All wore the badge of their respective parishes and carried its banner. These and small bannerests of blue and white seen here and there in the ranks, were the only symbols displayed. There were no bands and no blare, but there were 19,000 of Toronto's men and boys gathered in testimony of their respect for the one great name, at the sound of which it was foretold all in heaven, on earth and under the earth should bow. Those in the ranks had pledged themselves to clean speech, to a rejection of all blasphemy and to the promotion, wherever possible, of veneration and respect for the names of, their creator and His divine. Son. That is what the demonstration carried with it, and this is the meaning now beginning to be understood by all ranks and creeds of Toronto citizens. Some hundreds of boys were in the parade. These were the junior societies, and they marched with as much precision and enthusiasm as did their elders. There were nine divisions in all, in charge of division captains and marshals, the whole under the supervision of the union marshal.

The body of an unidentified man was found floating in the bay yesterday and was taken to the morgue where it is nan, altho foreign in appearance, is D. Thompson, for this name was found written on a pay envelope, which contain ed about \$17, and the initials, "D. T." were scribbled on a laundry check. The man looked to be middle-aged, fairly tall and stout, wearing a blue suit and celluloid collar. Dr. Hopkins will open an inquest this morning.

Crooks Worked a Clever Game by Having Counterfeits on Every Horse in the Toronto Cup Race and Cashed on Horron When He Won.

By cashing in counterfeit tickets on Horron, the winner of the Toronto Cup race at the Woodbine on Saturday afternoon, a gang of sharpers stole nearly \$5000 from the Ontario Jockey Club. The fraud was discovered by the cashier in one of the booths where the winning \$20 tickets were paid, who noticed that an unusual number of winning tickets were being cashed. When he called the attention of some of the officials to the fact, payments from that booth were held up and the tickets were checked over. It then was found that many more tickets had been cashed than were sold at the \$20 machine before the fourth race. As there were several others in line with genuine tickets, they were paid and Premier Fisher Returns to the Pinkertons were put on the case

Carefully Planned The system by which the theft was worked must have been carefully planned: There are only a few men who know what number a horse will be in each race. The men who handicap the horses do not number them conse cutively, and the programs for the afternoon races are not printed until

noon on the days of the meet. Whoever had the bogus tickets printed must have bought one of the printed must have bought one of the first programs in order to get the names and numbers of the horses in the Toronto Cup race. Tickets for every horse in the race must have been printed. It was known for weeks before the races that there would be heavy betting on the Toronto Cup race on account of the class of horses entered, so that that race was chosen for the haul. If an attempt were made to cash bogps tickets on say a three or four horse race the fraud would be discovered very quickly, but when there were half a dozen or more horses in the race it was an easy matter to cash bogus tickets before the fraud was discovered.

and show lickets were being cashed, and they got away with a considerable amount.

The cashiers in each paying booth always are given a memo, showing the number of winning, place or show tickets sold, so that they can have some idea of the amounts they have to pay out. When the cashier in the \$20 booth had cashed a large number of winning tickets on Horron he looked at his memo and knew at once that he had paid more tickets than it called for. He asked one of the officials if his memo was right, and upon being told it was remarked that he had paid out on twice as many tickets.

Fraud Discovered.

It was then that the fraud was discovered. The cashier and half a dozen officials went thru the tickets, and found the counterfeits. They were identical with the genuine tickets, except that the small numbers on the tops of the good tickets were missing. The cashier, of course, in his hurry, did not look for the very small numbers.

CAUSES BIG LOSS

Cattle Raisers Thruout the Country Are Worried About Insects.

ADVICE IS GIVEN THEM

Dominion Government Tells Breeders How to Rid the Cattle of Them.

Cattle raisers in almost all parts of Canada are familiar with the small lumps that appear on the backs of their animals difring the winter months and from which white grubs or maggots emerge at a later date. Many theories exist as to the exact life history of the insect, known as the warble fly, of which the white grub is the larva. The opinion generally held that the eggs are laid on the backs of the cattle, and when hatched, work their way beneath the skin, is proved by careful investigation to be incortheir way beneath the skin, is proved by careful investigation to be incor-rect. Dr. Seymour Hadwin, first as-sistant pathologist of the health of animals branch of the Dominion de-partment of agriculture, who has studied the subject, claims that the eggs are not laid on the back, but on eggs are not laid on the back, but on the legs of the cattle. This appears to bear out the theory that the newly hatched insects are licked by the animals and thus taken into the sys-tem and ultimately find their way to the backs where they develop beneath

the skin.

