Several Members of 26th Battalion Give Lives For The Great Cause

Sergt. Frank Cotter, L. Cor. R. F. Peacock and George South James Stevens, Robt. Gabriel and Robert Keenan of. St. John --- One P. E. I. Man and One From Nova Scotia--- Geo. W. Taylor and Herman Ryan Wounded --- Ready to Take Their Places---Clarence Buckley Also Killed

SERG. FRANK L. COTTER
Once again the toll of war has made its levy from St. John. Four homes in the city have been plunged into sorrow today by news flashed over the wires of loved ones killed in action overseas, fighting the great battle of the Somme.

REG. F. PEACOCK
The other three heroes were St. John boys. No participants of their deaths have been received. The official telegrams have merely stated that "the department regrets to announce the death" giving the date in each case and promising further details when received.

PRIVATE A. E. INGRAHAM
The death of Private Robert Gabriel of the 26th was announced in an official telegram from Ottawa this morning. Private Gabriel, who was about twenty-four years of age, was the eldest son of his widowed mother. His father died only two months ago. Besides his mother, he is survived by four sisters and two brothers, all younger. He was a bright young man of fine disposition, and is highly spoken of by his friends.

GEORGE SOUTH
Geo. W. Taylor wounded. Mrs. F. C. Taylor of Hoyt Station, formerly of St. John, received word today that her son, George W. Taylor, with the 26th Battalion, had been wounded in the head and thigh on Oct. 15, and is now in hospital in Boulogne. No further particulars are given. Private Taylor, who had many friends and acquaintances in St. John, is a nephew of H. W. Woods, M. L. A. Changes 26th.

All the men were well known about the city. They were held in high regard by numerous friends, who will share the grief of their families in their loss, and extend heartfelt sympathy to bereaved fathers, mothers, sisters, wife or brother. Only one of the men was married, Pte. South, who was a native of England. The other three heroes were St. John boys. No participants of their deaths have been received. The official telegrams have merely stated that "the department regrets to announce the death" giving the date in each case and promising further details when received.

Three of the men were killed on the 13th, Sergt. Cotter, Private Keenan and Private South. Lance Peacock was killed on the 18th. It is possible that the first Peter mentioned partook in the gallant exploit of some thirty men of the 26th, previously referred to, about ten days ago, under Major Brown when he was wounded, for it was on that date that the heroic action was performed. Meanwhile further word from the trenches in Belgium, where it is understood the 26th are in action, will be awaited with eagerness. Various rumors have been in circulation about the city as to other casualties.

WILL TAKE "BOB" KNOWLES PLACE
"Well, Mr. Knowles, I'm going to take Bob's place."
Joseph S. Knowles, whose son, Private Robert E. Knowles of the 26th Battalion, has given up his life in the service of the empire, is profoundly grateful for the universal expressions of sympathy extended to him; but he was especially moved when a young man, a close friend of his son, added to his words of sympathy the announcement quoted.
"I am going to take Bob's place."
Today's cables bring news of other vacant places in the ranks of the gallant 26th. Who will fill these places?

PHETIS AND PLEIDING
The purchase of the two story wooden building on the corner of Mill and Main streets from the C. P. R. for the purpose of widening the street will be recommended to the common council at the meeting this afternoon by Commissioner Potts and the mayor, appointed to inquire into the matter. Plans have been prepared showing the improvement in the street which could be effected by removal of the building. The plan calls for cutting of the corner to a depth of nineteen feet, still leaving room for a nine foot sidewalk. Commissioner Potts said this morning that the price asked by the railway company for the property is one which he regards as extremely moderate.

Fredericton Recruits

On Saturday five recruits enlisted at Fredericton for the 104th Battalion. They were Len Poore of Oromocto, Joe Morris of Upper Kingsclear, Finton O'Donnell of Carleton Place, Frank Peppers of Gibson and A. E. Morgan of Nasonworth. The total number of recruits who enlisted there last week was thirty-five. Harry A. Gibson, Gerald A. Hubbard, Guy Horncastle and Ross Thompson who left Monday to join the Siege Battery, were banqueted on Saturday evening by their fellow members of the Automobile and Road Corps.

New Imperial Officers

Two Fredericton boys have been granted commissions in the Imperial Army. They are Sergeant Instructor Theo. Barker, son of R. S. Barker of the department of lands and mines, and Sergeant Instructor Norman D. Cass, son of Percy Cass.

In his letter to his father, Lieut. Barker states that Capt. Edward A. Chisholm who was with the 29th Battalion, was a major in the English Army. Major Chisholm is a former Dalhousie University student and a member of Barker's company of his subalterns.

APPEAL TO TRAVELERS TO FORM PLATOON OF THE 104TH REGIMENT

An appeal is made to the members of the New Brunswick Commercial Travelers' Association to form a platoon for the 104th Battalion, under Lieut. Col. Fowler. There are about six hundred members of the association in this province, and a large majority of them are of military age. The response is expected from the younger men. The appeal is made to their patriotism, and it is for the honor and safety of their homes and of Canada they are asked to enlist. They are an intelligent body of men, who do not need to have the case argued with them to prove the urgency of the need, or the way the finger of duty points for them. Do you not know that a question that is likely to be asked of commercial travelers as they are other young men seeking business when the real business of this country is war, and when the wheels of commerce can be kept moving by those who are not physically fit to go to war?

Lieut. Col. Fowler will welcome a platoon of commercial men, and their comradeship will be continued in arms as on the road, with the difference that their rivalry will only be that of soldiers, by quality instead of trade competition. Moreover, by enlisting they will set a splendid example to the younger men. Lieut. Col. Fowler, and every knight of the road who can get to the city for the business, which in this crisis is also the business of every citizen of Canada. It should appeal to none more forcibly than to the members of the New Brunswick Commercial Travelers' Association.

RECENT WEDDINGS

A very pretty wedding took place at 137 Robeson avenue today at 10 o'clock, when Miss Mary Bealy Sullivan, daughter of Mr. and Mrs. James Sullivan of Gardner's Creek, was united in marriage to Joseph Spurgeon Cosman of this city. The bride was attired in pale blue crepe de chene and carrying a bridal bouquet of white roses to the sweet music of Lohengrin's bridal march, played by her sister-in-law, Mrs. William Sullivan, of New York. The bride was given away by her brother, William Sullivan of New York. Only the immediate relatives of the contracting parties were present. Many choice gifts of cut glass, silver and china were received by the bride. After a sumptuous luncheon the bride and groom left on the C. P. R. for their trip through the maritime provinces, and on their return will reside at 137 Robeson avenue.

ST. JOHN WILL SEND HIS MAJESTY'S CALL

Thursday Night's Meeting Will See Wonderful Response

Thursday night's demonstration in Queen's rink in honor of Col. Geo. W. Fowler, M.P., the popular commanding officer of the new creek regiment, the 104th, will unquestionably stir the depths of the empire with its patriotic and sacrificial. Although great demands have been made upon eligible citizens by the military authorities, everything indicates a veritable landrush of recruits for this occasion.

