KIPLING BETTER

The Patient's Chances for Life Really Improved.

New York, March 1 .- There was an W servant. Apply Mrs. John Purdom, 429 appreciable gain in the condition of within the British Protectorate. Buffham and Dr. Comand, the last being the family physician of the Kiplings, when they are at Brattleboro, Vermont, remained in the Grenoble all night. With the exception of Dr. Dunham, however, they did not feel it necessary to remain in the sick man's apartments, and Dr. Dunham did not spend the night there. Though he did not say so, there was a thought prevalent that Dr. Dunham stayed there for some time so as to be ready to relieve the patient immediately in case of need. The gain has not been great, but

he is really BETTER THAN FOR SEVERAL

DAYS, and it has given the doctors hope. Dr. Dunham appeared at 5 o'clock in the lower part of the hotel. He said: "I am well pleased with the condition of Mr. Kipling. He is resting quietly Mr. Doubleday was seen at 7:30 o'clock. He said that he was more hopeful, and that he thought the patient's chances were greater than they had been.

[Bulletin.]

At 9 a.m. the following bulletin on the condition of Rudyard Kipling was isued by his physicians: "Mr. Kipling had a better night, and the symptoms have improved. The delirium was replaced by natural sleep. He is still seriously ill, and the fever, though less, still continues."

IAN MACLAREN'S TRIBUTE. Philadelphia, March 1.-Rev. John Watson (Ian Maclaren), who is in this city, is much affected by Rudyard Kipling's condition, and closely watches the sick-room bulletin. He said yesterday: "The lamentable news that Rudyard Kipling is in danger of death comes with a shock of grief to a fellow-countryman and a reading man. Almost since the beginning of his career I have read every word he wrote, and have found in his words an inspiration beyond that of any other living novelist. He deals at first-hand with the half-dozen passions which mold human nature, and always with insight and nobility. His death— which God forbid!—would, in my humble judgment, deprive English letters of our greatest name, and England of her real poet laureate."

THE BRITISH

African Chieftain Threatens to Make Trouble.

Supported by Others Who Acknowledge French Allegiance.

Statement of the Strength of Britain's Militia.

Drayfus Ravision Bill Passes the French Senate-The Queen May Not Visit the Riviera This Spring.

Bathurst, Gambia Settlement, West Africa, March 1.-Great Britain may have another petty native war on her hands. A chief named Jimbah Ma has appeared with an armed force, and has defied the authority of the British Government in the Upper Cambia, at a place called Kanube, in the British Protectorate, about 200 miles up the river. The administrator, Sir Robert Llewellyn, has considered it advisable to send down here for her majesty's ship Alecto to proceed immediately to the place. She has left with an additional contingent from her majesty's ship Magician, which vessel is also in the river. The chief in arms has not a large following, but it is generally known that he is supported by other chiefs who owe allegiance to France. The British sphere of influence extends seven kilometers on either side from the center of the river as far as Yabuteude, where it is also supposed to extend the same distance in every direction. This, of course, causes serious inconvenience when dissatisfied chiefs have to be dealt with, as they can easily place themselves and their followers beyond the boundary, outside the jurisdiction of British authority. Another chief at a place called Kunting, about twenty miles from Kanube, has deposed his brother, who has been obliged to seek the protection of the authorities at McCarthy's Island, as a protest against the action of the government in superseding him. The Anglo-French boundary commission, under the colonial engineer, and Capt. Tyler, R.E., which left here in December last to define the boundary on the north bank of the Gambia, is at a standstill, as it has been found that the old boundary line is incorrectly placed, and that certain territories in Wulli district are within the seven kilometers radius, thereby bringing the French inland telegraph line, which connects the Senegal possession of the French with their colony, Senegambia,

RRITAIN'S MILITIA return, the total streng lish militia in 1898 was 132,493, and the number wanting to complete the establishment was 19,054, of all ranks, including 646 officers. The deficiency in the artillery was 10 per cent, and in the infantry nearly 17 per cent.

CRIMPING.

In the course of a discussion arising upon a motion declaring that the government should endeavor to remedy the growing employment of foreigners in the British mercantile marine, Mr. Joseph Havelock Wilson, Liberal member for Middlesborough, and general secretary of the National Seamen's Union, denounced the crimping prevalent in New York, which, he asserted, it was in the power of the president of the Board of Trade to suppress. Mr. Ritchie replied that the Board of Trade was doing everything in its power to protect seamen from crimping, and had not lost sight of the evil, as developed in New York. The motion

The Earl of Rosebery was last evening elected president of the Eighty Club, in succession to the late Mr. Gladstone, by 50 votes against 11. The

election followed a lively meeting. THE ENGLISHMEN SHOT AT

MANILA. Replying in the House of Commons to the Hon. Philip James Stannope (Liberal), who asked the government to make friendly representations to the United States on the subject of pecuniary compensation being granted to the relatives of the Englishmen who were the victims of the unfortunate shooting accident at Manila, the parliamentary secretary of the foreign office, Right Hon. William St. John Broderick, said the British consul at Manila had telegraphed the fact of the shooting, but the government must await a full report on the subject before form-

ing an opinion on the points raised.

The London correspondent of the New York World cables the following to his paper today: The World correspondent hears tonight that Queen Victoria has practically decided to abandon her projected visit to the Riviera. She had arranged to start on March 8. This change of plans is not due to any friction with France, but because of the constant personal attacks by which her advent has been heralded in the Nicols journal. Remembering the assassination of the Empress of Austria, it is feared that these attacks may incite some halfdemented person to make an attempt on the Queen's life. The Queen is loth to give up her holiday, and may re-consider her present determination, which is to remain at home.

ARE JAPS MEDDLING?

Madrid, March 1 .- The Reforma asserts it has received letters from reliable sources at Manila saying that 30 cannon, 30,000 rifles and several million cartridges from Japan have been landed at Sual, on the west coast of the Island of Luzon, about 100 miles from Manila, and have been taken thence to Malolos, the seat of the rebel govern-

ment. The Reform adds: "Japan evidently intends to act towards the Americans in the Philippines as the Americans acted towards the Spaniards in Cuba." THE ORLEANIST PLOT.

Paris, March 1 .- Nothing seems to

in the domiciliary searches, it is be-lieved, was a mere device of the premier to assure acceptance of the revision bill.

THE REVISION BILL.

Paris, March 1.-The senate continued the discussion of the trial revision bill, which was attacked and defended on the old lines. The bill, the premier pointed out, did not in the least diminish the safeguards of the accused. The government wished the whole evidence to be known to everybody, and therefore it would be printed in its entirety. The premier declared that the government wished to make the passage of the bill a question of confi-M. Waldeck-Rousseau bitterly arraigned the government for introduc-ing so incoherent a measure. CONCESSION TO CHINA. Rome, March 1.-The Famimula announces that China has granted Italy 90-year lease of San Mun Bay, in the

Province of Che Kieng. THE DUKE'S POSITION. Paris, March 1 .- An interview with M. Buffet, the representative of the Duke of Grleans, was published here this morning. He declared the Orleanists had made no advances to politi-cians or officers, but he admitted the

Duke of Orleans would be pleased to profit by a time of trouble to gain his ends. M. Buffet added: "That the duke never intended to use force." The police, it is announced, have seized only one important document during the searches recently made. It relates to the selection of a politician and provided him with funds and a title. The document also touches on the question of the appointment of a prominent anti-Dreyfus general as minister of war, but

CTATH OF ORD HERSCHELL

One of Britain's Most Prominent Public Men Passes Away.

Leading Figure in the Joint High Commission-His Demise Due to a Fall on a Slippery Walk.

Washington, D. C., March 1.-Lord Herschell, one of the joint high commissioners from Great Britain, died here at 7 o'clock this morning.

Washington, March 1. - Lord Herschell was lord chancellor of Great Britain, and was sent to the United States because of his eminent attainments, to take a leading part in the negotiations designed to settle all existing differences between the United

States and Canada.

THE CAUSE OF DEATH. During the wintry weather, when the sidewalks were elippery, he fell heavily, as he was about to get into a carriage, and broke one of the pelvic bones. He seemed to be progressing favorably towards recovery, and was in good health comparatively until about Dr. W. W. Johnston was summoned, and responded at once. He saw at a glance that the case was a desperate one, and called Dr. Maddox in consultation. The two doctors, two nurses, and Lord Herschell's two secretaries, W. Cartwright and Medworth Williamson, were with him when he died at

LORD HERSCHELL'S CAREER.

Farrer Herschell, first baron of that name, one of the high joint commissioners from Great Britain on the Anglo-American-Canadian joint commission, recently in session at Washington, was born No. 2, 1837. He was a son of the late Rev. Rydiey Herschell, don, and Helen, daughter of William Mowbray, of Edinburgh. He married in 1876 Agnes, third daughter of Ed-ward Leigh Kindersley. There is one son and two daughters living. Baron Herschell was a privy councilor, a Knight Grand Cross of the Bath, Doctor of Civil Law, Doctor of Laws, a deputy lieutenant for Kent and Durham, a justice of the peace, captain of Dean Castle, chancellor of London University, and was appointed British member of the Venezuela and British Guiana boundary arbitration tribunal in 1897. He was knighted in 1880, and was created a peer in 1876. The deceased was educated at London University, where he graduated Bachelor Arts, with classical honors. He became a barrister of Lincolns Inn in 1860, Queen's consul in 1872, bencher of Lincolns Inn in 1872, recorder of Carlisle from 1873 to 1880; solicitor-general Mr. Gladstone's cabinet from 1880 to 1885, and was lord high chancellor in 1886, and from 1892 to 1895.

