Atlanta Convict Cooked to Death.

Atlanta, June 19.—In his attempt to escape, hindered by double shackles, John Wallace, a convict, serving a term at the city stockade, was scalded to death in a sewer. Wallace was working with the road gang when he approached a man hole. Seeing an opportunity to get away from service, he waited until the guard's back was turned and then dropped into the hole, and in a minute was out of sight in its windings. Ten minutes after he entered and while the guards were standing over all manholes waiting, gun in hand, for him to attempt to get out, 10,000 gallons of boiling water were let loose in a raging torrent by the factory of Fulton Bag & Cotton.

Hoping to rescue the convict, Guard Manders, from whom he made his escape, volunteered to enter the sewer, but the superintendent of the works told him that it was useless and refused to allow the sacrifice. The convict was only a short distance in the sewer when the flood of boiling water struck him, and it is believed by the officers that he was literally cooked to death.

Will Make Hair Grow

Every up-to-date woman should have radiant hair.

There are thousands of women with harsh, faded, characterless hair, who do not try to improve it.

England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA the Great American Sage Hair Tonic. McMurdo & Co. sells a large bottle for 50 cents, and guarantees it to banish Dandruff, stop falling hair and itching scalp in ten days, or money back.

Workers Should Remember

(1) That whiskey possesses no nutritive value whatever, and therefore can afford no strength.

(2) That all alcohol drinks, on account of the alcohol—poison—they contain, may exert a brief temporary feeling of warmth and excitability, but they soon induce sleepiness and lower the body temperature.

(3) That alcohol drinks on account of the same poison, weakens muscular power, steadiness of the hands, and the whole mental and physical working ability—make one slow and inattentive, and diminish the power of self-preservation.

(4) That the regular use of alcohol increases the liability to all kinds of diseases, and prolongs recovery.

(5) That the habitual use of alcohol particularly favors liability to consumption.

(6) That the regular use of alcohol drinks causes an early loss of working ability.

(7) That "Blue Monday" is almost without exception to be attributed to (Sunday) indulgence in alcoholic drinks.

(8) That nearly half of the accidents occurring in working hours are caused by the use of alcohol.

(9) That the regular use of alcohol draws from the workman's pocket a large amount of money that is wasted, which would much better be spent for food and clothing and other useful things.

(10) That regular use of alcohol greatly endangers health and prosperity—Everybody's Monthly.

Can You Control Your Minds?

BY RUTH CAMERON.

Some of your hurts you have cured, And the sharpest you still have survived; But what torments of grief you endured From evils that never arrived!

—Emerson.

There is a great deal of real trouble in the life of every man and woman. Sometimes it seems to us as if we emerge from one difficulty merely to face another. Just as the baby gets over measles, the big brother falls and breaks his leg; just when the dark cloud of mother's illness is disappearing over the horizon, a new cloud appears from the other direction in the shape of father's business losses. There are times when all of us feel too keenly the force of that great sentence: "Man is born to trouble as the sparks fly upward."

Surely, then, with all this real trouble so handy, there is no need for us to make any extra trouble for ourselves.

And yet, as Emerson points out, most of us perpetually torment ourselves with the evils that never arise.

The older I grow the more firmly I am convinced that the very greatest factor of happiness in all the world is mind control—in other words, the ability not to torment ourselves in this way.

Can you control your mind? When you find yourself dwelling on an unpleasant topic, can you firmly remove your mind from it and think of something else? If you cannot, no matter how thoroughly fortune favors you, no matter how many of your wishes come true, how many of your ships come

MAN AND THE SOIL.

Dr. R. V. Pierce of Buffalo, author of the Common Sense Medical Adviser, says: "Why does not the farmer treat his own body as he treats the land he cultivates? He puts back in phosphate what he takes out in crops, or the land would grow poor. The farmer should put back into his body the vital elements exhausted by labor, or by ill-health induced by some chronic disease." Further, he says, "the great value of my Doctor Pierce's Golden Medical Discovery is in its vitalizing power. It gives strength to the stomach and purity to the blood. It is like the phosphates which supply nature with the substance that build up the crops. The far-reaching action of Doctor Pierce's Golden Medical Discovery

is due to its effect on the stomach and organs of digestion and nutrition. Disease, that begins in the stomach are cured through the stomach. A bilious spell is simply the result of an effort made by the liver to catch up when over-worked and exhausted. I have found the 'Discovery' to be unsurpassed as a liver regenerator and rich blood-maker."

Mrs. LOTTE KINSEY of Perth, Kansas, says: "I will here add my testimony of the effectiveness of your remedy upon myself. I was troubled with indigestion for two years or more. Doctored with three different doctors besides taking numerous kinds of so-called stomach cures but received no permanent relief. I was run down to the point where I could eat scarcely anything although I was hungry nearly all the time. About one year and a half ago I began taking your 'Golden Medical Discovery' and after having taken several bottles am nearly cured of stomach trouble. Can now eat without distress and have gained fifteen pounds in weight. I thank you for your remedy and wish you all success in your good work."

Household Notes.

Scraped raw potatoes, put into de-

canters with cold water, will clean them if left in for two or three days.

The fading of colored articles is due often not to the washing, but to the ironing. Too hot irons are used directly on the material, and this will more quickly fade delicate colors than any amount of washing. The effect is even worse than strong sunlight.

In cleaning out the bureau drawers and closets do no throw or give away underclothing that is much worn. By cutting the buttons and seams of these pieces make the very best of dust rags, mop cloths and cloths for cleaning woodwork or paint.

If you wish to have soft, fluffy, light and moist cakes, follow this rule: Never beat the eggs; add the unbeaten yolks to the creamed butter

and sugar; add the whites after all

the other ingredients have been added, just stirring enough to mix well with the batter.

