta., Jan. 10.—Speculation is rife in political circles in the capital as to the probable effect on the Government in case the Royal Bank's appeal in the Alberta and Great Waterways' case, now before the privy council in England, should go against the province.

Conservatives state freely that since Premier Efron took office solely on account of the division which arose in the Government over the A. and G. W. case, and that the ground of the present appeal was his first legislative act, the premier will be compelled to resign should the decision go against the Government.

The next session of the Legislature will open on Feb. 13, and there is a general impression that a general election will follow some time during the year.

The present Conservative representation in the House is only seven out of more than forty members, and recent by-elections have been in favor of the Government.

It is said to be probable, according to remarks recently made by the premier, that the number of seats will be increased by dividing the outlying constituencies which have been filling up very rapidly with new settlers.

WINNIPEG ELECTRIC REPORTED SOLD

Syndicate of New York Capitalists
Said to Have Taken Over Line.

[Canadian Press.]
Winnipeg, Jan. 10.—It is rumored in civic circles that the Winnipeg Electric Railway has been sold to a syndicate of New York capitalists, which made an offer for the property last year.

E. B. Reese, E. L. Mather, Robert Muir and Arthur Muir are said to be local representatives of these capitalists. It is known that they secured a five months' option on the property last year. About a month ago the legal representatives of the New York men were in the city, and it was said at that time that arrangements were being made for taking up the option. Hugh Sutherland, one of the directors of the railway, said he knew nothing of the alleged sale, and intimated it had not taken place. Sir William White said he did not know anything of the sale. On the other hand, it is said, all the arrangements were made directly by Sir William Mackenzie, and that the principal negotiations took place through the Toronto office. Manager Phillips, of the railway company, declares he knows nothing of the sale.

ULTRA DEMOCRACY IS

Continued From Page One.

had the same advantages as Great Britain in receiving the gospel, but in none had religious and civil liberty been developed as in England. Liberty the Foundation.

Still another theory had attributed Britain's greatness to her isolated position. This was in part true. It was easier for Napoleon to march to Moscow than to cross the channel into England. Not that he did not have the men, but he did not have the ships. England possessed a seafaring people, and much of her position in the world was due to this fact.

Liberty was the great fundamental principle of British government. The love of liberty had been handed down from generation to generation, and was the outstanding feature of the British the world over. Out of this love of freedom came responsible government.

Great Britain has done a great work for civilization. It was she who for decades fought piracy and slavery, and single-handedly succeeded in driving it off the face of the earth. It was Great Britain who for many years protected the missionaries of every nation throughout the world.

It was Great Britain who brought justice and liberty to the downtrodden. In doing her duty she acquired vast territories, which were considered of no value. When they were secured, other nations sought to destroy England's influence. Of all the nations she alone has colonized properly and well.

Stability and Responsibility.

The outstanding features in the development of Great Britain were stability and responsibility. The absence of tyranny was another pronounced feature. England had never resorted to conscription in raising the army, although there were many arguments in favor of it. It was a policy which would have cleared up the slums, perhaps, but the better way, in his judgment, was to remove the slums and that which caused them. These slums were not caused by the military spirit, but by indulgence in strong drink. Would Great Britain go down? he asked. It was impossible for the colonies, one and all, standing at her back, and they will see that she does not go down.

Calls People "the Mob."

"There are dangers within the empire," he declared. "One of these is apathy. Many there are who take no interest in the militia or other matters. Then again there is the desire to pander to the democracy of the nation. What shall I better call it? The mob, perhaps. This constitutes its greatest danger. The ultra forms of democracy are present in England and in Canada, and in pandering to these the empire's greatest danger lies. No man should be allowed to vote unless he has something at stake here. Every citizen should drill annually with the militia, or he should be compelled to pay a sum of money into the treasury for not doing so. I do not advocate this at the present time, but it is well worth considering."

Military and Navy.

Col. Hughes spoke on military matters for some time. The militia was the essence of peace in the country. No man in the militia desires war. There never was a war caused by soldiers, but wars were undoubtedly caused by lawyers, diplomats, and sometimes by the clergy. In Canada he would speak with authority regarding the members of the militia, and he was forced to admit that none of them desired war. But he did desire that the country be prepared. Along these lines, he had made a special study of the cadet movement. It was his belief that the education of the youth of the land, he inaugurated the system, and it had proved its right to exist. If boys were taught to read and write, why should they not be taught to drill and shoot? The sons of soldiers led in all spheres of life. These cadets were taught by competent instructors under proper conditions, and he invited the skeptical to pay a visit to one of these cadet camps, and see the kind of work being done there.

An Imperial Parliament.

Col. Hughes favored an imperial parliament with representatives from all the overseas dominions. He briefly advocated the gift of battleships to the British navy.

Mr. Arthur W. White introduced the toast to Canada, which would be responded to by Dr. J. A. Macdonald. The latter, in beginning his address spoke briefly regarding his great love for London and Middlesex County.

Dr. Macdonald's Address.

Dr. Macdonald was given an excellent reception. The business of Canadian clubs to think about Canada," he said. "It is the mark of a good Canadian that he takes the Canadian point of view, sees with Canadian eyes, cherishes Canadian ambitions and helps to make Canadian dreams come true. If Canadian problems are not solved by the intelligent and thoughtful attention of the people of Canada, they will remain unsolved. The solution will not make for the welfare of Canada, nor for the prestige of Canada, among the nations."

Solve Own Problems.

"It is the duty of the people of Britain to set themselves to solve the British problems. That is their business, not ours. So, too, with Australia and New Zealand, and South Africa, and every other self-governing part of the Empire. We have all been charged to 'think imperially.' A few years ago 'thinking imperially' was the mark of a progressive mind, as the 'oversight' was in the previous generation, and the 'referendum' is today. But imperial thinking is a very vague and vagrant exercise for those who have never thought clearly and to definite purpose on national affairs and on local problems. If the strength of the wolf is in the pack, the real strength of the pack is also the wolf. Empire is a reality, strong and enduring, only in so far as the component parts of it are called Empire are free to develop in their own way, and to its own ideal of citizenship and service. It is for this reason I start out with the affirmation that the first duty of Canadians is to think about Canada."

