WOLFVILLE, NOVA SCOTIA, FRIDAY, OCTOBER 8, 1920.

\$1.50, payable in advance.

Doings at Acadia

Interesting Items of College News
The annual Acadia Y. M. C. A. reception, popularly known as the gravenstein reception was held last Friday evening in the College Hall. The President, Mr. Longley, after a few words of welcome, started the ball rolling. The entertainment for the evening consisted of a number of athletic contests between the different classes, after which the gravensteins were passed around. In the contests the Engineers came first and the Freshmen came second.

The apples disposed of, the latter part of the evening was given over to the singing of Acadia songs and the entertainment ended with the giving of the class yells. The Freshmen were somewhat surprised to find that the Sophs had stolen their yell and were quite able to give it. The gathering then broke up and everybody started for the Seminary grounds, where, according to the time honored custom, the Freshman-Sophomore rush was to take place.

On arrival there the two classes lined up in formation, similar to that of a football team, and then rushed each other. After three trials, in each of which the Sophs were victorious, the Freshmen were beaten onto a plank, one by one, and were compelled to furnish vocal entertainment for the seniors.

When the Sophomores decided that the Seniors had been sufficiently entertained they gathered the verdant Freshmen and marched them to Tully Tavern, where the performance was repeated, after which the Freshmen were sent home to bed.

The Acadia memorial Gymnasium is progressing rapidly. Mr. Charles B. Russell from the University of Iowa, is to be the new physical director.

The chair of Psychology at Acadia has been filled by the appointment of Earl D. McPhee. He was chosen from many highly recommended professors. He was formerly a principal of the University of Toronto. He has a reputation as a scholar, as well as that of a scholar. He was a junior at Acadia when the war broke out. He went over with the 219th Battalion, became Co. Sergt.-Major with the 17th, reverted again to private to go to the front with the 85th Battalion. He won the Military Medal and promotion to sergeant. After the armistice Mr. McPhee went to Edinburgh University, completing three years' work in a year and a half, receiving his M.A. and D.Ed. He is a native of Prince Edward Island.

DEATH'S HARVEST

At the Victoria General Hospital, Halifax, on Sept. 28th, there passed away Manson Eaton, of Wolfville, aged 67 years. The deceased had been in poor health for some years. A few weeks ago he was taken to the hospital for an operation which was successful. Complications however set in which resulted in his death. He leaves to mourn their loss two sons, Leslie, residing in this town, and Crawley, who served overseas and now resides in Cambridge, also four sisters and two brothers. The funeral was held on Friday afternoon, the services at the Baptist church and at Willow Bank Cemetery being conducted by Rev. D. Gates. The floral offerings were many and beautiful.

DOMINION CHILD WELFARE CONFERENCE

A conference of those interested in the various phases of child welfare is to be held in Ottawa on the 19th and 20th of October. It is requested that those who purpose attending should notify the Chief of the Division of Child Welfare, Department of Health, Ottawa, and should also send a brief statement of any subject which it is considered should be discussed at the conference. The importance of considering in consultation with experts, the most promising measures for child welfare work in Canada cannot be over-estimated. At a time when every lover of his country realizes how essential it is that the rising and future generation of our Dominion should be thoroughly fit physically, mentally and morally, it is confidently expected that the conference will be largely attended, and that every province will be represented.

The Valley Youth Boys Conference for Leaders and Teen Boys meets at Bridgetown, Oct. 8th-10th.

Minard's Liniment for sale everywhere

Three Counties Fair

Splendid Exhibit of Fruit and Vegetables.

The Kings, Hants and Annapolis Counties Exhibition, which was held at Aldershot, Kentville, on Tuesday, Wednesday and Thursday, was a decided success. The exhibits in the industrial department and that of fruits, vegetables, flowers, etc. would be hard to beat anywhere. There were also exhibits of automobiles, tractors, etc., that were decidedly interesting to the farmers and others.

Fully two thousand people were present when the exhibition was formally opened Tuesday afternoon by the Right Honorable Sir Robert Borden, ex-premier of Canada, and member of parliament for Kings county.

Sir Robert, who is looking exceedingly well, confined himself to a few brief remarks, in which he spoke of some of his experiences during war times, comparing the devastation that the war had done in France and Belgium with our own glorious and God-favored country. He spoke of Canada as a land of abundance, peace and contentment, and said that both Canada and the country to the south of us were noted for their go-aheadiveness and waste, urging that we remedy the latter. He was received with cheers, and at the close of his short address was heartily applauded.

