THOS. W. FLETT, NELSON. Going out of the Business.

W. T. HARRIS. 107, WATER STREET, CHATHAM, N. B.

had the Bishop written in that severely affectionate and episcopal style? He had intended it as an admonition, and the excuse was false. So thought the Doctor, and comprised all his criticism in the one sentence...

"I do not quite understand you," said the Bishop. "What is the matter? The Bishop did a foolish thing in talking of the metropolitan press. But he had only meant to put you on your guard."

"I am not sure that I have done so," said the Doctor. "I am not sure that I have done so. I am not sure that I have done so. I am not sure that I have done so."

General Business.

WORTH A GUINEA

A BOTTLE, SHARP'S BAGMAM OF HORNHOUND... CROUP, COUGHS, & COLDS. 60 - YEARS - IN - USE. PRICE 25 CENTS.

CHATHAM, N. B., APRIL 23, 1896.

A Few Comparisons.

The Northern News appears to be chiefly noted to tear over the condition it pretends to believe the country is in because of its public debt.

"STANDARD DOLLARS AT HOME"

"Under the above head the London Advertiser furnishes its readers with the following brief, but suggestive statement of the debt of Canada and the amount that the hard-working taxpayers of the country, who find it difficult to make both ends meet, have to contribute to meet the interest."

The News proceeds to reproduce some figures from the Advertiser, the principal object of which is to show that Canada pays interest on its debt at the rate of \$1,000 an hour. Well, what if it does! Before we jump to the same conclusion the News jumped at it would be well to consider how Canada compares with other countries in the matter of debt and taxation and, whether the party who would cry out in if we "returned the bootlickers out," are not, from a debt-contracting point of view, the worst of the two.

A country's debt is a heavy or light burden, as may be determined by its ability to carry it, and that, in turn depends upon the debt's nature, the grade of population and the value of the population as creators of wealth. Grit papers may repudiate the idea, but we believe Canadians are not inferior, in this latter respect, to the average of other civilized peoples. If they are not, and if they do not owe more per head than others, or in fact, owe less, it follows that the cry of blue ribbon and "turn the bootlickers out" because we have a debt is a cheap and childish way of endeavoring to create political capital.

Adopting this as a fair argumentative basis we give a little list of countries having public debts, showing, in round numbers, what they amount by the per capita test, which is the only true one. Some of them pay interest not at the rate of \$1,000 an hour but \$10,000!

Table with 2 columns: Country and Debt per head of Population. Includes entries for Canada, Great Britain, France, etc.

The foregoing are British colonies, or dependencies. Great Britain—which is our highest and best model—has a public debt of \$84 per head; France over \$155 per head, while Austria-Hungary, Spain, Greece, Italy, The Netherlands, Belgium, Portugal, Egypt, and other countries of the old world far more per head of their population than we do. The same is true of Argentina, Peru and Uruguay in South America. Why then should Canada, which owes less per head than any of all these countries—be represented by a certain class of its own papers as on the verge of ruin.

Another fair consideration in connection with the public debt is public tax—that is, what the people are called upon to pay per head into the public revenue. Let us see how we stand in Canada in comparison with some other British countries in this regard. Here are some of them: Canada, pays per head \$ 5.91; Mauritius, " " 6.30; Newfoundland, " " 6.51; New Zealand, " " 6.55; Barbados, " " 6.55; Newfoundland, " " 6.55; Bermuda, " " 8.48; United Kingdom, " " 9.47; New South Wales, " " 12.18; Western Australia, " " 12.40; South Australia, " " 13.67; Tasmania, " " 14.29; Queensland, " " 16.03; New Zealand, " " 16.73; Queensland, " " 17.82; Western Australia, " " 24.12.

What a wail would go up from the papers of the foregoing countries if they were "calamity howlers" of the News type!

In reference to the cry of "turn the bootlickers out" because the debt of Canada has been increased, the absurdity of it will be manifest when it is applied in this way—that if we are to measure a party's "bootlickism" by the ratio in which the public debt is increased under its rule, then the Mackenzie government were the greater sinners, for they increased the net debt at the rate of \$8,102,721 a year during their regime, while the yearly increase since that time has averaged less than \$7,000,000. No intelligent and unbiased person will claim that the Mackenzie government should be censured because the net debt of Canada was only \$99,548,462 in 1873, but had risen to 140,369,069 in 1878—the year they went out of power—nor is it well known that they were engaged in carrying on public works of great importance to Canada, works which were essential to its development. The present Government has had to do the same thing during the eighteen years since. In 1884—5 and 6 they increased the net debt by \$64,692,392 but those were the years in which great obligations were incurred on account of the Pacific Railway, for rapidity and thoroughness of construction and the material national development which it promoted, pushed the Dominion to a foremost place amongst the progressive countries of the world. Obligations must be con-

