[G. N. W. Dispatch.]

Ottawa, Ont., June 23. - From information given out today it is improbable that the labor department will have anything further to do with the difficulties between the trainmen and the companies. The Minister of Labor is not in the city, but it was stated that now that the board of conciliation has been appointed and made its finding, the matter is ended, so far as the now for the interests involved either to accept the finding or get together and conduct further negotiations them selves. The department cannot interfere with the findings of the board.

[Special to The Advertiser.]

Montreal, June 23-The general committee representing the men employed in the train and yard service on the Canadian Pacific Railway yesterday wired the Department of Labor at Ottawa refusing to accept the decision of the dispute between the railway and its employees, which had been given by the board of arbitration. No definite action has yet been taken concerning the award of the board in the matter between the G. T. its employees in similar branches of the service, whom the general committee also represents, but to straighten out. as the demands of the men are simimembers of the executive stated last doubtless, also, be rejected.

R. engaged as brakemen, conductors, and other branches of the train and yard service, the territory in which the men want their wages and conditions of service altered being the district east of Chicago, throughout which they claim other railways, including all the American roads, have adopted a standard far more advantageous to the employees than those in force on the C. P. R. and G.

The message further stated that unless the committee heard from the company, as outlined in the foregoing part of the message, before 10 a.m. to-day they would decide that the company was unwilling to adopt the standards contended for by the men, which they claim are generally recognize throughout the territory, and would proceed to act on the assumption that refusing the men the concessions de

Declined the Award

Montreal, June 22.—The following is the telegram sent by the C. P. R. trainmen's committee to the Minister of Labor: Hon. W. L. Mackenzie King, Minister of Labor:

The general committee representing the men the train and yard service on the C. P. R. unanimously request us to advise you that they have received and thoroughly considered the award handed out by the board of arbitration in the recent investigation. While thanking the board for its earnest efforts, honest consideration and intent in preparing the award referred to, the committee is compelled to advise you that it is unsatisfactory, being impracticable of adoption, and that it cannot be accepted. For reasons best known to the gentlemen composing the board, standards and comparative differentials existing in the territory, and on the C. P. R., have been entirely ignored, or, worse still, reversed, thereby making the award, as handed down, impossible of acceptance. We are this date writing Mr. McNicoll, quoting this telegram, and asking if his company are still indisposed to recognize past and recently advised standards in the territory.

Delegates to the Convention Were Greatly Pleased With Springbank—Sessions Are Still Going On.

The delegates to the coal dealers' convention, and the American representatives in attendance were given a trolley ride by Mayor Beattie this morning.

They were met at the convention headquarters with two big cars, and taken to Springbank Park. They had a long distance view of the consumptive sanatorium, and took a half hour ramble in the big park down the river.

On their return they were taken for a ride through South London and arrived back at convention headquarters at 10:20.

The business before the convention was largely routine business today. The delegates talked coal and sweltered in the heat. The most interesting feature was the round table conference, conducted by wisitors, in fact the larger number, did

Mrs. Louis Inra will never be without Duffy's Pure Malt Whiskey, now that she has found out what it will do for her. Last winter it cured her of a severe cold. Her happy husband says:

"In justice to Duffy's Pure Malt Whiskey I must say that it cured her of a severe cold when everything else she tried failed. She has been troubled with a cough every winter recently, and has tried all kinds of patent medicines and home remedies without their doing her much good. Finally I advised her to try Duffy's Pure Malt Whiskey once and see if it would not give her some relief. That was early last

MRS. LOUIS INRA. winter, and the results were very gratifying, so much so that Mrs. Inra will never be without your valuable Malt Whiskey any more, and has such faith in it that it takes the place of honor in the Family Medicine Chest."—Louis Inra, 422 East Nineteenth street,

Ministers of the gospel, doctors of medicine, nurses and people everywhere unite in commending Duffy's Pure Malt Whiskey, a perfect tonic stimulant, the one true medicinal whiskey.

DUFFY'S PURE MALT WHISKEY

Is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, thus destroying the germ and proeing a liquid food, tonic and stimulant, requiring no digestion, in form of a medicinal whiskey. Its palatability and freedom from injurious

substances render it so that it can be retained by the most sensitive stomach. Its gentle and invigorating pro-perties influence for good every im-portant organ in the body. It makes portant organ in the body. It makes the old feel young and keeps the young strong and vigorous.

