TO SMOKE OR NOT TO SMOKE?

THAT is the question which has been causing deep thought and raising piles of reports and correspondence among Canadian Pacific officials who have to do with the operation of observation cars on Trans-Continental trains during the last few months. At various times previous to the war, smoking in these cars was permitted, sometimes only for cigars and cigarettes and then again even for the odorous pipe itself. During the war smoking was a luxury which many were willing to forego, and the observation cars were free from tobacco, but after the war the demand for permission to smoke in these favored precincts increased to a noticeable degree, the requests coming not only from men but from ladies, as the cigarette habit has undoubtedly grown among the fair sex. The pressure of this public opinion became so pronounced that it was decided to experiment once more and to allow smoking in this part of the train, although it was admitted that the trains carrying such cars had also sleeping cars each with its smoking compartment. Public opinion, however, is a fickle thing, and the demand has grown to exclude the human volcanoes from these cars. Some of those who originally urged the granting of the permission are now requesting its withdrawal, evidently finding that the practise is not quite so delightful as the theory of perfect freedom. In its desire to give the greatest satisfaction to as many as possible, the Canadian Pacific has therefore decided to conclude the experiment for the time being and, commencing April 15th, to request the smokers to enjoy the society of Lady Nicotine in the smoking compartments and smoking cars expressly provided for the purpose.

CARD OF THANKS

Mrs. Morris wishes to thank the many friends for their kindness and help during her recent illness.

George Sheppard Killed on Highway

George Sheppard, 19 year old son of Mr. and Mrs. Henry Sheppard of Clappison Corners, was instantly killed last Friday night while walking on the Highway about a quarter of a mile west of Waterdown. Although there were no eye witnesses to the accident, it is thought that he was struck by a passing motorist whose identity is unknown.

A Toronto motorist saw the boy lying on the pavement, and thinking the boy unconscious, rushed to the village for Dr. Gillrie, but a hurried examination by the doctor revealed that the youth had been dead for some time.

According to the parents the young man had started from home intending to go to Waterdown, where he was well known and popular, and the news of his sudden death came as a shock to his relatives and many friends.

This is the third tragic death to occur in the Sheppard family, an uncle, Norman Sheppard, having been killed by a fall in a mining shaft at Hagersville a short time ago, and another uncle having met death by accident while quite young.

The funeral took place Saturday afternoon from his parent's home to Greenwood Cemetery, Burlington, and was one of the largest ever witnessed in this vicinity. The Services were conducted by the Baptist Minister of Flamboro Centre, assisted by Rev. R. McGillivray of Burlington. The pall-bearers were R. Forth, W. R. Garnham, Stanley Hood, R. Sheppard, Chas. Sheppard and Carl Sheppard. The floral tributes were numerous and beautiful.

High School Literary Society Masquerade

The Waterdown High School Literary Society held its first meeting of the year, a Halloween Masquerade, on Tuesday evening, November 4th. The meeting opened with the new president, Arnold Irwin, in the chair. The costume display was one of the chief interests of the evening, and the judges, Miss Connell and Fred Smith, encountered much difficulty in arriving at the decisions. The prizes were won by Miss B. Shaid of the girls, C. Sinclair of the boys, while the comic prize was awarded to D. Thompson. A delightful program was put on by the members of the society, after which refreshments were served.

Picture Puzzle Game

Elsewhere in this issue will be found a large advertisement announcing a Picture Puzzle Game arranged by the Mail and Empire. No doubt prove very interesting to our readers, and especially to the little folks. The object of the game is to ascertain how many of our articles in the picture start with the letter "B", and cash prizes are awarded to those finding the largest number. Our readers have already won liberal prizes as a result of competing in similar contests. There is no reason why some of our readers should not come in for a share in the vicinity. NAME "MANITOBA" IS EXPLAINED IN TWO WAYS

