PREACHER'S SON SHOT.

CHICAGO, Aug. 26.—David Lindskog, son of Rev. Herman Lindskog,
pastor of St. Angsgarius Swedish Episcopal church for 15 years, was shot
and killed yesterday by Police Officer
Jas. H. Wiley. The shooting took
place within thirty feet of the rectory,
and the minister hearing the shots
rushed out of the house and alded the
policeman to lift his dying son into the
ambulance. The policeman declared
he fired while defending himself
against an attack by a band of young
men who had been in the habit of
congregating at Oak and Sedgewick
streets. Wiley was badly cut and
bruised in the encounter. Seeing that
he was unable to cope with the gang
he drew his revolver and fired. Later three young men, said to have been
companions of Lindskog in the fight,
were arrested.

THE HEATHEN CHINEE.

ROME, Aug. 26.—The illness of Prince Chun, brother of the Emperon of China, who, with a Chinese missionary, has arrived at Basel, Switzerland on his way to Berlin to apologize for the assassination of Baron Von Ketteler, the German minister at Pekin, is said in a despatch today from Basel to be a pretext for delay. The despatch says Prince Chun received orders from Pekin not to proceed, as fresh complications have arisen with reference to the settlement protocol.

UP GOES TIN.

UP GOES TIN.

NEW YORK, Aug. 24.—Since the strike began six weeks age the price of tin plate has advanced \$1.50 and \$2 a box. Since July 1 the increase in tin plate imported at New York on account of the strike has been at the rate of about 10,000 boxes a week. A large amount is known to be afloat, and advance orders have been placed for September and October delivery. The increased demand from this country has advanced the price of tin in England about two shillings a bar, and if the strike is long continued, dealers here say the price will go higher. Shipments are made from England not only to this city, but also to Boston, Philadelphia and Baltimore, and undoubtedly large consignments have also been made to the Pacific ports, where the preserved fruit and canned salmon industries require a considerable amount of this metal.

ST. JOHN STAR.

ST. JOHN, N. B., AUGUST 26, 1901

It is better to take a small paper, filled with the kind of news that is of most interest to you than to take a arge paper filled with columns of long-articles that are of no interest. There is no advantage in taking a large pa-per if it does not contain as much of the news you are interested in as does a smaller one. There is nothing in mere bulk. It is quality that counts. The Star contains more news of in-terest to St. John people than any other evening paper. That is why its circulation is so rapidly increasing.

THE CITY SQUARES.

is not creditable to the city. Because the season has been a dry one is no ance. The fact is that no systematic effort is made to keep them in order. They should now present a lovely green surface, that would be a constant delight to all who pass through them On the contrary they look worse than a barren hillside pasture. Of what use is it to have flower beds when the grass around them is left to die? Better to turn the children and the dogs loose in them than to leave them in their present state. It is the duty of the city council either to arrange with the Horticultural Association to have the squares cared for, or make other provision to have them fertilized nto a healthy condition of grass growth, and then see that they are watered when that is necessary. Let us hope that action will be taken this autumn, so that next summer we may have lovely green squares to admire, instead of neglected vacant lots to provoke ridicule.

GLAD TO SEE THEM.

The members of the Press Association, who are in the city today are have had to make heretofore is that our fellow citizens in the west do not come in such large numbers as the summer charms of this region desome from the neighboring states, and the number increases year by year. We are sure that Ontario people are equally delighted when they come this acquainted with any particular localty and its people, in whichever of the three provinces the place may be.

The ladies and gentlemen who are

St. John today have visited P. E. Island and Nova Scotia, and will see the beauties of the St. John river tomorrow. Their tour would have been acomplete without the latter pleasare. The Star trusts that they will all take home with them pleasing recollections of the scenery and climate hereabouts, and of the hospitality of our people. What they have seen of Halifax and St. John will have convinced them that these ports are capable of handling an enormous ocean traffic, and that the claim of these cit-

ter ports is well founded Steamer MAGGIB MILLER will leave Millidgeville daily except Saturday and Sunday at 7.30 and 2.30 a. m. 2, 6 and 6 p. m. Returning from Baywater at 5.45, 8.15 and 10.15 a. m. and 2.45 and 5.15 p. m. Saturday leaves Millidgeville at 4.15 and 2.30 a. m.; 3, 5 and 7 p. m. and what they should say about it to Returning at 5, 7 and 19.15 a. m., 3.45, 5.45 and 7.45 p. m. If they were not members of the keep the rest of the world in order, without essaying the task of keeping each other in the middle of the road. Therefore the Star offers a glad hand to the visitors, with cheerful confidence in their powers of discernment and discrimination. St. John is glad to see them and hopes they will come

THEY LOOK TO CANADA

again.