CAUTION—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It is an absolutely pure medicinal malt whiskey and is sold in SEALED BOTTLES ONLY—never in bulk. Look for the trade-mark the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Price, \$1.25 a large bottle. Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., for doctors' advice and an illustrated medical booklet containing testimonials and rules for health, both sent free.

COAL DEALERS AT PORT STANLEY

Delegates to the Convention Enjoyed a Banquet Last Night.

Statistics at the city hall show that PRAISE FOR CANADIANS

American Visitors Speak Highly of the Members of the Ontario Association.

The members of the Canadian Retail Coal Association believe Port Stanley to be an ideal summer resort They went down to the number of 175, those who had never visited the Port before were loud in their praises of its many attractions. At night they

attended a banquet. Naturally the after-dinner speeches savored somewhat of coal. The toast list embraced all the various departments of the trade, and by restricting the length of the speeches it was made possible to hear a great many

Mr. Cyril Dwight-Edwards provided the musical programme in his usual capable style. He rendered several selections and was recalled each time. Mr. Fred Evans acted as accompanist.

The Two Flags. A feature of the banquet was the intertwining of the two flags on the menu card. The reason was the visit of a large number of United States coal merchants, and the two countries joined hands in good-fellowship over the festive board.

In keeping with this, toasts were drunk to both the King and the President, while "God Save the King" and 'The Star-Spangled Banner" swelled forth from the 175 throats.

Mr. R. J. Webster, president of the London Association, and secretary of the Canadian Retail Association, acted as chairman, introducing the earlier part of the programme. Later on Mr. J. M. Daly took over the latter part of the programme as vice-chairman.

The first toast was that to the coal producers, connected with which were the names of a number of prominent coal producers from the other side. Mr. Tremaine, of the Rochester of-fice of the Philadelphia and Reading

Iron and Coal Company, was the first speaker. He congratulated the association upon its successful convention. "We producers," he said, "find far less annoying features with the dealers in Canada than with our dealers in the United States."
The Coal Convention.

Mr. E. B. Reid, of the Delaware and Lackawanna Coal Company, said: "The finest convention that is held anywhere. You meet together for busiof the Presbyterian and Methodist ness, and you contract business, concongergations for their continued sequently it is a pleasure for the sales' ice cream agents to attend."

The Ontario Dealers. In response to the toast to "The Onario Retail Dealers' Coal Association," Mr. William Heaman delivered an ex-

cellent address.
"As a direct result of the efforts of this association," said Mr. Heaman, we have gained 72 hours for the unloading of a car of coal, instead of 48 as formerly." "There are a great many dealers,"

he continued, "who do not weigh their coal. This is harmful. The associawent to a great deal of expense to force the railways to put in weigh scales, and if the dealers do not use them they will lose them. Messrs. Hardy and Hay also spoke intimated that if the Vatican insisted

SENATE ACCEPTS POSTAL BANK BILL

Makes Their Establishment Assured for United States.

TRIUMPH FOR TAFT

Postoffices Are Designated as Savings Depositories by New Measure.

Washington, June 23.-The senate yesterday decided, 44 to 25, to concur in the House amendments to the postal savings bank bill and thus took the last legislative step necessary to the establishment of a potal savings bank system. The measure was included in the administration schedule and its passage marks another

triumph for President Taft. Most of the insurgent Republicans supported the measure in the final action on it, but Senators Bristow, from being thrown against the car Cummins and La Follette refused to yield. Senator Chamberlain cast the only Democratic vote for the bill.

Toronto Athlete, Now Managing Johnson, Admits That Jeffries Has "Come Back" --- Says That Johnson Is More Clever Than Jeff, But the Latter Can Outpunch the Negro.

[By Tom Flanagan, in the Toronto Telegram.]

Reno. Nevada, June 22.—After being here in Reno for a couple of days, I've come to the conclusion that Nevada is populated by the best sports in the world. When Goldfield's offer of a \$200,000 guarantee was turned down by Tex Rickard, and Reno chosen for the fight, the Goldfield men began buying their tickets on the spot. Reno is a fine, lively town, and an ideal place to hold the big contest. It is on the main line of the Southern Pacific, and twelve hours nearer to Canada and the Eastern States than San Francisco. In fact, it's better for my home folks in Toronto, and any of them who want to make sure of good ringside seats to reach from all points. Accom-

folks in Toronto, and any of them who want to make sure of good ringside seats can do so by telegraphing me here. Reno is easy to reach from all points. Accommodations have been reserved for all visitors.