MONTHLY COUNCIL MEETING

The regular monthly council meeting was held on Wednesday evening with the Mayor and all the members of the Council present except Coun. Graham.

Reports from the various standing committees were presented.

Coun. Sutherland, on behalf of the Streets Committee, reported the completion of the work of permanent construction on Front street and Central avenue and the repairing and graveling of Gaspereau avenue. Repairs had been made during the month on different streets, also the regular street cleaning.

Reported about 750 feet of sewer laid on Orchard avenue and about the same on Earncliffe avenue.

A petition was read from residents of Gaspereau avenue, asking that street lights be extended to the town boundary. Action was deferred pending an investigation of the cost.

The usual batch of accounts were read and ordered paid.

A communication was read from the Dominion Fire Commission, calling attention to the Proclamation of Fire Prevention Day, Oct. 9th. THE ACADIAN was asked to call the attention of the public to the matter.

FEEDING VALUE OF WINDFALL APPLES

Windfall apples have some value as feed for cows. They are relished largely because of their succulence, and should not be expected to supply much nourishment, as their feeding value is comparatively low. With shorts at \$60 a ton, apples are worth from \$2 to \$3 a ton. For dairy cows they have about 40 per cent. of the value of corn silage, and apple pomace is practically equal to the same weight of corn ensilage. The nutrient content of apples cannot be greater than that of most of our farm roots, certainly not equal to so called sugar mangels or sugar beets.

Contrary to the supposition that the feeding of apples interferes with the milk flow, there is data to show that apples used rationally do not injuriously affect it. The mistake made has probably been to feed apples as a substitute for more nutritious feed, for example, meal or hay, and not merely to replace the succulent part of the ration. Low in protein, they should be used with protein-rich feeds.

Apple pomace may be fed with satisfaction, but in limited quantities to older pigs, but pigs being fattened for market, in all experiments conducted, have made smaller gains when fed quantities of apples than when fed pomace meal alone.

So far as the 1920 census figures have been compiled, they indicate that about 55,000,000 of the people of the United States live in the cities and towns, while about 51,000,000 live in the country. According to these figures, the back-to-the-farm movement doesn't seem to be making much progress in the U. S.

The price of flour dropped sixty cents a barrel at Minneapolis on Monday.

Provincial W. C. T. U.

Twenty-fifth Annual Convention

The Provincial Convention of the Women's Christian Temperance Union, which is now in session here, is attended by upwards of forty delegates from various parts of Nova Scotia.

The first session convened on Thursday morning in the Baptist church. Three sessions were held yesterday and there will be two sessions to-day, with a public meeting this evening to be addressed by Mrs. Wright, the Dominion president.

Last night's meeting took the form of a welcome and was under the auspices of the local union and presided over by the president, Mrs. B. O. Davidson.

The program was an interesting one and included addresses of welcome by Mrs. Davidson, on behalf of the local union, Mayor Fitch, on behalf of the town, and Rev. Mr. Watts, on behalf of the churches. These were fittingly replied to by Mrs. McOndrum, of Halifax, Rev. Dr. MacDonald also spoke briefly and interestingly. A delightfully rendered vocal solo was given by Miss K. Prescott, a visitor in town.

Mrs. Powers, the provincial president, read the annual address. She referred to the organization of the Provincial Union at Yarmouth twenty-five years ago and traced the history of the organization and outlined a program of future work. A number of encouraging messages from members who were present at the first meeting were read, including letters from Mrs. Woodbury, of Halifax, the first president, and Mrs. Chesley, of Lunenburg, the first secretary.

The meeting closed with the singing of the doxology and the benediction by Rev. Mr. Watts.

FILMS OF VALLEY INDUSTRIES BEING MADE

It will be of special interest to all to know that photos have been taken, through the summer season of our various industries.

The photos will be labelled with descriptive material and presented to the public in moving pictures. They are being gathered by the C. P. Railway, D. A. Railway and Immigration Department of the N. S. Government to be used abroad (and also at home) in illustrating our varied industries and the attractions of our province.

The work undertaken will show our fruit industry from the bare tree-of-winter to the blooming period, spraying and cultivating, the fruit growing on the trees, trees in full fruitage, picking, packing, sorting, and shipping to market. Other industries will be shown in similar series such as growing potatoes, wheat and other grains, strawberries, etc., sheep raising, dairying, country homes, rustic and with modern improvements, and country life.