Manitoba is so euphonic a name that its use was extended from the lake to which it was first applied to that of the province created 13th May, 1870. Manitoba, however, was not the name by which the lake was first known to white men. Its discoverers and explorers were the LaVerendryes, father and son, in 1738 and 1739. The name applied by LaVerendrye in his journal for 1738-39 is Lac des Prairies or in English, Lake of the Prairies. Other early names are Prairie Lake, Meadow Lake, Lake of the Meadows, also Assiniboine Lake in various forms of the term the reference being to the Assiniboine Indians who dwell on its shores. On the map accompanying Alexander Mackenzie's voyages, published in London in 1801 the lake is called Manitouba. Numerous other forms of the word Manitoba are met with. The name is explained in two ways. The explanation generally accepted de-

river it from Cree manito-wapow or the Ojibway manito-baw meaning the strait of the manito or spirit. According to this explanation the name was first applied to an island in the narrows. H. Y. Hind, of Toronto, in his narrative of "The Canadian Red River Exploring Expedition of 1857-8," says: "the origin of this superstition in relation to Manitoba island is due to the sounds produced by the waves as they beat upon the beach at the foot of the cliffs near its northern extremity. During the night time when a gentle breeze is blowing from the north, the various sounds heard on the island are quite sufficient to strike awe into the minds of the superstitious Indians." This explanation is "nourished" in by Mr. J. B. Tyrrell, who writes in the report of the Geological Survey for 1890 that the limestone in a beach on the island "is very compact and resonant and when the waves beat against this beach and throw these rebounding pebbles one on another, the roaring sound will undoubtedly be produced which has given rise to the superstition among the Indians."

Lake of the Prairie.

La Verendrye, as noted above, called the lake Lake of the Prairie, and there are those who think that this is the meaning of the Indian name. Abbe Dugas is a strong supporter of the latter definition and in his book "The Canadian West" published in Montreal in 1896 upholds this view. After arguing on the point of language he concludes: "The Indians who dwell on the shores of Lake Manitoba and the banks of the Assiniboine at the time of its discovery were Assiniboines whose language resembles that of the Sioux. There were the tribes Matatoba, Hic toba, Ti toba. This termination toba in their language signifies 'prairie' and mine means 'water.'

Mine ota means 'yellow water,' mine apolla, 'water town.' Mine toba means 'water or lake of the prairie.' The English successors to the French pronounced 'mine' as if 'my ni' and hence Manitoba."

The above information is summarized in the 18th Report of the Geographic Board of Canada recently published, which gives the meaning of many Canadian place-names.

RHEUMATIC PEOPLE CAN NOW FIND RELIEF

By Driving the Poisonous Acid From the System.

Rheumatism attacks people when the blood is thin and watery, or charged with impurities, thus setting up inflammation of the muscles and joints. Cold, wet weather or sharp winds may start the pains, but the cause is rooted in the blood and to get relief it must be treated through the blood. As a blood builder and nerve tonic Dr. Williams' Pink Pills are unsurpassed, and for that reason do not fail to give relief to rheumatic sufferers when given a fair trial. Among the rheumatic sufferers who have proved the great value of this medicine is Mrs. Simeon J. Tatton, Indian Head, Sask., who says:—"For over two years I was an intense sufferer from rheumatism and until I began the use of Dr. Williams' Pink Pills no treatment that I took helped me any. The trouble grew so bad that I could not move around the house without help, and finally I had to give up and go to bed. Words cannot tell how much I suffered, and I could not bear to have anyone come near me. Finally one of my neighbors strongly urged me to try Dr. Williams' Pink Pills, and I decided to do so. In the course of a few weeks I could feel an improvement, and I was able to get up. I kept on taking the pills until all traces of the trouble were gone, and I could again do my housework, feeling like a new person. Three years have passed since that and there has never been the slightest return of the trouble, so that I feel safe in saying that the relief brought by this medicine is permanent."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Too Polite.

A small boy came to school one day with dirty hands.

"Tommy," the teacher said to him, "I wish you wouldn't come to school with such dirty hands. What would you say if I came to school with dust and ink all over my fingers?"