In politics, Baron Herschell was a Liberal, and he represented the city of Durham in the House of Commons from 1874 to 1875. He took part in the so-called roundtable conference on home rule, the first meeting of which The sudden action of the government was held in his house, and on the ap- CALL UP LOADON BRANCH. Nicholas' Illness More Serious Than First Reported.

Dreyfus Trial Revision Bill on its Passage-Searching for Compromising Documents.

NICHOLAS IS NOT WELL. London, March 1.-This morning's papers contain reports from special correspondents, which indicate that the ill-

ness of the czar is more serious than at first related. All affairs are said to be in charge of the Grand Duke Michael, grand-uncle of the czar. The illness of the czar, together with that of the pope, tends to take the eyes of Europe from the affairs of the United States and her late war. However, it is intimated that there may be something of importance behind the

latest move of Germany in withdraw-

ing her ships from Philippine waters Paris March 1.—The senare in the Americans, a vote of 158 to 118, adopted the first paragraph of the trial revision bill. The police today searched the residences of the officials and members of the League of the French Fatherland. the League of the Rights of Men, and Baron Legoux, president of the Bonapartist committee. Numbers of documents, books and accounts were seized, and the offices of the leagues were closed. The most important papers

were found at the residence of Baron Legoux, who is representative of Prince Victor Napoleon. STOCK OF WHEAT AND CORN. Liverpool, March 1 .- Returns from public and private warehouses and docks made the stock of wheat 1,523,000 centals, and corn, 625,000 centals. These figures include the millers' holdings, while the previous holdings sent out

only included the merchants' and dealers' stocks. FRENCH WILL BACK DOWN. Paris, March 1.-It is rumored that M. Delcasse, minister of foreign affairs, has determined to accord satisfaction to England in respect to the Madagascar tariff, and that Gen. Gallieni, the French governor-general of

Madagascar, will probably be recalled. SARAH THORNE DEAD. London, March 1 .- Sarah Thorne, the actress, died at Chatham on Monday. STRYCHNINE

Resident of Neepawa Takes Deadly Dose.

Three-Year-Old Child Fatally Burned at Flesherton-Nurse Dies of Smallpox - Fatal Cave-In.

STRYCHNINE IN HER TEA.

Neepawa, Man., March 1.-Mrs. Whaley, a resident of this town, committed suicide by taking strychnine in ginger tea. She admitted to having mixed the drink herself, and is thought to have been mentally deranged. BURNED TO DEATH.

Flesherton, Ont., March 1.-While Mrs. Flynn, a poor washerwoman, was out at work, the four young children she had left at home amused themselves by putting paper in the stove. As a result, the youngest, 21/2 years old, was so badly burned that it died shortly afterward. Mrs. Flynn was fetched by one of the children, and on arriving at her house found the baby outside the house in the snow with its clothes all burnt off.

NURSE DIES OF SMALLPOX. Ottawa, March 1.-Mrs. A. L. Firn. the nurse, who volunteered her services to attend the family stricken with smallpox at Irish Creek, died at that place on Sunday morning. Soon after reaching Irish Creek she contracted the deadly disease, and after twelve days' suffering succumbed to its deadly effects.

WALKING ON THE TRACK. Merlin, had a narrow escape from being killed Monday night. As it was, his arm was broken and he was considerably bruised. He was walking on the M. C. R. track at Tilbury, in front of a freight train, and though the bell rang and the whistle blew, he did not get off till the engine struck and threw him off.

FATAL CAVE-IN.

Wilkesbarre, Pa., March 1.-An extensive cave-in occurred in the Dela-ware and Hudson mine at Mill Creek yesterday morning, killing one man and severely injuring several others. It is feared several other men will be either crushed to death or entombed. A rescuing party found Thomas Schofield crushed to death and horribly mangled, and near by were Jacob Reinard and Michael Yamrośki, who had been caught under the same fall and badly crushed. They are still alive. How many others are under the fall it is impossible to tell at present.

THE C. O. F.

Brantford, Ont., March 1 .- The 20th annual meeting of the high court of the Canadian Order of Foresters began yesterday, High Chief Ranger Elliott, of Ingersoll, in the chair. The attendance was very large.
In his annual report the high chief

ranger called attention to the fact that in this city the order was organized in 1879, just twenty years ago. The order has grown until it now numbers 30,-000 members. The history during the past two decades has been most satisfactory and encouraging, and the past year has been one of the most successful of all, no less than 5,686 new members being added. At the close of 1898 the surplus amounted to \$701,173 75. Forty-seven new courts have been instituted, and of these twelve are in Ontario, and the remainder are planted over the other provinces of the Dominion. The death rate last year was low, being only 4.56 per member. During the past year 137 death claims have been promptly paid. These amounted in all to \$143,937. This is less by \$8,000 than was paid out in the preceding

At the close of the high chief ranger's report a deputation from the city council and the board of trade was introduced, and extended the high court a hearty welcome in a lengthy address, which was fittingly responded to by the high chief ranger and several dele-

After the civic deputation had retred, High Secretary White presented his annual report, showing a total membership of 30,789. Of these 15,134 are connected with the sick and funeral benefit department; 2,212 members have been relieved, and the sum distributed among these in their sickness was

The Onward March of Catarrh

Comes to a Sudden Halt When Dr. Chase's Catarrh Cure Is Used.

Dr. Chase's Catarrh Cure is the one great remedy that has conquered catarrh. By means of the improved blower, which accompanies each box, this preparation is sent, with its sooth-ing, healing influence, to the very seat of disease. It clears the air passages, stops droppings in the throat, and headache, and permanently cures Catarrh.

Mr. James Spence, Clachan, Ont .. says: "I have been a sufferer from catarrh for fifteen years, which became chronic. I have spent a lot of money and consulted several doctors, among others a specialist in London. I have tried everything I could hear of or see advertised, without doing me any good. But thanks to Dr. Chase's Catarrh Cure, I am completely cured after using three boxes of it. I can recommend it to anyone suffering from catarrh."

stage.

The auditors' report called attention to the fact that the order has now on hand \$2,209 for each \$1,000 of insurance. E. Gartung, superintendent of organization, pointed out in his report that the average age of all the charter members in courts instituted last year was only 29.14 years, and that never before in the history of the order was the work of organization prosecuted more vigorously than now.

The Steamer Moravia Goes Down During a Gale.

No Advices as to the Fate of the Crew.

Halifax, N. S., March 1.-The steamer Moravia is reported a total wreck on Sable Island. The news was brought here by the American schooner Nannie C. Boblin, which received the information from the Gloucester steamer Arbitrator. There are no advices as to the fate of the Moravia's crew. The wreck is reported to be visible on the sand bars about five miles south of the old shipwreck of the Crofton Hall. The Arbitrator picked up two bales containing cotton socks, silks and small rubber balls. It is thought the wrecked vessel's crew may be on Sable Island. The government steamer Ab-Chatham, March 1.-Alonzo Haley, of erdeen has received orders to sail for Sable Island.

THE NEWS CONFIRMED.

Gloucester, Mass, March 1.—The schooner Mondego (Capt. William Corkum) brings news of the loss of the steamer Moravia (Capt. Witt), which sailed from Hamburg Jan. 18 for Boston, but put into Falmouth, England, short of coal, clearing from the latter port Jan. 25. Capt. Corkum reports that he sighted the Moravia on the northeast bar of Sable Island.

Mattawa Startled by a Big Conflagration.

Shaver's Sawmill at Shaverton Went Up in Smoke-Other Fires.

Mattawa, Ont., March 1.-One of the worst fires Mattawa has known in a long time broke out Monday night at 11:35 o'clock, in the store of J. O. Jencks & Co., which was destroyed, together with the Windsor Hotel, Jeffrey's harness shop, Morrison's under-taking shop, and a number of stables and outbuildings. It was 5 o'clock in the morning before the fire was under control. Very little insurance was held

by those burned out. Halifax, N. S., March 1.—The dwelling of David Fraser, at Antigonish, was burned early yesterday morning, and his wife's sister, Mrs. Nancy McPherson, was suffocated, being dead when

taken out by the firemen.

Tilbury, March 1.—H. H. Shaver's sawmill at Shaverton, four miles east of here, burned to the ground early Sunday morning. Mr. Shaver estimates his loss at \$5,000. Insurance \$3,000. The efforts of the mill hands saved their houses from a clean sweep, which would have been the result had the fire caught hold of any of them.

A COLD DAY FOR WINDSOR

Supply of Natural Gas Shut Off-Hustling for Fuel.

Windsor, March 28.-In Windsor this morning the natural gas, upon which practically the whole city depends for fuel, suddenly gave out. There was a subdued roar in the pipes, a hissing sound, and the lights went out. People who were using coal and wood stoves that had been fitted up for gas, ripped out the gas fixtures and fell back on the fuel they had been accustomed to use, but many had lost the linings of the stoves and had to get along as best they could on a cold dinner. On every hand people were chopping wood and borrowing coal, and expressmen were bringing rubber tubes and stoves that could be used for artificial gas. One man brought over several second-hand gasoline stoves from Detroit, and found ready sale for them. The trouble occurred between Kingsville and Windsor, and some suspected that someone had closed the valve of the pipes supplying Windsor

Young Men Arrested and Sent to Jail for Drunkenness Tell Where They Bought the Drink - Hessey Allowed to Go-Davis Convicted.

Strong indeed was the "cider" which John Cambridge, who lives in the old Fanton hotel on Adelaide street, sold on Sunday last, but no stronger than the case made out against him at the police court this morning, when he was arraigned on the charge of selling liquor without a license.

