STRIKERS

QUIET

In Pennsylvania Owing to the Presence of State Militia.

FEW READY TO START TO WORK

Northern Pacific Train Robber Believed To Be Surrounded.

JUDGE DUGAS IS COMING

Six Automobiles En Route For Use Between Dawson and Whitehorse.

Philadelphia, Sept. 25, via Skagway, Oct. 1.—The second week of the great strike is now half gone with but little change in the situation further than that a few of the strikers express the desire to return to work, but to this the leaders will not listen. There have been several serious outbreaks, in one of which a little girl was accidentally shot dead. For the past two days there has been rioting owing to the presence of state troops. Several collieries have attempted to operate non-union labor under military protection, but this system of work cannot last long. A number of big operators will attempt to resume work in a day or two when the individual grievance of each laborer will be heard, but the owners' positively refuse to treat with the United Mine Workers as an organization. The promise of having their grievances heard individually is having a conciliating effect on many of the strikers.

Still at Large.

Spokane, Sept. 25, via Skagway, Oct. 1.—The lone highwayman who three days ago held up a Northern Pacific train near Rathdrum, Idaho, securing \$500, and who escaped on a stolen horse, has not yet been captured although it is believed he is surrounded by the large posse sent in his pursuit. A reward of \$2000 is offered for him by the railroad company.

Judge Dugas Coming.

Skagway, Oct. 1.—Judge Dugas and wife arrived here Saturday morning and left shortly afterwards for Dawson. The judge confirms all the late reports from Ottawa concerning the reduction of the royalty at least one-half; the speedy establishment of a government assay office in Dawson, and the imposing of an export tax.

Clear the Track.

Skagway, Oct. 1.—S. A. Clear arrived yesterday from below with six automobiles with which he will operate a stage line between Dawson and Whitehorse over the ice. He says that by their use it will be easy to cover double the distance attained by any other method of transportation in the same length of time.

Few Americans Applied.

Skagway, Oct. 1.—The British Columbia commission appointed to go to the Porcupine country to legalize all the claims owned by Americans and effected by the late boundary modus vivendi, returned yesterday. They say very few

Americans applied and that the object of the visit of the commission was not understood by the miners of that country.

Grand Forks Quarantined.

Grand Forks and vicinity, after having come under the jurisdiction of the Dawson health officer, Saturday, were promptly quarantined, and stations, guarded by the police have been established at the Forks, No. 21 above on Bonanza, 17 below on the same creek, the Twelvemile roadhouse on the Ridge road, and No. 12 Eldorado. That stops travel between Dawson and the creeks, and according to popular belief and opinion as expressed by the public generally about town it is a measure which should have been adopted at least two weeks since, and would have been done had the power to do so have been placed in the hands of the health officer at the time the health ordinance was made, to embrace two and a half miles of the territory instead of enough of it to protect the city against infection properly.

So far there has not been a case of smallpox discovered in Dawson proper since last July, barring the one found in the Chicago hotel a few days' since, which was known to have arrived from the Forks a few days previous, and the hotel was quarantined at the time. It is to be hoped, of course, and is believed by Health Officer McArthur to be the case, that there is not now, and will not occur from the smallpox infection on the creeks, a case in town, but this is due, if so, more to good luck than to good management on the part of the powers that be. Cases of smallpox have been arriving from the Forks and vicinity at the rate of from one to three a day, for some time, and these have suited their pleasure about going into quarantine, or at least reporting to the health officer. How much or how little these cases have been around the town previous to reporting to the health officer is unknown.

At present a detention hospital is being built at the Forks, and all precaution are being taken to stamp out the infection there before it spreads further.

People are warned that if they pass the quarantine stations going towards the Forks, they will not be able to return till after the quarantine has been raised.

Vaccination is now the order of the day, and all those who have not been vaccinated should lose no time in having the operation performed. This morning various government employes and officials were vaccinated in the commissioner's office, by Dr. McArthur, who is very busy just now attending to the increased business of his office.

McNabb Strikes It Rich.

Walter McNabb, who was sent down from Dawson by Tom Chisholm, is heavily interested in mining property in the Bluestone and Kougarak mining district. He is a late arrival from Port Clarence, and is very sanguine over the future gold output of that country. He helped to outfit Dick Tracy, Jim Kelly, D. Phillips and W. Jones, who prospected on the various creeks, and were the first discoverers of the gold on Gold Run. McNabb has enjoined Tracy and prevented the sale of a half-interest in No. 12 on Gold Run to Oscar Ashby for \$10,000. McNabb intends sending word to Tom Chisholm to come down from Dawson this fall, and make arrangements for the disposition of his mining interests.—Nome News, Sept. 1.

The above will certainly be good news to many people in Dawson who know McNabb, but especially so to his wife, who is now an inmate of St. Mary's hospital suffering with a broken leg, the result of a recent fall on Sixth street.

The warmest and most comfortable hotel in Dawson is at the Regina.

A new department at the Northern Annex. Liquors at wholesale.

A LIVELY SUNDAY

Was Yesterday When Men Worked, Sold Whiskey And Played Cards.

FOR WHICH THEY PAID FINES TO-DAY

Hobo George Brown Goes Up Six Months For Theft.

A. F. GEORGE WANTS A GUN

But is Assured Of Personal Safety By The Court—Labor Case In Which Beans And Peas Figure.

In the police court this morning there was every evidence that the fourth commandment had been knocked into smithereens in various places in the city yesterday, but in hearing the various cases Magistrate Scarth tempered justice with mercy and in the lighter offences dismissed the charges.

