SOME MORE HORRID HEADS

(By H. F. Gadsby)

BY G. F. GADSBY. Union Government, like all things mortal, is born to trouble as the sparks fly upward. For instance, there are the by-elections. One by one they raise their horrid heads. They will go on raising their horrid heads for some time to come, and always with the same result. East Eidge will raise its horrid head somewhere in June—that being the six months limit for vacancies fixed by the new law. East Eidge will elect a farmer, of course. The horrid head will bear a U. F. O. countenance. But Macdonald nor any other horrid head will wear the House of Commons. Parliament will be a sort of hawk among the parrots.

ROOM FOR DOUBT.

It may be that Ottawa will give him milder lights, that he will shade down, say, to the socialization of national resources, which is Bourd of Assiniboia's point of view, but there is room for doubt. It will take more than two or three sessions at Ottawa to ease Macdonald's convictions. Meanwhile he is a new and somewhat alarming phenomenon—a sort of hawk among the parrots. A great deal of anxious talk centre around the election of an old-time Liberal, Perman Reinfrat, in St. James division, Montreal. As one of the laws which wadded double shifts and never asked for off-time, Macdonald is not that sort. He is the read

CARNIVAL AT THE ARMORIES

CHARTER FOR LABOR TEMPLE HAS LAPSED COUNCIL DISCOVERS

New Charter Will Be Petitioned For by the T. and L. Council.

The Trades and Labor Council delegates received a surprise at last night's meeting, when they were informed that the charter they had obtained for a labor temple in this city had lapsed over a year ago. The charter was received in 1917, but no shares were sold and no business transacted toward getting the temple started. Frequent meetings were called, but they were so thinly attended that nothing could be accomplished toward getting the movement under way. During the past two or three weeks the temple committee was revived and the matter was taken up again. It was decided to petition for a new charter. The following members of the council will be the directors: President, J. McKay; Vice-President, J. Maguire; Secretary, H. Wheatcroft; Treasurer, J. Hill; A. Moutie, J. Cummings and Delegate Vinen.

The new charter will likely call for a building costing \$75,000. The new committee intends to start right in, and it is possible having the temple under way before the end of the year. Some discrepancy. Some interesting figures were given as to the number of trade unionists in the city, and those who were paying per capita tax to the trades and labor council. According to the figures there were 9,500 labor men in the city belonging to trade unions. There were 29 local unions affiliated with the trades and labor council with a combined membership of 3,000. However, the treasurer's report showed that only 2,300 members were paying the per capita tax. From these statistics it was deduced that the unions were not showing a lively interest in the council, and also that the secretaries were not reporting their full memberships. An effort will be made to check up these figures with the purpose of getting a larger representation of labormen affiliated with the council.

The newly-organized retail clerks presented a resolution to the council calling attention to the fact that many of them were working 52 to 60 hours on insufficient wages. They appealed to the council to support them in their efforts to get shorter hours and better wages. The council has agreed to support this movement heartily. The resolution will be forwarded to the minister of labor of the federal government. Organizer Wray directed the council's attention to the fact that several bakery wagon drivers in the city had dropped out of the union, but were still wearing the union button. It is likely that some legal action will be taken to compel these drivers to turn the button in.

H. C. of Smoking. The cigarmakers' union reported that over a hundred members of their local were out of work. They are requesting an increase in the price of cigars had apparently slowed up the sales, with the result that the factory is unable to lay some of their employees off. H. H. Hassell informed the council that members of the maintenance of way local union, which was suspended at the last meeting, were protesting against a mandate from the A. P. of L. were protesting against the suspension. He stated that the council can take no further action, as the matter rests with the American Federation of Labor. Delegate Tite addressed the council on the co-operative stores plan, and reported \$5 worth of work. He started toward organizing such a store under the auspices of the trades and labor council. The matter will be dealt with by the co-operative committee.

When the Blood Pressure is very high there is often the danger of rupture of a blood vessel, most frequently in the Brain, producing a Stroke, or in the Kidneys, producing Bright's Disease. CANADIANS SAVED THE LINE TODAY IS FIFTH ANNIVERSARY OF TERRIFIC STRUGGLE WITH GERMANS, WHO USED POISON GAS FOR THE FIRST TIME.

Today is the fifth anniversary of the most terrible battle the Canadians participated in during the war. The Battle of St. Julien, which was commonly known as the Second Battle of Ypres. The motto of the Canadians was "The British Infantry with the capture of Hill 60, at the conclusion of which, the Canadian artillery was rushed to the northern side of the salient to help out its hard-pressed infantry division."

The fighting opened at 5 o'clock in the evening, when the Hun with no warning let loose the most horrible atrocity of the war in the form of chlorine gas, which floated across to the Canadian line, where the men were smothered to death by the hundred, as no respirators were known at that time. The object of the heavy German attack which followed the gas, was to capture the village of St. Julien, then some distance in the rear of the British line, and which was a thorn in the enemy's side, on the road to Ypres and the sea. The French Colonial, who fled at the first sniff of the deadly gas, left in the neighborhood of a mile wide open, on the left flank of the Canadians, who were on the extreme left of the British line.

Crossed Canal. With the line open, the enemy poured in thousands of troops, crossing the Canal and the north of the Canadians, who had their left flank resting on the canal bank. The 1st Brigade of Infantry, commanded by Sir Richard Turner, V. C., ordered a daring manoeuvre at this point, and the left flank of the 1st Battalion of the 3rd Brigade was thrown out to fill the gap left by the French, and the heavy brigade of the 1st Brigade swung around into the left flank resting in the village of St. Julien. This movement brought the Canadian line into the form of a right-angled triangle, with the flanks of the 2nd Brigade under Brig-Gen. (now General) Sir Arthur Currie, and the 3rd Brigade, meeting at the apex of the angle. The 1st Brigade, under Brig-Gen. Mercer, was out on post at Ypres, and holding brigade orders, although it was standing by during the early stages of the fight.

GEES WEAR FOR STEALING A CAR

Ernest Young Sentenced by Magistrate Graydon Today.

Ernest Young was sentenced to one year in the common jail by Magistrate A. H. M. Graydon, after he had pleaded guilty to stealing an auto from Cecil Tucker's Business College. Young was 21 years of age, and was a resident of Hill 60, at the conclusion of which, the Canadian artillery was rushed to the northern side of the salient to help out its hard-pressed infantry division. On the night of the 22nd, the 1st Brigade moved forward, but did not become engaged until 6 o'clock on the morning of the 23rd, when the 1st and 4th Battalions, with the Buffs in support, launched a counter-attack to the left rear of St. Julien, taking back a large portion of the ground lost, and eliminating the danger of the division being outflanked.

Two of the outstanding events of the fight were the feats of Capt. Francis Scrimger of the C. A. M. C., who was decorated with the C. C. for conspicuous gallantry and devotion to duty under heavy shell and rifle fire while attending to wounded men, and that of Major Robertson, medical officer of the 1st Battalion. Major Robertson, without assistance, attended to and nursed over 1,300 men, who had been wounded, during the 22nd. Three times his dressing stations had to be changed on account of being swung around into the left flank resting in the village of St. Julien. This movement brought the Canadian line into the form of a right-angled triangle, with the flanks of the 2nd Brigade under Brig-Gen. (now General) Sir Arthur Currie, and the 3rd Brigade, meeting at the apex of the angle. The 1st Brigade, under Brig-Gen. Mercer, was out on post at Ypres, and holding brigade orders, although it was standing by during the early stages of the fight.

WISCONSIN BOASTS LADY LUMBERJACK

Girl Skids Logs in Overalls and Mackinaw. Cranston, Wis., April 22.—Forest County has a lady lumberjack. She is Miss Florence Tyrrel, who with her mother, spent last winter at a logging camp near Newald. Miss Tyrrel skids logs, harnesses and cares for her team, and according to the oldtime woodmen, is capable of exceeding many modern "jacks" when it comes to doing a full day's work. Miss Tyrrel goes about her work in the timber attired in regulation lumberjack clothing, consisting of overalls, heavy mackinaw, big cap and mittens, and at first glance one would never suspect the wearer of this outfit to be a young lady. During the winter she drove four horses most of the time, and by her skill in handling the reins won the admiration of every teamster in camp.

Convict's Mate Waits 26 Years. Faithful Wife Is Rewarded by Pardon for Husband. Harrisburg, Pa., April 22.—After being true to her husband and believing in his innocence during the 26 years he spent in prison, the wife of James New-Hill is to be reunited with him. Hill has been granted a pardon. The couple will meet at the home of his daughter in McKeesport, Pa. In 1894 Hill was convicted of murdering Rosa Ritter, a beautiful French woman. He was sentenced to be hanged. The sentence was later commuted to life imprisonment. At that time Hill was 23. His wife was 24. Now the husband is pale and grey from prison life. The wife is old and bent with labor in his behalf. Mr. Sherman states that all misunderstanding has been cleared away, and that the wedding will be held next Thursday in Lacknow. PIGS' BRISTLES ONE OF CHINA'S LARGE EXPORTS. Pigs are raised everywhere in China, and pigs' bristles have become an important article of export amounting to 4,000 tons a year, valued at about \$6,000,000. Bristles that are long, thick, stiff, bright, very and clean, command the best prices. The yield of each hog is tied in a bundle, placed in water for a few days, then scraped off, combed to remove impurities, sun-dried, steamed and then sorted into diameters, with bristles of uniform length. Most of the work of cleaning and tyng the bristles is done by women; they receive about five or six cents a day. Buyers are very particular about the

STOCK MARKETS MAKING RECOVERY

After Steady Selling by Japs Wednesday.

The New York and Chicago stock markets, which were spectacularly displayed yesterday, are slowly recovering. Crucible Steel gained 7 1/2 points before 1 o'clock, and General Motors which took a large tumble yesterday, was going up steadily, having gained 10 points by 1 o'clock.

Outside of the fact that practically every stock on the markets tumbled, the case was not out of the ordinary, as fluctuations have been great during the last four months, local brokers stated.

WANTS HOUSING COM. ORGANIZED

E. R. Dennis Speaks at C. of C. Luncheon.

Organization of a housing company to build cheap houses for either sale or rent was recommended by E. R. Dennis, chairman of the London housing commission, in the course of an address before the members of the London Chamber of Commerce at a luncheon in the Trenchard House today.

Following the address by Mr. Dennis, Mayor T. J. Murphy drew attention to the fact that the man who most needs assistance is the man who cannot be helped by housing schemes, providing houses worth from \$3,500 upwards.

There are 6,500 vacant lots in London today houses for their employees. The duty of the housing commission is one of civic betterment, said Mr. Dennis.

There are 162 applicants for houses to be built by the commission. Values of proposed houses range from \$3,400 to \$4,500, the latter on Cathcart street, South London.

Railway Clerks in Favor of Leaving International

Desire Union With the Canadian Brotherhood.

Strong feeling for a secession from the International Brotherhood and for a union with the Canadian Brotherhood was voiced at an open meeting of the Brotherhood of Railway and Steamship Clerks held in the K. of P. Hall, 350 Richmond street, on Wednesday night.

Although the meeting was called by the International Brotherhood of Railway and Steamship Clerks, commonly called in Canada the Flannery organization, there were many members from Toronto and other parts of the province present.

Mr. A. G. Goulet, president of the Canadian Brotherhood of Railway Employees, was called upon to speak on behalf of the secessionists.

After lengthy discussions by members of both organizations, Mr. Balch, president of the Brotherhood of Railway and Steamship Clerks, said: "We will hold a meeting in the near future, when the matter will be given full consideration, and we will not hesitate in forwarding our decision to the Canadian Brotherhood of Railway Employees."

Mr. Robson announced that the board of conciliation is now sitting in Ottawa and that a decision is likely to be granted to the Grand Trunk Railway employees.

INSPECTOR YOUNG SENDS OUT PLUMBING RULES

Regulations to govern the installation of plumbing until the amended bylaw has been approved by the board of council, are being sent out by Plumbing Inspector James C. Young under the instructions of Ald. O. I. Cunningham, chairman of No. 1 committee.

