Young Men Were Last Seen on Lake Off Etobicoke.

Two men are thought to have been drowned last night off the mouth of the Etobicoke River, but considerable doubt exists as to their Mendity. From the information received at a late hour last night, it is believed that their names are Barton, and their

ages, 18 and 20 years. It is stated that the two boys, who have a cottage near the river, were seen early in the evening sailing in a canoe. The boat was found later capsized on the shore halfway between the Etobicoke River and Port Credit. A call was sent to the life saving station, and Captain Chaplin took the launch out to Port Credit where it was supposed that the accident had happened, but later on found the canoe, by means of a lantern that had

The War Goes On

The war goes on, and it's going to some place, tho it is hard to say just where. But it is improving for the allies none the less. Their organization, their armies, their resources are growing; most of all, their morale improves in every way. Their cause commands the respect of living men and will be justified by history. And that's a lot. The recessional has struck for Germany, and it's not a highly religious note—it is a retreat to Hades, with pitck-fork accompaniment. The kaiser grows more like the devil daily. If we ever forget the devil side of Search is Being Made for the kaiser's record we will deserve to run up against him once more. But the great incentive to the allies in this regard is "Never Again!"

Exhaustion of credit is one of the coming features of this war. It will come to Britain last; it has probably already come to Germany, tho the proof of it is for the time screened from the eyes of the common enemy. England is finding new sources of income and extending her credit, even negotiating it for her allies. Next to credit is ammunition, and Lloyd George is likely to be a generous provider in this respect. We are getting down to the business: Germany is getting down from the business!

The American system of rediscounting n national notes against securities odged with the new system of nationa! reserve banks is likely to be used to widen the credit of the allies in the States. Why shouldn't we do the same in Canada?

RUSSIANS CONDUCT

Engage in Giant Strategic Duel With Austro-Germans.

ENEMY'S AIM KNOWN

Kaiser Endeavored to Destroy Russian Force With Superior Numbers.

Special Cable to The Toronto World. PETROGRAD. June 22 .- The Russians continue to give ground, and have betimes, in pursuance of the strategie principle known as "frustrating the will of enemy numbers," and time and space are familiar factors in every strategic problem. But the light in which all these must be viewed for a satisfactory solution is the will of the

aut all-important factor that mainly has been revealed. It requires high order of magination and a sort power of divinacion. the German supreme, command as seeking the double aim to secure the ine of the Vistula and destroy Russia's main forces by compelling a pitched battle. The Russian task was therefore to avoid accommodating either of the enemy's aims. The latter has been evaded by steady retirement, not a payonet's point, but quietly by night after due warning and thoro prepara

Would Force a Stand. The Germans count confidently now on forcing a stand at Lemberg. There is no reason for believing the grand duke will accommodate himself to the design of the enemy here any more

The grand duke's pursuance of this course is entirely in the interests of the allies. Russia indeed hoped that the general forward movement upon the vitals of the enemy's country could have been made this summer, and Russia was prepared for her share in declaration in favor of the continu essitated the abandonment of Russian hopes for the present. Germany promptly availed herself of the opportunity, heavily reinforced her ma-chinery of war on the western front and withdrew her trained men for use

on the eastern front.

Three Million Men.

Against Russia Germany has massed over a million and a half of men. Ausnumerically larger, in fact over two million men. The Russian task was refore to gain time, which can only be done in war by the sacrifice either of space or men's lives. Space, especially when it is in enemy territory, is cheaper, and as Germany's object is to smash Russia's live forces a double purpose was served by electing to sacrifice space in order to gain the time needed by the allies to prepare

the final stage. In this unprecedented war Germany as advanced a couple of hundred miles into Galicia, at a cost of two months' time already, and half a million men have been placed hors de combat. She is no nearer the attain-ment of either of the aims sought by her in this costly campaign.

Losses Are Small.

