National Council of Women

Twenty-three countries will be represented at the quinquennial congress of the International Council of Women, to be held in the University Buildings, Toronto, July 15 to 20. Women from Germany, over 25 in number, will meet with others from Denmark, Austria, Sweden, the Netherlands, some 13, New South Wales, France, Greece, Victoria, Tasmania, Queensland, New Zealand, Norway, Belgium, Great Britain—some 80 or more from the United States and Canada. These are the delegates and speakers, but many visitors are expected as well. For instance, both Canada and the United States have by the delegates each, but the number of speakers and visitors will add to these by scores.

The National Council of Women have been very fortunate in securing the services of M. Halpin, the founder of the public libraries in Austria, and a couple of delegates from Hungary, who will give addresses. The gathering will be invited to visit Niagara Falls as the guests of the national council of the United States.

They arrive in Toronto on June 15, when at a public meeting in the evening at which Her Excellency the Countess of Aberdeen will preside, greetings will be presented from all the countries represented in the International Council of Women. The next evening the mayor will hold a reception for them.

The first week will be occupied mainly by congress meetings, and only to the delegates and speakers, the three evening sessions only being open to the public. The second week, however, will mainly be open.

Sessions will be held in nine halls simultaneously, the sessions being art, education, health and physical training, industrial matters, laws concerning women and children, literature, philanthropy, professions for women, and social work and reform.

When the congress concludes its sessions the delegates will leave on a trip to the Pacific Coast. They will

entertained by all the local councils on their way out, will go down to the annual meeting of the United States Council of Women to be held at Seattle in July, and will return via the United States, the whole trip lasting twenty-three days.

\$6000 FIRE AT WELLAND

Rink, Warehouse and Barn Go Up in Smoke.
WELLAND, Ont., May 19.—(Special).—Fire from an unknown cause broke out in the barns of the Whaley House at 2.30 this afternoon and did damage of about \$6000. The barn and contents, including a valuable carriage horse owned by Harvey Dawdy, were destroyed. The twentieth century rink adjoining caught fire and the flames carried along the burning in the walls and ceiling to the opposite end, and the rick and the half remote from the barn. The warehouses and offices of the Builders' Lumber and Supply Co. were gutted and \$2000 worth of flooring and paint destroyed. The loss on the rink, which is almost total, is \$3000. The rink is owned by A. Griffith and is uninsured. The lumber company are protected by insurance, and on the barn there was \$800 in the London Mutual.

MANSLAUGHTER IS CHARGED

Farmer Who Killed Boy in Shooting Tormentors, to Be Tried.
CHESTERVILLE, May 19.—(Special).—Isaac Garlough, farmer, aged 40, must stand trial on a charge of manslaughter, resulting from the shooting of Ross Beckstead, aged 18, last Thursday night.
A coroner's jury last evening found that the youth "came to his death from a gunshot wound" at the hands of the accused. This afternoon Magistrate Clement committed him for trial at the next assizes at Cornwall.
Mrs. Isaac Garlough gave rather important evidence. She said that her husband and other members of the family were in bed when about a quarter to nine, all being in the dark, there were sounds of stones striking against the roof of the house. Her husband picked up a shotgun that was in the house and, sticking the muzzle thru a pane of glass, fired one shot to frighten away the men and boys, who were bothering the family. She saw the shadows of two or three, who were apparently hanging around in the vicinity.

The Gurney-Oxford Gas Range Has All The Newest Improvements

NO PILOT LIGHT TO OVEN BURNERS

The oven burners in the Gurney-Oxford Gas Range require no complicated pilot light. The oven door must be opened before lighting, and after turning on gas valve at side apply match to small round hole on right face side of oven. This is assuredly the simplest and safest lighter ever invented. Other features are the new style burners. The wood oven handles, that are always cool, and many other important features that make this range the best to buy from every viewpoint.

SILENT MAN OF MYSTERY LEADING FIGURE IN TURKEY

Gen. Scheffek Has Amazed Observers by His Skill in Recent Unpleasantness.