The American Lumberman is of opin ion that the competition of the pulp-mills is responsible for the unsatisfac-tory condition of the spruce market, from the standpoint of the New Eng-land manufacturer. The competition of the pulp mills has forced the saw mill owners to pay more for their logs and they have not been able, owing to the competition of hemlock and North the competition of hemicek and North Carolina pine lumber, to get a proportionately high price for the manufactured product. The Lumberman thinks relief may be found by lowering the tariff on pulp wood or making an arrangement with New Brunswick and Quebec But New Brunswick and Quebec will have something to say about that. As usual, Uncle Sam looks entirely to his own interest in the matter. Here is what the Lumberman says:—

The worst of the situation is that there is no prospect of relief. The pulp mills are growing more insistent in their demand. They annually consume larger and larger numbers of logs and become more active competitors for the log supply. It is said that they can afford to pay almost twice what the saw mills can, and so

clear lumber. Put another log just like it through the pulp mill choppers and you have a pile of small chips. Note the difference and say if it is not a waste. It is too soon yet to talk about a tariff revision, but if relief shall not come from some source and the spruce number business of that territory seems doomed, it might be well to allow the importation of spruce pulp wood at a reduced tariff or free, by an arrangement with the provinces of 2uebec and New Brunswick, and thus eave to the lumbermen the native prace which they need for the main-enance of their mills.

GASPE OIL WELL OWNERS. They Propose to Boom Canada as a Desirable Place for British Emi-

John A. Walker and Dr. Lee of Dublin and London, respectively, were in Toronto last week. The former is chairman of the board of directors of the oil fields of Gaspe company, and came to Canada to inspect their property, which consists of thirty-four wells and 100 square miles of timber. They want a railway to Gaspe harbor, a distance of thirteen or fourteen miles, and if this can be carried through the company will consider the advisability of constructing large pulp and paper mile. Mr. Walker, says the Toropho Star, is taking extensive notes of his travels, with a view to writing a onto Star, is taking extensive notes of his travels, with a view to writing a book and setting forth the advantages of Canada as an agricultural country. He hopes by this means to draw the attention of the home government to the desirability of aiding emigration to Canada's arable and inviting territory. "You have only 5,600,000 people," said Mr. Walker, "while you have territory to accommodate the surplus population of the British isles. In the congested districts of the British Isles there are hundreds of thousands who might find comfortable and happy homes in your country, and I intend to call attention to this fact in the book which I am writing."

THOMAS CAMPBELL DEAD.

THOMAS CAMPBELL DEAD.

Thomas Campbell, the well known plumber, died very suddenly yesterday forenoon. He had attended 7 o'clock mass, and about 9 o'clock set out for a walk, but feeling ill returned home. Dr. Emery was called and pronounced his case serious. A priest was summoned and the last rites administered, and at 19.26 Mr. Campbell passed away. Mr. Campbell was a native of St. John and a leading plumber. One of his important contract was the plumbing and fitting of the new high school building. Among his surviving relatives are his nephew, Hugh Campbell, aspociated with him in business; another nephew, John McPartland, the bilot, a brother-in-law and two nieces, one residing in this city and another in Boston.

MONTREAL SWEAT SHOPS

At a meeting of the rubber clothing At a meeting of the rubber clothing workers in Montreal one night last weak it was stated that the prices paid to women who work on ready-made clothing, in their homes, was insufficient to keep them, and it was only by resorting to other means of obtaining assistance that they could keep soul and body together. The women were often compelled to toll 15 hours a day, or longer to gain a living. The amounts made by girls employed by subcontractors, went as low as \$1 to \$2 per week. A committee was named to make further investigations.

INCUBATOR FOR CHILDREN.

Grey Nunnery, where hundreds of children are received yearly, the Maternity Hospital, and gradually into other such institutions. The incubator is on exhibition at the Pan-American, and it is claimed will save eighty-five per. cent. of the children treated. It has been installed with much success in the Maternity hospitals of Paris, Berlin, and London. One of the doctors interested in having the incubator introduced into the city, when interviewed gave the following description of it:

"The incubator consists of a glass."

the chamber in which the baby lies. A pan of warm water keeps the atmosphere humid, and the amount of moisture is registered by a small hydrometer at one side of the incubator.