Russia's losses, after the first little mishap in the retirement from the River Donajec, have been disproper-tionately small in comparison with the German's losses, tho Russia could quite afford to lose men in inverse propor

ion if necessary. Galicia has not yet returned to the nemy's possession, and further heavy losses must be incurred before it does. As for the sentimental objection to the sacrifice of even enemy territory once captured, it naturally is strong; thinking men readily reflect that in this war gains and losses must be reckoned not in territory, but in fighting strength of every kind, until victory is won.

A Big Piece of Land for Very Little Money

Each little farm in the Homestead Estate contains 21,780 square feet of good fertile soil. It is 165 feet wide by 132 feet deep. As Toronto continues to expand to the north you will be able to cut up your little farm into seven city lots. Property just across the road has already been sold as building lots for an average of \$20.00 a foot. Your cost for a little farm is only \$2.50 per foot frontage, the difference of \$17.50 per foot will be your profit.

Section of Board Objects to Oxford Candidate Getting the Post.

The appointment of a dean for the omen's residence of Queen's Hall at Toronto University, which will come up before the board of governors at their meeting on Thursday afternoon, has caused a difference of opinion which is likely to furnish a discussion. The position was left vacant by the resignation of Miss Parkin, who was married a short time ago to Vincent Massey, a special lecturer in modern Burwash Hall, the Victoria College re-

One faction favors the appointment of Miss Wrong, the eldest daughter of Prof. George M. Wrong of the modern history department, but objections are offered by another party of the board of governors, who object that a more satisfactory appointment could be made. The objections are offered on two grounds: that Miss Wrong is not old enough to hold a position such as head of the women's residence of the university, which they are satisfied demands a woman with a wide range of experience who is considerably older han the girl students who come under ner care. The other objection is that Miss Wrong is not a graduate of Toronto University, as she went to Oxford to complete her education. As one prominent university man expressed himself. Toronto has been turning out women graduates since the co-education scheme was first introduced over thirty years ago, and that if it was ound that Toronto University had not a suitable graduate for such a position, applicants should be sought elsewhere. Considerable feeling has been de-Considerable feeling has been developed over the situation. Decision will probably be made at Thursday's meeting in the matter. Opinion is divided, and with several other applicants for the appointment, the question

will be resolved into a contest for the largest number of votes.

Facing the Issue

There is no sentiment in business not even in the business of war. The men or the nation who needs credit will not buy from his best friend if that friend is unable to finance the orders. Hence we find the locomotive and car companies in the United States loaded up with orders from the French and Russian governments. Hence we find also that in proportion to their industrial capacity the manufacturers of the United States are getting more war orders than the manufacturers of Canada, in proportion to their relative capacity.

Hon. Mr. White, we think, has stated the reason, viz., that the belligerents are able to establish lines of credit thru the banks in the United States, while in Canada they practically have to ship over the gold for anything they buy. Our chartered banks will not discount the treasury bills of the French and Russian governments, and our manufacturers must have currency for his payroll and other expenses. True, our banks have \$136,-000,000 out in New York, but that money is subject to call and will be needed for moving crops in a month

or two. have to hoard up great stores of gold or its equivalent, in anticipation of some emergency. If he is doing sound banking business he can always rediscount his paper with the government banks and get national currency to meet "a run," to move crops, or finance war orders.

In Canada we have no government bank of rediscount, and we have practicelly no government issue of currency. Some \$1 and \$2 bills are in circulation for small change, but the bulk of the Dominion note issue is in the shape of huge "bank legals." which are only good between chartered banks.