James Barrett, one of the five young men arrested at Cambridge's place on Sunday for being drunk and disorderly, was the first witness. He admitted being drunk on Saturday night and being at Cambridge's place. He went back Sunday morning and had, to the best of his recollection, about a dozen drinks. The "cider" was first brought up from the cellar in a jug, but later taken from behind the bar.
Mr. Love appeared for Cambridge, and put Barrett through a vigorous cross-examination.

'Were you drunk or stupid?" "I was drunk. If a man's drunk he's stupid, isn't he?" was Barrett's an-

Witness said he went to Cambridge's about 8 o'clock and was taken away from there about 3 p.m. very drunk. Wm. Dyer, another of the young men, now doing 20 days for his conduct on Sunday, swore he was perfectly sober when he went to Cambridge's on Sunday morning. They bought cider at 10 cents per quart, and this made them drunk. Cambridge brought the first few quarts from the cellar in a jug, and then he got tired, and brought up a keg, holding about two gallons. He had seen Cambridge handling a stone jar, and said he must have put something bad in the cider. Mr. Love asked Dyer if it were true that Barrett and he had been discussing some way to get even with Cambridge for having them arrested. "Yes," replied Dyer, "and why

wouldn't we?" You saw him putting something bad in the cider? What did you drink it for? You didn't want to Grink anything bad."

"I said," replied Dyer, "that I saw him handling a stone jug, and that he-must have put something bad in the cider. I did not see him do it. I have heard of the boys complaining about the cider not being strong enough, and then they got something stronger.' (Laughter.)

Mr. Cambridge told his side of the case. He said the men came to his place on Sunday, and he had to give them two drinks before they would go away. They came back again in the afternoon, and after drinking five galmiles from shore, and as nothing to be seen of the crew two days after capt. Corkum sighted the wreck, he capt. Corkum sighted the wreck, he two years, and the drink sold on Suntra cider. which he made right. Mr. Campridge said he won

This ended the case, and Mr. Love advanced the argument that the men were drunk when they went to Cambridge's place, and by drinking so much cider they had become sick and stupid. They had been drunk on Saturday night, and hadn't time to sleep off their debauch before Sunday.

Mr. McKillop said a complete case had been made out. He had put the witnesses in the box without knowing what they were going to say. The magistrate so considered it, and

imposed a fine of \$50 and \$1 85 costs, or in default three months in jail. He had no option in the matter, he said, the law on the question being positive and unmistakeable.

A charge of profanation of the Sabbath would have been laid against Cambridge had the liquor case fallen through.

Unfamiliar Tribes in the Far North To Be Dealt With

Ottawa, March 1.-In the immense tract of land north of the Athabasca River, extending from the Rocky Mountains to the Hudson bay, there are about 2,700 Indians and 1,700 halfbreeds, with whom treaty arrangements have not yet been entered into. With the march of civilization northward the necessity has arisen for negotiating treaties with the scattered inhabitants of this territory. Mining operations are being carried on as far north as Great Slave Lake, and the Indians and half-breeds have objected to the white man's invasion. The government promised a year ago to appoint a commission to negotiate a treaty, and in pursuance of this promise Hon. J. H. Ross, of the Northwest Territorial Government; Hon. David Laird, Indian commissioner, and Mr. J. A. J. McKenna, of the Indian department, will leave Edmonton about May 24 next. They will confer with the Indians and half-breeds at different points on the way to Great Slave Lake. Very little is known of these northern Indians and half-breeds, as they have never been subject to government con-trol, and have remained practically without the pale of civilization. The Indians are Wood Crees, Chippewayans and Beavers, and, like the half-breeds, are engaged in hunting fur-bearing animals for the udson Bay Company.

HEART DISEASE.

Some Facts Regarding the Rapid Increase of Heart Troubles.

Do Not Be Alarmed, but Look for the Cause.

Heart troubles, at least among the Americans, are certainly increasing, and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomache, of poor diges-

but not one case lise hundred of heart trouble is organic. The close relations between heart trouble and poor digestion is because both organs are controlled by the same great nerves, the Sympathetic and

Pneumogastric. In another way, also the heart is effected by the form of poor digestion, which causes gas and fermentation from half-digested food. There is a feeling of oppression and heaviness in the chest caused by pressure of the distended stomach on the heart and lungs, interfering with their action;

Poor digestion also poisons the blood, making it thin and watery, which irritates and weakens the heart. The most sensible treatment for heart trouble is to improve the digestion,

DOAN'S KIDNEY PILLS.

Sum up the ills to which women are subject, and the major part find ex-pression in the backache—the bane of thousands of women's lives. But back of the backache are the disordered kidneys. They are often the true seat of ill health and misery. The mission of Doan's Kidney Pills is to make the kidneys perform their proper functions; then good health is sure to follow.

Mrs. Stevenson, 211 Mary Street, Hamilton, Ont., says that she was af-flicted with pain in the back and kidneys for over four years. Sometimes it was so great that she could not attend to her household duties She was sleepless, mes troubled with a nervous, and numbness of the hands and arms.

She started taking Doan's Kidney Pills. From the very first they relieved the pain in her back and made her feel better. Mrs. Stevenson is thankful she took Doan's Kidney Pills. They've wrought a wonderful change in her. She couldn't bear to stand on her feet on account of the dreadful pain in her back, but that's all gone now. Doan's Kidney Pills have effected a complete cure.

Bonner's seconds had rubbed "oil of mustard" over the Summit man's gloves, and the fumes of it almost blinded West and Referee White. The latter ordered the men to their corners, and declared West the winner. Referee White called on police to arrest Bonner's seconds, but Jack's handlers protested, and said that Bonner's manager, Fred Miller, had handed the bottle of oil to them after the seventh round, and said it! was a good thing to use. During all this time the spectators were standing up, clamoring to know what it was all about. Master of Ceremonies Harvey, as soon as he could make himself heard, explained the matter fully, and when he announced the decision of the referee there was loud and pro-

ST. LOUIS CLUB SUSPENDED. New York, March 1 .- Disputes be-

Forest City Curling Club De tween clubs and players occupied the greater part of the time of the board of arbitration of the National League today. The principal cause taken up was the wrangle between the St. Louis Club and the Wilkesbarre Club. As a result the former club has been suspended from the league. The trouble was that St. Louis was ordered by the board on Oct. 21, 1898, to pay to the Wilkesbarre Club \$750 for the release of Pugilist Allen, Who Killed John | Ball Player Suttor Sullivan, and failed to do so. The St. Louis club is therefore cited to appear before the board and show cause. Meanwhile the club and Mr. Muckenfuss, the receiver,

> The board refused to grant Lush his release from the Rochester club. It developed during the day that with one or two exceptions, all the new York players had received contracts calling for reductions in salaries.

Muckenfuss, representing the Sportsman's Park and Club, appeared before the meeting and admitted the failure of the company to comply with the orders of the board of directors, to pay will play St. Marys, and Giencoe is the to the Chicago club \$1,000. Muckenfuss also admitted being indebted to the league for the sum of \$1,153 for dues and assessments. The matter will be referred to the league for action. The \$1,000 that St. Louis was ordered to pay to the Chicago club was the outcome of the Decker deal. It is generally expected that the St. Louis Club will be expelled from the league.

> BASEBALL IN GUELPH. Baseball interest in Guelph is undergoing a revival. Guelph will enter the

new Canadian League this year with London, Hamilton, St. Thomas, Chat-ham and Brantford. Mr. George Black, formerly of Saginaw, Mich., and this city, has assumed the management. The subscription list opened a week ago, showing almost \$1,000 already subscribed. Mr. George E. Sleeman has placed the baseball park at the club's disposal for the approaching season free of charge. FLYS.

Arthur Irwin has sold to "Billy" Barnie, of the Hartford club, Catcher Cooney Snyder. Sam La Roque, who played last sea-

son in London, will be with the Lancaster Atlantic League team this year. Ward will captain and play second base on the same team.

George N. Kuntsch, manager of the Syracuse Club in the Eastern League, has released Shiers, Lawrence and Wagner to Manager Buckenberger, of the Rochester team, and Catcher Shaw to the Hartford management. Word has been received from Presi-

dent Powers that Rochester had se-cured McHale, of the Ottawa club. Bonner, Bean and Morse go to Rochester also, and Keister, Kelly, Boyd, Cannon and Horton to Hartford. The failure of Toronto to secure McHale will probably necessitate the signing of a new outfielder. Pitcher Crystall, of Woodstock, is said to be a handy man in the outfield, and if his work on the practice trip merits it he may secure a regular position in right, Grey staying in his old position in center. Crystall is a strong batter, and a good left hand thrower.

A Montreal dispatch says: It is reported that one Eb. Johnston, a wellknown Canadian player, has been signed by the manager to cover second. The only Johnston known up here is up well. I believe as a pitcher batting, however, was very weak, he standing last, with a percentage of .081, in a list of 47 players.

WHEEL.

DEAD MAN WON THE RACE. Australian advices tell of a remarkable bicycle race in Sydney, which was won by a dead man. It occurred at a big electric light carnival. In a one mile race there were 50 entries, some of the fastest men in

Australia taking part in it. While 10,000 people watched this particular race, which was for a magnificent cup, young James Somerville passed under the tape a winner and a dead man. At the start he quickly forged ahead, closely followed by another crack rider named Percy Cliff. They left 48 riders away in the rear and shot around the track almost wheel to wheel. When within 25 yards

Seven of Her Crew Arrive at Dartmouth.

A Boat Load of Seven Missing-Serious Charge Made Against the Captain.

