CALGARY, FRIDAY, JULY 19, 1912

ELEVENTH YEAR—No. 121

BUILDING PERMITS IN CALGARY FOR FIRST SIX MONTHS ARE \$8,540,670

That is the Crystallization of a Report Just Issued by City Commissioners

Municipal Activity is Vividly Reflected by the Official Bulletin

Estimate is Made Expenditures in Calgary for Year Will Reach \$50,000,000

Assessed Valuation of City was \$1,911,736 in 1891; in 1912 it was \$112,554,400

THE valuation of Calgary building permits for the first six months of 1912 totalled \$8,540,670 or approximately three-quarters of the total value of all permits issued for the preceding year is a striking revelation of a highly interesting public bulletin just issued by the city commissioners, J. W. Mitchell, mayor, chairman, S. J. Clarke and A. G. Graves. The enormous growth of Calgary in commercial buildings, realty values, inland and custom revenues, educational facilities and all other branches of municipal activity is vividly reflected in the bulletin.

The building permits issued during the first six months of 1912 totalled \$8,540,670 or approximately three-quarters of the total value of all permits issued for the preceding year is a striking revelation of a highly interesting public bulletin just issued by the city commissioners, J. W. Mitchell, mayor, chairman, S. J. Clarke and A. G. Graves. The enormous growth of Calgary in commercial buildings, realty values, inland and custom revenues, educational facilities and all other branches of municipal activity is vividly reflected in the bulletin.

Category	Value
Residential	\$5,000,000
Commercial	\$2,500,000
Industrial	\$1,000,000

Other	\$540,670

Assessed Valuation Doubles

Year	Assessed Valuation
1891	\$1,911,736
1901	\$5,000,000
1912	\$112,554,400

PERMITS TO BUILD GIVEN OUT YESTERDAY

A building permit for a \$6,000, 2-story apartment was issued yesterday at the office of the building inspector, G. F. Dippie. The structure is to be erected on block 19, section 16, 2021 Fourth avenue, Belleville.

James A. Milligan, one-story frame, parts lots 12 and 13, block 4, section 21, Highway, \$1,000.

John O'Hara, two-story frame, lot 11, block 23 section 21, Sunnyside, \$1,100.

Robert A. Stein, 2 1/2-story frame, parts lots 2 and 3, block 77, section 16, 11th avenue west, \$2,000.

James Beveridge, one and one-half-story frame, lot 2, block 14, section 20, West Mount Pleasant, \$800.

William Peckman, one-story frame, lot 20, block 8, Kensington, \$100.

J. S. Runnels, one-story frame, lot 10, block 57, Beaumont, \$100.

M. J. Davidson, two-story frame, lot 8 and part 7, block 15, section 9, Blakesley, \$4,000.

J. H. Gray, two-story frame, lot 5, block 45, section 8, South Calgary, \$2,000.

John W. Stickney, storey and one-half frame, lot 13, block 9, section 21, Sunnyside, \$2,000.

School board, cottage school, North Calgary, \$4,300.

G. H. Morash, one-story frame, lot 7, block 3, section 12, Bow Park, \$1,000.

P. Poffenbarger, two-story frame, lot 10, block 2, section 22, Riverside, \$1,000.

SPOKANE CAPITALISTS INVEST HEAVILY IN ALBERTA LAND AND COAL

Drumheller Family Acquired Provincial Interests to the Extent of \$300,000

Own Several Large Tracts of Land, Extensive Deposits of Coal and Townsite

Jerome L. Drumheller, Here to Inspect Family's Interests, is Most Enthusiastic

Drumhellers Have Achieved Distinction in Finance in Coast Cities

THE Drumheller family, distinguished in the state of Washington for fineness in finance, and who buy with the cool judgment of those who have achieved big things in the financial world, have invested more than \$300,000 in the province of Alberta in the last eighteen months. Mr. Jerome L. Drumheller has been in Calgary for the past few days, looking after the family interests. He left for Spokane last night.

SLAUGHTER OF ROSENTHAL CREATES SENSATION

Jack Rose Confesses He Hired Auto in Which Murderers Made Their Escape

Victim Had Disclosed the Pact Between Gamblers and the Police

New York, July 18.—The trail lays where I thought it did," remarked District Attorney Whitman today. This was just after he had heard the statement of Jack Rose, the former partner of Herman Rosenthal, Charles Becker and a man who hired the Gray automobile in which the slayers of Herman Rosenthal, the gambler, drove to the spot where their victim met his fate early last Tuesday morning.

POLITICIANS FALL DOWN WITH THE MANITOBA ELEVATORS; FARMERS TO THE RESCUE

Grain Growers' Grain Company is One of the Most Unique Organizations of Agriculturists Extant in the World

Fought for its Life from the First but Succeeds

Last Season Handled 28,000,000 Bushels of Grain; Effort Will be Made to Extend Saskatchewan's Co-operative Scheme to Alberta

TELEGRAPHIC dispatches from Winnipeg announcing that the stockholders of the Grain Growers' Grain company, in convention there assembled, have voted to lease the government elevators of Manitoba as forecasted last week in The Morning Albertan, have again directed public attention to this unique organization of agriculturists. It is doubtful if anywhere else in the world there can be cited a co-operative enterprise of the magnitude of the Grain Growers' Grain company. Organized by the farmers in 1906, fighting for life from the very first, the company last season handled more than 28,000,000 bushels of grain.

QUOTH THE RAVEN: "NEVERMORE"

BY HARRY F. BURMESTER

(News Item: The City of Calgary has an expert who is going about rapping, tapping the sidewalk, to ascertain by acute ear-judgment, whether or not the recently laid sidewalks are of the requisite thickness. The "rapping, tapping," suggested the following parody on Poe's immortal lines, and the offering is made with due deference to the shade of the great departed.)

ONCE upon a midnight dreary, while I pondered weak and weary,
Over many a lengthy tax-bill that had made me very sore,
While I dozed there, almost napping, suddenly there came a
As of someone deftly rapping on the pavement near the door. Tapping,
"What disturber," thought I quickly, "can be tapping near my
door?"—
Then I thought of it no more.

"Till about a moment after I heard a peal of laughter
Echoing from without my sanctum almost at my very door.
From my Morris chair arising, with no pretense at disguising,
All the thing I was surmising—I was frightened to the core,
Straight I beat it to the window for such noises I deplore.—
Darkness there—and nothing more.

Then there came a gentle rustle, sat I there nor moved a muscle,
As in came a stately Raven and he hopped across my floor.
"Fear not, Jack," I'm not molesting, concrete pavements I am testing
When in fact I should be resting—your indulgence I implore.
Then he perched himself on Mitchell's classic bust above my door.
Perched himself—and nothing more.

Raven! Crow!—you bird of wonder, tell me pray whose was the
blunder
That has caused you to go tapping on the pavement near my door.
Then he started in to raving, "Something's weird about the paving,
That's the reason I am slaying, hunting for soft spots in the floor.
I am rapping, tapping, sapping—looking for soft spots in the floor.
I'm inspecting—nothing more.

Asquith splendidly received in Ireland; Suffragettes at temp to fire theatre

The Premier said he came on a mission of peace between Artificially Estranged People; and the Irish Cause Would be Brought to Speedy Issue

While alighting from a street car at Seventeenth avenue and Second street west last night, Louis Emery, a barber residing at 206 Seventh street, A, was run down by an automobile and badly injured. The driver of the machine hurried away without waiting to learn the condition of his victim, and before passengers on the car were able to get the number of the automobile, Emery was rendered unconscious by the impact and suffered a broken shoulder. He also has contusions of the head and face. The injured man was treated at the Holy Cross hospital.

Yancouver, July 18.—Returns so far show that the salmon canning season on the Fraser river has not been very successful. Trap catches last night

Blame me not for this poor guttering, I as well as you am sore.
Then he beat it from my chamber, left me standing on the floor.
Left me standing—nothing more.

To the feather then I pattered, loudly up the stairs I clattered,
Thinking things about the pavements, I'll confess it—yes, I swore.
Will the people now bemoaning flaws in asphalt and in stoning
Try to plan for an atoning ere the present regime's o'er,
Will they harpoon all the guilty or elect them as before?
Echo answered.—NEVERMORE.