Geo. Cave had followed his worldly avocation yesterday in that he delivered laundry to his customers. He was warned and dismissed.

E. C. Adams, who is an artist and sign writer with long hair (a requisite to his profession) had labored yesterday and was sorry. He likewise was dismissed with a warning.

Frank Williams, a merchant, sold goods yesterday and said he thought he had as good right to sell goods on Sunday as the candy and cigar stores. The magistrate seemed to think so too, with the result that this case was also dismissed.

Jettison, one of the proprietors of the Olympic saloon allowed card playing on Sunday and said he did. He paid \$75 and costs.

Tom Chisholm, charged with selling whisky on Sunday, appeared by attorney and had the case continued until Thursday afternoon.

Matt Mattison, Chas. Larsen, Edward Strong, Edmund Johnson and John Rowe had enjoyed an embryo game of blackjack in the Olympic saloon yesterday, the same being Sunday. They "fessed up" and each man paid \$25 and costs for his Sunday's game.

Gabriel Jahi, a mixologist at the Dawson City hotel, allayed the thirst of some patrons last night by giving them, as he said, a whole lot of water in which were mixed a few drops of rum. "Gabe" remitted \$75 and costs.

Geo. Brown, when kindly allowed to sleep in William Roberts' cabin, returned evil for good by stealing Roberts' blankets, boots, rifle, cartridge belt, box of soap and several other loose articles and selling the whole lot to a second-hand dealer. Had George retained a cake of the soap and swapped the rifle for a scrubbing brush and then "gone at himself" there would then have been an apparent excuse for the theft; but he sold everything for \$7.50 and proceeded at once to cultivate a bright and lurid jag which shone out through several months' accumulation of real estate like a locomotive headlight on a prairie railroad. George acknowledged the theft and subsequent sale of the goods. He was sentenced to six months' at hard labor which will hold him until the last day of next March.

Ed McCuen, who was up Saturday on the charge of having threatened A. F. George with bodily harm, was again arraigned this morning when he asked through his attorney for another continuation, this time until Friday, the object being to secure the attendance of witnesses now on the creeks. George

MONDAY, OCTOBER 1, 1900

SMALLPOX SITUATION.

There is nothing to be gained in shutting our eyes to the fact that the smallpox question as it confronts Dawson today is a serious matter. It does not, however, present difficulties which cannot be overcome by prompt action on the part of the authorities and willing compliance by the people with the regulations laid down. The fact that cold weather is almost upon us tends to increase the difficulties of the situation, as it is a well recognized fact that smallpox flourishes in the winter time.

The point has been made that the authorities should have begun earlier in taking care of the matter. The Nugget quite agrees with this view of the question, but we are unable to see that any amount of criticism of past inactivity will serve to lessen the seriousness of present conditions. What we want now is energetic action by the health officials and all the assistance which it is possible for the people to give them.

The quarantine established should be enforced with absolute impartiality and as rigidly as possible. It will cause much inconvenience to many, but, consideration for the public welfare suggests that such inconvenience be submitted to with patience. We suggest to the big companies and other concerns employing large numbers of men that general vaccination of employees would be in order, and might serve to prevent any considerable spread of the disease in Dawson.

There is no occasion for anything in the nature of a panic, but we believe it is well for people to know exactly what the situation is in order that everyone may understand why extraordinary measures may be necessary in dealing with it.

THE GARBAGE QUESTION.

It is none too early for the authorities to make the necessary regulations to govern the dumping of garbage on the ice during the coming winter. Everyone who was in Dawson last winter will agree with the Nugget that the unsightly piles of filth and garbage which disfigured the ice along the waterfront were absolutely a disgrace to the city.

They were not only repulsive in appearance but were decidedly dangerous to the public health, particularly when it is remembered that much of the town's refuse was dumped in altogether too close proximity to the water holes from which a large part of Dawson's inhabitants secured their water for household purposes.

We hope there will be no repetition of last year's experience. A regulation laid down by the council in time will prevent the difficulty. After the river freezes over, the present ordinance should be extended to compel the dumping of garbage on the ice at some point below the scow where it is dumped at the present time. This would serve in some measure to preserve the appearance of the water front and at the same time prevent impurities from getting into the water holes which undoubtedly will be a large source of supply for water during the coming winter. If the men who make a busi-

ness of disposing of garbage are compelled to observe some such regulation as suggested above, there will be no difficulty.

It is, however, none too early to pass the necessary ordinance or to order the enforcement of any now in existence which may cover the emergency.

The Nugget suggests to all candidates now on the creeks that they betake themselves homewards at the very earliest possible moment. It certainly would be apt to prove disastrous to the hopes of a candidate should he be caught in quarantine and forced to remain in idleness while his opponents were out vote-catching. Quarantine regulations in such an emergency would be very much like cruelty to animals.

Now is the time for prophets to come forward and explain the great and all-absorbing question, when the river will close. There will be any number of men in Dawson the day after the river ceases to run who knew down to a minute when the ice would stop running. The Nugget would like to have some of these gentlemen on record, however, before the final moment arrives.

Salvation Army News.

The Salvation Army authorities have chosen as the dates for the celebration of their annual harvest Thanksgiving festival, commencing Monday, October 1st. We are informed that the time-honored custom of meeting together to publicly offer praise to God for the bountiful blessings of the year is to be again revived in a practical way. The Salvationists will receive as a token of gratitude to God gifts in kind as well as in cash. Anything in the possession of the merchant, the grocer, or the druggist, would, if offered, be "thankfully received" and be turned to good account in the interests and support of the many beneficent and deserving agencies of this unique organization, the members of which work so vigorously and continually for the amelioration of sin, shame and sorrow, and for the moral and spiritual uplifting of the forlorn, the fallen and the outcast.

