CURREY DIVORCE CASE WAS RESUMED THIS MORNING

Nurse Girl Says Mr. Currey Often Smelt of Liquor—Carpenter Claims He Did Nothing Improper—Mrs. Currey Denies Everything.

The Currey divorce case was resumed before Mr. Justice McKewen in the Equity Court room at ten o'clock this morning. Hon. C. N. Skinner appeared for Dr. L. A. Currey, while A. H. Hamington, K. C., and M. G. Teed, K. C., represented Mrs. Currey.

Miss Mary Graham was the first witness called. She stated she resided in Lakewood, St. John County. She was acquainted with Mr. and Mrs. Currey and had been in their employment as a nurse girl for about two years. The matter of removing the Currey household was talked over a number of times.

During the evidence, Mr. Skinner objected strongly to the giving of evidence regarding the divorce given to Red Head. His objections were over-ruled. "Did Mrs. Currey treat you well?" asked Mr. Hamington, in continuing his direct examination of the witness. "I am sorry to object to the question, and Mr. Hamington agreed to drop the request."

Mr. Skinner raised an objection, and Mr. Hamington put the question again. Continuing, the witness said she had always gotten along nicely with Mrs. Currey.

Mr. Hamington—"Was Dr. Currey sick very often?" "Witness—"Yes."

Mr. Hamington—"What was the trouble with him?" "Answer—"When he came home sick he would smell very strong of alcohol."

Question—"Could he always walk perfectly straight?" "Answer—"No."

To the presiding Judge Miss Graham stated she resided just opposite the city. On her cross-examination by Mr. Skinner, the witness stated she could not remember the date on which she entered the Currey household. She stated she had been in the care of three children. She remained in the employ of Dr. Currey as nurse girl until the child had been born. During the remainder of the examination, the witness showed some slight hesitation in responding to the questions.

The witness stated that Currey would come home late and lay up in bed. Mrs. Currey had requested the witness to keep the children quiet and witness could smell his breath. Witness was in the employ of Currey for two years as a nurse girl and latterly had meals irregular at the household.

To Mrs. Teed, Miss Graham stated that Mrs. Currey had assisted her in the care of the children. On further cross-examination by Mr. Skinner, the witness stated she did not think the Currey household was a household except Victoria Short and herself. This concluded Miss Graham's evidence.

Mrs. Currey then resumed the stand and her direct examination was conducted by Mr. Teed. She did not remember that she had called Currey a coward, but told Currey he should have been a man. She was in the employ of Currey for two years as a nurse girl and latterly had meals irregular at the household.

George H. Clarke entered the room about this time and Mr. Hamington put a motion to have him called. The court granted the request and Mrs. Currey retired for a time.

Mr. Clark said he resided in West St. John and had worked for Currey building a verandah and making improvements at Woodman's Point. He noticed a nurse girl and servant at the Currey home. At a meal Currey had given him some "Whiskey" cheese, and he did not care much about it.

Mr. Teed—"Did you make arrangements for any improper relations with Victoria Short and did Mr. Currey hear you in conversation with her?" The witness responded strongly to this question, calling Currey a liar if he said any such remarks. Nothing of the nature had occurred. Friendly relations had existed between Currey and "Vicky" Short.

At his cross-examination by Mr. Skinner, the witness stated she had no extended conversation with the girl. He had nothing particularly to do with any of the girls. On the completion of the work at Woodman's Point he returned to St. John. "Vicky" Short had made absolutely no impression on the witness. He had heard Currey arguing and swearing with his wife. "I was on the outside looking in," said the witness, "and would not stop the hammer going, but wouldn't hit so hard while I was making the repairs."

Witness was positive that Mrs. Currey did not answer back to Currey during his trade of abuse. Regarding the work done by witness, Mr. Clarke said the job was done to please Currey, not Mrs. Currey. (Continued on Page Nine)

STAR'S AUTO ON ITS WAY TO ST. JOHN

Will Soon Be On Exhibition—The Contest. It is Not a Good Plan to Hold Back Your Votes Too Long.

A telegram from the Canada Cycle and Motor Co., of Toronto, brings the pleasing news that the Russell Touring Car, offered as first grand prize in the Star's big contest, has been shipped and is now on the way. As soon as it arrives it will be placed on exhibition and it is safe to say it will create much interest as to who the winner will be.

The announcement of an increased scale of votes in yesterday's paper has brought joy to the hearts of many candidates in The Star and Sun's great Contest. All are bent on making the most of this opportunity, which is the best of the whole Contest. At no other time will it be possible to secure as many votes on subscription as during this period.

What the Candidate Should Do The utmost diligence should be used by every candidate to get all the subscriptions possible within the next two weeks. These are your harvest days and you should lay up a fine reserve of votes to use in the end.

It is not a good plan to hold back all that you have. Make a good showing on the list before you begin to lay aside your votes. The best rule in the Contest is pretty much the same as in dressing, which of course every one understands. While it is advisable to make always an attractive appearance, it is bad taste to be so noticeable that everyone says, "What look I bet she puts every cent she has on her back."

In the same way, you want to appear in making the contest as much as your friends may see that you are working, and not likely to fall behind in the race. It is better to be seen working and putting everything you have to the fore just to create a sensation, and do nothing to fall back upon when you may need it badly.

Believe in Yourself A great thing for candidates to cultivate is self-confidence. There is no reason for you to be afraid of anyone. Remember that in this Contest, no one has any way of telling what another's reserve force may be, and the very person whom you regard as your chief rival just as much as you are, for fear that you may have such a reserve force, may be just as ready to do so.

Have you joined the "Boosters"? It is time to get busy if you expect to have some real fun out of this contest. It's fun to pick out a candidate whom you think will win, and then to turn in and help to make that candidate a winner. Save the coupons and see to it that your subscription is paid and the votes given to your favorite. Don't lose any time in seeing your friends and getting them to subscribe for The Sun and Star, and cast their votes for your candidate. Show them how much they can help by paying their subscription this week. Be a Booster. You will enjoy the contest as much as some of the candidates, if you can be of assistance to some worthy contestant.

The Special Coupon Vote The way to secure a Special Vote Coupon is to secure the subscriptions of your friends, payable in advance. It costs the subscriber not one penny extra to do this, and besides, he is saved the annoyance of weekly and monthly collections.

The order for the prize that you have won will be given you at the close of this contest, and may be used by you or disposed of in any way you see fit.

Candidates will bear in mind that The Sun and The Star cannot be sent by mail in the City of St. John.

(Continued on Page 9)

MEDALS PRESENTED TO HAND BALL CHAMPIONS

Harry Alexander and Hedley Hipwell have received two handsome engraved silver medals from W. B. Tennant for successfully leading premier honors in the recent handball league in the Exmouth Y. M. C. A. The medals were given by Mr. Tennant in appreciation of the interest displayed in the sport.

The winners demonstrated themselves well up in the science of the game. It is quite probable another league will be organized next winter.

RIVER COMMISSION TAKING EVIDENCE AT FREDERICTON

Acts Relating to Driving Companies Submitted—Lewis H. Bliss Tells of Difficulties of Low Water-Driving.