Bylaw for the Municipal Labor Bureau

Will be Presented to Council on Monday Evening; Favored by Many Councilmen

Expected That It Will Afford Some Relief to Unemployed During Winter Months

ASQUITH SPLENDIDLY RECEIVED IN IRELAND; SUFFRAGETTES AT TEMP TO FIRE THEATRE

Is Welcomed by Chief Secretary, National Leaders and Some Mayors, Forty Bands, and Thousands of People Acclaiming Him

PREMIER WELCOMED BY REDMOND

On the arrival of the carriage at the hotel, Premier Asquith and Mrs. Asquith, John E. Redmond, leader of the Irish Nationalists, and the Lord Mayor of Dublin, proceeded to an elaborately decorated balcony, where Mr. Redmond publicly welcomed the prime minister.

WOULD DISPEL MISAPPREHENSION

Discussing the taking over of the Manitoba elevators, Mr. Murray said:

There is a somewhat general misapprehension in connection with the farmers' movement to take the ownership of elevators, namely, an impression of the hands of private companies. To go back a few years ago, we find there was much agitation and many different suggestions from the farmers of Manitoba and Saskatchewan in reference to this question. This was practically no ground, and naturally there was a great variety of opinions, the general request being for government owned elevators. Pressure from the farmers finally brought the three western premiers together three years ago, but "constitutional difficulties" proved too big a bogey.

AMBASSADOR OF PEACE

The premier said that he was the ambassador of a treaty of perpetual peace between Ireland and Great Britain, and he assured the Irish people in behalf of the Liberal party and the British democracy that they meant to bring their cause to a speedy issue.

SANITARY ENGINEERS ARE GIVEN KEY OF CITY AND MADE WELCOME

R. B. Bennett, M.P., Tells the Delegates How Calgary Has Developed

Acting Mayor James Hornby Extends Freedom of City to Visitors

Richards of the Builders and McDonald of the Architects Bid Them Welcome

Opening Session Marked With Much Felicitating; Delegates Go Motoring

WITH several hundred delegates in attendance and enthusiasm evidenced everywhere, the seventeenth annual convention of the Canadian Society of Domestic, Sanitary and Heating Engineers was formally opened yesterday morning in the Arts building at Victoria Park. Many of the delegates were late in arriving but the large auditorium was well filled when Acting Mayor James Hornby is a few well-chosen words extended the freedom of Calgary to the visitors.

BYLAW FOR THE MUNICIPAL LABOR BUREAU

Will be Presented to Council on Monday Evening; Favored by Many Councilmen

Expected That It Will Afford Some Relief to Unemployed During Winter Months

WHAT THE GREAT WEST DID YESTERDAY

In Calgary: Bank clearings for the fiscal week total over \$5,100,000; corresponding week last year \$4,200,000, an increase of 22 per cent.

In Regina: Site purchased for eight-story office building. Site cost \$175,000.

In Saskatoon: Turbine equipment arrived. It will increase the city plant's electrical capacity 40 per cent.

In Edmonton: Central Alberta crops are extremely satisfactory. An early harvest and heavy yield.

In Victoria: Construction started on the cement plant at Saanich inlet. The capacity being 2,000 barrels daily. Will employ 250 men.

In Winnipeg: The British Accumulator company decides to locate a factory in Winnipeg. Dr. Forster, irrigation expert of the United States, who is assisting the British Columbia government, visits the district. Dr. Forster will address the convention.

CITY HAS A KNOCKER AT WORK ON CURBS AND SIDEWALKS, TAPPING

He is Rapping, Tapping, on the Pavement and Picking Out Bad Spots

One Contractor Has Torn Out and Repaired Half Mile of Work on One Street

Repairs on Seventeenth Avenue Said to be Half of the Original Work

Quality of Repair Work Will be Considered at Monday's Council Meeting

THE amount and quality of repair work on defective pavements and curbs that is now being carried on by a number of contractors, under their maintenance bonds, will be one of the interesting subjects brought up at the next council meeting Monday night in connection with the recent report of the council investigating committee. When the probe body started work, several contractors hastily began tearing out bad work that was ready apparent and substituting repairs.

IS REPAIRED WORK PROTECTED?

"A serious question occurs to me in this connection," said Acting Mayor James Hornby, chairman of the probe committee, yesterday, "and that is that the repaired work will not be protected by a maintenance bond for one year. The repairs to the curbing on Seventeenth avenue are apparently almost half of the original work. The maintenance bond covers the original work for a year but the repairs put in this year necessarily will not be covered for an additional year by the bond. What assurance is there that they will not be in the same condition after freezing this winter?"

City Has "Knockers" at Work

For some time, the city has had a man at work with a hammer, knocking out defective curbing and curbs, not literally, wherever a rotten spot is found, a blue mark is checked upon it, and the contractor notified. It is said that Contractor Frank Fehrenback, who has a maintenance bond of \$9,000 fill-

is repaired work protected?

FRIDAY, JULY 19, 1912

THE GAS IS HERE

The turning on of the natural gas from Bow Island, the first demonstration of which took place eight months ago, marked an epoch in the history of Calgary.

PREPARE FOR CAR SHORTAGE

As the season for the annual car shortage approaches it is timely that warning be sounded to those most vitally interested, the growers of grain and users of fuel, to take thought of the situation they will find themselves in when the threshing season begins.

The railroads have announced their intention of endeavoring to cope with the grain handling situation much better than they ever have been able to do in the past by providing all the additional motive power and rolling stock possible for them to assemble by the time it will be required and without doubt they will do their utmost to fulfill their promises.

There can be no gainsaying the desire of the railroad companies to move the grain crop expeditiously if for no other reason than self interest—and railroads usually strive to serve their best interests—but it must be remembered that there is a limit to the number of locomotives and cars the railroads are able to build and purchase in a season and it must also be remembered that unless all the signs of the times go wrong there will be a most prodigious crop to handle while at the same time, with the enormous increase in population of the year, there will be a very large increase in the amount of coal to be handled in order to insure the comfort of the inhabitants of the grain provinces during the winter which follows the threshing season so closely. The coal and grain will have to be handled at the same time and in addition, with the prevalent prosperity, general throughout the west, there will be an enormous increase in all other kinds of traffic.

At this distance from the car shortage season, which means, of course, the big freight moving season, it seems to The Albertan that it is inevitable that a freight blockade and car shortage combined, is ahead of the west, for it seems to us that if the railroads could provide ten times the equipment they will be able to, they could not supply all the cars that will be needed or move all the freight the west will require to have moved during the last three months of the year.

The Albertan does not in the least question the good faith of the railroads, nor do we doubt that public bodies and others interested in the avoidance of complications, will do all they are able to do, but we do not believe they will be altogether successful and we would therefore urge with all possible emphasis upon shippers to look ahead and do all they may be able to do to relieve a situation which we believe they are bound to be confronted with.

It has always been useless, and perhaps is now, to urge the coal dealers to stock up in advance or householders to lay in a winter supply of coal, yet would we urge that it be done to as great an extent as possible.

And the farmers themselves can do much to help out the situation. In the light of the experience of last year we believe it behooves every farmer who can possibly do so, to provide storage at home for at least a portion of his grain.

Other shippers, also, we would urge to look ahead and so far as possible, make provision for their late fall shipments with a view of having them out of the way.

If these things are done, shippers will accomplish much for themselves and materially assist the railroads to meet the situation, while the great losses of last season may be obviated.

CERTAINLY IT'S TREASONABLE

Those of us who grew, oh, so weary during the last federal election of constantly reiterated reiteration upon our loyalty because we believed we could see large advantage to Canada in less restricted trade opportunities, can appreciate this delightfully sarcastic treatment of the subject by The Edmonton Bulletin:

The government have hired a grain-drying plant from the Armour Company of Chicago and are towing it up to Fort William, where it will be used to treat grain which was injured by exposure during the winter. Nothing funnier than this has probably happened yet, if one could only ignore the serious consequences of the folly. The ministers declined to

allow the farmers last fall to sell this grain where it could have been sold and where the prices have ruled steadily higher than on this side of the boundary. The farmers, unable to ship the grain to the only market remaining to them, were forced to house it, or leave it unhusked, through the winter, according to their circumstances. Naturally, this did not improve the quality of a large proportion of the grain. And now the government, in an effort to repair the damage they have done, are towing up a grain-drying plant from Chicago in the middle of 1912 to treat grain of 1911. If Canadian talent ran in that direction, the application of the restriction policy to the grain trade would surely be immortalized in a comic opera. Run Canadian wheat through a Yankee drying plant? For shame! Where is the Canadian maker or owner of drying plants who will not lift his voice against this base betrayal of the Empire; this treacherous trucking to a foreign firm?

