The Man Outside.

"O George," cried Felice, bursting into my office almost in tears, "Captain Weatherby's come back, and just when I thought my lady was going to be happy—for she really loves him, you know—this awful thing happens!"

"What awful thing?" I asked in amazement.

"The comte's ring," she answered, impressively.

"Ring?" I echoed, "what are you talking about, Felice?"

"He says she stole it," my fiancée sobbed, miserably, "and you know as well as I do that she would never do such a thing."

"It's most unlikely," I agreed, promptly.

"It's more than unlikely—it's quite impossible," Felice replied, indignantly, looking at me fiercely through wet lashes. "And, George dear, she went on, coaxingly, "I'm sure this is a case you ought to take up, for if you can find the real thief, I know it will make your name!"

"I know nothing about the facts yet," I replied, drily.

"I'll tell just how it all happened,"

she replied, eagerly, as she loosened her furs and pushed them from her pretty neck. "You know how much more like a friend I am to Lady Norah than a maid, though our positions are so different, and that she often tells me about her money troubles."

"She has always seemed to me a most extravagant woman," I murmured, sarcastically, and my remark did not please Felice, who is imbued with all a Frenchwoman's love for ease and finery, though she is a sweet girl in spite of this weakness.

"I don't think, George, that you understand the social appearance of my lady; it is bound to keep up, or you would never say such a thing; and, alas, one cannot buy the real Paris gowns for small sums."

She shrugged her charming shoulders and sighed as she pronounced this verdict.

"I'm quite aware of that, my dear, but what about this present difficulty? Does this concern dresses as well as rings?"

"In a way, George. I'll explain it a moment if you won't interrupt. You see it was like this: Before we went to Davos last year, we were at Monte Carlo, as you know, and there Lady Norah was so unlucky that she lost the money she had brought with her. She had been unlucky all that year, and she had to make up for it by borrowing money when we returned to London, or she could not pay her bills, which were heavy just then. —and then my lady became acquainted with Comte Zettien.

"I suppose he's rich," I observed, sarcastically, but Felice missed the malice in my tone.

"Fabulously," she replied, with great emphasis, "and he was so kind to my lady that at length she told him of her troubles. When he heard, he was greatly distressed, and insisted upon lending her as much as she cared to accept. He really offered George, because she told me herself she did not ask him."

"There is such a thing as hating," I suggested, drily, and Felice flushed angrily.

"You are horribly unjust, George, and if she had asked him, I don't see how it could have mattered when she was growing so distraught that I failed to make any coiffure to suit her."

"All right, don't be cross, dear," I said, soothingly, "tell me the rest of the story."

Felice resumed somewhat ungraciously.

"He gave her a large sum, far larger I think, than she really desired to accept, and, of course, became very great friends; in fact, I could see very well that the Comte was growing daily more smitten with my lady, and each night when I dispersed her, I expected to hear news

of his proposal. It came at last, and on the very same day Captain Weatherby arrived at the hotel on a holiday.

"Very awkward," I interjected, drily, as she paused for breath.

"It was dreadful," George; because you see, everyone in London thought she was really engaged to the captain before we went to Monte Carlo, and I myself knew there was some secret understanding between them, but he was so poor."

"That's a trouble shared by other men as well," I exclaimed, bitterly and leaning forward suddenly. Felice pressed her lips lightly on my hand.

"Of course, there was only one possible answer to such an action, and I was a full moment before she resumed her story.

"You can't guess how terrible a position it was for poor Lady Norah. You see, they were all staying in the same hotel, and you know how people will talk. George, the captain soon heard how much in love the Comte was with her, and that they were very often together, and he was dreadfully angry. I felt my heart ache for him, because he is so handsome."

"The devil he is!" I muttered, jealously; but Felice took no notice of my interruption.

"I knew my lady's difficulty; she had not given a real answer to the Comte yet, for how could she offend him after all his kindness? And I knew also that in her heart it was the captain whom she preferred. Therefore one afternoon she came to me in great agitation, and told me to pack up at once to return to England."

"I must have peace, Felice," she cried, as she paced the room, "I don't see any other thing I can do, but go away."

"You have refused the Comte, my lady?" I asked, and she nodded.

"Both of them, Captain Weatherby is unjust, and he has such a temper. Felice. We will go without a word to anyone."

I was quite interested now in Felice's story, and waited eagerly for further enlightenment.

"I packed secretly," she continued, "and very early next morning, before other people were up, she paid our bill, and we left Davos. Then, when we reached London, we spent some months at different country houses to which Lady Norah was invited."

"I know," I said, briefly, "and then you wrote me that you were coming to the Guilford Hotel."

"It was the greatest of pities that my lady ever did come, George; but you see it is the winter season, and she has so many dances to go to," observed Felice, sadly.

"What has happened now?" you

said Captain Weatherby had come back, didn't you?"

"Yes, George; and I was so glad, for he's come into property, and, after Lady Norah had explained about the Comte, he offered to pay him back the money she owed. She seemed at first happy about it, and like a different being after she was openly engaged to the captain—so merry and light-hearted."

I felt completely mystified.

"Then what's all the trouble?" I asked, "is it broken off, or what?"

"No," answered my fiancée, dismally; "it's because she thinks it ought to be that she is so wretched. You see, George, three days ago Comte Zettien took a room at the Guilford without our knowing anything about it until dinner time, when, as Lady Norah was going down to the dining room, she met him on the staircase. Of course, it was most awkward; but he was quite polite, she told me, and after thanking her for the cheque she had sent him, asked if he might, as an old friend, dine with her. She did not want to be unkind, after the way he had been of service, so consented, never guessing it was all a plot."

"Plot!" I echoed. "What do you mean?"

"Why, George, I don't believe the Comte ever lost the ring. I feel sure he's just a conjurer or something, and only threatening her to gain his own ends."

"What ring is it?" I asked, desperately, for every moment I was getting more bewildered.

"A most valuable diamond one, which he was wearing, and at the end of dinner he took it off to let Lady Norah look more closely at the cutting of the stone. She told me that

just as she was doing so the waiter handed her coffee, and, without thinking of its value, she put the ring down on the table while she took the cup, and then forgot it for the moment, because the Comte thought he saw her gloves drop, and stooped to find them; then, when he couldn't be sat up again and asked her what she thought of the ring."

"Well?" I asked breathlessly.