HALLELUJAH.

People Eat Too Much.

A Philadelphia physician of note, Dr. Edward H. Dewey, claims to cure all sorts of diseases by starving his patients. The brain, says this practitioner, never loses weight in either sickness or starvation. Usually the mind remains clear when the body has wasted away. The head is the powerhouse of the body. The stomach is run by brain power. When the stomach does too much work it makes too great a demand upon the brain.

"For more than 20 years," writes this doctor, "I have permitted my sick to do without food so long as there was no desire for it. Not a mouthful was enforced in any case, not one mouthful denied on the first hint of hunger."

"In this I have had all the medical textbooks and the entire medical profession as authority unquestioned against me. That food is needed to sustain the strength of the sick has never been a matter of question with the medical profession."

"Many of my sick have gone for more than a month without food. One very sick, in bed for more than a month with acute rheumatism, was unable to walk about the room on the 46th day before the first food was taken. Another patient, a woman of 57, went until the 43d day until omission of her ordinary duties. A diseased stomach was cured as the result and now, after five years, there has been no return of the trouble."

Physicians are pretty generally agreed that Americans eat too much—especially too much meat. The no-breakfast habit may not be so very silly after all.

Game Near Town.

Armed with a shotgun and an enthusiastic spirit a local nimrod journeyed to the top of the mountain and two miles beyond, east of Dawson yesterday and when he returned in the evening he had all the game, rabbits and squirrels, that he could comfortably carry. He came on to many fresh tracks of both caribou and bear and also saw many indications of grouse and pheasants. The rabbits and squirrels killed were fat and in splendid order for table use.

THINGS ENGLISH.

One hundred centenarians die in England yearly.

An average of 500 vessels daily leave the Thames for all parts of the world.

Although Lord Rosebery never attends football games, he is a patron of the Scottish Football Association.

A prince of Wales is of age from his birth, and a chair is placed for him on the right of the throne in the house of lords.

The Princess of Wales has a remarkable collection of hats and bonnets, consisting of all those she had worn during the 30 years she has led London fashion. Each hat or bonnet, carefully put away, bears the date of the season of its use.

Attention has lately been called in England to the will of the late Charles Pelham Villiers, who, it seems, left a fortune of \$1,782,325, and yet continued to draw a civil pension of \$700 a year even after he came into his magnificent property.

Seaside resorts do not seem to furnish many supporters to race meetings. This is noticed especially at places like Gatwick and Plumpton and Lingfield all of which can be reached easily from the queen of watering places, but chiefly draw their "gates" from the metropolis.

A picturesque and romantic ceremony took place at Culloden on the 150th anniversary of the battle, which struck the death blow to the cause of the ill-fated Stuarts. Amidst considerable assemblage several wreaths were placed beside the memorial cairn, and Mr. Theodore Napier, in a Highland costume of striking pattern, representing the Scottish Anniversary and Historical Society, delivered an oration, after depositing a wreath made of bay and ivy leaves and heather in the form of a tairge.

High Life at Nome.

If one may judge by the presence of swallow-tailed coats, patent leather pumps and the other accessories to ultra-fashionable life, seen at the reception and ball given in honor of Judge and Mrs. Noyes at the Golden Gate hotel Thursday night, Nome will soon need a Ward McAllister. Several aspirants for this proud social position have been named lately, any one of whom would fill the bill. It is hoped, however, that the matter can be adjusted amicably, and recognized worth and ability to fill the position be the only test applied.

A good story is told of Judge Noyes, by the way. The judge is one of the most genial of men; he is a true westerner, and enjoys a good story, a good cigar, a good laugh, and on occasion a little apollinaris with just a dash in it. It happened this way: The Scotch had been passed to the different guests at the rooms of a well known gentleman who is noted for his hospitality, and then the soda water. Judge Noyes allows little to escape his eye, and he noticed that Capt. Jarvis had not been served with Scotch, although the soda was passed to him. "Hold on," said the judge; "I notice that Capt. Jarvis has not taken out his first papers." Then Capt. Jarvis declared his intentions.

Forty-three lawyers were admitted to practice in the district court by Judge Noyes on Wednesday. A man who witnessed this array of the talent sighed and then turned away wiping his eyes with a soiled red bandana. "What's the matter?" asked a friend. "Nothing," he said, "only a half-forgotten scriptural text has just come to me. I have not thought of it since I was young and guileless. It is this: Where the carcass is there shall the eagles be gathered together. He looked once more at the lawyers and walked out.—Nome News, Sept. 1.

Corbett Disappears.

According to a dispatch from New York, James J. Corbett, ex-champion pugilist, has mysteriously left the Eastern metropolis. Mrs. Corbett, who was seen on the subject by a World reporter, is stated to have said that her husband left America to escape the consequences which he believed would fall on him if the true story in connection with his recent fight with McCoy was made known. Mrs. Corbett stated that an agreement had been entered into between Corbett and McCoy, by which the former agreed to allow McCoy to win, while he (Corbett) wagered money on the result. At the contest Corbett refused to carry out his agreement. Mrs. Corbett said he has left a letter saying that he had sailed for Europe.

His Rise in Life.

Simmy Simpson, of Victoria, who arrived in town last week left Tuesday morning for home again. Simmy found many friends to greet him here, as he does almost every place he goes on the coast. He was one of the pioneer newspaper men and lacrosse players of British Columbia, but recently went into the more popular and lucrative business of mixing drinks.—Whitehorse Tribune.