ACTION VERSUS BUNKUM

(From the Toronto Star.)

The London Daily Express, we are informed, makes great play with Hon. G. E. Foster's telling message to England from Canada, delivered at a great gathering of peers and members of parliament at the Constitutional club, when he asked: "Why give the children's bread to strangers?"

One is tempted to ask whether imperial trade is likely to be advanced by action, or by bunkum rhetoric. About fifteen years ago, after a flow of bunkum rhetoric a quiet, businesslike man named William S. Fielding came to the house of commons and announced that British manufacturers would be admitted into Canada at three-fourths of the regular duties. Two years later the British preference was increased to two-thirds. At once the question of preferential trade, which had been an elegant pastime for gentlemen of leisure, became practical. Something had been done. British trade with Canada, which had declined from \$43,000,000 to \$29,400,000 under the last six years of bunkum rhetoric rose from \$29,400,000 to nearly \$110,000,000 under the Fielding tariff. There is the result of action.

Now as a result of the election of September 21, 1911, action gives place once more to bunkum rhetoric. What, in the name of truth and common sense, does Mr. Foster mean by "giving the children's bread to strangers"? Great Britain refuses to tax her children's bread. Mr. Foster wants it taxed for our benefit, as he imagines—probably still more for the benefit of wealthy English landowners.

Apparently, in Mr. Foster's opinion, the children to be considered are not the poor little waifs of London, but the wealthy, thriving colonies and the British landowning peers. We are the children. We are placed by Mr. Foster in the position of the big boys of the family howling for favors, howling for taxation on the bread of the little children of England. This is his conception of imperialism. It is about time that some real, imperialist should arise and rescue the movement from the gross, sordid materialism into which it is being led by men who lack the first requisites of statesmanship.

EDITORIAL NOTES

An alleged "distinguished scientist" now says that Carlyle, Byron and de Maupassant were men of genius not in spite of but because of disease. But it took more than "bacteria" to produce a "French Revolution," "Childie Harold" or the incomparable short stories of the brilliant French cynic.

Speaking of that odd request that the mayor of Calgary try to locate some turkey eggs for a woman who alleges she paid before delivery, Santa Monica's city council is now wrestling with the problem of loud bleating Billies and Nannies laid before it by irate neighbors of a woman who keeps goats as garden pets.

Let Candidate Wilson beware how he treats "Warwick" Bryan, the president maker! This doth have an ominous sound. "Governor Wilson expressed the belief that he would see Mr. Bryan 'some time this summer.'" Are events shaping for another Colonel Harvey episode?

Canada seems alive to her town planning opportunities. Vancouver secured Mr. Massey's advice regarding improvements in Stanley park; Calgary university has been laid out by Dunington-Grubb; Toronto has just engaged a Pittsburg engineer to wrestle with her traffic problems, while Ottawa has chosen Noulan Cauchon to prepare plans and contours for the proposed federal district to take in a tract of the territory outside the present city limits.

Was there ever a modern war which partook so much of the open-house as this long drawn out affair between Italy and Turkey? And, by the bye, what has become of that armageddon which was to follow the break in the peace of Europe?

That was an ungenerous and foolish attack that was made upon the Democratic standard bearer the other day by Gen. Dan E. Sickles, one of the few surviving generals of the old federal army, when he declared that because Wilson's forebears fought in the "rebel" army he was "no fit man to occupy the White House." The old general's remarks were treated with that silence they deserved.

Ideas of a Plain Man

By DR. FRANK CRANE

ACCURACY

Why do we ever use the word "perfect"? Did you ever see a perfect thing, ever hear, smell or taste one? When you say "perfect" you are merely speaking of an idea.

There is no perfect flower, tree, horse, or happiness. A revivalist once asked his congregation if any one had ever known or heard of a perfect person. "If so," he cried, "stand up." There was a dramatic pause. Then an old woman in a poke bonnet arose in the rear of the room.

"Ah, sister!" said the evangelist. "And so you know someone who is perfect?" "No, sir. But I done hearn o' one."

"And who was that?" "It was my husband's first wife."

Aside from this example of utter perfection there is none on record. "A man once went to John A. Brashear, the famous asked him what it would cost to have a bar of glass made that would be absolutely straight. Brashear reflected awhile and then said he could not make one, but he could come quite near it for two hundred thousand dollars. After a few remarks on absolute accuracy by the renowned mechanic the customer concluded that he could get along with a ruler that would be correct to the sixty-fourth of an inch and costing about forty dollars.

LETTERS TO THE EDITOR

Editor, Morning Albertan:

Dear Sir: I shall be obliged if you will give me the opportunity to reply through your columns, as a member of the local corps of the Salvation Army, to one or two of the damaging criticisms Mr. Frost has been kind enough to make regarding our organization in his letter published in the Herald on the 15th inst.

He refers to "the standing of the local member or soldier with the institution which he or she slaves to serve and maintain," and also to the fact that "according to the regulations of the Army, soldiers' meetings must not be allowed to become meetings for discussion or disputes."

Does Mr. Frost intend to insult our intelligence by inferring that "we slave to maintain" this organization, give of our means to support it, receive no pay for its services, and "return have no voice in its councils, and may under no circumstances express an opinion, or do anything but meekly obey?"

Perhaps Mr. Frost has never heard of the Census Board constituted in every corps, composed of its leading soldiers, and which plays a very important part in the local workings of the organization, and is able to bring serious pressure on the Corps Officer in the event of any irregularity. Probably he has not taken the trouble to read the "Regulations of Soldiers," from which I take the following extracts:

Chap. IX, Sec. 4, Par. 5.—"Local officers are to carry out the duties of their position according to the regulations of the Commanding Officers, who have no power to remove them from office, and against whose management they can appeal, they think proper, to the Divisional Officer."

Chap. IX, Sec. 4, Par. 18.—"Every soldier has the privilege of appealing to his superior officers, and is encouraged to use it, should he be dissatisfied with the conduct or decisions of a Staff Officer, and any enquiry addressed there will receive attention."

No, our soldiers' meetings, then, God, or not held for the purpose of airing our grievances. They are held for serious business to receive instruction and inspiration and to co-operate with one another in the great work which every Christian is called to take part in.

Of the financial part of Mr. Frost's letter, I will leave others more competent than myself to deal with. I would like to say, what authority he has for saying that "since the row the Booth family had over dividing the spoils, the property of the Army was placed in the hands of the different members of the family, etc." Surely the time has gone by when any boy seriously imagines that General Booth, after his lifetime devoted to the cause of the poor and suffering all over the world, and honored and blessed by tens of thousands whom he has helped, should have done all this with an ulterior motive, and for the enriching of himself and his family.

Mr. Frost ought to know, but apparently does not that General Booth draws no salary from the funds of the Army, and that under a Deed of Chanery he does not own a cent of Army property, but is simply trustee for the same. Under the terms of this deed the accounts of the Army are published annually, and audited by an independent firm of accountants and signed by them. As regards property in Canada, it is sufficient to say that the Army in this country has become a corporate body, the whole of the property is held in trust by the governing Council, and not by General Booth, his family, or his commissioners for the time being at the head of the work in this country is chairman of this council.

It is hardly necessary for me to say more here, but will quote the following testimony by a leading firm of solicitors in Toronto regarding "Salvation Army property situated in the Dominion of Canada" (previous to its incorporation). "We have carefully read and considered the Deeds Poll under the trusts of which such property is held, and the provisions and terms of the said deeds show that the said property is held in the name of a trustee for the benefit and use of the Salvation Army, and not a single dollar in value or money, dare be used by the trustee for any purpose except the purposes of the Army." Mr. Frost's testimony can hardly be considered very weighty. He appears to get a good deal of information second-hand, and in his anxiety to be in the lead of the work in this country he takes the trouble to be better informed.

Yours etc. THOMAS A. BURR, 1158 Boulevard, Broadview.

