GUILTY STAINS IN GEORGE'S HOME

Telling Evidence Against Suspect in Windsor Case. Police Believe Him the Man

Hatch in His House Shows Marks That Look Like Blood—A Bad Record.

Windsor, Ont., April 7.—Chief Wills of the Windsor police force, says he is almost certain that the police have in the person of Jonathan George, the man who killed Mrs. Eliza Williams in her residence on McDougall street, Windsor, since the man's arrest at an early hour yesterday morning and the police have been securing evidence against him, and even the chief announced that he is well satisfied with what he has discovered so far.

A shirt with some dark stains upon the sleeves, a hatch which shows particles of blood or some other dark colored material upon the head and a receipt with blood marks upon the paper are among some of the articles the police unearthed in George's shanty after his arrest. A hatch in a door which may be dried blood, and the door is now at police headquarters with the other articles which will be used as evidence against the accused.

So far George is the only man known to the police who could have had a motive for murdering the old woman. He was her tenant, and the house occupied, was in the rear of the same home. It is claimed by the police that George had trouble with his landlady and that she asked Basil Millard, of Windsor, to come to leave the house. She said that he had not paid his rent and that she wished to secure the house for another tenant. He refused to do so, and she then called on Millard, who bears bloodstains, certified that George had paid his rent up to March 22, but it is not known when the receipt was written.

The prisoner, who is an aged colored man, has had trouble before with the authorities, and once, close to being hanged at Sandwich. He was convicted of an assault upon a colored woman about 37 years ago and sentenced to death, afterwards a commutation was commuted to life imprisonment, and after he had served seven years in Kingston he was pardoned, as there was some doubt as to his being the guilty party. Since that time he has lived in Windsor, making a living at draying and in the employ of a contractor, but he has been in and out of the penitentiary for whom he had worked, but Chief Wills says that these people deny that George has worked for them for several months.

The remains of Mrs. Williams were removed to O'Dell's morgue where a post-mortem examination was conducted by Dr. G. R. Cruikshank. It was found that the whole front part of the skull had been crushed, the wounds having been made by blows from some blunt instrument, any one of which was sufficient to cause death. Coroner LaBelle empanelled a jury and after viewing the remains the inquest was adjourned until next Tuesday.

George is still a prisoner at the Windsor police station, and today the county crown attorney will submit the evidence so far collected against George, and it is all probability he will be remanded to prison until after the finding of the coroner's jury.

A FATAL DUEL. Huntingdon, N. Va., April 7.—John McFarland, chief of police of North Fork, and J. A. Ballard, a lumber merchant and capitalist, are dead as a result of a pistol duel which followed the Republican district convention at North Fork. The contest for the gubernatorial nomination caused the duel. The two men were supposed to be candidates. They met on leaving the convention hall. The lie was passed and the shooting followed, each being killed.

THE WAR NEWS.

A well-nigh impenetrable veil continues to hide operations by both land and sea in the Far East. Vague unofficial reports declare both Russians and Japs to be in the vicinity of the Yalu. First one and then the other is reported as being victorious in trivial skirmishes. The Russians are supposed to be strongly entrenched on the north bank of the river and await the Jap onslaught. New Chwang, which has just been visited by Kurapatka, is hurrying preparations for an early attack by the Japanese. A fleet of the Mikado's transports has been seen heading for the Wiju, and a London Times correspondent says the Jap fleets are split up, part watching Port Arthur and part patrolling the Korean coast.

THE NEWS AT LONDON. The Spanish embassy here has not received any information in regard to the attempt made upon the life of King Alfonso at Barcelona, owing to the strict censorship in Spain. The details may be in the newspapers of London accept the brief official announcement from Barcelona as an acknowledgment of the attempt to assassinate the King by the explosion of a bomb, and as a realization of the fears of the authorities that the King was running into serious danger by visiting the headquarters of anarchist activity in Spain.

**CONSOLES CHURCHILL**

The Spectator Says England Loves a Good Fighter.

London, April 7. — The incident in the House of Commons Tuesday night when the Unionists all left as Winston Churchill, who has been the bitterest of all in attacking the Government since the introduction of the fiscal question, arose to speak, has aroused much discussion. The Spectator protests against the organized attempt to slight Mr. Churchill, who, it says, "is neither a bore nor a scoundrel and may console himself by the fact that such incidents are in no way injurious to the career of a young politician. On the contrary, they are useful in increasing his hold on a country which desires to fight fair play and loves a good fighter."