The city council Monday night ruled that all plumbing work should be regulated by the provisions of the old plumbing bylaw until the new one became operative. There are only a few copies of this old bylaw available. To get around this difficulty the inspector has condensed the regulations and sent them out in letter form to every plumber in the city, as follows: "A permit shall be taken out for all work except necessary minor repairs, and a plan of same filed in this office. A water test shall be required on all roughing in, but the smoke test on the finished work may be dispensed with. Material to be used: Soft pipe,

TOBACCO GROWERS ASK MORE THAN BUYERS WILL PAY AND LOSE MARKET

DUART, April 21.—Another large carload of tobacco was shipped from this district yesterday. The price realized was 42 cents per pound. Though several shipments have been made about half of the crop is yet in the growers' hands. Many of the producers

refused to contract at the buyers' offer of 40 cents, and the raise, some time ago, holding out for 50 cents. This the buyers refused to pay and stopped all buying, only taking what was then contracted for, with the result that the growers who still have their crop on hand are at their wits end to find a market. It is expected fully twice the acreage that was raised last year will be grown this year on the strength of reports that a dryer will be erected in the neighborhood during the coming summer.

PRINCETON

PRINCETON, April 21.—Mrs. Strode, who has been spending five months in Winnipeg, arrived home on Monday, accompanied by her daughter, Miss Ella Strode. It is six years since Miss Strode left Princeton. Steward Williamson left Monday to fill a position on the street railway in Hamilton. He will be much missed in local musical circles and in the Anglican Church.

ROSS' Limited

MANUFACTURERS

MADE IN CANADA, MADE IN LONDON, MADE IN OUR OWN FACTORIES ON THE PREMISES

This sums up our position on the question of the high cost of living. Efficiency in production and distribution methods are vital questions of the hour. Every go-between that stands in the way of the consumer being able to purchase goods at prices based on first cost is a middleman, and profits added by this class mean higher prices to the wearer.

Our method is, as far as possible to eliminate all such added profits and offer merchandise to our patrons at manufacturers' prices. For that reason we employ scores of expert workers and have a complete organization from designers to finishers.

WILL TAKE PLEBISCITE ON QUESTION OF SUNDAY CARS

Upon Result of Vote Will Depend Future Service of Street Railway—Council At Best Will Only Assume a Limited Schedule.

ST. THOMAS, April 21.—Although an expression of the people has already been taken on the Sunday street car service with a favoring majority some years ago, a second plebiscite will be asked of the ratepayers, and upon its result will depend whether the amendment to the act just passed will be acceptable to a majority vote or not. A general service throughout the city will not be provided should the by-law be accepted. The most the council would assume would be a limited service to Pinafore Park.

The street railway department does not look upon the traffic to be had on Sunday as perceptibly reducing the periodical deficit. But with a possible increase in the rates to the lakeside on the L. and P. S. St. Thomas people may be coaxed to visit the municipal playgrounds in such numbers as will allow for a revenue sufficient enough to meet the overhead expenses of the system.

NO BOLSHEVIK REVOLT

French Point of View That Expedition Was Uncalled for Seems To Be Correct.

Duisburg, April 21.—By Courier to Cologne.—This town is almost the extreme limit of the Reichswehr occupation, which stretches eastward along the River Ruhr. It seems unlikely that the White advance will continue further into the "Pink zone," where everything is quiet, work is going on normally and no armed workers are to be seen.

Here everything is calm, but around the Ruhr there are a number of small towns and villages which are being shelled by the Red army. In the square before the Rathaus there are drawn up automobiles, one of which is decked with the skull and crossbones of the former Crown Prince's guards.

DEBT SLAVERY IN MALAY STATE TO BE ABOLISHED

The year 1920 is likely to be a notable one in the history of Malaya, one of the British protection. For it is to see the abolition of "debt slavery," or, at any rate, to see the practice well on its way to abolition.

PLUNDERING OCCURRED

The captain admitted that the said plundering occurred only after the Reichswehr advance had begun, that is to say, after the workers had realized that they were being betrayed, and that the impact, they had made with Commissioner Severing at Munster was a scrap of paper.

TELL YOUR FRIENDS ABOUT NICOTOL-- THE ENEMY OF TOBACCO

It improves any man's health to quit tobacco, and he can escape the awful craving that usually attends quitting without such assistance as Nicotol gives. Did you ever hear of "Smoker's Sough"? Try Nicotol in getting rid of the tobacco habit and see how quickly the cough will disappear. Nicotol is dispensed by most good druggists in this city.

Long-Standing Evil Effective Measures Taken

Since childhood Mr. A. Cail was under the shadow of a great evil, which always menaced his comfort and safety. Read what he says:—

"I was troubled with my kidneys since childhood and spent a large amount of money trying to get cured. Instead of getting better, I kept getting worse until a friend of mine advised me to try Gin Pills. I did so, and after taking one box, I was able to get out of bed and walk around. Two more boxes relieved me completely, and since then I have had no return of the trouble."

Many people have kidney and bladder trouble without knowing it. They think nothing of the backache, the pains in the sides, the constant headaches, the rheumatic, sciatic and neuralgic pains, the floating specks before the eyes, the swollen joints, the highly-colored urine—all signs of trouble—all signs which should receive immediate attention and treatment with Gin Pills, which are by far the most effective of all preparations, and which may help you to avoid a fatal operation. They quickly relieve pain and heal the congested tissues, bringing the organs back to normal. At druggists and dealers, 50c a box. Money back if no relief. Send for free sample.

TWENTY-THREE MILLION POUNDS OF AMERICAN TOBACCO ENTER CANADA IN NINE MONTHS

Tobacco Growers of Kent and Essex Still Have 5,000,000 Pounds of Last Year's Crop On Hand, Declares Speaker At Big Meeting in Blenheim.

[Special to The Advertiser.]—That the tobacco industry is recognized by the farmers of Kent and Essex Counties as the stable crop of the district was given practical demonstration by the very large attendance of farmers which gathered to hear Dr. Grisdale, deputy minister of agriculture, speak on "Tobacco Improvement and Market" in the Opera House here tonight.

The meeting was presided over by Mr. Swartz, who, in his opening remarks, declared that there was no crop of greater importance to Western Ontario than the tobacco crop, as there was no crop which returned to the growers so much money per acre. He considered it an honor to the tobacco growers for the deputy minister of agriculture to personally show his interest in their welfare by coming to Blenheim to hear their side of the matter of improving the crop and securing a market.

Mr. Fraser, president of the Ontario Tobacco Growers' Association, read a letter from the tobacco growers in Quebec intimating that the Government had under consideration the placing of a tax on leaf equal in amount to that placed on the finished product. Such a tax, he declared, would kill the industry, ruin the trade and, if it were only the leaf, it would only buy it at their own price.

Mr. Fraser declared that the quality of the tobacco leaf grown in Kent and Essex had greatly improved during the last few years. At first only 10 per cent of the leaves were good enough for use in cigar wrapping; now the percentage of clear wrapping leaf is 40. This, however, is still much below the United States leaf, of which 80 per cent is suitable for use.

It was for the purpose of revenue that the Government proposed a tax, he suggested that the leaf would be met if the leaf were taxed 20 cents per pound. In closing he advised the growers to investigate matters before they decide to plant a largely increased acreage this year. He pointed out that 23,000,000 pounds of American tobacco came into Canada in nine months and suggested that here was a source from which the Government might secure any additional revenue it desired and at the same time encourage the home industry.

He stated that there are 3,370 tobacco-growers in Kent and Essex, and these men still have on their hands 5,000,000 pounds of last year's crop.

Mr. White of Essex stated that he drew special attention to the admitted general high quality of Canadian tobacco. He expressed suspicion of the bona fides of the big tobacco manufacturers, whom he charged, sent out their buyers on the same day; paid the same price per pound, and recalled their men on the same day, but yet put up the claim that they were not working in combination.

Dr. Grisdale declared that he knew nothing of the proposed tax on the raw leaf spoken of in the letter from Quebec. The Government, he stated, were much interested in the tobacco industry, and he could not imagine that any action would be taken which would be detrimental to it, but he was not in a position to speak definitely on the matter, having heard nothing about it before. He would, however, convey the sentiments of the meeting to the minister of agriculture.

The speaker briefly outlined steps already taken by the department to assist the growers in the marketing of their crops and for the opening of a market for Canadian tobacco in Great Britain. He explained that the British buyers purchase the dried leaf because of the lesser weight for transport. The leaf is moisture again in Great Britain after the duty has been paid.

In concluding he advised the growers to go slowly until the Government had been instructed to secure information. A resolution was passed by the meeting calling upon the Government not to impose a tax on the raw leaf, and a copy was handed to Dr. Grisdale.

BROUGHT TO TORONTO ON MURDER CHARGE

LITTLE STRIKE TALK IN WESTERN CANADA

WINNIPEG, April 21.—There is very little strike talk in the air in Western Canada. Many labor organizations are engaged in negotiations for increased wages and better working conditions in Winnipeg and farther west, but there are no indications yet of serious disturbances in any important activities.

EVERY WAGE EARNER SHOULD ANSWER QUESTION HIMSELF OR HERSELF

What Does the Future Hold For You If Health Gives Way?

In dollars and cents, what is the worth of the brawn of your arm; what is the value of the staying power that permits continuous labor—what are they worth to you?

Suppose you did something so foolish as to reduce your strength, vitality or judgment one-half, and it were impossible to get them back—how much would you pay to regain the lost portion?

When you let yourself rundown, you reduce your chances for success in life—sleeplessness comes you score lower still—appetite or digestion fail, you are stared in the face by physical bankruptcy.

Don't let it go so far, take Ferrazone; it has cured thousands and it will cure you; it builds up bodily strength, makes muscles like steel, replaces spring tiredness by energy and new life. Ferrazone rebuilds sick folks because it contains the strengthening elements that every rundown system requires.

Especially before the hot weather comes, everyone needs a purifying tonic—Ferrazone fills the bill exactly—nothing known that juvenates and uplifts so fast.

At once the appetite improves. You rest well and arise next morning feeling fit and fine.

Headaches disappear, weakness gives way to the vigor that only Ferrazone can supply. Try it, results are guaranteed, 50c per box or six for \$2.50 at all dealers or by mail to any address if price is remitted to the Cathartone Company, Kingston, Ont.

ENGINEERS PROVE HOSPITABLE HOSTS

ST. THOMAS, April 21.—The tri-divisional banquet and entertainment of the Brotherhood of Locomotive Engineers tonight was attended by hundreds of the members of the brotherhood, their wives and families, and the series of functions enjoyed by the railway were satisfying in every detail.

Never did the auditorium look more attractive. The decorations in keeping with the festive gathering as well as symmetrical of the order, were tastefully and ingeniously arranged, and the executive in charge had made every provision that none of their guests should depart without a very pleasing impression of the hospitality and good fellowship of the brotherhood.

In the afternoon there were exercises of a business character at Lodge 661, with Bro. A. G. Kennedy, president, and interspersed with a delightful musical program and following was the annual banquet at the auditorium, with the brave and gallant knights of the throttle were their wives and daughters and many of the ladies took part, and well worthy too in the toast list at the banquet. The G. L. A. was eloquently responded to by Mrs. D. Meadows and Chairman Walter Wolliver, with the entire party honored "The King," "Our Country" by J. A. Killingsworth, "Our Brotherhood" by Ex-Alt. George Sloggett, "Our Railroads and Hydro" by W. E. Sanderson, "Our Guests" were welcomed by the bagpipers in the hands of Edgar McDonald, and our Penitential Member by L. Gilbert. An excellent reading was given by Granville Steele.

The combined function was one of the most successful of the series hitherto held under the auspices of the brotherhood. Representatives were present from all points of Canada and many in the United States.

Eddie Gallagher, Hamilton, had a soft assignment disposing of Young Brewer, alleged featherweight champion of the American expeditionary force. Two other four-round bouts completed the card.

DELAY OF SEVERAL MONTHS FEARED BY RAILROAD LABOR BOARD

GUELPH, April 21.—License Inspector O'Brien has received word from the department at Toronto explaining that there will be some delay in sending out the standard license for the year, beginning May 1, 1920. The chief reason for this is that several important amendments have been drafted for the consideration of the Government, and Legislature affecting standard hotels, and the license will be issued subject to whatever changes are made in the act as a result of the move.