The success attending Lord Derby's voluntary campaign in England is finding echo in Australia, Canada and in other parts of the empire where, cable reports of the new English idea have been read with satisfaction and patriotic acclamation. That conception is still a dead-letter in the empire is proven by the response of the king's appeal for more men to carry the dual flag of the struggle to sweeping victory for the allied arms.

John, which has already done handsomely by the army, will outstrip itself this week, it is hopefully expected. When Colonel Fowler makes speech Thursday night, the indications are that upwards of one hundred stalwart young men and true will move the platform and sign the king's roster of defence. During the last few days those who have enlisted represent the best classes of citizens, men working at lucrative jobs and coming from comfortable and well-to-do homes. This sort of enlistment is very heartening as it indicates a sacrifice. Not by any means is there a trace of mercenary spirit in the Thursday night's meeting will converge a little after eight o'clock. Four gigantic processions will wind their way from South End, North End, East End and West End, headed by the 62nd, Temple of Honor, Canadian Cornet, City Cornet and precisely St. Mary's bands. There will be companies of torch bearers and automobile owners will join in the parade. The processions will join in the rink where the speaking-conference is to take place. Later editions of the newspapers will be particularly anxious to the assembling of these processions so that all patriotic citizens may participate.

At the big meeting Col. Fowler will tell prospective recruits what his plans are for the 104th are. He will have his medical man on the scene to examine each volunteer. In fact, every man who enlists will learn before he leaves the building whether or not he is eligible for service.

Citizens are requested in connection with this demonstration on Thursday to fly their flags and to decorate their windows appropriately.

TRAIN CRASHES THROUGH BRIDGE

"The Juggernaut," a modern railroad drama in five parts written by Donald I. Buchanan and Ralph W. Ince, was the first picture in the magnificent production of the entire press of New York, every paper sending a representative to South River, New Jersey, where the principal scenes were taken, to get a picture and story of the big scene, the wreck and destruction of a passenger train. Besides the newspaper men, Vitagraph officials and players, more than 12,000 persons witnessed this thrilling climax, which stood the Vitagraph Company more than \$25,000 and nearly cost the lives of many of the actors engaged in its enactment.

"The Juggernaut" is one of the big things in the film world and will add additional prestige to the reputation of the Vitagraph Company and to Anita Stewart. Earle Williams, a swarthy Gordon, who portrays the principal character. It is being shown at Imperial Theatre tomorrow.

JUST A FRIENDLY SUGGESTION

To the Editor of the Times: Sir,—During the summer and fall there are, I believe, six of those hand-carts, one man to each cart, each man has a certain district and is responsible for that being kept clean. These carts are taken off, leaving three men to do six men's work. This, I believe, is an account of shortage of money which may be no fault of the commissioner of public works, but as those men who are laid off have put in the best part of the season, and some of them are getting on in years, and living is so costly, would it not be only fair and workable to give each man two weeks work about during this fine weather? It would be at least a little help for them. I hope this will not be taken as any criticism, however, only a friendly suggestion.

THE FUNDS

The amount of the city grant for the British Red Cross Society will be determined by the meeting of the common council this afternoon. THE WAR NEWS

Today's cables tell of continued and substantial success by the Italians, and intimate also that Italy will send soldiers to the Balkans, while Russia will likewise send troops to aid Serbia. The Allies are hammering at the enemy so vigorously in the east and west and along the Italian front that it will be to detach large forces for action against Serbia. The Allies realize the importance of preventing the enemy from getting through to the relief of Turkey, and will strain every effort to prevent it.

still going on, in connection with government contracts of many kinds. In Winnipeg yesterday it was shown that a horse dealer paid a veterinary surgeon \$5 per head for thirty-five horses the latter had inspected and passed. When asked why he offered this amount to the veterinary the dealer said he expected about 2,000 more horses would be bought. He would not admit, however, that the \$175 was intended as a bribe. His generosity is certainly worthy of special mention, for he was not called upon to offer the veterinary a cent for his work, which was paid for by the government.

WHO IS FOR THE 104TH?

A great effort is to be made this week to get a large number of recruits in St. John for the 104th Battalion, under Lt. Col. Fowler. That popular commanding officer will be in the city on Thursday, when the campaign is to culminate in a great meeting at which it is hoped large numbers of young men will join the colors. To any who ask why such an appeal is made, the answer is found in the message of King George to the people of Canada. This war is a very serious business, and we must see it through. The one way of gaining victory, and making it sure that the sacrifices already made have not been made in vain, is to send men and more men; and as they must have months of training there is no time to be lost. The more encouraging, but the Germans are still in Belgium, in France, in Poland and in Serbia. They are not being dislodged by slaying the National Anthem, nor by cheering at patriotic meetings. Further great orders for months are to be placed at once, and more battalions must be recruited to make them effective. Will St. John be proud of its answer to King George's appeal at the end of this week, or will it be compelled to confess that the appeal failed to secure a right response? It is up to the young men.

IT WOULD HELP RECRUITING

The Citizens' Recruiting League of Toronto has passed a resolution urging the government at Ottawa to issue an appeal for further recruits to bring the total number of Canadians enlisted up to 800,000. It was held that an authoritative statement from the government was needed to counteract the effect of the remark attributed to Sir Sam Hughes that he was getting two recruits for every one needed. The St. John committee has been made out to the government that the remark attributed to the war minister was being quoted by some young men as a reason for not enlisting. Now that the appeal of King George as well as to those of the United Kingdom we have a right to expect that the government will make some such call as the Toronto committee suggests, and that it will make such provision for uniforms and equipment as will render it possible to take care of all the recruits as fast as they are secured. It would be unfortunate, in view of the King's appeal and the urgency of the situation if the militia department failed in any way to do its cheerfully carried on by civilian committees all over the country. The need of men cannot be disputed, and every possible encouragement should be given to recruiting work, so that it may not only be carried on vigorously but continuously. Doubtless the government will act promptly in the matter.

THE HARPIS.

When the Davidson War Contracts Commission last week at Regina was probing the purchase of feed for the mounts, it was learned that C. P. R. freight bills had been forged, and that at least eight cars of feed charged up to the government had never been bought. The forged bills were produced, but the original bills bearing the same progress numbers were also in evidence, and the fact of the forgery was clearly proved. Moreover, it was proved that the shipments alleged to have been made were not made at all.

It is plain from revelations made in different parts of Canada that the country has been robbed of an enormous sum in the aggregate, and there is too much reason to fear that the work is

"You haven't any serious or organic trouble," said the young physician, cheerfully. "You're a little nervous and run down, that's all. Take more exercise, eat less and forget your troubles. The hypochondriac snorted: "How long have you been a doctor?" "I took my degree three years ago," answered the doctor.

