

Not a sign of wear!

Silk hosiery, of dainty weave and exquisite colour! Underthings so sheer and delicately pale! In fact, any dainty fabric can be washed time after time in the gentle Lux suds, without showing a sign of wear.

Of course, with Lux, there is no rubbing to break the slender fibres, or to streak and fade the lovely colours. Just dip your things up and down, pressing the creamy Lux lather through and through, and they're as lustrous and beautiful as new again.

Lux will not injure anything that water alone will not harm.

Lever Brothers Limited, Toronto.

100 LEAVING CANADA MONTHLY

Fingers Show Movement Since Law of July Last—Reduce From 1924.

During the seven months ended July 31, 1925, Canadians to the number of 72,371 emigrated to the United States and declared their intention of residing there permanently, according to statistics issued by the United States Department of Commerce in connection with operation of the quota law that became effective July 1, 1924.

The flow over the border of Canadian-born avowedly leaving the United States for good has been at the approximate rate of 10,000 per month since the United States immigration quota law went on the books, the figure for January last was 9,087. In addition, the numbers of Canadians are added to the United States for temporary visits. Prior to July 1st, it was estimated that 70 per cent of the "temporary" category remained permanently below the water.

Application of the United States law, which carries provision for a \$10 immigration visa and a head tax applicable to Canadian well as to all other immigrants, held in some quarters to be responsible in large measure for the reduction in the flight of Canadians from the Dominion. During 1923, for instance, an average of 13,000 Canadians emigrated and the intention of remaining below the frontier.

The seven month period covered the statistics in question, 1,043 Canadians crossed into the United States for permanent residence, and of those 260 moved in January last.

From Irish Free State

As a result, for instance, the Free State is now sending to the United States almost as many emigrants as Great Britain and Ireland combined. The annual quota for the Irish Free State is 27,700 for Great Britain and Ireland, 34,007. From the quota law became effective July 1, 1924, up to the end of July last, the Irish Free State sent 14,410 emigrants, and 11,297 from Great Britain and Ireland.

Stomach Trouble DYSPEPSIA Banished By Using Burdock Blood Bitters. Mr. M. P. Eldridge, Beaver Harbor, N.B., writes: "I was troubled with stomach for some time, and every day I ate seemed to distress me. I tried many different medicines, but without any result. Finally I was advised to try B.B.B. and after having taken several bottles I was completely relieved of my trouble. I can now eat any thing I wish to, thanks to B.B.B. This preparation is manufactured by The T. Milburn Co., Limited, Toronto, Ont.

East Lake Ainslie

March 23.—The weather has been favorable for the past few days and the snow has almost disappeared from the woods. The ice is still travelled, altho it is no longer considered safe.

An epidemic of flu or lagrippe has swept this neighbourhood for the past few weeks. Most of those who were victims to this very annoying malady are now on the road to recovery.

While engaged in caring for his stock, Mr. Dan Maclean of Trout River fell from the scaffold of his barn on March 22. Dr. Grant, of Whycomagh was called and it was found that Mr. Maclean had two of his ribs broken. His condition is reported serious owing to weakness of the heart.

Mr. Allan Maclean of this place was on a visit to River Denny's during the week-end. He reports the roads between here and there to be in splendid condition.

Daniel MacKinnon, who has spent the winter in Inverness town,

returned to his home at East Lake on the 21st inst.

Tom, Campbell of this place was on a business trip to Whycomagh on Saturday last.

Mr. Henry Johnson of Trout River was a visitor at the home of Mr. Angus MacKay of East Lake on Saturday last.

Mr. Alex. Macdonald of South West Margaree, who is executing the office of teacher among the Indians of Whycomagh passed through here last week. Mr. Macdonald also holds the agency for radios, and it is expected that he will soon install one at Lake Ainslie.

Mr. Dow and Mr. Malcolm MacKinnon of this place were on a business trip to Inverness last week.

Mr. and Mrs. Charles MacLean returned from their honeymoon tour about a week ago. Mrs. MacLean was formerly Miss Nicholson of Sydney. They will reside at Scotsville.