CALGARY INVITES HOME PLANNING CONVENTION

(Manitoba Free Press.) Mayor Mitchell an Industrial Commissioner Miller will represent this city at the first national conference on town planning in Winnipeg on Monday, Tuesday and Wednesday of this week. They will bear with them an invitation from the city of Calgary and the City Planning Commission inviting the conference to meet in Calgary in 1914.

Calgary has a planning commission not yet a year old, but it has been doing a number of things which, for so young an organization, has brought it into notice. By 1914 there will be erected, it is hoped, the private buildings for a civic centre embracing government, provincial, and city public buildings and a system of parks and parkways along the banks of the Bow and Elbow rivers.

BUSINESS CHANGES IN CITY

Bradstreet's reports the following business changes in Winnipeg: Canadian Equipment & Supply company, disposed of Vancouver branch. Mount Pleasant, McCoy & Wiggins, grocers, commenced. Mountview Grocery, grocery, commenced.

The Burglar's Talisman
Coal is used for other than heating purposes. For centuries a piece of coal carried on the person has been held to bring good luck. This belief still survives among burglars. They invariably carry a small piece of coal with them when they start out on an expedition. The more successful they are and the greater their good luck in a "ding cap" the more highly do they prize their talisman. This belief in the virtues of coal is accounted for in the old superstition, traceable to sunworship,

of regarding any object associated with fire as an emblem of the solar rays and a preservative against evil spirits—London Chronicle.
Expert to Plan Government Buildings
Ottawa, July 15.—While the prime minister is in England he will likely engage an expert of outstanding prominence to come to Ottawa and report as to the layout of the proposed government buildings on the Wellington street site.

Mainly About Women

BY ELIZABETH BAILEY

TELEPHONE 2380

Mr. and Mrs. Guy Sales left last night for a holiday at the coast.

Miss George Shibley has her sister, Miss Shibley of St. Hilda's college, Calgary, with her on a week's visit. Saturday News.

Miss Dufosse of Winnipeg is spending the summer with her parents, Mr. and Mrs. J. C. Dufosse of this city.

Mrs. W. G. James and family have gone to the foothills, where they remain till the end of August.

RUPTURE

Go At Once to the **Queens Hotel** and see the Specialist of **Mr. A. Claverie** So Well Known in Calgary. Until Next Tuesday

Hours: 9 a.m. to 3 p.m. and 6 to 9 p.m. Tuesday: 9 a.m. to 3 p.m. only

MEDICINE HAT—Asiniboia Hotel Wednesday the 24th

All advice given free

Why is it that crowds go to consult the specialist from Paris whenever in these last few years he has visited our city?

The answer is easy. It is evidently because sufferers from rupture have seen for themselves that the appliances of Mr. Claverie for rupture (and also for all abdominal affections, both of men and women) are unique in results, as well as style, hygiene and comfort.

This is well recognized by medical scientists the world over, as well as by patients themselves.

More than one million of sufferers, scattered all over the globe, in Europe, in America, in Africa, in Asia, have found, thanks to Mr. Claverie, immediate relief, exquisite comfort, peace, strength, health and happiness.

Therefore if you value your comfort—your very life—do not hesitate to consult at once the specialist from Paris. This visit may be for you the dawn of a new life.

Abdominal Belt for Women and Men. New and patented designs. Elastic Stockings. Medical Corsets. Appliances for Deformed Legs. Artificial Limbs. Unique improvements.

Bright and Clean Floors

It is so easy and so inexpensive to keep any kind of finished floor surface as bright and clean as new if you occasionally rub it over with

Brightener

The only preparation that will successfully clean and polish a waxed floor without removing the wax or a varnished floor without injuring the varnish.

and finished with brown fringe and cream lace, while Mrs. Engle's gown of purple broadcloth, with Irish lace collar and cuffs, was much admired. Mrs. Adamson was ably assisted by Mrs. E. Graham Glasgow, who was wearing a brown costume.

Covers were laid for ten at a pretty decorated table, centred with a tall vase of American beauty roses placed on a pale blue ribbon. Embroidered satin bows of colored ribbon, representing the five cones of the four points of the star, were hung from the chandeliers.

Mrs. Adamson is a member of the Hillhurst Bow Valley branch of the Eastern Star in Calgary.

Mrs. Brackenridge's Tea. Mrs. John Brackenridge was the hostess at an extremely smart function at her beautiful home on Thirteenth avenue west when she was at home at about one hundred and thirty guests in honor of her interesting guest, Miss Alice Murcheson, of Seattle.

Mrs. Brackenridge received her guests in a beautiful gown of yellow crepe de chine with pinnas of pale blue and garniture of lace white. Miss Murcheson wore a modish gown of pink satin with gold touches, which was very becoming.

Mrs. Howells was present and the music was enjoyed very much. Mrs. W. Dunlop, Mrs. W. Fowler, did the tea table honors the first hour while Mrs. Clancy and Mrs. James Finlay presided the second hour. Mrs. T. B. Lowe cut the ices the first hour and Mrs. George O'Brien cut them the second hour.

Mrs. W. S. Fair ushered the guests to the tea room and little Elizabeth Fair attended the door.

The Misses Collier, Marie Costigan, Freda O'Brien, Hillocks, M. Jameson, and B. Finlay assisted in serving.

The drawing room was decorated with pink and white carnations while the table had a cut glass vase of the same fragrant flowers placed on a chrysanthemum center. Candabras of pink shade carried out the pink and white color scheme and festoons of parasol fern hung from the chandeliers were very effective. The library was adorned with red carnations.

Her Natural Way. Gasso—I notice that you have no tooth chest on your car and that you do not carry any repair kit. What do you do in case of trouble?

Miss Speeder—Why, I have hairpins.

WISDOM—CATTNACH. Mr. Robert Norman Wisdom of Acme, Ala., and Miss Mina May Cattnach of Sterling Hill, Ala., were united in marriage by Rev. J. A. Clarke on Wednesday afternoon. The attendants were Miss Edith Sulphur of Okla., and Mr. Fred Cattnach of Calgary.

Mr. and Mrs. Wisdom will live in Acme.

REDD—ALLOWAY. Rev. J. A. Clarke united in marriage on Wednesday afternoon, Mr. Ernest Overton Redd of Mount Gambier, Ontario, and Miss Anna Alloway, of Elbow, Missouri, at the manse. The attendants were Mr. F. Alloway, father of the bride, and Mr. Alfred Jude of Calgary.

Mr. and Mrs. Redd will live in Calgary.

Dr. Piper of London has arrived in the city and will locate here permanently.

NO TRACE OF \$3,000 CHECK. Ottawa, Ont., July 18.—The farmers bank country was adjourned after a session of about an hour and a half duration held today in the committee room of the senate. Evidence was taken with regard to the statement made by Travers that the \$3,000 of the bank's funds of which no record has been found was paid over to Peter Ryan in return for assistance given in the securing of a charter. The books of the hotel here were produced to show that Mr. Ryan had been in the city on November 28, 1906, when Travers was also here, but there was no evidence of any cheque or letter having been given to Ryan or any conference between Ryan and Travers. Sir William Meredith and Frank Hodgins, K.C., were on an adjournment with no set date for the next hearing.

When it's Hot. You can feel cooler and more comfortable than little care in regulating diet.

Try this for breakfast and lunch:

A little fruit, Sauer of Grape-Nuts and cream, A soft boiled or poached egg, Some crisp toast, Cup of Postum.

Roblin's Statement. Manitoba Premier confirms leasing of Elevators—Refused Much Better Offers.

Winnipeg, July 18.—Premier Roblin when asked this morning if it were true that the government elevators had been leased to the Grain Growers, made the following reply:

"The government and Mr. Creer, representing the Grain Growers, have been in discussion for some time, and have reached a basis of six per cent on the capitalization as a rental. But Mr. Creer would not accept finally until it had been submitted to the annual meeting of the Grain Growers. I have not yet heard from him, but judging from the newspaper reports I presume that his action has been decided."

"The government has refused much larger offers, at least 25 per cent more than what they are willing to accept from the Grain Growers. This position was reached from the standpoint that the elevators were bought for the farmers, and therefore it was the duty of the government to show them at their disposal at cost."