Short orders served right. The Hoi born.

Same old price, 25 cents for drink, at the Regina.

ANOTHER KLONDIKE ROMANCE

Moses Lichtenstein Changes His Name and Presents Nuggets.

He Sued Miss Hannah Simmonds for Breach of Promise and Recovery of Presents.

London, Aug. 29.—The strange and romantic career of Klondike Mo, the Nugget King, otherwise called Moses Lichtenstein, and of late Mr. Montague Leighton, was aired fully last week in the court of queen's bench as an incident to his suit to get back the nuggets he poured at the feet of his ex-lady love.

The woman against whom Klondike Mo, the Nugget King, brought suit for damages for breach of promise to marry was Miss Hannah Simmonds, and is Mrs. Mendelssohn. The suit was tried before Justice Darling, and ended on Friday in a victory for the defendant, and a subsequent compromise which satisfied everybody.

It was in July, 1895, that Moses Lichtenstein came to London from Johannesburg, South Africa, and was introduced to Miss Simmonds at an evening party. Three days later he asked her to marry him. She asked him to wait awhile and think it over. So Lichtenstein went back to Johannesburg and wrote an affectionate letter. In 1896 he returned to England, and after discussing his affairs with her father, they became formally engaged. From 1896 to March 1898 Lichtenstein made several trips to South Africa, and each time he returned with presents of jewelry and shed them upon his sweet heart. In March 1898 he went to the Klondike and came back in October with many mining options and a bag of nuggets, which he placed at the feet of his betrothed.

At the request of his ladylove Moses Lichtenstein changed his name to Montague Leighton and sold his options for £500 in order for to marry, but the event was deferred to enable him to make another trip to the Klondike.

While away Miss Simmonds wrote him some very affectionate letters which were read in court and caused a deal of laughter.

Hannah's young brother also wrote. Here is a sentence from one of his letters:

"Old man, when we drink your health at the nuptial feast in the summer the first toast will be 'Klondike Mo, the Nugget King.'"

When Lichtenstein—now Mr. Montague Leighton—returned in August, 1899, from his second trip, the Chil-koot's icy blast was a hot wave in comparison to the reception he got from the lady of his choice, who wrote him a letter in which she stated that his wealth and mines were castles in Spain and that he had deceived her.

The unhappy man wrote and said that she was cruel and henceforth his "life would be passed in the deepest gloom."

In despair Mr. Montague Leighton rushed over to New York, where he did nothing worthy of mention except challenge a South African giant to a duel and get lost on Staten Island, where he sat on a log in the rain all night and wept copiously.

He crossed over as a first-class passenger in January and returned to London in last June as a potato peeler on the Minneapolis, of the Atlantic Transport Line, and sat in a silk hat, kid gloves and frock coat salting a tub of spuds with his tears.

Then he brought suit, Miss Simmonds having become Mrs. Mendelssohn, alleging that as she had broken her promise he was entitled to the return of the jewels and nuggets.

Mrs. Mendelssohn replied that Mr. Lichtenstein had said that he was rich beyond the dreams of avarice, when, as a fact, he had nothing. Her father had left her £2000, half of which she made over to her mother, and when Mr. Lichtenstein found out that he could not handle the other £1000 he sat down in the drawing room and sobbed, and she had to give him several whiskies and sodas before he was able to go home.

She denied that she wished him to change his name; he did so of his own volition. She added that he is "as false as his American accent."

After hearing all the evidence Judge Darling said there was no evidence to show that there was any express condition on which the nuggets and jewelry were given.

After a consultation Mrs. Mendelssohn agreed to return the presents and the suit was withdrawn.

(The "Klondike Mo" to whom the

above telegram, to the New York Journal refers was known in Dawson as Montague Leighton, and he at one time owned the property on Second avenue in which the Colorado barber shop is now located. While here he had with him a short, fleshy woman, whom he introduced as his wife, and who wore large flashers and danced at Nigger Jim's. It is not known what relation the woman bore to Moses or Montague, but in view of his recent court experience in London it is not thought that the pair had so far sacrificed themselves on the altar of conventionalty as to be married. It is not known whether Moses now owns any property here or not.)

Pete's High Stepper.

Dawson is to have a thoroughbred trotter. Pete McDonald, cousin of Alex McDonald, the largest claim owner in Dawson, and himself a miner of no small means is in the city with a Hambeltonian colt. The colt has a

good pedigree, its mother having a record down in the small figures. He is also taking a large quantity of machinery and feed. This is Mr. McDonald's first trip inside since losing his foot in attempting to pass between two cars in Seattle last spring. The way Pete rides this spirited colt, considering that he has but one foot to place in the stirrup, is the admiration of everybody in town who knows anything about horsemanship.—Alaskan.

REFORMES LOCALES

Le programme dans cette élection ci concerne naturellement les questions locales. MM. Noel et O'Brien et leurs amis s'engagent à faire prévaloir les réformes suivantes.

UNE BONNE POLITIQUE

1. Nous sommes en faveur d'une large politique quant à l'ouverture, à l'établissement et à l'avancement de ce pays. Tous les efforts devraient être concertés de manière à mettre, dans le plus court délai la propriété publique entre les mains du mineur et du "prospecteur." Tous les travaux publics, à l'avenir, devraient être faits d'une manière permanente.

CHEMINS-ET PONTS.

2. La construction des chemins devrait précéder le prospecteur. De bons chemins et ponts devraient être construits immédiatement là où le besoin s'en fait sentir. Les ponts et les chemins suivants entre autres, devraient être construits avec toute la célérité possible.