FREDERICTON, N. B., July 29.—The St. John River Commission met at ten thirty this morning in the Supreme Court chambers with all the members present. Nearly the entire forenoon was taken up with the reading and putting in evidence of the various acts of legislature relating to the Fredericton Boom Company and the St. John River Log Driving Company. An act incorporating the boom company, passed in 1884, was submitted by Mr. Gregory, counsel for the Canadian commissioners. He also submitted an amendment passed at different times defining the powers vested in the company. The act incorporating the St. John River Log Driving Company passed in 1888 was next put in evidence after a brief discussion. Mr. Gregory explained that all operations on the river could become members of the company by filing a statement before the annual meeting of the quantity of lumber they expected to drive during the year.

He admitted, in reply to Mr. Fellows, that the company had the exclusive rights to drive all the logs between Grand Falls and the boom limits, and also on the Aroostook River from a boundary line. This, of course, cannot apply to rafted logs.

Lewis H. Bliss informed the commission that people living along the river had the same right now to raft logs as they had before the inauguration of the Boom Company and the St. John River Log Driving Company. An act passed in 1897 authorizing the transfer of property of the Fredericton Boom Company to the St. John River Log Driving Company was put in evidence as also was the act passed last session consolidating various acts relating to both companies.

Mr. Bliss was examined by Mr. Gregory in regard to the company's operations and the condition of the river between Grand Falls and Fredericton. He said the hardest places to drive logs were at the White Rapids, at the mouth of the Aroostook and at the river. The river was rocky at these points, and in low water the logs had to be dragged over. When the river at Fredericton is a foot below low water it would be six inches below at Aroostook. The water falls at the rate from the highest pitch in June. It was of a foot every twenty-four hours in spring just as soon as the ice went out. The highest pitch of water occurs here about the first of June. He was familiar with the river between Grand Falls and Fredericton. There was a number of places where the company found it necessary to maintain sheer booms. Driving for the company up to last year had been done by contract.

MONTEAL WILL FIGHT FOR CLEAN GOVERNMENT Citizens' Organization Will Engage Detective to Ferret Out Graft

MONTEAL, Q., July 29.—Pearing that the Royal Commission will not meet desirable, as the City Council is likely to whitewash the aldermen and officials who are shown to be guilty of graft, the Citizens' Association is forming a permanent body and will engage United States detectives who are not known here to work into the inside of the graft and then take criminal action in the courts. The intention is to organize a clean Montreal campaign, such as the recent one in Philadelphia.

WEDDINGS. MACRAE-WOOD. A quiet wedding took place this morning at the residence of Mr. and Mrs. Geo. Wood, 300 Rockland Road, when their daughter, Cora D. Wood, was united in marriage to Mr. Austin D. Macrae, of Newtonville, Mass., by the Rev. Gordon Dickie. The ceremony was performed at the Star Line hotel for a short trip to Fredericton. On their return they will leave by the Eastern Steamship Line on Tuesday, August 3rd, for Newtonville, where they will reside.

ROACH-ESTABROOKS. At the home of Mr. and Mrs. David Estabrook, Middle Sackville, yesterday afternoon, the marriage took place of Mr. and Mrs. Estabrook's daughter, Mrs. Janet M., to Charles Roach, contracting engineer of the Ilobb Engineering Company, Amherst. The ceremony, which was witnessed by a number of guests, was performed by Rev. N. A. Macneil, pastor of Main street Baptist church here. The parlors in which the ceremony was performed, were prettily trimmed with flowers and plants. The bride was attended by her sister, Miss Alida Estabrook, of Ottawa, as bridesmaid, while groomsmen were Frank Roach, of Macca, and Charles Roach, of Amherst. The wedding march was played by Miss Emma Roach, cousin of groom. The bride was charmingly gowned in white silk, eodem trimmed with duchess satin, and carried bridal bouquet. The bridesmaid wore reseda green silk. After the ceremony luncheon was served.

Mr. and Mrs. Roach will spend their honeymoon in Nova Scotia.

Lively interest centres in the baseball match this evening between the Brooks and Paterson and Vassle and Co. clubs for the leadership of the Commercial League. The match will be played on the Victoria grounds and should attract a large number of fans.

The funeral of the late Miss Maria Thompson was held this afternoon at 2:30 o'clock from her father's residence, 419 Haymarket Square. Rev. Mr. Lodge conducted the service with the assistance of the Salvation Army. Interment was made in the Methodist burial grounds.

McAvitt's baseball team will play the Hampton Village team at Hampton on Saturday afternoon.

LONDON, July 29.—The rate of discount of the Bank of England remained unchanged today at 2 1/2 per cent.

A very interesting marriage is to take place at the Salvation Army canteen on Charlotte street this evening at 8 p. m., when Ensign March and Capt. White will be united in marriage.

Miss Josephine Jenkins, of 24 Harrison street, who has been spending the past few weeks with friends at Amherst, N. S., has returned home. She is accompanied by her friend Miss Nellie Walsh, who will spend several weeks in this city.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent, free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

Gilmour's advertisement in today's paper gives an idea of the exceptional price reductions offered to reduce present stocks of men's ready to wear clothing to make room for fall goods. Men who want to make their cash go as far as possible would do well to look into these offerings.

A pretty but quiet wedding took place at Silver Falls last evening, when Miss Margaret Elizabeth Armstrong, eldest daughter of Samuel Armstrong of Lakeside, was united in marriage to Frederick Roy Snodgrass of this city. The marriage was performed in the Methodist church in the presence of the immediate friends and relatives. Rev. J. B. Champion was the officiating clergyman.

On Saturday afternoon a sailboat race and a motor boat race, completing the aquatic sports which were held at Brown's Point on the 17th by the Long Reach Outing Association, will be fun for all the former place of meeting. On the Saturday following another day of water sports, arranged by the L. R. O. A., and consisting of twelve events, will be held at the camp ground watering place.

The best tea can be utterly spoiled by exposure to oxidizing influences, as bulk teas so often are. The sealed lead packets of the "Salada" Tea Company give you tea fresh and fragrant from the gardens to the teacup.

Tomorrow and Saturday there is to be a great reduction sale of women's and misses ready-made apparel at F. W. Daniel and Company's, Charlotte street. Wares, consisting of Coats, Suits, Samples of Children's and Infants' Wear, as well as special sale of short ends of Dress Materials at great cut in prices. See advertisement on page five.

EXAMINE THE BOOMS

FREDERICTON, N. B., July 28.—St. John River commission and their counsel spent the afternoon inspecting booms and sorting works at Lincoln and Douglas. They left here at two o'clock in two gasoline launches, proceeding first to Lincoln, where they made a thorough inspection of the Mitchell and Sterling booms.

SUNLIGHT SOAP

Do you know the origin of the word "gladiator"? We'll tell you. Marcus Antonius and his wife were one day for a spin on the Adriatic, and Octavia's, the mother-in-law, was there. The question arose as to what they should call the new fighters in the arena, and Octavia got so abusive about it that she slipped and fell overboard. Now, shades were much larger in those days, and one was ready, waiting, with his mouth open. Marcus rushed to the side just in time to see the last of his mother-in-law. Then, being overjoyed at the kindness of the gods, he cried: "I'm glad he ate her!" Hence the new word for those fighters, and Marcus' first duty on getting back to home was to "call or see 'em," because he had a new name for 'em—"Laudon Scape."

HOUSE CLEANING Instead of being a monotonous drudgery becomes a pleasure when Sunlight helps you. Remember—Sunlight does all the work, at half the cost and in half the time of other Soaps. Follow directions.