"The capitalization has a fixed charge of 45 per cent, leaving 2 per cent for maintenance, which is ample for an elevator of the type of the government. That conclusion was reached after very careful consideration of the matter at Regina, with Premiers Rutherford and Scott."

Her Natural Way. Gasso—I notice that you have no tooth chest on your car and that you do not carry any repair kit. What do you do in case of trouble?

Japan courting Germany—would now drop Britain.

Berlin, July 18.—That the tour of Europe, recently begun by ex-Premier Prince Kasuma of Japan, was undertaken to negotiate an alliance between the Mikado and the Kaiser, is asserted in diplomatic circles here today. It is said that the Japanese want to dissolve partnership with the English, and are prepared to guarantee protection to German interests in the event of an Anglo-German war. The Kaiser is reported to look askance at the plan, however, principally because he thinks it would embarrass him in the event of a friction between Japan and the United States.

Dr. Pierce's Favorite Prescription

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds of thousands and this too in the privacy of their homes without their having to submit to indelicate questionings and offensive examination.

Sick women are invited to consult in confidence by letter free. Address World's Dispensary Medical Ass'n, R.V. Pierce, M. D., Pres't, Buffalo, N. Y. Dr. Pierce's Great Family Doctor Book, The People's Common Sense Medical Adviser, newly revised up-to-date edition—1000 pages, answers in Plain English hosts of delicate questions which every woman, single or married, ought to know about. Sent free to any address on receipt of 50 one-cent stamps to cover cost of wrapping and mailing only, in French cloth binding.

NINE FLAGS OF IRELAND

Familiar Green Emblem is Rightly Leinster's Only.

Most of the people of Ireland, except those of the north, have made up their minds that home rule is at hand, and as one of their thoughts have turned to the consideration of a national flag. The golden harp on a green ground, which most of us suppose to be the Irish emblem, is, it appears, the flag of Leinster alone, and objections are raised to its adoption as the national flag of Ireland. There are nine other flags being discussed in the Irish press, none having a shamrock as its design. The most ancient of them is the spear and serpent, established in remote days to indicate the pedigree of Goodall Glas from a snake and the bit by the rod of Moses. This is the most venerable of Irish flags, but here is some prejudice against the sinister figure of a snake on a nation's emblem, especially as there are supposed to be no snakes in Ireland. Then there is the red hand on a white ground, which is the flag of the O'Neills, the three crowns on a blue field of Munster, the parti col-

ored coat of Connaught and the King's enthroned of Meath. Each of these flags has its adherents. In fact, every design but that of the Union Jack appears to have admirers, most of them being in favor of the flag of Leinster, which is recognized all over the world as being essentially Irish. It was the green flag that flew at the Battle of the Boyne, and the color is being supported by some on the ground that a blend of blue and orange that produces green is typical of the union of north and south. Charles Stewart Parnell is said to have thought the green flag ill-omened, and to have favored the golden harp on blue ground as used by Great Britain's parliament. Canadians, who have the notion that under home rule Ireland will have the same relation to Great Britain as the province of Ontario has to the Dominion of Canada, will not fail to note that there has never been an agitation, horn of the people, promoted by the newspapers and stimulated by prizes for a 'national flag' of Ontario. Ireland as an independent nation is the ideal of the people who are busy designing a flag to typify the new status of the Emerald Isle—Toronto Mail and Empire.

IT WAS A GREAT SCHEME, BUT--

Mr. Haldeman's Cycleplane Did Work Exactly as He Had Expected

New York, July 18.—Bertram Haldeman, authority on things electrical at the headquarters, believes he has discovered practical use for the aeroplane—at least, he fancied he had a week ago. Aeroplane wings could be attached to motor cars and motorcycles, he contended, and if a huge bump should suddenly loom up in the road ahead the planes could be brought into play and the machines would be raised over the obstacle. Or if two machines should meet in a narrow road, one could spread its wings and fly over the other.

Mr. Haldeman tested his theory last week. He rigged up a pair of planes on the rear end of his motorcycle. The electrician felt sanguine of success as he sped down the hill from Woodland avenue, his East Eighty-fifth street on his initial trial flight of his cycleplane.

When Mr. Haldeman picked himself up he discovered that he had neglected to put a rear wing on the motorcycle to balance that end when the machine was fitting through the air. He doesn't know just when he will make another trial flight in his cycleplane.

LETTER FROM THE SEASHORE (From The Atlantic Constitution) (To The Old Man at Home)

"Dear William: Your last month's salary came to hand all right, and we are enjoying all the pleasure it brought us. I wish they'd give you a raise in salary, as we could use much more money at this delightful resort. Take care of your health, and don't lose any time from your work, and we'll send you a shaving mug, made out of a sea shell."

The female house fly lays from 120 to 150 eggs at a time, and these mature in two weeks. Under favorable conditions the descendants of a single pair will number millions in three months. Therefore all house-keepers should commence using

WILSON'S FLY PADS

early in the season, and thus cut off a large proportion of the summer crop.

MOORE IS BACK AND MOST PLEASSED WITH PROSPECTS

J. Moore returned yesterday from a two weeks' holiday trip to the coast, returning by way of Nelson, B.C., and the Crow's Nest, and reports that everything is very favorable, and in a prosperous condition. In coming up from Macleod, Mr. Moore made a special observation of the crops, and says that never in his long experience did he see the country look so well, or a brighter prospect for an abundant harvest of all kinds of grains.

Explained. Knicker—What is a hand laundry? Bocker—One that cuffs the collars and collars the cuffs.

THOSE WHO BELIEVE IN THE CITY BEAUTIFUL SPY OUT THE LAND FOR PLAYGROUNDS

Sub-committees of the Council, the City Planning Commission and the Parks Board, Look for Available Ground City

Late yesterday afternoon the first of the four sub-committees representing the council, the city planning commission and the parks board got out on the trail in search of suitable sites for playgrounds and parks. In the party were Commissioner Graves, Alderman Ramsay, G. M. Lang, Lawrence, M. Gotch, and Secretary Lemon of the city planning commission.

The plateau overlooking the exhibition grounds, from which a splendid view of the heart of Calgary is obtained, was the first stopping place. The boys of East Calgary have been playing football and baseball up there, and Commissioner Graves suggested that the city should have at least a 'block of the land in what is known as the Ramsay estate. The committee also observed the tract of land overlooking the Elbow, between Sixth street and the Ramsay property, which, it has been suggested, the city should obtain because of the fine view which private owners will, someday, shut off.

Wooded Fifty Acres. To a man the committee was enthusiastic over that tract of land lying between Elbow and Stanley park scores, was the unanimous opinion. First, because there is no public land in this vicinity; second, because it is finely wooded, and, thirdly, because, at small expense, and with little engineering, boating opportunities could be offered.

At the present time there is a natural boating course partly filled with water, which evidently backed up from

JULY CLEARANCE SALE

THERE WILL BE CROWDS HERE FOR Dress Goods, Silks, Trimmings

SATURDAY 20 P. C. DISCOUNT OFF ALL REGULAR PRICES

and no wonder. Just stop to think what this discount means to you, who have dress goods or silks to buy. Our Stock of Dress Goods is much larger than it ought to be at this season of the year.

That's the key to the situation, but to the casual observer this fact in itself may not appear very distressing, for the season for summer fabrics is scarcely half over, and there is bound to be a great demand yet for summer dress goods, and silks.

But this Store never does things by halves, and for one day only, Saturday, our entire stock of seasonable and up-to-date dress goods, silks and trimmings is thrown open to you at 20 PER CENT. DISCOUNT.

Every Yard Seasonable; Every Yard New and Stylish; Every Yard Reduced in Price; Save exactly 20 cents on Every Dollar's worth of Goods purchased. Run over these prices and get a faint idea.

We expect great things on Saturday, simply because we are going to place on sale our entire large stock of the choicest Dress Goods, Silks and Trimmings, at a great reduction.

This Discount Sale is Genuine—It's on the square—All our goods are marked in Plain Figures, and you can deduct the discounts yourself. This opportunity is out of the ordinary, and if it's Dress Goods, you'll profit richly by coming to this Twenty Per Cent. Discount Sale.

ROBINSON & COMPANY 108 8th Ave. East CALGARY

MATCH-MAKING CRUISE ENDS ON THE ROCKS

Paris, July 18.—News has just reached Paris that the Duke and Duchess of Manchester's party, which sailed away so early from the sunny shores of the Mediterranean last spring, went all to pieces in flowerly Japan.