After some years' usage every sewing machine is likely to clog up with fine dust which the machine oil collects on the bearings. As soon as the machine begins to work heavily, take off the shuttle, and then give every movable part a generous bath of gasoline.

If your last year's Panama star

hat is yellow and soiled, wash it in a

warm castile soap lather to which a

few drops of ammonia have been

added. Rinse well in tepid water, us-

ing a soft nail brush, and then rub

with a soft, clean rag until the hat

is thoroughly dry.

When in need of a patch to mend

seam of a little boy's pants of wash-

suits, and no material apparently is

available, take the underside of the

big sailor collar, thereby making a

better match than even new goods.

Replace the underside of the collar

with something suitable.

A wooden band to be used in place

of one's own when cleaning gloves is

a boon to the woman who must practice this little economy. Naphtha and

gasoline, as every one who has used

them knows, are apt to leave the

human hand that has been inserted in

the glove irritated and sore.

In laundering the skirts made of

fine, cotton goods or of woolen ma-

terial, it is better to pin them to the

line by the waistband, so that they

will hang straight down instead of by

the hem. If pinned at the top they

will shrink evenly all around instead

of sagging, as they often do by the

other method.

When marble is discolored by

grease or any stain, mix two parts

of common washing soda with one

part of chalk and one of ground pum-

ice stone. Have all finely powdered

and mix into a paste with water. Rub

it well over the marble and a few

hours later wash off with plain soap

and water.

When tired of sweet jellies and

puddings, mix

one cupful of

liver and

one cupful of

apple sauce and

one cupful of

orange juice and

one cupful of

lemon juice and

one cupful of

orange juice and

SPONGE CAKE

TUESDAY, June 25th, 1912.

The Synod and Conference.

This week things are given over largely to matters ecclesiastical. To-day the Diocesan Synod opens its annual session and the Methodist Conference begins its annual session to-morrow morning at 9.30 o'clock. There are a number of clergymen, especially large numbers of Church of England clergymen and Methodist ministers, and laymen accredited either to the Synod or to the Conference, and to all of them we extend a hearty welcome. We shall no doubt be furnished with official reports of their proceedings to which we shall give the publicity which such high maters warrant and which is within our power. Both bodies have brought distinguished visitors in our midst. The special dinner to-night at the Cathedral of St. John the Baptist is the Rev. Dr. Smith, of Washington, and the Conference has as its visitors Rev. Dr. Chow, General Superintendent of Methodist Church, Canada, Rev. Dr. Spragg, Dean of the Theological Faculty of Mt. Allison University, Rev. Dr. Spalding, and Rev. James Allan, M. A., Missionary Secretary.

What About the Dredge?

A few days ago we asked for the cause of delay in the sailing of the dredge which Mr. Piccott, Master of Marine and Fisheries, purchased on a special visit to the Old Country, when it was understood his mission was to make arrangements for the building of a new dredge. Mr. Piccott, however, had decided the building of a new dredge, but with the assistance of the Government, had purchased a second-hand one. Last week we asked why the dredge had not left. We now ask why she is not here as it was understood that she was to be here and at work in time and why reply has been given.

Last Friday a letter was received in town stating that the dredge had been on dock three times and had to go on dock a fourth time before she was considered fit to face the Atlantic.

The fishery to date has been very poor along the Southern Shore. Nothing comparatively has been taken in traps but at Tods Cove and vicinity hooks and liners have done fairly well. Some caplin have struck in but in no great quantity. The same applies to the S. W. Coast, but some will be had in myriads, the very thing the Frenchmen want for their bankers as it pretty well ensures them a good voyage.

DOCTOR'S SHIFT

Now Gets Along Without It.

A physician says: "Until last fall I used to eat meat for my breakfast and suffered with indigestion until the meat had passed through the stomach."

"Last fall I began the use of Grape-Nuts for breakfast and very soon found I could do without meat, for my body got all the nourishment necessary from the Grape-Nuts and since then I have not had any indigestion and am feeling better and have increased in weight."

"Since finding the benefit I derived from Grape-Nuts I have prescribed the food for all my patients suffering from indigestion or over-feeding and also for those recovering from disease where I want a food easy to take and certain to digest and which will not overtax the stomach."

"I always find the results I look for when I prescribe Grape-Nuts. For ethical reasons please omit my name." Name given by Canadian Postum Co., Windsor, Ont.

The reason for the wonderful amount of nutriment, and the easy digestion of Grape-Nuts is not hard to find.

In the first place, the starchy part of the wheat and barley goes through various processes of cooking, to perfectly change the starch into dextrose or grape-sugar, in which state it is ready to be easily absorbed by the blood.

The parts in the wheat and barley which Nature can make use of for rebuilding brain and nerve centres are retained in this remarkable food, and thus the human body is supplied with the powerful strength producers, so easily noticed after one has eaten Grape-Nuts each day for a week or 10 days.

"There's a reason," and it is explained in the little book, "The Road to Wellville," in pkgs."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Mrs. Linneman's Cakes, Colds, Etc.

Work of Art.

To-day there is displayed in the window of Mr. Garret Byrne's bookstore, an address from the students of St. Bonaventure's College to Bishop Power, congratulating him on his consecration. It is one of the most artistic works of its kind ever executed by residents of the city, and was done by Master Frank Keating, a pupil of St. Bonaventure's, and a son of Mr. John S. Keating, of the Treasury Department. Frank has the artistic temperament well developed and has won many prizes in the school of masterpieces. The address which is handsomely framed possesses a beautiful bordering and the design though complex is splendidly wrought. The script in which the address is written is perfectly done and is capped in the center with a beautiful seal of the arms of His Lordship and flanked on either side by pictures of St. Bon's and the Cathedral of St. George's in water colors, both being very realistically done. We congratulate Frank on the general excellence of his handiwork.