HARVESTER'S EXCURSION

THE MIDDLE OF AUGUST

May be Only One—Forty Home-seekers

Go West—American Travel

Disappointing.

This year's farm laborers' excursion over the C. P. R. will be run from the Maritime Provinces on a date between August 12th and August 15th. As yet the exact date has not been fixed, and whether there will be more than one excursion depends upon the drift of travel as indicated by the first.

A crowd of about forty home-seekers were among the passengers on board last evening's Montreal train, westward bound on one of the C. P. R.'s bi-weekly excursions. These have been running for the past four months. Between 400 and 450 persons have taken advantage of them.

The local passenger department officials of the C. P. R. are somewhat disappointed with this year's travel from the United States to Maritime Province points. They declare it is not what it should be. Already the season is beginning to set westward again. A feature of the travel which has become noticeable in that of the decrease in the number of trippers who made a stop in St. John. Formerly most of the province visitors paid here, but they are now an increasing tendency to rush right through.

CLAIMS FOR CARDINALS.

There are Now Seventeen Vacancies in the Sacred College.

ROME, July 28.—Not for many years—indeed never since 1879, when Pius IX., delayed the holding of a Consistory, and his successors have been against the "unpurport" of his States—have there been so many vacancies in the Sacred College as now. The so-called Senate of the Church when at its plenitude consist of 70 cardinals, but this number has rarely ever been reached, as it is customary to leave several seats vacant, in order to make room for the promotion of the Pope, his successor should have some red hats at his immediate disposal.

At the present moment the cardinals are only 53 in number, 33 of whom are Italians, and 20 foreigners, and the desire of many countries to be more fully represented in the highest body of the Roman Catholic Church is very keen. Some nations complain that they have been neglected lately, and England is chief among that number, as since the death of Cardinal Vaughan in 1903 she has had no cardinal in her own right, and secondarily only by the fact that Ireland not only has one of her own, but also one of Cardinal Logue, Archbishop of Armagh, but has also two other cardinals of Irish origin, viz., Cardinal Gibbons, Archbishop of Baltimore, and Cardinal Moran, Archbishop of Sydney.

Until lately England claimed only one cardinal, and it has been much discussed at the Vatican whether the honor would fall on Mgr. Bourne, Archbishop of Westminster, or on Abbot Gasquet, the superior of the abbey of Down. The Pope has entrusted the great work of the revision of the Vulgate, but it is now frequently suggested that the vacancies being so numerous, both these prelates should be raised to the purple.

Canada also makes her voice heard, complaining that she has been even longer without a representative. In fact, ever since the death, in 1895, of Taschereau, her first cardinal. The candidates there are also two in number: Mgr. Bruchési, the young, enterprising archbishop of Montreal, and the old Archbishop of Quebec, Mgr. Bégin, who is the doyen of the Canadian episcopate.

The greatest and loudest complaints however, come from the United States, from whence, with through American system, not only the clergy and the laity, but even Protestants address themselves to the Vatican urging that a country like theirs is entitled to more than one cardinal. They point out that they have over a hundred dioceses; and that, adding to the fourteen million Roman Catholics of the United States, those of the Philippines, of Porto Rico, and Guam, they constitute the fourth Roman Catholic power in the world, coming immediately after France, Italy and Austria. Why then, they ask, should Spain, with only eighteen millions of adherents, and with comparatively less influence in the world, have from five to seven cardinals, and America only one?

THE GLADIATOR.

Do you know the origin of the word "gladiator"? We'll tell you. Marcus Antonius and his wife were one day for a spin on the Adriatic, and Octavia's, the mother-in-law, was there. The question arose as to what they should call the new fighters in the arena, and Octavia got so abusive about it that she slipped and fell overboard. Now, shades were much larger in those days, and one was ready, waiting, with his mouth open. Marcus rushed to the side just in time to see the last of his mother-in-law. Then, being overjoyed at the kindness of the gods, he cried: "I'm glad he ate her!" Hence the new word for those fighters, and Marcus' first duty on getting back to home was to "call or see 'em," because he had a new name for 'em—"Laudon Scape."

HOUSE CLEANING Instead of being a monotonous drudgery becomes a pleasure when Sunlight helps you. Remember—Sunlight does all the work, at half the cost and in half the time of other Soaps. Follow directions.

BOSTON DEFEATS THE HIGHLANDERS

Little Trouble Hitting Two Pitchers

SCORE 8 TO 2

New York Makes It Three Out of Four With Nationals

NEW YORK, N. Y., July 28.—(American)—Boston had little difficulty in defeating New York, 8 to 2 today, hitting Warhop and Lake when hits meant runs. Arrellans generally was master of the local when men were on the bases and received fast support. Score: Boston, 8; New York, 2. Batteries—Arrellans and Donnelly; Warhop and Lake when hits meant runs. Arrellans generally was master of the local when men were on the bases and received fast support. Score: Boston, 8; New York, 2. Batteries—Arrellans and Donnelly; Warhop and Lake when hits meant runs. Arrellans generally was master of the local when men were on the bases and received fast support. Score: Boston, 8; New York, 2. Batteries—Arrellans and Donnelly; Warhop and Lake when hits meant runs.

FIRST GAME ON SATURDAY

Baseball Clouds Disappear

ARRANGEMENTS MADE

Agreement Reached Between the Clubs Last Night

The clouds which lowered over St. John baseball circles for the past few days have been dispelled and everything is now peaceful. The championship series of nine games between St. Peter's and the Marathons opens Saturday at 3 p. m. on the Victoria grounds, when the two teams clash in the first game. Arrangements for the series were completed last night, when an agreement was reached between representatives of the two clubs on the bases alternately. During the series the double umpire system will also be used. The umpires will be Daniel Connelly and James McAllister. Each umpire will act as umpire on the bases alternately. The series will be decided on Friday upon their official.

MARATHONS DEFEAT OLD TIME RIVALS

Lively Game Yesterday Afternoon

SCORE 6 TO 5

The Attendance Not Large—McEachern Dons a Uniform

Under the ever efficient management of Charles Tilley, the Greeks pulled out another victory over Manager McEachern's Clippers on the Victoria grounds yesterday afternoon. At the termination of nine innings of close ball-tossing, the Marathons walked home with their opponents' scalps by a score of six to five. Now, the attendance ought to have been larger, only about two hundred fans, and four reporters watching the combats play. The tabulated score and summary is as follows: MARATHONS. AB. R. H. PO. A. E. Ramey, 2b. 5 1 2 5 1 Copeland, s. 5 1 3 3 2 D. Malcolm, l. f. 4 2 1 0 0 Bradbury, 3b. 4 0 0 0 0 Titus, 3b. 4 0 1 2 0 Clawson, c. f. 3 0 0 0 0 Harrigan, r. f. 4 1 1 0 0 Wagner, c. 4 0 3 1 0 Murphy, p. 2 0 0 0 0 Nesbit, p. 3 0 0 1 0

THREE OUT OF FOUR.

BOSTON, Mass., July 28.—(National)—New York made it three out of four by winning two games from Boston today, the first, 7 to 4, and the second, 4 to 3. The first game went to the visitors by good hitting in the first and seventh innings. The second contest was close and long-lived, with New York winning by opportune hitting. Doyle was put out of the first game and Seymour out of the second, both accidentally hitting the catcher with their bats, a new rule imposing the penalty.