"My dear, a burglar fired a revolver at a Boston man and the bullet struck a button, thus saving his life." "Well, what of it?" "Only this. A man could shoot at me with a shotgun and never hit a button."

ANOTHER PLOT TO BLOW UP LINERS UNEARTHED

New York, Oct. 25.—Details of a plot to hamper the shipment of munitions of war to the Allies by placing clock-work bombs on the rudders or propellers of ships, so timed that the ships would be disabled on their way across the Atlantic, were disclosed today in the confession of one of five men charged in a complaint filed with the United States commissioner with conspiracy to violate a federal statute. Following upon the confession of Robert Fay, a lieutenant of the 16th Saxony Infantry, who admitted that he came to this country last April through an agreement with the German Secret Service to blow up or delay steamers laden with war supplies for the Allies, William J. Flynn, chief of the Secret Service, tonight filed before United States Commissioner Houghton, a complaint in which, not only Fay, but four other men are charged with promoting the conspir-

acy. The hearing on the federal charge was set for November 4.

FIRING SQUAD WOULD NOT KILL MISS CAVELL

Why Officer Had to Use Revolver—Similar Experience in Case of French Woman

Amsterdam, Oct. 26.—(Despatch to London Daily Mail)—The Telegraph states that when the Germans executed the French woman, Miss Louise Fernay at Liege a fortnight ago, the firing party purposely aimed low and she was hit in the leg. An officer then shot her through the head with his revolver. The Telegraph says the same thing happened in Miss Cavell's case. She was fired at by a party of twelve, but only one bullet touched her and she was hit in the leg. It was after this that the officer of the firing party drew his revolver, and putting it to her ear, fired. The priest present at the execution was overcome with horror and is now suffering from nervous breakdown. I have no hesitation in saying that the execution of Miss Cavell evoked condemnation among the people of Holland, wherever such sympathies still exist, than any happening during the war. To estimate the significance of Dutch newspaper comment and to show to what temerity Dutch editors have been aroused by this execution, I need only remind you that our Dutch editor is, come up for trial for having even dared to speak of the Germans as conscienceless rascals. The Nieuwe van der Dag, a paper which has so far maintained a rather colorless neutrality, publishes today a whole-hearted condemnation.

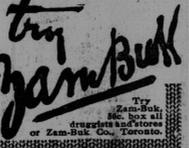

MILITARY HONORS TO HEROIC WOMEN

French Cross Awarded to Nurses Who Remained at Posts Under Fire—Faced Danger Calmly

Paris, Oct. 26.—The military cross, with commendation in army orders, has been conferred on a long list of heroic women who, as nurses, stayed at their posts at Compiègne, Senlis and Villers-Cotterêts, some during the German occupation and all under fire. Among them are two women belonging to the French aristocracy, Baroness Pain and Countess Fillet Will. The baroness was at Chateau Compiègne when it was occupied by the Germans, and, in the words of an army order, "faced difficulties of every kind with calmness, dignity and firmness, encouraging the staff." The Countess Fillet-Will returned to Compiègne after accompanying British wounded soldiers to Rouen, to find the Germans in occupation, but remained her duties the most heroic she left, in spite of the continuous heavy bombardment. Madame Carrel-Billard devoted herself unsparringly to the care of the wounded in an annex outside the Hockefeller Institute. Madame de St. Holland "ran about the streets at Senlis in peril of her life, looking for a German doctor to attend the wounded." The supporters of the Convents St. Joseph and St. Vincent, at Senlis, and Compiègne, also have been decorated for their courage or their help as organizers. An Imperial family pass for a year is one of the prizes in the patriotic drawing.

LILLIAN RUSSELL IN WILDFIRE AT LYRIC

Scores Hit, as on Broadway, in Great Race Track Play. If one has the pleasure of seeing Miss Lillian Russell in the sensational race track story, Wildfire, as given in film form at the Lyric yesterday, they can readily understand why she has attained such popularity in the minds of the American theatrical public. As Henrietta, the daughter of the man who was murdered in the west by the gambler, Kestrel, her character playing is indeed remarkable and her acting in this picture represents the very acme of dramatic art. The picture is a study of scope to display her dramatic ability and she takes advantage of every opportunity to present the picture in the most dramatic manner. UNIQUE ENTERTAINS WITH VARIED PROGRAMME

Universal Weekly, Billy Ritchie and Two Part Novelty Picture, The Storm

Although unpretentious, the cosy Unique Theatre generally comes to the fore by presenting a programme that from point of interest, education and fun excels. This is particularly true of the one shown there yesterday which consisted of three excellent subjects. The first served to introduce J. Warren Kerrigan, the favorite leading man of the Victor Company, in a two-part novelty play, The Storm. It has been some time since the genial countenance of the handsome actor radiated on the screen of the Unique, and his appearance yesterday was received with hearty applause. In The Storm, Mr. Kerrigan plays the part of a young man whose hopes of life had been dashed away at the beginning, but shows how he, with persistent effort, overcame the many obstacles and finally reached the top of the ladder. It also shows in a simple, vivid manner how he is instrumental in meeting out justice to the man who years before had wronged his mother. The settings and photography were of the best, the former representing the best efforts of one of the greatest producers. The storm scenes were particularly effective, and the on-looker was allowed the privilege of looking at a rather novel situation in photo-plays when the scene was presented showing two interiors of different homes at the same time, with a terrific rain storm beating through the windows. The Universal Weekly was the next subject of interest and this week's depicts some of the very recent happenings in different parts of the world. The big oil fire that took place in one of the largest tanks in the southern States was given for the society folks of Long Island, was also pictured in a realistic manner, while the different items dealing directly with the war were received with a spirit of patriotism that none could help but admire. As for comedy, it was supplied in abundance, being given by the L. K. players with Billy Ritchie in the star role, presenting the laughable, mirth-provoking Almos scandal. For the mid-week bill of fare, the Rex Company will hold head line position, presenting one of their latest successes, The Pawn of Fate.

DAINTY DOLL WILL HELP RAISE FUNDS

Will Be Won at Drawing—New in One of Windows of M.R.A. Limited

One of M. R. A.'s show windows has been attracting considerable attention in consequence of the display of a very handsome doll, which is to be devoted to patriotic purposes. This doll has been named the Princess Mary and is shown in full evening dress. It is very evident that no expense has been spared and that much taste and ingenuity have been devoted to the preparation of her wardrobe. She stands twenty-four inches high. Her hair, which is real, is beautifully coiffured, having been done by a prominent hair dresser of the city. Her lingerie is a marvel of delicate hand-embroidery—portions of the outfit have been specially imported. The gown is of pink silk, the skirt accordion plaited. There is an over dress of pink nixon and spotted, elaborately embroidered with pearls and the slippers and stockings match the gown. The dainty opera cloak is white crepe de chine, lined with pink nixon and trimmed with pearls and white fur. A well-known jeweler has donated a handsome chain bracelet, solid gold, and a gold ring with pearl setting. She is further adorned with a pearl dog collar. This doll has been donated and dressed by a St. John young lady, who has taken this method of raising money for the boys so bravely fighting for us. It will go through the channel of the Daughters of the Empire and tickets will be sold at twenty-five cents each. Numerous ladies have undertaken to sell these tickets and it is hoped that they will meet with a ready response. After being displayed at M. R. A.'s, the doll will be found on display at various other parts of the city.

