NORFOLK AND THE NAVY FUND

Ways And Means of Raising Contributions to be Discussed Today

NEWS FROM SIMCOE

Simcoe, Aug. 16.—(From Our Own Correspondent).—The executive of the County Patriotic Association has issued to about one hundred citizens throughout the county a circular requesting attendance at a meeting in the court house here this afternoon for the purpose of discussing how best the county can contribute its share towards the Navy Fund.

These addressed have been requested to bring others with them. A large attendance is desired. Inadvertently only one local paper was advised of the move, and inadvertently no doubt the four county papers outside Simcoe have perhaps been overlooked. It is well that the movement should receive the greatest possible publicity and in view of the harvest and threshing season being on in earnest, with the Toronto Exhibition in the offing and due on the week set for the campaign, too much publicity can hardly be given to the movement.

Mr. Frank Reid, treasurer of the local voluntary subscription fund to finance the I.O.D.E. here, has published his audited statement for the year ending June 30th and besides the summary of receipts and disbursements which we gave Courier readers early in July, there is a detailed list of the contributors and the amounts given by each. These latter vary from \$480 to 25 cents. The largest contributor was Harry J. Brook. Other contributors giving \$200 or more, are J. E. McClelland, \$470; W. L. Innes, \$240; C. E. Innes, \$240; W. P. Innes, \$200; Brook Woolen Co., \$300; J. B. Jackson, \$240; Senator McCall, \$360, and among the others many gave magnificently of their means. The committee requests a continuation of the support on behalf of old and new contributors.

Another Youth Worthy of Medal. Frederick George Cooper, aged 11, of Lynedoch, is given credit for rescuing from drowning in Big Creek, a 16-year-old boy, George Nix, by name. This will remind our readers that no public cognisance has yet been tendered our own youth, Masted Ted Richards, for similar gallantry at Normandale last summer, except a motion of com-

AUSTRIAN EMPEROR ON WESTERN FRONT

Is At German Main Headquarters Confering With Kaiser

By Courier Leased Wire
Amsterdam, Aug. 15.—Emperor Charles of Austria is at German main headquarters, according to a telegram to The Lokal Anzeiger of Berlin from Karl Rosner, its correspondent.

William and his advisers have been holding an important conference at headquarters, the correspondent reports, and these deliberations on political and military questions are reaching their highest point with the coming of the Austrian Emperor and his advisory staff.

Rosner's telegram, which was sent from German main headquarters, has been the scene of important and fruitful deliberations by the Kaiser and advisers on political and military questions. With the arrival of Emperor Charles and his political and military advisers the deliberations are reaching their highest point.

Accompanied by Count von Wedel, Admiral von Hintze (the German foreign secretary), and his suite, the Kaiser received his august subjects at the station. After an exchange of party greetings and the presentation of the suites the Emperor and their personal retinue proceeded to the quarters of Field Marshal von Hindenburg and General Ludendorff to hear their report on the military situation.

CHANGE RAILWAY SERVICE.
By Courier Leased Wire
Chicago, Aug. 15.—An ordinance giving cities of municipal operation of surface and elevated street car lines and subways to be constructed without owning them was passed by the City Council late last night, subject to a referendum in November unless voted by the Mayor when a two-thirds vote will be necessary to repeal. Under the terms of the ordinance the roads would be turned to a board of nine trustees; the lines will cease to be operated for profit to the surety holders and service to the public will be given at cost. The securities are allowed an interest return of 6.2 per cent until 1922 and 5.3 per cent after that, or an average of 5.3 per cent for a thirty-year period.

ITALIAN OFFICIAL.
By Courier Leased Wire
Rome, Aug. 14.—Following is the text of the Italian official statement issued to-day:
"Monday night attempted enemy attacks on advanced posts on the Pavroch and Konigritz were repulsed. In the Tonale region between the head of Noce Torrent and the head of the Geneva Valley our artillery carried out effective concentrations, inflicting losses on the enemy.
"Under the bombardment our detachments carried out thrusts and succeeded in occupying Monte Mantello, Punta di St. Matia and the spur southeast of Cima Seigolon. One hundred prisoners, machine guns and material was captured.
"The enemy made thrusts again where the Noce, Sarca and Genova have their sources. Excepting for pushing back a few mountain posts he nowhere achieved successful results."

Several hundred cords of wood have been purchased by the city of Sarnia and this will be held as a reserve supply.

HOW CANADIANS TOOK THE VILLAGE OF PARVILLERS

Smart Operation Enabled Them to Straighten Out Their Line

MORALE IS SPLENDID

Canadian Press Correspondent Tells Spirit Which Animates All

JEALOUSY UNKNOWN

By J. F. B. Livesay, Canadian Press Correspondent.

With the Canadian Forces, Aug. 15.—The Canadians captured the village of Parvillers in a smart operation, which enabled them to straighten out their line in that sector of the front. A number of machine guns and prisoners were taken. The latest report was that our troops were holding the village, and reinforcements have gone in support against the strong post the enemy has in the vicinity.

Enemy artillery activity indicates a stiffening of resistance. Hostile aircraft have been considerably strengthened on the whole of this Amiens-Montdidier front.

Some thirty-four enemy divisions have been engaged, including eleven fresh divisions, and two tired divisions from his reserve. The enemy has used up every battalion of two of the four divisions holding his line in front of the Canadians, these being the Seventy-Ninth, and the One-Hundred-and-Eighth.

The better one comes to know the Canadian, the more one realizes the band of brothers they are. There is no jealousy between division and division, brigade and brigade, or battalion and battalion. All have the highest admiration for the other fellow, and most modest conception of the value of their own particular job. There is a total absence of swank. They have pride in their force, and in the intense satisfaction that they are Canadians, but there is nothing personal about it. They are part and parcel of a wonderfully efficient machine, each carrying on his allotted job in humbleness of spirit.

The tenacity of battle that follow are garnered in a visit to a couple of units and therefore are typical of the entire force. The diaries of battalion commanders must team with them and in time these will be available to the Canadian people as a priceless record of a great feat of arms. In the meantime, such as these may serve. All day Thursday, when the battle opened, great difficulty was met in advancing on our extreme left. The nature of the ground and strength and depth of the enemy defense made this a much harder nut to crack than the comparatively free going over the prairie to the north.

Finally it was decided that the only way to advance was to turn the left flank. A famous Quebec battalion was entrusted with the task. The unit was to take up their position in the flank by the aid only of the start, maps and compasses. Only military men can comprehend the difficulty of the undertaking. At the appointed hour—half past four in the morning—they were on their feet, when they advanced and took the position, forcing the entire enemy line in this sector to fall back with trifling losses to us.

One officer had a bet with another that he would be in the boche divisional headquarters at Quesnel first on Thursday night. It was a wild race and was not settled till Friday morning, when the winner actually took possession of the quarters while the loser was still fighting at the far end of the town. He captured the entire enemy divisional plant. Shortly after the loser came along and had content himself with a humbler billet. This was nine miles from the starting point on Thursday morning.