CONSTANTINOPLE, May 19.—Mehmed Scheffek Pasha, commander of the Turkish constitutional forces, both land and sea, is the man most frequently in the thoughts of those observing or dealing with the confused politics of the day in Turkey. He is the one quiet figure upon whom rests the preservation of order, and the civil branches of the government look to him to impose their influence upon the empire and to deal promptly with persons or factions dangerous to the state.
The skill and celerity with which Gen. Scheffek brought the third army corps and part of the Constantinople army corps to Constantinople and occupied the capital has amazed the foreign military world. Besides those attached to the embassies, seven officers came from Germany and five British officers from Egypt to observe the development of the campaign. They have not ceased to discuss the details of the constitutional commander's arrangements.
General Scheffek has been something of a man of mystery, and his impression he has been taking trouble in recent days to remove. He has called in succession during the past week upon every ambassador minister in Constantinople and upon the Turkish subjects holding high positions in the army and the navy, and the Armenian bishop, representing the vacant patriarchate. He has talked modestly in political affairs and the relation of the army to the government, possibly with the idea of checking the spreading notion that he is a virtually dictator and that he and parliament are near to a rupture.
Speaking on this subject to-day, Gen. Scheffek said: "The army is merely an instrument. The army is a finger of parliament only, and works under the will of the cabinet."
The general had an hour's talk with Hilmi Pasha, the grand vizier, yesterday, at the conclusion of which he said: "The grand vizier and I are in perfect accord."
Later in conversation he said: "We have obstacles to overcome in our progress towards free and stable institutions. We have hope that we will rise above them."
The disorders in Adana Province, Gen. Scheffek said, were in process of solution. The court-martial there could be trusted to make a thorough investigation and to mete out punishment for the guilty. The agitation in the fourth army corps at the moment has been a local affair, and most of the mutineers and deserters having been arrested. In conclusion, Gen. Scheffek said: "We desire very much to have the good will, sympathy and moral support of the Americans in the present movement towards better government."
Silent, But a Good Worker.
Gen. Scheffek's whole day, from 9 o'clock in the morning is alloted to military business. He is a tall, wide shouldered man with a serious expression, and a Georgian blood. He is a man of extreme composure; only his eyes shine like those of an enthusiast.
"Some of the members of the committee," said Rauf Bey, one of three who represented the Young Turk committee in the navy, "before the advance on Constantinople doubted whether Gen. Scheffek was a man for the work ahead. He was so still, so tranquil, so silent, but what a man he is; what energy; what intellect; what disinterested motives; to him the cause is everything; he thinks nothing of himself."

AFRICA LIKE PICCADILLY

Londoners Make Light of Roosevelt's Hunting Achievements.
LONDON, May 19.—The English papers at first devoted considerable space to President Roosevelt's African trip, but now from time to time only a short paragraph announcing the bag appears. The graph amounting to the best of the ordinary was looked for on the trip.
Women and men tourists and people here in general know too well, however, how big game shoots are arranged in India and Africa for the work ahead. The Great Coaster Brake!

Sectional View of the "Hercules" Coaster Brake, the Latest and Most Compact

Every season adds some great improvement to the bicycle. We have recently noted the addition of the Hygienic Cushion Frame and Sills Handle Bars. Now comes the Hercules Coaster Brake. This little brake, actually about the size and weight of an ordinary bicycle hub, is the most powerful on the market—in running free it works like a watch. The "HERCULES" Coaster Brake is the newest idea. It makes wheeling pleasant going up hill or down dale. It has fewer parts than any other coaster brake. It is one-half to three-quarters of a pound lighter than any other. It is no larger than the ordinary plain hub of a bicycle. Because its construction renders a side arm unnecessary—it is easily and quickly replaced.

The "HERCULES" Coaster Brake is positive and quick in driving action, is responsive, sensitive and powerful in braking. Is a particularly free coaster. We guarantee this brake as represented or will replace with any other coaster brake absolutely without cost for brake or for express charges.

THURSDAY MORNING

O'Brien and Johnson Fight a Draw

PHILADELPHIA, May 19.—Sporting men from New York, Boston, Baltimore, Washington, Pittsburgh and Chicago saw Jack Johnson and Jack O'Brien go six rounds to an even break to-night. No gloves fight ever held at the national level in this city attracted so much interest, with the result that at 7 o'clock only a few reserved seats held by speculators, could be purchased. The arena seats more than 400 persons. The box seats sold at \$10 each, reserved chairs on the floor behind them at \$5 a throw, while 10 secured a lofty perch in the gallery, which surrounded the inside of the big building, once a market place. Outside of the clubhouse, where the supply of tickets was exhausted, were many disappointed fans, who came to see the fight.