Inormous Loss.

The matter of chief importance to the cattle raiser is not the exact course taken by the insect within the body of the cattle beast, but rather the economic effect of the grubs upon the business of cattle raising. To throw light on this phase of the subject, Dr. Hadwin has written a bulletin, which is numbered 16 of the health of animals branch, dealing with the economic aspect of warble files. health of animals branch, dealing with the economic aspect of warble flies. In this it is shown that enormous losses occur each year thru damage to hides caused by these insects. Tanners consulted on the subject claim that during the "grubby season," extending from January to July, from 25 to 75 per cent. of hides are more or less damaged. The extent of damage is variously estimated by 16 large tanners to be from about 50 cents to \$1.00 per hide; the estimate of one Ontario tanner was 10 per cent., which is equal to \$180,000 per annum. The author observes that the man who undoubtedly loses is the farmer; the tanner does not want warbled hides at any price, and several of them at any price, and several of them testify that they buy hides only during the season when hides are not grubby. He estimates the annual loss to be between 25 and 30 per cent.
This bulletin of twenty pages, which is the first to have been issued on the subject in Canada, is helpfully illustrated. Copies will be mailed in response to applications made for it to sponse to applications made for it to the publications branch of the depart-ment of agriculture at Ottawa.

WORLD'S BEST CIRCUS COMING. Barnum and Bailey Show Adds Big 500,000 Spectacle.

The Barnum and Bailey Greatest Show on Earth is announced for two performances in Toronto, two days. June 19 and 20. To it has been added the wonderful spectacle of "Cleopatra." the greatest performance of its kind ever presented in America. It is enacted on a stage bigger than a hundred ordinary theatres and with a cast of 1250 characters, a great chorus, a ballet of 350 dancing girls and 700 horses. A train load of special scenery, costumes, properties and stage effects are used. This in itself is a mighty achievement, equal in attractiveness to the show itself.

This circus has stood at the head of the amusement business for more than fifty years. The policy of P. T. Barnum and James A. Bailey is still active in its management. These are the two greatest names in the history of circus affairs. Their show is the source of perfect satisfaction. The Same Gigantic Corporation That Created Gary, Indianathe Magic Steel City of 40,000-In 7 Years is to Build

What Ojibway was everually become nobody of course outside of the Company's officials can tell with certainty, but judging from what already has been done, by the few plans of the corporation that have been made public, by what the same corporation has done at Gary, and by the statements of its officials, Ojibway will be one of the greatest examples of magic city building that this country has ever witnessed.

Behind the growth of Ojibway is the U. S. Steel Corporation, the greatest organization of capital and the largest employer of labor in the world.

They have the wealth to carry to successful completion anything they undertake. They built Gary in seven years, and what they did for Gary we have every reason to believe they will do for Ojibway, as the beginning of these two Steel cities is similar.

The Foundations of the Steel Centre of Canada Have Been Laid

The United States Steel Corporation have already purchased their Canadian site, 1,650 acres, sufficient only for their first mills and a small number of employes' homes, stores, and other places of business.

The land bought by the Steel Corporation has been incorporated by Special Act of Parliament as the Town of Ojibway. A Mayor and four Councillors have been appointed for three and a half years by the Government, without re-election. A clause in the charter prohibits the sale of liquor for all time. This is the first Act of its kind ever passed

Many American manufacturers of steel products have already purchased sites in the Ojibway district for their new Canadian plants. The Ojibway district will be the centre of Canada's steel industry. The Dominion Government, after examining the Corporation's plans, made a re-survey of the Detroit River, establishing a new harbor line which will allow the extension

of the company's docks into deep water. The commencement of Ojibway and that of Gary is similar. There is every reason to believe that the results will be the same.

14,000 Mill Employes Earn \$1,250,000 a Month

This enormous figure represents the pay roll each month at the mills at Gary, Indiana.

One million and a quarter dollars each month put into circulation in this city of 40,000, and finding its way into the stores of the merchants, into the pockets of the landlords, into the banks.

Imagine how such an expenditure in the new town of Ojibway will aid in its rapid development and extension. And it must be remembered that every step in the advancement of Ojibway means a corresponding increase in the value of property adjoining the present town.

