YOU CAN TINT FURNITURE WITH CELOID FINISH

Of course you've noticed how popular "painted" furniture is becoming. Bedroom sets, sun porch furniture and, in fact, things for every room are finished by the best shops in "painted" beauty. Why don't you make over some of your old things in this new way? This is a marvelous finish—this Celoid—a really high grade medium-fine material that gives the effect of a costly "hand rubbed" finish. It may be washed repeatedly without leaving streaks or stains—in fact, washing improves it. In addition to tinting furniture use Celoid on any woodwork anywhere on walls of wood, wood, plate or fibreglass, or anywhere about the home which demands a finish in addition to Pure White. We guarantee absolute satisfaction or money-back for the empty can.

ILLEGITIMATE PARENTHOOD.

Dr. J. G. Shearer.
Five thousand children are born out
of wedlock in Canada every year.
These children are very badly hand-
capped for life's struggle. They are
inadequately supported, are poorly
educated and socially ostracized.
Their mothers, also, are most unjustly
treated. They are ostracized by so-
ciety, especially women, have single-
handed to care for their children and
bear usually the entire economic cost
of maintenance. The illegitimate fa-
thers in the past have gone scot free.
Too great cads to volunteer to bear
their fair share of responsibility, the
laws of the past have been too weak
to compel them to do so or pay the
penalty.

But this is rapidly being changed
in Canada. In 1921 the Social Service
Council of Canada began a movement
for a modern and efficient law for the
care of children born out of wedlock,
and for the securing of justice to the
mothers of such. The Ontario Legisla-
ture passed the measure in that
year; Manitoba the following year;
Alberta and British Columbia in 1923;
Prince Edward Island in 1924; and
the present prospect is that all the
other Provinces will adopt the measure
in the near future.

An important feature of the mea-
sure compels the illegitimate father to
support the child according to the
standards of his own station in life
until it is sixteen years of age, and
it is not left to the mother to take
the initiative in putting the law in
motion. This duty rests with the Su-
perintendent of Child Welfare for the
Province, who gets his information
from the Registrar to whom the doc-
tors and others are required to re-
port the facts of each such birth. The
Judge is clothed with power to de-
cide the question of the fatherhood
with all the evidence before him, and
as well to fix the amount of financial
responsibility of the father; also at
discretion to require the mother to
personally care for the child, assum-
ing her fitness. Thus as far as pos-
sible the child is assured a fair chance
in life, and the father is compelled to
bear his just share of responsibility
for its maintenance. This law has been
in force in Norway for 8 or 9 years
and has worked well, and in addition
to serving the purpose for which it
was enacted its operation has result-
ed in a steady decline in the number
of such births in proportion to the
population.

The law in Ontario, which contains
one-third of the population of Canada
has been operation for nearly three
years. The latest report indicates that
2,500 cases have been reported. A
large proportion of these cases are
still in process, but at least half of
them have been finally dealt with. In
203 cases it was impossible to estab-
lish the paternity of the child for lack
of corroborative evidence supplement-
ing the mother's statement. In 104
cases the parents were voluntarily
married. In 314 cases the mothers
specially desired that no action should
be taken. 639 cases were settled by
agreement between the parties con-
cerned, with the approval of the Su-
perintendent of Child Welfare and of
the County Judge. Considerably over
200 cases were decided by compulsory
court order. Of 1,387 cases, 920 were
of Canadian birth, 467 from the Brit-
ish Islands—an abnormal proportion.
Almost \$100,000 has been collected
and much more has been ordered paid
but not yet due. Of \$100,000 the ma-
jor portion, namely \$67,922 was col-
lected in 1923. It seems probable that
1924 will itself approach the \$100,000
mark.

It is, of course, too early yet to ob-
serve or report the effect in that Pro-
vince of the operation of the measure
on the number of births out of mar-
riage in proportion to the population,
but no doubt in future years we shall
be able to make the report of decrease
in the proportionate number of such
births as has been already appearing
from the longer experience in Nor-
way. When are Nova Scotia and New
Brunswick, Quebec and Saskatchewan
going to fall in line with the other
provinces in this important reform by
enacting a similar measure, and thus
giving the children of these provinces
born out of wedlock a fair chance and
their mothers something approaching a
square deal?

SLUGGISH LIVER DURING SPRING CAUSES POISON!

It is a time of year when your
liver becomes sluggish and your in-
testines become clogged up with poi-
sonous waste. Your liver does not
properly purify blood that flows to
your skin. The result is sallow com-
plexion, dark circles and pimples,
coated tongue and bad taste morn-
ings. As these poisons continue to
flood your system, your resistance is
lowered, you feel dull and tired and
sick.

Make this test! Cleanse and tone
your liver with Dr. Thacher's Liver
and Blood Syrup. Contains pure in-
gredients prescribed by Physicians.
Helps nature strengthen your stom-
ach, soothe tired, and overtaxed ner-
ves, brace up system, and purify your

FIRE DESTROYED HOUSE AT LEQUILLE
Annapolis—A fire breaking out at
three o'clock Monday morning, com-
pletely destroyed the home of Mrs.
Euphemia Thompson, an aged resi-
dent of Lequille, with all its contents.
The house has been unoccupied for
some time, as Mrs. Thompson is ill at
the home of her daughter, Mrs. Eu-
gene Joseph, and the origin of the
fire, which apparently started in the
wood-house, is a mystery.

THE EMBARGO QUESTION.

(Extract From an Editorial in Mon-
treal La Presse, May 23rd, 1924.)
Very few questions have aroused so
many discussions or caused so much
link to flow as that regarding the pro-
posed embargo on our pulpwood ex-
port.

When we speak of the embargo on
the export of our pulpwood we mean
export of pulpwood out on private pro-
perties—in the woods and forests be-
longing to individuals—as for a per-
centage of twenty years or more this em-
bargo has existed as regards the ex-
port of the wood out on Crown lands,
that is, those controlled by the Pro-
vinces or leased by them.

