It Means Something

To have the largest circulation in Western Ontario, to carry more advertising than any other newspaper printed or published in this district. It means that . . .

"The Planet"

gives an advertiser the kind of satisfaction he wants, at a price he is satisfied to pay. It is the real reason—The secret others are seeking to solve. That The Planet is ever winning increased patronage and approval.

THURSDAY, SEPTEMBER 12.

UNCLE SAM'S PROBLEM.

There is but one cry throughout the world to-day, and that is "Down with anarchy!" comments the Woodstock Express. The cry is a natural one, but unfortunately anarchy cannot be cried down; and how it is to be crushed down is not so easily seen. In Russia we have an example of the energetic method of treatment, yet it is in Russia that anarchy flourishes most. The Czar lives in constant dread of the assassin. In the United States anarchy has been allowed the freedom of the winds. The leaders and apostles of lawlessness are allowed to preach their doctrines wherever they can get anybody to listen, and to spread them broadcast by means of their printed papers; yet two Presidents of the United States have fallen before the assassin's hand, and a third is now engaged in a heroic struggle for life. In Great Britain the same policy is pursued as in the United States. London is full of revolutionists and cranks, who are allowed to howl their doctrines, without let or hindrance, almost at the very foot of the throne; yet Great Britain has remained remarkably free from the political assassin.

How is it to be accounted for? For one thing, in Great Britain, while the utmost liberty of speech is permitted, open disrespect for law and authority is not tolerated, much less encouraged. It may be that no human provision can guard against the man to whom murder is a virtue, and who is willing to give his own life in return for a little brief notoriety; but the anarchist assassin is usually the mere materialization of a spirit of lawlessness; and while it may be impossible to guard against the individual, something may be done to stamp out the spirit which gives him his motive. Czolgosz may not be by nature a vicious man. It may be that he is merely an impulsive simpleton, without the ballast of a moral nature. No doubt he thinks himself a hero, and no doubt, had other influence been brought to bear on him, he might have been a hero—he would probably have risked his life in a good cause as freely as he did to commit murder had his surroundings given him a generous impulse instead of an evil one.

In the United States it is getting to be the custom to ridicule all authority, from the Supreme Court down to the ward boss. Apparently respectable newspapers speak of the Supreme Court of the United States in terms which in this country would be regarded as little less than sacrilege. In the South organized mobs hurl defiance at courts and officers alike and arrogate to themselves the powers of life and death. And they are allowed to do so with impunity. Thus the law and those who should maintain its sovereignty are brought into contempt, and the way is paved for the anarchist. The United States must

in some way rid itself of the vipers it has been warming in its bosom, but no remedy will be effective till those who are in authority succeed in restoring a healthy tone in the community and a wholesome respect for law and order, by showing that the law is worthy of respect and must be respected.

JOURNALISM AT DAWSON.

Out of the way "print shops" are always interesting, and the particulars published by the Inland Printer, of the prices paid for a paper in Dawson, nearly the same size as The Planet, should make those people ashamed who grumble at paying two cents for their local newspaper. The Dawson Daily and Weekly News was established at Dawson, Yukon territory, July 31, 1899, by Capt. R. Roodiger, and Wm. McIntyre, of Tacoma, for sixteen years proprietor of the Tacoma Evening News. The daily is a well gotten up and neatly printed six column, eight page paper, while the weekly consists of sixteen pages. Capt. Roodiger is the general manager and resides in Tacoma. While J. Harmon Caskey holds the position of local manager at Dawson. The publication has been a good paying enterprise from the start and is now valued at \$35,000. W. M. Wilson, of Seattle, attends to the advertising in the United States. The salaries paid on the paper range from \$200 to \$250 per month. Hand composition, when done, \$1.65 per thousand. About sixteen people are employed in the different departments. A. H. Devers, from Chicago, is in charge of the job department, and Arthur Peterson, of Tacoma, and Jay R. Barber, Seattle, are machine operators. Mention has already been made in these columns of the linotype machine which was taken to Dawson for use on this paper. It was machine No. 5,801. The Seattle Daily Times, of April 13, gave a very interesting history of the trip of this Alaskan pioneer machine, with a picture of Mr. Barber.

The mode of distribution of papers is by dog teams in winter and by horses in summer. The carriers' runs range from 50 to 250 miles a week. The paper is circulated upon every creek in districts where work is being done. The daily is delivered the same evening it is published at the Forks, 15 miles distant. The daily is sold in Dawson at 25c per copy, or \$4 per month, at the Forks for 25c per copy, or \$5 per month. The weekly sells for 25 cents per copy in Dawson, and at 50 cents per copy on the creek. Newsboys average \$5 per day in street sales.

Mr. Caskey, who was recently in Chicago, stated that aside from purchasing a year's supply of stock he would take in a half-tonne etching plant and competent workmen to run it. The News is now erecting a modern building, to be completed early in June.

The prices obtained for printing in Dawson, would seem rather high to those who live nearer the sources of supply. Customers there demand first class work, want the best of stock used, and are willing to pay for it. Here are some of the prices, the figures being per thousand: Letter heads \$22.50; bill heads, 25, \$30; envelopes, 45, \$30; cards, 63 to 55, \$15; cards, 36 to 15, \$17.50; 1-16 sheet dodgers, \$12.50.

There continues to be nothing but favorable news from the sick room at Buffalo, and all the world rejoices.

The falling leaves, the gathering in of the harvest of over ripe strawberries, the storage of the bathing suit and the re-opening of city residences are harbingers of golden autumn's chilly coming.

It is quite possible that the effort to try and remember how to spell his own name may have unhinged the mind of Mr. Czolgosz, and made him ripe meat for receiving the teachings of anarchy reduced to practice.

Czolgosz is apparently a living example of the danger, there is in preaching red hot doctrines of class hatred into the ears of an indiscriminate audience. Some take such doctrines literally; others as a behest to go out and commit murder.

The duke will miss the Great Peninsular Agricultural and Industrial exposition and equestrian demonstration. Poor Cornwall!

If Sir Wilfrid Laurier had ignored Mr. Richardson's first letter, points out the Hamilton Spec., he could now ignore the second, without creating the suspicion that the second is too much for the statesman.

Every Canadian newspaper we pick up has an interview with some local man who was within two feet of the assassin at Buffalo when the shooting went on. There must have been a numerous and much compressed gang of Canadians in Mr. Assassin's immediate vicinity.

