A NEW STAR AT THE TORONTO.
 James W. Beagan, who is said to occupy a place in the front rank of singing comedians, will be seen at the Toronto Opera House this week in the new four-act Irish comedy-drama, "The Bells of Shannon," which has been well received in the principal American cities. Mr. Beagan is admirably equipped for the part which he assumes in "The Bells of Shannon." He has a fine stage presence and the necessary physical qualities to enable him to give to the characters of the play the personality required. He is said to possess a tenor voice of more than average sweetness, which will be to his good advantage in the rendition of such songs as "A Shamrock from Home," "The Light of My Heart," "Acushla, Macshree," "The Story the Princesses Tell," "What's in a Kiss," "The New Ireland Over the Ocean," and "The New Ireland Ballad," from which the play derives its title. A capable company will support the star. The customary bargain matinees will be given on Tuesday, Thursday and Saturday, when 25 cents will purchase any seat on the lower floor, while the entire balcony will be but 15 cents.

"MY FRIEND FROM INDIA."
 "My Friend from India," the comedy which has had so much written and said about it, is to be placed before Toronto theatre-goers for the first time to-night when it begins a week's run at the Grand. The piece is a farcical comedy in light acts, and, it is said, must be seen to be appreciated. Erastus Underhill, a retired Kansas City pork packer, in order to see his family into society, moves to New York. His son Charles becomes one of the boys, and, coming home early one morning, brings with him a stranger, whom he afterwards, in order to get out of his scrape, passes off as his parent as a great philosopher from India. It is then the commencement, the many ludicrous situations into which everyone is thrown, and the wonderful preparations indulged in, making a most delightful side-splitting mix-up, which finally comes off all right. The comedy presenting the comedy is said to be a good one, and the patrons of the Grand are promised a treat.

MISS FRANCES DRAKE.
 Miss Frances Drake, the well-known actress, formerly of Frohman's forces, and remembered here as a member of the famous Pilon stock company, since her retirement from the "My Friend from India" company, has been a guest at the Queen's, where she has been treated by a local play-scholar. Miss Drake has had offers to join several prominent companies since her arrival in Toronto, but has been obliged to refuse, as she is engaged to create the title role in "The Lady from New York," which is to be produced in New York shortly.

THE BLOU THEATRE.
 An exceptionally strong bill has been provided for the Blou Theatre, of the Theatre district, which will offer to-night in magic, Miss Lillian Herndon, vocalist, Abasco, the funny but silent clown, Geo. Hamilton, in his novel creation, Hazy Nicks, Hines and Benbow, in the farcical comedy, "The Millionaire," and the famous Bowery act, Hamilton and Herndon, will all provide excellent amusement. The performance will be concluded with Carter's great illusion act entitled "The Thousand Bricks," which is said to be the greatest illusion ever shown on any stage, and never fails to cause a sensation.

The Wabash Railroad.
 With its superb and magnificent through car service, is now acknowledged to be the most perfect railway system in the world. It is the great winter tourist route to the south and west. Including the famous Hot Springs of Arkansas, Old Mexico, the Egypt of the New World, Texas and California, the land of sunshine and flowers. Passengers going by the Wabash reach their destination hours in advance of other lines. Special trains leave Chicago every Wednesday and Saturday at 6 p.m., and St. Louis same evening at 9 p.m. The route to Los Angeles in just three days. This is the best California service in existence. Full particulars for rates, connections, and agents, or J. A. Richardson, Canadian Passenger Agent, northeast corner King and Yonge streets, Toronto.

