AUSTRIA IS AFTER A WAR

Europe is in a Turmoil, Says
Lord Morley.

Most Difficult Situation Left
To Unravel.

[Canadian Press Despatch]
NEW YORK, May 1.—A cable to The Tribune from London says: Great importance is attached to the meeting of ambassadors to-day, but there is no reason to believe that more decisive results will be secured than on Monday. The differences between some of the powers which are at the bottom of the present deadlock have not been smoothed, and European diplomacy is more pre-occupied with avoiding an open breach than with finding a radical solution to the Montenegrin problem. What adds gravity to the situation is that the difficulties arising from Nicholas' recalcitrancy are complicated by a suspicion that a mightier factor is encouraging him to defy the will of Europe. Such is the construction placed in Vienna on Russia's opposition to drastic measures against Montenegro and her endeavors to secure some sort of compensation in place of Scutari. That the situation is extremely grave is now officially admitted. Lord Morley in the House of Lords last night declared that the question now confronting the powers is one of the most perplexing ever confronted by diplomacy. Austria is setting ready to fulfil her threat and adopt independently measures necessary to bring about the evacuation of Scutari. Efforts are being made to induce her to hold her hand, to induce patience a little longer, to trust allies, to trust Europe to wait and see what the joint exertions of the powers will effect before she takes a step which will be irrevocable and may be disastrous to her and fatal to the peace of the world, but Austria is not in any humor to listen to advice. She has already refused to delay her demands, it is believed that she will present Montenegro with an ultimatum without further delay.

NO STRIKE IS ANNOUNCEMENT

Carpenters Met Last Night
They Await Reply to
Demands.

There will be no strike in the building trade in Brantford. At least not today. The carpenters had a meeting last night and at the close the following official statement was issued: The two local carpenters unions held a very interesting session last evening, but it was decided that no information be given out at present. It was announced that previous statements were unauthorized by either executive as to what action the carpenters would take relative to their demands recently submitted to the Builders. Mr. T. R. Parsons, President of the Bricklayers Union, also stated last night to a Courier reporter that there was positively nothing in the report that the bricklayers would strike. The union have an agreement with the Builders' Exchange which does not expire until April 30, 1914, and under which they have been working for the past two years. A meeting of the Union is being held to-night.

ROUND THE WORLD ALL FOR PENNY

[Canadian Press Despatch]
LONDON, May 1.—A penny, or two cents in Canadian money, will bring a letter from the South Pole to London. This is believed to be a record in cheap postage. Two letters with only a penny stamp have just been received by Sir Joseph G. Ward the former premier of New Zealand, who is now here, the letters having been forwarded from New Zealand. They were mailed in the polar region by the late Capt Scott of the British anti-Arctic expedition.

BARS CLOSE

TORONTO, May 1.—With the hour of midnight almost one hundred bars in Ontario passed into oblivion. The death sentence was pronounced on the first Monday in January last, when the people voted to apply the axe.

WILL UNION BE LAUNCHED

Will the Brantford Street Railway employees launch a union? There is said to be every prospect of such a development. The men are clamoring for better wages and shorter hours, and some of them, after consultation, have decided that the only way to secure an increase in pay is by affiliation with other street railway unions. The scale of wages at present is 14, 15 and 16 cents per hour. In Toronto the employees get over 22 cents and have shorter hours.

ECONOMY IN CIVIC AFFAIRS

That is the Aim of Committee
Which Will Meet
To-night.

The first meeting of the board of works with the chairman of the standing committees of the city council to take up the matter of re-organizing certain departments of the civic service will be held to-night. Just what form the re-organization will take is a matter of guess work. It is the object of the committee to establish a business system in regard to all civic supplies, similar to that used by many big firms. The taking of an inventory at regular periods of all equipment, the storage of the same, and other features will be considered. The Board of Works investigation is over, and the committee will proceed on the recommendations made. It is believed that the result will mean a saving of civic money, and that greater economy will be effected.

LABOR NOTES OVER WORLD

Strike in Toronto, and General
Quiet Prevails Else-
where.

[Canadian Press Despatch]
TORONTO, May 1.—The labor situation in Toronto to-day, the first of May is: Quit this morning 250 plasterers' laborers, 100 cabinetmakers, 250 structural iron workers, 24 glass workers, 15 granite cutters. With these are 90 photo engravers, 75 boot and shoe workers, 19 tailors, 100 garment workers, who have been out for some time. While no carpenters have gone out it is just possible they will be the next. Their demand is for 45 cents per hour, but this morning the masters offered them 42 cents per hour, which they refused.

In connection with the boot and shoe workers, J. W. Hewitson, with whom they were employed, notified the strikers that unless they returned to work immediately the factory would be moved to Montreal.

Quiet at Kingston.
KINGSTON, Ont., May 1.—May Day finds everything working satisfactorily to labor unions and no strikes or trouble of any kind is reported to-day. All tradesmen are at work and every line of trade is rushed with work. Men state that they never enjoyed better times.

Strike at Winnipeg.
WINNIPEG, Man., May 1.—Winnipeg Bakers and Confectioners union have declared a strike and it is stated one hundred and fifty men are already out and one hundred more are to follow to-day. They demand recognition of their union and conformity with union principles.

In England.
LONDON, May 1.—"Labor Day" which hitherto had been celebrated in a minor key in the British Isles, was to-day done so in loud tones. Some ten thousand men, mostly Socialists and other foreigners paraded the streets and subsequently congregated in Hyde Park, where they received with loud cheering the fiery denunciations of the thraldom of capital and militarism, delivered in half a dozen languages by numerous orators.

Quiet in France.
PARIS, May 1.—For the first time in many years May Day appeared destined this morning to pass off without any disturbance of the peace, the general confederation of Labor members to demonstrate in celebration of "Labor Day." The government, however, took the precaution of posting strong forces of police in various quarters of Paris, where they were in a position to cope with any outbreak of disorder.

The assessors started out on the war path this morning.

Discussion Postponed.
On account of the absence of the Chairman of the Musical Committee George Mathews, of the First Baptist Church, the discussion in reference to providing the choir of that church with gowns, did not take place last night, but the matter will be taken up next Wednesday evening.

Assessors Assessing.
The assessors started out on the war path this morning.

MILITANTS BEATEN NOW

New Procedure By Govern-
ment Will Prove Effective.

Lock All Leaders Up and Let
Them Starve.

[Canadian Press Despatch]
LONDON, May 1.—The determined stand which the government appears to have taken with suffragette militancy, beginning with its raid yesterday on the headquarters of the Women's Social and Political Union, with the arrest of six leaders, is commended by some of the London press The Standard calls it "The doom of Militants," and believes that although the movement may cause some small annoyance even after the loss of the leaders, the rank and file can do nothing effective. It continues: "An attempt will probably be made to re-establish the Women's Social and Political Union elsewhere, probably under another name. If so, the police must make another raid, and continue the process until the whole fabric of militancy is shattered. To keep the militants on the run is the surest way to extinguish their activity. The vitality of militancy, which has ceased to have any real connection with the vote and has lost the sympathy of the great mass of suffragists, cannot survive the destruction of its organization."

The Daily Mail also declares editorially that the authorities are taking the right course. "If they try a hunger strike," says the Mail, "in the event that they are sentenced, the will paralyze the ringleaders' power for mischief. The punishment has at last been made to fit the crime."

The Liberal papers make no comment on yesterday's events.

More Arson.
The campaign of arson conducted by the militant suffragettes was continued this morning, when a large stable at Hendon, a northwestern suburb of London, was set on fire and practically destroyed. A placard with the words "Votes! Votes! Votes! Beware!" was found pasted on the premises.

Annie Kenney Nabbed.
Miss Annie Kenney, one of the most prominent of the militant suffragettes, was arrested to-day as soon as she set foot in England on her arrival in London. A detective had accompanied her from Paris bearing a warrant charging her with conspiracy.

Miss Kenney was later brought up at the Bow Street Police Court and remanded till to-morrow by the magistrate, who refused to grant bail.

The police are still in possession of the headquarters of the Women's Social and Political Union, the militant suffragette organization in Kingsway. The telephone switchboard in the offices has been placed in charge of a detective.

