

SERBIAN TROOPS KEEP UP WORK

Turkish Prisoners Taken Now Total More Than 25,000

SERBIANS CONTINUE TO CROSS VARDAR RIVER

Bulgarians Burning Villages and Stores of Material—Great Quantities of Latter However Taken

By Courier Leased Wire. LONDON, Sept. 24.—The Serbian troops continue to cross the River Vardar, northeast of Monastir, and are in contact with the Bulgarians, says the Serbian official statement of Monday. The Bulgarians are burning villages and stores of material. The Serbians, however, have captured great quantities of material. Around Prilep the Serbians are on the Gradska-Prilep road, to the northeast, while to the southeast they have reached the steep massif of the Drenska Mountain range. The official statement reads: "On the 22nd, Sunday, our troops continued to cross the Vardar, where they are in contact with the enemy. "Toward Prilep, Serbian troops have reached the very steep massif of the Drenska mountain range and at several points are on the Gradska-Prilep road. "The enemy continues to burn villages and his own stores. Despite this, however, great quantities of war material have fallen into our hands. On the Vardar railway line, Uskub to Saloniki, we captured several trains."

THE ST. MIHIEL SALIENT. Arrows indicate direction of Attack by Allies.

BULGARIAN-TEUTON ARMIES BEGIN A RETREAT WHICH MEANS GREAT DISASTER

St. Quentin on the West Front Appears to be Doomed—In Far East the Allies are Victorious Over the Bolsheviki Forces

By Courier Leased Wire. New York, Sept. 24.—The Associated Press this morning issues the following: With the center broken by the onslaught of French, Serbian and Italian armies, with the British and Greeks sweeping over the strongest defences in the Lake Dolra region and with their railroad communications virtually destroyed, the defences of the city, is now under direct fire of the Allied guns, while the railroad lines must be under constant bombardment. Northward along the line the British have made a new advance at Ephezy, west of Cambrai, but the fighting here has not taken on the savage character as that further south. German counter-attacks have been repulsed by the British, who hold all the ground won in recent fighting. While the fighting on the Aisne front has not been as spectacular as that further north, the French are maintaining their pressure against the German positions just to the west of Chemin des Dames, the famous road running along the crest of the hills north of the Aisne, which has been the scene of terrific fighting many times during the past two years. The position held by the French through Allainville and Sancy would seem to threaten the whole German position north of the Aisne. In the Far East the Allies have been victorious over the Bolshevik forces and the Austro-German prisoners of war, who are fighting under the Soviet standard. The city of Blagovestchensk, on the Amur River, 375 miles west of Khabarovsk, has been taken by the Allies. Since Chita was wrested from the Bolsheviks the Allies have moved eastward 125 miles and occupied the city of Nerchinsk. On the American sectors of the front in Lorraine patrol encounters and artillery duels have been reported. Bad weather has practically put a stop to operations there for the past few days. AFTERNOON SUMMARY By Courier Leased Wire. New York, Sept. 24.—The Associated Press this afternoon issued the following: In Palestine, Macedonia and France the Allied offensives progress successfully. General Allenby's forces in Palestine have followed up their rout of the Turkish forces with additional gains. In central Macedonia the Allies are pressing vigorously the advantages won, and the difficulties of the Germans and Bulgarians are increasing. Field Marshal Haig has taken a new step in his investment of St. Quentin, and is fighting toward the northern outskirts of that German strong point from east of Verdun. On the Mediterranean coast of Palestine, British cavalry has occupied the ports of Haifa and Acre, marking an advance from just north of Jaffa of more than 60 miles since the present operations began. Acre has been famous in history for the sieges that it has undergone, and Napoleon met with a serious repulse there in 1799. The Turkish rout in the area west of the Jordan has compelled the Turks east of the river to retreat. They are being pursued closely by Allied forces, and the King of the Hedjaz, Faisal, has been rescued, and the Allies are pushing north rapidly along the Hedjaz railway. Gen. Allenby reports that the number of enemy troops taken captive will largely exceed 25,000. German and Bulgarian troops in Macedonia, their communication lines almost entirely gone through by the Franco-Serbian advance to the Vardar, are retiring on a 100-mile front. The Allies have reached the Vardar northeast of Monastir, a front of more than 100 miles, and Serbian forces have crossed to the east of the river in pursuit of the Bulgarians. On the left of the Allied line, Italian and Serbian forces are closing in on Prilep. Along the entire front the enemy is burning villages and war material. By crossing the Vardar on a wide front south of Gradsko, 40 miles southeast of the important town of Uskub, the Serbians threaten the rear of the Bulgarians facing the British and Greeks around Lake Dolra. The Bulgarians there are reported as retiring northward toward Strumnitsa, in Bulgarian Macedonia, evidently with the hope of escaping before the Serbians can cut off their retreat northward. Around Prilep the forces of the Central Powers also are in a serious position and they may be cut off completely if the Allies can press northward along the Vardar to Veles and Uskub. Fighting on the western front is not on as large a scale as last week. In addition to the thrust against the German defences east of Verdun, where the British have not yet reached the Hindenburg line, Field Marshal Haig is improving his line at points further northward and has repulsed a German attack west of Le Catelet. Northeast of Arras the British have broken up a German attack at Gavrelle, while in Flanders the British have regained part of their old positions at Voormezele, south of Ypres. Activity on the French front, south of St. Quentin to the Aisne, is confined to artillery duels. MIGHT BE DETACHED By Courier Leased Wire. Paris, Sept. 24.—Turkey and Bulgaria, says the Mail, in discussing the political importance of the reverses now being imposed on their armies, might be detached from Germany, but it will be through the victory of the Allied armies and not by means of intrigues and concessions. It declares that the Turkish and Bulgarian governments would be actually happy to negotiate with the Allies but the Entente cabinet believed they must first crush the military power of these countries. KILLED BY AUTO Chicago, Sept. 24.—After spending three years in the trenches with the Canadian Expeditionary Forces, Sergeant Joseph H. Stokes, on leave from the Canadian army, was killed by an automobile here last night.

BRITISH FORCES PRESSING ON ST. QUENTIN FRONT

Advance Rests With Haig's Men—Total of Turk Prisoners in Palestine Exceeds 25,000

By Courier Leased Wire. LONDON, Sept. 24.—Bulletin.—British forces are pressing in on St. Quentin directly from the west, today's report from Field Marshal Haig shows. He reports fighting taking place to the British advantage, and announces progress by the attacking forces in the region east of Verdun. On the front to the west of Cambrai, the region north of Moeuvres, the British positions have been improved. In the Arras-Lens sector, the Germans tried to drive the British from the new positions, the latter had won southeast of Gavrelle. The enemy was completely repulsed, the British retaining their line intact. In Flanders, British troops succeeded in pushing forward and occupying a portion of the old British front line southeast of Voormezele, below Ypres. The text of the statement reads: "Fighting is taking place to our advantage in the sector east of Verdun, where we are reported to be making progress. "A local attack made by the enemy yesterday north of the Little Prel Farm, opposite Le Catelet, was successfully repulsed, leaving prisoners in our hands. "During the night the enemy attacked our new positions southeast of Gavrelle, supporting the attack with a heavy barrage. The assault was repulsed. We improved our position slightly north of Moeuvres, and by a successful minor operation carried out during the night, regained a portion of the old British front line southeast of Voormezele. "Hostile raiding parties were driven off last night west of Bellenghise, north of St. Quentin, east of Neuve Chapelle. The enemy raided one of our posts south of the Scarpe river." PALESTINE OPERATIONS LONDON, Sept. 24.—East of the Jordan the Turks are withdrawing towards Amman, on the Hedjaz railway. Australian, New Zealand, Jewish and other troops are pursuing the enemy and have reached Es-Salt, 15 miles northwest of Amman. The total number of Turks taken prisoner will exceed largely the 25,000 already reported, the official statement announces. NO INFANTRY ACTION PARIS, Sept. 24.—Bulletin.—The artillery was active last night on the French front below St. Quentin, and between the Ailette and the Aisne, but no infantry action is reported in today's war office announcement.

