Muzzle Pressed Against His Body as Man Was Receiving Sacrament at the Altar.

DENVER, Colo., Feb. 21.-Father Leo Heinrichs was shot and killed today by Alio Guizeppe, an ayowed anarchist and priest hater, while the priest was administering the sacrament at the early mass in St. Elizabeth's Roman Catholic Church.

Kneeling at the altar rail, between two women, Guizeppe pressed the muzzle of a revolver against the body of the priest, after receiving from him the consecrated wafer, and shot the priest thru the heart.

Exclaiming "My God, my God,"

assassin sprang into the aisle and waving the smoking pistol about his head dashed to the church door. For a moment the hundred or more persons in the church were dazed. Then a woman shrieked and the congregation became panic-stricken. Several women fainted and many others became hysterical. Several men, including Patrolman Daniel Cronin, started in pursuit of the murderer. Policeman Cronin overtook the fleeing Italian on the church steps.

Guizeppe attempted to shoot the policeman, but was folled and overpowered after a desperate struggle, in which several men assisted the officer.

The murderer was hurriedly removed to the city jail. At threats of sum for the dead and placed them beside the body of their superior, where Te lay. By direction of Bishop Maiz the church was closed for the day.

A single bullet hole in the white communion robes of the priest showed that the lead had gone straight to the heart. The bullets remaining in Guizeppe's revolver had sharpened

FIRE IN EMPTY HOUSE.

Fire in the unfinished two and a half storey brick dwelling house, being put up by W. D. Hutson at 250 Poplar Plains-road, damaged the structure to the extent of \$150 Saturday afternoon. The blaze was caused by a fire which the workmen had lit in a

grate. The alarm was turned in from box 97 at Avenue-road and Balmoral-avenue at 1.19 o'clock. It was out a little over an hour later.

wonderful runner was clothed in the garb of the original North American, a genuine clock of deerskins and head dress of feathers, which he doffed for the race. Thus he gave his exhibition, his bronzed skin, trunks of chamois and beaded moccasins being his running costume. The World would be grateful to any reader for a picture of this wonderful Indian runier.

Then there was Jake Gaudaur, of whom Mr. Moyes relates an interesting incident of the early '80's. Jake and his brother Charlie were contesting a match double-scull skiff race with Wise and Lessite of Toronto at Orillia, three miles, including the turn. They were scheduled to take their boats at 3 o'clock, and at 1.30 the Gaudaur brothers sat down to dinner, which consisted of everything from soup, fish, roast beef, to ple and vegetables, finishing up with two large bowls of tea. Mr. Moyes had placed his money on the Gaudaurs, and, happening to sit at the same table, he watched the heavy repast with wonderment. The first thing he did after his own meal was to hedge, and, telling the dinner story to his friends, telling the dinner story to his friends. they also bought many Wise and Lesslie pools. IN THE MATTER OF THE ESTATE of Mary McKnight, Late of the City of Toronto, Married Woman,

Christian church was to have its hardest fight was the claim made by Rev.

J. W. Pedley in his sermon in the Western Congregational Church last night. It was the first of a series in which Mr. Pedley will discuss the problems which the church has to face in the large centres of population.

Urban population, said Mr. Pedley, had grown out of all proportion to the trural population. If it were true that there was a tremendous personality second in power only to God and a fierce desire to spoil His work and corrupt His children, that personality would certainly set up his throne in the city. Past history proved and contemporaneous history confirmed the fact that evil was always most strongly entrenched in the city. In Canada Satan's headquarters were Halifax,

NEW YORK WILL REJOICE

President Roosevelt Will Press the Button to Signal the Great Occasion.

NEW YORK, Feb. 23.-The task of overcoming the water barriers that have separated Manhattan Island from the county of which it is the metropolis, at last has been accomplished. The first tunnel for passenger traffic under the north, or Hudson River, will be thrown open to the public at noon on

Tuesday. The event, which spells the eventual dcom of the Hudson ferries and marks the completion of another stage of the vast projected system of underground and under water transportation in the great city, will be celebrated officially by the builders and by the highest offi-cials of state and nation, and unofficially by hundreds of thousands of commuters who no longer will have

their going and coming dependent fog or ice and ferryboat delays. President Roosevelt, at his desk in he executive offices of the White House in Washington, will press a button to signal the opening of the tube, and the governors of New York eremonies at the tunnel mouths.

Many years ago an aged man,known as Crazy Luke, was sent to an asylum for continually discussing a tun-nel under the Hudson. In 1874 an engineer named Haskins undertook the task, but after completing 100 feet of

brick tunneling his company failed in 1880. Ten years ago an English com-pany was formed and carried the work 1800 feet further, but after a great loss of life and money, the project was Mr. McAdoo was next to take up the task, and by employing the more mod-ern method of driving a stout steel tube under the river bed, quickly accomplished the work. A feature of the system is the Cortlandt terminal. Two buildings, occupying the frontage of two blocks and rising 22 storeys above the sidewalk, have been con-structed. The train stations are in

the sub-basement and the offices will house some 10,000 souls. GRAIN EXCHANGE DESERTED Business in Wheat Pit at Winnipeg Stagnant.

received a setback. A demand from London for the higher-grades of investment securities is announced, and this is corroborated by the continued gradual improvement in consols at the London exchange. All this betokens. however, for the present is, that surplus funds are being preserved during the period of uncertainty.