Expel the air forcibly from your lungs, and always when drawing in your breath, inflate your lungs fully so that air fills the upper part of them. Do this and you never will be troubled with baldness according to Dr. Delos L. Parker, of Detroit, who exhaustively supports his theory in a current number of one of the leading medical journals. If you hear a brigade of bald heads coming down the avenue puffing like gasoline engines, do not be alarmed. They are merely trying to work up a second crop.

GUARD THE DUKE.

From now until the Duke leaves Canada every man whose business is not known in every city to be visited by the Duke, should be carefully watched.

WILL SUIT BOTH.

Tilsonburg has a strike that will be welcomed both by labor and capital. They have struck oil there.

HIS DELUDED IDEA.

Such an act as that of Friday is a bar to all true progress. The cause which is chiefly hurt is the cause of the common people, in behalf of which the would-be assassin may have persuaded himself he was acting.

CENSUS SKIPS.

We have in mind just now a well-known professional man who in conversation a few days ago stated that he had seen nothing of the enumerator and supposed he had been missed. A Broadway business man was overlooked in the same manner. In both cases, the men in question must have been known to the enumerators, and if they missed well known citizens there is not a strong probability that they would miss a number of those residents, who are either less generally known or move in the more humble walks of life!

UNIONISM PUT TO A TEST.

Washington Post.
"Let me look into your hat, please. I must also inspect your clothing. Now, take off your shoes while I look inside for the union label." Hereafter delegates to the New York Central Federation Union cannot pass into its weekly meetings without examination on the above lines, spoken by the sergeant-at-arms, who is instructed by resolution adopted three months ago to inspect every labor representative's hat, coat, pants and shoes and to deprive him of both seat and vote in the body unless he can show by label that his clothing is union made.

TROUBLE IN THE CAMP.

London News.
Mr. Dryden says that he will not retire at the request of "any man like Mr. Pettipiece," and Hon. Mr. Stratton comes up to East Lambton to tell the Liberals there that Mr. Pettipiece is a wonderful man. Mr. Stratton says that Mr. Pettipiece is too independent for Mr. Dryden, but he does not say that he is too independent for Mr. Stratton.

In the inner politics circles the rumors of dissension are almost past the rumor stage. Men who know tell of what they have heard cabinet ministers say of other cabinet ministers, or repeat what someone tells them that a cabinet minister had said of a colleague. These are rumors and need not be repeated, but the actions of cabinet ministers who "in their little nest should agree" are unusual just now. It is time that

SAFER HERE.

Hamilton Herald.
The Pan-American Exposition authorities were very anxious for a visit from the Duke of Cornwall and York. In the light of yesterday's tragic event, it is probably well that the arrangements for the tour of His Royal Highness do not permit him to go outside of British territory.

GREAT FIRE IN AUSTRIA.

Trieste, Sept. 10.—The largest oil factory in Austria was burned last night. The damage amounts to four million crowns.

JAPANESE LENIENT.

KING EDWARD AND THE CZAR.

Copenhagen, Sept. 10.—The Royal family of Denmark and King Edward and Queen Alexandra of England took luncheon with the Czar and Czarina on board the Russian Royal yacht Standard to-day. Afterwards the yacht, with the Czar aboard, started for Dantzig. The Czarina, with her children, sailed for Kiel on the yacht Polar Star.

AUSTRIA'S LATE EMPRESS.

London, Sept. 10.—A low requiem anniversary mass for the repose of the soul of the late Empress Elizabeth of Austria, who was assassinated at Geneva, Sept. 10, 1898, was celebrated in the Roman Catholic Church of the Immaculate Conception in Berkeley Square this morning. All the members of the Austrian Embassy in London attended the services. Similar services were held in the various capitals of Europe.

FELL FROM FOURTH STORY.

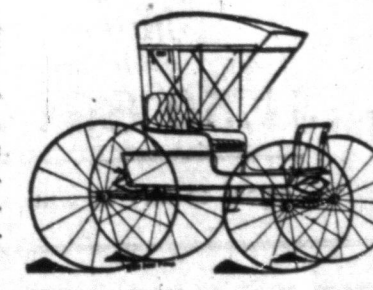

Toronto, Sept. 10.—At the noon hour to-day John Anderson, aged 17, who resided at 85 Lindsay avenue, and who was engaged as a decorator at the Pottery warehouse of Givens, Kent & Co., attempted to cross the window sill from one window of the fourth story, in the rear, to another. He missed his footing, and fell to the ground. His head struck a projecting iron in his fall, and his skull was terribly crushed. Anderson was alive when picked up, but died a few minutes afterwards.

THE MARKET

THE LOCAL MARKETS

Planet Office, Tuesday evening, September 10.
John Waddell, of the firm of J. B. Stringer & Co., gives The Planet the following grain gossip:

Wheat is offering in fair quantities, with the millers getting most of it for the present. Exporters are not in the market to any extent yet, so shippers are not active buyers so far. Price holds steady at 86c.

The coarse grains, like oats and barley, are in good demand, for export, chiefly via Portland and Montreal to London and Liverpool.

Barley brings 85c to 93c as to quality, and white oats 81 to 82c. Offerings are not anyway free yet, still there is a little doing.

Corn—Old crop, continues in good supply considering lateness of the year and meets with good demand, situation never being healthier for owners of it, for price holds around 50c, a most satisfactory value comparatively to other years. The new crop will be on the market in November, and will start at a good price and the yield promises to be a large one, though not perhaps, as heavy as last years.

Old beans are about all gone from farmers' and shippers' hands now. The new crop will be on the market in about a fortnight, only small lots for a time, but receipts will soon increase and by middle of October a good shipping business will be under way. The market for new in Michigan is unsettled and easy, and this market is in sympathy. There are some growers looking for \$1.50 for their new crop.

The following are the prices:

Wheat, 86c.
Mixed oats, 31c.
White oats, 32c.
Barley, 90 to 92c.
Corn, shelled, 53c.
Ear corn, 48c.
Beans, primes, \$1.50.
Buckwheat, 45c.

HAY.

The following are the prices:
Hay, clover, \$5.50 to \$6.
Hay, baled, \$5.50 to \$7.50 per ton.
Hay, loose, \$5 to \$7.
Hay buyers are paying \$4.50 to \$5.

SEEDS.