THE FOREST'S TRIBUTE TO THE NEWSPAPERS

1,000 Square Miles of Pulpwood Forest Denuded Annually to Supply Newspapers

The newspapers of the United States and Canada consume 2,100,000 tons of newsprint annually. Stated in this way, it probably conveys little information to you respecting the effect upon our forests. You will better appreciate the situation when I say that it represents the denudation of the mature trees on an area of 1,000 square miles of forest land each and every year. This will give you an idea of the enormous inroads that newsprint manufacture is making upon the forests of North America. James White, in address to the Vancouver Rotary Club.

ANOTHER FISHERY THREATENED

To afford the declining scallop fishery of Nova Scotia reasonable protection, an order in council has been passed, whereby no one shall fish for, take or catch scallops in the province of Nova Scotia, for use outside the said province.

The scallop is a bivalve mollusk, found along the Atlantic coast. The fishery has become severely depleted and in Lunenburg county, where the industry is mainly centred, the decline in the taking of scallops is having a serious effect. Scallops may still be taken, but only to supply the demand within the province of Nova Scotia.

The annual meeting of the congregation of the Wolfville Baptist Church will be held on Wednesday evening of next week.

Fire Prevention Day

Saturday, Oct. 9, has been set apart by the Governor-General as Fire Prevention Day. Conservation tells us that Canada's fire losses of last year, viz., \$23,500,000, or approximately \$2.90 per capita, was the highest per capita in the world. In Ontario alone, last year, 5,804 dwellings were damaged or destroyed, causing a loss of \$1,753,333. There were also 744 farm barns destroyed, at a loss of \$1,189,906, of which \$557,736, was uninsured. No wonder there is a scarcity of housing accommodation, when thousands of houses were burned up in a year's course.

Lightning damaged or destroyed 1,102 buildings in Ontario, involving a loss of \$506,885, of which \$212,778 was not covered by insurance. None of these farm buildings were equipped with lightning rods, whereas but two buildings protected by lightning rods were damaged, and these to the amount of \$22 only. Matches were again responsible for the largest number of known fires, 1,148 in Ontario originating therefrom. Electric irons are productive of many fires. From tests it has been found that fire will break out in from fifteen to ninety minutes when the electric iron is left in circuit on a table or ironing board, the time interval depending upon the surface material.

There is no reason in the world why Canada's fire loss should be of such proportions.

Greater care in making buildings fire-proof and in seeing that building laws are lived up to is necessary, and the general public need to be educated up to a greater care in the matter of fire.

NO INCREASE IN PRICE

Notwithstanding the enormous increase in the cost of production, over three times previous to war prices, that great weekly, the Family Herald and Weekly Star of Montreal, have decided to accept renewals and new subscriptions at the old rate of \$1.50 a year from all who remit by December 31, 1920. This should be well remembered by all.

The Family Herald has been vastly improved and is beyond doubt the greatest value in newspapers.

The Male Quartette of the Acadia Evangelistic Band will assist the pastor at all the services in the Cambridge-Waterville Baptist Circuit, on Sunday, Oct. 10th.

Nova Scotia's Apple Exports

Virtually Half a Million Barrels Will Go to United Kingdom Markets This Year

Nova Scotia will export approximately half a million barrels of apples to the markets of the United Kingdom this season. From August 28 to the end of September over 120,000 barrels have been shipped, which is about fifty per cent larger than for the same period of the average year. October promises to be a heavy month and the total is expected to surpass that of September.

It has been estimated that the total export of apples to the United Kingdom will be between 450,000 and 500,000. Before the war this Province exported the vast majority of its apple crop across the Atlantic, but during the latter years of the war an embargo was placed on fruit entering the United Kingdom, and for several seasons none were shipped. This embargo was lifted after the Armistice, and while some apples went across late that season, it was not until last year that the shipments were resumed to a large extent.

Before long Nova Scotia is expected to regain her pre-war apple trade on the markets of the British Isles.

In addition to the shipments to the United Kingdom many have been sent to the Newfoundland markets, the total being about 6,000 barrels.

Ten steamers left Halifax in September with apples for Manchester, Liverpool and Glasgow, carrying a total of 120,562 barrels.

Mail order firms in the United States have announced extensive price cuts in many lines. Sears, Roebuck and Co., and Montgomery, Ward and Co., Chicago, have reduced prices from 10 to 60 per cent. Sugar is among the articles that have been reduced in price, with a cut of from 5 to 10 per cent.

Apprehensions now coming in regard to the luxury taxes. Hon. R. W. Wigmore, with the two deputy heads of his joint department, is planning a tour of several towns and cities. It is expected that a trip through the Eastern Provinces will be arranged to start about the middle of October.