An Auto Accident

At 1.30 to-day as Chauncey Keslake with his son and Laurie, crossed the road at close range, and before the man could stop the vehicle hit him, knocking him down, and one of the wheels went over his body. With the machine, about 800 lbs. must have gone over the boy's prostrate form and he is so seriously hurt internally that fears for his recovery are entertained. The boy was badly cut about the face, and also crushed about the head. He did the best possible work, however. The boy is only about 5 years old. When the accident occurred Mr. James Kelly ran out and carried the little chap home.

Stricken With Paralysis

Yesterday morning Mr. Aubrey Hicks aged 69 of Prince's Street, who has been night watchman on the S. S. Neptune for some time past, was stricken with paralysis and when discovered was in a bad state. He was driven home, attended by Dr. Campbell and was brought to hospital yesterday for treatment.

13 Miners are Entombed.

Trinidad, June 18.—Thirteen miners are entombed and are believed to be dead as a result of an explosion in the new slope of the Victor American Fuel Company shortly after mid-night. Another miner badly injured has been rescued. The mine is 16 miles north of Trinidad. The main slope is badly caved and rescuers have been able to make but little progress. Rescue equipment is being rushed to the scene. Rescuers who entered the mine early to-day returned soon afterward with a Greek who was badly burned. A number of bodies have been located. Air is being forced into the wrecked entry.

The Lion That Escaped.

Barrie, Ont., June 19.—At Allendale a jungle lion, shipped from Renfrew to Saenger's circus, broke from its wooden cage in the express. The two messengers beat a hasty retreat and locked their car door behind them. The car was uncoupled to await the arrival of the trainer of the circus. When he arrived he entered the car. He had never seen the animal before, but in a few minutes he had it completely subdued and back in the cage again.

Coastal Boats.

REID'S STEAMERS.

The Argyle left Placentia at 5.40 p.m. yesterday bound west.

The Bruce left Port aux Basques at 10.30 p.m. yesterday.

The Dundee left King's Cove at 5.05 p.m. yesterday.

The Etliche left Trinity at 6.10 p.m. yesterday.

The Glencoe left Ramea at 7.05 p.m. yesterday.

The Home left Daniel's Cove at 3.35 p.m. yesterday.

The Solway is at Lewisporte.

The Sagona is north of Tint Cove.

Marine Notes.

The Seal left Harbor Breton at 8.30 a.m. yesterday.

The Lake Simcoe left Barbados for port Saturday last.

The R. M. S. Mongolian leaves Philadelphia to-day for here.

The R. M. S. Pomeranian is due tomorrow from Liverpool.

Mrs. Linneman's Cakes, Colds, Etc.

Minard's Liniment Cures Colds, Etc.

Roosevelt Cuts Adrift.

Special to Evening Telegram.

CLEVELAND, Ohio, To-day.

A small party from the ground up is Roosevelt's party. After a long session of discussions with his lieutenant, before leaving Chicago, in which there were several sharp clashes, Roosevelt decided to cut entirely away from the party with which his whole public career had been identified.

He said, "I am not compromise-no straddle with Cleveland Roosevelt. As an indication of his determination, he said, that when he returned to Oyster Bay he would communicate with a number of Democrats who, he thought, might wish to join the new party.

Trial Sprint.

White in Montreal recently Mr. Geo. Knight, our local 100 yards runner, made an excellent impression on some of the Canadian sprinters. Although not in trim he had a spin on the cinder track there and covered the hundred yards course in ten seconds, which was quite a record.

AT PETTY HARBOR.—At Petty Harbour and Maddock's Caves, cod bait was never so plentiful; cod, however, is abnormally scarce and the traps and boats do not get enough for the consumption of the people of the village.

INVERMORE'S PASSENGERS.—The Invermore arrived at Port aux Basques at 7.55 a.m. to-day with the following passengers: L. F. Cashman, E. V. Dakes, J. Cooke-Orrborough, Miss May Cooke-Orrborough, T. A. and Mrs. Smith, Miss A. Cook, Miss Louise Churchill.

PASSENGERS BY TRAIN.—By the shore train to-day there arrived Rev. Finn, Donnelly, Smart, Bailey, Craig, Miley, Messrs. Chafe, McKay, Rowell, Judge Oke, Mr. Moulton, Mrs. and Miss Ferguson, R. Roach, D. Fitzgerald and 50 others second class.

At Bonavista where very little cod has been taken to date the fishery is looking up the past few days. Caplin are plentiful at King's Cove and good samples of this bait have been brought to Bonavista. The boats which go off to the "Hairy" daily get from 5 to 6 qts., and the fish are of large size.

Seriously Injured

As Mr. Fred Mander of Ayre & Sons, was cycling east on the King's Bridge Road last night at a swift pace the front wheel of his bicycle became dislodged and falling out became caught in the front wheel. Mr. Mander was thrown to the ground, was rendered unconscious and received very serious injury. He was conveyed home to Virginia Waters by people passing after he recovered and Dr. Mitchell was called and quickly responded. It was found that his jaw bone had been broken; his shoulder dislocated, his arms severely cut and his face was a mass of wounds, some of them very deep. The doctor gave him the best possible attention and it is believed he will be confined to his room for a month at least.

Train Notes.

By the Bruce express at 6 p.m. yesterday there went T. T. Cartwright, E. Bowring, Jas. Hearne, H. Ring, H. B. Potter, J. Murphy, Jno. Kelly, J. J. Murphy, and 70 others.