Millet, 40c.
Red clover, \$5.50.
Alfalfa, \$6 to \$6.50.
Timothy, \$1 to \$2.
Alfalfa, \$5 to \$6.50.

WOOL AND HIDES.

Wool, washed, 12c cash, 13c trade.
Wool, unwashed, 7c cash, 8c trade.
Calf skins, 6c to 7c per lb.
Lamb and shearings, 20 to 25c.
Cow hides, No. 1, 5c; No. 2, 4 1/2c.
Pelts, 15 to 20c.
Horse hides, \$1 to \$2.50.

HOUSEHOLD SUPPLIES.

On the square there was all kinds of fruits and vegetables Saturday at about the same prices as last Saturday, with the exception of tomatoes, which are about 35 cents more per bushel than quoted last Wednesday. Potatoes are offered at from \$1.50 up per bushel. Potatoes are the same at \$1.25 per bag. Plums are a little lower, especially blue plums, which are 25c per basket.

White fish 10c lb., dressed.
Lake Huron trout, 10c lb., dressed.
Yellow pickerel, 10c lb., dressed.
Blue pickerel, 6c lb., dressed.
Sturgeon, 10c lb., dressed.
Herring, 25 to 50c, dozen.
Perch, 25c dozen.

MEAT.

Pork, 9 and 10c.
Mutton, 7 and 8c.

OUTSIDE MARKETS.

HENRY CLEWS' REPORT.

Henry Clews, in his weekly report to this Journal, says:—

The crop situation is decidedly better than one month ago and corn seems to have made considerable gain in condition. It is late corn, however, that is depended upon for recovery and early frost would be very serious. With late frost the corn crop may run up to 1,400 or even 1,500 millions. The yield of cotton also depends largely upon a late frost, owing to the damage in Texas by drought.

A good deal of talk is heard about the big holders combining to put up the market. Their power to do so will hardly be questioned; but they will probably take a more favorable opportunity than the present, and are very unlikely to take the public into their confidence in advance. Later on we may see a rise, but for the present we advise selling on the rallies and buying only on pronounced declines.

TORONTO GRAIN MARKET.

Toronto, Sept. 10.—Wheat.—The local grain market is quiet, and prices, with exception of oatmeal, practically unchanged. Sales of old white and red to millers, at 68 to 68 1/2c; white freight, new white, dull, at 65c; to millers. No. 1 spring nominal at 68 1/2c; middle freight, and No. 2 goose at 64c; middle freight. Manitoba, old, is held at 81c for No. 1 hard, and 79c for No. 2, grinding in transit, prompt shipment; No. 1 new, hard, September is quoted at 80 to 81c, Toronto and west 2c lower.

Oats.—The market was quiet at unchanged prices. New No. 3 white sold locally to millers at 34c.

Peas.—Trade quiet, and prices unchanged. No. 2 is quoted at 70c high, and at 71c, middle freight.

Barley.—The market is steady. No. 2 quoted at 46 to 47c; No. 3 extra at 45c, and No. 3 at 42 to 44c, all middle freight.

Corn.—Market quiet, with sales of No. 2 Canadian yellow at 53 1/2c west, and mixed at 54c. U. S. yellow nominal at 61c, on track here.

Rye.—The market is steady, with sales at 50c middle freight.

Buckwheat.—Market dull, with the prices purely nominal.

Flour.—The market is quiet. Ninety per cent patents quoted for export in

"Played Out"

Is one of the curious expressions used for worked out. Many a woman drops into a chair, in utter weariness "all played out," and wonders why she feels so weak. She has not yet realized that the general health is so intimately related to the local health of the womanly organism, that weakness must follow womanly diseases.

Restoration of the general health invariably follows the use of Dr. Pierce's Favorite Prescription. It regulates the periods, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep.

There is no substitute for "Favorite Prescription," for there is nothing "just as good" for womanly ills. "I wish to advise the suffering women of this great land, of the good I have received from Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,'" writes Mrs. Mary Shapley of Columbus Grove, Putnam Co., Ohio. "For four years I had been a sufferer from female troubles, and at times was unable to do even the housework for three in the family. I had such pains in my back and legs, that I could not walk, and I suffered almost death doses of time, but after taking five bottles of your medicines I can truthfully say that my health was greatly improved. I have a good appetite and am gaining in flesh every day. This spring is the first time in five years that I have done my house cleaning all by myself and without the least fatigue whatever. I hope all suffering women may find relief as I have done."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only, or for cloth-bound book, send 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

bbls., at \$2.90, middle freights. Choice straight rollers in bbls., locally, and for Lower Provinces, \$3.15 to \$3.25. Hungarian patents, \$4.05, bbls. included, at Toronto, and strong bakers' \$3.75.

Oatmeal—Market is lower; car lots at \$3.75 in bags, and \$3.85 in wood. Broken lots, Toronto, 30c per bbl. extra.

Millfeed—The market is quiet with offerings small. Cars of bran for shipment, quoted at \$13, west, and shorts at \$15 west. Ton lots of bran sell here at \$14.50, and shorts at \$16.50.

TORONTO DRESSED HOGS.

Toronto, Sept. 10.—Dressed hogs are unchanged at \$9.25 to \$9.50. Hog products in good demand.

TORONTO PRODUCE.

Toronto, Sept. 10.—Butter—Receipts are heavy. Bulk of arrivals only second grade. For really choice fresh made, there is a demand, but any thing not up to the standard is slow and hard to move. We quote selected dairies, fresh made, at 16 to 17c; choice 1-lb. rolls, 18 to 19c; off grades, in rolls, tubs and pails, 13 to 14c; creamery solids, 20 to 20 1/2c; creamery in prints, 21c.

Eggs—Receipts the past week have been heavy, but all the stock of good quality is going into cold storage. Deliveries were heavy to-day, and somewhat affected by the heat. No. 2 are quoted at 7c to 9c; fresh candled eggs, 12 to 13c.
Cheese—Finest, 9 1/2 to 9 3/4c; seconds, 9c to 9 1/4c.

TORONTO FRUITS.

