Serious Fire at Bathurst

BATHURST, Oct. 31.—Damage estimated at between \$50,000 and \$75,000 was done and 50 men were thrown out of employment as a result of a

fire which early this morning destroyed the woodworking factory of the George Eddy Co., Ltd. here. The blaze was first seen about 12.30 o'clock and an hour later the building was practically destroyed.

The building was equipped with a sprinkler system but the main valve

was burned off early in the blaze and the system rendered inoperative. The men were working in the mill until 10.30 o'clock last night. It is believed that the fire started in the boiler room.

King Government Defeated

Rt. Hon. Arthur Meighen May be Called Upon to Form Cabinet

S. CLAY ADAMS HONORED BY FORDHAM, N. Y.

During the week of Oct. 19th-24th the Fordham Merchants Association, the Bronx, New York City held a Celebration, the object of which was to promote Fordham.

With no exception, these business men, these merchants, these shopkeepers, these bankers and others did more to promote their neighborhood than any other organization ever did for any other community in Greater Uptown New York.

S. Clay Adams of the Adams Wertheimer Company, Inc. son of the late Senator Michael and Mrs. Adams of Newcastle, N. B. played a most important part in the celebration as Clay, by which he is more familiarly known here by his friends, was Chairman of the celebration committee. The opening day, Oct. 19th, was celebrated by a mammoth automobile parade, followed by the formal opening of the Underpass of the Concourse. The second day was "Babies' Day," 3rd, "Merchants Day," 4th, "Beauties' Day," 5th, "Suburban Day" and 6th, "Fordham Day." Each day's events were a festivity and

Chairman Clay Adams and his co-workers on the celebration committee were congratulated on all sides for the smoothness and precision with which the schedule was carried out. Concluding the week long festival, tribute to S. Clay Adams, the general Chairman of the committee, that staged the celebration was held on Saturday evening, Oct. 24th, when he was tendered a supper by his fellow-workers at the Sarazen Restaurant, at Fordham road near Marion avenue. The supper was attended by 150 persons, the program including a list of speakers and a musical entertainment furnished through the courtesy of Chris Egan, manager of Keith's Fordham Theatre.

When the guests had assembled, a toast to Adams, "the man who put Fordham on the map," was proposed by Richard W. Lawrence, Bronx Republican leader.

In replying to the number of speakers who had expressed their regard for his efforts in connection with the celebration, Adams declared he had received the closest co-operation from members of the association, a circumstance, he said, which had rendered his task an agreeable one.

As the lights along Fordham and the Concourse died out at midnight," said Adams, "the greatest celebration in the history of Fordham ended."

Canada's general election held last Thursday, Oct. 29th, ended with Rt. Hon. Arthur Meighen, Conservative Leader as head of the largest group in the next House.

First returns gave indication of a landslide. In quick succession eight members of the Cabinet were under They were: Premier King himself; Hon. W. E. Foster, Secretary of State; Hon. Herbert Marler, Minister without portfolio; Hon. James Murlock, Minister of Labor; Hon. G. N. Jordan, Minister of Immigration; Hon. G. P. Graham, Minister of Railways; Hon. Vincent Massey, Minister without portfolio; Hon. T. A. Low, Minister of Trade and Commerce.

In the Maritime Provinces and in Ontario, Conservatives gained heavily. But the expected inroad into the Liberal stronghold of Quebec—on which Conservatives had counted—did not materialize. Hon. E. L. Patenaude, leader of the Independent Conservative movement in that province was himself defeated.

The election returns from the three prairie Provinces showed a definite swing from the Progressive ranks, which denotes the beginning of the end of a third party in Canadian politics.

In the Maritime Provinces the Conservatives carried 23 seats and the Liberals 6. The standing by provinces was P. E. I. 2 Cons. and 2 Liberals. Nova Scotia, 11 Cons. and 3 Liberals. New Brunswick, 10 Cons. and 1 Liberal.

Total—1.

The celebration was planned with a two-fold purpose in mind. Primarily, it was intended to commemorate the opening of the new \$500,000 traffic roadway. But it was also intended to bring to the notice of the thousands of new residents of this section, and of the West Bronx particularly, the unparalleled advantages of Fordham as a shopping center. Clay's many Newcastle friends are delighted to hear of his wonderful success in his adopted country and wish him many years of continued prosperity and happiness.

NOVA SCOTIA—14 SEATS.

Total—10.

The result of the election in N. B. was to return one former Liberal member, Mr. Robichaud, and five Conservatives, Dr. MacLaren, Mr. Jones, Mr. Doucet, Mr. Hanson and Mr. Grimmer. The Conservatives had six members in the last House, the other being Hon. Dr. J. B. M. Baxter, who resigned to lead the Opposition in New Brunswick in the provincial elections in August and who since has become Premier. There were four Liberal members from New Brunswick in the last Parliament, W. B. Snowball, of Northumberland, who died suddenly soon after he was selected as the nominee of the party in this section; Hon. Pius Michaud, who was defeated in Restigouche-Madawaska; Hon. A. S. Copp, who has since become a member of the Senate, and Mr. Robichaud. The eleventh member was T. W. Caldwell, who sat for Carleton-Victoria in the last Parliament as a Progressive, but who was defeated Thursday when he ran as an Independent-Liberal-Progressive.

Northumberland County spoke in no uncertain terms of her dissatisfaction of the King administration and registered her protest by giving Mr. C. E. Fish the Conservative candidate the handsome majority of over 1400. Mr. Fish's election turned a Liberal majority of 1421 into a Conservative majority of over 1400. The election throughout the County was featured by the activities of the workers on both sides, which was marked by general good feeling on the part of all. A heavy snow storm prevailed until 2 o'clock in the afternoon but the workers were not deterred. In the evening after the polls were closed, a large crowd gathered in front of the Conservative Committee rooms, where the election results were shown on a screen on the opposite side of the street. The victorious candidate, C. E. Fish and C. P. Hickey of Chatham addressed the gathering, both speakers receiving great ovations and an attentive hearing. Mr. Fish expressed his thanks for the hearty reception given him and thanked the electors for the overwhelming majority given him.

MARITIME CASE BASIS AGREED ON

The committee of the St. John Board of Trade which is studying the question of the readjustment of the economic status of the Maritime Provinces in the Dominion met last week at the Board of Trade and gave careful consideration to the material prepared by W. F. Burditt, chairman of the committee, and decided on the basis of their claim.

Mr. Burditt had made an exhaustive research into the history of the entry of these provinces into Confederation. After going over this material the committee decided that the basis of their claim for consideration at the hands of the Dominion should be the figures quoted by J. D. McKenna at Moncton when he produced evidence that, so far from these provinces being indebted to the rest of the Dominion, Canada was deeply in the debt of these provinces.

It was felt that the committee has a strong case and could prove that so far from going to the Parliament of Canada as a suppliant for alms when they asked for development of Maritime ports and an opportunity to trade on equal terms with manufacturers in Central Canada, they were merely asking the repayment of a just debt.

The committee have sent a request to Mr. McKenna for copies of his address at the Moncton meeting and will meet again soon to prepare their report for the Charlottetown conference, to be held November 4 and 5.

Head and Chest Colds Relieved In a New Way

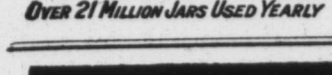

A Salve which Releases Medicated Vapors when Applied Over Throat and Chest.

Inhaled as a vapor and, at the same time absorbed through the skin like a liniment, Vicks VapoRub reaches immediately inflamed, congested air passages.

This is the modern direct treatment for all cold troubles that is proving so popular in Canada and the States where over 17 million jars are now used yearly.

Splendid for sore throat, tonsillitis, bronchitis, croup, head and chest colds, catarrh, asthma or hay fever.

Just rub Vicks over throat and chest and inhale the medicated vapors. It quickly loosens up a cold.

Mix Mustard this way

Germicides May Replace Knife

PHILADELPHIA, Pa., Oct. 27—A movement that may result in the abolition of the use of the knife in all minor and some major operations was started at today's session of the fifteenth annual congress of the American College of Surgeons.

The board of regents of the college decided to inaugurate at the centennial of the birth of Lord Lister, originator of antiseptic and germicidal surgery next April, a campaign of research and propaganda for the development and more universal use of those germicides which attack diseased cells in the body without destroying healthy tissues. The board resolved that the use of such germicides instead of the knife had been amply justified, and also that the profession should know more about the new technique.

If a man had an internal abscess, speakers said, the only treatment had been the knife. It was pointed out that a germicide had been discovered which would destroy the diseased cells and leave the living tissue unharmed.

Dr. Floyd T. Romberger, of Lafayette, Ind., speaking at a joint session of the eastern society and mid-western society of anaesthetists, said that patients who object to administration of an anaesthetic are moved by an unfounded fear.

"The proportion of deaths among persons taking ether," he said, "is one to every 7,705."