"It was gone, George!"—and Felice's voice trembled with a sob.

"What did Comte Zettien do?" I said slowly, for a queer idea had entered my head.

"My lady said he was so cruel. You see, he knew she wanted money at Davos, and thought she was in debt again and had stolen his ring to sell it."

"Has he told the police?" I asked, and Felice shook her head.

"He says he will not have my lady arrested if she will marry him, and he has given her until the end of the week to decide."

"I think you said, Felice, that Lady Norah was taking coffee from a waiter when the ring disappeared?" I remarked, and my fiancée nodded. "Has the Comte got a valet at the hotel?" I went on, and Felice looked surprised.

"He has got two," she replied, wonderingly. "Why, George?"

"Never mind why now—I'll tell you later. Felice, can you get hold of a photo of the Comte and let me have it later?"

"I'll try, George. Then you are going to help Lady Norah, dear?"

"I'm going to do my best," I answered, simply. "Now hurry bac my darling, and don't forget the photo."

"I won't, George," Felice exclaimed; and she didn't for two hours later I was holding in my hands a fine cabinet one of Comte Zettien, and racking my brains to decide where it was that I had seen his face before.

Whilst I was puzzling my brains for a solution of that particular question, another thought came into my head—the remembrance of something I had seen only two nights previously. I had been strolling past the Guilford Hotel, and paused for a moment, glancing idly down through the grating into the large, brightly-lighted kitchens below, wherein the cooks were busily engaged making coffee.

There were only five of them in the kitchen at the moment, and the one nearest me, after a stealthy glance at the others, had quietly thrust his hand under his apron and extracted a small glittering object from his pocket.

Nerves at High Tension
 Slight extra strain means collapse—Restoration obtained by using DR. A.W. CHASE'S NERVE FOOD. The successful men and women are often of the high-strung nervous type—keen and active—but with too little reserve force. A little extra worry and anxiety and snap goes the nervous system. Weeks and months are often required before exercise and vigor are regained. Rest helps, so does fresh air and exercise, but the blood must also be made rich and red by use of Dr. A. W. Chase's Nerve Food. Mr. Wm. Brant's, Victoria St., Strathroy, Ont., writes:—My nervous system seemed all unstrung. I could not sleep had no appetite, my digestion was poor and I had "erking" of the limbs. Dr. Chase's Nerve Food helped me and I continued until I had taken twenty-four boxes. This treatment has made a radical change in my condition, building up the system and strengthening the nerves. Dr. Chase's Nerve Food 50 cents a box. II dealers or Edman son, Bates & Co., Toronto.

The Evening Chit-Chat

By RUTH CAMERON

"The unexpected guest robbed of all terrors," should have been the title of a little lecture and demonstration by a wise young housewife gave me the other day. I had expressed my wonder that she seemed so thoroughly tranquil when her husband brought home four unexpected guests for supper one Sunday evening and she explained thusly:

"Why should I mind? I have plenty of preparation for twice as many on my emergency shelf. What's that? You mean to say you don't have one in your home? Well, come right out in the kitchen and see mine."

We went. The emergency shelf was a high out-of-the-way corner of one of her pantry shelves. Upon it were several cans of condensed milk, boxes of crackers of all kinds, cans of soup and all kinds of canned vegetables, two or three cans of shrimps, some cheese, some marmalade, two or three bottles of grape juice, a couple of combs of honey, two or three bottles of olives, and several cans of sardines.

"There," pointed the wise young housewife, "there's the bulwark that stands between me and any unexpected guest."

"With the soup and vegetables I can make out almost any dinner into decent proportions, no matter how simple it started to be."

"With the other things and a chafing dish I can always produce a passable lunch or be ready for any unexpected jamboree like this Sunday night supper. To-night I'm going to open a can of shrimps and cream them, make a few cheese and olive sandwiches and make some chocolate with the aid of my condensed milk."

"Must have cost quite a little to start it? Oh, no, my dear, I didn't do it all at once, just gradually. I add to it from time to time. Often I buy things when I can get them to especially good advantage. Those six packages of crackers were six cents the day I bought them and usually they are ten cents a package. I always watch the sales for that shelf."

"Another thing I do—and it's the only way unless you want to find a break in your bulwark some day when you need it most—and that is when I take anything off the shelf I always put a memorandum right down on my order slips to replace it the next day."

Not a bad idea, is it?
 Sort of a twentieth century grandchild of the old fashioned preserve closet which always served as an emergency chest to be resorted to whenever company came, although I doubt if grandmother would have recognized it by that name.

Maybe this is no new suggestion to you. And then again, maybe it is, and you will adopt it as we already have.

Ruth Cameron

Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

It Makes Weak Women Strong, Sick Women Well.

You can't afford to accept a secret treatment as a substitute for this non-alcoholic medicine of KNOWN COMPOSITION.

Whisky Made From Sawdust.

The President of the International Congress of Chemists at the World's Fair, Chicago, remarked that the next greatest discovery in chemistry would be the manufacture of alcohol from lumber refuse. Probably not one of the chemists assembled at that congress imagined for one moment that the discovery would be made within twenty years from that date; for chemists have been experimenting for the greater art of a century trying to discover a method of making pure alcohol from wood waste.

To-day, however, the discovery is an accomplished fact, and is the result of experiments which have been carried on for five years by two Chicago chemists, who claim to have discovered a process by which pure ethyl alcohol can be made from sawdust or wood waste of any kind. That the discovery has actually been made is evident from the fact that the United States Department of Agriculture after making the fullest investigations of the process patented by the inventors, has made a highly laudatory report about it. The department describes it as "a revolutionary discovery," in view of the numerous uses of alcohol.

Alcohol as Light and Fuel. For lighting purposes it is admitted to be brighter, safer, cleaner, and more desirable in every way than kerosene; as a fuel it competes successfully with gasoline, coal, wood, or any present known heat-maker. It has made its place in the kitchen cooking stove and in the locomotive tender; it lights drawing-rooms and drives automobiles. And, in addition to this, it is an important ingredient in the manufacture of scores of articles, of which gunpowder is one. Germany has made experiments with alcohol as a fuel on its battleships, and its use instead of coal has been declared not only feasible, but desirable.

All manner of engines, from the delicate affair in the aeroplane to the giant that pulls a train, may use alcohol as a fuel. Alcohol steamships, locomotives, airships, motor-cars, and power plants thus become probabilities of the future.