IRON CROSS DISTRIBUTION

Is Made in Wholesale Way by the Kaiser

By Courier Leased Wire. London, Sept. 24.—Emperor William visited Briey, near Metz, yesterday, according to an Amsterdam dispatch to the Exchange Telegraph company. He distributed 400 iron crosses, inspected field hospitals and spoke to German, Austrian, French and British wounded in their respective languages. Later he addressed Austrian officers, saying: "You may fight our battles as good comrades, and in return for our help, which we have often given you, and for our strong, free and common future."

LONE BANDIT Succeeds in Holding Up Mail Train

By Courier Leased Wire. Seattle, Wn., Sept. 24.—A Great Northern train en route from Vancouver to Seattle, was held up last night by a bandit near Mukilteo, according to reports reaching here. Advice said the bandit rifled the mail car of some registered mail pouches, forced the train crew to uncouple the engine and then carry him to Meadowville, where he escaped. Later Seattle, Wn., Sept. 24.—Several thousand dollars in registered mail was obtained, postal officials said today, by the bandit who last night single-handed held up a passenger train on the Great Northern Railroad near Mukilteo. An all night search failed to reveal any dew to the robber. Blood hounds were put on the scent, and a track leading into the woods was taken up. The robber appeared with a drawy gun before the engine crew and forced them to stop the train. He then compelled the uncoupling of the mail and baggage car, during which he took two shots at the fireman who had thrown a hammer at him. After going through the mail sacks he fled to the woods.

ADVANCE IN BALKANS

Even More Astonishing Than the Palestine Operations

By Courier Leased Wire. London, Sept. 24.—The London newspapers comment on the Balkan advance as an astonishing achievement and a more surprising one than General Allenby's operation in Palestine. "The whole line is in rapid movement on a front of a hundred miles," says The Daily Telegraph, "while the wedge separating the two Bulgarian armies threatens their destruction." "The Serbians have performed one of the most wonderful feats in military history, a deed comparable to the breaking of the Wotan line," says The Daily Mail. They have stormed positions which many of the Allied experts regarded impregnable. BIG LIQUOR SEIZURE. Cheliotown, P.E.I., Sept. 23.—Last night the prohibition inspector seized over two thousand dollars worth of liquor from a well-known drug firm. This, it is alleged, was part of a stock laid in for the exhibition which opens to-morrow.

HUN SOCIALISTS WON'T CONSENT

To Participate in Government Without Radical Changes

By Courier Leased Wire. Copenhagen, Sept. 24.—German majority parties cannot in the effort to introduce a parliament with a responsible ministry, count on the Socialists for active participation unless the policy hitherto followed by the government is materially altered or abandoned. This is the gist of a long editorial in which The Vorwarts of Berlin the Socialist organ, serves notice that the time has not arrived for the Socialists to enter the ministry. "It eventually the Socialists enter the government, and such a time may come," the newspaper says "they will do so in order to fulfill their great historic mission of helping peace and altering the present government's policy in accordance with their convictions regarding what the people need." Comments from various Socialist leaders, along the same line are printed by The Vorwarts. FOCHE'S WORK. By Courier Leased Wire. London, Sept. 23.—The Allied successes in France, Macedonia and Palestine have led The Cologne Gazette to anxious enquiry regarding new military developments. "We must do Foch the justice to say he has already obtained on French soil," says this leading German newspaper.

WEATHER BULLETIN

Toronto, Sept. 24.—The barometer is highest over the great lakes and there is an important disturbance just west of the Missouri Valley. The weather is cool and unsettled throughout the Dominion. Forecasts. Moderate winds, continued cool and for the most part fair to-day. Wednesday, local showers.

GEN. ALLENBY'S NOTABLE SUCCESS

Was Achieved Against an Enemy Strength of 100,000

By Courier Leased Wire. London, Sept. 24.—General Allenby's remarkable success in Palestine was achieved against a total enemy strength of 100,000 Turks, according to official despatches reaching London. Figures as to the number of men in the Turkish army in the Holy Land have hitherto referred merely to rifle strength. The Turkish forces held positions of exceptional strength, with three lines of well dug trenches and abundant artillery and machine gun protection. The Turks were completely surprised, according to Reuters' correspondent in Palestine. The mobility of the Allied forces and the boldness of General Allenby's plan of hitting at the strongest point in the Turkish defences, added to the success. The rush of the British cavalry completed the enemy's discomfiture. The Turkish reserves consisted of troops which recently arrived from Caucasus. Field Marshal Liman von Sanders, commander of the Turkish forces and his staff, escaped capture by only six hours. Not the least remarkable feature of General Allenby's success lies in the re-organization he effected in his forces since the German offensive on the Western front last March necessitated the withdrawal to France of a part of his army.

A NEW YORK HOTEL ON FIRE

Hundreds of Guests Sent Scurrying Through the Corridors

An Investigation is Taking Place as to the Origin By Courier Leased Wire. Washington, Sept. 24.—Police and fire officials to-day were investigating the origin of a fire early this morning in the New Willard Hotel, which caused damage estimated at \$100,000 and sent hundreds of guests, many of them of national prominence, scurrying through the smoke filled corridors to the lobby and safety. Some of the women guests became hysterical, several fainted and one attempted to jump from a third story window, but was prevented by a hotel attendant. Vice President Marshall, senators, representatives and diplomats with their families were among the scantily clad guests who quickly reached the lobby by means of the elevators and stairways. The vice president, aroused from sleep by Mrs. Marshall made his way with her, their adopted baby and nurse down three flights of stairs. "I wish I had brought a gas mask to the hotel with me to-night," said Mr. Marshall. "I have one in my office that I have been threatening for a long time to use in the Senate." The fire originated in a pantry off the main room, but was checked before it had spread far. Most of the damage was to furniture and drapery caused by smoke and water.

CAMP CLOSING

By Courier Leased Wire. Toronto, Sept. 24.—Niagara Camp closes on October 31 and Petawawa on October 10, according to orders from Ottawa. Every soldier will have a spring bed at Exhibition Camp here this winter instead of wooden bunks.

# NORFOLK NEWS

## ORGANIZED FOR TAG DAY

### Another Simcoe Man Gives His Life for the Great Cause

Simcoe, Sept. 24.—There was a good response of the Kith and Kin and G. W. V.'s last night at a special meeting held to arrange for tag day, on the last day of the county fair. The organization of the work to insure a thorough tag was placed in the hands of the following committee:

Mrs. A. N. West (convenor), Messrs. Broadfield, Buckle, Hoisington, Liewellyn, Hammond, Johnson, James, Bentley, Messer, and Misses Alice Holden, Amy Pratt, Nellie McCarthy, C. Richardson, and Winnie Richardson. It is quite probable that a kith and kin organization will be effected after tag day is over.

We see a little difficulty ahead, however, should matters take their turn, for if all of the kith and kin in Simcoe come into such an organization, the park itself will hardly accommodate the membership. But to go to it even if we have to have seven groups, one for each subdivision. We are right into the heart of the season, as regards sports, the season of debating clubs, literary and dramatic societies and choral organizations, and the time is opportune.

### Getting a Grasp on Simcoe.

Miss Louise Vaughan, of China, at the request of her travelling companion Miss Ferguson, of St. Louis, told the members of a local young women's missionary organization, which met at the residence of Mrs. A. B. Jackson, last evening, that she is praying for one million converts in China, and is getting them. Local church workers who have come in touch with Miss Vaughan, consider her a prodigy among the missionaries and though owing to her attachment to a United States organization, in her work in the Orient, Miss Vaughan is not widely known in Canada, it is quite probable that this remarkable lady of unlimited faith would not have been allowed a fortnight's comparative seclusion in

## SIMCOE AGENCY

The Brantford Courier  
55 Peel Street.  
An Excellent Local Advertising Medium  
Telephone 390; Nights 35-3

Night Classes begin at the Sixty-two Business College, on Wednesday, Oct. 2nd. Consult Principal Bowden by letter, phone, or in person.

Simcoe wore her experience and work known in some of our larger Ontario centres. The day may be called when some shall ask "How did Simcoe have Miss Vaughan for such a length of time?" Well it has just happened, as everything in this missionary's remarkable career has happened. The world gets the biography after the work is done.

Miss Vaughan is remaining another week in town.