It will be remembered that the dual host and hostess were not the principal figures in that interesting yachting party. Mrs. William B. Leeds, the wealthy widow of a New York banker, was the real heroine, and Lord Falconer, son of the Earl of Kintore, and quondam aspirant to the hand of Mrs. Agnew-Chapman in Wallenberg, was the hero. Sir Francis Lascelles was the party by way of chaperone.

The duke and duchess had hoped to make a marriage between the impetuous Lord Falconer and the wealthy widow, and where would the wooing be done more discreetly and effectively than in the yacht Semiramis, which belonged to Anthony Drexel?

But in this case the course of love did not run smooth, for on reaching Yokohama the widow thought she was bored and made her line for Paris, and the whole party went to pieces on the sunny shores of Japan. Mrs. Leeds traveled back by the Trans-Siberian railroad, but not with any member of the party. She has reached London, and since her return she has taken the finest suite of the Ritz hotel, where she entertains her friends almost nightly.

Lord Falconer passed through Paris a few days ago on his way to London, but he has not seen Mrs. Leeds. The Duke of Manchester is now on the steam yacht Warrior in Castellama, and the duchess is believed to be in Tengerge Castle, Ireland. Never was a yachting cruise more completely wrecked.

POOR OLD "LOYNGRIN"

(Goodland, Ind., Herald)

After the guests had assembled, Miss Aha Money sang "O' Loyngrin, Me" which brought tears to many eyes. Then as Miss Leona Foreman played "Loyngrin's Wedding March" soft footstep were heard and all glances went to the direction of the stairs. Rev. Mr. Clifton took the lead, followed by Mr. Harry Sunderland, the best man, and Miss Letta Foreman, the bridesmaid. Then quietly came the bride and groom. What is more lovely to behold than a June bride dressed in chiffon and lace over white mesaline beside a handsome young man in dark blue? We wish this young couple all the success that could possibly come to them.

"And may they be so happy that when either lips are dumb They shall not smile in heaven till the other's kiss has come."

Stylish Hats Infuriated Her. Two handsomely dressed women walked out of the Thirty-fourth Street entrance of the Waldorf-Astoria yesterday afternoon and had walked to Fifth Avenue when an elderly woman in shabby clothes approached them.

"You have all these fine gowns and hats, while I have nothing to be in, and snatched the hats off the heads of both the women. The hat of one of the women went with her hat and she sent up a scream. The two hats and the wig sailed out into the avenue thrown by the snatcher. The woman, after being arrested, said she was Mrs. Josephine Lisjeli, a widow. She couldn't remember where she lived and was taken to Bellevue Hospital to be examined as to her sanity.

WEATHER AND NERVES

(Boston Globe)

The influence of excessive heat on human beings is amply demonstrated when the country is visited by extraordinary heat waves. In legislative and other deliberative bodies it leads to loss of temper and frequently to the passing of the lie. Individuals who are ordinarily even-tempered suddenly become morose or violent. The occupants of public conveyances are snappy in conversation and cross. There are also more suicides in warm weather than in cold. Deeds of violence and strikes predominate in the heated term.

Most of these deplorable conditions are brought about by the ragged state of the nerves, and by loss of sleep. The disgruntled are run down in health. Many also are overtaking their strength and consequently become nervous wrecks. Overindulgence in smoking and drinking when the thermometer registers over 90 degrees causes faint action of the heart and dizzy spells follow. The wise man or woman, knowing that the hot weather can disturb their

health and nerves, study how to keep from a break-down. They control their eating, drinking and exercise, and keep within such limitations that they can pass through trying days of heat and discomfort with the least possible expenditure of vitality. They determine not to worry, and to observe the laws governing health. Those who know these laws must pay a severe penalty.

FOUND HALF MILLION

Albany, N. Y., July 18.—Thomas O'Brien, who runs a blacksmith shop in Lafayette street, found a red leather bag lying behind a fence near his smithy tonight. The bag contained checks totaling \$528,113.45, the property of the United Cigar Stores Company of New York. The company, when notified by telephone, told the police that they had the checks, with \$222.34 in currency, had been sent by a messenger to the National Bank of Commerce in New York today for deposit. The company supposed the deposit had been made until informed that the bag and its contents had been found in Albany.

SKIN ALL COVERED With Eruption

He Says It is the Result of Example, Tradition, Sedition and Ambition, to Say Nothing of the Climatic Conditions

Revolution in Cuba; revolution in Mexico; revolution in Peru; revolution in this, that, and the other Latin-American country.

Such news published with recurring frequency in the daily press does not now provoke more than passing comment from the general public. They seem to expect it periodically from these countries, like an attack of measles, or scarlet fever in the family.

And he was right, but he couldn't explain why. Very few people who have lived in tropical and semi-tropical lands can. It's a habit handed down from father to son, from political party to political party like the eternal ready-faith from the Montagues and the Capulets. It is the result of example, tradition, sedition and ambition, to say nothing of the climate.

Jose Manuel Fernandez is president of the United Fruit Company in Mexico. He is rich only in unenviable fame. He is rich only in unenviable fame. He is rich only in unenviable fame.

They get together, as friends in misfortune often do, and deliberate, discuss and plan. And finally, they decide to approach Jose Manuel Fernandez to see if he can be of any use to them.

The perfect adroit that he had every one that he would soon be in possession of the desired method.

King as a Diplomat The commission deliberate and, after further coffee, express their willingness to accept positions of lesser importance, such as minister of justice, chief of police, inspector of schools, etc.

More coffee. More deliberation. More impassioned Spanish. "Well," they say, "we will accept anything, any position that you offer."

But alas! his hopes are futile. The morning comes, he will have nothing, absolutely nothing. "Don Sebastian," says the leader of the armed and mounted brigades who await him at the door of his house next day.

Don Sebastian, biting his lips, and thinking of anything but Heaven, knows well that if he refuses some one will carelessly drop a lighted match into his cane, fields, and pool; and that will fall into the crater, and strap-bang! the factory is out of business until a new crusher is brought from Havana.

During the 1906 revolution, with the government forces and other newspapers, the general store—our objective point—had an attractive stock, valued at eight thousand dollars before we came afterwards.

It is a great game, this politics in and only those who have no jobs, no material interests, nor land under cultivation play it. The owner of the tobacco plantation, the sugar estate proprietor, the cattle rancher, and the farmer loathe it as they do the plague.

They do not vote unless they have to; they do not even venture to express an opinion; their hands are bound with unbreakable chains. Why? Well, here's why.

Don Sebastian is owner of a large sugar plantation, let us suppose. It produces him a handsome yearly income. He cultivates large fields of cane. He manufactures rum. He employs five hundred laborers. He knows each and every one of them, and that free and easy Cuban way halts them all as if by magic.

More coffee. More deliberation. More impassioned Spanish. "Well," they say, "we will accept anything, any position that you offer."

But alas! his hopes are futile. The morning comes, he will have nothing, absolutely nothing. "Don Sebastian," says the leader of the armed and mounted brigades who await him at the door of his house next day.

Don Sebastian, biting his lips, and thinking of anything but Heaven, knows well that if he refuses some one will carelessly drop a lighted match into his cane, fields, and pool; and that will fall into the crater, and strap-bang! the factory is out of business until a new crusher is brought from Havana.

DUCHESS ANNA HITS AT FORMER HUSBAND

The Knight of the Five Louises is Phrase She Hurls at the Count

Paris, July 18.—The Knight of the Five Louises

The phrase is that of Duchess Anna Gould de Talleyrand, and he at whom it has been flung so contemptuously is Count Boni de Castellane, her former husband.

The count, who is a model father, though he was not even a beautifully good husband, sees his children once a week. During that day he gives them an excellent lesson.

And there was the secret of it. To ask them to take sides? They were afraid to show preference to either the rebels or the government, for who knows who is coming out on top? If they added the government and the rebels won, they would be oppressed for the rest of their lives.

Jose Miguel Gomez, the reigning president of Cuba, used to be well known to me. He is a fighter, a warrior of the ten years' war, a man of force and character, but uneducated. He speaks little English and is not an orator.