The advance of a Manitoba battalion was the record of the battle being over twenty thousand yards from our front line. One officer fell while leading on his men against a machine gun nest that was enfilading the line. "Come on, boys, he cried, "We don't care for machine guns."

He bore five wound stripes. Another battalion was directed to take a wood. The colonel found it alive with boches making it impossible to pass without being mowed down by machine guns. The first three companies were hotly engaged and could not be broken off. Their colonel got hold of the other four companies and personally organized an attack on a corner of the wood in face of heavy machine gun fire. That portion of the wood was cleared, making it possible for other companies to proceed toward their objective and flank the entire position, compelling its garrison to surrender. While marching down a road this battalion was attacked by eighteen German airplanes flying low and sweeping the road with machine gun fire. The order was given for the men to scatter and not one was hit. A cavalry squadron, galloping down the road, also escaped without a casualty.

One officer, summing up the battle, said: "It was the best organized, the best planned, the best executed, the best worked out without a hitch. Within twenty-four hours of the casualties, the men reformed to replace them and the supplies came through as regularly as in the camp."

PERMANENT MINISTERS IN OLD LAND
Colonial Representatives to Imperial Conferences Will Stay in London
London, Aug. 16.—Canadian Press Dispatch from Reuter's Limited.—The Times announces that the imperial War Cabinet has decided that each dominion will be represented by a permanent minister in London, who will attend the periodical meetings of that body. Possibly Sir Edward Kemp will continue to represent Canada, and presumably General Smuts will represent South Africa. It would be very unwise to jump to the conclusion that Premier Hughes desires the post of permanent minister of the Commonwealth of Australia.

The expedient is unlikely to be a final solution of the problem, it will be still necessary. Editorially the Times recommends this useful innovation, and says:
"The expediency of government. We think that the heads of the dominion governments should periodically come to London, but the permanent ministers here should be able to keep in personal touch with events and act as channels of communication between the British war cabinet and their governments."

Bolshevik Claims.

London, Aug. 16.—The Bolshevik Government in an official statement claims the capture of positions in the Archangel district, where there are Allied troops and says that their adversaries have abandoned the fighting near Onega, according to a Reuter despatch from Moscow.

A series of successes, which apparently are of minor importance, also are claimed in the operations against the Czech-Slovaks. The newspapers at Kiev report that the Cossacks from the northern region have entered the Government of Veronezh.

A despatch to The Cologne Zeitung says that the Don and Cuban government and the leaders in the adjoining regions have entered negotiations looking to the establishment of a joint central government.

British Halted.
London, Aug. 16.—The population of the Murmansk region received with joy the British force that landed there recently, according to an Allied diplomat, who has arrived in London from Petrograd. "It was in Murman when the British troops arrived," he said, "and an Allied diplomat, who has arrived in London from Petrograd, the pleasure that the arrival caused. Old men and women wept with tears of joy, crying: 'At last Russia will be saved. The peasants, workmen and soldiers know that Germany is their enemy.'"

"Never has the situation been so favorable as to-day for the presence of the Allies in Russia. Many men in Petrograd who held high positions in the old Russian army say their worst enemy is Germany. They have told me that they know now that the only real friends of Russia are the Allies."

Correspondence Restricted.
London, Aug. 16.—The Soviet Government, says a Russian wireless message, has issued an order that correspondence to foreign countries must not be accepted "for some time to come except for the Ukraine."

MORE TRAINS FOR THE EXHIBITION.

It is customary each year for the Canadian railways to give special rates to the Canadian National Exhibition. This year there has been no public announcement regarding the intention of the railways in this respect, but it is understood that the local agents have received a circular giving them instructions regarding the matter and anyone applying to them will find this information available. The traffic congestion has been immeasurably improved, since, this time a year ago and prospects at the present time are that there will be a larger and better train service from all points to Toronto and return.

STRAIGHTENING OUT TANGLES IN M.S.A. FIGURES

Officials Now Tabulating the Exact Number of Men Secured

Ottawa, Aug. 15.—Tangles in military service act figures are being gradually straightened out. Investigation is now in progress by the various registrars to determine exactly how many men have been secured who might properly be classed as "reinforcements" within the meaning of the act. Difficulties have arisen owing to the fact that a large percentage of men classed as deserters have joined the colors in other military districts. Revised figures, it is expected will be ready within the next week or two.
So far returns available show that up to noon yesterday, the net total of reinforcements secured under the Military Service Act, ss 58,713. This total is exclusive of those who have reported for service voluntarily since the act came into force. It is exclusively also of men discharged or on leave without expense to the public. Including these the total would be:
Obtained under Military Service Act, 58,713; voluntarily reporting, 19,477; number discharged or on leave without expense to the public 23,532. Total 101,713.
The total of 58,713 reinforcements secured under the act is made up as follows:
Number reporting as ordered, 54,722; number reporting late or apprehended as deserters, 17,913; defaulters (non-registrants) apprehended under act, 9,596; total, 82,236; less discharged or on leave without expense to the public, 23,532; total obtained under military service, 58,713.
This total of 58,713 reinforcements comprises:
Obtained west of great lakes, 22,493; obtained in Ontario 19,724; obtained in Quebec, 3,387; obtained in Maritime province 3,087; total obtained under military service act 58,713.
From the above 3,134 have been transferred to the royal air service and the inland water transport B. E. P.
The total of men ordered to report by registrars is 109,828 and 37,188 are classed as having failed to report. It is expected, however, that the revised figures will indicate many of these as having already reported in districts other than those from which their call was issued.

FIGHTING

(Continued from Page 1.)
Aerial operations still are intense. On the British front 28 German machines were put out of action Wednesday, while the British lost 15. Bombs have been dropped on railway junctions within the German lines, and British aviators have flown into Germany to attack Thionville and have bombed railway junctions in the Metz-Verdun area with good effect. Paris was visited Thursday by raiders who dropped several bombs. A small number of persons were killed and there was some material damage.
On the Italian front the situation is normal. The Italians have seized an islet in the southern reaches of the Piave.
REDUCE INTEREST RATE.

GOLD CONFERENCE CLOSES
By Courier Leased Wire.
Reno, Nev., Aug. 15.—The American Gold conference concluded a three-day session here today. After declaring that many mines have been forced to cease operation because of increased cost of operating in the last six months, many others are now running at a loss, and are about to be closed down or abandoned, and that a large portion of the gold industry is now threatened with extinction, the conference adopted a resolution requesting:
"Relief by the United States to the gold producers of this country to correspond with the increased cost of production, the extent of such relief to be fixed from time to time to meet changing conditions.
"That nothing contained in these resolutions as passed is to be construed as meaning an intention to alter the amount of gold in the dollar, or to place a premium on gold."