The members of the militant society found a means of publishing the Suffragette, the type for which, together with all the printing material, was seized yesterday in a raid by the police.

This afternoon the paper appeared in spite of the warning of the Treasury counsel yesterday. The number consisted of eight pages, the front page containing only the one word "Raided" in large type. Most of the London news dealers were afraid to handle the publication, and only a few women were selling it on the streets.

**STILL FAITH IN
THE DOCTOR**

Hundreds of Sufferers at Mont-
real Crowd Around
Friedmann.

[Canadian Press Despatch]
MONTREAL, May 1.—Dr. Friedmann, discoverer of the alleged cure for tuberculosis, arrived in the city this morning from New York, for the purpose of re-treating the patients he vaccinated on the occasion of his first visit to Montreal.

The announcement in the morning paper of the intention of the German physician to return here to-day caused hundreds of tuberculosis patients to surround the King Institute where a clinic will be held this afternoon.

Dr. Friedmann, however, will not vaccinate any new patients and will content himself with giving a second injection to those he treated before.

Owing to the strong stand that many Montreal physicians have taken against the doctor since the announcement was made that the cure was to be commercialized and the was to be vaccinated of the patients previously inoculated have shown signs of improvement, the visit caused little of the interest among medical men that the first clinic did.

It was stated by doctors this morning that not only has the alleged cure failed to help patients, but has apparently retarded the progress that was being made in two cases.

Dr. Friedmann was the guest of Dr. Harding, who is connected with the King Edward Consumption Hospital. He will likely visit Ottawa to-morrow and after that go to Toronto and London.

**Duchess Is
IMPROVED SOME**

[Canadian Press Despatch]
LONDON, May 1.—A slight improvement was noticed to-day in the health of the Duchess of Connaught, the wife of the Governor-General of Canada, who was operated on a second time for a tumor of the breast on April 29. The bulletin issued by the surgeons in attendance this morning says: "The Duchess of Connaught had some sleep during the night. Her general condition this morning was slightly improved."

Discussion Postponed.
On account of the absence of the Chairman of the Musical Committee George Mathews, of the First Baptist Church, the discussion in reference to providing the choir of that church with gowns, did not take place last night, but the matter will be taken up next Wednesday evening.

FIGURES WHICH TALK

Brantford customs returns still continue to go ahead by leaps and bounds. Last year beat all records, but this year is each month setting a new standard:
April, 1913 \$78,209.56
April, 1912 \$8,873.18
Increase \$19,336.85
When two customs inspectors were recently in Brantford they told a Courier man that the returns at this point were simply wonderful.

BEN TILLET AGAIN WRATHY

He Doesn't Like the Carnegie
Peace Mission to
America.

[Canadian Press Despatch]
LONDON, May 1.—An extremely hostile attitude toward the British delegation now on the voyage to America for the celebration of the Anglo-American peace centenary, has been taken up by a section of British workmen at whose head is Ben Tillet, secretary of the Dock, Wharf, River, and General Workers' Union of Great Britain and Ireland. An appeal was sent by cable on their behalf to-day to Samuel Gompers, president of the American Federation of Labor, in the following words:

"British workers appeal to the American Trades Unions not to mask the Carnegie peace delegates' mission to America. They hope America will not support the suggestion that she should assist England in making war against Germany."
(Signed) Ben Tillet."

The subject was brought up by Ben Tillet at a labor meeting in Hyde Park, when he uttered strong invectives against Lord Weardeale and other members of the peace mission to the United States as well as against Andrew Carnegie. These met with frantic approbation. He said:

"There never was a more deliberate and corrupt mission sent from this country," he declared. "It is financed by Carnegie gold, which comes from the enormous imbrued hands of a man, who has crucified labor at Homstead. The whole population of the British Isles is anti-German, but I stand for my German comrades and I demand that the comrades of our movement shall reject the selfish conspiracy of these so-called patriots—the Krapps of Germany, and the battleship makers of this country—under the guise of peace to foment war and all the horrors which arise out of the blood lust of the capitalists."

At the conclusion of Mr. Nesbitt's address the committee adjourned to meet again at 10 a.m. May 6 when the report for presentation to the House will be drawn up.

David Fasken, the well known solicitor whose notices were described as "Liberal" if any, testified as follows in support of Mr. Thorne in drawing up the award in the arbitration between the government and Taylor-Scott and Company. Witness said Mr. Thorne seemed very anxious to have his award such as he could insist in every particular.

The chairman held out the bible. Mr. Proudfoot—"What is it you want?"

Chairman—"Well you have been summoned as a witness to give evidence with reference to the charges you made on the floor of the House and I need not say anything. This matter is conducted in the procedure we and we must proceed in the regular way. We expect you to give the benefit of your evidence in the matter."

Mr. Proudfoot—"I just want to make a statement."

Mr. Chairman continued holding out the bible inviting the witness to take the oath while the members of the committee audibly protested that Mr. Proudfoot must be sworn.

Chairman—"The proper procedure is for any witness to be sworn and submit to examination. Are you willing to do that?"

Mr. Proudfoot—"No, I desire merely to make a statement. I have had no opportunity what I have charged."

The chairman again interrupted and demanded that he be first sworn or he could not say anything. He was not going to listen to any Mr. Proudfoot—I don't want any lecture from you, Mr. Chairman.

Chairman—I don't propose that this shall be turned into a speech-making gallery as it was yesterday. Do you refuse to come before this committee and be sworn at a witness, if so there can be no object in your making any statement.

Mr. Proudfoot reiterated that he proposed to make a statement and proceeded to read something, but not a word was audible. Members shouted "order and boomed" until neither the speaker nor the chairman could be heard.

Finally Mr. McGarry got the floor and succeeded in getting a formal motion put before the committee refusing Mr. Proudfoot the right to make any statement. This was carried by a straight party vote and Proudfoot then subsided with the parting shot that he would be heard from again.

"Any more witnesses?" asked the chairman. "We don't want it to be said that we have closed in this matter without giving the fullest opportunity to everybody to bring out all the facts."

PROUDFOOT ON STAND TO-DAY

He Refused to Take Oath in
Giving Evidence.

Enquiry Was a Warm Affair
This Morning.

[Canadian Press Despatch]
TORONTO, Ont., May 1.—There was another scene before the House committee on elections and privileges this morning when Mr. Proudfoot whose dramatic exit with his counsel furnished a sensation, was called as a witness. Mr. Proudfoot refused to take the oath and persisted in reading a statement to the committee in the face of the chairman's ruling and the repeated shouts of "order" and "booming" from the members. The chairman was apparently unable to stop him until T. W. McGarry got a motion before the chair, formally refusing Mr. Proudfoot the right to make his statement. The yeas and nays were recorded and the motion carried on a straight party division.

Mr. Proudfoot and the Liberal members who walked out yesterday were on the job again this morning for the purpose of formally putting in a minority report to the House, a privilege they would forfeit if they had permanently withdrawn. The only evidence taken was that of David Fasker, the solicitor, who drew up the award and his contribution was not material. After Mr. Proudfoot had been scolded, Wallace Nesbitt delivered an oration highly eulogistic of Sir James Whitney's administration, especially the provincial secretary's department. He referred to Mr. Proudfoot as "that pale faced creature," who refused to take the oath and scarified Henri Maisonville as a "shimpy" creature.

At the conclusion of Mr. Nesbitt's address the committee adjourned to meet again at 10 a.m. May 6 when the report for presentation to the House will be drawn up.

David Fasken, the well known solicitor whose notices were described as "Liberal" if any, testified as follows in support of Mr. Thorne in drawing up the award in the arbitration between the government and Taylor-Scott and Company. LET THEM ALL COME

That was sure a happy Scotch family, direct from the land of the heather and the hills, who sat in the Grand Trunk station last night waiting to make connections for Preston. There were nine bairns all told—eight lads and one lassie—and father and mother. The eldest of the family was 12 years of age and the youngest probably two years. The proud father sat at the end of one of the long seats, and extending along the seat like a set of stairs, sat the kiddies, and in front, sitting on a valise, was the mother, with dad's walking stick keeping the little army in order.