tracted for railways, canals, piers, and other works necessary to build up the country and equip it for carrying on its business and maintaining its commercial advantages, and those who go about whining over the fact that we have a debt, instead of considering and giving our public men of both parties credit for the great results which have been achieved through the expenditure of the money borrowed, are worse than children. It is this whining over a deplorable condition of the country, which does not exist, but is the constant burden of the Laurier-Cartwright cry, simply because they think the people will be induced to believe in it and vote them into power, that has disgraced the best Liberals of the country, and led them to leave the Grits in the political slough of despond they have created for themselves. Well-informed Canadians know that their country is amongst the most prosperous and best governed in the world, the proof of which is sufficiently furnished by the fact that Canada's credit never stood lower in the great financial centres of Europe than it does at the present time and that its securities are sought at as low a rate of interest as those of the most favored borrowers. The News will, therefore, bring itself more in line with the people of New Brunswick if it will engage in some better occupation than that of reproaching and approving of the jeremiads of the London Advertiser and other papers of its class. We should study the condition of the country for ourselves, and not be so ready as the News is to accept and endorse the political clap-net sent down to us from the Ontario and Quebec Grit papers, which originate in ignorance and respect for the policy in 1891 and has placed it with that of calamity howling in 1896.

Prorogation!

Dissolution!

Election!

A despatch to the ADVANCE from Ottawa says prorogation is to take place to-day, Thursday, dissolution Friday, nomination June 16th and polling twenty-third!

A Lost Cause.

New Brunswick Liberalism is about killed-off. Under the old Liberal Party, New Brunswickers were generally dominant in the public affairs of the country. Those of our public men who have become Grits instead of Liberals, but who still cling to the delusion that they are Liberals—appear to be contentedly huddled and unresentful under the domination of the public affairs of the country. Those of our public men who have become Grits instead of Liberals, but who still cling to the delusion that they are Liberals—appear to be contentedly huddled and unresentful under the domination of the public affairs of the country.

Prohibition in Politics.

The prohibition convention held here last Thursday was remarkable neither for numbers nor enthusiasm. Owing to the exact notice given, many sound temperance men were not present, and some who were present were voted down in endeavoring to obtain some broader ground of political action than the narrow pathway along which the new extremists have to tread. It is unfortunate that the movements of this nature which have for their object the betterment of mankind, should be placed in the hands of a set of men whose political and moral horizon has been narrowed by early prejudices and limited contact with life and its practical conditions and sympathies, that there is no room for those who might make the organizations a power for good.

The great danger threatening the state to-day is political impurity. It is the duty of every good citizen to do all in his power to lessen this evil.

Run and money are considered and employed as necessary factors in every election contest.

This state of affairs is not approved of by the majority, but is being so organized and conducted that it is not likely to be stopped.

The London Times has graduated scale of prices for the publication of these notices; thus for "The beautiful, accomplished and also her exquisite misdeed," or "that famous leader in 'fashionable society now,' the price is a guinea a line, while plain 'Miss Sue Adams' and modest 'Mr. Yards Styke' get off for a shilling. I have been constrained to make this explanation by a friend of the 'Daily Gossip' in the Boston Globe, who has illustrated a paragraph of more than 67 lines I have informed that at the horse show on Monday, Mrs. John L. Gardner looked uncommonly well in a new toilet. Her gown was a soft white silk with a narrow black stripe. A quality of fine lace gave it a bluish tinge when she remained in the glare of the limelight. Her dress was a bit of a bit, being a battery-shaped affair of indescent with a spray of wild roses towering from the centre of the crown. Reading in the Boston Globe, I have learned that on Tuesday evening Mrs. John L. Gardner witnessed the performance of Magna from a balcony seat at the Boston museum, while in another paragraph it is told that 'on Tuesday evening Mrs. John L. Gardner's box at the horse show was occupied by Miss Sargent who entertained a party of young friends, and sat further on, that Mrs. John L. Gardner was an interested auditor of the Zebulon concert Tuesday afternoon and Tuesday evening.' It is all 'Nay' by long odds, but the entire performance of Mrs. John L. Gardner's box at the horse show on Tuesday evening, Mrs. John L. Gardner arrived shortly after 12 o'clock and was immediately escorted to the throne of the calf, and for her special enjoyment Mr. Wallace De Lande came to the front of the stage. Mrs. Gardner wore a Turkish costume of dull green satin, bordered in gold and studded with jewels. She wore a pale green and gold headscarf, and her face veiled, was thickly studded with jewels. While she remained she received no end of attention, and was observed of all. I am not yet done with Mrs. John L. Gardner. The Globe says in another paragraph 'on Thursday evening Mrs. John L. Gardner entertained a party of young friends at the horse show, and in another column Mrs. John L. Gardner says: Mrs. Gardner looked uncommonly well. Her gown was a pale blue and green lace on a fashion which set off her figure to perfection. The only ornament was a collar of rare point lace. In this piece were a number of turquoise and diamond ornaments.