CANADIAN GIRL TRIED TO BOSS KING ALBERT

New Haven, Conn., Oct. 26.—Dr. Hugh Perley, of Montreal, who extended greetings of the Canadian Congressional Council, moved the delegates of the National Council of Congregational Churches in session here to bear by eloquent references to Canada's part in the European war. Dr. Perley related how his daughter, a nurse in a Belgian war hospital, had met a man in the hospital who was the only one she could find speaking English, and said: "Well, it's a wonder you wouldn't get these ordies busy." Afterwards she learned it was King Albert of Belgium to whom she had spoken rather sharply.

KING GEORGE IN FRANCE

King George is now in France to see the British army and also some of the allies' armistice. The British postmaster-general announced yesterday that every eligible man should be free to visit his relatives in places where he was kept open for them. "There is better work to do than carrying people's letters," he said.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe To Darken and Beautify Faded Hair. That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly, just an application or two of Sage and Sulphur enhances its appearance a hundredfold. Don't bother to prepare the tonic; you can get from any drug store a 50-cent bottle of "Weyth's Sage and Sulphur Compound," ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and removes dandruff, stop scalp itching and falling hair. Everybody uses "Weyth's" Sage and Sulphur because it cures so naturally and even that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.

DELIGHTFUL PLAY IS OPERA HOUSE BILL

The Girl From Out Yonder—Wholesome Story of New England Coast

A quaint story of the New England coast, with the scenes prettily set in a little fishing village and the characters for the most part the kind-hearted, old-fashioned folk to be found in such a place, with just enough of the city life representation to afford a contrast being made, was that portrayed last night in the play "The Girl From Out Yonder," entitled "The Girl From Out Yonder." The play was well received. It contained many exciting situations with numerous thrills whose intensity was relieved by a delightful touch of love and an amusing strain of comedy. The company acquitted themselves with success in the piece. As "Flotsam," a waif cast up by the sea, and known as "The Girl from Out Yonder," Miss Alice Kennedy added to the laurels she has already gained since coming here, and was popular and lovable throughout. Adopted by Captain Barton, who dwelt in the little village at Perry's Harbor, Flotsam grew to girlhood and womanhood and became devotedly attached to the people of the village, and her foster father. The part of the latter was taken exceptionally well by R. E. Johnson under whose direction the piece was presented. In what was required of him in the role of Edward Elmer, a successful and heroic young contractor, Ralph W. Chambers made a pleasing impression, and he and Miss Kennedy in their love scenes were most likeable. Norman Houston as Hubert Higgs, a young society man from New York, carried the part with his usual cleverness. The various other roles were capably handled—Miss Lyons as Mrs. Elmer, aunt of Edward; Miss Mauer as Clarice Stapleton, society girl; Mr. Dugan, as an "old salt"; Miss Johnson as the housekeeper for Capt. Barton; Mr. Mays, as Joey, a young fisherman; Mr. Bliley, as waiter, and Mr. Kast as an officer. All were faithful portrayals giving a strong tone of burlesque to the unfolding of the story of "The Girl From Out Yonder."

LAST NIGHT'S WAR SUMMARY

Germans Made to Fight on All Four Fronts-- Situation in Serbia Tense-- Historic Church in Venice Bombarded

London, Oct. 25--While the Austro-German and Bulgarian campaigns in northern and eastern Serbia are being carried out according to the plan, despite fierce Serbian resistance, and the Bulgarians, who crossed the Tisza and held the town of Pralovo, are separated from the Germans who crossed the Danube near Orsova by only a few miles in the north, things are not going so well for the invaders. In the latter region, the French troops have joined hands with the Serbs, and, according to French accounts, have inflicted a severe defeat on the Bulgarians at Krivopal, 40 miles north of the point where the Salonika-Nish railway crosses the Serbo-Greek frontier.

This success places the Bulgarians who reached Ljup, Veles and Ustupa, in an awkward position, for a further advance of the Allied army would seriously threaten their flank. In fact, unofficial reports state that the advance of the French, who are being closely followed by the British, has already caused the retirement of the Bulgarians toward Strumitza.

The first desire of the Germans, however, is to open a route through northeastern Serbia and Bulgaria to Turkey, and this is on the eve of being accomplished.

SERBIAN RESISTANCE CONTAINS FOR WEEKS

On the other hand, military writers here do not believe that the position of Serbia is so desperate as has been painted. It is serious, of course, but they point out that the Serbians have many natural defensive positions in the mountains, in which they can hold out for weeks; that, with the British, French and other members of the Quadruple Powers carrying out their determination to help Serbia by rushing reinforcements to Salonika and other points, the Bulgarians will have an extremely warm reception, and that the German and Turks being fully occupied elsewhere, will not be able to send them much help.

British correspondents in France have just disclosed the fact, made known to them by the British staff, that even after the Anglo-French offensive in September, the Germans had the greatest difficulty in securing new reinforcements to meet that adventure, and had to call upon men just returned from Russia for men to fill the gaps in the western lines. From this it is argued that the Germans cannot spare a great many men for the Balkans, especially as the Russians are keeping them fairly busy from the Baltic to the Rumanian border.

ITALIANS AND FRENCH IN IMPORTANT ATTACKS

The Italians, by their offensive, are compelling the Austrians to strengthen their lines, and the French, by the capture today of a strongly fortified salient north of Le Mesnil, in Champagne, have shown that they have not yet finished their effort to break through. The French success is considered important because the capture of this fortified area clears the ground for another general offensive in Champagne.

For the same reason the British are trying to force the Germans out of their redoubts, and from the slag heaps to the south of La Bassee. These, however, are only preparatory operations, while the main effort is the making of a great offensive which has already gained for them many valuable strategic points, and, according to Rome despatches, may any day place them in possession of the fortress of Gorizia.

The Russians are fighting pitched battles in the Riga and Dvinsk regions. In an effort to retake the ground won from them by Field Marshal Von Hindenburg last week, the Russian attacks southeast of Riga have been repulsed, according to the Germans, as were those undertaken northwest of Dvinsk. The German forces, however, which crossed the Iloukist, north of the town of that name, withdrew in the face of a superior Russian army.

It is also claimed by the Germans that Russian attacks in the lake district south of Dvinsk were repulsed, and that the Austrians have broken through the Russian lines over a front of more than four kilometers (2.4 miles) west of Komarovo.

