WORKINGS OF THE MACHINE

Interesting Circumstances Associated With the Pardo Campaign in Chatham.

A Suspicious Case Which Will Be Investigated—A Stranger in Town.

A suspicious case has come to notice in connection with the late registration court, the evidence of which is very damaging against the workings of the local Liberal machine.

Leon Reaume is one of the names entered upon the books at the Police Station. This man is a former resident of Chatham, having at one time lived on Cross street. Early last summer he went to Detroit, where he has been working ever since. Two weeks ago he came back to the city and was seen hanging around Jack's hotel, apparently boarding there. He registered his name on the voters' list as Leon Reaume, lot 13, w. a Ingram street, laborer. This is his father's home. He claims, it is said, to have been visiting for some time in Detroit and took an oath that he had been in Chatham for three months. His brother, Richard Reaume, who runs a grocery on the market, stated yesterday afternoon that Leon had been away since last summer but had come back to this city two weeks ago. He did not know why he came back but he went away again to-day.

While Reaume was here he was met by a Chatham citizen who expressed his surprise at seeing him back in town again. Reaume answered that he had been away but had come back to town to register. He said he was going back to Detroit, but would be in Chatham again on the 29th of May to cast his vote.

Reaume is a man without means and unable to travel at his own expense here from the States. This case is, to all appearances, a serious one and should be thoroughly investigated.

BY-LAW DEFEATED

Deering Bonus Received Majority of Hamilton Votes but not Sufficient to Carry.

Hamilton, Ont., May 21.—A by-law to vote \$50,000 bonus for the establishment of a Canadian branch of the Deering Harvester Mfg. Co. here was voted on to-day, and while the by-law received a large majority of the votes cast, not a sufficient number of the ratepayers voted in order to pass the by-law, and it was defeated principally as a result of the apathy of the ratepayers. The number of votes cast in favor of the by-law was 2,222, and against the by-law 624—majority in favor of the by-law, 2,198. Number of votes necessary in order to carry by-law 3,858. There was a good organization in favor of the by-law, but they were unable to get the voters to the polls in sufficient numbers to ensure the carrying of the by-law.

TORONTO ARTIST DEAD.

Toronto, May 21.—Henry Martin, the well-known artist, of this city, is dead.

ONE LUNATIC PERISHED.

Montreal, May 22.—The Laurentian Sanatorium, north of this city, was destroyed by fire early yesterday, resulting in the death of Mrs. Malvina L. Goddard. The institution was the leading place in the Province for the treatment of tuberculosis, and Mrs. Goddard was there with her daughter, Mrs. J. Bruce Payne, of Granby, who was under treatment. All the inmates, numbering 17, escaped, and were cared for in hotels and houses in the village. The loss on the building is \$15,000, with \$10,000 insurance.

82 BODIES RECOVERED

Knoxville, Tenn., May 21.—Up to midnight last night eighty-two bodies had been taken from the Fratterville mine at Coal Creek, the scene of the disaster in which 225 miners lost their lives. The cause of the disaster developed to-day when it became known that gas had collected in an abandoned mine close by, into which an opening had been accidentally made last week by a boy working in a lateral. An attempt was made to stop up the opening, but it is believed that a leak remained.

BOERS ARRIVE AT PRETORIA

Were Chosen at Vereeniging Conference to Interview Kitchener.

Boers in Holland do not Think Peace Will Result From the Conference.

Pretoria, May 21.—In accordance with an arrangement made April 6, the Boer delegates who were chosen at the Vereeniging conference arrived here May 18. They consist of four representatives from the Transvaal and Orange River governments, Gen. De Wet and Gen. Delarey, and are accompanied by eight secretaries. The party has been lodged in a house next door to that occupied by Lord Kitchener.

DON'T LOOK FOR PEACE.

London, May 21.—The Paris correspondent of the Times quotes part of a letter from Holland, in which it is stated the Boers there do not believe the conference at Vereeniging will result in peace. It is not thought the British conditions will be rejected brusquely or absolutely, but that the Boers will put forward other conditions which Great Britain will be unable to accept.

PEACE WILL COME BY FORCE. The war, it is said, will be resumed with less ardor on both sides, but it will go on to the end, and peace will come by force without a previous conference and without a treaty.

BURLEIGH COMING HOME.