Profits for the investors in such property materialize with marvelous rapidity.

Consider the necessity for homes for this throng of work-

Oakwood the Best Investment, as it Adjoins the Site of the Steel Plant

None of the Steel Company's land in Ojibway can be purchased for speculation or investment. All land for investment purposes must be purchased outside of the corporate limits of Ojibway.

The strategic location of Oakwood speaks for itself. The rise in the prices of land in the Ojibway district has already commenced. Make your selection of lots in Oakwood immediately—it is the early buyers who reap the largest returns.

The people below scrambled for the money and Boris insisted on the sugar king handing it out till his pockets were empty. Boris gave it all to the crowd, which grew so excited that the police came in to see what the matter was, but withdrew on learning that the grand duke was mixed up in it.

The sugar king did not seem too pleased, as 500,000 roubles (\$250,000) had disappeared, but dared say nothing as he wants to get into the grand duke's set.

Blue Monday

ONDAY is a "blue" or dismal day, because women have chosen it for the hard, unpleasant task of washing. Just why it is the accepted washday is not clear, for of all the days in the week it is the most unsuitable. It is a busy day without the drudgery of washing, and women are always tired and usually out of humor on Monday.

The house may have been in "apple-pie order" at bedtime Saturday night. The refrigerator and pantry may have been stocked with good things to eat until their shelves groaned—but Monday morning always sees the house topsy-turvy and the cupboards as bare as Mother Hubbard's.

Your entire effort is needed to get things back into their proper groove. Even the help are demoralized from their afternoon and evening off. This

If Tuesday morning could only be chosen as the national washday would have no more "blue" Mondays and housekeeping would be simplified.

It is a good investment to buy those things which furnish a laundrand enable you or your help to wash in the easiest way. A copper boiler will never rust your clothes and will outwear many tin ones, and a clother wringer with good, soft rubber rollers will save your clothing and your time. A washing machine is a proven help; the ones operated by water-power give splendid satisfaction and one should be installed in every home where the

Three tubs are necessary besides the machine if you would work rapidly—one for rinsing, one for blueing and one for soaking the clothes.

Every woman has her own idea as to the best way of cleaning soiled clothing and these ideas are as fixed as the laws of the Persians, but all admit that certain chemicals like ammonia and borax loosen the dirt. Washing soda is used by hired help and is a powerful bleach, but soon eats minute holes in the fabrics. The recipe given in this column for Javelle water is the best detergent known. Quite the most noticeable feature of this race meeting has been the exquisite shoes and stockings displayed to great advantage by the slit skirts, which unfortunately often display to great disadvantage. Shoes are no longer of one color, but are worn in two and sometimes three shades, almost all having the huge colonial paste buckles varied by bows, crowns and butterflies all is paste, the average price ranging from \$10 to \$25 a pair, adding at least \$10 for the shoes and from \$2 to \$5 for the stockings, the fashionable woman's bill for footwear is almost equal to that for her hats. The prettiest feet and those the best shod during the meeting were certainly the dainty pair belonging to Mrs. Cushman of New York, who was a popular visitor with Mrs. George Hees, and the guest of honor at innumerable entertainments. On Wednesday Mrs. Lowndes' green satin slippers with paste buckles came a close second, and Miss Marion Gibson's smart patent leather colonial shoes were a delight to behold. Many of the shoes are made with patent leather front and heel and back matching the gown, Mrs. F. H. Phippen wearing a very pretty pair matching her cream colored tailor-made on Wednesday afternoon. Purple shoes are the rage, and in some cases look charming, but worn with all colored gowns are horrible, especially some having white heels and white stripes at the side, which are most unbecoming to the foot. Black satin are still the real he side, which are most unbecoming the foot. Black satin are still the res the foot. Black satin are still the real favorites, but some women were noticed wearing worn-out black satin slippers, beads off and toes and heels rubbed white—dear old comfy things, which should have been relegated to very private wear months ago. Aside from shoes, the fashions have not been so had as we have defer the first check. from shoes, the fashions have not been so bad as we hoped after the first shock on the 24th. The colors are at least cheerful, and make a good appearance if one does not look too carefully at the faces under the cerise, tomato, pumpkin, lemon, puce, magenta, emerald, and all seven shades combined hats, for they are generally unbecoming and inclined to reflect upon the wearer's face with awful results. Then the gowns belted just in the wrong place; they are very nice on the slim young girl, but on the stout woman—the less said the better. Lots of the society women are fortunately dressing in as good the better. Lots of the society women are fortunately dressing in as good taste as usual, and some exquisite gowns were noticed every day. Mrs. Christie had some lovely dresses, perhaps her most becoming being on Wednesday, when she had on a beautiful jetted wrap. Mrs. John Macdonald looked well, especially in black, and Mrs. Duff Scott was always noticeable either in tailor-made or satin gown; Miss Lily Lee, who wears a tailor-made better than anyone in town, had some very smart ones alternating with her lighter frocks. Mrs. James Worts wore some charming dresses, especially one of fine white voile, embroidered with posles of flowers in crewels. Miss O'Brien wore one of the new coats like a dress suit one day with a plain striped skirt.