What Canada Has Done.

"Canada has already done something in world politics which gives her a place among the nations. We are sometimes told that Canada has nothing to her credit. We are assured that whatever Canada has she owes to Britain. Canada has no army, and her militia is only sufficient for her own needs, and for navy we have only a debate in Parliament. For all this we are admonished to be humble and not to think of Canada more lightly than we ought to think."

"My answer to all that lofty talk is this: The facts of history make it plain that were it not for Canada there would be no Canada, and were it

not for Canada there would have been no British Empire.

What Canada Is.

"What is Canada? It is a confederation of all the provinces of British North America into one national unit, governing itself in all Canadian matters, controlling its own revenues, choosing its own national policies, and yet an integral part of the British Empire and loyal to the person and throne of the British sovereign. And every one of these elements in Canada's status as a self-governing Dominion within the Empire is the result of Canadian choice, of Canadian statesmanship and of Canada's deliberate action."

Canada's Great Innovation.

"Let no Canadian be ignorant or forgetful of the fact that if the old colonial subjection has been changed into the national self-government of today, that achievement was the work of a past generation of Canadians. And in that achievement, in their effort to establish free national institutions without breaking the ties of affection and affection and historical relation that bound Canada to the mother country, those first Canadian nationalists had no precedent. The thing they undertook to do had never before been done in the world's history. No colony of any empire, ancient or modern, had ever achieved full self-government, except by cutting the painter and striking for independence. The American colonies in the eighteenth century were the next-door example for the Canadian provinces in the nineteenth century. The American illustration meant self-government, but not empire. Canada dreamed of both."

Pioneers of Empire.

"Those Canadian pioneers had no precedents. They were pathfinders, the true pathfinders of empire. William Lyon Mackenzie and Louis Papineau blazed the trail. Baldwin and Lafontaine laid deep and strong the foundations. George Brown and John A. Macdonald reared the walls and set the copstone. And when the superstructure of the Dominion stood four-square it was a new thing in the political architecture of the world. It embodied a new idea. And the vital power of that idea made possible the world-empire of Britain."

"Let there be no mistake at this point. It is of fundamental importance. The old Roman idea of empire was disproved. Centralized authority over subject states could not endure, even with Rome, when those states were far scattered, resourceful, and isolated by the sea. The case of the American colonies proved the impotence of that idea in the government of the British breed. Canada's many's experience with her African possessions is another illustration today."

Independence.

"That very same problem faced Canada last century. Canadians demanded self-government. It had to come, either by independence or by some other unexperienced way. Even so late as the date of Confederation the public opinion in Britain favored the independence of Canada. Both Peel and Gladstone favored it. They saw no other way by which Canada could exercise the required rights of self-government. They had not seen the Canadian vision. The dream had not come to them."

"But to Canadians came that vision, dimly at first, fully, but ever beckoning, pointing the way to new outposts of civil dominion, crossing the margin beyond which old-time loyalty feared to go. It was the vision of the new Canada. It was the dream of a free nation leading a procession of untried sovereign states, and one day would belt the world with the national flag of Britain. Canada was first to see the gleam, and first to follow. Then, out of her penal twilight, Australia saw it, and New Zealand, and under the Southern Cross there rose a new Commonwealth and a new Dominion. Less than a decade ago across the blood and fire of the void the vision passed, and Boer and British joined hands in the new Dominion of South Africa."

They Also Saw the Vision.

"Canada, Australia, New Zealand, South Africa and the self-governing colony of Newfoundland, those five overseas dominions of the King, the five fingers of a great hand. They are all free; they are all vitally related; and they all look towards the palm. And on the stretched forehead of that great hand the name of Canada, brightest jewel of them all, sparkles forever."

Canada in the Empire.

"What is Canada's place in the Empire? That question is in the forefront of political debate today, not in Canada alone, but in Britain. It raises the same vexed question for all the other Dominions. It cannot be hushed or blinked or side-stepped. Must be faced squarely with open eyes and resolute minds. Facing that question may demand in this generation the same downrightness and unflinching loyalty to principle demanded by the struggle for Canada's self-government on the narrower stage of the Canadian provinces three generations ago."

Must Be Self-Governing.

"Canada in the Empire. Answer that question honestly and you show your hand. Either you stand on this side for the uncomprovised national independence within imperial relations, which Canada in principle and more and more in fact, has already achieved, or you stand on that side for the surrender of some part of Canada's autonomy and for the return to principle and also in fact to something of the rejected role of Downing Street and the Family Compact. No middle way is open. Three-quarters of a century ago, Lord Durham made his epoch-making report. That new epoch-marking in effective Parliamentary government at once representative of Canadian opinion and responsible to the people of Canada. Through all these years of struggle for independence, Canada has had statesmen who knew the seasons when to take occasion by the hand and make the bounds of Canadian freedom wider yet. The widening of Canada's freedom, stage by stage, has given the lie to the doubts and fears of those who charged that liberty and self-government would destroy the loyalty of Canadians and surrender the Dominion to anarchy."

"The prophets of disaster, who at our fathers as they wait now at us, that freedom meant independence or annexation. Two generations of Canadians answer. A free people is never disloyal to their flag unless that flag dispels servitude or is stained with dishonor. A free people—free to govern themselves—even though their government be bad, free to free their own laws even though they work injustice, free to burden themselves and to throw off their burdens, free to tax themselves into poverty and to knock the shackles from their industry and trade, free to endure the loss of their own folly and to enjoy the fruits of their own labor—such a people, free, independent, contented are never disloyal. Such freedom is Canada's today, and because of that freedom all Canadians

are loyal to Canada and to Britain and to the great alliance of free nations owning allegiance to the King."