NO BRIDE CAN GO Build School Addition.

The trustees of Bellview school were able to go ahead and make the \$23,000 enlargements as was decided upon by a vote of the ratepayers of the section after a couple of strenuous meetings. The decision rested with County School Inspector Standing, and he took the matter up last night, when the protest was considered. To-day the trustees are smiling, because it is stated two of those responsible for the petition alleging irregularities on the vote taken found it of more interest to go fishing last night than attending the conference with Mr. Standing, and urging the protest. Mr. John Robertson was there, being alone he was unable to show that there had been all the irregularities as alleged undue interference, etc., in the vote of ratepayers. The trustees were there, and Mr. Standing's decision upheld the board. Out of 40 petitioners it was not shown where the name of one had been wrongly marked on the ballot sheet by the clerk.

"A lot of smoke but no fire," said one trustee as he emerged from the meeting. Bellview will have a \$23,000 addition. The trustees are anxious to make it one of the most commodious and best equipped schools in the township and now have authority to proceed with the work.

Inspector Standing confined the proceedings of the meeting on the ground that, although the manner in which the poll was taken was not strictly according to the act, in that each voter was allowed to mark his own vote, instead of asking the secretary to mark it for him, yet notwithstanding this want of formal compliance with the act, it appeared that the result of the voting was not affected by it.

The Case.
At the meeting of the ratepayers of Bellview held on April 11, a resolution was introduced to authorize the trustees to borrow \$23,000 to enlarge the present school building. The resolution was opposed by some of the ratepayers, who favored the erection of a separate building on the Mohawk Road. The question after having been discussed was voted on. A vote was first taken by the supporters of each scheme going into separate rooms. This resolution showed a majority against the resolution. The trustees after this vote demanded a poll of the ratepayers which showed a majority of four in favor of the resolution. Then there was something done. The opponents of the motion lodged a written complaint with the Inspector on the grounds that the poll was not taken in the manner prescribed by the act, and that this had an effect on the result of the vote.

At the meeting last night, Mr. John Robertson representing the complainants wished to defer the proceedings, but it was decided the investigation should go ahead. The Inspector overruled. After hearing the evidence of the chairman, secretary, scrutineers and the trustees and the objections of Mr. Robertson, the Inspector decided as above.

Those Present.
The chairman of the Bellview school meeting, Mr. R. W. Edwards; secretary, Mr. Collier; scrutineer, Mr. A. J. Robertson; trustees, Rev. Dr. Linscott, R. Henry, Mr. Atwell, and Mr. John Robertson, representing the complainants.

CROPS WILL BE GOOD 1913

Seeding General All Over the
West Though Late.

Crops Will Be Much Better,
it is Thought.

[Canadian Press Despatch]
WINNIPEG, May 1.—According to reports received from over 140 points in the Canadian prairie, west, seeding is well on the way to general completion. At 144 points, over 75 per cent of the wheat area is reported seeded. Taking into account the acreage of surrounding points which report a less amount seeded, it is reasonably safe to assume that fully 73 per cent of the land intended for wheat this year has already been sown to that cereal. Fifty-five points report the acreage seeded to be just about the same as in 1912; 35 points reported the acreage as less than that of 1912, while 44 points report an increase of acreage running from five per cent to as high as 25 per cent, though this last figure occurred but seldom, thus indicating that there probably is no increase in wheat acreage this year and possibly a fractional decrease.

With reference to seeding on stubble land without reworking, figures would indicate that from 25 to 30 per cent of wheat crops had gone in on land in this condition. Very many points reported the ground as too soft for use of motor tractor.

The reports almost en masse declare that while seeding is on the whole considerably later than in 1912, owing to the condition of the ground, seeding is actually far in advance of what it was for the corresponding year, and with a better general outlook for the season. Taken as a whole the report is a very satisfactory one. The fact that the acreage in wheat is not being materially increased is really a very healthy and satisfactory sign, as it shows that the farmers are slowly but surely awakening to the danger of seeding wheat late and have confined themselves largely to land that was prepared last season. Only three points report on actual need of rain. Wet snow has fallen very generally in Southern Alberta, about the only section where additional moisture was needed.

**KEETONS WILL
NOT LEAVE CITY**

Report That Local Industry
Will Move is Absolutely
Without Foundation.

There is absolutely nothing in the rumor that the Keeton Motor Car Company will remove from Brantford. This announcement was made by Mr. W. J. Verley, who is interested in the company, in reply to a query to him to-day. "The company is doing very well in Brantford, and there is absolutely nothing in the report."

The Courier has heard the rumor for several days, and a considerable amount of interest was taken in its authenticity, particularly in the northern part of the city, where the company is located. As a matter of fact, plans are understood to be under way to turn out 800 of the smaller Keeton cars here next year.

**\$35,000 WAS
THE FIRE LOSS**

Appraisers at Malleable Iron
Works Got Through
Their Work.

The Courier last evening announced that the loss at the recent fire at the Malleable Iron Works was \$35,000. The figure was received from a local insurance man, but was later in the day corrected. The appraisers concluded their work in the afternoon and the loss was \$35,800. Local insurance men were somewhat staggered when the total loss was known. Patterns and cores of a very valuable machine made it much greater than was at first anticipated.

AS TO CAMPAIGN CONTRIBUTIONS.

In connection with the exploded charges against Whitney and Hanna, it was alleged and admitted that a firm which had dealings with the government had contributed \$500 for party fund purposes.

It was not charged that they were threatened or had anything hinge upon such a gift, but simply that said money was handed over to Mr. Hanna.

It is well known that such money is contributed and always has been by men on both sides of politics.

The maintenance of party machinery both in the country at large and in each riding separately, always involves much expense and always will, especially about election time.

Take the situation locally. It is well-known that Liberal managers, some of whom have received Government patronage, have been free contributors to their own side. This is not quoted in the sense of blame, but as an illustration.

For instance when Hon. Mr. Paterson ran in North Grey a large local fund was contributed by his friends here and that too, on top of their help in South Brant a short time before when Mr. Paterson met with defeat at the hands of Mr. Henry.

It is somewhat of a fine point as to what should, or should not be done in this matter. That it is done by both Liberals and Conservatives it would be the part of arrant hypocrisy to deny.

In the Old Land they go at matters even more extravagantly than we do here. In fact it is not an uncommon thing there for a man to spend thousands on a campaign and the central organizations are maintained at very heavy expense. Even in the case of Labor members, the unions feel that they have to afford them heavy financial backing.

There was once in the British Home a gentleman named Cross of Newcastle-on-Tyne. He was a very prominent member and considered on the stump, and especially at leading meetings as the leading speaker of the day. In fact after one campaign his speeches were put in book form and the volume to this day talks as a political classic. His majesties were always enormous, until the election he decided to eschew contributions, or organization, and go to the electors on his merits alone, and they were, admittedly, very gratified in fact he was of cabinet timber.

The result was that he was returned by a majority of less than ten votes and this—plus contributions and organization—was accomplished by a very inferior man. Cross never tried the experiment again.

Could we reach the millennium campaign funds are sure to exist.

TWO QUERIES FOR THE LOCAL GRIT ORGAN.

The Courier tries to make a public ownership organ. As far as is known, our country is actively or passively, supported by all public service franchises in this city which are now being taken over by private corporations, and the public since expressed an adverse opinion to the acquisition by the public of the Brantford Street Railway policy which it is now supporting.

It is wrong, as usual. The Courier fought for municipal ownership of the Waterworks and the Expositor was fighting to have the concern to a private corporation.

The Courier fought for telegraph competition while the Expositor at the start off wanted a continuation of the Bell monopoly, and the

TO BENEFIT OTHER SUFFERERS

Mr. Jones is proud to acknowledge the great debt of gratitude he owes "Fruit-a-tives". He is glad to have his letter published in order that other sufferers may be induced to use these wonderful tablets made of fruit juices.