The local arrived here at 9.45 last night bringing Carter, Meany, C. P. Pease, Mr. Tolson, Mr. Pease, Mr. Pease, Mr. Caldwell and wife, J. Lindberg, Miss Smith, Mr. Lyon, Mr. Pippy, J. J. Murphy, Revs. Petley, Payne, Harris, several other clergymen and 50 second class.

The west bound express arrived at 10.45 this morning.

The incoming express left Port aux Basques on time and is due here at noon to-morrow.

The local arrived at 12.45 p.m. today with several passengers.

Here and There.

COMING DIRECT.—The S. S. Simon left Montreal at 8 a.m. Sunday coming direct.

STAFFORD'S LINIMENT for sale by Mr. C. P. Egan, Duckworth St.—June 20th.

POLICE COURT.—Very little business was done in court to-day. Two Norwegians drunk, were discharged.

ORGANS.—In the famous Needham Organ, sold in tens of thousands of homes, eight styles to select from. Call and see them. CHESLEY WOODS, Sole Agent for Nfld.—June 25th.

GEAR DAMAGED.—When the north east came up yesterday evening it caused a heavy sea to run into Pouch Cove, as a result Gould's and other stages were partially torn away, several traps were badly torn and much loss was occasioned the fishermen.

TO OUTPORT VISITORS.—A cordial invitation is extended to visit our warerooms and rest a while. Will be glad to show our pianos and organs and let them have a good time.

CHESLEY WOODS, Sole Agent for Nfld.—June 25th.

FOGOTON'S PASSENGERS.—The Fogota sailed north at 10 a.m. to-day with a full freight and the following passengers: S. P. and Mrs. Whittaker, 2 children, Joseph Hall, S. Reid, Miss Mary J. Rice, Hon. J. C. Crosbie, Edgar Templeman and 11 in steerage.

THE TELEGRAM.—Copies of "The Evening Telegram" may now be purchased in Boston, from the Eagle News Company, 76 Summer Street.—t

Marine Notes.

The Seal left Harbor Breton at

8.30 a.m. yesterday.

The Lake Simcoe left Barbados for port Saturday last.

The R. M. S. Mongolian leaves Philadelphia to-day for here.

The R. M. S. Pomeranian is due tomorrow from Liverpool.

Minard's Liniment Cures Colds, Etc.

Minard's Liniment Cures Colds, Etc.

Exceeding the Limit.

It has been noticed of late that some of those who go to Merchant Road at night go at a fast pace and exceed the speed limit. If some of these people do not take the hint the police will be after them. This is a popular resort for pedestrians nightly and their lives should not be menaced by reckless drivers.

Personal.

Mr. Edgar Parsons leaves for Sydney to-night by the express on business.

Henry Petley of Bay of Islands who arrived here yesterday is a guest of Mrs. Collingwood at her residence, Howley Avenue.

Here and There.

Stafford's Liniment for sale by Mr. Codner, Henry Street.—June 20th.

AT PETTY HARBOR.—At Petty Harbour and Maddock's Caves, cod bait was never so plentiful; cod, however, is abnormally scarce and the traps and boats do not get enough for the consumption of the people of the village.

I.O.O.F. Election.

Atlantic Lodge, I. O. O. F., No. 1, held a meeting last night at which the following officers were elected for the coming term: W. J. Butler, N. G. Reid, Long, G. A. Young, Dr. J. W. J. Long, W. T. Quirk, Fin. Sec., W. J. Long, Treasurer. Installation will be held on Monday night next. Mr. J. C. Phillips, D. D. G. M., was a candidate as president.

INVERMORE'S PASSENGERS.—The Invermore arrived at Port aux Basques at 7.55 a.m. to-day with the following passengers: L. F. Cashman, E. V. Dakes, J. Cooke-Orrborough, Miss May Cooke-Orrborough, T. A. and Mrs. Smith, Miss A. Cook, Miss Louise Churchill.

PASSENGERS BY TRAIN.

By the shore train to-day there arrived Rev. Finn, Donnelly, Smart, Bailey, Craig, Miley, Messrs. Chafe, McKay, Rowell, Judge Oke, Mr. Moulton, Mrs. and Miss Ferguson, R. Roach, D. Fitzgerald and 50 others second class.

Shrewd Buyers will anticipate their wants for many months to come.

THE ROYAL STORES LIMITED

Hr. Grace Notes.

Mr. Selby Garland, cooper, has purchased the house owned by Mr. James Garland, on Garland Street.

Constable Grouchy has just removed to Victoria Street, where he has rented the fine residence owned by the Kean's estate, John Trapnell, Esq. agent.

Mr. James Alyward is again to the front with his gardening. He has some splendid potatoes that are just now coming out in blossom.

Mr. and Mrs. George Parsons and their little boy spent some time last week in town the guests of Mr. and Mrs. E. E. Parsons. Mr. P. left for

home, but Mrs. Parsons will remain a few days longer.

What came near being a serious affair for Mr. John Lynch, and in fact other residents of Harvey Street, occurred on Saturday afternoon. It appears that a few minutes after the train passed at 2.30 on Saturday afternoon Mrs. Lynch noticed fire at the rear of their house; sparks from the train falling on a broom standing in the corner started the blaze, which was only discovered in the nick of time. Had the fire not been discovered so quickly serious consequences would have resulted, as in a store close by were two casks of kerosene oil. Mr. Lynch carries no insurance, and as his house is only about 15 feet from the track he is uneasy, especially at night. The place is on an up grade for the train and when taking that everything is "opened out." This would have been poor consolation for Mr. Lynch had his houses, shop full of goods, and the savings of a life time been destroyed. He desires us to call the attention of the Messrs. Reid to this, in the hope that great care will be taken in future.