GET 350 H. P. MORE. The Guelph Light and Heating Commission has received word from the Hydro-Electric Power Commission of Ontario to the effect that this city has been granted an additional 350 horsepower. BUILDING ON BORDER HAS GROWN 50 PER CENT DURING LAST 2 MONTHS

WINDSOR, April 21.—Building on the border during the last two months has jumped more than 50 per cent, according to permits issued at the hall by Robert Parker, building inspector. More than 200 permits have been issued for home construction, while 100 have been issued for business houses. Estimates of the inspector show that at least \$500,000 has been invested in homes by border residents in the last two months. The majority of homes are being constructed by private persons and not by the government housing commission, which is just beginning to build extensively.

Greater Appropriation. Windsor has been placed with the postoffice of the Dominion which are entitled, because of the territory they serve, to greater appropriations and money. Alfred Wigle, postmaster, stated today he believed the request for a new building and equipment which the border postoffice has demanded will be granted because of the reclassification.

MR. KING'S WAR WORK.

The Liberal leader, unable to endure longer the lying insults in various quarters as to his work during the war, has broken silence on himself in a speech of remarkable dignity and simple power.

Nothing could be simpler and more unpretentiously effective than Mr. King's "apologia pro vita sua," as Cardinal Newman put it. It smashes down kindly but finally all the vicious twaddle that has been speared at him from irresponsible and malicious people and papers.

A trained economist and an expert in the relations between labor and capital, Mr. King had at the age of 40 to make his choice with the trenches, and then perhaps at his age, lie around home or England, posing as a soldier and patriot.

Frederick Palmer, greatest of war correspondents, well known and well liked by Canadians because of his informing war-time lectures and his sympathetic attitude towards the British Empire, has just returned to America after a long tour of the battlefields and chief cities of Germany and France, where he made a close study of after-war conditions.

Mr. King read letters from coal and steel companies bearing testimony to the splendid work he had done toward speeding up the production of war materials for the Allies through the accomplishment of better relations between capital and labor, employer and employed, in the establishment of industrial councils.

Here was a work of the utmost importance to the Allied interests. Mr. King seized upon the crucial scene of the war and made himself a power there. He did much to thwart the active exertions of pro-German workers in the United States, who sought to paralyze or retard the industrial output.

Not only far-sighted public policy called him to a work near home. Private circumstances of tragic character kept him a resident of Ottawa even while he was carrying on his great and fruitful exertions in the United States.

Mr. King completely disposes of the lying charge that at the outbreak of war he deserted his country. It seems the simple fact is that he stayed by his family, by his country and by his duty, public and private. He stayed by his studies and expert knowledge, and made them the profit of his country and of civilization.

For many months the abominable Hearst has been featuring the fact that Great Britain is heavily indebted to the United States for financial assistance. John Bull is made to appear in the nature of a leech, gorging himself on American gold and credit.

It will peeve Mr. Hearst—because it will rob him of one of his favorite anti-British cries—to learn that within a very short time Great Britain will have settled in full for all outside debts. That is the encouraging information contained in the British budget, which has just been presented by Austen Chamberlain, chancellor of the exchequer.

For the past year the revenue was greater than the estimates by nearly £140,000,000, while the revenue for the coming year will be over the billion mark. It is expected that for the purposes of reducing debts there will be available the sum of £164,000,000.

Japan thus, while benefiting materially by the war, has in many other directions suffered a setback. The cost of living in Japan being now as high as it is in Europe, she is losing her advantage of cheap labor without any compensatory advance in skill, while the progress of her domestic institutions has been seriously hampered.

and the tax on excess profits will be increased to 60 per cent. By next year it is estimated that England will have £200,000,000 with which to meet obligations contracted abroad.

THE WORLD'S METROPOLIS.

An American newspaper has discovered that the population of New York now exceeds that of London, and asserts that therefore the American city is the globe metropolis, "the heart and brain of the civilized world."

The population of Greater New York may exceed that of any other city, and because of America's fortunate position, New York for the time being has become in a sense financial dictator, but it is nonsense to base the boast of being the world's metropolis on these things solely.

For generations to come France will be the Mecca it desires, for in the sacred soil of France repose the golden youth who were glad to die for human liberty. It is right, too, that facilities should be afforded to the dead to be buried in the soil of their birth.

There must be accommodation, grief, however deep it be, cannot ignore physical needs; but with the opening of the shipping season many thousands will want to visit France for the sake of the nobler instincts of humanity it is to be hoped that the most sacred feelings of our common nature shall not be prostituted for gain.

The chief interest in Europe today centres in Russia and Germany. France is unpopular throughout Europe because of her predominant military spirit. The victory over Germany has revived the old hatred held by the French for that country, and the warlike spirit developed by Napoleon in 1870.

Mr. Palmer's opinion cannot be lightly dismissed. Any statement of his is entitled to gravest consideration. If he says there is a danger of French policy towards the Teuton bringing upon Europe a Red deluge, then it is fairly certain such a peril exists.

It is When the Nerves Are Tired That You Cannot Sleep. It isn't the body that craves rest, but the mind. When you are bodily tired you can usually fall to sleep at the first opportunity. But when the nerves are irritated by anxiety and worry rest and sleep seem to be impossible.

Dr. Chase's Nerve Food is found the most natural and the most rational treatment for the nerves imaginable, because this food cure contains the vital substances which go to the building up of the blood and the depleted nerve cells.

Big Interscholastic Track Meet Exceeds Expectations

Though Date Is Five Weeks A Way Arrangements Are in Shape To Be Completed Now—Y. M. C. A. Offers Use of All Its Gyms To School Principals.

Secretary G. Mel Brock of the Western University Athletic Association is, without doubt, the busiest man in western Ontario these days, for the interest being taken in the first annual Western Ontario Interscholastic Championships, to be held here on May 24, under the auspices of the Western University Athletic Association, is assuming proportions in excess of wildcat hopes. With the meet still five weeks away and the entry blanks not yet in the hands of the principals, 25 collegiate institutes and high schools have written notifying the association of their intention of training to the principals in the twenty areas at present touched by this great body. They have grasped the big idea which the university authorities had when they proposed this meet, namely, not altogether a meeting whereby the best athletes in Western Ontario could be discovered, but the idea much more beneficial to the individual student, that of meeting with and having a day's intercourse with the students from other centres. There is no doubt but that this same idea has been understood by many of the principals, as their letters to the Western University Athletic Association show great sympathy and offer many valuable suggestions, both in the running of the meet and the possibilities that can be worked out from such a start as will be obtained on May 24.

MOONEY'S PIRATES TAKE SECOND WIN FROM THE REDS

Ring Was Wild in First Frame and Pirates Couldn't Be Caught.

CINCINNATI, Ohio, April 21.—Rings wildness in the first inning enabled Pittsburgh to secure a lead of four runs which the Reds could not overcome, and the visitors won their second straight game from the champions, 5 to 3. The Reds outhit the Pirates, but Cooper was effective with runners on the bases and prevented any rallies.

26 Schools Will Send Track Teams To Big Meet Here May 24

Capt. Mel Brock will start on a trip throughout Western Ontario today, visiting every college and high school city and town for the purpose of explaining the details of the big interscholastic track meet which is to be staged here May 24, and which will be the biggest step ever taken in interscholastic athletics in this part of the country. The following schools will send track teams and many more have made their entries certain: Aylmer, Brantford, Essex, Leamington, London, Lucan, Mount Forest, Port Dover, St. Marys, St. Thomas, Sarnia, Simcoe, Stratford, Strathroy, Tillamook, Watford, Windsor, Wingham, Woodstock, C. I., Dutton, Harrison, Waterloo - Kitchener, Ridgewayton, Woodstock College, Delaware, London Technical.

SIX TEAMS MAKE UP GUELPH CITY BASEBALL CIRCUIT

Jimmie Cockman Is Chief Umpire With M. B. Dulmage Official Scorer.

GUELPH, April 21.—The final organization meeting of the Guelph Amateur Baseball League was held at the Y. M. C. A. tonight, and was a most successful one in every respect. Plenty of enthusiasm being manifested and prospects for another successful season. The league will be composed of six teams, and will make it easier to draft and carry out a schedule and doing away with the possibility of having to arrange for the games being played in two sections. There will be three games each week. President H. C. Allen occupied the chair last night, and representatives were present from six teams, who will make up the league. They are: Carpet Mills, Spring and Axle Works, Speedwell Hospital, Mallico Iron Co. Paisley Athletics and Knights of Columbus. Each team paid their entrance fee of \$10 to the treasurer. The same constitution as governed the game last year was adopted. Mr. N. Keefe was reappointed official arbitrator; his duties last year being satisfactorily performed even though they were light. Jimmie Cockman was appointed chief umpire for the season, and he has power to appoint his assistants. M. B. Dulmage was reappointed official scorer. The ball to be used, and it was finally decided to adopt the Reach ball, the A. J. Reach Company offering to donate a suitable trophy for competition.

DR. PARKHURST SAYS NEW YORK CITY IS BECOMING BETTER

New York Has Never Gone Back to Old Depravity.

TAMMANY UNCHANGED
Noted Minister Says Good-bye to Democratic Party.

New York, April 21.—Saturday was Rev. Charles H. Parkhurst's 78th birthday. A reporter who visited the clergyman's study in the Ansonia found him hardly conscious of the fact that his 80th milestone is only two steps away. He is in vigorous health and is engaged in his writing and in the preparation of sermons, for as pastor at large, now that the Madison Square Presbyterian Church ceased to be, he continues to preach, accepting when he can some of the many invitations offered. He recently finished a series of four sermons in Plymouth Church, Brooklyn.

In the course of the conversation Dr. Parkhurst had occasion to reach into a drawer of his desk and refer to a page of typed manuscript. The visitor asked if he was writing an autobiography. "Well," Dr. Parkhurst said, putting the manuscript away, "I don't know. I don't know that it will be for public reading."

He said he did not know Rev. Dr. John Roach Straton, pastor of Calvary Baptist Church, who is visiting Broadway cabarets and reporting his findings from the pulpit and also to the grand jury, is emulating, in a rather mild way, the example set by Dr. Parkhurst in the early '90s. But he thought Dr. Straton was doing good work and had written him a notice to that effect. Dr. Parkhurst disagrees with gentlemen of the Criminal Courts Building who insist that New York is a more vicious place than it was before the clean-up resulting from exposure by Dr. Parkhurst and the Lexow committee.

Not as Bad as in the Past.
"The city," he said, "has never gone back to the depravity of those days. It has not gone back even now. It is true there are some pretty bad spots now, but at that time it was all bad spots. We have only to recall that police captains used uniformly to pay \$15,000 for their appointments, and that every respectable house paid tribute to the police, to mention nothing else, to bring home the realization that we have improved greatly. I believe that the present mayor is really desirous of keeping the city decent. Very few girls are seen in the streets now. Some years back there were a great many."

"I cannot see, though, that Tammany has reformed. What virtue it has in the virtue of necessity. Tammany is not and has not been for many years a political organization. It has not changed. Repression has been exerted which makes the sources of its revenue less obvious, that is all."

The doctor confided that he had said good-bye to the Democratic party, for whose national ticket he had occasionally voted, and hoped that the Republicans would nominate and elect Leonard Wood.

"I supported Mr. Wilson," he said, "until he saw fit to reply to Germany's reply to his fourteen points. This party has done him no wrong as far as I am concerned. I do wish we could get rid of him, I hope the Republicans will nominate a man who comes as near as possible to the character of Theodore Roosevelt. Such a nomination, even in advance of the election, would do much to quiet our national restlessness."

"I should like to see Gen. Wood made president. That would turn him down in an argument in Wood's favor, but his conduct after being turned down, the quietude with which he accepted about the business Wilson set him to do, was admirable. A fine, straightforward man of straight principles is Wood. He is much like Roosevelt in Roosevelt's later life. I must say that the early Roosevelt, as when I saw a good deal, was a marked change, and he gave himself wholly to the interest of his country."