You May Publish My Letter About "Fruit-a-tives"

SARNIA, ONT., FEB. 5th, 1911. "I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors, but derived no benefit whatever. Finally, I read an advertisement for "Fruit-a-tives". I decided to give "Fruit-a-tives" a trial and they did exactly what was claimed for them. I have now taken them for some time and find they are the only remedy that does me good. I have recommended "Fruit-a-tives" to a great many of my friends, and I cannot praise these fruit tablets too highly."

EXPLODED CHARGES

The charges preferred against Sir James Whitney and Hon. Mr. Hanna by Mr. Proudfoot, M.P.P. have been thoroughly discounted, as everyone except the most blindly partisan thought they would be.

It turns out that they were based upon the venom of a dismissed civil servant, who has been attempting to blackmail Mr. Hanna for some time.

It was all very well for Proudfoot and his lawyer to put on the cheap stage effect of walking out of the enquiry room on the plea that they were not getting fair treatment, but that school boy buncombe will not deceive anyone.

The truth is that they saw the allegations could not be proved and so indulged in some theatrical claptrap in order to cover up their retreat.

CAINSVILLE NEWS

The inclemency of the weather was responsible for many absent pews last Sunday. Notwithstanding this fact, the few who did brave the elements enjoyed a good sermon, both morning and evening.

The League meeting held on Monday evening was especially interesting. Miss Ferguson led the meeting and an excellent paper on "Masterpieces of the Hebrew Literature" was read by Miss Annie Hawley. Mr. Lew Smith sang a solo in his usual good style.

The members of the League decided to hold their League Anniversary on Sunday, May 18th. An "At Home" will be given the following Monday evening. An excellent program, consisting of old-time songs and readings will be given. A dainty lunch will be served. There will be no admission fee but a silver collection at the door.

Misses Phelan, Neelands, Ferguson, Hawley, Smith, Mrs. Wilson and Mr. Lew Smith were among those who enjoyed the lecture on Hamlet, delivered by Bishop Quayle, in Wellington Street Church Saturday evening.

The members of the Sabbath School met in the school room on Monday evening for election of officers. The following is a list of the officers for the ensuing year: Superintendent, Mr. F. Sumler; Assistant Superintendent, Mr. W. Dougherty; Secretary, Mr. Earl Simpson; Assistant Secy., Clarence Graham; Treasurer, Mr. Hurb. Sumler; Pianist, Mrs. Chas. The staff of teachers were re-elected for another term. Rev. Mr. Schine, both of Hamilton, spent the week-end at Elm Croft. Mr. McLeod made a business trip to Woodstock on Saturday.

Mr. and Mrs. Will Dawdy and family of Pine Grove were guests at the home of his father last Thursday.

Proudfoot Refused to Take the Oath

(Continued from Page 1.) Mr. Nesbitt's Address

Mr. Nesbitt then addressed the committee on behalf of his client, having first been admonished by the chairman to be brief. He briefly reviewed the salient facts and showed how there was no evidence produced that indicated that there had been the slightest impropriety in the issuing of the fiat. He defended the acceptance of the \$500 for campaign purposes by the provincial secretary. Money was needed for election purposes, everybody knew and there had not been the slightest intimation that this money had been improperly used.

The dramatic retreat of yesterday was only stage play. Mr. Dewar wanted an opportunity to consult with his colleagues as to how best the play could be staged to catch the public ear in order to continue this campaign of slander. He vigorously assailed Maisonneville, whom he charged with stealing a letter and trucking his information all over the country, but he could not find a market for it, till he found my friend, Proudfoot, up to that time no man in the province could be found who would lend countenance to this sly creature, Maisonneville. I ask the people of this province to view that passed the oath this morning. I wish he had taken the oath. I would have liked him if he believed the truth of the charge made against the premier. Before the withdrawal of Mr. Proudfoot and his counsel yesterday every vestige of their case had been destroyed.

Chaiman Ferguson announced that the committee would adjourn till Tuesday, May 6, at ten o'clock, when he would draw up a summary of the evidence and the committee could prepare a report for presentation to the House.

Yesterday Afternoon. Out of the stress and turmoil of one of the most spectacular assemblies of the privileges and elections committee in the history of the province, Hon. W. J. Hanna stepped forth, Mr. Earl Papple met with an accident last week, getting a couple of his fingers crushed in the windmill.

Mrs. Dawdy has been seriously ill for the past week, but is somewhat better at present.

Was Sudden

Mr. James Jarvis Was Called by Death Yesterday Afternoon.

The death occurred very suddenly yesterday afternoon of James E. Jarvis, in his 58th year, at his late residence, 121 Park avenue.

The late Mr. Jarvis was working around his residence, apparently as well as usual, when he was stricken with heart failure. Complaining of a pain, he went into the house, and expired within ten minutes, before medical aid could arrive.

The deceased had been a resident of the city for the past three years, coming here from St. Catharines. For a time he resided on the River road.

Mr. Jarvis was a prominent member of St. Jude's Church, where he will be greatly missed. He was a lifelong Liberal. He leaves to mourn his loss a widow and one daughter, Miss Florence. The funeral will take place on Saturday.

NOW QUOTING POETRY

Male Militants in Britain Have Reached the Last Stage.

LONDON, April 30.—The male suffragists are very angry over the fact that Franklin, one of their number, who was released Monday, has been punished 14 times. They held a meeting of protest last night, and Israel Zangwill, who was the chief speaker, said:

"We have reached a stage of barbarism which I thought had long passed forever. We are living under a regime of bullets and sharp. The country is in a state of collective intoxication. It is drunk on power and wealth, and this has resulted in a revival of 'hooliganism.'"

Dr. Zangwill blamed Premier Asquith for what he called the disgraceful state of things, and declared that the situation forced him to emit some poetry, whereupon he let this couplet off:

"Is Britain Russia, and must we raise Ghehenna, To save the face of Asquith and McKenna?"

I decided to give "Fruit-a-tives" a trial and they did exactly what was claimed for them. I have now taken them for some time and find they are the only remedy that does me good. EXPLODED CHARGES

The charges preferred against Sir James Whitney and Hon. Mr. Hanna by Mr. Proudfoot, M.P.P. have been thoroughly discounted, as everyone except the most blindly partisan thought they would be.

It turns out that they were based upon the venom of a dismissed civil servant, who has been attempting to blackmail Mr. Hanna for some time.

It was all very well for Proudfoot and his lawyer to put on the cheap stage effect of walking out of the enquiry room on the plea that they were not getting fair treatment, but that school boy buncombe will not deceive anyone.

The truth is that they saw the allegations could not be proved and so indulged in some theatrical claptrap in order to cover up their retreat.

should not have to use invective on such people," commented Sir James.

Heard of Threats. The premier stated that he had heard of threats of Maisonneville, who had at one time stolen a letter from his minister. He thought that he was angry at Mr. Hanna because he had not attempted to save him from his theft at the time.

"Apart from the \$500 contribution is there any special circumstance you have to complain of?" queried Mr. Nesbitt.

"Nothing whatever, and I am glad of the opportunity to say so," replied Sir James.

"What do you say of the efficiency of his department?" "It is unexceptional. There are people who think that all are, but I will say it of this one, there are few instances where a cabinet minister has conducted his department so well, both from a standpoint of result and efficiency."

Labor Notes

(Continued from Page 1.) Serene in Montreal. MONTREAL, May 1.—The labor situation to-day is one of exceptional serenity in Montreal, not a single strike being recorded.

The Socialists will hold a big parade to-night, in which every labor union in the city will be represented. It is expected that ten thousand men will march behind a red flag to the Champ de Mars, where the crowd will be addressed from the platform.

An attempt was made to get every member of the unions to strike for 24 hours to draw attention to the Socialist cause, but failed.

Unrest in Nova Scotia. HALIFAX, N.S., May 1.—May Day finds unrest general in labor circles throughout Nova Scotia. At New Glasgow yesterday the men of the Albion and MacGregor collieries struck for recognition of the recently established branch of the United Mine Workers of America. They subsequently decided to return to work pending an investigation under the Industrial Disputes Act.