"Save me from my friends" can truly be said by the owners of the small business places in town on reading the New's correspondent's item referring to them as hucksters, and claiming that their shops will be the only ones open on Wednesdays during the summer. His summer is not the same as that of most people, as one of our largest provision and grocery dealers, whose Labrador interests are way up in the thousands of dollars, will also have his business place open on Wednesdays. This business man was satisfied to keep one whole holiday and three halfs each month, but that not being satisfactory he will keep his shop open. Outport people will, therefore not be inconvenienced in coming to Harbor Grace any Wednesday during the summer.

CORRESPONDENT.
Harbor Grace, June 24, 1912.

Sad Drowning Fatality.

Mr. R. C. Smith, Supt. Anglo-Telegraph Company had a message last evening acquainting him of a double drowning accident in which Mr. James J. Thomey, operator at Bay du Nord, and his son, were the victims. Particulars of the sad happening are not yet to hand. Deceased was a native of Harbor Grace and well liked and esteemed. His wife predeceased him 4 years ago.

He intended to go to Pushtrough to reside in future and it is believed that he was on his way there in a boat when he and his son were lost. Both bodies have been recovered. Four daughters and three sons are left to mourn.

LABORERS BUSY.—Yesterday being so fine on all the wharves along the harbor front big "batches" of fish were spread out to dry. Much labour was afforded as a result of this.

The Candidate.

BY H. L. RANN.

The candidate is a lowly and ingratiating individual who earns a living by running for some office and putting the skids under the present incumbent. He is always fired with zeal during a primary election and is frequently fired with a loud report a few months later, with the aid of the Australian ballot. As soon as a man becomes a candidate for anything, from justices of the peace up, the neighbors pull out a few tablets of memory and begin to remind each other of the time when he circulated a mulct petition and chewed the deceptive clove. Let a man bob up for congress and he will be pursued from one end of the district to another by outlawed shoe bills and the still, small voice of the chattel mortgage. The candidate is the original and unspoiled optimist. He is never disturbed by anything except the election returns, and flatters about among an unpurchaseable citizenship accompanied by pale cigars and the clarion voice of reform. Some candidates never know when they have had enough and come up every two years with a new half-tone cut and a platform which is guaranteed to cure all the carbuncles on the body politic. Others run once around the track without getting back their entrance fee, and then retire hastily to some secluded spot where they can commune with their expense account and swear off in language which would choke a fire extinguisher. After a defeated candidate picks himself out from under a pile of scratched ballots and returns home so that the neighbors may view the remains, he becomes a desperate character and bolts the ticket with bloodshot eyes. Many a man has deserted a 160-acre farm to become a candidate for some county office that destroyed his appetite for work to such an extent that whittling a toothpick left him completely fagged. The father who persuades his son to run for an elective office ought to be prepared to pension him when the voters have got through expressing their opinion of his qualifications.

The Nickel.

The Nickel Theatre, in its present position, cannot be improved upon. It stands for something away above the ordinary picture show; it is an entertainment for the classes, as well as the masses, for unquestionably, it is a superior style of show. The vitagraph monthly magazine of current events was the outstanding attraction last night. This is a most interesting and highly diverting innovation, showing President Taft witnessing the Lacrosse game at Chicago, just previous to the famous Presidential convention. Aviation at Long Island and other topical subjects. The picture of the head-on collision between two locomotives specially arranged was particularly thrilling and was greatly admired. With Miss MacKenzie, Messrs. LeRoy, McCarney and Duprez, the Nickel has a most superior show and to-night it should bring another large attendance.

Wedding Bells.

The marriage of Mr. John M. Brown and Miss Lilian Grace Irving took place last evening at the residence of the bride's parents, Rev. F. S. Coffin of St. Andrew's Church officiating. The bride was handsomely costumed and was given away by her father. The groom was supported by Mr. R. Montgomerie while the bride was attended by her sister, Miss S. M. Irving. After the ceremony supper was served and the health of the bride and groom honoured, after which Mr. and Mrs. Brown left by motor car for Holyrood to spend their honeymoon.

Arrests Made.

The police doing duty in the west end yesterday afternoon had some tough customers to deal with. One burly sailor was arrested and handcuffed by Const. Humber alone and driven to the station. Another drunk who was stopped from getting more "sassed" Const. Furlong and was quickly given a berth in No. 4. A couple of others were also arrested.

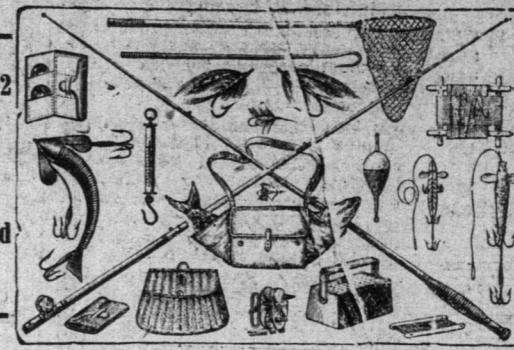

FROM LAMALINE.—The Schr. J. J. Nolan, arrived here yesterday with 300 qts. fish caught last fall for A. Goodridge and Sons Ltd. She reports no fish in that section for traps or hook and line. Last week a big forest fire raged for 3 days, away in the country from Lamaline and burned a thickly wooded and wide tract of land. Rain which fell quenched the fire.

Diocesan Synod.

To-day the biennial session of the Diocesan Synod will be opened by His Lordship the Bishop of Newfoundland.

At 7:30 a.m. there was Holy Communion service in the Cathedral at which an offertory was taken up for the Clergy Sustentation Fund.

Between three and five this afternoon the lay delegates will sign the Roll.