London, July 18.—Two topics provided the fashionable crowd on the last evening of the Henley regatta with abundant gossip—King George's proposed coronation and the French crew and Alfred Gwynne Vanderbilt's "bunny hug" dance aboard his houseboat.

Mr. Vanderbilt's big houseboat Venture was at night a scene of an extremely gay little dancing party under the glare of electric lights and in full public view.

After some time Mr. Vanderbilt retired below, where he read the evening papers, while the crowd sang an impromptu parody entitled "Alfred's Little Lagoon Band."

THE REMAINS OF NAPOLEON (From Westminster Gazette.) In a recent number of the Journal Medical de Bruxelles, there is an article by Dr. Max Billard on the exhumation of Napoleon's remains in 1840.

It happened to be at the house that evening, and the general passed it to me. He smiled and shook his head. He was playing a deep game and didn't go, but went instead with the Guardia Rural to fall that evening when they came for him.

But I expatiated. "I have been cut off from communication with Havana for a week now—the lines down, bridges blown up, communication disrupted. I must get my dispatches into the capital. Is there no one here who will carry them through? I want to go back to the scene of action. I have business in the field."

of mahogany, and one of tin plates the whole body was seen as if enveloped in a transparent cloud. The head of the conqueror rested on a pillow. Under the eyelids could be seen tiny eyeballs, which had lost little of their value and shape.

The 'British Medical Journal,' which publishes these particulars, recalls that among those present when the remains were brought back to Paris was an old man of seventy-four, representing among so many heroes of the sword, that war surgery in which he had won such renown.

English to Discuss Roads (From The London Mail) Three thousand persons from all parts of the world will take part in the International Road Congress which opens in London.

Evidence will be offered as to what constitutes the perfect road under varying conditions of traffic, and how different makes of tires and ways of shoeing horses act upon road surfaces.

The effect of tarred roads on public health, fish life and vegetation will be discussed, and many roads in the home counties will be inspected by delegates.

ROUGH RIDING INDIANS TO RIDE IN STAMPEDE

Red Men Will Compete With White Cowboys at Big Event in Calgary

It is altogether probable that there will be a number of Indians who will enter for the bucking contests held here during the Stampede in September.

Then, too, it is understood that there will be one or two men from the Kootenais of British Columbia.

APACHES CHARGED WITH A WOMAN'S DEATH

Paris, July 18.—Three young men have been arrested in connection with the murder of a woman, who was the widow of a man who had been killed.

According to him, the idea emanated from a man named Inoué, who took the room in which the murder was committed.

They understood that it was to be a simple case of robbery, as there was no suspicion of anything worse.

YOUTH IS KILLED IN A FENCING BOUT

Foil Enters Eye and Penetrates Brain and Doctors are Not Able to Save Life

Madrid, July 18.—Fencing without masks led to a fatal accident yesterday, Don Manuel Iguero, the 17-year-old son of Colonel Don Luis Ramon Iguero, being the victim.

SPANISH PRINCE SHOCKS PARIS BY GRIZZLY BEAR IN SOCIETY

Paris, July 18.—During the dying week of the Paris season's festivities the Infante, Don Louis Ferdinand, son of the Infanta Eulalie and grandson of the late Queen Isabella, has shocked and outraged the old Faubourg families by dancing the Tango, grizzly bear, bunny hug and other modern dances with his daughters.

NA-DRU-CO LAXATIVES. Women's commonest ailment the root of so much of their ill-health—promptly yields to the gentle but certain action of Na-Dru-Co Laxatives.

HUGHIE JENNINGS DUE TO GET HIS RELEASE

New York, July 18.—The more or less brilliant career of Hughie Jennings with the once terrible Detroit Tigers furnishes a fitting illustration of the vicissitudes of fickle fandom.

of Tiger insubordination have been instances of individual treason, most recently that of Hub Perdue, of the Boston Nationals. When this great pitcher tore up his uniform and declared he would never again play for the City of Culture so long as Johnny Kling remained at the head of the Braves, he re-echoed the general sentiment of his fraternity that it is due time for the profession to strike for certain due rights heretofore denied.

CARPENTERS' UNION SAYS THAT WHILE NO AGREEMENT HAS BEEN REACHED WITH EXCHANGE ALL IS LOVELY

The Carpenters' union is out with a vigorous denial that they have given up the strike as reported in an evening newspaper yesterday. They state emphatically that no agreement has been reached with the Builders' Exchange regarding the \$5 cent wage scale and that seventy-five per cent of the union men are now getting that figure working for contractors not allied with the Builders' Exchange. Individual contractors in many instances have conceded the demands of the union. The following statement was issued by the union yesterday:

"The carpenters' strike committee wishes to emphatically contradict the statement in an evening newspaper to the effect that the strike was off and all men were working. The statement was unauthorized by this committee and is false. The strike will be continued until an agreement is signed with the Builders' Exchange. There are still men unemployed and we have enough men on hand to supply all demands. (Signed) W. W. SCOTT, Chairman, Strike Com.

The general contractors of the Builders' Exchange will meet Saturday afternoon to consider the situation and arrange to do whatever they feel right to end the strike.

ANTI-BONUSING CONVENTION NEARLY ENDED IN A ROW AT WINNIPEG YESTERDAY

Difference of Opinion as to Inducements to be Offered to Manufacturers; Several Delegates Talk of a Rump Convention

Winnipeg, July 18.—Accredited representatives from the municipal councils, boards of trade and industrial bureaus of eleven cities of Western Canada, met in congress today in Winnipeg, for the purpose of forming a co-operative organization. After seven hours heated discussion the meeting adjourned without electing officers and without formulating any definite policy. Before the adjournment Mayor Waugh of Winnipeg, was appointed provisional chairman and Chas. F. Roland, provisional secretary, for the purpose of arranging for a session in Regina, November 1, next.

A difference of opinion in regard to the inducements offered to manufacturers which arose at the morning session resulted in a division which threatened to break up the convention. At an early stage of the proceedings, L. L. Pelletier, former mayor of Port William, and J. W. Macdonald, mayor of Port Arthur, refused to register their votes. Winnipeg, Edmonton, Calgary, Regina, Portage la Prairie, and Selkirk were in favor of the resolution which was carried by a majority of three. The three who voted against the motion were the representatives of Medicine Hat, Moose Jaw, and Saskatoon.

DEMONSTRATES HOME RULE; ORANGE COUNCIL

Says if Ever in Force Orangemen First to be Attacked by Enemies of Protestants

From All Over Empire Resolutions Were Received Condemning the Measure

London, July 18.—A feature of the proceedings of the Grand Orange Council yesterday, was the emphatic denunciation of the Irish home rule bill from the colonies. A letter from Lord Earne was read in which his lordship declared that if home rule ever came into force the Orange institutions would be the first to be attacked by the enemies of protestantism. It was of vital importance that they should make known to the world that their body was not confined to the limits of three kingdoms, but was reckoned with wherever the British flag is unfurled. From Victoria, Queensland, New South Wales, and Canada resolutions were received condemning home rule as a measure calculated to do irreparable harm to British supremacy. Colonel Scott said thousands were being starved yearly by the Orange banner. No loyal subject of the crown could stand idly by while old Ireland, an integral part of the empire, from time immemorial, was being gutted by the hands of a few fanatics.

No subject could view with equanimity the passage of the act. They would resist in the most determined manner possible that in resisting the bill, the resistance would have the solid support of Orangemen from all over the world.

SANITARY ENGINEERS ARE GIVEN KEY OF CITY

(Continued from Page 1)

work of the sanitary and heating engineers and impressed upon them the importance of their labors to mankind. He said in part: "Sanitation and heating affect the general public more than any other branches of engineering. The medical man may be able to cure the ills that flesh is heir to but the sanitary and heating engineers more than any others can prevent these ills."

"The people of the west are anxious to learn and to get the most out of life. Our city is striving to get the best possible sanitation and conventions of this sort are necessary to obtain results."

Continuing, Mr. Bennett said of the remarkable growth of Calgary during the past few years. "It is but a few years," he said, "when this city was hardly more than a hamlet, where sanitation and heating were practically unknown. But as the city has grown, marked advances have been made. But there is yet great room for improvement."

President W. J. Richards, of the builders' exchange, welcomed the visiting delegates on behalf of the organization of which he is the head. Mr. McDonald, of the architects, also delivered an address of felicitation.

