RUSSIAN COUNTER-THRUST AGAINST AUSTRO GERMAN LINE IN GALICIA MEETING WITH SUCCESS

CZAR'S ARMY PRESSING BACK ENEMY SOUTH OF LEMBERG

Feat Performed Before Warsaw Last Winter Likely to be Duplicated.

HEAVY FIGHTING ON ITALIAN FRONTIER.

German Attack on Russian Line to the East of Przemysl Proved Costly—Serbian Army Active.

London, June 11.—The American note to Germany, which is considered here as "firm but pacific," divided the interest of the British public today with the successful Russian counter-thrust against the Austro-German lines in Galicia. When placards of the evening newspapers announced the receipt of the note there was a general rush for copies, as the text had been anxiously awaited. It arrived too late, however, for comment in the evening editions.

The Russian success naturally has caused gratification and relief, and new military experts expect that there will be a repetition in Galicia of what occurred before Warsaw last winter when the Germans suffered enormous losses in their efforts to break the Russian front on the Bzura and Rawka rivers. As on that occasion, Russian reinforcements arrived in time to force back a portion of Gen. Von Lansingen's army, which had crossed the Dniester river near Zurawna before it could be strengthened and entrenched.

The German and the Austrian official reports make no mention of the fighting in this region, but from an account issued in Petrograd the Austro-Germans must have suffered very heavy losses to have lost 17 guns and 7,000 prisoners. In fact, military men express the belief that very few of those who crossed the river could have escaped.

The Russians also claim that further up the Dniester, directly south of Lemberg, they have pressed their opponents back and have taken another 2,000 prisoners, while near Moskala, to the east of Przemysl, they say the Germans suffered very severely when they attacked the Russian position. In Eastern Galicia and in Bukovina the Russians continue to fall back to the Dniester under the Austrian pressure.

Following the example of the Italians, who occupied Avlona, an Albanian port on the Straits of Otranto, the Serbians are marching across Northern Albania towards the port of Durazzo, while the Montenegrins are making for the port of Alessio, still further north. For some time Albania has been overrun by bands which, it is alleged, were organized by Austrians and Turks to harass Serbia, and in fact, these bands have more than once invaded Serbian territory. The opinion is generally expressed here that these occupations probably will spell the end of Albanian integrity.

Heavy fighting continues along the Italian frontier, particularly on the Isonzo river where the Austrians are making their most determined effort to stem the Italian advance. Today's toll exacted by German submarines is five vessels: The Russian steamer Strathcarron, the Russian steamer Dania, the Swedish steamer Ottago, the Russian bark Thomasina and the British trawler Intrepid. A British warship also was attacked by a submarine in the Adriatic, but reached port slightly damaged.

Report Allies Lost Heavily

Berlin, June 11.—A despatch received here today by wireless telegraphic from Constantinople reports that the fighting at Avlona, on the Gallipoli Peninsula, during the night of June 5-6 cost the French and British forces more than 2,000 men killed.

The losses of the Franco-British expedition all last week, the message adds, were enormous.

SUNDAY BASEBALL IN HULL UNDER BAN.

Toronto, June 11.—Sunday baseball in Hull by the Ottawa Canadian League team will be stopped, if the Lord's Day Alliance can stop it. David W. Snyder, secretary of the Alliance, reporting today to the Toronto Methodist Conference, said a test case would be made in the courts of Quebec. Last year's permission was received from the Attorney-General to proceed with an action.

Report of Sinking of A British Cruiser by Austrians Is Untrue

Was With Italian Flotilla Operating Against Coast of Gulf of Drina at Time Austrians Claim She Was Sunk.

Rome, via Paris, June 11, (11.40 p. m.)—An official statement issued here tonight says: "The report contained in the Austrian official statement that a British warship of the Liverpool type had been sunk off San Giovanni Di Medua is untrue. The British ship alluded to in the Austrian statement participated with our flotilla in successful operations against the coast of the Gulf of Drina on the 9th, and returned with them to one of our naval bases at a speed of seventeen knots."

The Berlin Statement. Berlin, June 11.—An official statement issued at Vienna under date of June 10 announces that the Austro-Hungarian submarine No. 4, commanded by Lieut. Singule, torpedoed and sank a small British cruiser of the Liverpool type on June 9, at a point thirty miles off St. Jean Medua, on the Albanian coast. The British cruiser was being protected by six torpedo boat destroyers.

Not Seriously Damaged. London, June 11.—The British press bureau, commenting on the announcement at Vienna regarding the sinking of a British cruiser, said tonight that the ship presumably referred to was safe in harbor, "not seriously damaged."

Every Battalion of 2nd Canadian Division Arrived Safely In France

Minister of Militia Announces—No Information Available as to Their Location in the War Theatre.

Ottawa, June 11.—Every battalion of the Second Canadian Division has safely arrived in France. Announcement to this effect was made tonight by Major Gen. Hughes, Minister of Militia. The division consists of the Fourth, Fifth, and Sixth Infantry Brigades, respectively under the command of Brig-General Lord Brooke, Colonel J. P. Landry, and Col. H. D. B. Ketchen; Divisional Ammunition Park under command of Major Pousette; Machine Gun Battery under command of Major E. Holland; Fourth, Fifth, and Sixth Artillery Brigades and heavy artillery, ammunition column, Divisional Cyclists, Divisional Engineers under command of Lieut. Col. Houlston; Army Service Corps, and various other units which go to make up a complete division.

No details as to the movement of the troops have been received nor is information available here as to their whereabouts in France.

AMERICAN NOTE WILL NOT STOP GERMAN METHODS OF SUBMARINE WARFARE?

Amsterdam, via London, June 11.—A despatch from Berlin to the Kolnische Volks Zeitung, a copy of which has been received here, says:

"Without doubt, Mr. Lansing, in comparison with Mr. Bryan, is a man of very sharp tone, but the German press will do well not to inquire too anxiously whether he is a man of sharp or peaceful tone. "Our submarine warfare will not cease on that account. If American ships or Americans in British ships enter the war zone they must, despite Mr. Lansing and President Wilson, take the risk involved in such a voyage. America can claim the right to judge neutrals' rights only when she herself maintains neutrality. Such was not the case under the pacifist Mr. Bryan, and probably will be just as little the case under the international law expert, Mr. Lansing."

TRAWLER'S CREW 24 HOURS IN AN OPEN BOAT

Without Food for Whole Day After Escape from Vessel Which Germans Torpedoed.

London, June 11 (8.55 p. m.)—The trawler Intrepid has been sunk by a German submarine in the North Sea. The members of the crew of the vessel who have been landed by a steamer at Lowestoft, were in one of the ships boats for twenty-one hours and without food before the steamer picked them up.

SAW AIRSHIPS DROP BOMBS ON TRAWLERS

Passengers on Steamer Nieuw Amsterdam Describe Failure of Aerial Fleet to Destroy British Vessels.

New York, June 11.—An aerial attack on three British trawlers in the North Sea, and the flight of two Zeppelins that latter one dropped bombs on the British coast near Ramsgate—close enough to the ship for the explosion to be heard—were described by officers and passengers of the Holland-American line steamship Nieuw Amsterdam, which arrived here late today from Rotterdam. The Nieuw Amsterdam left Rotterdam for New York on May 29.

On the same day, officers and passengers said they met a fleet of three British steam trawlers. Soon after there appeared coming from the direction of Ostend three German bi-planes, which immediately opened an aerial attack on the trawlers. The trawlers rushing about in a zig-zag course proved to be hard marks for the fliers to hit, ten bombs being dropped in all, none of which took effect. One of the trawlers, seeking safety, took up a position as close as she could get under the bows of the Nieuw Amsterdam, where her pilot managed to hang on until the German fliers had given up their attempt and had turned about, heading back toward the coast. The bombs, as they were being dropped, were plainly seen and accounts generally agreed that they were apparently of about fifty to sixty pounds weight each. Exploding when they struck the water, they threw geysers into the air to a height of twenty to thirty feet.

The Nieuw Amsterdam, while in the Downs, was stopped by a British converted cruiser and held for four and one-half days, until her cargo was given a thorough inspection. While officers came aboard and six of the ship's passengers—two from the first cabin, two from the second and two from the steerage, were taken off. All but one, a steerage passenger, were detained, the man being of German or Austrian birth, and they were later on sent to detention camps.

SAY REPRISALS AGAINST BRITISH OFFICERS ACHIEVED OBJECT

German Press Expresses Satisfaction Over News that Britain Has Changed Policy in Treatment of Submarine Prisoners.

Amsterdam, June 11.—The German press expresses great satisfaction at the announcement of A. J. Balfour, First Lord of the British Admiralty, that hereafter prisoners taken from German submarines by the British would be accorded the same treatment as other prisoners of war.

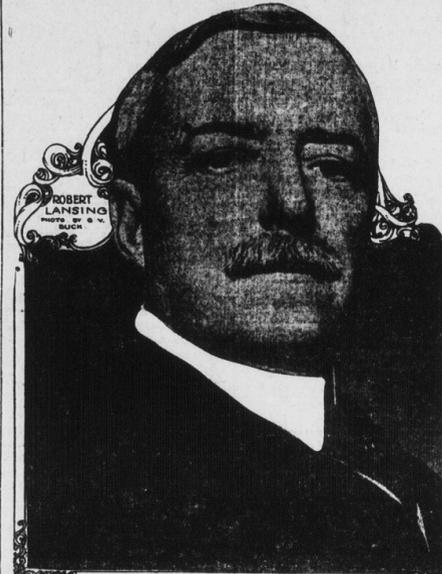

The Cologne Gazette says that Great Britain abandoned her policy of separate treatment for the submarine prisoners only because it recoiled on that country. The Lokal Anzeiger, the Kreuz Zeitung and other Berlin newspapers take a similar view, asserting that German reprisals achieved their intended effect.

A WORTHY DISCIPLE OF ISAAC WALTON

St. Stephen, June 11.—One of the largest trout ever taken in these waters was captured Friday afternoon by Roy Magoon at Meddybumps Lake. The fish weighed six pounds, was twenty-one inches long and girthed thirteen inches. It was taken with a goddard spinner and landed without a net after a very game fight. It has been on exhibition all day at the market of McAllegan & Brown, and has been greatly admired by sportsmen.

MORE OPTIMISTIC SINCE THE LATEST NOTE HAS BEEN SENT

MAY BE NEXT SECRETARY OF STATE

Robert Lansing, counsellor of the State Department, will be appointed Secretary of State to succeed Mr. Bryan, according to persons in high official circles. Mr. Lansing is said to be in entire accord with the President's plans on the nation's foreign policy. He is an authority on international law and enjoys the confidence of the President in a very high degree.

Washington Sees Better Prospects for Peaceful Solution of the Controversy.

NOTE TO BE SENT TO GR. BRITAIN AND ALLIES

United States Will Now Ask Allies to Make Change in Operation of Their Blockade.

Washington, June 11.—Optimism more pronounced than it has been since the diplomatic correspondence with Germany over the sea zones of war began—was manifest today in official quarters here over the prospects for a peaceful outcome of the pending controversy between Germany and the United States.

The American note to Berlin was interpreted on all sides as decidedly friendly, and leaving the way open to a satisfactory solution, with honor to both sides.

It was officially stated today that a note would soon be sent to Great Britain and her Allies, insisting on a change in the operation of the blockade conducted by them so as to conform with the principles of international law forbidding interference with trade in non-combatant articles passing to and from a belligerent country through a continuous neutral country. This, it was generally believed, would be an important factor in convincing the German government that the United States would maintain the same vigorous position on the fundamentals in international law with respect to the Allies as has been the case in the American correspondence with Germany.

Close reading in diplomatic quarters of the American note brought out a variety of predictions and views as to the manner in which Germany would reply. There was a general feeling of confidence, however, that Germany would accept some of the several advances of approach purposely included in the note by the American government, so as to make possible a friendly settlement.