Dartmouth, England, Feb. 28 .- The British steamer Garton (Capt. Willis), from Brunswick, via Norfolk, on Feb. 9, for Rotterdam and Bremen, arrived here today, having on board the second officer and six of the crew of the British bark Galatea (Capt. Lewis), of this remedy, which always effects a the pitcher of that name, who was with St. John, N. B., from Turk's Island, on cure." London last season. His record shows Jan. 30, with salt for Boston, reported on Feb. 18, to have been abandoned. dismasted and waterlogged.

The Galatea, it appears from the report of her second officer was abandoned on Feb. 15, at which time she was in a sinking condition. Previous to that the bark had experienced terrible weather, and began to leak rapidly. In spite of the fact that her pumps were kept going, the Galatea made ten inches of water, and at 9 o'clock on the morning of Feb. 15, Capt. Lewis, the chief officer, the steward, the stewardess and three seamen left her in the only remaining boat, the others having been stove in during the gale. At the end of four hours the boat was lost sight of in a furious gale, and the second officer considers it impossible for her to have weathered the storm. At 9 o'clock the same evening the Garton hove in sight, and took off the remainder of the crew of the Galatea at a great risk. The high seas running prevented the boat launched from the Garton from approaching the sinking bark, so the men on board donned life-jackets and were hauled through the water, one of them having an arm

broken while being rescued. The Galatea's second officer also says that after her sails were blown away, the commander ordered the remaining boat to be launched, and that he was the first to embark in her. The chief officer followed him, and the steward was next. The stewardess and three members of the crew thereupon entered the boat. The stewardess, in so doing, fell into the sea and was nearly drowned. Capt. Lewis, according to the second officer, took with him all the provisions, and left the remainder of the crew on board the sinking ship, although, he adds, there was room for all in the boat, which hung about the bark until 1:30 p.m. and then rowed

DRAMATIC SCENE

At the Trial of Jesse James, Jun .- His Aged Grandmother in the Witness Box.

Kansas City, Mo., Feb. 28 .- A feature of the trial of young Jesse James, charged with train robbery, was the appearance as a witness in his behalf of Mrs. Zerelda Samuels, 74 years old, mother of the James boys, and grand-mother of the defendant. When the aged woman rose to be sworn, she held up the stump of the arm that was shot off by detectives who shattered her home, many years ago, with a bomb, in an attempt to arrest her notorious sons. Mrs. Samuels testified that she was at the James house on the night of the robbery, and that Jesse was sitting on the porch with her, when they heard the explosion that wrecked the express safe. Jesse James' mother, his sister, and defendant himself, gave testimony to the same effect.

ICE STOPS THE TRAIN.

Toronto, Feb. 28.-It was not snow on the Owen Sound branch of the Canadian Pacific. It was ice that caused the delay to the express from the Sound yesterday morning. Between Dundalk and Proton the train was stuck, because the snow had melted into water, flowed over the track, and then frozen into ice. When the ex-press came along it was unable to cut its way through the ice. Gangs of men were sent out to remove the ice from the rails with picks.

BOILED DOWN

A Court Courier's Race With Death-Won by a Hairsbreadth.

Antlers, I. T., Feb. 28.-The race with death of the courier of the United States court for the life of Walla Tonka, the condemned Choctaw Indian, was won by a hair's breadth by the courier, who made the wild ride from South McAlester to Alikchi.

Walla Tonka was to have been shot yesterday noon for the murder of his uncle, and came to the execution ground as he had promised to do, having been set at liberty, pending final action by the court. A few days ago a reprieve for a rehearing of the case was ordered by Judge Clayton, and the courier dispatched on the 80-mile jerney. Rain was falling in torrents and there was every cause for fear that he could not make Alikohi.

The first part of the journey was not so bad, but he had but one broncho to carry him the distance. It was after midnight Sunday morning when the rider reached the flooded Kianuchi River. Here he stopped till daylight, Time, 1:11½.

Third race, 1 1-16 miles, selling—Joe mel of his saddle, swam the with his pony. The pony was almost exhausted when Big Creek was reachers detour was necessary, ed, and a long detour was necessary, which caused hours of delay. Night came ,and more rain, and when the Seven Devils' Hill was reached the bronche staggered. He fell to the ground with the rider, and they rested for the night, though but ten miles from Alikchi. Before dawn they were up again, and finally the broncho bearing the courier staggered to the execution ground, where the witnesses, executioners, and the stolid Walla Tonka were facing death. The Indian heard his reprieve without comment, and will appear before Judge Clayton forthwith.

Managing Director John Cameron

London, Wednesday, March 1, 1899.

The South Perth Phenomenon. Returns from South Perth indicate that our Conservative friends have won a victory. Victories to them are like angels' visits, few and far beand Liberals should not bethem this solitary joy. We Perth will be hailed as the dove of promise foretelling the end of the Liberal deluge. If this delusive hope has the effect of putting Mr. Whitney and temper, they are welcome to it for the sake of public peace. Liberals can surely spare a crumb of comfort from their well-laden table, when a crumb these days is a whole loaf to the other side.

Mr. Monteith, who is elected by a majority of about 30, is said to be a creditable representative of his party. His Liberal opponent, Mr. Stock, was unfortunate enough to live just outside the boundary of the riding, and the non-resident cry was worked against him for all it was worth. It was apparently worth enough to turn the election. Mr. Stock's defeat, however does not embarrass the Government, and it may do the Opposition good. Let the latter now join hands with the Administration in upholding Ontario's rights in the lumber question, and in aiding the development of our great natural resources to the north.

Land Law Reform in Great Britain.

A remarkable debate took place in the British House of Commons on Feb. 10, of which full particulars are just to hand. It sprung from an amendment by Mr. E. Morton, expressing regret that there was no inditation in the Queen's speech that measures would be submitted to the House dealing with the ownership, tenure, or taxation of land in towns. Mr. Morton contended that drastic legislation was necessary to get rid of the evil of overcrowding in towns, and he ascribed the evil to the operation of the present law which permitted landlords to keep unoccupied land out of the market in order to increase its ultimate value. He expressed the view that the land monopoly strangled industry. Estimating the ground rentals of London at about £20,000,000 a year, he argued grouped in the world's imagination. that this value was not the creation of Two of this Titanic trio passed away proprietors, and he dwelt on the in-Justice of the law under which all rates were paid by the occupiers of building leases. The amendments of the law which he advocated were the taxation of ground values and the rating of unoccupied as well as occupied land.

Mr. Morton's amendment was seconded by no less a person than Sir John Brunner, and found a vigorous champion in Mr. H. H. Asquith, one of the Liberal and Radical leaders. He nessman in a northern town: held that members of the Opposition were perfectly justified in bringing this were perfectly justified in bringing this stand which Hon. J. M. Gibson has great question forward on the address. taken in favor of the bill or resolu-Mr. Asquith is quoted as follows:

"In great towns the soil was often in the hands of a few individuals who might capriciously refuse to let it, and in cases where they were compelled to let it they were entitled to special payments which had to be defrayed by the community. Then a landlord might let his land on the leasehold system, and eventually enjoy all the improvements effected by the occupying community, although he had not contributed one farthing to the expenses. Such a state of things called for a remedy, and he suggested that local authorities should be given larger powers of compulsory acquisition, and that the rating law should be reformed so as to render it impossible for a man to withhold his land from the public use. There ought also to be a system of municipal taxaunder which it would be possible to throw a just share of the cost of municipal development upon the owner

Sir W. Foster, who spoke after Mr. Asquith, declared that the grievances to which attention had been called affected all parts of the country, rural as well as urban, and that there was ample evidence that further powers of acquiring land ought to be granted to local authorities in order to make it possible to provide decent houses for the poor. He urged the government to make provision for this in their bill for the government of Lon-

Nearly a score of members spoke on the amendment, its chief opponents being Mr. Balfour, the Conservative leader, and Mr. Goschen, First Lord of the Admiralty. Mr. Balfour said the question was a most complicated one. That there were defects in the system had never been denied, and they were are equivalent to direct subsidies out being inquired into by a royal commission. Over-crowding was, of course, the chief evil from which most aggregations of population suffered. It existed in Scotland where there were perpetual leases; in fact it was found in all large cities, whatever might be their system of taxation or land tenure. Mr. Balfour cited the working classes act of 1890 as proof that the government had not been oblivious of the problem. He went so far as to call it "a great social curse," and said that If they were to try to do something to diminish it, they should set about it without animosity against a particular class and without prejudice in favor of any special system of taxation.

yond any human power to solve this tremendous problem. Over-crowding in towns he ascribed to the fact that more people wished to live in certain spots than there was room for, and not to the results of any law or rating system. If any further measures could be taken to prevent over-crowding, the government would be glad to adopt them. One of the difficulties in the way of those who desired to tax ground rents was the impossibility in many cases of distinguishing between and separating the interests of the landlord and the tenant, and, in any case, special contracts would always baffle every attempt to fix the actual incidence of taxation. He trusted that the royal commission might make recomtake it that in the Tory ark, South | mendations which would render possible some reform

The amendment was negatived by 157

to 123, the unexpected closeness of the vote being greeted by Opposition cheers. The large support given Mr. Sir Charles Tupper in a sweeter Morton's resolution by the Liberal party in the House is highly significant and seems to be premonitory of a deep-seated agitation. As the only hope of the Liberals is their increasing radicalism they may take up the cause of land law reform in earnest and make it the rallying cry of the democracy. Henry George, in his "Progress and Poverty," predicted that the single tax theory would make its greatest headway in the British Isles because the evils of the landowning system were more oppressive there than in any other country in the world. The professed advocates of single tax in Great Britain are probably very few, but the principles enunciated by Mr. Morton and Mr. Asquith, imply a step in that direction. The conditions in old London, where the rates fall on the occupiers or building lessees and not on the landlords, are so foreign to all ideas of just taxation in this country that it is surprising this state of affairs has been tolerated so long. The abuse, however, has become so strongly intrenched that any attack on it would arouse the antagonism of all the landed interests of Great Britain, prompted by the fear that their other class privileges would be endangered. In view of the past conflict between the classes and the masses in the Mother Country it might be well for the land owners to ponder whether an acceptance of reasonable reform might not avert revolution. Their present position certainly affords a great opening for radical aggression.