Johnson gave a display of nerve this afternoon when he rode up to the arena in a big automobile and notified the managers that he had to have his \$5000 guarantee then and there or there could be no fight. The managers at first demurred, but finally handed over the coin. Johnson declared he was in prime condition. He said he intended to force the fight and give O'Brien no chance to do any fancy boxing stunts. O'Brien was even more confident. He said he was a champion and would win the fight. The preliminaries prolonged the wait until 10.30 before Johnson, the first to appear, was escorted to the ring. His reception was cordial, but not enthusiastic. He was even booed by the galleries. O'Brien came on a minute later and sprang nimbly upon the platform. He grasped Johnson's hands perfunctorily and took his corner. There was little or no public betting on the fight at the ring side. The fact that there was some private wagering, however, is allowed on all-round news in this state was responsible for this. O'Brien's share was 75 per cent. of the odds, on this he was favorite at odds of 5 to 4.

Jack Johnson, champion heavyweight of the world, did not cover himself with glory. The big negro was outpointed by a small margin in the fight that was fast and interesting all the way. Johnson was as cold as slow molasses in getting after the feet of O'Brien, and his punches, when they landed, were of championship power. He had many chances to show his great strength, but he boxed like a second rate fighter. The referee, J. J. Brannan, was fully 40 lbs. lighter, did much of the forcing. He landed nice clean blows and showed a greater knowledge of ring tactics. He made Johnson look foolish with his clever feinting and in every way appeared the master except in physical strength.

Now it looks to the public like Shimonese by several lengths, with Fort St. George and one of Seagraves' ring of gold. Still the real feed box information is that the Laird of Waterloo will get all the coin.

"Shimonese burned up the track," said Brother Chown in glaring headlines the other day, and the well-meaning editor of the paper began to believe that the millennium was at hand and that the good days of the passing of the Woodstock were being lived over. A matter of fact it was only a friendly tip to himself and anyone else so inclined to make a shrewd investment on the stock market. The fact is that instead of blowing their money on some wild cat speculation or probably some other equally disastrous venture.

LEAFS FROM ANOTHER FROM PROVIDENCE

Bisons Take Two From Newark— Rochester and Montreal Winners—Results.

Fielding like a bunch of amateurs, the Leafs defeated Providence yesterday, 4 to 3, thanks to Southpaw Barry's at-batting in the second, when the locals counted four, and while the big southpawer was canned in this spasm, the Leafs had counted enough to win the game, also they tried hard to throw it away in the ninth, and incidentally stop Rodolph's winning streak.

Kid Mahling was the chief transgressor, having no better than three juicy errors, one of which came in the ninth, and paved the way for the visitors' two runs, but he redeemed himself by at-batting in the eighth, and for the last out. Houser Arndt's grounder for the last out. Houser Arndt's grounder for the last out. Houser Arndt's grounder for the last out.

Joe Kelly replaced Goode in the field for Toronto, and while he failed to register a hit, scored a run by a long sacrifice fly to right, and by a good throw to third, he was a valuable asset to the team.

The Associated Press has the result of the bout between Johnson and O'Brien a draw, while The New York Sun man thinks the Quaker had the margin, tho' no official decision was given. He says:

Jack Johnson, champion heavyweight of the world, did not cover himself with glory. The big negro was outpointed by a small margin in the fight that was fast and interesting all the way.

Note and Comment

Whether Regina will have a chance to lift the Minto Cup will be known to-night when the result of the first game to-day at New Westminster will be flashed across the wire. Advancing from the seat of war say that the Regina men will be playing about six different styles. Archie McNaughton is the referee and M. J. Barr of Vancouver the time keeper. Admiral H. Ritchey of the Japanese fleet, now visiting British Columbia ports, has been invited, along with other celebrities.

New Westminster And Regina Teams Clash To-Day

The first Minto Cup game between Regina (challengers) and New Westminster (holders) takes place to-day. There is a difference of three hours between Ottawa and New Westminster time, so that first word of the game will not be received in Ottawa till near 7 o'clock.