ONTARIO MAN KILLED IN AUTO ACCIDENT, BROTHER LIKELY FATALLY HURT

Listowel, Ont., June 11.—John Steele, manager of the Mount Forest Carriage Company, Mount Forest, Ont., was killed and his brother, Harry, president of the firm, fatally injured, it is believed, in an automobile accident one mile south of here late this afternoon. A block of wood in the road, which was not noticed, threw the car in which the men were riding into the ditch where the machine turned turtle.

LARGEST AREA OF WHEAT EVER SOWN IN CANADA

Acres Sown in Wheat this Year is 14.8 Per Cent Greater than in 1914.

Ottawa, June 11.—The largest area ever sown to wheat in Canada, is how the census and statistics branch of the Canadian government describes the present in an official bulletin issued today. The bulletin says:

"What is estimated to occupy this year a total area of 12,896,000 acres, which is more by 1,662,500 acres or 14.8 per cent, than the area sown for 1914. Not only is the wheat area this year, under the double stimulus of the patriotic impulse and the high prices, twenty-five per cent, in excess of

STARTED FIRST PAPER IN WESTERN CANADA

Stratford, Ont., June 11.—William Buckingham, ex-Deputy Minister of the Interior, and at one time Private Secretary to Hon. Alexander MacKenzie, when the latter was Premier of Canada, died here today, aged eighty-three.

The late Mr. Buckingham, who was born in England, was a veteran newspaperman. In 1859, at Winnipeg, then known as the Red River settlement, he established The Nor'Wester, the first newspaper published in the Canadian West. He later edited the Simcoe Reformer, and the Stratford Beacon. For some years prior to his retirement, two years ago, he was manager of the British Mortgage and Loan Company, this city.

last year's harvested area, but it is also the largest area ever sown to wheat in Canada. "Whilst every province shows an increase in the wheat area, it is the three northwest provinces which preponderate in the national effort to produce more wheat."

DEMONSTRATION IN MILAN URGING ITALY TO ENTER THE WAR

CROWDS IN MILAN CLAMORING FOR WAR WITH AUSTRIA. This scene, which was taken before Italy entered the war, shows one of the great demonstrations which took place against the one-time President of the Ministerial Council, Giolitti, and his followers and for war on the side of the Allies. At Milan, where this picture was taken, fully 130,000 took part in the demonstration.

Heavy Fighting Along the Italian Frontier Where Austrians Are Making Desperate Effort to Stem Italy's Advance

ITALIAN ARMY ADVANCING THROUGH PREDIL PASS

Have Captured Gradisca, Six Miles Southwest of Gorizia, in Austria-Hungary—Trainloads of Wounded Arriving at Udine—Gen. Ricciotti Garibaldi and Three Others of the Name Enlist.

Rome, June 11, via Paris, June 12—It is officially announced that the Italians have occupied Gradisca, six miles southwest of Gorizia, in Austria-Hungary.

Udine, Italy, June 11—Italian forces today are advancing through Predil Pass on the junction of the Laibach Railway at Tarvis, which lies about six miles on the Austrian side of the Italian border.

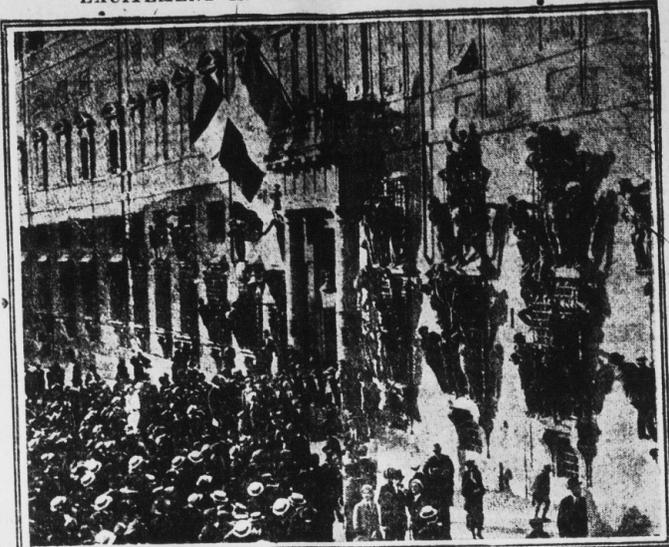

Trains of wounded soldiers are arriving at Udine. Rome, June 11, via Paris—General Ricciotti Garibaldi, accompanied by Colonel Peppino Garibaldi and two other sons, today enrolled themselves for army service. The people greeted them with great enthusiasm, as they gained much popularity through their recent experiences in France.

Italian Official Report.

Rome, June 11, via Paris, June 12, 3:20 a. m.—An official statement made at main headquarters of the Italian army under the date of June 11, and given out tonight, says that the Italians are now solidly established in the Austrian city of Gradisca which, it is stated, has been held by the Italian advanced troops for some days, the statement follows: "Some progress was made today at different points along the front. A reconnaissance party beyond Monte Nero found in the ravines recently

exploded by our fire the wreckage of rifles and machine guns abandoned by the enemy and the bodies of forty Austrians. "Enemy forces comprising six battalions, coming from Plezzo (in Austria, eighty-nine miles northwest of Gorizia) attempted, according to state reports made by prisoners, to take our troops in the region of Monte Nero in the rear. This attempt was frustrated by the Alpine troops. "We are now solidly established in the city of Gradisca which has been held by our advanced troops for some days."

EXCITEMENT IN ROME AS ITALY WENT TO WAR

SCENE IN THE PIAZZA BORGHESE.

The actual declaration of war by Italy was preceded by scenes of the greatest enthusiasm in Rome when it became known that Giolitti had fallen and that the Cabinet would carry out its full plans. Nothing seen in Rome in the last ten days surpassed the great demonstration of some few days ago, when the populace of Rome, headed by Prince Prospero Colonna, the Mayor of the city, accompanied by his standard bearers and all the members of the City Council, headed a procession of 150,000 people to the Quirinal to salute the King. Waiting for the procession on the balcony of the Palace were the King, Queen Elena and Prince Umberto. As soon as the crowd saw them they cried "Long live Italy!" "Long live Savoia!" The King, who was in uniform, took off his cap, shouted to the crowd, "Long live Italy!" and invited the Mayor and standard bearers with the ancient flag of Rome to come on the balcony. Queen Elena snatched up a corner of the flag and fervently kissed it. A man who was present on the balcony said that she was so moved she could not speak.

MOBILIZATION OF ITALIAN RESERVISTS

Montreal, June 11—Mobilization of the Italian reservists in Canada is now ordered by a circular, signed by Sig. nor Chilesotti, Consul-General for the Dominion. A full amnesty is to be accorded to all those who have missed conscription, also to all deserters.

LUNG BURNED OUT BY GASSES

Canadian Describes Sensation After Inhaling Poisonous Gas.

London, June 11—In a London hospital, suffering from the effects of gas poisoning, is Driver Joseph Carey, of the First Field Artillery, Canadian Expeditionary Force. It is believed that one of his lungs is burned out. Describing the sensation, he said that at first he felt it as a burning in the head, and then the burning ran down in his chest, following which he collapsed, although retaining consciousness for five minutes.

An officer of the First Battalion, writing on June 7th, says: "The temperature has run up to ninety degrees in the shade."

We recently had a hard fortnight in the trenches, at a point where the pressure was severe. There was very little rifle fire, but any amount of artillery.

There are several changes in the officers of the First Brigade. Sergt. Major McKinney and Sergt. Jones of the Machine Gun Section, and Sergt. McDonald of No. 1 Company, have been commissioned.

BORN.

KIERSTEAD—At Moncton, on June 10, to Mr. and Mrs. I. Walton Kierstead, a daughter.

DIED.

KIERSTEAD—In this city, on June 10th, at the home of her son, 217 Victoria street, Mrs. Lizzie Kierstead, aged 64 years, and widow of Stephen F. Kierstead. Service at the home Friday evening at 8:45 o'clock. The remains will be conveyed to Brown's Flats Saturday morning for interment.

POLICY OF NEW GREEK PREMIER EXPLAINED

Keep out of war until assured of Nation's integrity and retention of any territory acquired.

Athens, June 11, via London.—Premier Gounaris last night delivered to a large audience his first speech since he assumed office. The Premier explained the difference between his policy and that of his predecessor, M. Venizelos. He stated it was briefly that M. Venizelos was ready to have Greece enter the war without determining thoroughly the conditions under which she took up arms. His policy, M. Gounaris said, was to demand guarantees which would ensure the integrity of the kingdom and a successful outcome of its participation in the war.

WORRY AND WEAKNESS Often Indicate Over-work, and a Run Down Nervous System,

Overwork and worry have an evil effect on the system and often give rise to nervousness and sleeplessness. Other signs include a weak back, headaches and indigestion. In time if matters are neglected a complete breakdown of the nervous system follows. On every hand one can observe victims of this state of nervous exhaustion who are at a loss to know what to do with themselves, their nervous debilitated state having baffled all ordinary treatment. If you are a victim of exhausted nerves, if your symptoms are as described above, you need Dr. Williams' Pink Pills because they are powerful nerve tonic. Their strengthening action on weak nerves is due to the fact that they enrich and build up the blood through which the nerves are fed. Under the tonic influence of Dr. Williams' Pink Pills all traces of nervous weakness disappear together with the headaches, the insomnia, the feeling of intense weakness and depression of spirits that mark the victim of nervous ailments. Here is the proof. Mr. Henry Marr, Port Felix, N. S., says: "It gives me greatest pleasure to testify as to the value of Dr. Williams' Pink Pills. When I began their use I was a physical wreck; my nerves were all unstrung, I suffered from frequent headaches and backaches, and was almost wholly unfitted for work. I had tried several remedies without success, when I finally decided to give Dr. Williams' Pink Pills a trial. I took six boxes and they made a well man."

SOLDIER LOSES LIFE BY CAPSIZING OF BOAT

Halifax, June 11.—Bugler William Reid of the first Canadian Artillery, was drowned by the capsizing of a boat off McNab's Island today. He attempted to swim ashore, but was seized with cramps and sank. He was eighteen years of age, and only came here from Boston six months ago.

This view was obtained at the tip of the Gallipoli Peninsula, near a small, built up pierhead or stage for an antenna. The picture shows old muzzle loaders knocked from their mounting during the general pounding of the sea front. These entirely obsolete guns probably formed a decorative group on this little pier. A British cruiser and a mine sweeper are lying off shore.

SERBIAN ARMY MARCHING IN DIRECTION OF DURAZZO

Several Towns Captured—Inhabitants in Fear of Turks and Austrians—Serbs Marching Towards Adriatic Coast.

London, June 11.—A despatch from Rome to the Exchange Telegraph Company says that the Serbians have occupied Tirana, a town of Albania, 12 miles southwest of Croia, and are now marching on the Albanian seaport of Durazzo. Albanian insurgents the despatch says, have proclaimed a republic.

FOUND NOT GUILTY OF TREASON

Toronto, June 11.—Emil Nerlich, on trial for treason, was late this afternoon pronounced not guilty by the jury, after nearly six hours deliberation. An attempt at a demonstration in the court room was quickly quelled. Mr. Nerlich's brother publicly embraced him and the late prisoner and the Crown counsel shook hands.

COALITION CABINET IN RUSSIA?

Berlin, June 11, via London.—Reports received by the Vossische Zeitung indirectly from Petrograd point to the possibility of a ministerial crisis and the retirement of Premier Premier Goremykin. A meeting of Duma leaders last Saturday, with President Rodzianko in the chair, at which a request to the Emperor to convoke the Duma at an early date was adopted had, according to the newspaper, the purpose of starting an agitation for a coalition ministry. Prince Manufov, the reports continue, presented a resolution that the Duma, immediately after its convocation, move an address to the Emperor and demand a ministry in which parliament would be represented. Members of the Extreme Right voted for the resolution in principle, it is stated. President Rodzianko went to the meeting after a long conference with Grand Duke Nicholas, commander-in-chief of the Russian forces at headquarters.