The sale held at the store of Mr. John Mutch of Scotsville was largely attended, and many good bargains were obtained by the bidders.

"It's Best For You & Baby too" BABY'S OWN SOAP. Mr. Malcolm J. McHail fulfilled the duties of his office as public auctioneer admirably. Mr. Mutch purchased suddenly at Toronto last evening. He was in his 66th year and was well known throughout Canada.

BADDECK WATER SYSTEM

Baddeck.—The Water Committee for Baddeck Centre last week awarded the contract for building the test dam to Dan H. Campbell. The contract to be completed on or before April 20. The price was \$360. The dam is being built to test the amount of flow of a brook which it is planned to use for a water supply for Baddeck.

REV. DR. SHEARER DEAD

Toronto, March 28.—Following an arduous six weeks' convention campaign in the maritime provinces, Rev. Dr. J. R. Shearer, general secretary of the Social Service Council of Canada, was taken ill with angina pectoris and pneumonia, and died suddenly at Toronto last evening. He was in his 66th year and was well known throughout Canada.

SAID WIFE WAS FAT, HIS THROAT SLASHED

Victim, Floeing, Collapses in Street—Pursued by Police.

New York.—Mrs. Winifred Halligan, 48 years old, a stout woman, but she will not permit even her husband, Patrick, to say anything in her hearing that she is fat. Patrick, however, the police say, did make a remark to that effect, and shortly afterward he was taken to New York Hospital while two policemen took her to the West Thirtieth Street Police Station in a taxi-cab.

Halligan's throat was cut with a razor when he ran from his home into Eighth Avenue shouting for help. Mrs. Halligan followed, according to the police, with a razor. Patrolman Thomas Riggs seized her, but it was not until she was joined by Patrolman John Hannan that she was overpowered and disarmed. Halligan was found a half block away, where he had collapsed on the sidewalk. Halligan's condition is serious.

SUPREME IN THE WORLD OF LIFE INSURANCE

Statement for the Year Ended December 31st, 1924

Metropolitan Life Insurance Co.

Table with columns: HEAD OFFICE, OTTAWA, ONTARIO, CANADA, ASSETS, LIABILITIES. TELEPHONE ORDERS FOR SECURITIES ARE CLEAN CUT

The rural investor often sees at the close of his stock broker's sales letters the invitation, "Telephone your Orders at our Expense."

These keen business men know how in written orders ambiguities often creep in, the clearing up of which means more letter writing, with resultant loss of time and possibly hurt to their client's interests.

They realize that in an order by Telephone, ambiguities can be cleared up at the moment, explanations, if necessary, given, and their client's wishes thoroughly and precisely understood.

In the selling and purchasing of securities, as in other forms of bargaining, a Long Distance Telephone Talk is all but as good as a face-to-face one.

The Coal Duties.

The Associated Boards of Trade of Cape Breton, and the members of the two delegations organized by that body who went to Ottawa in connection with the coal duties, are entitled to congratulations on the success of their efforts. For years those interested in and dependent upon the Nova Scotia coal industry felt that the industry was not treated fairly in the tariff, no being given anything near the protection that other Canadian industries receive, and it being felt that while the protective system is maintained under the Canadian tariff all industries should be treated fairly in comparison with others. Every year more or less strenuous efforts have been made to have the duty increased, but without success, and constantly there was a fear that it would be further reduced. The very depressed condition of the coal trade during the past two or three years, however, brought the matter to a head months before the even more serious situation precipitated by the present cessation of work at the collieries came about, and the business men forming the membership of the boards of trade tackled the problem earnestly and energetically. Their efforts have not brought the full measure of success, because all that was asked for has not been granted. The success achieved, however, is important, and will encourage further efforts until the coal industry—and the steel industry also—of Nova Scotia receive justice and fair treatment in the making of the tariff.