London, May 22.—Bennett Burleigh, the correspondent at Pretoria of the Daily Telegraph, has cabled his friends here that he is about to return home. The Telegraph interprets this action on the part of its correspondent as a circumstantial intimation that peace has been arranged in South Africa, and that owing to the censorship Mr. Burleigh was unable to communicate this fact to his paper.

WILL LAST ANOTHER WEEK.

London, May 21.—All statements regarding the deliberations of the Boers at Vereeniging are simply guesses. Their sessions are private, and under Gen. Kitchener's orders they are not disturbed. It is expected that their deliberations will last a week. The censorship has allowed the following to pass from Pretoria under yesterday's date:—"It is considered doubtful here whether peace will be concluded. Bids of terms are being discussed by the Boers. The Free State representatives are believed to be most opposed to the British conditions. Ex-President Steyn, who leads the opposition, is more extreme than Gen. De Wet, who now appears to be more pacific than formerly, but both of them, with Wessels, Muller, Hertzog and Collier, are against peace. They undoubtedly are strong and render the conclusions of peace doubtful. Those who convened the conference, consisting of members of the old Transvaal Government, undoubtedly favor peace, while the Free State desire independence as the basis of any terms."

CONCURRED IN BY MANY.

Inside circles in political and financial London concur in the foregoing, adding that Cape Colony, where the only fighting has been done recently, will continue to be the scene of war whatever happens at the conference and the Boer leaders will direct their cause from there even if they withdraw from north of the Vaal River.

MORE TROOPS TO GO.

The War Office has ordered six battalions of Yeomanry to proceed to South Africa Saturday next.

MUTINY IN WORKHOUSE.

Canton, Ohio, May 22.—In a mutiny at the Starke county workhouse yesterday, Guard George Jacobs was killed and Guard Homerstone was dangerously shot. A prisoner named Gignante did the shooting.

Later it developed that there was no general mutiny among the prisoners, but that one of them named Chas. Gignante had pulled a revolver out of the pocket of a new guard who was passing through the work shop, and opened fire on the guards.

WON'T GIVE THE BONUS.

Hamilton, May 21.—A by-law to grant \$50,000 bonus to the Deering Harvester Manufacturing Co. of Chicago, for the establishment of their proposed Canadian branch in this city was voted on by qualified ratepayers to-day, and defeated by a small majority.

ELECTIONS IN NORTHWEST

Government Sustained at the Polls by a Majority of About Twenty.

Premier Haultain Will Have a Steady Working Majority in Next Assembly.

Winnipeg, Man., May 21.—(Special.)—The Haultain Government was sustained at the polls for North-west Territories legislative assembly elections held to-day. Returns are incomplete, but sufficient have been received to indicate that the Government will have a majority of nearly 20 in a House of 35 members.

Premier Haultain is elected in MacLeod by a fair majority.

Hon. A. T. Sifton was returned for Banff by about 200 majority, leading his opponent at every poll. E. C. McDiarmid, Opposition, is returned for Carrington.

Other members elected are—Calgary East—J. J. Young, Ind. Calgary West—R. B. Bennett, Opposition.

Lacombe—P. Talbot, Government. Medicine Hat—W. T. Finlay, Government.

Maple Creek—H. A. Greeley, Government.

Mitchell—A. D. McIntyre, Government (aecl).

Qu'Appelle South—G. H. U. Bulyes, Government (aecl).

Qu'Appelle North—D. H. McDonald, Opposition leader (aecl).

Souris—J. W. Connell, Government (aecl).

Wetaskiwin—A. S. Rosenoll, Government (aecl).

Federal politics cut no figure in Legislative elections in the Territories, the Premier, Mr. Haultain, being a Conservative, while the other two members of the Government—Messrs. Sifton and Bulyes—are Liberals. In the last assembly the Government and Opposition parties each consisted of Conservatives and Liberals in about equal numbers.

BLOW OVER TEMPLE

Serious Affray Between Two Workmen at Walkerville Yesterday.

Windsor, Ont., May 21.—James Barclay, a moulder, struck Arthur Watkins, colored, over the right temple with a heavy bar of iron at the malleable iron works, Walkerville, this morning. Watkins was taken into the office of the works and Dr. Story summoned. The wound bled profusely, but Watkins showed no other signs of life. The doctor resorted to artificial respiration methods, and succeeded in reviving the patient. He was then removed to his home in Sandwich. It is thought he will recover. Chief of Police Griffith located Barclay, who is employed at the Kerr engine works, about 11 o'clock on one of the back streets. He was apparently in a stupor, and the officer had no trouble in locking him up. He assaulted Watkins, it is said, simply because he was colored.