A Toronto Man Makes a Tour of Inspection—Development of the Lumber Resources.
 Winnipeg Free Press.
 D. B. Hanna, superintendent of the Lake Manitowishongy and Canal Co., accompanied by Messrs. Wadsworth of Toronto, and McDonald of Eastern Ontario, returned on Wednesday from a trip to Dauphin. From the end of the track at Valley River the gentlemen drove north to Lake Pepouevic, through the Mossy River settlement, and inspected the resources of the district. Mr. McDonald is connected with a large lumbering firm in the east, and was much interested in the resources of the northern country, and in conversation with a Free Press reporter Mr. Wadsworth stated that the resources of the northern country, which will materially develop the lumbering interests of the country. Mr. Hanna, though not a stranger to the country, was surprised at the large settlement along Mossy River and the advanced condition of the farms, many of the settlers being from Ontario and some of them living there for years, one being a resident for 18 years. All were contented with their country, and expected a large increase in their number during the next year. The friends were writing that they would join them in time to put in crops the coming season. Speaking of railway matters, the superintendent said he found the line in excellent shape, and though the storm extended through the district only slight inconvenience was experienced. The settlement along the Mossy River and Lake Winnipegosis were asking for completion of the line to the lake, and should this be proceeded with the coming summer arrangements will be completed for the erection of two bridges, of 250 tons capacity. This industry promises to be a feature on Lake Winnipegosis.

GETTING OUT IRON ORE.

The People to the South Are Developing Their Ranges—Canadians Ignorant of Their Resources.
 Few, if any, Canadians have an adequate conception of the magnitude of the Lake Superior iron ore fields. I mean by that those on the American shores of the great unmined sea. There are, of course, iron ores on the northern, or Canadian side, and in Ontario territory, but of these the Canadians as a whole are ignorant and it is not my purpose to go into particulars regarding them at the present time. The Marquette district of Cleveland, Ohio, published with the consent of J. H. Easton, president of the shipment of iron ores from various ranges on Lake Superior, from the commencement of the year to Dec. 31, 1896. For the sake of brevity and as considerable of the detail would be of little interest, it is proposed to condense them as much as possible. Iron mining has been carried on with more or less success in the Marquette district since somewhere in the fifties. However, the total shipment of all grades of iron ore amounted to only 13,010,705 gross tons. The annual output since 1878 has been: 1880, 1,976,695; 1881, 2,319,483; 1882, 2,954,412; 1883, 2,322,849; 1884, 2,518,692; 1885, 2,642,942; 1886, 4,752,107; 1887, 5,963,877; 1888, 7,322,613; 1890, 9,008,725; 1891, 7,071,923; 1892, 8,072,241; 1893, 8,982,718; 1894, 7,748,212; 1895, 429,637; 1896, 9,924,828, or a grand total of 107,818,540 gross tons—2240 lbs. each ton, or valuing at the current market at \$6 per ton delivered Lake Erie and Lake Michigan ports, its gross value would exceed \$600,000,000, or in other words, as far as carrying capacity is concerned, would furnish capacity for the Lake Superior route to 4,017,753,252 bushels of wheat. I do not much wonder why the Marquette district shipping equals in tonnage that of all their ocean ports. The ranges of iron ore from which this ore is mined are divided as follows: Marquette range, lake port, Marquette, Mich.; Menominee range, lake ports, St. Ignace and Escanaba, on Lake Michigan, 61 mines; Gogebic range, Ashland, Mich., 22 mines; Mesaba range, lake ports, Two Harbors and Duluth, Minn., 22 mines; Vermilion range, when not acting as a harbor, 4 mines. The gross tonnage is divided as follows: Marquette, 46,528,137; Menominee range, 22,954,412; Gogebic range, 20,788,787; Vermilion range, 8,209,255; Ashland, 107,613,540. There is quite as good ore, and undoubtedly quite as much on the Canadian side of Lake Superior, but it wants enterprising and capital to develop it. If Canadian capitalists want an object lesson, let them consider these statistics. If more were necessary, let them investigate Marquette towns and cities, notably Marquette, Ishpeming, Negaunee, St. Ignace, Escanaba, Menominee, Gogebic, Hurley, Iron Wood, Ashland, Duluth, Two Harbors, Soudan and a dozen others, which owe much, is not the whole of their greatness to iron mining.

Mines in Sudbury.

Sudbury News.
 Mr. M. Becke, who is here in the interests of the City of Toronto, has been engaged sinking shafts in the Ooka-Henry gold property in Broder township. The Citizens' Gold and Coal Mining company has a shaft 10 feet in depth in the Ooka-Henry property in Broder township. We understand the vein to be well defined, of good width and fairly promising. Messrs. E. L. Sawyer, surveyor, J. C. Palmer of the Kensington Hotel, Toronto; Dr. M. Schuman of New York, in company with Messrs. D. O'Connor, Mayor of Coburne, F. H. Chapin and L. V. Burke of Sudbury were in the mine on Tuesday morning, returning last evening. The party all went to the examination of the vein, and a thorough examination was made of the progress of the work since extra work was put on. We understand everything was found highly satisfactory, and it is believed a strong vein of gold was struck. Mr. A. Howe, who shows a sample of gold quartz that he has given him by an Indian who had just returned from a hunting trip above Wabano Lake.