Seat of Authority Here.

"But such freedom is compromised in every scheme of imperial organization which shifts from Canada the seat of Canadian authority or takes from the Government and Parliament of Canada one particle of responsibility for Canada's policy in taxation, in trade or defence. Information? Yes. All that may be given. But the policy must be Canada's, made in Canada, and made, too, in the free debate of the free Parliament of Canada. Canada's fiscal policy, Canada's trade schedules and Canada's action in peace or in war must be determined in Canada. The voice that speaks for Canada on all great matters of national moment must be heard in Canada, authority and carry the Canadian action. No Imperial trade commission, no Imperial defence committee and no Imperial cabinet not responsible to the electors of Canada can command obedience from Canadians in matters of taxation or of naval policy or of military service. With meanings, which Kipling may not have dreamed: A nation spoke to a nation; A queen sent word to a throne; A laughter am I in my mother's house; But mistress in my own."

Canada Must Settle.

"We have been told with loud and insistent emphasis that Canada's fiscal policy must not be decided at Washington. Neither must it be settled in London or in Australia or in New Zealand or in South Africa or in Newfoundland. If a reciprocal trade agreement with the United States involves compromise and conflict, much more would an Imperial trade agreement covering all the antagonistic trade interests of all the countries of the Empire involve compromise and conflict. If Canada had accepted the trade agreement with the United States, the very terms of that agreement left Canada free to change it, or to abandon it altogether at any time and without notice. In an Imperial pact it would not be so. The fact of allegiance makes the difference."

"And if Canada claims and exercises the right to open or to close the gates of her trade as she sees fit, Canada is left free, if it serves British interests to keep untaxed the food of her people and to hold open her markets for the commerce of the world, in my judgment no deeper insult could be offered to the people of Canada than to suggest that Canada's place in the Empire could ever be secured by taxing the food or the trade of the people of Britain. Canada does not need a preference for her wheat. To ask for it as the price of allegiance would be to betray Canada's honor. To be asked to ask for it would be to insult Canada's intelligence."

Must Control Military Forces.

"In matters of defence, Canada must maintain the same self-government, she exercises in matters of trade. It is quite true that when Britain is at war Canada is not a neutral nation. Imperial relations make neutrality impossible. But Canada has the right to remain a non-combatant nation. Canada was not neutral when the Boers and British were at war in South Africa. Canada was a non-combatant until, by the decision of the Canadian Government, she took active part. It is of the very essence of national autonomy that Canada should retain control over both the land forces and the sea forces maintained by the people of Canada."

"You tell me that the foreign office of Britain ought to know beforehand that the admiralty or the war office could command the forces of Canada in the event of Canada's joining in war. I answer you that the foreign office ought to make its diplomacy so straight and so just that its course would certainly command, not the will of Canada, but the moral judgment of Canada and the resolute support of the Government of Canada. What is needed in the foreign office and in the war office and in the admiralty is not more autocratic power, but deeper sense of public responsibility, a modernized notion of national greatness, and the twentieth century ideal of social service and social justice as applied to international relations. The wisest statesmen in Britain today regard it as a beneficial discipline that the few men in whose hands are the interests of peace and war should feel themselves responsible not merely to London opinion, but also to the independent moral sense of the overseas nations of the Empire."

Ties Light, But Enduring.

"You will say to me again that there might be risk in losing the question of Canada's part in Britain's wars to be decided by Canadian authority as occasions may arise. Say that, and you say that the tie which binds Canada to Britain is already cut, and in so saying you slander the loyalty and integrity of the Canadian people. President Taft once said that 'the tie which binds Canada to Britain is palpable and light as air. And so it is. That tie is imperial loyalty, and light and love, but stronger than bargained bonds, more enduring than selfish greed. It is the tie of a common life, a common love, and the indissoluble tie of an absorbing Imperial idea. By that vital tie Canada holds her place in the Empire."

Canada in America.

"Canada's place and function on this American continent are determined by her place in the British Empire. This nation holds this half continent, dividing with the United States the resources of America and sharing responsibility for American civilization and the duty America owes to the world. Millions of citizens have changed from one to the other, making vital the ties of interest and the business, which defy all boundaries and barriers. Canada did more business with the United States last year than with Britain and all the rest of the world combined. Geography need the events of history have made these two English-speaking nations the nearest neighbors with the greatest common interest of any two nations in all the world."

Political Union Not Desirable.

"Let this be set down as fundamental. The political union of these two nations is not on the program. It is neither desired nor desirable on either side. Canada does not desire it, does not need it, and would not approve it. The United States does not desire it, does not need it, and is better off without it. The supreme interests of each nation are better served by their separate national existence. The situation is safer and simpler for all because two flags and not one are aloft on the Atlantic and the Pacific, representing English-speaking civilization, ideals and power."

Canada Plus Great Britain.

"The best philosophy of international relations on this continent, accepted by thoughtful leaders in both countries, was expressed by Secretary of State Knox when he said: 'If there were no Canada it would be in the interest of the United States that one should be created and should be a nation in the British Empire. The power of America today is the power of the United States and the power of Canada united. Canada, separated from Britain, either as an independent power or as a part of the American Republic, there would be no plus.'"

"Thoughtful people all over the United States are coming to appreciate what that 'plus Britain' means. It means safety on the Pacific. And it may mean safety on the Atlantic if ever the authority of the Monroe doctrine is put to the test."

"But Canada on this continent does more than involve Britain in the preservation of American integrity. As a national unit in the British Empire and the next neighbor for 4,000 miles of the United States, Canada is the bond and the interpreter between the two great sections of the English-speaking race, holding both together for the highest good of each and for the best interests of all the world."

Canada and France.

