KENTVILLE CADETS UNDER INSPECTION

On Wednesday morning the school grounds were an animated scene when all the scholars gathered outside to watch the recently formed school cadets go through their drill. Mr. C. L. Wood the instructor has been particularly hard at work with the boys and assisted by Charles Herbert who has been at Halifax to qualify as Lieutenant the work has proceeded apace here.

On Wednesday morning on the campus, Capt. Robinson Black organizer and inspector of the Cadets in the Maritime Provinces reviewed the troupe. The boys went through their manoeuvres in a way which reflected great credit on Lieuts. Wood and Herbert. The work had been interfered with by the larger boys leaving school to take up farming but the 40 or more under arms earned the highest praise of Capt. Black, Major Oulhit, a former organizer and inspector, and Mayor Pelton who all addressed the boys. Miss Webster, Principal proclaimed a half holiday on the request of the officers and the Mayor and the boys were marched to the 10:30 a.m. train accompanied by all the school children. There while the train was at the station the boys were examined and reviewed by General Benson who was passing through to Yarmouth. He was highly pleased with what he saw and encouraged the boys to carry forward their good training.

Mr. Russell Kennie no has been residing in Wolfville for several months purposes leaving soon for a trip to California, Out of a family of eleven brothers Mr. Kennie only has one brother alive, Mr. Henry Kennie who resides in California and has prospered there. He left Gasperau over fifty years ago and it is to visit Henry that Mr. Kennie purposes going to California.

J. A. Dennison of Kentville will conduct a religious service in the Hall at North Alton next Sunday afternoon at 3 p.m. All welcome. No collection.

GRAND CONCERT AT ALDERSHOT

The boys at Aldershot Camp, wish to thank the Kentville Ladies, who gave them so much pleasure on Tuesday evening. The old time songs, and the sweet love songs awakened memories of the dear days at home, and aroused enthusiasm in the vast number of men who thronged the Assembly Hall. Repeated encores, and give us another, was heard from many voices and the young ladies who sang and played, felt well repaid for their efforts. The singing of a number of the men themselves added greatly to the success of the evening. Sergeants Collier and Ferrier gave some splendid selections, ably accompanied by Sergeant McHugh. The French trio and a chorus of twelve men, brought down the house.

An able cartoonist and a friendly boxing match added to the evening's attractions. Captain McKenzie ably conducted the programme and "Rule Britannia," and "God Save the King," brought the concert to a close, and Sergeant Wiggs, in charge of the Y. M. C. A. and who is responsible for these pleasant evenings is to be congratulated on the success of Tuesday evening.

After the Concert, the boys were escorted down an avenue of newly planted pines, bordered with white flowers, to the Sergeant's Mess, where they were treated to refreshments of superior quality testifying to the ability of their chef.

May the boys enjoy many such pleasant evenings.

ANOTHER FAMILY RECEIVES SAD NEWS FROM THE FRONT

The following telegram from Otiawa has been received by Mr. Dominic Landry of Highbury:

"Deeply regret inform you Bombardier Percy Landry, artillery officially reported died of wounds at nine Field Ambulance, May 21st, 1917."

We will give further particulars later of this young hero who has yielded up his life for his king and country.

ITALIANS HAVE RESUMED THE OFFENSIVE.

In The Drive on the Trentino Front They Have Made Important Gains

Rome, June 11.—The Italians have resumed the offensive. Today's official statement says they have captured Monte Ortigara, east of Gima Udice, and have carried Angello Pass.

The Italians have turned from the Isouzo front, where they made important gains, toward Trieste in opening their offensive, to the Trentino front for the drive just begun. The positions captured are in the Sugana valley region, southeast of the City of Trent, in the of the great Italian objectives in the war.

It was over this ground that the Australians in May of last year made their most powerful attack of the war against the Italians.

After initial successes they were halted in their advance toward the Venetian plains and driven back. Since that time there have been frequent engagements in this sector, although no operations have been undertaken on the scale indicated by the Italian announcement.

WOMEN ANXIOUS TO VOTE

The Morning Chronicle says: "An answer was given in Alberta to the chief cry of the opponents of Woman's Suffrage, namely, that the women do not want to vote. The women of Alberta went to the polls in large numbers. In some constituencies they polled 75 per cent of the vote, and the returns indicate that they voted the right ticket."

Back Ache

Gin Pills banish backache, no matter how severe. The effect, understand, is not to numb the pain, but Gin Pills go right to the source of the trouble, the kidneys, restoring the natural functions of these organs, and with the blood purified, and inflammation allayed, the pains disappear permanently.

Gin Pills
FOR THE KIDNEYS

Other indications that the kidneys are not purifying the blood stream properly are frequent headaches, deposits in the urine, touches of rheumatism — to name but a few symptoms — and every case calls for Gin Pills. 50c. a box, or 6 boxes for \$2.50 at all druggists.

The right ticket for the Morning Chronicle was the Liberal ticket and that one defeated the Conservatives in Alberta 2 to 1.

GROUND LIMESTONE.
KENTVILLE EXPERIMENTAL FARMS NOTE

From results obtained at the Experimental Station, Kentville N. S., it would appear that ground limestone is likely to play an important part in Nova Scotia agriculture, particularly in helping to produce soil conditions favourable to the clover plant.

It would appear that two tons of ground limestone per acre is a decidedly profitable investment as is shown by the test given below. The fertilizer used on duplicated plots was a 4-0-0 (4 p.c. nitrogen, 8 p.c. phosphoric acid, 10 p.c. potash) mixture applied at the rate of 500 pounds per acre in 1914, the first years of the test. One series of plots were limed once during the period at the rate of 2000 pounds per acre in 1914 and the others were not, the object being to find out the value of lime for subsequent crops.

In 1914 the yield per acre of unlimed, fertilized oats was 57 bus. 8.2 lb.; limed and fertilized, 66 bus. 6 lb.; unfertilized and unlimed, 45 bus. 12 lb.

In 1915 the unlimed, fertilized clover yielded 4567.5 lb. per acre; limed and fertilized, 6780 lb.; unfertilized, unlimed, 2405 lb.

For the 1916 crop, wheat, the yields were: unlimed and fertilized, 9.5 bus. per acre; limed and fertilized, 17 bus.; unfertilized and unlimed, 8 bus.

In the spring of 1916, in order to determine the effect of additional fertilizing on the limed and unlimed plots, the duplicate plots were fertilized at seeding time with 500 pounds per acre of 4-8 fertilized (4 p.c. nitrogen, 8 p.c. phosphoric acid).

The results in 1916 from these plots were: unlimed, fertilized 1914 and 1916, 15 bushels per acre; limed, fertilized 1914 and 1916, 23.75 bushels per acre.