RECOMMEND JOHN CLARK AS SUCCESSOR TO LATE COL. MALTHY

Newcastle, June 11.—Lieut. Harry McCleave of the 7th Regiment, inspected the Newcastle, Douglastown and Chatham Cadet Corps yesterday. In St. Mary's church yesterday, William Ryan was married to Miss Annie Duffy of Renous Rev. Father Dixon performing the ceremony. The bride wore a cream serge suit with white picture hat. Miss Annie Major was bridesmaid and Frank Duffy best man. Wedding breakfast was served at the home of the groom's parents, Mr. and Mrs. Jas. Ryan, and a reception was afterwards held at the bride's parents, Mr. and Mrs. James Duffy, Mr. and Mrs. Ryan will reside here. The Town Council last night, by a vote of 4 to 3, recommended to the government through Hon. John Morrissey the appointment of John Clark as police magistrate.

Comfort and Cure for Baby's Skin Troubles

Dr. Chase's Ointment Cured When Baby's Body Was Covered With Distressing Eczema. If every mother could try Dr. Chase's Ointment for the chafing, skin irritation and resulting eczema which tortures so many babies, what a blessing it would be for the little ones. This letter will give you an idea of what a wonderful work this Ointment is doing in the way of bringing comfort to children who are so unfortunate as to contract eczema. It is so easy for this trouble to develop from chafing or irritation caused by the clothing, and so difficult to get it cured, that Dr. Chase's Ointment is appreciated when once its healing qualities are known. Mr. M. L. Ducloux, Postmaster, Duganville, N. B., writes: "I believe it is my duty to recommend Dr. Chase's Ointment as a cure for eczema. My baby was seized with eczema and his face and arms were covered with this terrible disease. After trying all sorts of ointments the disease continued to spread until it covered the entire body. When the itching became bad he would scratch himself and was sometimes found in his cradle covered with blood. Hearing about Dr. Chase's Ointment I bought two boxes and before this was all used the child was cured. That was a year ago, and there has been no trace of eczema since. I recommend Dr. Chase's Ointment to all who suffer from eczema as being the best treatment in the world for itching skin diseases." Dr. Chase's Ointment is for sale by all dealers at 60 cents a box. It is a good idea to keep it at hand along with the bath soap, to be used for roughness of the skin, chafing or irritation. Prevention is so much better than cure. Powders close the pores, but Dr. Chase's Ointment cleanses the pores and thereby keeps the skin soft and smooth. Sample box free if you mention this paper. Edmanson, Bates & Co., Limited, Toronto.

GERMAN DEAD AT NEUVILLE CAN BE COUNTED IN HUNDREDS

Paris, June 11.—The official communication issued this evening says: "On Friday we fortified our positions in front of Neuville-St. Vaast. We continue to inventory the war material captured by us. We have found thus far in the ruins three 77-millimetre field guns, three bomb-throwers and fifteen quick-firers, which were buried in the ground or damaged, thousands of grenades, one thousand rifles, eight hundred thousand cartridges, incendiary implements, a number of 105-millimetre shells, a very large number of engineers' implements and tools, numerous cases containing explosives and other articles of equipment. "In the region of the Touvent farm, to the southwest of Hebuterne, we have organized the positions captured by us yesterday night. This morning we captured a further batch of 150 prisoners, among them a Major. In addition many German wounded have been admitted to our ambulances. "The bodies of dead Germans can be counted by the hundreds." We have captured three more quick-firers. We have bent the German line on a length of more than two kilometres (one and one-third miles, and on a depth of one kilometre, (two-thirds of a mile). "This morning we completely repulsed a counter-attack by the enemy. "To the east of Tracy-Le-Mont, in the neighborhood of the Quenneviers farm, our trenches, which are strongly established, are in immediate contact with those of the enemy. The Germans have not yet counter-attacked. They confine themselves to using their artillery. "In Champagne, in the region of Beausejour, the enemy has not renewed his attempt against the trenches, the scene of the latest engagements here, which are now completely in our hands."

"We are fighting for a worthy purpose, and we shall not lay down our arms until that purpose has been fully achieved."—H. M. The King. TO THE PEOPLE OF THE EMPIRE—Every fighting unit we can send to the front means one step nearer peace.

MORE MEN WANTED.

The announcement from Ottawa that Canada will send 35,000 more men to the fighting lines in Europe has been looked for. Recent events in the war zones have shown that the end of the struggle is yet far away, and that, if Germany is to be crushed, many more men will be needed on the western front. The British and French troops report gains, but they are not of a magnitude to afford hope that the task of driving the Germans back into their own country will be accomplished without a great outlay of men and munitions of war. These must be furnished by the British Empire, for it has been evident that France is nearing the limit of her resources. General Joffre, himself, has suggested that the French people can create no new armies, but express confidence that they will be able to maintain their lines at least at the present strength.

If the situation is as all as it is now understood to be, Germany has not yet reached her limit of men. Only yesterday despatches intimated that another huge army was to be sent to the western front, and the men to make up that army must have come from somewhere, there is no evidence that Germany has appreciably reduced the strength of her forces engaged against the Russians, and the Italians have not been in the war long enough for their splendid armies to exercise the pressure hoped for.

To date, Germany has been fighting outside of her own country, and in positions which she has had to prepare as she occupied them. When she sets on her own territory the story will be different. It has been known that she has been preparing for this struggle for many, many years, and if she displayed the same thoroughness in providing defenses in her own cities and towns that she has shown in all other matters connected with her prosecution of the war, then the many important towns lying between her present fighting lines and Berlin should be most impregnable. To assault and subdue such positions will require a vast number of men, more, it will likely prove, than have yet been assembled, and there will be very heavy casualties, for it is a well known truth of war that casualties are always heaviest in the ranks of the attacking party. For reasons already stated that attacking party must be British, hence the call for more men.

The Montreal Gazette, in a thoughtful article along this line, says in part: "The new force that will break the German line, restore the enemy-occupied departments in France and free Belgium, if it is to be found in the west, must be British. It has not been landed in the fighting zone yet. It would seem, and part of it may have to be created. There is a chance, of course, that Italy will by its invasion of Austrian territory create such a situation that the German line will collapse. Italy's army, however, has to operate in the hardest field of the whole war; many months will be required for the development of its campaign; and the possibility of another winter's trench fighting is not lightly to be regarded. So this country, as well as the United Kingdom, is called upon to put forth greater efforts."

Of course, as the Gazette points out, there is the possibility that before the new armies are ready the German war power may collapse, but this hope is not as strong in Britain now as it was two or three months ago. The more reasonable, though less rosy, view is that this will be a long hard war, and every man who can be sent to the front will be needed. Canada has a very apparent duty, and it should not be neglected.

THE RUSSIANS COMING BACK.

That the Russians would gather new strength from reinforcements and make a counter-attack against the German and Austrian armies, was expected by close followers of the campaign in that area of fighting. Despatches on Thursday night indicated the expected reinforcements had arrived and this information was followed yesterday by the statement that the Russians had turned, checked the advance on Lemberg, and inflicted a serious defeat on the enemy.

It is not altogether unexpected, if the previous achievements of the Russian forces may be taken as criterions from which to judge. All through the war Russia has shown a wonderful faculty for turning defeats into successes and that she should do it once more is not surprising. Apparently Russian authorities have never felt a doubt as to the outcome. The correspondent of the Journal de Geneva, describing a visit to the Russian headquarters, quotes the Grand Duke's officers as follows: "Russia has not yet used a fifth of her reserves. The majority of able-bodied men have not yet been called upon. Millions of soldiers are still available. We are not hurrying. Ten months hence Germany will be exhausted. Then we will begin our real campaign. For each of our men fallen, six will replace them. Our resources are inexhaustible. We can fight for two or three years without the slightest embarrassment, while Germany will be exhausted."

While the foregoing statement may be unduly optimistic yet it certainly does not indicate that Russia is at all dissatisfied with her prospects, a decidedly healthy sign. Taken in conjunction with the despatches of yesterday it furnishes ground for the opinion that the Muscovite forces have accepted the expected "come back," and that the news from the eastern war zone should become decidedly more favorable.

LAURIER'S MONUMENT.

Hon. Arthur Meighen, Solicitor General, in a speech delivered in Westmount on Thursday evening referred to the National Transcontinental Railway as likely to prove a monument over Sir Wilfrid Laurier's political remains and, in this connection said: "Two hundred million dollars have been planted on two streaks of rail between Moncton and Winnipeg." Possibly, some of our Liberal friends, the Telegraph, for instance, may consider Mr. Meighen's appraisal of the road as rather harsh, if so they will be interested in reading the opinion of an English financial paper, which said "the dealings of the Grand Trunk with Canada have been singularly unfortunate from the first, but no one can blame it or the Grand Trunk Pacific for refusing to take over and ultimately pay three per cent. per annum of rent on the 1,500 miles of Government line from Moncton to Winnipeg, which Sir Wilfrid Laurier launched with such a flourish a few years ago."

The reason the Grand Trunk Pacific Railway Company refused to take over the eastern section of the road is well known to every Canadian. The Laurier appointed commission, under whose supervision the eastern part of the road was built, wasted so much money on the line that no railway company, under existing freight and passenger rates, could take it over and operate it with success. Interest charges, eventually to be paid as rental, would more than consume the earnings. Consequently the line has been thrown on the hands of the people of Canada and they must bear the burden of Laurier's incapacity or worse. That is why, when Mr. Meighen said the National Transcontinental would remain as a monument over Sir Wilfrid Laurier's political remains, he spoke the simple truth and the members of the Liberal party know it.

The Times has not yet apologized to the patriotic Liberals who accepted commissions in the Canadian forces, or the Liberal business men and manufacturers who are filling war contracts for the Canadian Government, and who, it intimated obtained their commissions and their contracts by questionable methods. That is quite in accord with the Times' conception of journalistic ethics. It is absolutely fair to make miserable and unwarranted insinuations about any person provided that by so doing the cause of the glorious party of Pugsley, Carvell and Kyrle may be advanced—but when it comes to correcting false and misleading statements—that, as Abe Potash says, "is something else again."

Every battalion of the Canadian second division is now reported to have safely landed in France. The not only is the new "Victoria" but

next news will be that they are doing splendid work against the common foe.

It is said that Germany is building submarines at the rate of one each week. The submarine has brought to Germany more trouble than help.

The announcement that Britain would aid Italy in financing the war is another evidence that the pocket of John Bull is not yet exhausted.

Current Comment.

So Angry Still. (New York Evening Sun.) Some of the German papers are still angry at the Americans who perished on the Lusitania.

Say 20 Minutes. (New York World.) The remark of Herr von Jagow, German foreign secretary, that the United States should give Germany plenty of time to discuss prevailing differences seems reasonable. How would the time given to the Americans on the Lusitania do as a starter?

The Poisonous Gases. (Winnipeg Telegram.) Curiously enough, if the United States were to go to war with Germany, the use of asphyxiating gases by any or all of the belligerents would become lawful warfare. The United States never signed nor ratified the Hague convention relating to the use of gases, and a nullifying clause of the convention opens the way to all participants in a war to make use of gases if any one of the combatants happens to be a non-signatory to the agreement.

The Northcliffe Way. (Hamilton Herald.) At present the Northcliffe papers in Britain are bitterly attacking Kitchener. But make no mistake about Northcliffe. If it appears that the public are unpopular, and that the confidence in Kitchener cannot be shaken, the Northcliffe papers will promptly turn completely around and extol Kitchener as the one man who can save the country. That's the Northcliffe way.