Oil wells may go dry, coal mines will be used up, but alcohol, found in every form of plant life, will be available so long as Nature makes trees grow on the earth's surface.

How the Sawdust is Treated. The process of manufacturing alcohol from sawdust is simple and economical to a degree. In appearance the plant combines certain features both of a pulp factory and a distillery. First in the process the sawdust is poured into a "digester," similar in operation to the "digesters" of pulp plants. Here it is treated under high steam pressure for a short time in the presence of a small quantity of acid. A portion of the wood is thus converted into glucose.

The glucose is then fermented and distilled into alcohol by distilling apparatus similar to that found in a regular corn-distilling plant. In brief the sawdust goes into the plant one end and comes out at the other in the form of pure alcohol—not wood alcohol, but pure alcohol—purer than that which comes from corn and barley, there being in it not a trace of fusel oil.

It is estimated that there is enough wood waste thrown away every year to more than supply the country's demand for alcohol. With this waste utilized under the new process, corn will cease to be a necessity to the alcohol distiller, as will barley. These two crops will thus be freed of this source of drain, and their entire millions of bushels may be used solely for food. The effect of this upon the economic conditions of the world is incalculable.

\$4 Worth of Father Morrissey's "No. 7" Cured Her of Inflammatory Rheumatism.

Mrs. Agnes Edgar, of Grand Falls, N. B., had a terrible time with Inflammatory Rheumatism. Anyone who has had this most painful disease will understand her suffering—and her joy when she found Father Morrissey's "No. 7" had cured her. She says: "I took Father Morrissey's Prescription for Inflammatory Rheumatism. I had suffered everything with it, but in three weeks after starting Father Morrissey's Prescription I was able to do my work, and after taking four dollars worth of medicine I was well. I highly recommend it to any sufferer with Rheumatism." Rheumatism comes from bad kidneys, the poisonous Uric Acid which they should remove stays in the blood, accumulates in joints and muscles, and causes agony. Father Morrissey's "No. 7" puts the kidneys right, removes the Uric Acid from the blood and the whole system, and cures the Rheumatism. Get a box at your dealer's, or from Father Morrissey Medicine Co. Ltd., Chatham, N.B.

Household Notes.

A savory breakfast dish may be made as follows: One large cup of calves' liver and bacon minced, half of a sweet green pepper cut fine, all browned well in a pan liberally greased with butter and then four eggs stirred in until the eggs are set.

To clean silk and woolen clothes of grease spots, they may be gently rubbed with a cake of magnesia, laid away for several days, and then shaken out. It will not hurt to press the magnesia in with a hot iron, first covering the fabric with brown paper.

To make a good sweet potato pie, take a cup of mashed sweet potato, a teaspoonful of salt, same of nutmeg and ginger, half a cup of sugar, a cup of milk and one well beaten egg. Bake for half an hour in a slow oven.

When it is desired to carry a candle into a drafty cellar or attic where here is danger of it blowing out or setting the clothes on fire, a short candle should be placed in a tumbler, being fastened there by its own wax. It will then burn steadily and safely.

The white of an egg, slightly beaten and the crushed shell of the egg is enough to clarify a quart of strained soup. Stir the soup constantly after adding the egg and shell, let it boil hard for a few minutes, set it on the rack of the range to settle, and then strain.

Bananas are rarely found in this country ripe enough to be digestible, although they may be perfectly yellow. To properly ripen them so that they will be excellent food, buy a bunch and hang it up in a dry place with the stem in water. In a few days they will be much improved.

Before winter clothes are put away he skirts should be most carefully brushed and cleaned, for if dust and unsightly spots are allowed to remain on them for several months they will seriously injure the fabric. It is much more difficult to clean garments after they have been stored than before.

A piquant salad dressing may be made of sour milk or cream. Take the yolk of a hard-boiled egg and rub 'till it is quite smooth. Then add half a cupful of sour cream and a tablespoonful of vinegar with sufficient salt, pepper and sugar to overcome any unpleasant taste of the cream.

To make beeswax, place the honeycomb in a coarse muslin bag, and put in a small stone to weight the contents. Put into a kettle, cover with water and boil. The wax comes to the top of the water and the sediment remains at the bottom of the kettle. When the water is allowed to cool, the wax forms a solid cake.

In the Assembly.

The Opposition Score the Government on the Pension Resolutions.

In the House of Assembly yesterday there were many people in the galleries and proceedings were interesting. The Municipal Bill, Crown Lands, Motor Vehicles, Agricultural and Re-aring Allowances Bills went through all their stages and were sent to the Upper House, as was the Eskimo Dependent Bill. The matter which principally occupied the attention of the members was the introduction by the Premier of certain Resolutions dealing with the question of Old Age Pensions for the aged poor. When the House went into Committee on the Resolutions the Premier, in introducing them, spoke at great length on the matter, explaining the provision of the scheme of old age pensions, which will entitle the beneficiaries to \$50 per year out of monies provided by the Legislature, the receipt of such not depriving the recipient of any franchise, right or privilege or subject him to any disability. The person must have attained the age of 75 years, must have resided at least 20 years in the Colony, and must be in indigent circumstances to warrant his coming within the provisions of the scheme outlined. The Premier entered into the history of the idea of old age pensions in this Colony. The first reference in public or from a legislative standpoint to old age pensions was made in the campaign of 1897 in press and on platform by Mr. Morine, and he (the Premier) traced the progress of the idea down to the present time and promising great things to accrue to the old and infirm from it, though it looks as if many of them will never live to be partakers of the benefits which are promised the old and infirm at some remote period. Mr. Hon. Sir Robert Bond in replying spoke for over two hours and delivered one of his more than usually eloquent and logical addresses in demonstrating the many defects evident in the measure.

MORRIS'S DOLE

In Place of Old Age Pensions.

We shall publish to-morrow Sir Robert Bond's speech in the House of Assembly yesterday in which he exposed the Government's shameless attempt to float off an increased pauper dole as a substitute for Old Age Pensions. The aged poor who have their eyes opened to the heartless betrayal of their trust by the Morris Party.

LOOK OUT FOR TO-MORROW'S PAPER.