"Canada has a tie of vital interest with the Republic of France. It is not by chance, it is not for nothing, that one-third of the Canadian people are of French blood, speak the French language and inherit the French traditions. It is Canada's good fortune that her citizenship is not all of the dull and unromantic Anglo-Saxon. It makes her citizenship a blend of the best of both worlds, and it makes her a center of interest and elements of prestige abroad that so large and so important a factor in Canada's population constitutes a bond of sympathy and fraternity with the great French Republic. It is one of the distinctions of Canada's nationhood that here these two proud races that once fought to the knife are now blended into one Canadian nation, bound by the nation's flag, because under that flag life for both is just and free. And it ought to be, indeed it is, a vital factor in the cordial relations between the British Empire and the French Republic that two and a quarter millions of French citizens of Canada own loyal allegiance to the British flag. In making that fact possible and potent Canada plays a great imperial part and promotes the peace of the world."

Canada and Germany.

"Canada has relations with Germany, which ought to count for the good of both countries, and for the progress of civilization. Hundreds of thousands of Canadian citizens are of German ancestry, many of them German by birth and education. Canada has no better citizens, none steadier or more progressive, than those whose ancestral loyalty was to the flag of the German states, and who still love the fatherland as truly as those of British breed love the moors and glens and purple hills of their motherland. This German element in Canada's life and industry should be a bond of sympathy and of intelligent understanding between Canadians and the people of the German Empire. At this moment no better imperial service can be rendered by Canadians than in deliberately and definitely establishing and making strong all good relations with Germany. There has been so much wild and wicked misunderstanding of the German Emperor, representing him as a blood-and-fire war lord, and so much malicious and dangerous incitement of anti-German feeling, that Canadians as citizens of the Empire, are under obligation to rebuke the slanderers and tell the wholesome truth. It is one of the duties of our international politics that the Teuton blood so strong in both Germany and England, while thicker than water, is not able to silence the war-talkers and scare-mongers on both sides. The Prime Minister of Canada can render no better service to his country or to Britain than by making Germany as well as France the place of friendly visitation, where he moves abroad as peaceful spokesman for this Dominion."

Canada and the World.

"Canada's blood relations with the greatest nations and races makes her place in the world unique, potential and of commanding interest. The question is this: What will Canada do? For what will she stand? How will she behave herself when she comes to her own among the nations? Will her vote go for the disproved ideals of the world's past greatness, the international hate and strife and selfish greed that has marred the world's history, a record of international crime and prostituted diplomacy to chicanery and deceit? Or will Canada show the more excellent way."

"Canada has the right to speak for peace, and not for war. On this continent for a hundred years the peace has been kept, and along 4,000 miles of boundary the sun looks down on no jawning fort or menacing battlement. With these peaceful boundaries, as peaceful as mill ponds, Canadians have the right to ask of their brothers of the same blood in Britain and in Germany if the North Sea, swept free of all Dreadnoughts, would not be the sphere of Teuton fellowship rather than a wild and angry flood bearing the fleets of Armageddon."

A Century of Peace.

"Canada has lived peace, and has learned the worth of justice, the power of law and the true greatness of service. She has seen all the nations of history burdened with war debts and manhood destroyed in wars of incalculable slaughter. She has reckoned the cost, not in money alone, but in heroes who fell in war and in the unborn multitudes who died in the heroic dead. That price she shudders to think of. She has seen the Christian civilization show the more excellent way."

"Which way will she take?"

Hon. W. J. Hanna.

Mr. B. C. McCallum proposed the toast to 'The Judiciary,' responded to by Hon. W. J. Hanna.

The Provincial Secretary, after a few preliminary remarks, launched into an interesting account of the work being done on the prison farms in the province. In the Central Prison there are altogether 150 men. Nearly last year it was decided to build a new asylum at Whitby, and men were detailed from this prison to do the preliminary work. From 40 to 50 men were selected for their fitness, not for their better or worse, but to clear up the property and to build up the asylum. At the present time there were 77 men. They worked with the same freedom that any other men worked on the farm or in the factory. The men were well contented and well cared for. There was not a solitary attempt at breach of discipline. They worked without loss of time or hindrance.

At Fort William the experiment had been very successful. The Crown Lands Department had set aside 1,000 acres, and the prisoners

were put to work clearing off this land. At first fifteen men were engaged, but the number was increased until on an average 50 men had been employed since last June.

Work for Idle Hands.

"These men are big strong men, when they get into mischief," declared Mr. Hanna. "No greater penalty can be given them than to give them work. Since June last they have cleared up more than 200 acres, and have raised over 600 bushels of potatoes and turnips. They are clearing at the rate of twelve acres a week at the present time. And this is done by men who live in the open, who sleep in tents, with a handkerchief for a pillow."

At Guelph 320 men were at work in the open. Altogether, of the 550 men in the Central, 420 were engaged in work of the best kind. Visitors from nearly every state in the union had visited the institution, and had found it producing excellent results. It was figured that these men were doing efficient work, some say better than the average hired labor.

Not Jail-Birds.

"When these men leave the prison farms, they go out fit to work," declared Mr. Hanna. "These places are not prisons, and when the men leave they are not branded as jail-birds. They have no difficulty in obtaining employment. We should have machinery for following these men up, and looking after them better. That has not been provided as yet, but it will be provided. We hope to have it ready shortly. In conclusion, I may say that the prison farm work has shown excellent results."

The banquet closed with the singing of the National Anthem.

NOTHING PROVIDED FOR DEPRECIATION

Commissioner Chapman Criticized the Report of the Hydro Commission.

MR. POCOCK IS CHAIRMAN

to-Elected for the Fourth Time at a Meeting Held on Thursday Afternoon

At the meeting of the water commission, held on Thursday afternoon, Commissioner Philip Pocock was re-elected chairman of the board for the fourth time in succession. He was nominated by Commissioner Wyatt, and there was no opposition to his selection. He thanked the board briefly for their continued confidence in him.