The Pope's Illness.

Unless accounts from Rome are magnified, Pope Leo is seriously ill. His loss would be felt, not only in the Roman Catholic Church, but throughout Christendom. Excepting Ruskin, he is the last of "the grand old men" who have seemed to the present generation like giants of another age. Gladstone, Bismarck and the Pope have long been last year. Is the other soon to follow?

Against Bonuses and Exemptions.

Mr. Andrew Pattullo, M.P.P., North Oxford, is receiving letters from all parts of the Province, expressing warm approval of his anti-bonus bill. The following is a copy of one of these epistles written to Mr. Pattullo by a busi-

"I am very much pleased with the tions you are introducing in the Legislature to abolish the bonus and exemption system to manufacturers now in vogue in Ontario. In order to assist you in the good work I will give you the case of my own town. About years ago this corporation gave a large loan without interest to several factories (which is not yet paid) and tax exemption for ten years. The latter privilege expired lately. The owners of these factories have made money fast; but the poor men, the widows, the working men, and the owners of small houses have beeen paying taxes for them all this time. Still these rich men are not satisfied with what they have got. Although the wealthiest people in our town, the best able to pay taxes, they have just come before our council and demanded as a right that we give them another ten years free from taxes. They say that other towns are doing this sort of thing, and they have to compete with other manufacturers. I hope and trust that you will succeed in doing away with the whole system of municipal aid to industries either by bonus, loan or tax exemption, in cities as well as in other municipalities. The whole system should be swept away.'

This fits the case of London as well. but under the circumstances little reproach can be hurled at the corporation at those manufacturers who are enjoying special privileges. New indusare granted favors of some sort. And when newcomers are so well-treated it is only natural that old-established firms should claim the same advantages-not only claim but demand them, because other municipalities hold out tempting offers. Tax exemptions, fixed assessments, free sites, and other popular methods of "encouraging" industry of the public pocket. They are wrong in principle, but a community is forced in self-defense to submit to the abuse or be left behind in the race. A castiron law is necessary to prevent this municipal grab-game. When it is realized that no special privileges can be secured anywhere, each place will stand on its own merits as an industrial center, and London is not afraid of a competition of that kind.

Mr. Pattullo evidently has the courage of his convictions, since his own town of Woodstock is asking permission of the Legislature to bonus new industries, in direct contradiction of his bill. It is to be hoped the measure will become law during the present ses-Mr. Goschen feared it was almost be- | sion

The Old Grudge Dying Out.

William Dean Howells, the American author and erstwhile jingo, in whom things British used to excite "a cold disgust," confesses that a change has come over his own spirit, and apparently over that of his countrymen. Writing in Literature, Howells tells us that he sat through a play in New York the other evening-a patriotic drama, entitled "Nathan Hale," which deals with an incident in the American revolution. In this play, the rebel hero is hanged as a spy by redcoats. The virtues are, of course, all on the side of the rebels, and the vices on the side Howells, "when this would have gone farther with me than it did; but what interested me more than its comparatively faint effect with myself was its apparent inadequacy with the audience generally. I wondered how much or how little a change in the popular mood toward England might have to do with the result. . . . I fancied that the time had been, not more remotely than the time of the Venezuela difficulty, when its (the play's) patriotic appeals would have stirred, certainly, the gallery more; and I had to ask myself whether the old grudge was really beginning to die out."

This is a very gratifying admission. The writer is undoubtedly correct in his surmise that the mental attitude of the American people toward Great Britain has undergone a real change. This altered psychology is reflected in the press, in the theater, in the public meeting, apparently everywhere except in the Joint High Commission. It may not amount to genuine enthusiasm for Great Britain, but at least it has dispelled the genuine enthusiasm against her. Mr. Howells further observes as

"In the meantime we seem to have a present condition in which we can no longer appeal confidently to the old revolutionary ardor of the popular audiences. During the past year they have become so used to seeing the American and English colors blended, and the portraits of the Queen and the President shown side by side in the kinematograph, and to hearing 'God Save the Queen' and 'Yankee Doodle' played together by the orchestras, that they are not so sure of their emotions as they once were. At any rate, I think that the day of the patriotic drama is past, and I am not altogether sorry. I have own, that in its literary expression patriotism has never been very interesting. pariotic oratory, are each distinctly inferior to things in that sort which appeal to us not as Americans, or Englishmen, or Frenchmen, or Russians, or Spaniards, but as civilized men."

A rate war among the Atlantic steamship lines is in prospect. This is much preferable from a public standpoint to a speed competition.

The trouble between the Brazilians and the French is thickening, and now a Welsh colony in Patagonia has invoked the aid of Great Britain against the Argentine Republic. The Monroe Doctrine seems to be still laid up for

In Chicago hundreds of telephone subscribers are connected every night by wire with a theater in which De Wolf Hopper is singing. They can thus enjoy his performance without leaving their homes. This is a dangerous innovation. Too many people may become desirous of going to church that

The New York Sun can produce more misinformation about Canada than any other journal in the United States .-Hamilton Spectator.

We are inclined to believe this. The other day we saw a half-column in the Spectator, clipped from the Sun, stating that the Liberal party in Canada was going to the dogs.

The Buffalo Express says the Czar's tyranny may lead to a large exodus from Finland, and that the United States and Canada would be the natural goal for these people. Here is a tip for our immigration department. Next to British-born people, Canada could have no better settlers from Europe than the Finns, who are the cream of the Russian empire.

A Lambton county correspondent sends The Advertiser a criticism of the poem of Eugene Field, printed in these columns recently, and requests that the same be forwarded to Mr. Field's address. This is impossible, as Mr. Field died some time since. When tries can seldom be secured unless they alive his address was Chicago, but it is to be hoped he has done better since.

> The refusal of our commissioners to accept an umpire in the boundary dispute does seem a little queer in view of the fact that a few years ago we were about to go to war with Great Britain for not arbitrating such a dispute with Venezuela. - Louisville Courier-Journal.

> The Courier-Journal is the most influential paper in Kentucky and speaks for the best classes in the South. The fact that so many American newspapers of the higher type hold the same opinion augurs well for the final agreement of the Joint High Commission, despite the fulminations of Sir Charles Tupper, et al.

JUMPED TO HER DEATH.

New York, Feb. 28.—During a fire in an apartment house on Columbus avenue this morning, Mary E. Prouty, a widow, was killed instantly by jumping to the ground from her apartments on the fifth floor. Mrs. Martha Boylan was overcome by smoke and was rescued by a fireman. Richard Hyde, one of the firemen, was slightly injured by falling three stories from a fre escape from the fourth to the first floor.

What Others Say.

Our Lady a Fellow.

[Cleveland Plaindealer.] Our Lady of the Snows proposes to make it warm for the Standard Oil Trust. The Canuck brother is a perverse and obstinate fellow, and there is no telling to what lengths his prejudice may carry him.

Poetic Justice.

[Ottawa Citizen.] We wouldn't like to say that it was a case of poetic justice, but here Rudyard Kipling, the gentleman who wrote the "Lady of the Snows," comes over to New York, lands in the midst of a 'steen-below-zero blizzard and is laid of the British. "The time was," writes up with what Mr. Dooley would call Howells. "when this would have gone pee-neumonia. If he had carried out his original intention and wintered up here in the banana belt of this fair Dominion all might have been well.

German Admiration or Rhodes.

[Berlin (Germany) Localanzeiger.] Whether the Cape to Cario railway be fantastic or reasonable, Mr. Rhodes is the man to carry it through. The sooner people in Germany cease to their shoulders at the mention of his name the better. It is no good calling him an adventurer or a criminal. Rhodes is cut out of the same block as Clive. In working for himself he is also working for England's greatness, and the rapture with which he is greeted in England should awaken within us a desire to do for Germany what he has done for his native land.

A Live Public Man.

[Kingston Whig.] J. R. Stratton, Peterboro, is a live newspaper man, which accounts for his activity as a politician and his usefulness as a member of the Local Legislature. Most journalists study a good deal, and Mr. Stratton is true to the habit of giving close attention to provincial issues and in speaking frankly in regard to them. His address on the future of Ontario has been published in pamphlet form. It makes interesting reading. It points out that there are some questions on which there should not be a difference of opinion. that on them Grits and Tories can unite for the good of the common-wealth. Where are they?

He Stands for the People. [Stratford Beacon.]

Judge a man by his acts. Hon. Mr. Blair is roundly abused by his political enemies, who find him a hard man to beat, but the people have reason to applaud him. He is the only minister of railways Canada has yet had that a fancy, which it might be better not to has stood up for the people against the great railway interests. At the meeting of the railway committee of the Patriotic song, patriotic fiction, even privy council the other day he gave it pretty plainly to be understood that he would not permit collusion between the railways and the Standard Oil Company monopoly to continue, and the solicitors for these companies at once wilted. As long as Mr. Blair stands for the people he need not care about the abuse of his enemies.

His Fad.

"Where is Robinson? I don't see him here today. Is he here?" asked the man who occasionally dropped in.

"He is out attending a funeral. I suppose?

"Well, he's always attending a funeral. I suppose that two out of three times, when I come to see him, he is off attending a funeral. Queer fad of Robinson's, isn't it?"