To My Son. (Wounded—Somewhere in Flanders.) The British Baker. Last of my race; As brave a lad and true As ever yet rejoiced a father's heart. How long it seems since when we looked on you As you fared forth to play a hero's part.

Dry-eyed we gazed, although our hearts might bleed; Proud that you went, yet sad that you should go; Proud that you failed not in the hour of need, Sad unto death, because we loved you so.

How slow the hours! Six moons have waned, Each moon a year to those whose every thought Followed your fate with anxious hearts and strained. Hoping, yet fearing, what each message brought:

And now you wounded lie—we know not where, Nor how, or when it was you were laid low, Nor yet what hand it is whose tender care Dresses your wound; but this at least we know—

You kept unshaken the ancient name you bore; You faced the foe with heart serene and high, Holding your faith that honor still is more Than life itself; that freedom cannot die.

While one remains who will not bow to the knee To might alone? All hallowed is the place Where blood like thine is shed for liberty, Hero of mine, my boy, last of my race!

Jewels and Junk. (Washington Star.) SI WOGGLES. Who grew superior to his work. He got to thinking more and more That he knew how to run the store. He pointed out with feelings grim The profits that were due to him, And he attributed each loss To interference by the boss.

It fairly made him weep to see How obstinate the boss could be, Si reasoned with him and he tried To check those efforts misapplied. That careless boss he answered back: "And said that he would run the shack! The conscience of Si Woggles burned, His thoughts to desperation turned, Till finally his fettered mind Became so fierce that Si resigned!"

Sad was the day when Si no more Came round to open up the store, And weigh the merchandise with care And gossip with a friendly air.

And yet the people came to buy, Some few said, "What's become of Si?" But somehow that old grocery store Keeps doing business as of yore.

Germany must be disappointed that after hurrying millions of shells at the Russians the Muscovites should come

BASEBALL IN THE BIG LEAGUES

AMERICAN LEAGUE
 New York 10, Chicago 9
 New York, June 11.—New York overcame a seven run lead today, and defeated Chicago, after Manager Rowland started to put in his reserves. The feature of the game was Caldwell's home run, driving in two men ahead of him and tying the score in the sixth inning. It was the second time in two days that Caldwell had driven a home run into the right field stand when used as a pinch hitter. The score:
 Chicago 4301000—9 12 2
 New York 1006010—10 10 1
 Batteries—Paber, Coote, Russell and Schalk, Daly; Keating, Pich, Warhop and Sweeney.

Cleveland 3, Philadelphia 0
 Philadelphia, June 11.—Morton had the home team at his mercy today and Cleveland won 3 to 0. He held Philadelphia down to two hits and was given brilliant support. Morton's two-bagger sent in Cleveland's two runs in the second inning. The score:
 Cleveland 0100000—3 0 0
 Philadelphia 0000000—0 2 3
 Batteries—Morton and O'Neill; Bressler, Bush and Lapp.

St. Louis 5, Washington 1
 Washington, June 11.—St. Louis hit Galia hard in three innings today and broke Washington's winning streak by taking the last game of the series, 5 to 1. The score:
 St. Louis 0100002—5 10 2
 Washington 0000000—1 9 3
 Batteries—James and Severid; Galia and Henry.

Boston 4, Detroit 3
 Boston, June 11.—Detroit sent Daulton to pitch against Boston today for the third time in the series, but the Red Sox won again, 4 to 3. Triples by Adolphi and Hendricks figured in the three runs scored by Boston in the seventh. The score:
 Detroit 0100101—3 5 1
 Boston 0010000—4 6 4
 Batteries—Daulton and McKee; Foster and Thomas.

WHITE SOX RIDICULE CHARGE

Everybody connected with the White Sox club was first amazed and then amused at the story sent out from Washington to the effect that Manager Rowland has installed a special tipping device worked through the medium of the automatic score board. According to all connected with the White Sox the charge is perfectly ridiculous, but there is much curiosity to learn who is responsible for it. The fact that the two Washington papers printed the story simultaneously leads to strong suspicions and there may be an investigation that will bring the offender to book. President Comiskey would not dignify the charge with a denial, but Manager Rowland was willing to talk about the matter, and offered to let any one investigate the

MEN AND WOMEN MINGLE AT OPEN AIR BOXING BOUTS

REFEREE HELPING DRUMMIE TO ROSE AFTER KNOCKOUT

With a series of bouts which left absolutely nothing to be desired in the way of hitting, clinching, dodging, wriggling, shuffling and grunting, the first set of door boxing exhibition in New York city entered the list of summer attractions on Memorial Day at Ebbets Field, the home of the Brooklyn Baseball Club of the National League. Fully fifteen thousand persons, including some highly excited women in spring millinery and interested moods, cheered the fighters, the male portion of the audience carefully refraining from using any "unnecessary or vulgar remarks," as requested by the announcer. Of course, at certain exciting junctures, while a fighter was closing, the more emotional of the "fans" begged their favorite batter to fall his opponent or to tear off an arm or a leg. There were five ten round bouts. The pictures show "Young" Drummie after he was knocked out by "Johnny" Dundee, who is a contender for the lightweight title, and an exciting moment during the bout between "Mike" Gibbons and "Soldier" Bartfield, which was won by Gibbons.

Rowland suggested that it might be possible that the White Sox caught the signals of opposing teams, but he insisted it was in a perfectly legitimate way, if done at all. He had no doubts that Eddie Collins and perhaps others on his team were able to read the signs of the ordinary catcher like an open book. If they did, no charge of unfair advantage could be made against them. Collins was credited with reading catchers' signals while with the Athletics; doubtless he still is able to read, said Rowland.

The name of Manager Bill Donovan of the Yankees is brought into the matter by him being quoted in a Washington newspaper as saying that he had received a letter from a friend warning him that a scheme was being worked at the White Sox park by which each batter knew what was being pitched. Donovan was asked to present his information to the American League authorities, so that an investigation may be made that will once and for all settle the matter. The White Sox say they not only welcome such an investigation, but may demand it.

SOLDIERS' BASEBALL LEAGUE

An Inter-Company Baseball League was started in the 55th Battalion at Camp Sussex and much interest is being displayed in the games played. A Company and B Company played on Wednesday night and the game resulted in a victory for B Company, score 8 to 5.

C and D Companies played on Thursday and D Company took the game by a score of 12 to 2. With the exception of two loose innings on the part of C Company the game was fast. The victory was due to S. McDonald's excellent pitching and the heavy hitting of the D Company men. Pte. Green starting with a home run on the first ball pitched by Sergt. LeBlanc. The teams lined-up as follows:
 C Company—O'Rourke, catcher; Sergt. LeBlanc, pitcher; Gilder, first base; Hunter, second base; Van Buskirk, shortstop; Symmonds, third base; Robertson, left field; Somers, center field; Hardy, right field; McCallen replaced Banbuskirk at short-stop in fourth inning.

D Company—Green, first base; C. Q. M. S. Gilbert, second base; Buchanan, shortstop; Mooney, catcher; Donovan, left field; Corpl. Laughery, right field; Sergt. Kingston, third base; McArthur, center field; McDonald, pitcher.

The score by innings:
 C Company 0 0 2 0 0—2
 D Company 4 0 2 6 0—12
 Lieut. Finley umpired the game to the satisfaction of both teams. Sergt. (O. R. C.) Leaman handled the score pad.

THE BRAVES WON.

Last evening on the Shadwell grounds the Braves defeated the Acadias by a score of 10 to 8. Gilbert and Thompson was the battery for the winners, while Ritchie, Mosher and Ritchie worked for the Acadias. Garfield and McLaughlin were the umpires.

PROTESTED GAME PLAYED.
 In a protested game being played over yesterday afternoon on the East End league grounds, the Winter street school nine defeated the King Edward school by a score of 11 to 3. Cutbert-son and Brown was the battery for Winter street; Gregory and Thompson for the losers. K. Brittain was the umpire.

McDONALD BEAT MALLIN.
 Halifax, June 11.—Roddy McDonald, of Glace Bay, knocked out Sailor Billy Mallin, in the tenth round of a 15-round bout, at the Arena tonight. About 1,500 persons were present, and the bout was one of the best ever seen here. The men being very evenly matched.

CHARLES B. RAND
 The Famous Boston Optical Expert

will open a permanent branch office in the Robinson Building, Market Square, Room 20, St. John, where he will examine all eyes by the RAND SPECIAL SYSTEM of fitting glasses.

THE RAND SYSTEM OF FITTING GLASSES is a new principle that I have discovered and perfected by which, through looking into the eyes and taking the exact measure of the eyes all errors of refraction are corrected without the use of letters and lines hung on the wall and without asking you, "Can you see with this lens, or can you see better with that lens?" until finally your eyes get so confused that you cannot tell which lens you can see out of.

Think this over and you will no doubt see why you have not been fitted with correct glasses.

I have thousands of satisfied customers whom I have fitted and helped and many of them had absolutely failed to receive correct glasses before. They are now wearing my glasses and have sent me many customers who have also received great benefit.

For TEN DAYS to introduce the RAND SYSTEM, I shall examine all eyes free of charge. This examination is worth \$5.00 of anyone's money. I shall also fit all glasses at greatly reduced rates for this limited time.

I am fitting a beautiful pair of glasses as low as \$3.00 and also fitting the most complicated lenses to fit the most difficult cases at about one-half my regular price. I am also giving away free with every lady's eye glasses a nice hair pin chain. Read the following testimonials:

Mr. Charles B. Rand, Boston, Mass.
 Dear Sir: The glasses received from you are perfect—the best I have ever had. I had many pairs fitted by the old method but never had any satisfaction until you fitted me by your special system. I recommend you to all. Respectfully yours,
 A. R. C. CLARK, 51 Water street, St. John.

Opening Day, Saturday, June 12th
 Hours 9 a. m. to 6 p. m. Daily
 Friday Evenings Until 8.30

To everyone that has been unable to receive correct glasses, be sure and take advantage of this offer, and have your eyesight examined by an expert who can tell at a glance just what can be done for you. If glasses are not needed you will be candidly told so, and no one is under any obligation whatsoever.

Glasses made with the very latest styles and adjustments. Every frame and mounting measured directly from your face and made to fit each individual case.

WALL ST. ENCOURAGED BY TONE OF LATEST AMERICAN NOTE TO BERLIN

Vigorous advance in Stocks and large demand—Rates of Exchange easier—Another \$5,000,000 Gold shipment from Canada.

New York, June 11.—Stocks rose vigorously today on the largest and broadest demand witnessed since last Friday, when the market became buoyant on the decision in favor of the United States Steel Corporation. The financial community was plainly disposed to draw the most favorable inferences from Washington's latest communication to Berlin, its tone being considered as conciliatory and decidedly at variance with unofficial forecasts.

The rise began at the opening but was largely obliterated on heavy realizing for profits. In the early afternoon a fresh and more sustained movement lifted the market to higher prices, coppers and a few of the more volatile specialties leading. Federal Mining common and preferred rose from eight to almost ten points, while American Smelting gained five.

War stocks lost some of their recent prominence in point of activity, but recorded advances of two to five points. Bethlehem Steel attaining a new record of 169 1/2. Motors and Petroleum shares to a considerable extent. United States Steel led all issues in volume of dealings, contributing twenty per cent. to the whole.

CLOSING LETTER OF N.Y. MARKET BY E. & C. RANDOLPH

(McDougal & Cowans.)
New York, June 11.—The market today has advanced by fits and starts. There were times when the shorts seemed to be very nervous, and during these periods the market advanced rapidly, but the upward movements attracted stocks, so that the advances were not very well held.