Canadian Apples For The Old Country

The crop of Canadian apples this year is better than ever, and what could be a more delightful remembrance from this side to our friends across the seas than a box of hand-picked and hand-packed Canadian apples. Your grocer can fill such an order and the Canadian National Express will transport and deliver, by quick service, to any station in Great Britain or Ireland, from Montreal or Quebec up to November 15th and from Saint John, N. B., and Halifax thereafter, at the rate of \$3.00 per standard box of apples not exceeding one cubic foot eight inches in measurement or fifty pounds in weight. Rate includes refrigeration on steamships. Consult any Canadian National Express Agent as to

THE CANADIAN RED CROSS SOCIETY

The Canadian Red Cross St. John, N. B. Oct. 15, 1925

To the Members of Newcastle Red Cross Society. Dear Members:

First of all I want to tell you that this month we are sending out our Annual Report Forms. For all Annual Meetings as you know are in the autumn. Will you kindly fill them out by December 1st. and return to this office for from them we have to make up all reports that go to Head Office. Our Delegate Mrs. McDonald after her visit to Central Council has March pointed out that it was most important that we send in a report of all money raised. For the Provinces doing the most themselves are given the most consideration. So please do not let your modesty interfere with a full report and if clothing and food are given for relief, please credit yourselves with the money value.

We are now completely out of sleeveless sweaters, the weather is coming on and our men in the Hospitals will need them very soon. Will some of the Branches please offer to make them. One of our Members in the Saint John Branch has 41 sweaters to her credit in the last two years.

Another thing we need are bandages. We will send the cotton strips to the Branches cut in the right length and will the Branches please roll them as tightly as possible over a lead pencil and fasten with a pin.

It is too early yet to hear of our Campaign but three of our Branches have had enthusiastic Annual Meetings and all feel they can raise their voluntary objective. Such delightful letters have come from the G. W. V. A. Women's Institute, and I. O. D. E. offering their help for our sick soldiers and one Branch of girl guides in the north of the Province has offered to give a sale and tea and exhibit some of the soldier's work.

The October number of the World's Health is most interesting with its map of the chain of Red Cross Societies, and would be nice to pass around at the meeting, showing how we are linked up with the other fifty nations in our great Peace Policy. The article by Miss Jean Browne head of the Junior Red Cross in Canada, is also splendid and will the members receiving the World's Health please lend their copy to some of the teachers who I am sure would be interested in reading it.

Our meeting as usual will take place the second Friday in each month at 4 P. M. and if any of the members are planning a trip to town we would be glad to have them plan it for that day. Every member of every Branch is welcome to come to the monthly meetings.

A splendid set of slides and an excellent lecture, are at the Depot, on the International aspect of the Red Cross throughout the World, loaned us by Head Office and if the Branches would like to have it shown Mrs. Lawrence our Organizer will be glad to do so. A silver collection might be taken up and refreshments sold to augment the funds of the Branch having the lecture.

Again I ask would the Branches please watch out for opportunities for other Branches in their surrounding Country. There must be lots of places in the Province that would be glad to have an established Red Cross Branch and glad to have the opportunity of assisting.

We are having Red Cross Collection Boxes made and we thought that the Branches could help us distribute them through the Province. They are to be kept in the homes for a year and then to be handed to the Secretary to forward to us. In that way we thought that people who were too busy and too far away to take an active part in the Branches

could assist.

Another thing that we would like to see carried out all over the Province is the distribution of the Canadian Mother's Books. This has been done in Saint John and in the last year, 1600 Mother's Books have been given out. This is the method: When a Branch hears of a birth in the Community a post card is sent them (we can send a sample on request) congratulating them on the arrival of their little one and stating that their name has been handed to Ottawa for a Mother's Book. Ottawa supplies forms to send these requests post free and will send the Mother's books direct. The only expense to us is the first printed post cards.

Sincerely yours, Ethel Hazen Jarvis Secretary N. B. Division Red Cross

STORM WRECKS HAVOC IN Nfld. FISHING FLEET

St. Johns, Nfld., Oct. 27—Two sailing vessels were added today to the list of wrecks strewn along the wild coast of Newfoundland by the tempest that raged over the North Atlantic Saturday and Sunday and unofficial reports today chronicled the loss at sea of the three masted schooner Nancy Lee, Labrador to Seville, with a cargo of fish, presumably with all on board.

Further details of shipping disasters were available today with more complete restoration of lines of communication blown down in the storm. It was reported that the coastal schooner Utowana had become a total wreck at Tilt Cove, with a cargo of fish, and that another fish carrier, the schooner Gosdola, bound for Halifax, had run ashore at Bay St. George, and likely to be a total wreck. The Nancy Lee, reported lost at sea on voyage to Spain, was 150 tons register. Details were impossible to obtain tonight.

The schooner Creaser from Sydney, N. S., with coal, arrived at St. Jacques with deckload washed away, her canvas torn to ribbons and the hull strained and leaking.

Increase Shown For September Month

An increase of 7,435 tons in the production of coke in Canada is shown for the month of September compared with August. The output amounted to 2,023,322 tons against 95,357 tons in the preceding month.

The gain according to a report just issued by the Dominion Bureau of Statistics, was largely due to the increased production in Nova Scotia and marked a further recovery from the strike of the coal mines in that province.

Market For Potatoes Has Been Filled

The potato market is reported by the trade to be pretty well filled at the present time and a lull in demand and the upward trend of prices is expected. The market will have to be depleted before the demand will pick up. The potato situation this autumn caused a general feeling in both Canada and the United States that prices would go up on account of retail dealers all over the two countries bought early in the season just about all the potatoes they could store. In Fredericton there is one resident with one hundred barrels in the cellar of his dwelling King street, which he is holding for higher price. Purchases like that multiplied all over the country caused an early demand for potatoes which caused a sharp advance in price, but as that demand has been met there will be a lull until something else occurs to agitate the market.

The Cuban market is reported steady with New Brunswick shippers intending to load two steamers a week at Saint John for Havana. The State of Maine is not bothering with the Cuban market as the price at Boston and other American points is too attractive to make it worth while to consider Havana. The digging of the New Brunswick

potato crop has gone on steadily whenever fine weather occurred. Several good days last week made a great difference in the potato country. The loss of the late crop is not expected to be as great as was anticipated.

Pay Off Debt By Eating Fish

If Canadians would eat four times as much fish as they do now, Canada's national debt would be wiped out in several years, for the annual income from fisheries would reach \$200,000,000 according to J. A. Pauhus, former president of the Canadian Fisheries Association and founder of "Canadian National Fish Day."

To banish that everlasting cough you must treat the interior of the bronchials where the irritation really is. Peps do this in a novel and most effective way. When dissolved in the mouth a Peps tablet gives off potent soothing and healing fumes which are breathed through the tender air-passages deep into chest and lungs.

Peps owe their unparalleled success in Coughs, Colds, Sore Throat, Bronchitis etc, to their swift direct action. Druggist mixtures swallowed into the stomach never touch the real trouble.

Quickly Yields To PEPS

Silence That Is Not Golden

The merchant, who fails to "speak up" lets a lot of golden sales slip past his store. This lost business goes either to his competitor down street or, by mail order route to the big city stores.

People are often surprised to find that the goods they bought "unsight unseen" from a catalogue can be seen and examined in the local store!

Tell your buying public what you have—ADVERTISING in "The Union Advocate" will invite the whole community to your store. And—

Most Folks Shop Where They Are Invited to Shop

Women Know How to Smuggle

Dover, Oct. 29.—Women are much keener about smuggling silk into England than they were before the passage of the recent tariff. A gown which costs \$50 in Paris now carries about \$35 in English duty. The same ratio prevails for lingerie and silk stockings, which can be had at a low price in France because of the exchange situation.

Laces and perfumes were the chief articles that English women formerly tried to smuggle from France, but silk has leaped to the fore.

EGG CONTEST ENDED

The fifth New Brunswick egg laying contest which has been going on at the Experimental station here since last November closed last week. The birds have been shipped home and these pens are now being put in order for the next contests which begins on Sunday next. Mr. A. T. Reed of Rollingdam, Charlotte Co., is the winner of the contest with Mr. Morris M. C. Steven of Hoyt Station a good second.

Pains in the Back Disappear when Kidneys are Regulated with Dr. Chases Kidney Liver K & L Pills

Little Chance For Fisherman Cup Race

GLOUCESTER, Oct. 27.—As a result of a letter received from the officials of the Canadian race committee, today there is every reason to believe that there will be no international fishermen's race this year. This was the opinion of Wilmot A. Reed, secretary of the American race committee, after reading the letter.

The Canadian race committee in the letter stated that it would be impossible to pick out one vessel to compete for the international cup, because there are at least four vessels which would have to be considered, and for the reasons mentioned and the fact that the season is so far advanced, they do not see how it is possible to do anything more this year, and look forward to having a complete series next year.

The owners of the Columbia, the American vessel, now in Gloucester, have not given up hope of having a race this year, however, and word has been sent to Halifax committee to the effect that the Columbia will be dispatched to Halifax and will compete against the combined Canadian fleet, and inquiry made as to what will be allowed in the way of expenses for the crew, it being understood that the crew of the Columbia has everything ready, expecting that there would be a race.

At first the owners of the Columbia refused to sail in an elimination race, but finally they decided that they would sail on any terms, as their crew was in readiness.