Jack Johnson Defeated

Finds His Opponent Very Fast. (From the San Francisco Examiner) Feb. 19th, 1911. Jack Johnson, the ebony-tinted enigma of the pugilistic world, is sore troubled as a result of a little argument he had with the E.M.F. "30" which is entered in the coming Oakland race. According to the E.M.F. representative, it occurred down below the country line yesterday afternoon, when the E.M.F. with driver Aurand at the wheel, was trying out Jack in the neighborhood at the same time, pursuing his favourite pastime—shattering the speed ordinance, in his monster six-cylinder car. "You sure were travelling a little," remarked Jack, when he saw the E.M.F. team a short time thereafter. "Yes, jogging along a little," replied driver Aurand. "A little" queried Jack. "You don't mean to say that car can go any faster?" "Let's settle the argument right now," suggested Aurand. "With my heartiest approval," chuckled the big champion, in another moment the two cars were off, the exhaust from Johnson's car almost smothering the atmosphere. It was a neck and neck affair for about ten yards, when the E.M.F. leaped ahead of the throbbing six-cylinder machine, and despite the fact that Johnson crowded his racer to its utmost capacity, Aurand rapidly widened the gap that separated the two racers, and when the E.M.F. came to a halt Johnson's car was an indistinguishable object far in the rear.

CANADA'S CHAMPION DANCER

Cured of Piles by Zam-Buk.

Mr. Thomas J. Hogan, Champion Clog and Pedestal Dancer of Canada, who resides at 59 Chambord St., Montreal, writes: "It gives me much pleasure to let you know my opinion of your wonderful Zam-Buk. For some time past I have been troubled with piles, but this year I suffered so much that I was obliged to cancel a number of engagements. I tried all the so-called remedies that were recommended, but they seemed to do me no good. Having been advised to try Zam-Buk I purchased a box, and after applying it a few times I felt marked relief. I continued with the Zam-Buk treatment, and the relief was extended into a permanent cure. I gladly permit you to use my experience as an illustration of the great value of Zam-Buk for piles."

Another illustration of how Zam-Buk cures long-standing cases of piles is provided by Mr. William Kenty, of Upper Nine Mile River, Hants Co., N. S. He says: "I suffered terribly from piles, the pain at times being almost unbearable. Zam-Buk was recommended to me so I procured a supply and commenced with the treatment. After a very short time Zam-Buk effected a complete cure."

Daughter of Bishop Guilty of Fraud.

Mrs. Elizabeth Horn, Uncrowned Queen of Madagascar, Assessed \$17,500 for Misrepresentations. London, March 3.—Mrs. Elizabeth Horn, the well known spiritualist and preacher of the ancient theory that the earth is flat was assessed \$17,500 damages in the King's Bench Division of the High Court of Justice yesterday for fraudulent representations regarding alleged concessions in Madagascar. According to the allegations Mrs. Horn's victims were many. She collected in the neighbourhood of \$150,000 on the pretence that she had a concession in Madagascar that would yield gold and diamonds to the value of \$50,000,000. The prosecutor in the present case is the owner of a lively stable in a suburban town. He was so impressed with the stories told by the defendant that he regarded her as the "Uncrowned Queen of Madagascar." It is expected that other suits will be pressed.

Theatre Abandoned.

New York Playhouse Has Proven Financial Failure. New York, March 3.—The "New Theatre," founded by wealthy New Yorkers for the artistic production of the best drama, has proved so heavy a drain on the resources of its backers that the enterprise is to be partially abandoned, according to an announcement here. The losses during the two seasons since it was opened have totalled more than \$40,000. The building in which the institution is housed will be used for other purposes in the years to come. Like Carnegie Hall, it will be let out to whoever wants to use it. The size of the theatre has operated against its success from the first. It has been almost impossible to fill so large a house, and the running expenses have been enormous.

Steamers in the Seals.

Two Hundred Seals Taken at Byron Island.

Last night the firm of Bowring Bros. had the following wire from House Harbor, off Magdalen Islands, from Emile Delaney, the operator:—"Viking, Southern Cross, at Gross Island report Kite and Labrador jammed east of the Bird Rocks, and Harlaw jammed in vicinity of Byron Island. Couple of hundred seals landed at Byron Island to-day."

This morning the firm had the following message from the operator at Byron Island:—"Viking, Southern Cross and Harlaw here, Labrador in sight off Bird Rocks; seals all round the island." As we stated yesterday this is the cheerful news that should be looked for to-day and it seems to indicate that the whole Gulf fleet will return with good fares of seals. All the steamers seem to be in the fat, and if the main patch is near Byron Island, which seems probable, good trips must result. Striking the seals so early is of great advantage to the ships as gives them till the latter part of March to kill before the seals take to the water. A comparatively early arrival from the Gulf should occur this year.

Two Excellent Lectures

Last night Mr. Walter Edgar lectured in the Masonic Temple before a large gathering of the Brethren, of the "Mystic Tie" and for over an hour dealt with the progress and spread of Masonry throughout the world. His fluent discourse was filled with interesting facts connected with the organization and he certainly made a name for himself as a platform speaker. D.G.M. J. A. Cliff, presided, and a very handsome sum was collected in aid of the Tasker Educational Fund.

Rev. Dr. Kitchen lectured in the British Hall last night, taking as his subject, Napoleon Bonaparte, a subject which he showed himself to be very conversant and necessarily so from his lengthy residence as a student in both France and Belgium. He traced the life and works of this great military captain, in a manner which held the interest of his audience and a hearty vote of thanks was accorded him at the conclusion. Hon. John Harvey presided and introduced the Rev. lecturer.

POLICE COURT NEWS.

To-day a drunk was discharged. An assault case in which a man entered the house of another resident and assaulted and beat an old man and his son was heard to-day. The defendant in the case, however, was not allowed to go scott free as he was hit with a cup and a bottle and was cut about the head. The case was dismissed, but as the old gentleman professed to be in bodily fear of defendant he was bound over to keep the peace towards him. A man summoned the owner of a vicious dog for biting a piece from his clothing recently, and the matter was settled out of court, the owner of the canine paying the damage.

A Charity Match Projected.

We understand that a movement is on foot to have a hockey match between the Crescent and St. Bona teams to get funds to supply coals to the poor. This would prove a very interesting match as Jack McGrath would play with St. Bona and they should put up a good fight with the champions. Coal is badly needed by many poor families and the teams would be doing a most charitable act if they would play for such a purpose. They should do so while the ice is good.

Personal.