Reference to Hoover.
Hoover seemed to Dr. Parkhurst to have got too long on the fence politically, but he said he had had no opportunity for a close study of the man. On the Democratic side, the candidates takes his fancy. Dr. Parkhurst said he had pondered a good deal if Bryan would emerge finally as the Democratic candidate, either as a result of a deadlock or of the prohibition fight within the Democratic party.

Dr. Parkhurst believes in the removal of strong drink and of the saloon, but says the expulsion of wines and beer was a sad mistake. In speaking of his own regimen he remarked that he had a glass of beer after his dinner every day.

"Real beer" the startled visitor exclaimed.
"Pretty real," Dr. Parkhurst admitted cheerfully.

He aims to walk two or three miles a day and sleep eight hours a night. He has never used tobacco. He has no fringed rules of diet, eating and enjoying whatever the table affords. He said he was doing as little preaching as possible.

"I preached for forty-five years, and now I want a chance to practice some," was his final observation.

VARNISHED BOARD IS EFFICIENT RAT TRAP

LONDON, April 21.—A varnished board as an effective rat trap is a method recommended recently by Dr. Howarth, medical officer of London. A strong lithographic varnish should be warmed in boiling water and spread one-sixteenth to one-eighth of an inch thick on strawboard or fairly thick cardboard. A bait is placed in the centre of the board, and the rats in attempting to reach the bait are caught on the sticky surface in the same manner that flies are trapped on flypaper. The varnish should be effective for four days, when a fresh coat must be placed on the board.

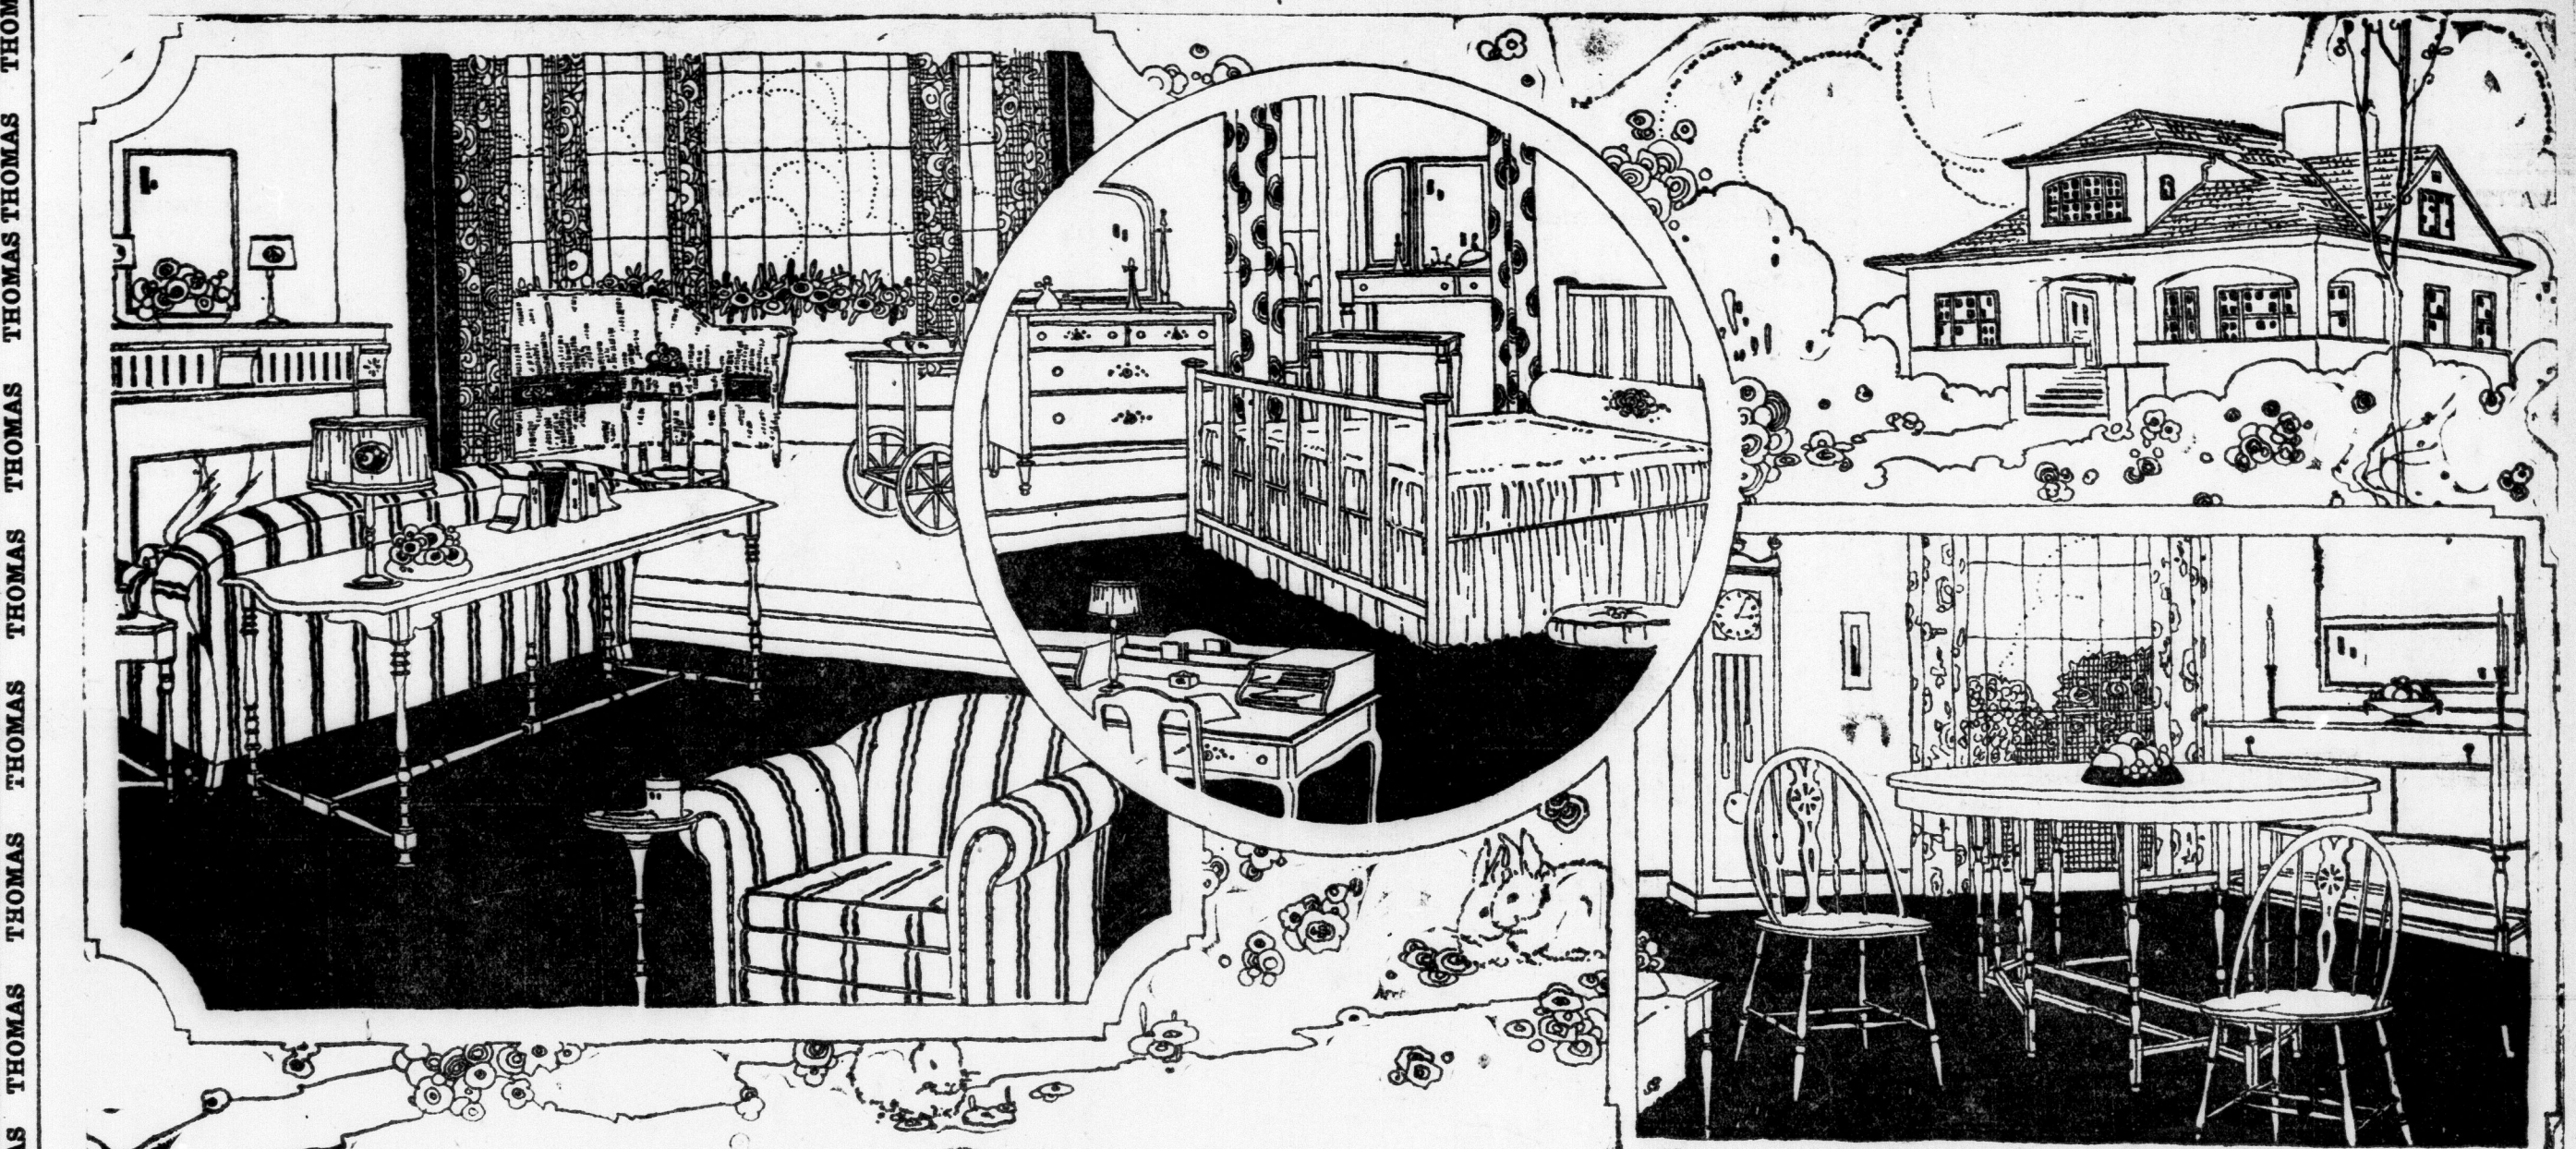

The varnish is not poisonous, and a coroner's jury would probably ascribe death to natural causes following a shock, said Dr. Howarth. I think that the rats die of fright. Once their tails stick their doom is sealed. They never get near the bait. They get their feet in the varnish and the more they struggle the faster they stick.

Hats caught during the night are news items. It is a very remarkable thing that if two rats get on the varnish together one of them kills the other. Evidently each thinks that the other is holding him. Then there is a battle royal and we find one with its neck bitten through. As to the cruelty of this method, we cannot afford to waste sentiment, and it is certainly not cruel as phosphorus poison, which takes about four hours to kill.

PROHIBITION RESOLUTION LIKELY TO GET A MAJORITY IN HOUSE

Despite Attacks in Form of Two Amendments Resolution on Importation Seems To Be Supported in Legislature—Soldier Member Opposes.