**STATEMENT OF A STOCK-GROWER**

**HIS LUMBAGO WAS CURED BY DODD'S KIDNEY PILLS.**

Suffered for Twenty Years Before He Found Relief in the Great Canadian Kidney Remedy.

Rosedene, Ont., April 6. — Robert C. Lampman, the well-known Gainsboro farmer and stock-grower, is completely cured of a long-standing case of Lumbago, and he has made a statement for the benefit of the public, in which he gives the entire credit for the cure to Dodd's Kidney Pills. In his statement Mr. Lampman says: "For twenty years I suffered from Lumbago with all its worst symptoms. I had the most distressing pains it seemed possible to bear, coupled with an irritation of the spine. At times I was entirely prostrated and was for weeks unable to do anything whatever, and required the services of my family to assist me in dressing and moving from a chair to the sofa. "I tried doctors and medicines, but got no benefit from the advice of such a neighbor. I commenced to use Dodd's Kidney Pills. After the first box I noticed an improvement, and when I had taken six boxes every symptom of my trouble had vanished." "Like Rheumatism, Lumbago is caused by Uric Acid in the blood. Sound Kidneys take all the Uric Acid out of the blood. Dodd's Kidney Pills make sound Kidneys."

**STUDYING THE MARTIANS**

Percival Lowell's New Theory Regarding the Irrigating Canals.

London, April 7. — Percival Lowell, who has long been a student of the planet Mars, has lately made some curious observations throwing a new light on the probable inhabitants. In studying the canals, which have been known for 20 years as intersecting the Martian continent in all directions, he has discovered an interesting feature of their use. There are two canals called by astronomers Thoth and Amethes, which come alternately into the telescope's field of view. Mr. Lowell maintains that it is evident they are dependent on a single water supply, which is admitted to each in turn. This is further proof that the canals are not accidental markings of the planet's surface, but artificial channels of irrigation regulated by the Martians, as the systems fed by the Nile and Ganges are regulated by Egypt and India.

An objection to the theory is the huge size of the canals. Many are calculated to be at least 60 miles wide, making it difficult to imagine any kind of sentient creature able to deal with such gigantic works. On the other hand, the so-called canals are perhaps not actual water channels themselves, but broad tracts of cultivated land, which are only distinguished from the surrounding desert when the crops ripen.

Mr. Lowell concludes that the alteration of the visibility of Thoth and Amethes proves that the Martians are obliged to economize their scanty supply of water for irrigating cultivable land in the vast sections so as to combat a perennial water famine.

**DIAMOND PRICES GO UP**

Big Advance in Ten Years—Americans Buy Most Costly Stones.

London, April 7. — A Manchester clergyman recently expressed regret in a sermon at the fact that England's yearly diamond bill amounted to £5,000,000.

The most recent available figures prove that England is not so extravagant. For the year ended June 30, 1903, the De Beers Company sold 2,400,000 carats for £5,240,000 sterling. London was the best, Paris the second and New York a good third as diamond markets. England in 1903 probably spent just over £2,000,000.

Diamonds are costlier than they were ten years ago. The Kimberley output in 1883 was practically the same as in 1903, but the price obtained in 1883 was £2,700,000, as compared with £5,240,000 in 1903. This was due mainly to the De Beers amalgamation of the various interests.

The manager of one of the largest diamond establishments in the West End says trade is bad, but prices are maintained. It is a rare thing to sell ornaments of the value of from £1,000 to £2,500 nowadays, while two or three years ago such sales were frequent. Today the buyers of the most expensive stones are Americans.

**Jap Fleets Split Up Watching Port Arthur and Coasts.**

**NEW CHWANG READY FOR FIGHT**

River Minced and Fortresses Prepared for Instant Action.—Kuropatkin is There.