A feature of the afternoon was an increase of the buying demand for the railroad issues and there were indications of a transfer of speculative accounts into those stocks from the industrials. B & O was one of the strong features. Reading advanced sharply too. The reactionary tendency in the Copper stocks in the afternoon may have indicated a belief that the advance in the metal price is over for the present, although there was said to be a demand for copper above 20 cents. Total sales, \$48,922. Bonds, \$2,712,500.

ARTHUR J. COTTER ENLISTS WITH THE CONSTRUCTION CORPS

Ordinary routine work was carried on by the 26th Battalion and Construction Corps yesterday. Inspection of equipment, re-arranging and cleaning of quarters occupied most of the time of the soldiers. Arthur J. Cotter has been accepted in the ranks of the Canadian Overseas Construction Corps and will leave with them when they embark for the front. This is the second son of R. J. Cotter to enlist. The first son is at present a sergeant with the 26th regiment.

OFFERS SERVICE WITH 55TH, BUT FAILS IN PASSING EXAMINATION

Stephen C. Matthews was among those offering for service in the 55th New Brunswick Battalion, yesterday, but he was rejected on account of poor eyesight. Recruiting in St. John was not as brisk as it should be. Few men were offering their services to the Empire but it is hoped that many will come in during the coming week. The recruiting office at the corner of Mill and Union streets will be continued and will be open daily from nine in the morning till ten at night. The recruiting office in the army will also be continued. Any young man wishing to serve the Empire may secure positions by applying at either office.

PERSONAL

His Grace Archbishop Casey of Vancouver is at the Royal. Mr. E. Turnbull, of Digby, arrived in the city yesterday on the S.E. Yarmouth. Mr. Harold Manning, a student attending Pennsylvania University, has returned home. Mr. Gordon Willet will leave on Monday for Sydney, where he will spend the summer in Government Geological Survey work. Friends of Mrs. Frank E. MacDonald, Metcalf street, will be pleased to know that she has returned home after having undergone a successful operation in the General Public Hospital. Rev. F. J. Dark, of Swansea, Mass., is visiting his cousins Mr. and Mrs. H. W. Bromfield, 20 Cranston avenue. Mr. J. J. Chandler, of St. C. R., has been able to return to his work after a lengthy illness. J. R. Haycock returned to St. John last evening on the Halifax express. Mrs. John-Burchill, of Nelson, N. B., is in the city. Montreal Herald: Miss Hurlbutt, of the Royal Victoria College, is going to Rethesay, N. B., shortly, to be present at the Netherwood closing on June 15, and will give an address to the pupils. She will be the guest of Miss Pitcher and Miss Gaugon while in Rethesay. Miss Lydia Kimball, of St. John, is visiting her sister, Mrs. Dodd, and will remain until the end of June. St. Andrews Beacon: arrived last here for the summer. Mr. and Mrs. Norman G. Guthrie and family, Ottawa, arrived a few days ago, and are occupying the Robins cottage near the Bank House. Gough will preach tomorrow at Oak Point at 11 a. m.; Jones Creek, 3 p. m., and Brown's Flats, 7.30 p. m.

WEDDINGS.

Miner-Tingley. Sackville, N. B., June 11.—A very pretty wedding took place at the home of Mr. and Mrs. William Tingley, Point de Bute, on Wednesday afternoon, when their daughter, Miss Isabel, was united in marriage to Mr. Thomas Miner, of Westmorland Point. The nuptial knot was tied by the Rev. W. H. Robinson in the presence of only the immediate friends. The bride looked charming in a gown of white voile with veil and orange blossoms. She carried a very pretty shower bouquet of carnations. Miss Emma Dixon acted as bridesmaid. The wedding march was most pleasingly rendered by Miss Dorna Dixon. The house was prettily decorated for the occasion with apple blossoms, evergreens and flags. After the ceremony the happy couple left on a honeymoon trip through the Annapolis Valley and on their return will reside in Westmorland Point. THE CLIFTON HOUSE, ST. JOHN.

AUTOMOBILE LINE.

Some St. John men are now promoting a scheme to run a line of automobiles between the city and East St. John. Negotiations are under way for securing several large touring cars and it is expected that these will be utilized. It is said that the road factory and many of the residents of that suburb have been walking to and from the city.

Humphrey Goodyear Weits.

Don't forget that our local shoe factory is making some new fine shoes for next Fall trade. I. C. R. suburban train No. 136, due to leave St. John at 12.30 will be held Tuesday, June 15, until 1.15 for the accommodation of those wishing to attend the closing exercises at Netherwood.

A SOLEMN WARNING TO GERMAN GOV'T

How London press regards latest American note to Berlin — Considered conciliatory by officials.

London, June 11.—The American note was printed in full and given the greatest prominence in the London newspapers today, but was not accompanied by editorial comment in the editions appearing up to three o'clock. The headlines in the newspapers varied in wording, but were similar in tone. Among the captions were "America Stands Firm," "A Very Solemn Warning," "Grave American Warning to Germany" and "A Grave Appeal."

The note handed by Ambassador Gerard to the German Foreign Office today is regarded in diplomatic circles as decidedly conciliatory in tone, far more so than the first stories reaching here by cablegram had led the foreign diplomats to expect.

Answer in Two Weeks
Berlin, via London, June 11.—The Vossische Zeitung says: "The note probably will not be answered sooner than two weeks, because the arrival of Dr. Meyer Gerard with special messages from Count Von Bernstorff, the German Ambassador at Washington, to the German government must be awaited. His arrival is not expected before the 17th and the answer cannot be prepared until after this."

The note has been well received in official quarters.

MEMBERS OF EITEL'S CREW WHO BROKE PAROLE ARE STILL MISSING

Will be prosecuted by U. S. authorities under Immigration Laws, if located.

Washington, June 11.—Department of Justice officials today settled upon a means of proceeding against Lieut. Brauer, and several sailors reported missing from the interned German auxiliary cruiser Prinz Eitel Friedrich at Norfolk, if they can be located in the United States. Prosecution under the immigration laws, it was agreed, would be the most effective way of dealing with the fugitives.

After nearly a month of search, however, agents of the department have failed to locate the missing Germans, and it is supposed that by this time they must have succeeded in escaping from American soil. Officials of the State Department are prepared to make representations to the German government, if the men return to Germany.

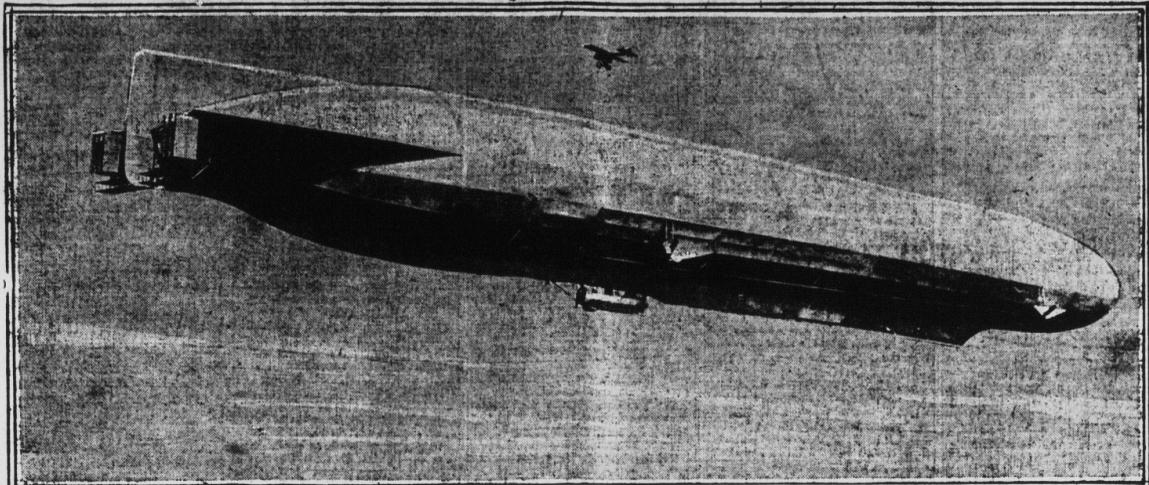

During the war between Russia and Japan, a Russian officer and two men under parole at San Francisco escaped and reached Russia. Upon representations by the State Department, the Russian government promptly returned the men who had violated their paroles.

Lieut. Brauer and the men who accompanied him left the Prinz Eitel while the ship was at Newport News, and before she had been interned or her officers paroled. If they should be captured by the Allies, while endeavoring to make their way to Germany, they probably would be treated as ordinary prisoners of war.

TWO DIRECTORS QUIT BOARD OF ST. LAWRENCE SUGAR REFINERY CO.

Montreal, June 11.—Mr. Alfred Baumgarten, a Canadian of German extraction, honorary president and a director of the St. Lawrence Sugar Refining Company, has retired from the directorate, according to an announcement today.

MIGHTY ZEPPELIN DESTROYED BY TINY MONOPLANE IN AIR FIGHT OVER GHENT.

RELATIVE SIZE OF MORANE MONOPLANE AND ZEPPELIN DIRIGIBLE

This picture shows how Sub-Lieutenant Reginald A. J. Warneford, a young British naval aviator, appeared in a Morane monoplane, at an altitude of 6,000 feet, and attacked a Zeppelin dirigible with bombs and sent it hurtling, a vast, writhing column of flames and smoke down to the Belgian plain. It was a battle of a David and Goliath, or, to take a more apt simile, a wasp and an eagle, with victory for the tiny, buzzing, quick darting destroyer of the air. Surpassing in his exploit all the fevered imagaries of Jules Verne or H. G. Wells, and providing one of the real romances of the war, Sub-Lieutenant Reginald A. J. Warneford is the first man to destroy a Zeppelin in flight. And the feat is regarded as all the more remarkable since the aviator less than four months ago made his first voyage into the air. To-day he is a national hero, and his lone battle in the skies will take a place alongside the most brilliant tales in British military history.

Aeroplanes and Guns Hidden Under Cargo Of Interned Steamer

Unloading of German steamer held at Naples since August last, revealed large amount of War Material — Had sailed from Hamburg before war broke out.

Naples, June 11, via Paris.—The German steamer Bayern, which has been interned in this port since last August, was today unloaded by the Italian authorities. A thorough search of her cargo was made. Hidden under ostensible goods of no particular importance were field guns, machine guns and several aeroplanes. As none of this war material was mentioned in the ship's papers the customs authorities seized it all.

The Bayern sailed from Hamburg several days before the opening of hostilities between Austria and Serbia. She put into Naples and remained here for safety. The German government tried repeatedly to obtain possession of her cargo, but permission to remove this always was refused by the Italian authorities.

Austrian Government to Take Control of Country's Harvest.

Geneva, via Paris, June 11.—Information has reached here from Vienna to the effect that the war grain committee of the Austrian government has announced that it will take under its control the entire harvest, soon to be gathered. With the exception of sufficient grain to feed the rural population, the entire crop will be bought by the state.

The committee has given orders that no false reports concerning the condition of crops are to be circulated.

WAR PRISONERS MAIL.

Berne, June 11, via Paris.—In the month of May the Swiss postal service transported 2,984,175 letters and postcards and 215,530 small packages from France to French prisoners of war in Germany. For German prisoners in France 2,944,775 letters and postcards and 65,256 packages were carried from Germany.

HEAD OF JESUITS IS IN SWITZERLAND

His presence in country starts controversy as all Jesuits were expelled fifty years ago.

Berne, June 11, via Paris.—The presence in Switzerland of Father Ledochowski, General of the Society of Jesus, has brought about a controversy in Switzerland, a country which expelled all Jesuits about fifty years ago. As General of the Society of Jesus, Father Ledochowski resides in Rome. Last month, however, he left Italy and made his way to the Canton of Schwyz, in Switzerland, where he is now residing in a monastery at Einsiedeln.