PHILADELPHIA, Pa., July 28.—(National)—Score: Philadelphia, 0; Boston, 12. Batteries—Raymond and Schell; Matern, Ferguson and Graham. Time, 1:56. Umpires, Emalle and Johnson. (Second game.)

NEW YORK, N. Y., July 28.—(National)—Score: New York, 10; Boston, 4. Batteries—Crandall, White and Doyle; White, Tuckey, Ferguson and Smith. Graham. Time, 2:35. Umpires, Emalle and Johnson. (Second game.)

PHILADELPHIA, Pa., July 28.—(National)—Score: Philadelphia, 0; Boston, 12. Batteries—Raymond and Schell; Matern, Ferguson and Graham. Time, 1:56. Umpires, Emalle and Johnson. (Second game.)

DETERMINED EFFORT TO REVIVE ROWING

The O'Leary Crew Out With a Challenge to the Green Boys

RIVALRY KEEN

A determined effort to revive rowing and place that sport in the position it once held in St. John, is to be made. A race between the O'Leary four and that from Green—Head should prove interesting. The rivalry between the two fours is keen and increased by the result of the two races rowed by the crews on Lily Lake last summer.

The challenge is as follows:—Frank O'Leary and his four oared crew of Lower Cove, challenged the Green Boys of Green Head for a race at Seaside Park Saturday evening at 7 p. m., leaving the race open to the La Tour Rowing Association. Should it wish to enter one or more crews. An answer is requested through the columns of the Sun. (Signed) Frank O'Leary, St. John, N. B., July 28, 1909. Thomas who edit.

Synopsis of Canadian Northwest Land Regulations

Any person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader. Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 40 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister. In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre. Duties—Must reside six months in each of three years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres. A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$20.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$200.00. W. W. CORY, Deputy of the Minister of the Interior, N. B.—Unauthorized publication of.

RAILROADS

MR. MCINTOSH TO SEARCH FOR RELICS

William McIntosh, curator of the Natural History Society's museum, is having a very busy summer. Mr. McIntosh returned to the city Tuesday after an expedition in search of specimens for the museum and will leave this morning for Maguapit Lake, to search for Indian relics which are to be found in that vicinity. He will spend a fortnight at Maguapit. After spending two weeks in searching for Indian relics, Mr. McIntosh will meet on Grand Lake a party of boys from New York, which is at present cruising on the St. John River in the neighborhood. This party has been sent to New Brunswick through George Matthews, son of Dr. G. P. Matthews of this city. Mr. McIntosh will conduct the party over country in the vicinity of Grand Lake.

HERO OF TWENTY-TWO BATTLES DEAD

LONDON, July 27—Robert Mills, a Canadian and Indian Mutiny veteran, aged 77, died on Thursday night at Grosvenor Gardens, London. He fought in twenty-two engagements in India, and on his return to Scotland was presented to the Empress Eugenie at Strling Castle.

TWENTY DAYS OF MARRIED LIFE

LONDON, July 27—Mrs. Erna Louise Wright, of Harrogate, Kensington, who obtained a divorce yesterday, was deserted by her husband twenty days after her marriage.

CONCRETE SECTION CAN BE MADE TO ANSWER

Engineer Murdoch on Loch Lomond Water works Extension—Refuses to Place Blame for Leaks—Cost of Repairs to Date \$2,000

The repairs of the concrete section of the Loch Lomond waterworks extension looked large at yesterday afternoon's meeting of the Water and Sewerage Board. Engineer Murdoch stated for the benefit of the board and of Ald. Frink in particular that he felt confident that the concrete section could be made to answer the purpose for which it was needed and that there need be no apprehension that the entire section of concrete would have to be taken out and replaced. The engineer would place no blame for the leaks. His only statement with regard to that feature was that he had never considered concrete to be fit material for water pipes which were to be under pressure. The cost of repairs to date has been \$2,000. There was also some discussion concerning the cost of construction and repairs of catch basins. This was thought to be excessive and Chairman Frink issued a warning that the sewerage maintenance fund was nearly exhausted and a halt in expenditure would soon have to be made. The board dealt also with various items of miscellaneous business. These present Chairman Frink, Ald. Kelley, Ald. Lewis, Ald. Hayes, Ald. Scully, Ald. Christie, Engineer Murdoch and committee clerk. The first item to be considered was a communication from the Intercolonial Railway protesting against the discharge of sewerage from Celebration street through a culvert beneath the I. C. R. tracks. Engineer Murdoch was given power to deal with the matter.

NO CATCH BASINS.

The engineer recommended that no catch basins be placed on Military road, where they had been asked for by Thos. Cogger and others. Ald. Frink stated that the money for sewerage maintenance was being rapidly depleted and a halt would have to be called on the upper part of the basin construction and repairs were concerned. The city of Boston in one instance had a sewerage system which caught basins, but St. John paid out \$900. He stated that the fact that up to twenty-five years ago sewers had been constructed entirely of wood and were continually rotting and collapsing. They were being replaced with permanent work. The water rates of the Russian Cement Company where a leak in the water main had occurred was placed at 25% as the company was not responsible for the leak. The communication that Mrs. Mary Cottery, 32 Brussels street, be paid \$25 for damages caused by a sewer running beneath her property. The engineer recommended that the Francis Kane be paid nothing for damages to the sewerage system from the Robertson dam. Mr. Kane demanded \$900 for damages and offered to sell the property for \$1,000. He stated a communication to the engineer that he would proceed against the city if a reply were not received within ten days. The communication from Mr. Kane was ordered to be filed. A communication from C. A. Clark of the City Fuel Company, Smythe street, was received asking for the catch basin be placed in front of his premises to receive the drip from a stand pipe.

Engineer Murdoch reported that there was no main sewer to take the catch basin. He thought a more suitable location for the stand pipe could be found. The cost of the removal would be about fifty dollars. The communication was ordered to be filed. The engineer Murdoch informed the board that the citizens of Sand Cove road were asking again that they be supplied with water. They were supplied with water by a stand pipe which was supplied with water from the city. The communication was ordered to be filed. Daniel Mullin, K. C., James Brickley and George Carvell appeared before the board. Mr. Mullin stated that he appeared on behalf of James Brickley, who kept a stable on Cliff street, to ask for relief of water rates. The amount due was \$14.04. A charge of \$27 for leakage had been made in 1937. The leak in that case was on the street. It would be a hardship for Mr. Brickley to pay the arrearage incurred in the lifetime of his brother, David Brickley. Ald. Frink stated that if it could be shown that there was a leak there he thought leniency might be shown.

REFERRED TO ENGINEER.

The matter was referred to the engineer and chairman report. In response to a query from Ald. Kelley, Engineer Murdoch reported that repairs to the concrete pipe were being continued and the repair parties were within twelve hundred feet of the wooden section. Nothing new had been discovered. He had always contended that concrete was not a suitable material for a water pipe and it could never be made watertight. The making of the concrete was good as could be reasonably expected. The pipes on West Side were made of sheet iron lined and reinforced with cement. If these pipes were not disturbed they would last for an indefinite period. Ald. Christie—"Was the defects due to bad workmanship on the part of the contractor or to poor engineering?" Engineer Murdoch—"That is a very pointed question. I never thought concrete was a suitable material, and for that reason had nothing to do with the matter." Chairman Frink stated that it was overdrawn to state that the work on

ENJOYABLE NIGHT ON THE ST. JOHN

In the light of a reddish moon, steamer Victoria sailed the river last evening with a party of 400 merry makers whose pleasure was not all marred by the absence from the nightly luminary of its well-advertised silver line. From the time of leaving Indian-town, at 8.30, until the return of the Victoria at 11.55, dancing was continuous. For the Scotch reel, the Highland ring and the schottisch, the pipers furnished music, while the violin served the same purpose for those dancers whose tastes were more Teutonic.