London, Thursday, April 7. — The Daily Telegraph's special correspondent says he learns from a Japanese sailor who participated in the attacks on Port Arthur that the Japanese fleet is divided into several squadrons. Four of these are watching Port Arthur, the fifth patrols the Korean coast, and the sixth and seventh cruises between Vladivostok and North Japan. Two torpedo boats were much damaged in the engagements, but otherwise the fleet was little injured. The damages to the Japanese cruisers Iwate and Yoshino have been repaired, and the vessels have joined the fleet.

The "Times," who is cruising in the vicinity of Port Arthur, cables that his vessel was held up by the Russian armored cruiser Bayan, flying the flag of the Japanese admiral, which chased and later searched his steamer 30 miles outside of Port Arthur. He says that the Bayan has scars of damage recently inflicted by the Japanese, but that she is a fine ship and well handled. In overhauling us," he says, "her officers and crew appeared a little finely drawn, but they nevertheless were of good material."

The correspondent of the Times at Chefoo, sailing Wednesday, says the Russians captured two Japanese spies at New Chwang yesterday who were in possession of plans of the new fortifications.

A Port Arthur dispatch says: The Associated Press correspondent has had an interview with a high personage closely connected with the Emperor of Korea, who had left his native land because of the administrative reforms introduced through the influence of the Japanese. Apparently reflecting the views of the Emperor, this personage said, "I saw the Japanese action as an attempt to apply to Korea the policy which the British have adopted in Myanma. My countryman cannot sympathize with the Russians, knowing the justice of their policy toward the natives of Amur, where many Koreans labor."

On account of the mining of the river at New Chwang, and also in expectation of practice firing from the forts, merchant ships are not using the lower reach of the river.

General Kondratovitch, the Russian commander here, says he is being prepared for a Japanese attack, which it is evident the other authorities also expect. The troops now here are of a better class than when the war opened.

General Kondratovitch is opening a new hospital at New Chwang. The relations of the Russian authorities with the foreign residents here are improving, and the administrator proposes to consult and confer with the foreigners for the protection of neutral lives and interests.

General Kuropatkin, commander-in-chief of the Russian forces, has just arrived at New Chwang today and reviewed about 4,000 troops on the parade ground outside of the city. One battery of horse artillery, several batteries of field artillery, parts of four regiments of Siberian rifles and regiments of Cossacks and regular cavalry participated in the review.

**ANGLO-FRENCH TREATY**

Paris Says Uncle Sam Wants Newfoundland Badly.

Paris, April 7. — It is understood in official quarters, in spite of statements to the contrary, that there is foundation for the reports that Newfoundland will take steps to enter the Dominion of Canada as the result of the Anglo-French settlement of the shore and fisheries questions, which heretofore, had interfered with Newfoundland's complete sovereignty.

The Temps says that Great Britain's gain in Newfoundland is America's loss; declares the United States has been covetous of the French fisheries, and says France had difficulty in making it understood that the islands of St. Pierre and Miquelon were not for sale.

London, April 6. — A Paris telegram says the agreement between England and France will be signed on Saturday, or at the latest by Wednesday next.

**DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE**

The ravages of pneumonia are felt all over the land. This year more than in any preceding one this ugly disease is prevalent. Doctors say the cause of the prevalence of this disease of life is the direct result of an epidemic form of the grippé, and ordinary pneumonia is never so vicious as a grippé pneumonia.

The grippé usually attacks persons of low vitality and develops into diphtheria, pneumonia, or more frequently into pneumonia. During the prevalence of the grippé people are advised to treat seriously everything in the throat and chest, and the prompt use of Dr. Chase's Syrup of Linseed and Turpentine will cure it.

Anyone who has witnessed the dreadful results of the grippé developing into pneumonia or other serious lung trouble knows the importance of the prompt use of the first symptoms of cold become apparent. It is truly wonderful how thoroughly Dr. Chase's Syrup of Linseed and Turpentine has been found in the treatment of the grippé and heavy chest cold. It not only affords relief to the cough and inflamed air passages, but actually cures the disease and drives the pains and aches from the bones.

The grippé is too serious a foe to trifle with, and pneumonia is most frequently fatal. It is better to guard against these by the use of Dr. Chase's Syrup of Linseed and Turpentine. Scores of thousands of people are ready to endorse it as the most effective throat and lung treatment which medical science affords. Be sure you get what you ask for. It costs no more than ordinary cough mixtures; 25 cents a bottle, in three times as much as much, for 60 cents. All dealers, or Edmondson, Bates & Co., Toronto.