The German campaign in Courland is being interfered with by British and Russian submarines, which have stopped mercantile traffic to the Baltic ports and one of which has sunk the Prinz Adalbert, the sixth armored cruiser lost by Germany since the commencement of the war, the others being the Blieschke, Schambardt, Galassnau, York, and Friedrich Karl.

New York, Oct. 25--A news agency despatch from Paris says: "All the Entente Powers have joined in a new demand that Greece make a definite decision at once as to whether it shall support Germany or the Allies, say a despatch from Athens today. Premier Venizelos has summoned all his supporters to Athens."

London, Oct. 25--The Allies have asked the Serbian headquarters to resist the Petchons and Bulgarians for only five days more, but by which time effective aid from the Allies will be forthcoming, says the Daily Telegraph's Nish correspondent, under date of Sunday.

The correspondent adds that, judging from the fine spirit the Serbian troops are displaying, they can hold out double that time.

London, Oct. 25, 2:05 a.m.--The Bucharest, Roumania, correspondent of the Times sends the following: "The Serbian troops have withdrawn from the neighborhood of the Danube, and Austrians have crossed the river traversing the island of Odakale. The Austrian forces will now obtain free passage through Bulgaria from Orsova where fifty steamers and lighters laden with munitions have assembled."

Berlin, Oct. 25, via London--Only a small part of the crew of the German cruiser Prinz Adalbert, sunk by a British submarine in the Baltic, was rescued. This was made known in the following official statement today:

"A telegram from the Naval General Staff, dated Oct. 23, states that the cruiser Prinz Adalbert was sunk by two shots from an enemy submarine off Libau. Unfortunately only a small portion of the crew could be rescued."

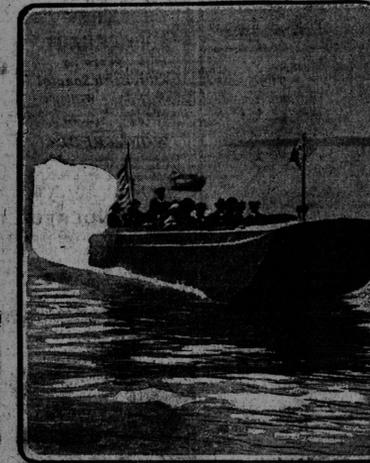

The complement of the Prinz Adalbert was 557 men. An official announcement from Petrograd stated that she had been sunk. It was said the cruiser formed part of a squadron which probably had been charged with a special mission.

Rome, via Paris, Oct. 25, 11 p. m.--Another air raid on Venice occurred at 8:40 o'clock this morning. Three Austrian aeroplanes dropped several bombs on the city. Three persons were slightly injured. The damage was insignificant.

The Rome newspapers express great indignation at the bombardment of the famous Scavini church in Venice and the destruction of the Popolo Francesco. The news of the bomb attack on Venice has stirred the people of Rome to an extraordinary degree.

The Giornale D'Italia, in announcing the partial destruction of the edifice, concludes with the hope that "the pious emperor and his

faithful archdukes may be happy that the weight of their wrath has fallen upon the church."

British Sets 47 Vessels

London, Oct. 25--An order-in-council was passed today in order to arrest the proceedings of a large number of vessels which are trading under neutral flags but which are owned wholly or in part by Germans.

The Anglo-American doctrine, now re-instated by reason of the abrogation of articles of the Declaration of London, considers the nationality of owners and permits the condemnation of a vessel if it is proved a subject of an enemy country, has an interest in it. By this reversion to the old prize law a vessel in which such an enemy subject may have even a part interest may be condemned and disposed of, either by the sale of the enemy subject's share to the neutral co-owner or the sale of the entire vessel and the appropriation of the interest of the enemy subject.

It is expected in government circles that when the order becomes known the Germans will retaliate, as far as they are able to do so. Some British owned vessels under Scandinavian flags, it is said, may be seized in the Baltic or other dangerous areas; but of these vessels are now leaving such waters, as the season has closed.

ASK GOVERNMENT AID FOR PATRIOTIC FUND

Toronto, Oct. 25--At the concluding session of a Patriotic Fund conference here Sir Herbert Ames gave some suggestions to the branches for renewing the fund. One of these was to ask the provincial governments for 10 per cent of the amount required in that province.

Another was to ask the county councils for a monthly grant equal to one mill on every dollar of the fund. He believed city branches of the fund should also interview city councils for grants.

During the coming year every individual will be subject to appeals either to fight or give. "We find that the influence of soldiers' wives dependent on the fund largely governs the contributions," said Sir Herbert Ames.

"SILVER SIDEWALK" IS BEING REMOVED

Ontario Government Buys it From the La Rose Company

Cobalt, Oct. 25--The famous "silver sidewalk," said to be the richest and most spectacular body of solid native silver in the world, and which in the early days of Cobalt provided one of the principal sights of the camp, is being removed. On account of the rarity of such a specimen, the Ontario government has decided to purchase it from the La Rose and the work of removing it is proceeding under the direction of Mining Inspector MacMillan, of Toronto.

In order to preserve the richest portion of the famous "sidewalk" in its native state, with the flat, scratched surface showing the effects of glacial action of another age, great care is being exercised in the work of removal. Instead of blasting it, as in ordinary mining, drill holes are driven close together in a row and the portion being removed. Before these holes are plugged tightly with wooden plugs, they are filled tightly with water, and a small quantity of water poured in. The slaking of the lime will within a few days expand sufficiently to force the portion slowly upwards. Only about one foot in depth of the vein is being taken, and this is in two separate pieces, which, when broken out, will weigh approximately 800 to 500 pounds respectively.

A Montpelier, Vt. seamstress has given to the newly incorporated Montpelier Home for the Aged the savings of her lifetime of 76 years, which amounted to \$8,000. At no time has she earned more than \$8 a week and she has supported herself.

WAR BRINGS CASH TO OLD IRELAND

Dublin Branch Office of Munitions Department

SHELLS, GUNS AND TEXTILES

Increased Production of Food One of Important Results of Campaign -- Manufacturing Stimulated

Dublin, Ireland, Oct. 25--(Correspondent)--Ireland is now at work on a large scale in the manufacture of munitions of war.

For several years there has been only one large Irish factory of war material known in County Wicklow. It is an offshoot of the Birmingham firm of which Arthur Chamberlain, brother of the famous English statesman, was the head. But the necessities of the war have in Ireland, as in England, turned other trades into the munitions business. When the demand was made in Great Britain for a great extension of the manufacture of all sorts of war materials Mr. Redmond saw to it that Ireland should have a share in the scheme.

Representatives of Mr. Lloyd George's new department came over to Ireland and got into touch with leading business men in Dublin, and throughout the country. The Dublin Chamber of Commerce gave active assistance and formed a special munitions committee.