The Canadian manufacturer cannot discount his war contracts, for our banks are apparently not in a position to finance the belligerents to any extent. His only hope is the Dominion Government. The banks might take Encyclopedia) give the pronunciation the French and Russian securities and rediscount them with the minister of were spelled "Eye-tal-yan." finance, but they show no inclination to de so. They do not like the idea of a national currency getting into circulation. No doubt they prefer to issue the currency of the country and

In our opinion, the government will Move to-finance the war orders for our manufacturers by rediscounting the short-time gilt-edge securities of the in "it" and "fit", and the pronunciation belligerent nations. This will mean of Italy is of course "It-aly." It is given an issue of \$106,000,000 of national currency. The World does not fear to advocate such an issue. The government will lose nothing, the currency will be redeemed, and in the meantime the wheels will go round in Canada, as they are going round in the United States

We would not be in our present emharrassing position if we had established a government bank of issue and rediscount in 1913, or if the govern- Cheque for Hundred Thousand ment had addressed itself courageously to the task of assisting business with the credit of the nation along the lines advocated by Mr. W. F. Maclean (South York) at the war session of 1914. But a truce to reminiscences! What is needed now is action. Let the finance minister proceed boldly and gun section. The prime minister has parliament will sustain him. If he written Sir John, expressing the apneeds more legislation let parliament preciation of the government for his be summoned to sanction his financing cur war orders by an issue of national currency.

The Manitoba Mix-Up

So elastic is the British constitution that it may adapt itself to the public life and public men of Manitoba, but our more rigid Canadian constitution is having a hard time of it. The fathers of confederation could scarcely have foreseen what has come to pass in Manitoba. So all-embracing are the charges which the royal commission is asked to investigate, that they involve, at least in the general charge of coll sing, a l'at of dignitaries which reads like the table of precedents for

A letter received yesterday from Milan by Miss Margaret George, the well-known Canadian prima donna so-prano, who returned from Italy to Toronto only a short time ago, describes vividly which followed the outbreak of war in the Italian city:
"Last Thursday, the 27th, the Ger-

mans were literally rooted out of Milan. About noon two or three of the shops in the Piazza del Ducmo wer smashed in just as a sort of protest against their being there, I suppose. A few hours later, the news came thru of Italians being burned to death in Berlin and Vienna, and then Milan went mad properly. Starting in the Piazza del Duomo and gradually extending all over the city, the crowd looted every German firm in Milan. Nothing was left. At 6 o'clock Corso . Emanuele was lined with tram cars which had been stopped. Every Ger-man shop in the Corso was packed with the mob who threw everything they could lay hands on to the peopl outside and to the people standing on top of the cars, who in their turn de-stroyed them. Everything came outladies' dresses, clothing, men's under-wear, collars, etc. Finally when nothing was left standing, not even a door or a shutter, the whole of the debris was heaped up in front of the shops and set on fire. The Corso, Piazza and Galleria finished, the looting was continued in every direction Hour after hour it went on. I followed one mob from the Piazza Porta Ticinese, then to Porta Nuova, Porta Genova and so on. I got home about 4 in the morning and it was practi-cally all over.

Soldiers Helped Rioters. "Every German firm and house in Milan having been completely smashed, the military of course were called out, but so intense was the feeling that even the officers egged on the crowd and I saw a lot of soldiers lending a hand. When a specially big place was being attacked, the fire brigade came up and waited until it was all over and the fire started, when they set to work to put it out.
"No German can live in Milan now

The hatred for them is worse than for the Austrians—the real unreasoning hatred of the Italians that one reads about and which I didn't believe existed. No one was spared. Firms that have been established over 50 years in Milan and are virtually Italian went with the rest. It is only the German restive under the premiership of Mr. atrocities that have inspired such vio-lence and I shouldn't be surprised if back. William Marshall Failed to Secure Title to Stock.

Mr. Justice Middleton gave judgment at Osgoode Hall yesterday in the action of Edwin Lowery and Mrs. T. Goring to recover \$25,000 damages from J. R. Booth for destruction of a cofferdam built in the bed of the Montreal River and destroyed by defendant's logs, which floated down the stream. The plaintiffs built the dam for the Doninion Government in connection with the upper Ottawa storage system. It consisted of cribwork and is said to have cost \$20,700. When the spring freshets came the water submerged the dry area.