Everybody knows the results of this
policy. It has provided Canada with
an exceedingly prosperous industry
whose production today contributes
largely to our exports, particularly
our exports to the United States.

Our production of pulp in Canada,
has gone up from \$54,624 tons in 1908,
to 2,150,251 tons in 1922.

Our production of newsprint has
gone up from 350,000 tons in 1908, to
1,036,000 tons in 1922.

The value of the capital invested in
the pulp and paper industry in Can-
ada, which in 1917 was \$186,787,405-
00, has increased during the last year
for which exact figures are available
to \$381,006,524.

The advantages of our policy can-
not therefore be disputed. It is es-
sentially consistent with the national
interest, inasmuch as it has allowed
Canada to operate the wealth of its
forests for the benefit of its popula-
tion. It has compelled foreign capi-
tal, particularly American capital, to
co-operate in the expansion of this
national industry. It has endowed
this country with a prosperous indus-
try whose increase is constant, and
has enabled it to take possession of
the American market which we sup-
ply today with nearly half its news-
print.

But the fact remains that our
neighbours, who at the present time
are using an average of six million
cords of pulpwood for their domestic
production, are securing year after
year a million and a quarter cords of
Canadian pulpwood purchased from
individuals who permit them to eco-
nomize to the extent of about 20 per
cent, of their supply from the exploi-
tation of their own forests.

Thus our neighbours preserve a
part of their forest resources, while
we in Canada are witnessing an in-
creasing yearly drain upon our fore-
sts through this exportation, and
fires and insects are contributing to
their devastation as well.

Hence the question naturally comes
very logically; does not the embargo
policy, which has been so profitably
applied to our Crown lands, impose
itself clearly upon the forest products
belonging to individuals?

In selling this pulpwood which so
cheaply feeds the American industry,
we are relinquishing the profits which
would accrue from its industrial
transformation at home by our own
people, while, on the other hand, we
are hastening the draining out of our
forest domain.

The answer seems easy; it is one
of common sense and logic. We should
without delay, place an embargo up-
on the exportation of this class of
pulpwood. The benefit to accrue is
evident.

The Newspaper Has the Greatest Advertising Influence

The Women's Advertising Club of Los Angeles, work-
ing through the Women's Clubs of that city, conducted
a questionnaire on advertising media and their influence
which should be very interesting to the retail adver-
tiser. The computation was made that 90 per cent. of
the buying is done by women and that millions of dollars are
squandered every year in an effort to gain their atten-
tion. All walks of life was covered and the results fig-
ured on the basis of one thousand returns.

"Which of the advertising media influence you most?"
was the question. The answer was announced as fol-
lows:

St. John Telegraph of Saturday: An
Amherst mechanic went to Boston
last week to secure work. He is a
moulder, and after visiting thirteen
foundries and finding them all work-
ing only three days or less per week
he returned to Amherst. He was told
that the depression in New England
was expected to exist until after the
presidential elections in November.
Many Nova Scotians asked him what
the prospects of work were in Nova
Scotia, if they should come home; and
on the train on which he left were
forty-five Newfoundland people going
home because of the lack of work in
Boston. It is well that information
of this nature should be given to these
provinces, not only for the benefit of
any who may be thinking of migrat-
ing to New England but to remind
everybody that by comparison times
in New Brunswick after all are not as
dull as to warrant a despondent feel-
ing. The dullness is universal and,
for our part, we are now on the up-
grade.

James Rice spent Sunday at Lake La Rose.

Miss Stella Brooks, accompanied by Mrs. Eliza Hardwick, spent Sunday at the former's home at Hampton.

We are sorry to report Mr. John McLeod confined to the house with a lame leg as a result of a kick from a cow.

CENTRAL CLARENCE.

A disastrous fire occurred in this community on Tuesday afternoon when the fine residence of Wilfred Bishop's was burned to the ground, together with the adjoining buildings. A crowd of people soon gathered and they succeeded in saving the house, hold effects, Mr. Bishop was away at the time. The fire is supposed to have originated from a defective fuse. The family are staying at present at the home of Clarence Bishop. The buildings of S. B. Marshall were in danger of burning. His barn caught but the fire was extinguished by men who were there watching the property.

After spending several months in Mass., Mr. Downie has returned to the home of Mr. and Mrs. Stuart Leonard. A few of the people from Clarence attended the service at Paradise on Sunday afternoon. Dr. Patterson was the speaker.

Aubrey Sprowle has purchased an "Overland" from Mr. A. L. Beeler. Frank Pearson and family have gone to Bridgetown to reside.

Mrs. Tilly and family are returning to Glace Bay shortly.

LOWER GRANVILLE.

Mrs. Frank Covert accompanied by her daughter, Miss Leona Covert, and son Edgar Covert, and Mrs. D. Outhouse, and their children, who have spent the winter in Somerville, Mass., returned on Friday.

Mrs. G. R. B. Elliott and little son Guy, of St. Paul, Minn., arrived on Wednesday to visit at the home of Mrs. J. R. Elliot.

The play given by the local talent of Belleisle in the new hall on Thursday evening, May 29th was well patronized and much enjoyed by all.

Wm. W. Johnson, aged 58, of Red Rock St., Lynn, Mass., for than 20 years foreman of the stockfitting room at A. G. Walton Shoe Factory in Chelsea and a former shoe foreman in Lynn, died at the Massachusetts General Hospital, Boston, Saturday noon, following an operation for a tumour on the brain.

Although afflicted with a cerebral disease for the past six months, Mr. Johnson was able to assume his duties at the Chelsea shoe factory every day until a month ago, when his illness caused him to give up his work. Announcement of his death Saturday came as a shock to his hundreds of friends, by whom he was highly respected and deeply loved, especially among his co-workers who enjoyed his factory associations for numerous years.