THE CROPS

The following is a summary of reports made by Agricultural representatives to the Ontario Department of Agriculture:
Harvesting is practically over, with returns in many places up to the average and in a few places slightly below.
Harvesting is now at its height. Fall wheat and barley are practically all cut and considerable quantities of both are reported from various parts of the province. The cutting of oats and spring wheat is also well under way, and good returns from both of these crops are sure.
The showers of the latter part of the week appear to have been fairly general and did much good, especially to the corn and roots.
Blight in potatoes is represented as doing considerable harm in some sections. Preparations for fall wheat seeding are under way, and some counties report the outlook as being favorable to an increased acreage, although the dry weather has made ploughing difficult, except where tractors are available.
The live stock situation is about normal, taking into account the condition of the pastures as a result of the dry weather. There has natural been a decrease in the milk flow. Dundas county reports that pasturing of hogs is now a common sight. Hogs are fenced in on rape clover, with a small covering for shelter, and this has developed in popularity as a result of the high price of concentrate.
The demand for labor is now also at its height, but reports generally indicate that it is being fairly well met. The very general extent to which harvest leave has been granted is proving a big factor in the labor situation, and there is every assurance that a splendid crop will be satisfactorily harvested. The assistance of men and women from the towns and cities however is counted on in some sections.
E. E. Crawford, of Saint Ste. Marie quits the mayor's chair to become city assessment commissioner at a salary of \$2,400. Ald. Dunn is the new mayor.

THE SITUATION.

An important piece of news is the announcement that a British contingent has reached the Russian city of Raku. It is the seaport of the Apheron Peninsula on the Caspian Sea and the whole of the soil around is impregnated with naphtha and petroleum. The move means that the Allies are determined if possible to prevent this rich oil region from falling into the hands of the foe. Meanwhile the Czech-Slovaks are reported to be in a serious condition in Siberia. They have only a thin line of soldiers scattered for three thousand miles along the Siberian Railway and these are liable to be cut off at any moment. Under such circumstances it is satisfactory to know that Japanese forces are commencing to arrive. Another despatch states that Russians of all classes are now commencing to realize the need of Allied help against their German taskmasters and this if true, is a reassuring sign.

The Canadians continue their splendid achievements and have captured two villages not far from the main Rove road. The British forces generally continue to make gains in this area. The French also report further progress.

The Italians have recently taken some high positions from the Austrians and the rumored demonstration in force by the latter still continues to hang fire.

Allied air men dropped a number of bombs on Frankfurt, killing several and inflicting much damage. Panic is said to be reigning in other Rhenish cities.

According to an estimate which emanates from Paris German losses since the commencement of the war to the end of July last have totalled six millions. Of these nearly a million and a half have been killed.

THE DISCLOSURES OF A PRINCE RECALLED.

The New York State-Zeitung, the leading German paper in that city, has now ranged itself on behalf of the Allied cause. In making the right about face it attributes the change of heart to the revelations of Prince Liechnowsky, the German ambassador in England prior to the war, and at the time of the outbreak, and adds that, although for a long time German-Americans were unable to see the peril they have now had "a rude awakening" and their sense of duty to the land of their adoption is showing them "the right course to pursue."

Whether or no the determined attitude of the American people has had as much to do with the somewhat as the utterances of the prince does not matter, but it is a timely thing to repeat the essence of the terrific arraignment made by the latter. Here are some extracts from the revelations made by him:

"It naturally only needed a hint from Berlin to induce Count Berchtold (Austria) to content himself with a diplomatic success, and put up with the Serbian reply. But this hint was not given. On the contrary we pressed for war. After our refusal, Sir Edward Grey (British Foreign Secretary) asked us to come forward with a proposal of our own. We insisted upon war. Before my departure Sir Edward Grey received me on August 5th at his house. I had gone there at his desire. He was deeply moved. He said to me that he would always be ready to mediate. Our departure was thoroughly dignified and calm. Before we left, the King had sent his enquiry, Sir E. Ponsonby, to me to express his regret at my departure and that he could not see me personally. Princess Louise wrote to me that the whole family lamented our going. Mrs. Asquith and other friends come to the embassy to say good-bye. A special train took us to Harwich, where a guard of honor was drawn up for me. I was treated like a departing sovereign. This ended my London mission. It was wrecked not by the perfidy of the British, but by the perfidy of our policy."

For thus telling the truth with regard to the Kaiser and his advisers thus deliberately setting upon the Serbian incident to commence hostilities, the Prince has since been ejected from the Prussian House of Lords, but he holds a far higher place than that in the esteem of honorable and decent people the world over.

ALSACE AND LORRAINE NOT GERMAN.

It has been the independent claim of the Hun that the people of the two Provinces, Alsace-Lorraine, wrested from France by the Germans, in reality had lost all identity with their mother country and had become strictly Teutonic in spirit. The New York Sun in this regard points out that on German prisoners captured in the present allied offensive have been found papers showing the difficulties that the German commanders are having in controlling soldiers from Alsace and Lorraine. A memorandum gives details of a mutiny of Alsatians in which 10,000 soldiers participated. An order from the Crown Prince's headquarters commands that men from these two provinces be sent to the rear for field work and that on account of the many desertions they shall under no circumstances be used in the front lines.

The troops which the Germans raised in Alsace and Lorraine were employed upon the eastern front. The recent disclosures show that the cause of their mutinies was the effort of their commanders to force them to fight against the French in the Vosges and Lorraine when they were brought west from the Russian front. Many were arrested for speaking French and singing French songs, hundreds fled into Holland, and so many deserted that some of the regiments were almost wiped out. This led to the orders forbidding the use of Alsatians on the front line and also to a command from the General Staff to battalion commanders that they report in the attitude of the Alsatian troops, and that they "recommend measures for the special treatment of these soldiers."

This demand for "special treatment" shows the falsity of Germany's claim that the Alsatians have become Germans. It proves the absurdity of her pretensions that so far as the question of nationality is concerned Alsace "is and by right should be a part of the German Empire." Thousands of Alsatians and Lorrainers are fighting loyally in the Allied armies. Their number increases each day. The people of both provinces await their restoration to France and the end of their bondage to Prussia.

NOTES AND COMMENTS.

There's no apparent limit to the work of the Maple Leaf boys.

A British force landing at Baku will seem Bakulian in more senses than one to the enemy.

The British Chancellor announces that since the commencement of hostilities the British people have subscribed over a million pounds, or \$5,000,000, for war bonds. Johnny Bull is certainly a marvel from whatever angle you look at him.

The health of King Ferdinand of Bulgaria has suddenly become worse. Even so it cannot be as bad as his record.

Sir Wilfrid Laurier participated in a welcome to Dr. Beland at Three Rivers and during the course of a speech said:

"I know the value of liberty more than most of you here because I have been without it for so many years. You, who listen to me have never been deprived of it and can not therefore feel so deeply as I do in this matter."

Now what on earth did the white plumed knight mean by that?

Attention has been called to the difference between the two letters sent by the Kaiser and President Lincoln to mothers' losing several sons by war.

The Kaiser's: "His Majesty the Kaiser hears that you have sacrificed nine sons in defence of the Fatherland in the present war. His Majesty is immensely gratified at the fact, and in recognition is pleased to send you his photograph, with frame and autograph signature."