### Still Another Called.

Pte. Jack Mantel Goudey was yesterday reported died of wounds. He was a sergeant in the 133rd and before enlistment was employed at the H. S. Falls store here. He was a young man of excellent parts.

### Odd Ends of News.

Cabbage has headed up earlier than usual and delivery to the factory goes on at the same time that the corn with faller weather is coming in in capacity quantities.

Not only has Sunday motoring almost disappeared, but week day driving about town for pleasure has been reduced to a minimum. Autos in evidence now are almost without exception, delivery and transfer or business cars.

Warden Buck, Chairman Criddle of the County Roads System, Reeve Carter of Simcoe, Guy R. Marston, C. E. James, Reeve Walker of Dufferin and John Martin, are slated for an interview before the department of highways, Toronto.

The county tractor is at present working up Vanessa way. Deputy-Crowe was impaled to his right past his door one of these days. It will later pass over towards Boston.

Another knight of the grip is looking for a home in Simcoe. Excellent railway connection proves an attraction to these gentlemen.

## MERCHANTS WANT INFORMATION

### Met This Morning to Discuss Hydro Commission Proposed Changes

A meeting of the members of the Merchants Club was held at 10 o'clock this morning at which the majority of merchants of the main section of the city were present. The meeting was held in the rooms of the Board of Trade, and was called for the purpose of discussing the changes proposed by the local hydro commissioners in the lighting of Colborne, Market and Laidlaw. Many of the merchants expressed the fear that the change meant a retrogression in our lighting system, and after some discussion a telephone call was made upon Chairman McFarland of the commission, asking him to attend and give some information. Mr. McFarland declined to attend, and on motion of Mr. M. McPherson, seconded by Mr. Herb. Conway, it was decided to ask the co-operation of the Board of Trade with the Merchants club, and to invite the Hydro commissioners and the Fire and Light committee of the council to a special meeting to discuss the change.

## CONSUL HAS ARRIVED

Washington, Sept. 24.—United States Consul-General Poole has arrived at Helsingfors from Moscow, and is due in Stockholm tomorrow. News that the consul-general had reached the Finnish border in safety reached the state department today. Upon its receipt, Secretary Lansing disclosed that a week ago he ordered Mr. Poole, the last American official remaining at the Bolshevik capital to leave Russia. The dispatch brought no information concerning the British and French consular officers, who are detained by the Bolsheviks, and to whom Poole insisted upon remaining at his post until ordered away.

## CM AND SEE

How to do your cooking and baking on One-Half the Fuel you are now using.

## NEWLY DISCOVERED USES FOR GLUE

### Household Economies Made Possible by Several New Uses

New York, Sept. 22.—With out government demanding all possible conservation in American households several newly discovered uses for glue present to the thoughtful woman opportunities to prolong the life of household articles. As every family has or should have, on hand a bottle or tube of good glue, the following practical suggestions can be acted upon without delay or expense.

### To Put New Life in an Old Broom

A teaspoonful of glue mixed in a basin of hot water is poured over a broom and then allowed to thoroughly dry will greatly stiffen it, and prolong its usefulness and life.

### When Shoes Become Barked or Scuffed

Very often a small piece of the leather is lifted or loosened. Don't cut it off and try to cover the place with blacking. Flatten the piece, in place with a little glue and allow to dry. Then apply blacking and the surface will be as good as new.

### For Tears or Bents in Silk

Another piece of silk of the same color placed under the tear with a thin coating of glue will bring the edges more firmly together than can be done with a needle. Allow to dry thoroughly and the rent will be almost invisible.

### A Splendid Way to Keep Rubbers from Slipping

Rubber overshoes often become so loose that they slip off at the heels, especially in the winter and spring when the ground is muddy or slushy. This annoying trouble can be entirely eliminated by gluing a felt band around the inside top of the rubber. To protect furs and woollens from moths.

### ON STRIKE

Calgary, Sept. 23.—The freight-handlers and clerks of the C.P.R., whose union is part of the International Body of Railroad Clerks, are on strike. The immediate cause of the strike was the discharge of D. C. Evans, assistant foreman in the outbound freight shed, and the promotion to his place of a man over the heads of six men who were in line for promotion.

### TEN DEATHS

Quebec, Sept. 24.—The epidemic of Spanish influenza in Quebec was the cause of ten more deaths today. Six in Victoriaville, one in Arthabaska and three in Trois Pistoles. In Arthabaska the Catholic College has been closed. There are forty cases in Trois Pistoles.

### UNCHANGED

By Courier Leased Wire  
St. Paul, Sept. 24.—The condition of Archbishop John Treadwell was unchanged this morning, his secretary announced. He is still unconscious.

### H. O. McQUIRE.

The new physical director of the Central Y.M.C.A., Toronto.

The shaded area on the accompanying map, represents the British gains in Palestine. It represents the ground actually held by the infantry. The heavy ticked lines represent the movements of the cavalry, some moving northward towards Haifa and beyond Nazareth, and others moving southward from Beisan and Hanin to force the surrender of tens of thousands of additional prisoners.

## GETTING SHELLS UP TO THE GUNS

### Ammunition Waggon Must Keep Going if It Reaches its Destination

You can never picture the ammunition wagon's frantic contortions during an action unless you have seen them. And then, in spite of your own bristled and aching body, you feel a thrill at the sight. Few correspondents have mentioned the ammunition wagons because few correspondents have seen the ammunition wagon in action with half that driver standing up in their boxes together at the reins of their frightened maddened horses, with the crashing of the shells around making the most terrible din imaginable.

No picture by Caton Woodville or anybody else exaggerates the original one bit. The job of the driver is to get the shells up to the guns. It does not matter whether the enemy is sweeping the rear roads with shrapnel or heavy explosive or gas shells. The ammunition wagon has just got to keep going right on till it reaches its destination.

Ask any of the boys who were through the last big fight "over there" when the German shells were plunging the roads for miles behind and the airplanes were hovering above the wagons trying to drop bombs on them. Ask any of the officers who were needing more ammunition for their batteries. They'll tell you about the ammunition wagons.

The horses became terrified and began to plunge—they all did. They could help it—and the pain of shells became heavier every hundred yards. Not a few limbers were bit. "Napoo" for the driver and his mates and the team.

Sometimes the horses scream—yes, they scream. But the lumbars coming up behind have to get to their own destination as quickly as possible and there is little time to think of anything but one's own job and little enough time for that.

There was once an ammunition wagon which went up the track to the gunpits at a great rate past every kind of obstacle, down into the trench, in shell-holes, the horses stretching to the pace like a race, and the driver standing like a man thing on the traces roaring and tugging like a man possessed. He landed in great time and came to a halt in a bogged hole up over the axes in mud. A captain came along and congratulated the driver on his pluck and daring.

"Don't praise me," said the driver. "It's these ponies you've gotta hold them. And I was so scared at their being scared that I couldn't hold myself. If it hadn't been for that mud hole I guess we would have been away beyond the front line by this time. We were going some."

## BEST WISHES

By Courier Leased Wire  
Quebec, Sept. 24.—After a separation of over three years during which time she was interned in Belgium, Miss Jeannette Beland, daughter of Dr. Beland, ex-postmaster-general of Canada, was this morning married to Victor Mathieu. The bride was given away by her father. After an extended tour, Mr. and Mrs. Mathieu will reside in Quebec city.

### Everybody Come!

## ALFORD PARK AND GOVERNOR'S ROAD WOMEN'S INSTITUTE

A most interesting meeting of the Alford Park and Governor's Road Women's Institute was held on Sept. 19th at the home of Mrs. H. Storey, 19th at the home of Mrs. H. Storey, call and minutes. The yarn conversation reported seventy pairs of socks on hand. It was decided at the October meeting to be held at the home of Mrs. E. Williams, to pack boxes, also to serve coffee at the coming school fair.

Two communications were read from soldiers acknowledging parcels which had been addressed to France and Gibraltar and safely followed them to England, praising the efficiency of the Army Mail Service.

Medical school inspection was under discussion and this is to be introduced in two of the schools of this district.