To protect you against imitations the signature of Dr. A. W. Chase, the famous receipt book author, are on every bottle.

**JAIL FOR A U. S. SENATOR**

Burton, of Kansas State, Found Guilty of Boozing.

St. Louis, April 6. — Senator J. E. Burton, of Kansas, was today sentenced to six months' imprisonment in jail and a fine of \$2,500 for using his influence before the postoffice department in behalf of the Rialto Grain and Securities Company, of St. Louis, and for having received payment from the company for his services. Judge Adams first over-ruled motions for a new trial and arrest of judgment. Senator Burton declined to say anything as to why sentence should not be passed upon him.

The case now will be appealed to the United States district court of appeals, the highest tribunal in the matter. Senator Burton, who is a senior Senator from Kansas, was convicted after an exhaustive trial, in which various letters from him to the Rialto Grain and Securities Company, and the testimony of numerous agents of the United States Government were introduced. Senator Burton's defense was that he was acting merely in the capacity of an attorney and did not employ his senatorial influence in the work.

and raise yourself to a higher position by the I. C. S. Correspondence system of HOME STUDY. Over 80 London men and women are at present being trained by our system for better wages and more responsible positions. Scores of these are already earning bigger wages than they could possibly earn had they not taken special training for their work by our HOME STUDY plan.

If you are dissatisfied with your work, your position, or your income, call and have a talk with the London representative of the International Correspondence Schools. He will probably give you some valuable advice on how to improve yourself. It costs nothing to talk the matter over, and WE KNOW WE CAN HELP YOU.

We offer 176 different courses of instruction to choose from. Our prices are reasonable, our terms easy, and you pay as you can.

The Strathroy and Western Counties Road.

The city of London was looking after its own interests in opposing the application of the Strathroy and Western Counties Railway Company for permission to extend its line from St. Thomas to Port Stanley. The extension would parallel the London and Port Stanley Railway for nine miles and necessarily compete with it for traffic between St. Thomas and Port Stanley, while the city of London, not being connected with the new system, would derive no advantage to offset the loss of traffic on its own line.

The Telephone Question.

The Toronto Board of Control has voted to give a franchise to any telephone company which will accept the terms laid down by the city. The Bell Telephone Company will, of course, be given the preference, in order to avoid if possible the inconvenience of a dual system.

The Trans-Continental Road.

Sir Wilfrid Laurier laid the amended Grand Trunk Pacific contract before the House in an hour's speech, which was a marvel of lucid and concise exposition. He declared it to be his own judgment that the eastern division of the road was as necessary as the western, and held that it was possible to build a line between Winnipeg and Moncton with such gradients and curves as would permit the profitable transportation of cereals and all classes of freight.

ADVICE TO BACHELORS.

Vera's Love Affair

CHAPTER LXII. Sorrows remembered sweeten present joy.

"No, no, no, I will have no but! Are you doing this to punish me? Ah, I know only too well how heavily I deserve it, but I hoped you would be generous enough to..."

"I have forgotten nothing," interrupting him eagerly. "But what is it all to do with you and me? No one knows about it except Griselda and Tom, and even if they did—if the whole world were to shout it abroad I should not care. You, sweetly, would still be you."

"This is an incontrovertible fact, and yet he sighs deeply. "There are other things," she says; "you are now in a position to make a very distinguished marriage. People will remember that. I know how they regard you already."

"I know how I regard myself, as a robber—yes, a bare-faced thief. Come, see it in another light—say I don't love you at all, but that conscience has driven me into your arms. Perhaps, for the sake of restoring you your own property, which I meanly possessed myself of, some little time since..."

"Oh, no, no, I wouldn't look at it in that light for anything. What! to think now, that your love wasn't mine! Do you believe I should let it I thought that?"

"Well, you needn't die," says she, "but are you going to condemn me to death—and all for a mere paltry touch of pride?"

"I am going to consider you for the future, and nothing else," says Vera, who is indeed waxing frivolous as she sees the ground giving way beneath his feet.

"Other people—your friends—will consider for you, if you refuse to be sensible for yourself, Griselda—some times, I confess, I have been jealous." "Peyton—"

"Sings your praises from morning till night; that is why I am so fond of him."