AMUSEMENTS

H. & B. IN JAPANESE NOVELTY AT NICKEL

One of the prettiest selections yet presented by Holmes and Buchanan will be today's duet from the American-Japanese comic opera, "The Show-Girl," which has had a phenomenal run in United States and Europe. Besides this Mr. Buchanan will sing a high-class solo. Master Pat Harrington, who has been ill, will return to wind up his engagement with the song, "O'Reilly," with special numbers each day following. On Saturday Pat will bid farewell to his little friends with several songs. He is to be succeeded on Monday by Little Dorothy Dainty of New York, a pretty wee Miss of nine summers, who sings and dances. The picture bill at the Nickel—as indicated in the regular column—is causing a lot of favorable comment. The H. & B. number today will be elaborately costumed and set, with special Japanese scenery—victoria parlors, etc.

STILL MAKING A BIG HIT.

Another very large crowd attended the Princess last night; and the way they laughed proved beyond a doubt that "The Show-Girl" has caught the town. They have the greatest laughing act on the stage. The excellent tramp and the Golf Girl are bound to make you laugh whether you feel like it or not. The picture programs are simply great—big drama over one thousand feet in length and two good comedy subjects. Professional orchestra every evening.

BENJ. PRICE NEW SENATOR

OTTAWA, Ont., July 25—At a meeting of the cabinet council this afternoon, Benjamin Price of Battledore, formerly a member of the legislative assembly of the Northwest Territories, was appointed a member of the senate to fill the vacancy caused by the death of the late Senator Percy of Woodville, Sask. The new senator has lived in the west for many years, being one of the pioneers in the Battledore district. He is a leading merchant of the town. There are now twenty-one Conservatives to sixty-three Liberals in the senate, with two vacancies in Nova Scotia still to be filled. The Nova Scotia vacancies are of nearly two years' standing.

Last night's meeting of the cabinet, which was attended by the premier and Hon. Messrs. Fisher, Lorrain and King, the only Ministers in the capital, will be the last until the third week in August. Sir Wilfrid goes to Shawinigan on Saturday to spend a week as the guest of the Shawinigan Fish and Game Club. After that he will spend a couple of weeks with Lady Laurier at Athabasca, his old home in Quebec. Hon. Mr. Lorrain will return to his summer home at Murray Bay for the next fortnight and Hon. Mr. Fisher expects to go next month to Seattle Expedition. Hon. Mr. King will remain in Ottawa. Hon. Charles Murphy is expected back from the west early next week. Hon. Messrs. Fleming and Oliver will return from England about August 25th. Mr. Chester Martin, assistant editor of Archives reports, who has been offered the chair in history at Manitoba University, stated tonight that he could not definitely announce whether or not he would accept the position until he had consulted with Hon. Mr. Fisher tomorrow. It is understood, however, that Mr. Martin will resign his position at Archives and take the university chair.

WATERMARKS

They Are Stamped in the Paper by Patterns of Wire. The discovery of the watermark was the result of an accident probably a thousand years ago. It occurred when a man made a mistake in the way in which he poured in a liquid into a sieve. The water dripped through the sieve and the thin layer of pulp that remained was pressed and dried. When dry it was found to have upon it the marks of the sieve that composed the bottom of the sieve. These fibers seem to have been twisted round, and the marks they left on the parchment took the form of wide lines running across and diagonally. In those days the watermark was regarded as a blemish since the deep impression made on the paper proved a drawback in writing. The quill of the scribe found many a yawning gap to cross on the surface of the manuscript—"switback" scripture" it has been termed. But when wire was substituted for fibers in the sieve, says a writer in The Denver Post, the lines of the watermark grew thicker and less conspicuous. The possibilities of the usefulness of the watermark became apparent by degrees. It was first found to be of service in preventing the forgery of books and manuscripts. Many a bogus copy of a rare work has been detected because the counterfeit failed to take into account the watermark of the original. The watermark of many a precious manuscript in the world's museums is in the shape of bank notes and paper money everywhere the watermark is most useful in protecting the notes from imitation. The term "watermark" is in reality a misnomer since the mark is actually produced by wire. Wire is fashioned into the desired pattern, figure or sheet in the last stages of its manufacture and while the paper is still capable of receiving the impression, and the wire device stamps itself into the sheet. In those days the watermark paper held up to the light reveals hundreds of parallel lines running up and down. The fact that the paper was made on a wire foundation. To this the paper owes its smoothness and its even texture.

ALLAN LINE MAY BECOME PART OF TRANSCONTINENTAL

Although Sir Montagu Allan, head of the Allan Line of steamships on this side of the water, strenuously denies that there is anything in the rumor which has been persistently circulating along the "Street" for the past day or so, that the Grand Trunk and Grand Trunk Pacific are about to purchase the Allan Line in its entirety, shipping men generally are of the opinion that something more than usual importance is about to transpire regarding the future of the Allan Line.

From time to time there come out of the West reports regarding a new line going on between two great railway systems, the goal of which is the Yellowhead Pass. Each, it is said, is straining every nerve to be the first to locate and build its line through that famous passage across the Rocky Mountains.

RUMORS FROM GREAT BRITAIN

From England comes yet another rumor, and although it is declared to be made on good authority, it is given here for what it is worth. This is that the Grand Trunk has already effected an alliance with the Canadian Line of steamships, and will next year start a service to Canada in conjunction with that line.

ST. LUKE'S CADETS TO GO INTO CAMP ON TUESDAY

On Tuesday next St. Luke's Cadets will go into camp at Day's Landing on the St. John River. The main body of the Cadets will leave on the day named, but the advance party will go up river on Friday.

THE RACE BY THE RAILWAYS FOR YELLOWHEAD PASS; THE STORY OF AN HISTORIC JOURNEY MANY YEARS AGO

The Yellowhead Pass is not now engaging for the first time the attention of railway builders. Thirty years ago the Canadian Government caused a preliminary survey of the Pass to be made, the intention then being to build through the Pass the Canadian railway which had been promised British Columbia upon its entrance into Confederation. A few years later the railway project was turned over to the present Canadian Pacific Company, and the latter, having selected Vancouver as its western terminus, naturally looked for a more southerly passage through the Rocky Mountains.

THE LINE OF THE GRAND TRUNK PACIFIC

It was only to be expected that the Grand Trunk Pacific Railway would use the Yellowhead Pass. After leaving Winnipeg its line bears steadily to the north until it reaches Edmonton, the capital of Alberta, and the portal of the great hinterland of the Central West.

THE PASS IS HEAVILY WOODED

The Pass is heavily wooded, and the shadow of the forest and still deeper through the rocky peaks, backed by the snow-clad summits of some giants which towered up beyond.

CAME TO A NOTED TRADING POST

Coming to Jasper House, which stood at the eastern entrance to the Pass, they came out at Tete Jaune Cache, a small trading post in its day, and one of the principal avenues of the Edmonton of the present time is named after it.

ACCOUNT OF A FAMOUS JOURNEY

The charming little book of travel in which Viscount Milton and Dr. Cheade give an account of their journey across the Canadian West, in the years 1822-23, bears the title, "The North-West Passage by Land".