"I wouldn't say anything," answered the child, promptly. "I'd be too polite."

Oh! Those Printers!

A newspaper which printed a description of a beautiful wedding once made the unfortunate error of stating that: "the roses were pink." The editor of course gave directions that correction be made in the next issue but with the sweetest of intentions and the deepest of regrets this is how the phrase, as corrected, appeared: "The noses were pink."

Minneapolis has a very low infant
death rate as compared with many

cities of similar size in the United States. An investigation conducted by the Women's Community Council of that city made a study of child welfare and found some very interesting facts. The children whose histories were taken were of the kindergarten stage. The kindergarten child is one who is just below the age when it can go to school. Generally the age of this class ranges from five to seven, and this was the kind of child studied. Of this group of children, more than half had been breast fed until they were more than seven months of age. Less than four per cent. had been exclusively bottle-fed. It is obviously a fact that breast feeding is the vogue in Minneapolis, and is one reason for their low baby death rate.

On making inquiries into the habits of the kindergartners, it was found that one of the worst habits was the unregulated use of candy and sweets. One-third of the mothers reported that they allowed their children to eat candy and sweets as they pleased. More than a fourth drank tea or coffee at home and one-fifth of the children did not get enough milk. Only ten per cent. reported their children were not allowed candy or sweets. The habits, and especially the eating habits of many of the children, were unquestionably bad. Nearly forty per cent. were reported as irregular about their home noon lunch, and a fourth of them ate what they pleased when they pleased.

Of the children examined, eighty-four per cent. took neither a morning or an afternoon nap, while 165 of them did not get enough sleep. The question of keeping children away from the movies is an important one. Apart from the merits or demerits of the picture itself, the moving film is injurious to the eyesight of the young, and the time spent sitting in a stuffy, ill-ventilated picture house could with better advantage be taken up with walking or playing in the fresh air. It is interesting in this regard to note that half of the mothers interviewed in Minneapolis did not allow their children of pre-school age to go to the movies, while 115 children were reported as attending moving picture shows weekly.

When the question of discipline was considered, it was found that 603 families reported they trained their children through interest; 284 trained through punishment, and 193 by corporal punishment, or in other words, by beating or whipping.

Of the group of 1,000 children examined, 415 had defective teeth. The next most frequent defect was enlarged tonsils and adenoids.

A man is as old as the tune he whistles.

A Swindle

SIX	IX	XL
$\frac{-IX}{5}$	$\frac{-X}{1}$	$\frac{-L}{X}$

This is more of a practical joke than a trick, but it is a stunt that is not only very little known but is well worth knowing. When the conversation swings to mathematics, the trickster says:
"I can take 9 from 6, 10 from 9 and 50 from 40—and have six left."
A catch is suspected and a catch it is. The illustration shows how the trick may be done.

Britain's Gold Mine.

Britain has a gold mine of its own, where working was recently resumed after a lapse of nearly 1,700 years.

The gold deposits are found near Conwil Calo, in North Carmarthenshire, Wales. Coarse gold has been discovered to a depth of eighteen feet from the surface, and the lower soil is believed to be richer.

Extensive old workings exist at the mine, which was originally developed by the Romans. Though there are no records to show how much gold was extracted by the old workmen, or what methods they adopted, the workings show that mining was carried out over a long period.

CONSTIPATED CHILDREN

Constipation is one of the most common ailments of childhood and the child suffering from it positively cannot thrive. To keep the little one well the bowels must be kept regular and the stomach sweet. To do this nothing can equal Baby's Own Tablets. They are a mild but thorough laxative; are pleasant to take and can be given to the newborn babe with perfect safety. Thousands of mothers use no other medicine for their little ones but Baby's Own Tablets. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Harvesting the Mint.

Within a few miles of London the peppermint harvest is in full swing, and the pretty blue flowers of this sweet-smelling plant are fast falling beneath the swish of the sickles, or mint hooks, says an English writer.