The financial statement of the electrical department was read, showing a surplus of \$17,500 approximately. This is the report in detail presented at the last regular meeting of the board in December last. Commissioner Chapman asked if any allowance had been made for depreciation, but was informed by Chairman Pocock that no such provision had been made.

"I think there should have been," declared Commissioner Chapman.

"It is not necessary," answered Mr. Pocock. "The depreciation would not amount to 2 per cent, and that is much more than covered by the surplus we have."

Auditors F. G. Jewell and A. S. Creighton were reappointed for the year. Commissioner William Wyatt was named representative of the board to go to Ottawa with the deputations from the Hydro Commission.

The men in the water and electrical departments petitioned to be paid twice a month, instead of once a month as at present. This request will be granted.

Rates in the Suburbs. The rates for water and hydro applicable to the city will prevail in the suburbs from the beginning of January. General Manager Glauzitz will work out a scheme for supplying them.

Mr. Glauzitz submitted the report of Dr. Amyot on the analysis of the water, who found it absolutely pure.

The parks board for 1913 will consist of Commissioner Wyatt, Mayor Graham, Messrs. Emery B. Hamilton, John Marr, W. B. Saunders, W. H. G. Gammage. General Manager Glauzitz presented his annual report on the waterworks and the electrical department, and they will be printed in the annual report.

Those present were Chairman Philip Pocock, Commissioner Wyatt, A. S. Jewell, J. H. Chapman, William Wyatt, Mayor Graham, General Manager Glauzitz and Secretary Elliott.

PERRY—COPPIN

Pretty Mitchell Girl Weds. Former Forty-Eighth Highlander.

[Special to The Advertiser.]

Mitchell, Jan. 9. — One of the prettiest weddings of the season took place at Thames Villa, the home of Mr. and Mrs. John Coppin, yesterday, when their only daughter, Irene Maude, was married to Mr. Walter Darcy Perry, a member of the forty-eighth Highlanders, lately of Toronto. The wedding took place in Trinity Church at 12 o'clock noon in the presence of a large number of invited guests.

Rev. T. J. Charlton, rector of Trinity Church, assisted by Rev. J. A. Stevens, of Toronto, performed the ceremony. The bride looked lovely, gowned in ivory duchess satin, trimmed with rose point lace and pearls, with tulle veil and orange blossoms. Lily of the valley and white heather, and carried a shower bouquet of lily of the valley, maidenhair fern and roses.

Mr. Frank Perry, of Cobalt, was groomsmen, and Miss Perry, of Cleveland, bridesmaid. Following a trip to Washington Mr. and Mrs. Perry will reside on the Huron road.

Eat Three Meals a Day and Let Stuart's Dyspepsia Tablets Digest Them—The Stomach Soon Recovers After This Brief Rest.

The very worst thing you can do is to starve yourself to overcome stomach misery. Make your meals just as comprehensive as possible. Use Stuart's Dyspepsia Tablets freely for awhile, and all trace of stomach trouble will be gone. Dieting is a fallacy. The intensive farming and gardening of the present day forces such quick results that our dietary is lacking in the quantity of flesh-forming elements of former days. This we get a surplus of starch; meats are often de-

spoiled of much of their nutritive quality; the soil is depleted of its amount of vegetable salts it ought to have. We do not obtain the natural ripened fruits and vegetables hence the stomach requires assistance to digest an overabundance of fibrous material and take care of fruit acids that Nature had no chance to convert into grape sugar. So we need more pepsin than the system can supply, more diastase, more of the natural tonic and preservative properties which ripened vegetation should give us. This deficiency is made up in Stuart's Dyspepsia Tablets, and is the only way to have stomach-health under modern conditions.

Try just one box and you will never want to be without this wonderful remedy for stomach troubles. Stuart's Dyspepsia Tablets contain an ingredient, one grain of which will digest 1,000 grains of food. They are so entirely harmless, because they have absolutely no effect on the system one way or another except to do just the one thing—digest food. Every drug store sells and recommends Stuart's Dyspepsia Tablets. The price is 50 cents per box.

G. T. R. BUSINESS IS STILL GOING UP

Seven New Engines Are To Be Put In Use on This Division.

Increase of freight and passenger business on the middle division of the Grand Trunk, of which London is the hub, has necessitated many additions to the power equipment on the road, and new locomotives are being delivered regularly during the past few weeks.

There are now forty road engines in yard use on the division, and seven new yard engines are to be delivered during the next few days. The power for road use is also being augmented, and of late many N. T. R. locomotives, which will later be assigned to work on the Grand Trunk Pacific, have been placed in service here.

These engines are capable of hauling 150,000 pounds more than other locomotives, which are supposed to be in the same class, and can develop phenomenal speed. They have been opened up to 70 and 80 miles an hour, and a few days ago a passenger train was hauled from London to Sarnia, a distance of 59 miles, in 60 minutes. Three stops were made en route.

WOODSTOCK WOMAN IS DEAD IN CHINA

Mrs. Ernest Hibbard Dies of Smallpox in Mission Field.

[Special to The Advertiser.]

Woodstock, Jan. 9.—The news of the death of Mrs. Ernest Hibbard, of Woodstock, from smallpox in the Chung King mission field in China, has reached here.

Deceased, whose maiden name was Emma Barlow, was born and educated in this city, where she was a prominent worker in the Dundas Street Methodist Church, later taking up the study of missionary service. She married Ernest Hibbard, a pastor to the church of the young folks of Woodstock, and on Thanksgiving Day last left for China. Her parents still reside in this city.

MAY CLOSE DANCE HALL

Winnipeg Morality Officers Think the Coliseum a Menace to the Young.

[Canadian Press.]