SAD DROWNING

Ferdinand Pare, of Windsor, Falls off the Dock There Yesterday.

Windsor, Ont., May 21.—Hardly had the river given up the remains of young Isidore Simmons, who was drowned at the Michigan Central slip, May 16, 24 hours, when another person was engulfed at the same place. Ferdinand Pare, living at 153 Wellington avenue, left his home about 3 o'clock with his brother Albert, to the Michigan Central dock to scoop out some minnows and it was while so doing that the pole of the scoop net broke and young Pare fell in and was drowned. Albert gave the alarm and William Zimmerman, employed on the car ferry Transport, attempted to save him. Three times he made the attempt, but in vain.

Workmen along the dock and employees on the Transport stated that the body was raised to the surface at least three times by the wheels, but all efforts to recover it proved fruitless.

Pare's death caused no little sorrow among the pupils who attended the collegiate institute immediately after his being established on the new site. The unfortunate man was 26 years of age. He leaves a wife and two children, the eldest of whom is barely two years old. Pare for some time past had been engaged in manufacturing novelties which he sold at fairs and on the street.

TORONTO BROKER SENTENCED.

Toronto, Ont., May 21.—Broker I. D. Edwards was to-day sentenced to one year's imprisonment in the Central prison for misappropriating \$3,000 received for stock of the Ashoka Coal Co., and failing to account for it to the company. He had repaid all he could of the amount misappropriated.

GRAND RALLY

Milverton, Ont., May 12.—An enthusiastic meeting in the interest of J. C. Monteth, the Conservative candidate in North Perth, was held this evening in Groves's Hall, which was well filled. The speakers were—Messrs. Magwood, ex-M. P. P.; W. S. Dingham, of the Stratford Herald, and the candidate. A. W. Steinboff, of Stratford, upheld the cause of the government. A musical quartette from Stratford entertained the large audience between addresses. The meeting closed with cheers for the King, the candidate and Mr. Whitney.

GREAT REVIEW OF TROOPS

It was Given in Honor of M. Loubet's Visit to Russia the Guest of Czar.

His Majesty Toasts the French President—Speaks of France as Russia's Ally.

Tsarskoe-Selo, Russia, May 21.—The Czar, President Loubet, the Carina and the Dowager Carina attended a great review of troops to-day. His Majesty on horseback, and M. Loubet, the Carina, the Dowager Carina and the Grand Duchess Sergius, in a carriage, passed down the front of the troops, attended by brilliant suites. The Imperial and Presidential cortege received an ovation from the large crowds of people which assembled to witness the military display.

At the luncheon after the review the Czar offered the following toast—"Mr. President.—The troops whose march past you have just witnessed, are happy to have been privileged to render honors to so highly esteemed a chief of a state friendly and allied. The lively sympathies felt by the Russian army for the splendid army of France are well known to you. They constitute a real brotherhood of arms, which we can regard with all the greater satisfaction because these imposing forces are not destined to support one another aggressively, but, on the contrary, to strengthen the maintenance of general peace, and safe. A TWO DOLLAR MAN

The local police have been notified of a young man who has been working a very clever game in Gloucester and vicinity. He claims to be a brother of the Catholic Church and working in the interests of some boys' home which is established in Hamilton. He carries with a well-worn book which he is selling and the proceeds he says goes towards this home.

A few days ago he struck Gloucester and commenced his work among the Catholic people there. He exhibits the book himself and allows no one to handle it and demands his two dollars in advance. The book to follow later. He claims that the book has been authorized by the bishops and highly recommended by the sisters of the church. The receipt is a very queer one, and is stamped Holy Catholic Institution, New York. He signs each receipt J. McMullen.

The game is a very clever one and is eagerly picked up wherever the man operates. He succeeded in disposing of about fifty of his books and then cleared out. He boarded the train and purchased a ticket from the conductor for Chatham. He was traced to this city, but his pursuers failed to locate him. Upon investigation it was found that there was not even a boy home in Hamilton. The people of Chatham and vicinity should be on the lookout for this man.