During the past eleven months the distillery has been silent. Now it is busy night and day, as carloads of the "herb," as it is called, are tossed through the large door of its upper floor, and the air is filled with a pungent odor at first well-nigh overpowering.

On this upper floor are two huge, copper-like stills, each with its huge lid, or "cap," suspended above it. The bottom is perforated so that the steam may rise easily to the mint.

Three boilermen load the stills, and as soon as they are brimful the cap is lowered and sealed by a water suction arrangement fitted round the brim. Meanwhile the boilerman gets up steam until 40 lb. is registered, at which degree of heat the steam is allowed to pass into the well-filled still.

Each load takes seven hours to distill, and the oil and water flow down into the separator on the ground floor. To prevent tampering with the precious liquid, this is kept locked in a cage, of which the charger man alone possesses a key. The process of distilling ended, he unlocks the cage, takes out the separator, and pours the oil into large blue bottles.

A ton of herb usually yields 8 lb. to 10 lb. of oil, and few of the tourists returning from Paris enraptured with the choice liqueurs of that capital realize that the main ingredient, alcohol de menthe, is obtained from the fields of Surrey and shipped to France.

Helping Baby.

Alarmed by an unusual noise in the nursery the mother hurried in breathlessly. The children in a close group by the window, the baby being in the middle, looked up calmly as she entered.

"What on earth are you doing?" asked the mother.

"We found," explained the oldest boy, "grandma's false teeth, and we're filing them down and fitting them on the baby."

THREE OPPORTUNITIES TO WIN

How Many Objects in This Picture Begin With the Letter "B"?

The above picture contains a number of objects beginning with the letter "B". Just take a good look at the picture—there are all sorts of things that begin with the letter "B"—like "boy", "buggy", "baby" and so forth. Nothing is hidden; you don't have to turn the picture upside down. Make a list of all the objects in the picture the names of which begin with the letter "B". Have the whole family join in—see who can find the most. Don't miss any. Fifty cash prizes will be awarded for the fifty best list of words submitted. The answer having the largest and nearest correct list of visible objects shown in this picture starting with the letter "B" will be awarded first prize; second best, second prize, and so forth.

Young and Old Join in the Fun

The Mail and Empire announces to-day another puzzle game in which all can participate—from the tiniest child to grandfather and grandmother. No object is so small but that the poorest eyesight can see it. It is a test of skill. Your ability to find "B" words determines the prize you win. Right after supper this evening, gather all the members of your family together; give each of them a pencil and a sheet of paper—and see who can find the most "B" words. You will be surprised to find how large a list of words you can get with a few minutes' study. Sit down NOW and try it—Then, send in your list and try for the big prizes.

OBSERVE THESE RULES

1. Any man, woman or child who lives in Canada, and is not a resident of Toronto, and who is not in the employ of The Mail and Empire, or a member of an employer's family, may submit an answer.
2. All answers must be mailed by November 22nd, 1924, and addressed to C. A. Montgomery, Puzzle Manager, Mail and Empire.
3. All lists of names should be written on one side of the paper only, and numbered consecutively 1, 2, 3, etc. Write your full name and address in the upper right hand corner. If you desire to write anything else, use a separate sheet.
4. Only such words as appear in the English Dictionary will be counted. Do not use obsolete words. Where the plural is used, the singular cannot be counted, and vice versa.
5. Words of the same spelling can be used only once, even though used to designate different objects or articles, or parts of objects or articles. An object or article can be named only once.
6. Do not use hyphenated or compound words, or any words formed by the combination of two or more complete words, where each word in itself is an object.
7. The answer having the largest and nearest correct list of names of visible objects and articles shown in the picture that begin with the letter "B" will be awarded First Prize, etc. Neatness, style or handwriting have no bearing upon decisions in answering the puzzle, but only one prize will be awarded to any than one of any group where two or more have been working together.
8. In the event of a tie for any prize offered, the full amount of such prize will be awarded to each tied participant.
9. Subscriptions (both new and renewal), payable in advance of \$5.00 per year by mail or \$6.00 per year delivered by carrier boy in Hamilton, will be accepted. However, in qualifying for the \$1,000 Bonus Rewards at least one new subscription must be sent in.
10. A new subscriber is anyone who has not been receiving The Mail and Empire since October 23rd.
11. All answers will receive the same consideration regardless of whether or not a subscription to The Mail and Empire is sent in.
12. All new subscriptions will be carefully verified by the Puzzle Manager. Candidates marking old subscriptions as new will positively forfeit the credit of such subscriptions as qualifying for the Maximum Bonus Rewards.
13. Three prominent Toronto citizens having no connection with The Mail and Empire will be selected to act as judges, to decide the winners, and participants agree to accept the decision of the judges as final and conclusive.
14. The judges will meet on December 3rd, and announcement of the Prize Winners and correct list of words will be published in The Mail and Empire as quickly thereafter as it is possible.