Winnipeg, Jan. 9. — With more than \$105,000 invested in the land and the building, there is a strong probability that the Coliseum, the elaborate new dance hall opened here some weeks ago, will be closed by the civic authorities and its license cancelled. Emphatic protests are being made to the police commission, the board of control, and to the aldermen, that the hall is a menace to the morals of the young folks of Winnipeg, and as the result, John A. Schuberg, lessee of the hall, appeared before the board of control today to defend his position. Schuberg insisted that the place was being well run, and offered to pay the salary of any civic inspector who might be appointed, also making 18 years of age the limit for both sexes.

At the present time two matrons are employed to see that no undesirable characters enter. While the attitude of the mayor and controllers was not encouraging, it was decided to give the man a definite period before taking decisive action. The public morality officers reported to the board that many people of dubious character were in the habit of frequenting the hall, and the controllers thought this warranted cancellation of the license.

BOARD OF TRADE

L. Breithaupt Was Elected President of Berlin Organization.

Berlin, Jan. 10. — The annual meeting of the board of trade was held last evening, at which the following slate of new officers, with the exception of the treasurer, was elected:

President, L. L. Breithaupt; vice-president, Oscar Rumpel; secretary, W. P. Clement; treasurer, W. H. Schmalz. Council—H. L. Janzen, W. M. Lochead, H. J. Sims, G. M. Debus, D. B. Detwiler, M. Schiedel, A. Wellheuser, A. L. Breithaupt, A. Postor, W. E. Gallagher, W. H. Leeson, A. J. Roose, J. A. Scellen, G. W. Shirik, Dr. A. E. Rudell.

The retiring president, H. L. Janzen, in his address, pointed out that during the past year eight large inquiries had been added and thirteen concerns had increased the accommodation at their plants 60 per cent. He advocated city planning, the appointment of a publicity commissioner and the taking of steps to relieve the housing problems.

FALL WAS FATAL

Brakeman Thomas Fraser Slipped in Front of Locomotive.

[Special to The Advertiser.]

Niagara Falls, Ont., Jan. 9. — Corporal F. W. E. Wilson presided over an inquest into the death of Thomas Fraser, the switchman who was killed yesterday morning in the yards of the Michigan Central Railway here. The witnesses included the members of the crew operating the engine that ran down the young man. Their testimony was to the effect that Fraser did not see the approaching train until it was too late. He made an attempt to get out of the way, but slipped on the sleek-covered ground and fell in the path of the engine.

APPIN MEETING.

[Special to The Advertiser.] Appin, Jan. 9.—The annual meeting of the Women's Missionary Society of the Presbyterian Church was held yesterday. OHIO RIVER FLOODS DOING GREAT DAMAGE

City of Wheeling Cut Off by Biggest Inundation in Many Years.

Wheeling, W. Va., Jan. 9. — The Ohio River reached a stage slightly under 44 feet tonight, and this city is in the midst of its most disastrous flood with the exception of the visitation of 1884 and 1907.

Tonight the Baltimore and Ohio Railroad brought in its last passenger train from the east. The train plowed through 18 inches of water for a quarter of a mile before reaching the station. Railroads, trolley lines and steamboats are all out of commission, and the city is practically isolated from the outside world.

In some sections of the city the natural gas supply is cut off, and much suffering caused. A majority of the iron and steel mills have been forced to suspend operations by the high water, and upwards of 10,000 men are idle.

Pittsburg, Pa., Jan. 9.—The crest of the river flood was reached here today with a stage of 21.3 feet, 11 feet over the danger mark. Tonight the water is receding. A large area, including a number of streets in the business district, suffered inundation and the loss is heavy.

Hundreds of homes in the lowlands are flooded, and scores of manufacturers are flooded, and scores of manufacturers are flooded, and scores of manufacturers are flooded.

INSTALLED OFFICERS

Ingersoll Lodge is Now Thirty-four Years Old.

[Special to The Advertiser.] Ingersoll, Jan. 10.—Court Marquis of Lorne, Ancient Order of Foresters, has reached an interesting stage of its existence, the celebration of its thirty-fourth anniversary. The event was fittingly observed, a social evening following the transaction of the usual business, and the installation of officers of the court and the juvenile branch, Court Little John. A number of the wives of the members and friends were in attendance, and all enjoyed the occasion.

The following officers were installed: Court Marquis of Lorne—J. P. C. R. George Crabb; C. R. Geo. Stephenson; S. C. R. W. W. Wilford; treasurer, W. J. Elliott; assistant secretary, N. P. Bevis; S. W. Jas. Sangster; J. W. F. Waters; S. B. W. A. Forman; J. B. F. G. Henderson.

Court Little John—W. C. P. W. Webster; W. S. C. Gordon; Cline; treasurer, W. Cline; secretary, F. G. Henderson; assistant secretary, N. P. Bevis; S. W. H. Henderson; J. W. W. T. Fleischer; S. B. J. Fleischer; J. B. Sangster; M. O. Dr. Neff.

GEORGIAN BAY CANAL IS BADLY NEEDED

Importance of the Work Urged on Public Works Ministry.

[Canadian Press.] Ottawa, Jan. 9. — Prominent parliamentarians and others headed by Mr. Gerald White, M. P. for North Renfrew, waited on Hon. Robert Rogers, minister of public works, today, and asked that the construction of the Georgian Bay Canal be commenced without further delay.

Arguments in support of the request were submitted by Mr. White, Gerald Brabant, M. P. for Pontiac; E. A. Dunlop, M. L. A. for North Renfrew; George Campbell, M. L. A. for Pontiac; Mayor Dupuis, of Hull; A. J. Forward, secretary of the federated boards of trade and municipalities, and others.

Hon. Mr. Rogers told his visitors that the Government had the question of the Georgian Bay Canal under consideration and promised that the request, to avoid delay, would receive attention.