Lincoln's: "Dear madam,—I have been shown in the files of the War Department a statement of the Adjutant-General of Massachusetts that you are the mother of five sons who have died gloriously on the field of battle. I feel how weak and fruitless must be any words of mine which should attempt to beguile you from the grief of a loss so overwhelming. But I cannot refrain from tendering to you the consolation that may be found in the thanks of the Republic they died to save. I pray that our Heavenly Father may assuage the anguish of your bereavement and leave you only the cherished memory of the loved and lost, and the solemn pride that must be yours to have laid so costly a sacrifice upon the altar of freedom."

FRENCH COMMISSIONER IS DEAD OF APOPLEXY

By Courier Leased Wire.
 A Pacific Post, Aug. 16.—Alberic Metin, head of the French Economic Mission, now in the United States, former minister of labor in France and minister of blockade, died here at midnight last night from a stroke of apoplexy.
 M. Metin was stricken early in the evening shortly after his arrival here with the mission of which General Paul Genet had named French military leader, was joint head.
 Physicians who attended M. Metin said the stroke, to exhaustion, brought on the journey to this city. He was found lying unconscious on the floor of his apartment. He died without regaining consciousness, and does what you claim for it, and that his possession will be worth to your prospect a great deal more than the money you ask for it. Do this and you will succeed.
 "A True Soldier"—Your trouble is either mental or physical: God can tell you, however, of a spiritual remedy that will co-operate with your physician. Realize that the Holy Spirit is in you and utilize His almighty power. When those awful spells of grief attempt to come, in the name and strength of God, refuse to allow them to do so. Do not be afraid; do not tamper with them; allow God, through your will, to destroy them, and it will be done. Write me again.

CZECHO-SLOVAKS IN GRAVE DANGER

Their Position in Siberia is Perilous—Are Liable to Be Cut Off
 London, Aug. 15.—Czechoslovakia in Siberia are in a dangerous position and are liable to be cut off altogether, says the correspondent of The Times at Vladivostok. Only a fraction of those between the Volga and Lake Balkhal are armed and all are deficient in every sort of equipment. They are cut off from the Far East and it is impossible to learn what is happening to them. The correspondent says there is much apprehension concerning them in Vladivostok and adds:
 "The Czechs here are pathetically anxious to push west and assist their brothers. They are contemplating desperate measures in order to reach them, but their force is ridiculously small compared with their opponents, while they lack most necessary equipment and are deficient even in the essentials."
 "It is the allied intention to hold the rear while the Czechs do the fighting. General Dietrich's small force might well be annihilated, but it is inconceivable that the Allies will refrain from co-operation and that co-operation must be on a larger scale than hitherto contemplated."

In an editorial The Times emphasizes the urgency of hastening allied action. It says that the Czechs have been driven back from the Usurt small country, and that they are in eastern Russia. It is imperative, The Times declares, to send help to western Siberia through Harbin whenever it says, Lake Balkhal ought to be reached in one week's strength within a reasonable time.
 Recognition Approved
 London, Aug. 15.—British recognition of the Czechoslovak nation is commended on favorably by the newspapers. Dr. Dillon writing in The Daily Telegraph says:
 "The Times expresses a full of the determination of the Entente Powers to break up the Hapsburg monarchy into its constituent nationalities and take as much thought about the reconstruction of the East as of the West of Europe. The importance of the declarations lies in the implied resolve of Allied Governments to carry on the war until this solution is reached."
 Praise Diplomacy
 New York, Aug. 15.—The New York morning newspapers in leading editorials are practically unanimous in praise of the British diplomacy in recognizing the Czechoslovak nation and urging similar action by the United States.
 The Times urges a similar step by the United States as a reward for the valor and loyal spirit of the Czechoslovaks.
 Peasants Join Movement
 Vladivostok, Aug. 16.—Russian peasants are reported to be actively reaching the state department to-day to be hooked to the standard of the Czechoslovak Republic. In force of about 500 miles east of Moscow, in this connection, particular significance is attached here to the report that the Soviet troops have begun the evacuation of Moscow, opening the way for the Czechoslovak and allied troops aiding loyal Russians to re-establish the eastern front on a line much farther west than was believed possible.
 With the Soviet quest from Moscow, the Czechoslovaks are immediately in control of the railroad lines to Moscow. The peasants relating the army are just learning the truth about the

FOOTBALL.
The following team will represent Brantford United in their game against Wychwood, Toronto, on Saturday next: McGrattan, Burns, Holland (captain), A. W. Deher, A. W. Fisher, Charlton, J. Holland, Terat, Richardson; reserves, Long, Johnson, W. Smith and A. Johnson. These teams being very evenly matched great game is anticipated.

KITH AND KIN.
A meeting of the Terrace Hill Kith and Kin was held Thursday afternoon in Sydenham Street Church, Mrs. Barby presiding. After all business had been transacted, a quantity of Red Cross work was given out. It was decided to hold a picnic at Burlington. The meeting was brought to a close by singing the Women's Anthem.

AUGUST 24 LAST DAY.
The Courier is in receipt of the following request: The Government would appreciate if all newspapers would emphasize the fact that August 24 is the last day upon which pardon is granted to deserters or those who have failed to report to military authorities. The extreme penalty of the law will be visited upon defaulters after that date.

KITH AND KIN.
The members of the North Ward Kith and Kin met at the home of Mrs. Trevett, on Thursday evening, the vice-president in the chair. The time was spent in knitting and sewing for the Red Cross. The meeting was then closed by singing "God Save Our Splendid Men." The next meeting will be held at the home of Mrs. Adie, 4 Lawrence street.

GETS FIVE YEARS.
Joseph Ernest Jewett, who twice left Canada with the expeditionary forces and served in the present war, returning wounded, was sentenced at Brockville to five years in Kingston Penitentiary, after pleading guilty to bigamy by marrying Stella E. Morgan, who, on learning that Jewett had a wife and child in England, threw herself in the St. Lawrence and was drowned thirty-six hours after the marriage. Jewett gave his home address as Brantford.

MOTOR CONVICTS.
There were in Ontario courts during April, May, June and July 4,005 convictions for various breaches of the Ontario Motor Vehicle Act and \$27,750 was collected from the offenders. Of the total 3,111 convictions were for speeding, 23 for driving while intoxicated. Deputy Minister, McLean in assuming the above report expresses the view that the number of speeding cases was disproportionate and that there might be more attention paid by constables to reckless driving.

MAKE MOHAWK PARK PAY

Move Launched by The Courier on Saturday Receives Hearty Support of all Classes

Making Mohawk Park Pay is a slogan which has become universal throughout the city during the past week, and which has been readily adopted by citizens of every class who are lending support to the campaign. That it is no idle catchword, all who have given the matter attention will realize. The Parks Board have emphasized the fact that the expenditure involved in improving the park will be considerable, and the Street Railway Commission advocates the same argument against more frequent car service to the park. There can be no denial of the fact that the initial outlay upon such a project will be large, but it is the firm conviction of The Courier, as of the great majority of Brantford's citizens, that the outlay will be more than justified, and that the increased patronage of the park resulting will soon wipe out the debt and make Mohawk Park a paying proposition for the city, in addition to affording her residents a pleasure park such as they are now forced to go elsewhere to seek.