The story of Christ walking on the water was told by Archbishop Wright of Sydney, Australia, last evening, in St. James' Cathedral, to a congregation made up largely of people who have migrated from Great Britain westward to better their fortunes and make homes for themselves. His appeal was direct to those who know Christ, and have faith in Him, will be comforted when buffeting the storms that come in life, especially the life in Mr. Clarence Bogert gave a dinner of sixty covers at the Hunt Club on Saturday night, when the tables were decorated with pink sweet peas and mauve and white lilacs.

The story of Christ walking on the water was told by Archbishop Wright of Sydney, Australia, last evening, in St. James' Cathedral, to a congregation made up largely of people who have migrated from Great Britain that come in life, especially the life in a new country.

"The miracle tells you when you are in storm and stress to keep on toiling as the disciples did and Christ will come to you," the archbishop said.

"If you want to be ready for the eventualities of life, make sure that you know Jesus, and when He comes to you you will not be afraid."

With the manner of a master teacher the archbishop explained to his audience how they can come to know Christ. "To know Him, read about quantities the child is very likely to escape these troubles. Of course the room must be thoroly fumigated at the close of the illness, and the child bathed and dressed before allowed to mingle with other childers.

I speak of this that you may realize the truth of Miss Haswell's love for you all—her "matinee girls and boys," and the rest o' you. Percy Haswell's feeling for Toronto is like the love of a child for her "secret garden." Here she plays the most wonderful tames of pretend, and Toronto plays with her. She loves her playmates; does this sweet player, with a wholeloes this sweet player, with a whole-locarted affection that some of you pribly old people are humanly in-

A crude and elemental painting of the ocean that makes you shudder with its suggestions of wrecks and dead bodies, of treasure lost beneath the waves and then fills you with awe as its power and grandeur impress your unimpressionable soul?—or, the same subject portrayed with exquisite and perfect technic by a man to whom nature is not an awe-inspiring expression of the Divine but a necessary thing incidental to but a necessary thing incidental to his art, created that he might repre-duce it in technical perfection?

P. A. Gahan, lawyer of New Hambourg. Ont. (which is a new one on me), has dictated to his stenographer, and the world at large, the marvelousoriginal statement, that "mere

rhyme, and questionable rhyme at that, does not constitute poetry."

Dear me!

He quotes from some unknown source the following:

"Poetry: An act that has for its purpose the Creation and prolongation of intellectual please."

Ah me!

Ah. me!

Now, if intellectual pleasure be the mental satisfaction experienced in solving a mathematical problem R. W. S. is no poet. But if intellectual pleasure be a mental awakening to human understanding and symmetric pathy, and (thrown in as the natural outcome of this) an awakened desire for a natural life of uncivilized emotions, rather than an unnatural existence of over-civilized emotionalism, then this crude, elemental rhymester is necessitive. is, according to our own country lawyer's authority, a poet.

LILACS

A Point or Two

Mention the word spring in the ear of the first fifty friends you meet, and I venture to predict that, of the whole fifty, at least forty-nine of them will find the picture of some favorite lilac bush flash across their memory. Thus closely are the two associated, especially with Canadians.

Of late years lilacs have been so assiduously cultivated, and improved, that we have now some superb vari-

that we have now some superb varieties. No garden should be without its one or more specimens.

Lilac bushes are not easy to deal with, altho most people think that all that is necessary to do is to simply plant their shrubs and let them grow. Much depends upon the pruning, because according to the manner of pruning, depends the crop of bloom.