Sixteen booms of the defendant's logs, containing fifty thousand pulpwood, eight hundred thousand in allwere carried down the stream. The first of the logs passed without doing injury, but before long a number lodged upon the piers and side jams were formed. After the stream was cleared it was found that the cof-ferdam was destroyed and rendered useless for the purpose for which it was built. A new dam was built at a cost of \$8000, but it was also swept away with the next spring freshet.

The plaintiffs settled the contract with the government and were given \$10,000. Mr. Justice Middleton could

not find that the defendant had been of the conviction of Harry Horne, ed the conviction of Harry Horne, who was charged with contributing to dence for the hotel proprietor could the delinquency of his children. His lordship found that the children were not aware of their father's conduct.

MOSQUE OF ST. SOPHIA. Destruction Threatened by German Com mander of Turkish Army.

With customary lust for destruction

in event of the Turkish Government removing from Constantinople, the total destruction of this wonderful place of Mohammedan worship seems assured. The Mosque was originally the Cathedral of St. Sophia, built by the Emperor Justinian about the year 532. It represents one of the finest specimens of architecture of the Byzantine period. It remained a Christian church until the invasion of the Turks in the fifteenth control with the second control of the second con ntury, since which time it has been use of mohammedan worship Nearly fourteen hundred years old, this ancient edifice may now become a prey of most flagrant vandalism at German

hands.
Once under the Christian emblem, however, those who have been to Constantinople would truly like to see this wonderful shrine pass again from its control of the Crescent to the Cross unscathed, and it is confidently expected that before the coming of autumn to

Bailey. LONDON, June 22, 9.45 p.m .- Geo. Joseph Smith was placed on trial for his life in Old Bailey today. He is charged with the murder of three women, with all of whom he went thru the marriage ceremony, and all of whom were found dead in bathtubs under almost identical circum-

stances. The case has come to be known thruout the kingdom as the "brides in bath" case and promises to be the most sensational murder trial here since that of Dr. Crippen. The proceedings today consisted of

the selection of a jury and the opening address of the prosecutor, who elated the circumstances of the deaths of Smith's wives, Beatrice Mundy, Alice Burnham and Margaret

COOKED HIS GOOSE ROYALS HIT HARD

Visitors Fell on Cook and Rapped Out a Victory in Second Game.

Oh! cruel fate. A game all tucked away in the bat bag and then our pitcher Providence. had to go and blow and the foe romped home winners, 6 to 2. The Royals opened a large-sized package of base blows in the eighth round of yesterday's windy session at the Island and breezed over four runs to win the second game of the

in the eighth round of yesterday's windy session at the Island and breezed over four runs to win the second game of the series.

To top it all it was ladies' day. A small sized crowd of the fair fans appeared for the affray, dolled up in raincoats and sweater coats, and were well pleased for three innings. The Leafs were running easily two runs in front for these three and then the Royals tied it up. It was not broken until the eighth and here the wind grew sharper, at least it felt that way, for the Royals just batted Cook to all corners of the field and carried away the old ball game. Noise of shuffling feet and a sorrowful crowd wending their way to the ferries. Howley trotted out a brand new pitcher in Cadore for the Leafs to shoot at and it looked as if he was going to get a royal start-off. The locals rushed at him like a lot of hungry kids turned loose in a bakeshop and shoved over two counters right in the first innings. Rath walked and Wilson laid down a bunt Cadore threw wild to second and both runners lived. Graham fanned, but Demmitt rapped to right to score Rath. Wares hit towards first and Wilson was cut off at the plate, Hollander got on free and Cadore forced in a run when Trout was passed, but Kelly rolled out. So far so good.

Cook went on swimmingly until the fourth. He got into a muss here and two runs were the result. Holden doubled for a starter, but Whiteman died easily. Flynn scored Holden with a single and Devlin was an infield out. Howley poked into centre to let the second run in.