The bank statement published on Friday is evidence of further gradual improvement in the conditions of the financial institutions. A satisfactory increase in reserves was made during the week, and altho loans increased deposits were enlarged to a much greater ratio. An attempt is being among all corporations to reduce the costs of operation. This is necessarily essential if net earnings are not to be further reduced. A conflict with labor during the remodel-ing process is not improbable. This, added to the other drawbacks from which the market is suffering, will act as a drag on quotations during the next few months. Political excitement will come as an accessory to labor's demands when the real campaign begins.

MONTREAL, Feb. 22.—Mr. Bannell Sawyer has returned from a three weeks' trip
to Larder Lake, where he had been during the shatallation of a stamp mill on
the Reddick mining property, in which he
is greatly interested.

The Reddick claims of 218 acres are
said to be the most promising in the entire Larder Lake gota mining section. It
is believed that on the property there are
hundreds of thousands of tons of ore
installation of the stamp mill is for the
purpose of demonstrating in the only
practical way the value of the property.

Mr. Sawyer had to drive 35 miles from
Englehardt station to the mining camp.
This drive was made with the mercury
registering a little more than 40 degreess
below zero. The snow was from 24 to 30
inches deep and the road unbroken, and
it took 18 hours to make the trip, a little
less than two miles an hour.

Arriving at the property, work was immediately begun on the installation of
the stamp mill, which meant a week's shipment from Cobalt was the largest in the camp's history, but with the exception of favorable
comment this has had no influence. It
is recognized that many of the shipping

Mill in Operation.

A three-stamp mill was set in operation, and now on the property there is the machinery to make it a 20-stamp full, which will be set up as early as possible.

Mr. Sawyer is awaiting with considerable interest the result of the first month's clean-up, which will show exactly the value of the ore. Assays indicate in many instances a value of \$100 to the ton, but such assays Mr. Sawyer considers altogether unreliable. The engineer on the property looks for \$25 a ton, tho if but \$10 a ton is secured it will be a very rich gold mine.

The cost of mining and milling is \$2.50 a ton, and the extent of the ore hodies practically unlimited. There are 12 mine buildings on the property, and 3000 days' work, largely surface work, has been done. Five shafts, averaging 30 feet each, had been sunk and a tunnel of 50 feet run.

The ore bodies are found in great dykes 100 and more feet wide and extending all the way across the property, the depth alone being unknown. Gold is not found in narrow veins, as is silver in the Cobalt country, less than a hundred miles southeast of Larder Lake. The ore does not have to go to a smelter, but is mined and treated on the property, so that there are no questions of transportation to solve, excepting to get supplier and mining machinery to the camp. This all has to be done in the winter, because of the absence of roads. The company has already taken in an immense quantity of supplies, so that a large gang of miners can be carried all thru next summer.

On the addoining Harris-Maxwell property, owned by another company, Mr. Sawyer states that a 10-stamp mill is being completed, and that the property is looking very fine.

incheased monetary ease during April; CONVICTIONS AT LONDON. Sinclair Guilty of Stealing Whiskey

> LONDON, Feb. 22.-After hearing the evidence of a score of witnesses, Police Magistrate Love this morning registered a conviction against Perry Sinclair for stealing five cases of whiskey from a bonded Grand Trunk car, and against Joseph Lenahan on a charge of receiving a quantity of the liquor. Sinclair was remanded for sentence and Lenahan will

manded for sentence and Lenanan win appear in a week.

Thru evidence secured by Grand Trunk Detective Day, the car was traced from Glencoe to this city, and it was shown that Sinclair and a man named Cotter had been seen after the car had been broken into burning a box and a number of straw bottle casings. Richard Blackwell swore to this.

Lenahan, it was shown by the evidence, had attempted to dispose of the whiskey

Well-Known Teacher Dead. WOODSTOCK, Feb. 22.-(Special.)-D. McPherson, aged 54, a well-known school teacher, is dead.

If We Could Look at the Heart of a Pale-Faced Person!

Few people ever stop to consider what pallor to the countenance means. In the first place it indicates an absence from the blood of the rich, red, life-giving elements so requisite to health; and in the second place it indicates a weakened heart action.
These two things act and re-act. If we could look at the heart of one of these pale-faced people, we would see it flabby, weak and palid. No wonder they are easily tired, get out of breath quickly, easily tired, get out of breath quickly, have palpitation, are nervous and downhearted. Their muscles are poor, their stomach disordered, and their lives are

seldom free from misery. Let them take Milburn's Heart and Nerve Pills; there is no remedy to equal them for making pale faces rosy, weak hearts and shaky nerves strong, flabby muscles firm, and infusing new hope and

Mr. W. J. Churchill, Lombardy, Ont., writes: "I was troubled for three years with a weak heart and nervousness. I could not sleep and ever so little food would distress me. I also had faint and dizzy spells, and doctored with three-doc tors but was growing worse. After taking three boxes of Milburn's Heart and Nerve Pills I feel as well as ever I did. They are the best pills on earth."