After the business part of the meeting had been disposed of an excellent programme arranged by Mrs. Geo. Simpson, was enjoyed. A solo by Mrs. Maud Taylor, "My Laddie." Also one entitled "In the Garden of My Heart," by Miss Elsie Sonn were much appreciated.

Miss Matthews gave a paper full of thought on "Our Canadian Women," contrasting the lives of eastern women with those of this country, setting forth the advantages and privileges we enjoy and taking as her main points the Christian mother and her never-ceasing influence. Home, where our women have undivided rights with the husbands of their own choice. Jesus, our knowledge of Him and our uplifted condition therefrom, bringing, with these increased privileges, increased responsibility. Do we appreciate these and do our best.

A violin solo given by request by Mrs. Simpson, who is always listened to with great pleasure, brought the meeting to a close.

## BECOMES GOVERNOR-GENERAL

By Courier Leased Wire  
Archangel, Friday, Sept. 20.—(By the Associated Press).—Colonel Boris Duroff to-day became Governor-General of the region of the north, succeeding the Tschakovsky government. The new governor-general is responsible to the central government, which is under the leadership of General Alexieff, former Russian commander-in-chief. M. Avakentiev, Minister of Agriculture in the Kerensky cabinet and M. Stepanoff, The Tschakovsky government decided to indicate when it learned of the formation of the central government and in view of the fact that the northern region is small and could be administered better by a governor-general. Col. Duroff formerly commanded the Russian forces at Saloniki. He is to be charged with the care of all civil and Russian military affairs in the northern region.

## C.P.R. Directors in the West.

R. R. Angus, Sir Edmund Oster, Sir Herbert Holt, Lord Shaughnessy, President C.P.R., W. D. Matthews.

C. R. Hosmer, Sir Augustus Nanton, Senator F. L. Belque, E. W. Beatty, K.C.

ALTHOUGH Montreal is the headquarters of the C. P. R., he has been twice across the continent. The great Angus Shops at Montreal are named after him, and the present outstanding position of the Bank of Montreal in the world's finance is in no small degree to his foresight and ability. Sir Herbert Holt was identified with the early construction of the C. P. R., so far back as 1853. The Royal Bank under his presidency has made phenomenal progress, will be the most important power development in Canada. Mr. C. R. Hosmer began life as a telegraph operator, and at one time was manager of the C. P. R. at Peterborough. He is now president of the Ontario Flour Mills and is a director of the Bank of Montreal, the Royal Trust Company, the Dominion Textile Company, the Laurentine Paper Company and many other such representative Canadian undertakings.

Mr. W. D. Matthews is one of the leading financiers of Toronto. He was long engaged in the grain trade, and has been president of the Toronto Corn Exchange and chairman of the Eastern Grain Standard Board. As president of the great Consolidated

# Local News

### HOME AGAIN.

Ald. Symons and Mr. Graves, representatives to the Labor Congress in Quebec have returned home.

### THE MARKET.

The market was exceptionally small this morning, only a few gatherings on the south-east corner. Potatoes, corn and apples were the chief produce offered for sale.

### PERMITS.

The following building permits were issued at the office of the City Engineer this morning: John Fletcher, 5 Ontario street, was given permission to erect a barn to cost \$50. John Ott received permission for the erection of a frame A permit estimated to cost \$150. A permit was also issued to F. J. Bishop for the construction of a brick addition to a dwelling to cost \$2,500.

### WILL VISIT GALT.

Quite a number of Brantford golfers will leave for Galt to-morrow to take part in a Red Cross tournament there. The feature of the day will be an exhibition match between Mr. G. S. Lyon, amateur champion of Canada, partnered with Geo. Cummings, he well known Toronto pro, vs. Mr. Fritz Martin, ex-amateur champion, and N. Thompson, the crack Hamilton pro.

### KEPT CUP.

On the Pastime green yesterday afternoon two rinks of that club successfully defended for the four-day challenge cup won in Paris last week. The cup was presented at the Paris tourney by Penman's Limited, the winning club to accept and play against any two teams challenging within four days. A team from the Pastimes won the cup on Wednesday last and were immediately challenged by Paris and St. George. They disposed of the Paris team yesterday afternoon by the bare margin of two up.

### GRADUATING NURSES.

At the Hospital on Thursday afternoon the annual graduation of nurses will be observed. There are no fewer than fourteen on this occasion, a record for the institution. The following are the names of those who will receive diplomas:—Misses Dora Taylor, Emeline M. Morganorth, Helen L. Potts, Louise Turner, Minnie Mae G. Van Fleet, Daisy Dunn, Ina M. Jones, Hannah E. Day, Kathleen I. Hutchinson, Mary K. Dowdall, Margaret Bithie Campbell, Victoria Maude Frost, Charlotte Anna Augustus, and Esther Jane Hewitt.

### SPECIAL SPEAKER.

Arrangements are being made by the local Navy League to have a special speaker visit Brantford on Trafalgar Day, October 21st.

### SOCIAL COMMITTEE.

The social committee of the Y. M. C. A. holds its organization meeting for the season's work to-night at 7:30 o'clock in the board room.

### BACK TO DUTY.

Fireman Watson of the Central fire department who has been off sick the first of the week returned this morning completely recovered.

### S. A. EFFORT.

The annual Thanksgiving harvest effort on the part of the Salvation Army is now under way and cash or saleable goods will be thankfully received by Adjutant Wright at the Citadel on Darling street.

### VICTORY LOAN.

Arrangements are being made for the use of the Post office, corner of Dalhousie and George Sts., as headquarters in the coming Victory Loan Campaign. The campaign will commence at the latter end of next month.

### LAST HALF HOLIDAY.

To-morrow will be the last of the Wednesday afternoon holidays this season for the clerks of the city offices. The extension of the half-holiday to include September has been much enjoyed by the clerks.

### BOYS' DEPARTMENT.

The Grand Re-opening of the boys' department of the Y. M. C. A. will be held on Friday evening as the announcement made this morning. The opening will be in the form of an inaugural meeting, and the customary supper will not be in vogue.

### NIGHT CLASSES.

A meeting of the Advisory Committee in connection with the Night Industrial Classes took place in the Collegiate Institute last evening. It was decided to reorganise said classes for 1918 with Principal Overholt as the head. Classes will be resumed on Nov. 1st, two nights a week.

### A.O.F. MEETING.

The regular meeting of the Court Endeavor O. F. No. 5987, was held last night in the lodge hall. Several propositions were discussed by the members along with other business. The hospital board will meet to-night to discuss several matters and to elect officers.

### CONSIDERING NEW TRUCK.

The next move of the Council in regard to the purchase of modern fire apparatus will probably be the purchase of a new combination chemical and hose truck, is the opinion of Chief Lewis. This would enable the big pumper to be held in reserve for a larger fire in the main section of the city.

### CONVENTION.

Next Monday the quarterly meeting of the Canadian Flour and Shoe Manufacturers will be held in this city. Mr. Brantford is the president and he has arranged to have the convention here. A business session will be held in the Board of Trade Rooms at 10:30 and an address on the manufacture of shoes illustrated by moving pictures will be given in the Grand Theatre by a Boston speaker at one o'clock.

**MUST GET NEW HORSE.**  
No definite move has been made as yet to procure a new fire horse for the stall left vacant by the death of "Trium" on Saturday. The horse at present in his stall is not the right type having been found incapable of the work when on probation at the fire hall some time ago.

**POLICE COURT**  
In the police court this morning, Matthew Mazod and Charles Cravesuk were fined \$10 and costs each for being drunk. Strag Valian was allowed to go after paying the costs of the court for not having his registration certificate on his person. A very unusual case was also settled in the court this morning. The prosecution in the case intended to bear sixteen witnesses, but owing to the length of time involved, this number was reduced to four. The case was against Jane Reading, and was of a serious nature, that of neglecting to provide medical attention to a sick man, thereby causing his death. After considerable evidence had been heard, the magistrate decided that there was no ground for conviction, and the case was dismissed.