"Yes, but he won't attend any more." "No; he's out attending his own fun-

eral today."-Harper's Bazar.

Song of a Lover Rejected. Weeping, there came to Venus where

WELL KNOWN VIOLINIST

Traveled Extensively Throughout the Provinces - Interesting Statements Concerning His Experience.

STELLARTON, N.S.-James R. Murray, well known violinist, of this place, who has traveled extensively throughout the Provinces, makes this statement:

"I was running down in health and my weight fell off from 175 to 150 pounds. Prescriptions did me but little good. My trouble was called nervous dyspepsia. I seserted to Hood's Sarsaparilla and after taking five bottles I was greatly benefited. I feel as well now as ever in my life, and have increased in flesh so that I now weigh 177 pounds. I am well known in this part of the country, having followed my profession, that of a violin musician for the last 26 years. I gladly tell my friends what Hood's Sarsaparilla has done for me. Before I began taking the medieine I did not have any ambition, but now all is changed and my dyspeptic trouble perfectly cured." JAMES R. MURRAY.

PLUNKET GREENE'S CONCERT DE LUXE

The Coming Concert by Mr. Plunket Greene and Other Artists Promises To Be a Great Success.

The Governor-General and Lady Minto have very graciously extended their patronage to the concert to be given at the Grand Opera House next Tuesday evening, by Mr. Plunket Greene, the famous English balladsinger, assisted by Miss Beverley Robinson, soprano, and Mr. Melville Ellis, solo pianist. Judging by the very large number of names on the subscribers' list the concert promises to be very successful. Tomorrow will be the last day for registering names on the list, as the plan for subscribers opens on Friday morning. Citizens will do well to place their names on the list today or tomorrow, in order to be able to secure choice seats previous to the List now open at Heintzman's lic.

An English critic, in writing to a friend in this city, has the following pleasing singer, with a beautiful voice, and his programmes are of great lads, rollicking Irish and Gaelic melodies; songs of the old time and of the new. Mr. Greene belongs to a distinguished Irish family; his ther is the British representative in the Transvaal, one grandfather was a baron, another was a lord. His uncle was the archbishop of Dublin, and he has a cousin now existent who is called Lord Plunket. This is all very interesting, of course, but the important fact about Mr. Plunket Greene is that he is a great singer of songs and bailads, and by the singing of these he can touch the heart, stir the blood, appeal to the artistic taste and con-tribute very substantially to one's pleasure and musical culture.

The Venerable Prelate's Condition Improved.

Feverish Symptoms Have Subsided and His Doctors Think No Complications Will Ensue.

Rome, March 1.-The pope passed & fairly good night, and was better this morning. Dr. Mazzini, shortly after 9 but steady; 3½ cars unsold; fair to o'clock this morning, removed a cyst prime sheep, \$4 to \$4 50; medium to from the left thigh of the pontiff. The operation was perfectly successful, and he patient bore it well.

It appears that yesterday's feverish symptoms were entirely due to the cyst, from which the pope has long suffered. He now has no trace of fever, and Dr. Mazzini thinks no complica-

lambs-The offerings were light, six that the pope was suffering from rheuloads; there were not enough on sale matic fever following a chill, and that to make a difference in the prices; it was feared pleurisy would supervene.

RECEPTIONS POSTPONED.

Yesterday the pope had a prolonged fainting fit. He had a fatiguing day yesterday, receiving congratulations on the approaching anniversary of his coronation, and complained of the cold, which has been intense for two days. Dr. Lapponi found some fever and ordered the patient to remain in bed, and take a complete rest.

The receptions for March 2 and the service in the papal chapel, fixed for the following day, have been countermanded, but the diplomatic dinner, arranged for Thursday, the invitations to which have been issued by Cardinal Rampolla, will be given.

The Rome correspondent of the London Daily News says: The sudden changes in the weather brought on the pope's bowel, complaint, from which he has never been entirely free since last summer, when it was regarded as

FAIRLY SATISFACTORY.

The following official bulletin has been issued: "His holiness underwent an operation te 10 o'clock this morning, for the removal of a long-standing cyst, which suddenly became inflamed. His holiness bore the operation remarkably well, although it was impossible to use chloroform. The pope's condition is now fairly satisfactory. (Signed) Mazoni, Lappzoni." 2:55 p.m.—The pope yesterday desir-

ed that the cyst be simply lanced, but consented to its removal on the doctors insisting upon the point. The pope, as this dispatch is sent, has just partaken of eggs, biscuits and

Marsala wine. Dr. Lapponi, who remains at the Vatican ,say the pope at 1:30 p.m., and found him to be in a fairly satisfactory condition. Numbers of dispatches of inquiry as to the pope's health have been received at the Vatican, and diplomatic and other callers are arriving

SPAIN'S CRISIS HAS COME!

Premier Sagasta and His Cabinet Have Resigned-The Philippine Question Knocked Them Out.

Madrid, March 1 .- The senate, by a vote of 120 to 118, rejected the amendments to the bill ceding the Philippines to the United States. The opposition members of the committee to which the government's bill for the cession of the Philippines was referred, submitted a counter-message, which was rejected. The government carried the crucial vote by almost the narrowest majority. Senor Romero y Robledo, the spokesman of the Weylerite faction, in a speech regarded as confirming the union between himself and Genor Sagasta, and as reconstituting the Liberal party, said he considered the chamber non-existent. He advocated the formation of a new Liberal cabinet.

A MINISTERIAL CRISIS. A ministerial crisis is imminent. The cabinet is convinced of the impossibility of avoiding defeat on the final vote on the bill for the cession of the Philippines, as the opposition may increase, while the government cannot hope to gain a single additional supporter. RESIGNED!

Senor Sagasta has handed the resignation of the ministry to the queen re-

AMUSEMENTS

ROSENTHAL'S WONDERFUL PLAYING.

When Rosenthal seated himself quietly at the piano at his first concert in New York there followed the most astonishing exhibition of piano-playing ever heard in that city. Even Rubenstein has not such mastery of the keyboard, and it was freely expressed on all sides that "Paderewski must look to his laurels." Moriz Rosenthal took New York by storm as easily and successfully as the American soldiers won all their recent victories. So great was the desire to hear this "Giant of the Piano" that the sale of tickets had to be stopped, the first time such a thing happened since the days of Rubenstein. So much for the good taste of artistic New York. He appears in London on Wednesday, March 15, at the Grand Opera House.

SCOTT'S MINSTRELS. "Oliver Scott's Refined Negro Minstrels" is the title of the attraction that

will appear at the Grand matinee and night Saturday, at popular prices. The company is composed of 40 genuine negroes. As a musical organization it is said to be very superior. A large brass band and very fine orchestra lend additional charm to their entertainments. There are a number of very fetching specialties. Marsh Craig, advertised as the human enigma, is said to be the most wonderful contortionist of the age. His physical formation has puzzled scientists and physicians alike. Not only are his limbs double-jointed, but seem to be as flexible as indiarubber. His feats are of an astounding nature. His sinuous movements Sores, Ulcers, Boils, Felons, Corns, ing nature. His sinuous movements Warts, Cuts, Bruises, Burns, Scalds, and convulsions astonish and bewilder everyone. Mr. Craig is an Apollo in appearance. He has traveled all over the civilized world, and has just reguaranteed. For sale by W. T. Strong turned from an extended tour of continental Europe.

Strike of Brooklyn Bridge Train Hands

Ended in Favor of the Men in 25 Minutes-Serious Situation Among Arkansas Miners.

New York, March 1 .- A strike of the train hands employed on the Brooklyn bridge occurred this morning, and after congesting traffic for twenty minutes ended in favor of the men. The cause of the strike was a new time table and pay schedule prepared by the Elevated Railroad Company some days ago, and which materially cut down the earnings of the men. About 5,000 people cross on the elevated cars to New York every hour from 6 to 9 o'clock in the morning. The strike started at 7 a.m., and the thousands of travelers were either compelled to walk across the big structure or take the trolley cars, already uncomfortably crowded, because jammed with an impatient mass of disgusted citizens. The railroad company took down the new schedule and put up the old one, and at 25 minutes past seven the strike was over and the trains running again as

MINERS GO OUT. Little Rock, Ark., March 1.-Reports from the coal mining districts in Western Arkansas marcate that the wholesale walk-out of the miners has begun and that the biggest strike of recent years in the southwest is on. Both operators and miners refuse to budge an inch from the positions they have assumed, and there is no prospect of a settlement in the near future. At the mines of the Choctaw, Oklahoma and Gulf Railroad, in the territory, the 1,500 union miners heretofore employed are out, and their places are being filled as near as possible by 200 nonunion men. 600000000000 Lord Herschell's Death.

Marriage Licenses Issued. ZXV

The news of Lord Herschell's death at Washington this morning came as

Some weeks ago he slipped on the sidewalk and injured his knee, but the public understood he was recovering. At the present writing it is not known

what caused the turn for the worse. Lord Herschell's sudden end is doubly tragic when we recall that Mr. only \$45,276 92. Dingley, the leading American on the POSSIBLE SUCCESSORS. Joint High Commission, also met his death during the sittings of that body in Washington. His lordship was the chairman of the conference, and was doubtless a great factor in its deliberations. Considering the mass of information he must have acquired concerning its issues he cannot be adequately replaced in any future negotiations.

Lord Herschell was accounted one of the greatest legal lights in Great Britain. He was Lord Chancellor under a Liberal Government, and it was a striking testimony of his ability that a Conservative Government should choose him as its representative on the Anglo-American Commission. He made a very favorable impression in Canada and the United States upon his few public appearances, and those who have rear of a house on Central avenue is vice of his country.