EXTRA LARGE PICTURE PUZZLE SENT FREE ON REQUEST.

Subscription Rates—Payable in advance. THE MAIL and EMPIRE anywhere in Canada by mail \$5.00 Per Year. Delivered by carrier boy in Hamilton, \$6 per year.

Rural Route Subscribers This offer applies to Rural Route patrons, as well as subscribers living in cities and towns. If you are already receiving The Mail and Empire, your subscription will be extended from its present expiration. Send in a yearly subscription at \$5.00 and qualify for the big prizes.

You Can Win \$1,000 THERE ARE THREE \$1,000 PRIZES

The "B" Word Picture Puzzle Game is a campaign to increase the popularity of The Mail and Empire. It costs nothing to take part and you do not have to send in a single subscription to win a prize. If your list of "B" words is awarded FIRST, SECOND OR THIRD PRIZE by the judges you will win \$5; but if you would like to get more than \$5 we make the following special offer whereby you can win bigger cash prizes by sending in ONE OR TWO subscriptions to The Mail and Empire.

HERE'S HOW: If your answer to the "B" Word Picture Puzzle wins FIRST, SECOND OR THIRD PRIZE and you have sent in one yearly subscription to The Mail and Empire at \$5.00 by mail or \$6.00 delivered by carrier boy in Hamilton, you will receive \$500, instead of \$5; fourth prize, \$250; fifth prize, \$150, and so forth. (See second column of figures in prize list.)

Or if your answer wins FIRST, SECOND OR THIRD PRIZE and you have sent in two yearly subscriptions to The Mail and Empire (one new and one renewal, or two new subscriptions), you will receive \$1,000 in place of \$25; fourth prize, \$500; fifth prize, \$300, and so forth. (See third column of figures in prize list.)

How is that for a liberal offer? But, LOOK, there are three \$1,000 prizes. Therefore, if you stand FIRST, SECOND OR THIRD, and have sent in two yearly subscriptions at \$5.00 a year each by mail or \$6.00 delivered by carrier boy in Hamilton (one new and one renewal, or two new), you will win \$1,000. It takes but two yearly subscriptions at \$5.00 a year each (one new and one renewal, or two new) to qualify for the big \$1,000 reward. Absolutely, that is the maximum. You can do this with little effort. Your own subscription can count. We can also take subscriptions to start on any future date. Just mark on your order when you want the paper to start and we will not commence delivery until you say.

THE MAIL and EMPIRE anywhere in Canada by mail \$5.00 Per Year. Delivered by carrier boy in Hamilton, \$6 per year.

The adverse balance of grain shipments through Canadian against United States ports is being steadily reduced, according to statistics compiled by the Marine Department. In 1916 only 91,082,702 bushels of Canadian grain were shipped through Dominion ports, where as 165,949,989 bushels were shipped through the States. The figures for 1923, up to September 1st, on the other hand, show that Canada now ships nearly half her grain through her own ports. During this period the amount registered has been 108,548,485 bushels despatched via Canadian ports and 120,628,438 via those of the United States.