[Special to The Advertiser.] TORONTO, April 21.—Despite attacks from two points, each contained in an amendment, the McCreary resolution asking for a referendum on the importation of liquor seems assured of a majority in the Legislature. A part of the Liberal group is responsible for one of the amendments, which, while recognizing the procedure of a referendum, would defer it until a test case has been taken. The other is from the Conservatives. It is that the Government accept full responsibility. It does not even see the necessity of a referendum, although it approves of the idea of the people, if such were necessary.

On the surface the resolution and amendments differ only in method of effecting prohibition in Ontario. It is for individual members to voice their own feelings on prohibition and temperance reform. Of the House leaders, only Premier Drury has spoken. There is no doubt as to his attitude. He is in favor of the McCreary motion. Five Liberals spoke and indicated that the party is split, as was reported yesterday. Four of them, R. Hall (South West), J. W. Curry (South West), J. A. Calder (North Oxford), and Major J. C. Tolmie (North Oxford), spoke in favor of the resolution, and said they would vote for it.

L. Brackin (West Kent), the only other Liberal speaker in the debate tonight, moved the amendment, which will be supported by a portion of the Liberal party. That amendment is seconded by a Labor man, K. K. Homuth, of South Waterloo. Labor, too, is split. Wilson Crockett (South Waterloo) favored the resolution and Mr. Homuth and G. G. Halrow (East Hamilton) spoke against it. No Conservatives have spoken in favor of the resolution. There may be one lone member of that group favorable, and he voted against his party on the last division.

DRURY TELLS OF PRIVATE BILL

TORONTO, April 21.—Support for H. McCreary's referendum motion was forthcoming from both sides of the House when the resolution was debated this afternoon. The only opposition to the measure voiced during the afternoon came from G. G. Halrow, Labor member for East Hamilton. Three Liberal members pledged themselves to vote for the resolution, and a number of government supporters also did so. The feature of the afternoon was Premier Drury's speech in defence of the resolution. He stated that the Government had already given formal assent to three bills—the amendments to the 1919 housing act, the act respecting the erection of dwelling houses, and the amendment to the returned soldiers' and sailors' land settlement act. The two former deal with the Government's housing policy, and the latter empowers the Government to draw money from the north-west development fund, to carry out changes at Kapuskasing.

Entered the House. His honor entered the House at 3:15 accompanied by Premier Drury and Col. Alexander Fraser, A.D.C. After he had taken his seat on the throne

of the titles of the three bills were read, and his honor gave formal assent to their passing. The bills thus become law, and their provisions may be carried out without further delay.

G. G. Halrow of East Hamilton, in resuming the referendum debate, saw no need for taking a referendum every five or six months.

"The responsibility is ours, and we must face it," he declared. "The majority have no right to ride rough shod over the minority," he argued, opposing stricter temperance legislation. He favored an individual licensing system, under which every individual would be supplied with a card on which he could obtain liquor from dispensaries. Those abusing the privileges could be deprived of their cards.

"We have never been asked," declared Premier Drury, "why we have not made this motion a government measure, and the people have a right to assume the full responsibility for it. It has been said that we are hiding under the bush. Let me say that I am not afraid to submit it as a government measure, but I believe that it is to the advantage and in the interest of the people of the province, as well as to the members of the House, to secure a fair pronouncement, and it would not, therefore, in any sense be made a party question." (Loud applause from the government members and some members of both Opposition parties.)

Many responsibilities. "The Government has many responsibilities which it cannot and does not care to get away from, such as responsible for expenditures and management of policy. But then the private members of the House have certain responsibilities which also cannot get away from."

"We have had governments in the past which could put through any measure, and these not always in the interest of the province or the country. Every member should be free to pronounce his views on such great importance as this, without any fear of party entanglements."

"If it had been the general policy for the last ten years to let the great majority of the people decide upon this issue, regardless of party politics, then it is ten times more so that the members of the House should be placed in the same position."

"The Government ever come of making the temperance question a party issue? Again can we point to any time when Government members have taken responsibility for this question. It has been referred to the people on every occasion. The Government has always submitted a bill through private member. The inevitable tendency has been to divorce prohibition from politics."

Favored Prohibition. "Twenty-six years ago, by a majority of 21,789 the people of Ontario voted in favor of prohibition. It has not been taken by the party then in power as a mandate for total prohibition legislation. If the bill had been introduced at this session as a Government measure, the members of the Government would have been compelled to line up behind it, regardless of their individual views, and thus we could not have had a full and free expression of opinion. There would have been those who would feel compelled to support it in view of their general interest in the maintenance of the Government in power, while others might vote against the measure, merely to embarrass the Government."

"Again, there is a difference of opinion in the ranks of the prohibition forces themselves. Some of them are opposed to submitting a referendum at this time. But I don't think their reasons are sound."

Hon. Mr. Ferguson: "Do I understand that some of them are opposed to prohibition?"

The Premier curtly retorted that he did not consider the question worthy of reply, but reassured the Conservative member that the difference of opinion was merely on the question of desirable machinery to enforce prohibition.

"I am prepared to admit that minorities have rights; that where the question is a moral one the will of the majority should only be imposed with a great deal of caution. But no one can say that the question of drinking liquor is a moral one. It is a case where the majority would seek to impose their will upon the minority. It is a view that it affects very great interests. If free drinking is imposed it would, for instance, very much affect one question in which I am vitally interested—the bringing up of my boy."

(Loud applause from Government and Liberal benches.)

GETTING BIG RECEPTION

GEN. TOWNSHEND, hero of Kut-Eil-Amara, who arrived recently in New York to commence his tour of the states.

"I believe that no substantial advance can be made until the matter can be dealt with entirely free from political bias," the premier affirmed.

"I am going to vote for this resolution; I believe it is what is needed and the people have a right to pronounce directly upon it by referendum."

"Will anyone say definitely that because the people voted two to one for the enforcement of the Ontario temperance act last October they meant that importation of liquor should be prohibited? Personally I believe they did mean that, but if we go beyond the definite power of that referendum we will find strong opposition. If we are to deal with the question finally, wisely and well, we must submit it again to the people." Here Hon. Thomas Crawford intervened.

Defined Measure. "The premier and his people have defined this measure," Hon. Mr. Crawford observed. "Apparently it is a Government measure, and we will have to act accordingly."

"Good," exclaimed Hon. W. E. Raney. Premier Drury expressed doubt as to the meaning of Mr. Crawford's words. "Perhaps they mean they are going to play politics with the measure," he suggested.

"No, you're doing that," put in an Opposition member. "If so, my honorable friend from Northwest Toronto will have to take his own responsibility," the premier resumed. He explained that the Government had obtained legal opinions upon the temperance question. It has been argued, he admitted, that the Dominion act would not apply to Ontario because complete prohibition was not in force in this province. Members of the Dominion Government, he stated, had given opinions to the contrary, however, and there was no reason to doubt that if a referendum carried the Dominion act would come into force in Ontario.

Hon. G. H. Ferguson arose to inquire whether the Government had received any opinions which stated that the province could not, of its own accord, enact home dry prohibition.

There is such opinion. "I am informed there is such an opinion," Mr. Drury admitted. "Under the Doherty act the possession of liquor could be prohibited," added Mr. Raney. "I'm not talking about the Doherty act," Mr. Ferguson persisted. "Well, I am," the attorney-general shot back tartly.

Hon. Mr. Ferguson urged that the opinions received by the Government be laid before the House. He recalled that he had already asked that this be done.

"The work of preparing copies has just been finished this afternoon," Hon. Mr. Raney stated. He advocated a system of rationing liquor to the public in small quantities.

"Something must be done that can be recorded in the annals of the history of the Ontario temperance act, but heavier punishment for those who furnished liquor illegally."

Wilson Crockett, Labor member for South West; J. W. Widfield, U. F. O. member for North Oxford, and R. M. Warren, U. F. O. member for North Renfrew, also approved the resolution.

Karl Homuth of South Waterloo, seconder of R. L. Brackin's amendment, advocated a system of rationing liquor to the public in small quantities.

"The work of preparing copies has just been finished this afternoon," Hon. Mr. Raney stated. He advocated a system of rationing liquor to the public in small quantities.

"The work of preparing copies has just been finished this afternoon," Hon. Mr. Raney stated. He advocated a system of rationing liquor to the public in small quantities.

J. A. Calder, Liberal member for North Oxford. "It would be a shame if we did not give the people of Ontario an opportunity of deciding this question," declared Major the Rev. J. C. Tolmie of Windsor. "I come from a village which was not particularly dry, but I am going to follow the dictates of my conscience and the future take care of itself. I am going to vote for the resolution."

Proportional Representation. A special committee of the House will be appointed to consider the bill introduced by H. P. Hill, Conservative member for West Ottawa, which would establish proportional representation in Ontario. Mr. Hill spoke in support of the measure, tracing the adoption of the principle of proportional representation in other countries and submitting figures to show the weakness of the present electoral system. Mr. Hill agreed not to press his bill this session, but asked that a committee be appointed to report upon it next year.

Premier Drury declared himself in accord with the principle of proportional representation and acquiesced in Mr. Hill's suggestion. H. H. Dewar also approved the principle and emphasized the need for increased representation for urban municipalities. In this Hon. G. H. Ferguson intervened. "The additional representation for urban municipalities is entirely different from the principle of proportional representation," Premier Drury demurred. He expressed the opinion that the limit of representation should not be the same for rural and urban districts. "The committee to be appointed," Drury promised, would not shelve the measure, but would consider it carefully upon its merits.

As Willing Captives. "The honorable gentleman laugh," exclaimed the member for West Kent. "I can remember when they followed as willing captives at his chariot wheels only a few months ago. Mr. Brackin referred to the legal opinions which had been obtained as a result of the referendum. Mr. Brackin pointed out that the opinion of the attorney-general's department had not been obtained. He stated that it would be ample time to obtain a decision from the courts within the Dominion Government undertakes to take the referendum."

"My honorable friend, the attorney-general, laughs," he observed. "There are some members of the Legislature who do not like to expedite anything. But I am pleased to see that the attorney-general can smile. I have thought that he had been so long connected with those things that are supposed to drive away such that he could no longer smile."

Curry Favors It. J. W. Curry, Liberal member for Southeast Toronto, declared himself in favor of the referendum. He advocated milder penalties for ordinary breaches of the Ontario temperance act, but heavier punishment for those who furnished liquor illegally.

Wilson Crockett, Labor member for South West; J. W. Widfield, U. F. O. member for North Oxford, and R. M. Warren, U. F. O. member for North Renfrew, also approved the resolution.

Karl Homuth of South Waterloo, seconder of R. L. Brackin's amendment, advocated a system of rationing liquor to the public in small quantities.

NAME REPRESENTATIVE TO FINANCE CONFAB

OTTAWA, April 21.—The Government is considering who to send to the international financial conference in Brussels, and an announcement of its choice of Canadian representatives will be made in due course. Sir George Foster informed Hon. H. S. Beland.

Had Eczema FOR OVER 28 YEARS.

Eczema or Salt Rheum manifests itself in little round blisters, which contain an extremely irritating fluid. These break and subsequently a crust is formed, and the intense burning, itching and smarting, especially at night, of which the part is exposed to any strong heat is almost unbearable.

The success which Burdock Blood Bitters has met with in skin diseases of such severity is due to its wonderful blood-cleansing and purifying properties, and we know of no other remedy that has done or can do, so much for those who are almost driven to distraction with the terrible torture.

Mr. James Walker, 152 Niagara street, Hamilton, Ont., writes: "I have been using Burdock Blood Bitters for some months past, and find it an excellent remedy for skin eruptions. I have suffered with eczema for over 25 years, and think of it. I was recommended to use Burdock Blood Bitters, and I am now clear of my skin trouble. It is certainly a good remedy, and I shall recommend it to all my friends."

CHICAGO CUBS TO CURTAIL BETTING AT THEIR PARK

Manager Mitchell Will Not Announce His Pitchers Before Game.

CHICAGO, April 20.—Gambling on baseball games will be curtailed this season, according to officials of the Chicago National League Baseball Club, who have started a movement against the practice. It is claimed that numerous bets are made on the strength of who the opposing pitchers are to be. This year, Manager Fred Mitchell declared he will not announce his pitchers until the time his batting order is handed to the umpire, just before the game.