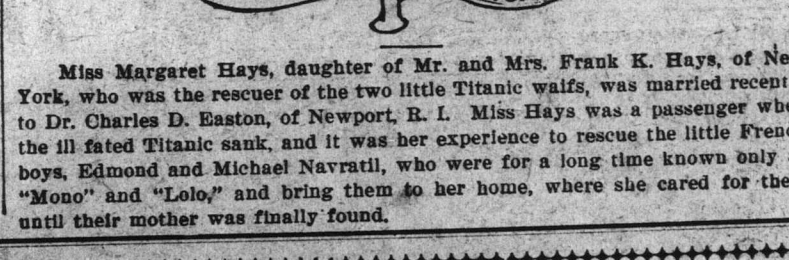

At Sydney yesterday the painters and decorators in the employ of Rhodes Curry Company and Chappell Bros. quit work, pending a reply to their demands for \$3 and nine-hour day.

The carpenters' strike, which has been threatening for some time in Sydney, is on to-day.

Big Strike at Buffalo. BUFFALO, May 1.—Over 2,500 department store employes, involving every store of the kind in the city, went on strike this morning for increased wages and shorter hours. Employees of hardware and five and ten cent stores participated in the strike.

The demand is for a minimum wage of \$8 for women clerks and \$15 for men clerks, with a minimum for boys of \$8 and for drivers and chauffeurs of \$10 per week. The employees also demand an eight hour work day, Saturday half holiday with full pay in June, July, August and September and the closing of the stores at five o'clock each evening. The present average weekly wage for girl clerks is said to be \$5.00.

Military Band Concert Proved Fine Success

All the world loves a good military band, and Brantford to-day certainly has in the 38th Dufferin Rifles band an organization which comes under that category.

It is not so many years ago that the old 13th of Hamilton and 7th Fusiliers of London were the only first class military bands in Ontario with the Queen's Own of Toronto a good third.

The Dufferin Rifles band to-day compares more than favorably with these old favorites.

That the visit in recent years of the crack English military bands has had much to do with the "tuning up" of Canadian bands does not admit of an argument. They have done splendid mission work and young intelligent conductors like Mr. Frank C. Johnson, have seized the opportunity to profit by the valuable experience thus afforded them.

Last night there was a large audience in attendance when the Dufferin Rifle organization gave a concert which was greatly enjoyed. The officers of the Regiment in uniform, occupied the upper tier of boxes.

The band of the Dufferin Rifles consists of some forty members. It is admirably balanced as regards the wood and brass sections. Recently the players have been supplied with a splendid lot of new instruments, and in this respect the equipment now leaves little to be desired, although a new saxophone or so would not be out of place, as the present ones are out of tune. It is understood the officers band committee intends to remedy the slight fault in the future.

Mr. Johnson's program last evening was an admirably arranged one. The band gave three Rossini overtures, Stabat Mater, Semiramide and the ever popular "William Tell." It was a great disappointment to the conductor and his men that at the last moment it was found impossible to give the glorious "1812" overture. The set of chimes which is essential to this masterpiece only arrived from England yesterday, and it was thought expedient under the circumstances not to attempt this colossal work. It will be heard later on in the season.

All three overtures were splendidly played. The Semiramide particularly received a notable interpretation. The singing quality of the brass in this number was especially noteworthy. Climax after climax was obtained in the Tell production, a massive tone being secured without undue forcing. Altogether the band, under a severe test, showed the good stuff it is made of, and the conscientious coaching and training that it has received and absorbed during the past season in the rendition of these three very difficult overtures, which only a band of the very first class dare attempt with any chance of success. And a very pronounced success was achieved by Mr. Johnson and his men.

In lighter vein was the march "In the Conning Tower," whilst an exquisite encore to the Semiramide number was one of the Pere Gynt suite, played with almost an orchestral touch and effect.

A bass solo is quite a novelty but Mr. George Lee in his selection "Beelzebub," with band accompaniment, demonstrated that this big instrument is quite capable of surprisingly agreeable solo results. He is a very skilful player. Another clever

BAD ACCIDENT AT CAINSVILLE

Mr. John Reid Fell Down a Flight of Stairs This Morning.

John Reid, an elderly gentleman, who resides with Mr. and Mrs. George Hlett at Cainsville, met with a very painful and serious accident about 10 o'clock this morning.

In some unaccountable manner Mr. Reid fell down a flight of stairs, a distance of ten or twelve feet, and alighted on his left side, sustaining serious injuries, the extent of which at the time of going to press have not been ascertained.

Mrs. Hlett ran to his assistance and found him lying in an unconscious state, and immediately summoned Dr. A. M. Raphael, who on examination found that the unfortunate man was seriously bruised on the left side and about his head.

Mr. Reid was rushed to the hospital, where his condition is said to be critical.

BROKEN RAIL CAUSED WRECK

Ten Cars Went Into the Ditch at Caledonia.

Yesterday afternoon twelve cars on a G.T.R. way freight running from Fort Erie to Stratford left the rails at Caledonia, and did considerable damage to the rolling stock and the cars contained.

The cars were piled in the ditch and most of them smashed to pieces.

The cause of the accident is said to be a broken rail, and the loss is estimated to be over \$5,000.

Wrecking crews from Stratford and Hamilton were rushed to the scene, and by morning had the wreckage cleaned away and the track in condition for traffic. Fortunately no person was injured.

SPORTING COMMENT

By FREE LANCE

The Brantford Club has signed a new shortstop. President Nelson has not only signed him, but has bought him from the Lawrence Club of the New England League. His name is A. J. Tesch, and the local management has every assurance that he will fill the bill. There is no question about it, Shortstops McAuley, Shea or Ahern have not met expectations. Fans have seen it, and the management knows it. One of these boys may be kept for the outfield or for utility, but certainly none are good enough to fill Louie Courtney's shoes. There's no knocking these boys in this column, but Brantford wants a real ball team, without sympathy and without favor. President Nelson says we will get one, and get it before Ottawa opens here, May 7. So much for the position of shortstop.

Any fan who happened to be at the exhibition affair at the park yesterday could not have helped but have been impressed with the grand defence on the infield of Orcutt, Wagner and Ivers. These three are well known to all fans. Yesterday they appeared stars in their respective positions. That they have their jobs cinched goes without saying. That they will make a great effort to bring a pennant to Brantford is but scant tribute to their prowess. The writer doesn't propose to pick out any one of this trio as an individual star. All are good. Wagner had a lot of work to do yesterday and won the plaudits of the crowd. What Orcutt did was finished. Ivers certainly will be a grand man this year, as evidenced by his clouting ability. But these three players require a shortstop, and they will make a grand infield.

As for the pitchers, out of the recruits Clermont is said to be the best. O'Reilly and Anders need more experience. This is not our opinion; but general report. Donovan, Collins and Coose are regulars, no question about that.

The catchers, Lamond, Chapdelaine, English and McCarthy, are an excellent lot, but fans at the ball park yesterday were unanimous that one Matty Lamond of hold-out fame was par excellence. The fight for a job is between Chapdelaine and English. We like them both. If noise is a factor in the fight for supremacy, Chapdelaine has it by a million majority. If the possibility of having a finished catcher, hard worker and good hitter within a short time is a factor, we would hand it to English. Frankly, we like them both, but prefer English. It is possibly only a matter of taste, and the presidential guy who holds the mortgage on the suits and franchise along with managerial advice is he who has the "ipse dixit in the matter.

When it comes to the outfield, we are only temporarily distressed. Kane can deliver. We know that. The only place Kane was ever criticized was from his own bleachers behind the dyke. For two years every sporting writer on the Canadian League circuit has admired his ability as an outfielder, also as a manager. The old boy has had so many encomiums passed his way in his experience, we can't waste any more space at present. He is Ambrose Kane—that's all. Buster Burrill only got out of bed on Monday. He is a grand boy, and we have seen no Red Sox try-out, Algernon or anybody else, who can take his place satisfactorily in centre. For the distress of Ottawa, May 7, we hope he lands O.K. in the middle garden. In right field our senses of appreciation were truly awakened yesterday by one Chathamite, Brundage. We have seen clouters from Taw, but not like the gink from the Kentish town. He clouted a home run, a two-bagger and a single in four times at bat, and gathered in three of the six wallops who is only a few hours from being a lad. Take it from us (get the editorial "we"), Brundage is a vicious hitter, and if he sticks with the Red Sox, one Peanuckle will have to come across with more new dollars for home-runs than he thought there was in the peanut business when he made that crack for popularity, notoriety, or whatever you call it.