The receipts were fairly large to-day and trading brisk. We quote:—Grapes, small baskets, 20 to 25c; do, large, 40c to 50c. Peaches, basket, 35 to 45c, for ordinary, and 60 to 85c for yellow. Plums, 30 to 35c per basket. Pears, 20 to 30c. Apples, 20 to 35c, per basket, and \$2 to \$3 per bbl. Blueberries, basket, 85 to \$1. Lawton berries, 6 to 7 1/2c. Bananas (first), \$1.50 to \$1.60 per bunch. Lemons, box, \$4 to \$4.50.
Cucumbers, basket, 12 1/2 to 15c; for pickling, 40 to 50c. Tomatoes, basket, 12 1/2 to 15c. Watermelons, 20 to 35c each. Muskmelons, 12 quart basket, 12 1/2 to 15c; large basket, 25 to 40c.

As Common as Glasses Are

There are not as many worn as there should be. Few people commence wearing them soon enough. Not enough attention is paid to the earlier symptoms of eye trouble.
People put off getting glasses as long as they possibly can. It isn't the proper way to do.
Glasses will cure the milder cases. Wear them for a time and then they may be laid off.
More advanced cases may need the constant wearing of glasses.
We are always ready to examine your eyes. We will give your case our closest attention.

CANADIANS DEFEATED

Lost International Cricket Match by 94 Runs.

American Bowling Was Too Strong—A Fine Innings for A. W. McKenzie—Wicket Was Wet.

Ottawa, Sept. 11.—The Americans won the international cricket match by a margin of 94 runs. In their first innings they scored 168, and in their second 156, making a total of 324. The Canadians got 128 in their first innings, and 102 in the second, a total of 230. The visitors won for the very good reason that they had the better eleven; they excelled the Canadian players in batting and in bowling. The bowlers were about equal as regards ability. Lester and Clark practically did all the bowling for the Americans, and for McKenzie in and Bristolow took the greater part of the time for the Canucks.

What luck there was fell to the portion of the visiting players. They were at bat in their two innings when the wicket was in the batters' favor. The Canadians, on Monday and Tuesday afternoons, batted late, when the light was bad, and the wicket out of play. Yesterday morning the Canucks, with seven wickets to fall, went in to bat on a heavy wicket, which favored the bowlers. The seven wickets went down for 60 runs, of which A. W. McKenzie, by the hardest hitting of the match, scored 24, not out. One of his drivers went to the fence by the club-house, and would have went over the fence had the ball not struck the trees. The batter was rightly given six runs. The hit was the longest made during the match. It was unfortunate that Chambers was bowled so soon by Lester, for McKenzie was hitting that bowler and Clark with the utmost freedom, and the Americans were fielding near the boundary for him.

AMBUSHED

Gen. Smuts Narrowly Escaped Capture in Cape Colony While Wounded.

Pretoria, September 12.—While Col. Monro's column was returning from Barkley east to Dordrecht, it was attacked by Boer Commandants Fouries and Myburgh in Wolvekloof. The advance guard was well in the pass when a terrific fire was opened on them from the heights above the river. The British were in a precarious position on the flat, where there was little or no cover, but they were unharmed and returned a rapid and unbroken fire. The British had four wounded. It is reported the Boers had four killed and a number wounded.

On the following morning a reconnaissance force, with big guns cleared Wolvekloof of the Boers, who retreated in the direction of the Drakensburg. The British followed the burghers for a considerable distance, shelling them incessantly.

Cape Town, Sept. 12.—The Riversdale district of Cape Colony has been entirely cleared of invaders.

Two alleged Boer spies have been arrested at Moersdale. The Dordrecht company surprised a party of Boers and ordered them to surrender. The Boers refused and the British opened fire, wounding Gen. Smuts and another Boer and killing Capt. Arndorff. Smuts succeeded in making his escape.

OVER A DOG

Two Farmers at Merin Settle a Small Dispute Over the Keeping of an English Setter.

One of the cases that came up at the Division court at Merin yesterday was that of Hickey vs. Bennett.

The plaintiff is the owner of an English setter sporting dog, claimed to be worth \$25, which he lost in December, 1900.

The dog came to the defendant's premises and he endeavored to whip it away. It still remained, so he chained it up and took care of it until the 29th August, when the dog was demanded by the plaintiff. The defendant refused to hand over the dog unless he was paid for keeping it. The plaintiff refused and the defendant claimed compensation for keeping the dog.

The case came up before a jury, and after considerable deliberation, the verdict was returned for the defendant, giving \$5 for the keeping of the dog. The defendant is also entitled to his costs. O. L. Lewis for the plaintiff and J. B. Rankin for the defendant.

TOURNAMENT

The Local Tennis Club are to-day Competing for the Championship of 1901.

The annual tournament of the Chatham Lawn Tennis Club is being held this afternoon on their grounds, King street west.

This tournament is held to decide the championship of the club, and much interest is being taken in the results, and it is expected that the contest will be very close. Handicaps have been given to those players who are not so fortunate in being such experts in the game as others and this also will tend to make the contest a very close one.

The following is the schedule of the games which will be played, giving the handicaps of each player:—
Brackin, S. vs. Dennis, plus 1-2 15.
Harrington, plus 1-2 15, vs. Creighton minus 15.
Willoughby, S. vs. Turnbull, S.
Dunn, minus 15, vs. Coote, S.
Martin, S. vs. Gibson S.
Russell, plus 1-2 30, vs. Douglas plus 1-2 30.
Turner, plus 15, vs. Mussen, minus 15.
Fleming, minus 15, vs. Fraser, minus 1-2 30.

SHOT IN MOUTH

Young Girl in Lobo has a Marvellous Escape From Death

London, Ont., Sept. 12.—Likely to recover, Dorothy Alway, the 12-year-old daughter of Reuben Alway, who lives on Can. 3, of Lobo, near Komoka, has had a marvellous escape from death. Tuesday evening she was shot in the mouth by her brother, who is a two or three years older.

The shooting was purely accidental. The young man was riding of which he is very fond, and was going to the mouth at an angle. Several of the upper front teeth and parts of the jaw were carried away. The bullet next encountered a wagon-box which was near by, and embedded itself near by.

But for the fortunate angle at which the bullet entered, the result would in all probability have been fatal. Dr. Graham, of Lobo, and Dr. Morris, of Chatham, were called, and probed for the bullet. No very serious outcome was expected. The young girl was yesterday doing quite as well as could be expected.

Wm. Gray & Sons' Magnificent Exhibit Much Eulogized in London.

One of the finest exhibits of the Western Fair at London, is that of Wm. Gray & Sons of this city. Of it the London Free Press says: "Never in the history of the Western Fair did the Transportation Building contain a finer display of carriages and in this record display, the exhibit of Wm. Gray & Sons of Chatham is the largest and most conspicuous."