President J. E. Walsh, of the Canadian society of Sanitary and Heating Engineers, responded on behalf of the delegates. He made a pleasing address in which he dwelt at length on the remarkable hospitality of the west. He thanked the speakers, who preceded him for their generous welcome. Alderman Yeoman, of Toronto, one of the delegates, spoke briefly on the optimism and energy of the west, and praised Calgary especially for its enterprise. Mr. Marr delivered a brief address that was full of ginger.

Yesterday afternoon was "reunited" with the delegates. They dined at the city meeting friends of other conventions, and making new acquaintances. Last night the visitors were taken on an automobile trip about the city.

Work begins in earnest at ten o'clock this morning. Several of the most important committees met yesterday, and everything is in shape to get right down to business this morning.

At the conclusion of the afternoon session today, T. B. Kidner, director of technical education in Calgary, will deliver an address at the Majestic theatre on "The Value of Education as Applied to Our Business." This address will be delivered about four o'clock and the general public is urged to attend. There will also be a meeting of the delegates this evening at the Grain Exchange alleys.

Convention Gossip.

Frank McKnight, of Edmonton, was one of the first delegates to arrive. McKnight is affectionately called "Tinty" by his friends, principally because he is anything but tinty. He is said to have a great aversion to sleep, particularly during convention periods.

"Scout" Higginbotham, of Port William, was one of the first line speakers. He is usually to be found where the shots were flying thickest. "Hig" is a battle-scarred veteran of many conventions, and is accustomed to "the smoke."

Adolph Mueller, president of the Mueller Manufacturing company, of Decatur, Ill., who will address the delegates this evening at the Grain Exchange alleys.

CARPENTER OF CALGARY TO EDMONTON PRINCIPALSHIP

Edmonton, July 18.—W. G. Carpenter, science specialist at the Calgary Normal school, has been offered the principalship of the Edmonton High school at a salary of \$2700. This was decided at tonight's meeting of the school board. It is understood he will accept. John Smith, also of Calgary, was offered the position recently at \$2500, but declined the offer.

SPOKANE CAPITALISTS BUY ALBERTA LAND

tan, just before his departure. "I consider that money invested here is safe and sure, and is certain to appreciate in value many times in the course of the next few years. Those who have means are just awakening to the tremendous possibilities of the province."

The Drumhellers have acquired large land holdings in various sections of Alberta. They have several thousand acres of wheat land near Carey, which they are developing, and took over the John L. Yegier estate in the Red Deer country some time ago. They own the townsite of Drumheller, one of the thriving new towns on the branch of the Canadian Northern between Calgary and Vegreville, now building. Near this town they have acquired coal measures of consequence, which they are developing, and from which they expect to ship fuel to the Calgary market as soon as the railroad is completed. The coal is of a superior domestic grade, containing about 50 per cent. carbon and 5 per cent. ash. Twenty-five men are employed in this coal development and several large seams, of sufficient size to insure the commercial success of the undertaking, have been uncovered. Thus far the work done has demonstrated that the deposit is a very extensive one, and with the agricultural resources of the section will build up quite a substantial town at Drumheller.

CITY HAS A KNOCKER AT WORK ON CURBS

(Continued from Page 1)

ed with the city clerk for his 1911 work, tore out and repaired some half-mile of sidewalk on one street alone. Whether the contractors employed the same quality of gravel in the concrete repair work as that used in the original concrete, is another question yet to be answered. The original specifications called for pea gravel, but since then, it is said that the engineer's office has framed a new classification in the specifications for gravel concrete work, limiting the size of gravel for the second class to chunks that will pass through a screen with a three-inch mesh. Which of the two specifications were enforced for the repair work has not yet been investigated.

BUILDING PERMITS IN CALGARY

(Continued from page 1)

Address	Value
1888	1,037,700
1892	2,018,140
1893	2,195,520
1901	2,807,040
1902	2,383,320
1903	3,223,840
1904	4,093,457
1905	5,430,468
1906	7,771,920
1907	12,832,496
1908	17,941,898
1909	19,824,978
1910	30,785,932
1911	32,747,800
1912	112,654,400

The tax rate for 1912 on this basis of assessment is 12 1/3 mills, and the levy is divided as follows:

Parks, 0.37; schools, 2.53; debent-

ures, 1.70; municipal, 7.41; hospital, 0.22; library, 0.36.

The great growth of the city's returns is shown by the fact that the total customs receipts at this point for 1900 were \$916,829.92, as against \$1,740,567.02 for 1911, while the revenue for the fiscal year ending March 31, 1912 amounted to \$1,833,387.18, placing Calgary fifth on the list of Canadian cities.

Not less remarkable is the continued growth in the statistics of the Calgary clearing house, showing that for the first six months of 1912, clearings totaled \$127,522,923. Engineering with 1909, the bulletin shows that the total clearings for that year were \$98,754,389. For 1911, they had increased to \$130,477,081, and for 1912, to \$133,651,921. At the same rate of growth exhibited for the first six months of this year, the 1912 clearings will total more than a quarter of a billion dollars.

Jumping from the realm of finance to agriculture, the bulletin presents statistics showing that more than a million acres of arable land in the Calgary district were placed in cul-

ture the close of the present year. The city has 45 miles of improved boulevards and 40 miles of macadam, granite, creosoted wood block, asphalt and bituminous pavement. With the walks to be put in during 1912, Calgary will have 100 miles of these sidewalks throughout the city.

The streets are lighted with 500 arc lamps and 8000 private connections have been made with the city system. The municipally owned light and power department of Calgary gives the city an average monthly revenue of \$22,939.41.

City Irrigation Center.

Calgary has a grain exchange with a membership of 125, is the headquarters for the largest and most costly irrigation system in America, and is the commercial center of 50,000,000 acres of the most productive farm lands on the American continent.

The foregoing are but a few selections from the numerous facts about the amazing growth of Calgary presented in the bulletin. "At least another 20 miles will be added before labor unions, etc.

Much space is given to the growth of the school system. At the present time there are 25 school buildings now in use, the larger ones built of stone, all constructed at a cost of \$1,000,000. The buildings now in course of construction include four large stone schools, one containing eight, and three 12 rooms each; a manual training and household science center will be instituted at each of these three.

Details are given concerning both the light and water departments in full and the fire department is pointed out as acknowledged to be one of the most efficient and up-to-date in the Dominion of Canada.

Different Hare

The price of tobacco has advanced in England, the workman having to pay four cents a pound more for the grades he commonly uses, though the choicer brands remain stationary in price. In Canada advances are made by reducing the size of the packages or

DO YOU WANT CHEAP LUMBER

Fifty-two Yards in Alberta—Two Yards in Calgary

Few people appreciate that there is quality in lumber the same as there is in tea, or in paint, or in most other articles. Cheap cull lumber or green lumber in better grades will build a house that, when well painted, will look fairly well for a few months. Such a building in our extreme climate soon takes on a dilapidated cheap look, making it difficult to sell, difficult to rent, and uncomfortable to live in.

We have always made a specialty of the highest quality, and owing to the tremendous size of our business we are able to buy on a basis that permits us to sell our lumber for as low a price as would be generally asked for a poorer quality. This has built up our large business—the largest in Western Canada.

Before building inspect our stocks and permit us to give you evidence that quality counts, our prices cannot be beaten. Particular people use our lumber. If your contractor obtains his lumber from us it is a sign that he is a particular man and demands the best of everything.

Crown Lumber COMPANY, LIMITED

Under instructions from BAILIFF F. X. STAHLE, We will sell at our Sales Rooms, 229 Eighth Avenue West, on

HAIL INSURANCE

"To be insured against hail on June 25th, halted out on June 27th, and to receive check for insurance covering damage on July 8th, was the experience of Rose Bros., north of town, and is an example of quick work on the part of the insurance company, who not only appraised the damage to the crop, but had a report in and a check mailed in 10 days from the time of the storm.

"Rose Bros. took out a policy with the Western Canada Fire Insurance Co. of which George Miller is the agent here, on June 25th. Two days afterwards 45 per cent of their fine wheat crop was damaged by hail which came during the heavy rain storm on June 27th. They reported the damage, an appraisal came down from Calgary, made his report, and on July 8th came the cash for 45 per cent of the amount of the policy.—Taber Times.