The deceased was born in Granville, Nova Scotia, but came to this city when nine years of age.

He was educated in the Lynn public schools and subsequently became employed in a local shoe factory. From the ranks of the bench workers he rapidly rose to the position of foreman, and has been in charge of the stockfitting rooms of the Walton & Logan Shoe Company of Lynn and A. G. Walton shoe firm of Chelsea for the past 20 years.

He was very active in fraternal affairs and was a member of West Lynn Lodge I. O. O. F., Fraternity Encampment, I. O. O. F., Everett Lodge, Knights of Pythias and Bethlehem Lodge, A. M. and A. M.

The deceased is survived by his widow, Mrs. Eva Johnson, a daughter, Miss Helen D. Johnson, a mother, Mrs. Isabel A. Johnson and a sister Miss Leona Y. Johnson, all of Lynn, and a brother Charles F. Johnson of Haverhill, Mass.—(Lynn Daily Items.)

The late W. W. Johnson was the eldest son of the late Capt. Geo. Johnson, who commanded the brig A. Porter and was lost on the Isle of Shoals March 26th, 1876.

MOUNT ROSE.

Recent guests at the home of Mr. Silas Banks were Mr. and Mrs. Emda Banks of Nictaux and Mr. and Mrs. Wm. Clark of Port Lorne.

Mr. A. W. Salsman, a former pastor of this place, accompanied by Mrs. Salsman, were guests at the home of Mr. Allister Banks on Thursday and Friday. Miss Lena Banks and brother Kenneth of Outram, were also visitors at the same home on Thursday.

Mrs. David M. Milbury was conveyed by auto to the Hospital at Halifax on Thursday for medical examination. We hope her illness may not prove to be of a serious nature and that she may soon be able to return home again.

Mrs. Mary E. Kilpatrick of Port George, has been spending the week at the home of her friend, Mrs. Harry Hines, Mrs. Laura Brown of Brookline has also been a visitor for a few days at the same home.

Mrs. Sarah Grant, who has been spending the winter with her daughter, Mrs. Asabel Whitman, went to Outram on Friday to visit there for a few weeks with another daughter Mrs. David Marshall.

DEEP BROOK.

Rev. I. D. Lyttle and family left here last week for Parreboro, where Mr. Lyttle begins his pastorate, June 1st.

Miss Margaret McClelland spent the week-end at her home here.

Mrs. W. L. Archibald of Wolfville was a guest of Mrs. L. E. Sherman, Tuesday and Wednesday of last week.

Mr. and Mrs. David Vuill of Weston, Mass., are guests of Mr. and Mrs. E. V. Hutchinson for a few days.

The W. M. Aid Society held a very large and interesting meeting at the home of Mrs. Joseph Berry on Thursday afternoon, June 5th. The Society was very happy to welcome their president, Miss E. A. McClelland home again after an absence of six months spent in Massachusetts.

Mrs. E. V. Hutchinson and Mrs. H. S. Vroom were appointed delegates to the Western Association, which meets at Clarence on June 12th to 15th.

The churches comprising this circuit, Smith's Cove, Deep Brook and Clementsport, met on Tuesday afternoon, June 3rd, with the Deep Brook Baptist church. The principal business was to secure a new pastor. A unanimous call was extended to Rev. Frank Smith, of Winnipeg to become the pastor of this group of churches. Mr. Smith preached on this field Sunday, June 1st, and received a very warm reception from all the churches.

TOO WEAK TO WALK

The Sad Condition of a Brandon Lady—How Relief Came.

"I owe my present good health to Dr. Williams' Pink Pills," says Mrs. Annie Treherne, Brandon, Man., who tells of her new found health as follows:—"Some years ago I had an attack of pneumonia and it left me in a terribly weakened and run-down state. I was unable to walk for a long time as I had practically lost the use of my legs, and had to be carried upstairs, for I had not the strength to go myself. I became despondent over my condition for I had tried many remedies, which failed to help me. While in this wretched condition a lady friend urged me to give Dr. Williams' Pink Pills a trial and I procured a supply. After taking the pills for a while I could see that I was growing stronger, and I gladly continued their use until I had fully regained my old-time health and strength. Now if I feel at all run down at any time I at once take Dr. Williams' Pink Pills, and they never fail me. I can therefore warmly recommend them to others who may be run down."

There is no better tonic than Dr. Williams' Pink Pills to improve the blood and bring back strength after acute diseases such as fevers, pneumonia, influenza, etc. Given a fair trial they will not disappoint you. You can get the pills from your druggist, or they will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

UPPER GRANVILLE.

Mr. Graves, present teacher in Chesley section, is resigning his position here for further advanced study.

Mr. Fred Walker of Trail, B. C., is expected to visit his parents, Mr. and Mrs. A. Walker during the summer months.

Farmers have had little interruption by rain during the planting season, the spring has been cold, which may prevent to some extent, insect pests. The "sweet June days" are with us and again the Valley is at its best in leaf, bud and blossom.

An electrical storm passed over the Valley on Monday evening, June 2nd.

A family by the name of Rogers have moved from Hantsport, Hants Co., and are occupying the house owned by Mrs. John McCormick.

Mrs. Bart Gillis and daughter, Mrs. Joshua Campbell were chosen delegates and attend the late annual meeting of W. A. C. E., that convened at Digby on the first week in June.

The fine residence of Mr. and Mrs. Galus Eisner has had a pleasant porch added, making it now suitable and convenient for two families.

MARRIED

Dechman—Burns.

A wedding of more than ordinary interest took place here on Thursday morning when Dr. A. A. Dechman was united in marriage to Miss Ruth, only daughter of Mr. and Mrs. Percy Burns.