SET OUT FROM EDMONTON FOR YELLOWHEAD PASS

It was on June 23rd, 1883, that Milton and Cheade set out from Port Edmonton for the Yellowhead Pass, their plan being to cross the Rockies, enter upon British Columbia and then follow one of the rivers down to the coast.

ENCOUNTERED THE GREATEST HARDSHIPS

It was after leaving the Pass that the travellers suffered the most threatening dangers. Between the Pass and the Thompson River were miles of jagged labyrinth through which they

FIRE DEPARTMENT AFFAIRS NOT LIKELY TO BE PROBLED

There seems to be a feeling now that the investigation of the fire department, which the Common Council will turn down the recommendation of the fire department by Chief Kerr, is the opinion of a large body of citizens that the chief of the fire department should be treated in a manner not so different from that in which any other civic department is treated.

DEATH AT MILFORD

The death of Mrs. John Donaldson occurred at Milford last night about midnight, after a lingering illness.

LIBERAL TARIFF REFORMERS

LONDON, July 27.—The Lewisham Borough News, a Radical newspaper, states in its latest issue: "Twif reform is essentially the type of social improvement which concerns the wage earners of Great Britain, and we are glad to think that its advent is at hand through the votes."

NINETY MEMBERS ENJOY AN OUTING

Ninety members of the Natural History Society tripped to Ingleside yesterday and enjoyed the material hospitality of Dr. G. U. Haz and Mrs. Haz at their charming country home, the while they discussed their monthly energy upon various branches of geological research.

THE SCENERY WAS MAGNIFICENT

The scenery at the Cache the travellers described as magnificent. "The view looking westward," they wrote, "is one of the most wonderful in the world. Away as far as the eye can reach, north, south and west, are mountains packed behind mountains, separated by the narrowest valleys, most of them snow-clad and apparently stretching away to the Pacific."

THE CITY FATHERS THINK THAT THE POWER OF CHIEF KERR IS MADE SECONDARY TO THAT OF THE COMMON COUNCIL

The city fathers think that the power of Chief Kerr is made secondary to that of the Common Council in the present case every disgruntled city employe will be able to have recourse to the aldermen to have any obnoxious order issued by the head of a department countermanded.

HARRY PULLIAM DIED.

TODAY WITHOUT GIVING REASON FOR SUICIDE

NEW YORK, July 29.—Harry C. Pulliam, President of the National League of professional baseball clubs, died at 8:10 a. m. today, after shooting himself through the head in his room in the New York Athletic Club last night. Although a bullet from his revolver passed entirely through his head, severing both optic nerves, and causing instant blindness, Mr. Pulliam lived from 9:30 last night until this morning. He became unconscious soon after the shooting was discovered and was unable to make any statement as to his reason for committing suicide, but it is generally attributed to ill health. Mr. Pulliam was in his office yesterday.

BLUE BEDSPREAD.

India print enters largely into the decorator's scheme for summer cottages. With willow furniture and patterned chairs has come the demand for quaint bedspreads, and in many country homes they are made of chintz to match the long window hangings. Where white curtains have been chosen and where other flowered surfaces have been avoided, the bedspread of blue and white India print will give an air of distinction to the entire room. This material is delightfully cool in weight and in finish, and is one of the best known tub materials. It has been known to wash for twenty years without loss of color; but why should not the far-famed dyes of the Orient outlast our later efforts?

MONTEAL, July 29.—The handicap

McAvity of St. John had to concede to Sergeant of Montreal was too great for the St. John player. He was beaten by 6-8, 6-4, 5-love. The other feature of the day's play was the work of Capt. Foulkes of Ottawa.

It's Fun to be Well—

Leave off coffee—use

POSTUM

hot, or iced with lemon—

"There's a Reason"

CURRY DIVORCE CASE WAS RESUMED THIS MORNING

(Continued from Page One)

Witness denied that he had reported to Mr. Curry that Mrs. Curry had complained to him (witness) about the work.

Re-examined by Mr. Teed, witness said that he was married when working on the Curry house.

Witness said that on several occasions Curry had "yanked" at Mrs. Curry, but did not remember hearing Curry use profanity.

In answer to a question by Mr. Skinner witness denied that his boss, Mr. Tilley, said the work was not progressing fast enough.

At times the witness would anticipate Mr. Skinner's questions and would answer before the counsel was through asking a question. At one time Mr. Skinner remarked: "Witness, you have a splendid indirectness of falling off before you get to the objective point."

MRS. CURRY AGAIN.

Mrs. Curry's examination was then resumed by Mr. Teed. Counsel read part of Curry's testimony regarding the building of a raft. Curry in his evidence swore that he had ordered a raft built, but afterwards admitted it. Mrs. Curry denied this. On this occasion Curry testified that he had called her a liar in the presence of the witness's father.

Witness denied that she ever had a row with Howard Seelye, as alleged by Curry in his evidence. Witness also denied that she abused Seelye on the occasion she missed the "Springfield." She only called Seelye "a very touchy young man."

Witness denied that she ever put poison in her husband's bed room. Witness remarked: "If I wanted to poison Mr. Curry I would not leave the bottles around."

Curry in his evidence swore on one occasion that his son, Willie, had gone to a picnic near the Curry summer house at Woodman's Point, broke into the house, and when asked by his father why he did it, his wife said: "Why don't you go to him? What did you tell him for?" Curry said: "What, teaching your little boy to lie."

Mrs. Curry denied that this conversation ever took place. Witness denied on the same occasion she told Curry to shut up and that she said she would yell "murder."

Witness denied that she ever said she "would scandalize him," or "drive him out of the Union Club," nor "that she would drive his clients from him and would ruin his reputation," nor "that she would drive him to the poor house and take all his money."

Mrs. Curry also denied that she ever spread her domestic troubles all over the city. Witness denied that she ever poisoned Mr. Teed, Cubbing against Curry. Witness swore that she has not seen or talked to Mr. Curry for eight days.

In consequence of a letter from her father witness went to see Dr. Teed. "Walks the Curry case," witness said. Here Mr. Skinner objected to witness giving the conversation with Dr. Teed.

"His Honor will take the matter under consideration and give his decision when the court meets at 1:30 o'clock this afternoon."

STRAWBERRIES TAKE ANOTHER DROP

The Majestic brought down only a small quantity of produce this morning. The demand for strawberries has fallen off at Indiantown and the berries are now selling from three to seven cents per box by the crate. Potatoes are bringing from 75 to 80 cents by the bushel. Beans sell for \$1 per bushel, while \$1 to \$1.25 is being asked for peas. There is a small supply of cucumbers, which sell at 50 cents a dozen.

SISTERS OF CHARITY ENTER RETREAT TOMORROW

The local Sisters of Charity will enter a retreat tomorrow. Rev. Father Woods, S. J., of Baltimore, Md., will preach at the exercises which will continue for eight days.

Accompanied by His Lordship Bishop Casey, of this city, Rev. Fr. Woods enjoyed a sail on the St. John River to Fredericton yesterday. He was charmed with the beauties of New Brunswick's famous river.

NEW SENTENCES FOR OPIUM DEN KEEPERS

New Chair Installed for Speaker Marcell.

City Clerk an Offender—Rain Storms Beat Down Western Wheat—Big Reception for Blesley Team.