At 7:30 p.m. there will be Evensong and Sermon in the Cathedral, the preacher being the Rev. C. Ernest Smith, D.D., D.C.L., Rector of St. Thomas' Church, Washington, D.C.

At 9 p.m. the Synod will be formally opened and the Bishop will deliver his address.

Wednesday, June 26th, Thursday, June 27th, Friday, June 28th, Saturday, June 29th—Matins, 7; Holy Communion, with Address, 7:30; Evensong, 5:30. The Address, at Holy Communion, will be given on Wednesday by Rev. Canon Bolt, M.A., Thursday, by Rev. Canon Bishop, R.D., Friday, by Rev. A. G. Bayly, M.A., R.D., Saturday, by Rev. C. E. Smith, D.D., D.C.L.

Fourth Sunday after Trinity, June 30.—Holy Communion at 8; Matins, 11. Preacher, Rev. Canon Bishop, R.D. Service for men at 3. Preacher, Rev. Canon Colley; Evensong, 6:30. Preacher, Rev. A. G. Bayly, M.A., R.D. Monday, July 1st, and Tuesday, July 2nd—Matins at 7; Holy Communion with Address, 7:30; Evensong at 5:30.

The Address at Holy Communion will be given on Monday by Rev. C. H. Barton, M.A., Tuesday by Rev. G. H. Field.

Governor Visits Household Science School.

His Excellency the Governor and Lady Williams, and the Chief Justice and Lady Horwood visited the Household Science School yesterday afternoon. They were received by the Superintendents of Education and their wives. A class from the Mercy Convent was at work under the direction of Miss Wright, its capable teacher. His Excellency spoke words of encouragement and was followed in brief addresses by Sir William Horwood, Dr. Curtis, Mr. Blackall and Mr. Burke.

A Reminiscence.

The taking of the bell to St. Patrick's Church last evening reminded the older ones in the gathering of a similar demonstration which occurred in 1864. About 100 tons of brick were landed at H. J. Stabb's premises for St. Patrick's Church which was then being erected, a special dray was built for the occasion, the brick stowed on it and properly secured and hundreds of people drew it to the structure. The Phoenix and Cathedral Volunteer Fire Brigades participated and Rev. Father Conway and the late Frank Boggan, Chief of the Phoenix Brigade, stood on top of the great pile of brick as it was drawn through the streets to the music of the bands in the procession.

All Aboard for Bell Island!

With the Mechanics Amusement Club, July 3rd, by the S. S. Ephphatha, leaving Pitt's Wharf at 7:30 a.m. sharp, returning July 4th, at 7:30 a.m. Sports, consisting of football, cricket, etc., will be held during the day. At night a dancing assembly will be held in St. Joseph's Hall. A brass band orchestra will accompany the excursions. Tickets for the round trip, only \$1.00. M. J. Doyle, Chairman, R. A. Joy, Secretary.

25 t.u.s.

Killing Goats.

The people of the western part of the south side road rear a lot of goats which are very useful to them. They are put out to graze on the south side hills and yesterday it was discovered that the dogs which roamed about there had killed several. Mr. Ben Squires who owned one of the goats killed by the brutes went up and shot two of them. His son who went up on the hill was attacked by two of these brutes more vicious evidently than their fellows and would have been badly bitten but that he beat them off with a cudgel which he carried.

A Pleasing Presentation.

Last night a deputation from the Typographical Union called at the residence of Mr. William Skanes, late Secretary of the Union, and presented him with an address and purse. The presentation was made by Mr. E. Maidment, and the recipient thanked the donors heartily. Mr. Skanes leaves by the Bosphorus for Montreal. He was very popular in the Union. Mr. James Nichols has been appointed to fill the position vacated by him.

Minard's Liniment for sale everywhere

Subscriptions To the Marine Disaster Fund.

Last evening the Executive Committee of the Marine Disaster Fund Committee met for the transaction of business. The editors of all the newspapers of the Colony were added to the General Committee.

The offer of Mr. Jack Rossiter to give an entertainment in aid of the Fund, and of Mr. Myler to arrange a cricket match for the same purpose were accepted.

Arrangements were made to begin the work of collection to-day. Hon. W. C. Job and Mr. Hepburn will take Water Street from Beck's Cove West, and Hon. John Harris and John A. Robinson from Beck's Cove East.

At present the monies received and amounts made are as follows:—

To amount already acknowledged
Job, Bros. & Co. \$3,665.00
W. S. Monroe 100.00
Emilia G. Sterling 5.00
Helen Martin (proceeds of Children's Bazaar) 1.65
Imperial Tobacco Co. (N.Y.) Ltd. 200.00

I.S.P.U. Employees (Harvey & Co's) per James McGrath, President 24.00
Hearn & Co. 200.00
J. A. W. McNelly 10.00
Geo. R. Williams 10.00

\$4,718.05

At least five times as much must be subscribed to provide for the widows and orphans of those lost on the S.S. Erna, and the ailing ships Aurora, Grace Darling, Louise, Arctic, Sagamore, and Belgrave, on the scale of the provision made for those left bereft of help by the Greenland disaster. We have no doubt that the response will eventually be as liberal in proportion to our means and to the necessities of the sufferers as was made in the case of the Titanic funds in England, where the public had to be induced to stop subscribing as all the funds needed were in hand.

McMurdo's Store News.

TUESDAY, June 25, 1912.

Oxo-Cubes is the latest thing in Beef Tea Extracts, and is one of the best and most delicious things of this kind. One of these cubes contain sufficient extract to make a cup of good strong beef tea, which contains not only the juices and flavour but the fibrin—the nourishing part of prime lean beef. For picnic parties, campers, tourists, autists, cyclists, and pedestrians it is very handy to prepare and very satisfactory. Prices, 1s. and 3s., a tin containing 4 and 10 cubes respectively.