SIR RICHARD CARTWRIGHT. Sir Richard Cartwright said: "I regard it as a misfortune to Canada. Not only were our relations with him most cordial, but in all respects we found asistance. Personally and politically I extremely regret his loss.' HON DAVID MILLS.

Hon. David Mills, who was an admirer of Lord Herschell, said: "Lord Herschell's death is a matter of great surprise and profound regret to people in Canada, and especially to those who knew something of his great legal attainments. The commission at Washington has been singularly fatal. Both the United Kingdom and the United States have lost men of great promise. Lord Herschell was a tower of strength to Canadian and British interests on the commission, and his loss will be deplored by his brother commissioners and by all who had the pleasure of coming in contact with him. It will be difficult to fill his place with a man equally well qualified."

The Deputation That Went to Toronto Lost Something.

When It Got to the End of the Journey It Was Minus a Purpose-

County and City Representatives Start Out Amicably but the Relations Change-Too Much Chewing-City Hail Notes.

A bewildered deputation from the London City Council and the Middlesex County Council returned home from Toronto last night. It seems that when they got to Toronto they were not quite certain as to what they went for. With a view to finding out the object of their trip they returned. A meeting of the representatives will be held at the city hall Saturday morning at 11 o'clock, when it is expected that they will discover a brand new purpose for another visit to Toronto next week, or that their suspicions of there having been at one time a purpose for yesterday's journey will be confirmed. Of the latter prospect, however, hardly any of the representatives are at all

hopeful. The impression prevailed before the deputation went away that the city representatives and the county representatives had joined hands in an effort to get the London Hospital bill passed by the legislature. It was no doubt a fact that they had joined hands. But later developments proved that in doing so they merely performed a preliminary hand-shake before the sparring match began. The corridors of the parliament buildings furnished the ring and the fight was a draw.

County Warden Hardy says the difference between the opposing delegates was with regard to a clause to make medical representation on the trust possible. The city council nad disapproved of this, he said, and the county

also objected to it. Mayor Wilson says he was willing to drop the clause relating to medical representation on the trust, but could not consent to an amendment County Solicitor Purdom desired. The bill, as it stands, provides that by general vote the management of the hospital may be taken out of the hands of the trust and assumed by the city council. Mr. Purdom held that in such event there should be a representative of the government on the council as there now is on the trust.

Solicitors Purdom and Meredith, and Ald. Garratt have not yet returned from Toronto.

The bill to provide for the appointment of two aldermen on the board of police commissioners is looked upon as doomed. It would be a waste of money to send a deputation to Toronto for the purpose of getting that bill passed,

He was blessed with an excellent one, who loved him with the rearful, tender love women lavish on an only son. His choice of a profession had been a seri-ous trouble to her, for she had a dread of war, and could not reconcile herself to the thought of having to give her precious boy a sacrifice to some political dispute; nor could any arguments induce her to think that glory would compensate for the horrors of a battlefield. But Frank, though he loved the recluded rectory in which he was born. a no vocation for the church, and li refore his parents let him go forth the world, and follow the course preferred. The Rev. In Woman's Interest

Pretty Transparent Collars.

I spoke recently of the transparent collars, and a correspondent writes to ask what I mean, says a writer in the Philadelphia Press. Are these collars put on to yokes of thick goods or are they only used on the transparent yokes?

They are used with everything. It is remarkable how a skillful dressmaker contrasts a transparent collar with a thick gown. These collars are made of mull, chiffon, Swiss and lace. They are wired, and stand erect.

I will show you what I mean by skillful adjustment in this instance: The gown was black broadcloth; the waist made a French blouse. The heart-shaped revers were edged ith chinchilla and the long, broad est was of vellow velvet corded. At throat this met a high stock collar of white chiffon. At the juncture of the yellow vest and the white collar a band of yellow velvet ribbon passed around the throat, and tied at the back in a small bow. The collar rose above this band to the ears, showing the neck through

the chiffon. It was exceedingly pretty. You understand, the yellow velvet vest only comes to the throat line. The collar is attached at that line, and the yellow velvet necktie hides the juncture, and makes a pretty finish.

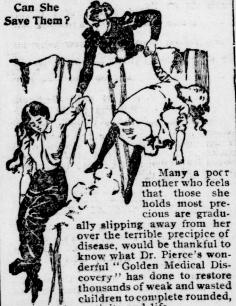

Now, about the boning of these collars. It is easy enough to say bone them, but it is not so easy to know how to do it unless you have put your collar in the hands of a skillful dressputting wire around the edge at the top, but it flopped down in the most hopeless manner in wrinkles all around my neck before the evening was half-

I took my collar to the cleverest little dressmaker, who has more ideas to the day than I have for a month. My trials amused her very much, and in half an hour she showed me the thing done to

She took featherbone, the round pliable sort, very narrow, and cut it the height of my neck. She cut five pieces and wrapped each around with a swathing of chiffon; put one in front, one on each side, and two in the back, It was easy enough to catch them through the shirred chiffon with white silk thread with blind stitching. She fastened them more securely at the top than at the bottom-and there was my collar with the most military air! This is the delicious trick about those soft collars; they never look as if one's neck was swathed, because the feather-

bone gives them a trim, trig, little air of being built right and tight. 000 Every Woman a Trained Nurse. There is a new idea which has

covery" has done to restore thousands of weak and wasted children to complete rounded, rosy, healthy, activity and life.

"My little girl had a severe attack of fever," writes Mrs. Wm. S. Vollmer, of Concord, Cabarrus Co., N. C., in a letter to Dr. R. V. Pierce, of Buffalo, N. Y. "I had two physicians for her. She had a very bad cough, raised a great deal, and had wasted to a mere skeleton; only her feet and ankles were swollen. I knew what Dr. Pierce's medicines had done for us before so I commenced giving her' Golden Medical Discovery' and a 'Pellet' occasionally.

"In a few days I noticed the fever was less; her cough gradually grew better; expectoration grew less; in a few days she sat up in bed, and soon she could take a few steps. She kept on improving slowly and after a few weeks the swelling in feet and ankles went down, and she kept on step by step until she got well. This is more than two years ago.

"Last winter. Lula (my oldest daughter) had Grippe very badly. Her physician was uneasy; he told me to be very careful or she would have pneumonia. She was left with an awful cough. I gave her 'Golden Medical Discovery' and it cuged her cough. I will be pleased to have my letter published. If persons wishing to know more about the great benefits we have received from using Dr. Pierce's medicines will write, enclosing stamp, I will gladly answer."

If mothers will only write to Dr. Pierce concerning the ailments of their family he

If mothers will only write to Dr. Pierce concerning the ailments of their family he will send them sound and valuable advice in a pain sealed envelope, and without any charge whatever. His remarkably wide experience has qualified him to deal with diseases which baffle the local practitioner,

trained in the rudiments of nursing, and to carry out the idea classes have been formed in some of the hospitals, which take up a course of only two menths.

Girls in these classes are taught to know the symptoms of disease, antidotes for poison, to take temperatures, to give the doctor an intelligent report of the progress of the case between his visits, the diet of the sick, the management of helpless persons, the proper bandaging of wounds, how to make beds, and other of the simpler things about a sick-room which are very necessary in times of illness and suffer-

The plan has been in operation for some time now, and is approved by the best physicians in New York and many of the representative women. Some girls take the training, expecting to make it their profession.

They get diplomas which entitle them to "take care of feeble, elderly persons, little children, chronic cases and convalescents," and only get \$10 a week for their services. If they grow in numbers they will be a great blessing to people who cannot afford the regular trained nurses, and who yet need intelligent help in times of sick-

But the idea of giving the training to every woman who has the time to take it is a good one. Women may be natural born nurses, but like the natural born ladies and gentlemen, they need a little of the artificial polish to shall speak of home as a test of charmake them perfect.

000 They Stoop to Conquer

There are no tables in the house of the Eskimo, and the women are therefore in the habit of placing everything on the floor. This causes them acter turned wrong side out. A man to do so much stooping that they would may receive you into his parlor as to do so much stooping that they would rather stoop than not, as to which Dr. Nansen, the Greenland explorer, tells and yet his heart may be a swamp of an amusing story. To make them more comfortable she had some stools fetched and placed the tubs upon them. By and by she lookel in to see how they were getting along, and to her astonishment discovered the women standing on the stools and stooping still more laboriously over the tubs, which still remained on the floor.

000 Dainty Dishes in Aspic.

Meat Aspic-One pint of good consomme or clear soup. The canned bouillon or consomme can be used for this purpose if it is not convenient to make the other. Half-box gelatine; half-cup cold water; one tablespoonful tarragon vinegar; salt and pepper to taste. Soak the gelatine an hour in the cold water. Heat the consomme to boiling, and unless it is very well seasoned it is wise to cook in it for fifteen minutes a half onion sliced, a slice of carrot, and a stalk of celery. Pour the consomme upon the gelatine, stir until it is dissolved, and the vinegar and seasoning, and strain through a cloth. If it is to be cut into dice for garnishing, it may be placed to form in a plain mould or pan wet with cold water. If on the contrary, in it, the aspic must be allowed to become partially cold before they are arranged in a mould and the jelly poured upon them. It will take probably three or four hours to become firm in cold weather, and longer in warm. Set it on the ice some time before serving. Either chicken or beef consomme may be used, but it must be very clear.