**CHILDREN'S AID.**  
Many donations came to the children's Shelter from time to time from residents of the city and county for which the children's Aid Society are very grateful and wish to publicly acknowledge. Most of the vegetables of Ryerson School were turned over by the children to the Shelter. The carrots, beets, pumpkins, radishes, celeris, tomatoes and cabbage were of excellent quality and size. St. Paul's Church held their harvest-home services on Sunday and the fruit and vegetables were also sent to the Shelter. Mr. Axford states that the capacity of the Shelter is taxed as never before. There are 13 children in residence to-day, nine of these being under school age and three infants he has boarding out in private homes, making a total of 21 children now being sheltered. He has a particularly fine healthy baby girl of 2 months for adoption. She is thriving and happy and will make some childless home happy.

**SENT UP FOR TRIAL.**  
Alexander Barrel, the Austrian, who after being sentenced to six months imprisonment and \$500 fine for having prohibited literature on his person, by Mayor MacBride, was taken to a week ago, was this morning at the police court remanded for trial before a court of competent jurisdiction. He will come up at the Fall Assizes.

**PHYSICAL DEPARTMENT.**  
A meeting of the physical department of the Y. M. C. A. was held last night. The following members were present: Chairman W. S. Brewster, Dr. Linscott, Dr. Amos, A. E. Day, W. J. Feldkamp, J. Coy, R. Oswald, M. Hill, L. Smith, G. H. Williamson, G. Mosley. A schedule for the coming season was adopted. It was also decided to run city leagues in basketball and indoor base ball. Boxing classes were arranged for. The following members were appointed to organize the city leagues: Dr. Linscott, J. Coy, M. Hill, R. Oswald, G. Mosley. Factory teams wishing to enter teams in above leagues, apply at Y. M. C. A.

**PERSONAL**  
D. P. Lamoreux, wife and sons of Brantford are among the guests registered at the Highland Inn, Algonquin Park.

The many friends of Mrs. Andrew Fotheringham, late vice-president of the Pacific Place Kith and Kin, will be glad to hear that she has arrived safely in England, a cablegram having been received in the city to that effect.

Mr. W. F. Whitaker, of the Gould, Shapley and Muir Coy. returned yesterday from a business trip to the West.

### STORY OF THE CREW

With Reference to the Sinking of a Trawler

By Courier Leased Wire.  
An Atlantic Port, Sept. 24.—Captain O'Reilly and crew of the Boston trawler Kingfisher, which was captured by a German submarine about 30 miles off here on Friday morning last, arrived here this morning. They reached this port on a small coastal steamer from a point about 100 miles from here, where they landed early Saturday morning.

According to the story told by members of the crew, the Kingfisher left Boston about one o'clock last Wednesday afternoon for the fishing ground.

Nothing unusual occurred until about 9:30 on Friday night. A shell passed over her stern and was followed in about five minutes by a second shell. The submarine was then about half a mile from the trawler and immediately came alongside. The captain of the U-boat asked Captain O'Reilly where he was from and if he had seen any other steamers in the vicinity. On receiving a negative answer to the last question he ordered the skipper of the Kingfisher to abandon his ship. The crew then lowered their two lifeboats and rowed away. They saved nothing but the clothes they had on.

They say that the submarine was about 400 feet long, had two guns mounted and there were about seventy Germans on her deck.

**PROHIBITION APPROVED.**  
By Courier Leased Wire.  
Washington, Sept. 24.—National prohibition effective next July 1, for the period of the war, was approved last night by the House, which adopted, 171 to 84, the Senate prohibition rider to the \$12,000,000 emergency agricultural appropriation bill. The measure now will be sent to conference for adjustment of differences between the two houses on appropriation.

THE ALLIES' THREAT TO THE GERMAN COMMUNICATIONS.

When Pershing's men reduced the St. Mihiel salient they reopened, for the use of the Allies, the railroads centering at Toul and Nancy and Menaud, the German lateral communications which converge at Conflans.

THE REIGN OF TERROR

Which Exists in Russia—A Slaughter on a Wholesale Scale

Washington Sept. 23.—Stories of wholesale slaughter of representative people and former officers because they are "dangerous to the Soviet" are told in further accounts reaching the State department today of the reign of terror and ruin in Russian cities against which the American Government has called upon civilized nations to protest.

All persons coming out of Russia are said to bring reports of the existence of appalling conditions. One detail is that the former officers are shot at night in the cellars, the guns being muffled with silencers. One Peter, head of the Bolsheviks' extraordinary commission against counter-revolutions, is said to sign death warrants without reading the papers. The latest reports indicate that the British and French Consuls General in Moscow are under arrest in their homes. American Consul General Hoole is at liberty and permitted to visit his colleagues, Mr. Peole, today's report says, is being generally praised for his courageous and vigorous action.

GERMANS ON HUNT

For Hidden Treasures in Occupied Belgium

Reports reaching a Belgian newspaper published in Amsterdam tell that squads of German special police are searching houses whether inhabited or not, from cellar to roof, and are turning up the soil of gardens, in several Belgian cities. People thought at first, that they were in pursuit of the editors of the valiant newspaper "La Libre Belgique" or of evaded prisoners, but now know that these gangs are trying to discover treasures buried or hidden by their owners, during the German invasion. It is interesting to note, a propos of this, the existence and the text of the "Regulations on the collecting of recuperable goods" signed by the Commander of a German Army-Group and reproduced by "Le Journal" (Feb. 26, 1918) the Bulletin of War-Shops. It tells us principally that: "The long duration of the war makes it a duty for everyone to recuperate all the desirable rough materials. The invaded and neutral population's interest shall not, counterbalance the German Empire's ones. All the hidden food must be requisitioned and the invaded districts must be intensely turned to profit for the good of the German industry." The author of the regulations hints also at the means to use in finding out the inhabitant's hidden properties: wall and ground soundings with iron rods or with water more noisily permeating disarranged or digged spots.

PROTEST OF HAMILTON GAME

Seven Clauses Contained in an Affidavit

Courier Article Comes in for Commendation

A meeting of the Pratt and Letchworth Club executive took place last evening in the Y.M.C.A. to ratify a protest against the Beavers of Hamilton in connection with the match of Saturday last. Secretary Scruton reported that that afternoon wired the President of the O.B.A.A. to this effect, stating that particulars would follow later. He took this course so as to be within the time limit. Mr. W. S. Browster, K.C., was in attendance and drew up the formal protest in the form of the following affidavit: Province of Ontario, County of Brant. In the matter of a baseball game between the Hamilton Beavers and the Pratt and Letchworth team. I, Roy H. Weber, of the City of Brantford, in the County of Brant, mechanical inspector, make oath and say:

(1) I am manager of the Pratt and Letchworth Baseball team and as such manager I was present at the game played by my team with the Hamilton Beavers at Victoria Park in the City of Hamilton on Saturday, 21st Inst.

(2) The captain of the Hamilton Beavers refused to make special ground rules to cover balls batted or thrown into the crowd, although the spectators overflowed on the playing field. I asked him to do so, and he refused to listen to me. I appealed to the umpire, but the umpire would not listen to me. The spectators were all around and overflowing the playing field; these spectators constantly interfered with the players of my team by blocking the player and preventing our players from fielding the ball. When the Hamilton team was in the field a ball was batted among the spectators. A new ball was thrown in the game, not giving our players the same chances to run the bases. This was not done when my team was in the field.

(3) The umpire did not announce any batteries or change of players made during the game.

(4) When the ball was hit into the crowd of spectators the runner was allowed to take as many bases as he could take, and was not confined to two bases.

(5) President Waite of the Hamilton Association incited the spectators against my team by standing up in front of the bleachers waving his hat and hands.

(6) I desire on behalf of my club and do hereby protest said game.

(7) Mr. Waite said, when asked for ground rules, that he was running the game for the O.B.A.A., and if we did not play the game would be forfeited.

Sworn before me at the City of Brantford, in the County of Brant, this 23rd day of September, A.D. 1918. ROY H. WEBER. During the course of the meeting an article in The Courier, protesting against the rank treatment accorded the local men at Hamilton, came in for much favorable comment.

ORDER RESTORED. By Courier Leased Wire. Tokyo, Friday, Sept. 20.—(By the Associated Press)—Order has been restored in the city of Khabarovsk, according to an official statement issued at the War Office, which adds that General Yamada's detachment left that city for the west by rail on September 13 for the purpose of attacking the enemy on the Amur River. American and Chinese forces participated in the capture of gunboats from the Bolsheviks recently, and the statement says, and are co-operating with the Japanese. Japanese cavalry entered the city of Nerchinsk, east of Chita on September 10, it is announced.