Another thing,—keep down all the young shoots,—called suckers, that spring up so freely from the base of the tree. These suckers are a tremendous drain on the general vitality of the root and usurp nourishment that should be directed towards the production of bloom. Cut these out, from the very root, unless you are desirous of obtaining a new shrub. If this is the point in view, clear away all but the one selected sucker. Let this be one that has sprung up some distance from the old tree. When sufficient small rootlets have formed on its own root, take the spade, and cut down deeply between the old and the new, so that no connection is left. but do not lift the new shoot yet. Leave it growing, just where it came up, until next spring. By not disturbing it, those tiny new roots (and it is really surprising how a few wee rootlets will keep the "sucker" alive) will have grown into fair sized roots, and if carefully lifted, with plenty of earth around its earth-fibres, may be transplanted to its permanent spot.

I have been told, time and again, by those who are considered authorities on the subject, that it is an utter im-

FOUND WOMAN DEAD IN WELL

Drowning Apparently Due to Accident, But Some Mystery Surrounds.

GALT, June 1. — (Special.) — At Pleasant Grove, near Branchton Village, two miles south, Mrs. James Tutton fell in a well, in which the water ton fell in a well, in which the water was only a few inches deep, and was drowned. Mystery surrounds the occurrence. The woman was at home with a baby boy, but friends who called, found the child alone and no trace of the mother. Finally the cover of the well was lifted, and the body discovered there. How the lid was replaced after the woman dropped in, no one can explain. Dr. Smillie and Dr. Main, attending physicians, are satisfied, however, that the fatality was the result of an accident, Mrs. Tutton having evidently sought to reach a pail with eatables suspended in the well and, slipping tumbled over, striking her head and becoming unconscious. There will be no inquest. The death of Mrs. Tutton was the first break in a family of sixteen.

HOG CHOLERA IN BRANTFORD.

BRANTFORD, June 1.—(Special)—Hog cholera was discovered in this city and 3.14 head were shot at the order of Dominion Inspector Perdue. The swine were shipped to a Brantford packing house from an outside point and disposed of locally. The authorities propose to trace the source of supply and carry out a rigid investigation.

THE WEATHER OVER THREE THOUSAND MEMBERS IN ONTARIO MOTOR LEAGUE

Membership Has Been Boosted One Hundred and Fifty Per Cent. During Year-U. S. Government Will Recognize O. M. L. Cards as Passports on Short Trips-Enthusiastic Meeting in London.

Fifty ardent motorists attended the dinner given at the Tecumseh House, London, on Saturday in honor of the visit of the board of directors of the

nouncement that the Automobile Club of Buffalo had interceded on behalf of Canadian motorists desiring to enter the United States for short trips, with the treasury department at Washington, D.C., and had succeeded in getting the U. S. Government to recognize membership cards in the Ontario Motor League at Buffalo and Niagara Falls as passports, instead of the letter formerly required from the U. S. ter formerly required from the U.S. consul identifying the motorist, this privilege being extended where the trip was not to exceed seven days in duration. A resolution was passed thanking the Buffalo Club for its courtesy and requesting it to use its influence further to have this privilege extended to all U. S. ports of entry contiguous to Canadian territory.

Petition Government.

In view of the concessions made by the U.S. Government and the fact that motor cars entering at one port are allowed to make clearance at another one, it was decided to petition the Hon. J. D. Reid, minister of customs for the Dominion of Canada, to allow a similar privilege to U. S. motorists. Canadian Government.

Satisfactory progress towards the formation of a federation of all Automobile Clubs in Canada was reported. The Automobile Association of Victoria B.C., before stating its attitude on this question, wished to know what the position of the Ontario Motor League was in regard to the extension of federal aid to the provinces in highway building. The answer decided upon was that for the consideration of just such questions of national interest, a Dominion federation was being projected by the Ontario Motor League.

The Ontario Railway Board, in letter to the chairman, invited the co operation of the Ontario Motor Leagu visit of the board of directors of the Ontario Motor League. Several parties motored up from Toronto, and a score of directors from Toronto, Peterboro and Hamilton traveled to London in a special car attached to the sam. G. T. R. express.