EDDIE POLO

The Hercules of The Screen

The World's Master Mystery Serial

"THE VANISHING DAGGER"

You know EDDIE POLO. That's your one big best reason why you simply can't afford to miss a single Eddie Polo serial. He's the man who has been thrilling people for years. First in the circus, then in western pictures and finally reaching his greatest triumph in serials. Now comes your chance to see him in a serial that eclipses everything he ever did. Produced by Polo himself as nobody else in the world could produce it. See "The Vanishing Dagger." It's a wonder.

Don't Miss The First Episode!

"ROAD TO DIVORCE"

Frequent Headaches A Danger Signal

The Victim Nearly Always Suffers From Weak Watery Blood

There are few ailments that cause more genuine misery than nervous or sick headaches. Only those who have endured the suffering sometimes for days at a stretch, can realize the agony of the victims. Noises increase the pain; food is unthought of, for it only adds to the distress. When the attack is on there is little to be done until it passes away. These headaches are nearly always a danger signal that too frequently pass unheeded. They are the symptoms of many maladies, such as anaemia, constipation, indigestion, etc., and when these are cured the headaches permanently disappear. Headaches are more often a sign of weak, watery blood than anything else, and, the most successful treatment, therefore, is a remedy that will rebuild the blood and make it rich and red. This can best be done through a fair course of Dr. Williams' Pink Pills, which has a special action on the blood, and through the blood on the nerves. In this way Dr. Williams' Pink Pills have been found invaluable in a wide range of diseases due to poor, watery blood such as anaemia, rheumatism, indigestion, after effects of influenza, neuralgia, etc. The effectiveness of this tonic treatment is illustrated in the following case: Mrs. Geo. Arn, R.R. No. 5, Simcoe, Ont., says:—"Some years ago my daughter, then a young girl of eleven, became very much run down and nervous. She was troubled greatly with sick headaches, and frequently with vomiting spells, and although we lived just across the road from the school, she was not able to attend. She was taking medicine all this time, but it did not seem to do her any good. I had often read of Dr. Williams' Pink Pills, and finally decided to give them to her. By the time she had taken two boxes she seemed much better, and before the fifth box was finished, she was again in the best of health and has always since enjoyed the best of health. I am satisfied it was Dr. Williams' Pink Pills that restored her, and I have since seen equally good results in other cases." You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

ALL HE NEEDS

Bumps: For the life of me I can't see how you can content yourself without a wife, Old Top.
Grumps: What do I want with a wife? I can cook myself, I've got an electric dish-washer, a vacuum-cleaner, and a talking machine.

TIT FOR TAT

An elderly lady, telling her age, remarked that she was born on the 23rd of April. Her husband, who was present, observed, "I always thought you were born on the 1st of April."
"People might well judge so," responded the lady, "in the choice I made of a husband."

In fact Vital Tablets will put you on your feet. Just go to your druggist and get a box. Price 50c or by mail. The Scobell Drug Co., Montreal.

OCTOBER "ROD AND GUN"

Teeming with interest to all who have heard the Red Gods calling, ROD AND GUN IN CANADA for October will especially appeal to followers of the trap-line. The leading story in this splendid issue of Canada's premier sportsmen's monthly is entitled, "Animickiwash Lake." Illustrated with six pages of photographs taken right on the Trap-Line by F. V. Williams, it will appeal to everyone who ever had dreams of capturing the many furbearers which go to make Canada the richest in wild life. George R. Belton tells in his own inimitable manner how he has been mistaken for several kinds of wild animals. His story will be read with interest. The usual contributors, Bonycastle Dale, Robert Page Lincoln, etc., need no introduction to the sportsmen of North America. In addition to the regular departments this month, M. U. Bates takes charge of the Trap-Line Department and will conduct it in the usual interesting manner. ROD AND GUN IN CANADA is published monthly by W. J. Taylor, Limited, Woodstock, Ont.

W. C. T. U. Notes.

Woman's Christian Temperance Union first organized in 1874.
AIM.—The protection of the home, the abolition of the liquor traffic and the triumph of Christ's Golden Rule in custom and in law.
Motto—For God and home and Native Land.
Badge—A knot of White Ribbon.
Watchword—Agitate, educate, organize.
Let us not therefore judge one another any more, but judge this rather, that no man put a stumbling block or an occasion to fall in his brother's way. *Rm. 14:31.*

TO THE W. C. T. UNION

Dear Sisters:—
The issues at stake in the coming Referendum on the question of the Inter-Provincial Liquor Trade lead us to feel

that as women, we have a common interest in a common cause, inasmuch as to all of us the home and the life and well-being of the child are the paramount issues in our national life.