Another experiment on a newly broken piece of land in a potato, grain, and clover rotation gave equally striking results. The only application of fertilizer in the rotation was made in the spring of 1914, it being a very light one consisting of 140 pounds nitrate of soda, 300 pounds acid phosphate and 100 pounds muriate of potash, per acre. On one series of plot, ground limestone at the rate of 4000 pounds per acre was applied in the spring of 1914. It was not to be expected that there would be much hay crop in 1916 as the plant food had all been used by the potato and the grain crop previously.

The following yields were obtained from the 1914 crop, potatoes: unlimed, fertilized, 76 bus. 18 lb. per acre; limed, fertilized, 88 bus. 45 lb.

The yield for the 1915 crop, oats, were: unlimed, fertilized, 31 bus. 24 lb.; limed fertilizer, 38 bus. 14 lb. per acre.

In 1916 the clover yields were: unlimed, fertilized, 675 lb. per acre; limed, fertilized, 1483 lb.

On one field of ten acres put down to clover in 1915 which was in corn in 1914 having been manured at the rate of 15 tons manure per acre for the corn, the grain from 1-2 tons of ground limestone per acre indicated an increase of fifteen tons on the ten acres over check plots on the area unlimed. The limed areas yielded 5410 lb. per acre, and the unlimed, 2400 lb., a difference of 3010 lb. per acre in favor of liming, or 15 tons clover hay at \$10 per ton, \$150. The fifteen tons of ground limestone cost approximately \$6 per acre, or \$60, leaving \$90 per acre in favor of the liming, and in addition a much better soil resulting from the increased clover growth.

BRITISH CAPTURED ANOTHER MILE OF TRENCHES

With Seven Field Guns and a Number of Prisoners at Messines

London, June 11.—British troops have captured another mile of German trenches southeast of Messines, together with seven field guns and prisoners, according to the official report from British Headquarters tonight. The text of the statement reads:

"Our progress southeast of Messines has continued. Early this morning we captured the enemy's trench system in the neighborhood of La Poterie Farm on a front of about a mile, and during the day our troops gained further ground in this area.

"In addition to some prisoners, seven German field guns have been captured by us today as a result of these operations."

Minard's Lignum Lumberman's Friend

IT WILL BE HEAVEN, BELOW, WHEN HE RETURNS HOME

Letter From a Dug Out in France

Mr. George R. Power, Waterville, hands us the following letter from his son, Pte. Harry St. G. Power, now serving his country with the 85th Battalion, France:

Somewhere in France,
May 18th, 1917.

My Dear Folks at Home:

Must just drop you a few lines to let you know that I am well.

We are having real nice summer weather here now, and the green grass, (although there is not much of it here) and the summer evenings gives me a homesick thought or two. We are in the line most of the time now, I am writing this in the dug-out and such a Home! to tell the truth, its a fright. Its surprising what a fellow can get used to, but if we are only spared to do our bit and then go home it will be heaven below.

Well, dear folks, its about seven months since I last saw you and it seems like many years, but I am hoping to be spared to see you all again some day, when this is all over.

This must have been a wonderful country at one time and England is wonderful too, but neither are to be compared to "dear old Canada."

Did I ever tell you, Reta, that Major Ralston is third in command of our Battalion he was a friend of Henry's you know. I saw Bob Rafuse a few days ago, but haven't seen Howard for nearly three weeks. Am going to try and get over to see him as soon as I get out.

I am writing this on my knee, and you will no doubt have some task to make it out. It is 3.30 p.m. and I am burning a candle, and its most gone out, so I must hurry.

Am very glad Reta is so much better, take the best care of yourself and get as strong as you used to be.

Give my love to Flo and Ina and the babies, and write as often as you can, letters are always welcome, over here, and I have never got too many yet.

Lots of love to all

HARRY

VALUABLE FARM FOR SALE

Farm is finely situated at Sheffield Mills with a total of about 125 acres. A fine orchard of 7 acres, 5 acres now producing an average of 400 bbls. fruit; 40 acres cultivated land, 20 acres of pasture with 2 streams, 60 acres woodland (hardwood). Farm now cuts 20 ton hay, can be increased, House, good repair, 9 rooms, two barns, hog pen and fowl house. Farm is good location and soil good clay loam. This farm must be sold at a great bargain as owner cannot work it alone, son being absent and help scarce. If wanting a money making proposition in farming don't delay as first reasonable offer will be accepted.

GREAT BRITAIN'S REPLY TO RUSSIA

London, June 11.—Great Britain has sent Russia a note in reply to the latter's request for a statement of British war aims. The note, although not yet made public, is stated to be in general agreement with President Wilson's note to Russia.

A REMARKABLE STATEMENT

Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill. — "While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent \$1900 on doctors and not one did me any good. One day a lady called at my house and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the Insane Hospital."

Mrs. E. SHELDON, 5657 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, but with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

SOME OF OUR LATELY ARRIVED

WOMEN OF KENTVILLE

Three young women, two of them from Kentville and one from New Glasgow, who arrived in the City Saturday morning were sent out yesterday to their homes. They came under Mrs. Egan's observation and she and Policemen Mitchell took two of them off the street Saturday night, had them safely housed over Sunday, and also located the third, with the result that all three have departed. The police are after street walking girls, on Barrington Water and other streets, and parents of girls who walk the streets would do well to restrain them or the finish may be in the Police Court. One of the young women referred to above is a soldier's widow and another a soldier's wife.—Morning Chronicle.

WANTED the end of May a good Cook,

General. Apply Mrs. Ernest Taylor, Kent Lodge, Wolfville.

FINAL RETURNS IN ALBERTA ELECTION

EDMONTON, June 11.—With the election of Fred Davis, Conservative, of Gleichen, over McArthur, Liberal, and Leedy, non-partizan, conceded by the Liberals, the result of the voting in the Province last Thursday is: Liberals 27, Conservatives 13, Independents 3. In closing the eleven soldiers' seats, in which there were no elections, by Act of the Legislature, of which six are Liberal and five Conservative, and taking the two deferred elections, in Athabasca and Peace River, as probable wins for them, the line up in the next Legislature will be: Liberals 35, Conservatives 18, Independents 3.

GERMAN FOOD SUPPLY SUFFICIENT

BERLIN, June 6.—It is officially stated that at a conference between the Prussian house of lords and the heads of the various government departments it was decided that there was complete assurance that the food supply was sufficient to enable the country to hold out for the remainder of the crop year and until the conclusion of a victorious peace. The conference was held under the presidency of the minister of the interior, and all problems connected with the matter of public feeding were thoroughly considered.