Business of interest to motorists thruout the province was transacted at the regular meeting following the dinner. Applause greeted the announcement that the Automobile Club of Buffalo had interceded on behalf of Canadlan motorists desiring to enter consultation. A resolution was passed endorsing the movement to establish country clubs in the vicinity of the larger cities. One hundred and sixty-four new members were elected, bringing the total membership of the league up to 3281 an increase of 150 to 3281, an increase of 150 per cent. over the membership a year ago. The Welland Club was affiliated with the league.

Some pacifists have appealed to the souls of men—"War is wicked." their watchword. Others have appealed to men's fears—"War is dangerous," their cry. But Mr. Angell frankly appeals to men's pockets: "War is wasteful." he says in effect. "Neither for victor nor for vanquished is there any money in it, and therefore the game is not worth the candle." This is a shifting of the ground of pacifism from both the essentially incalistic and the essentially emotional standpoints to an essentially material position. But it does not follow that love of money will therefore necessarily fail to effect that change in the attitude of humankind to war which neither love of right nor love of life were able to bring about.

YORK PIONEER AND HISTORICAL SOCIETY.

The regular monthly business meeting will be held in their room, No. 198 College St., on Tuesday, June 3, at 3 o'clock sharp. Very interesting address by Dr. R. B. Orr, Director of the Provincial Museum. Large meeting requested. Daniel Lamb, Pres.; J. W. Millar, Sec., 1 Edgewood Ave. 61

ime of the most eminent pacifist of the present day
In British politics Mr. Angell is classified as a Liberal. Side by side and hand in hand with his zeal for peace is his enthusiasm for progress. And it is probable that he would apply equally to the one as to the other his notable argument in the economics of his case for peace; but "in the last resort, the economic question lies at the bottom of the sentimental question." bottom of the sentimental question."
He has no sympathy with a national—as opposed to an international—ideal. In his view the interests of labor, whether in Great Britain, in America or in Germany, are more closely engaged in a struggle against capital than in any international conflict that can possibly arise. Nationality looks to him but a heritage from the wars of the past. In an internationalism wherein the well-being of the workers is to be the prime concern, he sees the vision of the realization of the dream that war has no true place in the modern world. "The nations must realize that they are a community, and that a community can only exist by virtue of the units composing it surrendering the use of force, the one as against the other."

task, which he undertook as a man.

He read froin the vision which Isalah saw of Jehovah. Then he slowly and quietly proceeded to lead his audience up to the same great altar. He charged men today with looking upon the universe and giving it a big U, in which God has been lost. That the sin of the age was that we have lost the sense of sin. Hence it takes one minister, seven elders, fifteen Sabbath school scholars and two hundred communicants to win new memdred communicants to win new mem-bers to the church. He pointed to the year 1596 when the Church of Scot-land was shaken with conviction of sin and purged with tears and forgiveness. Let the same come to us in

It was not his fault that the fire of heaven did not fall. But he is not an Elijah and it is not the sixteenth century. Hence we saw no tears of re-pentance and heard no beating of pentance and heard no beating of men's breasts or sobbing over sin. The men and women of the kirk have too good a grip upon their feelings. But a speaker would be a rash student of men if he judged that those dour faces belonged to hardened hearts. Or that the Almighty had not answered for a quickening of souls.

The whole day was strenuous, but there is nothing on earth that the church of John Knox enjoys better than preaching. And they must have had their fill of it from such a clicked of kirks. The climax came in a great in the gospels, where "it was noised in the gospels in the gospels in the gospels in the gospels in the gospel

TECUMSEHS IN FINE FORM **AGAINST THE NATIONALS**

Indians Outshine Frenchmen IRISH CANADIANS in Every Department and Win by Big Margin.

One should be forgiven for doping ague winners at this time of the year, Torontos Beaten by a More Ag- Ca t\if Tecumsehs play as good lacrosse for the rest of the season as they did on Saturday they should finish somewhere near the top of the Big Four ladder. The ndians trounced the Nationals by 7 to 2. hey dazzled, outshone and outplayed the Frenchmen in every department. They were a better team from goal to inside home. That's how they landed a victory.

Tecumsehs never let up the pace they set when the game opened. They continued to plug away even after they had put the game on ice. The defence, which has always been strong, was practically impenetrable, and the home, which during the past few years has been weak, was strong and effective. McDougall, McGregor and Carmichael were a great trio, and Smith, Felker and Querrie were as brilliant as of yore.