The question to be voted upon is whether we wish to continue the shipment of Alcoholic Liquor for beverage purposes into the provinces which have voted to outlaw its sale within their borders, thus giving to the province a larger measure of autonomy in controlling the traffic than they have had heretofore.

But the real issue goes much deeper than that. We may as well recognize what the trade know full well, that we are in a fight to the finish and every victory won simply means a trench gained and one more stronghold of the enemy taken. This vote will also say to your own Government and to the world at large whether we wish to place further restrictions on the traffic, or whether we wish to re-instate it in the province.

This is the first time the women of the province have had a chance to vote upon a distinctly moral issue. How will we face the responsibility? No great victory is accomplished in these days without organization and we would urge our women members to take note of this.

Our women must rally their forces and stand firm. Let us not be afraid of criticism. A clever politician once said: "If you want to find the best apple tree, look for the one with the sticks and stones under it; boys never throw sticks and stones at a poor apple tree."

If you want to know who is our best W.C.T.U. worker. Just listen awhile and you will soon find out who the woman is that is being most abused for her temperance work, her social service work, etc. If you hear someone say: "Oh, Mrs. Blank is so nice, everyone loves her. She never

interferes with anyone. You will find out that although a fine woman she is not taking any particular stand and that is why she is escaping the sticks and stones.

In this coming campaign let us take the sticks and stones if necessary—we must fight if we would win.—W.C.T.U. Bulletin.

Dr. F. G. Fitzgerald Shows Conditions in Nova Scotia Should Be Improved

Dr. F. G. Fitzgerald, Professor of Hygiene at the University of Toronto, Director of the Connaught Laboratory, which supplies practically all the anti-toxins and serums used by the various Departments of Public Health throughout Canada, and honorary advisor in the Public Health Campaign of the Canadian Red Cross, disclosed lately a number of figures affecting conditions in Canada which make it appear that Nova Scotia and Halifax have a great deal to learn in the matter of public health service. Dr. Fitzgerald was a member of the Red Cross Health Caravan which recently toured the Maritime Provinces.

Quoting figures which show Nova Scotia as spending on public health a smaller proportion of her annual provincial revenue than any other province in the Dominion except Prince Edward Island, the Toronto Professor added that he thought the Red Cross Campaign just closed, would be followed by a marked increase in the interest taken by the general public in health matters.

"There is evidence of a thorough awakening in the rural districts," Dr. Fitzgerald said. "We have had crowded meetings even in the sparsely settled communities. The people are becoming aroused to the necessity for action in this matter."

"No More Sleepless Nights"—Bathe Internally.

Mr. J. B. Burrows, 271 West North Street, Decatur, Ill., writes Tyrrell's Hygienic Institute of New York as follows:

"I am still using the 'J.B.L.' Cascade once a week, and find it most efficient for keeping me in fine condition. It acts as a sedative for tired nerves and has been a great help for sleeplessness. I have frequently arisen from bed and used it in the middle of the night with satisfactory results."

The reason for this remarkable result is because the functions cannot work properly when there is accumulation of waste in the lower intestines.

The "J. B.L. Cascade," by the simple process of properly applying warm water, eliminates all this waste and causes the functions to work smoothly and properly.

Over half a million intelligent Canadians and Americans are now using the Cascade with similar results.

It is the invention of Charles A. Tyrrell, M.D., of New York, a noted specialist on internal bathing for 25 years.

It will be shown and explained to you by A. V. Rand, Wolfville Drug Store, who will be glad to give you an interesting booklet by Dr. Tyrrell called "Why Man of To-day is Only 50% Efficient." This booklet is free upon request. Ask for it to-day while you think of it.

"Isn't it a cute little thing?" said Mrs. Gushly to her husband as she held the baby up to him?

"Yes it is and doesn't it look like me? It's got some of my ways already. I'll wager that it'll grow up to be just like me. By the way, we haven't named it yet. What would you suggest?"

"Well, if you're anything of a prophet, I'd take chances right now on naming it Ananias."

Minard's Liniment For Dandruff.

Editorial Notes

Now that the time of short days and dark nights is upon us, Wolfville people should be considering the matter of more and better street lights. It would be for the betterment of business and the comfort and convenience of citizens and visitors to have Main street, at least, much better lighted during the coming winter. Just before the war a movement was on foot to provide a "white way" in Wolfville, and several citizens, among whom the late W. M. Black was prominent, undertook to bear a large amount of the expense.