TWO OR THREE WEEKS OF GOOD WEATHER

WINNIPEG, Oct. 19.—According to the Canadian Pacific Railway crop report, unfavorable weather again prevailed throughout the West during the past week, with the result that little further threshing has been done in view of the lateness of the season, farmers in districts where there is much of this work still to do are becoming anxious and are speculating somewhat whether they will be able to fill up their work before winter sets in. Two or three weeks of good weather are needed to permit threshing being brought to a finish. One redeeming feature of the unusually wet fall is that the ground is thoroughly soaked and a good reserve of moisture has accumulated. Pastures are good and livestock doing well. The run of cattle last week on the local market showed considerable increase over the previous period, and cattle prices generally speaking, were about twenty-five cents lower.

Manitoba weather during the week or the most part was unfavorable and no threshing was accomplished. Some farmers, however, were enabled to do fall plowing and this work is generally well advanced, there being approximately fifty to sixty per cent of the intended acreage prepared. While on an average throughout the province about seventy-five to eighty per cent of threshing is done, there are individual localities in which very little has been accomplished. In the Deloraine District a correspondent writes: "The season is getting quite anxious, and reasonably so."

A good many farmers in this district have not even a bushel of grain threshed, and those who have threshing machines report anywhere from ten to twenty days' threshing yet to do. As stated, however, these districts are few and scattered, and a few days would clean up the balance of threshing. Livestock is in a first class shape as pastures have been good and there is ample supply of winter feed in sight. In Saskatchewan much of the same weather conditions obtained in this province as in Manitoba, with the result that work has again been tied up practically all week, with the exception of some fall plowing. Seventy-five to eighty per cent of threshing has been done. The grain does not appear to have been seriously injured by the continued weather, but the expense of holding crews has been heavy, and anxiety is being felt as to whether work will be done before winter sets in. Roads generally are in bad condition with the result that very little hauling is being done. There are indications that a larger number of cattle will be fed this winter judging by the inquiries for feeding, stock and there is generally a large quantity of feed in store.

In Alberta, the weather was still very unsettled during the past week. Threshing started on Monday over northern sections, but was stopped by rain on Wednesday. Operations resumed again on Saturday last. No threshing has been done south of Lacombe for two or three weeks, and snow and rain over most of the south again on Friday and Saturday will further delay work.

The grain is growing in stock, especially in short grain, and where poorly stocked. In some cases near Calgary the damage from this source and from reduction in grade estimated at from thirty to forty per cent. From Wetaskiwin north the country is in good shape and seventy-five per cent of threshing has been done. The whole crop in the central portion of the province will suffer some damage by bleaching. A matter that is causing some anxiety is the fact that large numbers of harvesters have left the prairies and when work

NERVOUS BREAK-DOWN

Pains in Back and Legs Relieved by Lydia E. Pinkham's Vegetable Compound

Ford, Ontario.—"I had a nervous break-down, as it is called, with severe pains in my back and legs, and with fainting spells which left me very weak. I was nervous and could not sleep nor eat as I should and spent much time in bed. I was in this state, more or less, for over two years before Lydia E. Pinkham's Vegetable Compound was recommended to me by my neighbor. Before I had taken five doses I was sitting up in bed, and when the first bottle was taken I was out of bed and able to walk around the house. During my sickness I had been obliged to get some one to look after my home for me, but thanks to the Vegetable Compound I am now able to look after it myself. I have taken Lydia E. Pinkham's Blood Purifier in turn with the Vegetable Compound, and I certainly recommend these medicines to any one who is not enjoying good health. I am quite willing for you to use these facts as a testimonial." Mrs. J. STEPHENSON, 130 Joss, Janisse Avenue, Ford, Ontario.

Nervousness, irritability, painful times, run-down feelings and weakness are symptoms to be noted. Women suffering from these troubles, which they so often have, should give Lydia E. Pinkham's Vegetable Compound a fair trial. All druggists sell this medicine.

Recommendations there will likely be a shorthorshage. Cattle is doing well on good pastures. Horse markets are very quiet, but sheep and hogs are bringing profitable prices.

Edmonton, Dunvegan and British Columbia railway, and in the Spirit River district threshing is about completed. There is a little stack threshing still to do. Other points vary in amount of threshing done from twenty-five to fifty-five per cent. What is surprisingly good considering what it has been through, part of it is grading No. 2, probably the biggest portion is No. 3. The oat crop on the whole is on the light side, and oats, particularly seed oats, are going to be scarce in most districts. The crop of apples in the Kelowna district of British Columbia is about twenty per cent heavier than was estimated earlier in the summer and will be also about equal, to last year, and there will likely be at least sixty cars more of onions this year.

Penticton has one of the best crops of apples it ever had and the quality is good. It is expected that this district will ship one hundred to one hundred and twenty cars more than last year. Grand Forks has a poor apple crop. Farmers are busy putting up ensilage, mostly sunflowers and corn, of which there are heavy crops. On Vancouver Island and adjacent islands the fruit crop on the whole has been good. Apples are plentiful and of good quality. The grain has all been secured and threshed, yielding well and grading

GOOD LUCK IN BLACK CATS.

There is no good luck portent more generally believed in than that connected with black cats. If one enters the house it must not be driven a way. If we meet one in the street, the omen is good, and if it should come and rub itself against us, our luck is right in. Promptly we stop and stroke it—to make quite certain.

If this is your custom, do you know that you are propitiating the Evil One? Your ancestors in the Middle Ages hated black cats. They regarded them as being inhabited by Satan himself, or, at any rate, by one of his evil spirits. So when they stroke a black cat it was not going to bring good luck but to avert ill-luck. By pleasing the cat they turned the devil from his wicked purpose. If you condemn the notion as silly and superstitious, why do you continue it?

ROBBED BY AUTO BANDITS IN A SNOW STORM

In a daring holdup in Chicago's financial district three Federal Reserve Bank messengers, were robbed of an express package and two small sacks of registered mail by three men who escaped with others in two automobiles.

The robbery took place during a snowstorm of almost blizzard proportions. James B. McDougal, Governor of the Bank, said it was impossible to identify the nature of the shipments to the bank or the extent of the loss pending checks.

The messengers were returning to the bank with the pouches in a hand cart when they were stopped two blocks from the bank. Threatening them with pistols and a sawed off shot gun, the robbers compelled the bank employees to raise their hands while they tossed the sacks into one of the waiting automobiles and took the express packages. They leaped back into the automobile and sped away.

George Kaslohm, a taxicab driver, half a block away, saw the robbery, and notified the police. Hundreds of detectives armed with riot guns searched for the two cars without results.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities, and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, it is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. M. Johnson, 24 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Baby's Own Tablets an Excellent Remedy

For Any of the Many Minor Ailments of Infants and Young Children.

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject but she can do much to lessen their severity, and to make baby's battle for health early won.

Nine-tenths of the minor ailments which afflict babyhood and childhood are caused by some derangement of the stomach and bowels. Regulate the stomach and bowels, and these troubles will disappear. To do this nothing can equal Baby's Own Tablets. They are a mild but thorough laxative which through their action on the stomach and bowels never fail to banish constipation and indigestion; colds and simple fevers; expel worms and make the dreaded teething time easy.

YOUR SUBSCRIPTION

The date of the expiration of your subscription appears on the colored label on your paper. For instance, Aug. 22, means that subscription terminated August, 1922. Look at your label and see if you are in arrears. If you are, we would appreciate a remittance.

Stiffness

It is astonishing how quickly Minard's Liniment relieves stiffness and lameness.

Gives Great Relief

Mrs. A. R. Calver, 25 Park Ave., Toronto writes: "My husband has had a severe attack of stiffness in his back, and I have frequently always with great relief used Minard's Liniment. I have used it for rheumatism and for all the other ailments mentioned in the advertisement."

Mrs. Fred Johnson, Box 715, Toronto, Ont.—"I suffered very much with neuralgia in my face last winter, we advised to try Minard's Liniment, and it relieved me immediately after first application. I received no more of it, and it has entirely gone. This winter I can go out without tying up my face and give the credit to Minard's Liniment. I have told several people about Minard's, and others are using it."

REV. DR. QUIGLEY ACCEPTS CALL

In the Presbyterian Church, Campbellton, on Sunday Oct. 25th, announcement was made that Rev. Dr. Quigley, of Hopewell, N. S., had accepted the call to the pastorate of that Church which was unanimously tendered him in August last. Rev. Dr. Quigley arrived in Campbellton on Friday evening of last week, and occupied the pulpit at both services Sunday.

The prayer meeting last week had been postponed until Friday evening owing to Rev. Dr. R. M. Stevenson, F. R. G. S., who had been attending to the spiritual needs of the congregation, for the month of October, having been called to Montreal on Monday. Dr. Stevenson returned from Montreal on Friday morning's Limited, and conducted the prayer meeting in the evening. His subject was "Was Christ in the Heart of the Earth for Three Days and Three Nights?" Dr. Stevenson has been having good congregations at all his services. Dr. Stephenson is not only a foremost divine but a noted lecturer. He has been engaged in missionary work in connection with the Presbyterian Church for years past and has travelled around the world twice, and his discourses always prove interesting.