In sizing up the Red Sox thusly the Courier is endeavoring to hand out the dope. We are not tied up with any boost agreement, although it is foreign to our nature to do anything except boost. If there is any hammering to be done, now is the time to do it. At present it is not necessary, but the Red Sox boss will have to show a new shortstop, and a good one, Opening Day. If he does, he will probably have the pleasure of boosting the 1913 pennant flag on the at present unadorned pole behind the dyke. What a good short fielder would do to the Red Sox just now is just what Wagner did last year at second—make a sieve air-tight. Do you get us?

STRING NOT CUT SAYS PRESIDENT

Meal Tickets Still Holding Out for the Red Sox Recruits.

President Nelson when asked this morning if he had cut the string on any of his players replied decidedly in the negative. There is a feeling of unrest among some of the recruits who are quite honest about it and expect to secure membership in the International Order of the Tin Can almost immediately. Probably it will be Saturday night before there is anything doing. President Nelson is prodigal with meal tickets and believes much more in meals now than lost games later. However there will probably be an exodus on Sunday, next.

LIKE A RATTLE OF TIN PAILS

Spanish Jargon of the Cubans on Ball Field Yesterday.

The Cuban Stars are playing behind the dyke this afternoon and Pedrioso will pitch. He is said to be the greatest ball player ever turned out of Cuba. It was he who covered first base yesterday to the admiration of everybody. Like several others on the Cuban team Pedrioso is of big league calibre. The pitcher who worked yesterday will go up this year to one of the majors.

Manager Kane last night frankly admitted that the Cubans were great ball players. "They certainly can field, throw and run, but I have an idea they can't hit. At any rate let's see."

BOWLERS HAD A JOOLY TIME

Progressive Passtimers are Uging Holding of Labor Day Tournament.

A jolly lot of bowlers assembled at the Imperial hotel last night where a most enjoyable evening was spent it being the occasion of the annual smoker and euchre party of the Pastime Bowling Club. The officers of the club were on hand and offered the glad hand and welcome smile to the members, as they filed in.

The bowlers then partook of a dainty lunch provided by Miss Host W. Campbell. After justice had been done to the good things provided, the president of the club called the boys to order.

Mr. Hay announced that a movement had been started to hold a bowling tournament here on Labor Day, and was very much approved. A committee composed of F. S. Blain, C. T. Hay and A. B. Burnley were appointed to co-operate with the other bowling clubs in the city in reference to the affair.

F. S. Blain will send notices to the city bowling clubs requesting them to send delegates to a meeting in connection with the tournament which is proposed to be held within ten days.

The Brantford Courier and the Expositor each offered to donate a handsome trophy to be competed for at the Labor Day Tournament, if such is to take place. The bowlers are very grateful for the kind offers of the city papers.

Short speeches were made by Messrs. Inglis, Burns, Blain and others.

It was voted one of the jolliest nights in connection with this popular bowling organization.

Soft Ball

A meeting of the Soft Ball league was held in the Y.M.C.A. last evening when representatives of the six teams in the league were present namely the Y.M.C.A., Beavers, G. S. and M. Mickle-Dymont, Dufferin Rifles and Ham and Notts.

Rules and regulations in connection with the league were drawn up and adopted.

Football

Colonials Crowding Out Britons.

London Sportsman: The effect of the importation of colonial players by Northern union clubs is strikingly seen in the circumstances attending the transfer of W. Batten from the Hunslet to the Hull club. This transfer was completed Saturday afternoon. Hull paid a transfer fee of 600 pounds—a record for Northern union football—and the player, not being permitted summer wages under the union rules, receives a sum which works out to the old association maximum of four pounds a week all the year round. Batten had no real grievance against the Hunslet club. He took the stand that, being a Northern union international, he was as good a player as any colonial, and if the latter could come over here and receive a fat fee for signing, and live the life of a gentleman of leisure, he thought an English player (and a Yorkshireman), was entitled to equally good treatment, and he was going to have it. And I do not know that a single supporter of the Northern union can be blamed for this.

CUBANS ARE FINE PLAYERS

They Can Field, Hit, Throw and Coach in Great Style.

The Cuban star baseball team defeated the Red Sox by a score of 8-2 at the Agricultural Park yesterday afternoon because they were the best team and played better ball. Not any error was charged against the Stars and they certainly were stars. The visitors are on to all the tricks of the game and their playing was much admired by the local fans who journeyed to the ball park. Perera, who did the pitching for the Stars held the locals safe at all times and at no period of the game was he in trouble to any extent. He held the locals to four hits until the ninth inning when...

In Big League

Like Champions
NEW YORK—The Bostonians showed real world's championship form yesterday and defeated the New Yorks 8 to 1. They batted Schultz, the first New York pitcher for fourteen hits, and scored almost at will. Hoff held the visitors in the last two innings. Bedient pitched a fine game for Boston and received great support until the ninth innings, when wild throws by Speaker and Engle prevented the Soxman from scoring a shut-out.

Stovall's Hit
ST. LOUIS—St. Louis won from Cleveland yesterday by 2 to 0. Pitcher Gregg was unsteady in the early innings but always pulled out without being scored on. St. Louis won the game in the eighth. J. Johnson singled to left and Williams followed with another single. Both runners advanced on Pratt's sacrifice and scored on Stovall's single to centre. Score: 2-0.

Dubic Beaten
DETROIT—Chicago yesterday gave Dubic one of the worst beatings of his American League career and defeated Detroit 8 to 3. Consistent hard hitting, coupled with loose fielding and batting errors enabled the visitors to win with ease. Cicotte was also pounded hard, but his spitalism seldom failed him. Right places and he kept Detroit's hits well scattered. Weaver in the sixth robbed Crawford of what looked to be a clean single by a thrilling stop near second base, and quick throw to first. Score: 8-3.

Johnson Inevitable
PHILADELPHIA—A pitching duel between Johnson and Plank here yesterday afternoon resulted in a victory for Washington over Philadelphia 2 to 0. Both runs were made in the ninth with one out, Milan on second and Gandil on first, a double steal was tried on the ball which Morgan fanned. Lapp threw to catch Gandil at second, but neither Collins nor Barry covered the bag. When the ball went to the outfield, Milan scored and Gandil reached third. The latter scored on Atsmith's single. Plank fanned ten batters in ten by Johnson and each gave only one base on balls.

Oh You Dodgers
BROOKLYN—Brooklyn came from behind with a rally in the seventh inning and made it two out of three games on the series with New York. The score was 5 to 3. New York leading by 3 to 1 in the seventh when with two out and one on first and second and two strikes on Cutshaw, the latter banged a long double to centre, sending home the tying run. Hits by Stengel, Wheat and Daubert sent two more runs across. Both Ragon and Ames gave way to pinch hitters, Crandall batting for Ames and finishing the game. Allen struck out three men in the last two innings. Ragon however gets credit for the victory. Score: 5-3.

Steele Was Good
PITTSBURG—Pittsburg was unable to hit Steele to any extent yesterday, and lost the fourth straight game. St. Louis taking the first game of the series, 6 to 1. O'Toole relieved Robinson in the fourth and pitched one ball, only one run being made off him. Very pitched in the ninth and allowed another another run. It was stated yesterday that Hans Wagner may be able to play in Boston next Tuesday. Score: 1-0.

Boston's Third
BOSTON—Boston won its third game of the season after an eleven innings pitched battle between James and Bennett yesterday. James a recruit twirler having won two of the local team's three victories, both extra innings affairs. Maranville's error made Philadelphia's only run possible. The visitors filled the bases in the eleventh, with only one out but James hid them scoreless. Score: 1-0.

Evers Still There
CHICAGO—The Cincinnati Reds, with the return of their regular playing paraphernalia, gave the local Nationals a close call in the second game of the series yesterday, but lost by 3 to 4. Suggs and Pearce were opposed to each other in what proved to be a pitchers battle, but with the luck of the game in favor of the Chicago flogger. The locals were credited with two homers on drives which were misjudged. Had these been played correctly the outcome might have been different. The score: 3-4.