The Mayorcy.

It is understood that Hon. Mr. Snowball, will, at the continued solicitation of leading citizens, who, month ago, who desired him to allow himself to be chosen as the first Mayor of Chatham, accede to their wishes. When he was absent in England, two or three gentlemen, for ulterior purposes, started a requisition for another very popular man, assuring those whose signatures they solicited that Mr. Snowball would not accept the position. This action has, of course, complicated the matter somewhat, but considering the importance of the in-

terests involved and the necessity for having the organization of the town in the hands of our most experienced men, there ought to be no difficulty in the mind-undoubtedly being amicably settled. If the gentleman for whom the requisition was got up, under the circumstances stated, has a desire to participate in civic management—and men of his high character and position are certainly the most desirable for the work—he should return as an alderman for the ward in which he lives at this election, and by the majority at the next—when he would have the experience any man who is now representative possessor of the requisition should find in the duties of an alderman assumed. Let the friends of Senator Snowball and Dr. J. B. Benson, or the gentlemen, themselves, arrange the matter, for it would be very undesirable that there should be any contest over the mayorcy.

Beaver Harbor.

Beaver Harbor, in Charlotte County, is reported to have been visited by a good deal of importance to the men who go down to the sea in March. During the year ending 31st of March last it afforded refuge for 427 sailing vessels and 17 steamers.

It is reported that a second forged check for \$2000 has been traced to the Bank of British North America by Dr. J. E. March has been the sensation of the week. At the investigation yesterday Dr. March was on the stand, but about all the information got out of him was that he recalled the check in question. It is stated that the check was issued by a man named, whose name he declined to disclose. He will be called to the stand to do before the whole investigation is finished, or to go to jail for contempt. It is thought the mystery surrounding this case will be cleared up before it is ended.

A Lost Cause.

New Brunswick Liberalism is about killed-off. Under the old Liberal Party, New Brunswickers were generally dominant in the public affairs of the country. Those of our public men who have become Grits instead of Liberals, but who still cling to the delusion that they are Liberals—appear to be contentedly huddled and unresentful under the domination of the public affairs of the country.

George S. DeForest & Sons report considerable activity in the market. Ontario flour is ten to fifteen cents higher; beans are fifteen and an southerly wheat are a few cents higher. It is reported that a second forged check for \$2000 has been traced to the Bank of British North America by Dr. J. E. March has been the sensation of the week.

St. John Letter.

"PUBLIC PERSONAL"—THE MARKET—GENERAL NEWS NOTES. The uninitiated are apt to look with a good deal of awe and some envy upon people as Mr. Braine Lease and Cartwright and the other members of the Legislature. It is not true that they are so much to be feared, but they are so much to be respected. It is not true that they are so much to be feared, but they are so much to be respected.

IN MEMORIAM.

Rev. John Samuel Knight died at the Hotel Dieu Chatham a few minutes after midnight on Thursday morning last. He was born on the 15th of July 1804, at Bathurst, N. B., where his parents resided before removing to Chatham in 1816. He was a member of the Christian Brethren which he had charge of St. Michael's College. In 1883 he was sent by the Bishop to Urban University of the Propaganda, where he became ordained as a priest, and was appointed pastor of the parish of St. Michael's College. He died on the 15th of July 1896, at the age of 91 years.

Mr. Clarke Wallace vs One of His Brethren.

The divergence of sentiment amongst leading Orangemen respecting the Remedial Bill, which was so hotly opposed by Mr. Clarke Wallace, M. P.—the Orangemen, in the House of Commons in the following speech, delivered on 31st ult. Mr. Clarke Wallace said: I did not intend to say a word in this debate, were it not for the fact that I have a personal acquaintance with one of the members of the Orange Order, Mr. Wallace, who has been the greatest enemy of the Orange Order since the year 1855, he was in the House of Commons in 1855, and he was the greatest enemy of the Orange Order since the year 1855.

Parliament a Sobor Body.