Mr. W. Ashbourne will leave for New York on a business trip. He will be accompanied by Mrs. Ashbourne whose health is not good. The S. S. Durango arrived at Halifax yesterday at noon. She was three days on the trip from St. John's. Mr. R. H. Trappell will leave by the S. S. Rosalind to-day on route to England where he goes to purchase new optical machinery to enable him to meet the growing demands of his optical department. STILL BLOCKED.—Portugal Cove and all the south shore from Topsail to Cape St. Francis is still blocked with ice. The little steamers did not get over to-day, the Ephrathes and Progress being still jammed.

GOMEZ DEFIANT.

Special Evening Telegram. NEW YORK, This Morning. Gomez, the leader of the Washington Junta of the insurrectionists in Mexico, delivered here a defiance of the Mexican Government yesterday afternoon before departing for Washington. Gomez declares the revolutionists will lay down their arms only when their demands are granted. If not granted they will continue the fight to the death. They are not worried at the presence of American troops in Texas. There are 12,000 men under arms. Twenty states out of thirty-one are fighting for the insurgent cause.

DIED AT BUFFALO, U. S.—Mrs. P. Kennedy, who was Miss Annie Dunn, of Topsail Road, died suddenly at Buffalo, N.J., last week. She married Mr. P. Kennedy, of this city, who has been in the U. S. Navy the past 21 years and will soon be retired on full pension. She leaves several relatives in this city and on Topsail Road, who will no doubt regret to hear of her death.

Worst Case Of Eczema

Cure only came when doctors gave up and DR. CHASE'S OINTMENT was used.

Mrs. Wm. Miller, St. Catherine's, Ont., writes:—"My daughter Mary, when six months old, contracted eczema and for three years the disease baffled all treatment. Her case was one of the worst that had ever come under my notice, and she apparently suffered what no pen could ever describe. I had three different doctors attend her all to no purpose. Finally I decided to try Dr. Chase's Ointment and to my surprise she immediately began to improve and was completely cured of that long standing disease. That was four years ago when we lived at Cornwall, Ont., and as not a symptom has shown itself since, the cure must be permanent."

The record of cures which Dr. Chase's Ointment has to its credit have placed it alone as the standard cure for eczema and all forms of itching skin disease. Do not be satisfied with imitations or substitutes, 60 cents a box at all dealers or Edmanston, Bates & Co. Toronto.

A bill prohibiting the manufacture and sale of cigarettes passed the Lower House of the Salt Lake City, Utah, legislature recently. Friends of the bill say it will pass the Senate. The value of cheese and butter manufactured at the forty-five factories in P. E. Island last year was \$514,000, the best in the history of the province. The increase was \$12,000 over last year. There was a decrease in the cheese but an increase in the butter. An exchange says: "One of the Dominion Alliance delegates who waited on the Ontario Government to demand the repeal of the three-fifth clause and Provincial 'Prohibition,' complains that Sir James Whitney 'practically spat in our faces.' In other words, they wanted it 'dry' and got it 'wet.' The majority of women in London marry between the ages of 21 and 25.

Of 33,000 women married last year 19,000 were between these ages. Only 103 were 16. In America the number of marriages of girls between 14 and 17 has declined 32 per cent since the census of 1900. The girl of America who marries before she is 20 is usually of foreign parentage.

Harbor Grace Notes.

The lads of King Edward Brigade will attend Divine service at St. Andrew's Presbyterian Church at 11 a.m. on Sunday next. In making the announcement yesterday the pastor intimated how pleased he was to have the boys attend, and we are sure a most suitable service will be arranged for them. The choir will arrange special singing.

W. J. James, Esq., manager of the Harbor Grace Boot and Shoe Factory, is in St. John's on business, and will likely be back in a day or two. We are pleased to hear that the above factory is running at high pressure to fill orders and that its work is second to none in the island. Success to it.

Miss Marie Gordon, second daughter of Mr. and Mrs. Samuel Gordon, left for St. John's yesterday morning where she takes a position in the millinery store of Messrs. Nicholle & Inkpen. Miss Gordon has had considerable experience in her chosen work.

A little 5 year old resident of Victoria Street met with an ugly accident yesterday by falling on a piece of ice and laying his forehead open about two inches. While the wound was being dressed he bore up in a way that would do credit to one many years older.

An old lady named Travers, wife of Mr. William Travers, of Bannerman Lake Road, died last week after a long illness. The funeral took place on Friday evening.

Arrangements are being made by the wives and daughters of the members of the British Society to give the Juniors of King Edward Branch a so-called during Easter week, probably Easter Monday night.

An old lady of the West End named Mrs. Mary French, widow of the late Francis French, died on Sunday night after a long illness, aged 89 years. She leaves one son, Charles, and three daughters, one of them Mrs. James Wells, of Bristol's Hope. The funeral takes place this afternoon.

Mrs. Dugald Munn received a message on Saturday acquainting her of the pleasing news that Mr. Munn had arrived at Brazil. Mr. Munn went down by the schr. Nellie Louise, which schooner had a fine run. This news will be interesting to Mr. Munn's numerous friends.

A case of scarlet fever developed on Cochrane street yesterday. The house was immediately quarantined.

We regret to have report the illness for the past few days of our popular citizen, Mr. John Tapp. We hope to be able to report his complete recovery in a day or two.

Miss Power, daughter of Constable John Power, arrived yesterday from Boston, where she had been for the past six months or so.

The pupils of the High School are arranging for their annual "At Home" on St. Patrick's afternoon. More enjoyable than before, is what the youngsters say of it.

A treat is in store for us on St. Patrick's night at the Academy Hall, when the play, entitled "Ireland To-Day," will be produced by a local troupe. The drama is a thrilling one and shows what life is amid the Irish peasantry. In former years it met with unequalled success when presented before audiences in London and New York. The very best of our local talent has been enlisted for the event and success is assured. Don't forget St. Patrick's night in the Academy Hall.

The Visitors Leave.

By the express yesterday evening the Swastika Hockey team left for home, and a large number of people were at the station to say good bye to them. As the train moved out they were given hearty cheers which they returned. They made many friends during their short stay in the city. They play a match Friday night at Sydney.

LECTURE REPEATED.—Rev. Fr. O'Connell repeated his lecture on Ireland at the Star Hall last night. There was a large audience, and as the lecture was illustrated by some very fine views of the old land, the affair proved a great treat. Mr. E. M. Sweet Peas & Charity.

Grow the Coronation Flower and Help the Charing Cross Hospital.