Interest in the campaign for the improvement of the park is running higher daily. The following are selected from a number of letters The Courier has received:

A WOMAN WRITES.
To the Editor of The Courier:
Dear Sir—On two recent occasions, the Grocers' and Butchers' excursion and the Civic picnic, I made the trip to Mohawk Park on a crowded street car, on which I could obtain only standing room. There were men seated all around me, but of that I do not complain, for they were on the car first, and had a right to the seats. But on the way to the park I saw dozens of women, some of them older than myself and less able to endure the walk, trading through the dusty streets on

foot, being unable to get on a car all day. Many of them had children, some were carrying babies. Returning from the excursion on both evenings in question, I was forced to walk, for every car that entered the grounds was filled in an instant. It seems to me that if the Street Railway Commissioners, or whoever is responsible for this car service, are unwilling to give better accommodation, then the City Council should step in and see that their citizens are properly treated. It will be little use improving Mohawk Park in any way until we are sure that there will be better street car service there.
A Kith and Kin Mother.

MOHAWK PARK FIRST.
To the Editor of The Courier:
Dear Sir—Allow me to add my voice to the chorus of approval which has responded to the demand for the improvement of Mohawk Park. Brantford is singularly fortunate in possessing a site of such great natural possibilities as Mohawk Park, and to delay further in taking advantage of these possibilities is folly. Brantford is proud of her title of the Telephone City, and of the memorial to Dr. Alexander Graham Bell, inventor of the telephone, but public opinion to-day will say that if there is any money to be spent on any of the city's parks, let it be spent on Mohawk Park, and leave the Bell Memorial as it is. The Memorial Park is not a park in the true sense of the word. It is a beauty spot, and one of which the city has a right to be proud, but at the present time it appears to me that civic money might much better be spent in giving the soldiers' wives and kiddies a genuine pleasure ground for their outings. Thanking you for this space, I am, sir,
A North Warder.

CANADIAN CASUALTIES

BOWLING TOURNAMENT

By Courier Leased Wire
Toronto, Aug. 16.—The Dominion Lawn Bowling Tournament, set up another record to-day when 14 rinks started on the Granite lawn in the Butt Trophy for trophy winners. Six games were scheduled in the preliminary, while one game, the McJanet of Ottawa and Cretgrave of London Bowling Club went into round one. Nearly everyone of the preliminary games showed an easy win. Four games out of six were abandoned before the ball 15 ends were played. Kilgallon of Ottawa, the eastern champion, after a disastrous career in the tournament trophy competitions, had no mercy right at them from the initial end and they had them beaten 17 to 10 on the twelfth end. One, the unlucky thirteenth, Paul ran out his own shot and left Kilgallon an eight end. That settled it right there and then the Canadas cried, "Kanerad." The Hamilton-Ottawa game only went 13 ends before Chambers of Hamilton Victoria was declared a winner.

RESCIND GUARDIANSHIP

By Courier Leased Wire
Amsterdam Aug. 16.—The guardianship, under which Prince Friedrich Leopold of Prussia, was placed last June, has been rescinded, according to The Zeitung Am Mittag of Berlin.
Prince Friedrich Leopold of Prussia is the youngest son of Friedrich Leopold, first cousin of the Emperor. Last August he was placed under interdiction by Count von Eulenber, Minister of the Royal House, and was charged with extravagance. This action brought about a controversy in court circles, which was ended in June when Emperor William approved the action of Count Eulenber.

LT. K. WOOD IS WOUNDED

Young 215th Officer in the Casualties—Admitted to Hospital

Lieut. Kenneth Wood, son of Mr. and Mrs. T. L. Wood, formerly of this city, has been admitted to hospital, wounded in the leg, according to word received by his parents. Lieut. Wood was educated at the Collegiate Institute, and was prominent in athletic circles and in the B.C.L. cadets for several years. He enlisted in the second Brant County Battalion and went overseas with that unit in the spring of 1917. His father, Mr. T. L. Wood, of the Wood Milling Company, left the city to take up his home in St. Mary's last fall.
In Head and Foot.
Further particulars show that the wounds sustained by Lieut. Miller consist of injuries to the head and one foot.
Slight Shell Shock.
Lieut. S. W. Seago's injuries consist of slight shell shock, according to a cable received by his family. He is in a hospital at Southsea, England.

TIE GAME IN CITY LEAGUE

Verity's and Motor Trucks Broke Even in Seven Inning's Play

Verity's and the Motor Trucks battled seven innings of closely matched baseball last night without a decision, the score standing 6-6 when the game was called on account of darkness. The Motor Trucks got after Watt in the fifth inning, and drove him from the box, to be succeeded by Harwood, who held the opposing team better in hand. Verity's bunched most of their scoring into the fourth inning, when they hammered Whittaker for the wherewithal to provide four runs, adding one more each in the fifth and sixth. A seventh inning rally by the municipal men saved them from defeat, and resulted in tying the game. Verity's still have a comfortable margin over the rest of the league, and in order to be returned champions, they only need to break even on the remaining games of the season. The score last night:

BURNHAM DINES EDITORS.
By Courier Leased Wire
London, Aug. 15.—Lord Burnham, proprietor of The London Daily Telegraph, last night gave a dinner to the Dominion newspapermen, who have been visiting Great Britain. Cordial speeches congratulating the Dominion press services to the empire were delivered. R. L. Richardson, M.P., Winnipeg, said the press of Canada was daily growing more independent, standing all the time for the old country.

Mr. Richardson said that the men from the overseas Dominion were almost appalled at what they saw of the efforts of the British people in the war. They had witnessed a succession of miracles from Verdun to the grand fleet, with its seventeen miles double line of warships.

FOOD BOARD MAKES AUTHORITY FELT

Seizes And Sells Fish, Flour and Vegetables Through-out Dominion

By Courier Leased Wire
In order to prevent waste the Canada Food Board has ordered the seizure and immediate sale and distribution of two cars of fish at Calgary, which were refused by the purchaser on account of their condition.

WASTE IS PREVENTED

Acting upon instructions from the Food Board an inspector at Winnipeg has seized a car of celery and arranged for its sale. The consignor had refused to accept delivery and immediate action was taken in order to save this food. A car of mixed vegetables has been seized and sold at Estevan, Sask., without waiting for the settlement of matters in dispute between the consigner and consignee. Prompt action by the Food Board has saved from waste most of a car of corn flour which arrived at Montreal in a damaged condition, due to an accident en route and to delay. The flour has been purchased for a special purpose and in its damaged condition was of no use to the consignee. It has been seized and placed with a dealer in Montreal for reconditioning and sale. A Government inspection of the flour has been made and most of it will be saved.

HERBIFLORE FLOAT FOUND.