The federal authorities explain that Father Ledochowski, who is a native of Switzerland, is being treated by them as would any other outsider residing in Switzerland during the war. Should he commit any act contrary to the laws of Switzerland, they declare, he could be expelled.

It is understood here that Father Ledochowski has received a hint that he will be requested to leave the country should he become concerned in any religious or political propaganda.

It is a policy of the Swiss government to afford asylum to all foreigners, and even to deserters from states at war.

Must Be No Shirkers, Lloyd George Says, All Must Share in Sacrifice

Still a Shortage of Shells and this Must be overcome—Will organize South Wales to speed up output of War Munitions.

London, June 11.—Addressing representatives of engineering firms at Cardiff, Wales, David Lloyd George, Minister of Munitions, said it was his purpose to organize South Wales to speed up the output of munitions, just as Lancashire had been organized, and to establish two or three war factories. Referring to the dire need of ammunition, Mr. Lloyd George said: "I hardly like to say it, but we are still short of shells. We must get them, and it will not do for some to undertake the responsibility and some to shirk. There must be equality of sacrifice and contributions."

"I do not want to talk about compulsory powers. It is an unpleasant topic. But if you know of any one who is likely to be a shirker, it is just as well that you remind him of the Defense of the Realm Act and the powers under which parliament created the ministry for which it is responsible."

Demand 10 p. c. Increase.
Manchester, Eng., June 11.—A group of trade union officials returned here today from London, where they were in conference with the government authorities. They made the statement that the government had explained to them plainly that there must be no stoppage in the Lancashire cotton industry.

The Lancashire operatives are today demanding a ten per cent. increase in wages, and the spinners are prepared to issue lockout notices at the end of this week, which would tie up no less than forty million spindles.

CRITICISMS ABOUT WAR CONTRACTS ARE ANSWERED

Statement issued by Prime Minister in reference to contracts made by Russian and French Governments for war supplies.

Special to The Standard.
Ottawa, June 11.—Certain ignorant or malevolent criticisms have appeared recently with respect to contracts made by the Russian and French governments for munitions and other supplies required for the purposes of war," says a statement issued by the Prime Minister's office today. "It was pretended that the Canadian government should undertake to control such contracts and guard these governments from the activities of dishonest or extortionist middlemen. In other words it is suggested that the Canadian government should neglect its own affairs for the purpose of acting as a benevolent busybody in regard to the affairs of the Russian and French governments. The criticisms above mentioned were brought to the attention of the Prime Minister this morning who made the following statement:

"In the early months of the war the British and Allied governments were informed that the Canadian government had not recommended and did not recommend any person or persons to act as agents or middlemen for His Majesty's government or for any of the Allied governments in the purchase of munitions of war or other necessary supplies."

"With respect to the purchase of supplies in Canada by the British and Allied governments, such portion as has been purchased through the government of Canada has been dealt with there by the Department of Militia, the Department of Agriculture or a committee of the cabinet specially constituted for the purpose. Any such purchases are now dealt with by

A CASE OF MISTAKEN IDENTITY

Man arrested at Algieras as Commander of the Prinz Eitel, one of ships officers or doctor.

Paris, June 11.—A despatch received tonight by the Havas News Agency from Algieras, says it has now been learned that the man arrested there and at first described as the commander of the German converted cruiser Prinz Eitel Friedrich, is not in fact her commander, but is either some other officer of the cruiser or the ship's doctor.

The man was ill when the Prinz Eitel stopped at Buenos Aires before going to Newport News. He was left in a hospital at Buenos Aires and when he had regained his health endeavored to reach Europe on an Italian steamship. His nationality was discovered and he was interned at Gibraltar, where he now is.

COURT CONSIDERS IN ST. JOHN CASES

Argument completed in Street Railway vs. City, and Municipality of St. John vs. Board of Valuers.

Special to The Standard.
Fredericton, June 11.—Argument in St. John cases was completed here before the court of appeal this afternoon and court adjourned until Thursday next, June 15th. One of these cases concerned the dispute between the City of St. John and the St. John Railway Company, and the other was the case of the Municipality of the City and County of St. John vs. the Board of Valuers for the City and County of St. John.

In the former case Hon. J. B. M. Baxter, Attorney-General, argued a special case for defendants and F. R. Taylor, K. C., and H. A. Fowlis, K. C., for plaintiff. Court considers.

In the case of the Municipality of the City and County of St. John vs. the Board of Valuers, J. King Kelley argued a special case for plaintiff and Attorney-General Baxter for defence. Court considers.

The case of the King vs. B. L. Gerow, ex parte Gross, was argued by H. W. Robertson supports an appeal from judgment, setting aside an order discharging from arrest. T. H. J. Teed was not heard, the decision being that the case was not applicable and is therefore ordered struck off with costs to respondent.

HAVE BEEN COLLECTING DATA FOR TWO MONTHS

Washington, June 11.—It was stated officially today at the State Department that while officials had been for more than two months assembling data upon which to base a new note to Great Britain on interruptions to American commerce by British naval operations, there was as yet no immediate indication as to when the new note would be ready for transmission to England.

the war purchasing commission of which Hon. A. E. Kemp is chairman. Contracts to supply for the British government have been and are being dealt with altogether by the shell committee.

"So far as other purchases in Canada by the British or Allied governments are concerned they are made by representatives registered by such governments without reference to the government of Canada which has no control over such matters, and could not properly interfere thereon."

MILITARY ATTACHES OF THE ALLIES FOLLOWING THE RUSSIAN OPERATIONS

The above group shows the military attachés of the allied nations who are following the operations of the Russian armies in the field. Reading from left to right, the names are:—Captain Semet (Belgian attaché), General Oba (Japanese attaché), General Marquis de la Guiche (the French military attaché at Petrograd), General Daniloff (Quartermaster General and Director of Military Operations), Major General Baron de Ricker (Belgian attaché), Major General Sir John Hanbury Williams, K.C.V.O. CHILDREN'S CORNER

Bedtime Stories For the Children. UNCLE WIGGILY AND THE PUSSY WILLOWS

BY HOWARD R. GARIS.

Some one is coming to see you, I guess, said Nurse Jane Puzzy Wuzzy, the muskrat lady housekeeper to Uncle Wiggily Longears, the rabbit gentleman, one afternoon as she looked from the sitting room window of the hollow stump bunzlow.

A PICTURE AS A PRIZE

This week I am publishing you a another story about Uncle Wiggily, and Neddie Stubbail, which I hope you will like. I wonder how many of my nephews and nieces could illustrate some part of the story, with a picture sketched by themselves?

UNCLE DICK'S LETTER TO THE CHILDREN

My Dear Nephews and Nieces— You have sent me in a large number of splendidly written stories as to how you would like to spend your holidays, and it has been a most difficult task to decide which was the best.

SOME LETTERS RECEIVED BY UNCLE DICK

Dear Uncle Dick— I was very pleased to see that I had been highly commended again, and I am having another try for that prize, the Kaiser Button.

QUITE RIGHT ALAN

I was pleased to see that I had been highly commended again, and I am having another try for that prize, the Kaiser Button.

KAISER BUTTON BEING SENT

My Dear Uncle Dick— I am coloring the picture in The Standard. I like it fine, I hope you always put them in the paper.

SECOND PRIZE WINNER VERY PLEASED

I was very pleased to see that I had won the second prize, and I am going to try again this week for the first prize. I have not received the prize yet, but hope I will soon.

PLEASED TO GET THE BUTTON

Thank you ever so much for the button. I was very pleased when I got the button June the 8th. I hope I have improved in my painting. I thought I could not do the other competition. I guess this will be all for this time.

ANOTHER SEWING CONTEST SOON

I have not tried the painting contest for two weeks, but I thought I would do this story. I have no time to do it very good, as I spend my time mostly in studying for my examination.

PLEASED WITH THE BUTTON

I received the letters that you sent me, and was very much pleased with the pins. I got two pins. I do not know whether they were both for me, or not, but if any little girl did not get hers, I would be very pleased to send her one of them.

WELYN'S CLEVER SKETCH

Here is the clever sketch sent in by Evelyn Goggin, Central Millstream, illustrating last week's Bedtime Story. I am awarding her the prize as I am sure you will agree that Evelyn is a smart little artist.

ANOTHER JUMBO PICTURE SOON

I am sorry to say that I cannot take advantage of your offer to help me with my work, as I cannot either paint or draw objects.

WELCOME MILDRED

I enclose the picture printed in The Standard, June 4, also one printed last Tuesday, June 1. I should be very glad to join the Children's Corner.

WANTS THE CORNER TO CONTINUE

I have colored the picture in The Standard, and wish to get the Kaiser button. I have written before, but did not know it reached or not, though I would write again. I wish the Corner to continue. I take great interest in drawings.

WELL DONE BESSIE

I think what Florence suggested was great. Now I am going to suggest something. Wouldn't it be nice to have a little story in on Wednesdays?

KAISER BUTTON BEING SENT

I saw your letter in the paper for me. I have colored the picture you asked me to. Would you please send me the Kaiser button, as I cannot call at The Standard Office.

BUTTON HAS BEEN SENT

I have just finished coloring a sketch which appeared in Saturday's paper. I saw in the paper Saturday, where I was to receive a Kaiser button, but I have not got it yet.

WELL DONE FLORENCE

I am sending in my attempt this week. It is not very good. I did not save the coupons last week, so I could not send in the picture.

A CLEVER LITTLE ARTISTS

I colored the picture last week, and sent to you Uncle. I have outlined the picture for the story this week. My brother John drew the other picture.

RESULT OF THE STORY CONTEST

Last week a special prize was offered for the best story of "How I would like to spend my holidays" and the number of splendidly written attempts sent in have far exceeded expectations.

FIRST PRIZE WINNER'S LETTER

I was very pleased to get the prize for last week's painting, and thank you very much. I am sending this week's painting too, and hope you will like it.

LIKES HIS PAINTS

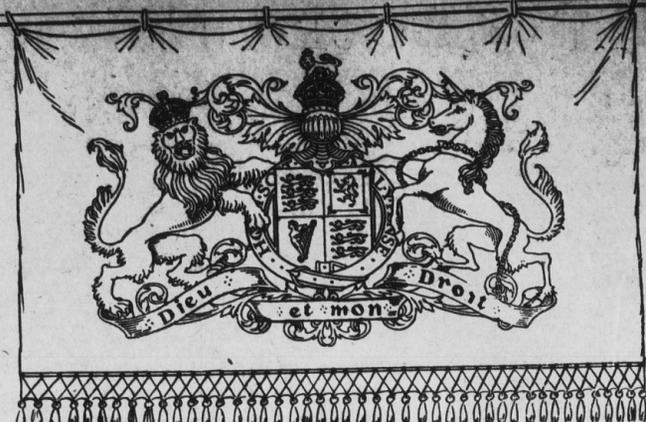

I got my paints, and they are fine.

RESULT OF THE PAINTING CONTEST

A great number of splendid attempts were sent in by the boys and girls competing in The Standard painting contest, the work being of the best.

UNCLE DICK'S LETTER TO THE CHILDREN

My Dear Nephews and Nieces— You have sent me in a large number of splendidly written stories as to how you would like to spend your holidays, and it has been a most difficult task to decide which was the best.

THE BRITISH COAT OF ARMS

At this time whilst so many nations of Europe are at war with each other, I thought it would be very interesting to publish weekly the symbols of the nations, thus engaged in bitter conflict and besides letting you color them and giving a prize for same, I shall tell you a little about each which it is hoped will be instructive.

THE FIRST PRIZE WINNERS

Here is Donald's Story "How I Would Like to Spend My Holidays:" The holidays are nearly here, and I will tell you how I would like to spend them.

TWO INTERESTING COMPETITIONS FOR BOYS AND GIRLS

Here is a more difficult picture. I want all boys and girls who are not over 14 years of age to color same with either water colors or chalk.