In Rev. Dr. Quigley the Presbyterians have another eminent divine, and his acceptance of the call tendered him, assures the Presbyterians of this district, able and interesting sermons.

Perhaps you are using good tea. We think "Red Rose" extra good. Won't you try it?

RED ROSE TEA "is good tea"

The same good tea for 30 years.

FOR Neuralgia

BAYER

ASPIRIN

Proved safe by millions and prescribed by physicians for Neuralgia, Colds, Neuritis, Lumbago, Headache, Pain, Toothache, Rheumatism.

DOES NOT AFFECT THE HEART

Safe—Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark registered in Canada of Bayer Manufacture of Monopropionic-acid-ester of Salicylic-acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

MERCURY GOLD FAILS IN TEST

The age-long dream of the alchemists of producing gold artificially is still a dream. The discovery of Professor Adolph Miethe, of the Technical College of Berlin, of transmuting mercury into gold, announced early in 1924 and which at that time attracted world-wide attention, has failed to stand the test of verification.

This is the conclusion reached after extensive experimentation by Professor H. H. Sheldon, head of the Department of physics of New York University, assisted by Roger S. Etey an instructor at the same institution and an experienced physicist and research investigator. The experiments were conducted under the auspices of the "Scientific American," which made announcement of the results from its offices in the Woolworth Building, yesterday.

Prof. Sheldon's discovery consisted in obtaining gold from mercury—the familiar liquid quicksilver—by the introduction of electrical energy, according to Dr. Miethe, a small portion of a quantity of pure mercury exposed for several hours to the action of an intense electric arc inside a vessel of quartz was transmuted by him into gold. He came upon this discovery when engaged in researches into the action of ultra violet rays.

To both scientists and laymen it was obvious that if this remarkable experiment of Professor Miethe was true the scientific revolution threatening the gold standard of the world, Professor Miethe had the means that his discovery was commercially practicable, but it was apparent that there might be such a possibility of his process as to constitute a real danger to the present monetary basis of the world.

It was with the purpose of determining the exact value of Professor Miethe's alleged discovery that "Scientific American" undertook to finance the investigation conducted by Professor Sheldon and Mr. Etey. Two fine physicists were mistaken and that gold obtained by them was merely by any known process.

U. S. Airman Eclipsed All Speed Records

Baltimore, Md., October 26—Flying his seaplane with rare skill at a speed never before attained in these machines, Lieut. James H. Doolittle of the United States army, flashed first over the finish line in the Schneider Maritime Cup race this afternoon and gained another leg on the trophy for the United States. His speed for the 217-mile course was 232.57 miles an hour, which is 55.19 miles an hour faster than this race was ever flown before. It is 43 miles an hour faster than the time made unofficially over this course last year.

Doolittle was never pressed hard. The other two American seaplanes of the same type were making only 220 miles an hour when they were forced out by engine trouble, and the only British entry, the Gloster-Napier, flown by Captain Hubert Broad, finished second with a speed of 199.11 miles an hour. The Italian entry, a Macchi-Curtiss monoplane, flown by Lieut. Giovanni de Briganti, made 164.44 miles an hour and was still flying long after the American and British planes had finished. One more victory by America will win the cup permanently for this country, although six races had been flown before the United States entered the contest. The last two victories have been American.

The flying of Doolittle was masterly. He banked so sharply on his corners and held his plane so cleverly on its side until he had regained speed that he lost only five miles an hour of the turns and out the corners so closely that experts estimated he flew fifteen miles less than did the other planes. Their turns were very wide, adding materially to the distance they had to fly and wasting some of their precious supply of gas. For racing planes do not carry an ounce more fuel than necessary. When Doolittle banked around the home pylons, he held his plane in so tightly that he passed over the heads of those on the judges' stand so close to the wind from his propeller that they could not have been more than 30 feet above them, and the black, shining, whirlwind crashed by with a roar that was terrifying.

Just how fast this plane would travel over a short, straight-away course the pilots refuse to predict, but Doolittle beat by nearly five miles an hour the time made by the British super-marine Napier over a 200-kilometre course. The super-marine was the ship that crashed here Friday, a ship in which England hoped to win the race and which her held upon the cap. She made 228 miles an hour over the short course, which is 4.51 less than the winner's speed to lay. It is probable, if the weather is favorable tomorrow, that flights will be made over a three-kilometre course, and Doolittle today broke every seaplane record from 100 to 300 kilometres.

Why Rheumatism Often Comes Back

The Usual Treatment Does Not Reach the Root of the Trouble.

Most treatments for rheumatism do no more than aim to keep down the poison in the blood and enable nature to overcome that particular attack. Then when the system becomes run-down from any cause the disease again gets the upper hand and it all has to be done over.

Sufferers from rheumatism who have found their condition unrelieved or actually growing worse while using other remedies, would do well to try Dr. Williams' Pink Pills. The tonic treatment with this medicine has proved in thousands of cases that it builds up the blood to a point that enables it to cast out the rheumatic poisons through the regular channels, the bowels, kidneys and the skin. When this is done rheumatism is banished, and as long as the blood is kept pure and rich the patient will be immune from attack. This is fully proved by the case of Mr. Samuel Zinck, Upper Blandford, N. S., who says:—"For a long time I was a great sufferer from rheumatism which settled in my hip and down my leg to the knee. At times the pain was so great that I could not walk. I tried liniments and medicines but without getting more than mere temporary relief. Then one day a friend called who said that he had been afflicted with trouble which was banished by Dr. Williams' Pink Pills, and urged me to try them. I did as advised and after using a few boxes there was no doubt they were helping me. Not only was the rheumatism disappearing, but my general health was improving. I continued the pills until I had taken about a dozen boxes when every trace of the trouble had disappeared, and I have not felt a tinge of it since. I may add that my wife used these pills for a run-down condition with equally good results."

You can get these Pills from any medicine dealer or by mail at 50c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Increase in Catch of Fish

Fish, valued at \$3,724,132, and weighing 153,604,500 pounds, were landed by Canadian fishermen in the Atlantic and Pacific coasts of the Dominion, during the month of September, according to a report issued by the Department of Marine and Fisheries. The month's catch as compared with 44,781,000 pounds, valued at \$334,113 over September of last year. Increased catches were recorded in cod, pollock, herring, pilchard, and salmon.

On the Atlantic coast, the total quantity of cod, haddock, lake and pollock landed was 49,175,100 pounds compared with 23,524,000 pounds in the same period of 1924. The catch of cod shows a large increase of 19,998,000 pounds, the quantity taken being 32,973,400 pounds. This increase is accounted for mainly by the success of the Lunenburg fishing fleet.

The catch of pollock was more than double that of September, 1924, there being 1,375,000 pounds taken.

There were 3,775,500 pounds of herring taken compared with 6,941,000 pounds in the preceding September.

Salmon were taken in smaller quantities, owing to the American market being well stocked. Only 672,500 pounds were taken and the greatest part was picked. In September, 1925, there were 1,520,200 pounds caught.

The catch of pilchard was 34,647 barrels compared with 24,820 barrels in the same period last year. There were 221,700 pounds of lake trout taken during the month from which 409,100 pounds were consumed fresh, and the balance canned, making 2,213 cases. In the preceding

September the catch was 1,138,000 pounds. The total catch of lobster since the commencement of the lobster fishing season was 33,425,400 pounds. In the same period in the preceding season, the catch was 25,280,500 pounds.

There were 1,392 barrels of scallops taken compared with 393 in the previous September.

PRINTING

Until the discovery of printing from movable blocks, the dissemination of knowledge was a slow, laborious and haphazard matter.

It was possible for a country or coterie of one kind or another to practically possess the monopoly of learning and culture. When the thoughts of men found a vehicle for their conveyance that was at once cheap and effective, civilization burst its bonds and began to spread in all directions.

The knowledge of nearly all those things we call good or advantageous for a nation is acquired through the medium of the printed word.

The paper industry has had a large part in the spread of learning improvements in methods resulting in a better, less expensive product have made it possible for all men everywhere to have access to the wisdom of the ancients and to keep informed on current affairs.

FOOT BALL

A very interesting game of football was played on Wednesday afternoon in Chatham between the boys of St. Thomas and Harkins High School. The result of the game was 3-3, showing that the teams were well matched. The line-up was as follows:

- "FULLBACKS"
 - Newcastle: J. Brander
 - Chatham: E. Thibodeau
- "HALVES"
 - F. Dugas
 - E. Mahoney (Cap't)
 - F. Brett
 - W. Walf
 - M. McKenna
 - J. Stoharty
 - C. Keating
 - B. Sproul
- "FORWARDS"
 - W. Hierlihy
 - E. Arseneau
 - J. Morell
 - J. Copp
 - B. Amos
 - J. Morrissey
 - J. Bowling
 - P. Richards

"Wally" Walling of Chatham acted as referee, much to the satisfaction of both teams. The touch for Chatham was made by "Hickey" and Cecil Murray made a touch for Newcastle. The manager of the Newcastle football team takes this opportunity to thank Rev. L. H. McLean, Mr. Harold Ritchie, Mr. Sproul, Mr. Ashton and Mr. Dinan for kindly lending their cars to take the boys to Chatham.