To Look for the State of Georgia.

St. John's Nfld., Jan. 31.—The steamer Nimrod sailed at midnight in search of the missing steamer State of Georgia. Pilots here recall that on the night of Jan. 9 distress signals were thrown up by some steamer off this port, but when they went off to seek her nothing was visible, nor did the steamer Cape Race. They now believe she might have been the State of Georgia.

Two Most Disastrous Fires in Hoboken.

30 FAMILIES HOMELESS.
Mrs. Schroeder and Her Five Children Died Together.
 The husband and father was playing cards in a saloon while his family were dying—Nabel Mangie, Eight Years Old, Was the Only Victim—Chas. Blanchard's Family Escaped on Neighboring Boats—The Bodies of the Schroeders Found After the Fire.
 Hoboken, N.J., Jan. 31.—This city was visited by two disastrous fires between 11.30 o'clock Saturday night and 1 o'clock Sunday morning. Seven families were made homeless. The Saturday night fire started in the 3-story frame building at 410 Newark-street. Here six persons took their lives. They were Mrs. Nellie Schroeder, 46 years old, and her five children, Henry, aged 11, Maggie T. Kate J. and two years and Willie 3 months old. The father of the family, Charles Schroeder, was in a nearby saloon playing cards while his wife and children were dying.

THE SECOND FIRE.

The second fire started at 4 o'clock this morning in a 5-story double-deck tenement at 157 1/2-158 1/2. In this fire three tenants, Nos. 157, 157 and 159 were entirely wrecked, and No. 153 was damaged badly. One child was killed, and a woman was injured. Mrs. Mabel Mangie, 8 years old, was the only child who was killed.

MR. HOOLBY'S PHILANTHROPY.

The new millionaire class is making trouble by its philanthropic experiments. Mr. Ernest T. Hoolby, after having been arrested at the same time as other schemes of stock promoting, has proposed to distribute the income of \$100,000 among the poor of the districts in Derbyshire, through orders on grocers, doctors, druggists and other dealers adopting the discipline or organization plan. His generosity is recognized, but the wisdom of the method is questioned by many critics, who shrewdly forecast the swarming of paupers into the district where the charity is doled out, and ultimately an increase in the burdens of the poor rates. Mr. Hoolby is overwhelmed with warnings that this is setting a bad example and discouraging habits of thrift, and that the rebolistic system of old age pensions would do less harm.

GENERAL CABLE NEWS.

'Countess Rosi' Has Been Acquitted on a Plea of Insanity.
 Paris, Jan. 30.—The self-styled Countess Rosi, who was arrested here last month on the charge of having planned the villa of Count Roche at the Hotel de Ville, was today acquitted on her plea of insanity. The 'Countess' was born in Detroit, Mich., of French parents, and asserts that she was married to an Italian count, who is now dead. She has long been known in Paris and elsewhere as an adventuress. Her paramour, a man named Gallard, who posed as her uncle and was in attendance on the countess at the time as the 'Countess,' the police claim to have evidence that both of them were implicated in the robbery.

WHO IS THIS MAN?

He is a Caretaker of One of Toronto's Public Schools—His Henky Work in North Ontario.
 Muskoka Herald.
 At different times during the past few years fairs of various kinds have visited Muskoka, and the honest natives invariably came out second best in any transaction they may have had with him. The most contemptible fair we have known of, however, has been in North Ontario for two or three weeks, doing work for Duncan Graham, the candidate of the Party of Unity. He is one of the gent who came to Brudenridge and tried to get the ultra-Protestant vote for Graham. The election was a failure, and he is now in the hands of the law. He is a man who would do anything to succeed here, he proceeded to develop his wiles, and introduced himself as an insurance agent and would, in fact, of course, introduce election matters, getting his boys the price of the vote. Wearing himself into their confidence in the most plausible manner, he was a 'friendly adviser.' He was successful in many ways, and he was a 'friendly adviser.' He was successful in many ways, and he was a 'friendly adviser.'