MAKE TWO CENTURIES

LONDON. May 31.—At the close of play today the cricket games stood:

The Surrey-Warwickshire match ended in a draw, Warwicks declaring their second innings at 302 for three. Kinnear made 152 (not out); Qualfe, 109.

Cambridge drew with Yorkshire, former's second innings, 184 for six.

Derbyshire, which is practically certain to be beaten when play resumes, closed, at 108 for seven, against Lancashire,

Middlesex v. Essex—Middlesex first, 317, Warner 125.

Northampton second against Kent, 141, defeating the latter team by ten wickets. Gloucester just managed to draw with Sussex, whose second innings was declared at 285 for six.

Notts v. Leicester—Notts, first, 236, Gun 66; Leicester 73 for two.

LAKE SHORE LEAGUE.

BOWMANVILLE, May 31.—The Lake Shore Basebail League opened the season here today with a game between Goodyears of Bowmanville and the Oshawa team. Mayor S. C. Hillier pitched the first ball and Town Solicitor McLean was the umpire for the mayor. The game resulted in a victory for Goodyears by a score of 19 to 9, Batterles—Goodyears, Beith, Jones and Hollenback; Oshawa, McComb and Garrow. Umpire—J. Rosevear of Port Hope.

Rt Hamilton for the spring meeting, which, however, does not take place for several weeks. Quite a number are already on hand, and more are expected next week. The Hamilton Derby, which is the feature of the opening day, is attracting unusual attention this year, as the race promises to bring together many of the best three-year-olds in America. It is altogether likely that at least ten will face the starter, among tehm being Tent Point, Hawthorn, Horron, Kleburne. Barnegat and Buskin. With such a field the Hamilton Derby should prove one of the best races on the Canadian circuit this season. The addition of the Kentucky stables will add new interest to the sport at Hamilton as a number of the best stables now at Louisville will be represented at the coming meeting. Many improvements have been made at the course, and at Hamilton for the spring meeting,

LONDON, May 31.—Pitcher Rogers of the Ottawa Senators held the locals to five scattered kits this afternoon and won his game by 6 to 1. The visitors connected with Chaput's shoots at will and had little difficulty in getting away with the last game of the series. Manager Deneau pitched the last two innings and did not allow a hit. Rogers was the star of the game, pitching stronger at the end and grabbed off the batting honors of the day. Score:

Archbishop J. C. Wright of Sydney, Australia, who has been visiting in Toronto for a couple of weeks, made a forceful appeal to the congregation of St. Paul's Anglican Church yesterday morning against setting up a golden image for worship.

"My duty is to ask you this morning what is your plan of life?"
"The world spirit is merciless and will have none of those who will not obey." He recalled an epidemic of wildness in society in London, Eng., some years ago. "The Christian hostesses were blamed," he said. "They dared not interfere."

Accepting it as granted that Christianity is the greatest corrective to desire for the flesh pots of Egypt, he bore sire for the flesh pots of Egypt, he bore strongly upon the need for people in Christian countries to educate themselves into conviction of the truths of Christianity—"the conviction that has its anchorage in eternal truth," he asserted. "No Christian ought ever to be ashamed of having conviction, notwithstanding the conflict there may occasionally be between feeling and practice."

To drive home the need for conviction, he referred to the abolition of the slave trade. "How was that terrible trade abolished?" he asked, and answered, "Thru men of conviction. They freed the heavest and we were. andahs, etc. 9257 faced the harvest, and we reap. They did not shrink at the cost."

NEW YORK, June 1.—While the course of the stock market for nearly a fortnight clearly foreshadowed a receivership for the St. Louis and San Francisco Railroad, the eventual announcement seems to have taken a large part of the financial community both here and abroad completely by surprise. There was great consternation among the French bondholders, and the rapid declines in the bonds and stocks in the New York market on the day following the filing of the suit in St. Louis indicated the news had not been wholly discounted. It is evident that too much reliance had

No Serious Trade Reaction.

No Serious Trade Reaction.

In the meantime, there has not as yet been any serious reaction in general trade. The present state of business might be correctly termed a seasonable quietude. The steel trade, still regarded as the best of barometers, is showing an activity that is surprising in view of the rather pessimistic predictions made in some quarters about a month ago as to the industry.

Friction between Speyer & Co. and Yoakum began a few months ago. it is said, when the firm declined to finance maturing notes for \$2.250,000. This brought about the receivership, although the earnings of the road, the bankers say, did not warrant such action.