Owing to the heavy snow-storm which fell on Friday last, the return game between Chatham and Newcastle which was to be played on Saturday has been postponed.

MALLOW FEN AMUSEMENTS

Halloween amusements were enjoyed by the pupils of Harkins High School when they held a "Masquerade Party" in the Assembly Hall on Monday evening at 8 o'clock. Games and dancing were the chief amusements and were enjoyed by all. Lunch was served at 10.30 by the Entertainment Committee. The general supervision of the Masquerade was given by Miss MacKay and Miss James. Stables and Miss Welford-Crocker acted as chaperones. Prizes given for the most original costume were won by Katherine Stables and Eusebe Hutch, these prizes were accompanied by fortunes which added to the enjoyment of the evening.

WHERE THE GOOD GOODS COME FROM

To Demand Liquor Law Enforcement

Chicago, Ill., Oct. 29—Determined to formulate a programme of law enforcement which shall be as decisive as the Anti-Saloon League programme, which resulted in the adoption of the Eighteenth Amendment, officers of the league have issued invitations to their twenty-second national convention to be held in this city next week.

With Chicago, as the convention city, it is pointed out in the official announcement, a tremendous amount of interest should be added to the coming assemblage. Chicago, formerly one of the chief wet strongholds, is now one of the most spectacular battle grounds in the fight to uphold the Eighteenth Amendment. Mayor Lever's firm stand for law enforcement has challenged the interest of America, while the relentless drive made by District Attorney Olson against bootleggers and grafters has likewise claimed national attention. At the coming convention there will be addresses by officials representing various departments of the Government concerned with prohibition. Senator Berah of Idaho, and other members of the national law-making body will speak of enforcement legislation. Commander F. C. Bihard, head of the United States Coast Guard Service, will tell of adventures in the fight with rum-runners at sea. Lincoln C. Andrews, the Federal prohibition director, and others high in the prohibition department will give interesting and important details relative to the actual work of prohibition enforcement. Governors, district attorneys, local prosecutors and other officials will tell of their experiences. In addition to the practical work of peddling moonshine joints and getting boot-

leggers behind the bars, more general and fundamental phases of the problem will be covered by authoritative speakers. University presidents, celebrated newspaper editors and famous orators from many other fields will be on the programme.

On the opening night Bishop Thos. Nicholson, president of the Anti-Saloon League of America, will deliver his formal address. At the same session Dr. F. Scott McBride, general superintendent of the league, will give his observations, after having visited every State of the Union except one. Wayne B. Wheeler will discuss the situation at Washington. Dr. Ernest H. Cherrington, general secretary of the World League against Alcoholism will speak on the anti-alcohol movement in the various countries of the world. One of the most stirring and inspiring parts of the programme of the convention will be the memorial address for Dr. P. A. Baker, to be delivered by Dr. Howard H. Russell, the founder of the Anti-Saloon League.

In speaking of existing conditions and the phase of the Anti-Saloon League's leaders for the future the official call for the convention says: "They are now ready to formulate a national enforcement policy as decisive as the Anti-Saloon League programme which resulted in the adoption of the Eighteenth Amendment. Driven to desperation by the increasing effectiveness of enforcement and the influence of prohibition-benefits upon public opinion, the wet forces have issued a flood of propaganda planned to destroy public faith in the Eighteenth Amendment. The time has come to start a nation-wide constructive campaign, that will effectively silence the defamers of the Eighteenth Amendment."

**To Moderate In Call
For Permanent Minister**

At the Presbyterian service held Sunday morning in the Opera House, Rev. Mr. MacVicar, the presiding minister announced the holding of a Congregational meeting on Wednesday, Nov. 11th, to take action to moderate a call for a permanent minister. The announcement was from Rev. F. G. Mackintosh, interim-moderator. Next Sunday evening, Presbyterian service will be held in the Opera House at 7 o'clock, when Rev. Dr. Stevenson, formerly of Edinburgh, Scotland will be the minister. Dr. Stevenson comes to Newcastle highly recommended as a scholar and preacher and is a widely traveled and well-informed divine. He was at one time a missionary to the South Sea Islands and has been minister of Presbyterian Churches, not only in Scotland but in almost every part of the British Empire.

**ST. THOMAS COLLEGE
AND NEWCASTLE
HIGH PLAYED TIE**

St. Thomas College and Newcastle High School played to a 3-3 tie in a regular fixture of the Northern Inter-scholastic Rugby League played on the college campus Wednesday afternoon. E. Walling handled the whistle. Neither side scored during the first half. In the second half the visitors made a try but failed to convert. With about five minutes to go the Chatham team secured a try tying the score. The next league game is on Saturday when the St. Thomas team will play in Newcastle.

THE NEXT WAR.

Towards the end of the war bombs weighing more than 400 pounds were dropped from Allied airplanes, and the destructive effect was enormous. Today war planes are being constructed capable of carrying bombs weighing 4,000 pounds, each containing a ton of high explosives, and the limit has by no means been reached. The American Ordnance Department, which has been experimenting in these matters at the army proving ground a few miles from Baltimore, has decided that still larger bombs may be used as more powerful planes are constructed. One of the difficulties is that the release of a projectile weighing two tons causes an air-plane instantly to jump vertically upward from 15 to 20 feet. A Washington dispatch dealing with the army experiments in question tells of special railway mounts for the heavier types of artillery and contains this interesting paragraph: "The latest railway mount carries either a fourteen-inch gun capable of throwing a 1500-pound projectile 40,000 yards. With over 300,000 miles of railway in the United States, there would be a great field for the use of railway artillery in the event of the war in North America."

**Home Brew
Models New
Fully Equipped**

Atlantic City, N. J., Oct. 27.—The most staple items now on the shelves of hardware dealers are home brew accessories. Charles H. Williams, of Streator, Ill., told delegates to the American Hardware Manufacturers' Association's convention here. "I have never seen anyone whose personality was improved by alcohol," the speaker said, "but the home brew accessory trade has become a staple in our town as well, and it has replaced our saloon accessory trade." He said that when he first went into business shopkeepers stole rum and knives, and later boxing gloves, but that now the most stolen items were home brew accessories.

**Situation in
East Serious**

London, Oct. 28.—Lack of current news from Damascus tends to encourage acceptance of rumors from Arab sources that many heretofore

PERSONALS

Mr. Tom Herbert of Bangor Me., is visiting friends in Newcastle.
Mr. Billy Ronan and Rex Murray left last week for Boston, Mass.
Mr. Whitfield Vye returned from the West on Saturday.
Miss Bernette Keating spent the week end in Halcumb.
Mr. and Mrs. W. H. Davidson have returned from their honeymoon and have taken up residence in town.
Huxley White returned from Detroit, Mich., where he spent an enjoyable vacation.
Miss Margaret Davidson of Moncton is visiting Miss Kathleen Richards.
Mr. David Ritchie was confined to his home last week suffering from a heavy cold.
Mrs. J. C. Demers entertained a number of her friends last Tuesday afternoon to a delightful tea.
Mrs. Fred Uncles entertained a number of her daughter Jean's friends on Saturday afternoon.

Miss Margaret Pringle, R. N. Supt. Fredericton Hospital, is the guest of Miss Reta Maltby.
Mrs. Charles Sargeant, of Nelson was a visitor to St. John last week and while in the city was a guest at the Royal Hotel.

Mrs. Janie Bell and grandson, Winston Miller, left last week for Montreal, where they will reside in future.
Mrs. R. R. Bate and infant son, John Redvers of Sault Ste. Marie, Ont., are visiting Rev. W. J. and Mrs. Bate.

R. F. Cotter, of the Moncton branch of the Royal Bank of Canada is supplying for a few weeks in the local branch.

Mrs. Lester Jeffrey and little daughter Winnifred have returned from a pleasant visit to relatives in Lawrence, Mass.

Mr. J. P. MacRae, of Montreal, a former manager of the local branch of the Royal Bank of Canada, is spending a few days in town.

Mrs. N. N. McLeod, has recently returned from a pleasant visit to Charlottetown and Montague, P. E. Island.

Mrs. Sidney Coder very pleasantly entertained her friends to a delightful bridge of six tables on Wednesday, in honor of her sister Miss Helen V. Forester of Los Angeles.

Miss Jean Cassidy entertained a number of her young friends at a delightful Halloween party given at the home of her parents Mr. and Mrs. R. B. Cassidy on Saturday evening.

Mrs. K. Moore, of Sydney, N. S. is in Newcastle and surrounding districts in the interest of the W. M. S. (E. D.) of the Presbyterian Church in Canada.

peaceful natives have joined marching bands in the neighborhood of Damascus, thereby adding to the seriousness of the situation.

It is rumored that the Beirut-Damascus railroad has been cut and had a French cotman has been isolated by the Druse tribesmen, but there is no means at present of verifying this report.