DAVID BURKE QUILTS.

After Being Connected With the New York Life for 23 Years - A New Company Formed.
Montreal, Jan. 31. (Special.) - David Burke, for 23 years manager of the New York Life Insurance Company, has severed his connection with that corporation yesterday, having sent in his resignation some time ago, and will organize a strong Canadian life company to be known as the Royal Victoria, with a capital of \$1,000,000.

OTHER CHANGES PENDING

Further Reorganization of the Civic Departments TO PREVENT CRITICISM.

Changes Made on Friday to Go into Effect Before Council Meets.

Works Recommended on the Initiative by the City Engineer—To Renew Cedar Block Pavements Proposed—The Bridge Across the Don at Queen-Street to Cost \$60,000.

The Board of Works will meet to-day at 2 p.m. The Engineers report which will come up for discussion contains a number of recommendations for work to be done. Among them are a concrete walk on the south side of Adelaide-street, between Yonge and Bay-street, at an approximate cost of \$3 per foot, payable in ten yearly instalments of 37 cents per foot frontage. One fourth of the total cost is paid by the city. A 21-foot brick pavement on Huntley, from Isabella to Board-street, at a cost of 24 cents per foot frontage for ten years. The total approximate cost is \$7.77 per foot, and the general fund will be charged with \$1780 out of a total cost of \$1013. This work has been petitioned for. The Engineer recommends the construction of the following pavements on the initiative:

ON THE INITIATIVE. Brick on Melbourn-avenue, from Dufferin to Cowan-avenue, 24 ft. wide; total cost \$8000; city's share, \$2415; approximate cost per foot frontage, \$3.08; annual charge per foot frontage for 10 years, \$7.77 cents.

Asphalt on Baidwin, McCaul to Beveridge, 24 feet wide; total cost, \$2000; city's share, \$1300; approximate cost per foot frontage, \$3.90; annual charge per foot frontage for 10 years, 48 cents.

Cedar block, Arthur, from Arthur-street bridge to Dundas-street, 30 feet wide; total cost, \$1800; city's share, \$580; approximate cost per foot frontage, \$1.09; annual charge per foot frontage for five years, 23 cents per foot.

Cedar block, Sumach-street, from Dundas to Amelia, 24 feet wide. Total cost \$1100; city's share, \$300; approximate cost per foot frontage, 90 cents; annual charge for five years 23.2 cents per foot.

Cedar block, Penning-street, Queen to Humbert; 24 feet wide; total cost, \$1200; city's share, \$180; approximate cost per foot frontage, 90 cents; annual charge, 30.2 cents per foot.

OTHER WORKS RECOMMENDED. The approximate cost of constructing the necessary tracks, from King-street along Sumach, Sackville and Cherry-street, to enable the street cars to reach the new dump for ashes, etc., via Cherry-street, is \$1000. The Engineers ask for permission to do the work by day labor. Authority is also asked to advertise for material for all the work.

HEADING OFF CRITICISM. The Board of Control are determined to head off all opposition in Council to the changes in the staff of officials arranged for on Friday. It was stated on Saturday that the respective officers had been instructed to report for duty in their new positions to-day at 9 a.m. They will, therefore, be fully installed before Council will have a chance to record any objection to the action of the board. There was quite a little kicking done quietly on Saturday afternoon by some who were not in Mayor's confidence, and some strident talking will probably be heard at the meeting of the Council to-day.

OTHER CHANGES PENDING. Other changes in the civic service, which are pending are the abolition of City Commissioner Flannery's department. As foreshadowed by the Mayor a week or two since, Mr. Coatsworth will be appointed as purchasing agent for the city. The duty of looking after the fire halls, which now devolves upon the commissioner, will be assumed in the interim by Secretary McGowan, who will be given an assistant in the person of Mr. W. Fitzgerald, who is now in the commissioner's department.