1. Chemin de Whitehorse à Dawson, passant par Selkirk, Black Hill, Eureka and Gold Run, 270 miles.
2. Chemin de Gold Run à Clear creek, 30 miles.
3. Chemin de Dawson à Fortymile et branche à Sixtymile, 52 miles.
4. Chemin le long du "Dominion" 20 miles.
5. Chemin le long du Hunker, 52 miles.
6. Chemin le long du Last Chance, 6 miles.
7. Chemin de Whitehorse aux mines de cuivre, 10 miles.
8. Tout chemin commence devra être complète d'une manière permanente.

PROTECTION DES MINEURS.

3. Les mineurs constituent la masse des travailleurs dans l'Yukon. Comme tous les autres ouvriers la loi devrait les protéger pour leurs gages. Tous les mineurs (de placer, de quartz ou de charbon) devraient être protégés de toute injure provenant de la négligence ou de l'absence de précautions suffisantes à leur égard. Une loi protégeant le mineur devrait être passée.

TAXES.

4. Un bon système pour prélever les taxes est nécessaire. Celui établi par le Conseil de l'Yukon, est impropre sous plusieurs rapports. Prélever des taxes sur la somme des affaires faites par un individu, est contraire à tous les principes reconnus sur cette question. C'est illogique et injuste. Nous protestons vigoureusement contre toute tentative de mettre ce système en force avant l'entrée dans le conseil des représentants de peuple.

ECOLES.

5. Nous sommes arrivés à un nouveau stade dans le développement de ce pays. Tous nos efforts devraient tendre à encourager le mineur à s'établir ici avec sa famille. Pas un coin de Canada, quelque petit qu'il soit, qui n'ait ses écoles. Pour que ce coin-ci devienne permanent, il est nécessaire qu'une politique vigoureuse soit suivie, afin que la our elles sont requises, suivant la loi, des écoles soient construites. Ces écoles devront être modernes, bien équipées et être munies de bons instituteurs.

UNE COUR D'APPEL.

6. Le système d'en appeler à une Cour d'Appel siégeant dans une province éloignée devrait être immédiatement changé, à cause des frais énormes et des délais sans fin qui en résultent. Un autre juge devrait être ajouté à ceux que nous avons déjà afin de constituer une Cour d'Appel.

SUCCESSIONS.

7. La présente loi pour l'administration des successions des personnes qui meurent dans ce pays est mauvaise. Elle met trop de pouvoirs entre les mains de l'administrateur public. Les frais qu'elle fait encourir sont considérables et elle met en danger les biens des défunts.

POLITIQUE GENERALE.

8. Le Conseil de l'Yukon devrait consacrer son temps au développement des industries minières, or, cuivre, charbon et autres minières. Le développement rapide des très-riches régions minières du haut de l'Yukon, Whitehorse, Pelly, Hootalinqua et de la rivière de Saumon, rend nécessaire l'adoption de cette politique.

QUESTIONS FEDERALES.

Bien que les questions fédérales ne soient pas directement concernées dans cette élection, MM. Noel et O'Brien et leurs amis, s'engagent à faire tout en leur pouvoir pour faire prévaloir les réformes suivantes:

LOIS MINIERES.

1. Les lois minières devraient être faites par le conseil de l'Yukon et être basées sur l'expérience des mineurs résidant dans ce territoire, sujet à l'approbation du Gouverneur Général en Conseil.

LA ROYAUTE.

2. Le royaume devrait être aboli. S'il est nécessaire de prélever des revenus, nous favoriserons une légère taxe d'exportation à laquelle le citoyen contribuera aussi bien que le mineur.

PROCES ENTRE MINEURS.

3. Afin d'éviter des délais et des frais dans les procès entre mineurs, les appels devraient être entendus par les juges de la Cour de l'Yukon et non par le ministre de l'Intérieur.

LICENCE DE MINEUR.

4. Seuls les propriétaires de mines et les "laymen" devraient être obligés de se munir d'une licence de mineur.

AFFIDAVITS DE REPRESENTATION.

5. Afin de sauver du temps et de l'argent au mineur, l'inspecteur des mines devrait être obligé de se rendre sur les "claims" afin d'y recevoir la preuve de représentation offerte par le mineur.

LE DECOUVREUR.

6. Pour encourager le "prospecteur" à découvrir de nouvelles régions minières, le découvreur devrait être exempté du paiement de toute charge et des obligations de la représentation vis-à-vis de la Couronne.

TRAFIC DES LIQUEURS.

7. Le trafic des liqueurs devrait être réglé suivant les principes en force dans les autres parties du Canada.

ELECTION DE CONSEILLERS ET DE DEPUTES.

8. Un Conseil Electif pour l'Yukon et au moins deux représentants du Territoire dans le Parlement du Canada.

AUGUSTE NOEL,
THOMAS W. O'BRIEN.

Dawson, ce 22 Septembre, 1900.

The O'Brien and Noel Platform.

THE following platform has been adopted by Mr. Thomas W. O'Brien and Mr. Auguste Noel for the approaching election of members for the Yukon council, and has been approved of by their supporters in meeting assembled. It is now submitted to the electors for their consideration and approval.

TERRITORIAL REFORMS.

The issues in an election of members of the territorial council naturally cover matters within the powers of the council. Mr. O'Brien and Mr. Noel and their supporters favor and are pledged to the following reforms:

A PROPER POLICY.

Generally we favor a broad policy looking to the opening of the country, to settlement and advancement, and to an organized effort with the object of converting public property as rapidly as possible to the uses of the miner and prospector. All public improvements hereafter should be made with a view to permanency.