REPLIES TO LETTERS RECEIVED BY UNCLE DICK

Edward Ritchie—I am pleased like the paints, and must compliment you upon the splendid use you made of them.

A WORD-MAKING CONTEST

This week I have decided to let you have a different contest. How many words can you make out of the letters in the word "transatlantic"?

BAPTIST

Alumni Reunions at Los Angeles.

The metropolitan and heterogeneous character of the population of the Pacific coast was in no way more strikingly indicated than in the unusual number of alumni reunions held in connection with the Northern Baptist Convention at Los Angeles. There were ten reunions, and it was simply impossible for one to attend them all. They were all occasions of deep personal interest, giving opportunity for the meeting of friends and school mates who had been separated for many years. In one instance, at least, college mates who had not met since graduation forty-seven years ago met at one of these reunions. This and instances such as this show how unusual warm and tender was the feeling of fellowship at these reunions. The institutions the alumni of which held reunions are: The Training School in Chicago, Denison University, Newton Theological Institution, Colgate University and Hamilton Theological Seminary, Southern Baptist Theological Seminary, the University of Chicago, the University of Rochester and Rochester Theological Seminary, the Pacific Coast Baptist Theological Seminary, Kalamazoo College, and Shurtleff College. The fact that there were a sufficient number of graduates of all these ten institutions present at the Convention at Los Angeles is a testimony to the significance of the cosmopolitan character of the people of the Pacific Slope.

Baptists are well represented in the commission form of government of the Denver, Colorado Mayor J. M. Perkins, Commissioner of Safety Oscar Hayes, and the Mayor's secretary, F. D. Stackhouse, are Baptists.

The enrollment at the Northern Baptist Convention, Los Angeles, was 1,927, divided as follows: 389 ministers, 244 men, 550 women, 39 representatives of societies, and 677 visitors.

Baptist Work in Illinois.

Baptist work in Illinois has never been more hopeful and successful than it has been in the past six months. A deep revival spirit has prevailed in many places. Last winter Evangelist Biederwolf held a winter meeting at

I would like to see the airplanes as they send, spend a day or two in trenches with some of our brave Canadian boys, and among the ruins of Belgium. Then back again to England, take a steamer across the broad Atlantic, and land in old Canada, thankful to be home again and ready for another year's work at school.

Donald C. Harper.

I am also publishing Florence's splendidly written attempt, as I think she comes next:

How I Would Like to Spend My Holidays.

When the summer holidays come I would like to go to see my friends. I would like to go to the beach for three weeks. I would like to go with me and put it up on the beach. I could go bathing every day. I would also like to go fishing and go out rowing in a boat. Then after I came home from the beach I would like to go to St. John for a visit. When I am in St. John I would like very much to go to the Standard Office and see the pictures that have been painted by the girls and boys, and sent in to Uncle Dick. Then after I got my visit through in St. John, I would come home and help to look after the fowl and the garden. I think there is no place so nice in the summer time when the grass is green, but out coming through the fields and picking flowers.

I like to watch the men cutting the hay, raking it and then hauling it in the barn.

The last of August our holidays start and then we have to start to school again. When we see our playmates we tell them what a nice time we had when we were away visiting.

Florence Macaulay.

REPLIES TO LETTERS RECEIVED BY UNCLE DICK

Edward Ritchie—I am pleased you like the picture, and must compliment you upon the splendid use you have made of them. Did anyone help you to color the picture, let me know.

Barbara Kelley—I expected to receive an attempt in the story contest from you Barbara, but do not appear to have had any word. I hope you are not tiring of the Corner.

Myrtle Cox—I expect you will now have received the Kaiser Button. You do good work Myrtle, but as yet have not managed to get it up to the prize standard. Color the different objects in the picture more carefully. Thanks for your good wishes.

Olive Elsie Moxon—I am sorry your name was overlooked in sending the Kaiser Button, but I am sending you one this week, and hope you will like same. No, you have to sell nothing, read last week's letter over again Olive. You have written splendidly, and are a clever girl.

Bessie Sterrett—Thanks very much for the suggestions, about which I shall have more to say later. You will see I am publishing the cute riddles together with your letter, as I should like more of my nieces to follow your example.

Douglas Woodworth—Yes, I really

HE STRUCK IT RIGHT AT LAST

After Suffering Almost Two Years, "Fruit-tives" Brought Relief.

Several of our soldiers quoted that saying to me last Saturday week, when it was definitely known that they would make an attack on the enemy on the following morning. But the Sunday will be little thought of by me as the Lord's Day. It was rather the devil's, arm-chair philosophers, or saints that sit at ease in Zion, may scout the existence of the devil, but at the front we are less sceptical. If we do not see him, we behold his works. When hundreds of bright-eyed, clean-limbed, stout-hearted young men are mown down like grass by machine guns, blown into the air by shells, pierced through and through with steel, and all because of an Emperor's insensate ambition to become Lord of Europe, we say "An evil spirit hath done this."

Not that all the day was the devil's. Some of it was Christ's. Great sacrifices were made for the honor and integrity of our land, and for the sacred right of small nations, brave deeds were done by men whose modesty adds a grace to their heroism; suffering was endured with a patience and fortitude divine. When I think of the horrible butchery of modern warfare my blood freezes in my veins. When I dwell upon the gallantry of our soldiers in action that Sunday liquid fire runs through my body.

Muriel Hargrove—I hope you are successful in your examinations, stick at her to join the corner, Florence. The objects in the background are trees, and should have been colored green. You have written a splendid story.

Audrey Myrtle Parker—You made me quite wish I was going to have my holidays with you Audrey, your description was so well written. I am sorry you did not enter for the painting contest also.

Florence T. Case—Thanks very much for your nice letter. I am pleased.

ed you got second prize last week. Your age was considered in the judging. Why hasn't your sister tried this week?

Donald C. Harper—I am sorry you lost the picture after taking so much care, but you have done another good one. You can do better work with water colors. I would like to have had a trip with you Donald.

Florence Holder—You can always make a fairly good grey by using a very little water in your black and painting very thinly. I shall have something to say about the pin-cushion next week.

Douglas Woodworth—You have made a splendid copy Douglas, and should study drawing more. Just take more care over the details and consider what you are copying. I should like to see some of your own drawing, not copies.

Evelyn Goggin—You will be pleased to see that you have won the prize in the story illustration contest. You made a good sketch for your age Evelyn. I shall have more to say about a sewing contest next week.

Edith Mitchell—Glad to have your letter of thanks for the prize Edith, as some of my nephews and nieces don't trouble to do this. You have done a good picture this time, but not your sky tree red, I think, considering the rest of the landscape.

THE PRICE BELGIUM IS PAYING FOR DEFYING THE RUTHLESS INVADER

An English Surgeon Describes Hospital Scenes In the Little Kingdom — Administering Mercy Under Exceptional Difficulties — Some Pathetic Sights Witnessed in the Course of a Day's Work Among the Wounded.

London, June 10.—The position of Belgium in the present war reminds one in some respects of the dwarf in Goldsmith's fable, who got all the kicks and buffets while his comrade, the giant, threw on their joint adventures and declared it famous sport. To be sure, the fable is exaggerated nonsense, as so many fables are, and the applicability is terribly strained, but it is not too far from the truth to say that the little Belgium has suffered in this world-wide conflict more than any other country. The ten or eleven reports of the official commission of inquiry into Belgian calamities and claims are proof enough of the fearful extent to which King Albert's land and subjects have had to pay for playing the many part of defending their liberties and withstanding the invasion of a ruthless and immeasurably inferior race. Yet the best has not been told of the gallantry which the Belgians have brought to bear upon their share of the conflict and suffering. Part of this has been told in private letters from our troops and part by the refugees who have settled here in our midst. Better and fuller accounts still have come from the war correspondents of the papers, and some of these collected and reprinted make permanent and valuable records of a great chapter in the history of the new Renaissance—that is, the renaissance of modern Europe from the obsession and the dread of German tyranny.

After the work of the war correspondents I may be permitted, perhaps, to draw upon the narrative of "A Surgeon in Belgium" (Edward Arnold, 8s. 6d. net) seeing that without indulgence in the technicalities of his profession, the author, Dr. H. S. Souttar, contrives to throw a deal of light on the human sides of a great international tragedy, and to set it forth in a strain which is no strain at all but simply the easy narrative of a man of the world who sets right values on the sadder and the sener aspects of existence.

Hardships in Antwerp Hospitals

Dr. Souttar joined the Belgian Field Hospital in the early stages of the war, and saw its sterner side without the alleviation of preparation either for mischief or mercy. He and his colleagues, Dr. Beavis, were established in a great home in the Boulevard Leopold at Antwerp, detached, roomy, and tolerable in every way for the purpose of a war hospital. They found themselves in all with a hundred and fifty beds, and a staff of about fifty—that is to say, eight doctors, twenty nurses, five dressers, lay assistants and motor drivers—besides a kitchen staff of Belgians. As the months wore on and the market became dearer and dearer things began to call for ingenuity, if not heroism. Milk became unobtainable—no slight deprivation for a hospital full of wounded men—and the only water available was salt—a state of things which laid heavy work upon the housekeeper in the way of boiling and filtering. But as the author says, soldiers are not the only people who fight on their stomachs, and the staff did wonders. None of them were ill

result that on striking, the casing spreads out and forms a rough, irregular missile, which does terrific damage. Such bullets were forbidden by the Geneva Convention. But the German bullet is much more subtle than this. It is short and pointed and when it strikes it turns completely over and goes through backwards. The base of the bullet has no cover, and consequently spreads in a matter precisely similar to that in a dum-dum, and is equally deadly result. There could be no greater contrast than that between the wounds with which we had to deal in South Africa, produced by ordinary bullets, and those which our soldiers are now receiving from German rifles. The former were often so slight that it was quite a common occurrence for a soldier to discover accidentally that he had been wounded some time previously. In the present war rifle wounds have been among the mostly deadly with which we have had to deal.

The author dwells with emphasis on the folly of removing bullets, and adds that it may be the result of his Scottish ancestry, but that if ever he sets a bullet in his own anatomy he is resolved to keep it. According to the author the warfare in the field was not more ferocious than the one he had to wage in the wards in order to combat the passion of the native stonemasons for closing the windows tightly down upon a ward of wounded soldiers, many of them with gangrenous injuries of a terrible order. The time came, of course, when fresh air became the law of life simply because the staff had to move on to the field, and then the conditions of the military against efficiency were conditions established not by nurses, but by the professional tradition of the Continental army, doctors. Their one idea was the combatants, and consequently the wounded were only encountered to be tickled and passed through the dressing hospitals as fast as possible, and left until the base hospitals before receiving anything like curative treatment. Gradually the British influence made itself felt in the other direction, but it was uphill work.

The antagonism between endeavor and environment, however, never came to a head until the bombardment set in and the hospital had to take to flight, and these had to be packed with wounded, staff, appliances and all, at lightning speed in rooms whose windows faced shell-walls. The cortege moved off with sixty patients inside, thirty of the staff on top. All about town, and amidst the fiercest fighting, they might see bundles of blankets, crockery and instruments with the luggage of the staff, and a nurse mounting guard to keep the unwieldy mass in place. It was a marvellous sight, says Dr. Souttar, to see the fiercer crowd of medical students ever left the doors of a hospital for a Cup tie.

The Type of Bullet

The result was that nearly all the wounded begged, where they were consoling, to be taken to the "Hospital Anglais," and no wonder! One result of the reputation soon established was that their hospital in the Boulevard Leopold soon became the destination of all the serious cases, and the ground for their record remained so high the author attributes to the fact that the Belgians are invariably a frugal and abstemious race. He dwells more than once on the heavy contrast between the state of things established and the state of things which prevails on this side of the water. Chloroform, as he says, does not mix well with alcohol in the human body, and the average working man is rather fond of demonstrating the fact. Another ground for welcoming this heightened power of resistance in the patient was that the wounds were more than usually destructive of tissue and had started infection in nearly every instance. Part of this was due, without a doubt, to the deadliness of German rifle-fire, and the entire absence of that clean cut perforation which marks the path of the ordinary bullet. In a dum-dum bullet the casing at the tip is cut or removed, with the

"GETTING TOGETHER."

cluding a desperate search in the dark for wounded under the very nose of the German guns with the knowledge that the only bridge back to safety was being blown up before long.