"You are determined then?" he says; "you will take me?" And then with passionate tenderness, "Sweetheart, if you could only know how thankful I am to be taken!"

MAY SUPPLANT BOOKMAKERS' WAR HEATHERBLOOM S TO BE WAGED

Pegasus Has Cleared Seven Feet Two Inches—More Is Expected of Him.

Pegasus is a high jumper that threatens to supplant Heatherbloom as the world's high jumping horse. Already Pegasus has made a record of seven feet two inches, which within one inch of the present world's record held by Heatherbloom, the horse that was bred near London.

The movement against betting in the District of Columbia has resulted in a decision to make an arrest of a bookmaker at the Bennings race track, Washington, next Saturday as a test case. The action will be taken by order of United States District Attorney Beach, acting under instructions from the department of justice, and it is understood the track officials will give their aid in the prosecution of the test case.

DERBY WILL BE RUN. Chicago, April 6.—"The American Derby will surely be run. The quarrel over dates does not affect us." This statement was made today by Lawrence Young, president of the Washington Park Jockey Club. The sentiment among the Western Jockey Club leaders was that the prospects of a turf war coming from the Jockey Club sources were very slight, and not to be feared. It was believed by them that the old light combination of the Western Jockey Club and the Pacific Coast Jockey Club formed an organization which cut short all possible combinations to combat the local organization.

WONDERFULLY A WINNER. Wonderfully and Allen Avon won second place in the better of the two races yesterday. They were beaten by La Lite.

YESTERDAY'S TURF RESULTS. At Bennings—Illyria (Michaelis), even; La Lite (C. Thompson) 6 to 1; Paul Clifford (Michaelis), 3 to 5; Roney (Seaton), 5 to 1; Little Woods (Michaelis), 2 to 1; Queen Elizabeth (H. Phillips), 8 to 5.

HEENAN-SAYERS WILL CHANGED THE PUGILISTIC MAP TO AMERICA. Outranks All Other Battles in Ring History—Heenan Had Advantage.

Whenever the lovers of the manly art of self-defense become gossips and the great fights of ring history are on the carpet, there is always one battle that outranks all the rest, writes Dr. Left Hook. It is the international mill between John Heenan and Tom Sayers.

Heenan and Sayers fought at Farnborough, England, April 19, 1880, for the championship of the world. Heenan won, although the referee, intimidated by the English mob, declared the fight a draw.

The "Benicia Boy," as Heenan was called, was a fighting champion of the Pacific coast, a particularly handsome man, a reputable gambler and in his days was the most popular man in his class. In 1889 John Morrisey, then at the head of American pugilism, had established a reputation of being a veritable bulldog in the prize fighting circles.

Heenan's challenge reached England, Sayers was matched for a new battle with Bill Benwood, and as Heenan was the defeated candidate for the American championship, the Englishmen were loth to give him a chance, preferring a match with his conqueror, Morrisey. However, through the negotiations of George Wilkes, and his promises to bestow his money in support of Heenan, the money was ratified.

The fight took place early in the morning. At 7:30 a crowd of cheers announced the advent of Tom Sayers, who coolly tossed his hat over the ropes and then entered the arena. His opponent, a favored second, Harry Brunton, and Jimmy Welch, two as able benchmen as any prizefighter has had in the Benicia Boy, were before the cheers for the English champion had died away. Heenan appeared, and there was a fresh burst of applause. The Benicia Boy was escorted by Jack MacDonaid, prince of seconds, and his American friend, Jack Cusick. A thrill of excitement ran through the crowd as the two heroes of the hour, who had never set eyes on each other before, shook hands and then stepped into the ring and careful survey of each other.

LONDON JUNIORS WON IN PETERBORO GAME

At the Y. M. C. A. gymnasium, Peterboro, on Tuesday afternoon, the Beavers, a local team, met the London Y. M. C. A. juniors in a fast game of basketball. The teams were: London—Defense, Duncan and Wood; center, Brown; forwards, Willis and Shepperd.