At the Yarmouth Y. M. C. A. Boys' Camp, held at Tusket Falls in August, I found MINARD'S LINIMENT most beneficial for sun burn, an immediate relief for colic and toothache.

ALFRED STOKES,
General Sec'y.

MAN TRIED FOR FORGERY SPENT TIME IN TRURO

(Truro Citizen)

One of the cases coming up at the supreme court at Kentville this week is that of LeRoy Illsley of Berwick. He was arrested last October for forgery. There were five counts against Illsley, on one of which he has been found guilty.

Illsley visited Truro last September said that he was looking for work, that he did not like farming and had decided to give it up and try some other means of livelihood. He was apparently a bright young fellow and had rather an attractive manner. He made application at Stanfields Limited and the Borden Milk Company for employment and visited several places about Truro. He was not successful, and returned to Berwick. A little later he was arrested for forgery. We are glad he did not operate in our town.

In the United States in the week in June, commencing the 18th, there is to be a grand drive to raise \$100,000,000 for the Red Cross War Fund. It is expected that New York City will contribute \$40,000,000 of this sum.

BRITISH DESTROYED TWO GERMAN SEAPLANES

London, June 11.—Two of five hostile seaplanes were sighted by a drift of the Dover patrol today, were destroyed by British craft was officially announced tonight.

THE CORRECT WAY TO TREAT A COLD

A cough is not a distinct disease, it is the result of inflammation caused by a cold. Therefore the only way to cure a cough is to allay the inflammation which invades the delicate bronchial tubes. All of the narcotics in the world will not correct the conditions which cause a cough—they simply deaden the senses and afford temporary relief.

Penslar White Pine and Spruce Balsam with Menthol will promptly soothe and heal the inflamed membranes and overcome the nervous irritation. Price, 25c and 50c the bottle.

CLARK'S

KENTVILLE Tel. 51

DEATH OF W. A. REED

BERWICK, June 11.—After an illness of several weeks William A. Reed died at his home on South Street on Saturday afternoon. He was born in Port George, Annapolis County, 74 years ago. Early in life he moved to Mill Village, Queens Co., where he was engaged in carpentry. About twenty-eight years ago he came with his family to reside here and carried on his profession. He was a man who was highly esteemed by all who knew him, a consistent member of the Baptist Church. He leaves a widow who was a Miss Atkins, also the following children: Mrs. Nina Davidson, teacher in Amherst Academy; Mrs. G. C. Coombs, Wolfville; Clinton, Baptist minister in Hantsport; Edward, in Brandon; Reginald and Guilford, of Toronto, both of whom have enlisted. The funeral took place this afternoon, and was very largely attended.

Shelburne Gazette.—Yesterday afternoon the body of John Hayden was found on the shore of the harbor in the south end of the town. He left home about 11 o'clock in the morning and not having returned for dinner his mother went in search of him and made the sad discovery. She immediately notified Coroner Burns, who viewed the body and later held an inquest. The verdict was that the unfortunate man was found drowned, the jury being unable to determine whether it was a case of suicide or accident. There was no evidence, we are informed, of foul play. The deceased was about 30 years of age. Thomas Hayden, a well-known fisherman of this town, is a brother. His father died several years ago.

Mrs. Saphrona Bishop
At New Minas on May 7th these passed away one of its oldest and most respected inhabitants in the person of Mrs. Saphrona Bishop, relict of the late Edward L. Bishop, on the 8th year of her age. Mrs. Bishop was the only daughter of the late Henry Bishop and Annie Cox, of Hantsport, near Ganning. She is survived by one daughter, Laura, Mrs. Bishop had been in failing health for over a year, but bore it with christian spirit and patience, always kind and thoughtful of other, even in her last hours of life she spoke words of comfort to those around her. She has left her earthly home to have a home in Heaven, a building of God, a house not made with hands, eternal in the heavens. The funeral services were conducted by the Rev. Mr. Bone of the Ganning Baptist Church, Burial at the Oaks Cemetery.

OTTAWA LETTER

OTTAWA, June 8th.—There is an enormous lot of time wasted in the House of Commons by a few opposition members who only speak on every subject but persist in repeating their speeches until they become stereotyped. This needless repetition of stuff of very little value costs the country a great deal of money.

Again the observer is struck by the recklessness with which opposition members make statements in regard to administration. A newspaper may publish a bit of fiction, a yarn may be started on the street, or some gossip be sent up from a constituency; Next thing you see is one of the men on the left rising up in his place and plastering the Hansard with a long winded discourse to which a member of government must of course reply for the purpose of showing that the complaint is unfounded. And so time runs on, and weeks are swallowed up in fruitless discussion.

In contrast is a very able speech delivered last Tuesday by Mr. Jamieson, member for Digby, on the subject of fisheries. Mr. Jamieson is an acknowledged authority in this subject and always contributes materially to the firm of useful information. He pointed out the great value of the fisheries of Canada, totalling in 1916 nearly thirty-six million dollars, and he is convinced that this great industry can be developed in a few years to one hundred millions. He is of the opinion that a separate department of fisheries should be organized so that the two economic problems of production and distribution could receive closer and more aggressive consideration. At present the Minister of Marine & Fisheries has to deal with no less than thirty-seven important branches of government, and it is impossible for him to give that attention to fisheries which the matter deserves.

Mr. Jamieson's speech occupying less than half an hour was a very able presentation of the case.

The opposition are almost every day harping on the cost of living, and making the usual accusations against the government. But up to date it is not known that one of them has proposed any practical way of dealing with the matter. They talk about cold storage plants and seek to raise the suspicion that these are unduly holding foodstuffs but they never attempt to give any facts to support their assertions. On the other hand members of government show that the cold storage plants have very small supplies. They cannot get supplies because these are not on the market. And this brings us to the root of the matter which is decreased production and increased consumption.

Outside of Parliament Liberals have circulated an attack on Hon. Robert Rogers, Minister of Public Works, and it appears that the Manitoba Government have trumped up charges against him before Judge Galt of Winnipeg. Mr. Rogers promptly demanded a full investigation of this judge's findings, and pending that investigation he asked the Prime Minister to relieve him of responsibility as Minister of Public Works. Sir Robert Borden has appointed the Chief Justice of New Brunswick and ex-justice Telier of Quebec to hold a full inquiry.

The action of Hon. Mr. Rogers in immediately demanding investigation and resigning his office as Minister shows how Conservatives conduct themselves in such cases. Compare that with the way Attorney-General Daniel hung on to his position, and still hangs on to it with Premier Murray's approval, although Mr. Daniels was caught with the goods (75,000 promissory notes) in his possession, and three judges formally decided that by receiving that note he placed himself in a position which might have involved, at some later date, a possible conflict between his private interest and his public duty.