The Toronto players in the game at Rosedale on Saturday with Cleveland will be numbered as sixteen players in all will be given a chance to prove their worth as players and their numbers are as follows: No. 1, Atton; No. 2, Harshaw; No. 3, Stuart; No. 4, Fitzgerald; No. 5, Stagg; No. 6, Braden; No. 7, Powers; No. 8, McKenzie; No. 9, Dandeno; No. 10, Barnett; No. 11, Fitzgerald; No. 12, Kallie; No. 13, Nick Carter; No. 14, Fred Carter; No. 15, Fred Morrison; No. 16, W. Cook. Cameron will likely play, but will not be numbered.

Twenty-one players turned out to the Tecumseh practice at Hanlan's Point yesterday afternoon. Among them young Kinder, the much-touted Preston lad, and Fred Rowntree, one of the favorites among the players and champions. Kinder arrived in town in the morning and jumped into the practice at Rosedale on Victoria Day.

The plan for the Cornwall-Toronto game at Rosedale Saturday opens this morning at 10:30 Yonge-street. George Mitchell of Hanover has been appointed convener of that juvenile C. C. Association in the afternoon at the King Edward Hotel, Friday evening. All those interested in the harness and saddle horse should make a point to attend, as master of great importance to the association will have to be decided.

The Elms Lacrosse Club will hold a practice Friday night. A full attendance is requested, as the team will be picked for the holiday. Any player wishing to join will be welcomed.

The annual supper of the Toronto City Bowling Association will take place to-night at Orr Brock at 9 o'clock, when the prizes, numbering 40, will be presented to the winners. Following is a list of the prize winners, who are specially requested to be on hand to receive their prizes, as the committee won't be responsible for the delivery of any prize: George Capps, F. HEAVY LOSS TO STOCK RAISERS

Lambs and Calves Will be Killed off by Weather. LETHBRIDGE, Alta., May 19.—The present snowstorm promises to be most serious yet in results. The calving and lambing season is on, and this weather means the loss of a large percentage of the calves and lambs, as well as the weaker ones of the older cattle and sheep. About one-third of the calves are already born, and the death rate will be high, especially if the weather turns cold to-night. It is estimated that sheep men who have not got sheds and corals for their sheep will probably not save more than 25 per cent. of their lambs.

TORONTO MILITARY BANDS REFUSE TO PLAY "EX" Object of Engagement of Outside Regiment Not Members of Union. Toronto military bands may not play at the Canadian National Exhibition in bringing regimental music outside the members of which do not belong to the International Protective Association. The members of the regiments of Toronto belong to the International organization and are forbidden to play with non-union bands, military or otherwise. Manager J. O. Orr makes the following statement: "The Toronto regimental bands were offered engagements to play at the Canadian National Exhibition, but the Canadian National Exhibition board of directors would not allow them to play with non-union bands. The matter will be further threshed out when the officers of the Musicians' Union, who are out of the city, return."

HUNG BY A THREAD While at work repairing the city hall tower, and seated on a board suspended by a rope, David Davey and his assistant had a narrow escape from death. On descending from the board they found the rope worn to a thread and a minute or so longer on the plank would have meant death to both of them.

DEATH WAS ACCIDENTAL Inspector Greer Finishes Enquiry Into St. Thomas Case. ST. THOMAS, May 19.—(Special.)—Detective Greer, who has been back since this week making further enquiries as to the death of William Tomlinson, whose body was found under the M.C.R. bridge, will return to Toronto tomorrow. He made the emphatic statement today that the man's death was accidental and he could not understand how the coroner ever thought it was a case of murder.

FORESTRY STUDENTS' CAMP Limit on Lake Nipissing Chosen as the Site! Dr. Fernow, dean of the school of forestry of the University of Toronto, states that the site selected for the camp for practical work by the students this year is an excellent one, as there is a very interesting example of how the forest in a primitive state plants itself. The site is a limit near Frank's Bay on Lake Nipissing. Here there is a thick stand of red pine which has never been burned over. The forest is about 175 years old, the ground is about 200 years old, and the trees have been burned over clean at that time, so that the red pine forest is of the second growth. The new growth, which is a stand of about 100 young trees to the acre, is all white pine. The students will thus, in addition to their work of surveying and estimating quantities of timber, have an opportunity to observe the effect of light, shade and other conditions on the new growth. When Dr. Fernow led his little party into the forest, the first thing they saw was a stand of red pine, which had been burned over a distance of 27 miles. But the boys took it all as part of the practical side of their profession on a diet of pork and beans. Dr. Fernow has just returned and Dr. Howe, one of the instructors, is in charge of the camp for the remainder of the term.