ROADS AND BRIDGES.

Roads should be opened up in advance of the prospector. Suitable roads and bridges should be constructed at once wherever the requirements of the country demand them. The following roads and bridges amongst others should be constructed with all possible speed.

1. A road from Whitehorse to Dawson passing by Selkirk, Black Hills, Eureka and Gold Run, 270 miles.
2. A road from Gold Run to Clear creek, 30 miles.
3. A road from Dawson to Fortymile with a branch to Sixtymile, 52 miles.
4. Road running along Dominion creek, 20 miles.
5. Road running along Hunker, 25 miles.
6. Road running along Last Chance, 6 miles.
7. A road from Whitehorse to the copper mines, 10 miles.
8. All other roads now made to be completed with a view of permanency.

PROTECTION OF THE MINER.

The miners are the great army of labor in the Yukon. Like all other laborers they should be protected by a proper lien law for their wages. The placer miner, like the quartz miner and the coal miner, should be protected in his work from injury arising from carelessness and the absence of proper safeguards. A miner's protective law should be passed.

TAXATION.

A proper system of taxation is necessary, but the system devised by the Yukon council is in many respects, unsuitable. Taxation on the turnover is against all the canons of taxation as well as illogical and irregular. We protest vigorously against any attempt to enforce the proposed system until it has been considered and passed upon by the elective representative on the council.

SCHOOLS.

We have reached a new era in the development of the territory. Every inducement should be given to the settlement of miners' families in our midst, no settlement in Canada, however small or insignificant, is without its schools. The permanency of the camp requires a vigorous policy looking to the construction of schools wherever needed, according to law. Modern schools, well equipped, with suitable teachers, are indispensable.

A COURT OF APPEAL.

The system of appealing to a court of appeal in a distant province with its attendant expense and delays should be changed at once. The addition of another judge to the territorial court is absolutely necessary and would furnish the needed court of appeal.

ESTATES AND DECEASED INTESTATES.

The present law for the administration of estates is unsatisfactory as it places too much power in the hands of the administrator, is expensive and fraught with danger to the estates of deceased persons.

GENERAL.

So far as possible the deliberations and executive actions of the Yukon council should be devoted to the development of the mining industries in gold, copper, coal and other minerals. The rapid opening up of valuable mining regions along the Upper Yukon, Whitehorse, Pelly, Hootalinqua and Salmon rivers makes this necessary and advisable.

FEDERAL MATTERS.

Although federal matters are not directly an issue in this election, Mr. O'Brien and Mr. Noel and their supporters are pledged to use their influence in effecting the following reforms:

MINING REGULATIONS.

1. The initiative in making mining regulations should lie with the Yukon council, and be based on the experience of residents of the territory, subject to approval by the governor general of Canada in council.

ROYALTY.

2. The royalty should be abolished, but if it is necessary for revenue purposes we would favor instead a small export tax which will fall on everybody in the territory as well as the miner.

MINING DISPUTES.

3. To avoid delay and expense, appeals in mining contests should be heard by the judges of the territorial court instead of in the city of Ottawa.

MINERS LICENSES.

4. Only mine owners and laymen should be required to hold free miners' licenses.

PROVING REPRESENTATION.

5. To save the great expense and delay often experienced by the miner in proving up representation, the mining inspectors should be required to visit the mines and accept proof of representation on the spot.

THE ORIGINAL DISCOVERER.

6. To encourage the prospector to continue opening new territory, the original discoverer should be exempted from the payment of fees and representation duties.

THE LIQUOR TRAFFIC.

7. The regulation of the liquor trade on the same principles as in other parts Canada.

ELECTION TO COUNCIL AND REPRESENTATION.

8. An elective legislative council and at least two representatives of the territory in the parliament of Canada.

THOMAS W. O'BRIEN,
AUGUSTE NOEL.

Dawson, September 22d, 1900.

A HOODOO LAID TO REST.

And the Yukoner Freed From Her Evil Genius.

The Tyrrell Goes to Circle City and the Louise Arrives From St. Michael—The Hamilton Safe.

With the arrival of the steamers yesterday from both up and down stream, new life and activity was noticeable along the front.

The speedy Yukoner, Captain Turnbull, arrived from Whitehorse yesterday, bringing freight and passengers, the latter, as usual being full of praise and words of appreciation for the kind and courteous treatment received at the hands of the officers.

The Yukoner will sail again today for her last run up the river till next spring. She will lay up at Whitehorse.

When the handsome record-breaker began this season's work she was listed heavily to port under the weight of one of the heaviest hoods that ever perched on the rail of a vessel, or grinned across the flying spokes of a pilot. Whether the evil genius of the Yukoner was cremated in the fire of last spring when the vessel came so near being destroyed, or whether his term of office has expired is not known, but anyway, he no longer puts his feet under the cabin table at meal time, neither does he pick his teeth on the promenade deck. He apparently left the steamer about the time of the fire, as no evidence of his baleful influence has been noted since that time. The Yukoner has not had even a slight accident since the fire.

Her passenger list this time is as follows: Mrs. J. P. McClellan, Miss Mead, Mrs. White, R. J. McMullan, R. de Lobelle, S. T. Guilleck, P. Palmer, H. Hamburger, Lillie Hootley, J. R. Reed, Mrs. W. Jeffatt, T. J. Hortman, A. Hortman, E. N. King, M. Retsteins, W. H. Passage, W. O. Robertson.