The standard for Canada, and when one looks at these fifty magnificent carriages, it is easily seen that that standard is a very high one. One of the most striking things in the exhibit is a doctor's Stanhope. It is fitted with rubber tires, and is the counterpart of those driven in Hyde Park, London, England. A light two-seated surrey tricycle in whipcord, attracted a great deal of admiration, and several stivers, are at once exquisite in design and unsurpassed in easy running qualities. The London agent for these carriages is Mr. J. H. Moran, 363 Tulsebut street. Anyone who will visit this spacious show room, opposite the Market Square, will find Mr. Moran ready to show them a truly magnificent stock of Gray's carriages.

Impressive Funeral Services of the Late Robert Ferguson, M. P. P.

Obsequies Were Largely Attended and Gave Evidence of the Universal Esteem in Which he was Held.

The funeral of the late Robert Ferguson, M. P. P., whose death occurred Saturday evening, took place at Chatham yesterday afternoon at 2 o'clock, and was one of the largest funerals ever known in Kent.

People were present from all over the Province. Among a host of others, those from Chatham who were there were: Sheriff Gemmill, John A. Walker, Chief of Police Wm. Young, Judge McLean, James Holmes, Dr. Fleming, G. F. Schofield, Dr. R. Farquhar, Rev. Geo. Stephens, M. P. W. R. Peck, Judge Hall, Edwin Bell, Dr. J. H. Duncan, W. A. Thresher, J. E. Thomas, S. J. Gaidner, J. G. Kerr. Others who were present were: Warden C. L. VonGastlen, of Blenheim, T. L. Pardo, M. P. P., W. D. Samson, Blenheim, Dr. Samson, Windsor; John Lee, Highgate; Hon. McGee, M. P. P., of Windsor; Hon. David Mills, Rev. G. Munroe, of Ridgeway; Dr. Battisby, Chatham; Rev. J. Brown, Bothwell. There were also a large number from London.

By Mr. Ferguson's death the country loses a man whose place both in private and public life it will be hard to fill. The esteem in which he was held by the community was plainly shown by the large number who attended the funeral yesterday.

The pall-bearers were: Messrs. Jno. Lee, Highgate; John Walker, Chatham; Sheriff Gemmill, Chatham; B. Willson, Ridgeway; Geo. Sherran and L. Sherman, of Thamesville.

The nephews from a distance who were present were: Rev. Mr. Borland, of Collingwood; Judge McCrimmon, of Whitby; Dr. Stewart, of Thamesville, and Dr. Duncan, of Chatham.

The funeral cortege was very lengthy. Interment was made in the Thamesville cemetery, which is about half a mile out of the village, and when the hearse arrived at the cemetery rig was still leaving the village. Rev. Mr. Melnis performed the services at the grave. In spite of the very large crowd in attendance the funeral was ably managed and in a way that avoided any confusion whatever.

One notable feature of the obsequies was the piling of the flowers on a grave. They were placed in a manner so as to form a pyramid.

The service, which was conducted at the home, was very impressive. Rev. Mr. Melnis, of Thamesville, presided. Rev. Mr. Munroe, of Ridgeway, opened the service by reading a very appropriate passage of Scripture. He was followed by Rev. Dr. Battisby, who, after reading a resolution passed by the Presbytery at their last meeting, expressing their regret at Mr. Ferguson's death, their appreciation of his services and the sympathy

they felt for the family, offered up a beautiful prayer.

Rev. Mr. Melnis then gave his address, choosing his subject from Heb. vi., 12.—"That ye be not slothful, but followers of them who through faith and patience inherit the promises."

From this subject the reverend gentleman gave a very earnest, eloquent and appropriate address. He reviewed in general terms the life of the deceased. He pointed out that although Mr. Ferguson was a modest, retiring man, not wishing to put himself forward in any way, still there were many things in his life that not only deserved admiration but imitation. He laid particular stress on the sterling honesty of the deceased, and of his faithfulness to the community he represented; also his faithfulness to his own church.

"I have seldom met with a man who took such a deep interest in church work," said the minister.

"Mr. Ferguson was always a very liberal member and an exceedingly attentive and patient hearer. He took a great spiritual interest in everything pertaining to the church."

These hymns were also very appropriate, the last one being, "Asleep in Jesus."

Rev. Mr. Brown, of Bothwell, closed the services at the house with the benediction.

AN OCEAN CEMETERY.

THE MOST DEADLY TRAP FOR SHIPS IN ALL THE WORLD.

Bare, Black and Treeless Quessant, the Notorious Island of Terror, and the Awful Forests That Supply It With Wood in Plenty.

Far out in the Atlantic ocean, off the northern French coast, almost due west from Brest, lies a great rocky island that is one of the most deadly traps for ships in all the world. It is the island of Quessant, the notorious Ile de l'Epouvante, the island of terror. Bare, without a tree to break its monotony, it lies in the path of the ships seeking the English channel. If they steer too far north, the hundred shoals and reefs of the British coast open their jaws for them. If they sail too far south, Quessant reaches for their bones.

Bleak and far away from any other land as the island of terror is, it still has its population. What mysterious thing is it which attracts that population and makes it cling? The infrequent visitor sees funny flocks of little sheep, scarcely twice as large as hares. He sees small herds of rough coated ponies almost as tiny as the sheep. These are the only signs of productive industry to be seen. There is fishing, of course, but fishing can be prosecuted better from the mainland, with less risk and a more convenient market.

What is the mysterious attraction, then? So asked Alexander Shuette, the traveler, when he made his way from the coast of Brittany to Quessant. The answer came, at least in part, one evening when a great storm swept in from the Atlantic and beat at the shores with unexampled fury.

He says: "The daughter of my hostess led me up the narrow staircase to my room. As I ascended I noticed, without remarking the oddity of it at the time, that the staircase was of shining oak. I was ushered into my room, a large, low chamber, completely paneled from top to bottom. Putting the lamp on a huge oak table that shone like a mirror, she said: 'If you should need more firewood, monsieur, you will find it in the next room. Do not spare it. It is bitter cold, and there will be more than enough firewood in Quessant in two or three days. Good night.'

"I sat down before the blazing fire and prepared for a cozy evening. The storm raged in the narrow streets of the little village. The surges thundered against the granite breast of the coast like endless artillery fire, and sometimes I imagined that the very island trembled under the onslaught of the hundreds of millions of tons of water.