170 Firms Get Orders

The work is now well in hand, and no less than one hundred and seventy firms in Ireland are engaged in it. Large orders have been placed in Dublin, and one firm has got an order for twenty thousand pounds, a small figure on the general scale of this war, but a good deal of money for a city where employment is scarce, and industry backward.

Mr. Lloyd George has established in Dublin a branch office which is expected to enter into the execution of war contracts, but a continuation of government work after the war. A central arsenal is being constructed and equipped with special machinery. Every available machine is being pressed into the service, even those used in the city of Dublin. Technical Schools for the training of pupils. The employees at the new works are to be divided into five classes, skilled and unskilled men, skilled and unskilled women and auxiliaries who will work at times when the regular hands are resting and at week ends. Employment is not to be restricted to men outside military age, the idea being that the munitions worker is as useful as the soldier.

Cork and Limerick Get Share

Belfast, whose main activity in the war share has been the increase in the output of shipping from its famous yards has also gone seriously into the munitions business. Cork and Limerick and even some of the smaller towns throughout the country are also employing all the machinery they can command in making shells or parts of shells.

Munitions are not the only branch of war trade of which Ireland has demanded and received a share. Some of the textile factories have had good orders for clothing materials. Ireland never has in the past secured a fair share of government expenditure, and at the beginning of the war was greatly hampered in competing for contracts by the fact that the deposits for examination of the machinery were in London. Agitation, however, led to the establishment of a depot in Dublin where certain classes of goods of Irish manufacture are dealt with. But there are still restrictions limiting the classes of goods, and an effort is being made to widen the utility of the depot by admitting to it all the goods produced in Ireland which

LIBERALS IN CONFERENCE

Ottawa, Oct. 25--A few of the prominent Liberal members of parliament met in the capital today and informally discussed with Sir Wilfrid Laurier various matters affecting the national issues which will have to be dealt with at the coming session of parliament, including the proposal that will undoubtedly be made by the government for an extension of the life of the present parliament for a fixed period covering the duration of the war, and until probably six months or so after the conclusion of peace.

Today's discussion was purely informal, and of course could not be at all conclusive pending the public consultation in parliament of the specific proposals of the government.

The Liberal members here today declare that the opposition will be willing to frankly discuss from the standpoint of the public interest, apart altogether from any question of political expediency, any reasonable proposals which the government may make looking to the avoidance of political turmoil and discussion during the stress of war times, and that the Liberals will do their full share towards avoiding an election and electing until the issue of the war is settled.

It is worth noting, however, that since the war began no specific overtures of a political nature nor any promise that any such truce will be kept until the war is over have been made by the prime minister.

Sir Wilfrid Laurier, who is now completely restored to health, was warmly felicitated by the Liberals who conferred with him today on his evident new lease of strength and vigor.

Winnipeg, Oct. 25--That Major H. D. Smith, veterinary surgeon, now in England or France with the Canadian forces, accepted \$175 from Dr. Willet Hinman, horse dealer, the amount being fixed by Dr. Hinman as \$5 for each of 35 horses, which Dr. Smith inspected and passed for the Canadian government from Hinman's stables, was the evidence given by Dr. Hinman this afternoon before Sir Charles Davidson at the first session in Winnipeg of the war supplies investigation.

BASEBALL

Scott's Start. "Death Valley" Jim Scott, curve ball wizard of the White Sox, over his rapid flight to the big top of baseball to Frank Ibbell's ambition to be a manager after he purchased an interest in the Wichita Western League Club, says The Detroit News Tribune.

Baker Will Rejoice Athletics. Philadelphia, Oct. 25.—J. Franklin Baker will rejoice in the Athletics. This does not mean that it is certain that he will be seen capering around the hot corner wearing an Athletic uniform next spring, as it is possible that he will be traded in the winter.

The Speaker Sued. This speaker of the World's Champion Red Sox, settled for \$2000 a \$3000 suit against him in the Massachusetts Superior Court. He was sued by Alfred Usore, who was run down by his automobile in Hemenway street, Boston.

Dr. W. G. Grace Dead. Dr. William Gilbert Grace, a famous English cricketer, died last night in London. He was sixty-seven years of age. Dr. Grace was for many years the undisputed king of cricketers. "W. G." was his familiar designation, because he had brothers who were also great cricketers.

Dr. Grace was a son of Henry Mills Grace, a famous surgeon. He attended the medical school at St. Bartholomew and practiced as a medical man in Bristol. From the time he was a small boy he gave a great deal of his time to cricket, and it was not long before he was recognized as the coming champion. When at his best he was a very large, heavily-built man, rugged and brawny.

While the champion cricketer of the world he was very careful in his habits and did not train for a match as did other cricketers.

Dr. Grace was the wonder of the cricket world from 1864 to 1888, and during the twenty-five seasons he played in first class matches 80 completed innings, and scored 8470 runs, averaging nearly forty runs each innings. He had made 100 runs and upwards no fewer than 180 times, being not out in twenty-five of these innings. His highest scores are 400, 344, 318, 288, 281, 250, 224, 221, 217, 216, 210, 210, 197, 194, 192, 189, 188, 186, 181, 179, 178, 177, 174, 173, 172, 171, 170, and 170.

His 400 not out was made against twenty-two in the field, and included forty-six, twenty-one fours, six threes, five-eight twos, and 188 singles, the last item proving that the bowling was not so very weak. This score has been exceeded only four times, and then in minor matches with only eleven in the field. He made his 344 for the Marylebone Club against Kent at Canterbury, Eng., in August, 1876, it being the highest individual score ever made in a first class match. He was the only batsman of modern days who made two separate hundreds in a first class match, but he performed this exceptional feat three times during his career.

The first occasion was at Canterbury in 1868, when he scored for the South of the Thames against the North 182 and not out 102; the second was at Clifton, in August, 1867, when, for Gloucestershire against Kent, he made 101 and not out 108, and the third was at Clifton in August, 1865, when, for Gloucestershire against Yorkshire, he scored 146 and 138.

HOCKEY. Western Star for Ottawa. Ottawa, Oct. 21.—Fred Taylor, a Vancouver hockey star, who was largely responsible for the defeat of the Ottawas in the Stanley Cup game last March will likely come to the capital in the course of a few days in connection with his departmental transfer.

Taylor, who has been doing clerical work at Vancouver for the immigration branch of the department of the interior, received notice last month that he had been transferred to the eastern service with headquarters in Ottawa.

WALKING. Goulding Makes New Record. New Brunswick, N. J., Oct. 24.—Geo. H. Goulding, Central Walkers' Club, Toronto, won the Amateur Athletic Union national championship seven miles walk here yesterday, breaking the world's record by ten seconds. His time was 20.40-4.5.

WRESTLING. Aberg Defeated Zbyzko. Alexander Aberg of Russia, world's champion Graco-Roman style wrestler, defeated Wladislaw Zbyzko, Polish champion, in a finish match in Madison Square Garden last evening. Aberg threw his opponent in one hour and four minutes.