"The air in entering strikes against a shield below the cot and is defected downward until it melts the wasm current of air heated by a burner placed outside the case. The temperature is automatically regulated by a thermostat. At the side of each case is a small boiler which holds about two gallons of water. Through the proper throduction of cold water the circulation is controlled in the pipes that heat the incubator in the same manner as is done in the house heated by hot water. A thermometer in front of each incubator gives the actual temperature all the time. The infant is swathed, German fashion, and can be seen clearly through the glass doors and sides of the incubator. The Infant is removed every two hours in order to be fed. While in the incubators the babies generally ile with their eyes closed, and practically the only sign of life is the occasional flutter of the tiny hands."

A DANGEROUS PRACTICE.

On Saturday evening a young lady who was walking along Pond street on her way from the depot was struck on the shoulder and painfully injured by a ball which had been thrown by one of the crowd who play in that place almost every evening. It is only fair to the boys to say that the mishap was purely accidental, and that they were very sorry that it had occurred, but this is not the first time such things have taken place, and ball playing on the public streets should be stopped.

SLIPPERY PAVEMENT.

The wooden pavement on the southern side of Main street, near the corner of Sheriff, is in a dangerous condition for horses. Yesterdey afternoon Mayor Daniel's horse fell there and was slightly injured. The shafts of the wagon were broken. During the last couple of days, while the pavement has been wet, a number of horses have fallen at this particular spot. There is a slight dip there in the blocks, which makes footing rather unreliable.

The principal points about the city were visited and then the party drove around the rocks and the harbor with glimpses of the river, and everything else of interest.

IN NOVA SCOTIA.

IN NOVA SCOTIA.

HALIFAX, N. S., Aug. 25.—The Canadian Press Association had a very busy time of it leaving Halifax Friday afternoon, for their trip through the land of Evangeline. It was late when they reached Digby, and they were up early for a sail on Digby Basin. Fred. Jones, of the government crulser Constance, decorated the vessel and fired a royal salute in honor of his old friends of the press. They visited the historic ruins at Annapolis. They met Hon. J. W. Longley, attorney general, near Paradise, and wondered whether they would ever again meet him there. Then they returned to Kentville and Wolfville and drove to "Look Off," twelve miles away. It was two o'clock Sunday morning when the excursionists returned to Halifax, nevertheless most of them were up early enough today to see the soldiers parade for church, and they greatly admired the smart appearance of the Royal Canadian Regiment. Tonight at 11 o'clock the party left by special train for St. John. They all speak in the warmest terms of the pleasant nature of their trip through Nova Scotia and Cape Breton. IN NOVA SCOTIA.

The St. John and P. E. Island men were especially friendly with each other and the fact that they are rivals in the efficiency competition seemed only to draw them closer together. It was unanimously admitted by the officers in Quebec that no finer artillerymen could be seen in Canada. St. John leads in fire effect, and instead of losing in fire discipline both of these detachments will gain by it. Returns have not yet been officially announced, but it is known that St. John leads in the howitzer practice. This firing was done by battery fire, so that two companies were required to handle the four howitzers. The companies paired off, one and two being together, and three and four. The latter combination proved the better of the two.

The forty pound gun firing is won by No. 1 Co., Charlottetown, A. A. Bartlett, captain; and they also won the shifting competition, the time made being 12 min., 34 sec.

AN ARTFUL SAILORMAN.

AN ARTFUL SAILORMAN.

The police are on the lookout for a man by the name of Sabeans, who is wanted for misappropriating goods. It appears that Sabeans has a playful habit of signing articles on different boats and getting an advance if possible, but whether or not, he generally fails to appear at the required time. Last week he signed on as a seaman on the schooner Sower, but did not get any money from her captain. Then he became an articled seaman on the schooner John Stroup, Capt. Reid, and turned up promptly at the appointed time. Much to the captain's annoyance Sabeaus shortly afterwards disappeared and with him went five dollars, which he had received as an advance. A sailor on the schooner is also mourning over the mysterious disappearance of a suit of clothes, which vanished about the same time as did Sabeans.

The boy must need school clothing. If he doesn't he is an unusual boy, for usual boys always need them. We know the requirements of school clothes—the strain they must stand—the rough usage the active boy gives them. We take the responsibility for faithful wear on our shoulders, and say to you that if the school suit we sell is not right in every way we are here ready and willing to stand the loss and make it good to you.

Our aim is to give the **Best Value** for the money, and this we can do with our **School Suits**.

A PLEASANT HOUR AT JOHNSON'S PIANO WAREROOMS.

the place. Our business hours are from 9 o'clock in the morning to 6 o'clock in the evening, and we would be glad if you could come in and spend a while with us, whenever you can spare the time. If you have a musical ear no doubt you would enjoy listening to one of our staff perform on the "Chickering," "Newcombe," or "Mason & Risch" piano. You know you do not have to buy unless you want to. The principal thing we are after is to make your acquaintance.