An Undertaker on Relief. A unique and somewhat startling departure in municipal socialism was proposed by one of the candidates for Our Council. He advocates the purchase by the town of a building for an undertaking establishment, and the hiring of an undertaker for \$500 or \$600 a year. On a death in a family of a ratepayer it would simply be necessary for him to order a coffin of whatever wood he wished, and the cost of material used would be added to his tax bill. The contractor to pay the salary of the undertaker and for keeping up the cemetery.

Mrs. Beecher's Condition Precarious. Stamford, Conn., Jan. 30.—The physician in the latest his report that Mrs. Henry Ward Beecher is weaker than she has been for some days. The shock she sustained by a fall recently, together with complications that have set in, makes her condition precarious.

Millionaire Shot Himself. Springfield, Miss., Jan. 30.—Louis C. Franks, the millionaire president of the Franks Manufacturing Company, shot himself in the forehead with a revolver to-day. He held the weapon upon his breast, and he fell backward under the skin. He was not fatally hurt.

John Gatto & Son, King-st. Opp. the Postoffice.

partment. Mr. W. L. Taylor also of that department, will in all probability be given charge of the new Civic Labor Bureau. This will provide for all the members of the commissioner's staff except building inspectors. Coping with the duties will continue to perform his present duties and have a supervision of the public halls in connection with the Engineers' and Medical Health Department.

Another move is to remove the park commissioner's office from St. Lawrence Hall to the room now occupied by Commissioner Coatsworth. This will enable the Mayor to keep a closer eye upon the Parks Department, which, if rumor be true, he is very desirous of doing.

"PAUL PRY" NOT TOLERATED. Not very long ago a highly esteemed and well known gentleman, who has for years been connected with the City Hall, made the mistake of thinking that he was privileged to pry into the domain which was his own, upon a desk in the City Solicitor's office. The manner in which he was enlightened as to the ethics of the legal profession by the muscular members of the staff was recorded in The World at the time a lecture to others. The warning appears to have been lost upon a recently elected alderman, however, as he picked up a document which was lying upon the table. The way in which the lynch-eyed young limb of the law brought the offender to his senses was so abrupt that the alderman had not time to explain his intentions when the office closed at 1 o'clock on Saturday.

The Street Railway Company and the Street Commissioner have arrived at an agreement by which the city will remove the snow from the streets on which street cars run. The company will pay one-third of the cost and assume responsibility for the accidents which may arise from the accumulation of snow on the sides of the tracks.

KRIEK AND THE CORN. The Trouble in the Custom House at Dunville Arose Out of a Foolish Regulation. Dunville, Ont., Jan. 30.—Mr. Michael, customs inspector, has been busy all day holding an investigation at the custom house here. The trouble arose out of a seizure made early last year of corn imported for feed. Mr. Kriek, who imported the corn, now charges Mr. John Molo, the customs collector, with unjustifiable seizure and acting in a partial manner. A great deal of evidence was taken, some of which was very conflicting. A large portion of the corn seems to have been seized for feed, but Mr. Kriek claims it was not sold for that purpose. Mr. Molo claims justification, and that all the facts were submitted to his superior officer at Hamilton, and he only acted under his instructions. The whole trouble seems to be the outcome of a very foolish regulation of the customs, which permits a dealer to import and sell it to all comers, who have only to say they want it for feed, and may suggest their minds before leaving town and get it converted into chop. The dealer is not even obliged to keep a record of his sales, and all trace of the corn is lost. Counsel will send in a written statement to Mr. McMichael, when the inspector will report to the Government.