TILLMAN AND BROCK WON AT CLUB SHOOT. In spite of the damp weather, good scores were made at the regular monthly shoot of the Springfield Gun Club, yesterday. The matches were for the president's cup and the Robinson tankard. The following scores were made: For president's button—Brock 12, Balkkwin 18, Tillman 23, Beltz 9, Pitt 11, Brockton 16, Bowman 10, Arnott 16, Glover 18, Nicholson 19.

GRANEY CANNOT REFEREE JEFFRIES-MUNROE FIGHT. Jack Munroe and Jim Jeffries may not meet before the Yosemite A. C. June 1 to decide the world's championship, after all. At least, it is certain that Eddie Graney will not act as referee, notwithstanding the fact that he is named in the articles of agreement, as Harry Pollock, manager of Young Corbett and Jack Munroe, declares. He would call the fight off before he would give Graney another opportunity to rob one of his men. "As far as Graney is concerned," said Pollock, "I would not let him referee the fight if he was the last man on earth. Of all the book decisions, that one awarding Britt the fight was the worst. Why, Britt looked as if he had been through a third wheel machine at the end of the fight, and Jack Munroe was made Graney was selected as referee, and Jeffries favored him above all others. While out on the coast I explained my position to the club officials, and the referee question will be settled satisfactorily. Munroe will start next week and will train on the coast for the Jeffries fight. I think he has a good chance to beat the champion next June and will wager some of the outfit on me."

BOLAN KNOCKED OUT. Cincinnati, O., April 6.—"Barney" Furey, of Cincinnati, knocked out "Jack" Bolan, of Denver, in the fifth round at Covington, Ky., tonight. The fight was scheduled for twelve rounds. Both men were welterweights.

BASEBALL. MONTREAL WAS DEFEATED. Richmond, April 6.—New York defeated the Montreal team at baseball here today. Score: New York... Montreal... Batteries—Chesbro, Hughes and Kleinow and Doran; Pappalau and Luister, Umpire, Unglaub.

A SPECIAL CAR FOR DAN PATCH GO FOR RECORDS. Will Not Have the Aid of a Runner in Front, Says Owner Billings.

The announcement made by C. K. G. GREAT BROOD MARE DEAD. The great brood mare Lady Veiser, by Gerrard Chief, dam Jewel, by Vermont, died at Daville, Ky., a few days ago at the age of 28 years. She was better than 20, and her son, Don Pizarro (2:19), Don Pizarro (2:14 1/2), Don Lorenzo (2:17 1/2), and six others better than 2:30, are regarded as the best sires on a trotter and sixteen pacers in the list. Her daughters have also produced three trotters and two pacers in the charmed circle.

RUHLLIN GOT DECISION. Philadelphia, April 6.—"Gus" Ruhllin had the better of the six-round fight with "Jim" Jeffords tonight at the National A. C. The bout was uninteresting.

for the general impression prevalent that Lou Dillon can and will subvert the London school authorities that this summer she does not meet with any accidents. Her owner has designs on several records and it is expected that before the summer is over the needless mare will have annexed every important record. The most important record in the 15th round of a scheduled 20-round contest at the Salt Lake last night, the referee stopping the fight when the San Francisco boy was helpless and all but out. The pace was terrific from the start.

LOU DILLON TO GO FOR RECORDS. Will Not Have the Aid of a Runner in Front, Says Owner Billings. The announcement made by C. K. G. Dr. WOOD'S NORWAY PINE SYRUP. Cures COUGHS, COLDS, BRONCHITIS, HOARSENESS AND THROAT AND LUNG TROUBLES. Miss Florence E. Mailman, New Germany, N.S., writes: "I had a cold which left me with a very bad cough. I was afraid I was going into consumption. I was advised to try Dr. WOOD'S NORWAY PINE SYRUP. I had little faith in it, but before I had taken one bottle I began to feel better, and after the second I felt as well as ever. My cough has completely disappeared."

Makes Men Vigorous. The Earl of Meath, an enthusiastic British humanitarian, has suggested that the London school authorities that children of the elementary grades be taken from the city and brought up in model country villages, the parents to pay only the bare cost of food, the County Council footing other expenses. He urges that in this way children of the very poor would have an otherwise unobtainable chance to grow up strong, healthy and good citizens. In addition, many of them would probably stay in the country, thereby helping to repopulate the rural districts.