"As I sat listening I gazed into the flames. The wood struck me as strange. And then I wondered. On the entire island there is not a single tree, and yet I had been told not to spare firewood. There will be more than enough in two or three days."

"I arose and opened the door into the next room. That room was possibly 20 feet high and was filled almost to the top with timber. First with wonder, then with growing awe, I gazed at the piles of wood. Truly she was right, the little maid, when she said that one need not be economical with firewood on the island of Quessant. There were timbers of every shape—splintered masts and spars, planks from decks and sides, remnants of a steering wheel, benches from the fore-castle, yellow, black, brown, white and red woods, even two figureheads, some bright, as if they were new, some crusty with shells and hung with seaweeds. In the entire room there was not a piece of wood that did not come from some wrecked ship.

"When I returned to my room, I took the lamp and examined the place closely. I noticed a strange, delicate, yet very insistent fragrance—sandalwood. Thick, wooden pillars supported the ceiling. They were of a beautiful dull black—ebony, as I lived. The panels were rosewood, mahogany and cedar. Even an unpracticed eye could see that all these precious woods once had ornate, splintered masts and spars, planks from decks and sides, remnants of a steering wheel, benches from the fore-castle, yellow, black, brown, white and red woods, even two figureheads, some bright, as if they were new, some crusty with shells and hung with seaweeds. In the entire room there was not a piece of wood that did not come from some wrecked ship.

"The forests of Quessant! Are there such others in the entire world, so unique, so terrible? This forest, instead of trees, has the mighty masts of ships. In that tremendous forest are the oaks and pines of Canada and Maine, the cypresses of Florida, the baobabs of Africa, the teak of Hindustan, the ebony and sandalwood of South America. The awful forests of Quessant form the visible apex of a vast cemetery that stretches from New York to Cape La Hague."

Before the Footlights.
"I understand that young man who calls on you," said old Mr. Stratford, "wants to become an actor."
"Yes," replied his fair daughter, "he does think of appearing before the footlights."
"Humph! The next time he calls you'd better warn him to think of disappearing before the footlights."

There are some women who seem to be perennially youthful. The grown daughters are companions as well as the children, and the color in the mother's cheeks, the brightness in her eyes, the roundness of her form, all speak of abounding health. What is her secret? She is at the middle age of life, when many women are worn, wasted and faded, and yet time has only ripened her charms. The secret of this matrimonial health and beauty may be told in the brief phrase: Dr. Pierce's Favorite Prescription. The general health of woman is so intimately related to the local health of the delicate womanly organs, that where these are diseased the whole body must suffer. "Favorite Prescription" dries the debilitating drains, heals ulceration and inflammation, cures female weakness and imparts to the delicate vitality. Women who have lost their health and their beauty have been made "robust and rosy cheeked" by the use of this marvelous medicine.

FATHER-IN-LAW OF EUROPE

How King Christian is Entertaining a Family of Monarchs at Fredensborg.

Family of the Aged Monarch of Denmark Represented by 21,000,000 Square Miles of the World's Territory.

This week one of the most remarkable "family gatherings" ever held in Europe assembled within the walls of Fredensborg Castle, Copenhagen.

There the venerable King Christian entertained a number of Imperial and royal visitors from different parts of the world, most of whom are his own children and their relatives by marriage.

King Edward and Queen Alexandra, the Czar and Czarina and their four children, the Dowager Empress of Russia, the Queen of Greece, the King of Sweden and Norway, the Duke and Duchess of Cumberland, were all present.

King Christian is not only the oldest sovereign (he was born in 1818), but he may be justly described as "the father-in-law" of Europe. As father of Queen Alexandra, the Dowager Empress of Russia, the King of Greece, the Crown Prince of Denmark (who married Princess Louise, daughter of the late King Charles XV. of Sweden) and Prince Waldemar, whose wife was the Princess Marie of Orleans, the King of Denmark has links with the chief families who rule the nations of Europe.

Although Denmark proper is little more than twice the size of Wales, the King's family are represented by close upon 21,000,000 square miles of the world's territory. Bornpart in his wildest dreams could hardly have hoped to achieve by conquest what King Christian IX. has obtained.

Fredensborg Castle, where this remarkable gathering of crowned heads and royal families are taking place, is one of ten royal palaces, all situated within a few miles of Copenhagen. Fredensborg was a favorite visiting place of the late Emperor of Russia, and the Empress. The room which the Czar used on his last visit is preserved exactly in the same state as he left it, including a plain, commonplace dining-table, which the Emperor one day bought at a lowest auction.

After his terrible death the late Queen of Denmark took a great dislike to the castle, and it was left untenanted for a considerable time.

King Christian conducts his home life on a methodical, perhaps almost rigid, lines. His Imperial and royal guests rise not later than eight o'clock and breakfast in families. Walking, cycling, or driving is indulged in until one o'clock, at which hour lunch is partaken of. Then more open-air exercise, probably a long excursion in a chair—haze, which the King himself, if he should feel equal to the exertion, may drive, as his Majesty is an excellent whist player.

The youngest members of the household have tennis matches, a game much favored by the present Czar.

At seven the royal visitors sit down to dinner in the "Dinner Room," the largest and handsomest apartment in the castle. It can seat seventy-five guests. The floor is, or was up to quite recently, covered with a fine Persian rug, a present from the Czar. The guests later adjourn to the "Garden Apartment" for coffee. At ten o'clock tea is ready for those who care for it, and by shortly after eleven everyone will be retired.

King Christian attributes his excellent health in his advanced age to the early hours and regular habits he has always adopted. His rational, careful living was a thing his father insisted upon.

When the late Queen Louise married Prince Christian of Schleswig-Holstein-Sonderburg-Glücksburg there was no apparent likelihood of the bridegroom becoming a reigning Sovereign. Gossips of the time thought that the handsome bride "might have done better." She was, however, deeply attached to the Prince, despite his poverty.

So poor indeed were they that the Princess had to adopt all the household wifely devices of a lower station to make the slender income suffice. It is untrue, however, that the Prince acted as drawing-master, a story which has some credence.