The ceremony was performed in the drawing room at the bride's home under a beautiful arch of ferns and apple blossoms tastefully arranged by the young friends of the bride. Rev. J. H. Freestone, pastor of the United Church was the officiating clergyman. The bride was given away by her father and the wedding march was played by Mrs. A. R. Bishop.

The bride looked charming in a travelling suit of blue and gray mixed tweed. The contracting parties were unattended and the guests were members of the families of bride and groom and a few intimate friends.

After the conclusion of the ceremony a dainty wedding breakfast was served and the wedded couple left by motor on a two weeks' tour of the province, which will include visits at Halifax, Musquodoboit, Sherbrooke, the Snyders and other parts of Cape Breton, after which they return to reside in the Doctor's house on Queen Street.

The wedding gifts were numerous, testifying to the popularity of the bride and included substantial cheques from the bride's parents; from Mrs. B. M. Rogers, New York, a cousin; Mrs. A. B. Jones, Warren, Ohio, an aunt of the bride; from Sunshine Bible class, of which the bride was president, a handsome club bag; from the choir of which she was a valued member, a string of pearls. The other gifts included china, silverware, cut glass and many other dainty and appropriate articles. The groom's gift to the bride was a pearl and diamond necklace.

The bride has for a number of years been a most enthusiastic worker in the United Church, in Sunday school and choir, and during its absence from the church, both the Doctor and his bride are favorites socially and enjoy the highest degree of popularity.

MARRIED. Purdy—Potter.

A very pretty wedding took place at the home of Mr. and Mrs. Edward M. Potter, Clementsvalle, Annapolis county on June 4th at 10 a. m. when their youngest daughter Winnifred Eileen, was united in marriage to Robert Allen Purdy, eldest son of Mr. and Mrs. R. W. W. Purdy, Wentworth St., Windsor, N. S.

The ceremony was performed on the lawn beneath an arch of apple blossoms by the Rev. C. M. Mack, pastor of the Methodist Church, and was attended by over fifty guests all immediate friends and relatives of the contracting parties. The bride looked charming in a gown of white satin trimmed with pearls, veil and orange blossoms and carrying a bouquet of carnations and roses as to the strains of the wedding march, beautifully rendered by Mrs. Mack, and leaning on the arm of her father she took her place beneath the arch. Her bridesmaid was Miss Mabel Milner while the groom was attended by Mr. Carl M. Nichols. Little Miss Gertrude Potter, niece of the bride, very prettily performed the duties of flower girl.

Following the ceremony the guests were served with buffet lunch after which the bridal party took the train for Windsor where a reception was held at the home of the groom's parents, the entire family being present for the occasion. The brides' travelling suit was of navy with pencil stripe, grey hat with plume and grey fox fur. The bridesmaid wore a beautiful dress of jade green georgette, while the flower girl was attired in white organdie with blue ribbon sash. As the guests were tendering their congratulations and best wishes a congratulatory telegram was received from friends in New York. The presents were numerous and costly including cut glass, silver and linen also several substantial cheques. After visiting some friends throughout the Valley Mr. and Mrs. Purdy will take up their residence in Somerville, Mass.—Windsor Tribune.

Mr. Purdy referred to above was for many years a resident of Bridgetown, where he is well and favorably known and his bride nee Winnifred Eileen Potter one of the most popular young ladies of Clementsvalle. They spent a portion of their honeymoon trip in Bridgetown and vicinity.—(Ed. Monitor.)

ACADIAN RELICS FOUND AT KENTVILLE.

Kentville—A find of Acadian relics was turned up the other day, in digging a foundation for a barn on the farm of Mr. W. W. Jacques, on Church street at this town. About three feet down an iron pot was struck, very much rusted. It had been placed upside down to protect a small pot underneath it. The latter contained two small glass cruets and a double mug, with a handle between them. They are supposed to be part of a communion service. Some years ago at Windsor Forks many Acadian relics were found embedded more or less deep in the ground. Two years ago Mr. Irvine at Point de Bute found in the line of the old Military Road, between Fort Cumberland and Fort Moncton twenty-three metal plates. They were believed to be composed of silver and pewter.

PROSECUTION FAILS IN THREE CHARGES

Kentville—In the Supreme Court Thursday, before Mr. Justice Ritchie, the case of the King vs Wallace Foster was tried the charge being that of receiving port wine knowing the same to have been stolen. The jury disagreed. In the second case the King vs Marsman, on a charge of stealing a coat, Marsman put up his own defence in a very excellent manner and received the verdict, "Not Guilty." The case of King vs Medford Gaul, on a charge of breaking and entering Kingston Station. Accused was found not guilty.

CUTWORM CONTROL

Judging by observations made by members of the Entomological branch of the Nova Scotia Department of Agriculture, cutworms will this season be very numerous. They have already done considerable damage to early vegetables in Truro and vicinity and are likely to be plentiful elsewhere, it is for this reason information is given.

The cutworm is that insect which cuts plants off at the surface or just below the surface of the ground. As the injury is done at night, a visit to the garden in the morning often reveals plants completely cut off or partly severed and wilted. If an examination is made at the root of the plant, the culprit, a thick brownish grey caterpillar is usually found curled up just beneath the surface, where it remains during the day, ready to continue its depredations the following night.

Poison bran mash is the recognized remedy for cutworms and if used as directed should be no difficulty in controlling them. It is made as follows:

- Bran 100 lbs
- or (Bran 50 "
- and fine sawdust 50 "
- Arsenate of lead, arsenate of lime or Paris Green . . . 5 "
- Water to moisten

A small quantity of molasses is said to make the mixture more effective, although it is not absolutely necessary. Smaller quantities may be made in the same proportions. Mix the bran and poison dry, then add the water slowly. The mixture should be just moist enough to bend in the hand and not wet enough to be sloppy. Apply thinly along the rows or round the plants in the evening and repeat as often as necessary. The insects will only feed on it as long as it is moist and for that reason should not be applied during the heat of the day.