If a Conservative member at Ottawa were caught in the game Mr. Daniels participated in Sir Robert Borden would not permit him to remain an hour in the Cabinet. That, however, does not appear to be the way the Nova Scotia premier regards such affairs.

Gosfion appears to be dead. Killed by Sir Wilfrid Laurier. The Prime Minister made him the most generous offers. Sir Robert commands a normal majority in parliament of about forty, yet he offered to give Sir Wilfrid Laurier one half of the government portfolios and let Sir Wilfrid select

BELGIAN RELIEF SHIP SUNK

LONDON, June 11.—The Belgian relief committee has received an unconfirmed report that the Norwegian steamer John Bakke, 1611 tons gross with 2,000 tons of wheat for Belgium, by way of Rotterdam, has been sunk.

COMMENT

The man who wants a referendum on conscription is opposed to conscription.

COMMENT

He who says conscription should be referred to the people hopes the people will defeat it.

COMMENT

A referendum on conscription is illogical. Why ask a man if he is willing to be forced? If he is willing he need not be forced.

COMMENT

If Germany wins we shall have conscription as a peace policy. How will our antis like that?

COMMENT

There are thousands of people in Canada winning the war these days by passing resolutions and signing petitions. We could have saved thousands of lives if we had known three years ago that the war could be won by tongue and pen.

COMMENT

Agitators in Quebec say they would fight only if Canada is threatened. But if an invading army should land in Quebec it would be repelled only by troops from other provinces.

COMMENT

The survivors of the first contingent who have to stay at the front because they are needed are the only men who have reason to complain about compulsory service.

COMMENT

Quebec is against conscription but if Quebec had done its share we would not need conscription.

COMMENT

"Conscription is all right," say some critics, "but it should have come long ago." They deliver judgement without stopping to think how difficult it is even now, how more difficult it would have been before the United States came into the war and adopted conscription. They do not think how difficult it was in England, Australia and New Zealand, islands which cannot be left except by boats, and how much more easily the skeddaddler could leave Canada by boat, auto, bicycle, railway or on foot.

 KENTVILLE, FRIDAY, JUNE 15, 1917.

KINGS CO. BOY PROMOTING LIBERTY LOAN

Lieut. Arthur Hunt Chute who returned from France some months ago incapacitated for further service in the war is now in the United States and has taken up literary work. He is contributing important articles to several leading magazines. Just at present he is speaking in various cities in the interests of the great Liberty Loan. This week he was booked for addresses in Troy, Chicago and Philadelphia. Mr. Chute is one of Acadia's rainy young men and he did not hesitate early in the war to offer his services to the Empire.

FARMERS EXCURSION

Arrangements has been made to run a special Farmer's Excursion to Truro on Friday June 22nd, from Annapolis and stations east on the Dominion Atlantic Ry., including stations on the Cornwallis Branch. Special train will leave Annapolis 6.10 a.m. stopping at all stations to Windsor, arriving at Windsor at 10.10 a.m., and running from there express to Truro, arriving at Truro 12.30 p.m. The regular morning train will take care of passengers desiring to attend this excursion on the Midland Division.

A special will leave Truro at 6 p.m. same day, making all stops to Annapolis including stations on the Midland Division, and an extra train will be run from Kentville to Kingsport on arrival of the special from Truro.

Prof. Cumming, President of the Agricultural College, is providing a very attractive programme. There will be an exhibition of live stock on the college farm and the following animals will attract special attention.

The new trotting stallion, Captain Aubrey, generally regarded as the greatest standard bred stallion owned in the Dominion of Canada, and the foremost son of the Emperor of trotting stallions of the world Peter the Great who sold for \$50,000 when he was 21 years of age.

Similar interest is attached to our Clydesdale stallions, one of which, Lord Ullin, was first prize and reserve champion at Toronto and Chicago.

In our cattle stable is an Ayrshire heifer that with her first calf will produce nearly 14000 lbs of milk this year, and that may, if all goes well, make the champion record of Canada. In the Holstein herd is a cow that gave as high as 112 lbs of milk in one day, equal to over 44 quarts. The Ayrshire herd is headed by a son of Jean Armour, the first Ayrshire cow in the world to make over 20,000 lbs of milk a year. A sister of our bull holds the world's three year old record for Ayrshires, i.e., 21,938 lbs of milk.

There are so many almost equally fine animals that it is impossible to describe them all in a short announcement.

It is planned to make the day specially interesting to women who will be entertained in the new Science Building. Special attention will be paid to demonstrations in the home canning of vegetables and fruit.

The College plant was never in finer shape. The buildings and grounds and premises all look particularly fine this year.

For low excursion fares apply to nearest Dominion Atlantic Agent, also see advertisements in local papers. la-o

CONSTANTINE ARDICATES
THRONE OF GREECE

ATHENS, June 12, via Paris—The fall of Constantine I, King of the Hellenes, has come. In response to the demand of the protecting Powers, France, Great Britain and Russia, he abdicated today in favor of his second son, Prince Alexander.

This climax in the affairs of Greece was brought about through the agency of the French Senator, M. Jonnart, who has held posts in several French Cabinets, and who arrived at Athens only a day or two ago on a special mission as the representative of France, Great Britain and Russia. M. Jonnart had previously visited Saloniki and other points, and he lost no time in getting into conference with the Greek Premier Alexandre Zaimis. The demands of the Powers representing the abdication of King Constantine also specifically eliminated Crown Prince being included among those Greeks in official life who were considered strongly pro-German.

Read F. B. Newcombe & Co's ad this week.

LIME—We have just received a carload of lime in casks and barrels. T. P. CALKIN & CO.

Mr. and Mrs. Frank Turney, Dartmouth, have been the guests of Mr. and Mrs. B. H. Barnaby, Kentville. They also visited their son, Lieut. Wm. Turney, Aldershot Camp.

Mr. and Mrs. Johnston and daughters and Earel Rockwell, returned from Truro and spent the week-end with his parents Mr. and Mrs. Arthur Rockwell.

Mrs. Joseph Faulkner and family of Port Williams have been visiting Mrs. Faulkner's parents Mr. and Mrs. F. Lattimer, Hantsport.

Mr. A. DeWitt Foster has been quite ill of late with ptomaine poisoning at Chicago. Mrs. Foster received word at Hantsport last week.

Mrs. Richard Starr and daughter, Sally has been visiting of late at her former home at Starrs Point.

Mr. Percy A. Margeson has been ill during the last week.

The health of Mr. J. Leander Neary has not improved any of late and he requires watchers with him every night.

Mr. Rufus Porter who has been severely ill for months is able to set up considerable of the time.