The late Queen Victoria, on the engagement of the Prince of Wales to the Danish beauty, sent over for a photograph of the Princess' boudoir, thinking in her kindly way that the bride would probably like a room in her own home furnished in the style she had been accustomed to. Great was the dismay at Copenhagen on the receipt of this message, for the accommodation in the house had never allowed Princess Alexandra such a luxury as a room to herself!

Insanity, Suicide and Falling Sickness.

Come with the Hot and Depressing Weather
--Papers Filled with Records of Sudden Death by Heart Failure and Nervous Exhaustion.

Now That Your System is Most in Need of Assistance Which Dr. Chase's Nerve Food Affords.

An occasional glance at the daily papers is enough to convince almost anyone that summer is the season of insanity, suicides and epilepsy. This year such cases seem to be more numerous than ever. Everywhere people are falling victims of nervous exhaustion, prostration or paralysis. The withering summer heat seems to be more than they can bear. The strain, and body cannot stand the vitality of the day. Naturally, falling health, anaemia, menstrual derangements, overwork or exhaustion, they join the immense army of weaklings—wrecked in body and mind.

The approach of serious nervous disorders is usually gradual and at first unsuspected. A tendency to neglect duty and feelings of depression and languor are among the first indications. Insomnia or sleeplessness a constant and stubborn symptom. There are headache, indigestion, slow and feeble action of the heart, coated tongue, poor appetite, awful anguish or pain, fear of some mental calamity, and growing weakness and debility.

No one would for one moment think of neglecting a disease so nervous and feeble action of the heart, coated tongue, poor appetite, awful anguish or pain, fear of some mental calamity, and growing weakness and debility.

course of treatment with Dr. Chase's Nerve Food will soon show a gain in vitality and steady growth towards perfect health and vigor.

There is no getting round the fact that Dr. Chase's Nerve Food is the greatest nerve restorative and health builder that this age has known. It helps men, women and children through the trying times in life when an unusual demand is made on the human system. It helps most in summer time, when the withering, debilitating weather is exhausting and enervating.

You cannot liken Dr. Chase's Nerve Food to any medicine you ever used. It should be called a nerve vitalizer and tissue-builder, rather than a medicine. It cures disease not by tearing down the tissues of the body, but by building them up. Naturally, and gradually it rekindles life in the nerve cells and forms new red corpuscles in the blood—the only way to thoroughly cure nervous disorders.

By taking one pill after each meal during the exhausting and debilitating summer weather, you can keep mind and body in perfect health and avoid the risk of nervous collapse, with its dreadful results. Dr. Chase's Nerve Food adds new flesh to the body, making the muscles firm, restores color to the cheeks and puts force and power into the nervous system. 50 cents a box, 8 boxes for \$2.50, at all dealers or Edman's, Bates & Co., Toronto.

Business is Business

If you can buy shoes of us cheaper than you can buy them elsewhere, is there any good reason why you should not do it? Do you think the people that are asking you to pay exorbitant prices for shoes would pay you more for an article than they would your competitor? Try it and see, it is a poor rule that won't work both ways. This is our rule—"A fair profit and a cash business," this is our way of doing business and not because someone else did it.

CONVALESCING

McKinley's Condition Continues to Improve—All Danger Seems to be Past.

Milburn House, Buffalo, N. Y., Sept. 11.—The following bulletin was issued by the President's physicians at 10 p. m.:

"The President's condition continues favorable. Blood count corroborates clinical evidence of absence of any blood-poisoning. He is able to take more nourishment and relish it. Pulse 120, temperature 100.4."

Special To The Planet.

Buffalo, Sept. 12.—The President's condition continues to improve. He is rapidly convalescing, but will not be removed to Washington before October.

GREAT FIRE IN AUSTRIA. Trieste, Sept. 11.—The largest oil factory in Austria was burned last night. The damage amounts to four million crowns.

BOERS ROUTED

Driven From Strong Position by Methuen's Force After Two Days' Engagement.

London, Sept. 11.—Lord Kitchener reports to the War Office from Pretoria as follows:—"Methuen engaged Vautouder and Delarey in Great Maria's Valley, September 6 and September 8, driving them from a strong position on September 8. The Boers left six dead on September 6, and 12 on September 8. Forty-one prisoners were captured."

REFUGEES' COMPLAINTS.

Durban, Sept. 11.—Lord Milner, in reply to the complaint of the Natal Uitlanders, says he expects to visit Natal next month. Regarding the settlement of the war questions, he says he notes the degree of suspicion in the attitude of the authorities, which he declares is not unnatural, but is unfounded. Personally he is most solicitous for the interests of the refugees. He deprecates excessive criticism of the military, whose difficulties are unintelligible to those who have no knowledge. The complete delusion and unhappy condition of the refugees, he contends, are maintained by their desire to codicilate rather than fight the issue that the authorities are conciliating the Boers at the expense of the refugees is, he says, contrary to common sense.

BOER CAMP SURPRISED.

Matjesfontein, Cape Colony, Sept. 11.—Col. Orabro has surprised the camp of Van Der Merwe, the most trusted lieutenant of Commandant Scheepers, killed him and another Boer and made prisoners of 37 out of the 100 men under Van Der Merwe's command.

SCHLEY ENQUIRE

First Session of the Court Being Held To-day—Sampson Will not be Called.

Washington, Sept. 11.—All the members of the Schley court of inquiry are now in Washington. Admiral Howison has not in any degree altered his resolution to serve as a member of the court if the other members accept his own view as to his qualifications.

Everything is ready for the meeting of the court. The impression at this time is that the testimony will not begin to-morrow, although that was the original expectation. A large number of witnesses are in Washington ready to take the stand at a moment's notice, but formalities are expected to consume most of to-morrow's session, which, after all, is likely to be short owing to the late hour of beginning. No summons has yet been issued for Admiral Sampson. Although no positive statement on that point is made, it is gathered from the attitude of the government officers that they have no present intention of calling Admiral Sampson.

There will be no useless ceremony attached to the sessions of the court. The three admirals will go to and from the building where the court will meet in civilian clothes, thus doing away with the firing of salutes and the turning out of marines. In the retiring room adjacent to the court room they will array themselves in naval dress uniform.

The first important move after the assembling of the court and the arrangement of preliminaries will be the challenging of Admiral Howison as a member of the court by Admiral Schley's counsel. Admirals Dewey and Benham after hearing the testimony on this point will retire to pass on Admiral Howison's competency. There will be no appeal from their decision.

Capt. Francis A. Cook, who commanded the Brooklyn during the West Indian campaign, probably will be the first witness.