Tomato Aspic—Boil an onion and a stalk of celery for twenty minutes in a pint of tomato liquor. Strain and pour upon half a box of gelatine which has been soaked an hour in a half-cup of cold water. If the tomato is very tart, a teaspoonful of white sugar may be added with the salt and pepper used in seasoning. Strain through a thick cloth and set to form in one large mould or several small ones. If the latter, each tiny shape may be served on a lettuce leaf, and masked with mayonnaise. This jelly is delicious with cold meat or poultry, and there is no daintier dish than, tomato aspic formed in a border mould with celery salad filling the hollow center.

thers and sisters to meet after long separation

One night, lying on my lounge when very tired, my children all around me, in full romp and hilarity and laughter, I dreamed this dream: I was in a far country. Oriental luxuriance crowned the cities. More than tropical fruitfulness filled the gardens, more than Italian softness filled the air. And I wandered around looking for thorns and nettles, but I found that none of them grew there; and I saw the sun rise and I watched to see it set, but it sank not. And I saw the people in holiday attire, and I said: "When will they put off this and put on workmen's garb, and again delve in the mine and swelter at the forge?" But they never put off

the holiday attire.

And I wandered in the suburbs of the city to find where the dead slept. I saw towers and castles, but not a mausoleum, or a monument, or a white slab could I see. And then I wandered out to find the hovels of the destitute, and I found mansions of amber and ivory and gold, but not a tear could I see, or a sigh could I hear. And I was bewildered, and I sat down under the branches of a great tree and I said: "Where are I, and whence comes all this scene:

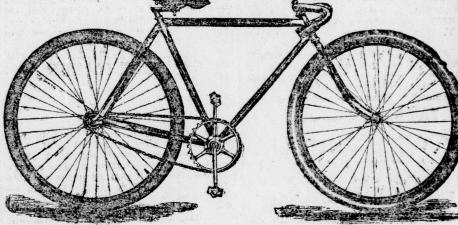

And then out from among the leaves and up the flowery paths and across the broad streams there came a beautiful group thronging all about me, and as they shouted I thought I knew their voices; but then they were so gloriously arrayed that I bowed as a stranger to stranger. But when they again clapped their hands and shouted Welcome, welcome," the mystery al vanished, and I found that time had gone and that eternity had come, and we were all together in our new home in heaven; and here I looked around and I said: "Are we all here?" And the voices of many generations responded, "All here!" And while tears of gladness were running down our cheeks, and the branches of the Lebanon cedars were clapping their hands, and the towers of the great city were chiming their welcome, we all together began to leap and shout and sing. "Home! Home! Home!"

CHRISTIAN SERVICE

Living Sacrifices or "Live Men" Are Needed for Christian Work-Dr. Munhall's Able Effort.

In spite of the storm last night, the Dundas Center Church was fairly well filled to hear Dr. Munhall. He spoke from the words: "I beseech you therefore, brethren, that ye present your bodies a living sacrifice." His theme was Christian service. He said living sacrifices. or "live men," were needed for Christian work—men who had given themselves whole-hearted to God, whose religion permeated their being and appeared in every act of their lives; men who were not conformed to the world, but transformed to the Christ type. He held the audience in wrapt attention for nearly an hour, and at the close many prayed audibly for the grace that would fit men for service, and consecrated themselves to the work. The services are daily increasing in interest and power. Dr. Munhall has a clear grasp of Biblical truth, and its fundamental principles, and drives these home to the heart and conscience of all, his eloquent words and striking illustrations clinching the well-driven nail of conviction.

THEIR ANNUAL TEA

Interesting Gathering of the Hill Street Methodist Sunday School.

The annual tea of the Hill Street Methodist Sunday school was held last evening, and notwithstanding the inclemency of the weather a very large audience was present, and apparently heartily enjoyed themselves. Tables were set in the class rooms at the rear of the building, and looked very dainty, laden with luxuries. After tea had been served, an adjournment was made to the auditorium of the church, when the following programme was rendered, with Superintendent J. H. Dickson in the chair: Musical number, Mr. Cottam; speech, Eddie Pritchard; recitation, Ruby Sanborn; dialogue, Nellie Lane, Vina Jennings, and Maggie Richie; recitation, Bartram Cottam; musical number, Mr. Cottam; recitation, Bertha Johnson; duet, Edith Mowby and May Pearson; recitation, Lily Merkly; trio, Bealia Fletcher, Vernie Kennedy and May Turner; recitation, Laura Sanborn; solo, Eva Kennedy; recitation, Eva Brunton; dialogue, May Turner and Bealia Fletcher; recitation, Lily Comber; musical number, Mr. Cottam; duet, Lennie Sanborn and Tommy Wilson; recitation, Coral Dale; recitation, Ethel Horner. Ontario Legislature Can Now Get Down to Business.

Mr. Harcourt's Revenue Bill Down To day-The House in Supply-

Good Roads. Toronto, March 1.-The debate on the budget yesterday came to an abrupt termination. Mr. McLaughlin, who held the floor when the house adjourned on Thursday last, resumed his remarks, and spoke for about 45 minutes. No one on the government side being anxious to reply, Mr. Fox, of West Victoria, followed him in a brief speech, and the motion to go into supply was carried on division.

The government will probably bring

down its revenue bill today. BILLS INTRODUCED.

Mr. Jessop introduced a bill to amend the San Jose scale act, so as to enable the county council instead of the minister of agriculture to appoint the in-spectors for the purpose of the act. Mr. McKay introduced a bill to en-able townships to be divided into wards, the ward system having been abolished as to all townships in 1898. Mr. Pattullo introduced a bill to incorporate the Ontario Historical Society. The Hon. George W. Ross, LL.D., minister of education, is hon-

orary president. Mr. Malcolm introduced a bill to amend the municipal act. It enables persons who go into the House of Industry to convey their property to the corporation in order to provide for their maintenance in the House of In-

IN SUPPLY. The house went into committee of

supply. The opposition made no great kick, except on the item for an increase of \$50 in a clerk's salary for division court inspection. Col. Matheson said the division court inspector should be sat on; but the item passed. Upon the item of public works, \$18,-750, Hon. Mr. Hardy explained that the reduction of \$3,450 had been effected by the retirement of two officials and reductions of salary of others. It had been intended to reduce the staff earlier in the year 1898, but this was prevented owing to the fact that the attention of the government had been occupied by the August session of the house. It was not, he felt, in the public interest to do away with the public works portfolio. The maintenance of public buildimpure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the complexion. expenditure, if extravagance were to stomach, liver and kidneys, and to pur- be avoided. He was afraid that if left to subordinates that extravagance would creep in. Mr. Hardy also pointed out that the expenditure in the department had been reduced by the dismissal of two or three officials, who,

because they were old servants of the department, without means, were given small annuities. The item passed after some objections to the principle of granting an-

nuities. Mr. Hoyle wished to know why the suggestions of the Law Reform Association in favor of the abolition of law stamps and judges' fees had not been adopted. The attorney-general said that the

abolition of law stamps would reduce the revenues of the province. As to judges' fees, he thought the gentlemen of the opposition were devoting more attention to the judges since their friends at Ottawa had lost the power of appointing them.

WANT GOOD ROADS.

Mr. A. W. Campbell, provincial good roads inspector, returned to the city yesterday after putting in last week in Perth and Bruce counties. Large and enthusiastic meetings of farmers at Teeswater, Wingham, Atwood and Milverton were addressed by Mr. Campbell. The farmers of these districts have taken up the good roads question in earnest, and at the meetings resolutions were passed indorsing the recommendations and suggestions offered by Mr. Campbell, and requesting the municipal councils to give effect to them as rapidly as possible. FATALLY BURNED

In Igniting the Gas, Flames Communicated to a Lady's Garments.

Brantford, March 1.-Miss Annie Eilis, aged 18, daughter of J. F. Ellis, Albion street, was fatally burned at 3 o'clock yesterday morning. Miss Ellis arose at 3 o'clock. She lit a match, and in some manner the flame was communicated to her night-

robe. The garment was made of fiannelette, and highly inflammable. In a moment the young woman was en-veloped in flames. Her shrieks aroused her mother, who wrapped a blanket about her daughter. By this means the blaze was stamped out, but not until only a few shreds of the garment remained unconsumed.

In many places the cuticle was burned and charred in a horrible manner. All that two physicians could devise was done to allay her sufferings, but without avail.

SOUTH PERTH

Mr. Nelson Monteith Elected by Thirty Majority.

Conservative Victory Contributed to by a Poor Liberal Organization and the "Sympathy" Cry.

Stratford, Feb. 28 .- Mr. Nelson Monteith, the Conservative candidate, was elected to represent South Perth in the local legislature today by a majority of 30 votes, so far as can be learned at present. The biggest surprise was in St. Mary's town, which at the general elections in March gave Mr. Mos-crip 69 of a majority. This has been turned into a majority for Mr. Monteith of 46. Other divisions have lessened the majorities of the Reform candi-The only increase was in South Easthope, where the increase was about 60.

There were two chief causes for Mr. Stock's defeat. The Conservatives refused to fight the battle on the political issues of the day, but instead made a house-to-house canvass, raising the sympathy cry and claiming that the high court judges had virtually stolen the seat from Mr. Monteith and had given it to Mr. Moscript. The other cry was that Mr. Stock was an outsider, he living in Tavistock, and on the opposite side of the road from South Perth. Besides this, there was a woeful lack of organization in the Reform ranks, as is indicated by the result in St. Mary's, while the Conservative organization was complete. A G. N. W. press dispatch gives the following returns of the election:

Majorities for Mr. Monteith; Mary's, 46; Mitchell, 71; Blanchard, 107; Fullarton, 125; Logan, 121. Total, 470. Majorities for Mr. Stock: Sout Easthope, 248; Hibbert, 79; Downie, 113.

Net majority for Mr. Monteith, 80.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, which ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. 50 cents and \$1; for sale by W.T. Strong & Co. Every bottle guaranteed.