When the war began this with many other contemplated projects was abandoned. The present seems a most opportune time for revival of the agitation, which we feel sure in proper hands could be made to produce results. We are all looking for a better lighting service in the not far distant future, and when the time comes when current is available the town should be in a position to enjoy all the advantages which it affords.

When the provincial elections were held a few weeks ago the two polling places in Ward 8 were located within a few yards of each other at the extreme east end of the ward. This necessitated that the people of White Rock, Greenwich and other sections should go a distance of from five to eight miles to record their vote. Had one of the polling booths been placed in the west end and one in the east this would have been unnecessary. There was no reason for this unnecessary travel as sufficient time had elapsed since the women had been given the franchise to have made such changes in the bounds of the districts as would have made possible the change in the location of the booths. A business enterprise would have provided for the changed conditions and there is no reason why our government should not be conducted on business lines. When the referendum vote is taken at the end of this month we understand the same conditions will obtain. People will be put to much unnecessary trouble at a busy time and the likelihood is that in consequence many voters will neglect to record their vote on this most important issue. With voters well paid for their day and driven gratis to the booths, only a small percentage of the registered vote was polled at the July election, and when voters have to lose their time and provide their own conveyance a large vote can hardly be expected. It is a great pity that public affairs should be bungled as they are.

Notification has been sent out from Ottawa that arrangements have been made appointing all branches of chartered banks throughout the country agents of the Inland Revenue Department for the purpose of selling excise stamps issued under the Special War Revenue Act 1915, and amendments thereto, receiving a discount of one per cent. for their services. It is considered that this regulation will be to the great convenience of the public and allow them to avoid the congestion of people going to the Inland Revenue department to buy stamps of all quantities.

Commenting on the fact that only 110 students entered provincial normal school, Dr. David Sloan, principal, says prevailing low pay here is sending prospective teachers west. He declares local school boards may as well make up their minds that school teachers must receive living wages.

Stamps will be used after Nov. 1, in the collection of the excise taxes imposed on sales and luxuries by the Budget legislation of the last session of the Dominion Parliament. From the luxury taxes, the Dominion derived a revenue of \$6,000,000 last month.

It is expected that the fuel control, which was in vogue during the critical days of the war, will again be put in operation. Each province would have its own commissioner, who will work in conjunction with the Federal Fuel Controller.

Six vacancies in the Senate are expected to be filled shortly. The vacancies are divided among the provinces as follows: Ontario 2; British Columbia 1; Alberta 1; Saskatchewan 1; Nova Scotia, 1.

NORTH GRAND PRE NOTES

Mr. Low is visiting his son, Mr. Harry Low, in Halifax.

Miss Carrie Allen, of Hansport, has been visiting at her old home here.

Mrs. Jehiel Davidson had a serious accident three weeks ago, breaking a rib. She is improving slowly.

Items of Local Interest

The post office clock is again striking the hours.

The Dominion W. C. T. U. Convention will be held at Windsor next week.

This is Carnival week in Halifax and a number of Wilfville people are visiting the city.

Apple picking is now in full swing and progressing favorably considering the scarcity of help.

Wolfville was visited by an aeroplane on Tuesday. We understand that it came from Halifax.

The pulpit of St. Andrew's church will be occupied on Sunday next at both services by Rev. Prof. Falconer, of the Presbyterian College, Halifax.

The first game of the 1920 world's baseball series between the Brooklyn Nationals and the Cleveland Americans, was played on Tuesday and resulted in a win for the latter team by the score of 3-1. Brooklyn won the second game on Wednesday by the score of 3 to 0.

The Yarmouth Daily Post, published by Mr. James Wallis for a number of years has ceased publication. These are trying times for all newspapers, and with the price of paper and other things which make up a newspaper still advancing, it will be a survival of the fittest.

Harvest Thanksgiving Services will be held in St. John's church next Sunday at 11 a.m. and 7 p.m. Rev. Prof. Kingston, of Kings College, will preach in the morning, the Rector in the evening. Special music at both services. There will be a celebration of the Holy Communion at 8 a.m.

For the first time Wolfville was in direct telephone communication with New York on Wednesday of this week when Mr. J. D. Sherwood carried on a short conversation with Mr. Maurice Low. Mr. Sherwood states that the voice at times was heard as plainly as if on the local exchange. We understand the cost of the line for the message was something over thirty dollars.

Wolfville friends will be interested to know that our popular townsman, A. J. Mason, has accepted a place in the cast of a musical comedy entitled "Buddies", which has been playing in New York for a solid year. The company finished its engagement in that city this week and next week starts on a tour of the big cities of the Middle West.