The question whether the League of Nations is going to intervene in any manner in the Syrian trouble continues to be asked here. So far as can be ascertained, no steps have yet been taken by the league. The disturbed state of the French mandated territory in Syria seems to have been brought to the notice of the league as long ago as the end of September by Soultan Faisal, Amir, chief of the Druse movement, who though Emir Cheik Arsham, asked the league to put an end to the hostilities and send an expedition to enquire into the situation. This appeal, according to the Westminster Gazette, has received no reply.

OBITUARY

ALLAN A. M. SAUNDERS.
The death of Allan A. M. Saunders occurred suddenly at his home, The Valley, Kirkwood, Monday, Oct. 28th, at the age of 77 years. His wife, Ethel Henderson, died 23 years ago. Mr. Saunders, son of the late Alexander Saunders, was born at the old Saunders residence, which was erected in this year 1804. In his earlier years he conducted farming and milling operations. For many years he was a prominent figure in the community, having been a justice of the peace and county councillor. He is survived by three daughters, Mrs. Percy Keith, of Havelock, N. B., Mrs. Bert Clarke, of Morris Mills, Ont., and Miss Janie, at home; and four sons, Frank, Alexander, Earl and Odell all at home. One sister, Miss Katherine Saunders, also survives. The services, which were conducted by Rev. W. J. Bate, of Newcastle, were held at the house, interment being made at the adjacent Saunders burial ground. Mrs. Alexis Danville, of Chatham, presided at the organ. The funeral was largely attended, the pall-bearers being Gregory Henderson, J. J. Clarke, John Betts, Michael Monahan, William Carnahan and Lambert Flett.

MRS. D. MANDERSON.
The sudden death of Mrs. David Manderson, formerly Miss McLean, of Whitneyville, occurred recently at the home of her daughter, Mrs. Wm. Dutcher, where she went to spend a few days. She was 79 years of age and is survived by two daughters, Mrs. Wm. Dutcher, of Newcastle, and Mrs. A. Burns, of Bangor, Me., and one son, Joseph, with whom she made her home. The funeral was held from the home of her son, Joseph Manderson, to the Anglican cemetery, Rev. W. J. Bate officiating.

ALFRED J. MORRISON
The death occurred early Friday morning October 9th, at his home in Burnt Church, of Alfred J. Morrison from diabetes. Deceased, who was unmarried was 53 years of age and is survived by his father, Peter Morrison, who was Light-keeper at Portage Island for thirty-one years; also one brother and four sisters—Francis J. and Miss Clara at home, Mrs. John Leggie, Burnt Church, Mrs. Walter Donaghy in Connecticut and Mrs. Robert Leggie of New Jersey.

MRS. LETTA HOSFORD
Newcastle, N. B. Oct. 26.—After a long painful illness, Letta Hosford, in her 76th year, wife of William Hosford, passed away at Trout Brook Settlement. The funeral was held on Sunday afternoon being attended by practically the whole of the residents in the settlement, the service being held in the United Church there. The Rev. R. M. Brodie preached the sermon and officiated at the grave.

**Car Overturns But
None Badly Hurt**
T. H. Whalen, B. C. L., his wife and son; Deputy Sheriff Doran, his wife; and Mrs. Duna narrowly escaped serious injury Sunday, Oct. 25th, when Mr. Whalen's sedan skidded on the wet road at Oyster River and turned completely over. None of the occupants was badly injured. Sheriff Doran received a few minor injuries to his foot, and one of the ladies had her hand cut by flying glass. The two front wheels of the car and both fenders were demolished, but with the arrival of two new wheels the car returned home under its own power.

Church Union Vote Of Congregation Is Null And Void

In the Supreme Court Tuesday, in the Kennetcook Church Union case, a consent order for judgment was given by His Lordship Chief Justice Harris, and the plaintiffs were John White, James and George White, of Kennetcook, and the defendants named Rev. Gordon Robertson, John McCullough, Everett White, Tennyson Antony, Fred Roulston, Wentworth Forbes, Fred Scott, Benjamin Mackenzie, James McG. Antony and Edgar Antony. The issue was as to a vote on Church Union, plaintiffs claiming to have been deprived of such with the result that the poll was favorable to Church Union.

According to order Tuesday, upon reading the statement of claim and it appearing no defence was filed or delivered and upon hearing by court regarding what was alleged, it is declared:

That a certain vote taken by the members of the Presbyterian Church from 2nd April to 15th April, 1922 under the provision, is null and void.

That all proceedings taken by the congregation under the provisions of the Act are null, void and of no effect.

That plaintiffs were entitled to object to the said poll, and

That all members of the congregation in full communion were and are entitled to vote at all meetings of the congregation held under the provision of chap. 100 of the Statutes of Canada, 1924.

It is ordered that defendants, Rev. Gordon Robertson, John McCullough, Everett White and Tennyson Antony proceed to summon a meeting of the members of the congregation, under the provision sec. 8 of the Statutes of Canada, 1924, to determine whether said amalgamation shall enter the union of churches; that defendants pay plaintiffs their costs, so taxed, plaintiffs to have judgment for amount of said costs.

Your Child's SKIN SOON MADE HEALTHY

MAYBE it's just a tiny inflamed spot or a patch of rash, soreness or irritation—but the danger is there. Eczema, ringworm and other dreaded skin and scalp disease all start in a small way.

To save your child from pain and disfigurement, treat every skin trouble promptly with Zam-Buk. This famous balm soothes tender skin and removes soreness and inflammation quickly and completely.

For healing chafed, burnt, bruised, sore, or lacerated skin, Zam-Buk is always safe and best, because it is over 99% herbal origin. The wise mother keeps Zam-Buk always handy.

Zam-Buk
 The Best Healer for all Sores, Rashes & Irritations

Boy Will Live With a Bullet In His Brain

Halifax, N. S., Oct. 26—Harold Hopkins, 16, Bedford youth, who was shot in the head by accidental discharge of a 22 calibre rifle last Wednesday, will live in spite of the fact that a piece of the bullet is lodged in his brain, according to the statement of physicians at the Victoria General Hospital last night. The bullet entered the boy's left eye and separated into three sections, two pieces remaining under the forehead and the third following the scalp around to the back of his head, where, according to physicians it lodged in the brain. For a time the boy's life was despaired of the location of the bullet making it impossible to operate, but he regained consciousness and last night was said to be recovering his normal health.

Here and There

Between 29,000 and 25,000 men are expected to work in the forests of the Province of Quebec during the coming winter, according to the chief forester of the province. It is anticipated there will be a good season in the pulp and paper products, but that the cut of lumber will not be so heavy owing to the low price prevalent for sawn lumber.

Cordial relations between the ports of Quebec and Liverpool were emphasized recently by the exchange of cables by the respective Chief Magistrates of the two cities. The occasion was the Civic Week Celebration at Liverpool when the Lord Mayor, Thomas Dowd, sent Mayor Joseph Samsom, of Quebec, greetings to which the latter responded.

A record for October weddings was established at the Windsor Station, Montreal, early in that month, when twenty couples invaded the Concourse on their way to Boston, Quebec, Ottawa and Toronto. Two of the bridegrooms were bounced following time-honored custom. It used to be the fashion to subject brides to this usage, but since the advent of short skirts the practice has been frowned upon.

Establishing what is easily a world record for movement of wheat, grain poured into Fort William and Port Arthur elevators at the rate of nearly thirty bushels a second for the whole of the 24 hours of October 5, from Canadian Pacific Railway cars. In all, 1,704 cars were unloaded during the day and each carries an average load of 1,500 bushels, representing a total of 2,556,000 bushels.

Driving into stationary trains on level crossings seems to be a favorite sport on the part of a number of motorists judging by reports coming in recently from different sections. The latest is from Galt, where an automobile, in broad daylight, ran into a freight train consisting of 18 loaded and 15 empty cars standing in plain view on a crossing. Fortunately no one was hurt, but the instance is another of gross carelessness on the part of motorists.

The Grand Challenge Cup, emblematic of the First Aid championship of the entire system of the Canadian Pacific Railway, was won by the Weston Shops team, of Winnipeg, champions of the West, against McAdam, N.B., team, champions of the East and last year's winners, after a searching test of the two teams conducted at the Place Viger Hotel, Montreal, recently. The margin between the two teams was so narrow as to be in doubt to the last moment. Weston took 507 points out of a possible 672 and McAdam had 499.

Tourist traffic development throughout Canada has reached such proportions as to equal the value of a fairly good wheat crop, and such development has only just begun, is the opinion of Colonel Phil. Moore, of Yoho Valley, B.C., interviewed recently. He thought that an estimate of three hundred million dollars spent by tourists annually in Canada was not too high. Growth of interest in the Canadian Rockies was very noticeable and although the majority of tourists there were Americans, yet Canadians, too, were beginning to discover them, said the Colonel.

POULTRYMEN

MAY TOUR

Prof. F. C. Elford, Chief of the poultry division of the Federal agricultural department at Ottawa, was the Canadian representative at the World's Poultry Congress at Barcelona, Spain in 1924 and was instrumental in persuading the congress to meet at Ottawa in 1927. He says that several hundred poultrymen from New England will travel to Ottawa by motor car to attend and he is anxious to have them first visit the Maritime Provinces. He says that the delegates from foreign countries are to be taken hold of by railway companies at the close of the Congress and given a slight scenic trip to Western Canada. If the Maritime people get busy in the meantime Prof. Elford thinks there is no good reason why an eastern trip for the visitors should not be arranged.