The steamer Zealandian was another arrival from up stream Saturday, bringing quite a long passenger list. Her passengers were: L. J. Kimby, Miss S. Berendorfer, A. E. Manner, Mrs. A. Smith, Mrs. McArthur, P. Minta, A. Goldbug, W. A. Biddor, W. Lawrence, W. E. Ellis, W. Carey, W. S. Vuoliet, T. Mulcahey, J. P. Groven, D. V. Burwash, A. Siolaie, J. P. McMurray, Alex. Clark, W. J. Beavin, Mrs. Walter Bough, Mrs. McKnight, Mrs. A. E. Rogers, E. McKnight, Mrs. C. C. Kelton, B. A. Kelton, R. Durney, C. Laftane, Mrs. Ortt, Miss Cowen, E. T. Schultz, Mrs. Schultz, G. A. McCumber, D. A. Maynard, G. Shindler.

The steamer Tyrrell, which has been carrying coal from the Fortymile mine for the N. A. T. & T. Co., has finished her work in that line and has received freight and passengers for a run to Circle City and intermediate ports. There were a great many people up from down stream who were anxious to get back before the close of navigation, besides many who had arrived since the sailing of the last down river boat whose destination was below Dawson, for this reason and because there was considerable freight to go down, it was decided to send the Tyrrell on a round trip to Circle. She sails today.

The A. C. Co's steamer Louise, Capt. Dixon, arrived from St. Michael towing two large barges yesterday afternoon. There having been so little time between the Louise, the Susie and Rock Island, the former brings no fresh news from lower river points.

The N. A. T. & T. Co. received a letter from St. Michael by one of the recently arriving boats to the effect that the steamer Hamilton is not, as was at first reported, a wreck. In truth she was so little damaged by her beaching in the terrible story reported by the Susie that she left the scene of her trouble on the 11th inst., and, unless she meets fresh mishap, will soon arrive in Dawson, little the worse for wear.

The Louise's passengers list was very light this trip, numbering only eight. Their names are as follows: M. Keefe, M. T. Blom, F. F. Jones, Joseph Lucas, L. B. Hunt, F. H. Austin, G. K. French, Chas. L. Hall.

The movements of up-river steamers as reported by wire this morning are: The Bailey arriving at Whitehorse at 9 a. m.; the Light passed Selwyn at 8 a. m.; the Flora passed Five Fingers at 3 p. m. yesterday, and the Gold Star on her way up at 7 a. m. this morning. The Lightning passed Ogilvie on her way down at 10 a. m., and the Columbian and Victorian passed Hootalinqua at 7 and 10 a. m. respectively.

Farewell Dinner.

On Saturday night a farewell dinner was tendered to Charlie Nourse by his

associates in the Canadian Bank of Commerce. The dinner was prepared by Mine Host Germain, and was a most elaborate affair.

The banquet rooms was beautifully decorated, the prevailing shades being orange and garnet, the bank's official colors. The tables were laid for 27 and a jollier crowd never sat down to sumptuous feast. The festivities continued from 8 o'clock until 11:30, at which time final toasts were proposed and farewells exchanged.

Genuine regret was expressed by everyone at losing Charlie, who was one of the bank's first representatives to land in Dawson in the spring of '98, and is most popular in both a business and social way in Dawson.

The gentlemen present at the dinner were as follows:

C. J. K. Nourse, H. Norquay, F. C. Stacpool, W. A. Richardson, R. A. Runsey, W. A. Chandler, W. H. Scarth, J. B. Adams, A. W. Complin, H. T. Wills, R. L. Cowan, E. E. Tiffin, H. G. Wilson, R. M. De Gex, J. Philip, A. Scott, A. E. Marks, C. D. Grange, H. N. Coleman, Geo. M. Allen.

Carboneau-Mulrooney Nuptials.

C. E. Carboneau in view of his approaching marriage to Miss Mulrooney, gave a farewell dinner to his bachelor friends at the Fairview hotel last evening. It was a great time and the send off he got from about 50 who were on hand to see the last of him as a bachelor, was sufficient to convince him that in leaving precincts of good fellowship he was leaving behind him, so to speak, a large number of friends whose company, in the halls of bohemia, he will miss in the time to come.

However much Mr. Carboneau may have regretted the parting with his bachelor friends, he bore up manfully under the affliction, as did the friends, and ample justice was done the good cheer provided at the hospitable board, spread in the dining room of the Fairview. Everything was done in proper style and in a manner befitting the hosts reputation for good fellowship, and the champagne was forthcoming without stint, no one being permitted to harbor an empty or half filled glass.

If the union between the high contracting parties is as happy as their friends hope for, life will indeed be a bed of roses, and matrimony prove a joy forever.

The nuptial ceremony will take place sometime during the afternoon.

Wade-McDonald Case.

This morning Judge Craig handed down a decision in the suit of F. C. Wade against Alexander McDonald, giving judgment against the defendant for the amount sued for, an additional \$2500 and costs. The judgments also gives to the plaintiff all moneys paid out for the defendant by Wade, Clark and Wilson during the time that firm attended to the legal affairs of Mr. McDonald. What amount this last item will aggregate is not yet known as the account has not yet been made up.

Altogether the judgment is a heavy one, and the case on account of the money involved has excited considerable attention.

Nome's Hospital Empty.

The smallpox hospital is vacant. The last patient was discharged on Sunday and the hospital and its contents will in all probability be destroyed. The cost of fighting this dreaded scourge has been heavy, and it will probably foot up \$25,000 or \$30,000, but it was wisely incurred. But for the prompt measures taken to isolate the cases that occurred the spread of the disease would have been rapid and an epidemic would undoubtedly have resulted.