By Courier Leased Wire
Halifax, Aug. 15.—A dispatch from Westport, Digby county, says that what is believed to be a hydroplane has been found by fishermen of that place, about two miles out from the Bay of Fundy shore, and towed into Westport. The float is described as of very superior manufacture, copper and having six water-tight compartments. One side has been stove in.

CANADIANS TAKE VILLAGES NEAR ROYE; FRENCH ADVANCE

Allies Continue Pressure Against Entire Noyon-Chaunoy Line—Berlin Admits Withdrawal to the North, Which is Extending.

London, Aug. 16.—Canadian troops to-day captured Damery and Parvillers, villages a short distance northwest of Roye, thus further shaking the German hold on that town and upon the adjacent sector of the Noyon-Roye-Chaunoy line. Northwest of Chaunoy itself and southeast of Proyart, on the latter just south of the Somme, the British line had also been advanced.

Getting Across the Acre

North of the Somme between Albert and Arras, the Germans are continuing to attack and the British are keeping in close contact with them. Thus far the Germans have definitely given up the towns of Beaumont-Hamel, Serre, Bucquoy and Puitsieux-au-Mont, and at several points have crossed the Acre River, with the British following closely on their tracks. No official explanation has as yet been advanced of the retrograde movement of the Germans over this front, but it is not at all unlikely that the operations on the Somme front and the harassing tactics the British recently have employed made the enemy desirous of establishing himself on new ground eastward, with the Acre River a barrier between him and his foe. At any rate the Hebuterne salient has virtually been obliterated by the retirement of the Germans, and seemingly they now will be compelled to make a readjustment of their line between the Somme and Arras.

In the week of fighting on the Picardy front, 30,244 prisoners have fallen into the hands of the British Fourth Army, and the Canadian Army, according to an official announcement. Of this number the British captured 21,844. Unofficial reports, probably exaggerated, state that the official data was sent from the front, give the number of prisoners in Allied hands since August 8 as 34,000, and say also that captured guns thus far have been counted.

It is again asserted that the whole of the Lassigny massif is in the hands of the French. Paris does not yet officially claim this, but there is no doubt that the French have captured all the high ground of the massif. The French officially report advances between the Metz and the Oise and the capture of positions beyond Ribecourt, on the road to Noyon.

The total Allied casualties in the great offensive do not equal the number of German prisoners, thanks mainly to the effective use of the tanks, and particularly the fast wheeled tanks. The enemy has already used 35 divisions on this left along the whole Western front, according to reliable correspondents. General von Boehm, who is noted for "successful retreats," is now in charge of the German armies facing the Allies in the new offensive line.

With the Canadian Army in the field, Aug. 15.—Except for the continual boom of the artillery and night bombing from the air, the Canadian front has been quiet for the past 24 hours. The Boche got more than he bargained for when he made his recent counter-attack against the top of our sector. No form of fighting is so expensive as an unsuccessful counter-attack. He put over three of these and his losses are correspondingly great. Besides the four enemy divisions we set out of action on the opening day, some eight more divisions have been identified as having been thrown into the line against us without avail. The Canadian force, one of the best, is ready for anything and everything. It is at full

PUTTING THE HUN PRISONERS TO SOME USEFUL WORK. The German prisoners who were taken by the Allied Armies in their recent offensives are being put to repair the damage they have done. In this photo a number of German prisoners are seen carrying British wounded on a Board a Ship.

GERMANS, TOO, HAS HER PROFITEERS

Munition Workers Draw High Salaries and Spend Recklessly NATION DISSOLUTE

Amsterdam, Aug. 16.—(Correspondence.) The associated press—The moral deterioration of the German nation in consequence of war-time trials is greatly troubling the thoughtful observers of the Fatherland. The Lutheran Stroud of Barce in the other day called a special meeting to discuss how to deal with this dissolute way of the thousands of young munition workers, male and female, who habitually squander their high wages in riotous living and immorality. It was agreed that most of the youth of the country seemed to be entirely beyond control.

Rippling Rhymes

By Wall Mason
Gone to Work

The village poor hall looks as bare as a banquet hall deserted; the loafers used to gather there unwashed and flannel-shirted. But Crowder's order "work or fight" broke up their long vacation, and now the pool hall is a sight, a scene of desolation. The railings of the courthouse square are shorn of all the stouchees, who used to drape their persons there, and air their woes and grouches. They hung there in the long, sly content with their conditions; to sit and let their whiskers grow was all of their ambition. For living they had no excuse, their faces showed dejection they merely have to do their duty in every flamed direction. But now they're working by the day, they're plowing and they're hoeing; they're rearing up two bales of hay where only one was growing. To daily cultivate the fertile soil, I see them faring; their bones are creaking as they toil, and they are hoarse with swearing. The dungeons of the village are empty now and dreary, no Richard Ross within them wall, no Willie who are weary. The skates who used to beat their wives and steal their neighbor's chickens are driven now to useful lives; they're sweating like the diabolical. The war is shaking things around, from old time ruts it's tossed us, and when it's done it may be found it's worth whatever it cost us.

THE FIRST LINE OF DEFENSE

Pure blood is the body's first line of defense against disease. Strong healthy blood neutralizes the poison of invading germs, or destroys the germs themselves. That is why many people exposed to disease do not contract it. Those whose blood is weak and watery and therefore lacking in defensive power are most liable to infection. Everybody may observe that healthy, red-blooded people are less liable to colds and the grippe, than pale, bloodless people. It is the bloodless people who tire easily, who are short of breath at slight exertion, who have poor appetites, and who wake up in the morning as tired as when they went to bed. While women and girls chiefly suffer from bloodlessness the trouble also affects both boys and men. It simply affects girls and women to a greater extent because there is a greater demand upon their blood supply.

To renew and build up the blood there is no remedy can equal Dr. Williams' Pink Pills. They tone up the entire system, make the blood rich and red, feed and strengthen starving nerves, increase the appetite, put color in the cheeks, give refreshing sleep and drive away that unnatural tired feeling. Plenty of sunlight and wholesome food will do the rest.

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

BETTER FOOTWEAR

THOSE INCONSISTENT GIANTS. The Giants are now making the end of a campaign which for the variations of form produced by it can be compared only to the one they waged in 1916. In a majority of recent seasons McGraw's teams have been steady going, rather dependable outfits, but in 1916 and again this year figuring on the Giants from day to day has been very much of a joke. Finnegan of 1916 set an "ag'in" fame, had nothing on them.

In 1916 the Giants got away to a wretched start, winning only two of their first fifteen games. Then they left the Polo Grounds, which they verily believed to have been fixed behind them and fared forth into the west, whereupon they began to win and didn't stop until they had compiled a string of seventeen consecutive victories, culminating in a series in Boston. Local fans were jubilant, for it looked like another big year for McGraw. But they were soon plunged into despair again as the Giants fell into a mediocrity from which it took their leader a long time to rouse them. It became necessary for him to break up the team with which he had started the season, so that in September was reached he had an almost entirely new infield and had added a pitcher and a catcher to his staff.