Dr. W. C. Harris of Berwick who is moving to Yarmouth was in town yesterday.

The population of East Hall's Harbor is rapidly increasing. The birth of three girls in one household is recorded in our regular birth column. In this year of war they should have been boys.

Flour which after a phenomenal decline made an advance a week ago of 40 cents per barrel, has again declined during the past week and wholesale prices for best hard wheat patents is now quoted at \$14.00 to \$14.50. Bran and Middlings have been reduced \$2.00 a ton and beans are still on the up climb.

Capt. Robinson Black, Inspector of Cadets when in Kentville on Wednesday spoke very highly of the work of Lieut. C. Wood in the training of the Windsor Cadets. Lieut. Wood is putting the same efforts into the work of the Kentville Cadets and Capt. Robinson sees no reason why they may not be equal to the best in the Province next year.

Rev. A. W. West went to Halifax on Saturday last taking with him Mrs. West, to the Infirmary. On Tuesday, Mrs. West was obliged to undergo a severe operation. It is a pleasure to announce that Mrs. West is now gaining her strength and if no further complications arise will regain her usual health. Mr. West leaves for Halifax tomorrow returning in the evening to hold his regular church services on Sunday.

MAKE a PAL of the "MASTER 17"

Have you ever ridden a motorcycle? Did you ever get out in the morning when the dew was still glistening in the fields and meadows along the road? Have you ever heard the song of the Harley-Davidson motor and felt the tingle of the morning air as you sat in the saddle and watched the ever-changing panorama of green and brown flit by? If not, then you have not sounded the keynote of outdoor sports. Let the

HARLEY-DAVIDSON

be your pal. Then you can get out under the open sky where the air is filled with the sounds of snapping twigs, whispering leaves and rushing streams to break the silence—that is motorcycling. That is what it will mean to you to own a Harley-Davidson, for more than 15 years the "Master Motorcycle" and this year better than ever. Greater power, more speed, beautiful military olive drab finish—and perfect in design.

The Studebaker Car

What You Get for Your Money

WHEN you buy a Studebaker SIX, you get the best work of one of the largest automobile manufacturers in the Dominion.

You get a Canadian built car which has been perfected by four years' experience with the same basic design. Each year improvements and refinements have made it a still better car.

These improvements, and refinements are based on the experience of 300,000 Studebaker cars in the hands of owners in all parts of the world.

The Studebaker SIX is not an experiment—it is an evolution.

The Studebaker SIX is made of carefully selected materials developed, perfected and tested in the great Studebaker laboratories.

The workmanship in Studebaker cars is experienced, painstaking and carefully supervised. The inspections are rigid and exacting in the extreme.

What is true of the Studebaker SIX is also true of the Studebaker FOUR. Both cars are of the same basic design. Many of their parts are interchangeable—that is why it is possible for Stude-

baker to offer so good a car at so low a price. The quality of Studebaker cars is evident in their finish and equipment.

Studebaker bodies are obviously substantial in construction. The crowned fenders are of heavy gauge steel.

The paint and varnish work is excellent. The upholstery is not only genuine leather, but high grade genuine leather. The cushions are soft and comfortable. The auxiliary seats are folding armchairs. The front seats are adjustable, and the right hand one reversible.

But the real proof of quality is durability. Studebaker cars stand up and give long, continuous service under the hardest usage.

Studebaker cars are guaranteed by the manufacturer for one year against defective workmanship and material. When you buy a Studebaker you get proved quality, proved economy and the guarantee of a great Canadian manufacturer.

Let us demonstrate to you the many points of Studebaker quality and economy.

GERMAN ATTACKS WERE UNSUCCESSFUL

Paris, June 11.—The official communication issued by the War Office tonight reads:
"Two enemy surprise attacks on our small posts near Courcy met with no success. There was intermittent cannonading over the greater part of the front, in the region of Mont Carnillet both batteries were very active."
"Belgian communication: There was lively artillery action last night in the direction of Het Sas, and today near Hamsegelle and Het Sas."

EARL OF HADDINGTON DEAD

London, June 11.—George Balfie Hamilton Arden, eleventh Earl of Haddington, died today. He was eighty-nine years old, owned about 24,000 acres, and had been a representative peer for Scotland since 1874.

Minard's Liniment used by Physicians.

Until the Kaiser cries quits, says Miss Helen Peat, of Baltimore, she will play "The Star Spangled Banner" on the concert each evening at 7 o'clock in front of her home.

ANOTHER AIR RAID ON BELGIUM

LONDON, June 7.—Another aerial raid on Belgium is reported today by the admiralty. Naval airplanes dropped bombs on the airbases at Nieuwminster, near the coast between Zeebrugge and Ostend. All the machines returned.

GERMANS RETIRED WITH HEAVY LOSSES

PARIS, July 7.—A strong force of Germans made an attack northwest of St. Quentin at midnight. Today's official announcement says the attackers were caught under a violent French fire and retired after sustaining heavy losses.

There were a number of fresh fish arrivals on Sunday and Monday. The Abel A. had 2,000 pounds halibut and 5,000 shuck and the Francis A. had 14,000 halibut and 15,000 shuck, all of which were purchased by Amiral. The Gateway Company bought the fish of the Lucy A. and Ronald B., each of which had 1200 halibut and 5,000 cod.

SHE NEW

Old Lady (who sleeps badly): "Now, Mary, if I should want to light my candle, are the matches there?"
Mary:—"Yes, ma'am, there's wan'."
Old lady:—"One! Why if it misses fire or won't light."
Mary:—"Oh, devil, a fear of it, ma'am sure I tried it!"

Single Men of Military Age Without Dependent No Longer Retained in Ottawa Munitions Office—5,000 Inspectors Also in Trail.
Ottawa, June 6.—Single men of military age employed by the Imperial Munition Board, and with no dependents, have been requested to present themselves for medical examinations at the base recruiting office here. Any physically unfit for service overseas will be retained on the staff, but the others will be notified that their services are no longer required. The board will also order 5,000 out of the 6,000 of its inspection staff throughout Canada to present themselves for examination. The other 1,000 are returned soldiers.
Medical examination of the staff in Ottawa began today.

BORN

YEOMAN—At St. Mary's rectory Auburn, Kings, on June 7th, to the Rev. A. Ritchie Yeoman and Mrs. Yeoman, a son.

VICTORS OF VIMY

Cheers for thee, O tall Canadian! Erect as the evergreen spruce trees, Strong as the withes of oak and birch sprouts, Light in your step as the bark canoe Skimming the waves of Lake Nipigon Swift as the red deer brave as the gruzzing, Lithe like the panther—lean, too and away Impetuous as the north wind over Saskatchewan, Driving all foes before in resistless advancing, O valorous victors of Vimy, To you on the hill top Lift we our cheers!