TORONTO, July 29.—In future convictions for keeping denizens from the streets, the law will be enforced with a vengeance. The Ontario Legislature has passed a bill which will impose a fine of \$100 on any person who keeps a den in his house.

The Ontario Legislature has also passed a bill which will impose a fine of \$100 on any person who keeps a den in his house.

STEAMER CAIRNCRAIG IS A TOTAL WRECK

Train Wreck on Kent Northern Railway.

Address for Judge Barry—Mr. Tiffin Denies That C.P.R. Will Get Running Rights—McAvily Loses.

Halifax, July 29.—Captain Logan, representing the London Salvage Company, arrived at the scene of the wrecked steamer Cairncraig, near Canso today, and held a survey on the ship. It was found that during the last twenty-four hours the plates on the starboard side had broken, buckled and gradually opened up a rent in her side about two feet wide.

Two steamers which are also towed and she is gradually settling with the action of the sea. All hopes of saving the Cairncraig are abandoned and it will be the next few days she does not break together apart or disappear out of sight.

The tender of the wrecked steamer will probably be sold at auction. Captain Logan has given orders to dismantle the ship.

RICHMOND, N. B., July 29.—This afternoon, when a few miles from the Junction, the Kent Northern Railway train ran off the beach abandoned and the engine was almost demolished and the engine was left lying right across the track.

It is thought that the derailment was caused by the intense heat, 92 in the shade.

FREDERICTON, N. B., July 29.—Judge J. H. Barry was this evening tendered a congratulatory address by the Ancient Order of Hibernians in honor of his recent elevation to the Supreme Court bench. The address, which was beautifully engraved and printed, was read by Mr. J. J. Farrell during the meeting of the Ancient Order of Hibernians at the Hall. Judge Barry made an appropriate and eloquent reply.

FREDERICTON, N. B., July 29.—There is absolutely nothing in it," said Mr. E. Tiffin, general traffic manager of the Intercolonial Railway, when seen this morning regarding the report from St. John, N. B., to the effect that the Canadian Pacific had completed arrangements for running trains over the Intercolonial Railway between St. John and Halifax.

MONTEAL, July 29.—Capt. Foulkes, of Ottawa, the ex-tennis champion of the world, who has just returned to his home in Ottawa, was seen this morning following the laying of the foundation stone of the new tennis club. Capt. Foulkes, both in the open singles, doubles and handicap matches in third days' play of the Canadian Lawn Tennis Association, and by so doing advanced that much nearer to the title, which he lost to Sherrill last year.

MONTEAL, July 29.—There is absolutely nothing in it," said Mr. E. Tiffin, general traffic manager of the Intercolonial Railway, when seen this morning regarding the report from St. John, N. B., to the effect that the Canadian Pacific had completed arrangements for running trains over the Intercolonial Railway between St. John and Halifax.

THE SUN AND STAR CONTEST

(Continued from page one)

HOW TO SECURE VOTES IN THE CONTEST.

In addition to the ballots published daily in The Sun and The Star, votes may be secured by turning in paid-in-advance subscriptions, which will entitle a candidate to votes according to the following schedule:

THE SUN.

Time.	Votes.	Price by Mail.
One year	2,000	\$1.00
Three months	600	.30
Six months	1,200	.60
Five years	10,000	5.00

THE STAR.

Time.	Votes.	Price by Mail.
One year	2,000	\$1.00
Three months	600	.30
Six months	1,200	.60
Five years	10,000	5.00

MR. MURDOCH'S VIEWS ON THE CONCRETE LINE

In the opinion of Engineer Murdoch a further extension of the concrete aqueduct of the Loch Lomond water system extension put in by McArthur and McVey, can be considered tolerably serviceable.

It is thought that the derailment was caused by the intense heat, 92 in the shade.

FREDERICTON, N. B., July 29.—This afternoon, when a few miles from the Junction, the Kent Northern Railway train ran off the beach abandoned and the engine was almost demolished and the engine was left lying right across the track.

It is thought that the derailment was caused by the intense heat, 92 in the shade.

WILLARD MITCHELL TO BE THE ARCHITECT

Of New College Hall—Sackville Council Wants New Quarters—A New Opera by Provincial Men.

SACKVILLE, N. B., July 29.—It is understood that plans from which the new Mount Allison Convocation Hall, in memory of the late Mr. and Mrs. Charles Mackay, will be erected, are those which have been prepared by Willard Mitchell, the American architect, formerly of St. John. It will probably be possible to call for tenders for the hall in the course of a short time.

The rumor is going around that the town council may shortly decide to make a change in the location of the council chamber and town offices and that the premises now occupied by the Bank of Nova Scotia will be secured. Possibly the matter will be brought up at the August session of the council next Tuesday.

H. W. Wood, president of the new formed golf club, will offer a cup for annual competition among members of the club. In addition to holding a cup for one year, the winner of each annual competition will be awarded a pin or medal which will become his or her personal property. The club executive is arranging for the holding of monthly handicaps.

Professor A. U. Brander, of Amherst, who a short time ago completed the musical score of a very beautiful cantata, "The Story of the Cross," which was produced in Amherst, has just finished the music of the first act of a fairy opera entitled "The Enchanted Princess." The book and lyrics are by Rev. R. W. Norwood, rector of All Saints Church, Springfield, N. S., who has recently been called to Trinity Church, Montreal. The opera will be produced in Amherst early in the fall. About sixty people will take part in the production. Professor Brander is a graduate of the vocal department of Mount Allison Conservatory of Music.

CONFERENCES TO MURDER OF MAN WHOSE WIFE HE STOLE

CHICAGO, July 29.—Edward Riske surrendered to the Cincinnati police today, following the slaying of his friend, Frank Lehmann, in the Riske home Monday night. Lehmann was a Chicago lawyer, and was killed through a quarrel and a fight over his wife through attention to the fact that Lehmann had a short time ago been known to Lehmann's wife and went to live with Riske. Late Monday night Lehmann went to try to induce his wife to return to him. He knocked at the door which was flung open, and Riske fired three shots at Lehmann, killing him. Mrs. Lehmann is held as an accessory to the murder.

PROMINENT CLERGYMAN DEAD AT BEDFORD

BEDFORD, Mass., July 29.—Rev. Richard A. Griffin, for many years prominently identified with the Unitarian faith, and favorably known as an author and artist, died at his home here of apoplexy late today, aged 65 years.

Rev. Mr. Griffin was born in Reading, England, and was one of three brothers who were Baptist ministers in London, being associated with the Rev. Spurgeon at the London Tabernacle, where Rev. Mr. Griffin was pastor.

He came to America in 1872 and settled in Ohio, where he remained until 1876 when he changed his religion to the Unitarian faith, coming to the east. He held pastorates at Marlboro, Augusta, Maine, and Northampton.

"What is your hurry, Carl?" "Going home to get licked." "And you're running?" "Yes, mother's there now; later father'll be home and I'd get worse."

GOLFERA RAVAGING A RUSSIAN CITY

NET PETERSBURG, July 29.—Despatches received here today from Potoskiok in the Government of Bielek, the only city in Russia aside from St. Petersburg where the cholera has made much headway, say that the city is full of panic owing to the inefficiency of the sanitary administration and the shortage of physicians. Forty cases of the disease are reported daily and to cope with this situation there are only five doctors, who are so overwhelmed with work that they are obliged to refuse their services. At night heart-breaking scenes are witnessed at the physician's offices, where relatives of the stricken fairly fight to secure attention. Many stores have been closed and all well-to-do persons are fleeing from the city.