LEAFS HAND IT TO BALTIMORE

Pitchers Were Wild and Ineffective - More Sad News.
BALTIMORE, Md., May 1—The Leafs and the Orioles opened up in their first clash of the season yesterday, and the result was a decidedly choice article that came to the lot of the home crowd to the tune of 10 to 7. "Come to" is used advisedly, for both teams did their level best to hand it to their opponents. Baltimore's generosity was in the way of fielding, while Toronto's charity inclinations were mostly on the part of the hurlers, Brant and Hearne. Bases on balls were handed out in profusion by the pair of Leaf twirlers, and if ever a game was handed to a team on a silver platter yesterday afternoon's was.

If there can be any satisfaction gotten out of the fact that the Leafs looked better as a whole, the Canuck fans should be happy. Dave Roth, who has been pitching ball of the highest variety, was touched up decidedly lively by Joe Kelly's Klax yesterday, having more runs scored on him than in the several other games he has pitched this season. While it is true that his team mates blundered much too often, it is also a fact that Kelly's boys were generally on hand with the bingle when it was needed.

Mighty Tim Back on Job.
 Tim Jordan got back to his old place at first and Schultz was finally given a try at the short field job, for which Kelly originally intended him. The youngster did not perform badly by any means, although from his work yesterday afternoon no one would venture to say that he is a coming big leaguer. Joe intends to keep Schultz at short for the present, and will give him a personal course of instructions. As a matter of fact, Kelly has gotten the permission of Manager Dunn to use the ball park for an hour or so each morning, and Kel has ordered morning practice.

Yesterday was the warmest the Leafs have struck, and it is believed that when a steady run of real baseball weather is had, the Kelleyites will soon show that they have no intention of remaining in the cellar berth for any extended length of time.

Brant's Wildness Gave Birds First Victory - Montreal Field to Be Fixed Up - Gossip.

The World.
 These are indeed sad days. Outhit and outfielded the Birds, but yet we couldn't win.
 Grover Cleveland Brant blew. Bases on balls gave it to John "Grab" Dunn.
 Poor Joe Kelley. Those Baltimore fans must have given him an awful spanking.
 Those Paragon fans are true sports. The crowd at the Star yesterday called encouragement to the luckless band and nearly raised the seats when the Leafs came through with a few runs near the finish.
 Schultz was moved over to short and performed in grand style at the knee joint is loose, in which case the Little Rebel is liable to have serious trouble with the injured member. If the knee shows no further improvement within a day or two Tommy will probably go to Rochester for special treatment.

American Girl's Ideas About a Model Husband

All the colleges for women in Kansas have been canvassed on the question, "What is your description of the ideal man?" The result was made known officially on Monday, and this is what the male being should be like in order to meet the requirements of the girl graduates:
 Height, 5 ft. 11 in.
 Weight, 150 lbs.
 Chest, 40 in. expanded, 34 in. contracted.
 Waist, 30 1/2 in.
 Must make a good appearance, but need not be handsome.
 Must be careful of his personal appearance, but not a dandy.
 Must be jolly, accommodating, considerate, and a true sportsman.
 Must be a good conversationalist, but not a flatterer.
 Must reverse and respect the aged.
 Must show courtesy to men and women.
 Must not smoke or drink or be guilty of attendant evils.
 Must not sneer at religion or joke lightly of it.

Must not recognize a different standard for men and women.
 The physical qualifications were averaged taken from thousands of letters, in reply, each girl being asked to submit the measurements of what she considered her ideal man. Some of them liked giants, and some liked little fellows. The usually tall girl liked short men, while the plump girl liked tall, attenuated fellows. The rule of contrasts was followed, almost invariably in every case, where the girl who made her choice of an ideal man was small or large compared with the average girl.

Attental and moral requirements varied a great deal, too. Some girls put ability to cook ahead of all other standards.
 One surprising feature, says The Telegraph is that the girls canvassed seemed to prefer men of good appearance, "who could put up a good front," to just handsome men.

WAGNER LOYAL TO THE BOYS

CINCINNATI, May 1—Hans Wagner, the wonderful star, of him is this story told—a tale that shows how the German had a heart that was purest gold—
 Four years ago Hans Wagner, rich in this world's goods, and even then weary of the game, announced his retirement. No holdout, no demand for money or privilege—just determined to quit and take things easy. Fannie and Harry Pullman now dead, came up to see the German. He found Wagner obdurate, immutable, immovable. "I'm through," that's all, growled Hans. "I've got money and sore muscles. I need more money—I can't stand much more ball playing, I'm done."
 "Hans," said Pullman, "that old town is full of hard working honest toilers, men of the mills. Little pleasures in their life, but they're little. A Saturday afternoon—a few hours under the blue sky—and the chance to see Hans Wagner play ball. They go there to that field by thousands, just to see you. That's a joy and a real delight to those poor fellows—and you don't want to take that pleasure away from them."
 "Give me that pen," growled Wagner. "I'll sign it Harry, and I will stay as long as they want me to."
 No hold-out, no demand, only a sacrifice of the strained body that yearned for rest and ease—only a sacrifice to please a gentleman and to please the smoke begrimed thousands that made Wagner the idol of the leisure hours. That was all, but it showed the golden weave of Wagner's heart and soul.

BRUNFORD

(From our own correspondent.)
 The friends of Mr. J. H. Woolley will regret to learn that he is very ill at his home in Hamilton.
 Death has once again made its sudden call in this vicinity. Last Thursday Mr. A. E. Brown of the 4th concession went out to milk. He was immediately taken to the house and medical aid sent for but he never recovered consciousness and died about noon. Much sympathy is felt for the bereaved family.

 blame him. All the same, the effect on the majority of the league clubs is serious. Players of native birth and training naturally rebel against a preferential treatment given to the Australians, and the term "frozen-nut men" has become one of the recognized sarcasms of the local professional when referring to the football importations from New Zealand and Australia.

Football Council.
 The Brantford Football Executive Council met last night in the Borden Club rooms when the following business was put through.
 Reports from the referees re last Saturday's games were accepted.
 Wm. Land not being in good standing with the 25th Dragoons his release can not be given till he adheres to the rules of the league.
 The Ar. Scots Football club will hold a meeting to-night at the Borden Club, at 8 o'clock. All players and members are requested to attend, as some important business will be discussed.
 F. J. Daniels goes to 25th Dragoons, and F. Locke to St. Andrews.
 All Scots Meeting.

 Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation, warranted to destroy stomach and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.

Cubans

(Continued from Page 7.)
 the Red Sox broke away and scored a trio, one a home run by Brundage, the heavy hitting outfielder secured from the St. Kitts disbanded team. The visitors have a fast infield which are right in the game from start to finish and they were given rounds of applause for their superior playing. The outfield will take good care of anything that happens to some their way. The Cubans are not a bit backward at the bat and sent O'Reilly to the bush in short order. It would take some real good pitching to keep them from getting on bases, let alone scoring.

There were three outstanding features on the part of the Red Sox: Their inability to hit. Brundage's home run. The wretched work of McFadden at shortstop.

From all appearances and from the showing of the recruits Kane is up against it hard for a shortstop, as none of the new comers have shown anything like form in that department. If any of them have the goods it is up to them to produce the same at once for there has not up to date been anyone who even has the resemblance of a shortstop. A week hence and Ottawa will be here for the opening game, and Kane cannot waste any time in filling that position. One of the pitchers who are working for a berth Clearmont is the only one so far that has shown up to any extent and he may be put on the pay roll next week.

The Game.
 Umpire Fraser started the game sharp at nine and the Cuban Stars went to bat. O'Reilly started to pitch for the Red Sox with English doing the catching.
 Kane also used Clearmont and Chappelaine and Donovan and Lamond—three batteries in one game.