The increase of the duty on slack coal to fifty cents is an increase that is not overdue. As was pointed out in the case prepared by the boards of trade for presentation to the government, because of the large increase in the selling price of slack coal, and its extended use for industrial purposes, since the duty was fixed at fourteen cents per ton that duty gave no market advantage and gave American slack an advantage in the St. Lawrence market. The higher duty should give Nova Scotia slack a better opportunity to compete with other coal. It is calculated that it means the marketing of an additional 300,000 tons per year. It is not thought that the reduction of three cents in the duty on run-of-mine or screened coal of the larger sizes will materially affect the sales of the product. The net result, then, should be a very considerable increase of the sales of Nova Scotia coal in the St. Lawrence market—unless, as has been suggested in a despatch from the United States, the American coal-carrying railroads give a reduction in freight rates that will offset the increased duty, which is said to be improbable.

The continuance and encouragement of the subvention tax, increased last year on coal carried by rail to the St. Lawrence market and west of that district will help considerably in increasing the market for Nova Scotia coal. It is regrettable, however, that the government is continuing the drawback of 99 per cent of the duty on coal used for domestic purposes. The government has announced a policy of encouragement of the establishment of by-product coke ovens for making coke for domestic use, and it is ridiculous alongside that policy to continue subsidizing the use of American coal for making such coke, since the object of the policy is to encourage the use of Canadian coal to make coke to displace anthracite coal imported from the United States.

It is very regrettable that the government has not seen fit to give even a small increase in the duties on steel products. These duties, being specific and not ad valorem, are so low now as to give practically no protection on account of the increased selling price of steel since they were established. It is inconsistent and unfair to give every other important industry in Canada at least a fair amount of protection and give the steel industry practically none.

A very large number of people depend upon the coal and steel industries of Nova Scotia. They have to buy clothing, boots and shoes, canned goods, etc., produced in the upper provinces and protected by fairly high duties. So that they will have steadier work and higher earnings, the industries on which they depend should have a fair measure of protection.

The partial success secured by the efforts of the Associated Boards of Trade will be an encouragement to continue the work until the disabilities we have referred to are removed and the steel industry receives a fair measure of protection. The history of this movement shows what can be done by intelligent, well directed and persistent effort from the ranks of the people when they have a just cause and when it can be shown that the matter is not one of politics but of business.

One who shrinks from asking for the payment of bills due him is scarcely fitted for a business life.

Tea as a Beverage

Tea first became known in China nearly 3000 years before Christ. In that country tea was greatly prized, both for its remarkable qualities as a beverage and for the almost religious ceremony attached to the drinking of it. Up to the sixth century, tea was used only for medicinal purposes. Even in the seventeenth century it cost \$25.00 to \$50.00 per pound. All tea caddies were constantly kept under lock and key. Today when even fine quality like "SALADA" costs less than one-third of a cent per cup, it is not surprising that the consumption of tea is increasing tremendously.

"SALADA"

SHIPPING NEWS

S.S. Fiona, 164, Blandford, arrived in port on Monday from Halifax, Newfoundland, being en route to South Carolina with a cargo of fertilizer. The steamer arrived in here in a leaking condition having got caught in the ice and suffered damage which will necessitate her going to Sydney to be put on the slip for repairs. En route some forty tons of the cargo had to be thrown overboard in order to enable her to make port.

S.S. Stanley, Capt. George Saurhanwhite, which has been doing good work to the westward of Halifax lately, where she placed a number of small buoys, leaves this week for a trip as far as Cape Sable, where she will be engaged in lighthouse service.

S.S. Nyhavn, Capt. Holtz, sailed Friday from Halifax, taking 5,000,000 laths and 500 tons pulp to Philadelphia.

Schooner J.D. Hazen, Capt. George Hazen, last week from Halifax for Demarra, with 400 barrels of lumber.

Two schooners, the Maxwell R. and Ruby and Dorothy, may be purchased from the Burn Import and Export Company by St. Pierre, and are under way. If there is change of ownership both schooners will be put in the liquor carrying trade.

S.S. Bluehill, Captain Noel, made her first trip of the season on Saturday morning from Baddeck to Yarmouth. The C.G.S. Montclair was in that vicinity last week and as a result the lakes are well clear of ice. It is expected that the Bluehill will be taken down to North Sydney later to go on the marine slip.