England has state railways in India, in Africa, and they are successful. That fine and regnant term, "Cape-to-Cairo," gets all its breath and incense from state ownership!

Our sister states, Australia, New Zealand, own their own railways. New Zealand is a model for us all.

Mexico, Japan, South America, have thousands of miles of state-owned railways and this mileage is steadily growing.

Creased \$2,000,000 by the change of government, and clean, sane adm nistration had stopped the leaks and the bonuses to grafters.

The meeting closed with the usual cheers for the candidate, Premier Whitney, Mr. Borden, Col. Hughes, Hon. Mr. Hanna and votes of confidence in the provincial and Dominion leaders and policies.

Attack on Alderman's Seat.

Originally built for political reasons, it unseat Alderman W. E. Brown of Vicis now proving to be a great commercial ward. The papers have been ciall road, and part of the mighty interfled and the allegation is that bribery continental links between England and corruption were practised. the Orient. Our people wish to see it extended to the great lakes and ultimately the Pacific coast. And it will be. It will not, does not, antagonize our waextended to the great lakes and ultimately the Pacific coast. And it will be. It will not, does not, antagonize our waterways. It will work with them. But this is not all. The government of Canada is building all that portion of the new national transcontinental line between Moncton, New Brunswick and Winnipeg. True, it is to lease it to the Grand Trunk Pacific when completed; but I hope that when that time arrives public opinion will force the gov-

hundred miles of canals are now being constructed in that country to-day to supplement, to implement, to complement the state-owned railways.

State ownership is a harmony, private ownership a discord, and there is a mighty discord in private-owned-railroad America to-day.

France owns most of her roads; the rest are comping to her one the retest to say for Mr. Hoyle whom he hoped

France owns most of her roads; the rest are coming to her on the wisest kind of legislation framed fifty years ago that the private-owned lines then authorized should finance themselves so that at the end of their first fifty years they would pass into the hands of the state without liability. And they're now falling in.

Italy you may say has poor railways, and they are publicly-owned. Yes, but were taken over recently. The state will improve them.

Russia is a state-owned country and has shown enormous enterprise and great national courage in her railroad building. It will be a state-owned Russian train that will reach Boston via the Behring Straits and the Canadian Pacific rather than that a Bostonstarted train will reach St. Petersburg!

England has state railways in India, in Africa, and they are successful. That fine and regnant term, "Cape-to-ment, and clean, sane adm nistration had stopped the leaks and the honness."

Col. Hughes also had some special words to say for Mr. Hoyle, whom he hoped yet to see in the cabinet.

Hon. Mr. Hanna for an hour held his audience, and could easily have held them for another hour. He took up the Whitney administration policy and practice, and showed beyond a doubt how they had redeemed every pledge given, contrasting this record with the one of the former Ontario governments. He instanced the increased grants to railways, the enforcement of the liquor laws, the enforcement of the liquor laws, the enforcement of the liquor laws, and the doing away with the gambling clubs that the Ross administration had not dared to touch. The Conservative party had given Ontario a straight, clean, business government. The provincial revenue had been increased \$2,000,000 by the change of government, and clean, sane administration had stopped the leaks and the hones.

How Pale, Tired Girls **Become Strong and Ruddy**

The pallid girl always lacks appetite. What little she eats is badly digested. At night she is restless, she dozes but doesn't sleep soundly. Vital force must be increased, new blood must be supplied and a general rebuilding take place before she will feel like she ought. Dr. Hamilton had invaluable experience in these cases and found nothing so prompt in building up the young woman as his vegetable pills of Mandrake and But-

Dr. Hamilton's Pills begin by cleansing the system and purifying the blood; they also improve digestion and render food ready for absorption. Additional nourishment is quickly supplied and the patient is fast strengthened and invigorated. Full of spirit, ruddy and strong is the girl that assists her system by Dr. Hamilton's Pills.

The following recent letter from Miss Etta McEwen of Halfburton speaks for itself: "In using Dr. Hamilton's Pills I find my system is wonderfully built up. It is certainly the most effective remedy I ever used. I have now a good appetite, sleep more soundly and awaken in the morning feeling quite refreshed. Formerly I felt tired and depressed. "No other federation in the world possesses so many features of likeness to that of the United States as does the Commonwealth of Australia, and I doubt whether any two peoples could be found who are in nearer touch with each other and are likely to benefit more by anything that tends to knit their relations more closely. Australian ports and portals would be wide open to your ships and men, and it would be a matter of great gratification if the president could see his way to direct that the wishes of this government be met in the matter.

"It is with a view of enabling your government to have time to consider this proposal, which may be made by cable, that I am now communicating with you. Relying on your friendly offices to insure the most favorable reception possible to this invitation, which might have momentous and far-reaching consequences, I am, yours faithfully." Alfred Deakin," In his letter transmitting the communication, Consul-General Bray says:

"I may mention that the prime minister called on the consul-general in person and urged the favorable consideration of the invitation.