FOOTBALL. Yale Was Defeated. Owing to an error in transmission Yale was credited with defeating Washington and Jefferson University in their football match on Saturday afternoon. Yale lost by a score of 15 to 7. Last year Washington and Jefferson also defeated Yale.

CAPTAIN EDDIE MAHAN

Of Harvard's 1915 football team, executing his famous drop kick. Mahan is taking Brickley's place as Harvard's drop kicker, and his record of kicking three goals out of three attempts against Virginia would indicate that he is a worthy successor.

PAT MORAN WANTS A LARGER SALARY

National League Champions Leader Demands Substantial Increase. New York, Oct. 25.—Philadelphia baseball critics appear to be worried over the fact that Pat Moran has not yet signed another contract to manage the national league champions.

They say that Moran, who received a nominal salary this year, has made a demand for a substantial increase and that the officials of the club are in no hurry to talk business with him. Those who know President W. F. Baker, however, insist that Moran built up a per se salary with rather crude material. He was an experiment when he took hold of the Phillies last spring, but he succeeded from the outset of his managerial career. Incidentally he made a pot of money for his employers who had been forced to make good a deficit in 1914.

Moran may have received \$5,000 for his services this year. Stallings, who landed the Braves in second position, received, it is said, a salary of \$12,000. While Robinson, the leader of the Superbas, who finished third, drew a salary not in excess of \$4,000, Breenahan of the Cubs is said to have received at least \$10,000. Herzog of the Cincinnati Reds may have pocketed \$7,000. Clarke of the Pirates got \$10,000 while Huggins of the Cardinals drew about \$6,000. McGraw's salary for managing the Giants is believed to be more than \$30,000 a year.

Carrigan, leader of the Red Sox, has a contract which calls for a salary of about \$7,500. Jennings of the Tigers commands \$10,000 a year. Rowland, manager of the White Sox, gets at least \$6,000 while Griffith of the Washingtons in addition to being a stockholder, is paid \$10,000 each season. Donovan, the leader of the Yankees drew \$5,000, perhaps more this year and Rickey of the Browns possibly received \$7,500. Fohl, the Cleveland's new manager will draw about \$5,000 next year, while Connie Mack, a half owner in the Athletics, is said to be on the club's annual salary list for \$20,000.

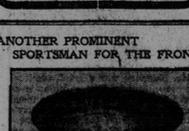

Margaret Greene, who is being featured in "Needs" the Pathé Gold Rooster play produced by Edward Jose from George Barr McCutcheon's well known novel is one of the better known Broadway's younger stars. She is a New York girl and only twenty-three years old, has held a series of remarkably fine engagements. Among the plays in which Miss Greene has had prominent roles are "Tipping the Winner" at the Longacre Theatre; "Seven Keys to Baldpate" at the Astor; "Broadway Jones" with George M. Cohan; "Ready Money" at the Maxine Elliott Theatre; "The Fatted calf" and "The Common Law." The new Pathé star was also William Mack's leading woman when he made his vaudeville appearance at the Palace Theatre, New York.

WANT BATTALION TO WINTER HERE

Merchants Co-operate With Citizens Committee to Get Information and Results—Another May be Raised. The effort to ascertain what battalion is to be stationed in St. John this winter and to secure arrangements for at least one unit if St. John has been overlooked received the support of the Retail Merchants' Association at a meeting last evening. The association appointed A. O. Skinner, F. W. Daniel and B. J. Hooper to co-operate with the citizens committee. They also sent a telegram to Hon. J. D. Haas asking him what battalion, if any, is to be quartered in St. John, pointing out that there is ample room for two battalions. It is likely also that the matter will be brought up at the meeting of the common council today.

The announcement has been made that the 64th is going to Halifax, and that the 104th will be split up throughout the province. The 104th now has 400 men, 400 more are being transferred from the 64th, all the New Brunswick men, and only about 300 more are required to fill the ranks. It is believed that a rash effort might be made to raise another New Brunswick battalion which would be located here.

AN APPEAL TO WOMEN'S INFLUENCE

Amidst the many differences of political opinion, all are undoubtedly agreed on one thing, namely, that the whole empire has reached a crisis. That being the case, it is almost inconceivable that we should read in the columns of the daily papers of the grave recruiting problems.

We wonder why this can be, why at a time when the nation has sounded the bugle call to her sons for assistance—in that very call showing a confidence in their loyalty to her—that the call should have to be repeated, not only once, but again and again, until the nation has to acknowledge that perhaps her trust in her sons was, after all, misplaced.

CLEAN LIVING SECRET OF GOOD HITTING

Cobb, Crawford and Veach, Slugging Trio, Give Rules For Success. Cobb, Sam Crawford and Bob Veach who give the Detroit Tigers the greatest hitting outfield in baseball, say puritanical methods of living make it possible for them to keep in the condition needed for them to get out and play ball every day.

"The old dope—'Early to bed and early to rise' sounds good to me," says Crawford. "I'm generally in bed at ten o'clock and up at seven. That gives me nine hours sleep; and that seems to be about the right amount for starting up energy for the next day." Cobb says:—"My idea of the best way for any one, whether athlete or business man, to keep in good trim is to be careful not to eat too much or sleep too much."

"I always figure on getting nine hours of sleep and I eat only twice a day, in the morning and in the evening. I have found that when I eat heavily I lose some of my pep," and I think, too, that too much sleep makes a person sluggish."

"Health is the biggest thing in life," says Veach, "and the way to have health is to live right. I think the rules that apply to ball players apply to most other people. The amount of food one eats is important. An overloaded stomach has about the same effect on a man that an over loaded wagon has on a horse."

THE KAISER AND PAVLOVA. (Toronto News.) "That was a pretty decent thing for a brute to do."

The "brute" was the Kaiser, the "thing" was the shipping of the properties of the Pavlova Company from Berlin to the United States, and the speaker was Max Robinnoff, manager of the Boston Grand Opera Company, who arrived at the King Edward today.

Pavlova with her company was in Berlin when the war broke out. Some of the company got out next day. Some did not get out for seven days. But they got out without their properties. Because Pavlova is such a favorite with the Kaiser five months ago the properties were shipped to America. It was with regard to this that Mr. Robinnoff made the remark about the brute.

Pavlova gave \$15,000 to keep the company going on this side of the water. The company was composed of citizens of the allied countries. Europe is closed to theatrical companies of the size of hers.

Mr. Robinnoff objected to the term "graff" as applied to Russia. He preferred to talk of "irregularities." He admitted that there were plenty of them in his country. If the head of the department were "irregular" his subordinates were apt to be "irregular" too. The commission in the United States had been changed three times. He believed that now ability was taking the place of blue blood.