The younger an insect is the easier it is to control. If cutworms are in your garden attack them NOW and do not wait until the damage has been done.

We suggest gardeners cut out this article and save it for reference.

DR. TURNBULL IS NAMED DIGBY BALL MANAGER

Digby.—At a meeting of the Digby Athletic Association Dr. C. V. Turnbull was appointed manager of the ball team for this season and at once assumed his duties. The team met for its first practice last night and it looks as though it will shape up into a good aggregation. A caretaker has been appointed for the grounds and the necessary repair work was authorized.

THEY TELL THEIR NEIGHBORS

Women Tell Each Other How They Were Helped by Lydia E. Pinkham's Vegetable Compound

Woodbridge, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles. I would have headaches, backaches, pains between my shoulders and under my shoulder-blades and dragging down feelings on each side. I was sometimes unable to do my work and felt very badly. My mother-in-law told me about the Vegetable Compound and I got some right away. It has done me more good than any other medicine I ever took and I recommend it to my neighbors. You are quite welcome to use this letter as a testimonial if you think it will help some poor sufferer."—Mrs. EDGAR SIMMONS, R. R. 2, Woodbridge, Ont.

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to other women. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

NEW COMPANY TAKES OVER BIG PLANT AT YARMOUTH.

H. S. Cook and Company Will Operate the Burrill Johnson Iron Co's. Works.

Yarmouth.—An important deal has just been consummated in this town whereby Howard S. Cook, Charles Purdy and Alexander Ross, take possession of the foundry building and plant belonging to the estate of the late Burrill Johnson Iron Company, Limited, and since that concern went into liquidation held by the Royal Bank of Canada. Messrs. Cook and Purdy under very adverse circumstances of only having a lease of a month at a time for the past two years carried on a very successful foundry and stove business, and they feel that now by acquiring the works there awaits them a splendid opportunity for development.

The new firm have acquired by the deal all of the patterns and other rights which went with the manufacturing of the Burrill Johnson Co's stoves, ranges, etc., and are putting their new premises in shape to meet all orders or contracts which may offer.

Immediately adjoining the south side of the Foundry building the new firm will build a stove erecting shop and fit it with modern appliances for the handling of their products. The firm will be known as H. S. Cook and Company, and the promoters have a very optimistic view of the future. The news of the sale is heard in Yarmouth with a good degree of pride, and it is felt that with the three men who are at the head of it each with many years of experience in the foundry and stove manufacturing that the success of the enterprise is practically assured.

EFFORT TO SELL COAL IN ONTARIO

Premier Armstrong Arranges Conference at Toronto.

Hallifax.—Through the efforts of Hon. E. H. Armstrong, premier of Nova Scotia, a conference was held in Toronto Thursday between Premier Ferguson of Ontario and A. M. Irvine, Montreal, general sales agent of the British Empire Steel Corporation with a view to arranging for the sale of Nova Scotia coal in Ontario.

The meeting resulted from a series of telegrams sent out by Premier Armstrong yesterday on seeing in the local papers a despatch to the effect that the Ontario government was prepared to assist in paying freight on Alberta coal shipped to that province. Premier Armstrong at once wired the Ontario premier suggesting the superiority of Nova Scotia coal and facilities for shipping.

He also wired Vice President McLurg of Besco at Sydney asking if offers would be made to Ontario and advising what he had done.

Satisfactory answers were received from all, and Mr. Irvine and Premier Ferguson are meeting in Toronto this morning.

FOUR LEGGED CHICKEN

William Warner, the well known tonsorial artist, is the possessor of a marked curiosity in the shape of a four legged chicken. One of his valuable egg producers on Sunday morning brought out a flock of about fourteen chickens, and that unique specimen was one of the number. The two extra legs are directly in front of the natural ones and in moving about the chicken appears to make use of three of them while the fourth appears to be useless.—Yarmouth Herald.

FUNERAL OF LATE MRS. ALBERT DELAP

Granville Ferry.—The funeral of the late Mrs. Albert Delap, who passed away in Elizabeth, N. J., on Monday evening, was held in the Baptist church, (of which she was a member) on Sunday afternoon. Rev. A. Gibson, pastor of the church, conducted the service and preached from the text, "When thou passest through the waters I will be with thee," and paid tribute to the fine personality of the deceased. The hymns sung, were "Leave God to order all thy ways," "The sands of time are sinking," "Lead Kindly Light." The casket was covered with many beautiful floral tributes.

Interment was in Stoney Beach cemetery beside her husband, the late Capt. Albert Delap, whose death occurred in Barbadoes seven years ago.

Previous to her marriage to Capt. Delap, Mrs. Delap was Miss Jane Rutherford of River Herbert. It was in South America where she had gone on a voyage with her brother, Capt. John Rutherford, that she met Capt. Delap, who was in the same port with his ship, the barque "Granville." The ships being in port there for nine months the meeting culminated in marriage, which took place in Valparaiso. Mrs. Delap accompanied her husband on many voyages to various parts of the world. When he retired from going to sea they lived in New York for a time, later coming to Capt. Delap's old home here. She is survived by one son, William Delap of Elizabeth, N. J.

EXPERIMENT WAS HIGHLY SUCCESSFUL

Fish Shipped From Halifax Arrived at Montreal in Good Condition.