MISSING FROM HIS HOME.

Belleville, May 21.—John Batchelor, a resident of Coe Hill, North Hastings, lately a laborer in the employ of the St. Charles' Iron Mine, five miles from Coe Hill, disappeared on the 14th inst. and has not since been heard of. No reason can be assigned for his disappearance, except that he is subject to mental aberration, caused by any excitement. Searching parties are scouring the woods in all directions.

SUNK OFF ST. JOHN'S.

St. John's Nfld., May 21.—The schooner Lily Dale sank off this harbor last night after having collided with the schooner Rodger. The crew of fourteen men of the Lily Dale, and two women who were on board, were rescued from drowning. They were rescued from the wrecked deck only as they were when they leaped from their bunks, and were taken off by the Rodger.

A severe snow storm is raging here to-night.

MANITOBA'S CROPS.

Winnipeg, Man., May 21.—General Supt. Hanna stated this morning that he had received reports from various representative points on the Canadian Northern to the effect that crops were in a most satisfactory condition. The growth during the past few days has been simply phenomenal. Farmers declare they can almost see the grain growing in some districts. The usual wet weather has resulted in a smaller area being put under seed. In higher districts, however, the seedling has been more extensive, and the average will be well up to that of last year.

If a man owned the earth he would try to dodge the tax collector just the same.

MARK TWAIN OFFENDED

Humorist's Feelings Injured by Mrs. Wm. Astor—Criticism Society Leader—Ob-jects to Her Definition of a Gentleman.

The men who have amassed their millions in all sorts of ways have not had advantages in their youth. They have never had the college education without which no man can be a gentleman—Mrs. William Astor in an interview before she sailed for Europe.

"Do you mean to say that Mrs. Astor said that?" asked Samuel L. Clemens (Mark Twain) when he was seen in his home in Riverdale, N.Y., the other afternoon by a reporter of The New York Journal.

"Why, that's a direct personal insult, Mrs. Astor and I will have a falling out over that, I'm afraid. To be told to my face, and in cold type at that, that I am no gentleman! And all because I wasn't fortunate enough to have a rich father to send me to college! It's too bad, too bad! It's enough to take the heart out of a man and make him scorn the world. But, then, there is one ray of hope. If it was not for that, I should be tempted to leave this rude world."

"Perhaps Mrs. Astor, when she uses the word 'gentleman' doesn't have the same meaning in view that we other rude people have. She probably means a leader of cotillions, a epic and span dandy, who knows enough to observe the ordinary rules of politeness when he is on parade and who has a valet at home to tell him what clothes are proper to wear."

"No, no; I can't believe that she could be so cruel and draw me out to rob me of the only hope that is left me—that I am a gentleman. She must have meant something else than 'gentleman' as we use it. A gentleman, a kindly, courteous, unselfish man, who thinks first not of himself, but of his fellow man, that is what a gentleman is, not one of these society 'chappies' who in reality is one of the most selfish men on earth."

"Why, Mrs. Astor can't mean that. Andrew Carnegie is no gentleman. He may be too pushing or too shy and stand around silently in corners, not knowing what to say or what to do. But what does that show? It only means that he is not an adept at hypocrisy. It doesn't detract from the true worth of the kindly, courteous nature of the man."

"Why, then, didn't he have a college education, yet he was known for his kindly, courteous ways and his absolute unselfishness. He was always ready and willing to sacrifice his money and his time as well as his own convenience to help a woman or a child. He may have been rough and coarse in his talk and actions, and perhaps he wouldn't have graded Mrs. Astor's drawing room. But he was a true gentleman for all of that."

"Oh, you can pick out any number of them you want. Take the men of prominence in the United States to-day and pick out the true gentlemen. I'll venture that nine out of ten of them never had a high school education, let alone a college education."

"Why, the finest gentleman I ever knew was an old California miner who could hardly write his own name. He was a forty-niner, and he and his partner had struck it rich in the early days. The old man had neither chick nor child, and he had worked hard all his life, and when he did get his money he hardly knew what to do with it."

"He didn't try to jump into 'society' or to push his way with the 'big fellows' there. He continued to live with the people he had associated with all his life, and many an act of kindness was done, many a wandering son and father saved, many a sorrowing woman's burden lightened and her home brightened by an unknown donor whose identity, with the old man, was only known to a few."