Manager Mitchell, whose home is in Boston, declared he knows of numerous instances in which the wagers were placed after the pitchers had been selected. He said he also knows of a certain hotel waiter who takes \$25 a day by a gambler for obtaining from the visiting manager the name of the pitcher who was to perform for the visiting club that day.

"Most of the betting is done in the poolrooms downtown," said Mr. Mitchell, "and I believe if the proprietors of these places do not know who is going to pitch they will not be keen to accept wagers. By withholding the name of the pitcher, I believe much of the gambling will stop.

"If we desire to keep the sport pure, gambling must be eradicated. The Chicago Club is to do all it possibly can to stop it. President William Veech, who has taken steps to keep it out of the ball park in Chicago, and I am going to attempt to keep the men in the poolrooms from betting by giving out the pitcher at the last moment.

"Gambling is not to creep into the game and ruin it for the future fans and players if I can help it," Mitchell continued. "I am sure there is the least suspicion of it on my team an investigation will be made, and the man or men who are apprehended will not stay a minute."

Tuxis Boys AND TRAIL RANGERS BY Firelighter

The program for the athletic meet of the Tuxis Boys and Trail Rangers, which will be held on Thursday and Friday evenings of next week, has been changed slightly. The Tuxis Boys will hold their events on Thursday evening, instead of Friday.

The track has been surveyed at the armories in such a manner that one lap is exactly 140 yards.

A special relay race of 140 yards will be staged for athletes who are taking the meetings of the Tuxis squares, but who are too old to compete in the games.

All races will be held on the 140-yard track.

There will be four prizes given for the sprints, first, second, third and fourth.

The prizes will be in three grades. Grade A for boys getting over 100 per cent, Grade B for 90 to 100, and Grade C for 80 to 90.

Two team prizes will be given for the relay races.

It was announced this morning that a shield will probably be given for the highest scoring group in the Trail Ranger camps, and the Tuxis squares.

SOME MORE

don't give a damn what else happens." Evidently he accepted the St. James election as a proof that the Solid Quebec is a lasting entity. It is no secret that the Conservatives are looking forward to the time when Laurier's memory will have lost its magic and Quebec will go about fifty-fifty, as it did in Sir John Macdonald's day, or perhaps sixty-six and two-thirds, as it did in the St. James election which becomes more and more a manufacturing community. The St. James election seems to indicate that the continuation so devoutly wished by the Unionists and their prospective successors, the high tariff Liberal-Conservative party, is still some distance off.

It will Not Do. Another horrid head that refuses to be bashed in is the Returned Soldier. The gratuity is not the sorest point. The government has again refused to distribute money that it can't get short of confiscating our bank accounts—but the fact that the Returned Soldier threatens to become a solid political bloc. Sir George Foster—perhaps rightly—declines to shake hands with Private Harry Flynn, but the movement Flynn represents grows in political strength, if not in financial prospect.

This movement has advanced to an attempted raid by about 10 per cent of the Canadian expeditionary force on the Dominion treasury, and is becoming much more menacing—a get-together campaign by all the returned soldiers to form a political party. The G. W. A. has opened its doors to all the soldiers who care to join, and there is every reason to believe that this enlargement of boundaries will soon show results. At any rate, Union Government views which promises to be not so hard on active restagers of the military service as was apprehended.

EMPLOYERS CAUSE INSURGENT STRIKES, SAYS TOM MOORE

Quebec Judge Breaks Down Sentencing Her To Hang.

Winnipeg, April 21.—That insurgent strikes or strikes by the rank and file of labor without the sanction of the officials, were the result of the employers exploiting the desire of the labor officials to solve industrial problems by negotiations, was one of the statements made today by Tom Moore, president of the Trades Congress of Canada, during an interview.

With regard to the provinces of Canada possessing the sole right to deal with industrial problems by legislation, Mr. Moore stated that the Trades Congress of Canada, representing international unionism on this side of the boundary, were strongly in favor of the unification of labor legislation and would go so far as to stand for the surrendering of these rights by the provinces, and their being vested in the Federal Government.

TENDER GUMS — A WARNING

Beware of gum tenderness that warns of Pyorrhea. Four out of five people over forty have Pyorrhea—many under forty also. Loosening teeth indicate Pyorrhea. Bleeding gums, too. Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the system—infecting the joints or tonsils—causing other ailments.

Forhan's positively prevents Pyorrhea. If used in time and used consistently. As it hardens the gums the teeth become firmer.

Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment.

PENSIONS COMMITTEE DESIRES SUGGESTIONS FORWARDED AT ONCE

Chairman Hume Cronyn Issues Statement.

OTTAWA, April 21.—Many suggestions as to proposed changes in the pensions regulations have already been considered by the special committee on pensions and re-establishment, and several suggestions in regard to re-establishment are before the committee for later action. However, the committee is anxious that any further general or specific constructive suggestions on either pensions or re-establishment should be placed in its hands at once, as the committee sittings cannot continue indefinitely.

The chairman, Hume Cronyn (London, Ont.), issued the following statement tonight:

Prepared To Present.
The committee must be prepared to present a report to the House before the session closes. There already have been brought to our attention through the Great War Veterans' Association and other soldiers and civilian organizations a number of problems connected with the subjects of this inquiry. On the pensions side, among others, are the following:

"First—Increases in pensions to disabled men and their families; to widows and their children; to mothers and their dependents.
"Second—Special treatment and allowances in the case of those suffering from tuberculosis, from amputation, or from blindness.
"Third—Changes in the provisions of the present law, which withheld pensions from the families of those who marry subsequent to their disablement.

Evidence Not Heard.
As to re-establishment, while evidence has not been heard, many suggestions have been sent in. The committee would appreciate receiving, at the earliest possible moment, any further general or specific constructive suggestions of either side of the inquiry. These should be addressed to the Chairman, Committee on Pensions and Re-establishment, House of Commons.

Tomorrow the board will hear D. S. C. R. limb-fitting experts to answer statements made by the amputation witnesses yesterday.

TO OPEN MEMORIAL PARK AT ILDERTON JUNE 2

ILDERTON, April 21.—At the meeting of the Lobo Union School committee on Monday evening there was a fair attendance of the members. The Lobo Township councillors were present in a body. At a previous meeting it was decided to hold the Lobo Township centennial celebration and grand opening of the memorial park on June 2. A large amount of business was transacted, the session lasting until midnight. George Barclay presided and A. E. McKay acted as secretary. Several important reports were presented after routine business.

The report of the memorial gate committee was introduced by Rev. A. Ferguson, and Counsellor William Chapman told of action taken and progress made, and exhibited blue prints of the different designs, and stated that the committee had decided on the reinforced brick pillars, surmounted by a steel arch, carrying the name of the park in large letters and two marble panels on the face of the pillar for the names of the boys who paid the supreme sacrifice in the world war.

On the motion by George Graham and E. T. Cayserall the report was adopted, and the committee asked have the work completed in time for the opening.

Small's Sisters Not Allowed To View It, Report.

TORONTO, Ont., April 21.—In connection with the finding of a human hand in a back alley near Clarendon Place, this city, last Friday, the disappearance of Ambrose J. Small, a wealthy theatrical manager of Toronto, on December 2, 1919, has been recalled by Mr. Small's two sisters, asking Chief Coroner Dr. Jukes Johnson for an order to view the hand and being refused permission to see it. The reason advanced for the refusal was that the hand was badly burned by acids.

The Toronto World will carry a story tomorrow morning to the effect that the hand in question does not bear evidence of having been an anatomical specimen, and though covered by dirt, it looks as if it had been the hand of a man in fairly good circumstances. The World story states that the Misses Small, Ambrose Small's sisters, complain that they have been unable to obtain any information from the local authorities as to what is being done in the matter of clearing up the mystery of Mr. Small's disappearance, and that inquiries from them are met with the reply that the authorities are investigating for Ambrose Small's wife and solicitors.

ASK ONTARIO GOVT. TO DEFER PROPOSED TAX ON RACE TRACKS

Deputation Requests Delay Until Federal Tax Known.

TORONTO, April 21.—Hon. Peter Smith, Ontario provincial treasurer, was urged this morning by an influential and representative body of race-track men to defer the imposition of any provincial tax on racetracks until the Federal Government's decision with regard to the tax on pari-mutuel machines would be determined. The provincial treasurer, together with Hon. Manning Doherty, minister of agriculture, and the Hon. W. E. Hanson, attorney-general, heard the deputation.

The basis of appeal as outlined by the race men is that the federal authorities will impose some tax upon the profits, which may be derived from the gambling devices installed on the tracks. To just what extent these profits will be limited is as yet unknown, but the claim is made that were the \$10,000 daily import levied on all mile tracks, together with a still further federal levy, racing operations, regardless of the betting, would be virtually killed.

Among the suggestions made by the race men was that the Government should pay a percentage to the track owners on their investment of six per cent. Another suggestion favored the imposition of a tax of \$2,500 on mile tracks, but all were agreed that the proposed levy of \$1,000 and \$500 respectively for mile and half-mile tracks, would be prohibitive.

COMMITTEE WOULD MAKE ENGINEER OF COUNTY BE GRADUATE

TORONTO, April 21.—At the municipal committee this morning Mr. C. C. Biggs' bill to extend the right of voting at municipal elections by giving wives and daughters the same privileges as farmers' sons, came before the municipal committee this morning. On the suggestion of the minister it was held over until next session.

Assent was given to the bill, which provides that the filing of declarations of qualifications for municipal offices be the same in rural as urban municipalities. The committee agreed to Mr. Hanson's bill to amend the highway improvement act, by making it compulsory that every engineer appointed by a county council shall be a graduate in civil engineering of a university, or a member of the engineering institute of Canada, or an Ontario land surveyor.

NEW YORK, April 21.—Efforts to effect a settlement of the controversy resulting from the recent alleged corner in Stutz Motor stock have been delayed. It was learned tonight, pending the appointment of a mediation committee of three bankers to fix the prices at which the shorts should settle their obligations. Allan A. Ryan, chairman of the board of the Stutz company, who owns a controlling interest, has consented to meet the committee, but he is quoted as saying he would not grant it arbitrary power to fix settlement terms. Representatives of 58 firms who were short Stutz stock have adopted resolutions pledging themselves to abide by the findings of the committee.

MAINTENANCE OF WAY PRESIDENT CHARGED BY FOUR MEMBERS WITH GROSSEST EXTRAVAGANCE

Specific Charges Include Misuse of Several Large Sums of Money Belonging To the Brotherhood—Investigation Ordered—President Resigns.

DETROIT, Mich., April 21.—Charges of "grossest extravagance" and "irregularity in handling of funds of the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers" have been filed against Allen E. Barker, former international grand president of the organization, by four employees who had access to the brotherhood ledgers and who declared that the books show over half a million dollars has been spent and there are no means of recovery that the brotherhood has received anything in return.

Investigation Ordered.—The executive committee of the brotherhood issued a statement this evening to the effect that an investigation is under way, and that if misuse of funds was proved "proper steps will be taken for recovery thereof."
The complainants are T. Saunders, L. Miller, H. Brown and B. A. Gladstone, employees in the secretary-treasurer's office of the brotherhood. Their complaints reached the executive committee on March 17, and almost immediately thereafter an announcement was made that President Barker had resigned.

The Charges.—Specifically the charges are: "That Barker permitted payment of \$25,000 to Peter A. Miller, representing Miller's salary for one year, although that he charged the organization with an average personal expense of \$650 a month without submitting a monthly itemized account."
That Mrs. Edwards (Barker's secretary) received \$200 rent for three rooms

HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE.

Miss Eva P. Yateman, Krugersdorf, Ont., writes: "I feel that I must write and tell you of the great benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, whenever I was, that it was not safe to leave me alone at any time. At last I decided to resort to proprietary medicines and took several kinds, but seemed to receive but little benefit from them. One day, noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them, and before I had taken more than two boxes I could see that they were helping me. I have taken about ten boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise anyone troubled with their heart to try them, as I am confident they will find relief."

READY TO USE ARMS TO BACK TURKISH TREATY

Allied Supreme Council Prepared To Enforce Terms.