QUERIES ANSWERED

MOTHER! WATCH THE CHILDREN'S BOWELS

If Cross, Sick, Feverish, Bilious Or Tongue Is Coated Give Delicious "Syrup of Figs."

No matter what ails your child, a gentle, thorough laxative, physic should always be the first treatment given.

If your child isn't feeling well; resting nicely; eating regularly and acting naturally it is a sure sign that its little stomach, liver, and bowels are filled with foul, constipated waste matter and need a gentle, thorough cleansing at once.

When cross, irritable, feverish, stomach sour, breath bad or your little one has stomach-ache, diarrhoea, sore throat, full of cold, tongue coated; give a teaspoonful of Syrup of Figs and in a few hours all the clogged-up waste, undigested food and sour bile will gently move on and out of its little bowels without nausea, griping or weakness, and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not drugging your children, being composed entirely of luscious figs, senna and aromatic it cannot be harmful, besides they dearly love its delicious fig taste.

Mothers should always keep Syrup of Figs handy. It is the only stomach, liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow.

Full directions for children of all ages and for grownups plainly printed on the package.

Ask your druggists for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious, genuine old reliable. Refuse anything else offered.

Mr. A. T. Smith.

You apply Dr. Chase's Ointment for eczema and feel the benefit as if by magic. It may take some days to get the sores cleaned out and the healing process fully established, but from day to day you can see the old trouble gradually disappearing and know that you are getting rid of it.

Mrs. A. T. Smith, 1 Mt. Charles St., Montreal, Que., writes:—"I had eczema on my leg for four years, and tried many remedies and doctors in Montreal and Boston, without any benefit. I used three boxes of Dr. Chase's Ointment and was cured completely. This was three years ago. Since then I used Dr. Chase's Ointment for irritations and eruptions of the skin, and easily got rid of them with two or three applications. Dr. Chase's Ointment is a wonderful preparation."

Dr. Chase's Ointment, 50 cents a box, all dealers or Edmondson, Bates & Co., Limited, Toronto.

LEGISLATURE MEETS FEBRUARY FOURTH

Sir James Whitney Announces Date of Calling Members Together.

[Special to The Advertiser.]

Toronto, Jan. 10.—The members of the Ontario Legislature will be called together on Tuesday, Feb. 4. The announcement was made by Sir James Whitney yesterday.

We can't do better for \$15 no Other Tailor can do as well

"We Operate Our Own Mills in Scotland"

EVERY \$15 SUIT IS MADE TO FIT PERFECTLY.

Have you ever heard the statement made that buying a suit from a tailor, who does a large "made-to-order" business is not much better than buying "ready-made" clothes?

What it means is that the tailor who does a small business may charge you more for your suit, but he will give you a better fit. This argument is the invention of the small made-to-order tailor against the big made-to-order tailors—a wrong argument against the Scotland Woolen Mills tailors.

Now, consider this fact about the methods of all tailors. They all measure in the same way. They draw the tape around the body, and over the shoulders, and along the arm, and so on, each one taking the same lines of measurement for a customer.

The way you are measured for a \$15 suit in our store, is the way you would be measured for a \$40 suit in a high-priced store.

After you leave our store, having been measured for a \$15 suit, the cutter has exactly the same chart to work from that the cutter would have in a \$40 shop. Cutters only know their customer from those charts. If the measurements are taken correctly, the suit will fit perfectly.

A ready-made suit only fits passable. It is a near fit. Ready-mades are made for stock sizes, they don't take into account the small differences of the frame that made all the difference in the fit. We employ high-priced men. Every customer is measured separately. The cutter cuts the cloth for your suit, separately. It is in every sense a made-to-measure suit. It is a carefully-tailored suit. The fit will not be "guessed" or a "near fit." It will be a "perfect fit."

WARNING TO THE PUBLIC: Do not confuse the Scotland Woolen Mills Company with any other firm conducting a tailoring business in Canada or the United States. We have only one branch in each of the following cities: Detroit, Cleveland, Toronto (head office and tailoring shops), Hamilton, Winnipeg, London, Calgary, Edmonton, Regina, Saskatoon. We absolutely deal direct with the Mills in the Old Country, and the goods go direct to you after passing through the workshops of the company. Remember that the Scotland Woolen Mills Company introduced the Fifteen-Dollar Made-to-Order Mill-to-Man Suit.

ARCHDUCHESS WEDS A NAVAL OFFICER

Member of Austrian Royal Family Renounces All Privileges.

[Canadian Press.]

Vienna, Austria, Jan. 9.—The Archduchess Eleonore, eldest daughter of Archduke Karl Stephen, by her marriage today to an Austrian naval officer, Lieut. Von Kloss, renounced all priv-

ileges connected with her rank. The ceremony was performed at Saybusch in the Province of Galicia, and was a quiet affair, at which only the members of the two families were present. The archduchess, who is 26 years of age, was first obliged to obtain the consent of the Emperor Francis Joseph and of her parents.

FOUND DYING

Charles Katon Is Thought to Have Fallen From Wagon.

Windsor, Jan. 10.—Considerable mystery surrounds the death at the Hotel Dieu of Charles Katon, aged 24 years, of Maidstone Township. Katon was brought to the hospital at three o'clock yesterday afternoon by two men who found him lying beside a wagon loaded with hay just beyond the city limits. He was unconscious when picked up, and died without being able to tell how he met with the accident. It is thought that he was thrown from the wagon and that the fall fractured his skull.

NO INDIGESTION, GAS OR A SOUR STOMACH

"Pape's Diapiesin" Makes Your Stomach Feel Fine in Five Minutes.

[Special to The Advertiser.]

Wonder what upset your stomach which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt, if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Diapiesin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quick, sure, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores.

It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

WRIT FOR DAMAGES

Mr. George Mason Will Sue Street Railway Company For Death of His Wife.