Sweet peas will be grown by everybody this year.

Even people who do not usually care for gardening are going to grow the Coronation flower. A scheme has just been started under which all can obtain the best sweet peas in the market at exceptionally low rates, and at the same time help to reopen five closed wards containing eighty-seven beds at the Charing Cross Hospital. These can be reopened if the mortgage on the hospital's freehold is paid off.

By the kindness of seed growers, the authorities have been able to arrange for the best and newest varieties of sweet peas to be supplied to the public. These include the following:—

- St. George—Orange scarlet.
- Queen Alexandra—Scarlet.
- King Edward VII.—Crimson.
- Prince Edward—Scarlet and rose.
- Princess May—Lavender.
- Queen of Spain—Ivory pink.
- Prince Olaf—Clear blue on white.
- Dorothy Eckford—White.
- Captain of the Blues—Lilac.
- Christie Urwin—Coral red.
- White Spencer—White.
- Paradise—Rich pink.
- John Ingham—Deep carmine.
- Blush Spencer—Pale pink.
- Evelyn Hemas—Cream edged pink.
- Enchantress—Deep pink.

These are offered at the following rates:—

- 1/2 doz. packets assorted for 1s. 1d. post free.
- 1 doz. packets assorted for 2s. 0d. post free.
- 2 doz. packets assorted for 3s. 6d. post free.

They can be obtained by sending postal orders to the Secretary, Charing Cross Hospital, Agar street, W.C.

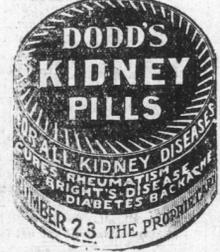

The Bruce Passengers.

The S. S. Bruce arrived at Port aux Basques at 6.15 p.m. yesterday having made a fair run from Louisburg. She had a large mail and cargo and her passengers were—J. W. and Mrs. Morris, L. E. Davidson, A. Robertson, J. H. Taylor, J. S. Steward, Capt. Bull, W. C. Gear, A. K. Lumsden, Miss May Furlong, J. W. Vedder, A. White and A. W. Sing.

ANNUAL MEETING HELD.
His Excellency the Governor occupied the chair at the annual meeting of the friends and supporters of the C. of E. Orphanage held last evening at 4 p.m. There was a very large attendance. Amongst those present were Lady Williams and the governor's Secretary. After a hymn was sung prayer was offered by Rev. James Bell, Secretary of the Managers' Committee. His Excellency then addressed the orphans in very acceptable and encouraging terms. There are at the present time 29 boys and 38 girls in the institution and the number is gradually increasing. A resolution of condolence was passed to the widow and family of the late Canon Dunfield who for 25 years had been Secretary of the Managing Committee. It was proposed by Mr. J. A. Clift and carried unanimously. The report of the Hon. Treasurer, W. B. Grieve, who is absent, was presented by Rev. James Bell. The election of officers resulted as follows:—W. B. Grieve, Hon. Treasurer; Rev. J. Bell, Hon. Secretary; Dr. Anderson, Hon. Physician. The Managing Committee consists of Miss Browning, Mrs. M. G. Winter, Rev. G. H. Bolt, J. A. Clift and G. H. Davey. His Excellency the Governor congratulated the officers on the excellent condition of the Orphanage.

Mr. C. McK. Harvey who moved a vote of thanks to the Governor said that the excellent standing of the institution was due in a large measure to Rev. Mr. Bell, the hon. secretary. Rev. Canon White pronounced Benediction after which the meeting closed.

Reckless Expenditure of Public Money on Construction of Marconi Stations.

\$3296 Paid to Crosbie's Firm, \$2200 of It for Two Sets of Spars and Rigging—Government Hires Schooner, Pays the Crew and Finds Everything, and Pays \$325 a Month for Schooner—Capt. W. H. Bartlett Gets \$663.40 for Superintendence.

Editor-Evening Telegram,
Dear Sir,—Will you please make public through your much esteemed paper certain items of expenditure under Mr. A. Piccott, Minister of Marine and Fisheries. They relate to money spent last summer on two Marconi Stations at Labrador, one erected at Macoevie Island, the other on Cape Harrison, but only partly erected. The account was tabled in the House of Assembly, and a friend sent me a copy from St. John's a few days ago. This would appear to be a sample of what is being done by Piccott, Seymour and the Picnic Party since they have had control of the hard earnings of fishermen, which now amount to about one third of all we earn. Isn't it a crying shame for Piccott to pay Will Bartlett out of the fishermen's money. Six hundred and sixty-three dollars (663.00) for a little over two months services, or at the rate of nearly Three hundred dollars (300) a month for doing a little work on the Marconi Stations.

Bartlett was very glad to get about Forty dollars a month with Dr. Grenfell for years. No wonder he gave up the job to shout for Piccott, and is now rewarded out of the Public Chest. The well-to-do Skipper Albert Morgan gets his reward also out of the fishermen's money to the extent of \$282—for what?

Skipper Elijah Mercer, another of Piccott's supporters (and he ought to be ashamed to take it) gets \$832 for the hire of his schooner, or at the rate of \$325 per month. The Government paying the men's wages, food and every other expense. Mercer as well as every other owner of a schooner at Bay Roberts knows that the hire of a schooner on the Labrador service has always been one dol-

CONGO ROOFING

NEVER LEAK

Congo is the only Ready Roofing carrying the National Surety Co.'s bond. It carries with it terms and conditions that make it especially attractive to anyone who must consider the roofing question.

For 10 years you can rest easy about your roof if covered with 3-ply Congo, and we know that it is probable you will get even longer service out of it.

The Surety Company is insuring these bonds, and back of them is their few million dollars of assets. It is a matter of keen satisfaction to us that they were willing to stand behind Congo Roofing. You are immune from any responsibility other than giving the roofing ordinary care. Write to-day for samples of Congo and full information.

Remember, that with every roll of Congo you get a genuine Surety Bond.

WASHINGTON, March 14.
The puzzle of Army and Navy mobilization about Mexico, has developed new and startling tangents. Chief among these was the news that filtered from the War Department, that the railroads have been secretly notified to get cars in readiness for moving 15,000 additional troops to the Mexican border. Besides making preparation for an additional Army to go to the Mexican frontier, the War Department is using its utmost efforts to recruit to war strength the regiments at the front. That the mobilization of troops is more than a war game is indicated by the action of the War Department in cancelling orders to infantry regiments, which have received instructions to leave for the Philippines.