Strengthened by the addition of Zimmerman, Herzog, Holke, Sallee and McCarty and by the sudden development of Schupp into a star of the first magnitude, the Giants thundered down the stretch, winning 25 games in a row before they were halted by the Braves in a game on the Polo Grounds. Their sensational spurt had come too late, however, and the Robins' wobbled over the finish line in advance of the field and earned the championship of the league.

Reverse Tense. This Year. This year, the reverse has been true. The Giants opened the season

Much has already been written about the unsafety of the public streets, and the general callous indifference to the sufferings of others. This seems to apply to the whole of Germany.

"Every man's hand seems to be against his neighbor," the Cologne Gazette despairingly exclaims, and it devotes a whole article to the senseless if latent anger of the populace at the extortions to which it is subjected by the unscrupulous methods of the profiteers, who have taken advantage of the war to make the victims of deficient government control and the unscrupulous practices of producers.

Much has already been written about the unsafety of the public streets, and the general callous indifference to the sufferings of others. This seems to apply to the whole of Germany.

Another feature is the phenomenal demand for real estate by war profiteers whose aim is to buy a portion of whatever is most expensive is a standing type. Another feature is the phenomenal demand for real estate by war profiteers whose aim is to buy a portion of whatever is most expensive is a standing type.

All these things serve to embitter the helpless poorer classes to a degree the danger of which has not escaped the attention of the powers that be, as witness recent arrangements made at Munster, Westphalia, where the services of the clergy have been enlisted by the military war food department to keep down the growing popular discontent over the food difficulties.

Even the Rhish Westphalian Gazette, which gives publicity to this interesting piece of news, expresses the fear that the last few months preceding the harvest will be an exceedingly trying time, and for this reason the war food department wishes to remain in constant touch with the minor clergy, so as to have the benefit of their observations among the people.

SEPTEMBER IN ALGONQUIN PARK

September in Algonquin Park, Ontario, is one of the most delightful months of the year. A beneficial holiday can be enjoyed with all the comforts of home at "The Highland Inn," situated in the midst of a charming wilderness on Cache Lake. It is also a good month for the camper and canoeist. Splendid fishing is found in the innumerable lakes (over 1500) that nestle in the forests of pine and balsam. Don't leave it until the last minute to make your reservation at the Inn and write to Miss Jean Duddy, Manager Algonquin Park Station, Ontario, for rates etc., or to any Grand Trunk Railway Agent, or to E. Hornung, D.P.A., Toronto, for handsomely illustrated booklet, telling you all about the district.

up to the dates of their departure from the team, while George Burns and Zimmerman did not miss a game until last week, when Burns was called home by the tragic death of his little brother, and Zim was forced to lay off because of illness.

Fletcher has stuck to his post-day in and day out in spite of frequent and painful injuries, for it takes more than a split finger or a twisted ankle to keep the aggressive Giant captain out of a ball game. Early in the season he sustained an injury to the index finger of his right hand, and the cartilage in that digit has spread so that it is now impossible for him to close the hand, while frequent knocks received on the injured member cause him intense pain.

"The gamest son of a gun in baseball," John Robert, recently pronounced him, and there is none who will challenge the wisdom of the famous veteran in so characterizing the Collinsville cutup.

EIGHTY DIVISIONS U. S. WAR PROGRAM

America Has Plans to Put Enough Men on West Front to Win War

By Courier Lensed Wire
Washington, Aug. 16.—In reporting the Administration Man Power Bill, extending draft ages, yesterday Chairman Chamberlain disclosed to the Senate that General March, chief of staff, had told the military committee, it was up to the United States to put enough men in France to win the war on the western front. The report revealed that the new American war program calls for 80 divisions, or something over three million men, in France by June 30 next year, with 18 more divisions training at home then.

All the men called for active service under the proposed new draft law, including 18-year-olds, will be in France by next June according to the program.

Secretary of War Baker informed the committee, the report said, that the President's policy called for concentration of American troops on the western front, including Italy, and that "the theory of the fighting in the future is that we must force the issue and win on the western front."

Immediate extension of the draft ages was declared by the army representatives to be imperative in order that the United States may throw its full strength into the struggle.

In his report, Chairman Chamberlain quoted extensively from testimony before the committee by Secretary Baker, General March and Provost Marshal General Crowder.

"The United States Government," General March is quoted as saying, "has been asked by her allies to embark upon a program so large that it was necessary very carefully to ascertain whether we could go through with it or not, and one of the features of this enlarged program was providing men."

"The policy of the war department is to put the maximum number of men in France with the idea of shortening the war. After a prolonged study of the available man power of the United States, the provost marshal general showed that it was necessary to drop to 18 years of age and go to 45 in order to get the men in France with the idea of shortening the war. After a prolonged study of the available man power of the United States, the provost marshal general showed that it was necessary to drop to 18 years of age and go to 45 in order to get the men in France with the idea of shortening the war."

"The purpose of America," said General March, "is to furnish enough man power to whip the Germans from now on. The only way that Germany can be whipped is by America going into this thing with her whole strength. If we drag along with this thing and put small force over there, we will be playing Germany's game. It is my belief that with an American army of 4,000,000 men in France under one command-in-chief we can go through the German line whenever we please."

Secretary Baker said he asked the surgeon general for a formal opinion as to what changes he would recommend, to which the surgeon general suggested the ages 18 to 45.

"The bill, as it is written, meets with my approval," declared Secretary Baker.

Duncan McDonald, a track man for the Grand Trunk, died in the hospital at Woodstock suffering from the result of being hit by a westbound freight near Eastwood.

Baltimore, Md.—The 11th, semi-annual convention of International Association of Clothing Designers convened here to-day. One of the most important matters to be discussed will be the plans to help win the war by conserving material and labor. Not only are the prices of woollen materials very high, but in some cases it is almost impossible to obtain some fabrics. It is estimated that over 85 per cent of the looms of this country are now being operated for government needs.

inflicted is estimated at about \$600,000 covered by insurance.

Have the Old Suits Fixed Up and Restored to Service!

Every available POUND of the visible WOOL supply is being WATCHED by the Allied Governments. Clothing designers have been asked to cut garments for next season along lines that will save Woolen Cloth.

Overcoats and Coats are to be shorter. Forderols are to be left out, and the Nation's Wool-Cloth needs will be secondary. The ARMY and NAVY will come FIRST.

Wear the OLD stuff, so far as you can, and let the FIGHTING MEN BE WARM next winter.