The headquarters of Schley was a scene of great activity to-day.

"We were very much pleased with the design you sent. It was beautiful and appropriate." The Victoria Ave. Greenhouses receive such words of commendation every day. Telephone No. 181.

The directors are determined to make this a banner year in the history of West Kent fairs. Everything that can be done is being done to make Oct. 8th, 9th, 10, memorable days in the fair calendar.

FROM HAYTI

Eminent Maple City Visitor Lectures Most Entertainingly in the A. M. E. Church.

Rev. Dr. Biggs, a native of Port-au-Prince, Hayti, delivered a lecture at the A. M. E. church, King and Prince streets, last night. Subject, "The Black Republic."

The lecturer spoke of the manners and customs of the people. They have all modern conveniences and a Government surplus of \$70,000,000, a standing army of 212,000, and number of ships 32. He, the speaker, had spoken English since 1855. Port-au-Prince was a very beautiful city with buildings of wood and stone. He spoke from a social, political and municipal standpoint. He has traveled 25,000 miles. He was very humorous and caused great enthusiasm.

Dr. Biggs sang several songs in his native tongue. He has had a remarkable career, having been through the jungles of India and carries medals for bravery. He is now a resident of Detroit.

PRETTY WEDDING

Marriage of Miss Carrie Jackson to Fred. Cornell, of Montreal, Last Evening.

A very pretty and elaborate wedding took place last evening at the residence of Mr. and Mrs. M. S. Jackson, of Pine Lawn, when their daughter Carrie was united in marriage to Fred. Cornell, of Montreal. The ceremony was performed by Rev. H. W. Crews, M. A., of St. Thomas, in the presence of about 40 guests.

Miss Lou Jackson, sister of the bride, acted as bridesmaid, and Mr. Cornell, of Montreal, brother of the groom, acted as groomsmen. After the wedding ceremony the guests sat down to a sumptuous supper presided over by Rev. Mr. Crews, at the conclusion of which a number of toasts were responded to by J. W. Humphrey, Jas. Brackin, Mr. Marshall and the groom. Mr. Marshall also gave a solo.

Some of the guests from a distance who were present were Mr. and Mrs. Geo. Jackson, Wheatley; Miss Milligan, Toronto, and Miss Hattie Jackson, Detroit.

The newly married couple were the recipients of many beautiful and appropriate presents. They left on the Wabash train last night for the Pan-American and eastern cities and will find their destination at Montreal, where they will make their future home. Mr. Cornell is employed by a large wholesale drug firm in Montreal.

MANY RECEIVE HONORS.

London, Sept. 11.—Upon the recommendation of the Commander-in-Chief, Earl Roberts, about 5,000 men have been gazetted for meritorious conduct in connection with the South African war.

THANKSGIVING

National Day of Gratitude for McKinley's Recovery Proposed in the States.

Washington, Sept. 11.—The Washington board of trade today sent a letter to the district commission requesting that when Mr. McKinley is moved here that a day be assigned for Thanksgiving that would exceed anything that ever took place here. It will mean the gathering of as many uniformed soldiers and citizens as can be gotten together to be at the depot at the President's arrival, and a big procession, formed to accompany him to the White House.

It is intended the movement will be national if time will allow. Chicago, Sept. 11.—If the plans and hopes of Chicago clergymen and prominent laymen are realized, there will be two great national days of thanksgiving this year instead of one. It is proposed that as soon as President McKinley's recovery is certain beyond doubt, a day be fixed as a national holiday when the people of the United States shall lay aside business and gather in the churches to return thanks for the restoration of their President and afterwards, possibly, have a secular demonstration.

WHY NOT HERE?

The Steel Trust, to Establish a Branch Factory Somewhere in Canada.

Toronto, Sept. 11.—The American steel and wire companies, one of the composite parts of the United States Steel Company, and which employs 34,000 men, propose to establish a branch factory in Canada, and representatives of the company have just completed an inspection of prospective sites in Toronto, Hamilton and Brantford. Fifteen acres are required, and the industry if established will give employment to 2,000 men.

ANOTHER ARREST.

Camden, N. J., Sept. 11.—Adelbert Stone was arrested in this city last night on a charge of "aiding and abetting" in the attempted assassination of President McKinley. United States secret service officials were notified that on Friday last, before three o'clock, Stone is said to have told two of his fellow-employees in the New York ship-building yard that he would not be surprised if President McKinley was killed that day.

PROTESTS DROPPED.

Ottawa, Sept. 11.—An agreement was finally reached to-day to drop the protests in the case of Belcourt and Birkett in this city.

The brickwork is almost finished on the Toronto bank and new fire hall. They are fine looking buildings and are a great improvement to the town.

Fire has again destroyed the stove mill belonging to Steinhoff & Gosdon. Loss about \$4,000, insurance \$2,000.

The picnic given by our Catholic friends last Wednesday was a huge success. Weather favorable, large crowd, and proceeds up to expectations. Miss O'Mara, of Dover, is the happy possessor of the gold watch. Total amount of receipts over \$1,100. Great credit is due to Father Brady, as he proved a wonderful manager. Miss Maud McKelvey is visiting in Detroit. Carrier boys are not authorized to collect subscriptions. Our collector calls in each town once a month; if a subscriber wishes to pay his account before the collector calls he must re-

mit direct to The Planet Office, Chatham, as we will not be responsible for monies paid to carriers.

COMES HIGH

But Toronto Must Have its Royal Military Review.

Toronto, Sept. 11.—The reception and entertainment of the Duke and Duchess of Cornwall and York will come high, so far as this city is concerned. The civic reception committee was astounded today by the receipt of a letter from Prof. Torrington asking for a fee of \$1,000 for training and leading the reception choir, and a letter from Col. Otter, asking the city not only to remove the fences around the exhibition grand stand for the review, but to level the ground also. The work would cost about \$5,000. The city authorities are becoming tired of the continual demands on the public purse. Private citizens are beginning to spend money freely on preparations for illuminations, and two big arches are already in progress of construction, the manufacturers' and Foresters'.

W. E. Hiepin, City Passenger Agent Grand Trunk and Wabash Railways, is advertising special excursion rates to London Fair Tuesday and Thursday at \$1.55, and other days \$1.95, all tickets good to return Sept. 16th; also special excursion to Pan-American, Buffalo, via G.
