The copy filmed here has been reproduced thanks
to the generosity of:

National Library of Canada

The images appearing here are the best quality
possible considering the condition and legibility
of the original copy and in keeping with the
filming contract specifications.

Original copies in printed paper covers are filmed
beginning with the front cover and ending on
the last page with a printed or illustrated impres-
sion, or the back cover when appropriate. All
other original copies are filmed beginning on the
first page with a printed or illustrated impres-
sion, and ending on the last page with a printed
or illustrated impression.

The last recorded frame on each microfiche
shall contain the symbol → (meaning "CON-
TINUED"), or the symbol ▽ (meaning "END"),
whichever applies.

Maps, plates, charts, etc., may be filmed at
different reduction ratios. Those too large to be
entirely included in one exposure are filmed
beginning in the upper left hand corner, left to
right and top to bottom, as many frames as
required. The following diagrams illustrate the
method:

L'exemplaire filmé fut reproduit grâce à la
générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec la
plus grand soin, compte tenu de la condition et
de la netteté de l'exemplaire filmé, et en
conformité avec les conditions du contrat de
filmage.

Les exemplaires originaux dont la couverture en
papier est imprimée sont filmés en commençant
par le premier plat et en terminent soit par la
dernière page qui comporte une empreinte
d'impression ou d'illustration, soit par le second
plat, selon le cas. Tous les autres exemplaires
originaux sont filmés en commençant par la
première page qui comporte une empreinte
d'impression ou d'illustration et en terminant par
la dernière page qui comporte une telle
empreinte.

Un des symboles suivants apparaîtra sur la
dernière image de chaque microfiche, selon le
cas: le symbole → signifie "A SUIVRE", le
symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être
filmés à des taux de réduction différents.
Lorsque le document est trop grand pour être
reproduit en un seul cliché, il est filmé à partir
de l'angle supérieur gauche, de gauche à droite,
et de haut en bas, en prenant le nombre
d'images nécessaire. Les diagrammes suivants
illustrent la méthode.

COMPRISING

"The Western District of Montreal"

- ¶ When the improvement in business conditions warrants a community in declaring its great prosperity to the world, it is fitting that its representative commercial interests should set forth this fact in such a manner that it may become known abroad and thereby increase its progress.
- ¶ We therefore desire this book to proclaim that this improvement in business conditions has manifested itself in Montreal and that few other communities offer greater present advantages and untold future prospects more inviting to investors and homeseekers than our fair city, particularly in its Western Sections.
- ¶ Montreal the Metropolis of Canada, the industrial centre of the Dominion, is on the threshold of the most prosperous period in her existence. She is the home of great financial, railroad and shipping institutions. Her harbor is the most modern and prosperous shipping Quay in America; her factories ship throughout the world; she is the distributing point for the entire Dominion of Canada. She is the centre of mining activity, being the headquarters for the great asbestos, gold and silver mines. She is an ideal residence city and the best governed in America. These facts place her in the front rank of the metropolitan cities of the world.

J. A. FOISY, O. O.

M. J. A. Foisy est né à Montréal le 25 juin de l'union de J. F. Foisy et Mme M.-L. Labelle. Porté par son goût naturel vers l'étude, il étudia dans divers collèges. Après un brillant cours d'étude il entrail à l'Université de Montréal où il fit plusieurs conférences aux Étudiants de Pharmacie et de Bacheller é-arts.

Après quelques années d'étude dans cette institution il se consacra à l'optique où il obtenait des degrés avec grande distinction. Il y a un an.

M. J. A. Foisy est le seul Opticien et Optometriste diplômé de tout St-Henri.

Nous nous joignons au groupe nombreux de ses amis pour lui souhaiter d'atteindre le succès dû à son mérite, à son talent et surtout à son travail.