HAVE NAVAL PLANS ALSO

Beatty Explains Preparations To Meeting—End Session Saturday.

SAN REMO, April 21.—The supreme council of the Allies is fully prepared to execute the Turkish treaty by military force if necessary. The council accepted today a plan drawn for the employment of the allied armies by Marshal Foch, Field Marshal Sir Henry Wilson, British chief of staff, and General Badoglio, Italian chief of staff, who were present at the morning session.
Two hundred thousand allied troops now are within the borders of the Turkish Empire, strategically disposed, and these forces can be increased if Turkish resistance develops favorably to an essential number. Supplementary naval plans were also approved by the council, to which Baron Beatty, commander of the British grand fleet, and Admiral Levesseur, assistant to the chief of the general staff of the French navy, explained the plans in person.
The treaty does not include the final arrangements for mandatory states. They will simply be cut apart from Turkey and disposed of by the supreme council in the future.
The council had a dreary three hours' afternoon session over Turkish landholders' rights, then over boundaries, but did not finish the treaty altogether. The news of Germany's request to retain an armistice in conference circles. It is recalled that 200,000 was Marshal Foch's original figure for the German army, but it was reduced to 100,000 at the instance of Premier Lloyd George.
The premiers decided to end the council on Saturday. Many questions

Excise Tax on Luxuries?

(Special To The Advertiser).
OTTAWA, April 21.—The imposition of an excise tax on luxury lines, by which individuals purchasing goods or articles in excess of a certain price shall be compelled to pay a percentage over and above toward the treasury, is said to be in contemplation by the minister of finance.

Such a tax is in force in the United States at the present time and is intended to act not only as a revenue-producer, but as a sumptuary restriction upon extravagant tastes. Under the measure, if it is introduced, a certain line of articles would be stipulated, including apparel, boots and shoes, etc., and it would be provided that a percentage be added to each individual article costing above a certain amount. A record of transactions would be kept by the dealer and the proceeds from the tax on sales turned in to the receiver-general.
The measure, however, recommended by the minister has internal problems at home demanding his attention. That is the official explanation.

ARMENIAN MANDATE.

PARIS, April 21.—The supreme council has abandoned the idea of giving the mandate for Armenia to the league of nations as a result of the objections raised by the council of the league of nations, and will ask neutral Norway and Sweden to help the Armenian people establish a free state, an international loan being floated to finance it, says a Havas dispatch from San Remo.
The dispatch adds that the supreme council further decided to leave a settlement of the Cilicia and Syrian questions to negotiations between Great Britain and France, and that the council has authorized a plan to give Smyrna a political status, taking into consideration the Muslim element without neglecting the legitimate Greek interests in the city.

EARLY CLOSING BYLAW BRINGS GROCER TO COURT

SARNIA, April 21.—Advising the defendant to secure counsel, Magistrate Gorman today enlarged until Thursday the hearing of the case of W. M. Rae, George street, grocer, charged with violating bylaw No. 1183, known as the early closing bylaw, by neglecting to close his shop at the required hour on the night of April 16.
Admitting that he had his store open, the defendant pleaded not guilty to the charge, contending that his store did not come within the provisions of the bylaw. He claimed that groceries, meats and provisions did not comprise take-out to that effect.
City Solicitor John Cowan, who was present at the hearing, asked that the defendant give evidence, as he had been subpoenaed as witness as well as defendant in the case.
Mr. Rae claimed that the onus of proof that his business came under the provisions of the bylaw was upon the prosecution, and for that reason he desired to testify. The court advised that he secure counsel and granted an enlargement of the case.

GRAND TRUNK BILL READY FOR THIRD READING

Agreement Passes Committee Stage Under Fire of Opposition.

PURCHASING COMMISSION LIBERALS CRITICISE MOVE TO NAME ANOTHER BODY OF FAT JOBS.

OTTAWA, April 21.—(By Canadian Press).—After another protracted session on the proposed ratification of the Grand Trunk agreement the House of Commons tonight put the bill through the committee stage, but agreed to allow the third reading to stand over.

Hon. C. J. Doherty stated that third reading would come up in the ordinary course tomorrow.

Replying to Hon. W. L. Mackenzie King, Hon. Dr. Reid stated no amendments could be accepted to the agreement as already decided upon between the company and the Government.

"Then it is useless for this discussion to proceed further," said the leader of the Opposition, and the bill was reported out of committee at 11:20.

The House will discuss the franchise bill after a somewhat stormy session in the afternoon process was reported on the Government resolution to provide for the establishment of a purchasing commission for Government supplies.

Opposition criticism of the resolution was heard and the contention that the Government was seeking to cumber the country with another commission which would be done by deputy ministers or other officers familiar with the work of the various departments. The Government, on the other hand, contended that the war purchasing commission had saved the country millions of dollars, and that this commission would do likewise. Some of the Government supporters, however, were un sympathetic to the proposal, and John Best of Dufferin said there was no need for a cumbersome commission just to give somebody "a nice fat job."

Early in the afternoon the House divided on an amendment introduced by I. E. Pedlow of South Renfrew to amend the Grand Trunk bill so that it should be defeated by 100 to 57, a majority for the Government. The members of the new Progressive party voted with the Government.

Grand Trunk Bill.

In the evening the Grand Trunk bill was again before committee and opposition showed no sign of abatement, and Lucien Cannon of Dorchester professor of law and a member of the committee, at first reading. He aroused amusement by comparing Government acquisition of the Grand Trunk system with the methods employed by the Bolsheviks in Russia. Referring to Hon. Newton Wesley Rowell, Mr. Cannon said: "The time has come for the representative of the people of Canada to put a stop to this radical policy of the Government, especially when Iolshivism is introduced into this country by a minister who carries a Bible in his hand and a temperance tract in the other."

Mr. Cannon also took a fling at Hon. C. J. Doherty who he said was a good Irishman in Canada. "Some people say that he is not as good when he reaches Paris and has to discuss the Irish situation facing Lloyd George," he remarked.

"Would the honorable gentleman allow me to ask him who are the 'some people' who say that, or does he father the falsehood," queried Mr. Doherty.

Mr. Cannon replied that the United States representatives of the Irishmen in the United States, made their report and said "something." He did not say what the "something" was.

Mr. Doherty took the Grand that the line suggested by Mr. Cannon was "a gross impropriety" injurious to the interests of Ireland.

Finally the chairman requested Mr. Cannon to stick more closely to the subject under debate.

At the opening of the House a special committee was appointed to deal with the question of battlefield memorials for Canada. Sir George Foster informed the House that the budget would be brought down within ten days.

RAIL STRIKERS LOSE SENIORITY RIGHTS, CLAIM

Official of Managers' Association Says Hired As New Men.

UPROAR IN MEETING STRIKERS DECLARE THEY HAVE BEEN "SOLD OUT"—REFUSE TO RETURN.

NEW YORK, April 21.—Railroad employees who took part in the unauthorized strike will not be reinstated with their seniority rights, it was stated tonight by J. J. Mantell, spokesman for the General Managers' Association, after a conference with the representatives of the four brotherhoods of railroad employees. The returning strikers will be registered as new employees, Mr. Mantell said.

NEW YORK, April 21.—(By the Associated Press).—Discussion of what shall be asked of Germany and how what is asked shall be exacted will be begun tomorrow. Tension between the British and French delegations on this subject has been considerable.

The French are declared to feel deeply they have been the greatest sufferers from Germany's omission in fulfilling her treaty obligations, that Germany's retention of war material obliged France to remain armed, and that the reduction of coal deliveries keeps an important fraction of the French industries idle. They say that Germany during the last nine months has indicated clearly to the French mind that she intends to do nothing she cannot be compelled to do, and that unless the Allies sharply warn her and prepare to follow up by enforcing her treaty obligations, Germany will default upon the essential clauses of the treaty, counting upon further penalties or upon a revision of the treaty greatly disadvantageous to the French.

The British position is that although Germany has defaulted in several extremely important respects, and that she must be required to fulfill her obligations, she can be made to do so without further restriction of her liberties and with economic restrictions, priorities and with economic restrictions.

Tension Between British and French Considerable.

WINDSOR, April 21.—Following an investigation which has taken a year and a half, federal officers have arrested Sam Marjolies, proprietor of the Marjolies road house on American Shore of Lake St. Clair, his wife and Ben Landsberg of the Iroquois Hotel, Detroit, who are charged with a violation of the Harrison drug act, the specific accusation being that the trio imported narcotics presumably from the vicinity of Windsor in boats across the water.

Marjolies' home were found a complete cooking outfit for opium, pipes, lamps and outfit for smoking, as well as a copper cauldron full of cooked opium, and in three bedrooms stands such as opium smokers use were found by the beds.

Landsberg is charged with bringing in raw opium and doing the actual cooking.

While the girl was being taken to safety the boy straggled behind the engine, and the train had again started just as the child had tumbled out and over the rails to safety.

A LONG LIFE, GOOD HEALTH AND VITALITY

Is the Birthright of Men and Women.

It All Depends Upon Good Blood and a Normal, Healthy Circulation.

Men and women who are anemic, thin, pallid, all run-down, dejected, no energy, no strength and no vitality, miss all the joy of life—are prone to disease, and a burden to themselves and families, and their lives are shortened by this condition.

Here is a guaranteed non-secret remedy, and if you have drifted into this condition, why not take advantage of your druggist's guarantee and give VINOL a good trial.

You will certainly find that in a very short time your appetite will improve—it will enrich your blood, quicken your circulation, and strength and vigor will be imparted to every organ and muscle in your body and the bloom of health will return and life be worth living.

The reason physicians recommend VINOL is because they know it contains iron in its most easily assimilated form, together with the tissue, flesh and strength-building elements of cod liver and beef peptones and glycerophosphates, which are recognized as the best blood and body-building tonics known.

ORDERS POUR IN FOR COAL AT COST

Windsor Citizens Are Taking Advice of Fuel Controller.

WINDSOR, April 21.—Although no deliveries of coal for the month of April have been made as the result of the railroad strike, orders from citizens wanting coal at cost are pouring in to the office of Civic Fuel Controller Parker. Mayor Winter's warning to Windsorites to comply with the advice of Fuel Controller Harrington is having its effect, for the demand is heavier than it has ever been before at this time of the year.

R. O. Wynne-Roberts, engineer of the Ontario Housing Commission, is in Windsor superintending the installation of water and sewer mains to be connected with the 100 houses to be erected by the Windsor Commission in its fight against the shortage of houses here. Work is to be commenced immediately, and a call for tenders for various phases of the work will be issued some time this week, it is expected. Payments of tenants will not exceed \$25 monthly, Mayor Winter declared today.

The overall campaign against high costs of clothing became strongly apparent here today. Practically every male student at the collegiate came attired in blue denim. Employees of the street railway have adopted the new and cheaper garment until present high levels return to normal.

WINDSOR PRISONER ATTEMPTS SUICIDE

WINDSOR, April 21.—Serving a sentence for breach of the Ontario temperance act, D'Arcy Eldred, victim of tuberculosis, curvature of the spine and hip disease, was saved from death at his own hand in the county jail at Sandwich this morning by city prisoners in adjacent cells. They summoned Turnkey LeBeouf in their efforts to cut the belt on which Eldred was suspended from the bars across his window. The prisoner has been practically cured, it is alleged, of the drug habit through a course of treatment for two months at the hands of Col. H. R. Casrain, jail physician. He was in great pain at 1 o'clock, and Turnkey LeBeouf quieted him and left him partly asleep in his cell.

When cut down, he was still conscious, and had apparently been suspended by his neck but a short time. Restoratives brought him back to consciousness, and today he declared his thankfulness for the rescue.

Have You A "Twenty Pay Life Policy?"

A true story of a Canada Life Policy issued over forty years ago.

A Policy on your life may do much that you intend to do—if you live. It may pay off the mortgage, supply food and clothing for your family, keep the children at school and prevent a forced sale of your other property.

It may be all that is left of your life work—to keep you in comfort in your old age.

But—your Policy must be large enough.