PROPOSED RAID BY GERMANS

Was Prevented by Artillery Fire on the U. S. Front

By Courier Leased Wire. With the American Army on the Lorraine Front, Sept. 24.—(By the Associated Press)—Artillery fire prevented a German raid from materializing on this front yesterday. Warning of the enemy's intention was given by the start of a German barrage over the American lines at an early hour. As it shifted from the front lines to the back areas, the American fire opened so effectively that any attempt of the German infantry to attack was out of the question. Isolated sectors were subjected to a harassing bombardment during the morning. This fire, however, did no damage. The enemy is still busy consolidating and organizing his lines in front of the American right flank before St. Mihiel. After a gas bombardment the enemy attempted a raid of the lines in the Vosges sector yesterday. He was repulsed with probable losses before reaching the American trenches.

JAPANESE TROOPS OCCUPY AMUR

Siberian Province Falls Into Their Hands

London, Sept. 23.—Blagovieshtchensk, Capital of the Siberian province of Amur, and Alexievsk, have been occupied by Japanese cavalry, according to information received by the Japanese Embassy. Two thousand Austro-Germans were taken prisoner. They laid down their arms at Kokka. The information, which was given out by the Japanese Military Attache, is to the effect that Blagovieshtchensk and Alexievsk were occupied by Japanese cavalry converging from Khabarovsk and Tetsishan on September 18. Troops moving up the Amur River reached Blagovieshtchensk the following day. Kokka, where the Austro-Germans laid down their arms, is on the right bank of the Amur, opposite Blagovieshtchensk. Another enemy formation has retreated to the upper reaches of the Zoya River.

Mr. Thomas Darwin, organist of Wellington Street Methodist Church, received the following letter from Fred H. Easterbrook, Camp Commandant of Bramshott Area, Headquarters, Canadian, Bramshott, Hants, Sept. 2nd, 1918.

Camp Commandant Bramshott Area

Sends a Very Interesting Letter to Mr. T. Darwin

Mr. Thomas Darwin, organist of Wellington Street Methodist Church, received the following letter from Fred H. Easterbrook, Camp Commandant of Bramshott Area, Headquarters, Canadian, Bramshott, Hants, Sept. 2nd, 1918. Dear Tommy— It's several days since I received your letter, but there isn't much time just now for answering my letters, and I am catching up on this mill to-day. From now on I hope to be able to answer anything that comes along without much trouble. The news gets better every day now and we are all looking to the time when we will be able again to get up well before breakfast and chase the Hun a few more miles. There is quite a lot of excitement each day in the reserve battalions trying to find out just who has been in it and what they have been doing. However, there isn't much to find out, and we just watch the casualty list and try to form our own conclusions as to what's been doing. I have changed my job during the last few weeks and am now Camp Commandant of the Bramshott Area, and being new to it all, I have been a busy woman. However, there are quite a few good things attached to the job, including a horse of my

own, and the odd ride in the car. I am fond of these English roads in an auto, as they are pretty well kept and the cars are pretty good ones too. Come over some Sunday afternoon and I will take you out for a run. Don't be afraid that you will be upset though as there is a man with each car. I suppose that the old choir will be getting stronger again for the winter by now. I would like to be there again on Sundays, as there is nothing of that kind here. All we do is to go on church parade in the morning and no choir is needed as there is always the band there to give all the music that is necessary, and sometimes more than we want. Our special bandmaster sometimes composes his own pieces and tries them out on us. The band drummer is an enthusiast. The other Sunday we got a new piece for the first time, and everything went fine until the trip part came. The cornet got tangled up in some way, and fell on his back and drum to light. It got between them. The feed found this out at once and feeling a little foolish, left the field to the drum. However, Mr. Drum had no supplies, and but for the fact that his instrument is strongly made, something would have "go bust" but instead prevailed, and we were treated to one of the nicest drum solos that you could desire, performed in extra special fortissimo. We hardly knew what to expect on the way home again, but he went back everybody knew, and the troops went along "take."

I wonder if the coal shortage will keep it silent against this winter? I hardly think that I need say that I am keeping well. In spite of the fact that there is no sugar here, I am just in as good condition as ever and expect to remain so for some time to come. Heaps of thanks to those who have signed their names to the card which I received. Tell 'em all to sing their "darndest" and not to try anything like the drum solo or I won't like them a little bit. Cherr-i-o! Yours to all points of the compass, Fred H. Easterbrook.

OWNS UP

By Courier Leased Wire. Geneva, Sept. 23.—Deploring the failure of the Austrian peace proposals, The Rhenische Westphaalen Gazette says: "The motives for the non-acceptance of Austria are multiple, but the refusal is unanimous. The Allied war city is not one of boasting or bluff, but comes from the heart. We must recognize this fact and also that it is justified, as the enemy must know our serious position while offers of peace comes from us."

BULGARS ON UP

By Courier Leased Wire. Sofia, Sunday, Sept. 22.—via London, Sept. 24.—As a result of our front going way in the angle between the Cerna and the Vardar," says the Bulgarian war office statement today, "our adjacent units were withdrawn to new positions to the south of P-lep, and to the north of Doiran."

# BULGARIAN AR- MIES SEPARATED

## And Both Are in Full Re- treat; Borders of Bulgaria Have Been Reached

London, Sep. 23.—Entente cavalry are within three miles of the Bulgarian frontier in the region of Strum- nitsa. The 11th German division was reported to have been cut off from the main Bulgarian army and to be retreating in disorder.

The first Bulgarian army in the region of Monastir and Prilep has been cut off from communication with the 2nd army in the Doiran sector by the cutting of the important railway lines from Uskub to Salonica and from Gradsko to Prilep. The Franco-Serbian troops are pursuing the Bulgarian army, which is in full retreat. The Entente allies now command the mountain zone from which they will be able to debouch in the plains.

German and Bulgarian reinforcements, thrown in to check the Ser- bian advance toward the Uskub, have been forced to join in the retreat of their comrades by the impetuous Serbs, who now have advanced 40 miles since September 15. Prisoners captured from the enemy are being added to as the progress north- ward continues and the quantity of war material also is increasing.

The salient driven into the Bul- garian lines at Sokol has been widened until now the allies are advancing on a front of nearly 50 miles, stretch- ing from east of Monastir to the Var- dar. When they reached the Vardar the Serbians were able to cut the railway running south toward Salo- nica, and the only communication line of the Bulgarians in the region of Lake Doiran. On the western flank the Serbs have pushed to the highest point of the mountain region in the upper part of the Cerna bend and cut the railway from Gradsko, south- east of Uskub, to Prilep, the base of the German army operating north and northeast of Monastir.

By cutting the railway lines the

# CANADIANS ARE ON THE ALERT

## Active Watchfulness and Many Raids Recorded Breach in Hindenburg Line Important

By Courier Leased Wire  
With the Canadian Forces in France, Sept. 23.—(By J. F. B. Live- say, Canadian Press Correspondent).—The week on the Canadian front has been one of active watchfulness marked by continued raids and breaches on both sides of the Canal Du Nord, which lends itself to this type of warfare. One post has been taken and re-taken no fewer than four times, and the operations have notted up a number of prisoners and a machine gun, even the German raids resulting in prisoners to us. Shelling has been continuous with gas pre- dominating in the German strafing aerial activity, and besides the plane and balloon, has been uninterrupted. Several German planes and balloons have fallen to our pilots.

Yesterday a German balloon was cut loose by our artillery and drifted rapidly at great height. It is con- firmed that the German pilots are using parachutes.

Our artillery has dominated the situation, frequently neutralizing the German batteries and causing many fires as well as destroying observa- tion points and bridges, of which there are many in this district. There is an evident intention on the part of the enemy to hold the east side of the canal to the end as one of the remaining strong lines in their possession.