The eighth was the sad innings. Cook just simply couldn't stop the hits, and the runs came fast also. Irelan walked and Smith fanned. Holden and Whiteman found Cook for singles and Jack Flynn appeared in the clean-up role. He responded nobly with a slashing hit that scored two and then Wares made a bad peg to let the third man score. Howley's force out made the fourth run possible. This ended the scoring, and it was enough.

Sporting Editor World: Who was it that said there is no professionalism among the Toronto soccer clayers? Quite a number of players are forced to play for the teams connected with the factories, etc., in which they toil. Should those players leave the factory teams and play for other clubs they are liable to lose their positions. There are numerous cases where good players have been offered positions in those same factories and stores on condition that they leave their clubs and play for the teams connected with the factory or store. Should these players refuse to leave their clubs the offer of employment is withdrawn. Why can't foremen, etc., in factories and stores give a man a fob if there is a vacancy and still have enough sporting spirit to allow the amateur to play for whichever club he pleases? There is far too much of this semi-professionalism in city soccer and it is a pity the local association can't put a stop to it. Is it true that certain players connected with the recent cup ties got leave from their work to rest up for the games and received their wages in full? Is it true there is no indirect professionalism in the city?

DOUBLE-HEADER TODAY

The police chiefs of Canada, who are holding their annual convention here, will be the guests of President McCaffery and the Toronto Ball Club at the double-headed this afternoon at the island between the Royals and Leafs, the first game of which will start at two o'clock. This will be the final clash of the series, and two good games should be witnessed, as both teams are playing good ball. Tomorrow Rochester will come here for the balance of the week, the teams playing a doubleheader on Saturday.

CRICKET NOTES.

All members of the Dovercourt C.C. are requested to be on the grounds after practice on Thursday evening in order to elect two men for the committee. Sporting Editor World: I was a spectator at the league game between St. Matthias and Eatons, played last Saturday on Trinity College grounds, the former winning by six runs. On merit Eatons were the real winners, but in my opinion the umpire won the game. I have never in all my cricketing days (and I have played in first-class in the old country and know what I write) seen anything to equal the two very bad and unsportsmanlike decisions that were given Saturday when Adgey and Hodgson were given out to catches behind the wicket—they were certainly not out, and Adgey was one of Eaton's best bats. I would advise this umpire to buy a book of rules and see what a no-ball is really supposed to be. On several occasions when one of Eaton's batsmen was bowled or caught out, this umpire clapped his hands in great delight. Why should a game like this be spoiled by a single man? and this is not the first time it has happened with this umpire, for last year I was on the scene when St. Matthias played Albions and the same things happened. St. Matthias will certainly win the league with the help of their friend, the umpire.

Cut in Dividend Revived to Account for Break in Price to Below Hundred and Fifty.

Another decline in C.P.R. was the feature of the Toronto Stock Market yesterday. At New York the shares broke below 150, but small transactions on the local market kept the bottom to 150½. Talk of a cut in dividend is again being indulged in and the rumors are thought to convey some truth. The market, while a little more active, had no snap and most of the trades were for broken lots. Brazillan is still held on this exchange at 53, while sales are being made on the Standard Exchange at 56. In the unlisted department there was less activity with the mining issues

Veal Calves.
Choice calves, \$9 to \$10.50; good at \$7.75 to \$90 the rumor that the bonds against the property were overdue and that action was to be taken to collect this prior obligation. The basis for selling was none too substantial and many are of the opinion that the bondholders' action if taken would lead to an early refinancing of the company and the reopening of the mine. The shares sold down to about \$ before a halt, was called and it is not figured that much stock was lost in the drive.

figured that much stock was lost in the drive.

The Jupiter dip had no serious effect upon the rest of the market, and when the selling was better understood prices generally stiffened. Big Dome had a natural reaction, but changes elsewhere were not of any moment. Yesterday's buying was well scattered and evidenced some breaking of outside interest.

SHELL FIRE TO BRING REDEMPTION OF WORLD

Allies Realize Clearly That Success Depends on Munitions Supply.