The situation had to be met promptly and it was; there were no funds with which to fight the plague; no organized government to assist in stamping it out, and yet this was done quietly, effectively and without the blare of trumpets. It may not be generally known, but it is a fact, that the money needed to do the work was advanced by the Alaska Commercial Company, without question and without hesitation. This money was expended under the personal direction of Capt. Jarvis, of the treasury department. That it was wisely expended all residents of Nome know.

The death record speaks for itself; of the 23 cases which were domiciled at the pesthouse all recovered save one, the victim being W. Wormsley, who died June 29th.—Nome News.

COMING AND GOING.

F. H. Austin, and S. Smith are up from Fortymile.

son suffered vaccination at the hands of Dr. McArthur this morning.

Assessor Ward Smith, Comptroller Lithgow and Meteorological Observer and Keeper of the Great Seal Al Watson.

Attorney Dan McKinnon has gone to Whitehorse on the Zealandian, and hopes to get back without doing any musing.

Among the arrivals by the Yukoner yesterday were Mrs. E. J. White and little daughter. They have been to Skagway and their return is welcomed by many friends and acquaintances.

Mrs. S. P. McClellan and child were passengers on the Yukoner yesterday. Mr. McClellan came to Dawson last fall since which time his wife and child have been visiting in the east.

J. E. Booge, of the Yukon hotel, was among the passengers departing by the Zealandian. Mr. Booge's destination is Chicago. He takes with him the most kindly wishes of a very large circle of friends.

Mr. H. Knable, the genial proprietor of the German bakery and confectionery store, opposite the Klondike bridge, was distributing cigars among his friends yesterday in honor of the addition of a 12 pound boy to his family circle Saturday.

D. A. Shindler, "the hardware man," was surprised yesterday by the arrival of his father from San Francisco, who came unexpectedly. Mr. Shindler is making the northern trip upon advice from his physician as the damp air of the south has seriously affected his health.

O. Wainigstad is reported to have bonded a group of 12 quartz claims in Big Scookum gulch. The amount of the transaction is not known, but it is said to be not only high but quite satisfactory to the intended purchaser, according to the progress of development work being done, and the sale will probably be consummated.

Col. Wright has made numerous attempts to get back to his Quartz creek claims during the past ten days, and has been prevented by one thing or another till he begins to wonder if the hoodoo which recently quitted the Yukoner has not taken up its abode beneath his lodge pole. His last attempt was made Saturday when he got nearly to the Forks, where the police informed him that a quarantine was in force, and he came home again, resigned to the hoodoo theory.

POLICE COURT NEWS.

(Continued from page 1.)

objected to any further continuation and stated that the case is urgent; that the defendant had warned him to arm himself, as he (McCuen) had stated that he would shoot the complainant on sight. George asked the court if he could secure a permit to carry a gun and the court told him such permit asked for under oath would be granted. George offered to make the required oath. Attorney Howden, who represented McCuen, said he would guarantee Mr. George from harm at the hands of his client while the case is pending, and George replied, "Your personal guarantee will not mend broken bones." In setting the time for hearing the case at 2 p. m. tomorrow the court took occasion to assure George that in case McCuen molests him in any way during the interim he will be jailed without bond.

Mrs. Dewey, an aged lady, with something of a Martha Washington appearance, appeared against Mrs. Aikin with a claim of \$60 alleged to be due for services performed in the latter's boardinghouse at Whitehorse. Mrs. Dewey's story was an amusing one in that she insisted in making several very broad assertions which reflected very materially on the private life of the defendant. Mrs. Aikin said she had never employed the complainant and the only work the latter had ever performed for her was to segregate a pan of beans and split peas. The defendant corroborated her story by two men whom Mrs. Dewey termed "paramours." After hearing the evidence in the case the court decided it had no foundation and it was accordingly dismissed, the complainant then and there giving notice that she will appeal to the higher court and obtain justice if there is any to be had.

No Use for Railways.

On the White Pass & Yukon express which left here last Tuesday there was a passenger who hadn't seen a railway train for 20 years and he wasn't blind all that time either, nor was he an Indian. He was Joe Irving of No. 25 above on Bonanza creek in the Klondike. He is known as "Uncle Joe" and everybody who knows him likes him in spite of a few eccentricities for which he is noted. Joe came to this country from British Columbia several years ago, and had not since that time up till last Tuesday ever been this side of Fortymile. He had no intention then of coming this far but he was practically shanghaied by a party of friends. After getting him this far the party insisted on taking him for a ride over the railway and they did it in spite of his protests. Uncle Joe does not believe in railways and he can produce good arguments to show why people who want to hold on to good times in a mining camp should keep out steel rails and steam locomotives. Joe has dug up oceans of gold in his time and though he has spent two or three average sized fortunes, he has one or two left. He hasn't got quite enough to buy out the White Pass & Yukon Route, but if he had there

Comes Natural to Him

Corporal McPhail, of the N. W. M. P., detailed to succeed Sergeant Wilson in charge of the patrol force and town station, began the discharge of his duties Saturday evening. He is an experienced officer and has a good record in the service. Sergeant Wilson left yesterday on the Zealandian and his departure will be generally regretted both by his associates in the force and the people generally.

Looks Like a Good Location.

The south end of town has received another addition to its business houses, the firm of W. P. Docrill & Co. having opened a first-class drugstore in that locality. Mr. Docrill contemplated starting a store at Circle City, his stock having been purchased for that purpose, but upon arriving here decided to open a place in Dawson.

This is the only drug store in that part of town, and as it is the first one on the road from the creeks will without doubt do a thriving business.