"It was different with the partner. He had a wife and two daughters with social ambitions, and after a while he let of pushing and hauling and shoving they landed in society. The expense was too much of a drain on the husband's purse, and he speculated, with the inevitable outcome. He lost his entire fortune and then shot himself. Then it was that the true gentleness of the old man showed itself. The widow and her daughters had no one to turn to but him, and he didn't disappoint them. He saved their home for them when everything else went under the hammer, and he managed them in all the real estate style to which they were accustomed, although he still lived in his old lodgings. He lived long enough to see both of the girls well married and the mother comfortably settled for life. Then he died in a charity hospital in San Francisco. He had spent every penny he owned on the family of his partner's family."

"What is what a gentleman is. A college education necessary? It's all rubbish."

Early Market Lambs and Ewes.

When the early lambs are ready for shipment to market, as they should be at the age of six or eight weeks, the ewes from which they are taken should be given little if any grain for a few days, or until the milk secretions are materially checked. As soon as they give evidence of drying up, commence to gradually increase the grain feed until it is brought up to quite a liberal amount. It is highly important at this juncture to let with all possible speed, as at this season fat aged ewes will command a better price than at any other time of the year.

Draft Hares for the Farm.

There is no more profitable animal on a farm than a good pair of draft hares. A mare will do the work of a horse and furnish a good colt for the market each year. Moderate work, the only sort that should be required, with at no time, except for a few weeks before and after foaling, injure the mare.

Artificial Larynx Is Latest.

The latest achievement in surgery is an artificial larynx. The patient using it was presented before the Academy of Medicine at Paris. He was able to eat and speak. The apparatus consists of a vulcanite reproduction of a larynx, adapted to the trachea. A rubber diaphragm replaces the glottis. It vibrates, but gives only one note. The patient's speech is, therefore, monotone. A metallic grating prevents the ingress of solid food. Liquor falls into the pharynx and is conducted to the esophagus. An interior orifice facilitates respiration.

For the Conservation of a Home.

I heard not long ago of a house that was consecrated somewhat after the fashion of a church. The clergyman among the guests was asked to bless the house, whereupon he prayed: "Father of all, may this house shelter a happy family; may it be the dearest spot of earth to all the household; may its influence be for the blessing of all, and may the country at last receive all who belong to this one."—"The Lady from Philadelphia, in the May Ladies' Home Journal."

New Japanese Smoke.

The Japanese smoke in a very very peculiar manner. The pipe have very small metal bowls, with bamboo stems and metal mouthpieces and only hold enough tobacco for three or four whiffs. They use a tobacco which is cut extremely fine, and looks more like a light blonde hair than anything else. It is of a good quality, however. The Japs take a whiff of smoke and inhale it, letting it pass through the nostrils. They rarely smoke more than one pipeful at a time.

An Impressive Ad.

It was an Odessa (Pa.) youth, according to one of the Lafayette County papers, upon whom this advertisement made a deep impression: "Young man—Would you man dearly loves you? She would like to know who she is? She would like to be your only sweetheart. Send ten cents in stamps to Cecily D. viner, address as above, and I'll give you her name." He sent the stamps and got his answer: "What was it?"

"Mother."

THREE CORNERED FIGHT
IN RIDING OF EAST KENT

John Davidson, Liberal-Conservative Candidate—George Johns, Independent Liberal Candidate—John Lee Machine Candidate.

Ridgetown, May 22.—(Special)—Nominations were held here at noon to-day, and George Johns is definitely in the field, running as an Independent Liberal candidate.

The nominations were held in the Town Hall before P. D. McKellar, returning officer for East Kent. The first nomination put in was that of JOHN LEE, Liberal, Agent, of Orford. He was nominated by John McKerracher, of Howard, seconded by John Galbraith, Howard.

The second nomination was that of GEORGE JOHNS, Independent Liberal, farmer, Bothwell. He was nominated by Chas. N. Stevens, of Dresden, seconded by William Griffith, of Bothwell.

The third nomination was that of JOHN DAVIDSON, Liberal-Conservative, merchant, Thamesville. He was nominated by Henry Buller, Howard, and E. S. Hubbel, Thamesville. Speeches were delivered in the town hall all the afternoon. The candidates were present, and each spoke. Speeches were also made by Dr. Samson, on behalf of John Lee, County Commissioner J. N. McCoy, on behalf of George Johns, and James Clancy, on behalf of John Davidson.