LONDON, June 22.-David Lloyd George, minister of munitions, who has returned from a week-end visit to Boulogne, where he consulted M. Albert Thomas, the French under-secretary of war, on the munitions question, is forming committees in London as well as in all manufacturing towns, to take advantage of every possibility for increasing the produc-tion of munitions, now the gravest

roblem confronting the allies in all theatres of war. The Times this morning prints despatch from its correspondent in ffensive in overwhelming force they must use a tremendously increased bulk of ammunition. The same lesson comes for England from the Woevre front, he points out, while the retreat of the Russian armies in Galicia hammers it home again.

The correspondent says the daily output of shell certainly is much larger than it was four months ago and that it is possible that a reserve of ammunition is being built up much GENEVA. Dividend Cut Led to Unloading.

STRONGER AT CLOSE

for French Loan Steadied General List.

NEW YORK, June 22.—The most important development of the day was the announcement made towards the close of the stock market that arrangements had been completed for the placing of a french loan in this country, backed by the Rothschilds. Altho definite details were lacking, the news was of sufficient interest to bring about a general recovery of queted values from their early irregularity, leaving a number of net gains.

Foreign war conditions were responsible for the initial heaviness and contrary movements. The success of the

forward.

Coppers were under intermittent pressure, some disappointment being expressed at the moderate increase of Anaconda's dividend. Instead of the 50c quarterly rate, it was hoped that the 75c disbursement of 1913 would be restored. U. S. Steel was again the active feature, but its range was narrow and without material net change. Total sales of stocks amounted to 467.000 shares:

There was a better tone to sterling and continental exchange, the improvement being mainly due to the prospects for additional foreign filancing here.

Firmness ruled in bonds, regardless of recurrent foreign offerings. recurrent foreign offerings.

Total sales, par value, \$2.378,000. U. S. reg. 4s declined 1/4 per cent on call.

Completion of Arrangements | Sovereign Mine the Latest in North Country's Charmed Circle.

> How would you like to own property having a width of about half a mile and not much longer, which would deliver to you half a million dollars' worth of gold every month? It hardly seems a possibility, does it? Yet it is true, as this is the monthly return to shareholders of the Hollinger. Acree Vinend and Melayare the monthly return to snarenoiders of the Hollinger, Acme, Vipond and McIntyre mines of Porcupine. And mining men say they haven't yet scratched the sur-

say they haven't yet scratched the surgonsible for the initial heaviness and contrary movements. The success of the Austro-German campaign against Russia caused considerable selling of our stocks for London and other European interests with Canadian Pacific as the weakest feature. That stock at one time showed a loss of four points, its decline being a gain accomplished by rumors of a downward revision of its dividend.

Coal stocks showed no further effect of yesterday's decision of the United States supreme court, which ordered a states supreme court, which ordered a superation of the Delaware, Lackawanna & Western Railroad from its coal subsidiaries. In fact, Lackawanna, which is rarely traded in these days, made a gain of eight points on sales of only 200 shares.

B. and O.'s Good Showing.

That class of railway issues designated as trunk lines was strong, presumably as a result of Baltimore & Ohio's statement of earnings for May, which disclosed a net increase of \$1,247,000. Harriman and Hill issues were firm to strong and New Haven and its allied road. New York, Ontarlo & Western, also moved forward.

Coppers were under intermittent pressure, some disappointment being expressed at the moderate increase of Anaconda's dividend. Instead of the 50c quarterly rate, it was hoped that the 75c disbursement of 1913 would be restored U. S. Steel was again the active feature, but its range was narrow and without material net change. Total sales of stocks amounted to 467,000 shares:

There was a better tone to sterling. The producer's trining out about \$70, 800 each month. Canadian Pacific Ry. Canadian Salt City Dairy common the big producers, turning out about \$70,-000 each month.

It is more than likely that when the North Thompson and the Sovereign are actively producing—in a very short time—the half-nillion-a-month figures will need revision unward.