GUINEA FOWLS PROFITABLE. With the gradual disappearance of natural game-birds there is growing up a demand in the cities for a domestic bird which has all the qualities of the game-bird in color and texture of the flesh and the game flavor that epicureans prize. The guinea fowl, which has heretofore been kept more as an odd bird than because there was any particular profit in raising it. Guinea fowls are fowls that do best when treated on the let-alone principle. They have a natural inclination to wander in the fields and seek their own food. If given a wide range, such as they can have on a farm, they care little for the feed of domestication, wandering about early and staying abroad late, during all the year when they can find seeds, green stuffs and insects to eat. In raising guinea fowls, it is better to have a few than to have many. They should be allowed for one cock, altho occasionally a cock will mate with more than this number. In their natural state they are very shy, but under domestication they have broken away from the original plan and are now more than one mate. The guinea fowl is a very profitable bird. It is a natural instinct to keep their own food. A few of the students are required to take supplemental examinations.

WHERE CO-OPERATION PAYS. A correspondent in The Homestead, from Sparta, Wis., gives an account of the successful co-operative movement which has been organized by the growers and dairymen in that vicinity. There are acres of strawberries, raspberries and blackberries grown and nearly all the berries are sold through the Co-operative Fruit Growers' Association. He says that a great many growers are now getting a better price for their fruit than they were getting before. The co-operative movement is also being organized in other parts of the country. The co-operative movement is also being organized in other parts of the country.

HALLMAN'S BIG SALE. An exceptional chance will be given to farmers and breeders to buy some choice high testing Holstein cows and young bulls from good cows, as well as some very prolific strains of Tamworth sows. At the sale to be given by A. C. Hallman of Breslau, whose name is well-known all over Canada, as an up-to-date breeder and dairy specialist. In writing to the World Mr. Hallman says: "Both the cattle and hogs are of high quality and of exceptional breeding, being direct descendants of the most popular families of the breeds. In the offering is Dukal Pearl Hengerveld with an official record as a two-year-old of 19.94 pounds of butter in 30 days, and 84 pounds of milk in one day. Countess Polly, three-year-old record, A. R. C. of 28.88 pounds of butter two months to two years old and the balance area females of all ages. All are bred from official record holders. Catalogue will be ready after May 15. Send for illustrated catalog to Breslau."

THE ALARM-CLOCK EGG. "A stubborn sitting hen may be persuaded to lay her purpose by an unusual noise," says an exchange. "She will sit for a while at least. This while a little rough on biddy, is more humane than many methods mistaken, by employed to break up a sitting hen."

AGRICULTURAL COLLEGE EXAMINATION RESULTS An Ontario County Boy Wins Governor-General's Silver Medal

The final results of the O.A.C. examinations in agriculture have been announced and the students are congratulated for their various practical experience in their chosen branches. The good work being done in bringing the advantages of the academic training to the farm lad, is being felt more or less in the humblest homes of the land and while isolated cases may occur where some youth does not make good on the farm, the general results are gratifying indeed. Education does away with pedantry and stubborn persistence in the wrong and generally speaking, the graduate is a better man and neighbor for his training. After all the great test of education is the man and with our young men of the farm imbued with that common sense that is progressive and yet has charity for all, means a big influence for Canada farms in our country's upbuilding.

Wade Toole of Whitevale, Pickering Township, has been successful in winning the Governor-General's silver medal and is to be congratulated. The other winners are chiefly Ontario men and the following are the results: First in General Proficiency First and Second Year work—Wade Toole, Whitevale, Ont. The Geo. Chapman Scholarship—H. A. Dorrance, Seaford, Ont. Prizes \$10 in books. First in General Proficiency First and Second Year work—Wade Toole, Whitevale, Ont. Scholarships awarded on First Year Work, Theory and Practice—\$20 in books. Agriculture—P. O. Van Sickele, Trinity, Ont. Biological Science—F. S. Reeves, Tewkesbury, Gloucestershire, England. English and Mathematics—R. Beckett, South Pelham, Ont. Physical Science—J. M. McIlquham, Leamington, Ont.