KING PRAISES ARMY MORALE

Expresses Profound Admiration in Message to Sir Douglas Haig

CERTAIN OF VICTORY

By Courier Leased Wire
London, Aug. 15.—(Canadian Press dispatch from Reuter's Limited)—The following letter has been sent by King George to Field Marshal Sir Douglas Haig:
"France, August 13, 1918:
"My Dear Field Marshal:
"At the beginning of the fifth year of the war, I again have had the pleasure of being with my armies. Writing to you after my last visit on March 30, and alluding to the then necessary withdrawal from certain of our positions, I dwell upon the impression made upon me by the splendid spirit of the troops which I saw during these days. Subsequent events have given ample proof that this was a true impression, for never since that time has the spirit of the army faltered.
"We have seen it reasserting itself and carrying to a triumph-
al issue the operations of the past week. On these happy results I most warmly congratulate you and the troops that fought so magnificently under your command. I gratefully recog-
nize this high morale as in part the outcome of hearty co-operation be-
tween the fighting army and the great organizations behind the line. The transport service by land, and sea and those vast industries in which women at home maintain the supplies of food and munitions of war.

THE RESULTS HAVE ASTONISHED HIM

McKenna Has Rheumatism so Bad Muscles Felt Like They Were Tied in Knots

The results I have gotten from Tania have really astonished me," said Frank J. McKenna, a well known actor, in a letter to the Toronto Star, dated August 12, 1918, from 224 Dupont Street, Toronto, recently.
"It has relieved me entirely," he continued, "of rheumatism and very distressing attacks which have suffered from for several years and which caused me untold misery. The rheumatism would often attack me in the left hip and extend down my leg, so that I was unable to stand. After the pain left my muscles would feel as though they had been tied in knots. My kidneys bothered me a great deal and I always had a pain across the small of my back which was so severe at times I would be compelled to give up and go to bed. Many a night I could not sleep and I had to get up and walk about in bed or get a drink of water and go to bed again. I was getting all run-down and all my strength and energy seemed to be leaving me.
"My wife who had taken Tania insisted on my trying it and so I bought a bottle to please her, not that I expected much good from it. I have been using it about three weeks now and, as you said, my kidneys seem to be in fine shape and the pain has disappeared from my back entirely. The rheumatism has also left me and I can now go on my feet and lift heavy loads of wool weighing around four hundred pounds all day. You wouldn't think I ever had anything the matter with me. I never thought I would give up for a medicine, but Tania has done me so much good that I feel it my duty to tell others about it.
"Tania is sold in Brantford by Robertson & Co. in Paris by Apple, Ltd. in Mt. Vernon by A. Yonman, in Middleport by William Peddie, in Onondaga by Neil McPhadden.
"I am, Sir, your obedient servant,
"Very sincerely yours,
(Signed) Frank J. McKenna."
CANT RETURN TO IRELAND.
By Courier Leased Wire
London, Aug. 15.—Mrs. F. Sheehy Skeffington, who was released on August 12 from Holloway prison, where she was detained after her deportation from Ireland, has applied for a permit to return to Ireland. This permit has been refused by the authorities.

MUSIC AND DRAMA

THE BRANT
A diverting comedy skit, enlivened by musical and singing numbers, heads the bill at the Brant for the week of this week in Eddie Gerard and Company, offering "From the Alley to Broadway," an act which possesses considerable originality in its address to its other original, Win- some Mabel Normand is seen at her best in "Back to the Woods," a delightful comedy drama such as those in which the well known star excels. The picture is a Goldwyn production and of the usual calibre. Pearl White and Antonio Moreno appear in the latest episode of the mystery serial, "The House of Hate," and Patricia News of the World completes the program.

THE REX

A novelty singing melange, replete with features attractive in their very unuasiness, is that presented at the Rex the last half of this week by The Yaquis, a musical company of extraordinary ability. "The Own Home Town," in which Charles Ray is starred, is the story of a boy who made good under heavy handicaps. Charles Chaplin in "Easy Street," which is generally conceded to be his best comedy, is an added attraction. If you have never seen Charlie in the role of a policeman you have missed the best part of life. William Dunlop and Edith Johnson are featured in the western serial "A Fight for Millions."
BABY'S GREAT DANGER DURING HOT WEATHER
More little ones die during the hot weather than at any other time of the year. Diarrhoea, dysentery, cholera infantum and stomach troubles come without warning, and when a medicine is not at hand to give promptly the short delay too frequently means that the child has passed beyond aid. Baby's Own Tablets should always be kept in homes where there are young children. An occasional dose of the Tablets will prevent stomach and bowel troubles, or if these troubles come suddenly the prompt use of the Tablets will cure the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.
STEAMER STILL AFLOAT.

Washington, Aug. 15.—The American tank steamer Frederick R. Kellogg, torpedoed Tuesday evening by a German submarine, is still afloat sixteen miles off Barnegat, N.J.

LIKE BOLT FROM HEAVEN'S BLUE

A happy discovery of Cincinnati chemist interests women here
Your high heels have put corns on your toes and calluses on your feet, but why care now?
A genuine Cincinnati discovery of a magic ether compound and named it frezons. A quarter ounce of the frezons can now be had at any drug store for a few cents. Apply a few drops on your tender, aching corns or calluses. Instantly the soreness disappears and shortly you will find the corns or calluses so ob- vious and sores that you lift it off with your fingers.
Just think! You get rid of a hard corn, soft corn or a corn between the toes, as well as hardened cal- luses for a few cents and without suffering one particle, without the slightest irritation of the surround- ing skin. Just a touch of this mar- velous frezons on a sore, trouble- some corn gives instant relief.

GIRL'S DRESS

The dainty little frock illustrated in No. 8839 is quite new and distinctive in design, and yet it is simple enough to be in good taste for the little schoolgirl. The upper section of the dress extends below the normal waistline at the sides to form the under part of the pockets. The waist buttons at the back and the neck is cut in a slight V-shape, which is relieved by a pretty round collar and a tiny silk tie. The long sleeves are gathered into turned back cuffs, but the three-quarter length may be used if preferred. The skirt is the attractive feature of the dress, for it is gathered at the high waistline at front and back, with a heading extending above the narrow belt, and the sides are cut down to form pockets.
The girl's dress pattern No. 8839 is cut in five sizes, 6 to 14 years. The 8 year size requires 2 1/2 yards of 36 inch or 2 1/2 yards of 44 inch and 3/4 yard of 36 inch contrasting material.

To Obtain This Pattern Send 15c to The Courier Office, or two for 25c.

EXTRACTS FROM EX-CZAR'S DIARY

Nicholas Romanoff Thought And Felt Only For His Wife

By Courier Leased Wire
London, Aug. 15.—The Exchange Telegraph correspondent at Copenhagen quotes from the newspaper Jevnesta of Petrograd, fragments from the diary of the late Emperor Nicholas dealing with the events of March 17 at the outbreak of the revolution. The entries recorded for the most part a series of movements from place to place by the Emperor, who, apparently did not know which way to turn. Under date of March 17, after noting his arrival at Pskov, he writes:
"I am unable to proceed to Tsarskoye-Selo. All my feelings and thoughts centre upon how difficult it must be for poor Alex. (the Empress Alexandra Alex.) to cope with events. God help us."
The next day, after learning from M. Rodzianko, the president of the Duma, that the cabinet and the Duma were powerless, the Emperor wrote:
"An abdication is necessary."
The Empress finished his diary record on this occasion by writing:
"I felt this under the crushing impression that these events had been caused by treason and cowardice."