MR. BENNETT'S BATTLE. A Large Meeting at Waukesha in the Interest of the Conservative Candidate. Waukesha, Ont., Jan. 30.—A large and influential meeting of the electorate of Waukesha and vicinity in the interest of Mr. W. H. Bennett, the Liberal-Conservative candidate for East Simcoe, was held in Waukesha on Saturday night, and was addressed by several prominent local speakers. The meeting was enthusiastic and lasted until nearly midnight, a number of ladies being in attendance. The electorate seem to be almost unanimously in favor of Mr. Bennett, and the policy of the Conservative party. Hardly a word was said in opposition to what when it is the case of a gentleman possessing such a striking individuality as Mr. Bennett, and especially when the Premier of Canada and another leading Minister of the Crown participate in the interview in question. Mr. Bennett, whose life appeared a few days since to be hanging by a slender thread, has probably been more talked about and better abused during the last year than any other man in French Canada, not even excepting the most prominent leaders of both political parties. However, in spite of all this, the advanced Liberal journalist has gone on in the even tenor of his ways, and although he has from time to time poured red-hot shot into the ranks of his political and religious enemies, no one has yet been found to doubt for a single instant the honesty of purpose of this intrepid man. Amongst the Liberals he has been the most liberal, yet, whenever the necessities of the case demanded and political expediency required to be denounced, Mr. H. Bennett has never been backward in doing which he owes to the state. In religious, as in political, matters, the sick journalist has always been a dual in advance of his French-Canadian compatriots. He has day in and day out combated what he believed to be the invasion of the citizens' temporal domain by the clerical power, yet it cannot be charged that Mr. Bennett or his paper has ever attacked the dogmas or principles of the mother church. He speaks and has accused him of being an adherent of the French revolution and of the men of 1789 and the director of Le Peuple has invariably replied: "Yes, his principles, but not of his actions." In Canada he has invariably himself as belonging to the school of the DeLorains, the Doutrins, the Laframens, and, up to a short time ago, the Laframens might have been added to that list of models so deeply venerated by the people of La Patrie. Mr. Sogor once said that Protestantism was a grand religion to live by, but the devil to die by, and so it is and so it always has been with these advanced reformers in this province. They live all right and have a fairly easy time of it, but the very devil is to pay when they come to die. Most of them accept the last rites of the church in which they were born. Some do this for the sake of their wives and daughters, and others to avoid trouble after they are gone, consequently when it was given out that Mr. Bennett had few hours to live the sorrow of his many friends was deeply felt and the question was asked whether he would recede to the church like Hon. Rudolph Laframenc, or would he die as he had lived, like Joseph Douve? Mr. Bennett replied that his days were numbered and Hon. Wilfrid Laurier and Hon. J. G. Macdonald were his best friends. It is said that the Canadian Premier advised his friend to see a priest, but the doctor is not even obliged to keep a record of his sales, and all trace of the corn is lost. Counsel will send in a written statement to Mr. McMichael, when the inspector will report to the Government.

ARE BOTH IN THE SAME BOAT. What the Editor of La Patrie Said to Mr. Laurier WHEN NEAR DEATH'S DOOR. Premier Wanted the Sick Journalist to See a Priest. "Laurier," said Mr. Beaugrand, "I am not a hypocrite. Let Me Die in Peace, and for That Matter, We Are Both of the Same School"—Then Forthwith the Editor Took a Turn for the Better and He is Now Able to Do Some Work—No Bye-Elections in Montreal. Montreal, Jan. 31.—(Special.)—It may not be the proper thing to note what is said in the ordinary school room, but the circumstances change somewhat when it is the case of a gentleman possessing such a striking individuality as Mr. Beaugrand, and especially when the Premier of Canada and another leading Minister of the Crown participate in the interview in question. Mr. Beaugrand, whose life appeared a few days since to be hanging by a slender thread, has probably been more talked about and better abused during the last year than any other man in French Canada, not even excepting the most prominent leaders of both political parties. THE CUNNING JAPS. They Learned a Few Things in the United States and Now Uncle Sam is Alarmed. Washington, Jan. 30.—Under the treaty with Japan, proclaimed March 31, 1895, which does not, however, go into effect until July 17, 1897, there is an article guaranteeing the citizens of that country the same protection as native citizens in regard to patents, trade marks and designs, upon fulfillment of the formalities of the law. Since that treaty was ratified the Japanese have imitated American manufactures, using trade marks and other individual signs, and have imported such goods into this country at prices below those at which the same goods can be made here. A proposed bill to amend the Patent Act was introduced by Secretary O'Brien on Saturday afternoon. The Senate Committee on Foreign Relations this afternoon ordered a favorable report to be made on this treaty, and it will probably be ratified at once.