Ridgetown was crowded all day with residents from all over the riding and the greatest interest was manifested in the coming contest. The speakers were all accorded a good hearing, but the accommodation for the large audience was limited.

WANTS AN HONEST BALLOT.

In an interview with The Planet, County Commissioner George Johns, the Independent Liberal candidate, said: "I am definitely in the field and if possible, I am going to win. I have always been a Liberal, and am still a Liberal. I am going to contest the riding as an Independent Liberal. I expect to get the support of all Liberals who love and uphold principle in condemnation of machine methods, and I have been given every reason to believe that the Independent Liberals

FOR WEST KENT

John S. Fraser, Liberal Conservative and T. L. Pardo Liberal Nominated.

The nominations for West Kent were held this morning between eleven and twelve o'clock in the Court House, Sheriff Gemmill presiding. After the reading of the election writ by the election clerk, the following candidates were nominated:—

N. H. Stevens—Arthur McAnally—That we hereby name Thomas Ledson Pardo, of the Township of Raleigh, in the County of Kent, farmer, to be our representative in the Legislative Assembly, pursuant to the writ of election.

T. O'Neill—T. A. Smith—That we hereby name Mr. John Stocks Fraser, of the Town of Wallaceburg, in the County of Kent, of the Province of Ontario, barrister at law, as the person we wish to represent us in the Legislative Assembly, in obedience to the writ of election for the electoral district of the west riding of the County of Kent.

These were the only two nominations. There was hardly anyone present, only the movers and seconders and Messrs. J. G. Kerr and Thomas Scullard.

Mr. Fraser's name will be printed on the ballot in blue, and Mr. Pardo's in red. Mr. Scullard, Mr. Fraser's legal agent, and G. B. Douglas will act for Mr. Pardo.

The matter was purely a formal one and no speeches were made. "It is fully thirty years," said Sheriff Gemmill, "since we have had a gathering at nominations. In olden times it used to be compulsory for these nominations to be held outdoors, on the balcony of the Court House and receive nominations from the people on the ground below. This, however, has long since been done away with and many of these old formal customs have been dropped."

The following places were named as the polling booths for the city, with the deputy returning officers for each:—

- CITY OF CHATHAM.
1—Thompson's wagon shop, Head St.; Neil H. Butcher.
2—Mrs. Oldershaw's house, Head and Elizabeth Sts.; John Ferguson.
3—Police Station; Thos. Richardson.
4—McMillan's grocery, Prince and Murray Sts.; Albert J. Wilson.

12—Mrs. Calmeyer's house, Queen and Grey; John R. Snell.

15—Kelly's house, Park Ave. and Pine St.; Alex. Hall.

Nerves.
It is fortunate that troublesome nerves will yield to material comforts. A nervous woman is quite as much afflicted as a household should be called upon to endure. If tobacco will put a man's mind at rest and make him sweet tempered, it should be a wife's duty to herself to do the same. To look upon it with complacency. It may not be wholly pleasant to have tobacco smoke all through one's home, but it is infinitely better than irritability, and by a little tact it can be confined to a den used only for man's comfort.—Betty Braden in Boston Traveler.

To Keep Gloves.
Don't wear a glove with a button off or a hole in it, thinking it won't be noticed. It is almost sure to be observed, and it will stamp you as careless and slovenly in the eyes of the beholder. Don't put on a new glove carelessly. The first mold of the glove to the hand decides its future shape, and therefore it is most important that it should not be put on any way but in the best possible manner. Turn back the wrist part of the glove and then carefully work on the fingers, seeing that the seams are straight.

Two threaded black saxon, a good housekeeper says, is one of the best things to darn black stockings. It will keep its color better than any of the regular darning cottons and is softer and generally more satisfactory.

Sleep is a woman's best friend. If she can manage early retiring each night she is fortunate, for she will be the gainer in both health and good looks. If that is impossible, a nap in the day should be managed somehow.

A very good washing powder can be made by mixing sodium carbonate, partly effloresced, two parts, with soda ash, one part.

How She Was Punished.