"I would say that the experiment was highly successful," said Arthur Boutillier, President of the National Fish Company, Limited, when asked yesterday for the latest developments in the attempts made to carry fish from Halifax to Montreal with the use of carbon dioxide gas instead of water ice as the means of refrigerating. Fifteen thousand pounds of fish landed on Monday, May 12th, were placed in a car specially fitted with cylinders of carbon dioxide gas in place of the usual water ice and was despatched to Montreal that night. For purposes of giving it a severe test the car was not opened in Montreal until the afternoon of May 21st, ten days after. Mr. Boutillier was present when the car was opened. He has returned to Halifax and yesterday stated that everyone who had witnessed the experiment was more than satisfied with the results. "The fish opened up much better than we really expected," he said. "While there is yet a lot of experimenting to be done, we are now convinced that it can be made commercially practicable. It is understood that the railways are now prepared to adjust the refrigerator cars to carry carbon ice instead of the water ice. We are now quite certain we can ship fresh fish by this method at least ten days distant from Halifax. We have certainly had sufficient proof that no doubt the carbon gas has merit for refrigerating purposes."

In describing the opening of the car at Montreal, Mr. Boutillier said that one very noticeable thing about it was the lack of the usual fish odor. No matter in what good condition fresh fish arrived in Montreal under the former system of refrigerating, there was always that fish odor through the cars. The railway officials say that the absence of that odor alone there will mean a very substantial saving of money previously necessitated to rid the cars of the odor before putting another shipment aboard.

After the opening of the car those interested in the experiment had a quantity of the fresh fish served at dinner parties at the Mount Royal Hotel and Mr. Boutillier spoke of the splendid condition, its natural freshness and color being retained, as freshly as if just landed from the water.

SAM LANGFORD REGAINS SIGHT

New York.—A drama of the prize ring reached a happy ending at a hospital here Thursday. The principals, a veteran negro pugilist, an eye specialist and sport writer were supported by boxing fans of Los Angeles and New York.

Sam Langford, once known as "The Boston Tar Baby," and considered unbeatable by any pugilist of his poundage in the heavyweight ranks, was discovered desolate and all but blind in Los Angeles. Langford was sent on funds furnished by Los Angeles boxing fans, to New York, where Dr. James W. Smith, an admirer of the fighter in his prime, performed a free operation.

The bandages were removed yesterday, Sam saw and was happy.

WHAT THE CENSUS FIGURES SHOW.

Census returns now coming forward from Ottawa serve to indicate that ere long the urban dwellers of Canada will outnumber the rural population. In fact at present there is in the point of numbers little between them. For instance, in 1901 country dwellers outnumbered town and city dwellers by 1,200,000. In 1911 the figures stood 653,000 in favor of the rural section, while in 1921 there were only 75,000 more rural than urban dwellers. In spite of that seeming disparity, however, the area of occupied farms has increased by leaps and bounds. For instance in 1901 the occupied farm area amounted to 63,000,000 acres. In 1911 the occupied area was 108,000,000 acres and in 1921 it stood at 140,000,000 acres, though at the same time the rural population had not increased by any such proportions. In fact the increase over the two decades amounted to only 1,107,444 so far as the farming community is concerned. As the increase in crop production has run along in a fairly consistent manner in comparison with increased acreage, there is but one conclusion, and that is that labor saving appliances have largely taken the place of the hand. In other words less help is now required to produce given results.

In one department, the orchard, the census figures indicate a marked decrease in acreage, even as compared with twenty years ago. The orchard acreage in 1901 amounted to 356,000

FEEL BETTER IN FEW HOURS OR NO COST!

This is the time of year when your liver becomes sluggish and your intestines become clogged up with poisonous waste. Your liver does not properly purify blood that flows to your skin. The result is sallow complexion, dark circles and pimples. As these poisons continue to flood your system, your resistance is lowered, you feel dull tired and sick.

Make this test! Cleanse and tone your liver with Dr. Thacher's Liver and Blood Syrup. Contains pure ingredients prescribed by Physicians. Helps nature strengthen your stomach, soothe tired and over-taxed nerves, brace up system and purify your blood. Notice quick difference in way you look, eat, sleep and feel. You will be satisfied, as others have, at no cost.

Dr. Thacher's is sold and recommended by W. A. Warren, Bridgetown; Watson F. Porter, Pharmacy, Lawrencetown.

In 1911 it was 403,000 acres and in 1921 the acreage was down to 297,000. This result it is said has been brought about by low prices caused by over production at given periods. Fruit farming, in its present unorganized state appears to pay only by fits and starts.—Saturday Night.

NOT SO FOOLISH.

Vancouver.—Japan will not go to war with the United States over exclusion differences. Those two countries would be foolish to fight over such a thing. After all, the United States has a big racial problem which Japan has not. Japan is one united nation.

This was the opinion expressed today by Admiral Hidoo Takeda who retired from the navy in 1914, and is now chairman of the board of directors of a large shipbuilding and electrical appliance company in Tokio. The admiral arrived from the east six morning, having spent the last six weeks in the United States, and will sail for home on Thursday on the Canadian Pacific steamship Empress of Asia. He was on private business only, he said.

CHARGES THEFT OF LIQUOR AND A BOGUS FINE

Unusual Case is Heard at Lunenburg — Woman Awarded \$100 For Broken Leg.

Lunenburg.—The story of an alleged hold up, in which the plaintiff was relieved of a carload of liquor and a bogus fine of \$200, was told at the sitting of the Supreme Court here Thursday. This was the case of Avery Langille vs Fred Penny and Earl Jodrey, of Mahone. The plaintiff testified that he engaged to take a carload of liquor from Indianpoint to Bridgewater. When some distance on the road, they were held up by a man in a car, who represented himself as Sergeant Blakeney. The latter wore a coat with brass buttons and was supposed to be in uniform. He held up the occupants of the car, pointed a revolver at them, confiscated the liquor, and demanded a fine of \$200. Langille had only \$150 on him, which he handed over to the pseudo Dominion official, and as there was still \$50 to be paid on the fine, the plaintiff went to Bridgewater and borrowed the money from Arthur Garber, which the plaintiff alleged he paid to Penny.