Mr. Emerson Coatsworth, jr., member for Toronto Centre, and a total abstainer, has added his testimony to that of several prohibitionists given in the House as to the sobriety and dignity of the present parliament at Ottawa. Mr. Coatsworth has addressed the following letter to the press: The Protestant Ministerial Association of Montreal and the Rev. Mr. McKay, of Woodstock, Ont., have recently made a statement on the morality and sobriety of Parliament which ought to be corrected, as they are quite misleading and very injurious to the true fact.

dead last Wednesday with a bullet hole through his head, is supposed to have committed suicide. There are four steamers, four barques, two brigantines and 36 schooners in port awaiting to be towed to the wharf by the riggers. Steamer Lake Superior arrived from Liverpool and Steamer Warwick sailed for Glasgow yesterday.

Run and money are considered and employed as necessary factors in every election contest.

This state of affairs is not approved of by the majority, but is being so organized and conducted that it is not likely to be stopped.

The London Times has graduated scale of prices for the publication of these notices; thus for "The beautiful, accomplished and also her exquisite misdeed," or "that famous leader in 'fashionable society now,' the price is a guinea a line, while plain 'Miss Sue Adams' and modest 'Mr. Yards Styke' get off for a shilling. I have been constrained to make this explanation by a friend of the 'Daily Gossip' in the Boston Globe, who has illustrated a paragraph of more than 67 lines I have informed that at the horse show on Monday, Mrs. John L. Gardner looked uncommonly well in a new toilet. Her gown was a soft white silk with a narrow black stripe. A quality of fine lace gave it a bluish tinge when she remained in the glare of the limelight. Her dress was a bit of a bit, being a battery-shaped affair of indescent with a spray of wild roses towering from the centre of the crown. Reading in the Boston Globe, I have learned that on Tuesday evening Mrs. John L. Gardner witnessed the performance of Magna from a balcony seat at the Boston museum, while in another paragraph it is told that 'on Tuesday evening Mrs. John L. Gardner's box at the horse show was occupied by Miss Sargent who entertained a party of young friends, and sat further on, that Mrs. John L. Gardner was an interested auditor of the Zebulon concert Tuesday afternoon and Tuesday evening.' It is all 'Nay' by long odds, but the entire performance of Mrs. John L. Gardner's box at the horse show on Tuesday evening, Mrs. John L. Gardner arrived shortly after 12 o'clock and was immediately escorted to the throne of the calf, and for her special enjoyment Mr. Wallace De Lande came to the front of the stage. Mrs. Gardner wore a Turkish costume of dull green satin, bordered in gold and studded with jewels. She wore a pale green and gold headscarf, and her face veiled, was thickly studded with jewels. While she remained she received no end of attention, and was observed of all. I am not yet done with Mrs. John L. Gardner. The Globe says in another paragraph 'on Thursday evening Mrs. John L. Gardner entertained a party of young friends at the horse show, and in another column Mrs. John L. Gardner says: Mrs. Gardner looked uncommonly well. Her gown was a pale blue and green lace on a fashion which set off her figure to perfection. The only ornament was a collar of rare point lace. In this piece were a number of turquoise and diamond ornaments.

The Mayorcy.

It is understood that Hon. Mr. Snowball, will, at the continued solicitation of leading citizens, who, month ago, who desired him to allow himself to be chosen as the first Mayor of Chatham, accede to their wishes. When he was absent in England, two or three gentlemen, for ulterior purposes, started a requisition for another very popular man, assuring those whose signatures they solicited that Mr. Snowball would not accept the position. This action has, of course, complicated the matter somewhat, but considering the importance of the in-

Beaver Harbor.

Beaver Harbor, in Charlotte County, is reported to have been visited by a good deal of importance to the men who go down to the sea in March. During the year ending 31st of March last it afforded refuge for 427 sailing vessels and 17 steamers.

A Lost Cause.

New Brunswick Liberalism is about killed-off. Under the old Liberal Party, New Brunswickers were generally dominant in the public affairs of the country. Those of our public men who have become Grits instead of Liberals, but who still cling to the delusion that they are Liberals—appear to be content

THE MYSTERY OF MR. AND MRS. PEACOCK.

Continued from last page.

"They were on the steamer together for about twenty-four hours, during which time they were very friendly. Mr. Peacock could understand him well..."

"How can I find the groves?" I asked. "There's a chap name Burke at Johnson's..."

"Yes, I had heard of that man. He was a very peculiar character. I had heard of his name before..."

"I will never repeat it. I will never repeat it. I will never repeat it. I will never repeat it. I will never repeat it."

"It was very different." "If you could know, Mrs. Worley, how difficult it would have been to get the and leave him! It was not till he came to me and told me that he was going down to Texas that I knew..."

"I don't know how it would have been. I know how it would be now. I know how it would be now. I know how it would be now."