SETTLERS FLOCK TO CANADA

More than two million dollars in actual cash has been brought into Canada by American immigrants during the first four months of 1917, says a Winnipeg correspondent.
According to figures issued at Immigration Hall a total of 15,445 immigrants entered the country during the four months.

WE'LL NEVER LET THE OLD FLAG FALL

Britain's flag has always stood for justice,
Britain's hope has always been for peace,
Britain's foes have known that they could trust us
To do our best to make the cannons cease.
Britain's blood will never stand for insult
Britain's sons will rally at her call,
Britain's pride will never let her exult,
And we'll never let the old flag fall.

Chorus:

We'll never let the old flag fall,
For we love it the best of all,
We don't want to fight, to show our might,
But when we start we'll fight, fight, fight!
In peace or war, you'll hear us sing,
God save the flag, God save the king,
At the end of the world, the flags unfurled,
We'll never let the old flag fall.

Britain's sons have always loved her mother,
Britain's sons have always loved her best,
Britain's sons would die to show, they love her,
The dear old flag laid on each manly breast.
Britain's ships have always ruled the ocean,
Britain's sons will show their true devotion
And we'll never let the old flag fall.

LARGE FISH SHIPMENT

The Prince Arthur sailed about 11 o'clock last evening with 2100 barrels of fresh mackerel and 711 packages of lobsters; also 50 cases of halibut yesterday being the last day for shipping lobsters and on account of the large quantity of mackerel no other freight of importance was taken.
The John L. Cann sailed at midnight on a special trip for Boston with 600 barrels mackerel and 60 packages lobsters.
Mackerel are selling in the town at a very low price. The run of these fish around these shores has been very large the past few days and hundreds of barrels have been taken. Unable to get them to Boston market in time and having no cold storage facilities, many hundreds of barrels along the shore will probably be lost unless they can be kept in the traps alive a few days.
Yarmouth Light

HON. ROBT. ROGERS RESIGNS

Ottawa, June 7.—Premier Borden announced in the House yesterday that he has accepted the resignation of Hon. Robert Rogers, Minister of Public Work spending the funds of a commission to investigate the report of Mr. Justice Galt. A commission was appointed by the present Manitoba Government to enquire regarding certain work on Manitoba's parliament building while Rogers was a member of the government of that province, and which report reflected on the conduct of Rogers in connection with the same. The commissioners are Ezekiel McLeod, chief justice of the Supreme Court of New Brunswick, and Hon. Justice Louis Teller, Supreme Court of Quebec.

Some Frenchmen in Quebec who are opposed to conscription, chased a woman home the other night because she told them she wanted to see more soldiering and less talk. It strikes us that some of the youthful kickers in Quebec are just about brave enough to do a stunt like that.

Two Irishmen were among a class that was being drilled in marching tactics. One was new at the business, and turning to his companion, asked him the meaning of the command "halt!"
"Why," said Mike, "when he says halt, you just bring the foot that's on the ground to the side with foot that's in the air, and remain motionless."

THE "BAD PLACE" WAS MADE IN GERMANY.

New York, June 6.—"If you turned hell upside down, you'd find 'made in Germany' stamped on the bottom," shouted Bill Sniday, as he announced to his audience of 18,000 his subscription of \$25,000 to the Liberty Loan. "I'll never buy another thing made in Germany again," Billy added. "I'm through with that; Germany is watching this loan as she never watched any thing before."

ANSCO CAMERAS & SPEDEX FILM

WATCH-LIKE in its accuracy and unusually attractive in appearance, the Anso Vest-Pocket Camera makes a distinctive gift.

It is so small and light you can carry it with you always, as you do your watch. It gets into action quickly and takes pictures that make fine enlargements.

Come in and let us tell you about the exclusive features of Anso Cameras which make picture taking so easy and so certain. Prices range from \$2 to \$55.

Clark's Drug-Store

NATIONAL SERVICE AND POTATOES.

By G. E. Sanders,

Dominion Entomological Laboratory, Annapolis Royal, N. S.

In ordinary years the man who planted potatoes and then neglected spraying them and consequently got only half a crop of potatoes that rotted soon after storing, was only regarded as an enemy to himself and family. This year with potato seed very scarce and expensive and the prospect of a short crop of all food stuffs on account of the scarcity of labor and seed, the man who neglects to spray his potatoes and thereby grows only one half to two thirds of a crop is as much a public enemy as a man would be if he dumped a few barrels of seed potatoes over the wall, in this year of seed famine and impending food shortage.

The entire cost of spraying an acre of potatoes five times in a commercial way is \$8.05. In a small way it will perhaps cost one fourth more.

The average increase in yield per acre, caused by spraying, taken over a period of ten years at the N. Y. Experiment station was 97.5 bushels. Five thorough sprayings on Prince Edward Island in 1915 gave an increase of 97 bushels per acre. 97 bushels of potatoes for an expenditure of \$8.05, or a bushel more of potatoes for every ten cents worth of spraying material used seems almost miraculous in these days of \$2 per bushel potatoes, yet that is the opportunity that the man who neglects to increase his crop by spraying is losing.

Potatoes should be sprayed five times with a Bordeaux mixture to which a poison is added to kill the potato bugs.

PREPARATION OF BORDEAUX MIXTURE FOR POTATOES

Dissolve 6 lbs of copper sulphate in 20 gallons of water slake 6 lbs of fresh stone lime and make up to 20 gallons of milk of lime. Pour them by alternate buckets into the spray barrels, adding poison either

- 4lbs lead arsenate
- 1-2 lb paris green
- or 1lb arsenate of lime.

or some of the proprietary poison as directed and spray on the vines.

A shorter and easier method of making Bordeaux is by using the hydrated or prepared lime. In using this proceed as follows:

Dissolve 6 lb of copper sulphate or bluestone and pour it into the 40 gallon spraying barrel, weigh out 6 lbs of hydrated lime fill the barrel nearly full of water, dump the lime powder into the barrel and stir rapidly for five minutes. Add the poison and apply to the vines.

Always test Bordeaux with litmus paper which can be obtained from the druggist. Tear off a piece of the paper and dip in the solution, if it turns the paper red, add more lime, until it turns it blue which shows that the solution is alkaline and safe to be sprayed on the leaves.

Spray the potatoes for the first time when the plants are 4 to 6 inches high and repeat every ten days or two weeks, depending on the amount of rain. The more rain the often they need spray.

Spraying will increase the yield and make the potatoes keep. Buyers in large potato districts always discriminate in favor of the sprayed potatoes because they will keep and stand up on the way to market.