Reserve Friday evening, Oct. 29, 1920, that you may attend the Faculty Recital, to be given in College Hall. The following members of the Faculty of the Conservatory will take part; Mr. Frank Marsh, Jr., Pianist; Miss Florence Holt, Reader; Miss Pauline Nelson, Violinist; Miss Marie Underwood, Mezzo-Soprano. Thus three artists will be heard for the first time. Watch for Poster Announcement.

Wolfville is fortunate in having a man of the calibre of Mr. Chisholm in charge of its light and power system. At a very short notice on Wednesday evening when notice was received that the Gaspereau power was no longer available, he rejuvenated the old equipment and gave a very satisfactory service in face of great difficulties. The steam power is now in use and will probably continue for some time owing to lack of water in the Gaspereau. Mr. Chisholm deserves the thanks of the town for his good work.

"Acadia", a drama by Mrs. Mary Kinley Ingram, will be given in College Hall, on Friday, October eighth, at eight o'clock, under the direction of Miss Mae Churchill Deane. There will be tableaux arranged by Miss Deane, and a chorus of Acadia students directed by Mrs. Hanna R. Gregory. The orchestra, composed of teachers and students from the Seminary, will be directed by Miss Pauline Nelson. Mrs. Ingram is the Librarian of Acadia University; Miss Deane, Mrs. Gregory and Miss Nelson are Members of the Seminary staff. Admission, 35 cents, 50 cents, 75 cents. Tickets for sale at Rands' Drug Store.

Mr. Owen Bigelow, the eldest of the eight sons of Mr. and Mrs. John E. Bigelow, with Mrs. Bigelow, formerly Miss Mackenzie, of Moncton, has been spending a few days at Canning looking over the scenes of his youth. Mr. Bigelow who is connected with one of the large railway systems of the United States, has been located at Momana, Illinois, for some twenty-five years. Their three daughters were quite prominent in the ranks of women war workers, one of them spending some time in France. The only lack felt by the visitors outside of the sight of vanished faces, is time, one week being all business allows them to take. Tuesday they finished up sight seeing with a view of the Gaspereau Dam and Grand Pre Memorial Park as guests of C. H. Wright, and started for Chicago on Wednesday, having received and enjoyed much pleasure during their too brief stay.

A TIP TOP INVESTMENT Don't continue sending good money after bad—by buying poor roofing to patch and repatch your old roofs. Invest in PAROID A Fire Resisting Roof and obtain lasting satisfaction, durability and economy. Once Neponset Paroid Roofing is laid it forms an ideal roof, either on new buildings or over old shingles. It can be put on quickly without litter or fuss. Costs half the price of shingles and pays for itself by wearing for years. SOLD BY— L. W. SLEEP, Wolfville.

CULTIVATE THE HABIT OF SENDING IN NEWS

One of the things that ought to become a fixed habit in every home in Kings county is that of sending THE ACADIAN the news items that you may know of.

Every lodge, church or social organization should have some representative who will look promptly and carefully after its news reporting.

Write your items and send them in where possible. Or telephone them, but please don't ask that long lists of names be taken over telephone, as it not only requires much time, but usually errors occur in lists thus given.

Above all, be early. Never wait till the last minute to send an item that can be sent in early.

THE ACADIAN'S telephone number is 217. Fix it in your mind as it is easy to remember.

VISITOR FROM CANADA TELLS OF EVANGELINE

Mrs. Emma Ogden Declares Longfellow Did Not Write in Vain

Just before coming from Canada to California, Mrs. Emma Ogden, who is visiting her mother, Mrs. Ida Wilson, of El Segundo, gratified a desire from her childhood and visited the land of Acadia. Mrs. Ogden, who is a cultured, much traveled woman, of broad vision, had this desire born within her, when as a little child a friend gave her Longfellow's beautiful poem, "Evangeline". In speaking of the "Land of Evangeline", Mrs. Ogden said the thoughts that came to her were of a "people who had understood joy, sorrow, toil, who lived a peaceful life, true to themselves, to others and to God. They gradually faded, like the leaf, the

flower, in the land of their birth and Mother Nature has hid them away in her bosom." In a personal interview with John Frederick Herbin, the only living descendant of the exiled people now living in Grand Pre, and author of many books, among them, "History of Grand Pre", "The Heir of Grand Pre" and "The Marshlands", Mrs. Ogden asked: "And there was no real Evangeline?"

"Yes," he answered, reverently lifting his dark eyes heavenward, "there were many of them." In referring to the beauty of his birth place, Mr. Herbin gave an original answer: "Nature never intended for men to live in crowded cities".