The plaintiff occupied a room at Penny's Hotel and he maintained it was a hold-up on the part of Penny and Jodrey to obtain the liquor and money for their own personal use. Sergeant Blakeney gave evidence this afternoon to the effect that he was not the person who made the seizure and to whom the money was paid. All the witnesses for the prosecution were examined and there are four witnesses for the defence to be examined tomorrow.

The case is creating considerable interest here and the court room was crowded. The case of Keddy vs Naas was taken up at today's sitting. This was a case arising from an accident in which Mrs. Keddy, while driving in a carriage had a collision with the car of Daniel Naas and had her leg broken. The jury, after having been out a short time, awarded \$100 to the plaintiff.

JAPANESE NAVY SUPERIOR TO THE AMERICAN

United States Navy in Deplorable Condition Because of Lack of Trained Men as Well as Other Requisites.

New York.—Rear Admiral Bradley A. Fisk, retired, in a letter to Secretary of the Navy Wilbur, calls attention to the present comparative strength of the United States and Japanese fleets for operations in Far Eastern waters which he said was gravely misunderstood by the public. "Of course I do not mean to suggest," said the Rear Admiral, "that war is even possible but nevertheless it may be pointed out that the Japanese and the Americans have taken attitudes that are irreconcilable and that the Japanese have virtually broken off diplomatic relations by giving their Ambassador a "vacation." Such attitude and such acts have usually preceded wars, though they have not always been followed by wars.

Japanese Navy Superior. Though the people of United States imagine, he said, that as a result of the naval treaty the United States fleet is superior to the Japanese Navy in the ratio of five to three, "this is the reverse of the truth."

Even if the United States were superior in capital ships, he asserted, it is far from being superior in that ratio in active personnel, and it is "far inferior" in reserve. "If Japan should go to the extreme of taking the Philippine Islands and thus force us into war, the letter added, "We should find ourselves in a deplorable condition because of the lack of trained men as well as other requisites."

TEN TESTS OF A TOWN

A very well thought out list of those attributes of a Town, which make it attractive, has been made by Mr. L. A. Flint, chairman of the Department of Journalism, in Kansas University, and it appears in "Kansas Municipalities." The Ten Questions which are generally asked are given as follows:— 1 Attractiveness—is it pretty and well kept? 2 Healthfulness—is it well managed? 3 Education—what are the facilities? 4 People—are the residents good citizens? 5 Recreation—what is provided? 6 Living—is it expensive? 7 Accessibility—is it easy reached from other towns? 8 Business—are there good opportunities for investment? 9 Employment—are there prospects of employment? and 10 Progressiveness—is it going ahead? It concludes: "You cannot control the climate, natural scenery nor historic associations of your town; but in other respects it does not measure up to the standard that will be applied to it by intelligent townsmen. They get busy and "Help Make It Measure Up." The first big job of a town salesman is to see to it that his "community" is right."

WIDOWS AND WAR PENSIONS.

That a country never gets done paying for a war is pretty well exemplified in the United States in connection with the Civil War of over a half century ago. To be exact the Civil War ended fifty-eight years ago and still many millions a year are being paid out to either veterans or the widows of veterans. Of Civil War widows there are no less than 275,000 on the payroll of the United States, and of that number 488 are only 42 years of age, and about the same number 48, 49 and 52 years old. There are some three thousand Civil War widows that are between 53 and 57 years old. In other words all these mentioned were born after the war closed and many of them a good many years after, conclusive evidence that these old soldiers had an uncanny fondness for young girls, or perhaps girls saw a handsome living ahead of them if they could only marry some old veteran with one foot in the grave.

Prior to 1919 the U. S. Government was spending annually \$150,000,000 on these pensions, but later bills passed by Congress has added to the annual distribution of largess until the total stands at the very considerable sum of \$250,000,000 yearly, which seems quite enough for a war that is nearly sixty years old.—Saturday Night.

Granville Ferry.—Harold Eaton, who has been spending several days at his home, returned to Lawrence town, Monday. Mrs. Walter Mitchell, of Halifax, who has been a guest of her mother, Mrs. Lawrence Willett, returned Saturday. Mrs. Austin Gilliat and daughter, Dorothy, left Friday for Boston where they will spend several weeks with relatives and friends. Mrs. J. C. Shaffner and little daughter, Grace, left last week for New York, where they will remain for an indefinite time. Miss Susie Troop returned to Belleisle Saturday, after spending a week with her aunt, Mrs. Annie Amberman. Mr. and Mrs. Joseph Curry and three sons, of Windsor, who spent a few days at the home of Mrs. Curry's parents, Mr. and Mrs. Herbert Weatherspoon, have returned. Mrs. Leroy Gilliat is visiting her parents, Mr. and Mrs. Arthur Chute, in Clarence.

Cause of Early Old Age
The celebrated Dr. Michenoff, an authority on early old age, says that it is "caused by poisons generated in the intestine." When your stomach digests food properly it is absorbed without forming poisonous matter. Prolonged indigestion, however, causes premature death. 15 to 30 drops of "Seigel's Syrup" after meals makes your digestion sound.

The Value of a Guarantee

lies not so much in its protective penalty as in its satisfying assurance. No firm selling goods with a guarantee attached, expects to be called upon to pay the penalty. For it is naturally the intention to so carefully guard the quality that dissatisfaction will be impossible.

Throughout its many years of service "King Cole" Tea has consistently been sold with a guarantee—a guarantee definite and substantial. It is printed on every "King Cole" package.

It carries to the buyer an evidence of good faith—a confidence in ability to serve—a determination to serve well.

FOUND DEAD IN A SHACK AT DIGBY.

Body of Benjamin Ryan, Was Discovered by a Workman.