Our doctor's native philom has moved him more than once in the course of the war to say that as the Germans have produced a strictly scientific hell upon earth, there is every reasonable hope that it will lead to a strictly scientific hell in the west. What the German commander has done in the way of destruction for policy, the German private has done for love. Over and over again Belgian nurseries were found where the Boche had smashed children's toys. Germany, the doctor adds epigrammatically, has destroyed more than the cities of Belgium; she has destroyed her own soul, and one cannot help adding a tribute to its fairness of mind in admitting that she had ever possessed any. This is consistent with him, however, for he pays compliment before the end of the book to the only case of German humanity which he encountered in many a long and busy month.

It was known one morning in the trenches at Pervyse that several of their comrades in the farm had been injured in an outpost engagement. It was, however, impossible to reach them before nightfall as the road was swept by the German guns. Two Belgian priests, taking their lives in their hands, walked out to the farm, but they found that the wounded were beyond their powers of carriage. Nothing daunted, they went on to one of the German farms and asked for help, and a few minutes later the astounded Belgians saw a little procession coming up the road. In front walked two priests, and behind them came four wounded Belgians, lying on stretchers carried by German soldiers. They came right into the lines, and they had a raked welcome. They all shook hands, and the little party of Germans walked back down the road amid the cheers of their opponents.

Cobbler and Town Crier

I need not draw upon the doctor's telling efforts in the way of description of desolation: we have more than enough of it during the last eight or nine hideous months. Sandwiched in between all the blasting ruin and cruelty we get quaint touches of medieval survival which could only have lingered among an artistic and gentle race. Alongside the beautiful and ancient Hotel de Ville at Furnes lives, or rather lived, a cobbler, who also served as the town-crier. The office has descended from father to son for centuries until last November, and then the good man sat in the little shed he had built for himself upon the town belly, and from this eyrie, in between the tapping of his hammer, he used to call out the hours to his fellow townsfolk, with the simple and candid assurance that he and his wife were in good health, thank God. Let us hope that the assurance still holds true, and that somewhere or other they have survived the destruction of their fine old town. But whether the return of better days will ever see them and their kind installed again in trust and comfort, is more than doubtful, and indeed the experiences which this book records are enough to make us doubt if any color or beauty of the old world will ever return to us again. The earth has lost its youth and will set back to life again, disillusioned and aged and grey.—By J. T. Collins.

UMPIRE BILLY SUNDAY

Billy Sunday, the famous baseball evangelist, recently umpired a baseball game in Paterson, New Jersey, where he is conducting a revival.

It was a corking little ball game, close all the time. Sunday was going to umpire only three innings, he said when he started, but it was so tight a fit that he stayed all the way through. When Paterson High got a two-run lead in the fourth inning their lad and lassie rooters burst into the famous tabernacle chorus, Brighton the Corner Where You Are, Billy couldn't leave after that.

There was never a kick on a single decision of Billy's. There couldn't have been. Only once he was called upon for a real test of both his baseball ability and his professed Christianity. A Paterson High School runner started to steal second base. The Newton catcher—named Levine—sent a perfect throw which his infielder caught and swept down toward the leg of the sliding runner. Billy jerked his thumb upward and shouted, "Yer out!" But the runner knew, and the baseman knew that the boy sliding

THE AUTOMOBILE TRADE IN ST. JOHN

Oldsmobile
Established 1880
To make every car as perfect as possible, both as a machine and as a work of art is our aim.

Model 43—1916

We wish to announce the arrival in this city of the new 1916 Model 43 Oldsmobile. Demonstrations begin immediately. Apointments by telephone.

Oldsmobiles have this attraction always—they are quite out of the ordinary. So with Model 43. Totally new, greatly improved, very distinctive, it compares favorably with \$3,000 and \$4,000 cars.

A surprising thing is the price, \$1,560.

Features that will delight you:

- Long wheelbase—120 inches.
- Long buoyant springs, underslung rear.
- Large body; restful as a divan.
- Extra wide U-shaped doors (23 inches).
- Circassian Walnut dash and steering wheel.
- Deep cushions; high body sides.
- Solid Aluminum running boards and toe board.
- Powerful Valve-in-head motor.
- The famous Delco starting, lighting and ignition system.
- Stewart Vacuum gasoline system.
- A Big De Luxe Car—in materials and workmanship fully up to the high standards set by the famous Model 42 (its predecessor) yet priced \$275.00 lower.

New Models Out Early This Year

Business Advantages and Curiosity of Public Responsible, Olds Official Explain.

A growing tendency on the part of automobile manufacturers to introduce new models earlier than they once did and thus gain the advantage of the profitable spring and summer selling periods for their new product, is an interesting development of the last year or two.

Aunt, the beginning of the business year for many manufacturers, formerly was considered as the most opportune time for bringing out new cars but automobile concerns generally now seem to be making an effort to launch their new models in June or in the midst of the brisk buying season.

Whether this is due to pressure brought to bear by the general public is open to doubt, although it is reasonable to suppose that in their desire to see the new things in automobiles before buying those who are in the market for cars, heretofore have delayed purchases until August, which otherwise might have been made in May or June had the new styles appeared at that time.

Compliments in this regard to the Olds Motor Works which announced its 1916 line, consisting of a Four for immediate delivery and an Eight for delivery in August, three months earlier in the season than their 1915 cars were introduced. It is argued that the introduction of new models earlier in the season than formerly is a great advantage to automobile dealers since the dealers can more effectively create a local market for a new machine in the spring than in the late summer or early fall. Moreover in the case of the Olds Company their new models were announced sometime in advance of actual production, which was an added advantage to dealers, who must necessarily begin several weeks ahead if they are to buy intelligently for handling a new car.

"What probably constitutes a record in the motor car industry was established by the Olds Company in producing our 1916 Four," declares E. Ver Linden, Factory Manager. "Shipments of the new model began just ten days after the last car of the preceding series was shipped. Ordinarily considerable time elapses while preparation for the production of a new model in an automobile plant is under way."

OLDSMOBILE FACTORY IS SWAMPED WITH ORDERS

Dealers Offering Premiums to Get Cars to Fill Demand—Production to be Enlarged.

The general revival of trade is being reflected in the business of the Olds Motor Works, which finds itself over-run with orders beyond its capacity for production and delivery. Ever since the first day of April it has been necessary for the manufacturers to turn away orders for Model 42 Oldsmobiles and at the present time the factory output is sold for fully a month ahead. This demand is specially exhibited in the orders for Roadsters, the last allotment of which was completely sold before the factory began its production—this in spite of the fact that the number of Roadsters produced was exceptionally large. Practically all Oldsmobile Dealers are entirely sold out of cars at this time and dealers have been communicating with each other and, in some cases, actually offering bonuses for cars.

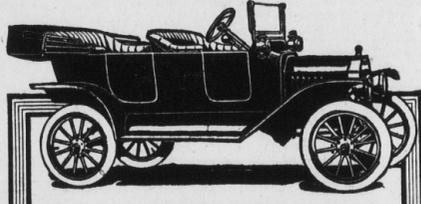

"Our factory, operating in the light of past experience, taken unawares and snowed under with orders," says E. Ver Linden, Oldsmobile Factory Manager. "Had we anticipated such a rush of business our plans would have been made to meet the expansion of the market."

Mr. Ver Linden states that plans are now under way to meet the flood of incoming orders for cars.

Canada's Industrial Pay-Roll is \$5,000,000 Week

Ford Workmen Have Large Share in This—Highest Paid in British Empire.

Ford, Ont., June 11.—The highest paid automobile workmen in the British Empire are without doubt the employees of the Ford Motor Company, of Canada, Limited. Following the recent adoption of a minimum of \$4 per day for Canadian employees, it is figured from wage reports that they are getting approximately three times as much as the average of all Canadian workers.

Canada has 20,000 factories giving employment to 600,000 workers. Wages amount to over \$260,000,000 annually or \$5,000,000 per week. This is really a startling figure especially as Canada's industries have until recently been considered mainly agricultural. The wage earners in point of numbers and industrial pay roll are now equal to those of the manufacturing (excluding mining) of all the other New England States combined; of all the southern states combined; and are more than double those of all the western states combined.

From the figures given, the average Canadian workman earns yearly about \$435. Contrasted to this is the new Ford wage scale which makes the minimum for its workmen about \$1200 yearly, approximately three times as much as is received by the average worker.

LARGEST ELECTRIC SIGN

Ford, Ont., June 11.—The world's largest electrically lighted sign is being built for the Ford Motor Company of Canada, Limited. Even in Montreal and Toronto and the other metropolises, there is no larger. King street's best will now have to be contented with second place.

With letters fifteen feet high, the sign will read "Ford Motor Company of Canada, Ltd." and will be 450 feet long. Each of the letters will be white, faced with black, so that the sign will also figure as an attractive daylight sign. It is to be mounted on top of the company's 750 ft. machine shop along the waterfront of the Detroit river. The sign will be in full view of all freight and passenger traffic on the river, both Canadian and American. Through this channel passes the heaviest tonnage of any of the world's waterways—more than through either the Suez or Panama Canals.

The sign will be made in Canada and work has already started building the steel framework to hold it in place.

ENTERTAINMENT AT WELSFORD IN AID OF RED CROSS WORK

Good sum realized and interesting programme enjoyed—Clarendon Lodge I.O.G.T., entertain Nerepis brethren.

Welsford, June 10.—Little Miss Frances Howe, the three-year-old daughter of Mr. Frank Howe, met with a painful accident on Friday morning last, which might have proved fatal; a heavy gate falling on her in the farm yard, which resulted in one of her legs being badly bruised below the knee. Dr. Lewin is attending to the little one's injuries.

Miss Eileen Colston, of St. John, who had been spending a short visit here the guest of Miss A. T. Nason, returned home last Monday.

The work in connection with the new bridge at Armstrong's Corner is going ahead well. It is understood the bridge when completed will be a fine structure and a great improvement on the old one.

It is rumored that the task of road repairing will soon be commenced. Already some of the notices in connection with the statute labor, etc. are posted up in some parts of the parish.

Miss Elsie Colston, of St. John, was the guest at the Rectory over Sunday last.

At the regular meeting of the Clarendon Lodge I. O. G. T. No. 446, held on Saturday evening last at the Clarendon Hall, the members received a visit from 26 members of the Salmon Rock Lodge, Nerepis. After the routine business of the lodge was over the visitors and members of the Clarendon Lodge went through a nicely prepared programme of songs and recitations as follows:

Song..... Miss Violet Johnson
Recitation..... Mrs. D. Hair
Song..... Miss Violet Johnson
Song..... Mrs. Howard Johnson
Song..... Mr. Edward Ogden

The visiting members also gave a splendid programme of songs and recitations, the following taking part in the programme: Mrs. Titus, Miss Crandall, Mr. Crandall, Mr. Arthur Hart, Mr. Phillip Nace, Mr. Harry Blagdon, Miss Hazel King, Miss Reta King, Mr. Titus, Mr. Sharp, Mr. Frank McKenzie, Mrs. King, Mr. John Kuppee. Addresses were delivered by Mr. D. W. McKenzie and Mr. Gregg.

A vote of thanks was tendered to the visitors, after which refreshments were served. The singing of the National Anthem brought a very enjoyable evening to a close, the Nerepis members having to hurry away to