After visiting the old town of Grand Pre where are located Longfellow's Memorial Park, Evangeline's Well, and the famous Willows where Evangeline's wedding feast was spread, Mrs. Ogden and her party journeyed to the Gaspereau

valley and other places of interest, but the thought she says she carried with her was that what had been sown in long and bitter anguish, in parting and exile today bore fruit in memory of the departed Acadians in rich farms, orchards and a people who enjoy all the pleasures of modern civilization, yet have learned the art of kindness and the lesson of brotherly love.

"Longfellow will not have lived in vain," said Mrs. Ogden. "If through 'Evangeline' he teaches us a safer, purer political power, above the grasping minds of men, and as a moral example, to a solution of the puzzle now trying the minds of men, and their souls likewise, points to a little village away down in Nova Scotia where 'Evangeline' was conceived.

The above is taken from the El Segundo (California) Herald and refers to a lady who was a recent visitor to Wolfville

and the sanctum of THE ACADIAN. It will be of interest to our readers.

IMPORTANT ANNIVERSARY

It is a year ago Friday, Sept. 23rd, the First Canadian Expeditionary Force, 33,000 strong, and then the greatest army of its kind that ever organized for foreign war, left the training camp at Valcartier and marched or rode to Quebec to embark on the great adventure. The work of embarking the great army was completed in three days and, after waiting for a battleship convoy from the royal navy, the fleet sailed from the Bay of Gaspé on Oct. 3, arriving at Devonport 11 days later. "Through the darkness and rain and mud of the night of September 23" says Lord Beaverbrook's account of the happening "the guns crawled down the sixteen miles of valley that brought them to Quebec at daylight, the men drenched, but happy in the knowledge that they were at last off to war. The weather was so bad that the infantry, instead of marching, were brought down in a long succession of heavy trains."

Saturday was the fifth anniversary of the Battle of Loos, in which a smoke screen was first used by the Canadians to conceal their action from the Germans, and to prevent the arrival of Hun reinforcements. Heavy machine gun and artillery fire was reinforced by the heavy smoke of burning wet straw all along the Canadian line, but particularly in front of the First Canadian Division, opposite La Douve Farm.

Little Girl: "Say, Mamma, ain't I made of dust?"
Mother: "Yes, dear."
Little Girl: "Well, why don't I get muddy when I drink?"

Ill-natured acquaintances of a certain militia officer assert that his sword was never drawn but once—and then in a raffle.

All the joys of heaven and all the torments of the other place lie within the same circumference of a wedding ring.

"YOU'LL LIKE THE FLAVOR"

Ten Years After

Ten years ago the first packages of KING COLE TEA were packed and put on the market. The time that has elapsed since then has been filled with hard work and with many difficult situations to be met and overcome. But withal, it has been a period of unquestionable, steady and persistent progress. KING COLE TEA has never looked back. Every year has brought its increase. Today its sale is ten times greater than the first year's business. This is the public's remarkable tribute to the worth of KING COLE TEA. It speaks for unusual service.

An Old Friend

ONCE more we are able to make the best use of Canada's famous Wheat. The removal of Government control now allows us to supply "high patent"

PURITY FLOUR

of the high standard of quality of pre-war days.

Once more, old friends of PURITY FLOUR will be able to produce the delicious bread and light, flaky pastry, which gave this famous brand its national reputation.

New friends will quickly appreciate the result of careful milling of the best part of Canada's finest wheat; in the material improvement in all their baking.

CAR FOR SALE!

Ford Touring Car in first-class condition, run part of two seasons. A bargain for a quick buyer. Apply to P. G. Bell St., Wolfville.

Why a Referendum?

Dominion and Provincial laws will dovetail together to make prohibition effective.

Importation is a Federal matter. But the Parliament of Canada says importation into this province will be stopped if a majority of the people vote to have it stopped. Importation is the source of supply for the Bootlegger and Dive keeper.

When the Medical Society and the Association of Medical Health Officers of Nova Scotia condemn the beverage use of liquor why not vote to conserve the health of the people?

The law of the Province forbids sale within the Province of intoxicating liquor for beverage purposes. The new Dominion law says liquor shall not be imported for beverage use, but may for sacramental, medical and scientific purposes.

FORM OF BALLOT. The ballot to be used is in form as follows:

VOTE

"YES"

OCT. 25

Shall the importation and the bringing of intoxicating liquors into the Province be forbidden? NO

Shall the importation and the bringing of intoxicating liquors into the Province be forbidden? YES X

Mark your ballot with an X after the word "YES" if you wish to have importation prohibited.