THE THIRD SIEGE OF LOUISBURG.

The evangelistic mission conducted in Calvin Presbyterian Church, Louisburg, by the Reverend H.N. McLean, Ph.D. and Mr. T. H. Nichol, under the auspices of the Presbyterian Board of Social Service and Evangelism, was in every respect an unqualified success.

The campaign has been suggestively referred to as "The Third Siege of Louisburg." The congregations were large and appreciative. The campaign was heartily co-operating. Besides the quickening of church members, ninety-five accepted, and openly confessed Christ as their personal Saviour. Among those received include the leading citizens of the town. At the reception, the final meeting, the church was filled to capacity. Dr. D.A. Morrison, M.D., Reverend D.A. Jost and Reverend D.A. McMillan expressed in glowing terms their sincere appreciation of the work of the evangelist and of the singer.

Dr. McLean is a most convincing speaker and Mr. Nichol a singer of rare ability—an exceptionally good conductor. The evangelists are at present conducting a mission at St. Croix—Com.

ASCENSION AND ST. HELENA ISLANDS

These waves or walls of water arrive in calm weather from the open sea with little warning and break with great violence on the lee side of the island.

Their origin has been the subject of much discussion, the general conclusion being that these huge ocean ripples are the progressive undulations caused by distant storms in the heaviest rollers occur in December, January, July and August.

Despite the recent depression in business brought about by the cessation of work at the mines, Mr. W. H. Cuzner, manager of the Strand Theatre, North Sydney, is continuing to present to his patrons a high quality of features, a fact well known to those who have frequented the theatre during the past few weeks. Several much-talked-of features are scheduled to be shown here in the next few weeks, and patrons of the theatre are advised to watch Mr. Cuzner's advertisements. On Wednesday and Thursday the great mystery play, "The Acquittal" is to be presented, and a bumper program for the week-end will include "Drifting" with Priscilla Dean, and the second episode of "Wolves of the North." The work of repairing the Sydney Mines Strand is going ahead rapidly and it will soon be open to the public again.

FOR CO-OPERATION AMONG PROVINCES
Toronto Board of Trade Suggests Plan to Discuss National Problems

Toronto - Suggesting that the board of trade in each province take up "together" plan on national problems, and following investigation, endeavor to agree on certain fundamental proposals, S. B. Gandy, president of the Toronto Board of Trade, has addressed the following letter to the presidents of boards of trade and chambers of commerce in every city in Canada:

"The Toronto Board of Trade is conscious of the present divergence of opinion and lack of enthusiastic co-operation between the various provinces, and proposes that an effort should be made to remedy it possible, this unfortunate condition. With this end in view this board is endeavoring to foster a get-together plan amongst the various boards of trade of the Dominion. It is felt that possibly by a series of addresses delivered at various parts of the country by a committee of men of thought and acknowledged ability, the groundwork may be formed for expert investigation of certain national problems, from which it may be found that all provinces could agree on certain fundamental principles connected with the economic life of the country.

"It seems to us, merely as a tentative suggestion, that the boards of trade in each province, either collectively or individually, might consider the importance of whatever national problems they consider of the greatest importance, under the guidance of a non-partisan committee of the most competent men available, in each topic to be studied. The recommendations or conclusions resulting from such studies should, we feel, after adoption by the provincial or local committee, be submitted to a national committee. If, then, it should transpire that by wise concessions, each to the other, unity could be reached from Halifax to Vancouver, legislation, if necessary, would follow, making effective a new national policy which might lead to prosperity for all."

CAPE BRETON BROADCASTING

It will be of interest to North Sydney radio fans to learn that in the near future three well known Sydney artists, Mrs. P. D. McNeil, soprano, Mr. W. B. Stranding, violinist and Prof. A. F. McKinnon, pianist, and organist, will go to Moncton, where they will give a high class program which will be broadcast from station CNRA.

Another interesting piece of news along the same line is that the contents of a letter being prepared by the Baddeck board of trade, advertising the attractions of Baddeck as a tourist resort, will be broadcast from the Moncton station in the latter part of April.