In regard to the delegation from the Eastern States Prof. Elford hopes to have a number proceed to Yarmouth N. S., from Boston by boat, taking their autos along. He would then have them motor through the Annapolis Valley and then cross to Prince Edward Island by way of Pictou, returning to the mainland by way of Cape Tormentine. They would then motor to Saint John, where they would be joined by another American contingent which would motor in by way of St. Stephen. After taking in the sights of St. John the party would motor to Fredericton, visit the experimental Station and then proceed up river en route to Quebec and Ottawa. The Professor who has travelled extensively both in America and Europe, is particularly anxious that the visitors should see the St. John Valley between Fredericton and Woodstock, the scenic attractions of which he declares are beyond comparison. He says that if the governments of the Maritime Provinces, as well as the civic authorities and Boards of Trade interest themselves in the matter the attractions of the Maritime Provinces will come in for a whole lot of desirable publicity.

POSTAGE ON PAPERS. The attention of the public is drawn to the fact that newspapers mailed to places outside of Canada, United States, Mexico, Great Britain and certain British possessions, are subject to postage rates of two (2) cents for each two (2) ounces or fraction thereof, and cannot be forwarded unless fully prepaid. The Post Office is receiving large numbers of short-paid newspaper packages addressed to foreign countries and to British possessions to which a lower rate is not applicable, which cannot be forwarded owing to the new regulations governing this class of matter, and the public is therefore asked to be sure to have correct postage placed on newspapers when same are mailed.

Sixty-Four Inch Spread of Moosehorns

record spread of moose horns

annually killed in New Brunswick during the big game season of 1925 to date, appeared last week at Crown Land Office, when the owner came home by motor stopped to show his trophy to Chief Game Ward J. A. Gannon. The chief moose horns measured 64 inches.

The horns were the property of an Antwerp, Me., named Rogers who is in the hotel business. He shot the moose on the Northwest Miramichi with Peter Clark of Seville as guide. The horns are now being taken across the border by Mr. Rogers. The trophy was greatly admired by those who happened to be on the spot.

Mr. Constant of Connecticut was hunting with Mr. Rogers and accompanied him.

Come on'er of CP.S.S. Melita

Shot to Death

Captain A. H. Clews, commander of the Canadian Pacific liner Melita, was shot and killed in his cabin on the Melita at Antwerp on Wednesday, while he slept. Thomas Towers, first officer was arrested, charged with the murder, and was handed over to the British authorities at Southampton when the liner arrived there on Thursday.

Two other officers of the Melita were wounded by the captain's murderer, and are in an Antwerp hospital. They are David K. Gilmour, assistant chief engineer, and John Holiday, second engineer. Towers is said to have told the police he shot Captain Clews because the commander and other officers had tried to wreck his career.

PAIR FACE TRIAL IN NEWCASTLE

THEFT

Chief Hopkins, of Newcastle, returned from Dorchester Wednesday, where he was called as a witness against Norman Phinney and Albert Rogers in Newcastle. This morning by Chief Hopkins for stealing Wolf's confined in jail here they attempted to escape and were given a three-year term at Dorchester. They are also accused of bringing and stealing Tom scores in Shadock. A true bill was found against them by the grand jury. Because of the election their trial has been postponed until Wednesday. Several witnesses from Newcastle are to be called to Dorchester to give evidence.

Breaking New Ground in the Rockies (1) Surveying the Glacier from a neighboring peak. (2) Paul McIntyre, 19-year-old son of J. B. McIntyre, of Providence R. I., with the Swiss guide Chris Haessler, entering the newly discovered ice cave on the Illecillewaet Glacier at Glacier B. C. (3) The summit of the Illecillewaet Glacier. The fastnesses of the Rockies abound in virgin territory never touched by the foot of man and one of the latest of these to be traversed is the Illecillewaet Glacier where a new ice cave has been discovered this year of which the photo above gives a good idea. It was found by Chris Haessler, one of the Swiss guides stationed at Glacier B. C., and the ascent to it was made in September by 19-year-old Paul McIntyre, an annual visitor with his family to Glacier, the guide and W. J. Oliver of Calgary. Mr. Oliver describes the adventure as follows: "It was a glorious day, Mount Sir Donald was crowned with a circular cloud like a halo; the vegetation was at its peak and with the early morning dew the valley was filled with a delightful fragrance. After walking through massive timber we gradually emerged into jackpine, brush, and on to the tongue of the Glacier. Here were the headwaters of the Illecillewaet River winding its way down the steep valley from this huge Glacier. Our progress from this point was somewhat slower, our good trail had been left far behind; the first 1,500 feet was over rock and moraine, crossing freshets and miniature waterfalls from the ice above. As soon as we reached the ice we adjusted the grampons to our feet, these grampons are made of iron and are similar to a small bobbleigh each having 12 spikes distributed evenly over the surface and about 1 1/2 inches long. "Travelling along these huge crevasses is very thrilling, at times there was only a walking surface of 2 feet and on either side of this narrow ledge of ice were drops from 1,200 feet. Chris Haessler the Swiss Guide led the way and roped to him was Paul McIntyre and self. Our course over the ice field was continually brought to a halt on account of a huge gulch in the ice being too wide to cross, we would then have to travel either up or down until our guide could locate a place narrow enough to cross. Finally we located the ice cave after travelling along the base of one of these huge crevasses, it proved to be 10 feet high and 20 feet long, the sides were worn like the sands after an ebbing tide and with the strong sunlight that was coming in at its entrance these pieces of jutting ice scintillated like huge diamonds. Right in the centre across the valley, framed by this wonderful oval cave stood the Swiss Peaks and Mt. Hermit. "Leaving here we travelled on to the ice seracs near the top of the Glacier and it made the unaccustomed stand in awe to see the Swiss Guide and Paul McIntyre run around these ice columns and up and down the sides of their steep ice banks like children at play."

Local and General News.

CONGRATULATIONS.
We heartily congratulate C. E. Fish, M. P. elect, on his elevation to the House of Commons at Ottawa.

THANKSGIVING DAY.
Next Monday, November 9th, is Thanksgiving Day and will be observed as a general holiday by banks, merchants and offices.

SIGN OF WINTER.
The covering for winter was placed over the fountain in the square yesterday. This is usually a fairly good sign that winter will be with us in the near future.

DANCE THANKSGIVING NIGHT.
A social dance will be held in the Town Hall, Newcastle, on Thanksgiving evening, Monday, Nov. 9th. Chaplin's Orchestra will furnish music and a good time is assured all who attend.

The C.W.L. will hold a Tea and Sale in the Assembly Hall of St. Mary's Academy on Dec. 10th—Watch for further particulars.

FIREMEN'S DANCE.
The dance held in the Town Hall last Friday evening by the Newcastle Fire Department was much enjoyed by those present. The interior of the building presented a much improved appearance, since it had been renovated and painted, and the music supplied by Chaplin's Orchestra was much appreciated.

ICE IN RIVER.
The Miramichi river was caught across with ice opposite Newcastle on Saturday morning. Further up river the ice in the river was an inch thick and navigation was seriously effected. This is an unusually early period for such a situation and in all probability navigation on the Miramichi will close much earlier this year than in previous years.

HALLOW E'EN.
Hallow E'en was quietly observed in Newcastle and surrounding districts. Apart from a few social gatherings at which the young people enjoyed themselves and a few pranks on the part of the small boys, the evening passed in a similar manner as other evenings do at this season of the year.

NATIONAL FISH DAY.
National Fish Day was observed throughout Canada on Wednesday, Oct. 28th, and County Fish Day was observed in Northumberland County on Thursday, Oct. 29th, when C. E. Fish, the Conservative candidate defeated his Liberal opponent F. M. Tweedie by over 1400 votes.

WON SCHOLARSHIP.
The Misses Quigley received word recently that Miss Margaret Callahan had won a scholarship of \$200 in connection with her studies at the University of California, Los Angeles, where she is studying for the degree of B. A. Two scholarships were offered, one of \$200 and the other of \$150, and were awarded on general standing.

SNOWBALL OPERATIONS.
In Northumberland County there is satisfaction because of the decision to operate the Snowball limits and the sawmill at Chatham. The Snowball firm because of market conditions had not carried on extensive operations for some seasons. The expectation is that the Snowballs will operate on the Tabernacle and on the Southwest Miramichi. Long lumber is to be manufactured and railroad ties also to be cut out. Chatham is said to be a total cut at the mill there which may reach ten million feet.

CLASS HOURS CHANGED.
The hours of classes in St. Mary's Church on Sunday have been changed from 8 a. m. and 10 a. m. to 9 and 11 a. m.

CONGRATULATIONS.
Mr. and Mrs. Gordon Mackay are receiving congratulations on the arrival of a son at the Miramichi Hospital on Monday Oct. 26th, and Mr. and Mrs. Leroy Dickison, a son at Miramichi Hospital on Tuesday, Oct. 27th.