Mr. George Mason has issued a writ against the London Street Railway Company, in which he claims unstated damages for the death of his wife, which is alleged to have been caused by the negligence of the servants of the company. Mrs. Mason was fatally injured on Saturday evening, Dec. 14, when she stepped off a moving car on Central avenue, near Cartwright street. She was removed to St. Joseph's Hospital, where her death occurred the next morning. The company stated at the inquest that the deceased lady rang the bell for the car to stop, but did not wait until the next corner was reached. The jury was unable to fix the responsibility upon any of the employees of the company. Mr. E. W. M. Flock is acting for Mr. Mason.

William Simmonds Had Arm Crushed at the London Foundry.

William Simmonds, who lives on Ridout street south, near Tambling's Corners, stumbled while at his employment at the London Foundry Company Thursday afternoon and in falling thrust his left arm into a pulley. The member was drawn into the belt, and very badly crushed before Mr. Simmonds could be extricated. He was attended by Dr. D. H. Hogg, and was removed to Victoria Hospital in the police ambulance. He spent a rather restless night, and will be laid up for some weeks.

Canadian Pacific

Empresses of Russia and Asia

An unusual opportunity for an around the world cruise all under the Canadian Pacific flag with its consequent standard of service is offered, with the advent of the great new quadruple screw turbine engine steamships Empress of Russia and Empress of Asia.

The Empress of Russia will sail from Liverpool April 1 and will call at Gibraltar April 4, Villefranche April 8, Port Said April 12, and will proceed via Suez, Colombo, Penang, Singapore, Hong Kong, Shanghai, Nagasaki, Kobe, Yokohama, and arrive at Vancouver, Saturday, June 7. From Vancouver to Toronto passengers may travel via Canadian Pacific main line or Crown's Nest Pass line and may also travel from Port William or via Great Lakes route to Port McNicoll.

Vessel remains 16 days at Hong Kong.

The most direct connection to make for the sailing from Liverpool April 1 is via Empress of Britain from St. John, N. B., March 21, 1913.

The rate for the entire cruise is \$89.10, exclusive of maintenance between arrival time in England and departure of the Empress of Russia. A similar cruise will be made by the Empress of Asia, sailing from Liverpool, May 27, 1913.

May Be Actual Suffering at Al-bertan Town Before Spring Navigation.

A PERILOUS TRIP MADE
Of Seven Men Who Started for Civilization Only Three Reached Edmonton.[Canadian Press.]
Edmonton, Alta., Jan. 10.—That the food supply in Fort George is running short and that there is likely to be actual suffering there before navigation opens up in the spring, is the word brought out by John Beck, who, in company with Henry McNeill and Henry Marshall, reached this city the other day after a tramp of 149 miles from Fort George to Mile 52 B. C., in the face of a blizzard.

Seven men set out on the perilous trip from Fort George, with the end of steel—Mile 52—as their destination. The three men mentioned reached their destination after a week of hard travel—the others dropped off along the line at construction camps exhausted and unable to continue the march.

According to Beck all seven left Fort George for two reasons—provisions were getting very low in the mountain town, and they wanted to get back to civilization after spending six months in the wilds. They set out with provisions for one day and with very little baggage, their plan being to reach a new camp each day. From 52 the survivors of the party got a train to Fitzhugh and then came to Edmonton.

The first few days on the trail were not so bad, as there was little or no snow, but during the latter part of the week a blizzard arose, and those who still pressed on had to buck snow drifts all day long. "I can't tell you what it was like," said Beck. "You would have to go through it yourself to know. More than once the only thing I wanted in the world was to lie down in the snow and go to sleep. But we struggled on over the rocky trail, up and down mountains, until finally we would reach the next camp and a night's rest."

According to Beck the camps of the larger contractors are plentifully stocked with provisions, but the supply in some of the smaller camps is already running short, and he predicts some hard times for the men before the winter is over. Many of the gangs along the Fraser River are able to continue work, especially in blasting and other rock work.

Mr. Beck estimates that with the approach of winter the population of Fort George dropped from 500 to 250 by reason of the exodus to more congenial places of abode. Prices there are very high, as might be expected, while eggs and other "delicacies" are not to be had for love or money.

SHOE MACHINERY CASE IN SUPREME COURT

U. S. Government Appeals From the Decision of the Massachusetts Court.

[Canadian Press.]
Washington, Jan. 10.—Acts of officials of the United Shoe Machinery Company were up for measurement by the Sherman anti-trust act today in the supreme court. The court had advanced the Government's appeal from the action of the Massachusetts federal court in annulling the indictment against the officials as not charging an offence under the Sherman law.

The appeal of the Government from the holding of the lower court was made by Solicitor General Bullitt. He declared that the constitutionality of the Sherman act as a criminal measure was now beyond dispute. The combination of the country into one, he contended, was in itself so great a proportion of the entire business as to constitute a restraint of trade within the meaning of the Sherman law. The solicitor general so contended that the adoption of a so-called "tying" clause, whereby every customer, in order to secure any one kind of machine from the "combine," was compelled to agree not to use any other machine made by the "independents," and to use only machinery made by the combine, was also in violation of the law.

Frederick P. Fish and Charles F. Choate, jun., of Boston, were present to defend the action of the officials. They took the position that the consolidation of the separate concerns into the United Shoe Machinery Company was a normal trade development. As to the "tying" clause they declared the court did not at this stage have the power to consider that, because it was merely an overt act, charged to prove the conspiracy, and not a part of the conspiracy itself, which was the only thing the court could review.

FAVOR CANTEN.

Washington, Jan. 9.—In favor of the restoration of the army canteen, Secretary of War Stimson, Surgeon-General Torney, Brigadier-General Wetherspoon and Representative Bartholdt, of Missouri, appeared today before the House military affairs committee to urge Mr. Bartholdt's bill for that purpose.

Mr. Stimson said that without the canteen conditions were worse than when the sale of beer and light wines was allowed at army posts.