Russia was "overrun with blue blood." They had to find places for the sons of the aristocracy. That was why the Russian diplomatic service was so rotten. The word was Mr. Robinnoff's. He could not speak on the war. He could not read the newspapers. It disturbed his artistic temperament. His wife had just returned from Paris yesterday. For fifteen minutes she told him of friends who were killed. It was too much. He stopped her. The horrors of war and the artistic temperament were incompatible.

HERE IS FAMILY DOING A FULL SHARE IN WAR

Mrs. James Glass, of 118 Spar Cove Road, who has two sons in the 80th Battalion, and a third in a munition factory in England, and whose husband has three times tried to enlist, and will now try for the fourth time, has received a copy of the Bath (England) Times of Oct. 9, containing the following item about the war record of her uncle's family in England:
 "Walcot Patriotic Family.
 No less than twenty-two members of the family of Mr. and Mrs. F. J. Williams, of Clarence cottage, Fern road, Walcott, are serving their King and Country. These include two sons, Bandman P. J. Williams, 1st Hamp-shire Regiment, and Sapper G. Williams, Wessex R. E., two grandsons, three sons-in-law, and about fifteen nephews. Two nephews have been killed and three wounded. Mrs. Williams' eldest brother served in the Crimean War and Indian Mutiny. Bandman P. J. Williams has just sent to his parents an interesting account of an aeroplane fight with a Chinese gun which he witnessed, also as a souvenir a piece of the German aeroplane which came to grief. He also mentions that he has read in The Bath Herald that the Somersets have not lost a trench, and he prides himself upon the fact that he can say the same of his regiment. We have already mentioned that Bandman Williams, who has been on the Western front almost since the beginning of hostilities, has been recommended by his commanding officer for distinguished conduct in the field."

WM. NANNARY DEAD

For Many Years Prominent in Theatricals Here
 PASSES AWAY IN WEST
 Had Been Living in California For More Than 30 Years—Old Days in Theatre in St. John Recalled
 Mrs. Teresa Hansen of Douglas avenue last evening received a telegram from her sister in San Francisco, Cal., announcing the death of her husband, William Nannary. He had been in poor health for some time, but his death was unexpected and came as a great blow to his relatives and friends. Besides his wife, who was Miss Annie Williams of this city, he is survived by three sons, Mrs. Nannary and Mrs. Genevieve Blinn, also well known on the stage. Miss Mary Nannary of this city, who recently retired as school teacher, after a long and honorable service, is a sister, and F. N. Nannary, long identified with the American stage, was a brother. The death of Mr. Nannary will recall to the memory of old and middle-aged citizens a gentleman prominent in the theatrical business in St. John in the seventies of the last century. Mr. Nannary was in his seventy-eighth year, a resident of Protection street, West Side, for more than forty years. In early life he entered the dry goods business as clerk with the late firm of Doherty & McTavish, about the time they opened the Commercial Palace in King street. Later he was with Moore & Barbour for a few years. Mr. Nannary was a great admirer of the stage, and in 1887 a dramatic club in the Irish Friendly Society was formed, and Mr. Nannary was leader. Later on, cutting loose from the society, the St. John Dramatic Club was formed, with Mr. Nannary as manager. The only survivors of that organization are Francis McCafferty, Senator Peter McSweney, George McSorley and John C. Ferguson. Others who were members were: T. O. Mullaly, John McWilliams, P. N. Nannary, James Coll, W. B. McSweney, Miss Sullivan and W. J. McGovern. Mr. Nannary was ticket agent for J. W. Lanegan at the famous Lyceum for two seasons, and in 1872 Messrs. Nannary and Olive conducted a grand lottery and concert in connection with the Academy of Music, opening the building with the greatest concert St. John had enjoyed up to that time. Messrs. Nannary and McSweney opened the Academy of Music for the theatrical season of 1874, having among their company Nell Warner and Louisa Kellogg. Mr. Nannary ran the theatrical season each year up to 1877, when the academy went down in the great fire. After the fire he conducted a lottery for the Irish Friendly Society, but it was only partly successful. Mr. Nannary represented Brooks ward as councillor in 1876, but declined reelection at the end of his term. He is buried in the cemetery of St. John for the Pacific Coast about 1880 and there he had since resided.

The following telegram was received today from Hon. J. D. Hazen by the Retail Merchants' Association:—

DAVID B. MAYES DEAD

The death of David B. Mayes, a well-known resident of the North End, took place at four o'clock this morning at the age of seventy-nine years. Mr. Mayes was born in Gagetown, but had lived in St. John practically all his life. For fifty-five years he was with D. D. Giesler & Sons as engineer on their river craft, and was a familiar figure on the river. He retired about four years ago after suffering a paralytic stroke, and his death was due to the ill-health which has followed from old age. He is survived by his wife, two daughters by his first marriage—Miss Eliza M. and Mrs. F. Olive of Boston—and by his second marriage two sons—Charles W. and Roy D. at home, and one daughter, Mrs. R. H. Carr of this city. The funeral will take place on Thursday afternoon from his late residence, 184 Main street.

THE FAMOUS MARCH OF THE OLD 104TH

Of the famous exploit of the old 104th Regiment, which was the first to go, I think, in the winter of 1814, via New Brunswick to Canada, followed by the King's Own. This march was accomplished on snow-shoes, the men being obliged to haul their own provisions on toboggans. Only one man was lost on that trying line of march, and that was by the accidental falling of a tree. No extra clothing was given to those dashing fellows, but it is known to me—and he it written to their revelling crew—that the good folks of Fredericton, N. B., presented each member of the corps with a knitted Welsh wig, before leaving for their forest trip.

POLICE COURT

In the police court this morning John Berry was charged with begging from door to door in Douglas avenue. He denied the charge and Sergeant Smith gave evidence. Magistrate Ritchie sent him from the court warning him that he would have to get out of the city.

EVIDENCE AGAINST LEONARD KINGSTON

Evidence against Leonard Kingston and George deForest, two young men who were arrested on suspicion of stealing a cross-cut saw from Walter Wilson, was heard after, and the case was set aside for additional witnesses. DeForest pleaded guilty, but Kingston denied the charge. Evidence was given by the complainant and by Detective Barrett and assistant Detective Briggs. Magistrate Ritchie did not give judgment in the Kingston case, as he has not yet completed going over the evidence.

BIRTHDAY GIFT

The home of Mrs. R. A. Walsh, Camden street, was the scene of a pleasant gathering last evening when several ladies and gentlemen called, in the form of a surprise party, and presented to her daughter, Miss Florence, a beautiful gold necklace on the anniversary of her birthday. A most enjoyable evening was spent with games and music, and refreshments were served.

A Promise To Pay

When a manufacturer advertises his goods in this newspaper he is giving a promissory note to dealers. He is promising to pay those who co-operate with his newspaper advertising. He is promising more customers and increased sales to the storekeepers. It is only business sense on the part of the retailers to show the goods and push them at the time they are being advertised in the newspapers.