Paris News

(From our own Correspondent.)
PARIS, April 30.—The marriage took place this afternoon at 2.30 o'clock at the residence of Mr. and Mrs. Archibald Wilson, Capron St. K. to Mr. George Willis Hall, the Rev. R. G. MacBeth officiating.
 The bride, who was given away by her father, wore a handsome gown of ivory duchess satin with tunic and drapery of silver embroidered nylon with trimmings of pearls and rosebuds, wearing a tulle veil and orange blossoms and carried a bouquet of bridal roses and lilies of the valley. Her only ornament being a pearl necklace, the gift of the groom. Mr. T. Ives, A.T.C.M., rendered Mendelsohn's wedding march. The ceremony took place in the large window of the drawing room, which was attractively decorated with palms, ferns, etc., forming an effective background. The only attendant was Miss Essie Wilson, of Brantford, who made a charming flower girl, attired in a dress of white silk and rosebud trimming. She carried a basket of pink roses and wore a gold bracelet, the gift of the groom. During the signing of the register, Miss Kate Wilson, sister of the bride, sang very sweetly "O fair, oh sweet and holy matrimony." After the ceremony a silver mesh luncheon was served in the dining room by four girl friends of the bride, Miss Jessie Helliher, Miss Jean Cole, Miss Lottie Hicks and Miss Grace VanEvery of Hamilton. Mr. and Mrs. Hall left on the 5.43 train for Toronto and other Eastern points, the bride traveling in a tailored suit of pearl grey chiffon brocade with black hat and pink roses buds. The bride was the recipient of a large number of gifts, among them being a dozen sterling silver spoons from the Presbyterian church choir, carving set from the groom's friends in the Paris fire department and track crystal bowl and nappies from the employees of the Sanderson Harold Co.
 The new clock tower is being erected on the Paris post office, the frame work being put in place yesterday. It will add much to the appearance of the structure.

LITTLE NAVY TO BE RETAINED

Government Couldn't Sell Laurier Ships if it Were So Desired.

OTTAWA, April 30.—Liberal reports that the Government proposes to retain the Niobe and the Rainbow to the British Admiralty are entirely incorrect. A feature of the situation which the utterers of the rumors to this effect seem to have overlooked is that Canada owns the Niobe and the Rainbow, and could not "return" those interesting vessels unless the Admiralty consented to buy them back. As the Admiralty is scrapping the sister ships of the Rainbow and the Niobe, it is not likely that it will pay very much money for the privilege of reselling the one and anchoring the other in its museum.
 The story is built up out of the fact that the Naval Service Department has decided to allow such of the Canadian recruits as choose to leave the service to take their discharge without forfeiting the sum of money usually exacted. Much is to be said for this course, as the instruction proper is at a standstill, the naval instructors borrowed from the Royal Navy having left on the expiry of their time and not having been replaced pending the adoption of the permanent policy of the Borden Government.
 Two legacies from the Laurier regime aggravate the situation. One is the Laurier to build naval barracks Halifax. Admiral Kingsmill warned the Laurier Government that when the recruits had been two years on the Niobe they would need more advanced instruction, which should be given to them in barracks. As they left the ship they would make room for more recruits. He accordingly warned the Government to commence at once the construction of barracks. This was neglected, and the whole scheme now is in confusion.
 Another error was in the term of service. In the British navy this was twelve years. The Laurier Navy Bill made it seven years. As it takes six or seven years to train a man to be a good seaman gunner, this was an ingenious arrangement to get rid of the men when trained as well as to cause Canadian ships to be manned on a different principle from those of the real navy.

DODD'S KIDNEY PILLS QUICKLY CURED HIS KIDNEY DISEASE. How Hudson Marchbank, After Suffering for Five Years, Found Quick Relief and Permanent Cure in the Greatest of Canadian Remedies.

MARCHBANK, Kinross County, N. B., Apr. 28 (special).—After suffering for five years from kidney disease, brought on by a strain, Hudson Marchbank, Esq., the well-known farmer of this place, is again a strong healthy man, and another grand cure for Dodd's Kidney Pills has been put on record. In an interview, Mr. Marchbank said: "About five years ago I hurt my back from lifting, and it developed into kidney disease. My back pained me all the time, and I was very much troubled with headaches. My appetite was lifted, I had a bitter taste in my mouth in the mornings; I perspired freely, and my perspiration had a disagreeable odor."

"I used liniments and plasters, but they did not do me any good, and as there were other symptoms that my kidneys were affected, I decided to try Dodd's Kidney Pills. After using two boxes, my back was completely cured, and my kidneys have not troubled me since."

"When Mr. Marchbank decided that his kidneys were the cause of his troubles, the rest was easy. Almost any of his neighbors could tell him that Dodd's Kidney Pills always cured diseased kidneys."

Wellington

By HOWARD L. RANN

ONE hundred and forty-four years ago to-day the Duke of Wellington was born. The Duke's real name was Arthur Wellesley, but he did not use it very long, as every time he won a battle the English Parliament would call him several kinds of a viscount or baronet, and in the later years of his life he had to get out new visiting cards every other month. He was a gaunt, severe man, and lived mostly on popular acclaim and rare beefsteak for both of which he had a 60-horse power appetite.

Wellington was born in a castle in Ireland and his profession in life was the whipping the French army whenever he met it. The castle was a poor place to live in, as it did not have a bath room or a vacuum cleaner, and Wellington soon went to Eton college, later on to a military school in France, where he learned to perfume his conversation with some of the most popular French quotations.

As soon as Wellington was out of school he started in pursuit of the

French army, which was roaming around Spain and attacking people who didn't know the Champs d'Elysees from a new 5-cent cigar. Wellington went over to Spain for the purpose of conducting the funeral of several thousand French soldiers, and by the time he got through the flower of the French army looked like a frosted asparagus bed.

Wellington was about to retire and commiserate with the goat when Napoleon broke out of Elba and went on the warpath. The English people did not like Napoleon's manners, or his blunt style of doing business, and they implored Wellington to go and head him off before he captured Hyde Park and the property owners abating thereon. Wellington sent a polite note to Napoleon, requesting him to stand back up, or words to that effect, and on the latter's refusal to do either he took several of the English militia and started for the field of Waterloo.

Napoleon had 130,000 men to Wellington's 70,000, but Napoleon's army was nourished on cream puffs and orange blanc mange and was opposed to fighting on an empty stomach. Nevertheless it took Wellington three days to convince Napoleon that his star was about to set with a bitter plunk, and then it was a re-inforcement of Prussian soldiers that turned the trick.

greatly emphasized, will be disregarded and so render it necessary to consider that question."

That was taken as the nearest approach to a threat of danger that has been made since the conference began. In reply to a question as to whether the substitute bill drawn by Attorney-General Webb, which was acted on by the Senate later, would be acceptable, Secretary Bryan said: "I have telegraphed to President Wilson and he deems it inadvisable to sanction any particular statutes or legislation. He thinks that it should be made emphatically evident that we are acting just now as the federal government, sanctioning not this or that but as friends of California, wishing to be of such service as it is possible to California in a critical matter."

When Secretary Bryan concluded reading and discussing his messages, the conference came to an end. Governor Johnson prepared a statement in which he expressed the views of the majority party.

"The conferences between the Secretary of State and the Legislature were concluded just before midnight," it says. "We were delighted with Mr. Bryan and all he said was given the most attentive and respectful consideration. Every opportunity was accorded him and the conference closed only after he stated that he had nothing further to say."

"The members of the government of California with unanimity, expressed themselves as desiring to aid the national government, and in nowise to embarrass it. The spirit prevailing at the meetings was one of friendly co-operation and full patriotic purpose."

"After it all though, I think the majority of the legislators felt, and I certainly do myself, that no sufficient reason has thus far been presented that should cause California to halt in any contemplated legislation."

"If any law be enacted it may be safely asserted, treaty obligations will be scrupulously observed. The Japanese will not be singled out by any act. The classification made by the naturalization laws of the nation, established by the constitution of California, and sanctioned by the laws of other states will probably be followed."

"This, of course, is our legal and normal right and such enactment by California cannot be justly and logically either offensive or discriminatory."

In spite of the apparent overwhelming majority in favor of the legislation, Senator Leroy Wright, Republican, is planning to fight the measure when it comes to a vote on the floor. He had a long conference with Secretary Bryan at midnight.