An equestrian statue of the late King, to adorn the centre of the proposed Plaza Laurier, at Ottawa, is understood to be the wish of the majority of the Dominion cabinet, which has just approved plans for merging Dufferin and Sappers Bridge into the broad expanse of the Plaza. It was announced that a statue to the late J. A. McGeer would be given the place of honour in the Plaza, but as here are movements afoot in other cities to erect statues to the late King, the Government feels that the capital city of the Dominion should not be behind in thus honouring the memory of the deceased Sovereign.

Dedication of Methodist Church at Fortune.

Thursday March 9th, was a red letter day in the history of Fortune. The new church which has been in course of erection for the past two years was opened and dedicated according to the ritual of the Methodist Church. The building is said by all visitors to be one of the best churches in the conference outside the city, and the people of Fortune are proud of their edifice. It is a generous foundation, the interior, gallery, front, ceiling and wainscoting being of hard pine. In the west end a large memorial window glazed with coloured cathedral glass adds to the beauty of the building. This window has been given as a memorial to the late Mrs. Rev. W. Swann. We were disappointed in the non-arrival of the deputation, the Rev. J. Pincock, Rev. S. Snowden and Rev. H. Godfrey, being hindered by the storm which raged during the week of opening. At the last moment, Rev. E. Moore of Grand Bank, kindly consented to preach the sermon and with the assistance of the Pastor, Rev. C. R. Blount, the building was duly set apart for the worship of God and the administration of the sacraments of the Methodist Church. The morning opened fine, every home, that had bunting, displayed it to the best advantage, the local vessels in the harbor were gallily dressed, a general holiday was proclaimed and everybody in the highest spirit set out for a good day.

At eleven o'clock the bell called us together in the new house, and with a crowd from Grand Bank, the place was nicely filled. The service ac-

Indigestion & Dyspepsia

In all its Forms can be Cured.

It is quite a daily occurrence to hear persons say: Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything, I have no heart to exert myself and at times I care for nothing. I often have a pain in the pit of my stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden.

Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a Bottle of Dr. Stafford's Prescription. A sure cure for persons afflicted with stomach troubles. It can be obtained at

Many people are using Hazeline Snow as an application after shaving, but for the benefit of those who do not use it we would say a word or two. Hazeline Snow is a very bright, creamy paste, which dries rapidly with the skin leaving no trace in appearance and no greasy or sticky feeling. It acts as a mild astringent and helps to make and keep the face delightfully smooth and cool. Why not try a bottle! It may be the thing you have been searching for—the perfect after shave. Price 40c. a bottle.

Do you suffer from heartburn? A couple of Soda Mint and Pepsin Tablets will relieve it instantly. These tablets are frequently a cure for mild cases of indigestion. Price 15c.

Coal Company Making Preparations for Their Spring Opening—Vessels Just of the Stocks to Leave Shortly for Sydney.

The Dominion Coal Company has already commenced to get ready for the spring opening, and a large number of men are daily at work at the International Pier putting the water front in ship shape for the rapid handling of coal. They are interested in nothing but coal on that section of the harbor, the principal ob-

ject in life, apparently, being to dock a ship and see what record time can be made in loading and getting her away.

The company will have in the vicinity of twenty colliers on the "road" this summer, the majority of which will ply on the St. Lawrence. Already this season the Coal Company has chartered three new steamers, lately built in England. The Maritime Register, speaking of these ships, says:

The S. S. Stordard.
The steel screw steamer Stordard, built at the Walker Shipyard, Newcastle, Eng., of Messrs. Sir W. G. Armstrong, Whitworth & Co., Ltd., for Messrs. A. F. Klaveness & Co., Christiania, was taken to sea January 31st, for her trial trip. She is of the shelter deck type. Length over all, 452 ft.; breadth extreme, 58 ft.; depth, moulded, 28 ft. 8 in.; with d. w. carrying capacity of 10,650 tons. She

is built to the special survey of the Norske Veritas and to the requirements of the British Corporation, and is intended for the iron trade between Wabana, Newfoundland, and Sydney, Cape Breton, for which purpose extremely large hatches with special hoppers are arranged. Steam windlass and steam steering gear are supplied, and ten steam winches, ten derricks, and a complete outfit of cargo gear. Steam heating and electric light are fitted throughout. The triple expansion propelling machinery has cylinders 28½, 47 and 78 with 54 in. stroke, steam supplied from three boilers, 15 ft. 6 in. by 12 ft., working at 180 lbs. pressure under Howden's forced draught. During the trial the ship gave a mean speed of 12 knots. She sailed same day for Narvik under Captain Adressen.

The Sandefjord Launched.
The steamer Sandefjord was launched on January 30 from the Walker Shipyard of Messrs. W. G. Armstrong, Whitworth & Co., Ltd. She is one of the largest steamers yet built on the Ishenwood system of longitudinal framing. She has been constructed to the order of Mr. P. A. Gron, of Sandefjord. Length over all, 452 ft.; breadth extreme, 58 ft. She is of the shelter deck type, and is capable of carrying 10,650 tons. She is intended for the iron ore trade between Wabana, Newfoundland, and Sydney, Cape Breton, for which purpose extremely large hatches with special hoppers are arranged. The double bottom extends for the full length of the holds. She has been built to special survey of the Norske Veritas, and to the requirements of the British Corporation. A steam windlass and steam steering gear, ten steam winches and ten derricks are provided. Steam heating and electric light will be fitted throughout. The triple expansion machinery, to be supplied by North-Eastern Marine Engineering Co., Walsend, has cylinders 28½, 47 and 78 with 54 in. stroke, steam supplied from three boilers, 15 ft. 6 in. by 12 ft., working at 180 lbs. pressure, under Howden's forced draught, and will be capable of propelling the vessel at a speed of 11½ knots.