Digby.—Benjamin Ryan, a resident of Digby, was found dead in a shack owned by the Maritime Fish Corporation at an early hour Monday morning. The discovery was made by Emsley Ellis, a workman at the factory, who happened to visit the shack on his way to work. He noticed the body, lying face down on the floor, with his left arm inside his clothes and his right hand up to his head. The discovery was reported to the police, who immediately started investigations. It was found that the man was last seen alive sometimes between twelve and one o'clock on the previous night. Although residing a short distance from the town of Digby, the deceased had worked in the town for some months and was well known.

Many a man is driving a motor today who was not born when Dunlop Tires first appeared on the highways of Canada. Thirty years is a long time in the Tire business. It is the very beginning of the industry. 1888 saw the world's first pneumatic tire; 1894 saw the industry taking hold in Canada. Doesn't it stand to reason, in view of the above facts, that we must be better equipped and better qualified to serve the exacting demands of Tire users? Knowing the past of the Tire Industry so well, we must have pretty good intuition regarding not only the needs of the present, but the possibilities of the future.

GOLDEN WEDDING OF MR. AND MRS. WM. B. WILKINS.
Mr. and Mrs. William B. Wilkins, who reside at 19 Beacon street, Somerville, near Inman square, celebrated their fiftieth wedding anniversary last Saturday, from 3 to 9.30 p.m., when they received congratulations and gifts at a formal reception tendered them by nearly 200 relatives, friends and neighbors. The gifts included a purse of gold from a large delegation from the Broadway Baptist church, presented by Rev. Austen T. Kempton. Among the gifts of money was also a Canadian \$2 bill from Mrs. Wilkins' step-father, who is 90 years old, of Mt. Hanley, Nova Scotia, where Mr. and Mrs. Wilkins were born and married. The last 40 years of their home life was equally divided between Cambridge and Somerville.
Mr. Wilkins is a carpenter and learned the trade in Nova Scotia. He is a deacon of the Broadway Baptist church and a past grand of Harvard lodge, Manchester Unity Odd Fellows. Mrs. Wilkins is also a member of the Broadway church, a past grand of the Cambridge lodge, Manchester Unity

of the Margaret Fuller House Mothers club.
In the receiving line at the reception besides Mr. and Mrs. Wilkins were the latter's brother, T. H. Baiser, of Brighton, and her niece, Catherine LeGoff, of Arlington. The ushers were Elizabeth Gurney or West Somerville, Mrs. Elizabeth V. Holt of 19 Beacon street, Mrs. William Alden of Watertown and Arthur, Willard P., and Mrs. Evelyn Reade, all three of Lexington. Music was furnished by the Pimentel string orchestra.
Congratulations by telegraph were received from Mrs. Wilkins' brother, Fred, in California, and the mail brought letters from Nova Scotia, England, Connecticut, British Columbia, Winnipeg and a number of Greater Boston cities.
The dining hall and parlor were tastefully decorated in yellow and gold crepe by Mrs. Alden. A bouquet of yellow pinks and daisies was received from Annie Moore, of Wakefield, and a bouquet of large pink roses from the Broadway church—Somerville paper.
Mr. Wilkins was a former resident

Women have learned this simple way to keep youthful loveliness

The prettier complexions you see everywhere, today, are due to one thing:
Women have learned that it is unnecessary to sacrifice youthful loveliness to the passing years. This simple treatment has made it possible for millions of women to keep youth, charm. The secret is yours, too, if you will.
Just try this
Cleanse the skin regularly, authorities say, to keep your complexion lovely, radiant, youthful. But beware of harsh cleansing methods. They injure skin.
Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny pores. Rinse—and repeat the washing. Then rinse again.
Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

The number of houses destroyed by fire in the various county districts of the county this year has been beyond the average. The latest sufferer in this respect as noted in another column was Mr. Wilfred Bishop of Clarence who resided on what was known as the Doering property. The house was probably the finest in Clarence and it is estimated could not be replaced under \$15,000. The amount of insurance is understood to be in the neighborhood of \$5,000. The loss is consequently a most serious one.

WOMEN'S INSTITUTES OF NOVA SCOTIA
Work in King's County.
Mention has already been made of some of the accomplishments of nine Kings county Institutes. The interests of the remaining five—Lakeville, Medford, Sheffield Mills, Port Williams and Waterville—cover a large scope of work, some phases of which will be discussed in the following paragraphs.
Waterville branch, has been in existence only a few months. Here the program committee chose the subjects for the meeting of the year and one of the members was made responsible for carrying out each of these programs. A study is being made of parliamentary procedure and a start has been made in school and community work.
One of the big events of the year at Port Williams was the paying off of the mortgage on the hall, which is proving such a benefit to the community. The grounds surrounding the hall are being cared for by the Institute, which is also interested in the care of the Church St. Cemetery, one of the oldest burying grounds in the Annapolis Valley.
Sheffield Mills and Medford look after the upkeep of their halls and make improvements from time to time. One of the recent purchases at Medford was a set of dishes for community use.
Lakeville Institute is looking forward to the erection of a community hall, and in the meantime is proving its worth to the community in many ways. During the last winter hot lunches were served in the school and plans are being made for holding their first school fair in the fall.
Sheffield Mills, Port Williams and Medford have for some time been interested in School Fairs and the exhibits of garden produce, sewing, cookery, manual training and school work, shown by the children, are highly creditable.
Other school work in these communities includes offering of prizes, improvement of buildings and grounds and buying of equipment. At Medford the school room was resanted and a sewing class conducted for the girls. Splendid progress has been made in these weekly classes. Lately one afternoon a month has been devoted to talks on health and home nursing. The subject of better co-operation between the home and school was taken up at recent meeting at Sheffield Mills and Port Williams.
Circulating libraries, cleaning and beautifying of surroundings, entertainments and lectures under Institute auspices, and many other benefits arise from institute sources. But possibly it is through their help to the unfortunate that these organizations have won the highest esteem. The School for the Blind, The Kentville Sanatorium, Berwick Hospital, the