If you want 97 more bushels to the acre and potatoes that will not rot, you must spray them thoroughly. And if ever the country as well as the individual wanted such crops of potatoes it is in 1917.

Write to the Division of Botany, Central Experimental Farm, Ottawa, for Circular No 10 on the Late Blight and Rot of Potatoes.

TORONTO POLICE RAID SOCIALISTS

Eight Alien Enemies at Social Democratic Meeting Are Put Under Arrest

Toronto, June 11—Detectives and plain clothes men yesterday afternoon raided Lodge 52 of the Social Democratic party of Canada, which was holding a meeting in the Occident Hall at the corner of Queen and Bathurst Streets. Eighty or more alien enemies who have accepted an undertaking from the register under which they were given their freedom with certain restrictions were taken into custody.

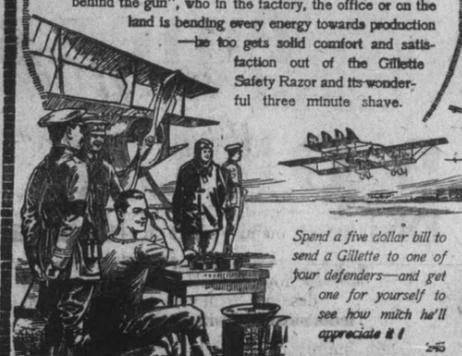

All men in the room who had been nationalized as citizens were not questioned after they had shown their papers.

Relaxing the Tension with a Good Gillette Shave

A day a-wing over enemy lines—scouting, observing, fighting, dodging shells and machine-gun bullets—is a nervous strain that has no precedent and probably no equal. When our airmen alight at last, after flights an eagle might envy, they certainly do enjoy the refreshing relaxation of a cool, smooth Gillette shave.

Nor is this appreciation of the Gillette Safety Razor limited to our airmen, or even to our own British armies. Every service has its own tense moments, hours or days, with its welcome intervals of relaxation when the Gillette is a friend indeed. Keen, compact, always ready for action, the Gillette Safety Razor is treasured in tens of thousands of kits on every fighting line on land and sea—and by no means least in the land of its birth, with the forces of our newest Ally.

Nor does its service end here, for "the man behind the man behind the gun", who in the factory, the office or on the land is bending every energy towards production—too gets solid comfort and satisfaction out of the Gillette Safety Razor and its wonderful three minute shave.

Spend a five dollar bill to send a Gillette to one of your defenders—and get one for yourself to see how much he'll appreciate it!

BRITISH SUPREME IN THE AIR

Fighting at Messines

London, June 11—As a result of the important, in fact, the decisive part played by British airmen in the success at Messines it is more than probable that a request will be made to have participator have the air fight on aviation. British flying men made possible the Messines victory. In no single engagement in which the British have participated have the air fighters played so important a part. They not only "put out the eye" of the German artillery, thereby decreasing its effectiveness fully eighty per cent, but having driven German flyers from the air, they hovered over every sector of the battle front and gave minute directions as to where and when various units could and should advance. Their effectiveness was so great and their daring uncovered so many new possibilities of co-operation and offensive action that a much greater concentration of aerial construction is bound to eventuate. It is presumed that the Germans will also seek to profit by the lesson. While the Allies are confident of their ability to excel the German output of flyer, and flying machines, there is a feeling among air men that were the tremendous manufacturing resources of the United States concentrated on aerial construction, the 1918 campaign would see Germany's air-fighters not only outclassed but completely smothered.

In every phase of aerial work the British flyers at Messines dominated positions. A flock of ray little one seaters working at an altitude of approximately 20,000 feet kept the upper areas free of the German battle planes.

In the lower strata, at altitude varying from three to five thousand feet scouts equipped with observers and wireless outfits, reported every phase of the developing flight and gave ranges to within a few yards of battery positions and points at which reserves were moving.

Below these men, perfect swarms of heavy fighting machines equipped with bombs and machine guns hovered a few hundred feet from the ground and worked deathly execution with bombs and machine guns. They were specially effective in destroying observation posts and various staff headquarters of individual units. One daring flyer swooped down upon an automobile containing five German staff officers and a driver and with well

placed shots wiped out all six. So intense was the British barrage, and so much more deadly than the German artillery fire that the British aviators instead of working behind their own barrage, crossed clear above it and sought safety back of the German lines themselves, keeping well beyond the line of the approaching British curtain fire.

WILLING TO DIE IF NEEDED FOR HIS COUNTRY

Letter From Port Williams Boy
The following is a letter from Avery Thompson of the Highlanders to his parents, Mr. and Mrs. C. B. Thompson Port Williams. There are mothers here who have not the same pride in their boys because they are shirkers and slackers at home.

Somewhere in France, April 21, 1917.

Dear Parents:
Just a few lines today as I have a few moments to spare, I am well and getting along fine. Hope you are all well at home.

I am having the time of my life now; am not doing very much drill but lots of instruction, I like it fine. I am within the sound of the guns, they sound just like thunder to us where we are stationed at billets.

I have had a short course on the Lewis Auto gun and like it fine, I hope to go up to the front line before very long I met Leslie Harper the other day and he looks well and is getting along O.K. (Has been reported wounded since—Ed) I have not seen Albert Lockwood yet. I heard he was in the engineers.

We are getting fed fine now, we have such things as oranges, fruit, jams, dates, etc.

I have not had any news from Canada since Feb. 2nd. But I expect there is some mail at the Divisional Post Office up the line for me. I am going up the line very soon and expect to meet some of the trials and hardships that the boys met who have gone before me, and perhaps I may fall as many of them have done. But I hope and trust to come back alive. Should I not, do not mourn as if I had died a coward for I am going in to it with a good heart to do my bit if I can and I don't believe I could die, if need be, a palmer death.

I hope Robie is getting along well by this time. Is he still in Prince Edward Island? Well I must close for this time. Will write again when I get up to the line if I can, so give my regards to all my home friends I remain as ever. Your loving son, AVERY

The brewers of the United States have spent millions of dollars advertising the "food value" of their wares. Now they claim that none of the food value is taken from the grain in making beer, but that it all goes to feed cattle and hogs. We are wondering where that food value got into the beer.

LONDON PAPERS ENDORSE PRESIDENT WILSON'S MESSAGE TO RUSSIA
President Wilson's message to Russia is given prominence in morning newspapers, which endorse it enthusiastically. The morning Post declares that it is one of the most memorable documents, issued by any State during the war.

OBITUARY

MILDRED ROSALIE TURNER

The death took place at Kentville on Monday night of Mildred Rosalie Turner eldest daughter of Mrs. J. W. Turner, aged 22 years next Sunday.