The Third New Steamer.
On January 31 the Batiscan left the Wear at Sunderland for her official trials. She has been built to the order of Messrs. E. F. and W. Roberts, of Liverpool, and is constructed on the Ishenwood system, with single deck-poop, fore-and-aft bridge deck, and top-gallant forecastle. She takes Lloyd's highest class. Her dimensions are: Length, 389 feet; beam, 52 feet, and depth moulded, 30 feet 9 inches. She carries a dead weight cargo of 7,850 tons on a moderate draught of water. The vessel has been specially designed to be chartered by the Dominion Coal and Iron

Company, of Sydney, C. B., and is arranged with 10 very wide hatches, with wing tanks, and with holds clear of all obstructions, so as to be entirely self-trimming. These hatches are fitted with steel hatch covers, hinged at one end of the hatch so that all hatches can be ready for handling cargo within a few minutes of arrival at loading or discharging port. The propelling machinery consists of triple expansion engines with cylinders 26, 44 and 73 inches in diameter and a stroke of 48 inches, taking steam from three large multitubular boilers. The trials proved in every way satisfactory, a mean speed of 12½ knots being attained.

These three ships are expected here early in April, and will immediately start to work on their charter.

**Expectations
and Receipts.**

When C— was over here, both fall and spring.
Good tidings, profits, too, his speeches did bring;
Paved streets on which the money, too, would ring.
Heav'n knows the good, if we to him did cling.
Would visit us: 'twould make a poet sing
On Orpheus' lyre, to make the heavens ring
With echo proud. But now another lyre is mine.
Of a liar could I sing, should I invoke the Nine
To such a coward theme—'twould bring the brine
From my own eyes to be so base
As old fam'd things thus to disgrace.
We did expect great things; what did we get?
Not all we shall, we have only as yet:—
A horse, majestic as a foxy cat,
A Bull, a monster, too, I'll warrant that
(Paved streets, the Lord knows, what we did expect!)
The telephone—that's true—I've never mentioned yet.
Our Post, a place so fine, as I can tell
Resembles those prisons down in Hell.
That Dante tells so fervently about!
Gems over there you think? That knocks me out!
A district this did get, but just you wait:
Big pensions and fat jobs augment much of late;
J. P.'s in more abundance, too, to us appear.
And travelling Picnic men, with cash to spare.
Our country sends abroad. Oh! dear, oh, dear!
Of arbitrations, grants, and canker potatoes.
Any thing to line their pockets I suppose!
Of canker potatoes did I speak? But I feel set
The Picnic Party has the canker yet!
My country! how my bosom burns for thee!

When in thy vital treasury such fearful things I see;
When thy wise governors so plainly show
They must be helped themselves, however you go;
They do these things so plainly that all know
And to remove disgust they shovel snow!
Mid such a crowd of sycophants what can we do
Oh, Bond! thou patriot, we look to you.

Though once we faltered you we admire the more,
And at the next election you will rule our shore.
CANKERED HOPES.

Two Lynn Murderers

Electrocuted at Charlestown, Mass., To-Day—One Kissed a Crucifix, While the Other Blasphemed.

Boston, Mass., March 7.—While both Andrie Ipsen and Wasill Ivanowsky, the young Lynn bandits, faced death without a tremor in the Charlestown State prison this morning after midnight, there was a marked contrast in their attitudes.
Ipsen, the nineteen-year-old lad, went to the electric chair with a smile. He nodded a farewell to a prison official, who had befriended him. He kissed the crucifix. Then he said "Good-bye" to the priest and he died. But with Ivanowsky it was just the opposite. He sneered and laughed as he took his seat in the chair. Then he blasphemed. He cursed the Deity and absent priest whom he had forbidden to remain at his side. He died with a sneer on his face.

Within nineteen minutes and twenty-three seconds from the time the first had come to the execution chamber the pair had paid the death penalty for the murder of Thomas Landrigan, a shoe manufacturer, and James H. Carroll, a policeman, in Lynn, June 25 last.

Three shocks were used in each case. Usually not more than two separate shocks are used.

BANK OF NOVA SCOTIA.
INCORPORATED, 1832.

Information for Depositors.
The following certificate is attached to the 79th Annual Statement, published January 16th, 1911:

We have examined the books and accounts of the Bank of Nova Scotia at its Head Office, Halifax, at the General Manager's Office, Toronto, and at seven of the principal branches, and we have been duly furnished with certified returns from the remaining branches and with all information and explanations required by us. The Bank's investments and the other securities and cash on hand at the branches visited have been verified by us and they are in accordance with the books; and we certify that we have examined the foregoing general statement and that in our opinion it is properly drawn up so as to exhibit a true and correct view of the Bank's affairs as at 31st December, 1910.

The Books and Annual Statements of the Bank have been submitted to independent audit annually, beginning 1906.

Methodist Conference.

Elaborate Arrangements Being Made for World Meeting in Toronto.
Toronto, March 3.—The Methodist Social Union of Toronto, at its twenty-second banquet in the Metropolitan Church last night, heard speeches from representative clergymen and laymen of various city churches on the subject of the fourth Ecumenical Methodist Conference to be held here from Oct. 4 to 17 next. The union extends for the purpose of church extension, but all felt that the coming of five hundred of the world's most prominent Methodists, showing as it will how Methodism has found its way into and adapted itself to every race and climate is so important as to deserve special mention.
Mr. N. W. Rowell, K. C., spoke of the great conference held in London ten years ago, the first of its kind. Two were held in London, one in Washington, D.C., and now Toronto will be the scene of the fourth and greatest.
Mr. J. W. Flavell referred particularly to the broadening influence that would be exerted in Toronto homes by association with some of the great Methodists.
Mr. J. R. L. Starr, K.C., in the course of his remarks, said that he believed the day of the paid evangelist is passing. He hoped so, any way, and he said that the time had come when the layman was going to put his business brain into the spiritual life of the church. With that it

would attain a standard that it has never come up to before.
Two hundred of the delegates will come from the Eastern conference—that is, from Great Britain and the missions depending upon her. Three hundred of the delegates will come from the United States and Canada, and their various mission fields. Australia, New Zealand and India will be represented.

A Japanese Evening.

This evening in the College Hall, Mrs. Pinsent who has spent five years in Japan, will give a representation of Japanese customs. Messrs. Thomas Bros., contractors, have built a house on the platform in real Japanese style, and the costumes to be worn by those taking part have been brought by Mrs. Pinsent from the Orient. This lady will give representation of taking meals, receiving visitors, playing with children, bowing, etc., so that those attending will see things just as they are done in Japan. There will be special choruses by a number of young ladies, and a short musical programme in which Miss Johnson has kindly consented to give a violin solo. Mrs. Pinsent will then give a short account of the life and work of a missionary. The entertainment will prove most interesting to all who attend.