"One of those shoppers who seek to see rather than to buy, having kept a salesman of a Boston dry goods house busy for an hour in displaying the choicest goods, at last said, 'I'll take a skein of silk.' " "Shall we send it to your address, madam?" asked the polite clerk, as he wrapped up the purchase. "You may," said she without a blush and handed him her card. The silk was sent by a messenger-boy. In London, however, and they are not pleased to show their goods unless one buys liberally. The London Millinery tells this story of making an example of a woman who would look at goods without buying any:

A pompous lady, after teasing the shopman of a millinery establishment beyond the forbearance limit, ordered a spool of cotton to be sent to her house. It was agreed that she should be made an example of and a warning to her kind. She was surprised, soon after she arrived home. A common dray drawn by four horses, proceeded slowly to her door. On the dray, with bare arms, were a number of stalwart laborers. They were holding on vigorously to some object she could not see.

The neighbors stared. After a deal of whispering, the cart was back of the millinery. The fact, the purchaser's door-step. The fact that the purchaser came out a little later and kicked her property out into the street, detracted nothing from the lesson.

Riddles From Russia.

Here are some riddles which the boys and girls in Russia puzzle their heads over.

I am blind, but show others the way; deaf and dumb but know how to count. A milestone.

People pray for me and long for my company. I am a "servage" plant. The fact that the purchaser came out a little later and kicked her property out into the street, detracted nothing from the lesson.

Here are some riddles which the boys and girls in Russia puzzle their heads over.

Hints on Shipping Plants.

In taking slips from plants for rooting, many persons take off the young branches from the sides and the base of the stalk, forcing it to expend all its energies in sending out new growth from the top. Try result is a "servage" plant. Try taking your slips from the very top of the plant, leaving all sprouts at the base and sides of the old stalk, and you will be surprised to find what nice bushy plants you will have in a short time. Geraniums, coleus, and begonias and pelargoniums are benefited by such pruning. Long branches of wandering jew may be put into a bottle of water and hung behind a picture so that the vines will twine about it, making a pretty decoration while the roots are forming and the little branches are starting out along the stem.

WEDDED IN LONDON

London, March 22.—A charming church wedding was that which took place yesterday afternoon at the Memorial church, when Miss Jessie Irene Reeve, eldest daughter of Mr. Vivian Reeve, became the bride of Mr. Frederick Johnston Eveleigh, of the firm of J. Eveleigh & Co., Montreal. It was 4.30 o'clock when the ceremony was performed by the Rev. C. C. Owen, the minister of the church. The bride was Miss Edna Reeve, sister of the bride, whilst Miss Jessie Eveleigh, of Montreal, sister of the groom, was bridesmaid. The best man was Mr. Bryce Strachan, of Montreal. About one hundred invited guests, principally from the city, witnessed the ceremony.

The bride was beautifully attired in white silk with lace applique. She wore the conventional, but always pretty, bridal veil and orange blossoms. She also wore a diamond pendant, the gift of the groom, and a chain rope of pearls, the gift of the best man. The maid of honor and the bridesmaid were costumed in white, with black picture hats. They wore pearls, brooches, the gift of the groom.

After the ceremony, the party were driven to the residence of the bride's parents, 403 Central avenue, where the wedding luncheon was served. Mr. and Mrs. Eveleigh left on the evening train for the east, where the honeymoon will be spent. The bride's going-away gown was of black cheviot, with a waist of fawn silk and hat to match. The best wishes of many London friends will follow the bride to her new home in Montreal. They will reside on Tupper street, Westmount.

Following were among the guests from outside points who were in attendance:—Mr. and Mrs. Eveleigh, Miss Ethel Eveleigh and Mr. W. J. Johnston, of Montreal; Mrs. Haskitt and Miss Jinks, of Toronto; Mrs. Maughan and Miss Maughan, of Waukegan, Wis., and Mrs. Sheldrick and Miss Reeve, of Chatham.

Dr. Santo, Dr. Jarvis and Mr. Geo. Miller were the ushers of the church.

Where Medical Science Fails
to cure rheumatism, and all the time you suffer dreadfully, why don't you get a bottle of Polson's Nerviline and try that? Rub it into your stiff joints, sore arms, lame back, bent shoulders—wherever the pain is. Nerviline has cured plenty of people in this way, and that ought to be proof enough that it will cure you, too. This is an unusually strong liniment that cures rheumatism in unusually quick time. Best household liniment known, 25 cents.