The death was a very sudden and unexpected one after an illness of but a week. The funeral service was held the following day conducted at the house and grave by Rev. P. Pollitt.

Miss Turner was born at Springhill where her parents Rev. J. W. and Mrs. Turner were on the Wentworth circuit. She had delicate health until 17 years of age. Her father died at Kentville, 11 years ago. For three years deceased has been conducting a private kindergarten school and just recently in order to further help in the support of the family she became an operator in the Telephone Office. The added work was too much for her and though nothing serious was expected she complained of feeling tired. The evening of her death, her mother talked with her of her father's house of many mansions, etc., and she told of her love for the Saviour. Even then without the family knowing it she was sinking as if in sleep her lips repeating the words of scripture after her mother.

She leaves a sorrowing mother, two sisters and a brother and an aged grandmother in the family. The deepest sympathy goes out to the stricken family.

WEDDING AT BERWICK

Berwick, June 7.—The first June wedding of the season in this section of the country took place on Wednesday afternoon at the residence of Anthony N. Rafine, Waterville, Kings Co., when his daughter, May Geneva, was united in marriage to Percy Reid Salter, son of Mrs. Lomine Gertrude Salter, of Berwick. At two o'clock, to the strains of the wedding march which was played by Mrs. J. A. Smith, the wedding party entered the parlor. The bride, who was given away by her father, was gowned in a travelling suit of navy blue serge and wore a hat to match. She was attended by her sister, Mrs. Banks, of Halifax. The ceremony was performed by Rev. E. G. Dakin, pastor of the Baptist Church, Waterville, assisted by Rev. J. A. Smith of Berwick. After congratulations had been given, Mr. and Mrs. Salter, amid showers of rice, left on the afternoon express for Halifax where Mr. Salter has a position as head checker and assistant shipper for H. W. Wentzels Limited. They will reside on 158 North Street. The presents were numerous and handsome.

WARNING TO RECKLESS MOTOR DRIVERS

Speed limit 15 miles in cities or towns. No speed greater than 20 miles on public highways.

No person shall operate a motor vehicle on any public highway at a rate of speed greater than is reasonable and proper with regard to all circumstances and traffic.

Speed limited to 8 miles approaching a bridge or steep descent or crossing for intersections. Operator shall also give warning.

No light on motor vehicle shall dazzle or blind any person using a public highway, or make it in any way dangerous for such person.

Motor vehicle must have muffler that will prevent any unreasonable noise. No person shall cut out muffler in any city or town.

No operator shall make any unreasonable noise by sounding any bell, horn, or other signalling device, or by cutting out muffler or in any other manner.

No person shall allow machine to stand unattended on any public highway with out first stopping the motor.

For violating these provisions the penalties run from \$25 for the first offence, to \$50. After the first offence, the sum increases to \$100 or \$200, or sixty days imprisonment or both.

SIR WM. McDONALD LEFT MILLIONS TO PUBLIC INSTITUTIONS.

Montreal, June 12.—Sir William McDonald who died here last Saturday left \$2,500,000 to public institutions, Macdonald College, in connection with McGill University, being the recipient of a bequest of \$1,000,000.

Among the other favored institutions is the Montreal General Hospital, to which \$500,000 is left. The deceased was cremated in Mount Royal Cemetery and he left \$100,000 to the crematorium.

Mrs. Coleman, who has been spending the winter with her daughter, Mrs. George D. Geldert, went to Grafton last Tuesday to remain for the summer.—Hants Journal.

NEW PROFESSOR AT ACADIA UNIVERSITY

Professor R. P. Clarkson, Ivan Curry Professor of Engineering at Acadia University, has tendered his resignation which has been reluctantly accepted by the Board of Governors. Prof. Clarkson has been at Acadia for five years, and, by his published works and inventive genius and work in the class room, has inspired the men with whom he has come in contact. He is the inventor of the Clarkson Current Motor, and has been the engineer in charge of the Cape Split development. Prof. Clarkson will devote himself to industrial work in the future in connection with a New York firm.

Professor Haley, who is Professor of Physics and Dean of the Department of Applied Science at Acadia, has recently resigned the Deanship. He has asked to be relieved of this additional work on account of sickness connected with his family.

To fill these two positions — Ivan Curry Professor of Engineering and Dean of the Department of Applied Science—Professor Frank E. Wheelock, Ph.D., has been appointed. Professor Wheelock is a graduate of Acadia university in the class of 1905 and a Ph.D. of Yale. He taught one year at the University of Missouri and has been for four years Professor of Physics and Dean of the Department of Applied Science at Mt. Allison University.

RAILROAD RECRUITS LEFT FOR ALDERSHOT

The Railway recruits left here on Tuesday morning for Aldershot to continue training previous to going overseas.

PRINCE ALEXANDER NOW KING OF GREECE

LONDON, June 13.—Prince Alexander is now King of Greece, Chancellor Bonar Law announced in the commons late today that the second son of the deposed King Constantine had taken the oath as Monarch at Athens.

TERRIFIC BOMBARDMENT OF LONDON WITH HEAVY LOSS OF LIFE

LONDON, June 13.—In a swift and deadly raid on the city of London today German airplanes took a heavy toll in killed and wounded. Other places were attacked but, so far as is known, at present, by far the heaviest losses occurred in London town itself.

At a late hour tonight the casualties, as officially announced, numbered 534, including 97 killed and 437 wounded. Fifty-five men met death, and 223 men were wounded. Sixteen women and twenty-six children were killed, and 122 women and 94 children were wounded.

The German squadron consisted of about fifteen machines, and the downtown section of London was their chief objective. Many bombs fell in the East End, where buildings were destroyed and others badly damaged and scores of persons fell victims to the explosions. In one instance alone ten children were killed in a school and fifty were injured.

British airplanes ascended immediately the signal was given that hostile machines were coming but the Germans remained at a great height and flew swiftly, and evidently the British fighters had difficulty in the pursuit, for the loss of only one German machine has been recorded. Others are reported to have been brought down, but there is no official confirmation of this. The anti-aircraft guns of London seemingly were unable to reach the Germans.

HANTS CO. CAPTAIN GIVEN UP FOR LOST

Capt. F. L. Walley, of Scotch Village, Hants Co., master of the schooner Bessie A. Crooks, has been given up as lost. His schooner sailed from Brazil for Barbados over five months ago and no trace of her has been found. This run generally occupies a period of about fifteen days.

Capt. Walley left Windsor last October and took a cargo of fish from Newfoundland to Brazil. On Jan. 27th the craft set sail for Barbados and nothing has since been heard of her or any of her crew. It is thought she has been sunk by an enemy submarine.