JOHNSON AT RENO.

I have wired Jack Johnson, telling him to come right along, and he has replied that he'll start on the first train. Jeffries will be here this morning with his training staff. Yesterday I secured splendid quarters for Johnson at Rick's Roadhouse, only two miles from town, with good roads all around, and a fine field for Johnson's open-air ring and his punching-bag platform. Jeffries will be at quarters at a natural hot springs a little further from town.

From what I've seen of the two men. I look for the best heavyweight battle seen in many years. I know that Johnson is in great shape, and Jeffries never

From what I've seen of the two men. I look for the best heavyweight battle seen in many years. I know that Johnson is in great shape, and Jeffries never looked better. They are very evenly matched. Johnson is more clever; Jeffries is a harder hitter. I think the fight will last no less than twenty rounds. Naturally, having seen so much of Johnson's work, I don't see how he can be beaten, but Jeffries is the favorite, and has many enthusiastic backers here and in NO INTERFERENCE.

All state officials here declare that under the law there can be no possible interference by the governor or anyone else. The law is clear and allows anyone to promote a fight of any length, for purse or wager, with only two restrictions: The fighters must wear gloves no less than four ounces in weight, and must be examined by two reputable Nevada physicians before entering the ring.

Johnson's style of defence cannot fail to make an impression. There is no waste of energy in his movements, and his muscles are relaxed instantly after every move. He should be able to go the route as fast as is necessary without distressing himself. He is doing good work at infighting, too.

Johnson's wife was taken to a hospital in 'Frisco on Monday.

JEFFRIES IS BACK.

Jeffries is Back.

Jim Corbett says of Jeffries: "The question 'Can Jeffries come back?' is now answered. He can. He is back. His clear eye, smooth skin and lithe sinews are the best answer that can be made. Looking at Jeffries, one is justified in saying that Jack Johnson will suffer a severe shock when he steps into the ring on July 4. Of course he will suffer from other things, too, but the first and the biggest shock will come when he looks across that ring and sees what he'll think is a ghost—it will be the Jeffries of a decade ago—the man who knocked out Bob Fitzsimmons and Jim Corbett; the man who slaughtered Jack Munro, and the man who knocked the fight out of Tom Sharkey.

"There are those who say I was the cleverest big man that ever stepped into a ring. Well, I am now in what I think is fine condition, and yet I had to use every art and every trick I ever knew of boxing to keep out of Jeff's reach. How can Johnson do it for 45 hard rounds? I am sure he cannot."

"It will cost in all about \$17.000." announced Tex. "Now, then, hustle around and get this sum pledged, then I will decide."

Reno went after the money in the old-time western way—with a brass band. In the days of the Civil War the people of Nevada went out with brass bands and torchlight processions and sold the famous "sanitary" sack of flour for thousands of dollars, and the Nevada of the present day thoroughly understands and approves of the brass-band method of contribution.

When the train from San Francisco rolled into the station, bringing a few hundred interested parties from California, the whang of the cymbals, the boom of the drum and the loud squeal of the clarinet greeted them.

as large as a brick house. Between 10 o'clock and noon all business was suspended. The gentlemanly dealers in the back rooms of the cafes chanted and spun the little ivory balls in vain. Faro, black jack, draw poker and "craps" languished. Reno was gambling for a large stake on a small ante.

The Goldfield men wandered about the town starting arguments.

"Two hundred thousand," said one Reno gentleman sarcastically. "Is there that much in your whole town?"

"We offered to take Tex down to the bank and let him count it," said the Goldfield delegation. "You're in here pretty cheap, it strikes us. Seventeen thousand is only a white stack."

At noon they informed Tex that the money was pledged, and all that he would have to do would be to bring his righters here and proceed as advertised.

"Then you win," said Tex quietly.

To the Goldfield delegation he said: "Boys, I'm sorry, but you can see my position. You are the gamest bunch in the world, but you must admit that Reno has all the natural advantages. I am willing to gamble on the gate receipts."

Of course the Reno men set up a yell and soon the street in front of the Golden Hotel was black with men and women. Telephone belis began to jingle, messengers rushed to the telegraph offices, and in five minutes the word had been passed west over the Sierras and east over the Rockies. Tex Rickard had refused an offer of \$200,000 in gold coin, and had accepted an arena, a license and a chance to gamble on the attendance.

Naturally the Goldfield men were pained. They had counted on that \$200,000 as an ace of trumps. Goldfield has always been a gambling town; it always will be, and Tex helped to put that lively spot on the map.