Cream of Lilies well repays the user for a little attention to the skin. It removes tan and sunburn, and relieves that burning of the face and hands which is so prevalent and so annoying in summer. Price 2s. a pot.

CABLE NEWS.

Special to Evening Telegram.

BALTIMORE. To-day. All hope of averting a fight in the Democratic National Convention vanished when the House of Delegates approved the selection of former Judge Parker of New York as temporary chairman. In defiance of the threat of Wm. Jennings Bryan to make an issue of the alleged conservatism of Judge Parker as opposed to the progressivism which the distinguished Southerner represented, it was revealed. An effort was made by the National Committee to placate Bryan, but the Conference resulted in a complete failure. Bryan announced if no other good progressive could be prevailed upon to make the race, he would enter the field himself as opponent to Judge Parker.

Special Evening Telegram.

LONDON. To-day. Lloyd George in speaking on the supplemental estimates said there was a new item of expenditure and development of the resources of East Africa and Uganda. The Colonial Office was pressing the Exchequer for an advance of £1,000,000 for the development of that great country. He had recommended a year or two ago that a portion of the surplus should be extended to the extension of the railway of Uganda and of the protectorate and for construction of an adequate deep water pier and jetty. There was no doubt at all he said, about the enormous possibilities of that great country. There was an increase from year to year of products coming from that quarter, especially of cotton and wheat. It was undeniable the interest of Britain to assist every new nation producing entirely. This was the lesson which Britain had had in the shortage from the States last year by its injurious effect on our cotton industry. It showed it was dangerous to rely exclusively upon one particular source of supply for one of our most important staples. He proposed that the Government should propose to the Colonial Office a sum of half a million pounds at a fairly remunerative rate of interest. The remaining five million pounds of surplus should, he said, be devoted to the redemption of the National Debt.

ST. JOHN'S. To-day.

The Colonial Office was pressing the Exchequer for an advance of £1,000,000 for the development of that great country. He had recommended a year or two ago that a portion of the surplus should be extended to the extension of the railway of Uganda and of the protectorate and for construction of an adequate deep water pier and jetty. There was no doubt at all he said, about the enormous possibilities of that great country. There was an increase from year to year of products coming from that quarter, especially of cotton and wheat. It was undeniable the interest of Britain to assist every new nation producing entirely. This was the lesson which Britain had had in the shortage from the States last year by its injurious effect on our cotton industry. It showed it was dangerous to rely exclusively upon one particular source of supply for one of our most important staples. He proposed that the Government should propose to the Colonial Office a sum of half a million pounds at a fairly remunerative rate of interest. The remaining five million pounds of surplus should, he said, be devoted to the redemption of the National Debt.

ST. JOHN'S. To-day.

Mr. George in speaking on the supplemental estimates said there was a new item of expenditure and development of the resources of East Africa and Uganda. The Colonial Office was pressing the Exchequer for an advance of £1,000,000 for the development of that great country. He had recommended a year or two ago that a portion of the surplus should be extended to the extension of the railway of Uganda and of the protectorate and for construction of an adequate deep water pier and jetty. There was no doubt at all he said, about the enormous possibilities of that great country. T. J. EDENS

Note From Dr. Wakefield

Editor Evening Telegram,

Dear Sir—Some time ago the question was raised in your paper as to my reasons for warning the public in my lectures against the use of patent medicines. I thereupon stated that I would gladly give my reasons, but that I must be granted time to obtain information of certain details.

Delay after delay has ensued, caused first of all by press of work, and secondly by sickness, lately followed by a most urgent call to the north which kept me three weeks. Now I have to leave for Britain. I am not however packing down in any way from the position I have taken up in the matter, it is only extreme stress of circumstances which has prevented me from laying my case before the public, and I hope to ventilate the matter further on my return.

Thanking you for allowing me to explain the position to any who may have been wondering at my silence, I am,

Yours sincerely,

A. W. WAKEFIELD.

St. John's, June 21, 1912.

A letter of a similar tenor appeared in the Daily News of Saturday. It will be observed that the letter bears the impress that it was written in the early Friday last. On Monday it was found in our box at the East End Post Office. It was not there on Saturday afternoon when the box was emptied. The stamps impressed by Post Office on the front of the envelope bear date June 21st. From this it will be seen that it was received by the P. O. on Friday and took two days to get from one P. O. to the other in the city and arrived in our hand two days after a letter probably posted at the same time had appeared in the Daily News. We direct the attention of the P. M. G. to this matter.—Ed.]

Light, Warmth and Food.

These three words embrace the most urgent necessities of Life, and it is an extraordinary thing that in each case our thoughts turn to Gas, and all, is but natural. We want Light, gas gives us the best, cheapest and healthiest, artificial light known. Again, we want Warmth, and the gas fire is at hand to give it in its best form; and, lastly, we must have Food, and here the gas-cooker never fails. All this is absolutely true, as we have said, and it is apparent.

If, however, any of our customers are in the least doubtful as to any of these points, we cordially invite them to consult us. In the meantime, our advice is to get good burners and buy mantles of well-known makes, to use modern gas fires and cookers, and above all, to keep your gas appliances (whether old or new) in good order, for in this is the true secret of efficiency and complete satisfaction.

Footers to Visit Here.

We understand that the Football League are now making arrangements for a visit of the Bell Island footers to play a series of football matches with a picked team from the city. Those who have witnessed the games on the Island say that our boys will need considerable practice in order to compete favourably with the visitors. We hear that the proposed visit will be made the second week in August.

SEVENTY BERGS OFF BELL ISLAND.—According to a message received yesterday afternoon by the Marine and Fisheries Department they were seventy icebergs sighted off Bell Island, some of which were very large and dangerous to shipping.