M. N. LAPOLTE
Echevin de Montréal

M. N. Lapointe naquit en 1849 à Saint-Michel de Bellegasse. A l'âge de 16 ans, il se dirigeait vers les Etats-Unis, où il pratiquait le métier de machiniste à New-York et à Boston. A 22 ans il revint à Montréal où pendant 18 mois il continua d'exercer son métier. En 1875, il fonda l'important commerce d'épiceries qu'il dirige encore aujourd'hui. Très populaire dans son quartier, il fut élu représentant du quartier St-Joseph en 1902; après 4 ans de politique municipale, M. Lapointe se décida à quitter son siège, mais six jours après sa résignation, il se voyait offrir la candidature de Sainte-Cunégonde, alors récemment annexée à Montréal, et reprenait ce nouveau la route de l'hôtel-de-ville, chargé du mandat de ses nouveaux électeurs, qu'il représente encore aujourd'hui.

M. Lapointe a épousé en 1872 Mademoiselle Axilda Verdon et est aujourd'hui l'heureux père d'une famille de quatre enfants.

this day of organist at St. Vincent de Paul Church. At the age of 21, the University of New Brunswick conferred upon him the degree of Bachelor of Arts.

We take pleasure in introducing to our readers a young musician who has already gained an enviable reputation in Metropolitan musical circles, where he has occupied a prominent position as organist in several churches since a few years.

Born at Tignish, P. E. I., October 17, 1882, Mr. Poirier received his first musical instruction at home; at 13 he entered St. Joseph University, N. B.; in 1896 he was appointed organist of the church of St. Thomas, Memramcook, N. B.

In 1901 he came to Montreal, took charge of the organ at the Seminary of Philosophy until 1904, when he was given charge of the organ and music directorate of Montreal College. In 1906, he assumed charge of the organ at St. Helen Church after presiding at its inauguration.

In 1903, he was called to the organ of St. Patrick's Cathedral and in 1909, was offered the position which he occupies to this day of organist at St. Vincent de Paul Church. At the age of 21, the University of New Brunswick conferred upon him the degree of Bachelor of Arts.

MALE ATTIRE BUILDING CORNER DE LORIMIER AVENUE AND ONTARIO EAST.

The building in which the highest grade of Men's Clothes is produced.

|| Also the Home of the "Boy Scout Shoe", the best in Canada, manufactured by
Scout Shoes Limited. (Branch factory at 200 Papineau Ave.)

THE MALE ATTIRE WAY

- In the making of clothes there is no name that stands higher than that of "Male Attire."
- The Male Attire idea has been growing and developing for some time, and since making its appearance it has been given the place of pre-eminence among the manufacturers of exclusive and high class clothes for men.
- Take for instance the Male Attire stores in Montreal, which in the last few years have won first place in the minds of the well dressed men in that city. It is the fashionable tailor who has felt their competitive existence rather than the general clothing stores.
- The same thing applies to the other large centres throughout Canada, where Male Attire have a chain of stores covering the whole country, from coast to coast.
- If you look at the garments they make, the reasons though many, are apparent.
- Every garment is made by a specialist, and hand made at that, all silk sewn, and nothing but the best of materials and trimmings are allowed to enter the tailor shops of Male Attire Limited.
- The cloths they buy abroad are exclusive and made specially for them, their own patterns, their own finish, and nothing that has been sold to other houses are supplied to Male Attire customers.
- This practically eliminates competition for the retailer as he has goods to offer that can be had at no other shop.
- The factory now operated by Male Attire Company has been equipped with the newest machinery and appliances, developed during many years of experience.
- They are particularly proud of the designing equipment, and tailoring and manufacturing plant.
- Male Attire has been justly famous for its uniform high quality for some years, and it is likely to stand on the top rung in the history of confection of good clothes for gentlemen.
- The policy of this Company has been to open agencies in every town in Canada where there is a demand for good clothes, towns where men want to be well dressed, tastefully and comfortably attired, and at the same time be economical in their outlay.
- Another feature of this Company's progressiveness is the unlimited advertising facilities which they offer their agents.
- The policy of the publicity department is to go direct to the consumer.
- At any of their stores it is possible to get made-to-measure garments just as you would from the best class of tailors. This rounds up the proposition which in its entirety has more than demonstrated the good judgement of its organisers.