PRESBYTERIAN SERVICES.
Rev. D. MacVicar of Prince Edward Island conducted the Presbyterian service in the Opera House last Sunday morning. Rev. Dr. Stevenson will be the minister, next Sunday evening at 7 o'clock. All are cordially welcome.

HALLOW E'EN PARTY.
The Pupils of Newcastle High School held an enjoyable Hallow E'en party last Friday evening in the Assembly Hall of Harkins Academy. The young people enjoyed themselves immensely. Mr. and Mrs. James Stables and Mr. and Mrs. R. W. Crocker were chaperones.

PRIVATE SALE.
I have removed my effects to the residence of Mr. Allan J. Ferguson, Newcastle, N. B. where I will continue their sale daily from 10 a. m. to 6 p. m.
42-2-Pd. MISS BELLA RUSSELL

POLITICAL MEETING.
Hon. Ivan G. Rand and Peter Hughes, K. C. addressed the electors of Newcastle in the interests of the Liberal candidate, Fred M. Tweedie, in the Empress Theatre, last Wednesday evening.

FIRE ALARM.
The Fire Department was called out Tuesday afternoon for a slight fire in the residence of Mr. Percy Gremley. The department responded quickly and soon extinguished the blaze.

SUCCESSFUL I. O. D. E. TAG DAY.
Although the weather on election day was most disagreeable, the tag day held by the I. O. D. E. for milk funds was gratifying to the members of the organization. Representatives of this philanthropic body stood at the Court House, where polling was held and solicited contributions from voters, who were exceedingly liberal and eager to assist the I. O. D. E. in the worthy work they have taken in hand.

CELEBRATED 15TH ANNIVERSARY.
About thirty-five friends of Mr. and Mrs. Harry A. Taylor invaded their home on Monday evening and tendered them a surprise party in honor of their fifteenth wedding anniversary. During the evening they were presented with a beautiful cut glass bowl, accompanied by an address, which was read by Mrs. W. H. Belyea, the presentation being made by Mrs. Walter Amy. Although taken greatly by surprise, Mr. and Mrs. Taylor replied in a pleasing manner, thanking their friends for the gift. A very pleasant evening was spent in cards and music and luncheon was served about midnight. In the wee sma' hours the guests departed, after wishing Mr. and Mrs. Taylor many more years of happiness.

Father John's Medicine
POWER OF YEARS OF SUCCESS

DIED IN MONTREAL.
John M. Flewelling, member-elect of the Legislative Assembly of New Brunswick died Saturday at the Royal Victoria Hospital, Montreal.

EARLY SKATING.
Last week, the first skating of the season was enjoyed by a large number of boys on the ice at Murphy's Pond. The ice was reported to be between one and two inches thick.

NIGHT SCHOOL.
Night School in vocational subjects starts tonight in The Newcastle High School. One hundred and nine pupils have expressed their intention to attend.

SENATOR LONGHEAD DEAD.
The death took place at Ottawa, Monday morning of Sir James A. Longhead, Conservative leader in the Senate, who has been critically ill at the Ottawa Civic Hospital for several days, suffering from pneumonia.

CARD OF THANKS.
I am very much pleased to find myself in the position, where I can truly express my appreciation of the noble work of the Electors on the 29th, ultimo.
The vote rings clear, and is undoubtedly the voice of the people, in accordance with their studied opinion, as to our Dominion's needs, at the present time—I heartily thank you all, for the confidence reposed in me, and especially wish to express to my fellow-workers, including our lady friends my profound gratitude. It will be my earnest endeavor to carry out your wishes, and in addition, to strive to further, all matters favorable to our Country's interest.
Very Respectfully,
Newcastle, Nov. 25th. C. E. FISH

FREE NIGHT CLASSES IN NEWCASTLE.
The Newcastle vocational committee plans free evening classes in the New Harkins High School. The courses will be of seven weeks' duration and will be held on Tuesday and Thursday from 7.30 to 10, beginning Nov. 3.

The probable courses and teachers follow: 1, typewriting or shorthand or both, Miss M. McCain; 2, elementary book-keeping and business practice, G. Jones; 3, home millinery, Mrs. A. H. Cole; 4, sewing, Mrs. J. Ingram; 5, foods, nutrition, etc. Miss S. Hayes; 6, general education, D. J. Gulliver. For those who wish to read and write English.
Any of the foregoing courses, for which 10 or more apply will be offered, (maximum in typewriting 13). Any other course, if practicable, will be offered subject to the same conditions.
Courses will be open to all residents of Newcastle who are not now members of a regular class of the day school and will be free of charge. But a registration fee of \$2 will be required. This fee, however, will be refunded if attendance is satisfactory.
The High School building will be open on Oct. 30 and Nov. 2 from 7.30 to 9.30 p. m. for registration of pupils when the teachers will give any further information that may be sought.

WEDDINGS.

Maritime Provinces To Receive Special Notice at Winnipeg
"Utilization of Maritime Ports" to be One of Many Questions to Come Before Economic Conference—The Agenda.

"Utilization of Maritime Ports" will be one of the outstanding questions under discussion at the National Economic Conference to be held in Winnipeg on Nov. 16, 17 and 18. The special speaker, who will present the case of the Maritime Provinces, will be named by the Maritime Board of Trade.

The Saint John Board of Trade has also been asked to name a speaker on the question of "Federal Taxation of Municipally Owned Enterprises."

A feature of the conference will be the opening address by Sir Thomas White, former Minister of Finance, who will deal with economic matters in a broad way, touching the country as a whole.

It is planned to have as many representatives from the three Maritime Boards of Trade as is possible.

THE AGENDA.
Following is the agenda as received by the Local Board of Trade:
Monday, Nov. 16—11 a. m. to 1 p. m., registration of delegates, appointment of chairman, addresses of welcome, Premier Bracken, of Manitoba, and Mayor R. H. Webb, of Winnipeg; appointment of committees, etc. 2.30 p. m. to 4 p. m., "Canada's Present National and Economic Position," Sir Thomas White, Toronto. 4 p. m. to 5 p. m., "Immigration and Colonization—Our need and Our Prospects," by J. M. Imrie, first vice-president Edmonton Board of Trade; discussion. Evening free.

MARITIME CASE.
Tuesday, Nov. 17—10 a. m. to 11.30 a. m., "Utilization of Maritime Ports," nominee of Maritime boards; discussion; 11.30 a. m. to 1 p. m., "St. Lawrence Waterways Development," Brig-General C. H. Mitchell, Toronto; discussion. 2.30 p. m. to 4 p. m., "Scientific Research in Relation to Industrial and Agricultural Development," Dr. H. M. Tory, chairman Advisory Council for Scientific and Industrial Research; discussion. 4 p. m. to 4.30 p. m., "Commercial Arbitration," George Henderson, Montreal Board of Trade; discussion. 4.30 p. m. to 5.30 p. m., "Customs Regulations for the Prevention of Smuggling," Paul Joubert, president, the Montreal Chambre de Commerce; discussion. Evening free.

Wednesday, Nov. 18—10 a. m. to 11.30 a. m., "National Economy and Taxation," nominee of Winnipeg Board of Trade; discussion. 11.30 a. m. to 1 p. m., "Trade Development," (a) Promotion of Inter-Provincial Trade; (b) Trade Within the Empire; (c) Developing Our Foreign Trade. Nominee of Vancouver Board of Trade; discussion. 2.30 p. m. to 4 p. m., "Consideration of Formation of Dominion Board of Trade," A. O. Dawson, president Montreal Board of Trade; discussion.

SAINT JOHN HONORED.
4 p. m. to 4.30 p. m., "Federal Taxation of Municipally Owned Enterprises," nominee Saint John Board of Trade; discussion. 4.30 p. m. to 5.30 p. m., "Celebration of the Sixtieth Anniversary (Diamond Jubilee) of Confederation in 1927," R. G. Perse, president Winnipeg Board of Trade; discussion. Evening 8 p. m., banquet tendered by the Winnipeg Board of Trade.

In addition to the above provisions will have to be made for other matters likely to arise from the conference of Maritime Boards of Trade being held this month to consider what matters affecting the Maritimes shall be submitted to the National Conference.

SISTER OF LORD BEAVERBROOK IS BETROTHED
LONDON, Oct. 25—The engagement of Douglas Munroe Ramsay, of Bowland and Stow, Midlothian, Scotland, and Laura Katharine Aitken, youngest sister of Lord Beaverbrook, has just been announced. D. M. Ramsay, who was born in Toronto, is the son of a former president of the Imperial Bank of Canada and has lived in Scotland for some years. Miss Aitken is a graduate of the University of Toronto. She lives in Canada, but spends the winter months in the south of France every year. After their marriage they will reside in Scotland.

AUTOS CRASH
On Sunday afternoon, two cars belonging to James Robinson, of Millerton and A. B. Torrie of Moncton, crashed into each other on the tarred road near the Murdoch farm. Both cars were badly smashed and had to be towed away. The occupants were badly shaken up but no serious injuries were sustained.