A Little Talk About BUTTER.

In buying BUTTER there are just two things which have weight with the consumer—PRICE and QUALITY. Poor butter is expensive at any price. For a good article everybody is willing to pay a fair price. Our prices are not simply reasonable, they are extremely low. Our qualities are not merely fair, they are absolutely the BEST.

Special to Evening Telegram.
PORT ARTHUR, Ont., June 24.

That Britain's naval strength is the only factor which prevents war between Germany and Britain, was the statement made here to-day by James Vickers, of the firm which makes nearly all Britain's Dreadnoughts and heavy ordnance. This, coupled with the declaration that the relations between the two countries are undoubtedly strained, made it probable that war would never be, so long as Britain maintained her present policy of two Power strength. Vickers is here with the British manufacturers, touring Canada.

Special Evening Telegram.
LONDON, June 25.

Lloyd George stated in the Commons that there were two contingencies regarding the disposal of the £6,500,000 surplus. The first was whether the coal strike could cause a loss of revenue in consequence of decreased consumption. He was now able to say that such was the buoyancy of trade that the estimates of revenue would be well within the mark. The other contingency was the possible increase of the demands of the Admiralty. Churchill had already stated that he based his estimates upon the assumption that the German Naval law would remain unaltered. There was a bill before the Reichstag at that time providing for considerable additions. That Bill was now an Act. There was no longer a contingency but fact. In due course Churchill would submit supplementary estimates. He did not desire to anticipate his statement, but referred to it as necessary to explain the financial statement he was making to the House. This year Churchill's demand would not exceed £1,000,000. The heaviest charges would fall in subsequent years. A balance of £5,500,000 would, therefore, be left not disposed of.

Signed:

Avalon Lodge Installation.

Rev. Bro. Canon Bolt, M. A. was last night installed as W.M. of Avalon Lodge, A. F. and A.M., with the usual imposing ceremonies. The installation was conducted by the District Grand Master, R. W. Bro. J. A. Clift. He was assisted by Past D. D. G. M. Pinson, D. G. M. Cowan and others. The brethren were present in large numbers and at the termination of proceedings an enjoyable time was spent in the banqueting room. Before leaving the newly installed W. M. received the grand honours and the felicitations of all present, including those of the Masters of Sister Lodges and installing officers. A splendid jewel the workmanship of Mr. T. J. Dutey was presented the retiring master W. Bro. Jos. Nunnis. The collection was for the Tasker Educational Fund. The officers for the year are:

W. Bro. Rev. G. H. Bolt, M.A.—W.M.
Bro. J. Nunnis, P. M.—I.P.M.
Bro. A. H. Salter—S. W.
Bro. J. E. Hurst—J.W.
Bro. Rev. Henry Uphill—Chaplain.
Bro. E. M. LeMesurier—Treasurer.
Bro. A. R. Woolgar—Secretary.
Bro. R. W. Spy—S.D.
Bro. A. Osmond—J.D.
Bro. G. Taylor and W. F. Butler—Stewards.

Bro. C. E. Hunt—I.G.
Bro. Geo. Morris—Tyler.

An Appreciation.

On Wednesday evening, June 19th, at Botwood, the Rev. W. J. and Mrs. Morris being absent from the Parsonage for a short time, found on returning that the members of the Ladies Aid Society had taken full charge. The table had been spread and was loaded with various kinds of good things which had accumulated with fairylike swiftness. Mrs. Baird, Secretary of the Aid on behalf of the members then presented Mrs. Morris with a very handsome eight-day clock and the following address:—

Dear Mrs. Morris:—

We as members of the Ladies Aid are presenting you with this little gift not because of its value, but to show you that we have very heartily appreciated your presence with us. Your place in the Methodist Church of Botwood will be exceedingly hard to fill. As President of the Ladies Aid your untiring and persistent efforts against difficulties were always inspiring to the members of the Aid and counted largely for its success.

As you will soon be leaving us for a new sphere of work we wish both you and Mrs. Morris every success. When you leave you take with you our warmest and best feelings, and sincerely hope that you both may be spared for many years to work in the Master's vineyard.

The heaviest charges would fall in subsequent years. A balance of £5,500,000 would, therefore, be left not disposed of.

Signed:

B. BAIRD, Secretary;

L. JEWLER, Vice-President;

V. ANTLE,

M. DEAN,

M. J. HUTCHINGS,

M. A. ROBERTS,

C. DEAN,

E. MERCER,

H. WHITEWAY.

REPLY.

Dear Friends:—

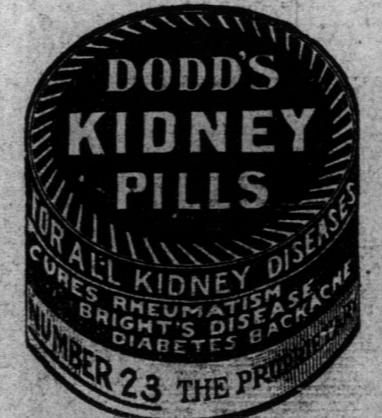

The presentation of your gift as of your address for which I thank you, has completely taken me by surprise. If I have done anything worthy of your commendation it has been due entirely to your kind assistance and the crowning blessing of our Heavenly Father.

In the future days to come I hope to return in the mirror of memory a reflection of the many happy hours we have spent together and can assure you for all time a warm place in my heart's affection.

In our new sphere of toil in the Master's Vineyard we shall ever work for the Glory of God and the good of humanity. Mr. Morris joins with me in wishing you future success in your work and express the hope that the earnestness which has characterized your efforts in the past will be evidenced in future.

Yours, very sincerely,

SUSIE MORRIS.