The importance of the breach made in the Hindenburg line is commented upon by a well known German critic as one of the disasters of the war and as being ominously significant. It not only embarrasses a large part of the defensive front, but proves that any line can be taken. Therein lies the hardest blow to German confi- dence. The result of the war is now a matter of men rather than of de- fences, and in that case the Allies feel no fear. In this type of warfare casualties are light, but the sacri- fice is keen. The morale of the enemy is certainly on the down grade, the continued assaults of the Allies making themselves felt in every part of the front.

# MILITARY MEDALS AWARDED WOMEN

## Nearly 100 English Nurses Honored for Devotion to Duty

London, Sept. 21.—By mail.—The highest honor English war women have won is the military medal. "For bravery in the field," has now been conferred on nearly a hundred plucky British women.

Among many wonderful examples of courage recorded in the official citations, are these:

Sister Charlotte Lillian Anna Robinson.

"For conspicuous devotion to duty and courage when a stationary hos- pital was struck by four bombs from an enemy airplane and one wing was practically cut in two, many patients being buried in the debris. Sister Robinson, at very great per- sonal risk, went in among the ruins to assist in recovering the patients, quite regardless of danger, her one thought being to rescue the patients. She displayed magnificent coolness and resources."

Sister Nellie Galvin.

"For bravery and devotion to duty during an enemy air raid when four enemy bombs were dropped on the building occupied by the hospital, causing much damage to the ward in which Sister Galvin was on night duty. She remained in the ward tending to the sick, several of whom were wounded and carried on her work as if nothing had happened. She displayed the greatest coolness and devotion to duty."

Staff Nurse Beatrice Dascombs.

"For gallantry and devotion to duty during an enemy air raid when her ward being destroyed she insist- ed on remaining at her post and at- tending to the wounded."

Sister Ellen Davis.

"For gallantry and devotion to duty during an enemy air raid. When the Sisters' quarters were wrecked and bombs falling she showed a fine example and assisted materially in controlling the situation and at- tending to the Sisters who were wounded."

Miss Katherine Margaret Fresh- field.

"For gallantry and devotion to duty during an enemy air raid. The ward in which she was working was destroyed by a bomb and she con- tinued to attend to her patients and was herself very severely wounded."

Commandant Winifred Eleanor Sarah Mount Batten.

"For gallantry and devotion to duty during an enemy air raid. She supervised the work of the cen- trol, drove an ambulance car herself during the raid, and by her coolness and disregard for her own safety en- sured the prompt removal of the wounded to hospital."

Nurse Mary Governed Campbell.

"For gallantry and devotion to duty during an air raid when build- ings were set on fire she moved about in full sight, regardless of imminent danger, tending patients to safety and inspiring confidence in all."

Following is the citation of the French army conferring the Croix de Guerre on Miss Annie Mackinnon, British nurse attached to the French Flag Nursing Corps:

"A nurse, who, under the difficult circumstances of the withdrawal of the ambulance under heavy fire con- tinued to attend the sick and wound- ed up to the last minute with re- markable courage and sangfroid, thus demonstrating the qualities which all her chiefs have recognized in her during the three years that she has devoted herself to the French soldiers."

# PHONE GIRLS AND WAGES

## Board Named to Inquire Into the Matter of Increase

Toronto, Sept. 24.—Between two and three hundred telephone op- erators meeting at the Labor Temple last night were informed that Mr. E. H. Ambrose of the Spectator Build- ing, Hamilton, representing the Bell Telephone Company, and Mr. Fred Bancroft of Toronto, representing the company's employees, will act on the Board of Arbitration appointed by the Minister of Labor to consider the claims of the telephone girls for an increase in wages. Messrs. Ban- croft and Ambrose are to get together immediately and select a third man, who will act as Chairman of the Conciliation Board. In the event of their failure to do so the Minister of Labor will choose the third man. Announcement to this effect was made by Mr. Thomas Crawford, Chairman at last night's meeting, who went to Ottawa a few days ago to see the Minister. The telephone girls are connected with the Inter- national Brotherhood of Electrical Workers, Local 83A.

Addresses were delivered last evening by Mrs. Helen Armstrong, who spoke of the "Woman's Labor League of Working Women," and J. J. Johns, delegate of the Winnipeg machinists to the Labor Congress at Quebec. His Worship Mayor Church spoke briefly, expressing the hope that a satisfactory adjustment of the wage question would be effected.

# LADY'S AND MISS' PAJAMAS AND CAP.

By Anabel Worthington.

A very new and charming idea for nightwear is shown in this pattern for pajamas and a boudoir cap, No. 8657. It is very practical and comfortable and many women prefer it to the old fash- ioned nightgown. The waist is in kimono style, with a V neck and sleeves to the elbows. The garment is slightly high waisted and the closing is at centre front. The pajamas are gathered at the waist- line and again at the ankles, where they are held in with elastic and finished with ruffles. The shirred pockets may be omitted if desired. Pink or white tulle, cotton crepe or crepe de chine will make a pretty set. A dainty cap is also included in the pattern.

The lady's and miss' pajamas and cap, No. 8657, is cut in six sizes, 16 and 18 years, and from 36 to 42 inches bust measure. As on the figure the pajamas require 6 1/2 yards of 27 inch, or 5 yards of 36 inch material, with 2 1/2 yards of rib- bon for the 36 inch size. Price 10 cents.

To Obtain This Pattern Send 15c to The Courier Office, or two for 25c.

# Our Fall Lines of Wall Papers! Are Now Complete

The Patterns are beautiful. The colorings lovely, and the values are even better than previously, but this condition will not continue long, as prices will advance again very shortly.

# GOOD SHOOTING BY CANADIANS

## Hundreds of Enemy Dead Found Upon the Field War Must be Carried Into Germany

By Courier Leased Wire  
With the Canadian Forces in France, Aug. 13.—(By mail from J. F. B. Livesay, Correspondent of the Canadian Press, Limited).—The most striking thing about the battle- field is the extraordinary good shoot- ing our gunners made. This is spe- cially so along the enemy front line and support. In the northern area of our sector—immediately west of Marcellin—our boys made a wide sweep of prairie, pock marked throughout with shell holes in region sequence, like one of those round marble boards with which children play.

Nothing could have lived there. Nothing did live, as was attested by the hundreds of Boche dead. A remnant no doubt escaped through the town, but with our men hard on their heels, they left all their war material and even their personal effects. Hundreds of our boys came back fully equipped with Boche gear. South of here, too, we secured a dozen heavy guns of various cal- ibres.

On that high and once fertile pla- teau one looked over what had been the smiling land of France, dotted with bosky villages and graceful church spires. Along these roads children came shrieking and wailing. Hereabouts was garnered much of the nation's agrarian wealth. Now all is desolation. The hand of the Hun lies heavily on the land. Tot- tering walls and empty fields are all that are left of the villages, the church towers are levelled, in sad heaps of stone and mortar or less happy, expose to heaven—scorched flanks and desecrated altars.

Not a living soul is to be seen but men in khaki.

The Canadian army says the Hun must pay for all this; that there must be no peace until these things have been avenged and such poor repara- tion exacted as can most adequately meet the case. In these past few days he has paid the first instalment of this heavy score. In the opinion of the army the account cannot be liquidated until he has been driven out of France and the war carried into his own country. The Cana- dian force with these things ever be- fore them, it is not mealy-mouthed about them. Justice cries aloud for retribution.

# STEAMER RAISED

By Courier Leased Wire.  
The steamer Cort, sunk by the steamer Midvale in the ice near Bar Point, Lake Erie, just before Christmas last year, was raised yesterday afternoon on the fourth attempt and after the expendi- ture of \$200,000. The Cort will be taken to a shipyard for repairs with a view to putting her into service again next season.

# Fifty Angles Two

It is not reason- able to expect two weeks of outing to over- come the effects of fifty weeks of confine- ment. The Hood's... It releases the blood, re- stores the appetite, makes sleep easy and restful.

# CHILDREN CRY FOR FLETCHER'S CASTORIA

Quebec, Sept. 23.—An epidemic of what is supposed to be Spanish in- fluenza is raging at Victoriaville, where three hundred students at the college are reported to be sick. The fact is that the college has been quarantined for the last week, all the scholars being gradually sent home after disinfection. So far two of the teaching brothers and a student have died.