PARAGUAY TEA.

When the yerba mate, or native tea, of Paraguay, is cultivated the seeds are treated to an acid bath before planting. This softens the hard shell which surrounds the kernel of the seeds and enables them to sprout in three or four months. If planted in their natural state it requires three or four years for the seeds to germinate.

BANK OF ENGLAND WATCHERS.

When you enter the Bank of England by any door four pairs of eyes watch you, though you are unaware of this fact. Situated close to the doors are hiding places in which are four guardians of the bank. You cannot see them, but they can watch you with the aid of reflecting mirrors in which they can see your entrance and exit, and every movement from the time you enter the portals of wealth to the moment you leave them.

A message to The Star from Sumner says that the weather this afternoon is fine and very warm, and that a great day's racing is anticipated.

ST. JOHN CLEARINGS.

Week ending 29th July, 1909, 31,353.51; corresponding week last year, 31,237.43.

Have you seen those pins of Walter H. Irving's, 33 King St. The choicest stock ever brought to St. John in its pins, belt pins, dress pins, hat pins, and all other sorts. Well worth examining. Drop in.

Samples of quartz showing large quantities of zinc have been found in the town, the finders are strangers and the exact location of the find is being carefully guarded. Mr. Clark, of New York, who is spending his vacation at Utopia and who holds a responsible position with the zinc trust and is an expert regarding the metal, saw some of the samples and pronounced the find "good enough to create big excitement in mining circles and cause a general exodus of miners in western towns where men are ever on the 'quid vive' for news of a strike in the surrounding country.—Greeting.

GIFTS FOR GIRLS AT "NICKEL" FRIDAY.

For every little girl that attends Nickel Theatre Friday and Saturday afternoons, Pat Harrington has got a lovely big Lawson Carnation Pink, delicately perfumed and of everlasting quality. The "Pinks" arrived in a big box from New York this morning and will be given away by Pat himself.

Two pairs of shoes for the price of one—similar inducements in all lines at C. B. Fidgeon's great half yearly clearance sale, Corner Main and Bridge streets.

The members of the 2nd Band are requested to meet at their room this (Wednesday) evening at 8 o'clock. Every member must be present. Business of importance.

A beautiful automobile was landed at Back Bay by the steamer 'Viking' Friday night; it is said to have cost \$1500. Eileen McLean, of L'Etour, is the owner.—Greetings.

The Royal Gazette contains the appointments of Allen Ward, of Stanley, York County, and Allan McLaughlin, of Victoria County, as provincial constables.

In this week's Royal Gazette, Revs. J. W. McE. Leonard, of West Isles, Charlotte Co.; H. W. Jackson of Nashua Village, York Co. and C. T. Clark of Chance Harbor, St. John County, are registered to solemnize marriages.

Court Loyalist will meet this evening in Orange Hall, Simonds Street. High Court officers will be present. Applications. A full attendance requested.

Albert L. Bradley, of St. Stephen, has made an assignment for the benefit of his creditors to George J. Clarke. A meeting of the creditors is called for Saturday next at eleven o'clock at St. Stephen.

Word has been received by relatives in St. Stephen of the recent drowning in British Columbia of Jennie and Annie Murphy, daughters of James Murphy, formerly of St. George. Their mother was a daughter of the late Donald McDonald, formerly of Bay Road—Bacon.

It is a common occurrence to see moose in the vicinity of the town any day, feeding contentedly and apparently enjoying life. When the hunting season opens they will probably take to the tall timbers.—Greetings.

Last summer a company in the United States gathered 150 tons of seaweed on the shore in the vicinity of Wallace, N. S., which was used for mattresses. It turned out so satisfactory that the company has now erected a mattress factory at Wallace, in which it expects to use a large quantity of the seaweed this season. The best uses made of the seaweed heretofore, have been for fertilizer, bedding cattle and banking houses for winter.

During one of the recent drowning storms Herring struck a house on Deer Island, N. B., occupied by James and Annie Murphy, formerly of St. George. Their mother was a daughter of the late Donald McDonald, formerly of Bay Road—Bacon.

DONNELLY JOINS THE FREDERICTON TEAM

St. Joseph's Player Will Go on the Road With the Tartars, Holding Down First Base.

Joseph M. Donnelly, the fast St. Joseph's player, has been secured by the Fredericton Tartars and will play with them on the road. Donnelly will guard the first sack for the Tartars. He made his bow to the fans at Fredericton in the recent games between the Tartars and Marathons. Joe accepted twenty-five chances without an error and figured in two double plays. Donnelly also played with the Victoria Chipman and other parts of the States, hitting a three bagger off Brogan, the star Fredericton player. Donnelly knocked out stogie the second time to bat and stole second and third bases. He scored on a slow throw to the pitcher.

The Tartars will play Woodstock, Houlton, Bangor and Millbrook on the road. They are also endeavoring to arrange games with the Victoria Chipman and other parts of the States. Donnelly's signing with the Tartars means that he will not be seen on the local diamond for the championship series. In all probability he would have held down the first base for the Tartars.

Donnelly's signing with the Tartars means that he will not be seen on the local diamond for the championship series. In all probability he would have held down the first base for the Tartars.

THINKS ST. JOHN SHOULD DO MORE MANUFACTURING

Boston Auto Builder Here on Vacation Looks for Marked Industrial Development in This City.

Leonard B. Nichols, head of Chauncey Thomas and Company, carriage and automobile builders of Boston, Mass., is spending a vacation in St. John, Chipman and other parts of New Brunswick.

Talking with 'the Star,' Mr. Nichols said he was delighted with St. John and with the other parts of the province which he visited. He thinks if the city and province were better known to the people of the Middle States, there would be a great influx of tourists here for at least three months every year. He and his daughter, Mrs. Rhodes, as well as other Boston ladies who accompany them, were charmed with the beauties of the Salmon River, Grand Lake and Fenwick, as well as the St. John River.

While entirely on a pleasure trip, Mr. Nichols was surprised to observe that the city of St. John was not a greater industrial centre. It appeared to him that with the natural resources of the province many new industries might be established here. He noticed that there was somewhat of the American get-up-spirit in the citizens of St. John, and this being so, he would not be surprised to see this city and province in the near future becoming a great manufacturing centre.

Mr. Nichols, while not personally in the neighborhood, reportedly has a very intelligent view of politics and parties there. He remembers back to days of Lincoln and gives some interesting stories with respect to the presidents of the United States in the past thirty years. Mr. Nichols expressed the opinion that the financial depression across the border was also over. He hoped for quite an improvement in trade the coming autumn and for a complete renewal of prosperity within the next twelve months.

Sparklet Bottles 75c

Box Bulbs 1 dozen 50c

"Make your own Soda Water"

Just the thing for a summer outing.

The Royal Pharmacy, 47 King Street.

MIMIC TEETH

The best artist cannot reproduce a water color in black and white. The best dentist cannot reproduce Nature and supply comfort and efficiency in Artificial Plates without the best of facilities and special skill, acquired by special practice in their construction.

Our business demands that we equip ourselves with the most complete mechanical aids. We employ in this department men who do nothing else—who have done nothing else for years. No apprentices. Practice makes perfect. Modern dental methods save suffering. The famous Hale Method is the how.