"Boys," said Tex, "it was tough to have to turn you down. In deciding against you I have had to think of the people who want to see this fight. I cannot ask them to take that extra 22-hour ride across a hot desert. I know that by holding the fight in Reno I will swell my gate by at least 3,000 people from San Francisco. They can come up here on Sunday and on Monday morning, and get back after the show is over, without losing a business day."

TERRIFIC BIFF FOR FLANAGAN

Hester Determined to Pull Off Ketchel Langford Fight on Fourth.

[Associated Press.] Reno, Nev., June 23.-Tom Flanagan's big blue eyes grew big with surprise when he was informed this morning of the reported conciliation between Jack Johnson and his deposed manager, George Little.

"Now, you are chaffing me," he laughed. It was an uneasy laugh, though, and he soon became serious. For a few minutes Flanagan was completely nonplussed. Then he straightened his shoulders and smiled. "I may say that I am glad to hear

once more." "I am for Johnson first, last and al the time. I want him to win this fight, and whether I am his manager or not does not figure in the matter. Johnson will find me working here for him when he arrives in Reno. I'll

stay with him as long as he needs

that Johnson and Little are friends

He was asked if he had a contract

"Yes, here is my contract," Flanagan replied, and he produced a slip of paper containing the signed statement Johnson recently gave to the press of San Francisco announcing that Flanagan had been a binted to assist him in looking after his busi-

ness interests. "You see," he went on, "this is more a bond of friendship than anything else. That was all I asked for."

"Aside from local interest in the coming and goings of Jim Jeffries, the particular angle of the fight situation that engages Reno's attention today is the controversy waging over the proposed Langford-Ketchel contest."

"It is the Jeffries-Johnson fight that will bring the visitors to Reno," Rickard said last night, "and it's not right for anybody to try to cut in on us with a rival affair. They can have our arena for their fight the minute Jeffries and Johnson get through with it.

On the other hand, Hester and his fellow promoter, Billy McCarey, say their plan is thoroughly legitimate. 'We don't want to hurt the big fight," Hester asserted today, "but we are going to pull off our scrap if it is possible to do so on the morning of the

A LOBO WEDDING. "Balmoral," Lobo, the home of Mr. Archibald McGugan, was on Wednesday, June 15, the scene of a very pret-

My trouble was with my heart and people told me that nothing could be done for a case like mine. I consulted the very best doctors, but they could do me no good. For seven weeks I could hardly cross the floor. I had no pain, but was so weak nobody in the world can believe how I felt. I had given up all hopes of living and had given my little girl to my sister-in-law.

One day a friend came to see me, and calling me by mame, said. 'Lizzie, if I were you I would try a dose of Milburn's Heart and Nerve Pills as they are good for heart trouble.' My husband got me a box, but for two days I was not feeling any better, but on the fourth day my husband said, 'I believe those pills are doing you good.' Mrs. Page, while not in the best of health for some time, had been around as usual on Tuesday, but during the evening was taken ill, and died within an hour. Heart trouble was the cause of death. The deceased had been a highly esteemed resident of the city for the past 24 years. She was born in England, and at the time of her death was in her 66th year. She is survived by two daughters, and one son, Mrs. T. Allan, Mrs. Pameson and John Page, all of this city. Mrs. Fred Simmons, of London, is a sister. FEAR INTERRUPTIONS

Engineers Say Possibilities of Delay Impairs Value of Niagara Power. Detroit, June 23.—Because of the great risk of interruption in the service, the large power and electric light dispensing companies of Detroit are not greatly impressed with the possibilities of bringing electric power to this city from Niagara Falls. Representatives of various firms in this business in the city have expressed their views on the subject.

"The Edison Illuminating Company has nothing to do with the project for bringing Niagara power to Detroit," said Alexander Dow, president of the Edison Company, yesterday. "In view of the fact that it is no harder to cross the Detroit River with cables than to cross the Niagara River, and that the Edison Company, the D. U. R., the Murphy Power Company, the public lighting commission and other panies which dispense electric light and power are constantly on the lookout for cheaper sources of electricity, it seems that these companies have been overlooking a good thing, or else there is something wrong with the plan to bring Niagara power to De-

A representative of another concern gave instance of the ease with which the service might be interrupted. "Limbs of trees, birds, and other minor causes are enough to cause delays and intermissions in the service and you cannot expect to run power over 200 miles without these troubles," he said.