Merger statistics to-day show that in the course of the last few days nine sailors have died on ships in the harbor of Quebec, apparently from Spanish influenza. The bodies are shipped to the homes of the men, mostly in the United States.

GETTING THEIR MAN. In peace, as well as in war, the Mounted Police have served Canada well. They have given summer sun reaches of the Dominion world pre-eminence for efficient and thorough administration of law, protection of life and property, compelled respect for the machinery and the agents of British justice. They have conveyed and protected settlement—broken up smuggling and illicit whiskey running—established and maintained postal communications—safeguarded railroading and surveys—performed thousands and one onerous yet humble services, and each of these efficiently and well. They have fought prairie fires for the settlers on the plains, searched by the summer sun. They have, with equal readiness and with parallel courage, battled against blizzards and the winter perils of the desolate mountains, to preserve the lives of foeholders and enterprising entrepreneurs following the lure of the Golden Rainbow to the foot of the Klondike snows. He was a dangerous madman, only himself visited Herschel Island and had the honor of establishing the detachment at that far distant point in the ice-bound north, the most northerly station of the world, to which twice yearly the police dog-teams made their scheduled pilgrimages. It was among the Howard Avenue congressionists, after appearing before a Medical Board. Local military authorities and Dominion Police declined to discuss the matter, except to verify the arrest of the pastor, who was formerly a Y.M.C.A. worker in Toronto before accepting a call from the Windsor congregation. The arrest caused a sensation among the Howard Avenue congressionists, and Rev. H. A. Graham, Chairman of the Windsor district, of the Methodist Church, Walkerville, declared: "There has been some kind of a mix-up; a very remarkable occurrence."

Rippling Rhymes

Useful Labor. I often hear a fellow say, when pointing to a neighbor, "I really think that idle guy should do some useful labor. He tramps the village selling books, and boring thus his betters; and in these times of war, gazooks, we have small use for letters. He ought to beg or steal a hoe and work out his salvation, and make a hill of spinach grow, to help to feed the nation." Perhaps the neighbor's wearing bells, as on his path he's drifting; perhaps the cloth-bound books he sells are loyal and uplifting. It may well chance his helpful tomes inspire some hazy scribbler to go and cleave some new dunes, and make the kaiser bitter. I've never found it safe or sage to judge the other fellow, to say his motives are vain, or that his course is yellow. We all can't labor with our hands, with energy untiring; we can't hew wood or till the land, or keep the forges burning. For some must clerk and some must preach, or run the railway stations, and some must take their clubs and teach the rising generation. The doctor cannot leave his sick who look to him for healing, because so colossal offensive hick of slackers still is spelling. Before I'd throw out darksome hints, or whisper things abusive I'd have to have the charts and prints and diagrams conclusive.

AUSTRIAN OFFICIAL. By Courier Leased Wire. Vienna, Sept. 22.—(Via London).—The official statement issued at the War Office to-day reads: "On Dosa Aiko our storming troops made a surprise attack on a trench sector defended by Czechoslovak legionaries yesterday. The greater part of the garrison suffered the fate they deserved. "On the Albanian coast further Italian attacks were repulsed."

NO WOMEN CONDUCTORS. By Courier Leased Wire. Cleveland, O., Sept. 23.—Women shall not be employed as conductors on Cleveland street cars on or after November 16, 1918, is the decision of federal investigators, acting as special representatives of the Department of Labor, in a report to President Stanley of the Cleveland Railway Company received to-day.

A Slight Error. Sergt. R. Douglas Pinkerton, author of "Ladies From Hell," war ex-gality of the famous London Scottish regiment so-called by the Germans, tells of a friend of his a lady, who was asked to go into a certain New York store to get a copy of the book. When she got to the store she found she had forgotten the title, and all she could remember was that it had "hell" and "ladies" in it. So she asked for "The Hell With Ladies." And she got the right book!

MINISTER IS UNDER ARREST. Charge Against Him is That of Draft Defaulter. Windsor, Sept. 23.—Rev. George Kelsey, pastor of Howard Avenue Methodist Church here, was taken to London to-day as a draft defaulter. He was arrested by an officer of the Dominion Police and turned over to Capt. W. Greeninger, M.C. of local Provost Marshal. Although exempt from military service under the terms of the Military Service Act as an ordained minister of divinity student, Rev. Mr. Kelsey is said to have in some way evaded the act by failing to send in documents to the Divisional Registrar, after appearing before a Medical Board. Local military authorities and Dominion Police declined to discuss the matter, except to verify the arrest of the pastor, who was formerly a Y.M.C.A. worker in Toronto before accepting a call from the Windsor congregation. The arrest caused a sensation among the Howard Avenue congressionists, and Rev. H. A. Graham, Chairman of the Windsor district, of the Methodist Church, Walkerville, declared: "There has been some kind of a mix-up; a very remarkable occurrence."

AN ANSWER TO THE MOTORIST'S QUERY. Has She Monocular Single Vision? And is a Hen Afflicted the Same Way? A mystery of the highway has been illuminated by Mr. H. L. Whited, in a letter to the Scientific American, which always treats serious subjects in a seemly manner. All drivers of automobiles, the plodder, as well as the speeder, sober pleasure-takers as well as joy-riders, have been assailed and baffled by the hordes of encountered cows. Why do they lag so blindly across the road in front of an approaching car? When instinct fails it is the recognition of the right of way. If a cow had ordinary judgment she would remain stock still or hurdle to the nearest fence. But seldom does a cow, which is supposed to be a meditative animal, manifest the sense of danger that marks the pedestrian, who half the number of her legs. The conundrum why the cow rushes irrationally into the imminent and deadly breach was long ago given up by drivers of automobiles. Why does the cow do it? Mr. Whited answers that she is embarrassed by "monocular single vision." His explanation: "When a cow faces an object, both eyes may with ease be focused on it. When the object is at the side or rear, one eye may be focused on it, while the other is viewing objects in quite a different direction. Evidently the animal may direct attention to one object with both eyes, or two objects with different eyes, or it may inhibit one eye and direct and concentrate attention with the other toward some object of fear or fancy. The application is simple. A cow advancing head on sees a single automobile with two eyes, and sidesteps it. It is the cow with her beam toward the car that misbehaves. She has a vision of danger, and, with only one eye working, pushes across the bow of the automobile to save herself. If her starboard eye, or her port eye, as the case may be, were focusing, she would swing off to the side of the road and to safety. But she is a victim of 'monocular single vision.' Apparently danger deprives the cow of the use of one eye—it goes blank. She does her best with the sight that remains to her; but it is her worst. What happens when a cow finds herself invested by a car on her right and another on her left? Mr. Whited does not say. Logically she would try to rush in two directions, or dig herself in, in the middle of the road. Commenting on this the Woodstock Sentinel-Review says: "Mr. Whited rather confuses the issue by attributing monocular single vision, also to the hen, that other bane of distracted drivers. It, too," he says, "disregarding sex, thinks that the danger may be avoided by running with all its might, keeping the enemy all the time in view with the eye that was originally turned toward it. Our own view is that the hen always springs for the home barnyard when pressed by the automobile. 'Monocular single vision' has nothing to do with her precipitancy. She could fly out of danger, but perversely refuses. The cow must depend on her legs, which are

Fellow Canadians! "HOW much thought do you give to the War—I mean honest, sincere thought on how we should live in order to win the war?" "I mean you who live from day to day in all the comfort that you enjoyed before the war, some of you in even greater comfort—" "You who spend as much or more on your enjoyment—who indulge in as many of the good things of life as you ever did—" "You who buy what you want to, eat what you fancy, go where you please—who deny yourselves nothing—" "over there," that you were trifling with this war?" "If we knew that you were spending money on frivolous things?" "Don't you see that when you spend a dollar on a thing you don't absolutely need, you are using the labor of a man who should be either fighting or making something that will help us—your soldiers—to fight?" "Oh, you chaps with money in your pockets—and comfort in your homes—and love of ease cankering your souls!" "If you could know—as I know—all that war means—you'd stint yourselves down to the barest necessities—so that Canada's money and Canada's material and Canada's labor could all go into guns and shells and boots and uniforms and food—for our boys over in France to fight with."