CAUGHT BY THE TROLLEY. Mr. Kinzie Had His Sleigh Smashed and Two Boys Were Hurt. Berlin, Ont., Jan. 30.—A serious accident happened here to-day. Mr. Samuel Kinzie, a farmer, when driving into town, did not see or hear the trolley coming until it was within a few yards of him. Being excited, he turned his team to cross the bridge, when the trolley came crashing into his sleigh, smashing it into splinters. Fortunately, Mr. Kinzie got to the front of the sleigh, and so escaped without injury. Not so, however, with two lads who were standing a ride on the sleigh, as in the collision one of the boys was killed and the other broken. Most of them accept the last rites of the church in which they were born. Some do this for the sake of their wives and daughters, and others to avoid trouble after they are gone, consequently when it was given out that Mr. Bennett had few hours to live the sorrow of his many friends was deeply felt and the question was asked whether he would recede to the church like Hon. Here is a picture that women will wonder at, one of these days. They won't understand what the woman is doing. Even now it looks queer to the users of Pearline to see a woman doubling herself up over a wash-tub. This old-fashioned, back-breaking way of washing clothes by rubbing them to pieces over a wash-tub can't last. It isn't sensible. The way that is surely taking its place—the easiest, quickest, most economical way—is washing with Pearline. No soap with it—that's entirely needless—nothing but Pearline.

Bank Wreckers Sent to Penitentiary. Denver, Col., Jan. 30.—This morning Judge Hallett, in the United States Court, sentenced C. H. Dow, former president of the Commercial Bank of this city; S. B. McClurken, teller, and Dr. O. E. Miller, custom and resident of Chicago, to the penitentiary at Leavenworth, Kansas, for wrecking the bank. Dr. Miller was sentenced to ten years; Dow to seven years, and McClurken to five years.

That Spot on the Sun. San Francisco, Jan. 30.—Prof. S. E. Hodge, of the Lick Observatory, writes the United Associated Press from Mount Hamilton this evening as follows: "The great sun spot announced Jan. 15 has reappeared at the eastern edge of the sun, and is now being observed. The sun has been seen through the clouds this morning, but only a few minutes, owing to the condition of the sky."

Druggists After Our Prices Again..... THE ROBERT SIMPSON CO. Ltd.

GOVERNMENTS have wisely decreed that in the sale of drugs and medicines the people shall have the fullest protection. To this end every drug business must be under the management of men of experience and skill—graduates of a School of Pharmacy. The object of the law is to protect the people, but the druggists of Ontario would, were it possible, twist this to their own protection to themselves. They would constitute themselves a grand monopoly where the druggist would enjoy rich profits, but the people pay the piper. Thus it is that the Ontario College of Pharmacy persists in its efforts to prevent this great departmental store from carrying on a drug business. Within the past few days another case was entered against the Robert Simpson Co. by some unknown individual who is made to act as a sort of stool pigeon for the College of Pharmacy. No pretence is made that the Robert Simpson Co. are not complying with the strictest letter of the Act in giving the most perfect service. The courts have recognized the fact, in a former case, that the drug department of this business is under the management of one of the ablest graduates of the Ontario College of Pharmacy, who has associated with him other practical druggists who have passed like examinations. But the sore point is: We do not believe that the drug business should be a monopoly and the people made to pay exorbitant prices for the benefit of a select few. The case was dismissed by the court. This store, in its drug department, as in its other departments, stands for the protection of the people—making the cost of living for all easier. Our prices are lower than other people's prices, in drugs as other things. They will continue to be lower.

Sales were made as high as 125-25 the other day. The price of the bonds was 125-25 the other day. The price of the bonds was 125-25 the other day.

WALL-STREET STOCKS. While the general outlook is favorable in the perspective, and it is all well enough to talk of higher prices for stocks, the immediate future of these securities is rather uncertain.

PAUL'S NET EARNINGS FOR DECEMBER, showing an increase of \$148, is considerably better than expected, and will certainly stimulate the buying of the stock. St. Paul earned for the common stock in the five months ending December 31, 1936, \$1,480,000.

A PLETHORA OF MONEY. The increasing abundance of idle funds at New York, says Henry H. Jones, in a statement issued by the bank, which showed a surplus of fifty-nine millions over the total reserves of the bank.

THE WHEAT MARKET. Wheat was active in Chicago yesterday and closed a cent higher than on Friday and 1-2 cts higher from the lowest of the week.

THE EXPORT DEMAND IS SAID TO BE GOOD. LOCAL STOCKS ARE STRONG. A Decrease in Bank Clearings at Toronto for January.