BANK STATEMENT

NEW YORK, May 31.—The statement of the actual condition of clearing house banks and trust companies for the week (five days) shows that they hold \$67,208,500 reserve in excess of legal requirements. This is a decrease of \$89,900.

The statement follows:
Actual conditions—Loans, decrease \$6,282,000; specie, decrease \$163,000; legal tenders, decrease \$559,000; net deposits, decrease \$7.396,000; circulation, increase \$220,000; excess lawful reserve, \$27,208,500; decrease, \$89,900.

Summary of state banks and trust companies in Greater New York, not included in clearing house statement:

Loans, decrease \$2,105,300; specie, increase \$134,600; legal tenders, decrease \$309,900; total deposits, decrease \$3,907,000.

COLLAPSE AT BERLIN

BERLIN, May 31.—There was a general slump on the bourse here today and selling orders poured into the collapsed market on a rumor which was afterward confirmed that the German Imperial Bank and the Prussian State Bank were taking up today \$56,250,000 four percent treasury bills repayable in 1935. The movement was accentuated by unfavorable home and foreign fron markets in which falls of three and more points were recorded.

LONDON, May 31.—(Special.)—The financial position with the preliminary peace treaty signed by the Balkan belligerents yesterday is easily diagcurred at what would have been the would probably have been a buyer on the stock market, and the new security issues, which would then have been spread over many months, would also

probably have been absorbed.

Now, however, public confidence, having been alienated by the disappointment of many premature hopes of peace, will be slow to return, and meantime the markets are suffering from an avalanche of accumulated new loan creations as well as from the financial unrost of the continent. The inevitable net result is the financial indigestion which is now so plainly visible and which only time can cure.

Heavy Profit-Taking.

Floods of selling orders from fortunate longs appeared to be all that prevented considerably higher prices than were reached in the wheat market. On all hard spots, the offering invariably grew to such volume as to turn the course of trade, but then quickly lessened. A notable feature of business was improvement in cash demand, especially on the part of the eastern millers. Primary receipts of wheat was 737 bushels.

Belated covering by shorts in corn advanced May sharply at the close. Otherwise demand was not urgent and prices merely reflected the action of wheat. Severe damage reports from the southwest carried oats higher.

Provisions were helped upward by an advance at the yards, but afterwards became irregular. There was uncertainty as to what might be expected in the monthly statement of stocks on hand.

Receipts of farm produce were 300 bushels of grain, 10 loads of hay, 20 loads of mixed produce in the north market building, and a plentiful supply of butter and eggs on the basket market.

Oats—Three hundred bushels sold at 32c to 40c. Nevertheless the actual signing of the peace agreement is of great im-portance, and will undoubtedly facili-tate both the process of gradual ab-sorption of the securities still in un-derwriters' hands, and the return of

o 40c. Hay—Ten loads, slow sale, at \$12 to \$15 sibly still remain some awkward political corners to be turned in the near east in relation especially to the threatening attitude of the Baikan allies towards one another, but it is now believed in Lombard street that the worst is definitely over.

Frisco receivership we regard as a most unfortunate incident, especially with regard to Paris, because of the block of Frisco bonds only quite recently placed in that market. The incident is likely to do American securities great harm in Paris. Moreover some say, even here, that the receivership was unnecessary.

conception of their duty.

In the face of this decision, however, In the face of this decision, however, The Observer calls upon Churchill to go ahead with laying down three ships, so that they may be completed by 1915. If Borden eventually succeeds, it will then be possible for him to take over the ships on account of Canada, at whatever stage they have reached. Should he fail, it will be a matter of negotiation between his successor and the admiralty, whether they are retained as units in the royal mavy or purchased by Canada as the nucleus purchased by Canada as the nucleus of her autonomous fieet. Nothing will have been compromised or even very seriously delayed, if the first lord will simply steel himself to his plain duty.

Gives Canadians Opportunity to Emphasize Determina-LONDON, June 1 .- (C.A.P.) -The delay may prove a blessing in disguise if it results in a more empathic declaration of the determination of Canadian people to bear their own share of naval defence. This is the hopeful view of The Observer which refrains from offering a word of criticism of the action of the senators. The paper thinks that it would be well in Canada as well as at home, to lift the question of Imperial defence out of