The Twenty Payment Life

Our new up-to-date policy provides—

1. That premiums will cease in 20 years.
2. That dividends will be paid during the 20 years, and afterwards.
3. That if you should be totally and permanently disabled before age 60, all premiums will be cancelled, and a monthly income paid to you.
4. That such monthly payments will not be deducted from the policy at your death.
5. That after 3 years you may take a Cash Value, or receive a paid-for policy or pledge the policy as security for a loan.
6. That the policy cannot lapse while a cash value exists; that the policy is indisputable after one year; that you may reside or travel in any part of the world or engage in any occupation without affecting your insurance.

(There are many other valuable privileges.)

An Immediate Estate

The great advantage over any other form of investment is that a small percentage paid yearly creates immediately an estate of \$5,000, \$10,000 or more.

These active, progressive years of life in which you are earning the most money are the years in which premiums can be more easily met.

Twenty years is a convenient period and premiums spread over that length of time are moderate and easy to handle.

Do not delay this important matter. Ask for particulars today.

At age 30 he secured his \$5,000 Twenty Pay Life Policy.

At age 35 he received his first Dividend, which was added to the Policy.

At age 50 he received notice that his Policy, with 20 years' Dividends, was fully paid for.

At age 60 his Policy, still earning Dividends, helped him to finance the purchase of a new home.

At age 70 he withdrew the Cash Value for his own personal use. He received a Canada Life cheque for \$6140 in return for his \$2830 paid in premiums. For many years his home had been protected by insurance of \$5,000 and Dividends.

MUST PAY \$1,000 OR GO TO BURWASH

WINDSOR, April 21.—Alleging that his store of 75 cases had been laid up for a 30 years' supply in anticipation of a long drought, and that it had been stolen, Isidore Katzman failed to convince Magistrate Miers of the legality of his action, and was fined \$1,000 and costs, with the alternative of spending six months in Burwash Reformatory. Two provincial officers, the vanguard of a large force the Government has promised to send here to curb illicit traffic in liquor, established sufficient proof to indicate the liquor had been sold.

The case, which has been in progress for some time, has attracted widespread interest here, because of the defence offered by Katzman after his conviction, and because of the fact that a search warrant and they found nothing and became suspicious. "Your case is highly improbable. If you and your wife had arranged to be absent when the liquor was taken, it is inconceivable that a man would spend \$1,000 for liquor, and knowing how \$100-runners are committing thefts here, fail to take measures to protect it."

ROBBER-CHEFTAIN HOELZ IS ENCAPMED IN HIS STRONGHOLD

Claims an Army of 5,000, But Does Not Expect To Achieve Anything. WILL CROSS BORDER Will Quickly Dissolve Army in Czecho-Slovakia - Interviewed by Correspondent.

KLINGENTHAL, April 21.—Accompanied by an English colleague I have come from Plauen to Klingenthal to see Max Hoelz. For the first few miles the journey was uneventful, but presently we came to the village of Mark-Neu-Kirchen. Here we were summarily held up by Hoelz's outposts armed with rifles and wearing red armbands. Hoelz's outposts asked our business and whether we were armed. They seemed considerably impressed when we said we wished to speak with none less than Hoelz himself and they passed the word along the line that we were wished to enter a narrow valley which cuts through the Erzgebirge—the Ore mountains of the Saxo-Bohemian borderland. Through scenery of the loveliest foothill description we mounted steadily. There was a curious feeling as if climbing up to a highland castle. Hoelz has installed himself in a hotel, but we found him drinking coffee in a neighboring cafe. He is a man of fine appearance, well groomed and with that intense look in his deep-set eyes which marks the zealot.

STOCK PRICES TAKE SPECTACULAR DROP

Big Slump Also Occurs in Quotations On Foreign Securities. NEW YORK, April 21.—Wall Street today furnished the news sensation of the country, heavy liquidation in the stock market sending prices to a spectacular plunge. Leading issues, especially those of a speculative nature, dropped 5 to 15 points. General Motors fell 2 1/2 to 275.

What condemns Max as a political leader is that he has no political ideas. As Max does not intend attempting anything beyond saving himself, his whole movement becomes one of sheer plunder, but he shows the utmost delicacy in the language which he used to describe his acts of incendiarism and arson committed against private people, which he calls "reprisals against the Reichswehr." The levies, imposts and exactions which he has visited upon the towns and magistrates that have fallen victims to him, he calls "contributions." Such weekly "contributions" as he has levied upon the communities of Plauen and Falkenstein, he calls "reparations," and his seizure and red misrule and revelry in the baronial castle of Falkenstein, he would term "hospitality" of the Freiherr of that ilk.

FINANCIAL AND COMMERCIAL WHEAT SELLING AT \$1.85 TO \$1.90 TON

Drop in Potato Prices Is Predicted—Hog Prices Steady. Wheat is the only article for sale on the local market this morning that is coming down in price. It is sold for \$1.85 to \$1.90 per bushel.

Hay, straw and oats remain steady. The oat supply is still ample. New oats, per bu., \$1.40 to \$1.45. Barley, per bu., \$1.30 to \$1.35. Corn, per bu., \$1.25 to \$1.30. Potatoes, per doz., \$2.50 to \$3.00. Apples, per doz., \$1.50 to \$2.00.

NEW YORK ASSEMBLY PASS 8-HOUR DAY LAW

Albany, April 22.—The eight-hour day for women and minors and the minimum wage bill for women were passed by the Senate early last night by substantial majorities.

There is only one way to build up a rundown system if the blood is pale and thin. Many diseases are caused by thin blood. Other diseases such as influenza and rheumatism cause the blood to become thin and the resulting effects of these disorders cannot be combated successfully until the blood is restored to its normal condition.

SAFE AND EFFICIENT HOME TREATMENT

Many Weak and Ailing People Who Have Been Helped Strongly Recommend Dr. Williams' Pink Pills.

Dr. Williams' Pink Pills do one thing and do it well. They build up the blood, increasing the number of red corpuscles. In this is done, the blood becomes a richer red and is able to carry more oxygen, the great supporter of human life.

STAMPEDE ON CHICAGO MARKET

CHICAGO, April 21.—Excited selling smashed down prices this afternoon on the board of trade almost as much as quotations were first hoisted at the beginning of the world war. Corn dropped nearly nine cents a bushel, oats six cents and pork \$1.00.

Chicago, April 22.—Provisions, like cereals, gave way under increased selling pressure in sympathy with grain and hogs. Lard touched the lowest price yet this season.

This totals \$96,750.

To this is added \$65,500 for capital account or building costs, which will be held in trust until used for a specific purpose. It is composed of the following: Women's Christian Association, for new home for incurables, \$25,000; I. O. D. E., for children's hospital, \$25,000; Y. W. C. A., toward new building, \$5,000; Salvation Army, building work, \$8,000, and to pay interest on large sum to be borrowed by Salvation Army for erection of children's and nurses' home, \$2,500; contingent fund, \$17,500.

This Will Be the Only Canvass For Funds For Local Work This Year The United Welfare Fund Association owes its inception to the very just complaints on the part of hundreds of citizens that they were being pestered and annoyed day after day for contributions to all kinds of welfare work. By this new plan the amount of money you want to give to welfare work will be subscribed in one lump sum. Payments may be made monthly, spread over the year.

THE NEED FOR MONEY FOR WELFARE WORK IS GREAT THIS YEAR So make your contributions as large as you can. GIVE ONCE, BUT GIVE ENOUGH. You will be canvassed at your home or at your work during the week of May 3 to 9. These organizations must have funds to carry on their wonderful work. The only way they can get them is by public subscriptions.

"KEEPING UP WITH THE JONESES" AT THE GRAND TONIGHT, TOMORROW AND SATURDAY.
Mr. Hill has scored another success with "Keeping Up with the Joneses," a musical comedy based on the popular comedies of Pop Momand. Wedded to some of the most tuneful music, this brand new comedy will hold forth at the Grand Friday and Saturday with the customary matinee. Girls, and plenty of them, are quite conspicuous and do a lot toward making the offering successful. Built and written for laughing purposes exclusively, this brand of entertainment promises a most satisfactory performance.

YOUR LAST CHANCE TO SEE "IN OLD KENTUCKY" AT THE ALLEN.
Today is your last chance to see the big thrilling screen spectacle "In Old Kentucky" at the Allen. Packed full of thrills from start to finish and with one of the screen's most beautiful stars in the leading role, the picture is one of those great successes which appeals to every taste. From the fierce fight with the moonshiners and the ride of the horse of masked men after the mountain girl's lover, the leap for death over the yawning chasm, and the greatest thrill of all, the big race scene, when Madge takes the place of the locket at the last moment and rides the big thoroughbred Queen Bess to victory in the famous Kentucky turf meet, make you gasp with excitement. Special musical settings and added film attractions complete this special program.

AT LOEW'S.
Another Charles Ray winner comes to Loew's for the next three days. It's "The Egg Crate Wagon"—one of those heart-warming Ray joy-fests with a big punch at the end. Thomas H. Ince produced it, and it's a Paramount-Artcraft. You know what that means in pictures. It's all about Jim Kelly who started out in life wrestling egg crates in the country and won the girl and the fortune in the prize ring. You'll want to jump right up in your seat and give three cheers when Charlie clips the sick little sucker on the chin for the count. Better come early—the good seats go early, and don't forget the matinees.
The vaudeville brings one of the season's snappiest offerings in Julian Hall

and company, in "Snap Shots," a sparkling diversion of music, charm and youth. Five pretty misses in charming gowns, who sing, dance and give an offering of the latest in jazzopation are included in this pretentious classic. Carlo and Noli, America's foremost tenor and prima donna, will offer a melange of classical and popular musical gems, that should be one of the best bits of the bill. Sherman and Rose, in novel dance ideas, Harry Antrim, an odd fellow with a heap of odd songs and stories, and Sue Creighton, late of Al Jolson's Sinbad, assisted by her

Simple Home Treatment to Remove Hairy Growths

(Beauty Culture.)
Two or three minutes' use of a delicate paste will banish every bit of hair from your face, neck or arms. This paste is made by mixing some water with powdered delatone. After the paste is removed, the skin should be washed to free it from the remaining delatone and it will be clear and spotless. You will not be disappointed with this treatment if you are sure to obtain real delatone from your druggist.—Advt.

Claims Dandruff Will Cause Baldness

If you have dandruff you must get rid of it quick—it's positively dangerous and will surely ruin your hair if you don't.

Dandruff heads mean faded, brittle, scraggly hair that finally dies—new hair will not grow—then you are hairless and nothing can help you.
The sure way to abolish dandruff for good is to destroy the germ that causes it. To do this quickly, safely and without risking a penny get from your druggist some Parisian sage (liquid form). This is guaranteed to banish all dandruff, stop itching scalp, check falling hair, and promote a new growth, or the cost, small as it is, will be refunded.
Parisian sage is a scientific preparation that supplies hair needs—an anti-septic liquid neither sticky or greasy, easy to apply and delicately perfumed.
If you want beautiful, soft, thick, lustrous hair, and lots of it, by all means use Parisian sage. Don't delay—begin tonight—a little attention now helps insure abundant hair for years to come.

clever and talented sister, will offer a neat turn of catchy tunes, styles and syncopation. A Carter De Haven comic, and Loew's Pictorial will complete the bill.

"Diamonds of Quality" have been our aim since 1895.

TWO weeks ago last Saturday a lady and gentleman from a neighboring city came into our downtown store, asked to see a diamond, and after a thorough inspection of both our mounted and unmounted stones, chose a beautiful unmounted gem, amounting to several hundred dollars. Almost the entire afternoon was spent with one of our diamond men in the selection of this stone.

On his way out, the gentleman turned, shook hands with the salesman, and said: "I appreciate very much the personal interest you took in my selection of this stone. On the train, as we were coming to London, we were undecided just where to purchase, but, on seeing your advertisement in the paper, decided to come here. I am more than pleased with my selection and with the way you have treated us."

We mention this instance just because it bears out our belief that "a pleased customer is our best advertisement." That man is now our lifelong friend, and will make many new friends for us. We want you to feel just the same as this man does in all your dealings with us.