A. MACNEIL, D.D.S.

SYDNEY MINES NEWS

Mrs. William Stubbert, Little Brook, is seriously ill with influenza. Her condition is reported quite serious, but her many friends hope for her recovery.

Things are very quiet in police circles, excellent order being observed in town and there being very few signs of drunkenness. One drunk, found on the street Sunday afternoon, was placed in the cooler, the first arrest for some time.

A man named Quin was fined \$200 and \$6 costs by Stipendiary Magistrate for having an illicit still in his possession. The apparatus was seized by inland officer J.W. Kennedy against Quin. The fine was paid.

Mrs. Angus D. McDonald and her daughter Winnie were in Pictou last week to attend the funeral of Mrs. McDonald's father, the late Capt. Alex. McDonald. He died on Thursday, at the advanced age of 82 years, being at his death one of the oldest people in Nova Scotia.

Mrs. L.D. McLean entertained the ladies' Aid of St. Andrew's church at her home last week. A social hour was spent after some business had been disposed of. Mrs. McLean served tasty refreshments and was assisted by Mrs. John T. McDonald and Mrs. Daniel McKenzie.

Four new elders were ordained in St. Andrew's church on Sunday to fill vacancies caused as a result of the vote on church union. The new elders are J.L. McKinnon, L.D. McLean, Neil McLellan and James Boyde. The ordination service, which was an impressive one, was conducted by the pastor, Rev. Dr. F.S. McKenzie.

Dr. L.W. Johnstone and Miss Lena Johnstone left on Monday night for Halifax, where Miss Johnstone will undergo a delicate operation on her eyes. She has been suffering from eye trouble for a considerable time and has been almost wholly blind. It is hoped that the operation will be successful and will restore her sight.

Master Wilson Hood, son of Mr. and Mrs. Wm. Hood of George's River, is receiving medical treatment in Harbor View Hospital. Mr. John Stubbert of Groves Point, who has been in the hospital for a week or so, is reported slowly improving. Mr. Elias LeBlanc, who was injured recently at the home of a friend, and who is also in the hospital, is on the way to recovery now.

Mr. and Mrs. Pius Tobin, parents of Miss Tobin who was killed by being run over by a C.N.R. train some time ago, while walking to her home from North Sydney, are bringing action against the C.N.R. for damages in connection with their daughter's death. They have placed the claim in the hands of Messrs. H. H. Brown and Brodie, lawyers, North Sydney, who will prosecute it in the Supreme Court.

Last Sunday evening Mr. Sydney Bateson, experimenting with his radio broadcasting station, succeeded in bringing into communication with Mr. H. H. Nichols, "The Wind", Stokelstein-on-Tyne, Durham, England. They carried on quite a lengthy conversation. Mr. Bateson is naturally quite elated over his success. During the week he has also been in communication with various stations in the eastern states as well as local stations.

Much activity is evident at the "Dumfries" mines near Sutherland's corner, operated by the miners since the cessation of work at the Scotia collieries. The area of Brown street has been pretty well worked out with surface pits, and several new pits have been opened in the eastern side of the road at the rear of Mr. McDonald's residence. It is said that the amount of coal mined each day runs up to between 50 and 75 tons. The coal is of fairly good quality, and the miners are glad to get it.

Sydney Mines Personals

Mrs. Murdoch Matheson and daughter, Miss Grace Matheson, of Inverness, were visiting in town last week.

Mr. Sidney Bateson, who had been in Halifax attending a meeting of the Atlantic Division American Radio Relay League, returned home last week.

Mrs. D.R. McKee, Brown street, left last week for Braton, where she will visit relatives.

Dr. D.R. McLean is also to be out again after his recent illness from flu.

Mr. John Calvert left last week for Detroit, where he will visit his sister, Mrs. John Carruthers.

Mrs. F.A. Gillis of Sydney Mines, who had been in Antigonish, N.S. returned home. While there, Mrs. Gillis attended the debates between candidates from Mr. St. Bernard College and Acadia University students.
